(State or other jurisdiction of
incorporation or organization)

31-0595760
(I.R.S. Employer
Identification Number)

1221 Broadway, Oakland, California 94612-1888
(Address of principal executive offices) (ZIP code)

(510) 271-7000
(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

<u>Title of each class</u>	<u>Name of each exchange on which registered</u>
Common Stock—\$1.00 par value	New York Stock Exchange

Securities registered pursuant to Section 12(g) of the Act:

None
(Title of class)

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes . No .

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes . No .

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes . No .

[Table of Contents](#)

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes . No .

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§229.405 of this chapter) is not contained herein, and will not be contained, to the best of registrant’s knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K. .

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of “large accelerated filer,” “accelerated filer” and “smaller reporting company” in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes . No .

The aggregate market value of the registrant’s common stock held by non-affiliates as of December 31, 2013 (the last business day of the registrant’s most recently completed second quarter) was approximately \$11.9 billion.

As of July 31, 2014, there were 128,845,437 shares of the registrant’s common stock outstanding.

Documents Incorporated by Reference:

Portions of the registrant’s definitive proxy statement for the 2014 Annual Meeting of Stockholders (the “Proxy Statement”), to be filed within 120 days after June 30, 2014, are incorporated by reference into Part III, Items 10 through 14 of this Annual Report on Form 10-K.

PART I

This Annual Report on Form 10-K for the fiscal year ended June 30, 2014 (this Report), including the exhibits hereto and the information incorporated by reference herein, contains “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended (the Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act), and such forward-looking statements involve risks and uncertainties. Except for historical information, matters discussed below, including statements about future volume, sales, costs, cost savings, earnings, cash flows, plans, objectives, expectations, growth or profitability, are forward-looking statements based on management’s estimates, assumptions and projections. Words such as “will,” “could,” “may,” “expects,” “anticipates,” “targets,” “goals,” “projects,” “intends,” “plans,” “believes,” “seeks,” “estimates” and variations on such words, and similar expressions, are intended to identify such forward-looking statements. These forward-looking statements are only predictions, subject to risks and uncertainties, and actual results could differ materially from those discussed below. Important factors that could affect performance and cause results to differ materially from management’s expectations are described in the sections entitled “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in this Report, as updated from time to time in the Company’s U.S. Securities and Exchange Commission (SEC) filings.

The Company’s forward-looking statements in this Report are based on management’s current views and assumptions regarding future events and speak only as of their dates. The Company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by the federal securities laws.

In this Report, unless the context requires otherwise, the terms “the Company” and “Clorox” refer to The Clorox Company and its subsidiaries.

ITEM 1. BUSINESS

Overview of Business

The Clorox Company is a leading multinational manufacturer and marketer of consumer and professional products with approximately 8,200 employees worldwide as of June 30, 2014, and fiscal year 2014 net sales of \$5.6 billion. Clorox sells its products primarily through mass retail outlets, e-commerce channels, distributors, and medical supply providers. Clorox markets some of the most trusted and recognized consumer brand names, including its namesake bleach and cleaning products, Kingsford[®] charcoal, Pine-Sol[®] cleaners, Liquid-Plumr[®], Poett[®] home care products, Fresh Step[®] cat litter, Glad[®] bags, wraps and containers, Hidden Valley[®] and KC Masterpiece[®] dressings and sauces, Brita[®] water-filtration products and Burt's Bees[®] natural personal care products. The Company also markets brands for professional services, including Clorox Healthcare[®] and Dispatch[®] infection control products for the healthcare industry. The Company manufactures products in more than a dozen countries and markets them in more than 100 countries. More than 80% of the Company's brands hold the No. 1 or No. 2 market share positions in their categories. The Company manufactures products in more than a dozen countries and markets them in more than 100 countries. The Company was founded in Oakland, Calif., in 1913 and is incorporated in Delaware.

The Company's strategy is focused on creating stockholder value by investing in new and existing sales channels and countries with profitable growth potential and attractive categories. In particular the Company continues to reshape its portfolio toward businesses aligned with consumer megatrends in the areas of health and wellness, sustainability, consumer fragmentation and affordability/value.

In fiscal year 2014, the Company introduced its 2020 Strategy, its strategic growth plan, which focuses on long-term, profitable growth and strong stockholder returns through the year 2020. These long-term financial goals include annual net sales growth of 3-5%, market share growth, annual EBIT margin growth between 25-50 basis points and annual free cash flow as a percentage of net sales of about 10-12%. The Company faced a difficult environment in fiscal year 2014, including unfavorable foreign exchange rates, soft categories in U.S. retail and increased competitive activity. To address these challenges the Company introduced line extensions, new products and product improvements, including Clorox[®] Smart Seek[™] bleach, which brightens white areas of mostly white striped or patterned clothes; Clorox[®] disinfecting wipes for glass and tub and shower, which expand the use of wipes into new areas of the home; Liquid-Plumr[®] hair clog eliminator; Clorox[®] Fraganzia[™] scented bleach, which offers fresh new scents combined with splash-less technology; and Burt's Bees[®] facial towelettes and lip crayons. In addition, the Company continued to expand its professional products business through product innovation and partnerships, including finalizing a partnership to offer ultraviolet technology for professional healthcare surface disinfection. Internationally, the Company focused on the expansion of its Burt's Bees[®] brand, which continued its strong growth, and expanded its adjacent countries in various locations, including the Middle East and North Africa. In fiscal year 2014, the Company repurchased approximately three million shares of its common stock for \$260 million, returned \$368 million in dividends to stockholders and announced a 4% increase in its quarterly dividend payable in August 2014.

Finally, the Company continued its commitment to corporate responsibility by maintaining strong, transparent governance practices and continuing to reduce its greenhouse gas emissions, water and energy use and waste to landfills. The Company was also recognized as one of the most responsible companies by Corporate Responsibility magazine and one of the greenest companies in the 2014 Newsweek Green Rankings. In fiscal year 2014, The Clorox Company Foundation awarded approximately \$4 million in cash grants, and the Company made product donations valued at approximately \$9 million and contributed another \$1 million to deserving nonprofits through cause marketing programs for social and charitable causes.

For additional information on recent business developments, refer to the information set forth under the caption "Executive Overview" in "Management's Discussion and Analysis of Financial Condition and Results of Operations," on page 1 of Exhibit 99.1 hereto, incorporated herein by reference.

Financial Information About Operating Segments and Principal Products

The Company operates through strategic business units that are aggregated into four reportable segments: Cleaning, Household, Lifestyle and International. The four reportable segments consist of the following:

- *Cleaning* consists of laundry, home care and professional products marketed and sold in the United States. Products within this segment include laundry additives, including bleach products under the Clorox[®] brand and Clorox 2[®] stain fighter and color booster; home care products, primarily under the Clorox[®], Formula 409[®], Liquid-Plumr[®], Pine-Sol[®], S.O.S[®] and Tilex[®] brands; naturally derived products under the Green Works[®] brand; and professional cleaning and disinfecting products under the Clorox[®], Dispatch[®], Aplicare[®], HealthLink[®] and Clorox Healthcare[®] brands.
- *Household* consists of charcoal, cat litter and plastic bags, wraps and container products marketed and sold in the United States. Products within this segment include plastic bags, wraps and containers under the Glad[®] brand; cat litter products under the Fresh Step[®], Scoop Away[®] and Ever Clean[®] brands; and charcoal products under the Kingsford[®] and Match Light[®] brands.
- *Lifestyle* consists of food products, water-filtration systems and filters and natural personal care products marketed and sold in the United States. Products within this segment include dressings and sauces, primarily under the Hidden Valley[®], KC Masterpiece[®] and Soy Vay[®] brands; water-filtration systems and filters under the Brita[®] brand; and natural personal care products under the Burt's Bees[®] brand.
- *International* consists of products sold outside the United States. Products within this segment include laundry, home care, water-filtration, charcoal and cat litter products, dressings and sauces, plastic bags, wraps and containers and natural personal care products, primarily under the Clorox[®], Javex[®], Glad[®], PinoLuz[®], Ayudin[®], Limpido[®], Clorinda[®], Poett[®], Mistolin[®], Lestoil[®], Bon Bril[®], Nevex[®], Brita[®], Green Works[®], Pine-Sol[®], Agua Jane[®], Chux[®], Kingsford[®], Fresh Step[®], Scoop Away[®], Ever Clean[®], KC Masterpiece[®], Hidden Valley[®] and Burt's Bees[®] brands.

Three of the Company's product lines have accounted for 10% or more of consolidated net sales during each of the past three fiscal years. In fiscal years 2014, 2013 and 2012, sales of liquid bleach represented approximately 13%, 14% and 14% of the Company's consolidated net sales, respectively, approximately 26%, 26% and 26% of net sales in the Cleaning segment, respectively, and approximately 27%, 28% and 27% of net sales in the International segment, respectively. Sales of trash bags represented approximately 13% of the Company's consolidated net sales in each of the fiscal years 2014, 2013 and 2012, approximately 36%, 37% and 35% of net sales in the Household segment, respectively, and approximately 8%, 10% and 10% of net sales in the International segment, respectively. Sales of charcoal represented approximately 11%, 10% and 11% of the Company's consolidated net sales and approximately 34%, 32% and 35% of net sales in the Household segment in fiscal years 2014, 2013 and 2012, respectively.

Table of Contents

Information about the results of each of the Company's reportable segments for the last three fiscal years and total assets as of the end of the last three fiscal years, reconciled to the consolidated results, is set forth below. For additional information, refer to the information set forth under the caption "Segment Results from Continuing Operations" in "Management's Discussion and Analysis of Financial Condition and Results of Operations," on page 7 of Exhibit 99.1 hereto.

(Dollars in millions)	Fiscal						Total
	Year	Cleaning	Household	Lifestyle	International	Corporate	Company
Net sales	2014	\$ 1,776	\$ 1,709	\$ 936	\$ 1,170	\$ -	\$ 5,591
	2013	1,783	1,693	929	1,218	-	5,623
	2012	1,692	1,676	901	1,199	-	5,468
Earnings (losses) from continuing operations before income taxes	2014	428	326	258	76	(227)	861
	2013	420	336	259	96	(258)	853
	2012	381	298	265	119	(272)	791
Total assets	2014	887	745	869	1,190	567	4,258
	2013	905	799	878	1,202	527	4,311
	2012	942	818	887	1,219	489	4,355

Principal Markets and Methods of Distribution

In the United States, most of the Company's products are nationally advertised and sold to mass merchandisers, warehouse clubs, and dollar, military and other types of retail stores primarily through a direct sales force, and to grocery stores and grocery wholesalers primarily through a combination of direct sales teams and a network of brokers. The Company sells institutional, janitorial, and food-service versions of many of its products through distributors, and sells healthcare products through a direct sales force and medical supply providers. Outside the United States, the Company sells products to the retail trade through subsidiaries, licensees, distributors and joint-venture arrangements with local partners. Additionally, the Company sells many of its products through online retailers and sells its Burt's Bees[®] natural personal care products directly to consumers online.

Financial Information About Foreign and Domestic Operations

For detailed financial information about the Company's foreign and domestic operations, including net sales and property, plant and equipment, net, by geographic area, see Note 19 – *Segment Reporting* of the Notes to Consolidated Financial Statements beginning on page 61 of Exhibit 99.1 hereto.

Sources and Availability of Raw Materials

The Company purchases raw materials from numerous unaffiliated domestic and international suppliers, some of which are sole-source or single-source suppliers. Interruptions in the delivery of these materials could adversely impact the Company. Key raw materials used by the Company include resin, diesel, sodium hypochlorite, corrugate and agricultural commodities. Sufficient raw materials were available during fiscal year 2014 but costs for many materials continued to increase amid volatility and inflation in some key geographic and commodity markets, which the Company expects to continue in fiscal year 2015. The Company generally utilizes supply and forward-purchase contracts to help ensure availability and help manage the volatility of the pricing of raw materials needed in its operations. However, the Company is nonetheless highly exposed over the short term to changes in the prices of commodities used as raw materials in the manufacturing of its products. For further information regarding the impact of changes in commodity prices, see "Quantitative and Qualitative Disclosures about Market Risk" in "Management's Discussion and Analysis of Financial Condition and Results of Operations" on page 17 of Exhibit 99.1 hereto and "Risk Factors – Volatility and increases in the costs of raw materials, energy, transportation, labor and other necessary supplies or services could harm the Company's profits" in Item 1.A herein.

Patents and Trademarks

Most of the Company's brand name consumer products are protected by registered trademarks. The Company's brand names and trademarks are highly important to its business, and the Company vigorously protects its trademarks from apparent infringements. Maintenance of brand equity value is critical to the Company's success. The Company's patent rights are also material to its business and are asserted, where appropriate, against apparent infringements.

Seasonality

Most sales of the Company's charcoal products occur in the first six months of each calendar year. A moderate seasonality trend also occurs in the net sales of the Company's Burt's Bees[®] natural personal care products, with slightly more than half of the annual net sales occurring during the months of October through March. Short-term borrowings may be used to fund inventories of those products in the off season.

Customers

Net sales to the Company's largest customer, Walmart Stores, Inc. and its affiliates, were 26% of consolidated net sales for each of the fiscal years ended 2014, 2013 and 2012 and occurred in each of the Company's reportable segments. No other customers accounted for more than 10% of consolidated net sales in any of these fiscal years. During fiscal years 2014, 2013 and 2012, the Company's five largest customers accounted for 45%, 45% and 44% of its net sales, respectively, and its ten largest customers accounted for 55% of its net sales for each of the three fiscal years.

Competition

The markets for consumer products are highly competitive. Most of the Company's products compete with other nationally advertised brands within each category and with "private label" brands. Competition comes from similar and alternative products, some of which are produced and marketed by major multinational or national companies having financial resources greater than those of the Company. Depending on the product, the Company's products compete on product performance, brand recognition, price, value or other benefits to consumers. A newly introduced consumer product (whether improved or newly developed) usually encounters intense competition requiring substantial expenditures for advertising, sales promotion and trade merchandising support. If a product gains consumer acceptance, it normally requires continued advertising and promotional support and ongoing product improvements to maintain its relative market position.

Research and Development

The Company conducts research and development primarily at its facility located in Pleasanton, Calif., which the Company has leased since 2011. The Pleasanton facility consists of approximately 357,000 square feet of leased space, utilizing state-of-the-art labs and open work spaces to encourage creativity, collaboration and innovation. In addition to the leased facility in Pleasanton, Calif., the Company conducts research and development activities in Meriden, Ct.; Kennesaw, Ga.; Willowbrook, Il.; Midland, Mi.; Durham, NC; Cincinnati, Oh.; and Buenos Aires, Argentina.

The Company devotes significant resources and attention to product development, process technology and consumer insight research to develop commercially viable consumer-preferred products with innovative and distinctive features. The Company incurred expenses of \$125 million, \$130 million and \$121 million in fiscal years 2014, 2013 and 2012, respectively, on direct research activities relating to the development of new products and/or the maintenance and improvement of existing products. In addition, the Company also obtains technologies from third parties for use in its products. Royalties relating to such technologies are reflected in the Company's cost of sales. For further information regarding the Company's research and development costs, see "Research and development costs" in "Management's Discussion and Analysis of Financial Condition and Results of Operations" on page 5 of Exhibit 99.1 hereto.

Environmental Matters

For information regarding noncapital expenditures related to environmental matters, see the discussions below under “Risk Factors – Environmental matters create potential liabilities” in Item 1.A. No material capital expenditures relating to environmental compliance are presently anticipated.

Number of Persons Employed

As of June 30, 2014, the Company employed approximately 8,200 people.

Available Information

The Company’s Annual Report on Form 10-K, Quarterly Reports on Form 10-Q and Current Reports on Form 8-K and amendments to those reports filed or furnished pursuant to Sections 13(a) or 15(d) of the Exchange Act are available on the Company’s website, free of charge, as soon as reasonably practicable after the reports are electronically filed with or furnished to the SEC. These reports are available at TheCloroxCompany.com under Investors/Financial Reporting/SEC Filings. Information relating to corporate governance at Clorox, including the Company’s Code of Conduct, the Clorox Company Board of Directors Governance Guidelines and Board Committee charters, including charters for the Management Development and Compensation Committee, the Audit Committee, the Finance Committee and the Nominating and Governance Committee, is available at TheCloroxCompany.com under Corporate Responsibility/Performance/Corporate Governance or <http://www.thecloroxcompany.com/corporate-responsibility/performance/corporate-governance>. The Company will provide any of the foregoing information without charge upon written request to Corporate Communications, The Clorox Company, 1221 Broadway, Oakland, CA 94612-1888. The information contained on the Company’s website is not included as a part of, or incorporated by reference into, this Report.

ITEM 1.A. RISK FACTORS

The risks and uncertainties set forth below, as well as other factors described elsewhere in this Report or in other filings by the Company with the SEC, could adversely affect the Company's business, financial condition and results of operations. Additional risks and uncertainties that are not currently known to the Company or that are not currently believed by the Company to be material may also harm the Company's business operations and financial results.

The Company is subject to risks related to its international operations.

In fiscal year 2014, approximately 20% of the Company's net sales were generated in international markets. The Company faces and will continue to face substantial risks associated with having foreign operations, including:

- challenges in Venezuela, where the Company's business and cash flows have been and continue to be adversely impacted by governmental restrictions such as currency exchange, price and margin controls, as well as other difficult operating conditions;
- challenges in Argentina, where the devaluation of the Argentine peso has negatively affected the Company's net sales and net earnings;
- economic or political instability, particularly in Venezuela and Argentina;
- price controls and related government actions, particularly in Venezuela and Argentina;
- foreign currency fluctuations, currency controls and inflation, which may adversely affect the Company's ability to do business in certain markets and reduce the U.S. dollar value of revenues, profits or cash flows it receives from non-U.S. markets;
- difficulty in obtaining non-local currency (e.g., U.S. dollars) to pay for the raw materials needed to manufacture the Company's products and contract-manufactured products, particularly in Venezuela and Argentina;
- restrictions on or costs relating to the repatriation of foreign profits to the United States, including possible taxes or withholding obligations on any repatriations, particularly in Venezuela and Argentina;
- the imposition of tariffs, trade restrictions, import and export laws or other government actions generating a negative impact on the Company's business;
- the possibility of nationalization, expropriation of assets or other similar government actions, particularly in Venezuela and Argentina;
- difficulties in hiring and retaining qualified local employees;
- civil unrest, work stoppages and labor disputes;
- difficulties in obtaining or unavailability of raw materials;
- increased credit risk of local customers, suppliers and distributors;
- difficulties in enforcing intellectual property and contractual rights; and
- challenges relating to enforcement of or compliance with laws.

Many of the risks described above are particularly acute in Venezuela. The operating environment in Venezuela is challenging, with high inflation, political instability, governmental restrictions in the form of currency exchange, price and margin controls and the possibility of government actions such as further devaluations, business occupations and intervention or expropriation of assets. For nearly three years, more than two thirds of the Company's products in Venezuela have been subject to price controls despite significant double-digit inflation. In addition, the foreign exchange controls in Venezuela limit the Venezuela business's ability to remit dividends and pay intercompany balances. For further information regarding Venezuela, see "*Venezuela*" in "Management's Discussion and Analysis of Financial Condition and Results of Operations" on page 9 of Exhibit 99.1 hereto.

Argentina also presents a difficult operating environment, including price controls on some of the Company's products, a devaluing currency and inflation. In addition, in July 2014, the Argentine government defaulted on debt payment agreements. For further information regarding Argentina, see "*Argentina*" in "Management's Discussion and Analysis of Financial Condition and Results of Operations" on page 11 of Exhibit 99.1 hereto.

More broadly, the risks described above could have a significant adverse impact on the Company's ability to commercialize its products on a competitive basis in international markets and may have a material adverse effect on its results of operations or financial position. For example, lower prices resulting from price controls could continue to adversely affect the Company's margins, profitability and cash flow, and make it difficult for the Company to offset other risks, such as high inflation. The Company's small sales volume in some countries, relative to some multinational and local competitors, could exacerbate such risks.

Table of Contents

In addition, the Company is exposed to foreign currency exchange rate risk with respect to its sales, profits and cash flow driven by movements of the U.S. dollar relative to other currencies. Although the Company uses instruments to hedge certain foreign currency risks, these hedges only offset a small portion of the Company's exposure to foreign currency fluctuations and, therefore, the Company's reported earnings may be affected by changes in foreign exchange rates.

Inflation is another risk associated with the Company's international operations. For example, Venezuela has been designated, for financial reporting purposes, as a highly inflationary economy, and Argentina could in the future be designated as such. Gains and losses resulting from the remeasurement of non-U.S. dollar monetary assets and liabilities of subsidiaries operating in highly inflationary economies are recorded in net earnings. Other countries in which the Company operates may also become highly inflationary or such countries' currencies may be devalued, or both, which may negatively impact the Company's operations.

The Company faces intense competition in its markets, which could lead to reduced net sales, profitability and cash flow.

The Company faces intense competition from consumer product companies both in the United States and in its international markets. Most of the Company's products compete with other widely advertised brands within each product category. The Company also faces competition from retailers, including club stores, dollar stores and mass merchandisers, which are increasingly offering "private label" brands that are typically sold at lower prices and compete with the Company's products in certain categories. During times of economic uncertainty, consumers tend to purchase more private label or other economy brands. Increased purchases of private label products could reduce sales volumes of the Company's higher-margin products or there could be a shift in product mix to lower-margin offerings.

The Company's products generally compete on the basis of product performance, brand recognition, price, value or other benefits to consumers. Advertising, promotion, merchandising and packaging also have significant impacts on consumer purchasing decisions, and the Company is increasingly using digital media marketing and promotional programs to reach consumers. A newly introduced consumer product (whether improved or newly developed) usually encounters intense competition requiring substantial expenditures for advertising, sales promotion and trade merchandising. If a product gains consumer acceptance, it normally requires continued advertising, promotional support and product improvements to maintain its relative market position. If the Company's advertising, marketing and promotional programs, including its use of digital media to reach consumers, are not effective or adequate, the Company's sales and volume may be negatively impacted.

Some of the Company's competitors are larger than the Company and have greater financial resources. These competitors may be able to spend more aggressively on advertising and promotional activities, introduce competing products more quickly and respond more effectively to changing business and economic conditions than the Company can. In addition, the Company's competitors may attempt to gain market share by offering products at prices at or below those typically offered by the Company. Competitive activity may require the Company to increase its spending on advertising and promotions and/or reduce prices, which could lead to reduced profits and adversely affect growth.

Unfavorable worldwide, regional and local economic conditions and financial market volatility may negatively impact the Company and consumers of its products, which would negatively affect the Company's financial performance and liquidity.

Although the Company continues to devote significant resources to support its brands, unfavorable economic conditions may continue to negatively affect consumer demand for the Company's products. Consumers may also be sensitive to economic uncertainty or unfavorable economic conditions and reduce discretionary spending, which may lead to reduced sales volumes or cause a shift in the Company's product mix from higher-margin to lower-margin products. Consumers may increase purchases of lower-priced or non-branded products and the Company's competitors may increase levels of promotional activity for lower-priced products as they seek to maintain sales volumes during uncertain economic times, which may negatively impact the Company's sales and volume.

Global markets continued to experience significant disruptions during fiscal year 2014, and continuing volatility, particularly in Venezuela and Argentina, could continue to harm the Company's business. Although the Company currently generates significant cash flows from ongoing operations overall and has access to global credit markets through its financing activities and existing credit facilities to meet its current needs, if the current credit conditions were to significantly worsen, the Company might not be able to access credit markets on favorable terms when needed, which could adversely affect the Company's liquidity and capital resources. Financial market volatility and unfavorable economic conditions may also adversely affect the financial condition of the Company's customers, suppliers and other business partners. If customers' financial conditions are severely affected, customers may reduce their purchases of the Company's products or the Company may not be able to collect accounts receivable, each of which could have a material adverse impact on the Company's results.

Volatility and increases in the costs of raw materials, energy, transportation, labor and other necessary supplies or services could harm the Company's profits and cash flow.

Volatility and increases in the costs of raw materials, including resin, sodium hypochlorite, linerboard, soybean oil, solvent, corrugate and other chemicals and agricultural commodities, or increases in the cost of energy, transportation, labor and other necessary supplies or services may harm the Company's profits and operating results. The Company anticipates continued commodity and other cost increases in fiscal year 2015. If such increases occur or exceed the Company's estimates and the Company is not able to increase the prices of its products or achieve cost savings to offset such cost increases, its profits and operating results will be harmed. In addition, if the Company increases the prices of its products in response to increases in the cost of commodities, and commodity costs decline, the Company may not be able to sustain its price increases. Sustained price increases may lead to declines in volume as competitors may not adjust their prices or customers may decide not to pay the higher prices, which could lead to sales declines and loss of market share. While the Company seeks to project tradeoffs between price increases and volume, its projections may not accurately predict the volume impact of price increases, which could adversely affect its financial condition and results of operations. For further information regarding the impact of changes in commodity costs, see "Quantitative and Qualitative Disclosures about Market Risk" in "Management's Discussion and Analysis of Financial Condition and Results of Operations" on page 17 of Exhibit 99.1 hereto.

To reduce the cost volatility associated with anticipated commodity purchases, the Company uses derivative instruments, including commodity futures and swaps. The extent of the Company's derivative position at any given time depends on the Company's assessment of the markets for these commodities, the cost volatility in the markets and the cost of the derivative instruments. Many of the commodities used by the Company in its products do not have actively traded derivative instruments. If the Company does not or is unable to take a derivative position and costs subsequently increase, or if it institutes a position and costs subsequently decrease, the Company's costs may be greater than anticipated or higher than its competitors' costs and the Company's financial results could be adversely affected.

Sales growth objectives may be difficult to achieve, and price increases, market and category declines and changes to the Company's product and geographic mix may adversely impact the Company's financial results.

A large percentage of the Company's revenues comes from mature markets that are subject to high levels of competition. During fiscal year 2014, approximately 80% of the Company's net sales were generated in U.S. markets. U.S. markets for cleaning products are generally characterized by high household penetration. The Company's ability to achieve sales growth depends on its ability to drive growth through innovation, investment in its established brands and enhanced merchandising and its ability to capture market share from competitors. If the Company is unable to increase market share in existing product lines, develop product improvements, undertake sales, marketing and advertising initiatives that grow its product categories and develop, acquire or successfully launch new products, it may not achieve its sales growth objectives. Even when the Company is successful in increasing sales within particular product categories, a continuing or accelerating decline in the overall markets for its products can have a negative impact on the Company's financial results.

In addition, changes to the mix of products the Company sells, as well as the mix of countries in which its products are sold, can adversely impact the Company's operating expenses, the amount of revenue and the timing of revenue recognition, which could cause its profitability and cash flow to suffer. The Company's financial outlook assumes a certain volume and product mix of sales, and if actual results vary from this projected volume and product mix of sales, the Company's operations and results could be negatively affected.

Dependence on key customers could adversely affect the Company's business, financial condition and results of operations.

A limited number of customers account for a large percentage of the Company's net sales. Net sales to the Company's largest customer, Walmart Stores, Inc. and its affiliates, were 26% of consolidated net sales for each of the fiscal years ended 2014, 2013 and 2012, and occurred in each of the Company's reportable segments. No other customers accounted for more than 10% of consolidated net sales in any of these fiscal years. During fiscal years 2014, 2013 and 2012, the Company's five largest customers accounted for 45%, 45% and 44% of its net sales, respectively, and its ten largest customers accounted for 55% of its net sales for each of the three fiscal years. The Company expects that a significant portion of its revenues will continue to be derived from a small number of customers. As a result, changes in the strategies of the Company's largest customers, including a reduction in the number of brands they carry or a shift of shelf space to "private label" or competitors' products, may harm the Company's sales and reduce the ability of the Company to bring new innovative and improved products to consumers.

In addition, the Company's business is based primarily upon individual sales orders, and the Company typically does not enter into long-term contracts with its customers. Accordingly, these customers could reduce their purchasing levels or cease buying products from the Company at any time and for any reason. If the Company does not effectively respond to the demands of its customers, they could decrease their purchases from the Company, causing the Company's sales and profits to decline. Furthermore, unfavorable market conditions or competitive pressures may cause the Company's customers to reevaluate the number and mix of brands they sell, resulting in lower purchases of the Company's products by these customers.

The Company continues to see retailer consolidation both in the United States and internationally. This trend has resulted in the increased size and influence of large consolidated retailers, who may change their business strategies, demand lower pricing or special packaging or impose other requirements on product suppliers. These business demands may relate to inventory practices, logistics, a shift in focus away from branded products toward private label or other aspects of the customer-supplier relationship. Such consolidated companies could also exert additional competitive pressure on other customers of the Company, which could in turn negatively impact the Company's sales. If the Company ceases doing business with a significant customer or if sales of its products to a significant customer materially decrease due to customer inventory reductions or otherwise, the Company's business, financial condition and results of operations may be harmed.

Government regulations could impose material costs.

Generally, the manufacture, packaging, labeling, storage, distribution and advertising of the Company's products and the conduct of its business operations must all comply with extensive federal, state and foreign laws and regulations. For example, in the United States, many of the Company's products are regulated by the Environmental Protection Agency, the Food and Drug Administration and the Consumer Product Safety Commission, and the Company's product claims and advertising are regulated by the Federal Trade Commission, among other regulatory agencies. Most states have agencies that regulate in parallel to these federal agencies. The Company's international operations are also subject to regulation in each of the foreign jurisdictions in which it manufactures or distributes its products. There is also a risk of potentially higher incidence of fraud or corruption in certain foreign jurisdictions and related difficulties in maintaining effective internal controls. Additionally, the Company could be subject to inquiries or investigations by governmental and other regulatory bodies. Any determination that the Company's operations or activities are not in compliance with the law, including the Foreign Corrupt Practices Act, could expose the Company to significant fines, penalties or other sanctions that may harm the business and reputation of the Company.

It is expected that federal, state and foreign governments will continue to introduce new and expanded legislation affecting the Company's operations. For example, the Company is subject to regulations regarding the transportation, storage or use of certain chemicals to protect the environment, including as a result of evolving climate change standards, and new and increased regulation in other areas, such as with respect to "conflict minerals." Such regulation could negatively impact the Company's ability to obtain raw materials or could increase its acquisition and compliance costs. In addition, pending legislative initiatives and adopted legislation in the areas of healthcare reform and other areas, such as the Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act of 2010, the Dodd-Frank Wall Street Reform and Consumer Protection Act and legislation in the area of taxation of domestic and foreign profits, executive compensation and corporate governance, could also increase the Company's costs. These risks may be increased by the Company's acquisitions of HealthLink and Aplicare, Inc., which manufacture products subject to additional regulations.

If the Company is found to be noncompliant with applicable laws and regulations in these or other areas, it could be subject to civil remedies, including fines, import detentions, injunctions, product withdrawals or recalls or asset seizures, as well as potential criminal sanctions, any of which could have a material adverse effect on its business. Loss of or failure to obtain necessary permits and registrations, particularly with respect to its charcoal business, could delay or prevent the Company from meeting current product demand, introducing new products, building new facilities or acquiring new businesses and could adversely affect operating results. As the Company expands its natural personal care and healthcare businesses such as through Burt's Bees[®], HealthLink[®], Aplicare[®], Caltech Industries and Clorox[®] CareConcepts[™], an increasing number of its products have and will become subject to regulations and laws relating to drugs and medical devices. In order to comply with these laws and regulations, the Company may be required to make changes to product formulation, labeling or marketing claims, perform additional testing to substantiate its product claims, make costly changes in its manufacturing processes or supply chain or stop selling certain products until corrective actions have been taken.

Reliance on a limited base of suppliers may result in disruptions to the Company's business.

The Company relies on a limited number of suppliers for certain commodities and raw material inputs, including sole-source and single-source suppliers for certain of its raw materials, packaging, product components, finished products and other necessary supplies. New suppliers may have to be qualified under governmental, industry and Company standards, which can require additional investment and time. If the Company is unable to qualify any needed new suppliers or maintain supplier arrangements and relationships, if it is unable to contract with suppliers at the quantity, quality and price levels needed for its business or if any of the Company's key suppliers becomes insolvent, experiences financial distress or environmental, economic or other outside factors impact its operations, the Company could experience disruptions in production and its financial results and relationships with customers could be adversely affected.

Profitability and cash flow could suffer if the Company is unable to successfully implement its strategies, generate anticipated cost savings and efficiencies or efficiently manage supply chain and manufacturing processes.

The Company continues to implement plans to improve its competitive position by setting aggressive annual cost savings targets, and it expects ongoing cost savings from its continuous improvement activities. The Company anticipates these continuing cost savings will result from reducing material costs and manufacturing inefficiencies and realizing productivity gains, distribution efficiencies and overhead reductions. If the Company cannot successfully implement its cost savings plans or the cost of making these changes increases, the Company may not realize all anticipated benefits, which could adversely affect its financial results. In addition, the Company establishes long-term strategies, such as the 2020 Strategy, which includes financial goals such as annual net sales growth of 3-5%, market share growth, annual EBIT margin growth between 25-50 basis points and annual free cash flow as a percentage of net sales of about 10-12%. The Company also continues to seek to penetrate new markets and introduce new products and product improvements. These goals and strategies may not be implemented or may fail to achieve desired results. In addition, the Company expects to continue to restructure its operations as necessary to improve operational efficiency, including occasionally closing facilities or plants. Gaining additional efficiencies may become increasingly difficult over time, there may be one-time costs relating to facility closures or other restructurings and anticipated cost savings and the Company's strategies may not be implemented or may fail to achieve desired results. If the Company is unable to implement its strategies or if its strategies do not achieve the intended effects, if it does not realize cost savings and other efficiencies or if it is unable to efficiently manage its supply chain and manufacturing processes, the Company's financial results could suffer. These plans and strategies could also have a negative impact on the Company's relationships with employees or customers, which could also adversely affect the Company's financial results.

Product liability, commercial claims or other legal proceedings could adversely affect the Company's sales and operating results, including cash flow.

The Company has in the past paid, and may be required in the future to pay, for losses or injuries purportedly caused by its products. Such claims may be based on allegations that, among other things, the Company's products contain contaminants or provide inadequate instructions or warnings regarding their use, or damage property or persons. Product liability claims could result in negative publicity that could harm the Company's reputation, sales and operating results. In addition, if any of the Company's products is found to be defective, the Company may recall it, which could result in adverse publicity and significant expenses. Although the Company maintains product liability insurance coverage, potential product liability claims may be subject to a retention, exceed the amount of insurance coverage or be excluded under the terms of the policies.

In addition, the Company is, and may in the future become, a party to litigation and other disputes, including advertising disputes with competitors, consumer class actions, labor claims, securities litigation and litigation in foreign jurisdictions. In general, claims made by or against the Company in litigation, disputes or other proceedings can be expensive and time-consuming to bring or defend against and could result in settlements, injunctions or damages that could significantly affect its business or financial results or condition. It is not possible to predict the final resolution of the litigation, disputes or proceedings with which the Company currently is or may in the future become involved. The impact of these matters on the Company's business, results of operations and financial condition could be material. See "Contingencies" in "Management's Discussion and Analysis of Financial Condition and Results of Operations" on page 16 and Note 11 – *Other Contingencies and Guarantees* of the Notes to Consolidated Financial Statements beginning on page 46 of Exhibit 99.1 hereto for additional information related to these matters, including litigation related to its discontinued operations in Brazil.

The Company may not successfully develop and introduce new products and line extensions or successfully expand into adjacent categories and countries, which could adversely impact its financial results.

The Company's future performance and growth depends on its innovation and ability to successfully develop or license and introduce new products, brands, line extensions and product improvements or enter into or expand into adjacent product categories, sales channels or countries. The Company cannot be certain that it will successfully achieve its innovation goals. The development and introduction of new products require substantial and effective research, development and marketing expenditures, which the Company may be unable to recoup if the new products do not gain widespread market acceptance. New product development and marketing efforts, including efforts to enter markets or product categories in which the Company has limited or no prior experience, have inherent risks. These risks include product development or launch delays, which could result in the Company not being first to market and the failure of new products, brands and line extensions to achieve anticipated levels of market acceptance. If product introductions or new or expanded adjacencies are not successful, costs associated with these efforts may not be fully recouped and the Company's profits could be adversely affected. In addition, if sales generated by new products cause a decline in sales of the Company's existing products, the Company's financial results could be materially adversely affected.

Acquisitions, new venture investments and divestitures may not be successful, which could impact the Company's results.

In connection with the Company's strategy, the Company expects to continue to seek to increase growth through acquisitions. Not only is it difficult to identify good acquisition candidates and to compete successfully for such candidates, but these transactions also involve numerous risks, including risks relating to the Company's ability to:

- successfully integrate acquired companies, products, systems or personnel into the Company's existing business, especially with respect to businesses or operations that are outside of the United States;
- minimize any potential interruption to the ongoing business of the Company or the acquired company;
- successfully enter categories and markets in which the Company may have limited or no prior experience;
- achieve expected synergies and obtain the desired financial or strategic benefits from acquisitions;
- retain key relationships with employees, customers, partners and suppliers of acquired companies; and
- maintain uniform standards, controls, procedures and policies throughout acquired companies.

