Clorox Reports First-Quarter Results and Includes Auto Care Businesses in Discontinued Operations; Updates Fiscal 2011 Outlook

OAKLAND, Calif., Nov. 2, 2010 – The Clorox Company (NYSE: CLX) today reported a 3 percent decline in sales and flat earnings from continuing operations for its fiscal first quarter, which ended Sept. 30.

As announced on Sept. 21, Clorox has reached an agreement for the sale of its global Auto Care businesses. For the current and year-ago quarters, the results from these businesses are now included in discontinued operations on Clorox's statements of earnings, and assets being transferred are classified as held for sale on the company's balance sheets. All results in this press release are on a continuing operations basis, unless otherwise stated. (For more information, see the section below entitled "Impact of Auto Care Businesses Divestiture," and supplemental materials in the Financial Results section of the company's website at www.TheCloroxCompany.com.)

Fiscal First-Quarter Results

"We faced a challenging economic environment, as evidenced by category softness in the U.S. along with the impact of the Venezuela currency devaluation," said Chairman and CEO Don Knauss. "Late first-quarter shipments were particularly soft and that trend has continued into the first weeks of our second quarter. While we're disappointed not to have delivered stronger first-quarter results, we manage our business for the long term. I believe we're taking the right actions to maintain the long-term health of our brands and help strengthen our categories as the economy recovers."

Said Knauss, "Looking at the full fiscal year, I feel good about our plans to drive volume and sales growth. We are aggressively managing competitive price gaps and continuing to invest in strong consumer communications, innovation, support for new products and bringing value to consumers. Importantly, our focus on brand-building activities is paying off with higher market shares."

Following is a summary of key first-quarter results. All comparisons are with the first quarter of fiscal year 2010, unless otherwise stated.

- 98 cents diluted earnings per share (EPS) (versus 99 cents diluted EPS in the year-ago quarter)
- 2 % volume decline
- 3 % sales decline

Clorox reported first-quarter net earnings from continuing operations of \$140 million, or 98 cents diluted EPS, versus \$140 million, or 99 cents diluted EPS, in the year-ago quarter. Including discontinued operations, net earnings were \$216 million, or \$1.52 diluted earnings per share, compared with \$157 million, or \$1.11 diluted EPS, in the year-ago quarter. (See "Non-GAAP Financial Information" below and the last two pages of this press release for information and a reconciliation of key first-quarter results.)

Fiscal First-Quarter Earnings Reconciliation

	Q1 Fiscal 2011				Q1 Fiscal 2010		
	Ea	Net arnings	Diluted Net EPS Earning			Diluted EPS	
Earnings from continuing operations	\$	140	\$ 0.98	\$	140	\$ 0.99	
Earnings from discontinued operations, net of tax		16	0.11		17	0.12	
		156	1.09		157	1.11	
Deferred tax benefit on businesses to be sold		60	0.43				
Net earnings	\$	216	\$ 1.52	\$	157	\$ 1.11	

Volume declined 2 percent, primarily due to lower shipments of Glad [®] food-storage products and Scoop Away [®] cat litter, and the comparison with a strong increase in shipments of disinfecting products in the year-ago quarter related to the H1N1 flu pandemic. Volume in the quarter was also negatively impacted by strong retailer merchandising of Kingsford [®] charcoal and Hidden Valley [®] bottled salad dressing in the prior quarter.

Sales declined 3 percent to \$1.27 billion, primarily due to volume softness, the impact of the Venezuela currency devaluation, and modestly higher trade-promotion spending to support new products and respond to competitive activity in select categories. This was partially offset by the benefit of price increases.

Gross margin decreased 40 basis points to 44.3 percent from 44.7 percent in the year-ago quarter, when gross margin increased about 400 basis points. The decrease in the current quarter gross margin was primarily driven by reinflation of commodity costs, the negative impact of foreign currency exchange rates and higher trade-promotion spending. These factors were partially offset by strong cost savings.

Cash provided by operations, including net cash provided by discontinued operations, increased to \$148 million from \$94 million in the year-ago quarter. The year-over-year increase was primarily due to changes in working capital and a lower pension contribution.

Key segment results

Following is a summary of key first-quarter results by reportable segment. All comparisons are with the first quarter of fiscal year 2010, unless otherwise stated.

