NOTE 1. INTERIM FINANCIAL STATEMENTS

Basis of Presentation

The unaudited interim condensed consolidated financial statements for the three and nine months ended March 31, 2015 and 2014, in the opinion of management, reflect all adjustments (consisting of normal recurring accruals) necessary for a fair presentation of the consolidated results of operations, financial position and cash flows of The Clorox Company and its subsidiaries (the Company) for the periods presented. The results for the interim period ended March 31, 2015, are not necessarily indicative of the results that may be expected for the fiscal year ending June 30, 2015, or for any other future period.

Effective September 22, 2014, the Company's Venezuela affiliate, Corporación Clorox de Venezuela S.A. (Clorox Venezuela), discontinued its operations. Consequently, for the three and nine months ended March 31, 2015 and 2014, Clorox Venezuela is reflected as a discontinued operation in the Company's financial statements.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles in the United States of America (U.S. GAAP) have been omitted or condensed pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). The information in this report should be read in conjunction with the Company's audited financial statements for the fiscal year ended June 30, 2014, which includes a complete set of footnote disclosures, including the Company's significant accounting policies, filed with the SEC in Exhibit 99.2 of the Company's Current Report on Form 8-K on December 4, 2014.

Recently Issued Accounting Pronouncements

In April 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-03, "Simplifying the Presentation of Debt Issuance Cost," which requires that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The new guidance is effective for the Company beginning in the first quarter of fiscal year 2017, with early adoption permitted. The Company is currently evaluating the impact that adoption of ASU 2015-03 will have on its consolidated financial statements.

In May 2014, the FASB issued ASU No. 2014-09, "Revenue from Contracts with Customers (Topic 606)," which replaces most existing U.S. GAAP revenue recognition guidance and is intended to improve and converge with international standards the financial reporting requirements for revenue from contracts with customers. The core principle of ASU 2014-09 is that an entity should recognize revenue for the transfer of goods or services equal to the amount that it expects to be entitled to receive for those goods or services. ASU 2014-09 also requires additional disclosures about the nature, timing and uncertainty of revenue and cash flows arising from contracts with customers, including information about significant judgments and changes in judgments. The new guidance is expected to be effective for the Company beginning in the first quarter of fiscal year 2018, with no early adoption permitted. The Company is currently evaluating the impact that adoption of ASU 2014-09 will have on its consolidated financial statements.

In April 2014, the FASB issued ASU No. 2014-08 "Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity (Topic 205)", which will change the criteria for reporting discontinued operations. The amendments will also require new disclosures about discontinued operations and disposals of components of an entity that do not qualify for discontinued operations reporting. The amendments are effective for the Company for new disposals (or classifications as held for sale) of components of the Company, should they occur, beginning in the first quarter of fiscal year 2016. Early adoption is permitted for disposals (or classifications as held for sale) that have not been previously reported. The Company will adopt this ASU beginning in the first quarter of fiscal year 2016, as required. Adoption of the new standard will not impact the Company's reporting or disclosures for discontinued operations of Clorox Venezuela.

NOTE 2. DISCONTINUED OPERATIONS

On September 22, 2014, Clorox Venezuela announced that it was discontinuing its operations, effective immediately, and seeking to sell its assets. Since fiscal year 2012, Clorox Venezuela was required to sell more than two thirds of its products at prices frozen by the Venezuelan government. During this same period, Clorox Venezuela experienced successive years of hyperinflation resulting in significant sustained increases in its input costs, including packaging, raw materials, transportation and wages. As a result, Clorox Venezuela had been selling its products at a loss, resulting in ongoing operating losses. Clorox Venezuela repeatedly met with government authorities in an effort to help them understand the rapidly declining state of the business, including the need for immediate, significant and ongoing price increases and other critical remedial actions to address these adverse impacts. Based on the Venezuelan government’s representations, Clorox Venezuela had expected significant price increases would be forthcoming much earlier; however, the price increases subsequently approved were insufficient and would have caused Clorox Venezuela to continue operating at a significant loss into the foreseeable future. As such, Clorox Venezuela was no longer financially viable and was forced to discontinue its operations.

On September 26, 2014, the Company reported that Venezuelan Vice President Jorge Arreaza announced, with endorsement by President Nicolás Maduro, that the Venezuelan government had occupied the Santa Lucía and Guacara production facilities of Clorox Venezuela. On November 6, 2014, the Company reported that the Venezuelan government had published a resolution granting a government-sponsored Special Administrative Board full authority to restart and operate the business formerly operated by Clorox Venezuela, thereby reaffirming the government’s expropriation of Clorox Venezuela’s assets. Further, President Nicolás Maduro announced the government’s intention to facilitate the resumed production of bleach and other cleaning products at Clorox Venezuela plants. He also announced his approval of a financial credit to invest in raw materials and production at the plants. These actions by the Venezuelan government were taken without the consent or involvement of Clorox Venezuela, its parent Clorox Spain S.L. (Clorox Spain) or any of their affiliates. Clorox Venezuela, Clorox Spain and their affiliates reserved their rights under all applicable laws and treaties.

With this exit, the financial results of Clorox Venezuela are reflected as discontinued operations in the Company’s condensed consolidated financial statements. The results of Clorox Venezuela have historically been part of the International reportable segment.

Net sales for Clorox Venezuela were \$0 and \$11 for the three and nine months ended March 31, 2015, respectively, and \$20 and \$63 for the three and nine months ended March 31, 2014, respectively.

The following table provides a summary of benefits (losses) from discontinued operations for Clorox Venezuela and gains (losses) from discontinued operations other than Clorox Venezuela for the periods indicated:

	Three Months Ended		Nine Months Ended	
	3/31/2015	3/31/2014	3/31/2015	3/31/2014
Operating losses from Clorox Venezuela	\$ -	\$ (12)	\$ (6)	\$ (18)
Exit costs and other related expenses for Clorox Venezuela	-	-	(77)	-
Total losses from Clorox Venezuela before income taxes	-	(12)	(83)	(18)
Income tax benefit attributable to Clorox Venezuela	-	-	25	2
Total losses from Clorox Venezuela, net of tax	-	(12)	(58)	(16)

Gains (losses) from discontinued operations, net of tax	\$ 30	\$ (14)	\$ (28)	\$ (20)

Unrelated to Clorox Venezuela, in the three months ended March 31, 2015, \$30 of gross unrecognized tax benefits relating to other discontinued operations for periods prior to fiscal year 2015 were recognized upon the expiration of the applicable statute of limitations. Recognition of these previously disclosed tax benefits had no impact on the Company’s cash flow or earnings from continuing operations for the three or nine months ended March 31, 2015. See Note 9 – Income Taxes below.

Table of Contents

NOTE 2. DISCONTINUED OPERATIONS (Continued)

Summary of Operating Losses, Asset Charges and Other Costs

The following provides a breakdown of benefits (losses) from discontinued operations for Clorox Venezuela and gains (losses) from discontinued operations other than Clorox Venezuela for the periods indicated:

	<u>Three Months Ended</u>	<u>Nine Months Ended</u>
	<u>3/31/2015</u>	<u>3/31/2015</u>
Operating losses from Clorox Venezuela	\$ -	\$ (6)
Net asset charges:		
Inventories	-	(11)
Property, plant and equipment	-	(16)
Trademark and other intangible assets	-	(6)
Other assets	1	(3)
Other exit and business termination costs:		
Severance	-	(3)
Recognition of deferred foreign currency translation loss	-	(30)
Other	(1)	(8)
Total losses from Clorox Venezuela before income taxes	-	(83)
Income tax benefit attributable to Clorox Venezuela	-	25
Total losses from Clorox Venezuela, net of tax	-	(58)
Gains from discontinued operations other than Clorox Venezuela, net of tax	30	30
Gains (losses) from discontinued operations, net of tax	<u>\$ 30</u>	<u>\$ (28)</u>

Prior to Clorox Venezuela being consolidated under the rules governing the preparation of financial statements in a highly inflationary economy, cumulative translation gains (losses) were included as a component of accumulated other comprehensive net loss. The charge of \$30 to discontinued operations in September 2014 represents the recognition of these losses as a result of Clorox Venezuela discontinuing its operations effective September 22, 2014.