Acquired companies or operations or newly created ventures may not be profitable or may not achieve sales levels and profitability and cash flow that justify the investments. Future acquisitions or ventures could also result in potentially dilutive issuances of equity securities, the incurrence of debt, the assumption of contingent liabilities, including litigation, an increase in expenses related to certain assets and increased operating expenses, all of which could adversely affect the Company's results of operations and financial condition. Future acquisitions of foreign companies or new foreign ventures would increase, among other things, the Company's exposure to foreign exchange rate risks, local regulations and potential liabilities relating to the Foreign Corrupt Practices Act. In addition, to the extent that the economic benefits associated with any of the Company's acquisitions diminish in the future, the Company may be required to record impairment charges related to goodwill, intangible assets or other assets associated with such acquisitions, which could adversely affect its operating results.

The Company may also divest certain assets, businesses or brands that do not meet the Company's strategic objectives or growth targets. With respect to any divestiture, the Company may encounter difficulty finding potential acquirers or other divestiture options on favorable terms. Any divestiture could affect the profitability of the Company as a result of the gains or losses on such sale of a business or brand, the loss of the operating income resulting from such sale or the costs or liabilities that are not assumed by the acquirer (i.e., stranded costs) that may negatively impact profitability and cash flow subsequent to any divestiture. The Company may also be required to recognize impairment charges as a result of a divestiture.

Any potential future acquisitions, new ventures or divestitures may divert the attention of management and resources from matters that are core or critical to the business.

Cyber attacks, privacy breaches or a failure of key information technology systems could adversely impact the Company's ability to conduct business.

The Company relies extensively on information technology systems, many of which are managed by third-party service providers, in order to conduct its business. These systems include, but are not limited to, programs and processes relating to communicating within the Company and with customers, consumers and other parties, ordering and managing materials from suppliers, converting materials to finished products, shipping products to customers, processing transactions, summarizing and reporting results of operations, complying with regulatory, legal and tax requirements and other processes involved in managing the business. The Company has made significant progress with its implementation of enterprise-wide upgrades to its hardware, software and operating systems, including its enterprise system in Latin America, which replaced legacy systems and is expected to streamline operations and enable future growth. However, legacy systems remain in countries where the Company conducts business outside of the United States and Latin America. If the Company's existing and/or future technology systems, third-party service providers and processes do not adequately support the future growth of the Company's business, the Company's business may be adversely impacted.

Although the Company has network security measures in place, the systems may be vulnerable to computer viruses, security breaches and other disruptions from unauthorized users or system failures, including Internet outages. While the Company has business continuity plans in place, if the systems are damaged or cease to function properly due to any number of causes, including catastrophic events, power outages, security breaches or other similar events, and if the business continuity plans do not effectively resolve such issues on a timely basis, the Company may suffer interruptions in its ability to manage or conduct business, which may adversely impact the Company's business. Furthermore, the Company sells its Burt's Bees[®] and güd[®] natural personal care products and Kingsford[®] lifestyle products directly to consumers online and offers customer loyalty and other programs through which it may receive personal information, and it could experience cyber attacks or other incidents that result in unauthorized disclosure of consumer, customer, employee or Company information. If the Company suffers a loss as a result of a breach or other breakdown in its technology system or such a breach or other breakdown results in unauthorized disclosure of business, personal or stakeholder information, the Company may suffer reputational, competitive and/or business harm and may be exposed to legal liability, which may adversely affect the Company's results of operations and/or financial condition. In addition, if the Company's service providers, suppliers or customers experience such a breach or unauthorized disclosure, their businesses could be disrupted or otherwise negatively affected, which may result in a disruption in the Company's supply chain or reduced customer orders, which would adversely affect the Company's operations.

Loss of, or inability to attract, key personnel could adversely impact the Company's business.

The Company's success depends, in part, on its ability to retain its key personnel, including its executive officers and senior management team. The unexpected loss of one or more of the Company's key employees could disrupt its business. The Company's success also depends, in part, on its continuing ability to identify, hire, train and retain other highly qualified personnel. Competition for these employees can be intense, especially in the San Francisco Bay Area, where the Company's headquarters and largest research facility are located. As the Company expands into new categories or markets, including more regulated businesses, it will also require personnel with relevant training and experience in such categories or markets. The Company may not be able to attract, assimilate or retain qualified personnel in the future, and its failure to do so could adversely affect its business.

Harm to the Company's reputation or the reputation of one or more of its leading brands could have an adverse effect on the business.

Maintaining a strong reputation with consumers, customers and trade partners is critical to the success of the Company's business. The Company devotes significant time and resources to programs designed to protect and preserve the Company's reputation and the reputation of its brands. These programs include ethics and compliance, sustainability and product safety and quality initiatives. Despite these efforts, negative publicity about the Company, including product safety or similar concerns, whether real or perceived, could occur, and the Company's products could face withdrawal, recall or other quality issues. The Company also licenses certain of its brands to third parties, which creates additional exposure for those brands to product safety, quality and other concerns. Negative publicity, posts or comments about the Company or its brands could also be widely disseminated through the use of social media. Such events, if they were to occur, could harm the Company's image and adversely affect its business, as well as require resources to rebuild the Company's reputation.

Environmental matters create potential liabilities.

The Company must comply with various environmental laws and regulations in the jurisdictions in which it operates, including those relating to air emissions, water discharges, handling and disposal of solid and hazardous wastes, remediation of contamination associated with the use and disposal of hazardous substances and climate change. The Company has incurred, and will continue to incur, significant expenditures and other costs in complying with environmental laws and regulations and in providing physical security for its worldwide operations, and such expenditures reduce the cash flow available to the Company for other purposes.

The Company is currently involved in or has potential liability with respect to the remediation of past contamination in the operation of some of its current and former facilities. In addition, some of its present and former facilities have or had been in operation for many years and, over that time, some of those facilities may have used substances or generated and disposed of wastes that are or may be considered hazardous. It is possible that those sites, as well as disposal sites owned by third parties to whom the Company has sent waste, may be identified and become the subject of remediation. The Company could also become subject to additional environmental liabilities in the future that could result in a material adverse effect on its results of operations or financial condition.

The Company had a recorded liability of \$14 million and \$13 million as of June 30, 2014 and 2013, respectively, for its share of aggregate future remediation costs related to certain environmental matters, including response actions at various locations. One matter in Dickinson County, Michigan, for which the Company is jointly and severally liable, accounts for a substantial majority of the recorded liability as of both June 30, 2014 and 2013. The Company has agreed to be liable for 24.3% of the aggregate remediation and associated costs for this matter pursuant to a cost-sharing arrangement with a third party. With the assistance of environmental consultants, the Company maintains an undiscounted liability representing its current best estimate of its share of the capital expenditures, maintenance and other costs that may be incurred over an estimated 30-year remediation period. Currently, the Company cannot accurately predict the timing of future payments that may be made under this obligation. In addition, the Company's estimated loss exposure is sensitive to a variety of uncertain factors, including the efficacy of remediation efforts, changes in remediation requirements and the future availability of alternative clean-up technologies. Although it is reasonably possible that the Company's exposure may exceed the amount recorded, any amount of such additional exposures, or range of exposures, is not estimable at this time. See "Contingencies" in "Management's Discussion and Analysis of Financial Condition and Results of Operations" on page 16 and Note 11 – *Other Contingencies and Guarantees* of the Notes to Consolidated Financial Statements beginning on page 46 of Exhibit 99.1 hereto for additional information related to these liabilities.

The Company also handles and/or transports hazardous substances, including but not limited to chlorine, at some of its international plant sites. A release of such chemicals, whether in transit or at the Company's facilities, due to accident or an intentional act could result in substantial liability and business disruptions.

The facilities of the Company and its suppliers are subject to disruption by events beyond the Company's control.

Operations at facilities of the Company, its suppliers, service providers and retail customers are subject to disruption for a variety of reasons, including work stoppages, demonstrations, disease outbreaks or pandemics, acts of war, terrorism, fire, earthquakes, flooding or other natural disasters. The Company's corporate headquarters and primary research and development facility are located near major earthquake fault lines in California. If a major disruption were to occur, it could result in harm to people or the natural environment, temporary loss of access to critical data, delays in shipments of products to customers or suspension of operations. Any such disruption could have a material adverse impact on the Company's business.

Failure to maximize, successfully assert or successfully defend the Company's intellectual property rights could impact its competitiveness.

The Company relies on intellectual property rights based on trademark, trade secret, patent and copyright laws to protect its brands, products and packaging for its products. The Company cannot be certain that these intellectual property rights will be maximized or that they can be successfully asserted. There is a risk that the Company will not be able to obtain and perfect its own intellectual property rights or, where appropriate, license intellectual property rights necessary to support new product introductions. The Company cannot be certain that these rights, if obtained, will not later be invalidated, circumvented or challenged, and the Company could incur significant costs in connection with legal actions to assert its intellectual property rights or to defend those rights from assertions of invalidity. In addition, even if such rights are obtained in the United States, the laws of some of the other countries in which the Company's products are or may be sold may not protect intellectual property rights to the same extent as the laws of the United States. If other parties infringe the Company's intellectual property rights, they may dilute the value of the Company's brands in the marketplace, which could diminish the value that consumers associate with the Company's brands and harm its sales. The failure to perfect or successfully assert its intellectual property rights could make the Company less competitive and could have a material adverse effect on its business, operating results, and financial condition.

If the Company is found to have infringed the intellectual property rights of others or cannot obtain necessary intellectual property rights from others, its competitiveness could be negatively impacted.

If the Company is found to have violated the trademark, trade secret, copyright, patent or other intellectual property rights of others, directly or indirectly, through the use of third-party ideas or technologies, such a finding could result in the need to cease use of a trademark, trade secret, copyrighted work or patented invention in the Company's business and the obligation to pay a substantial amount for past infringement. If holders are willing to permit the Company to continue to use such intellectual property rights, it could also be necessary to pay a substantial amount in the future for those rights. Either ceasing use or paying such amounts could cause the Company to become less competitive and could have a material adverse impact on the Company's business, operating results and financial condition.

Table of Contents

Even if the Company is not found to infringe a third party's intellectual property rights, claims of infringement could adversely affect the Company's business. For example, if the Company seeks proposals from multiple vendors for a new product or innovation and chooses to partner with a particular vendor, another vendor may claim the Company infringed its intellectual property rights by using information gathered from the vendor proposals. The Company could incur material legal costs and related expenses to defend against such claims.

The Company's substantial indebtedness could adversely affect its operations and financial results and prevent the Company from fulfilling its obligations, and the Company may incur substantially more debt in the future, which could exacerbate these risks.

As of June 30, 2014, the Company had \$2.3 billion of debt, including \$575 million of senior unsecured notes that mature in fiscal year 2015. The Company's substantial indebtedness could have important consequences. For example, it could:

- require the Company to dedicate a substantial portion of its cash flow from operations to payments on its indebtedness, which would reduce the availability of its cash flow to fund working capital requirements, capital expenditures, future acquisitions and other general corporate purposes;
- limit the Company's flexibility in planning for or reacting to general adverse economic conditions or changes in its business and the industries in which it operates;
- place the Company at a competitive disadvantage compared to its competitors that have less debt; and
- limit, along with the financial and other restrictive covenants in the Company's debt documents, its ability to borrow additional funds.

Additionally, failure by the Company to comply with the financial and other restrictive covenants in its debt documents could result in an event of default that, if not cured or waived, could have a significant adverse effect on the Company. Further, certain terms of the agreements governing the Company's over-the-counter derivative instruments contain provisions that require the Company's credit ratings, as assigned by Standard & Poor's and Moody's to the Company and its counterparties, to remain at a level equal to or better than the minimum of an investment grade credit rating. As of June 30, 2014, the Company and each of its counterparties had been assigned investment-grade ratings with both Standard & Poor's and Moody's. However, if the Company's credit rating were to fall below investment grade, the counterparties to the derivative instruments in net liability positions could request full collateralization.

The Company may incur substantial additional indebtedness in the future to fund acquisitions, repurchase shares or fund other activities for general business purposes, subject to compliance with the Company's existing restrictive debt covenants. As of June 30, 2014, the Company could add approximately \$1.7 billion in incremental debt and remain in compliance with restrictive debt covenants, although the actual amount that the Company may be able to borrow in the future may not equal this amount. If new debt is added to the current debt levels, the related risks that the Company now faces could intensify. In addition, the cost of incurring additional debt could increase due to possible downgrades in the Company's credit rating, economic conditions or otherwise.

The Company's continued growth and expansion and reliance on third-party service providers could adversely affect its internal control over financial reporting, which could harm its business and financial results.

Clorox management is responsible for establishing and maintaining adequate internal control over financial reporting. Internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting for external purposes in accordance with accounting principles generally accepted in the United States. Because of its inherent limitations, internal control over financial reporting is not intended to provide absolute assurance that a misstatement of the Company's financial statements would be prevented or detected. The Company's continuing growth and expansion in domestic and globally dispersed markets will place significant additional pressure on the Company's system of internal control over financial reporting. Moreover, the Company engages the services of third parties to assist with business operations and financial reporting processes, which injects additional monitoring obligations and risk into the system of internal control. Any failure to maintain an effective system of internal control over financial reporting could limit the Company's ability to report its financial results accurately and on a timely basis, or to detect and prevent fraud.

The Company's judgments regarding the accounting for tax positions and the resolution of tax disputes may impact the Company's earnings and cash flow.

Significant judgment is required to determine the Company's effective tax rate and evaluate its tax positions. The Company provides for uncertain tax positions when such tax positions do not meet the recognition thresholds or measurement criteria prescribed by applicable accounting standards. Fluctuations in federal, state, local and foreign taxes or a change to uncertain tax positions, including related interest and penalties, may impact the Company's effective tax rate and the Company's financial results. When particular tax matters arise, a number of years may elapse before such matters are audited and finally resolved. Unfavorable resolution of any tax matter could increase the effective tax rate, which would have an adverse effect on the Company's operating results. Any resolution of a tax issue may require the use of cash in the year of resolution. For additional information, refer to the information set forth in Note 17 – *Income Taxes* of the Notes to Consolidated Financial Statements beginning on page 53 of Exhibit 99.1 hereto.

The estimates and assumptions on which the Company's financial statement projections are based may prove to be inaccurate, which may cause its actual results to materially differ from such projections, which may adversely affect the Company's future cash flows and stock price.

The Company's financial statement projections are dependent on certain estimates and assumptions related to, among other things, category growth, market share projections, foreign exchange rates, commodity prices, cost savings, accruals for estimated liabilities, including litigation reserves, goodwill, market share projections, measurement of benefit obligations for pension and other postretirement benefit plans and the Company's ability to generate sufficient cash flow to reinvest in its existing business, fund internal growth, repurchase its shares, make acquisitions, pay dividends and meet debt obligations. While the Company's projections are based on historical experience and on various other assumptions that the Company believes to be reasonable under the circumstances and at the time they are made, the Company's actual results may differ materially from its financial outlook. Any material variation between the Company's projections and its actual results may adversely affect the Company's stock price.

The Company may not continue to pay dividends or repurchase its stock.

Although the Company has historically declared and paid quarterly cash dividends on its common stock and has been authorized to repurchase its shares subject to certain limitations under a share repurchase program, any determinations to continue to declare and pay cash dividends on its common stock or to repurchase its common stock will be based primarily upon the Company's financial condition, results of operations and business requirements, the price of its common stock in the case of the repurchase program and the board of directors' continuing determination that the repurchase program and the declaration and payment of dividends are in the best interests of the Company's stockholders and are in compliance with all laws and agreements applicable to the repurchase and dividend programs. The Company's ability to continue to declare and pay cash dividends will depend upon, among other things, its cash balances and future cash requirements, results of operations, financial condition and net earnings, all of which are subject to general economic, financial, competitive, legislative, regulatory and other factors beyond the Company's control. In the event the Company does not declare and pay a quarterly dividend or discontinues its share repurchases, the Company's stock price could be adversely affected.

The Company's business could be negatively impacted as a result of stockholder activism or an unsolicited takeover proposal or a proxy contest.

In recent years, proxy contests and other forms of stockholder activism have been directed against numerous public companies, including the Company. During fiscal years 2012 and 2011, the Company was the target of an unsolicited takeover proposal from a stockholder activist, which resulted in significant costs to the Company. If such a proposal were to be made again, the Company would incur significant costs, which would have an adverse effect on the Company's financial results. Stockholder activists may also seek to involve themselves in the governance, strategic direction and operations of the Company. Such proposals may disrupt the Company's business and divert the attention of the Company's management and employees, and any perceived uncertainties as to the Company's future direction resulting from such a situation could result in the loss of potential business opportunities and may make it more difficult to attract and retain qualified personnel and business partners, which could adversely affect the Company's business.

ITEM 1.B. UNRESOLVED STAFF COMMENTS

None.

ITEM 2. PROPERTIES

Production and Distribution Facilities

The Company owns or leases and operates 24 manufacturing facilities in North America and owns or leases and operates 15 manufacturing facilities outside North America. The Company also leases six regional distribution centers in North America and several other warehouse facilities. Management believes the Company's production and distribution facilities, together with additional facilities owned or leased and operated by various unaffiliated finished-product suppliers and distribution center service providers that serve the Company, are adequate to support the business efficiently, and that the Company's properties and equipment have generally been well maintained. The Company is continually performing a supply-chain efficiency analysis, which may lead to closures of domestic and international manufacturing facilities and the redistribution of production between its remaining facilities and contract manufacturers to optimize availability and capacity and to seek to reduce operating costs.

Offices and Research and Development Facilities

Since 2011, the Company has leased a facility located in Pleasanton, Calif., which houses the Company's research and development group as well as other administrative and operational support personnel. The facility features state-of-the-art labs and open work spaces to encourage creativity, collaboration and innovation. The Company leases office space in Oakland, Calif., for its corporate headquarters. The Company owns a research and development facility located at its plant in Buenos Aires, Argentina. The Company also conducts research and development activities and engineering research in leased facilities in Meriden, Ct.; Kennesaw, Ga.; Willowbrook, Il.; Midland, Mi.; Cincinnati, Oh.; and Durham, NC. Leased sales offices and other facilities are located at a number of other locations.

Encumbrances

None of the Company's owned facilities are encumbered to secure debt owed by the Company.

ITEM 3. LEGAL PROCEEDINGS

The Company is subject to routine litigation incidental to its business in the United States and in international locations, including various lawsuits and claims relating to issues such as contract disputes, product liability, patents and trademarks, advertising, employee and other matters. Although the results of claims and litigation cannot be predicted with certainty, it is the opinion of management that the ultimate disposition of these matters, to the extent not previously provided for or disclosed in the Company's consolidated financial statements in Exhibit 99.1 hereto, will not have a material adverse effect, individually or in the aggregate, on the Company's consolidated financial statements taken as a whole.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

EXECUTIVE OFFICERS OF THE REGISTRANT

The names, ages, year first elected and current titles of each of the executive officers of the Company as of July 31, 2014, are set forth below:

Table of Contents

George Roeth was elected executive vice president – chief operating officer, household and lifestyle effective January 2013. From June 2009 to December 2012, he served as senior vice president – general manager, specialty division.

Jacqueline P. Kane was elected senior vice president – human resources & corporate affairs effective January 2005. She joined the Company as vice president – human resources in March 2004 and was elected senior vice president – human resources in July 2004.

Laura Stein was elected senior vice president – general counsel effective January 2005. She also served as secretary from September 2005 through May 2007.

Thomas P. Britanik was elected senior vice president – chief marketing officer effective June 2009. He previously held the position of vice president – marketing from February 2008 to May 2009.

Wayne L. Delker was elected senior vice president – chief innovation officer effective June 2009. He joined the Company in August 1999 as vice president – global research & development and served in that position through May 2009.

James Foster was elected senior vice president – chief product supply officer effective June 2009. From April 2009 to May 2009, he served as vice president – product supply. From October 2007 to April 2009, he served as vice president – manufacturing.

Nikolaos Vlahos was elected senior vice president – chief customer officer effective March 2013. From March 2011 to February 2013, he served as vice president – general manager, Burt's Bees[®]. He served as vice president – general manager, Laundry, Brita[®] and Green Works[®], from March 2009 to February 2011.

Dawn Willoughby was elected senior vice president – general manager, cleaning division effective January 2013. She served as vice president – general manager, Home Care, from October 2012 to January 2013, and vice president – general manager, Glad[®] Products from January 2010 to October 2012. From July 2006 through January 2010, she served as vice president – sales planning.

Jon Balousek was elected senior vice president – general manager, specialty division effective January 2013. He served as vice president – general manager, Litter, Food and Charcoal from October 2011 to December 2012, and vice president – Marketing, Cleaning Division from October 2008 to September 2011.

Michael J. Costello was elected senior vice president – international effective September 2013. He served as vice president – general manager, international, from March 2011 to August 2013. From July 2009 through March 2011, he served as vice president – general manager, Latin America and Europe, and vice president – general manager, Latin America from June 2008 to June 2009.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Market Information

The Company's common stock is listed on the New York Stock Exchange. The high and low sales prices quoted for the New York Stock Exchange-Composite Transactions Report for each quarterly period during the past two fiscal years appear in Note 21 – *Unaudited Quarterly Data* of the Notes to Consolidated Financial Statements, which appears on page 65 of Exhibit 99.1 hereto, incorporated herein by reference.

Holdings

The number of record holders of the Company's common stock as of July 31, 2014, was 11,669 based on information provided by the Company's transfer agent.

Dividends

The amount of quarterly dividends declared with respect to the Company's common stock during the past two fiscal years appears in Note 21 – *Unaudited Quarterly Data* of the Notes to Consolidated Financial Statements, which appears on page 65 of Exhibit 99.1 hereto, incorporated herein by reference.

Equity Compensation Plan Information

See Part III, Item 12 hereof.

Issuer Purchases of Equity Securities

There were no purchases of the Company's securities by the Company or any affiliated purchasers within the meaning of Rule 10b-18(a)(3) (17 CFR 240.10b-18(a)(3)) during the fourth quarter of fiscal year 2014.

On May 13, 2013, the Company's board of directors approved a share repurchase program authorizing up to \$750 million in share repurchases. As of June 30, 2014, all of the \$750 million remained available for repurchases. Since 1999, the Company has had a share repurchase program the purpose of which is to offset the impact of stock dilution related to stock-based awards. On November 15, 2005, the board of directors approved the extension of the program, which has no specified cap. Neither of these programs has a specified termination date.

ITEM 6. SELECTED FINANCIAL DATA

This information appears under “Five-Year Financial Summary,” on page 66 of Exhibit 99.1 hereto, incorporated herein by reference.

ITEM 7. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This information appears under “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” on pages 1 through 24 of Exhibit 99.1 hereto, incorporated herein by reference.

ITEM 7.A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

This information appears under “Quantitative and Qualitative Disclosures about Market Risk” in “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” on pages 17 through 18 of Exhibit 99.1 hereto, incorporated herein by reference.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

These statements and data appear on pages 28 through 65 of Exhibit 99.1 hereto, incorporated herein by reference.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

Not applicable.

ITEM 9.A. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

The Company’s management, with the participation of the Company’s chief executive officer and chief financial officer, evaluated the effectiveness of the Company’s disclosure controls and procedures as of the end of the period covered by this Report. Based on that evaluation, the chief executive officer and chief financial officer concluded that the Company’s disclosure controls and procedures, as of the end of the period covered by this Report, were effective such that the information required to be disclosed by the Company in reports filed under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms and (ii) accumulated and communicated to management, including the chief executive officer and chief financial officer, as appropriate to allow timely decisions regarding disclosure.

Management’s Report on Internal Control Over Financial Reporting

Management’s report on internal control over financial reporting is set forth on page 25 of Exhibit 99.1 hereto, and is incorporated herein by reference. The Company’s independent registered public accounting firm, Ernst & Young, LLP, has audited the effectiveness of the Company’s internal control over financial reporting as of June 30, 2014. See “Report of Independent Registered Public Accounting Firm,” which appears on page 27 of Exhibit 99.1 hereto.

Change in Internal Control Over Financial Reporting

No change in the Company’s internal control over financial reporting occurred during the fourth fiscal quarter of the fiscal year ended June 30, 2014, that has materially affected, or is reasonably likely to materially affect, the Company’s internal control over financial reporting.

ITEM 9.B. OTHER INFORMATION

Not applicable.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

Pursuant to Instruction 3 to Item 401(b) of Regulation S-K, information regarding the executive officers of the registrant is reported in Part I of this Report.

The Company has adopted a Code of Conduct that applies to its principal executive officer, principal financial officer and principal accounting officer, among others. The Code of Conduct is located on the Company's website at [TheCloroxCompany.com](http://www.thecloroxcompany.com) under Corporate Responsibility/Performance/Corporate Governance or <http://www.thecloroxcompany.com/corporate-responsibility/performance/corporate-governance>. The Company intends to satisfy the requirement under Item 5.05 of Form 8-K regarding disclosure of amendments to, or waivers from, provisions of its Code of Conduct by posting such information on the Company's website. The Company's website also contains its corporate governance guidelines and the charters of its principal board committees.

Information regarding the Company's directors, compliance with Section 16(a) of the Exchange Act and corporate governance set forth in the Proxy Statement is incorporated herein by reference.

ITEM 11. EXECUTIVE COMPENSATION

Information regarding executive and director compensation, Management Development and Compensation Committee interlocks and insider participation and the report of the Management Development and Compensation Committee of the Company's board of directors set forth in the Proxy Statement is incorporated herein by reference.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

Information regarding security ownership of certain beneficial owners, management and directors and securities authorized for issuance under equity compensation plans set forth in the Proxy Statement is incorporated herein by reference.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

Information regarding certain relationships and related transactions and director independence set forth in the Proxy Statement is incorporated herein by reference.

ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES

Information regarding principal accounting fees and services set forth in the Proxy Statement is incorporated herein by reference.

PART IV

ITEM 15. EXHIBITS AND FINANCIAL STATEMENT SCHEDULES

(a) Financial Statements and Schedules:

Consolidated Financial Statements and Reports of Independent Registered Public Accounting Firm included in Exhibit 99.1 hereto, incorporated herein by reference.

Reports of Independent Registered Public Accounting Firm.

Consolidated Statements of Earnings for the fiscal years ended June 30, 2014, 2013 and 2012.

Consolidated Statements of Comprehensive Income for the fiscal years ended June 30, 2014, 2013 and 2012.

Consolidated Balance Sheets as of June 30, 2014 and 2013.

Consolidated Statements of Stockholders' Equity for the fiscal years ended June 30, 2014, 2013 and 2012.

Consolidated Statements of Cash Flows for the fiscal years ended June 30, 2014, 2013 and 2012.

Notes to Consolidated Financial Statements.

Valuation and Qualifying Accounts and Reserves included in Exhibit 99.2 hereto, incorporated herein by reference.

THE CLOROX COMPANY
ANNUAL INCENTIVE PLAN
As Amended and Restated Effective
as of September 17, 2013

1. Purpose.

The purpose of The Clorox Company Annual Incentive Plan (the "Plan") is to attract and retain the best available personnel for positions of substantial responsibility and to provide an incentive for employees of The Clorox Company, a Delaware corporation (the "Company") and its subsidiaries to recognize and reward those employees. The Company's executives are eligible to earn short-term incentive awards under this Plan and under the Company's Executive Incentive Compensation Plan.

2. Definitions. The following terms will have the following meaning for purposes of the Plan:

- (a) "Award" means a bonus paid in cash.
 - (b) "Board" means the Board of Directors of the Company.
 - (c) "Chief Executive Officer" means the chief executive officer of the Company.
 - (d) "Code" means the Internal Revenue Code of 1986, as amended.
 - (e) "Committee" means the Management Development and Compensation Committee of the Board, or such other Committee designated by the Board to administer the Plan.
 - (f) "Employee" means any person employed by the Company or any Subsidiary.
 - (g) "Executive Committee" means the executives who are members of the Company's management executive committee.
 - (h) "Vice President" means a regular salaried Employee scheduled to work more than 20 hours per week who is in salary grade 30 or above and who is not a member of the Executive Committee, but is a Vice President.
 - (i) "Participant" means an Employee selected by the Committee to participate in the Plan.
 - (j) "Retirement" means termination of employment with the Company, other than by reason of death or disability, (1) at age 65, (2) at least age 55 with at least ten years of vesting service, which solely for purposes of this Plan, shall be calculated under Article III of The Clorox Company 401(k) Plan (the "401(k) Plan") entitled "Service" along with any other relevant provisions of the 401(k) Plan necessary or desirable to give full effect thereto, or any successor provisions, regardless of the status of the Participant with respect to the 401(k) Plan or (3) with at least 20 years of vesting service (as defined in clause (2)).
-

- (k) "Subsidiary" means any corporation in which the Company, directly or indirectly, controls 50 percent or more of the total combined voting power of all classes of stock.
- (l) "Year" means a fiscal year of the Company.

3. Awards.

- (a) Within 90 days after the beginning of each Year, the Committee will select Participants for the Year and establish in writing the method by which the Awards will be calculated for that Year. The Committee may provide for payment of all or part of the Award in the case of retirement, death, disability or change of ownership of control of the Company or a Subsidiary during the Year in accordance with Section 409A (as defined in Section 15 below).
- (b) For the Chief Executive Officer and the Executive Committee, the Committee shall determine and certify the amount of the Award, if any, to be made. The Committee may increase, decrease or eliminate, any Award calculated under the methodology established in accordance with paragraph (a) in order to reflect additional considerations relating to performance.
- (c) For Vice Presidents and all other participants, the Chief Executive Officer shall determine and certify the amount of the Award, if any, to be made. The Chief Executive Officer may increase, decrease or eliminate, any Award calculated under the methodology established in accordance with paragraph (a) in order to reflect additional considerations relating to performance.
- (d) Awards will be paid to the Participants following certification and no later than ninety (90) days following the close of the Year with respect to which the Awards are made, unless all or a portion of a Participant's Award is deferred pursuant to the Participant's timely and validly made election made in accordance with such terms as the Company, the Board or a committee thereof may determine. A timely election is one that satisfies the requirements of Section 409A (as defined in Section 15 below) and typically for performance based compensation must be made at least six months before the end of the Performance Period, provided that the Participant performs services continuously from the later of the beginning of the Performance Period or the date the performance criteria are established through the date an election is made and provided further that in no event may a deferral be made after such compensation has become readily ascertainable as set forth in Section 409A (as defined in Section 15 below).

- (e) The Company shall withhold from the payment of any Award hereunder any amount required to be withheld for taxes.
- (f) In the event of a restatement of the Company's financial results to correct a material error resulting from fraud or intentional misconduct, as determined by the Board or the Committee, the Board, or the Committee, will review all compensation that was made pursuant to this Plan on the basis of having met or exceeded specific performance targets for performance periods beginning after June 30, 2008 which occur during the years for which financial statements are restated. If a lower payment of performance-based compensation would have been made to the Participants based upon the restated financial results, the Board or the Committee, as applicable, will, to the extent permitted by governing law and subject to the following sentence, seek to recoup for the benefit of the Company the amount by which the individual Participant's Award(s) for the restated years exceeded the lower payment that would have been made based on the restated financial results, plus a reasonable rate of interest; provided, however, that neither the Board nor the Committee will seek to recoup Awards paid more than three years prior to the date on which the Company announces the need for the applicable financial statements to be restated. The Board, or the Committee, will only seek to recoup Awards paid to Participants whose fraud or intentional misconduct was a significant contributing factor to the need for such restatement, as determined by the Board or the Committee, as applicable.

4. Termination of Employment.

Except as may be specifically provided in an Award pursuant to Section 3(a), a Participant shall have no right to an Award under the Plan for any Year in which the Participant is not actively employed by the Company or its Subsidiaries on June 30 of such Year. When establishing Awards each Year, the Committee may also provide that in the event a Participant is not employed by the Company or its Subsidiaries on the date on which the Award is paid, the Participant may forfeit his or her right to the Award paid under the Plan.

5. Administration.

The Plan will be administered by the Committee. The Committee will have the authority to interpret the Plan, to prescribe rules relating to the Plan and to make all determinations necessary or advisable in administering the Plan. Decisions of the Committee with respect to the Plan will be final and conclusive.

6. Unfunded Plan.

Awards under the Plan will be paid from the general assets of the Company, and the rights of Participants under the Plan will be only those of general unsecured creditors of the Company.

7. Amendment or Termination of the Plan. The Committee may from time to time suspend, revise, amend or terminate the Plan.

8. Applicable Law.

To the extent not preempted by federal law, the Plan shall be construed in accordance with and governed by the laws of the State of California, excluding any conflicts or choice of law rule or principle that might otherwise refer construction or interpretation of this Plan to the substantive law of another jurisdiction.

9. No Rights to Employment.

Nothing contained in the Plan shall give any person the right to be retained in the employment of the Company or any of its Subsidiaries. The Company reserves the right to terminate any Participant at any time for any reason notwithstanding the existence of the Plan.

10. No Assignment.

Except as otherwise required by applicable law, any interest, benefit, payment, claim or right of any Participant under the Plan shall not be sold, transferred, assigned, pledged, encumbered or hypothecated by any Participant and shall not be subject in any manner to any claims of any creditor of any Participant or beneficiary, and any attempt to take any such action shall be null and void. During the lifetime of any Participant, payment of an Award shall only be made to such Participant. Notwithstanding the foregoing, the Committee may establish such procedures as it deems necessary for a Participant to designate a beneficiary to whom any amounts would be payable in the event of any Participant's death.

11. Gender, Number and References.

Except where otherwise indicated by the context, any masculine term used herein also shall include the feminine, the plural shall include the singular and the singular shall include the plural. Any reference in the Plan to a Section of the Plan either in the Plan or to an act or code or to any section thereof or rule or regulation thereunder shall be deemed to refer to such Section of the Plan, act, code, section, rule or regulation, as may be amended from time to time, or to any successor Section of the Plan, act, code, section, rule or regulation.

12. Severability.

If any one or more of the provisions contained in this Plan, or any application thereof, shall be invalid, illegal or unenforceable in any respect, the validity, legality and enforceability of the remaining provisions contained herein and all other applications thereof shall not in any way be affected or impaired thereby. This Plan shall be construed and enforced as if such invalid, illegal or unenforceable provision has never comprised a part hereof, and the remaining provisions hereof shall remain in full force and effect and shall not be affected by the invalid, illegal or unenforceable provision or by its severance herefrom. In lieu of such invalid, illegal or unenforceable provisions there shall be added automatically as a part hereof a provision as similar in terms and economic effect to such invalid, illegal or unenforceable provision as may be possible and be valid, legal and enforceable.

13. Requirements of Law.

The issuance of cash under the Plan shall be subject to all applicable laws and to such approvals by any governmental agencies or national securities exchanges as may be required.

14. Non-Exclusive Plan.

The adoption of the Plan by the Board shall not be construed as creating any limitations on the power of the Board or a committee thereof to adopt such other incentive arrangements as it may deem desirable.

15. Section 409A Compliance.

To the extent applicable, it is intended that this Plan and any Awards granted hereunder comply with the requirements of Section 409A of the Code and any related regulations or other guidance promulgated with respect to such Section by the U.S. Department of the Treasury or the Internal Revenue Service ("Section 409A"). Any provision that would cause the Plan or any Award granted hereunder to fail to satisfy Section 409A shall have no force or effect until amended to comply with Section 409A, which amendment may be retroactive to the extent permitted by Section 409A.

**THE CLOROX COMPANY
2005 STOCK INCENTIVE PLAN
PERFORMANCE SHARE AWARD AGREEMENT**

NOTICE OF PERFORMANCE SHARE GRANT

The Clorox Company, a Delaware company (the "Company"), grants to the Grantee named below, in accordance with the terms of The Clorox Company 2005 Stock Incentive Plan (the "Plan") and this performance share award agreement (the "Agreement"), the following number of Performance Shares on the terms set forth below:

GRANTEE: (refer to UBS Financial Services Inc. ("UBS")
account for details)
TARGET AWARD: (refer to UBS account for details)
PERFORMANCE PERIOD: July 1, 2013 through June 30, 2016
DATE OF GRANT: September 17, 2013

SETTLEMENT DATE Within 75 days following the last day of the
Performance Period, provided the Grantee has
remained in the employment or service of the
Company or its Subsidiaries through such date
(except for a termination of employment or service
due to death, Disability or Retirement, as provided
below)

AGREEMENT

1. Grant of Performance Shares. The Company hereby grants to the Grantee the Target Award set forth above, payment of which is dependent upon the achievement of certain performance goals more fully described in Section 3 of this Agreement. This Award is subject to the terms, definitions and provisions of the Plan and this Agreement. All terms, provisions, and conditions applicable to the Performance Shares set forth in the Plan and not set forth herein are incorporated by reference. To the extent any provision hereof is inconsistent with a provision of the Plan, the provisions of the Plan will govern. All capitalized terms that are used in this Agreement and not otherwise defined herein shall have the meanings ascribed to them in the Plan.
2. Nature and Settlement of Award. The Performance Shares awarded pursuant to this Agreement represent the opportunity to receive Shares of the Company and Dividend Equivalents on such Shares (as described in Section 4 below). The Company shall issue to the Participant one Share for each vested Performance Share (plus any Dividend Equivalents accrued with respect to such vested Performance Shares), rounded down to the nearest whole share, less any Shares withheld in accordance with the provisions of Section 7 of this Agreement. Settlement shall occur on a date chosen by the Committee, which date shall be within seventy-five (75) days following the last day of the Performance Period, or any deferred settlement date established pursuant to Section 6 of this Agreement, whichever is later (the "Settlement Date"), and except as specifically provided in Section 5 of this Agreement, provided the Grantee has remained in the employment or service of the Company or its Subsidiaries through the Settlement Date. Although vested within the meaning of Section 83 of the Internal Revenue Code since no substantial risk of forfeiture exists at the Settlement Date, the Performance Shares (and any associated Dividend Equivalents) will not be earned until the Grantee has fulfilled all of the conditions precedent set forth in this Agreement, including, but not limited to, the obligations set forth in Sections 9(b), 9(c), 9(d), 9(e) and Section 10, and the Grantee shall have no right to retain the Shares or the value thereof upon vesting or settlement of the Performance Shares until all such conditions precedent have been satisfied.