Cleaning

(Laundry, home care, away from home)

- 1 % volume growth
- 1 % sales decline
- 2 % pretax earnings growth

The segment's volume increase was primarily driven by all-time record shipments of Clorox ® disinfecting wipes as retailers prepared for the current year's flu season, exceeding a high level of shipments in the year-ago quarter related to the H1N1 flu pandemic. Also contributing to the higher volume were growth in the away-from-home business and increased shipments of Pine-Sol ® cleaners. These results were partially offset by lower shipments of Green Works ® products, due in part to the launch of Green Works ® laundry detergent in the year-ago quarter. The variance between the changes in volume and sales were due to higher trade-promotion spending and unfavorable product mix. Pretax earnings reflected strong cost savings and lower advertising expense, partially offset by lower sales and higher commodity costs.

Household

(Bags and wraps, charcoal, cat litter)

- 9 % volume decline
- 7 % sales decline
- 4 % pretax earnings decline

The segment's volume decline was primarily driven by lower shipments of Glad ® food-storage products and Scoop Away ® cat litter. Also contributing to the volume decline was lower shipments of Kingsford ® charcoal due to strong retailer merchandising in the prior quarter. The variance between changes in volume and sales was primarily due to favorable product mix. Pretax earnings reflected the decline in sales and unfavorable commodity costs, partially offset by strong cost savings.

Lifestyle

(Dressings and sauces, water filtration, global natural personal care)

- 1 % volume growth
- 1 % sales growth
- 12% pretax earnings decline

The segment's volume growth was driven by higher shipments of Brita [®] water-filtration products and Burt's Bees [®] natural personal care products. The Brita results were due to increased merchandising activity. The Burt's Bees results included strong performance of Burt's Bees [®] acne products and the re-launch of body lotion. Offsetting growth were lower shipments of Hidden Valley [®] ranch bottled salad dressing due to strong retailer merchandising in the prior quarter. The decline in pretax earnings reflected higher trade-promotion spending, higher manufacturing and logistics costs, and higher selling and administrative expense partially due to supporting the Burt's Bees international expansion. These factors were partially offset by the benefit of strong cost savings.

International

(All countries outside of the U.S., excluding natural personal care)

- 2 % volume decline
- 2 % sales decline
- 7 % pretax earnings decline

Volume decreased due to the comparison with a strong increase in shipments of disinfecting products in the year-ago period related to the H1N1 flu pandemic, lower shipments in Venezuela and lower shipments of Glad ® products in Australia. The decline in sales includes the impact of the Venezuela currency devaluation, offset by the benefit of price increases and favorable exchange rates in other countries. Pretax earnings reflected the change in sales, unfavorable commodity costs, increased manufacturing and logistics costs, and higher selling and administrative expenses. These factors were partially offset by the benefit of price increases and strong cost savings.

Impact of Auto Care Businesses Divestiture

As a result of the Auto Care businesses being reported as discontinued operations, Clorox recognized a first-quarter tax benefit of \$60 million in earnings from discontinued operations. Accounting rules require that Clorox recognize a deferred tax asset to reflect the tax benefit the company expects to realize on the sale of the businesses because the tax basis in the assets being sold is higher than the book basis in the assets. Clorox expects the transaction to close in the second quarter of fiscal year 2011, which ends June 30, 2011.

Page 3 of 12

Clorox plans to use net proceeds from the sale to repurchase shares of its stock during this fiscal year. Combined with planned share repurchases to offset stock option dilution, Clorox anticipates repurchasing between 12 million and 13 million shares of its common stock during fiscal year 2011, with about two-thirds of the planned repurchases occurring in the second quarter and the balance in the third quarter.

The company now anticipates that the divestiture of the Auto Care businesses will reduce diluted EPS about 20 cents for fiscal year 2011. This includes the loss of earnings resulting from the divestiture, partially offset by the benefit of share repurchases and anticipated fiscal year 2011 revenues from an agreement under which Clorox will provide transition services to the buyer for a period of up to 18 months.

Clorox Updates Fiscal 2011 Financial Outlook

- 0-2 percent sales growth
- 25-50 basis points gross margin growth (unchanged)
- Diluted EPS from continuing operations in the range of \$4.05-\$4.20

Due primarily to category softness, Clorox now anticipates sales growth in the range of 0-2 percent. This range includes more favorable foreign currencies than previously anticipated.

Reflecting the updated sales outlook, Clorox now anticipates diluted EPS in the range of \$4.20 to \$4.35 from combined earnings on continuing and discontinued operations, excluding the gain and deferred tax benefit on the sale of the Auto Care businesses. On a continuing operations basis, Clorox anticipates diluted earnings per share in the range of \$4.05 to \$4.20.