Goodwill related to Clorox Venezuela was previously aggregated and assessed for impairment at the Latin America reporting unit level, which is a component of the Company's International segment. Based on the results of the annual impairment test performed in the fourth quarter of fiscal year 2014, the fair value of the Latin America reporting unit exceeded its recorded value by more than 40%. In the first quarter of fiscal year 2015, after Clorox Venezuela discontinued its operations, the Company reviewed the relative fair value of its components of the Latin America reporting unit and concluded no goodwill should be allocated to the Clorox Venezuela component and that there were no indicators of impairment within the remaining Latin America reporting unit.

Financial Reporting: Hyperinflation and the Selection of Exchange Rates

Due to a sustained inflationary environment, the financial statements of Clorox Venezuela were consolidated under the rules governing the preparation of financial statements in a highly inflationary economy. As such, Clorox Venezuela's non-U.S. dollar (non-USD) monetary assets and liabilities were remeasured into U.S. dollars (USD) each reporting period with the resulting gains and losses reflected in discontinued operations.

For all periods presented prior to March 1, 2014, the Company recorded the results of its business operations and remeasured the non-USD denominated monetary assets and liabilities of Clorox Venezuela using the CENCOEX (previously referred to as CADIVI) rate of 6.3 bolivares fuertes (VEF) per USD. Beginning March 1, 2014, the Company utilized the SICAD I rate for financial reporting purposes. In connection with Clorox Venezuela's announced exit from the country in September 2014, Clorox Venezuela's parent, Clorox Spain, infused cash through SICAD II to settle obligations, including those resulting from the decision to exit. As a result, the Company began utilizing the SICAD II rate in September 2014, which was 49.7 VEF per USD as of September 30, 2014.

Subsequent to Clorox Venezuela discontinuing operations, the Venezuelan government has continued to evolve its currency exchange mechanisms; however, these changes have not had a material impact on the Company's financial results (see *Major Classes of Remaining Assets and Liabilities* below).

In addition to the above, as of March 31, 2015 and June 30, 2014, the Company held \$14 and \$17, respectively, of tax asset balances related to Clorox Venezuela in the Corporate reportable segment.

NOTE 3. INVENTORIES

Inventories consisted of the following as of:

	3/31/2015	6/30/2014
Finished goods	\$ 370	\$ 312
Raw materials and packaging	103	108
Work in process	2	2

Total	<u>\$ 440</u>	<u>\$ 386</u>

NOTE 4. OTHER ASSETS

Investments in Low-Income Housing Partnerships

The Company owns, directly or indirectly, limited partnership interests in low-income housing partnerships, which are accounted for using the equity method of accounting. The Company's investment balance as of March 31, 2015 and June 30, 2014 was \$1 and \$4, respectively. These partnerships are considered to be variable interest entities; however, the Company does not consolidate them because it does not have the power to direct the partnerships' activities that significantly impact their economic performance. The purpose of the partnerships is to develop and operate low-income housing rental properties. The general partners, who typically hold 1% of the partnership interests, are third parties unrelated to the Company and its affiliates, and are responsible for controlling and managing the business and financial operations of the partnerships. As a limited partner, the Company is not responsible for any of the liabilities and obligations of the partnerships nor do the partnerships or their creditors have any recourse to the Company other than for the capital requirements. All available tax benefits from low-income housing tax credits provided by the partnerships were claimed as of fiscal year 2012. The risk that previously claimed low-income housing tax credits might be recaptured or otherwise retroactively invalidated is considered remote.

NOTE 5. OTHER LIABILITIES

Other liabilities consisted of the following as of:

	3/31/2015	6/30/2014
Venture agreement net terminal obligation	\$ 293	\$ 290
Employee benefit obligations	281	289
Taxes	40	76
Other	119	113
Total	<u>\$ 733</u>	<u>\$ 768</u>

NOTE 6. DEBT

In December 2014, under a shelf registration statement filed with the SEC that will expire in December 2017, the Company issued \$500 of senior notes with an annual fixed interest rate of 3.50%. Interest on the notes is payable semi-annually in June and December and the notes have a maturity date of December 15, 2024. The notes carry an effective interest rate of 4.10%, which includes the impact from the settlement of interest rate forward contracts in December 2014 (see Note 13 – Financial Instruments and Fair Value Measurements). The notes rank equally with all of the Company’s existing senior indebtedness.

In January 2015, \$575 of the Company’s senior notes with an annual fixed interest rate of 5.00% matured and were repaid using the net proceeds from the December 2014 debt issuance and commercial paper.

Revolving Credit Agreement

On October 1, 2014, the Company entered into a \$1,100 revolving credit agreement (the Credit Agreement), which expires in October 2019. This agreement replaced a prior \$1,100 revolving credit agreement in place since May 2012. There were no borrowings under the Credit Agreement as of March 31, 2015, and the Company believes that borrowings under the Credit Agreement are and will continue to be available for general corporate purposes.

NOTE 7. NET EARNINGS PER SHARE (EPS)

The following is the reconciliation of the weighted average number of shares outstanding (in thousands) used to calculate basic net EPS to those used to calculate diluted net EPS:

	Three Months Ended		Nine Months Ended	
	3/31/2015	3/31/2014	3/31/2015	3/31/2014
Basic	131,833	129,318	130,566	129,743
Dilutive effect of stock options and other	2,282	2,237	2,524	2,261
Diluted	<u>134,115</u>	<u>131,555</u>	<u>133,090</u>	<u>132,004</u>

During the three and nine months ended March 31, 2015, the number of stock options and restricted stock units that were considered antidilutive and excluded from the diluted net EPS calculation were approximately zero and 0.3 million shares, respectively. During the three and nine months ended March 31, 2014, the Company included all stock options and restricted stock units in the calculations of diluted net EPS.

The Company has two share repurchase programs: an open-market purchase program with an authorized aggregate purchase amount of up to \$750, all of which was available for share repurchases as of March 31, 2015, and a program to offset the impact of share dilution related to share-based awards (the Evergreen Program), which has no authorization limit as to amount or timing of repurchases.

During the three and nine months ended March 31, 2015, the Company repurchased approximately 1.4 and 1.5 million shares, respectively, under its Evergreen Program, for an aggregate amount of \$150 and \$158, respectively. During the three and nine months ended March 31, 2014, the Company repurchased approximately 1.5 and 3.0 million shares, respectively, under its Evergreen Program, for an aggregate amount of \$130 and \$260, respectively.

The Company did not repurchase any shares under the open-market purchase program during the three and nine months ended March 31, 2015 and 2014.

NOTE 9. INCOME TAXES

In determining its quarterly provision for income taxes, the Company uses an estimated annual effective tax rate, which is based on expected annual income, statutory tax rates and tax planning opportunities available in the various jurisdictions in which the Company operates. Certain significant or unusual items are separately recognized in the quarter in which they occur and can be a source of variability in the effective tax rates from quarter to quarter.

The effective tax rate on earnings from continuing operations was 33.4% and 34.0% for the three and nine months ended March 31, 2015, respectively, and 33.2% and 34.3% for the three and nine months ended March 31, 2014, respectively. The higher tax rate for the current three month period was primarily due to higher tax on foreign earnings. The lower tax rate for the current nine month period was primarily due to higher uncertain tax position releases.

Included in the balance of unrecognized tax benefits as of March 31, 2015 and June 30, 2014, are potential benefits of \$28 and \$58, respectively, which if recognized, would affect net earnings. In the three months ended March 31, 2015, \$30 of gross unrecognized tax benefits relating to other discontinued operations for periods prior to fiscal year 2015 were recognized upon the expiration of the applicable statute of limitations. Recognition of these previously disclosed tax benefits had no impact on the Company's cash flow or earnings from continuing operations for the three or nine months ended March 31, 2015.

The total balance of accrued interest and penalties related to uncertain tax positions was \$9 and \$11 as of March 31, 2015 and June 30, 2014, respectively. Interest and penalties related to uncertain tax positions included in income tax expense resulted in net benefit of \$2 for both the three and nine months ended March 31, 2015, and net expense of \$2 and \$3 for the three and nine months ended March 31, 2014, respectively.