3. Determination of Number of Performance Shares Vested.

The number of Performance Shares vested, if any, for the Performance Period shall be determined in accordance with the following formula:

$$\# \text{ of Performance Shares} = \text{Payout Percentage} \times \text{Target Award}$$

The “Payout Percentage” is based on cumulative economic profit (“EP”), calculated as described in the paragraph below, at the end of the Performance Period, determined in accordance with the following table:

FY14 – FY16	Payout
	0%
	50%
	75%
	100%
	125%
	150%

Performance Period is FY14-FY16

Interim percentages to be interpolated

Cumulative EP will be the sum of annual EP results over the Performance Period. Annual EP is defined as Earnings Before Interest & Taxes (“EBIT”), adjusted for non-cash restructuring charges, times one minus the tax rate, less capital charge.

Notwithstanding the above, the EP levels in the preceding table shall be adjusted, fairly and appropriately, in accordance with the Plan and, as provided in this Agreement, to reflect accurately the direct and measurable effect of the impact of each of the following events not otherwise reflected in the determination of the initial EP levels (each, an “Event”) including, without limitation, the financial statement impact on the Company on account of the occurrence or potential occurrence of an Event: (1) the acquisition or divestiture of a business, (2) a Change in Control, (3) U.S Federal changes in tax statutes or the addition or deletion of taxes to which the Company or any Affiliated Company is subject, (4) force majeure (including events known as “Acts of God”), (5) the adoption of new or revised accounting pronouncements or changes to application of accounting pronouncements, and (6) any extraordinary, unusual or non-recurring item not previously listed. Notwithstanding the foregoing, an event listed in the preceding sentence shall not qualify as an Event, and therefore no adjustment shall be made to the EP levels, unless the impact of the occurrence or potential occurrence of such an event listed in the preceding sentence exceeds \$2 million in EP. The purpose of any adjustments on account of the occurrence of an Event is to keep the probability of achieving the EP levels the same as if the Event triggering such adjustment had either not occurred or had not resulted in any financial statement impact. The determination of any adjustments shall be based on the Company’s accounting as set forth in its books and records (including business projections) and/or in the annual budget and/or long range plan of the Company pursuant to which the EP levels were originally established. The amount of any such adjustment shall be approved by the Committee in its good faith determination in accordance with the provisions of this paragraph. To the extent applicable, the Committee shall condition the determination of the number of Performance Shares vested under this Section 3 upon the satisfaction of the adjusted EP levels. All Performance Shares that are not vested for the Performance Period shall be forfeited as of the last day of the Performance Period.

4. Dividend Equivalent Rights. No Dividend Equivalents shall be paid to the Grantee prior to the settlement of the award. Rather, such Dividend Equivalent payments will accrue and be notionally credited to the Grantee’s Performance Share account and paid out at the Payout Percentage in the form of additional Shares (the “Dividend Equivalent Shares”) upon settlement of the award, as described in Section 2 above.

5. Termination of Continuous Service. Except as otherwise provided below, if the Grantee's employment or service with the Company and its Subsidiaries is terminated for any reason prior to the Settlement Date, all Performance Shares and Dividend Equivalents subject to this Agreement shall be immediately forfeited.
- a. Termination due to Death or Disability. If the Grantee's termination of employment or service is due to death or Disability, all Performance Shares and Dividend Equivalents shall immediately vest and will be paid upon completion of the Performance Period based on the level of performance achieved as of the end of such Performance Period.
 - b. Termination due to Retirement. If the Grantee's termination of employment or service is due to Retirement and is more than twelve (12) months from the Date of Grant set forth in this Agreement, the Performance Shares shall vest on a pro rata monthly basis, including full credit for partial months elapsed, and will be paid upon completion of the Performance Period based on the level of performance achieved as of the end of such Performance Period; provided, however, that this provision shall not apply in the event the Grantee's employment or service is terminated for Cause. The amount of the vested Award may be computed under the following formula: Target Award times (number of full months elapsed in Performance Period divided by number of full months in Performance Period) times percent performance level achieved as of the end of the Performance Period. Dividend Equivalents accrued through the Grantee's date of termination due to Retirement shall be paid at the same time as the settlement of the vested Performance Shares.
 - c. Definition of "Retirement." For purposes of this Agreement, the term "Retirement" shall mean termination of employment or service as an Employee after (1) twenty (20) or more years of "vesting service," which solely for purposes of this Agreement, shall be calculated under Article III of The Clorox Company 401(k) Plan (the "401(k) Plan") entitled "Service" along with any other relevant provisions of the 401(k) Plan necessary or desirable to give full effect thereto, or any successor provisions, regardless of the status of the Grantee with respect to the 401(k) Plan ("Vesting Service"), or (2) attaining age fifty-five with ten (10) or more years of Vesting Service.
 - d. Definition of "Disability." For purposes of this Agreement, the Grantee's employment shall be deemed to have terminated due to the Grantee's Disability if the Grantee is entitled to long-term disability benefits under the Company's long-term disability plan or policy, as in effect on the date of termination of the Grantee's employment.
6. Election to Defer Settlement. Prior to the commencement of the last year of the Performance Period, the Grantee may elect to defer the settlement of the Performance Shares from the last day of the Performance Period until a date at least two years following such date, or until the Grantee's later termination of employment or service. If the Grantee makes such an election, it will become irrevocable on the date of such election. If the Grantee makes such an election, any Dividend Equivalents awarded with respect to such deferred Performance Shares shall also be deferred under the same terms. If the Grantee makes such an election, but a transaction occurs that subjects the Grantee's Performance Shares to Section 19 of the Plan prior to the settlement date, the Grantee's deferral election will terminate and the Grantee's Performance Shares and Dividend Equivalents will be settled as of the date of that transaction. The Company may terminate any deferral hereunder if a change in law requires such termination.
7. Taxes. Pursuant to Section 16 of the Plan, the Committee shall have the power and the right to deduct or withhold, or require the Grantee to remit to the Company, an amount sufficient to satisfy any applicable tax withholding requirements applicable to this Award. The Committee may condition the issuance of Shares upon the Grantee's satisfaction of such withholding obligations. The Grantee may elect to satisfy all or part of such withholding requirement by tendering previously-owned Shares or by having the Company withhold Shares having a Fair Market Value equal to the minimum statutory withholding rate that could be imposed on the transaction (or such other rate that will not result in a negative accounting impact) or in such other manner as is acceptable to the Company. Such election shall be irrevocable, made in writing, signed by the Grantee, and shall be subject to any restriction or limitations that the Committee, in its sole discretion, deems appropriate.

8. Transferability of Performance Shares. Performance Shares shall not be transferable by the Grantee other than by will or by the laws of descent or distribution. For avoidance of doubt, Shares issued to the Grantee in settlement of Performance Shares pursuant to Section 2 of this Agreement shall not be subject to any of the foregoing transferability restrictions.
9. Protection of Trade Secrets and Limitations on Retention.
- a. Definitions.
- i. “Affiliated Company” means any organization controlling, controlled by or under common control with the Company.
 - ii. “Confidential Information” means the Company’s technical or business or personnel information not readily available to the public or generally known in the trade, including inventions, developments, trade secrets and other confidential information, knowledge, data and know-how of the Company or any Affiliated Company, whether or not they originated with the Grantee, or information which the Company or any Affiliated Company received from third parties under an obligation of confidentiality.
 - iii. “Conflicting Product” means any product, process, machine, or service of any person or organization, other than the Company or any Affiliated Company, in existence or under development that (1) resembles or competes with a product, process, machine, or service upon or with which the Grantee shall have worked during the two years prior to the Grantee’s termination of employment with the Company or any Affiliated Company or (2) with respect to which during that period of time the Grantee, as a result of his/her job performance and duties, shall have acquired knowledge of Confidential Information, and whose use or marketability could be enhanced by application to it of Confidential Information. For purposes of this section, it shall be conclusively presumed that the Grantee has knowledge of information to which s/he has been directly exposed through actual receipt or review of memorandum or documents containing such information or through actual attendance at meetings at which such information was discussed or disclosed.
 - iv. “Conflicting Organization” means any person or organization that is engaged in or about to become engaged in research on or development, production, marketing or selling of a Conflicting Product.
- b. Right to Retain Shares Contingent on Protection of Confidential Information. In partial consideration for the award of these Performance Shares, the Grantee agrees that at all times, both during and after the term of the Grantee’s employment with the Company or any Affiliated Company, to hold in the strictest confidence, and not to use (except for the benefit of the Company at the Company’s direction) or disclose (except for the benefit of the Company at the Company’s direction), regardless of when disclosed to the Grantee, any and all Confidential Information of the Company or any Affiliated Company. The Grantee understands that for purposes of this Section 9(b), Confidential Information further includes, but is not limited to, information pertaining to any aspect of the business of the Company or any Affiliated Company which is either information not known (or known as a result of a wrongful act of the Grantee or of others who were under confidentiality obligations as to the item or items involved) by actual or potential competitors of the Company or other third parties not under confidentiality obligations to the Company. If, prior to the expiration of the Performance Period or at any time within one (1) year after the Settlement Date, the Grantee discloses or uses, or threatens to disclose or use, any Confidential Information other than in the course of performing authorized services for the Company (or any Affiliated Company), the Performance Shares, whether vested or not, will be immediately forfeited and cancelled, and the Grantee shall immediately return to the Company the Shares or the pre-tax income derived from any disposition of the Shares.

- c. No Interference with Customers or Suppliers. In partial consideration for the award of these Performance Shares, in order to forestall the disclosure or use of Confidential Information as well as to deter the Grantee's intentional interference with the contractual relations of the Company or any Affiliated Company, the Grantee's intentional interference with prospective economic advantage of the Company or any Affiliated Company and to promote fair competition, the Grantee agrees that the Grantee's right to the Shares upon settlement of the Performance Shares is contingent upon the Grantee refraining, for a period of one (1) year after the date of settlement of the Performance Shares, for himself/herself or any third party, directly or indirectly, from using Confidential Information to (1) divert or attempt to divert from the Company (or any Affiliated Company) any business of any kind in which it is engaged, or (2) intentionally solicit its customers with which it has a contractual relationship as to Conflicting Products, or to interfere with the contractual relationship with any of its suppliers or customers (collectively, "Interfere"). If, during the term of the Performance Period or at any time within one (1) year after the Settlement Date, the Grantee breaches his/her obligation not to Interfere, the Grantee's right to the Shares upon settlement of the Performance Shares shall not have been earned and the Performance Shares, whether vested or not, will be immediately cancelled, and the Grantee shall immediately return to the Company the Shares or the pre-tax income derived from any disposition of the Shares. For avoidance of doubt, the term "Interfere" shall not include any advertisement of Conflicting Products through the use of media intended to reach a broad public audience (such as television, cable or radio broadcasts, or newspapers or magazines) or the broad distribution of coupons through the use of direct mail or through independent retail outlets. THE GRANTEE UNDERSTANDS THAT THIS PARAGRAPH IS NOT INTENDED TO AND DOES NOT PROHIBIT THE CONDUCT DESCRIBED, BUT PROVIDES FOR THE CANCELLATION OF THE PERFORMANCE SHARES AND A RETURN TO THE COMPANY OF THE SHARES OR THE GROSS TAXABLE PROCEEDS OF THE SHARES IF THE GRANTEE SHOULD CHOOSE TO VIOLATE THIS "NO INTERFERENCE WITH CUSTOMERS OR SUPPLIERS" PROVISION DURING THE TERM OF THE PERFORMANCE PERIOD OR WITHIN ONE (1) YEAR AFTER THE SETTLEMENT DATE.
- d. No Solicitation of Employees. In partial consideration for the award of these Performance Shares, in order to forestall the disclosure or use of Confidential Information, as well as to deter the Grantee's intentional interference with the contractual relations of the Company or any Affiliated Company, the Grantee's intentional interference with prospective economic advantage of the Company or any Affiliated Company, and to promote fair competition, the Grantee agrees that the Grantee's right to the Shares upon settlement of the Performance Shares is contingent upon the Grantee refraining, for a period of one (1) year after the date of settlement of the Performance Shares, for himself/herself or any third party, directly or indirectly, from soliciting for employment any person employed by the Company, or by any Affiliated Company, during the period of the solicited person's employment and for a period of one (1) year after the termination of the solicited person's employment with the Company or any Affiliated Company (collectively "Solicit"). If, during the term of the Performance Period or at any time within one (1) year after the Settlement Date, the Grantee breaches his/her obligation not to Solicit, the Grantee's right to the Shares upon settlement of the Performance Shares shall not have been earned and the Performance Shares, whether vested or not, will be immediately cancelled, and the Grantee shall immediately return to the Company the Shares or the pre-tax income derived from any disposition of the Shares. THE GRANTEE UNDERSTANDS THAT THIS PARAGRAPH IS NOT INTENDED TO AND DOES NOT PROHIBIT THE CONDUCT DESCRIBED, BUT PROVIDES FOR THE CANCELLATION OF THE PERFORMANCE SHARES AND A RETURN TO THE COMPANY OF THE SHARES OR THE GROSS TAXABLE PROCEEDS OF THE SHARES IF THE GRANTEE SHOULD CHOOSE TO VIOLATE THIS NON-SOLICITATION OF EMPLOYEES PROVISION DURING THE TERM OF THE PERFORMANCE PERIOD OR WITHIN ONE (1) YEAR AFTER THE SETTLEMENT DATE.
- e. Injunctive and Other Available Relief. By acceptance of these Performance Shares, the Grantee acknowledges that, if the Grantee were to breach or threaten to breach his/her obligation hereunder not to Interfere or Solicit or not to disclose or use any Confidential Information other than in the course of performing authorized services for the Company (or any Affiliated Company), the harm caused to the Company by such breach or threatened breach would be, by its nature, irreparable because, among other things, damages would be significant and the monetary harm that would ensue would not be able to be readily proven, and that the Company would be entitled to injunctive and other appropriate relief to prevent threatened or continued breach and to such other remedies as may be available at law or in equity. To the extent not prohibited by law, any cancellation of the Performance Shares pursuant to any of Sections 9(b) through 9(d) above shall not restrict, abridge or otherwise limit in any fashion the types and scope of injunctive and other available relief to the Company. Notwithstanding any provision of this Agreement to the contrary, nothing under this Agreement shall limit, abridge, modify or otherwise restrict the Company (or any Affiliated Company) from pursuing any or all legal, equitable or other appropriate remedies to which the Company may be entitled under any other agreement with the Grantee, any other plan, program, policy or arrangement of the Company (or any Affiliated Company) under which the Grantee is covered or participates, or any applicable law, all to the fullest extent not prohibited under applicable law.

10. Right to Retain Shares Contingent on Continuing Non-Conflicting Employment. In partial consideration for the award of these Performance Shares, in order to forestall the disclosure or use of Confidential Information, as well as to deter the Grantee's intentional interference with the contractual relations of the Company or any Affiliated Company, the Grantee's intentional interference with prospective economic advantage of the Company or any Affiliated Company, and to promote fair competition, the Grantee agrees that the Grantee's right to the Shares upon settlement of the Performance Shares is contingent upon the Grantee refraining, during the term of the Performance Period and for a period of one (1) year after the Settlement Date, from rendering services, directly or indirectly, as director, officer, employee, agent, consultant or otherwise, to any Conflicting Organization except a Conflicting Organization whose business is diversified and that, as to that part of its business to which the Grantee renders services, is not a Conflicting Organization, provided that the Company shall receive separate written assurances satisfactory to the Company from the Grantee and the Conflicting Organization that the Grantee shall not render services during such period with respect to a Conflicting Product. If, prior to the expiration of the Performance Period or at any time within one (1) year after the Settlement Date, the Grantee shall render services to any Conflicting Organization other than as expressly permitted herein, the Grantee's right to the Shares upon settlement of the Performance Shares shall not have been earned and the Performance Shares, whether vested or not, will be immediately cancelled, and the Grantee shall immediately return to the Company the Shares or the pre-tax income derived from any disposition of the Shares. THE GRANTEE UNDERSTANDS THAT THIS PARAGRAPH IS NOT INTENDED TO AND DOES NOT PROHIBIT THE GRANTEE FROM RENDERING SERVICES TO A CONFLICTING ORGANIZATION, BUT PROVIDES FOR THE CANCELLATION OF THE PERFORMANCE SHARES AND A RETURN TO THE COMPANY OF THE SHARES OR THE GROSS TAXABLE PROCEEDS OF THE SHARES IF THE GRANTEE SHOULD CHOOSE TO RENDER SUCH SERVICES DURING THE TERM OF THE PERFORMANCE PERIOD OR WITHIN ONE (1) YEAR AFTER THE SETTLEMENT DATE.
11. Repayment Obligation. In the event that (1) the Company issues a restatement of financial results to correct a material error and (2) the Committee determines, in good faith, that the Grantee's fraud or willful misconduct was a significant contributing factor to the need to issue such restatement and (3) some or all of the Performance Shares that were granted and/or vested prior to such restatement would not have been granted and/or vested, as applicable, based upon the restated financial results, the Grantee shall immediately return to the Company the Performance Shares or any Shares or the pre-tax income derived from any disposition of the Shares previously received in settlement of the Performance Shares that would not have been granted and/or vested based upon the restated financial results (the "Repayment Obligation"). The Company shall be able to enforce the Repayment Obligation by all legal means available, including, without limitation, by withholding such amount from other sums owed by the Company to the Grantee.
12. Miscellaneous Provisions.
- a. Rights as a Stockholder. Neither the Grantee nor the Grantee's transferee or representative shall have any rights as a stockholder with respect to any Shares subject to this Award until the Performance Shares have been settled and Share certificates have been issued to the Grantee, transferee or representative, as the case may be.
- b. Choice of Law, Exclusive Jurisdiction and Venue. This Agreement shall be governed by, and construed in accordance with, the laws of the State of Delaware, excluding any conflicts or choice of law rule or principle that might otherwise refer construction or interpretation of this Agreement to the substantive law of another jurisdiction. The courts of the State of Delaware shall have exclusive jurisdiction over any disputes or other proceedings relating to this Agreement, and venue shall reside with the courts in New Castle County, Delaware, including if jurisdiction shall so permit, the U.S. District Court for the District of Delaware. Accordingly, the Grantee agrees that any claim of any type relating to this Agreement must be brought and maintained in the appropriate court located in New Castle County, Delaware, including if jurisdiction will so permit, in the U.S. District Court for the State of Delaware. The Grantee hereby consents to the jurisdiction over the Grantee of any such courts and waives all objections based on venue or inconvenient forum.

- c. Modification or Amendment. This Agreement may be modified or amended by the Board or the Committee at any time; provided, however, no modification or amendment to this Agreement shall be made which would materially and adversely affect the rights of the Grantee, without such Grantee's written consent.
- d. Severability. In the event any provision of this Agreement shall be held illegal or invalid for any reason, the illegality or invalidity shall not affect the remaining provisions of this Agreement, and this Agreement shall be construed and enforced to reflect the intent of the parties to the fullest extent not prohibited by law, and in the event that such provision is not able to be so construed and enforced, then this Agreement shall be construed and enforced as if such illegal or invalid provision had not been included. In amplification of the preceding sentence, in the event that the time period or scope of any provision is declared by a court or arbitrator of competent jurisdiction to exceed the maximum time period or scope that such court or arbitrator deems enforceable, then such court or arbitrator shall have the power to reduce the time period or scope to the maximum time period or scope permitted by law.
- e. References to Plan. All references to the Plan shall be deemed references to the Plan as may be amended.
- f. Headings. The captions used in this Agreement are inserted for convenience and shall not be deemed a part of this Agreement for construction or interpretation.
- g. Interpretation. Any dispute regarding the interpretation of this Agreement shall be submitted by the Grantee or by the Company forthwith to the Board or the Committee, which shall review such dispute at its next regular meeting. The resolution of such dispute by the Board or the Committee shall be final and binding on all persons. It is the intention of the Company and the Grantee to make the promises contained in this Agreement reasonable and binding only to the extent that it may be lawfully done under existing applicable laws. This Agreement and the Plan constitute the entire and exclusive agreement between the Grantee and the Company, and it supersedes all prior agreements or understandings, whether written or oral, with respect to the grant of Performance Shares set forth in this Agreement.
- h. Section 409A Compliance. To the extent applicable, it is intended that the Plan and this Agreement comply with the requirements of Section 409A of the Internal Revenue Code of 1986, as amended (the "Code") and any related regulations or other guidance promulgated with respect to such Section by the U.S. Department of the Treasury or the Internal Revenue Service ("Section 409A"). Any provision of the Plan or this Agreement that would cause this Award to fail to satisfy Section 409A shall have no force or effect until amended to comply with Section 409A, which amendment may be retroactive to the extent permitted by Section 409A.

Notwithstanding any provision of the Plan to the contrary, if the Grantee is a "specified employee" (as defined in Section 1.409A-1(i) of the Treasury Department Regulations) at the time of the Grantee's "separation from service" (as defined in Section 1.409A-1(h) of the Treasury Department Regulations), and a payment to the Grantee under this Agreement is subject to Section 409A and is being made to the Grantee on account of the Grantee's separation from service, then to the extent not paid on or before March 15 of the calendar year following the calendar year in which the separation from service occurred, such payment shall be delayed until the earlier of the date which is six (6) months after the date of the Grantee's separation from service or the date of death of the Grantee. Any payments that were scheduled to be paid during the six (6) month period following the Grantee's separation from service, but which were delayed pursuant to this Section 12(h), shall be paid without interest on, or as soon as administratively practicable after, the first day following the six (6) month anniversary of the Grantee's separation from service (or, if earlier, the date of the Grantee's death). Any payments that were originally scheduled to be paid following the six (6) months after the Grantee's separation from service shall continue to be paid in accordance with their predetermined schedule.

- i. Agreement with Terms. Receipt of any benefits under this Agreement by the Grantee shall constitute the Grantee's acceptance of and agreement with all of the provisions of this Agreement and of the Plan that are applicable to this Agreement, and the Company shall administer this Agreement accordingly.

THE CLOROX COMPANY

By: *Don Kinn*

Its: Chairman of the Board and CEO

THE GRANTEE ACKNOWLEDGES AND AGREES THAT THIS AGREEMENT IS A UNILATERAL CONTRACT AND THAT THE GRANTEE'S RIGHT TO THE SHARES PURSUANT TO THIS AGREEMENT IS ACCEPTED AND EARNED ONLY BY CONTINUING EMPLOYMENT AT THE WILL OF THE COMPANY (NOT THROUGH THE ACT OF BEING HIRED, BEING GRANTED THIS AWARD OR ACQUIRING SHARES HEREUNDER) AND BY ACHIEVEMENT OF THE PERFORMANCE CRITERIA AND BY COMPLIANCE WITH THE GRANTEE'S VARIOUS OBLIGATIONS UNDER THIS AGREEMENT. THE GRANTEE FURTHER ACKNOWLEDGES AND AGREES THAT NOTHING IN THIS AGREEMENT, NOR IN THE PLAN, SHALL CONFER UPON THE GRANTEE ANY RIGHT WITH RESPECT TO CONTINUATION OF EMPLOYMENT BY THE COMPANY, NOR SHALL IT INTERFERE IN ANY WAY WITH THE GRANTEE'S RIGHT OR THE COMPANY'S RIGHT TO TERMINATE THE GRANTEE'S EMPLOYMENT AT ANY TIME, FOR ANY REASON OR NO REASON, WITH OR WITHOUT CAUSE, AND WITH OR WITHOUT ADVANCE NOTICE EXCEPT AS MAY BE REQUIRED BY APPLICABLE LAW.

The Grantee acknowledges that a copy of the Plan, Plan Information and the Company's Annual Report and Proxy Statement (the "Prospectus Information") are available for viewing on the Company's Cloroxweb site at <http://CLOROXWEB.clorox.com/hr/stock>. The Grantee hereby consents to receive the Prospectus Information electronically or, in the alternative, to contact the HR Service Center at 1-800-709-7095 to request a paper copy of the Prospectus Information. The Grantee represents that s/he is familiar with the terms and provisions thereof, and hereby accepts this Agreement subject to all of the terms and provisions thereof. The Grantee has reviewed the Plan and this Agreement in their entirety, has had an opportunity to obtain the advice of counsel prior to executing this Agreement and fully understands all provisions of the Agreement. The Grantee acknowledges and hereby agrees to accept as binding, conclusive and final all decisions or interpretations of the Committee upon any questions arising under the Plan or this Agreement. The Grantee further agrees to notify the Company upon any change in the residence address indicated below.

**THE CLOROX COMPANY
2005 STOCK INCENTIVE PLAN
NONQUALIFIED STOCK OPTION AWARD AGREEMENT**

NOTICE OF STOCK OPTION GRANT

The Clorox Company, a Delaware company (the “Company”), grants to the Optionee named below an option (the “Option”) to purchase, in accordance with the terms of The Clorox Company 2005 Stock Incentive Plan (the “Plan”) and this nonqualified stock option agreement (the “Agreement”), the number of shares of Common Stock of the Company (the “Shares”) at the exercise price per share (the “Exercise Price”) set forth as follows:

OPTIONEE	(refer to UBS Financial Services Inc. (“UBS”) account for details)
OPTIONS GRANTED	(refer to UBS account for details)
GRANT CODE	(refer to UBS account for details)
EXERCISE PER SHARE	(refer to UBS account for details)
DATE OF GRANT	(refer to UBS account for details)
EXPIRATION DATE	Ten years from Date of Grant
VESTING SCHEDULE	25% on each of the first four anniversaries of the Date of Grant

AGREEMENT

1. Grant of Option. The Company hereby grants to the Optionee the Option to purchase the Shares at the Exercise Price, subject to the terms, definitions and provisions of the Plan and this Agreement. All terms, provisions, and conditions applicable to the Option set forth in the Plan and not set forth herein are incorporated by reference. To the extent any provision hereof is inconsistent with a provision of the Plan, the provisions of the Plan will govern. All capitalized terms that are used in this Agreement and not otherwise defined herein shall have the meanings ascribed to them in the Plan.

2. Exercise of Option.
 - a. Right to Exercise. This Option shall be exercisable prior to the expiration date set forth above (the “Expiration Date”), in accordance with the vesting schedule set forth above (the “Vesting Schedule”) and with the applicable provisions of the Plan and this Agreement. Except as otherwise specifically provided in this Agreement, in no event may this Option be exercised after the Expiration Date. Although vested within the meaning of Section 83 of the Internal Revenue Code since no substantial risk of forfeiture exists once the options become exercisable according to the Vesting Schedule above, the Options will not be earned until the Optionee has fulfilled all of the conditions precedent set forth in this Agreement, including, but not limited to, the obligations set forth in Sections 7(b), 7(c), 7(d), 7(e) and Section 8, and the Optionee shall have no right to retain the Shares or the value thereof upon vesting or exercise of the Options until all conditions precedent have been satisfied.

 - b. Method of Exercise. This Option shall be exercisable only by delivery of an exercise notice (printable from the Clorox Web at <http://CLOROXWEB.clorox.com/hr/stock> or available from the Company’s designee) (the “Exercise Notice”) which shall state the election to exercise the Option, the whole number of vested Shares in respect of which the Option is being exercised and such other provisions as may be required by the Committee. Such Exercise Notice shall be signed by the Optionee and shall be delivered by mail or fax, to the Company’s designee accompanied by payment of the Exercise Price. The Company may require the Optionee to furnish or execute such other documents as the Company shall reasonably deem necessary (1) to evidence such exercise and (2) to comply with or satisfy the requirements of the Securities Act of 1933, as amended, the Exchange Act, or any Applicable Laws. The Option shall be deemed to be exercised upon receipt by the Company’s designee of such written notice accompanied by the Exercise Price.

No Shares will be issued pursuant to the exercise of the Option unless such issuance and such exercise shall comply with all Applicable Laws. Assuming such compliance, for income tax purposes, the Shares shall be considered transferred to the Optionee on the date on which the Option is exercised with respect to such Shares.

- c. Taxes. Pursuant to Section 16 of the Plan, the Committee shall have the power and the right to deduct or withhold, or require the Optionee to remit to the Company, an amount sufficient to satisfy any applicable tax withholding requirements applicable to this Option. The Committee may condition the issuance of Shares upon the Optionee's satisfaction of such withholding obligations. The Optionee may elect to satisfy all or part of such withholding requirement by tendering previously-owned Shares or by having the Company withhold Shares having a Fair Market Value equal to the minimum statutory tax withholding rate that could be imposed on the transaction (or such other rate that will not result in a negative accounting impact) or in such other manner as is acceptable to the Company. Such election shall be irrevocable, made in writing, signed by the Optionee, and shall be subject to any restrictions or limitations that the Committee, in its sole discretion, deems appropriate.
3. Method of Payment. Pursuant to Section 6(f) of the Plan and subject to such limitations as the Committee may impose (including prohibition of one or more of the following payment methods), payment of the Exercise Price may be made in cash or by check, Shares or a combination thereof.
4. Termination of Employment or Service and Expiration of Exercise Period.
- a. Termination of Employment or Service. If the Optionee's employment or service with the Company and its Subsidiaries is terminated, the Optionee may exercise all or part of this Option prior to the expiration dates set forth in paragraph (b) herein, but only to the extent that the Option had become vested before the Optionee's employment or service terminated. Notwithstanding the above, if the Optionee's termination of employment or service (1) is due to Retirement and is more than 12 months from the Date of Grant set forth in this Agreement, or (2) is due to death or Disability, the Option shall become 100% vested and shall remain exercisable until the expiration dates determined pursuant to paragraph (b) of this Section.
- When the Optionee's employment or service with the Company and its Subsidiaries terminates (except when due to Retirement, death or Disability), this Option shall expire immediately with respect to the number of Shares for which the Option is not yet vested. If the Optionee dies after termination of employment or service, but before the expiration of the Option, all or part of this Option may be exercised (prior to expiration) by the personal representative of the Optionee or by any person who has acquired this Option directly from the Optionee by will, bequest or inheritance, but only to the extent that the Option was vested and exercisable upon termination of the Optionee's employment or service.
- b. Expiration of Exercise Period. Upon termination of the Optionee's employment or service with the Company and its Subsidiaries, the Option shall expire on the earliest of the following occasions:
- i. The Expiration Date;
 - ii. The date ninety (90) days following the termination of the Optionee's employment or service for any reason other than Cause, death, Disability, or Retirement;
 - iii. The date one year following the termination of the Optionee's employment or service due to death or Disability;
 - iv. The date five (5) years following the termination of the Optionee's employment or service due to Retirement, provided the Optionee's Retirement is more than 12 months from the Date of Grant set forth in this Agreement; or
 - v. The date of termination of the Optionee's employment or service for Cause.
- c. Definition of "Retirement". For purposes of this Agreement, the Optionee's employment or service shall be deemed to have terminated due to "Retirement" if the Optionee terminates employment or service as an Employee for any reason, including Disability (but other than for Cause) after (1) twenty (20) or more years of "vesting service," which solely for purposes of this Agreement, shall be calculated under Article III of The Clorox Company 401(k) Plan (the "401(k) Plan") entitled "Service" along with any other relevant provisions of the 401(k) Plan necessary or desirable to give full effect thereto, or any successor provisions, regardless of the status of the Optionee with respect to the 401(k) Plan ("Vesting Service"), or (2) attaining age fifty-five (55) with ten (10) or more years of Vesting Service.

- d. Definition of "Disability." For purposes of this Agreement, the Optionee's employment shall be deemed to have terminated due to the Optionee's Disability if the Optionee is entitled to long-term disability benefits under the Company's long-term disability plan or policy, as in effect on the date of termination of the Optionee's employment.
5. Change in Control. Upon the occurrence of a Change in Control, unless otherwise specifically prohibited under Applicable Laws or by the rules and regulations of any governing governmental agencies or national securities exchanges, the Option shall become 100% vested and immediately exercisable, unless such Option is assumed, converted or replaced by the continuing entity; provided, however, that in the event the Participant's employment is terminated without Cause or by the Participant for Good Reason upon or within twenty-four (24) months following consummation of a Change in Control, any replacement awards will become immediately exercisable. For purposes of this Agreement, the term "Good Reason" shall have the meaning set forth in any employment agreement or severance agreement or policy applicable to the Optionee. If the Optionee is not a party to any agreement or covered by a policy in which a definition of "Good Reason" is provided, then the following definition shall apply:

"Good Reason" means resignation of the Optionee in connection with the occurrence of any of the following events without the Optionee's written consent (provided that notice of such event is provided within 90 days following the first occurrence thereof):

- a. The assignment to the Optionee of any duties inconsistent in any material respect with the Optionee's position (including offices, titles and reporting requirements), authority, duties or responsibilities as they existed at any time during the 120-day period immediately preceding the Change in Control, or any other action by the Company which results in a material diminution in such position, authority, duties or responsibilities, excluding for this purpose an isolated, insubstantial and inadvertent action not taken in bad faith and which is remedied by the Company promptly after receipt of notice thereof given by the Optionee; or
- b. Any material reduction by the Company of the Optionee's Base Salary or bonus target, other than an isolated, insubstantial and inadvertent failure not occurring in bad faith and which is remedied by the Company promptly after receipt of notice thereof given by the Optionee; or
- c. The Company requires the Optionee to be based at any office or location which increases his commute by more than 50 miles from his commute immediately prior to the Change in Control.

Any notice provided by the Optionee under this "Good Reason" provision shall mean a written notice which (1) indicates the specific termination provision in the Good Reason definition relied upon, (2) to the extent applicable, sets forth in reasonable detail the facts and circumstances claimed to provide a basis for termination of the Optionee's employment under the provision so indicated and (3) the Optionee's intended separation date if the Company does not cure the issue (which date shall be not less than thirty (30) days after the giving of such notice).

6. Transferability of Option. This Option shall not be transferable by the Optionee other than by will or the laws of descent and distribution, and the Option shall be exercisable during the Optionee's lifetime only by the Optionee or on his or her behalf by the Optionee's guardian or legal representative.
7. Protection of Trade Secrets and Limitations on Exercise.
- a. Definitions.
 - i. "Affiliated Company" means any organization controlling, controlled by or under common control with the Company.
 - ii. "Confidential Information" means the Company's technical or business or personnel information not readily available to the public or generally known in the trade, including inventions, developments, trade secrets and other confidential information, knowledge, data and know-how of the company or any Affiliated Company, whether or not they originated with the Optionee, or information which the Company or any Affiliated Company received from third parties under an obligation of confidentiality.