	Fiscal 2011 Diluted EPS Outlook Range			
	Low	High		
Prior outlook	\$ 4.50	\$ 4.65		
Impact of Auto Care sale *	-0.20	-0.20		
	4.30	4.45		
Update to outlook	-0.10	-0.10		
Diluted EPS	\$ 4.20	\$ 4.35		
Note: Continuing operations EPS	\$ 4.05	\$ 4.20

risks related to the handling and/or transportation of hazardous substances, including, but not limited to, chlorine; the success of the company's strategies; the ability to manage and realize the benefits of joint ventures and other cooperative relationships, including the company's joint venture regarding the company's Glad @ plastic bags, wraps and containers business, and the agreements relating to the provision of information technology, procure to pay and other key services by third parties; risks relating to acquisitions, mergers and divestitures, including the company's ability to achieve the projected strategic and financial benefits from the Burt's Bees ® acquisition or the company's ability to successfully execute on planned divestitures, including the sale of the global Auto Care businesses, and the costs associated therewith; risks inherent in maintaining an effective system of internal controls, including the potential impact of acquisitions or the use of third-party service providers, and the need to refine controls to adjust for accounting, financial reporting and other organizational changes or business conditions; the ability of the company to successfully manage tax, regulatory, product liability, intellectual property, environmental and other legal matters, including the risk resulting from joint and several liability for environmental contingencies and risks inherent in litigation, including class action litigation; risks related to maintaining and updating the company's information systems, including potential disruptions, costs and the ability of the company to implement adequate information systems in order to support the current business and to support the company's potential growth; the success of new products and the ability of the company to develop products that delight the consumer; consumer and customer reaction to price increases; competitive actions; risks related to customer concentration; customer-specific ordering patterns and trends; risks arising out of natural disasters; the impact of disease outbreaks, epidemics or pandemics on the company's, suppliers' or customers' operations; changes in the company's tax rate; continuing unfavorable worldwide general economic and marketplace conditions and events, including consumer confidence and consumer spending levels, the rate of economic growth, the rate of inflation or deflation, and the financial condition of the company's customers, suppliers and service providers; foreign currency exchange rate and interest rate fluctuations; unfavorable political conditions in international markets and risks relating to international operations; the impact of the volatility of the debt markets on the company's cost of borrowing and access to funds, including commercial paper and its credit facility; risks relating to changes in the company's capital structure, including risks related to the company's ability to execute on share repurchase plans and the impact thereof on the company's capital structure and earnings per share; the need for any unanticipated restructuring or asset-impairment charges; risks arising from declines in cash flow, whether resulting from declining sales, higher cost levels, tax payments, debt payments, share repurchases, interest cost increases greater than management's expectations, or increases in debt or changes in credit ratings, or otherwise; and the company's ability to maintain its business reputation and the reputation of its brands.

The company's forward-looking statements in this report are based on management's current views and assumptions regarding future events and speak only as of their dates. The company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by the federal securities laws.

Non-GAAP financial information

This press release contains non-GAAP financial information relating to diluted EPS, sales growth and gross margin. Included on the last page of this release is a reconciliation of these non-GAAP financial measures to the most directly comparable financial measure calculated in accordance with generally accepted accounting principles in the U.S. (GAAP).

The company has disclosed information related to diluted EPS, sales and gross margin on a non-GAAP basis to supplement its condensed consolidated statements of earnings presented in accordance with GAAP. These non-GAAP financial measures exclude certain items that are included in the company's EPS, sales and gross margin reported in accordance with GAAP, including:

- Charges associated with simplification of the company's supply chain, operating model implementation and other restructuring-related charges.
- The impact of foreign exchange and foreign currency transactions.
- The impact of the company's exit from its private label food bags business.
- The impact of the pending sale of the company's auto care businesses

Page 6 of 12

Management believes that these non-GAAP financial measures provide useful additional information to investors about current trends in the company's operations and are useful for period over period comparisons of operations. These non-GAAP financial measures should not be considered in isolation or as a substitute for the comparable GAAP measures. In addition, these non-GAAP measures may not be the same as similar measures provided by other companies due to potential differences in methods of calculation and items being excluded. They should only be read in connection with the company's condensed consolidated statements of earnings presented in accordance with GAAP.

Management believes that economic profit, defined as profit generated over and above the estimated cost of capital used by the business to generate that profit, is the metric that best aligns over the long term with creating value and generating shareholder return.