The Company files income tax returns in U.S. federal and various state, local and foreign jurisdictions. The federal statute of limitations has expired for all tax years through June 30, 2011. Various income tax returns in state and foreign jurisdictions are currently in the process of examination.

NOTE 10. RETIREMENT INCOME AND HEALTH CARE BENEFIT PLANS

The following table summarizes the components of net periodic benefit cost for the Company's retirement income plans:

	Three Months Ended		Nine Months Ended	
	3/31/2015	3/31/2014	3/31/2015	3/31/2014
Service cost	\$ -	\$ -	\$ 1	\$ 1
Interest cost	7	7	19	20
Expected return on plan assets	(5)	(5)	(15)	(18)
Amortization of unrecognized items	3	2	9	8
Total	<u>\$ 5</u>	<u>\$ 4</u>	<u>\$ 14</u>	<u>\$ 11</u>

The net periodic benefit cost for the Company's retirement health care plans was a credit of \$1 and \$2 for the three and nine months ended March 31, 2015, respectively, and \$0 and \$1 for the three and nine months ended March 31, 2014, respectively.

NOTE 11. OTHER CONTINGENCIES AND GUARANTEES

Contingencies

The Company is involved in certain environmental matters, including response actions at various locations. The Company had a recorded liability of \$12 and \$14 as of March 31, 2015 and June 30, 2014, respectively, for its share of aggregate future remediation costs related to these matters. One matter in Dickinson County, Michigan, for which the Company is jointly and severally liable, accounted for a substantial majority of the recorded liability as of both March 31, 2015 and June 30, 2014. The Company has agreed to be liable for 24.3% of the aggregate remediation and associated costs for this matter pursuant to a cost-sharing arrangement with a third party. With the assistance of environmental consultants, the Company maintains an undiscounted liability representing its current best estimate of its share of the capital expenditures, maintenance and other costs that may be incurred over an estimated 30-year remediation period. Currently, the Company cannot accurately predict the timing of future payments that may be made under this obligation. In addition, the Company's estimated loss exposure is sensitive to a variety of uncertain factors, including the efficacy of remediation efforts, changes in remediation requirements and the future availability of alternative clean-up technologies. Although it is reasonably possible that the Company's exposure may exceed the amount recorded, any amount of such additional exposures, or range of exposures, is not estimable at this time.

NOTE 11. OTHER CONTINGENCIES AND GUARANTEES (Continued)

In October 2012, a Brazilian appellate court issued an adverse decision in a lawsuit pending in Brazil against the Company and one of its wholly owned subsidiaries, The Glad Products Company (Glad). The lawsuit, which was initially filed in a Brazilian lower court in 2002 by two Brazilian companies and one Uruguayan company (collectively, Petroplus), relates to joint venture agreements for the distribution of STP auto-care products in Brazil with three companies that became subsidiaries of the Company as a result of the Company's merger with First Brands Corporation in January 1999 (collectively, Clorox Subsidiaries). The pending lawsuit seeks indemnification for damages and losses for alleged breaches of the joint venture agreements and abuse of economic power by the Company and Glad. Petroplus had previously unsuccessfully raised the same claims and sought damages from the Company and the Clorox Subsidiaries in an International Chamber of Commerce (ICC) arbitration proceeding in Miami, Florida, filed in 2001. The ICC arbitration panel unanimously ruled against Petroplus in a final decision in November 2003 (Final ICC Arbitration Award). The Final ICC Arbitration Award was ratified by the Superior Court of Justice of Brazil in May 2007 (Foreign Judgment), and the United States District Court for the Southern District of Florida subsequently confirmed the Final ICC Arbitration Award and recognized and adopted the Foreign Judgment as a judgment of the United States District Court for the Southern District of Florida (U.S. Judgment). Despite this, in March 2008, a Brazilian lower court ruled against the Company and Glad in the pending lawsuit. The value of the judgment against the Company, including interest and foreign exchange fluctuations as of March 31, 2015, was approximately \$29.

Among other defenses, because the Final ICC Arbitration Award, the Foreign Judgment and the U.S. Judgment relate to the same claims as those in the pending lawsuit, the Company believes that Petroplus is precluded from re-litigating these claims. Based on the unfavorable appellate court decision, however, the Company believes that it is reasonably possible that a loss could be incurred in this matter in excess of amounts accrued, and that the estimated range of such loss in this matter is from \$0 to \$24.

The Company continues to believe that its defenses are meritorious, and has appealed the decision to the highest courts of Brazil. In December 2013, in the first stage of the appellate process, the appellate court declined to admit the Company's appeals to the highest courts. The Company then appealed directly to the highest courts. While in May 2014 the Superior Court of Justice originally agreed to consider the Company's appeal, in December 2014 the same court declined to admit the appeal based on procedural grounds. The Company is appealing that decision. It is possible that a final decision in this case could be issued as early as the fourth quarter of fiscal year 2015. Expenses related to this litigation have been, and any potential additional loss would be, reflected in discontinued operations, consistent with the Company's classification of expenses related to its discontinued Brazil operations.

In a separate action filed in 2004 by Petroplus, in January 2013, a lower Brazilian court nullified the Final ICC Arbitration Award. The Company believes this judgment is inconsistent with the Foreign Judgment and the U.S. Judgment and that it is without merit. The Company appealed this decision, and the lower court decision was overturned by the appellate court in April 2014. Petroplus has appealed this decision to Brazil's highest court.

Glad and the Clorox Subsidiaries have also filed separate lawsuits against Petroplus alleging misuse of the STP trademark and related matters, which are currently pending before Brazilian courts, and have taken other legal actions against Petroplus, which are pending. Additionally, in November 2013, the Clorox Subsidiaries initiated a new ICC arbitration seeking damages against Petroplus.

The Company is subject to various other lawsuits, claims and loss contingencies relating to issues such as contract disputes, product liability, patents and trademarks, advertising, commercial, administrative, employee and other matters. Based on management's analysis, it is the opinion of management that the ultimate disposition of these matters, to the extent not previously provided for, will not have a material adverse effect, individually or in the aggregate, on the Company's consolidated financial statements taken as a whole.

Guarantees

In conjunction with divestitures and other transactions, the Company may provide typical indemnifications (e.g., indemnifications for representations and warranties and retention of previously existing environmental, tax and employee liabilities) that have terms that vary in duration and in the potential amount of the total obligation and, in many circumstances, are not explicitly defined. The Company has not made, nor does it believe that it is probable that it will make, any material payments relating to its indemnifications, and believes that any reasonably possible payments would not have a material adverse effect, individually or in the aggregate, on the Company's consolidated financial statements taken as a whole.

The Company had not recorded any liabilities on the aforementioned guarantees as of March 31, 2015.

As of March 31, 2015, the Company was a party to letters of credit of \$11, primarily related to one of its insurance carriers, of which \$0 had been drawn upon.

NOTE 12. SEGMENT RESULTS

The Company operates through strategic business units that are aggregated into four reportable segments: Cleaning, Household, Lifestyle and International. As a result of Clorox Venezuela being reported as discontinued operations, the results of Clorox Venezuela are no longer included in earnings from continuing operations of the International reportable segment (see Note 2 – Discontinued Operations).

