PART I
ITEM 1. BUSINESS

(a) GENERAL DEVELOPMENT OF BUSINESS.

The Company (the term "Company" as used herein includes the registrant identified on the facing sheet, The Clorox Company, and its subsidiaries, unless the context indicates otherwise) was originally founded in Oakland, California in 1913 as the Electro-Alkaline Company. It was reincorporated as Clorox Chemical Corporation in 1922, as Clorox Chemical Co. in 1928, and as The Clorox Company (an Ohio corporation) in 1957, when the business was acquired by The Procter & Gamble Company.

The Company was fully divested by The Procter & Gamble Company in 1969 and, as an independent company, was reincorporated in 1973 in California as The Clorox Company. In 1986, the Company was reincorporated in Delaware.

During fiscal year 1999, the Company continued its strategy of considering strategic acquisitions or mergers and, in that regard, merged with First Brands Corporation ("First Brands") on January 29, 1999. Following the merger, the Company focused on the integration of the First Brands businesses, including Glad plastic wrap, food storage bags and containers, and trash bags; STP automotive additives; and Jonny Cat and Scoop Away cat litter products. Prior to the merger with the Company, First Brands acquired the Handi Wipes reusable cleaning cloth and Wash 'n Dri premoistened towelettes businesses during fiscal year 1999. The Company also continued to expand its domestic business, through internal development of new products and line extensions of existing products.

The Company introduced 25 new products in the United States during fiscal year 1999, including Clorox Advantage liquid bleach, Clorox FreshCare fabric refresher, Fresh Mist Tilex Fresh
Shower daily shower cleaner, Brita faucet-mounted water filters, and others.

Internationally, the Company continued implementing its strategy to expand its laundry, household cleaning and insecticide businesses in markets where these categories are not yet fully developed, but where it believes high potential exists. The Company made three international acquisitions in fiscal year 1999, consisting of the Homekeeper insecticide business in the Republic of Korea, the Gumption household cleaning business in Australia, and the Mistolin line of cleaners in Venezuela. The Company also increased its equity ownership in its Colombian joint venture company, Tecnoclor S.A., by 12%. The First Brands merger increased the Company's international businesses, especially in Canada, Australia and New Zealand. In addition, the Company introduced 60 new products or line extensions in previously established international operations, including the launch of Clorox liquid bleach in Brazil.

For other recent business developments, refer to the information set forth under the caption "Management's Discussion and Analysis," on pages B-1 through B-7 of Appendix B of the Company's definitive Proxy Statement for the 1999 Annual Meeting of Stockholders of the Company, which will be filed with the United States Securities and Exchange Commission within 120 days after the end of the registrant's fiscal year ended June 30, 1999 ("Proxy Statement"), incorporated herein by reference.

(b) FINANCIAL INFORMATION ABOUT INDUSTRY SEGMENTS.

The Company has four business segments: U.S. Home Care and Cleaning, U.S. Specialty Products, U.S. Food, Food Preparation and Storage, and International. Financial information for the last three fiscal years, including net sales, earnings before
taxes, and identifiable assets, attributable to each of the
Company's industry segments is set forth in Note 19 - Segment
Information of the Notes to the Consolidated Financial Statements,
which appears on pages B-28 and B-29 of Appendix B of the Proxy
Statement, incorporated herein by reference.

All share numbers and stock prices in this Form 10-K give effect
to the 2-for-1 stock split declared July 20, 1999, effected in
the form of a stock dividend paid August 23, 1999 on all shares
of common stock outstanding as of the close of business on July 30,
1999. All financial information included herein has been restated
to give effect to the First Brands merger accounted for as a
pooling of interests.

(c) NARRATIVE DESCRIPTION OF BUSINESS.