- iii. “Conflicting Product” means any product, process, machine, or service of any person or organization, other than the Company or any Affiliated Company, in existence or under development that (1) resembles or competes with a product, process, machine, or service upon or with which the Optionee shall have worked during the two years prior to the Optionee’s termination of employment with the Company or any Affiliated Company or (2) with respect to which during that period of time the Optionee, as a result of his/her job performance and duties, shall have acquired knowledge of Confidential Information, and whose use or marketability could be enhanced by application to it of Confidential Information. For purposes of this section, it shall be conclusively presumed that the Optionee has knowledge of information to which s/he has been directly exposed through actual receipt or review of memorandum or documents containing such information or through actual attendance at meetings at which such information was discussed or disclosed.
- iv. “Conflicting Organization” means any person or organization that is engaged in or about to become engaged in research on or development, production, marketing or selling of a Conflicting Product.
- b. Right to Retain Shares Contingent on Protection of Confidential Information . In partial consideration for the award of this Option, the Optionee agrees that at all times, both during and after the term of the Optionee’s employment with the Company or any Affiliated Company, to hold in the strictest confidence, and not to use (except for the benefit of the Company at the Company’s direction) or disclose (except for the benefit of the Company at the Company’s direction), regardless of when disclosed to the Optionee, any and all Confidential Information of the Company or any Affiliated Company. The Optionee understands that for purposes of this Section 7 (b), Confidential Information further includes, but is not limited to, information pertaining to any aspect of the business of the Company or any Affiliated Company which is either information not known (or known as a result of a wrongful act of the Optionee or of others who were under confidentiality obligations as to the item or items involved) by actual or potential competitors of the Company or other third parties not under confidentiality obligations to the Company. If, prior to the expiration of the Option or at any time within one (1) year after the date of exercise of all or any portion of the Option, the Optionee discloses or uses, or threatens to disclose or use, any Confidential Information other than in the course of performing authorized services for the Company (or any Affiliated Company), the unexercised portion of the Option, whether vested or not, will be immediately forfeited and cancelled, and the Optionee shall immediately return to the Company the Shares or the pre-tax income derived from any disposition of the Shares.
- c. No Interference with Customers or Suppliers . In partial consideration for the award of this Option, in order to forestall the disclosure or use of Confidential Information as well as to avoid the Optionee’s intentional interference with the contractual relations of the Company or any Affiliated Company, the Optionee’s intentional interference with prospective economic advantage of the Company or any Affiliated Company and to promote fair competition, the Optionee agrees that the Optionee’s right to exercise this Option is contingent upon the Optionee refraining, prior to the expiration of the Option and for a period of one (1) year after the date of exercise, for himself/herself or any third party, directly or indirectly, from using Confidential Information to (1) divert or attempt to divert from the Company (or any Affiliated Company) any business of any kind in which it is engaged, or (2) intentionally solicit its customers with which it has a contractual relationship as to Conflicting Products, or interfere with the contractual relationship with any of its suppliers or customers (collectively, “Interfere”). If, during the term of the Option or at any time within one (1) year after the date of exercise of all or any portion of the Option, the Optionee breaches his/her obligation not to Interfere, the Optionee’s right to the Shares upon exercise of the Option shall not have been earned and the unexercised portion of the Option, whether vested or not, will be immediately cancelled, and the Optionee shall immediately return to the Company any Shares acquired upon exercise of the Option or the pre-tax income derived from any disposition of such Shares. For avoidance of doubt, the term “Interfere” shall not include any advertisement of Conflicting Products through the use of media intended to reach a broad public audience (such as television, cable or radio broadcasts, or newspapers or magazines) or the broad distribution of coupons through the use of direct mail or through independent retail outlets. THE OPTIONEE UNDERSTANDS THAT THIS PARAGRAPH IS NOT INTENDED TO AND DOES NOT PROHIBIT THE CONDUCT DESCRIBED, BUT PROVIDES FOR THE CANCELLATION OF THE UNEXERCISED PORTION OF THE OPTION AND A RETURN TO THE COMPANY OF THE SHARES OR THE GROSS TAXABLE PROCEEDS OF SHARES ISSUED UPON AN EXERCISE OF THE OPTION IF THE OPTIONEE SHOULD CHOOSE TO VIOLATE THIS “NO INTERFERENCE WITH CUSTOMERS OR SUPPLIERS” PROVISION PRIOR TO THE EXPIRATION OF THE OPTION OR WITHIN ONE (1) YEAR AFTER EXERCISE.

- d. No Solicitation of Employees. In partial consideration for the award of this Option, in order to forestall the disclosure or use of Confidential Information, as well as to deter the Optionee's intentional interference with the contractual relations of the Company or any Affiliated Company, the Optionee's intentional interference with prospective economic advantage of the Company or any Affiliated Company, and to promote fair competition, the Optionee agrees that the Optionee's right to exercise this Option is contingent upon the Optionee refraining, prior to the expiration of the Option and for a period of one (1) year after the date of exercise, for himself/herself or any third party, directly or indirectly, from soliciting for employment any person employed by the Company, or by any Affiliated Company, during the period of the solicited person's employment and for a period of one (1) year after the termination of the solicited person's employment with the Company or any Affiliated Company (collectively "Solicit"). If, during the term of the Option or at any time within one (1) year after the date of exercise of all or any portion of the Option, the Optionee breaches his/her obligation not to Solicit, the Optionee's right to the Shares upon exercise of the Option shall not have been earned and the unexercised portion of the Option, whether vested or not, will be immediately cancelled, and the Optionee shall immediately return to the Company any Shares acquired upon exercise of the Option or the pre-tax income derived from any disposition of such Shares. THE OPTIONEE UNDERSTANDS THAT THIS PARAGRAPH IS NOT INTENDED TO AND DOES NOT PROHIBIT THE CONDUCT DESCRIBED, BUT PROVIDES FOR THE CANCELLATION OF THE UNEXERCISED PORTION OF THE OPTION AND A RETURN TO THE COMPANY OF THE SHARES OR THE GROSS TAXABLE PROCEEDS OF SHARES ISSUED UPON AN EXERCISE OF THE OPTION IF THE OPTIONEE SHOULD CHOOSE TO VIOLATE THIS NON-SOLICITATION OF EMPLOYEES PROVISION PRIOR TO THE EXPIRATION OF THE OPTION OR WITHIN ONE (1) YEAR AFTER EXERCISE.
- e. Injunctive and Other Available Relief. By acceptance of this Option, the Optionee acknowledges that, if the Optionee were to breach or threaten to breach his/her obligation hereunder not to Interfere or Solicit or not to disclose or use any Confidential Information other than in the course of performing authorized services for the Company (or any Affiliated Company), the harm caused to the Company by such breach or threatened breach would be, by its nature, irreparable because, among other things, damages would be significant and the monetary harm that would ensue would not be able to be readily proven, and that the Company would be entitled to injunctive and other appropriate relief to prevent threatened or continued breach and to such other remedies as may be available at law or in equity. To the extent not prohibited by law, any cancellation of the Option pursuant to any of Sections 7(b) through 7(d) above shall not restrict, abridge or limit in any fashion the types and scope of injunctive and other available relief to the Company. Notwithstanding any provision of this Agreement to the contrary, nothing under this Agreement shall limit, abridge, modify or otherwise restrict the Company (or any Affiliated Company) from pursuing any or all legal, equitable or other appropriate remedies to which the Company may be entitled under any other agreement with the Optionee, any other plan, program, policy or arrangement of the Company (or any Affiliated Company) under which the Optionee is covered or participates, or any applicable law, all to the fullest extent not prohibited under applicable law.

8. Right to Retain Shares Contingent on Continuing Non-Conflicting Employment. In partial consideration for the award of this Option in order to forestall the disclosure or use of Confidential Information, as well as to deter the Optionee's intentional interference with the contractual relations of the Company or any Affiliated Company, the Optionee's intentional interference with prospective economic advantage of the Company or any Affiliated Company, and to promote fair competition, the Optionee agrees that the Optionee's right to exercise this Option is contingent upon the Optionee refraining, prior to the expiration of the Option and for a period of one (1) year after the date of exercise, from rendering services, directly or indirectly, as director, officer, employee, agent, consultant or otherwise, to any Conflicting Organization except a Conflicting Organization whose business is diversified and that, as to that part of its business to which the Optionee renders services, is not a Conflicting Organization, provided that the Company shall receive separate written assurances satisfactory to the Company from the Optionee and the Conflicting Organization that the Optionee shall not render services during such period with respect to a Conflicting Product. If, prior to the expiration of the Option or at any time within one (1) year after the date of exercise of all or any portion of the Option, the Optionee shall render services to any Conflicting Organization other than as expressly permitted herein, the Optionee's right to the Shares upon exercise of the Option shall not have been earned and the unexercised portion of the Option, whether vested or not, will be immediately cancelled, and the Optionee shall immediately return to the Company any Shares acquired upon exercise of the Option or the pre-tax income derived from any disposition of such Shares. THE OPTIONEE UNDERSTANDS THAT THIS PARAGRAPH IS NOT INTENDED TO AND DOES NOT PROHIBIT THE OPTIONEE FROM RENDERING SERVICES TO A CONFLICTING ORGANIZATION, BUT PROVIDES FOR THE CANCELLATION OF THE UNEXERCISED PORTION OF THE OPTION AND A RETURN TO THE COMPANY OF THE SHARES OR THE GROSS TAXABLE PROCEEDS OF SHARES ISSUED UPON AN EXERCISE OF THE OPTION IF THE OPTIONEE SHOULD CHOOSE TO RENDER SUCH SERVICES PRIOR TO THE EXPIRATION OF THE OPTION OR WITHIN ONE (1) YEAR AFTER EXERCISE.
9. Repayment Obligation. In the event that (1) the Company issues a significant restatement of financial results and (2) the Committee determines, in good faith, that the Optionee's fraud or misconduct was a significant contributing factor to such restatement and (3) some or all of the Option that was granted and/or vested prior to such restatement would not have been granted and/or vested, as applicable, based upon the restated financial results, the Optionee shall immediately return to the Company the unexercised portion of the Option and any Shares or the pre-tax income derived from any disposition of the Shares previously received in upon exercise of the Option that would not have been granted and/or vested based upon the restated financial results. Notwithstanding anything herein to the contrary, in no event shall the Repayment Obligation apply to any portion of the Option that vested more than four years prior to the date the applicable restatement is announced. The Company shall be able to enforce the Repayment Obligation by all legal means available, including, without limitation, by withholding such amount from other sums owed by the Company to the Optionee.
10. Miscellaneous Provisions.
- a. Rights as a Stockholder. Neither the Optionee nor the Optionee's transferee or representative shall have any rights as a stockholder with respect to any Shares subject to this Option until the Option has been exercised and Share certificates have been issued to the Optionee, transferee or representative, as the case may be.
- b. Choice of Law, Exclusive Jurisdiction and Venue. This Agreement shall be governed by, and construed in accordance with, the laws of the State of Delaware, excluding any conflicts or choice of law rule or principle that might otherwise refer construction or interpretation of this Agreement to the substantive law of another jurisdiction. The courts of the State of Delaware shall have exclusive jurisdiction over any disputes or other proceedings relating to this Agreement, and venue shall reside with the courts in New Castle County, Delaware, including if jurisdiction shall so permit, the U.S. District Court for the District of Delaware. Accordingly, the Optionee agrees that any claim of any type relating to this Agreement must be brought and maintained in the appropriate court located in New Castle County, Delaware, including if jurisdiction will so permit, in the U.S. District Court for the State of Delaware. The Optionee hereby consents to the jurisdiction over the Optionee of any such courts and waives all objections based on venue or inconvenient forum.
- c. Modification or Amendment. This Agreement may be modified or amended by the Board or the Committee at any time; provided, however, no modification or amendment to this Agreement shall be made which would materially and adversely affect the rights of the Optionee, without such Optionee's written consent.

- d. Severability. In the event any provision of this Agreement shall be held illegal or invalid for any reason, the illegality or invalidity shall not affect the remaining provisions of this Agreement, and this Agreement shall be construed and enforced to reflect the intent of the parties to the fullest extent not prohibited by law, and in the event that such provision is not able to be so construed and enforced, then this Agreement shall be construed and enforced as if such illegal or invalid provision had not been included. In amplification of the preceding sentence, in the event that the time period or scope of any provision is declared by a court or an arbitrator of competent jurisdiction to exceed the maximum time period or scope that such court or arbitrator deems enforceable, then such court or arbitrator shall have the power to reduce the time period or scope to the maximum time period or scope permitted by law.
- e. References to Plan. All references to the Plan shall be deemed references to the Plan as may be amended.
- f. Headings. The captions used in this Agreement are inserted for convenience and shall not be deemed a part of this Option for construction or interpretation.
- g. Interpretation. Any dispute regarding the interpretation of this Agreement shall be submitted by the Optionee or by the Company forthwith to the Board or the Committee, which shall review such dispute at its next regular meeting. The resolution of such dispute by the Board or the Committee shall be final and binding on all persons. It is the intention of the Company and the Optionee to make the promises contained in this Agreement reasonable and binding only to the extent that it may be lawfully done under existing applicable laws. This Agreement and the Plan constitute the entire and exclusive agreement between the Optionee and the Company, and it supersedes all prior agreements or understandings, whether written or oral, with respect to the grant of Options set forth in this Agreement.
- h. Section 409A Compliance. To the extent applicable, it is intended that the Plan and this Agreement comply with the requirements of Section 409A of the Internal Revenue Code of 1986, as amended (the "Code") and any related regulations or other guidance promulgated with respect to such Section by the U.S. Department of the Treasury or the Internal Revenue Service ("Section 409A"). Any provision of the Plan or this Agreement that would cause this Award to fail to satisfy Section 409A shall have no force or effect until amended to comply with Section 409A, which amendment may be retroactive to the extent permitted by Section 409A.
- i. Agreement with Terms. Receipt of any benefits under this Agreement by the Optionee shall constitute the Optionee's acceptance of an agreement with all of the provisions of this Agreement and of the Plan that are applicable to this Agreement, and the Company shall administer this Agreement accordingly.

THE CLOROX COMPANY

By: 

Its: Chairman of the Board and CEO

THE OPTIONEE ACKNOWLEDGES AND AGREES THAT THIS AGREEMENT IS A UNILATERAL CONTRACT AND THAT AT THE OPTIONEE'S RIGHT TO THE SHARES PURSUANT TO THE OPTION HEREOF IS ACCEPTED AND EARNESTED ONLY BY CONTINUING EMPLOYMENT AT THE WILL OF THE COMPANY (NOT THROUGH THE ACT OF BEING HIRED, BEING GRANTED THIS OPTION OR ACQUIRING SHARES HEREUNDER) AND BY COMPLIANCE WITH THE OPTIONEE'S VARIOUS OBLIGATIONS UNDER THIS AGREEMENT. THE OPTIONEE FURTHER ACKNOWLEDGES AND AGREES THAT NOTHING IN THIS AGREEMENT, NOR IN THE PLAN, SHALL CONFER UPON THE OPTIONEE ANY RIGHT WITH RESPECT TO CONTINUATION OF EMPLOYMENT BY THE COMPANY, NOR SHALL IT INTERFERE IN ANY WAY WITH THE OPTIONEE'S RIGHT OR THE COMPANY'S RIGHT TO TERMINATE THE OPTIONEE'S EMPLOYMENT AT ANY TIME, FOR ANY REASON OR NO REASON, WITH OR WITHOUT CAUSE, AND WITH OR WITHOUT ADVANCE NOTICE EXCEPT AS MAY BE REQUIRED BY APPLICABLE LAW.

The Optionee acknowledges that a copy of the Plan, Plan Information and the Company's Annual Report and Proxy Statement (the "Prospectus Information") are available for viewing on the Company's Cloroxweb site at <http://CLOROXWEB.clorox.com/hr/stock>. The Optionee hereby consents to receive the Prospectus Information electronically or, in the alternative, to contact the HR Service Center at 1-800-709-7095 to request a paper copy of the Prospectus Information. The Optionee represents that s/he is familiar with the terms and provisions thereof, and hereby accepts this Agreement subject to all of the terms and provisions thereof. The Optionee has reviewed the Plan and this Agreement in their entirety, has had an opportunity to obtain the advice of counsel prior to executing this Agreement and fully understands all provisions of this Agreement. The Optionee acknowledges and hereby agrees to accept as binding, conclusive and final all decisions or interpretations of the Committee upon any questions arising under the Plan or this Agreement. The Optionee further agrees to notify the Company upon any change in the residence address indicated below.

CERTIFICATION

I, Donald R. Knauss, certify that:

1. I have reviewed this annual report on Form 10-K of The Clorox Company;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

CERTIFICATION

In connection with the periodic report of The Clorox Company (the "Company") on Form 10-K for the period ended June 30, 2014, as filed with the Securities and Exchange Commission (the "Report"), we, Donald R. Knauss, Chief Executive Officer of the Company, and Stephen M. Robb, Chief Financial Officer of the Company, hereby certify as of the date hereof, solely for purposes of Title 18, Chapter 63, Section 1350 of the United States Code, that to the best of our knowledge:

- (1) the Report fully complies with the requirements of Section 13(a) or 15(d), as applicable, of the Securities Exchange Act of 1934, and
- (2) the information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company at the dates and for the periods indicated.

This Certification has not been, and shall not be deemed, "filed" with the Securities and Exchange Commission.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND
RESULTS OF OPERATIONS**

The Clorox Company

(Dollars in millions, except per share amounts)

Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) is designed to provide a reader of The Clorox Company's (the Company or Clorox) financial statements with a narrative from the perspective of management on the Company's financial condition, results of operations, liquidity and certain other factors that may affect future results. In certain instances, parenthetical references are made to relevant sections of the Notes to Consolidated Financial Statements to direct the reader to a further detailed discussion. This section should be read in conjunction with the Consolidated Financial Statements and Supplementary Data included in this Annual Report on Form 10-K. The following sections are included herein:

- Executive Overview
- Results of Operations
- Financial Position and Liquidity
- Contingencies
- Quantitative and Qualitative Disclosures about Market Risk
- Recently Issued Accounting Pronouncements
- Critical Accounting Policies and Estimates
- Summary of Non-GAAP Financial Measures

EXECUTIVE OVERVIEW

Clorox is a leading multinational manufacturer and marketer of consumer and professional products with approximately 8,200 employees worldwide and fiscal year 2014 net sales of \$5,591. Clorox sells its products primarily through mass retail outlets, e-commerce channels, distributors and medical supply providers. Clorox markets some of the most trusted and recognized consumer brand names, including its namesake bleach and cleaning products, Kingsford[®] charcoal, Pine-Sol[®] cleaners, Poett[®] home care products, Fresh Step[®] cat litter, Glad[®] bags, wraps and containers, Hidden Valley[®] and KC Masterpiece[®] dressings and sauces, Brita[®] water-filtration products and Burt's Bees[®] natural personal care products. The Company also markets brands for professional services, including Clorox Healthcare[®] and Dispatch[®] infection control products for the healthcare industry. The Company manufactures products in more than a dozen countries and markets them in more than 100 countries.

The Company primarily markets its leading brands in midsized categories considered to be financially attractive. Most of the Company's products compete with other nationally advertised brands within each category and with "private label" brands.

The Company operates through strategic business units that are aggregated into four reportable segments: Cleaning, Household, Lifestyle and International.

- *Cleaning* consists of laundry, home care and professional products marketed and sold in the United States. Products within this segment include laundry additives, including bleach products under the Clorox[®] brand and Clorox 2[®] stain fighter and color booster; home care products, primarily under the Clorox[®], Formula 409[®], Liquid-Plumr[®], Pine-Sol[®], S.O.S[®] and Tilex[®] brands; naturally derived products under the Green Works[®] brand; and professional cleaning and disinfecting products under the Clorox[®], Dispatch[®], Aplicare[®], HealthLink[®] and Clorox Healthcare[®] brands.
- *Household* consists of charcoal, cat litter and plastic bags, wraps and container products marketed and sold in the United States. Products within this segment include plastic bags, wraps and containers under the Glad[®] brand; cat litter products under the Fresh Step[®], Scoop Away[®] and Ever Clean[®] brands; and charcoal products under the Kingsford[®] and Match Light[®] brands.

- *Lifestyle* consists of food products, water-filtration systems and filters and natural personal care products marketed and sold in the United States. Products within this segment include dressings and sauces, primarily under the Hidden Valley[®], KC Masterpiece[®] and Soy Vay[®] brands; water-filtration systems and filters under the Brita[®] brand; and natural personal care products under the Burt's Bees[®] brand.
- *International* consists of products sold outside the United States. Products within this segment include laundry, home care, water-filtration, charcoal and cat litter products, dressings and sauces, plastic bags, wraps and containers and natural personal care products, primarily under the Clorox[®], Javex[®], Glad[®], PinoLuz[®], Ayudin[®], Limpido[®], Clorinda[®], Poett[®], Mistolin[®], Lestoil[®], Bon Bril[®], Nevex[®], Brita[®], Green Works[®], Pine-Sol[®], Agua Jane[®], Chux[®], Kingsford[®], Fresh Step[®], Scoop Away[®], Ever Clean[®], KC Masterpiece[®], Hidden Valley[®] and Burt's Bees[®] brands.

Non-GAAP Financial Measures

This Executive Overview, the succeeding sections of MD&A and Exhibit 99.3 include certain financial measures that are not defined by accounting principles generally accepted in the United States of America (U.S. GAAP). These measures, which are referred to as non-GAAP measures, are listed below.

- *Currency-neutral net sales growth*
- *Economic profit (EP)*
- *Free cash flow and free cash flow as a percentage of net sales*
- *Earnings from continuing operations before interest and taxes (EBIT) margin (the ratio of EBIT to net sales)*
- *Debt to earnings from continuing operations before interest, taxes, depreciation and amortization, and noncash intangible asset impairment charges ratio (Adjusted EBITDA ratio)*

For a discussion of these measures and the reasons management believes they are useful to investors, refer to “Summary of Non-GAAP Financial Measures” below. For a discussion of the Adjusted EBITDA ratio, please refer to “*Credit Arrangements*” below. This MD&A and Exhibit 99.3 include reconciliations of these non-GAAP measures to the most directly comparable financial measures calculated and presented in accordance with U.S. GAAP.

Fiscal Year 2014 Financial Highlights

A detailed discussion of strategic goals, key initiatives and results of operations are included below. Key fiscal year 2014 financial results are summarized as follows:

- The Company reported earnings from continuing operations of \$562 in fiscal year 2014, compared to \$574 in fiscal year 2013, and net cash flows from continuing operations of \$771 in fiscal year 2014, compared to \$777 in fiscal year 2013.
- The Company's fiscal year 2014 net sales decreased 0.6% to \$5,591 from \$5,623 in fiscal year 2013, reflecting the impact of unfavorable foreign currency exchange rates, partially offset by the benefit of price increases. On a currency-neutral basis, net sales increased 1.8%.
- Gross margin decreased 70 basis points to 42.2% in fiscal year 2014 from 42.9% in fiscal year 2013, reflecting the impact of higher manufacturing and logistics costs and increased commodity costs, partially offset by the benefits of cost savings and price increases.
- EP decreased to \$407 in fiscal year 2014 compared to \$426 in fiscal year 2013 (refer to the reconciliation of EP to earnings from continuing operations before income taxes in Exhibit 99.3).
- The Company delivered diluted net earnings per share from continuing operations in fiscal year 2014 of \$4.26, a decrease of approximately 1% from fiscal year 2013 diluted net earnings per share of \$4.31.
- Free cash flow was \$633 or 11% of net sales in fiscal year 2014, an increase from \$583 or 10% of net sales in fiscal year 2013 (refer to “Free cash flow” below).
- The Company returned \$368 in cash dividends to stockholders in fiscal year 2014, and in May 2014 announced an increase of 4% in the annual cash dividend to \$2.96 per share from \$2.84 per share. In fiscal year 2014, the Company repurchased a total of 3 million shares of its common stock at a cost of approximately \$260.

Strategic Goals and Initiatives

In fiscal year 2014, Clorox introduced its 2020 Strategy, its strategic growth plan which directs the Company to the highest value opportunities for long-term, profitable growth and strong stockholder returns through the year 2020.

The long-term financial goals reflected in the Company's 2020 Strategy include annual net sales growth of 3-5%, market share growth, annual EBIT margin growth between 25-50 basis points and annual free cash flow as a percentage of net sales of about 10-12%, which Clorox anticipates using to invest in the business, maintain debt leverage within its target range and return excess cash to stockholders.

In fiscal year 2015, Clorox anticipates certain continuing challenges to impact its sales results, including unfavorable foreign currency exchange rates, particularly in Argentina and Venezuela, soft U.S. retail categories and heightened competitive activity. The Company's priority in fiscal year 2015 is to reinvigorate its categories and grow its overall market share by increasing investment in demand-building programs, including trade promotion, advertising and consumer promotion. The Company is also focused on product innovation, with a goal to deliver 3% incremental sales growth from new products, line extensions and product improvements in fiscal year 2015.

Clorox is focused on enhancing its "3D" demand-creation model of Desire, Decide and Delight capabilities to ensure more targeted messaging for consumers that reinforces the value proposition of its brands, including marketing communications that drive consumer desire, in-store promotions that compel purchase decisions at the point of decide, and superior products that delight consumers.

Clorox will continue to reshape its portfolio toward businesses aligned with the four consumer megatrends of health and wellness, sustainability, consumer fragmentation and affordability/value. The Company is focused on growing its U.S. retail, professional products and international businesses: growing U.S. retail businesses through execution of its "3D" demand creation model, growing professional products by expanding its healthcare business organically and through bolt-on acquisitions, and growing international businesses by primarily focusing on existing markets where the Company has significant scale and competitive advantage.

Clorox's 2020 Strategy priorities include driving net sales growth and margin improvement. The Company anticipates improving its margins by reducing exposure to inflation in its products and operations, continuing to slow the growth of selling and administrative expenses by driving out low-value activity and rebuilding margin in its international businesses. The Company's 2020 Strategy also includes a goal to increase its total brand-building investment over time.

Looking forward, the Company will continue to execute against its 2020 Strategy to deliver profitable growth and long-term stockholder value.

RESULTS OF OPERATIONS

Management's discussion and analysis of the Company's results of operations, unless otherwise noted, compares fiscal year 2014 to fiscal year 2013, and fiscal year 2013 to fiscal year 2012, with percentage and basis point calculations based on rounded numbers, except as noted.

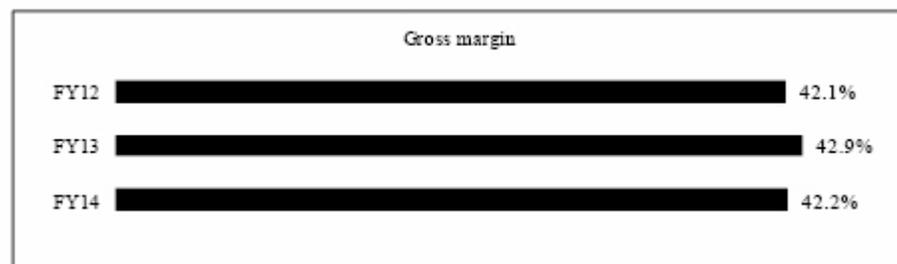

CONSOLIDATED RESULTS

Continuing operations

Net sales in fiscal year 2014 decreased 0.6%. Volume was flat, reflecting higher shipments of cleaning and healthcare products in the professional products business; higher shipments of charcoal products, primarily behind strong merchandising activities and improved weather conditions; higher shipments of Clorox[®] liquid bleach, driven by product innovation; and higher shipments of Hidden Valley[®] dry and bottled salad dressings, primarily due to continued category growth and increased merchandising activity. These increases were offset by lower shipments due to heightened competitive activity in the disinfecting wipes category, including the distribution loss of Clorox[®] disinfecting wipes at a major club customer; lower shipments of Glad[®] trash bags, primarily due to a price increase in the second half of fiscal year 2014; and lower shipments in Venezuela, due to manufacturing and supply chain constraints. The variance between volume and net sales was primarily due to unfavorable foreign currency exchange rates (240 basis points), partially offset by the benefit of price increases (160 basis points). On a currency-neutral basis, net sales increased about 1.8%.

Net sales in fiscal year 2013 increased 3%. Volume was flat, reflecting higher shipments in the professional products business, primarily due to base healthcare and cleaning business strength and the benefit of acquisitions in fiscal year 2012; higher shipments of Glad[®] premium trash bags, primarily due to new product innovation and increased merchandising events; higher shipments of Clorox[®] disinfecting wipes behind strong merchandising activities and a heightened flu season; higher shipments of Hidden Valley[®] products behind strong merchandising activity and innovation; higher shipments of Burt's Bees[®] natural personal care products, primarily driven by new product innovation and promotional events; and higher shipments of the new concentrated Clorox[®] liquid bleach. These increases were offset by lower shipments of charcoal products, primarily due to poor weather conditions and price increases; the exit from international nonstrategic export businesses; lower shipments of Brita[®] water-filtration products, primarily due to decreased merchandising activities, price increases and a comparison to strong volume in the prior year behind the launch of the Brita[®] Bottle; lower shipments of Glad[®] base trash bags, primarily due to decreased merchandising and a shift to premium trash products, and Glad[®] food storage products, primarily due to distribution losses; lower shipments of Clorox 2[®] stain fighter and color booster, primarily due to category softness and distribution losses; and lower shipments in Canada. Net sales growth outpaced volume primarily due to the benefit of price increases (270 basis points), partially offset by unfavorable foreign currency exchange rates (60 basis points).

Gross profit decreased 2% in fiscal year 2014, from \$2,412 to \$2,360, and gross margin, defined as gross profit as a percentage of net sales, decreased 70 basis points from 42.9% to 42.2%. Gross margin decline in fiscal year 2014 was driven by 160 basis points from higher manufacturing and logistics costs, including the impact of continued inflation in Venezuela and Argentina, and 120 basis points from higher commodity costs. These factors were partially offset by 140 basis points from cost savings and 80 basis points from the benefit of price increases.

Gross profit increased 5% in fiscal year 2013, from \$2,304 to \$2,412, and gross margin increased 80 basis points from 42.1% to 42.9%. Gross margin expansion in fiscal year 2013 was driven by 160 basis points from cost savings and 120 basis points from the benefit of price increases. These factors were partially offset by 170 basis points from higher manufacturing and logistics costs, including the impact of inflationary pressures in Argentina and Venezuela.

Expenses

				% Change		% of Net sales		
	2014	2013	2012	2014	2013	2014	2013	2012
				to	to			
Selling and administrative expenses	\$ 765	\$ 807	\$ 798	(5)%	1%	13.7%	14.4%	14.6%
Advertising costs	504	500	482	1	4	9.0	8.9	8.8
Research and development costs	125	130	121	(4)	7	2.2	2.3	2.2

Selling and administrative expenses decreased 5% in fiscal year 2014, primarily driven by lower employee incentive compensation costs, cost savings and a comparison to one-time costs associated with an information technology (IT) systems implementation in Latin America incurred in fiscal year 2013. These decreases were partially offset by one-time costs related to the transition to new IT service providers in fiscal year 2014.

Selling and administrative expenses increased 1% in fiscal year 2013, primarily driven by higher wages and employee benefits, largely due to international inflation, as well as investments made in systems and processes to support the long-term growth of the Burt's Bees[®] business. These increases were largely offset by prior-year non-repeating advisory fees related to a withdrawn proxy contest, as well as lower employee incentive compensation costs and cost savings in fiscal year 2013.

Advertising costs as a percentage of sales increased slightly during fiscal year 2014, reflecting an increase in spending on U.S. brands offset by reductions in spending in challenging markets outside the United States, particularly Venezuela and Argentina.

Advertising costs as a percentage of sales increased slightly during fiscal year 2013. Activity was primarily in support of new products, including the launch of new concentrated Clorox[®] liquid bleach and Burt's Bees[®] natural personal care products.

Research and development costs decreased slightly as a percentage of net sales in fiscal year 2014, primarily driven by lower employee incentive compensation costs.

Research and development costs increased slightly as a percentage of net sales in fiscal year 2013, primarily driven by costs related to the investment in and transition to the Company's Pleasanton, Calif., research and development facility.

Interest expense, other expense (income), net, and the effective tax rate on income from continuing operations

	2014	2013	2012
Interest expense	103	122	125
Other expense (income), net	2	-	(13)
Income taxes on continuing operations	299	279	248

Interest expense decreased \$19 and \$3 in fiscal years 2014 and 2013, respectively, primarily due to a lower weighted-average interest rate on long-term debt resulting from the issuance of senior notes in September 2012 and the maturities of senior notes in October 2012 and March 2013.

Other expense (income), net, of \$2 in fiscal year 2014 included \$11 of foreign currency exchange losses, including the impact of an effective currency devaluation resulting from the Company using the SICAD I currency exchange rate in Venezuela beginning in March 2014 (see "Venezuela" below), \$8 of amortization of trademarks and other intangible assets and \$4 of noncash trademark impairment charges as a result of the effective currency devaluation and economic environment in Venezuela. These factors were partially offset by \$(13) of income from equity investees, \$(5) of insurance and litigation settlements and other smaller items.

Other expense (income), net, of \$0 in fiscal year 2013 included \$(12) of income from equity investees, \$(4) from gains on fixed asset sales, net and \$(4) of low-income housing partnership gains, offset by \$11 of foreign currency exchange losses and \$9 of amortization of trademarks and other intangible assets.

Other expense (income), net, of \$(13) in fiscal year 2012 included \$(11) of income from equity investees and \$(6) of income from transition services related to the Company's sale of its global auto care businesses, partially offset by \$9 of amortization of trademarks and other intangible assets.

The effective tax rate on earnings from continuing operations was 34.7%, 32.7% and 31.4% in fiscal years 2014, 2013 and 2012, respectively. The increase in the fiscal year 2014 effective tax rate was primarily due to favorable tax settlements in the prior periods and higher taxes on foreign earnings in the current period. The higher effective tax rate in fiscal year 2013 compared to fiscal year 2012 was primarily due to lower taxes on foreign earnings and higher uncertain tax position releases in fiscal year 2012.

Diluted net earnings per share from continuing operations

	2014	2013	2012	% Change	
				2014 to 2013	2013 to 2012
Diluted net earnings per share from continuing operations	\$ 4.26	\$ 4.31	\$ 4.10	(1.2)%	5.1%

Diluted net earnings per share (EPS) from continuing operations decreased \$0.05 in fiscal year 2014, driven by higher manufacturing and logistics costs, higher commodity costs, unfavorable foreign currency exchange rates, incremental demand-building investments and a higher effective tax rate. In fiscal year 2014, diluted EPS from continuing operations was negatively affected by the macroeconomic challenges in Venezuela, including a \$0.14 impact from charges related to the effective devaluation of the Venezuelan currency (see "Venezuela" below). These factors were partially offset by the benefits of cost savings, price increases and reduced employee incentive compensation costs, reflecting significantly lower year-over-year payouts, as well as lower interest expense.

Diluted net EPS from continuing operations increased \$0.21 in fiscal year 2013, driven by the benefits of price increases and strong cost savings. These factors were partially offset by higher manufacturing and logistics costs and other supply chain costs, unfavorable foreign currency exchange rates and a higher effective tax rate.

Free cash flow

	2014	2013	2012
Net cash provided by continuing operations	\$ 771	\$ 777	\$ 620
Less: capital expenditures	(138)	(194)	(192)
Free cash flow	<u>\$ 633</u>	<u>\$ 583</u>	<u>\$ 428</u>
Free cash flow as a percentage of net sales	11.3%	10.4%	7.8%

Free cash flow as a percentage of net sales increased in fiscal year 2014, primarily due to lower capital expenditures.

Free cash flow as a percentage of net sales increased in fiscal year 2013, primarily due to favorable changes in working capital, the prior year settlement of interest rate forward contracts and higher earnings.

SEGMENT RESULTS FROM CONTINUING OPERATIONS

The following presents the results from continuing operations of the Company's reportable segments and certain unallocated costs reflected in Corporate (see Note 19 of the Notes to Consolidated Financial Statements for a reconciliation of segment results to consolidated results):

Cleaning

	2014	2013	2012	% Change	
				2014 to 2013	2013 to 2012
Net sales	\$ 1,776	\$ 1,783	\$ 1,692	-%	5%
Earnings from continuing operations before income taxes	428	420	381	2	10

Fiscal year 2014 versus fiscal year 2013: Net sales were flat and earnings from continuing operations before income taxes increased, while volume decreased during fiscal year 2014. Volume in the Cleaning segment decreased 1%, driven by lower shipments due to heightened competitive activity in the disinfecting wipes category, including the distribution loss of Clorox[®] disinfecting wipes at a major club customer. These decreases were partially offset by higher shipments of cleaning and healthcare products in the professional products business, and higher shipments of Clorox[®] liquid bleach driven by product innovation. The variance between net sales and volume was primarily due to the benefit of price increases (60 basis points) and other smaller items, partially offset by higher trade-promotion spending (60 basis points). The increase in earnings from continuing operations before income taxes was driven by \$33 of cost savings, primarily related to the Company's conversion to concentrated bleach in fiscal year 2013, \$12 of lower employee incentive compensation costs and various manufacturing and other efficiencies. These increases were partially offset by \$16 of increased commodity costs, primarily resin, \$10 of incremental demand-building investments and other individually smaller items.

Fiscal year 2013 versus fiscal year 2012: Net sales, volume and earnings from continuing operations before income taxes increased during fiscal year 2013. Volume in the Cleaning segment increased 3%, driven by higher shipments in the professional products business, primarily due to base healthcare and cleaning business strength and the benefit of acquisitions in fiscal year 2012; higher shipments of Clorox[®] disinfecting wipes behind strong merchandising activities and a heightened flu season; and higher shipments of the new concentrated Clorox[®] liquid bleach. These increases were partially offset by lower shipments of Clorox 2[®] stain fighter and color booster due to category softness and distribution losses, and lower shipments of Pine-Sol[®] cleaners, primarily due to price increases. Net sales growth outpaced volume growth primarily due to the benefit of price increases (170 basis points). The increase in earnings from continuing operations before income taxes was primarily due to higher net sales and \$35 of cost savings, primarily related to concentrated Clorox[®] liquid bleach and package redesign. These increases were partially offset by \$24 of higher manufacturing and logistics and other supply chain costs, \$13 of higher selling and administrative costs, primarily related to the acquisitions in fiscal year 2012 and costs associated with the transition to concentrated Clorox[®] liquid bleach and \$10 of higher advertising and sales promotion expenses, primarily in support of concentrated Clorox[®] liquid bleach.