- *Cleaning* consists of laundry, home care and professional products marketed and sold in the United States. Products within this segment include laundry additives, including bleach products under the Clorox[®] brand and Clorox 2[®] stain fighter and color booster; home care products, primarily under the Clorox[®], Formula 409[®], Liquid-Plumr[®], Pine-Sol[®], S.O.S[®] and Tilex[®] brands; naturally derived products under the Green Works[®] brand; and professional cleaning and disinfecting products under the Clorox[®], Dispatch[®], Aplicare[®], HealthLink[®] and Clorox Healthcare[®] brands.
- *Household* consists of charcoal, cat litter and plastic bags, wraps and container products marketed and sold in the United States. Products within this segment include plastic bags, wraps and containers under the Glad[®] brand; cat litter products under the Fresh Step[®], Scoop Away[®] and Ever Clean[®] brands; and charcoal products under the Kingsford[®] and Match Light[®] brands.
- *Lifestyle* consists of food products, water-filtration systems and filters, and natural personal care products marketed and sold in the United States. Products within this segment include dressings and sauces, primarily under the Hidden Valley[®], KC Masterpiece[®] and Soy Vay[®] brands; water-filtration systems and filters under the Brita[®] brand; and natural personal care products under the Burt’s Bees[®] brand.
- *International* consists of products sold outside the United States. Products within this segment include laundry, home care, water-filtration, charcoal and cat litter products, dressings and sauces, plastic bags, wraps and containers and natural personal care products, primarily under the Clorox[®], Javex[®], Glad[®], PinoLuz[®], Ayudin[®], Limpido[®], Clorinda[®], Poett[®], Mistolin[®], Lestoil[®], Bon Bril[®], Brita[®], Green Works[®], Pine-Sol[®], Agua Jane[®], Chux[®], Kingsford[®], Fresh Step[®], Scoop Away[®], Ever Clean[®], KC Masterpiece[®], Hidden Valley[®] and Burt’s Bees[®] brands.

Certain non-allocated administrative costs, interest income, interest expense and various other non-operating income and expenses are reflected in Corporate. Corporate assets include cash and cash equivalents, property and equipment, other investments and deferred taxes.

The table below presents reportable segment information and a reconciliation of the segment information to the Company’s consolidated net sales and earnings from continuing operations before income taxes, with amounts that are not allocated to the reportable segments reflected in Corporate.

Total	\$ 217	\$ 226	\$ 632	\$ 621

All intersegment sales are eliminated and are not included in the Company’s reportable segments’ net sales.

Net sales to the Company’s largest customer, Wal-Mart Stores, Inc. and its affiliates, as a percentage of consolidated net sales, were 27% for each of the three months ended March 31, 2015 and 2014, and 26% for each of the nine months ended March 31, 2015 and 2014.

NOTE 13. FINANCIAL INSTRUMENTS AND FAIR VALUE MEASUREMENTS

Financial assets and liabilities measured at fair value on a recurring basis in the consolidated balance sheets are required to be classified and disclosed in one of the following fair value hierarchies:

Level 1: Quoted market prices in active markets for identical assets or liabilities.

Level 2: Observable market-based inputs or unobservable inputs that are corroborated by market data.

Level 3: Unobservable inputs reflecting the reporting entity's own assumptions.

As of March 31, 2015 and June 30, 2014, the Company's financial assets and liabilities that were measured at fair value on a recurring basis during the period included derivative financial instruments, which were all Level 2, and trust assets to fund certain of the Company's nonqualified deferred compensation plans, which were classified as Level 1.

Financial Risk Management and Derivative Instruments

The Company is exposed to certain commodity, interest rate and foreign currency risks related to its ongoing business operations and uses derivative instruments to mitigate its exposure to these risks.

Commodity Price Risk Management

The Company may use commodity exchange traded futures and over-the-counter swap contracts to fix the price of a portion of its forecasted raw material requirements. Contract maturities, which are generally no longer than 2 years, are matched to the length of the raw material purchase contracts. Commodity purchase contracts are measured at fair value using market quotations obtained from commodity derivative dealers.

As of March 31, 2015, the notional amount of commodity derivatives was \$56, of which \$30 related to jet fuel and \$26 related to soybean oil. As of June 30, 2014, the notional amount of commodity derivatives was \$36, of which \$19 related to jet fuel and \$17 related to soybean oil.

Interest Rate Risk Management

The Company may enter into over-the-counter interest rate forward contracts to fix a portion of the benchmark interest rate prior to the anticipated issuance of fixed rate debt. These interest rate forward contracts generally have durations of less than 12 months. The interest rate contracts are measured at fair value using information quoted by U.S. government bond dealers.

As of March 31, 2015 and June 30, 2014, the notional amounts of interest rate forward contracts were \$0 and \$288, respectively.

In December 2014, the Company paid \$25 to settle interest rate forward contracts related to the December 2014 issuance of \$500 in senior notes. The settlement payments are reflected as operating cash flows in the Condensed Consolidated Statements of Cash Flows for the nine months ended March 31, 2015. The loss is reflected in accumulated other comprehensive net loss on the Condensed Consolidated Balance Sheet as of March 31, 2015, and will be amortized into interest expense on the Condensed Consolidated Statement of Earnings and Comprehensive Income over the 10-year term of the notes.

Foreign Currency Risk Management

The Company may also enter into certain over-the-counter foreign currency-related derivative contracts to manage a portion of the Company's forecasted foreign currency exposure associated with the purchase of inventory and certain intercompany transactions. These foreign currency contracts generally have durations of no longer than 20 months. The foreign exchange contracts are measured at fair value using information quoted by foreign exchange dealers.

The notional amounts of outstanding foreign currency forward contracts used by the Company's subsidiaries in Canada, Australia and New Zealand to hedge forecasted purchases of inventory were \$83, \$42 and \$7, respectively, as of March 31, 2015, and \$54, \$28 and \$5, respectively, as of June 30, 2014.

NOTE 13. FINANCIAL INSTRUMENTS AND FAIR VALUE MEASUREMENTS (Continued)

Counterparty Risk Management and Broker Margin Requirements

The Company utilizes a variety of financial institutions as counterparties for over-the counter derivative instruments. The Company enters into agreements governing the use of over-the-counter derivative instruments and sets internal limits on the aggregate over-the-counter derivative instrument positions held with each counterparty. Certain terms of these agreements require the Company or the counterparty to post collateral when the fair value of the derivative instruments exceeds contractually defined counterparty liability position limits. Of the \$14 and \$17 of derivative instruments reflected in a liability position as of March 31, 2015 and June 30, 2014, respectively, \$6 and \$11, respectively, contained such terms. As of both March 31, 2015 and June 30, 2014, neither the Company nor any counterparty was required to post any collateral.

Certain terms of the agreements governing the Company's over-the-counter derivative instruments require the credit ratings, as assigned by Standard & Poor's and Moody's to the Company and its counterparties, to remain at a level equal to or better than the minimum of an investment grade credit rating. If the Company's credit ratings were to fall below investment grade, the counterparties to the derivative instruments could request full collateralization on derivative instruments in net liability positions.

As of both March 31, 2015 and June 30, 2014, the Company and each of its counterparties had been assigned investment grade ratings by both Standard & Poor's and Moody's.

Certain of the Company's exchange-traded futures contracts used for commodity price risk management include requirements for the Company to post collateral in the form of a cash margin account held by the Company's broker for trades conducted on that exchange. As of March 31, 2015 and June 30, 2014, the Company maintained cash margin balances related to exchange-traded futures contracts of \$4 and \$1, respectively, which are classified as other current assets on the Condensed Consolidated Balance Sheets.

Fair Value of Derivative Instruments

Derivatives

The accounting for changes in the fair value (i.e., gains or losses) of a derivative instrument depends on whether it has been designated and qualifies as an accounting hedge and, if so, on the type of hedging relationship. For those derivative instruments designated and qualifying as hedging instruments, the Company must designate the hedging instrument as a fair value hedge or a cash flow hedge. The Company designates its commodity forward and future contracts for forecasted purchases of raw materials, interest rate forward contracts for forecasted interest payments, and foreign currency forward contracts for forecasted purchases of inventory as cash flow hedges. During the three and nine months ended March 31, 2015 and 2014, the Company had no hedging instruments designated as fair value hedges.

Trust Assets

The Company has held mutual funds and cash equivalents as part of trusts related to certain of its nonqualified deferred compensation plans. The trusts represent variable interest entities for which the Company is considered the primary beneficiary, and therefore, trust assets are consolidated and included in other assets in the Condensed Consolidated Balance Sheets. The mutual funds are measured at fair value using quoted market prices. The Company has designated these marketable securities as trading investments. The participants in the deferred compensation plans may select among certain mutual funds in which their compensation deferrals are invested in accordance with the terms of the plans and within the confines of the trusts which hold the marketable securities.