The Company's business operations, represented by the aggregate
of its U.S. Home Care and Cleaning, U.S. Specialty Products, U.S.
Food, Food Preparation and Storage, and International segments,
include the production and marketing of non-durable consumer
products sold primarily through grocery and other retail stores.
For the most part, the factors necessary for an understanding of
these four segments are essentially the same.

PRINCIPAL PRODUCTS. The U.S. Home Care and Cleaning segment
includes the Company's household cleaning, bleach and other
home care products, as well as the Company's professional
products business. The U.S. Specialty Products segment
includes the Company's charcoal, automotive care, cat litter,
insecticide and firelog categories. The U.S. Food, Food
Preparation and Storage segment includes the Company's dressings,
sauces, Brita, Glad, and GladWare businesses. Finally, the
International segment, which includes the Company's overseas
operations, exports and Puerto Rico, primarily focuses on the
laundry, household cleaning and insecticide categories.

Principal products, by segment, currently marketed in the
United States and internationally are listed on pages 34 and 35
of the Company's 1999 Annual Report ("Annual Report"), incorporated
herein by reference. Each of the Company's segments accounted
for more than 10 percent of the Company's consolidated revenues
during the last three fiscal years, as shown in Note 19 Segment
Information of the Notes to the Consolidated Financial Statements,
which appears on pages B-28 and B-29 of Appendix B of the Proxy
Statement, incorporated herein by reference.

**PRINCIPAL MARKETS - METHODS OF DISTRIBUTION.** Most non-durable
household consumer products are nationally advertised and sold
within the United States to grocery stores through a network of
brokers, and to mass merchandisers, warehouse clubs, military
and other retail stores primarily through a direct sales force.
The Company also sells within the United States institutional
versions of specialty food and non-food products. Outside the
United States, the Company sells consumer products through
subsidiaries, licensees, distributors and joint-venture arrangements
with local partners.

**SOURCES AND AVAILABILITY OF RAW MATERIALS.** The Company has
obtained
ample supplies of all required raw materials and packaging supplies
which, with a few exceptions, were available from a wide variety
of sources during fiscal year 1999. Polyethylene resin raw materials,
which are particularly important for the U.S. Food, Food Preparation
and Storage Products segment, were available from a wide variety
of sources during fiscal year 1999 and the Company has entered
into financial instruments with various maturities partially to
stabilize the cost of its polyethylene resin requirements.
Contingency plans have been developed for any single-sourced
supplier materials.

PATENTS AND TRADEMARKS. Although some products are covered by
patents, the Company does not believe that patents, patent
licenses or similar arrangements are material to its business.

Most of the Company's brand name consumer products are protected
by registered trademarks. Its brand names and trademarks are
extremely important to its business and the Company pursues
a course of vigorous action against apparent infringements.

SEASONALITY. The U.S. Specialty Products segment is the only
portion of the operations of the Company that has any significant
degree of seasonality. Most sales of the Company's charcoal
briquets, insecticides, and automotive appearance product lines
occur in the first six months of each calendar year. Working
capital to carry inventories built up in the off-season and to
extend terms to customers is generally provided by internally
generated funds plus commercial paper lines of credit.

CUSTOMERS AND ORDER BACKLOG. During fiscal years 1999, 1998 and
1997, revenues from the Company's sales of its products to Wal-Mart
Stores, Inc. and its affiliated companies were 18%, 15%, and 14%,
respectively, of the Company's consolidated net sales. Except for
this relationship, the Company is not dependent upon any other
single customer or a small group of customers. Order backlog is
not a significant factor in the Company's business.

RENEGOTIATION. None of the Company's operations is subject to
renegotiation or termination at the election of the Federal government.

COMPETITION. The markets for consumer products are highly
competitive and most of the Company's products compete with other
nationally advertised brands within each category, and with
"private label" brands and "generic" non-branded products of
grocery chains and wholesale cooperatives. Competition is encountered from similar and alternative products, many of which are produced and marketed by major national concerns having financial resources greater than those of the Company. Depending on the competitive product, the Company's products compete on price, quality or other benefits to consumers.