Household

	2014	2013	2012	% Change	
				2014 to 2013	2013 to 2012
Net sales	\$ 1,709	\$ 1,693	\$ 1,676	1%	1%
Earnings from continuing operations before income taxes	326	336	298	(3)	13

Fiscal year 2014 versus fiscal year 2013: Net sales and volume increased, while earnings from continuing operations before income taxes decreased during fiscal year 2014. Volume in the Household segment increased 1%, driven by higher shipments of charcoal products due to strong merchandising activities and improved weather conditions, partially offset by lower shipments of Glad[®] trash bags, primarily due to a price increase in the second half of fiscal year 2014. The decrease in earnings from continuing operations before income taxes was driven by \$37 of higher commodity costs, primarily resin, \$19 of higher manufacturing and logistics costs, including one-time supply chain costs in order to meet strong customer demand for charcoal products and other individually smaller items. These decreases were partially offset by \$21 of cost savings, higher sales and \$11 of lower employee incentive compensation costs.

Fiscal year 2013 versus fiscal year 2012: Net sales and earnings from continuing operations before income taxes increased, while volume decreased during fiscal year 2013. Volume in the Household segment decreased 3%, driven by lower shipments of charcoal products due to poor weather conditions and price increases, and lower shipments of Glad[®] base trash bags, primarily due to decreased merchandising and a shift to premium trash products, and Glad[®] food storage products, primarily due to distribution losses. These decreases were partially offset by higher shipments of Glad[®] premium trash bags primarily due to new product innovation and increased merchandising events. The variance between net sales and volume was primarily due to the benefit of price increases (340 basis points). The increase in earnings from continuing operations before income taxes was driven by \$31 of cost savings, primarily related to various manufacturing efficiencies, and \$26 from the benefit of price increases, partially offset by \$15 of higher manufacturing and logistics and other supply chain costs.

Lifestyle

	2014	2013	2012	% Change	
				2014 to 2013	2013 to 2012
Net sales	\$ 936	\$ 929	\$ 901	1%	3%
Earnings from continuing operations before income taxes	258	259	265	-	(2)

Fiscal year 2014 versus fiscal year 2013: Net sales and volume increased, while earnings from continuing operations before income taxes remained flat during fiscal year 2014. Volume in the Lifestyle segment increased 1%, driven by higher shipments of Hidden Valley[®] dry and bottled salad dressings, primarily due to continued category growth and increased merchandising activity, and higher shipments of Burt's Bees[®] natural personal care products, driven by product innovation in lip and face care products. These increases were partially offset by lower shipments of Brita[®] water-filtration products, primarily due to increased private-label competition and category softness, and decreased merchandising activities. Flat earnings from continuing operations before income taxes reflected \$9 of higher demand-building investments, primarily driven by increased advertising and sales promotion expenses in support of Burt's Bees[®] natural personal care products, and other individually smaller items, offset by \$10 of cost savings, primarily related to various manufacturing and other efficiencies and \$7 of lower employee incentive compensation costs.

Fiscal year 2013 versus fiscal year 2012: Net sales and volume increased, while earnings from continuing operations before income taxes decreased during fiscal year 2013. Volume in the Lifestyle segment increased 2%, driven by higher shipments of Hidden Valley[®] products behind strong merchandising activity and innovation, and higher shipments of Burt's Bees[®] natural personal care products, primarily driven by new product innovation and promotional events. These increases were partially offset by lower shipments of Brita[®] water-filtration products, primarily due to decreased merchandising activities, price increases and a comparison to strong volume in the prior year behind the launch of the Brita[®] Bottle, and lower shipments of KC Masterpiece[®] sauces, primarily due to competitive activity. Net sales growth outpaced volume growth primarily due to the benefit of price increases (120 basis points). The decrease in earnings from continuing operations before income taxes was primarily due to approximately \$12 of higher other supply chain costs and \$8 of higher selling and administrative expenses, both driven, in part, by investments in systems and processes to support the long-term growth of the Burt's Bees[®] business, and \$7 of higher advertising and sales promotion expenses in support of new products. These increases were partially offset by higher net sales and \$10 of cost savings, primarily related to various manufacturing efficiencies.

International

	2014	2013	2012	% Change	
				2014 to 2013	2013 to 2012
Net sales	\$ 1,170	\$ 1,218	\$ 1,199	(4) %	2%
Earnings from continuing operations before income taxes	76	96	119	(21)	(19)

Fiscal year 2014 versus fiscal year 2013: Net sales and earnings from continuing operations before income taxes decreased while volume increased during fiscal year 2014. Volume in the International segment increased 1%, driven by higher shipments in Peru, Asia, the Middle East, Europe and Argentina, partially offset by lower shipments in Venezuela and Australia. The variance between net sales and volume was primarily due to unfavorable foreign currency exchange rates (1,110 basis points), partially offset by the benefit of price increases (490 basis points) and favorable product mix (160 basis points). While International segment net sales decreased 4% during fiscal year 2014, excluding the negative foreign currency impact of 11%, segment sales grew about 7%. The decrease in earnings from continuing operations before income taxes was primarily due to \$51 of higher manufacturing and logistics costs driven by continued inflation in Venezuela and Argentina, \$49 of unfavorable foreign currency exchange rates, primarily in Argentina and Venezuela (see “*Venezuela*” and “*Argentina*” below), \$15 of higher commodity costs, primarily resin, and other individually smaller items. Also impacting fiscal year 2014 results were noncash tax deductible impairment charges on trademark values totaling \$4. These decreases were partially offset by \$59 from the benefit of price increases, \$27 of cost savings, primarily related to various manufacturing and other efficiencies, \$19 of favorable product mix, \$12 from a comparison to one-time costs associated with an IT systems implementation in Latin America incurred in fiscal year 2013 and \$9 of lower employee incentive compensation costs.

Fiscal year 2013 versus fiscal year 2012: Net sales increased, while volume and earnings from continuing operations before income taxes decreased during fiscal year 2013. Volume in the International segment decreased 2%, driven by the exit from nonstrategic export businesses and lower shipments in Canada, partially offset by higher shipments in Asia and certain regions in Latin America. The variance between net sales and volume was primarily due to the benefit of price increases (450 basis points) and favorable product mix (160 basis points), partially offset by unfavorable foreign currency exchange rates (290 basis points). The decrease in earnings from continuing operations before income taxes was primarily due to \$55 of higher manufacturing and logistics and other supply chain costs and \$12 of higher selling and administrative costs, both factors reflecting the impact of inflationary pressures in Argentina and Venezuela, \$24 of unfavorable foreign currency exchange rates and other smaller items. These decreases were partially offset by \$53 from the benefit of price increases, \$15 of cost savings, primarily related to various manufacturing efficiencies and \$11 of favorable product mix.

Venezuela

The Business and Operating Environment

Net sales from the Company’s Venezuela subsidiary (the Venezuela business) represented approximately 1%, 2% and 2% of the Company’s consolidated net sales for the fiscal years ended June 30, 2014, 2013 and 2012, respectively. The operating environment in Venezuela is challenging, with high inflation, political instability, governmental restrictions in the form of currency exchange, price and margin controls and the possibility of government actions such as further devaluations, business occupations or intervention and expropriation of assets. In addition, the foreign exchange controls in Venezuela limit the Venezuela business’s ability to remit dividends and pay intercompany balances.

A majority of the Company’s product portfolio in Venezuela is subject to price controls, which for nearly three years have prevented the Company from increasing prices on controlled products to offset the impact of continuing high inflation on product, labor and other operating costs that are not subject to similar controls. In addition to the price control laws, in November 2013, the Venezuelan legislature approved an “enabling law” granting the president of Venezuela the authority to enact laws and regulations in certain policy areas by decree. This authority includes the ability to restrict profit margins and impose greater controls on foreign exchange and the production, import and distribution of staples and other goods. Among other actions, the president has used this decree power to pass a law effective January 2014 which, among other things, authorizes the Venezuelan government to set “just prices” and maximum profit margins in the private sector.

Currency Devaluation and Foreign Exchange Controls

Due to a sustained inflationary environment, the financial statements of the Venezuela business are consolidated under the rules governing the preparation of financial statements in a highly inflationary economy. As such, the Venezuela business’s non-U.S. dollar (non-USD) monetary assets and liabilities are remeasured into U.S. dollars (USD) each reporting period with the resulting gains and losses reflected in other expense (income), net.

On February 8, 2013, the Venezuelan government announced a devaluation of its currency exchange commission (CADIVI) rate from 4.3 to 6.3 bolívares fuertes (VEF) per USD and the elimination of the alternative currency exchange system, SITME. Prior to February 8, 2013, the Company had been utilizing the rate at which it had been obtaining USD through SITME to remeasure its Venezuelan financial statements, which was 5.7 VEF per USD at the announcement date. In response to these developments, the Company began utilizing the CADIVI rate of 6.3 VEF per USD to translate the financial statements of the Venezuela business.

In March 2013, the Venezuelan government announced the creation of a new alternative currency exchange system, a government-controlled auction process referred to as SICAD I, whereby companies meeting certain qualifications may periodically bid to acquire USD. In January 2014, the Venezuelan government announced further changes to the regulations governing the currency exchange systems. Among the changes was the creation of a new government agency, CENCOEX, to administer the currency exchange mechanism previously administered by CADIVI.

In February 2014, the Venezuelan government established another currency exchange mechanism, SICAD II, that provides an additional method to exchange VEF at exchange rates significantly higher than the CENCOEX and SICAD I rates. As of June 30, 2014, the posted rate of the SICAD II exchange system was 50.0 VEF per USD.

Financial Reporting Impacts and Business Trends

Based on an analysis of the published exchange regulations and an assessment of currency requirements applicable to the Venezuela business, the Company has concluded that the SICAD I rate is currently the most appropriate rate for it to use for financial reporting purposes. The Company began using the SICAD I rate to record the results of business operations and remeasure the gain or loss on non-USD denominated monetary assets and liabilities in Venezuela beginning on March 1, 2014. As a result, the Company recorded a non-tax deductible remeasurement loss of \$10 in other expense (income), net, for the year ended June 30, 2014, reflecting the effective devaluation from the CENCOEX rate of 6.3 to the June 30, 2014, posted SICAD I rate of 10.6.

The Company's business and cash flows in Venezuela have been adversely impacted by the country's difficult political and economic conditions. The Venezuela subsidiary operated at a profit for the years ended June 30, 2013 and 2012. The subsidiary operated at a loss for the fiscal year ended June 30, 2014, including 14 cents of charges due to the remeasurement losses described above, impairment charges on trademark values and other charges related to the effective devaluation of the Venezuelan currency.

Considerable uncertainty remains regarding the viability of existing currency exchanges, the availability of USD under these exchanges and whether a new currency system will emerge. Further significant devaluations of the VEF could occur in the future, which would adversely impact financial results. For illustrative purposes only, if exchange rates were to range between 25.0 and 50.0 VEF per USD, the Company would record additional non-tax deductible remeasurement losses between approximately \$6 and \$8 based on the non-USD denominated net monetary asset position of the Venezuela business of \$11 using the 10.6 SICAD I rate as of June 30, 2014. Additionally, the Company's net sales and net earnings would be further negatively impacted by any additional devaluations and other economic and regulatory factors, which would also require the Company to undergo additional impairment testing on its goodwill, trademarks and other assets attributable to the Venezuela business.

As of June 30, 2014, using the SICAD I rate of 10.6, the Venezuela business had total assets of \$68 including cash and cash equivalents of \$5, a long-term value added tax (VAT) receivable from the Venezuelan government of \$9, inventories of \$11, net property, plant and equipment of \$16 and intangible assets excluding goodwill of \$6. Goodwill for Venezuela is aggregated and assessed for impairment at the Latin America reporting unit level, which is a component of the Company's International segment. Based on the results of the annual impairment test performed in the fourth quarter of fiscal year 2014, the fair value of the Latin America reporting unit exceeded its recorded value by more than 40% and reflected the Company's expectations of continued challenges from the Venezuela business consistent with the Company's current long-range projections.

Business Outlook

If the Venezuela business continues to be restricted in its ability to increase prices, operating losses will continue into future periods. Further devaluations of the Venezuela currency would result in additional remeasurement losses and increase the risk for impairment of asset values, including intangible assets and goodwill. Additionally, based on the Venezuela business's current cash flow projections, unless the Venezuela business is able to obtain significant and ongoing price increases in the near future to offset past and expected future impacts from inflation, the business will likely have insufficient working capital to sustain its operations beyond the first quarter of fiscal year 2015 without further financial support from the Company. As a result of the above factors, all options are being considered, including an exit from Venezuela if necessary.

Argentina

The operating environment in Argentina also presents business challenges, including price controls on some of the Company's products, a devaluing currency and inflation. Although Argentina is not currently designated as a highly inflationary economy for accounting purposes, further volatility and declines in the exchange rate are expected. For the fiscal years ended June 30, 2014, 2013 and 2012, the value of the Argentine peso (ARS) per USD declined 33%, 16% and 9%, respectively. In addition, in July 2014, the Argentine government defaulted on debt payment agreements. Further devaluations of the Argentine peso could have an additional adverse impact on the Company's net sales and net earnings and increase the risk for impairment of intangible assets and goodwill. As of June 30, 2014, using an exchange rate of 8.1 ARS per USD, the Company's Argentina subsidiary had total assets of \$105, including cash and cash equivalents of \$25, net receivables of \$20, inventories of \$15, net property, plant and equipment of \$20 and intangible assets excluding goodwill of \$5. Goodwill for Argentina is aggregated and assessed for impairment at the Latin America reporting unit level, which is a component of the Company's International segment. Based on the results of the annual impairment test performed in the fourth quarter of fiscal year 2014, the fair value of the Latin America reporting unit exceeded its recorded value by more than 40% and reflected the Company's expectations of continued challenges from the Argentina business consistent with the Company's current long-range projections. Net sales from the Company's Argentine subsidiary represented approximately 3% of the Company's consolidated net sales for each of the fiscal years ended June 30, 2014, 2013 and 2012. The Company is closely monitoring developments in Argentina and is taking steps intended to mitigate the adverse conditions, but there can be no assurances that the Company will be able to mitigate these conditions.

Corporate

	2014	2013	2012	% Change	
				2014 to 2013	2013 to 2012
Losses from continuing operations before income taxes	\$ (227)	\$ (258)	\$ (272)	(12)%	(5)%

Corporate includes certain non-allocated administrative costs, interest income, interest expense and other non-operating income and expenses. Corporate assets include cash and cash equivalents, property and equipment, other investments and deferred taxes.

Fiscal year 2014 versus fiscal year 2013: The decrease in losses from continuing operations before income taxes was primarily due to lower interest expense and lower employee incentive compensation costs in fiscal year 2014. These factors were partially offset by one-time costs related to the transition to new IT service providers in fiscal year 2014, higher wages and employee benefit costs in fiscal year 2014 and the gain recorded upon the sale-leaseback of the Company's Oakland, Calif., general office building in fiscal year 2013.

Fiscal year 2013 versus fiscal year 2012: The decrease in losses from continuing operations before income taxes was primarily due to prior-year non-repeating advisory fees related to a withdrawn proxy contest, as well as lower employee incentive compensation costs in fiscal year 2013. These factors were partially offset by higher wages and employee benefit costs in fiscal year 2013.

FINANCIAL POSITION AND LIQUIDITY

Management's discussion and analysis of the Company's financial position and liquidity describes its consolidated operating, investing and financing activities, contractual obligations and off-balance sheet arrangements.

The following table summarizes cash activities as of June 30:

	2014	2013	2012
Net cash provided by continuing operations	\$ 771	\$ 777	\$ 620
Net cash used for investing activities	(138)	(55)	(277)
Net cash used for financing activities	(592)	(685)	(321)

The Company's cash position includes amounts held by foreign subsidiaries and, as a result, the repatriation of certain cash balances from some of the Company's foreign subsidiaries could result in additional tax costs. However, these cash balances are generally available without legal restriction to fund local business operations. In addition, a portion of the Company's cash balance is held in U.S. dollars by foreign subsidiaries, whose functional currency is their local currency. Such U.S. dollar balances are reported on the foreign subsidiaries' books, in their functional currency, with the impact from foreign currency exchange rate differences recorded in other expense (income), net. The Company's cash holdings were as follows as of June 30:

	2014	2013	2012
U.S. dollar balances held by U.S. dollar functional currency subsidiaries and parent	\$ 180	\$ 130	\$ 131
Non-U.S. dollar balances held by non-U.S. dollar functional currency subsidiaries	132	115	81
U.S. dollar balances held by non-U.S. dollar functional currency subsidiaries	12	36	35
Non-U.S. dollar balances held by U.S. dollar functional currency subsidiaries	5	18	20
Total	\$ 329	\$ 299	\$ 267

The Company's total cash balance was \$329 as of June 30, 2014, as compared to \$299 as of June 30, 2013. The increase of \$30 was primarily attributable to \$771 of net cash provided by continuing operations and \$96 of proceeds from the issuance of common stock for employee stock plans, partially offset by \$368 of dividend payments, \$260 of share repurchases, \$138 of capital expenditures and \$60 of repayments of commercial paper borrowings.

The Company's total cash balance was \$299 as of June 30, 2013, as compared to \$267 as of June 30, 2012. The increase of \$32 was primarily attributable to \$777 of net cash provided by continuing operations, \$593 of net proceeds from the September 2012 long-term debt issuance, \$135 of proceeds from the sale-leaseback of the Company's general office building in Oakland, Calif., and former Technical and Data Center in Pleasanton, Calif., and \$133 of proceeds from the issuance of common stock for employee stock plans and other. These increases were partially offset by \$850 of repayments of long-term debt, \$335 of dividend payments, \$194 of capital expenditures, \$128 of share repurchases and \$98 of repayments of commercial paper borrowings.

As of June 30, 2014, total current liabilities exceeded total current assets by \$243, and, as of June 30, 2013, total current assets exceeded total current liabilities by \$286. The year-over-year change was primarily attributable to \$575 of current maturities of long-term debt, maturing in January 2015. The Company anticipates that the debt repayment will be made with a combination of debt refinancing and the use of operating cash flows.

Operating Activities

Net cash provided by continuing operations decreased to \$771 in fiscal year 2014 from \$777 in fiscal year 2013. The decrease was primarily due to higher tax payments and the company's funding of liabilities under certain nonqualified deferred compensation plans in fiscal year 2014, partially offset by favorable changes in working capital.

Net cash provided by continuing operations increased to \$777 in fiscal year 2013 from \$620 in fiscal year 2012. The increase was primarily due to favorable changes in working capital, driven by lower tax payments in fiscal year 2013 as a result of favorable tax settlements, the prior-year settlement of interest rate forward contracts; and higher earnings.

Investing Activities

Capital expenditures were \$138, \$194 and \$192, respectively, in fiscal years 2014, 2013 and 2012. Capital spending as a percentage of net sales was 2.5%, 3.5% and 3.5% for fiscal years 2014, 2013 and 2012, respectively. The decrease in fiscal year 2014 capital spending was driven by prior-period investments in the Company's Pleasanton, Calif., facility and IT systems implementation in Latin America. The Company estimates fiscal year 2015 capital spending will be approximately 3% of net sales. Capital spending as a percentage of net sales remained flat in fiscal year 2013 compared to fiscal year 2012.

In fiscal year 2013, the Company completed sale-leaseback transactions under which it sold its general office building in Oakland, Calif., and former Technical and Data Center in Pleasanton, Calif., to unrelated parties for combined net proceeds of \$135. The Company entered into operating lease agreements with the respective buyers for portions of the buildings for up to 15 years, all of which contain renewal options.

In December 2011, the Company acquired HealthLink, Aplicare, Inc. and Soy Vay Enterprises, Inc., including each business' workforce, for purchase prices aggregating \$97, funded through commercial paper borrowings. The cash paid of \$93 represents the aggregate purchase prices less cash acquired. Results for HealthLink and Aplicare, Inc., providers of infection control products for the health care industry, are reflected in the Cleaning reportable segment. Results for Soy Vay Enterprises, Inc., a California-based operation that provides the Company a presence in the market for Asian sauces, are reflected in the Lifestyle reportable segment.

Financing Activities

Capital Resources and Liquidity

Net cash used for financing activities was \$592 in fiscal year 2014, as compared to \$685 in fiscal year 2013. Net cash used for financing activities was higher in fiscal year 2013 due to repayment of company borrowings following the Company's sale-leaseback transactions under which it sold its general office building in Oakland, Calif., and former Technical and Data Center in Pleasanton, Calif. This factor was partially offset by an increase in share repurchases and higher dividends paid in fiscal year 2014.

Net cash used for financing activities was \$685 in fiscal year 2013, as compared to \$321 in fiscal year 2012. The change was primarily due to a reduction in total debt and higher dividends paid during fiscal year 2013, partially offset by fewer share repurchases and an increase in employee stock option exercises in fiscal year 2013.

Senior Notes and Credit Arrangements

In March 2013, \$500 in senior notes with an annual fixed interest rate of 5.00% became due and were repaid. The repayment was funded in part with commercial paper borrowings and in part with a portion of the proceeds from the sale-leaseback transaction of the Company's Oakland, Calif., general office building.

In October 2012, \$350 in senior notes with an annual fixed interest rate of 5.45% became due and were repaid. The repayment was funded with a portion of the proceeds from the September 2012 issuance of \$600 in senior notes with an annual fixed interest rate of 3.05%, payable semi-annually in March and September, and a maturity date of September 15, 2022. The remaining proceeds from the September 2012 issuance were used to repay commercial paper.

In November 2011, the Company issued \$300 in senior notes with an annual fixed interest rate of 3.80%, payable semi-annually in May and November, and a maturity date of November 15, 2021. Proceeds from the notes were used to repay commercial paper.

The senior notes issued in September 2012 and November 2011 rank equally and ratably in right of payment with all of the Company's existing and future senior unsecured indebtedness and senior to any future subordinated unsecured indebtedness. These notes were issued under the Company's shelf registration statement filed in November 2011, which allows the Company to offer and sell an unlimited amount of its senior unsecured indebtedness from time to time and expires in November 2014.

As of June 30, 2014, the Company had a \$1.1 billion revolving credit agreement, which expires in May 2017. There were no borrowings under the agreement, and the Company believes that borrowings under the revolving credit agreement are and will continue to be available for general corporate purposes. The agreement includes certain restrictive covenants and limitations. The primary restrictive covenant is a maximum ratio of total debt to earnings before interest, taxes, depreciation and amortization and intangible asset impairment (Adjusted EBITDA) for the trailing four quarters (Adjusted EBITDA ratio), as defined in the Company's revolving credit agreement, of 3.50.

The following table sets forth the calculation of the Adjusted EBITDA ratio as of June 30, using Adjusted EBITDA for the trailing four quarters, as contractually defined:

	2014	2013
Earnings from continuing operations	\$ 562	\$ 574
Add back:		
Interest expense	103	122
Income tax expense	299	279
Depreciation and amortization	180	182
Noncash intangible asset impairment charges	4	-
Deduct:		
Interest income	3	3
Adjusted EBITDA	<u>\$ 1,145</u>	<u>\$ 1,154</u>
Total debt	<u>\$ 2,313</u>	<u>\$ 2,372</u>
Adjusted EBITDA ratio	<u>2.02</u>	<u>2.06</u>

The Company is in compliance with all restrictive covenants and limitations in the credit agreement as of June 30, 2014, and anticipates being in compliance with all restrictive covenants for the foreseeable future. The Company continues to monitor the financial markets and assess its ability to fully draw on its revolving credit agreement, and currently expects that any drawing on the agreement will be fully funded.

The Company had \$44 of foreign and other credit lines as of June 30, 2014; \$5 was outstanding and the remainder of \$39 was available for borrowing.

Based on the Company's working capital requirements, anticipated ability to generate positive cash flows from operations in the future, investment-grade credit ratings, demonstrated access to long- and short-term credit markets and current borrowing availability under credit agreements, the Company believes it will have the funds necessary to meet its financing requirements and other fixed obligations as they become due. Should the Company undertake other transactions requiring funds in excess of its current cash levels and available credit lines, it would consider the issuance of additional debt or other securities to finance acquisitions, repurchase shares, refinance debt or fund other activities for general business purposes. The Company's access to or cost of such additional funds could be adversely affected by any decrease in credit ratings, which were the following as of June 30:

	2014		2013	
	Short-term	Long-term	Short-term	Long-term
Standard and Poor's	A-2	BBB+	A-2	BBB+
Moody's	P-2	Baa1	P-2	Baa1

Share Repurchases and Dividend Payments

On May 13, 2013, the Company's board of directors terminated the share repurchase programs previously authorized on May 13, 2008, and May 18, 2011, and authorized a new share repurchase program for an aggregate purchase amount of up to \$750. This open market share repurchase program is in addition to the Company's evergreen repurchase program (Evergreen Program), the purpose of which is to offset the impact of stock dilution related to stock-based awards. The Evergreen Program has no authorization limit as to amount or timing of repurchases.

Share repurchases under authorized programs were as follows during the fiscal years ended June 30:

	2014		2013		2012	
	Amount	Shares (000)	Amount	Shares (000)	Amount	Shares (000)
Open-market purchase programs	\$ -	-	\$ -	-	\$ 158	2,429
Evergreen Program	260	3,046	128	1,500	67	990
Total	<u>\$ 260</u>	<u>3,046</u>	<u>\$ 128</u>	<u>1,500</u>	<u>\$ 225</u>	<u>3,419</u>

During fiscal years 2014, 2013 and 2012, the Company declared dividends per share of \$2.87, \$2.63 and \$2.44, respectively. During fiscal years 2014, 2013 and 2012, the Company paid dividends per share of \$2.84, \$2.56 and \$2.40, respectively, equivalent to \$368, \$335 and \$315, respectively.

Contractual Obligations

The Company had contractual obligations as of June 30, 2014, payable or maturing in the following fiscal years:

	2015	2016	2017	2018	2019	Thereafter	Total
Long-term debt maturities including interest payments (See Note 8)	\$ 668	\$ 359	\$ 54	\$ 442	\$ 30	\$ 993	\$ 2,546
Notes and loans payable (See Note 8)	143	-	-	-	-	-	143
Purchase obligations ⁽¹⁾	246	87	65	51	33	7	489
Operating leases (See Note 15)	47	45	41	37	32	127	329
Payments related to nonqualified postretirement plans ⁽²⁾	17	17	19	19	16	72	160
Venture Agreement terminal obligation (See Note 10)	-	-	-	-	-	290	290
Total	\$ 1,121	\$ 508	\$ 179	\$ 549	\$ 111	\$ 1,489	\$ 3,957

(1) Purchase obligations are defined as purchase agreements that are enforceable and legally binding and that contain specified or determinable significant terms, including quantity, price and the approximate timing of the transaction. For purchase obligations subject to variable price and/or quantity provisions, an estimate of the price and/or quantity has been made. Examples of the Company's purchase obligations include contracts to purchase raw materials, commitments to contract manufacturers, commitments for information technology and related services, advertising contracts, utility agreements, capital expenditure agreements, software acquisition and license commitments and service contracts. Approximately 17% of the Company's purchase obligations relate to service contracts for information technology that have been outsourced. The raw material contracts included above are entered into during the regular course of business based on expectations of future purchases. Many of these raw material contracts are flexible to allow for changes in the Company's business and related requirements. If such changes were to occur, the Company believes its exposure could differ from the amounts listed above. Any amounts reflected in the consolidated balance sheets as accounts payable and accrued liabilities are excluded from the table above.

(2) Represents expected payments through 2024. Based on the accounting rules for retirement and postretirement benefit plans, the liabilities reflected in the Company's consolidated balance sheets differ from these expected future payments (see Note 18 of the Notes to Consolidated Financial Statements).

As of June 30, 2014, the liability recorded for uncertain tax positions, excluding associated interest and penalties, was approximately \$71. In the twelve months succeeding June 30, 2014, it is reasonably possible that up to \$30 of other unrecognized tax benefits may be recognized. Since the ultimate amount and timing of further cash settlements cannot be predicted due to the high degree of uncertainty, liabilities for uncertain tax positions are excluded from the contractual obligations table (see Note 17 of the Notes to Consolidated Financial Statements).

Off-Balance Sheet Arrangements

In conjunction with divestitures and other transactions, the Company may provide typical indemnifications (e.g., indemnifications for representations and warranties and retention of previously existing environmental, tax and employee liabilities) that have terms that vary in duration and in the potential amount of the total obligation and, in many circumstances, are not explicitly defined. The Company has not made, nor does it believe that it is probable that it will make, any payments relating to its indemnifications, and believes that any reasonably possible payments would not have a material adverse effect, individually or in the aggregate, on the Company's consolidated financial statements taken as a whole.

The Company had not recorded any liabilities on the aforementioned guarantees as of June 30, 2014 and 2013.

As of June 30, 2014, the Company was a party to letters of credit of \$12, primarily related to one of its insurance carriers, of which \$0 had been drawn upon.

CONTINGENCIES

The Company is involved in certain environmental matters, including response actions at various locations. The Company had a recorded liability of \$14 and \$13 as of June 30, 2014 and 2013, respectively, for its share of aggregate future remediation costs related to these matters. One matter in Dickinson County, Michigan, for which the Company is jointly and severally liable, accounted for a substantial majority of the recorded liability as of both June 30, 2014 and 2013. The Company has agreed to be liable for 24.3% of the aggregate remediation and associated costs for this matter pursuant to a cost-sharing arrangement with a third party. With the assistance of environmental consultants, the Company maintains an undiscounted liability representing its current best estimate of its share of the capital expenditures, maintenance and other costs that may be incurred over an estimated 30-year remediation period. Currently, the Company cannot accurately predict the timing of future payments that may be made under this obligation. In addition, the Company's estimated loss exposure is sensitive to a variety of uncertain factors, including the efficacy of remediation efforts, changes in remediation requirements and the future availability of alternative clean-up technologies. Although it is reasonably possible that the Company's exposure may exceed the amount recorded, any amount of such additional exposures, or range of exposures, is not estimable at this time.

In October 2012, a Brazilian appellate court issued an adverse decision in a lawsuit pending in Brazil against the Company and one of its wholly owned subsidiaries, The Glad Products Company (Glad). The lawsuit was initially filed in a Brazilian lower court in 2002 by two Brazilian companies and one Uruguayan company (collectively, Petroplus) related to joint venture agreements for the distribution of STP auto-care products in Brazil with three companies that became subsidiaries of the Company as a result of the Company's merger with First Brands Corporation in January 1999 (collectively, Clorox Subsidiaries). The pending lawsuit seeks indemnification for damages and losses for alleged breaches of the joint venture agreements and abuse of economic power by the Company and Glad. Petroplus had previously unsuccessfully raised the same claims and sought damages from the Company and the Clorox Subsidiaries in an International Chamber of Commerce (ICC) arbitration proceeding in Miami, Florida, filed in 2001. The ICC arbitration panel unanimously ruled against Petroplus in a final decision in November 2003 (Final ICC Arbitration Award). The Final ICC Arbitration Award was ratified by the Superior Court of Justice of Brazil in May 2007 (Foreign Judgment), and the United States District Court for the Southern District of Florida subsequently confirmed the Final ICC Arbitration Award and recognized and adopted the Foreign Judgment as a judgment of the United States District Court for the Southern District of Florida (U.S. Judgment). Despite this, in March 2008, a Brazilian lower court ruled against the Company and Glad in the pending lawsuit and awarded Petroplus R\$23 (\$13) plus interest. The value of that judgment, including interest and foreign exchange fluctuations as of June 30, 2014, was approximately \$39.

Among other defenses, because the Final ICC Arbitration Award, the Foreign Judgment and the U.S. Judgment relate to the same claims as those in the pending lawsuit, the Company believes that Petroplus is precluded from re-litigating these claims. Based on the unfavorable appellate court decision, the Company believes that it is reasonably possible that a loss could be incurred in this matter in excess of amounts accrued, and that the estimated range of such loss in this matter is from \$0 to \$33. The Company continues to believe that its defenses are meritorious, and has appealed the decision to the highest courts of Brazil. In the first stage of the appellate process, in December 2013, the appellate court declined to admit the Company's appeals to the highest courts. The Company then appealed directly to the highest courts and in May 2014, the Supreme Court of Justice agreed to consider the Company's appeal. Expenses related to this litigation and any potential additional loss would be reflected in discontinued operations, consistent with the Company's classification of expenses related to its discontinued Brazil operations.

In a separate action filed in 2004 by Petroplus, a lower Brazilian court in January 2013 nullified the Final ICC Arbitration Award. The Company believes this judgment is inconsistent with the Foreign Judgment and the U.S. Judgment and that it is without merit. The Company appealed this decision, and the lower court decision was overturned by the appellate court in April 2014. Petroplus has appealed this decision to Brazil's highest court.

Glad and the Clorox Subsidiaries have also filed separate lawsuits against Petroplus alleging misuse of the STP trademark and related matters, which are currently pending before Brazilian courts, and have taken other legal actions against Petroplus, which are pending. Additionally, in November 2013, the Clorox Subsidiaries initiated a new ICC arbitration seeking damages against Petroplus.

The Company is subject to various lawsuits, claims and other loss contingencies relating to issues such as contract disputes, product liability, patents and trademarks, advertising, and employee and other matters. Based on management's analysis, it is the opinion of management that the ultimate disposition of these matters, to the extent not previously provided for, will not have a material adverse effect, individually or in the aggregate, on the Company's consolidated financial statements taken as a whole.

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As a multinational company, the Company is exposed to the impact of foreign currency fluctuations, changes in commodity prices, interest-rate risk and other types of market risk.

In the normal course of business, where available at a reasonable cost, the Company manages its exposure to market risk using contractual agreements and a variety of derivative instruments. The Company's objective in managing its exposure to market risk is to limit the impact of fluctuations on earnings and cash flow through the use of swaps, forward purchases and futures contracts. Derivative contracts are entered into for non-trading purposes with major credit-worthy institutions, thereby decreasing the risk of credit loss.

The Company uses different methodologies, when necessary, to estimate the fair value of its derivative contracts. The estimated fair values of the majority of the Company's contracts are based on quoted market prices, traded exchange market prices or broker price quotations, and represent the estimated amounts that the Company would pay or receive to terminate the contracts.

Sensitivity Analysis for Derivative Contracts

For fiscal years 2014 and 2013, the Company's exposure to market risk was estimated using sensitivity analyses, which illustrate the change in the fair value of a derivative financial instrument assuming hypothetical changes in foreign exchange rates, commodity prices or interest rates. The results of the sensitivity analyses for foreign currency derivative contracts, commodity derivative contracts and interest rate contracts are summarized below. Actual changes in foreign exchange rates, commodity prices or interest rates may differ from the hypothetical changes, and any changes in the fair value of the contracts, real or hypothetical, would be partly to fully offset by an inverse change in the value of the underlying hedged items.

The changes in the fair value of derivatives are recorded as either assets or liabilities in the consolidated balance sheets with an offset to net earnings or other comprehensive income, depending on whether or not, for accounting purposes, the derivative is designated and qualified as a cash flow hedge. During the fiscal years ended June 30, 2014, 2013 and 2012, the Company had no hedging instruments designated as fair value hedges. In the event the Company has contracts not designated as hedges for accounting purposes, the Company recognizes the changes in the fair value of these contracts in other expense (income), net.

Foreign Currency Risk

The Company seeks to minimize the impact of certain foreign currency fluctuations by hedging transactional exposures with foreign currency forward contracts. As of June 30, 2014 and 2013, the Company's foreign currency transactional exposures pertaining to derivative contracts existed with the Canadian, Australian and New Zealand dollars. Based on a hypothetical decrease of 10% in the value of the U.S. dollar against the Canadian, Australian and New Zealand dollars as of June 30, 2014, the estimated fair value of the Company's then-existing foreign currency derivative contracts would decrease by \$10. Based on a hypothetical increase of 10% in the value of the U.S. dollar against the Canadian, Australian and New Zealand dollars as of June 30, 2014, the estimated fair value of the Company's then-existing foreign currency derivative contracts would increase by \$8. Based on a hypothetical decrease or increase of 10% in the value of the U.S. dollar against the Canadian, Australian and New Zealand dollars as of June 30, 2013, the estimated fair value of the Company's then-existing foreign currency derivative contracts would decrease or increase by \$4, with the corresponding impact included in accumulated other comprehensive net losses or other expense (income), net, as appropriate.

Commodity Price Risk

The Company is exposed to changes in the price of commodities used as raw materials in the manufacturing of its products. The Company uses various strategies to manage cost exposures on certain raw material purchases with the objective of obtaining more predictable costs for these commodities, including long-term commodity purchase contracts and commodity derivative contracts, where available at a reasonable cost. During fiscal years 2014 and 2013, the Company's raw materials exposures pertaining to derivative contracts existed with jet fuel, soybean oil and crude oil. Based on a hypothetical decrease or increase of 10% in these commodity prices as of June 30, 2014, and June 30, 2013, the estimated fair value of the Company's then-existing commodity derivative contracts would decrease or increase by \$4 and \$5, respectively, with the corresponding impact included in accumulated other comprehensive net losses.

Interest Rate Risk

The Company is exposed to interest rate volatility with regard to existing and anticipated future issuances of debt. Primary exposures related to existing debt include movements in U.S. commercial paper rates. Weighted average interest rates for commercial paper have been less than 1% during fiscal years 2014 and 2013. Assuming average variable rate debt levels during fiscal years 2014 and 2013, a 100 basis point increase in interest rates would increase interest expense from commercial paper by approximately \$3 and \$2, respectively. Assuming average variable rate debt levels in fiscal years 2014 and 2013, a decrease in interest rates to zero percent would decrease interest expense from commercial paper by \$1 in both fiscal years.