Table of Contents

NOTE 13. FINANCIAL INSTRUMENTS AND FAIR VALUE MEASUREMENTS (Continued)

The Company's derivative instruments designated as hedging instruments and trust assets related to certain of the Company's nonqualified deferred compensation plans were recorded at fair value in the consolidated balance sheets as follows:

	Balance sheet classification	3/31/2015		6/30/2014	
		Level 1	Level 2	Level 1	Level 2
Assets					
Foreign exchange derivative contracts	Other current assets	\$ -	\$ 5	\$ -	\$ -
Commodity purchase derivative contracts	Other current assets	-	-	-	1
Trust assets for nonqualified deferred compensation plans	Other assets	37	-	31	-
		<u>\$ 37</u>	<u>\$ 5</u>	<u>\$ 31</u>	<u>\$ 1</u>
Liabilities					
Commodity purchase derivative contracts	Accrued liabilities	\$ -	\$ 11	\$ -	\$ 1
Interest rate derivative contracts	Accrued liabilities	-	-	-	13
Foreign exchange derivative contracts	Accrued liabilities	-	-	-	3
Commodity purchase derivative contracts	Other liabilities	-	3	-	-
		<u>\$ -</u>	<u>\$ 14</u>	<u>\$ -</u>	<u>\$ 17</u>

For derivative instruments designated and qualifying as cash flow hedges, the effective portion of gains or losses is reported as a component of other comprehensive loss and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings. The estimated amount of the existing net loss in accumulated other comprehensive net loss as of March 31, 2015, expected to be reclassified into earnings within the next 12 months is \$10. Gains and losses on derivative instruments representing either hedge ineffectiveness or hedge components excluded from the assessment of effectiveness are recognized in current earnings. During the three and nine months ended March 31, 2015 and 2014, hedge ineffectiveness was not significant. The Company de-designates cash flow hedge relationships whenever it determines that the hedge relationships are no longer highly effective or that the forecasted transaction is no longer probable. The portion of gains or losses on the derivative instrument previously accumulated in other comprehensive loss for de-designated hedges remains in accumulated other comprehensive net loss until the forecasted transaction is recognized in earnings, or is recognized in earnings immediately if the forecasted transaction is no longer probable.

Changes in the value of the trust assets related to certain of the Company's nonqualified deferred compensation plans were \$6 versus June 30, 2014, primarily due to current quarter employees' contributions to these plans.

NOTE 13. FINANCIAL INSTRUMENTS AND FAIR VALUE MEASUREMENTS (Continued)

The effects of derivative instruments designated as hedging instruments on OCI and the Condensed Consolidated Statements of Earnings and Comprehensive Income were as follows:

	Gain (loss) recognized in OCI			
	Three Months Ended		Nine Months Ended	
	3/31/2015	3/31/2014	3/31/2015	3/31/2014

Interest rate derivative contracts	-	(1)	(3)	(3)
Foreign exchange derivative contracts	-	1	-	3
Total	\$ (3)	\$ -	\$ (6)	\$ -

The gains reclassified from accumulated other comprehensive net loss and recognized in earnings during the three and nine months ended March 31, 2015 and 2014 for foreign exchange contracts were included in cost of products sold. The losses reclassified from accumulated other comprehensive net loss and recognized in earnings during the three and nine months ended March 31, 2015 and 2014 for interest rate contracts were included in interest expense.

Other Financial Instruments

The carrying values of cash and cash equivalents, accounts receivable, notes and loans payable and accounts payable approximated their estimated fair values as of March 31, 2015 and June 30, 2014, due to their generally short maturities. The estimated fair value of long-term debt, including current maturities, was \$2,190 and \$2,265 as of March 31, 2015 and June 30, 2014, respectively. The estimated fair value of long-term debt was determined using secondary market prices quoted by corporate bond dealers, and was classified as Level 2.

NOTE 14. SUBSEQUENT EVENTS

On April 30, 2015, a low-income housing partnership, in which the Company is a limited partner, sold its real estate holdings. The Company estimates that the real property sale and subsequent partnership dissolution will result in \$ 14 in cash proceeds from investing activities and a gain of \$ 13 that will be recorded to other income, net, on the consolidated statement of earnings for the year ended June 30, 2015. The sale is also expected to result in approximately \$8 of cash income tax payments that will be paid in the first quarter of fiscal year 2016 and reflected as operating activities in the Condensed Consolidated Statement of Cash Flows for the three months ended September 30, 2015.

**Item 2. Management's Discussion and Analysis of
Financial Condition and Results of Operations
The Clorox Company**

(Dollars in millions, except per share amounts)

Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) is designed to provide a reader of The Clorox Company's (the Company or Clorox) financial statements with a narrative from the perspective of management on the Company's financial condition, results of operations, liquidity and certain other factors that may affect future results. The following discussion of the Company's financial condition and results of operations should be read in conjunction with MD&A and the consolidated financial statements and related notes for the fiscal year ended June 30, 2014, which were filed with the Securities and Exchange Commission (SEC) on December 4, 2014, in Exhibit 99.2 of the Company's Current Report on Form 8-K, and the unaudited condensed consolidated financial statements and related notes contained in this Quarterly Report on Form 10-Q (this Report). Unless otherwise noted, MD&A compares the three and nine months ended March 31, 2015 (the current period) to the three and nine months ended March 31, 2014 (the prior period) using percentages and basis point changes calculated on a rounded basis.

Effective September 22, 2014, the Company's Venezuela affiliate, Corporación Clorox de Venezuela S.A. (Clorox Venezuela) discontinued its operations. Consequently, for the three and nine months ended March 31, 2015 and 2014, Clorox Venezuela is reflected as a discontinued operation in the Company's financial statements.

OVERVIEW

Clorox is a leading multinational manufacturer and marketer of consumer and professional products with approximately 7,700 employees worldwide. Clorox sells its products primarily through mass retail outlets, e-commerce channels, distributors and medical supply providers. Clorox markets some of the most trusted and recognized consumer brand names, including its namesake bleach and cleaning products, Kingsford[®] charcoal, Pine-Sol[®] cleaners, Poett[®] home care products, Fresh Step[®] cat litter, Glad[®] bags, wraps and containers, Hidden Valley[®] and KC Masterpiece[®] dressings and sauces, Brita[®] water-filtration products and Burt's Bees[®] natural personal care products. The Company also markets brands for professional services, including Clorox Healthcare[®] and Dispatch[®] infection control products for the healthcare industry. The Company manufactures products in more than a dozen countries and markets them in more than 100 countries.

The Company primarily markets its leading brands in midsized categories considered to be financially attractive. Most of the Company's products compete with other nationally advertised brands within each category and with "private label" brands.

The Company operates through strategic business units that are aggregated into four reportable segments: Cleaning, Household, Lifestyle and International.

- *Cleaning* consists of laundry, home care and professional products marketed and sold in the United States. Products within this segment include laundry additives, including bleach products under the Clorox[®] brand and Clorox 2[®] stain fighter and color booster; home care products, primarily under the Clorox[®], Formula 409[®], Liquid-Plumr[®], Pine-Sol[®], S.O.S[®] and Tilex[®] brands; naturally derived products under the Green Works[®] brand; and professional cleaning and disinfecting products under the Clorox[®], Dispatch[®], Aplicare[®], HealthLink[®] and Clorox Healthcare[®] brands.
- *Household* consists of charcoal, cat litter and plastic bags, wraps and container products marketed and sold in the United States. Products within this segment include plastic bags, wraps and containers under the Glad[®] brand; cat litter products under the Fresh Step[®], Scoop Away[®] and Ever Clean[®] brands; and charcoal products under the Kingsford[®] and Match Light[®] brands.