⁽¹⁾ In accordance with SEC's Regulation G, this schedule provides the definition of certain non-GAAP measures and the reconciliation to the most closely related GAAP measure.

Management believes the presentation of EBIT, EBIT margin, EBITDA and EBITDA margin provides additional useful information to investors about current trends in the business.

Note: The Company calculates EBITDA for compliance with its debt covenants using earnings from continuing operations before income taxes and earnings from discontinued operations before income taxes.

⁽²⁾ EBIT (a non-GAAP measure) represents earnings before income taxes (a GAAP measure), excluding interest income and interest expense, as reported above. EBIT margin is a measure of EBIT as a percentage of net sales.

⁽³⁾ EBITDA (a non-GAAP measure) represents earnings before income taxes (a GAAP measure), excluding interest income, interest expense, depreciation and amortization, as reported above. EBITDA margin is a measure of EBITDA as a percentage of net sales.

Supplemental Information – Balance Sheet (Unaudited) As of September 30, 2010

Working Capital Update

Note: As a result of the Auto Care businesses' related assets (primarily inventory) being classified to assets held for sale in the current fiscal quarter, fiscal 2010 have been reclassified to conform to current quarter presentation. Fiscal 2009 balances, used for average working capital calculations, have not been adjusted.

	Q	<u>)</u> 1				
	FY 2011	FY 2010	Change	Days (5)	Days (5)	
	(\$ millions)	(\$ millions)	(\$ millions)	FY 2011	FY 2010	Change
Receivables, net	\$480	\$452	+\$28	36	32	+4 days
Inventories, net	\$370	\$356	+\$14	45	45	no change
Accounts payable (1)	\$379	\$329	+\$50	48	45	+3 days
Accrued liabilities	\$425	\$404	+\$21			
Total WC (2)	\$72	\$89	-\$17			
Total WC % net sales (3)	1.4%	1.7%				
Average WC (2)	\$48	\$62	-\$14			
Average WC % net sales (4)	0.9%	1.2%				

- <u>Receivables</u> increased primarily due to the change in auto customer payment terms (note: as part of the agreement to sell the Auto Care businesses, the company retains ownership of most of the accounts receivable on hand at the closing date of the sale).
- <u>Inventories</u> increased primarily due to increases in certain commodity costs, inventory builds for current year products launches and lower year-ago charcoal inventory levels due to the timing of scheduled plant shutdown.
- Account payable and accrued liabilities increased mainly due to the timing of payments for certain expenses, capital expenditures for the quarter and dividend accruals as a result of an increased dividend rate.

Supplemental Information – Cash Flow (Unaudited)

For the quarter ended September 30, 2010

Capital expenditures for the first quarter were \$34 million

Depreciation and amortization for the first quarter was \$45 million

Cash provided by operations

Net cash provided by operations in the first quarter, including cash provided by discontinued operations, was \$148 million, compared with \$94 million provided by operations in the year-ago quarter. Higher net cash provided by operations in the current quarter was primarily due to changes in working capital and an \$18 million lower pension contribution in the current quarter versus the prior year quarter.

- (1) Days of accounts payable is calculated as follows: average accounts payable / [(cost of products sold + change in inventory) / 90].
- (2) Working capital (WC) is defined in this context as current assets minus current liabilities excluding cash, assets held for sale, and short-term debt, based on end of period balances. Average working capital represents a two-point average of working capital.
- (3) Represents working capital at the end of the period divided by annualized net sales (current quarter net sales x 4).
- (4) Represents a two-point average of working capital divided by annualized net sales (current quarter net sales x 4).
- (5) Days calculations based on a two-point average.

^{(1) &}quot;Manufacturing & logistics" includes the change in the cost of diesel fuel.

^{(2) &}quot;All other" includes all other drivers of gross margin change, which are usually of an immaterial nature. Examples of drivers included: volume change, trade and consumer spending, restructuring and acquisition-related costs, foreign currency, etc. If a driver included in all other is deemed to be material in a given period, it will be disclosed as part of the company's earnings release.

⁽³⁾ Fiscal 2010 gross margin changes reflect the reclassification of the Auto Care businesses to discontinued operations in Q1 Fiscal 2011. Fiscal 2009 gross margins have not been adjusted for the sale of the Auto Care businesses. Fiscal 2010 gross margin drivers have not changed and any differences to gross margin based on this reclassification are reflected here.