The Company is also exposed to interest rate volatility with regard to anticipated future issuances of debt. Primary exposures include movements in U.S. Treasury rates. The Company used interest rate forward contracts to reduce interest rate volatility on fixed rate long-term debt during fiscal year 2014 and 2013. Based on a hypothetical decrease or increase of 100 basis points on the underlying U.S. Treasury rates as of June 30, 2014, the estimated fair value of the Company's then-existing interest rate derivative contracts would have decreased or increased by \$25, with the corresponding impact included in accumulated other comprehensive net losses. The Company had no outstanding interest rate forward contracts as of June 30, 2013.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In May 2014, the Financial Accounting Standards Board (FASB) issued an update to current accounting standards, which establishes a single, comprehensive revenue recognition model for all contracts with customers, and will supersede most current revenue recognition guidance. It requires entities to recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The amendments are effective for the Company beginning in the first quarter of fiscal year 2018. Early adoption is not permitted. The Company is currently in the process of evaluating the impact of the adoption of these requirements on its consolidated financial statements.

In April 2014, the FASB issued an update to current accounting standards, which will change the criteria for reporting discontinued operations. The amendments will also require new disclosures about discontinued operations and disposals of components of an entity that do not qualify for discontinued operations reporting. The amendments are effective for the Company for new disposals (or classifications as held for sale) of components of the Company, should they occur, beginning in the first quarter of fiscal year 2016. Early adoption is permitted for disposals (or classifications as held for sale) that have not been previously reported.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The methods, estimates, and judgments the Company uses in applying its most critical accounting policies have a significant impact on the results the Company reports in its consolidated financial statements. Specific areas requiring the application of management's estimates and judgment include, among others, assumptions pertaining to accruals for consumer and trade-promotion programs, stock-based compensation costs, pension and post-employment benefit costs, future cash flows associated with impairment testing of goodwill and other long-lived assets, credit worthiness of customers, uncertain tax positions, tax valuation allowances and legal, environmental and insurance matters. Accordingly, a different financial presentation could result depending on the judgments, estimates or assumptions that are used. The most critical accounting policies are those that are most important to the portrayal of the Company's financial condition and results, and require the Company to make the most difficult and subjective judgments, often estimating the outcome of future events that are inherently uncertain. The Company's most critical accounting policies are: revenue recognition; valuation of intangible assets and property, plant and equipment; employee benefits, including estimates related to stock-based compensation; and income taxes. The Company's critical accounting policies have been reviewed with the Audit Committee of the Board of Directors. A summary of the Company's significant accounting policies is contained in Note 1 of the Notes to Consolidated Financial Statements.

Revenue Recognition

Sales are recognized as revenue when the risk of loss and title pass to the customer and when all of the following have occurred: a firm sales arrangement exists, pricing is fixed or determinable and collection is reasonably assured. Sales are recorded net of allowances for trade promotions and other discounts. The Company routinely commits to one-time or ongoing trade-promotion programs with customers. Programs include shelf-price reductions, end-of-aisle or in-store displays of the Company's products and graphics and other trade-promotion activities conducted by the customer. Costs related to these programs are recorded as a reduction of sales. The Company's estimated costs of trade promotions incorporate historical sales and spending trends by customer and category. The determination of these estimated costs requires judgment and may change in the future as a result of changes in customer promotion participation, particularly for new programs and for programs related to the introduction of new products. Final determination of the total cost of a promotion is dependent upon customers providing information about proof of performance and other information related to the promotional event. This process of analyzing and settling trade-promotion programs with customers could impact the Company's results of operations and trade spending accruals depending on how actual results of the programs compare to original estimates. If the Company's trade spending accrual estimates as of June 30, 2014, were to differ by 10%, the impact on net sales would be approximately \$10.

Valuation of Intangible Assets and Property, Plant and Equipment

The Company tests its goodwill and other indefinite-lived intangible assets for impairment annually in the fiscal fourth quarter unless there are indications during a different interim period that these assets may have become impaired.

Goodwill

Consistent with fiscal year 2013, the Company's reporting units for goodwill impairment testing purposes are its domestic Strategic Business Units (SBUs), Canada, Latin America and Rest of World. These reporting units are components of the Company's business that are either operating segments or one level below an operating segment and for which discrete financial information is available that is reviewed by the managers of the respective operating segments. No instances of impairment were identified during the fiscal year 2014 annual impairment review and all of the Company's reporting units had fair values that significantly exceeded recorded values. However, future changes in the judgments, assumptions and estimates that are used in the impairment testing for goodwill and indefinite-lived intangible assets as described below could result in significantly different estimates of the fair values.

In its evaluation of goodwill impairment, the Company performs either an initial qualitative or quantitative evaluation for each of its reporting units. Factors considered in the qualitative test include maturity and stability of the reporting unit, magnitude of excess fair value over book value from past year's impairment testing, other reporting unit operating results as well as new events and circumstances impacting the operations at the reporting unit level. If the result of a qualitative test indicates a potential for impairment, a quantitative test is performed. The quantitative test is a two-step process. In the first step, the Company compares the estimated fair value of each reporting unit to its carrying value. If the estimated fair value of any reporting unit is less than its carrying value, the Company performs a second step to determine the implied fair value of the reporting unit's goodwill. If the carrying amount of a reporting unit's goodwill exceeds its implied fair value, an impairment charge is recorded for the difference between the carrying amount and the implied fair value of the reporting unit's goodwill.

To determine the fair value of a reporting unit as part of its quantitative test, the Company uses a discounted cash flow (DCF) approach, as it believes that this approach is the most reliable indicator of the fair value of its businesses and the fair value of their future earnings and cash flows. Under this approach, the Company estimates the future cash flows of each reporting unit and discounts these cash flows at a rate of return that reflects their relative risk. The cash flows used in the DCF are consistent with the Company's three-year long-range plan, which is presented to the Board and gives consideration to actual business trends experienced, and the broader business strategy for the long term. The other key estimates and factors used in the DCF include, but are not limited to, future sales volumes, revenue and expense growth rates, changes in working capital, foreign exchange rates, currency devaluation, inflation and a perpetuity growth rate. Changes in such estimates or the application of alternative assumptions could produce different results.

Trademarks and Other Indefinite-Lived Intangible Assets

For trademarks and other intangible assets with indefinite lives, the Company performs a quantitative analysis to test for impairment. When a quantitative test is performed, the estimated fair value of an asset is compared to its carrying amount. If the carrying amount of such asset exceeds its estimated fair value, an impairment charge is recorded for the difference between the carrying amount and the estimated fair value. The Company uses an income approach, the relief-from-royalty method, to estimate the fair value of its trademarks and other intangible assets with indefinite lives. This method assumes that, in lieu of ownership, a third party would be willing to pay a royalty in order to obtain the rights to use the comparable asset. The determination of the fair values of trademarks and other intangible assets with indefinite lives requires significant judgments in determining both the assets' estimated cash flows as well as the appropriate discount and royalty rates applied to those cash flows to determine fair value. Changes in such estimates or the application of alternative assumptions could produce different results.

There were no instances of impairment identified during fiscal years 2013 or 2012. However, as a result of the effective devaluation of the Venezuelan currency in the third quarter of fiscal year 2014, the Company assessed whether recorded values of intangible assets attributable to the Venezuela subsidiary and goodwill of the reporting unit, which included Venezuela, were impaired. As a result of its assessment, the Company identified indications of impairment and recorded noncash tax deductible impairment charges on trademark values totaling \$4. The Company used the relief-from-royalty method to estimate the fair value of the trademarks. The impairment charge was reflected in other expense (income), net, in the International reportable segment. See “*Venezuela*” above for additional information. Based on the results of the annual impairment test performed in the fourth quarter of fiscal year 2014, there were no additional indications of impairment of assets in Venezuela.

Property, Plant and Equipment and Finite-Lived Intangible Assets

Property, plant and equipment and finite-lived intangible assets are reviewed for possible impairment whenever events or changes in circumstances occur that indicate that the carrying amount of an asset (or asset group) may not be recoverable. The Company's impairment review requires significant management judgment, including estimating the future success of product lines, future sales volumes, revenue and expense growth rates, alternative uses for the assets and estimated proceeds from the disposal of the assets. The Company conducts quarterly reviews of idle and underutilized equipment, and reviews business plans for possible impairment indicators. Impairment occurs when the carrying amount of the asset (or asset group) exceeds its estimated future undiscounted cash flows and the impairment is viewed as other than temporary. When impairment is indicated, an impairment charge is recorded for the difference between the asset's book value and its estimated fair value. Depending on the asset, estimated fair value may be determined either by use of a DCF model or by reference to estimated selling values of assets in similar condition. The use of different assumptions would increase or decrease the estimated fair value of assets and would increase or decrease any impairment measurement.

Employee Benefits

The Company's critical accounting policies relate to its stock-based compensation and retirement income programs.

Stock-based Compensation

The Company grants various nonqualified stock-based compensation awards to eligible employees, including stock options, performance units and restricted stock. The stock-based compensation expense and related income tax benefit recognized in the consolidated statement of earnings in fiscal year 2014 were \$36 and \$13, respectively. As of June 30, 2014, there was \$37 of unrecognized compensation costs related to non-vested stock options, restricted stock and performance unit awards, which is expected to be recognized over a weighted average remaining vesting period of one year. The Company estimates the fair value of each stock option award on the date of grant using the Black-Scholes valuation model, which requires management to make estimates regarding expected option life, stock price volatility and other assumptions. Groups of employees that have similar historical exercise behavior are considered separately for valuation purposes. The total number of stock options expected to vest is adjusted by actual and estimated forfeitures. Changes to the actual and estimated forfeitures will result in a cumulative catch-up adjustment in the period of change. During fiscal year 2014, adjustments related to forfeitures totaled \$2.

The use of different assumptions in the Black-Scholes valuation model could lead to a different estimate of the fair value of each stock option. The expected volatility is based on implied volatility from publicly traded options on the Company's stock at the date of grant, historical implied volatility of the Company's publicly traded options and other factors. If the Company's assumption for the volatility rate increased by one percentage point, the fair value of options granted in fiscal year 2014 would have increased by \$1. The expected life of the stock options is based on observed historical exercise patterns. If the Company's assumption for the expected life increased by one year, the fair value of options granted in fiscal year 2014 would have increased by \$1.

The Company's performance unit grants provide for the issuance of common stock to certain managerial staff and executive management if the Company achieves specified performance targets. The performance period is three years and the payout determination is made at the end of the three-year performance period. The fair value of each grant issued is estimated on the date of grant based on the current market price of the stock. The total amount of compensation expense recognized reflects estimated forfeiture rates and the initial assumption that performance goals will be achieved. Compensation expense is adjusted based on management's assessment of the probability that performance goals will be achieved. If such goals are not met or it is determined that achievement of performance goals is not probable, previously recognized compensation expense is trued up in the current period to reflect the expected payout level. If it is determined that the performance goals will be exceeded, additional compensation expense is recognized, subject to a cap of 150% of target.

Retirement Income Plans

The determination of net periodic pension cost is based on actuarial assumptions including a discount rate to reflect the time value of money, the long-term rate of return on plan assets, employee compensation rates and demographic assumptions to determine the probability and timing of benefit payments. The selection of assumptions is based on historical trends and known economic and market conditions at the time of valuation. The long-term rate of return on plan assets assumption is based on historical returns for similar classes of assets for each asset class and the current asset allocation. The rate is a summation of the estimated return of each asset class weighted by each class' proportion to the total plan assets. The actual net periodic pension cost could differ from the expected results because actuarial assumptions and estimates are used. In the calculation of pension expense related to domestic plans for 2014, the Company used a beginning-of-year discount rate assumption of 4.4% and a long-term rate of return on plan assets assumption of 6.7%. The use of a different discount rate or long-term rate of return on domestic plan assets can significantly impact pension expense. For example, as of June 30, 2014, a decrease of 100 basis points in the discount rate would increase pension liability by approximately \$55, and decrease fiscal year 2014 pension expense by less than \$1. A 100 basis point decrease in the long-term rate of return on plan assets would increase fiscal year 2014 pension expense by \$3. At the end of fiscal year 2014, the long-term rate of return is assumed to be 5.3% for the domestic plan assets. This change is a result of the change in the plan's target investment allocation. The Company also has defined benefit pension plans for eligible international employees, including Canadian and Australian employees, and different assumptions are used in the determination of pension expense for those plans, as appropriate. Refer to Note 18 of the Notes to Consolidated Financial Statements for further discussion of pension and other retirement plan obligations.

Income Taxes

The Company's effective tax rate is based on income by tax jurisdiction, statutory tax rates and tax planning opportunities available to the Company in the various jurisdictions in which the Company operates. Significant judgment is required in determining the Company's effective tax rate and in evaluating its tax positions.

The Company maintains valuation allowances where it is likely that all or a portion of a deferred tax asset will not be realized. Changes in valuation allowances from period to period are included in the Company's income tax provision in the period of change. In determining whether a valuation allowance is warranted, the Company takes into account such factors as prior earnings history, expected future earnings, unsettled circumstances that, if unfavorably resolved, would adversely affect utilization of a deferred tax asset, statutory carry-back and carry-forward periods and tax strategies that could potentially enhance the likelihood of realization of a deferred tax asset. Valuation allowances maintained by the Company relate mostly to deferred tax assets arising from the Company's currently anticipated inability to use net operating losses in certain foreign countries.

In addition to valuation allowances, the Company provides for uncertain tax positions when such tax positions do not meet certain recognition thresholds or measurement standards. Amounts for uncertain tax positions are adjusted in quarters when new information becomes available or when positions are effectively settled.

United States income taxes and foreign withholding taxes are not provided when foreign earnings are indefinitely reinvested. The Company determines whether its foreign subsidiaries will invest their undistributed earnings indefinitely and reassesses this determination on a periodic basis. A change to the Company's determination may be warranted based on the Company's experience as well as plans regarding future international operations and expected remittances. Changes in the Company's determination would likely require an adjustment to the income tax provision in the quarter in which the determination is made.

SUMMARY OF NON-GAAP FINANCIAL MEASURES

The non-GAAP financial measures included in this MD&A and Exhibit 99.3 and the reasons management believes they are useful to investors are described below. These measures should be considered supplemental in nature and are not intended to be a substitute for the related financial information prepared in accordance with U.S. GAAP. In addition, these measures may not be the same as similarly named measures presented by other companies.

Free cash flow is calculated as net cash provided by continuing operations less capital expenditures. The Company's management uses this measure and *free cash flow as a percentage of net sales* to help assess the cash generation ability of the business and funds available for investing activities, such as acquisitions, investing in the business to drive growth and financing activities, including debt payments, dividend payments and share repurchases. Free cash flow does not represent cash available only for discretionary expenditures, since the Company has mandatory debt service requirements and other contractual and non-discretionary expenditures. Refer to "Free cash flow" and "Free cash flow as a percentage of net sales" above for a reconciliation of these non-GAAP measures.

EBIT represents earnings from continuing operations before income taxes, interest income and interest expense. *EBIT margin* is the ratio of EBIT to net sales. *Currency-neutral net sales growth* represents U.S. GAAP net sales growth excluding the impact of foreign currency exchange rates. The Company's management believes these measures provide useful additional information to investors about trends in the Company's core business operations. The following table presents the *currency-neutral net sales growth* reconciliation for fiscal year 2014:

	2014
Net sales growth – GAAP	(0.6) %
Less: foreign exchange impact	(2.4)
Non-GAAP net sales growth (currency-neutral)	1.8 %

Economic profit (EP) is defined by the Company as earnings from continuing operations before income taxes, excluding noncash restructuring-related and intangible asset impairment costs, and interest expense; less an amount of tax based on the effective tax rate and less a charge equal to average capital employed multiplied by the weighted-average cost of capital. EP is a key financial metric the Company's management uses to evaluate business performance and allocate resources, and is a component in determining management's incentive compensation. The Company's management believes EP provides additional perspective to investors about financial returns generated by the business and represents profit generated over and above the cost of capital used by the business to generate that profit. Refer to Exhibit 99.3 for a reconciliation of EP to earnings from continuing operations before income taxes.

CAUTIONARY STATEMENT

This Annual Report on Form 10-K for the fiscal year ended June 30, 2014 (this Report), including the exhibits hereto and the information incorporated by reference herein, contains “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and such forward-looking statements involve risks and uncertainties. Except for historical information, matters discussed below, including statements about future volume, sales, costs, cost savings, earnings, cash flows, plans, objectives, expectations, growth or profitability, are forward-looking statements based on management’s estimates, assumptions and projections. Words such as “will,” “could,” “may,” “expects,” “anticipates,” “targets,” “goals,” “projects,” “intends,” “plans,” “believes,” “seeks,” “estimates” and variations on such words, and similar expressions, are intended to identify such forward-looking statements. These forward-looking statements are only predictions, subject to risks and uncertainties, and actual results could differ materially from those discussed below. Important factors that could affect performance and cause results to differ materially from management’s expectations are described in the sections entitled “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in this Report, as updated from time to time in the Company’s Securities and Exchange Commission filings. These factors include, but are not limited to:

- risks related to international operations, including political instability; government-imposed price controls or other regulations; foreign currency exchange rate controls, including periodic changes in such controls, fluctuations and devaluations; labor unrest and inflationary pressures, particularly in Venezuela, as well as Argentina and other challenging markets;
- risks related to the possibility of nationalization, expropriation of assets or other government action in foreign jurisdictions, particularly in Venezuela and Argentina;
- intense competition in the Company’s markets;
- worldwide, regional and local economic conditions and financial market volatility;
- volatility and increases in commodity costs such as resin, sodium hypochlorite and agricultural commodities, and increases in energy, transportation or other costs;
- the ability of the Company to drive sales growth, increase price and market share, grow its product categories and achieve favorable product and geographic mix;
- dependence on key customers and risks related to customer consolidation and ordering patterns;
- costs resulting from government regulations;
- the ability of the Company to successfully manage global political, legal, tax and regulatory risks, including changes in regulatory or administrative activity;
- supply disruptions and other risks inherent in reliance on a limited base of suppliers;
- the ability of the Company to implement and generate anticipated cost savings and efficiencies;
- the success of the Company’s business strategies;
- the impact of product liability claims and other legal proceedings, including in foreign jurisdictions and the Company’s litigation related to its discontinued operations in Brazil;
- the ability of the Company to develop and introduce commercially successful products;
- risks relating to acquisitions, new ventures and divestitures, and associated costs, including the potential for asset impairment charges, including intangible assets and goodwill;
- risks related to reliance on information technology systems, including potential security breaches, cyber attacks or privacy breaches that result in the unauthorized disclosure of consumer, customer, employee or Company information, or service interruptions;
- the Company’s ability to attract and retain key personnel;
- the Company’s ability to maintain its business reputation and the reputation of its brands;
- environmental matters, including costs associated with the remediation of past contamination and the handling and/or transportation of hazardous substances;
- the impact of natural disasters, terrorism and other events beyond the Company’s control;
- the Company’s ability to maximize, assert and defend its intellectual property rights;
- any infringement or claimed infringement by the Company of third-party intellectual property rights;
- the effect of the Company’s indebtedness and credit rating on its operations and financial results;
- the Company’s ability to maintain an effective system of internal controls;

- uncertainties relating to tax positions, tax disputes and changes in the Company's tax rate;
- the accuracy of the Company's estimates and assumptions on which its financial statement projections are based;
- the Company's ability to pay and declare dividends or repurchase its stock in the future; and
- the impacts of potential stockholder activism.

The Company's forward-looking statements in this Report are based on management's current views and assumptions regarding future events and speak only as of their dates. The Company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by the federal securities laws.

MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting. The Company's internal control over financial reporting is a process designed under the supervision of its Chief Executive Officer and Chief Financial Officer to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the Company's financial statements for external reporting in accordance with accounting principles generally accepted in the United States of America. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions or that the degree of compliance with the policies or procedures may deteriorate.

Management evaluated the effectiveness of the Company's internal control over financial reporting using the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in *Internal Control-Integrated Framework* published in 1992. Management, under the supervision and with the participation of the Company's Chief Executive Officer and Chief Financial Officer, assessed the effectiveness of the Company's internal control over financial reporting at June 30, 2014, and concluded that it is effective.

The Company's independent registered public accounting firm, Ernst & Young LLP, has audited the effectiveness of the Company's internal control over financial reporting as of June 30, 2014.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Stockholders of The Clorox Company

We have audited the accompanying consolidated balance sheets of The Clorox Company as of June 30, 2014 and 2013, and the related consolidated statements of earnings, comprehensive income, stockholders' equity and cash flows for each of the three years in the period ended June 30, 2014. Our audits also included the financial statement schedule in Exhibit 99.2. These financial statements and schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of The Clorox Company at June 30, 2014 and 2013, and the consolidated results of its operations and its cash flows for each of the three years in the period ended June 30, 2014, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly in all material respects the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), The Clorox Company's internal control over financial reporting as of June 30, 2014, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (1992 framework) and our report dated August 25, 2014 expressed an unqualified opinion thereon.

August 25, 2014

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Stockholders of The Clorox Company

We have audited The Clorox Company's internal control over financial reporting as of June 30, 2014, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (1992 framework) (the COSO criteria). The Clorox Company's management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, The Clorox Company maintained, in all material respects, effective internal control over financial reporting as of June 30, 2014, based on the COSO criteria (1992 framework).

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of The Clorox Company as of June 30, 2014 and 2013, and the related consolidated statements of earnings, comprehensive income, stockholders' equity, and cash flows for each of the three years in the period ended June 30, 2014 of The Clorox Company and our report dated August 25, 2014 expressed an unqualified opinion thereon.

See Notes to Consolidated Financial Statements

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
The Clorox Company
(Dollars in millions, except per share amounts)

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations and Basis of Presentation

The Company is principally engaged in the production, marketing and sales of consumer products through mass retail outlets, e-commerce channels, distributors and medical supply providers. The consolidated financial statements include the statements of the Company and its wholly owned and controlled subsidiaries. All significant intercompany transactions and accounts were eliminated in consolidation. Certain prior year reclassifications were made in the consolidated financial statements and related notes to the consolidated financial statements to conform to the current year presentation.

Use of Estimates

The preparation of these consolidated financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect reported amounts and related disclosures. Specific areas requiring the application of management's estimates and judgments include assumptions pertaining to accruals for consumer and trade-promotion programs, stock-based compensation costs, pension and post-employment benefit costs, future cash flows associated with impairment testing of goodwill and other long-lived assets, the credit worthiness of customers, uncertain tax positions, tax valuation allowances and legal, environmental and insurance matters. Actual results could materially differ from estimates and assumptions made.

Recently Issued Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (FASB) issued an update to current accounting standards, which establishes a single, comprehensive revenue recognition model for all contracts with customers, and will supersede most current revenue recognition guidance. It requires entities to recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The amendments are effective for the Company beginning in the first quarter of fiscal year 2018. Early adoption is not permitted. The Company is currently in the process of evaluating the impact of the adoption of these requirements on its consolidated financial statements.

In April 2014, the FASB issued an update to current accounting standards, which will change the criteria for reporting discontinued operations. The amendments will also require new disclosures about discontinued operations and disposals of components of an entity that do not qualify for discontinued operations reporting. The amendments are effective for the Company for new disposals (or classifications as held for sale) of components of the Company, should they occur, beginning in the first quarter of fiscal year 2016. Early adoption is permitted for disposals (or classifications as held for sale) that have not been previously reported.

Cash and Cash Equivalents

Cash equivalents consist of highly liquid instruments, time deposits and money market funds with an initial maturity at purchase of three months or less. The fair value of cash and cash equivalents approximates the carrying amount.

The Company's cash position includes amounts held by foreign subsidiaries and, as a result, the repatriation of certain cash balances from some of the Company's foreign subsidiaries could result in additional tax costs. However, these cash balances are generally available without legal restriction to fund local business operations. In addition, a portion of the Company's cash balance is held in U.S. dollars by foreign subsidiaries, whose functional currency is their local currency. Such U.S. dollar balances are reported on the foreign subsidiaries' books, in their functional currency, with the impact from foreign currency exchange rate differences recorded in other expense (income), net. The Company's cash holdings were as follows as of June 30:

	2014	2013
U.S. dollar balances held by U.S. dollar functional currency subsidiaries and at parent	\$ 180	\$ 130
Non-U.S. dollar balances held by non-U.S. dollar functional currency subsidiaries	132	115
U.S. dollar balances held by non-U.S. dollar functional currency subsidiaries	12	36
Non-U.S. dollar balances held by U.S. dollar functional currency subsidiaries	5	18
Total	\$ 329	\$ 299

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Inventories

Inventories are stated at the lower of cost or market. When necessary, the Company provides allowances to adjust the carrying value of its inventory to the lower of cost or market, including any costs to sell or dispose. Appropriate consideration is given to obsolescence, excessive inventory levels, product deterioration and other factors in evaluating net realizable value for the purposes of determining the lower of cost or market.

Property, Plant and Equipment and Finite-Lived Intangible Assets

Property, plant and equipment and finite-lived intangible assets are stated at cost. Depreciation and amortization expense are calculated by the straight-line method using the estimated useful lives or lives determined by lease contracts of the related assets. The table below provides estimated useful lives of property, plant and equipment by asset classification.

	Estimated Useful Lives
Buildings and leasehold improvements	10 - 40 years
Land improvements	10 - 30 years
Machinery and equipment	3 - 15 years
Computer equipment	3 - 5 years
Capitalized software costs	3 - 7 years

Property, plant and equipment and finite-lived intangible assets are reviewed for impairment whenever events or changes in circumstances occur that indicate that the carrying amount of an asset (or asset group) may not be fully recoverable. The risk of impairment is initially assessed based on an estimate of the undiscounted cash flows at the lowest level for which identifiable cash flows exist. Impairment occurs when the book value of the asset exceeds the estimated future undiscounted cash flows generated by the asset and the impairment is viewed as other than temporary. When an impairment is indicated, an impairment charge is recorded for the difference between the book value of the asset and its estimated fair market value. Depending on the asset, estimated fair market value may be determined either by use of a discounted cash flow model or by reference to estimated selling values of assets in similar condition.

Capitalization of Software Costs

The Company capitalizes certain significant costs incurred in the acquisition and development of software for internal use, including the costs of the software, materials, consultants, interest and payroll and payroll-related costs for employees during the application development stage. Costs incurred prior to the application development stage, costs incurred once the application is substantially complete and ready for its intended use and other costs not qualifying for capitalization, including training and maintenance costs, are charged to expense. Capitalized software amortization expense was \$22, \$21 and \$18, in fiscal years 2014, 2013 and 2012, respectively.

Impairment Review of Goodwill and Indefinite-Lived Intangible Assets

The Company tests its goodwill, trademarks with indefinite lives and other indefinite-lived intangible assets annually for impairment in the fiscal fourth quarter unless there are indications during a different interim period that these assets may have become impaired. With respect to goodwill, the Company performs either a qualitative or quantitative evaluation for each of its reporting units. Factors considered in the qualitative test include maturity and stability of the reporting unit, magnitude of excess fair value over book value from past year's impairment testing, other reporting unit specific operating results as well as new events and circumstances impacting the operations at the reporting unit level. If the result of a qualitative test indicates a potential for impairment of a reporting unit, a quantitative test is performed. The quantitative test is a two-step process. In the first step, the Company compares the estimated fair value of the reporting unit to its carrying value. If the estimated fair value of any reporting unit is less than its carrying value, the Company performs a second step to determine the implied fair value of the reporting unit's goodwill. If the carrying amount of a reporting unit's goodwill exceeds its implied fair value, an impairment charge is recorded for the difference between the carrying amount and the implied fair value of the reporting unit's goodwill. For trademarks and other intangible assets with indefinite lives, the Company performs a quantitative analysis to test for impairment and compares the estimated fair value of an asset to its carrying amount. If the carrying amount of such asset exceeds its estimated fair value, an impairment charge is recorded for the difference between the carrying amount and the estimated fair value. The Company's estimates of fair value are based primarily on a discounted cash flow or income approach that requires significant management judgment with respect to future sales volumes, revenue and expense growth rates, changes in working capital, foreign exchange rates, currency devaluation, inflation and a perpetuity growth rate.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Stock-based Compensation

The Company grants various nonqualified stock-based compensation awards to eligible employees, including stock options and performance units.

For stock options, the Company estimates the fair value of each award on the date of grant using the Black-Scholes valuation model, which requires management to make estimates regarding expected option life, stock price volatility and other assumptions. Groups of employees that have similar historical exercise behavior are considered separately for valuation purposes. The Company estimates stock option forfeitures based on historical data for each employee grouping. The total number of stock options expected to vest is adjusted by actual and estimated forfeitures. Changes to the actual and estimated forfeitures will result in a cumulative catch-up adjustment in the period of change. Compensation expense is recorded by amortizing the grant date fair values on a straight-line basis over the vesting period, adjusted for estimated forfeitures.

The Company's performance unit grants provide for the issuance of common stock to certain managerial staff and executive management if the Company achieves specified performance targets. The performance period is three years and the payout determination is made at the end of the three-year performance period. The fair value of each grant issued is estimated on the date of grant based on the current market price of the stock. The total amount of compensation expense recognized reflects estimated forfeiture rates and the initial assumption that performance goals will be achieved. Compensation expense is adjusted based on management's assessment of the probability that performance goals will be achieved. If such goals are not met or it is determined that achievement of performance goals is not probable, previously recognized compensation expense is trued up in the current period to reflect the expected payout level. If it is determined that the performance goals will be exceeded, additional compensation expense is recognized, subject to a cap of 150% of target.

Cash flows resulting from tax deductions in excess of the cumulative compensation cost recognized for stock-based payment arrangements (excess tax benefits) are classified as financing cash inflows.

Employee Benefits

The Company accounts for its defined benefit retirement income and retirement health care plans using actuarial methods. These methods use an attribution approach that generally spreads "plan events" over the service lives or expected lifetime (for frozen plans) of plan participants. Examples of plan events are plan amendments and changes in actuarial assumptions such as the expected return on plan assets, discount rate, rate of compensation increase and certain employee-related factors, such as retirement age and mortality. The principle underlying the attribution approach is that employees render service over their employment period on a relatively "smooth" basis and, therefore, the statement of earnings effects of retirement income and retirement health care plans are recognized in the same pattern.

One of the principal assumptions used in the net periodic benefit cost calculation is the expected return on plan assets. The required use of an expected return on plan assets may result in recognized pension expense or income that differs from the actual returns of those plan assets in any given year. Over time, however, the goal is for the expected long-term returns to approximate the actual returns and, therefore, the expectation is that the pattern of income and expense recognition should closely match the pattern of the services provided by the participants. The Company uses a market-related value method for calculating plan assets for purposes of determining the amortization of actuarial gains and losses. This method employs an asset smoothing approach. The differences between actual and expected returns are recognized in the net periodic benefit cost calculation over the average remaining service period or expected lifetime (for frozen plans) of the plan participants using the corridor approach. Under this approach, only actuarial gains (losses) that exceed 5% of the greater of the projected benefit obligation or the market-related value of assets are amortized to pension expense by the Company. In developing its expected return on plan assets, the Company considers the long-term actual returns relative to the mix of investments that comprise its plan assets and also develops estimates of future investment returns by considering external sources.

The Company recognizes an actuarial-based obligation at the onset of disability for certain benefits provided to individuals after employment, but before retirement, that include medical, dental, vision, life and other benefits.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Environmental Costs

The Company is involved in certain environmental remediation and ongoing compliance activities. Accruals for environmental matters are recorded on a site-by-site basis when it is probable that a liability has been incurred and the amount of the liability can be reasonably estimated. The Company's accruals reflect the anticipated participation of other potentially responsible parties in those instances where it is probable that such parties are legally responsible and financially capable of paying their respective shares of the relevant costs. These accruals are adjusted periodically as assessment and remediation efforts progress or as additional technical or legal information becomes available. Actual costs to be incurred at identified sites in future periods may vary from the estimates, given the inherent uncertainties in evaluating environmental exposures. The aggregate accrual for environmental matters is included in other liabilities in the Company's consolidated balance sheets on an undiscounted basis due to uncertainty regarding the timing of future payments.

Revenue Recognition

Sales are recognized as revenue when the risk of loss and title pass to the customer and when all of the following have occurred: a firm sales arrangement exists, pricing is fixed or determinable and collection is reasonably assured. Sales are recorded net of allowances for returns, trade promotions, coupons and other discounts. The Company routinely commits to one-time or ongoing trade-promotion programs with customers and consumer coupon programs that require the Company to estimate and accrue the expected costs of such programs. Programs include shelf price reductions, end-of-aisle or in-store displays of the Company's products and graphics and other trade-promotion activities conducted by the customer. Coupons are recognized as a liability when distributed based upon expected consumer redemptions. The Company maintains liabilities related to these programs for the estimated expenses incurred, but not paid, at the end of each period. Trade-promotion and coupon redemption costs are recorded as a reduction of sales. The Company provides an allowance for doubtful accounts based on its historical experience and ongoing assessment of its customers' credit risk. Receivables were presented net of an allowance for doubtful accounts of \$3 and \$5 as of June 30, 2014 and 2013, respectively. The Company's provision for doubtful accounts was \$0, \$0 and \$3 in fiscal years 2014, 2013 and 2012, respectively.

Receivables, net, included non-customer receivables of \$15 and \$13 as of June 30, 2014 and 2013, respectively.

Cost of Products Sold

Cost of products sold represents the costs directly related to the manufacture and distribution of the Company's products and primarily includes raw materials, packaging, contract packer fees, shipping and handling, warehousing, package design, depreciation, amortization, direct and indirect labor and operating costs for the Company's manufacturing and distribution facilities including salary, benefit costs and incentive compensation, and royalties and amortization related to the Company's Glad Venture Agreement (see Note 10 – Other Liabilities).

Costs associated with developing and designing new packaging are expensed as incurred and include design, artwork, films and labeling. Expenses for fiscal years ended June 30, 2014, 2013 and 2012 were \$12, \$10 and \$10, respectively, all of which were reflected in cost of products sold in the consolidated statements of earnings.

Selling and Administrative Expenses

Selling and administrative expenses represent costs incurred by the Company in generating revenues and managing the business and include market research, commissions and certain administrative expenses. Administrative expenses include salary, benefits, incentive compensation, professional fees and services, software and licensing fees and other operating costs associated with the Company's non-manufacturing, non-research and development staff, facilities and equipment.

Advertising and Research and Development Costs

The Company expenses advertising and research and development costs in the period incurred.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Income Taxes

The Company uses the asset and liability method to account for income taxes. Deferred tax assets and liabilities are recognized for the anticipated future tax consequences attributable to differences between financial statement amounts and their respective tax bases. Management reviews the Company's deferred tax assets to determine whether their value can be realized based upon available evidence. A valuation allowance is established when management believes that it is more likely than not that some portion of its deferred tax assets will not be realized. Changes in valuation allowances from period to period are included in the Company's tax provision in the period of change. In addition to valuation allowances, the Company provides for uncertain tax positions when such tax positions do not meet certain recognition thresholds or measurement standards. Amounts for uncertain tax positions are adjusted in quarters when new information becomes available or when positions are effectively settled.

U.S. income tax expense and foreign withholding taxes are provided on unremitted foreign earnings that are not indefinitely reinvested at the time the earnings are generated. Where foreign earnings are indefinitely reinvested, no provision for U.S. income or foreign withholding taxes is made. When circumstances change and the Company determines that some or all of the undistributed earnings will be remitted in the foreseeable future, the Company accrues an expense in the current period for U.S. income taxes and foreign withholding taxes attributable to the anticipated remittance.

Foreign Currency Transactions and Translation

Local currencies are the functional currencies for substantially all of the Company's foreign operations. When the transactional currency is different than the functional currency, transaction gains and losses are included as a component of other expense (income), net. In addition, certain assets and liabilities denominated in currencies different than a foreign subsidiary's functional currency are reported on the subsidiary's books in its functional currency, with the impact from exchange rate differences recorded in other expense (income), net. Except for Venezuela as discussed below, assets and liabilities of foreign operations are translated into U.S. dollars using the exchange rates in effect at the balance sheet date, while income and expenses are translated at the average monthly exchange rates during the year.

Gains and losses on foreign currency translations are reported as a component of other comprehensive income. Deferred taxes are not provided on cumulative translation adjustments where the Company expects earnings of a foreign subsidiary to be indefinitely reinvested. The income tax effect of currency translation adjustments related to foreign subsidiaries and joint ventures for which earnings are not considered indefinitely reinvested is recorded as a component of deferred taxes with an offset to other comprehensive income.

Due to a sustained inflationary environment, the financial statements of the Venezuela business are consolidated under the rules governing the preparation of financial statements in a highly inflationary economy. As such, the Venezuela business's non-U.S. dollar (non-USD) denominated monetary assets and liabilities are remeasured into U.S. dollars (USD) each reporting period with the resulting gains and losses reflected in other expense (income), net.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Derivative Instruments

The Company's use of derivative instruments, principally swaps, futures and forward contracts, is limited to non-trading purposes and is designed to partially manage exposure to changes in commodity prices, interest rates and foreign currencies. The Company's contracts are hedges for transactions with notional amounts and periods consistent with the related exposures and do not constitute investments independent of these exposures.