Table of Contents

- *Lifestyle* consists of food products, water-filtration systems and filters and natural personal care products marketed and sold in the United States. Products within this segment include dressings and sauces, primarily under the Hidden Valley[®], KC Masterpiece[®] and Soy Vay[®] brands; water-filtration systems and filters under the Brita[®] brand; and natural personal care products under the Burt's Bees[®] brand.
- *International* consists of products sold outside the United States. Products within this segment include laundry, home care, water-filtration, charcoal and cat litter products, dressings and sauces, plastic bags, wraps and containers and natural personal care products, primarily under the Clorox[®], Javex[®], Glad[®], PinoLuz[®], Ayudin[®], Limpido[®], Clorinda[®], Poett[®], Mistolin[®], Lestoil[®], Bon Bril[®], Brita[®], Green Works[®], Pine-Sol[®], Agua Jane[®], Chux[®], Kingsford[®], Fresh Step[®], Scoop Away[®], Ever Clean[®], KC Masterpiece[®], Hidden Valley[®] and Burt's Bees[®] brands.

Diluted net earnings per share from continuing operations decreased \$0.06, or 5%, in the current quarter, primarily due to higher expense for performance-based incentive compensation, higher manufacturing and logistics costs, increased investments in total demand-building programs, and the impact of unfavorable foreign currency exchange rates. These decreases were partially offset by higher sales as well as the benefits of cost savings and price increases.

Diluted net earnings per share from continuing operations increased \$0.04, or 1%, in the current nine month period, primarily due to higher sales and volume, as well as the benefits of cost savings and price increases, and a one-time benefit related to changes in the Company's long-term disability plan to bring it more in line with the marketplace. These increases were partially offset by higher expense for performance-based incentive compensation, increased investments in total demand-building programs and the impact of unfavorable foreign currency exchange rates.

Net sales and volume increased by 3% and 1%, respectively, in the current quarter. Net sales and volume each increased by 2% in the current nine month period.

The increase in volume in the current quarter was driven by growth in the Cleaning, Lifestyle, and International segments. Volume results reflected higher shipments of Kingsford[®] charcoal products behind increased merchandising support in anticipation of the grilling season, higher shipments of Clorox[®] disinfecting wipes reflecting increased merchandising driven by the flu season and innovation, and higher shipments of toilet cleaners. These increases were partially offset by lower shipments of Glad[®] products due to price increases, lower shipments of Greenworks[®] laundry detergent, lower shipments of Cat Litter largely due to continuing competitive activity, and lower shipments of Clorox[®] liquid bleach due to the recent price increase. Net sales growth was driven by the benefit of price increases, favorable mix and assortment, and higher volume; partially offset by unfavorable foreign currency exchange rates and increased trade promotion spending.

Table of Contents

The increase in volume in the current nine month period was driven by higher shipments of Burt's Bees[®] natural personal care products, largely due to innovation in lip and face care products combined with distribution gains; higher product shipments in the International segment, primarily due to growth in Latin America, Canada and Europe; higher shipments of Kingsford[®] charcoal products behind increased merchandising support to launch the start of the grilling season; higher shipments of cleaning and healthcare products in the Professional Products business, which were driven, in part, by Ebola and Enterovirus concerns in the second quarter of the fiscal year; and higher shipments of Clorox[®] toilet bowl cleaner due to increased merchandising activities and distribution gains. Volume results also reflected lower shipments of Greenworks[®] laundry detergent; lower shipments of Clorox[®] liquid bleach due to the recent price increase, category softness and increased competition; lower shipments of Glad[®] products due to pricing actions and increased competition; the distribution loss of Clorox[®] disinfecting wipes at a major club customer in calendar year 2014, partially offset by double-digit gains at other retailers; and lower shipments of Brita[®] water-filtration products, primarily due to lower merchandising support and increased competition. Net sales growth was driven by the benefit of price increases and higher volume, partially offset by unfavorable foreign currency exchange rates and higher trade promotion spending.

Gross margin percentage, defined as gross profit as a percentage of net sales, increased 110 basis points in the current quarter and increased 10 basis points in the current nine month period.

The increase in the current quarter was driven by the benefits of cost savings and price increases, as well as favorable mix and assortment and flat commodity costs. The increases were partially offset by higher manufacturing and logistics costs and higher expense for performance-based incentive compensation.

The increase in the current nine month period was driven by the benefits of cost savings and price increases, largely offset by higher manufacturing and logistics costs, higher expense for performance-based incentive compensation, higher commodity costs, higher trade promotion spending, and unfavorable foreign currency exchange rates.

Selling and administrative expenses increased by 16% in the current quarter, primarily due to higher expense for performance-based incentive compensation. In the current year, the Company anticipates that it will exceed its annual performance-based incentive targets; whereas, in the prior year, the Company fell significantly below these targets.

Selling and administrative expenses increased by 2% in the current nine month period due to higher expense for performance-based incentive compensation and continued inflationary pressures in international markets. These increases were partially offset by the benefit of cost savings, one-time costs in the year-ago period related to the change in information technology (IT) service providers, foreign currency exchange rates, and a one-time benefit related to a change in the Company's long-term disability plan to bring it more in line with the marketplace.

Advertising costs as a percentage of net sales increased 10 basis points in both the current quarter and nine month period, reflecting continued strong support behind the Company's brands, particularly to drive trial of new products. The Company's U.S. retail advertising spend was approximately 10% of sales in the current quarter.

Research and development costs as a percentage of net sales increased 40 basis points in the current quarter and increased 20 basis points in the current nine month period driven by higher accruals for performance-based incentive compensation.

Other income, net, was \$1 and \$0 in the current three and nine month periods, respectively, and \$2 and \$4 in the prior three and nine month periods, respectively.

Other income, net, in the current three month period included \$3 of income from equity investees, partially offset by \$2 of foreign currency exchange losses. Other income, net, in the current nine month period included \$11 of income from equity investees and \$3 of interest income, offset by \$8 of foreign currency exchange losses and \$6 of amortization of trademarks and other intangible assets.

Other income, net, in the prior three month period included \$3 of income from equity investees. Other income, net, in the prior nine month period included \$11 of income from equity investees, partially offset by \$6 of amortization of trademarks and other intangible assets.

The effective tax rate on earnings from continuing operations was 33.4% and 34.0% for the current three and nine month periods, respectively, and 33.2% and 34.3% for the prior three and nine month periods, respectively. The higher tax rate for the current three month period was primarily due to higher tax on foreign earnings. The lower tax rate for the current nine month period was primarily due to higher uncertain tax position releases.

DISCONTINUED OPERATIONS

Including fiscal year-to-date results, the Company believes it is reasonably possible that it will recognize \$60 to \$65 in after-tax exit costs and other related expenses in discontinued operations for Clorox Venezuela during fiscal year 2015, and \$10 to \$15 in fiscal years 2016 through 2018, for a total of \$70 to \$80 over the entire three year period. Of this total, the Company believes \$5 to \$10 will be after-tax cash expenditures. Further significant changes to the exchange rate used for financial reporting purposes, among many other external factors, could have a significant impact on the above estimated costs.

See Note 2 – Discontinued Operations to the Condensed Consolidated Financial Statements for more information regarding discontinued operations of Clorox Venezuela.

In the three months ended March 31, 2015, the Company recognized \$30 of previously unrecognized tax benefits relating to other discontinued operations upon the expiration of the applicable statute of limitations. Recognition of these previously disclosed tax benefits had no impact on the Company's cash flows or earnings from continuing operations for the three or nine months ended March 31, 2015.

SEGMENT RESULTS FROM CONTINUING OPERATIONS

The following sections present the results from operations of the Company's reportable segments:

Cleaning

	Three Months Ended			Nine Months Ended		
	3/31/2015	3/31/2014	% Change	3/31/2015	3/31/2014	% Change
Net sales	\$ 442	\$ 437	1%	\$ 1,359	\$ 1,348	1%
Earnings from continuing operations before income taxes	100	93	8	331	325	2

Volume, net sales, and earnings from continuing operations before income taxes increased by 1%, 1%, and 8%, respectively, in the current quarter. Both volume and sales grew primarily due to higher shipments in Home Care of both Clorox[®] disinfecting wipes, behind increased merchandising support and product innovation, and toilet cleaners. The increase is partially offset by lower shipments in Laundry of Greenworks[®] laundry detergent and Clorox[®] liquid bleach due to the impact of the recent price increase. The increase in earnings from continuing operations before income taxes was primarily driven by volume growth, the benefit of cost savings and price increases, partially offset by an increase in demand-building investments.

