TERRA NOVA CORPORATION ANNOUNCES OVER 90% OF MASS FINANCIAL CORP SHARES TENDERED

- Expiry of Tender Offer for all of the shares of Mass Financial Corp. -

NEW YORK (November 9, 2010) . . . Terra Nova Royalty Corporation (NYSE: TTT) (“Terra Nova”) is pleased to announce the expiry of its offer to acquire all of the class A common shares of Mass Financial Corp. (“Mass”) (Vienna Stock Exchange symbol: MASS) (OTC Pink Sheets: MFCAF) through a wholly-owned subsidiary (the “Offer”). The preliminary tabulation received by Terra Nova from the depository for the Offer indicates that, as of the expiry of the Offer, the number of Mass shares tendered under the Offer, along with Mass shares already held by Terra Nova prior to the Offer, shall result in Terra Nova owning in excess of 90% of the outstanding shares of Mass.

All conditions of the Offer have either been satisfied or waived, and Terra Nova intends to accept all tendered Mass shares. Terra Nova currently plans to complete its acquisition of Mass by effecting a compulsory acquisition of the Mass shares not tendered under the Offer pursuant to applicable laws and, subsequently causing the amalgamation of Mass with a wholly-owned subsidiary of Terra Nova.

Forward-Looking Statements

This document contains statements which are, or may be deemed to be, "forward-looking statements" which are prospective in nature. Forward-looking statements are not based on historical facts, but rather on current expectations and projections about future events, and are therefore subject to risks and uncertainties which could cause actual results to differ materially from the future results expressed or implied by the forward-looking statements.

Often, but not always, forward-looking statements can be identified by the use of forward-looking words such as "plans", "expects" or "does not expect", "is expected", "scheduled", "estimates", "forecasts", "intends", "anticipates" or "does not anticipate", or "believes", or variations of such words and phrases or statements that certain actions, events or results "may", "could", "should", "would", "might" or "will" be taken, occur or be achieved. Such statements are qualified in their entirety by the inherent risks and uncertainties surrounding future expectations. Such forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of Terra Nova to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Important factors that could cause actual results, performance or achievements of Terra Nova to differ materially from the expectations of Terra Nova include, among other things, general business and economic conditions globally, commodity price volatility, industry trends, competition, changes in government and other regulation, including in relation to the environment, health and safety and taxation, labor relations and work stoppages, changes in political and economic stability, the failure to meet certain conditions of the offer and/or the failure to obtain the required approvals or clearances from regulatory and other agencies and bodies on a timely basis or at all, the inability to successfully integrate Mass's operations and programs with those of Terra Nova, incurring and/or experiencing unanticipated costs and/or delays or difficulties relating to integration of Mass, disruptions in business operations due to reorganization activities and interest rate and currency fluctuations. Such forward-looking statements should therefore be construed in light of such factors.

Other than in accordance with its legal or regulatory obligations, Terra Nova is not under any obligation and Terra Nova expressly disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.