Most commodity, interest rate and foreign exchange derivative contracts are designated as cash flow hedges of certain forecasted raw material purchases, interest payments and finished goods inventory purchases, based on certain hedge criteria. The criteria used to determine if hedge accounting treatment is appropriate are: (a) whether the designation of the hedge is to an underlying exposure and (b) whether there is sufficient correlation between the value of the derivative instrument and the underlying obligation. The changes in the fair value of derivatives are recorded as either assets or liabilities in the balance sheet with an offset to net earnings or other comprehensive income depending on whether, for accounting purposes, the derivative is designated and qualifies as a hedge. The Company de-designates cash flow hedge relationships when it determines that the hedge relationships are no longer highly effective or that the forecasted transaction is no longer probable. Upon de-designation of a hedge, the portion of gains or losses on the derivative instrument that was previously accumulated in other comprehensive income remains in accumulated other comprehensive income until the forecasted transaction is recognized in net earnings, or is recognized in net earnings immediately if the forecasted transaction is no longer probable. From time to time, the Company may have contracts not designated as hedges for accounting purposes, for which it recognizes changes in the fair value in other expense (income), net. Cash flows from hedging activities are classified as operating activities in the consolidated statements of cash flows.

The Company uses different methodologies, when necessary, to estimate the fair value of its derivative contracts. The estimated fair values of the majority of the Company's contracts are based on quoted market prices, traded exchange market prices, or broker price quotations, and represent the estimated amounts that the Company would pay or receive to terminate the contracts.

NOTE 2. BUSINESSES ACQUIRED

In December 2011, the Company acquired HealthLink, Aplicare, Inc. and Soy Vay Enterprises, Inc., including each business' workforce, for purchase prices aggregating \$97, funded through commercial paper borrowings. The cash paid of \$93 represents the aggregate purchase prices less cash acquired. Results for HealthLink and Aplicare, Inc., providers of infection control products for the health care industry, are reflected in the Cleaning reportable segment. Results for Soy Vay Enterprises, Inc., a California-based operation that provides the Company a presence in the market for Asian sauces, are reflected in the Lifestyle reportable segment.

NOTE 3. INVENTORIES, NET

Inventories, net, consisted of the following as of June 30:

	2014	2013
Finished goods	\$ 321	\$ 321
Raw materials and packaging	113	121
Work in process	2	3
LIFO allowances	(36)	(40)
Allowances for obsolescence	(14)	(11)
Total	<u>\$ 386</u>	<u>\$ 394</u>

The last-in, first-out (LIFO) method was used to value approximately 34% and 37% of inventories as of June 30, 2014 and 2013, respectively. The carrying values for all other inventories, including inventories of all international businesses, are determined on the first-in, first-out (FIFO) method. The effect on earnings of the liquidation of LIFO layers was a benefit of \$2, \$3 and \$2 for the fiscal years ended June 30, 2014, 2013 and 2012, respectively.

The Company had inventory consigned to others of \$4 and \$2 as of June 30, 2014 and 2013, respectively.

During fiscal years 2014, 2013 and 2012, the Company's inventory obsolescence expense was \$13, \$12 and \$13, respectively.

NOTE 4. OTHER CURRENT ASSETS

Other current assets consisted of the following as of June 30:

	2014	2013
Deferred tax assets	\$ 81	\$ 87
Prepaid expenses	42	41
Other	11	19
Total	<u>\$ 134</u>	<u>\$ 147</u>

As of June 30, 2014 and 2013, Other in the table above included \$9 and \$13 of restricted cash, respectively. As of June 30, 2014 and 2013, restricted cash of \$5 and \$10, respectively, was held by a foreign subsidiary as a prepayment received for intercompany services. Subsequent to June 30, 2014, this balance is no longer restricted as all services have been performed. Additionally, as of June 30, 2014 and 2013, the Company had restricted cash of \$3 and \$3, respectively, held in escrow related to fiscal year 2012 acquisitions.

NOTE 5. PROPERTY, PLANT AND EQUIPMENT, NET

The components of property, plant and equipment, net, consisted of the following as of June 30:

	2014	2013
Machinery and equipment	\$ 1,593	\$ 1,590
Buildings	506	485
Capitalized software costs	374	362
Land and improvements	122	119
Construction in progress	79	96
Computer equipment	79	80
	<u>2,753</u>	<u>2,732</u>
Less: accumulated depreciation and amortization	(1,776)	(1,711)
Total	<u>\$ 977</u>	<u>\$ 1,021</u>

Depreciation and amortization expense related to property, plant and equipment, net, was \$161, \$162 and \$158 in fiscal years 2014, 2013 and 2012, respectively.

NOTE 6. GOODWILL, TRADEMARKS AND OTHER INTANGIBLE ASSETS

Changes in the carrying amount of goodwill, trademarks and other intangible assets for the fiscal years ended June 30, 2014 and 2013, were as follows:

	Goodwill				
	Cleaning	Lifestyle	Household	International	Total
Balance June 30, 2012	\$ 323	\$ 244	\$ 85	\$ 460	\$ 1,112
Translation adjustments and other	-	-	-	(7)	(7)
Balance June 30, 2013	\$ 323	\$ 244	\$ 85	\$ 453	\$ 1,105
Translation adjustments and other	-	-	-	(4)	(4)
Balance June 30, 2014	\$ 323	\$ 244	\$ 85	\$ 449	\$ 1,101

	Trademarks			Other intangible assets		
	Subject to amortization	Not subject to amortization	Total	Technology and product formulae	Other	Total
Balance June 30, 2012	\$ 19	\$ 537	\$ 556	\$ 23	\$ 63	\$ 86
Amortization	(3)	-	(3)	(9)	(6)	(15)
Translation adjustments and other	-	-	-	5	(2)	3
Balance June 30, 2013	\$ 16	\$ 537	\$ 553	\$ 19	\$ 55	\$ 74
Acquisitions and other additions	-	-	-	-	5	5
Amortization	(1)	-	(1)	(9)	(6)	(15)
Impairment	-	(4)	(4)	-	-	-
Translation adjustments and other	(1)	-	(1)	-	-	-
Balance June 30, 2014	\$ 14	\$ 533	\$ 547	\$ 10	\$ 54	\$ 64

Intangible assets subject to amortization were net of total accumulated amortization of \$291 and \$275 as of June 30, 2014 and 2013, respectively, of which \$22 and \$21, respectively, related to trademarks. Total accumulated amortization included \$142 and \$136 as of June 30, 2014 and 2013, respectively, related to intangible assets subject to amortization that were fully amortized, of which \$13 and \$13, respectively, related to trademarks. Estimated amortization expense for these intangible assets is \$9, \$5, \$5, \$4 and \$3 for fiscal years 2015, 2016, 2017, 2018 and 2019, respectively.

In fiscal year 2014, the Company entered into an exclusivity agreement with a manufacturer. In connection with the agreement, the Company recorded an Other Intangible Asset valued at \$4 that will be amortized over the 7-year term of the agreement. The agreement may be renewed for an additional 3 years at no cost upon mutual consent.

As a result of the effective devaluation of the Venezuelan currency in the third quarter of fiscal year 2014, the Company assessed whether recorded values of intangible assets attributable to the Venezuela subsidiary and goodwill of the reporting unit which included Venezuela were impaired. As a result of its assessment, the Company identified indications of impairment and recorded noncash tax deductible impairment charges on trademark values totaling \$4. The Company used an income approach, the relief-from-royalty method, to estimate the fair value of the trademarks, and as such, the fair value measurement was classified as Level 3. The impairment charge was reflected in other expense (income), net, in the International reportable segment. For a further discussion on Venezuela intangible and other balances, refer to Note 19 – Segment Reporting.

During the fourth quarter of fiscal years 2014, 2013 and 2012, the Company completed its annual impairment tests of goodwill and indefinite-lived intangible assets and no instances of impairment were identified.

NOTE 7. ACCRUED LIABILITIES

Accrued liabilities consisted of the following as of June 30:

	2014	2013
Trade and sales promotion	\$ 113	\$ 116
Compensation and employee benefit costs	102	152
Dividends	100	96
Interest	27	27
Insurance	18	20
Derivatives	17	3
Royalties	11	11
Other	84	65
Total	<u>\$ 472</u>	<u>\$ 490</u>

NOTE 8. DEBT

Notes and loans payable, which mature in less than one year, included the following as of June 30:

	2014	2013
Commercial paper	\$ 141	\$ 200
Foreign borrowings	2	2
Total	<u>\$ 143</u>	<u>\$ 202</u>

The weighted average interest rates incurred on average outstanding notes and loans payable during the fiscal years ended June 30, 2014, 2013 and 2012, including fees associated with the Company's undrawn revolving credit facility, were 0.97%, 1.68% and 0.85%, respectively. The weighted average effective interest rates on commercial paper balances as of June 30, 2014 and 2013, were 0.28% and 0.31%, respectively. The carrying value of notes and loans payable as of June 30, 2014 and 2013, approximated their fair value due to their short maturity.

Long-term debt, carried at face value net of unamortized discounts or premiums, included the following as of June 30:

	2014	2013
Senior unsecured notes and debentures:		
5.00%, \$575 due January 2015	\$ 575	\$ 575
3.55%, \$300 due November 2015	300	300
5.95%, \$400 due October 2017	399	399
3.80%, \$300 due November 2021	298	298
3.05%, \$600 due September 2022	598	598
Total	<u>2,170</u>	<u>2,170</u>
Less: Current maturities of long-term debt	<u>(575)</u>	<u>-</u>
Long-term debt	<u>\$ 1,595</u>	<u>\$ 2,170</u>

The weighted average interest rates incurred on average outstanding long-term debt during the fiscal years ended June 30, 2014, 2013 and 2012, were 4.56%, 4.76% and 5.21%, respectively. The weighted average effective interest rate on long-term debt balances as of June 30, 2014 and 2013, was 4.56%.

In March 2013, \$500 in senior notes with an annual fixed interest rate of 5.00% became due and were repaid. The repayment was funded in part with commercial paper borrowings and in part with a portion of the proceeds from the sale-leaseback transaction of the Company's Oakland, Calif., general office building (Note 10 – Other Liabilities).

In October 2012, \$350 in senior notes with an annual fixed interest rate of 5.45% became due and were repaid. The repayment was funded with a portion of the proceeds from the September 2012 issuance of \$600 in senior notes with an annual fixed interest rate of 3.05%, payable semi-annually in March and September, and a maturity date of September 15, 2022. The remaining proceeds from the September 2012 issuance were used to repay commercial paper.

In November 2011, the Company issued \$300 in senior notes with an annual fixed interest rate of 3.80%, payable semi-annually in May and November, and a maturity date of November 15, 2021. Proceeds from the notes were used to repay commercial paper.

NOTE 8. DEBT (Continued)

The senior notes issued in September 2012 and November 2011 rank equally and ratably in right of payment with all of the Company's existing and future senior unsecured indebtedness and senior to any future subordinated unsecured indebtedness. These notes were issued under the Company's shelf registration statement filed in November 2011, which allows the Company to offer and sell an unlimited amount of its senior unsecured indebtedness from time to time and expires in November 2014.

As of June 30, 2014, the Company had interest rate forward contracts with a notional amount of \$288 related to the anticipated refinancing of senior notes maturing in January 2015.

The Company's borrowing capacity under other financing arrangements as of June 30 was as follows:

	2014	2013
Revolving credit facility	\$ 1,100	\$ 1,100
Foreign credit lines	31	32
Other credit lines	13	13
Total	<u>\$ 1,144</u>	<u>\$ 1,145</u>

As of June 30, 2014, the Company had a \$1.1 billion revolving credit agreement, which expires in May 2017. There were no borrowings under the agreement, and the Company believes that borrowings under the revolving credit facility are and will continue to be available for general corporate purposes. The agreement includes certain restrictive covenants and limitations, with which the Company was in compliance as of June 30, 2014.

Of the \$44 of foreign and other credit lines as of June 30, 2014, \$5 was outstanding and the remainder of \$39 was available for borrowing.

Long-term debt maturities as of June 30, 2014, are \$575, \$300, \$0, \$400, \$0 and \$900 in fiscal years 2015, 2016, 2017, 2018, 2019 and thereafter, respectively.

NOTE 9. FINANCIAL INSTRUMENTS AND FAIR VALUE MEASUREMENTS

Financial assets and liabilities carried at fair value in the consolidated balance sheets are required to be classified and disclosed in one of the following three categories:

Level 1: Quoted market prices in active markets for identical assets or liabilities.

Level 2: Observable market-based inputs or unobservable inputs that are corroborated by market data.

Level 3: Unobservable inputs reflecting the reporting entity's own assumptions.

As of June 30, 2014, the Company's financial assets and liabilities that were measured at fair value on a recurring basis during the period included derivative financial instruments, which were all classified as Level 2, and trust assets to fund certain of the Company's nonqualified deferred compensation plans, which were classified as Level 1. As of June 30, 2013, the Company's financial assets and liabilities that were measured at fair value on a recurring basis during the period included derivative financial instruments, which were all classified as Level 2.

Financial Risk Management and Derivative Instruments

The Company is exposed to certain commodity, interest rate and foreign currency risks related to its ongoing business operations and uses derivative instruments to mitigate its exposure to these risks.

Commodity Price Risk Management

The Company may use commodity exchange traded futures and over-the-counter swap contracts to fix the price of a portion of its forecasted raw material requirements. Contract maturities, which are generally no longer than 2 years, are matched to the length of the raw material purchase contracts. Commodity purchase contracts are measured at fair value using market quotations obtained from commodity derivative dealers.

NOTE 9. FINANCIAL INSTRUMENTS AND FAIR VALUE MEASUREMENTS (Continued)

As of June 30, 2014, the notional amount of commodity derivatives was \$36, of which \$19 related to jet fuel swaps and \$17 related to soybean oil futures. As of June 30, 2013, the notional value of commodity derivatives was \$51, of which \$32 related to jet fuel swaps and \$19 related to soybean oil futures.

Interest Rate Risk Management

The Company may enter into over-the-counter interest rate forward contracts to fix a portion of the benchmark interest rate prior to the anticipated issuance of fixed rate debt. These interest rate forward contracts generally have durations of less than twelve months. The interest rate contracts are measured at fair value using information quoted by U.S. government bond dealers. During fiscal years 2014 and 2013, the Company paid \$0 and \$4 to settle interest rate forward contracts, respectively, which were reflected in operating cash flows.

As of June 30, 2014 and 2013, the notional amount of interest rate forward contracts was \$288 and \$0, respectively. The interest rate forward contracts outstanding as of June 30, 2014, were related to the anticipated refinancing of senior notes maturing in January 2015.

Foreign Currency Risk Management

The Company may also enter into certain over-the-counter foreign currency-related derivative contracts to manage a portion of the Company's foreign exchange risk associated with the purchase of inventory and certain intercompany transactions. These foreign currency contracts generally have durations of no longer than 20 months. The foreign exchange contracts are measured at fair value using information quoted by foreign exchange dealers.

The notional amount of outstanding foreign currency forward contracts used by the Company's subsidiaries in Canada, Australia and New Zealand to hedge forecasted purchases of inventory were \$54, \$28 and \$5, respectively, as of June 30, 2014, and \$18, \$22 and \$4, respectively, as of June 30, 2013. There were no outstanding contracts to economically hedge foreign exchange risk associated with intercompany transactions as of June 30, 2014 and 2013, respectively.

Counterparty Risk Management

The Company utilizes a variety of financial institutions as counterparties for over-the-counter derivative instruments. The Company enters into agreements governing the use of over-the-counter derivative instruments and sets internal limits on the aggregate over-the-counter derivative instrument positions held with each counterparty. Certain terms of these agreements require the Company or the counterparty to post collateral when the fair value of the derivative instruments exceeds contractually defined counterparty liability position limits. Of the \$17 and \$3 of the derivative instruments reflected in accrued liabilities as of June 30, 2014 and 2013, respectively, \$11 and \$3, respectively, contained such terms. As of both June 30, 2014 and 2013, neither the Company nor any counterparty was required to post any collateral.

Certain terms of the agreements governing the Company's over-the-counter derivative instruments require the credit ratings, as assigned by Standard & Poor's and Moody's to the Company and its counterparties, to remain at a level equal to or better than the minimum of an investment grade credit rating. If the Company's credit ratings were to fall below investment grade, the counterparties to the derivative instruments could request full collateralization on derivative instruments in net liability positions. As of both June 30, 2014 and 2013, the Company and each of its counterparties had been assigned investment grade ratings with both Standard & Poor's and Moody's.

Fair Value of Financial Instruments

Derivatives

The accounting for changes in the fair value (i.e., gains or losses) of a derivative instrument depends on whether it has been designated and qualifies as an accounting hedge and, if so, on the type of hedging relationship. For those derivative instruments designated and qualifying as hedging instruments, the Company must designate the hedging instrument as a fair value hedge or a cash flow hedge. The Company designates its commodity forward and future contracts for forecasted purchases of raw materials, interest rate forward contracts for forecasted interest payments, and foreign currency forward contracts for forecasted purchases of inventory as cash flow hedges. The Company does not designate its foreign currency forward contracts for intercompany transactions as accounting hedges. During the fiscal years ended June 30, 2014, 2013 and 2012, the Company had no hedging instruments designated as fair value hedges.

NOTE 9. FINANCIAL INSTRUMENTS AND FAIR VALUE MEASUREMENTS (Continued)

Trust Assets

Beginning in December 2013, the Company holds mutual funds and cash equivalents as part of trusts related to certain of its nonqualified deferred compensation plans. The trusts represent variable interest entities, for which the Company is considered the primary beneficiary, and therefore, trust assets are consolidated and included in other assets in the condensed consolidated balance sheets. The mutual funds are measured at fair value using quoted market prices. The Company has designated these marketable securities as trading investments. The participants in the deferred compensation plans may select among certain mutual funds in which their compensation deferrals are invested in accordance with the terms of the plans and within the confines of the trusts which hold the marketable securities.

The Company's derivative instruments designated as hedging instruments and trust assets related to certain of the Company's nonqualified deferred compensation plans were recorded at fair value in the consolidated balance sheets as of June 30 as follows:

	Balance sheet classification	2014		2013	
		Level 1	Level 2	Level 1	Level 2
Assets					
Foreign exchange derivative contracts	Other current assets	\$ -	\$ -	\$ -	\$ 4
Commodity purchase derivative contracts	Other current assets	-	1	-	-
Trust assets for nonqualified deferred compensation plans	Other assets	31	-	-	-
		<u>\$ 31</u>	<u>\$ 1</u>	<u>\$ -</u>	<u>\$ 4</u>
Liabilities					
Commodity purchase derivative contracts	Accrued liabilities	\$ -	\$ 1	\$ -	\$ 3
Interest rate contracts	Accrued liabilities	-	13	-	-
Foreign exchange derivative contracts	Accrued liabilities	-	3	-	-
		<u>\$ -</u>	<u>\$ 17</u>	<u>\$ -</u>	<u>\$ 3</u>

For derivative instruments designated and qualifying as cash flow hedges, the effective portion of gains or losses is reported as a component of other comprehensive income (OCI) and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings. The estimated amount of the existing net loss in OCI as of June 30, 2014, expected to be reclassified into earnings within the next twelve months is \$8. Gains and losses on derivative instruments representing either hedge ineffectiveness or hedge components excluded from the assessment of effectiveness are recognized in current earnings. During each of the fiscal years ended June 30, 2014, 2013 and 2012, hedge ineffectiveness was not significant.

The effects of derivative instruments designated as hedging instruments on OCI and the consolidated statements of earnings were as follows during the fiscal years ended June 30:

	Gains (losses) recognized in OCI			Gains (losses) reclassified from OCI and recognized in earnings		
	2014	2013	2012	2014	2013	2012
Commodity purchase derivative contracts	\$ 2	\$ (1)	\$ (1)	\$ -	\$ -	\$ 4
Interest rate contracts	(13)	(1)	(39)	(4)	(3)	(2)
Foreign exchange derivative contracts	(3)	3	3	4	-	2
Total	<u>\$ (14)</u>	<u>\$ 1</u>	<u>\$ (37)</u>	<u>\$ -</u>	<u>\$ (3)</u>	<u>\$ 4</u>

The gains reclassified from OCI and recognized in earnings during the fiscal years ended June 30, 2014 and 2012, for commodity purchase and foreign exchange contracts were included in cost of products sold. The losses reclassified from OCI and recognized in earnings during the fiscal years ended June 30, 2014, 2013 and 2012, for interest rate contracts were included in interest expense.

Changes in the value of the trust assets related to certain of the Company's nonqualified deferred compensation plans were \$(1) for the fiscal year ended June 30, 2014, and were reflected in other expense (income), net, in the consolidated statements of earnings.

NOTE 9. FINANCIAL INSTRUMENTS AND FAIR VALUE MEASUREMENTS (Continued)

Other

The carrying values of cash and cash equivalents, accounts receivable and accounts payable approximate their fair values as of June 30, 2014 and 2013, due to their short maturity and nature. The estimated fair value of long-term debt, including current maturities, was \$2,265 and \$2,263 as of June 30, 2014 and 2013, respectively. The fair value of long-term debt was determined using secondary market prices quoted by corporate bond dealers, and was classified as Level 2.

NOTE 10. OTHER LIABILITIES

Other liabilities consisted of the following as of June 30:

	2014	2013
Venture agreement net terminal obligation	\$ 290	\$ 284
Employee benefit obligations	289	270
Taxes	76	74
Other	113	114
Total	<u>\$ 768</u>	<u>\$ 742</u>

Venture Agreement

The Company has an agreement with The Procter & Gamble Company (P&G) for its Glad[®] plastic bags, wraps and containers business. The Company maintains a net terminal obligation liability, which reflects the estimated value of the contractual requirement to repurchase P&G's interest at the termination of the agreement. As of June 30, 2014 and 2013, P&G had a 20% interest in the venture. The Company pays a royalty to P&G for its interest in the profits, losses and cash flows, as contractually defined, of the Glad[®] business, which is included in cost of products sold.

The agreement, entered into in 2003, has a 20-year term, with a 10-year renewal option and can be terminated under certain circumstances, including at P&G's option upon a change in control of the Company or, at either party's option, upon the sale of the Glad[®] business by the Company. Upon termination of the agreement, the Company will purchase P&G's interest for cash at fair value as established by predetermined valuation procedures. Following termination, the Glad[®] business will retain the exclusive core intellectual property licenses contributed by P&G on a royalty-free basis for the licensed products marketed.

Deferred Gain on Sale-leaseback Transaction

In December 2012, the Company completed a sale-leaseback transaction under which it sold its general office building in Oakland, Calif., to an unrelated party for net proceeds of \$108 and entered into a 15-year operating lease agreement with renewal options with the buyer for a portion of the building. The Company deferred recognition of the portion of the total gain on the sale that was equivalent to the present value of the lease payments and will continue to amortize such amount to earnings ratably over the lease term. As of June 30, 2014 and 2013, the long-term portion of the deferred gain of \$43 and \$47, respectively, was included in Other in the table above.

NOTE 11. OTHER CONTINGENCIES AND GUARANTEES

Contingencies

The Company is involved in certain environmental matters, including response actions at various locations. The Company had a recorded liability of \$14 and \$13 as of June 30, 2014 and 2013, respectively, for its share of aggregate future remediation costs related to these matters. One matter in Dickinson County, Michigan, for which the Company is jointly and severally liable, accounted for a substantial majority of the recorded liability as of both June 30, 2014 and 2013. The Company has agreed to be liable for 24.3% of the aggregate remediation and associated costs for this matter pursuant to a cost-sharing arrangement with a third party. With the assistance of environmental consultants, the Company maintains an undiscounted liability representing its current best estimate of its share of the capital expenditures, maintenance and other costs that may be incurred over an estimated 30-year remediation period. Currently, the Company cannot accurately predict the timing of future payments that may be made under this obligation. In addition, the Company's estimated loss exposure is sensitive to a variety of uncertain factors, including the efficacy of remediation efforts, changes in remediation requirements and the future availability of alternative clean-up technologies. Although it is reasonably possible that the Company's exposure may exceed the amount recorded, any amount of such additional exposures, or range of exposures, is not estimable at this time.

In October 2012, a Brazilian appellate court issued an adverse decision in a lawsuit pending in Brazil against the Company and one of its wholly owned subsidiaries, The Glad Products Company (Glad). The lawsuit was initially filed in a Brazilian lower court in 2002 by two Brazilian companies and one Uruguayan company (collectively, Petroplus) related to joint venture agreements for the distribution of STP auto-care products in Brazil with three companies that became subsidiaries of the Company as a result of the Company's merger with First Brands Corporation in January 1999 (collectively, Clorox Subsidiaries). The pending lawsuit seeks indemnification for damages and losses for alleged breaches of the joint venture agreements and abuse of economic power by the Company and Glad. Petroplus had previously unsuccessfully raised the same claims and sought damages from the Company and the Clorox Subsidiaries in an International Chamber of Commerce (ICC) arbitration proceeding in Miami, Florida, filed in 2001. The ICC arbitration panel unanimously ruled against Petroplus in a final decision in November 2003 (Final ICC Arbitration Award). The Final ICC Arbitration Award was ratified by the Superior Court of Justice of Brazil in May 2007 (Foreign Judgment), and the United States District Court for the Southern District of Florida subsequently confirmed the Final ICC Arbitration Award and recognized and adopted the Foreign Judgment as a judgment of the United States District Court for the Southern District of Florida (U.S. Judgment). Despite this, in March 2008, a Brazilian lower court ruled against the Company and Glad in the pending lawsuit and awarded Petroplus R\$23 (\$13) plus interest. The value of that judgment, including interest and foreign exchange fluctuations as of June 30, 2014, was approximately \$39.

NOTE 11. OTHER CONTINGENCIES AND GUARANTEES (Continued)

Among other defenses, because the Final ICC Arbitration Award, the Foreign Judgment and the U.S. Judgment relate to the same claims as those in the pending lawsuit, the Company believes that Petroplus is precluded from re-litigating these claims. Based on the unfavorable appellate court decision, the Company believes that it is reasonably possible that a loss could be incurred in this matter in excess of amounts accrued, and that the estimated range of such loss in this matter is from \$0 to \$33. The Company continues to believe that its defenses are meritorious, and has appealed the decision to the highest courts of Brazil. In the first stage of the appellate process, in December 2013 the appellate court declined to admit the Company's appeals to the highest courts. The Company then appealed directly to the highest courts and in May 2014, the Supreme Court of Justice agreed to consider the Company's appeal. Expenses related to this litigation and any potential additional loss would be reflected in discontinued operations, consistent with the Company's classification of expenses related to its discontinued Brazil operations.

In a separate action filed in 2004 by Petroplus, a lower Brazilian court in January 2013 nullified the Final ICC Arbitration Award. The Company believes this judgment is inconsistent with the Foreign Judgment and the U.S. Judgment and that it is without merit. The Company appealed this decision, and the lower court decision was overturned by the appellate court in April 2014. Petroplus has appealed this decision to Brazil's highest court.

Glad and the Clorox Subsidiaries have also filed separate lawsuits against Petroplus alleging misuse of the STP trademark and related matters, which are currently pending before Brazilian courts, and have taken other legal actions against Petroplus, which are pending. Additionally, in November 2013, the Clorox Subsidiaries initiated a new ICC arbitration seeking damages against Petroplus.

The Company is subject to various lawsuits, claims and other loss contingencies relating to issues such as contract disputes, product liability, patents and trademarks, advertising, and employee and other matters. Based on management's analysis, it is the opinion of management that the ultimate disposition of these matters, to the extent not previously provided for, will not have a material adverse effect, individually or in the aggregate, on the Company's consolidated financial statements taken as a whole.

Guarantees

In conjunction with divestitures and other transactions, the Company may provide typical indemnifications (e.g., indemnifications for representations and warranties and retention of previously existing environmental, tax and employee liabilities) that have terms that vary in duration and in the potential amount of the total obligation and, in many circumstances, are not explicitly defined. The Company has not made, nor does it believe that it is probable that it will make, any payments relating to its indemnifications, and believes that any reasonably possible payments would not have a material adverse effect, individually or in the aggregate, on the Company's consolidated financial statements taken as a whole.

The Company had not recorded any liabilities on the aforementioned guarantees as of June 30, 2014 and 2013.

As of June 30, 2014, the Company was a party to letters of credit of \$12, primarily related to one of its insurance carriers, of which \$0 had been drawn upon.

NOTE 12. STOCKHOLDERS' EQUITY

On May 13, 2013, the Company's board of directors terminated the share repurchase programs previously authorized on May 13, 2008, and May 18, 2011, and authorized a new share repurchase program for an aggregate purchase amount of up to \$750. This open market share repurchase program is in addition to the Company's evergreen repurchase program (Evergreen Program), the purpose of which is to offset the impact of stock dilution related to stock-based awards. The Evergreen Program has no authorization limit as to amount or timing of repurchases.

Share repurchases under authorized programs were as follows during the fiscal years ended June 30:

	2014		2013		2012	
	Amount	Shares (000)	Amount	Shares (000)	Amount	Shares (000)
Open-market purchase programs	\$ -	-	\$ -	-	\$ 158	2,429
Evergreen Program	260	3,046	128	1,500	67	990
Total	\$ 260	3,046	\$ 128	1,500	\$ 225	3,419

During fiscal years 2014, 2013 and 2012, the Company declared dividends per share of \$2.87, \$2.63 and \$2.44, respectively, and paid dividends per share of \$2.84, \$2.56 and \$2.40, respectively.

In February 2013, the FASB issued an update to current accounting standards related to disclosures of reclassifications out of accumulated other comprehensive income. The presentation requirements were adopted by the Company effective July 1, 2013, and are reflected below.

Changes in accumulated other comprehensive net losses by component were as follows:

	Foreign currency translation adjustments	Net unrealized (losses) gains on derivatives	Pension and postretirement benefit adjustments	Total
Balance as of June 30, 2012, net of tax	\$ (198)	\$ (33)	\$ (165)	\$ (396)
Other comprehensive (loss) income before reclassifications	(11)	-	31	20
Amounts reclassified from accumulated other comprehensive net losses	-	3	6	9
Net other comprehensive (loss) income	(11)	3	37	29
Balance as of June 30, 2013, net of tax	\$ (209)	\$ (30)	\$ (128)	\$ (367)
Other comprehensive losses before reclassifications	(37)	(9)	(9)	(55)
Amounts reclassified from accumulated other comprehensive net losses	-	-	5	5
Net other comprehensive losses	(37)	(9)	(4)	(50)
Balance as of June 30, 2014, net of tax	\$ (246)	\$ (39)	\$ (132)	\$ (417)

Pension and postretirement benefit reclassification adjustments are reflected in cost of products sold and selling and administrative expenses.

NOTE 13. NET EARNINGS PER SHARE (EPS)

The following is the reconciliation of the weighted average number of shares outstanding (in thousands) used to calculate basic net EPS to those used to calculate diluted net EPS:

	2014	2013	2012
Basic	129,558	131,075	130,852
Dilutive effect of stock options and other	2,184	1,894	1,458
Diluted	131,742	132,969	132,310

NOTE 13. NET EARNINGS PER SHARE (EPS) (Continued)

During fiscal years 2014 and 2013, the Company included all stock options to purchase shares of the Company's common stock in the calculations of diluted net EPS because the average market price was greater than the exercise price of all outstanding options.

During fiscal year 2012, the Company did not include stock options to purchase approximately 1.8 million shares of the Company's common stock in the calculations of diluted net EPS because their exercise price was greater than the average market price, making them anti-dilutive.

NOTE 14. STOCK-BASED COMPENSATION PLANS

In November 2012, the Company's stockholders voted to approve the amended and restated 2005 Stock Incentive Plan (Plan). The Plan permits the Company to grant various nonqualified stock-based compensation awards, including stock options, restricted stock, performance units, deferred stock units, stock appreciation rights and other stock-based awards. The primary amendment reflected in the Plan was an increase of approximately 3 million common shares that may be issued for stock-based compensation purposes. As of June 30, 2014, the Company is authorized to grant up to approximately 7 million common shares under the Plan and , as of June 30, 2014, approximately 6 million shares were available for grant.

Compensation cost and the related income tax benefit recognized for stock-based compensation plans were classified as indicated below for the fiscal years ended June 30.

	2014	2013	2012
Cost of products sold	\$ 4	\$ 4	\$ 3
Selling and administrative expenses	29	28	22
Research and development costs	3	3	2
Total compensation cost	<u>\$ 36</u>	<u>\$ 35</u>	<u>\$ 27</u>
Related income tax benefit	\$ 13	\$ 13	\$ 10

Cash received during fiscal years 2014, 2013 and 2012 from stock options exercised under all stock-based payment arrangements was \$86, \$121 and \$79, respectively. The Company issues shares for stock-based compensation plans from treasury stock. The Company may repurchase shares under its Evergreen Program to offset the estimated impact of share dilution related to stock-based awards (Note 12 – Stockholders' Equity).

Details regarding the valuation and accounting for stock options, restricted stock awards, performance units and deferred stock units for non-employee directors follow.

Stock Options

The fair value of each stock option award granted during fiscal years 2014, 2013 and 2012 was estimated on the date of grant using the Black-Scholes valuation model and assumptions noted in the following table:

	2014	2013	2012
Expected life	5.7 years	5.7 years	4.9 - 5.7 years
Weighted-average expected life	5.7 years	5.7 years	5.7 years
Expected volatility	18.4% to 18.5%	18.7% to 19.2%	21.9% to 25.9%
Weighted-average volatility	18.5%	19.1%	23.5%
Risk-free interest rate	1.8% to 1.9%	0.6% to 0.8%	0.9% to 1.1%
Weighted-average risk-free interest rate	1.8%	0.7%	0.9%
Dividend yield	3.4%	3.2%-3.6%	3.5%-3.8%
Weighted-average dividend yield	3.4%	3.6%	3.5%

NOTE 14. STOCK-BASED COMPENSATION PLANS (Continued)

The expected life of the stock options is based on observed historical exercise patterns. Groups of employees having similar historical exercise behavior are considered separately for valuation purposes. The Company estimates stock option forfeitures based on historical data for employee groups. The total number of stock options expected to vest is adjusted by actual and estimated forfeitures.

The expected volatility is based on implied volatility from publicly traded options on the Company's stock at the date of grant, historical implied volatility of the Company's publicly traded options and other factors. The risk-free interest rate is based on the implied yield on a U.S. Treasury zero-coupon issue with a remaining term equal to the expected term of the option. The dividend yield is based on the projected annual dividend payment per share, divided by the stock price at the date of grant.

Details of the Company's stock option activities are summarized below:

	Number of Shares	Weighted- Average Exercise Price per Share	Average Remaining Contractual Life	Aggregate Intrinsic Value
	(In thousands)			
Options outstanding as of June 30, 2013	10,257	\$ 65	7 years	\$ 184
Granted	1,795	84		
Exercised	(1,450)	60		
Cancelled	(234)	75		
Options outstanding as of June 30, 2014	<u>10,368</u>	\$ 69	6 years	\$ 232
Options vested as of June 30, 2014	5,772	\$ 64	5 years	\$ 159

The weighted-average fair value per share of each option granted during fiscal years 2014, 2013 and 2012, estimated at the grant date using the Black-Scholes option pricing model, was \$9.69, \$6.96 and \$9.24, respectively. The total intrinsic value of options exercised in fiscal years 2014, 2013 and 2012 was \$42, \$45 and \$29, respectively.

Stock option awards outstanding as of June 30, 2014, have been granted at prices that are either equal to or above the market value of the stock on the date of grant. Stock option grants generally vest over four years and expire no later than ten years after the grant date. The Company recognizes compensation expense ratably over the vesting period. As of June 30, 2014, there was \$17 of total unrecognized compensation cost related to non-vested options, which is expected to be recognized over a remaining weighted-average vesting period of one year, subject to forfeiture changes.

Restricted Stock Awards

The fair value of restricted stock awards is estimated on the date of grant based on the market price of the stock and is amortized to compensation expense on a straight-line basis over the related vesting periods, which are generally three to four years. The total number of restricted stock awards expected to vest is adjusted by actual and estimated forfeitures. Restricted stock grants receive dividend distributions earned during the vesting period upon vesting.

As of June 30, 2014, there was \$1 of total unrecognized compensation cost related to non-vested restricted stock awards, which is expected to be recognized over a remaining weighted-average vesting period of one year. The total fair value of the shares that vested in fiscal years 2014, 2013 and 2012 was less than \$1, \$1 and \$3, respectively. The weighted-average grant-date fair value of awards granted was \$89.25, \$72.28 and \$68.52 per share for fiscal years 2014, 2013 and 2012, respectively.