Volume, net sales, and earnings from continuing operations before income taxes increased by 1%, 1%, and 2%, respectively, in the current nine month period. Both volume and sales grew primarily due to higher shipments of Clorox[®] toilet bowl cleaner in Home Care. The Professional Products Division also grew volume, which was driven, in part, by Ebola and Enterovirus and concerns. The increase is partially offset by lower shipments of Clorox liquid bleach in Laundry, due mainly to category softness and continuing competitive activity. The increase in earnings from continuing operations before income taxes were driven by the benefit of cost savings and volume growth, partially offset by an increase in demand-building investments.

Table of Contents

Net sales and earnings from continuing operations before income taxes increased by 5% and 34%, respectively, in the current quarter, while volume remained flat. Volume was driven by higher shipments in Charcoal from increased merchandising support in anticipation of the grilling season, offset by lower shipments of Bags & Wraps, primarily due to the impact of price increases; and lower shipments of Cat Litter, largely due to continuing competitive activity. Net sales growth outpaced volume growth primarily due to the benefit of price increases in Bags & Wraps. The increase in earnings from continuing operations before income taxes was mainly due to higher sales, the benefits from cost savings and price increases, partially offset by higher logistics costs and an increase in demand-building investments.

Volume, net sales, and earnings from continuing operations before income taxes increased by 2%, 5%, and 21%, respectively, in the current nine month period. Volume grew primarily due to higher shipments in Charcoal from increased merchandising support in anticipation of the grilling season, partially offset by lower shipments of Bags & Wraps, primarily due to price increases. Net sales growth outpaced volume growth primarily due to the benefit of price increases. The increase in earnings from continuing operations before income taxes was primarily due to strong sales growth and the benefit of cost savings, partially offset by an increase in demand-building investments and higher commodity costs.

Lifestyle

	Three Months Ended			Nine Months Ended		
	3/31/2015	3/31/2014	% Change	3/31/2015	3/31/2014	% Change
Net sales	\$ 243	\$ 237	3%	\$ 705	\$ 692	2%
Earnings from continuing operations before income taxes	71	67	6	200	189	6

Volume, net sales, and earnings from continuing operations before income taxes increased 2%, 3%, and 6%, respectively, in the current quarter. Volume grew primarily due to higher shipments of Burt's Bees[®] natural personal care products, due to innovation in lip and face care products, and higher shipments of Hidden Valley[®] dry mixes and dips. These increases were partially offset by lower shipments of Brita[®] water-filtration products, primarily due to category softness and continued competitive activity. The increase in earnings from continuing operations before income taxes was driven by lower commodity costs, higher volume and the benefit of cost savings, partially offset by higher manufacturing and logistics costs and an increase in demand-building investments.

Volume, net sales, and earnings from continuing operations before income taxes increased by 2%, 2%, and 6%, respectively, in the current nine month period. Volume grew primarily due to high shipments of Burt's Bees[®] natural personal care products, due to innovation and distribution gain in lip and face care products, partially offset by lower shipments of Brita[®] water-filtration products, primarily due to category softness and continued competitive activity. The variance between net sales and volume was primarily due to unfavorable mix. The increase in earnings from continuing operations before income taxes was driven by lower commodity costs, cost savings and favorable mix. These increases were partially offset by higher manufacturing and logistics costs.

International

	Three Months Ended			Nine Months Ended		
	3/31/2015	3/31/2014	% Change	3/31/2015	3/31/2014	% Change
Net sales	\$ 265	\$ 264	-%	\$ 820	\$ 825	(1)%
Earnings from continuing operations before income taxes	17	23	(26)	67	87	(23)

Volume increased by 1% while net sales remained flat and earnings from continuing operations before income taxes decreased by 26% in the current quarter. Volume grew primarily due to higher shipments in Mexico and Canada, partially offset by lower shipments in Argentina and Asia. Volume growth outpaced net sales growth primarily due to unfavorable foreign currency exchange rates across most countries, partially offset by the benefit of price increases and favorable mix and assortment. The decrease in earnings from continuing operations before income taxes was primarily driven by the impact of higher selling and administrative expenses, driven by inflation and higher performance-based incentive compensation accruals; unfavorable foreign currency exchange rates; higher manufacturing and logistics costs; and higher commodity costs. These decreases were partially offset by the benefit of price increases, favorable mix and assortment and cost savings.

Table of Contents

Volume increased by 4% while net sales and earnings from continuing operations before income taxes decreased by 1% and 23%, respectively, in the current nine month period. Volume in the International segment grew in the current nine month period, driven by higher shipments in Latin America, Canada, and Europe. Volume growth outpaced net sales growth primarily due to unfavorable foreign currency exchange rates, partially offset by the benefit of price increases and favorable mix and assortment. The decrease in earnings from continuing operations before income taxes was primarily due to the impact of unfavorable foreign currency exchange rates. Additionally, the Company continued to face inflationary pressures in Latin America, which resulted in higher selling and administrative expenses and manufacturing and logistics costs. These decreases were partially offset by the benefit of price increases and higher volume.

Corporate

Certain non-allocated administrative costs, interest income, interest expense and various other non-operating income and expenses are reflected in Corporate. Corporate assets include cash and cash equivalents, property and equipment, other investments and deferred taxes.

	Three Months Ended			Nine Months Ended		
	3/31/2015	3/31/2014	% Change	3/31/2015	3/31/2014	% Change
Losses from continuing operations before income taxes	\$ 73	\$ 33	121%	\$ 171	\$ 149	15%

The increase in losses from continuing operations before income taxes attributable to Corporate in the current quarter was primarily due to higher performance-based incentive compensation expense. In the current year, the Company anticipates that it will exceed its annual performance-based incentive targets; whereas, in the prior year, the Company fell significantly below these targets.

The increase in losses from continuing operations before income taxes attributable to Corporate in the current nine month period was primarily due to higher performance-based incentive compensation expense and foreign currency exchange losses. These increases were partially offset by a one-time benefit related to a change in the Company's long-term disability plan to bring it more in line with the marketplace and one-time IT service provider transition costs in the prior period.

FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES

Operating Activities

The Company's financial condition and liquidity remain strong as of March 31, 2015. Net cash provided by continuing operations was \$481 in the current nine month period, compared with \$444 in the prior nine month period. Contributing factors include lower incentive compensation and tax payments in the current period, as well as the initial funding of the Company's non-qualified deferred compensation plan in the year-ago period. These benefits were partially offset by \$25 million in payments to settle interest-rate hedges related to the Company's issuance of long-term debt in December 2014. The company continues to use its cash flow to invest in its business, maintain debt leverage within its targeted range and return excess cash to stockholders through dividends and share repurchases. In the nine months ended March 31, 2015, the Company has repurchased about 1.5 million shares of its common stock at a cost of approximately \$158 million.

Investing Activities

Capital expenditures were \$83 in the current nine month period, compared with \$87 in the prior nine month period. Capital spending as a percentage of net sales was approximately 2% in both the current and prior periods, respectively, which was essentially flat due to capital spending for manufacturing efficiencies at the same level in each period.

Financing Activities

Net cash used for financing activities was \$348 in the current nine month period, compared with \$267 in the prior nine month period. The change was primarily due to the repayment of \$575 of long-term debt that matured in January 2015, partially off set by the issuance of \$500 of long-term debt in December 2014. The proceeds from the debt issuance in December were primarily used for the debt repayment in January.

Table of Contents

Share Repurchases and Dividends

The Company has two share repurchase programs: an open-market purchase program with an authorized aggregate purchase amount of up to \$750, all of which was available for share repurchases as of March 31, 2015, and a program to offset the impact of share dilution related to share-based awards (the Evergreen Program), which has no authorization limit as to amount or timing of repurchases.

During the current periods, the Company repurchased approximately 1.4 and 1.5 million shares, respectively, under its Evergreen Program, for an aggregate amount of \$150 and \$158, respectively. During the prior periods, the Company repurchased approximately 1.5 and 3.0 million shares, respectively, under its Evergreen Program, for an aggregate amount of \$130 and \$260, respectively. The Company did not repurchase any shares under the open-market purchase program during the current or prior periods.