NOTE 14. STOCK-BASED COMPENSATION PLANS (Continued)

A summary of the status of the Company's restricted stock awards as of June 30 is presented below:

	Number of Shares	Weighted-Average Grant Date Fair Value per Share
	(In thousands)	
Restricted stock awards as of June 30, 2013	11	\$ 68
Granted	13	89
Vested	(3)	67
Forfeited	-	-
Restricted stock awards as of June 30, 2014	<u>21</u>	<u>\$ 81</u>

Performance Units

The Company's performance unit grants provide for the issuance of common stock to certain managerial staff and executive management if the Company achieves certain performance targets. The performance period is three years and the final payout determination is made at the end of the three-year performance period. Performance unit grants receive dividends earned during the vesting period upon vesting.

The fair value of each grant issued is estimated on the date of grant based on the current market price of the stock. The total amount of compensation expense recognized reflects actual and estimated forfeitures, and the initial assumption that performance goals will be achieved. Compensation expense is adjusted, as necessary, on a quarterly basis based on management's assessment of the probability that performance goals will be achieved. If such goals are not met or it is determined that achievement of performance goals is not probable, any previously recognized compensation expense is adjusted in the current period to reflect the expected payout level. If it is determined that the performance goals will be exceeded, additional compensation expense is recognized, subject to a cap of 150% of the grant day target.

The number of shares issued will be dependent upon vesting and the achievement of specified performance targets. As of June 30, 2014, there was \$19 in unrecognized compensation cost related to non-vested performance unit grants that is expected to be recognized over a remaining weighted-average performance period of one year. The weighted-average grant-date fair value of awards granted was \$84.45, \$72.11 and \$68.17 per share for fiscal years 2014, 2013 and 2012, respectively.

A summary of the status of the Company's performance unit awards as of June 30 is presented below:

	Number of Shares	Weighted-Average Grant Date Fair Value per Share
	(In thousands)	
Performance unit awards as of June 30, 2013	1,335	\$ 66
Granted	347	84
Distributed	(35)	54
Forfeited	(426)	67
Performance unit awards as of June 30, 2014	<u>1,221</u>	<u>\$ 73</u>
Performance units vested and deferred as of June 30, 2014	168	\$ 56

The non-vested performance units outstanding as of June 30, 2014 and 2013, were 1,053,000 and 1,116,000, respectively, and the weighted average grant date fair value was \$74.68 and \$69.01 per share, respectively. No shares vested during fiscal year 2014. The total fair value of shares vested was \$0, \$14 and \$34 during fiscal years 2014, 2013 and 2012, respectively. Upon vesting, the recipients of the grants receive the distribution as shares or, if previously elected by eligible recipients, as deferred stock. During fiscal year 2013, \$13 of the vested awards was paid by the issuance of shares. During fiscal year 2013, \$1 of the vested awards was deferred. Deferred shares continue to earn dividends, which are also deferred.

NOTE 14. STOCK-BASED COMPENSATION PLANS (Continued)

Deferred Stock Units for Nonemployee Directors

Nonemployee directors receive annual grants of deferred stock units under the Company's director compensation program and can elect to receive all or a portion of their annual retainers and fees in the form of deferred stock units. The deferred stock units receive dividend distributions, which are reinvested as deferred stock units, and are recognized at their fair value on the date of grant. Each deferred stock unit represents the right to receive one share of the Company's common stock following the completion of a director's service.

During fiscal year 2014, the Company granted 16,000 deferred stock units, reinvested dividends of 7,000 units and distributed 23,000 shares, which had a weighted-average fair value on grant date of \$91.79, \$88.96 and \$66.79 per share, respectively. As of June 30, 2014, 233,000 units were outstanding, which had a weighted-average fair value on the grant date of \$62.84 per share.

NOTE 15. LEASES AND OTHER COMMITMENTS

The Company leases transportation equipment, certain information technology equipment and various manufacturing, warehousing, and office facilities. The Company's leases are classified as operating leases, and the Company's existing contracts will expire by 2027. The Company expects that, in the normal course of business, existing contracts will be renewed or replaced by other leases. Rental expense for all operating leases was \$71, \$71 and \$68 in fiscal years 2014, 2013 and 2012, respectively. The future minimum rental payments required under the Company's existing non-cancelable lease agreements as of June 30, 2014, are expected to be \$47, \$45, \$41, \$37, \$32 and \$127 in fiscal years 2015, 2016, 2017, 2018, 2019 and thereafter, respectively.

The future minimum rental payments required under the Company's existing non-cancelable lease agreement's for the corporate headquarters and primary research and development facility as of June 30, 2014, are expected to be \$10, \$11, \$11, \$11, \$11 and \$69 in fiscal years 2015, 2016, 2017, 2018, 2019 and thereafter, respectively. These amounts are included in the Company's future minimum rental payments disclosed above.

The Company is also a party to certain purchase obligations, which are defined as purchase agreements that are enforceable and legally binding and that contain specified or determinable significant terms, including quantity, price and the approximate timing of the transaction. Examples of the Company's purchase obligations include contracts to purchase raw materials, commitments to contract manufacturers, commitments for information technology and related services, advertising contracts, utility agreements, capital expenditure agreements, software acquisition and license commitments and service contracts. Approximately 17% of the Company's purchase obligations in fiscal years 2015 through 2019 relate to service contracts for information technology that has been outsourced. The contracts included above are entered into during the regular course of business based on expectations of future needs. Many of these contracts are short term in nature and are flexible to allow for changes in the Company's business and related requirements. As of June 30, 2014, the Company's purchase obligations, including the services related to information technology, totaled \$246, \$87, \$65, \$51, \$33 and \$7 for fiscal years 2015, 2016, 2017, 2018, 2019 and thereafter, respectively.

NOTE 16. OTHER EXPENSE (INCOME), NET

The major components of other expense (income), net, for the fiscal years ended June 30 were:

	2014	2013	2012
Foreign exchange transaction losses, net (Note 1)	\$ 11	\$ 11	\$ 1
Amortization of trademarks and other intangible assets (Note 6)	8	9	9
Intangible asset impairment charges (Note 6)	4	-	-
Income from equity investees	(13)	(12)	(11)
Interest income	(3)	(3)	(3)
Income from transition and related services	(1)	(3)	(6)
Low-income housing partnership gains	-	(4)	(2)
Other, net	(4)	2	(1)
Total	<u>\$ 2</u>	<u>\$ -</u>	<u>\$ (13)</u>

NOTE 16. OTHER EXPENSE (INCOME), NET (Continued)**Investment in Low-Income Housing Partnerships**

The Company owns, directly or indirectly, limited partnership interests in low-income housing partnerships, which are accounted for using the equity method of accounting. The Company's investment balance as of June 30, 2014 and 2013, was \$4 and \$6, respectively. These partnerships are considered to be variable interest entities ; however, the Company does not consolidate them because it does not have the power to direct the partnerships' activities that significantly impact their economic performance. The purpose of the partnerships is to develop and operate low-income housing rental properties. The general partners, who typically hold 1% of the partnership interests, are third parties unrelated to the Company and its affiliates, and are responsible for controlling and managing the business and financial operations of the partnerships. As a limited partner, the Company is not responsible for any of the liabilities and obligations of the partnerships nor do the partnerships or their creditors have any recourse to the Company other than for the capital requirements. All available tax benefits from low-income housing tax credits provided by the partnerships were claimed as of fiscal year 2012. The risk that previously claimed low-income housing tax credits might be recaptured or otherwise retroactively invalidated is considered remote.

NOTE 17. INCOME TAXES

The provision for income taxes on continuing operations, by tax jurisdiction, consisted of the following as of June 30:

	2014	2013	2012
Current			
Federal	\$ 231	\$ 247	\$ 200
State	33	23	12
Foreign	45	20	48
Total current	<u>309</u>	<u>290</u>	<u>260</u>
Deferred			
Federal	(10)	(10)	-
State	2	(2)	1
Foreign	(2)	1	(13)
Total deferred	<u>(10)</u>	<u>(11)</u>	<u>(12)</u>
Total	<u>\$ 299</u>	<u>\$ 279</u>	<u>\$ 248</u>

The components of earnings from continuing operations before income taxes, by tax jurisdiction, consisted of the following as of June 30:

	2014	2013	2012
United States	\$ 756	\$ 731	\$ 655
Foreign	105	122	136
Total	<u>\$ 861</u>	<u>\$ 853</u>	<u>\$ 791</u>

A reconciliation of the statutory federal income tax rate to the Company's effective tax rate on continuing operations follows as of June 30:

	2014	2013	2012
Statutory federal tax rate	35.0%	35.0%	35.0%
State taxes (net of federal tax benefits)	2.7	1.7	1.1
Tax differential on foreign earnings	(1.3)	(3.3)	(2.5)
Domestic manufacturing deduction	(2.4)	(2.3)	(2.2)
Change in Valuation Allowance	2.8	2.0	0.8
Other differences	(2.1)	(0.4)	(0.8)
Effective tax rate	<u>34.7%</u>	<u>32.7%</u>	<u>31.4%</u>

The lower effective tax rate for fiscal year 2013 compared to fiscal year 2014 was primarily due to favorable tax settlements and lower taxes on foreign earnings.

Applicable U.S. income taxes and foreign withholding taxes have not been provided on approximately \$186 of undistributed earnings of certain foreign subsidiaries as of June 30, 2014, because these earnings are considered indefinitely reinvested. The net federal income tax liability that could arise if these earnings were not indefinitely reinvested is approximately \$50. Applicable U.S. income and foreign withholding taxes are provided on these earnings in the periods in which they are no longer considered indefinitely reinvested.

NOTE 17. INCOME TAXES (Continued)

Tax benefits resulting from stock-based payment arrangements that are in excess of the tax benefits recorded in net earnings over the vesting period of those arrangements (excess tax benefits) are recorded as increases to additional paid-in capital. Excess tax benefits of approximately \$11, \$11, and \$10, were realized and recorded to additional paid-in capital for the fiscal years 2014, 2013 and 2012, respectively.

The components of deferred tax assets (liabilities) as of June 30 are shown below:

	<u>2014</u>	<u>2013</u>
Deferred tax assets		
Compensation and benefit programs	\$ 171	\$ 176
Basis difference related to Venture Agreement	30	30
Accruals and reserves	53	55
Inventory costs	20	20
Net operating loss and tax credit carryforwards	37	33
Other	63	51
Subtotal	374	365
Valuation allowance	(51)	(36)
Total deferred tax assets	<u>323</u>	<u>329</u>
Deferred tax liabilities		
Fixed and intangible assets	(269)	(273)
Low-income housing partnerships	(24)	(23)
Unremitted foreign earnings	(8)	(18)
Other	(26)	(24)
Total deferred tax liabilities	(327)	(338)
Net deferred tax liabilities	<u>\$ (4)</u>	<u>\$ (9)</u>

The Company periodically reviews its deferred tax assets for recoverability. A valuation allowance is established when the Company believes that it is more likely than not that some portion of its deferred tax assets will not be realized. Valuation allowances have been provided to reduce deferred tax assets to amounts considered recoverable. Details of the valuation allowance were as follows as of June 30:

	<u>2014</u>	<u>2013</u>
Valuation allowance at beginning of year	\$ (36)	\$ (20)
Net decrease in realizability of foreign deferred tax assets	(12)	(9)
Net increase in foreign net operating loss carryforward and other	(3)	(7)
Valuation allowance at end of year	<u>\$ (51)</u>	<u>\$ (36)</u>

As of June 30, 2014, the Company had foreign tax credit carryforwards of \$19 for U.S. income tax purposes. Tax credit carryforwards in foreign jurisdictions of \$14 have expiration dates in fiscal year 2016. Tax benefits from foreign net operating loss carryforwards of \$19 have expiration dates between fiscal years 2016 and 2025. Tax benefits from foreign net operating loss carryforwards of \$4 may be carried forward indefinitely.

The Company files income tax returns in the U.S. federal and various state, local and foreign jurisdictions. The federal statute of limitations has expired for all tax years through June 30, 2010. Various income tax returns in state and foreign jurisdictions are currently in the process of examination.

Certain issues relating to fiscal years 1996 through 2000 were effectively settled by the Company and the Canadian Revenue Agency in the first quarter of fiscal year 2012, resulting in a net benefit of tax and interest of \$7. No tax benefits had previously been recognized for these issues in the Company's consolidated financial statements.

NOTE 17. INCOME TAXES (Continued)

The Company recognizes interest and penalties related to uncertain tax positions as a component of income tax expense. As of June 30, 2014 and 2013, the total balance of accrued interest and penalties related to uncertain tax positions was \$11 and \$8, respectively. Interest and penalties included in income tax expense resulted in a net expense of \$3, a net expense of \$1, and a net benefit of \$3 in fiscal years 2014, 2013 and 2012, respectively. The following is a reconciliation of the beginning and ending amounts of the Company's gross unrecognized tax benefits:

	2014	2013	2012
Unrecognized tax benefits - July 1	\$ 69	\$ 80	\$ 97
Gross increases - tax positions in prior periods	3	3	4
Gross decreases - tax positions in prior periods	(5)	(19)	(17)
Gross increases - current period tax positions	7	7	5
Gross decreases - current period tax positions	-	-	(1)
Lapse of applicable statute of limitations	(1)	(2)	(2)
Settlements	(2)	-	(6)
Unrecognized tax benefits - June 30	<u>\$ 71</u>	<u>\$ 69</u>	<u>\$ 80</u>

Included in the balance of unrecognized tax benefits as of June 30, 2014, 2013 and 2012, are potential benefits of \$58, \$56 and \$56, respectively, which if recognized, would affect the effective tax rate on earnings.

In the twelve months succeeding June 30, 2014, it is reasonably possible that up to \$30 of other unrecognized tax benefits may be recognized. Audit outcomes and the timing of audit settlements are subject to significant uncertainty.

NOTE 18. EMPLOYEE BENEFIT PLANS**Retirement Income Plans**

Effective July 1, 2011, and as part of a set of long-term, cost-neutral enhancements to the Company's overall employee benefit plans, the domestic qualified plan was frozen for service accrual and eligibility purposes for most participants, however, interest credits have continued to accrue on participant balances. As of June 30, 2014 and 2013, the benefits of the domestic qualified plan are based on either employee years of service and compensation or a stated dollar amount per years of service. The Company is the sole contributor to the plan in amounts deemed necessary to provide benefits and to the extent deductible for federal income tax purposes. Assets of the plan consist primarily of investments in cash equivalents, mutual funds and common collective trusts. The Company did not make any contributions to its domestic qualified retirement income plan during fiscal years 2014, 2013 and 2012. The Company's funding policy for its qualified plans is to contribute amounts sufficient to meet minimum funding requirements as set forth in employee benefit tax laws plus additional amounts as the Company may determine to be appropriate.

Contributions made to the domestic nonqualified retirement income plans were \$13, \$11 and \$11 in fiscal years 2014, 2013 and 2012, respectively. Contributions made to the foreign retirement income plans were \$2, \$1 and \$1 in fiscal years 2014, 2013 and 2012, respectively.

Retirement Health Care

The Company provides certain health care benefits for employees who meet age, participation and length of service requirements at retirement. The plans pay stated percentages of covered expenses after annual deductibles have been met or stated reimbursements up to a specified dollar subsidy amount. Benefits paid take into consideration payments by Medicare for the domestic plan. The plans are funded as claims are paid, and the Company has the right to modify or terminate certain plans.

NOTE 18. EMPLOYEE BENEFIT PLANS (Continued)

The assumed domestic health care cost trend rate used in measuring the accumulated postretirement benefit obligation was 7.3% for medical and 7.7% for prescription drugs for fiscal year 2014. These rates have been assumed to gradually decrease each year until an assumed ultimate trend of 4.5% is reached in 2028. The health care cost trend rate assumption has an effect on the amounts reported. The effect of a hypothetical 100 basis point increase or decrease in the assumed domestic health care cost trend rate on the total service and interest cost components, and the postretirement benefit obligation would have been \$0, \$0 and \$1 for the fiscal years ended June 30, 2014, 2013 and 2012, respectively.

Financial Information Related to Retirement Income and Retirement Health Care

Summarized information for the Company's retirement income and retirement health care plans at and for the fiscal years ended June 30 is as follows:

	Retirement Income		Retirement Health Care	
	2014	2013	2014	2013
Change in benefit obligations:				
Projected benefit obligation at beginning of year	\$ 612	\$ 646	\$ 51	\$ 63
Service cost	3	4	1	1
Interest cost	27	24	2	2
Actuarial (gain) loss	47	(27)	(2)	(9)
Plan amendments	-	-	(2)	(5)
Translation and other adjustment	(6)	-	-	-
Benefits paid	(42)	(35)	(1)	(1)
Projected benefit obligation at end of year	<u>641</u>	<u>612</u>	<u>49</u>	<u>51</u>
Change in plan assets:				
Fair value of assets at beginning of year	408	394	-	-
Actual return on plan assets	51	37	-	-
Employer contributions to nonqualified plans	15	12	1	1
Benefits paid	(42)	(35)	(1)	(1)
Fair value of plan assets at end of year	<u>432</u>	<u>408</u>	<u>-</u>	<u>-</u>
Accrued benefit cost, net funded status	<u>\$ (209)</u>	<u>\$ (204)</u>	<u>\$ (49)</u>	<u>\$ (51)</u>
Amount recognized in the balance sheets consists of:				
Pension benefit assets	\$ 2	\$ -	\$ -	\$ -
Current accrued benefit liability	\$ (14)	\$ (17)	\$ (4)	\$ (4)
Non-current accrued benefit liability	(197)	(187)	(45)	(47)
Accrued benefit cost, net	<u>\$ (209)</u>	<u>\$ (204)</u>	<u>\$ (49)</u>	<u>\$ (51)</u>

NOTE 18. EMPLOYEE BENEFIT PLANS (Continued)

Retirement income plans with an accumulated benefit obligation (ABO) in excess of plan assets as of June 30 were as follows:

	<u>Pension Plans</u>		<u>Other Retirement Plans</u>	
	<u>2014</u>	<u>2013</u>	<u>2014</u>	<u>2013</u>
Projected benefit obligation	\$ 538	\$ 529	\$ 78	\$ 80
Accumulated benefit obligation	538	528	78	80
Fair value of plan assets	405	405	-	-

The ABO for all pension plans was \$563, \$530 and \$561 as of June 30, 2014, 2013 and 2012, respectively. The ABO for all retirement income plans increased by \$31 in fiscal year 2014, primarily due to a decrease in the discount rate assumption.

The net costs of the retirement income and health care plans for the fiscal years ended June 30 included the following components:

	<u>Retirement Income</u>			<u>Retirement Health Care</u>		
	<u>2014</u>	<u>2013</u>	<u>2012</u>	<u>2014</u>	<u>2013</u>	<u>2012</u>
Service cost	\$ 3	\$ 4	\$ -	\$ 1	\$ 1	\$ 1
Interest cost	27	24	29	2	2	3
Expected return on plan assets	(25)	(29)	(31)	-	-	-
Amortization of unrecognized items	11	12	8	(4)	(2)	(3)
Total	<u>\$ 16</u>	<u>\$ 11</u>	<u>\$ 6</u>	<u>\$ (1)</u>	<u>\$ 1</u>	<u>\$ 1</u>

NOTE 18. EMPLOYEE BENEFIT PLANS (Continued)

Items not yet recognized as a component of postretirement expense as of June 30, 2014, consisted of:

	Retirement Income	Retirement Health Care
Net actuarial loss (gain)	\$ 247	\$ (29)
Prior service cost (benefit)	1	(9)
Net deferred income tax (assets) liabilities	(92)	14
Accumulated other comprehensive loss (income)	<u>\$ 156</u>	<u>\$ (24)</u>

Net actuarial loss (gain) recorded in accumulated other comprehensive net losses for the fiscal year ended June 30, 2014, included the following:

	Retirement Income	Retirement Health Care
Net actuarial loss (gain) at beginning of year	\$ 239	\$ (29)
Amortization during the year	(11)	2
Loss (gain) during the year	19	(2)
Net actuarial loss (gain) at end of year	<u>\$ 247</u>	<u>\$ (29)</u>

The Company uses the straight-line amortization method for unrecognized prior service costs and benefits. In fiscal year 2015, the Company expects to recognize, on a pre-tax basis, approximately less than \$1 of the prior service cost and \$11 of the net actuarial loss as a component of net periodic benefit cost for the retirement income plans, and approximately \$1 of the prior service credit and \$3 of the net actuarial gain as a component of net periodic benefit cost for the retirement health care plans.

NOTE 18. EMPLOYEE BENEFIT PLANS (Continued)

Weighted-average assumptions used to estimate the actuarial present value of benefit obligations as of June 30 were as follows:

	Retirement Income		Retirement Health Care	
	2014	2013	2014	2013
Discount rate	4.05%	4.39%	4.00%	4.33%
Rate of compensation increase	4.46%	3.44%	n/a	n/a

Weighted-average assumptions used to estimate the net periodic pension and other postretirement benefit costs as of June 30 were as follows:

	Retirement Income		
	2014	2013	2012
Discount rate	4.39%	3.87%	5.31%
Rate of compensation increase	3.44%	3.71%	3.93%
Expected return on plan assets	6.61%	7.50%	8.12%

	Retirement Health Care		
	2014	2013	2012
Discount rate	4.33%	3.86%	5.29%

The expected long-term rate of return assumption is based on an analysis of historical experience of the portfolio and the summation of prospective returns for each asset class in proportion to the fund's current asset allocation.

Expected benefit payments for the Company's pension and other postretirement plans as of June 30, 2014, were as follows:

	Retirement Income	Retirement Health Care
2015	\$ 38	\$ 4
2016	39	4
2017	40	3
2018	41	3
2019	39	3
Fiscal years 2020 through 2024	196	13

NOTE 18. EMPLOYEE BENEFIT PLANS (Continued)

Expected benefit payments are based on the same assumptions used to measure the benefit obligations and include estimated future employee service.

The target allocations and weighted average asset allocations by asset category of the investment portfolio for the Company's domestic retirement income plans as of June 30 were:

	% Target Allocation		% of Plan Assets	
	2014	2013	2014	2013
U.S. equity	11%	20%	11%	20%
International equity	12	21	12	21
Fixed income	74	54	74	54
Other	3	5	3	5
Total	100%	100%	100%	100%

The target asset allocation is determined based on the optimal balance between risk and return and, at times, may be adjusted to achieve the plan's overall investment objective to generate sufficient resources to pay current and projected plan obligations over the life of the domestic qualified retirement income plan.

The following table sets forth by level within the fair value hierarchy, the retirement income plans' assets carried at fair value as of June 30:

	2014		
	Level 1	Level 2	Total
Cash equivalents	\$ 3	\$ -	\$ 3
Common collective trusts			
Bond funds	-	309	309
International equity funds	-	64	64
Domestic equity funds	-	44	44
Real Estate fund	-	12	12
Total common collective trusts	-	429	429
Total assets at fair value	\$ 3	\$ 429	\$ 432

	2013		
	Level 1	Level 2	Total
Cash equivalents	\$ 3	\$ -	\$ 3
Common collective trusts			
Bond funds	-	217	217
International equity funds	-	93	93
Domestic equity funds	-	77	77
Real Estate fund	-	18	18
Total common collective trusts	-	405	405
Total assets at fair value	\$ 3	\$ 405	\$ 408

The carrying value of cash equivalents approximates its fair value as of June 30, 2014 and 2013.

NOTE 18. EMPLOYEE BENEFIT PLANS (Continued)

Common collective trust funds are not publicly traded and, therefore, are classified as Level 2. They are valued at a net asset value unit price determined by the portfolio's sponsor based on the fair value of underlying assets held by the common collective trust fund on June 30, 2014 and 2013.

The common collective trusts are invested in various trusts that attempt to achieve their investment objectives by investing primarily in other collective investment funds which have characteristics consistent with each trust's overall investment objective and strategy.

Defined Contribution Plans

The Company has defined contribution plans for most of its domestic employees. The plans include The Clorox Company 401(k) Plan, The Clorox Company 2011 Nonqualified Defined Benefit Plan and the Executive Retirement Plan. The aggregate cost of the domestic defined contribution plans was \$43, \$45 and \$50 in fiscal years 2014, 2013 and 2012, respectively. Included in the aggregate cost was the cost of The Clorox Company 401(k) Plan of \$38, \$40 and \$46 in fiscal years 2014, 2013 and 2012, respectively. The Company also has defined contribution plans for certain international employees. The aggregate cost of these foreign plans was \$3, \$1 and \$1 for the fiscal years ended June 30, 2014, 2013 and 2012, respectively.

NOTE 19. SEGMENT REPORTING

The Company operates through strategic business units that are aggregated into four reportable segments: Cleaning, Household, Lifestyle and International.

- *Cleaning* consists of laundry, home care and professional products marketed and sold in the United States. Products within this segment include laundry additives, including bleach products under the Clorox[®] brand and Clorox 2[®] stain fighter and color booster; home care products, primarily under the Clorox[®], Formula 409[®], Liquid-Plumr[®], Pine-Sol[®], S.O.S[®] and Tilex[®] brands; naturally derived products under the Green Works[®] brand; and professional cleaning and disinfecting products under the Clorox[®], Dispatch[®], Aplicare[®], HealthLink[®] and Clorox Healthcare[®] brands.
- *Household* consists of charcoal, cat litter and plastic bags, wraps and container products marketed and sold in the United States. Products within this segment include plastic bags, wraps and containers under the Glad[®] brand; cat litter products under the Fresh Step[®], Scoop Away[®] and Ever Clean[®] brands; and charcoal products under the Kingsford[®] and Match Light[®] brands.
- *Lifestyle* consists of food products, water-filtration systems and filters, and natural personal care products marketed and sold in the United States. Products within this segment include dressings and sauces, primarily under the Hidden Valley[®], KC Masterpiece[®] and Soy Vay[®] brands; water-filtration systems and filters under the Brita[®] brand; and natural personal care products under the Burt's Bees[®] brand.
- *International* consists of products sold outside the United States. Products within this segment include laundry, home care, water-filtration, charcoal and cat litter products, dressings and sauces, plastic bags, wraps and containers and natural personal care products, primarily under the Clorox[®], Javex[®], Glad[®], PinoLuz[®], Ayudin[®], Limpido[®], Clorinda[®], Poett[®], Mistolin[®], Lestoil[®], Bon Brill[®], Nevex[®], Brita[®], Green Works[®], Pine-Sol[®], Agua Jane[®], Chux[®], Kingsford[®], Fresh Step[®], Scoop Away[®], Ever Clean[®], KC Masterpiece[®], Hidden Valley[®] and Burt's Bees[®] brands.

Certain non-allocated administrative costs, interest income, interest expense and various other non-operating income and expenses are reflected in Corporate. Corporate assets include cash and cash equivalents, property and equipment, other investments and deferred taxes.

Venezuela

Net sales from the Company's Venezuela subsidiary (the Venezuela business) represented approximately 1%, 2% and 2% of the Company's consolidated net sales for the fiscal years ended June 30, 2014, 2013 and 2012, respectively. The operating environment in Venezuela is challenging, with high inflation, political instability, governmental restrictions in the form of currency exchange, price and margin controls, and the possibility of government actions such as further devaluations, business occupations or intervention and expropriation of assets. In addition, the foreign exchange controls in Venezuela limit the Venezuela business's ability to remit dividends and pay intercompany balances.

NOTE 19. SEGMENT REPORTING (Continued)

Due to a sustained inflationary environment, the financial statements of the Venezuela business are consolidated under the rules governing the preparation of financial statements in a highly inflationary economy. As such, the Venezuela business's non-USD monetary assets and liabilities are remeasured into USD each reporting period with the resulting gains and losses reflected in other expense (income), net.

On February 8, 2013, the Venezuelan government announced a devaluation of its currency exchange commission (CADIVI) rate from 4.3 to 6.3 bolivares fuertes (VEF) per USD and the elimination of the alternative currency exchange system, SITME. Prior to February 8, 2013, the Company had been utilizing the rate at which it had been obtaining USD through SITME to remeasure its Venezuelan financial statements, which was 5.7 VEF per USD at the announcement date. In response to these developments, the Company began utilizing the CADIVI rate of 6.3 VEF per USD to translate the financial statements of the Venezuela business.

In March 2013, the Venezuelan government announced the creation of a new alternative currency exchange system, a government-controlled auction process referred to as SICAD I, whereby companies meeting certain qualifications may periodically bid to acquire USD. In January 2014, the Venezuelan government announced further changes to the regulations governing the currency exchange systems. Among the changes was the creation of a new government agency, CENCOEX, to administer the currency exchange mechanism previously administered by CADIVI.

In February 2014, the Venezuelan government established another currency exchange mechanism, SICAD II, that provides an additional method to exchange VEF at exchange rates significantly higher than the CENCOEX and SICAD I rates. As of June 30, 2014, the posted rate of the SICAD II exchange system was 50.0 VEF per USD.

Based on an analysis of the published exchange regulations and an assessment of currency requirements applicable to the Venezuela business, the Company has concluded that the SICAD I rate is currently the most appropriate rate for it to use for financial reporting purposes. The Company began using the SICAD I rate to record the results of business operations and remeasure the gain or loss on non-USD monetary assets and liabilities in Venezuela beginning on March 1, 2014. As a result, the Company recorded a non-tax deductible remeasurement loss of \$10 for the year ended June 30, 2014, reflecting the effective devaluation from the CENCOEX rate of 6.3 to the June 30, 2014 posted SICAD I rate of 10.6.

As of June 30, 2014, using the SICAD I rate of 10.6, the Venezuela business had total assets of \$68 including cash and cash equivalents of \$5, a long-term value added tax (VAT) receivable from the Venezuelan government of \$9, inventories of \$11, net property, plant and equipment of \$16, and intangible assets excluding goodwill of \$6. Goodwill for Venezuela is aggregated and assessed for impairment at the Latin America reporting unit level, which is a component of the Company's International segment. Based on the results of the annual impairment test performed in the fourth quarter of fiscal year 2014, the fair value of the Latin America reporting unit exceeded its recorded value by more than 40%. The Venezuela subsidiary operated at a profit for the years ended June 30, 2012 and 2013. The subsidiary operated at a loss for the fiscal year ended June 30, 2014, including a reduction of 14 cents diluted net earnings per share (EPS) due to the remeasurement losses described above, impairment charges on trademark values (Note 6 – Goodwill, Trademarks and Other Intangible Assets), and other charges related to the effective devaluation of the Venezuelan currency.

Considerable uncertainty remains regarding the viability of these currency exchanges, the availability of USD under these exchanges, and whether a new system will emerge. The Company is monitoring developments to assess the implications of these systems for business operations, future cash flow and financial reporting for the Venezuela business.

NOTE 19. SEGMENT REPORTING (Continued)

Argentina

The operating environment in Argentina also presents business challenges, including price controls on some of the Company's products, a devaluing currency and inflation. For the fiscal years ended June 30, 2014, 2013 and 2012, the value of the Argentine peso (ARS) per USD declined 34%, 16% and 9%, respectively. In addition, in July 2014, the Argentine government defaulted on debt payment agreements. As of June 30, 2014, using an exchange rate of 8.1 ARS per USD, the Company's Argentina subsidiary had total assets of \$105, including cash and cash equivalents of \$25, net receivables of \$20, inventories of \$15, net property, plant and equipment of \$20 and intangible assets excluding goodwill of \$5. Goodwill for Argentina is aggregated and assessed for impairment at the Latin America reporting unit level, which is a component of the Company's International segment. Based on the results of the annual impairment test performed in the fourth quarter of fiscal year 2014, the fair value of the Latin America reporting unit exceeded its recorded value by more than 40%. Net sales from the Company's Argentina subsidiary represented approximately 3% of the Company's consolidated net sales for each of the fiscal years ended June 30, 2014, 2013 and 2012. The Company is closely monitoring developments in Argentina and is taking steps intended to mitigate the adverse conditions.

	Fiscal Year	Cleaning	Household	Lifestyle	International	Corporate	Total Company
Net sales	2014	\$ 1,776	\$ 1,709	\$ 936	\$ 1,170	\$ -	\$ 5,591

	2012	13	12	6	1	(5)	27

All intersegment sales are eliminated and are not included in the Company's reportable segments' net sales.

NOTE 19. SEGMENT REPORTING (Continued)

Net sales to the Company's largest customer, Walmart Stores, Inc. and its affiliates, were 26% of consolidated net sales for each of the fiscal years ended 2014, 2013 and 2012, and occurred in each of the Company's reportable segments. No other customers accounted for more than 10% of consolidated net sales in any of these fiscal years. During fiscal years 2014, 2013 and 2012, the Company's five largest customers accounted for 45%, 45% and 44% of its net sales, respectively.

The Company has three product lines that have accounted for 10% or more of consolidated net sales during each of the past three fiscal years. In fiscal years 2014, 2013 and 2012, sales of liquid bleach represented approximately 13%, 14% and 14% of the Company's consolidated net sales, respectively, approximately 26%, 26% and 26% of net sales in the Cleaning segment, respectively, and approximately 27%, 28% and 27% of net sales in the International segment, respectively. Sales of trash bags represented approximately 13% of the Company's consolidated net sales in each of the fiscal years 2014, 2013 and 2012, approximately 36%, 37% and 35% of net sales in the Household segment and approximately 8%, 10% and 10% of net sales in the International segment, respectively. Sales of charcoal represented approximately 11%, 10% and 11% of the Company's consolidated net sales and approximately 34%, 32% and 35% of net sales in the Household segment in fiscal years 2014, 2013 and 2012, respectively.

Net sales and property, plant and equipment, net, by geographic area as of and for the fiscal years ended June 30 were as follows:

	Fiscal Year	United States	Foreign	Total Company
Net sales	2014	\$ 4,466	\$ 1,125	\$ 5,591
	2013	4,448	1,175	5,623
	2012	4,316	1,152	5,468
Property, plant and equipment, net	2014	\$ 825	\$ 152	\$ 977
	2013	860	161	1,021

NOTE 20. RELATED PARTY TRANSACTIONS

The Company holds various equity investments with ownership percentages of up to 50% in a number of consumer products businesses, most of which operate outside the United States. The Company has no ongoing capital commitments, loan requirements, guarantees or any other types of arrangements under the terms of its agreements that would require any future cash contributions or disbursements arising out of an equity investment.

Transactions with the Company's equity investees typically represent payments for contract manufacturing and purchases of raw materials. Payments to related parties, including equity investees, for such transactions during the fiscal years ended June 30, 2014, 2013 and 2012 were \$57, \$50 and \$49, respectively. Receipts from and ending accounts receivable and payable balances related to the Company's related parties were not significant during and as of the end of each of the fiscal years presented.

THE CLOROX COMPANY
RECONCILIATION OF ECONOMIC PROFIT ⁽¹⁾

Dollars in millions	FY14	FY13	FY12
Earnings from continuing operations before income taxes	\$ 861	\$ 853	\$ 791
Noncash restructuring-related and intangible asset impairment costs	4	-	4
Interest expense	103	122	125
Earnings from continuing operations before income taxes, noncash restructuring-related and intangible asset impairment costs and interest expense	<u>\$ 968</u>	<u>\$ 975</u>	<u>\$ 920</u>
Income taxes on earnings from continuing operations before income taxes, noncash restructuring-related and intangible asset impairment costs and interest expense ⁽²⁾	336	319	289
Adjusted after tax profit	\$ 632	\$ 656	\$ 631
Average capital employed ⁽³⁾	2,494	2,552	2,544
Capital charge ⁽⁴⁾	225	230	229
Economic profit ⁽¹⁾ (Adjusted after tax profit less capital charge)	\$ 407	\$ 426	\$ 402

- (1) Economic profit (EP) is defined by the Company as earnings from continuing operations before income taxes, excluding noncash restructuring-related and intangible asset impairment costs, and interest expense; less an amount of tax based on the effective tax rate, and less a charge equal to average capital employed multiplied by the weighted-average cost of capital. EP is a key financial metric the Company's management uses to evaluate business performance and allocate resources, and is a component in determining management's incentive compensation. The Company's management believes EP provides additional perspective to investors about financial returns generated by the business and represents profit generated over and above the cost of capital used by the business to generate that profit.
- (2) The tax rate applied is the effective tax rate on continuing operations, which was 34.7%, 32.7% and 31.4% in fiscal years 2014, 2013 and 2012, respectively.
- (3) Total capital employed represents total assets less non-interest bearing liabilities. Adjusted capital employed represents total capital employed adjusted to add back current year noncash restructuring-related and intangible asset impairment costs. Average capital employed represents a two-point average of adjusted capital employed for the current year and total capital employed for the prior year, based on year-end balances. See below for details of the average capital employed calculation:

	FY14	FY13	FY12
Total assets	\$ 4,258	\$ 4,311	\$ 4,355
Less:			
Accounts payable	440	413	412
Accrued liabilities	472	490	494
Income taxes payable	8	29	5
Other liabilities	768	742	739
Deferred income taxes	103	119	119
Non-interest bearing liabilities	<u>1,791</u>	<u>1,793</u>	<u>1,769</u>
Total capital employed	2,467	2,518	2,586
After tax Noncash restructuring-related and intangible asset impairment costs	3	-	4
Adjusted capital employed	\$ 2,470	\$ 2,518	\$ 2,590
Average capital employed	\$ 2,494	\$ 2,552	\$ 2,544

- (4) Capital charge represents average capital employed multiplied by the weighted-average cost of capital. The weighted-average cost of capital used to calculate capital charge was 9% for all fiscal years presented.