During the current periods, the Company paid dividends per share of \$0.74 and \$2.22, respectively, equivalent to \$97 and \$288, respectively. During the prior periods, the Company paid dividends per share of \$0.71 and \$2.13, respectively, equivalent to \$93 and \$277, respectively.

Credit Arrangements

On October 1, 2014, the Company entered into a \$1,100 revolving credit agreement (the Credit Agreement), which expires in October 2019. This agreement replaced a prior \$1,100 revolving credit agreement in place since May 2012.

There were no borrowings under the Credit Agreement as of March 31, 2015, and the Company believes that borrowings under the Credit Agreement are and will continue to be available for general corporate purposes. The Credit Agreement includes certain restrictive covenants and limitations. The primary restrictive covenant is a maximum ratio of total debt to earnings before interest, taxes, depreciation and amortization and intangible asset impairment (Consolidated EBITDA) for the trailing four quarters (Consolidated Leverage ratio), as defined and described in the Credit Agreement, of 3.50.

The following table sets forth the calculation of the Consolidated Leverage ratio as of March 31, using Consolidated EBITDA for the trailing four quarters, as contractually defined:

	2015
Earnings from continuing operations	\$ 588
Add back:	
Interest expense	103
Income tax expense	307
Depreciation and amortization	172
Noncash intangible asset impairment charges	2
Deduct:	
Interest income	3
Consolidated EBITDA	<u>\$ 1,169</u>
Total debt	<u>\$ 2,166</u>
Consolidated Leverage ratio	<u>1.85</u>

The Company is in compliance with all restrictive covenants and limitations in the Credit Agreement as of March 31, 2015, and anticipates being in compliance with all restrictive covenants for the foreseeable future.

The Company had \$37 of foreign and other credit lines as of March 31, 2015; \$4 was outstanding and the remainder of \$33 was available for borrowing.

Except for historical information, matters discussed above, including statements about future volume, sales, costs, cost savings, earnings, cash flows, plans, objectives, expectations, growth, or profitability, are forward-looking statements based on management’s estimates, assumptions and projections. Words such as “could,” “may,” “expects,” “anticipates,” “targets,” “goals,” “projects,” “intends,” “plans,” “believes,” “seeks,” “estimates” and variations on such words, and similar expressions, are intended to identify such forward-looking statements. These forward-looking statements are only predictions, subject to risks and uncertainties, and actual results could differ materially from those discussed above. Important factors that could affect performance and cause results to differ materially from management’s expectations are described in the sections entitled “Risk Factors” in the Annual Report on Form 10-K for the fiscal year ended June 30, 2014, and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in Exhibit 99.2 of the Company’s Current Report on Form 8-K filed on December 4, 2014, as updated from time to time in the Company’s SEC filings. These factors include, but are not limited to:

- risks related to international operations, including political instability; government-imposed price controls or other regulations; foreign currency exchange rate controls, including periodic changes in such controls, fluctuations and devaluations; labor unrest and inflationary pressures, particularly in Argentina and other challenging markets;
- risks related to the possibility of nationalization, expropriation of assets or other government action in foreign jurisdictions;
- risks related to the Company’s discontinuation of operations in Venezuela;
- intense competition in the Company’s markets;
- changes in the Company’s leadership;
- worldwide, regional and local economic conditions and financial market volatility;
- volatility and increases in commodity costs such as resin, sodium hypochlorite and agricultural commodities, and increases in energy, transportation or other costs;
- the ability of the Company to drive sales growth, increase price and market share, grow its product categories and achieve favorable product and geographic mix;
- dependence on key customers and risks related to customer consolidation and ordering patterns;
- costs resulting from government regulations;
- the ability of the Company to successfully manage global political, legal, tax and regulatory risks, including changes in regulatory or administrative activity;
- supply disruptions and other risks inherent in reliance on a limited base of suppliers;
- the ability of the Company to implement and generate anticipated cost savings and efficiencies;
- the success of the Company’s business strategies;
- the impact of product liability claims, labor claims and other legal proceedings, including in foreign jurisdictions and the Company’s litigation related to its discontinued operations in Brazil;
- the ability of the Company to develop and introduce commercially successful products;
- risks relating to acquisitions, new ventures and divestitures, and associated costs, including the potential for asset impairment charges related to, among others, intangible assets and goodwill;
- risks related to reliance on information technology systems, including potential security breaches, cyber attacks or privacy breaches that result in the unauthorized disclosure of consumer, customer, employee or Company information, or service interruptions;
- the Company’s ability to attract and retain key personnel;
- the Company’s ability to maintain its business reputation and the reputation of its brands;
- environmental matters, including costs associated with the remediation of past contamination and the handling and/or transportation of hazardous substances;
- the impact of natural disasters, terrorism and other events beyond the Company’s control;
- the Company’s ability to maximize, assert and defend its intellectual property rights;
- any infringement or claimed infringement by the Company of third-party intellectual property rights;
- the effect of the Company’s indebtedness and credit rating on its operations and financial results;
- the Company’s ability to maintain an effective system of internal controls;
- uncertainties relating to tax positions, tax disputes and changes in the Company’s tax rate;

Table of Contents

- the accuracy of the Company's estimates and assumptions on which its financial statement projections are based;
- the Company's ability to pay and declare dividends or repurchase its stock in the future; and
- the impacts of potential stockholder activism.

The Company's forward-looking statements in this Report are based on management's current views and assumptions regarding future events and speak only as of their dates. The Company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by the federal securities laws.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have not been any material changes to the Company's market risk since June 30, 2014. For additional information, refer to "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in Exhibit 99.2 of the Company's Current Report on Form 8-K filed on December 4, 2014.

Item 4. Controls and Procedures

The Company's management, with the participation of the Company's chief executive officer and chief financial officer, evaluated the effectiveness of the Company's disclosure controls and procedures as of the end of the period covered by this Report. Based on that evaluation, the chief executive officer and chief financial officer concluded that the Company's disclosure controls and procedures, as of the end of the period covered by this Report, were effective such that the information required to be disclosed by the Company in reports filed under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and (ii) accumulated and communicated to management, including the chief executive officer and chief financial officer, as appropriate to allow timely decisions regarding disclosure.

No change in the Company's internal control over financial reporting occurred during the third fiscal quarter of the fiscal year ending June 30, 2015, that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1.A. Risk Factors

For information regarding Risk Factors, please refer to Item 1.A. in the Company’s Annual Report on Form 10-K for the fiscal year ended June 30, 2014, and the information in “Cautionary Statement” included in this Report.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table sets forth the purchases of the Company’s securities by the Company and any affiliated purchasers within the meaning of Rule 10b-18(a)(3) (17 CFR 240.10b-18(a)(3)) during the third quarter of fiscal year 2015.

Period	[a] Total Number of Shares Purchased ⁽¹⁾	[b] Average Price Paid per Share	[c] Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	[d] Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs ⁽²⁾
January 1 to 31, 2015	-	\$ -	-	\$ 750,000,000
February 1 to 28, 2015	-	\$ -	-	\$ 750,000,000
March 1 to 31, 2015	1,371,965	\$ 109.33	1,371,965	\$ 750,000,000
Total	<u>1,371,965</u>	<u>\$ 109.33</u>	<u>1,371,965</u>	

(1) All of the shares purchased in March 2015 were acquired pursuant to the Company’s program to offset the potential impact of share dilution related to stock-based awards.

(2) On May 13, 2013, the Company’s board of directors approved a share repurchase program authorizing up to \$750 million in share repurchases. As of March 31, 2015, all of the \$750 million remained available for repurchases. Since 1999, the Company has also had a share repurchase program, the purpose of which is to offset the impact of stock dilution related to share-based awards. On November 15, 2005, the board of directors approved the extension of the program, which has no specified cap. Neither of these programs has a specified termination date.

CERTIFICATION

I, Benno Dorer, certify that:

1. I have reviewed this quarterly report on Form 10-Q of The Clorox Company;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