A newly introduced consumer product (whether improved or newly developed) usually encounters intense competition requiring substantial expenditures for advertising and sales promotion. If a product gains consumer acceptance, it normally requires continuing advertising and promotional support to maintain its relative market position.

RESEARCH AND DEVELOPMENT. The Company incurred expenses of approximately $62 million, $61 million and $56 million in fiscal years 1999, 1998 and 1997, respectively, on research activities relating to the development of new products or the maintenance and improvement of existing products. None of such research activity was customer-sponsored.

ENVIRONMENTAL MATTERS. Historically, the Company has not made material capital expenditures for environmental control facilities or to comply with environmental laws and regulations. However, in general, the Company does anticipate spending increasing amounts annually for facility upgrades and for environmental programs. The amount of capital expenditures for environmental compliance was not material in fiscal year 1999 and is not expected to be material in the next fiscal year.

The Company is involved in certain other environmental matters, including Superfund clean-up efforts at various locations. The potential cost to the Company related to ongoing environmental matters is uncertain due to such factors as: the unknown magnitude
of possible pollution and clean-up costs; the complexity and
evolving nature of laws and regulations and their interpretations;
and the timing, varying costs and effectiveness of alternative
clean-up technologies. Based on its experience and without
offsetting for expected insurance recoveries or discounting for
present value, the Company does not expect that such costs
individually and in the aggregate will represent a material cost
to the Company or affect its competitive position.

NUMBER OF PERSONS EMPLOYED. At the end of fiscal year 1999,

approximately 11,000 people were employed by the Company.

FORWARD-LOOKING STATEMENTS AND RISK FACTORS. Except for
historical
information, matters discussed in this Form 10-K, including the
Management's Discussion and Analysis and statements about
future growth, are forward-looking statements based on
management's estimates, assumptions and projections. In
addition, from time to time, the Company may make forward-looking
statements relating to such matters as anticipated financial
performance, business prospects, new products, research and
development activities, plans for international expansion,
acquisitions, and similar matters. The Private Securities
Litigation Reform Act of 1995 provides a safe harbor for
forward-looking statements. In order to comply with the terms
of the safe harbor, the Company notes that a variety of factors
could cause the Company's actual results and experience to
differ materially from the anticipated results or other
expectations expressed in the Company's forward-looking
statements. These forward-looking statements are uncertain.
The risks and uncertainties that may affect operations,
performance, product development, and results of the Company's
FLUCTUATIONS IN QUARTERLY OPERATING RESULTS COULD ADVERSELY AFFECT STOCK PRICE. The Company cannot be sure that its quarter-to-quarter operating results will improve, or that if any improvement is shown, the degree of improvement will meet expectations of investors. In addition, sales volume growth, whether due to acquisitions or to internal growth, can place burdens on the Company's management resources and financial controls that, in turn, can have a negative impact on operating results. To some extent, the Company sets its expense levels in anticipation of future revenues. If actual revenue falls short of these expectations, operating results are likely to be adversely affected. Because of all of these factors, the Company believes that quarter-to-quarter comparisons of its results of operations should not be relied upon as indications of future performance.

The price of the Company's common stock could fluctuate substantially and decrease as a result of several factors, including:

* future announcements concerning the Company or its competitors;
* quarterly variations in operating results;
* the introduction of new products and line extensions by the Company or its competitors;
* changes in product pricing policies by the Company or its competitors;
* acquisition costs and restructuring and other charges associated with acquisitions;
In addition, stock markets have experienced price and volume volatility and such volatility in the future could have an adverse impact on the Company's market price.

**INTERNATIONAL OPERATIONS EXPOSE THE COMPANY TO UNCERTAIN CONDITIONS IN OVERSEAS MARKETS.** The Company believes that its international sales, which were 18% of net sales in fiscal year 1999, are likely to increase as a percentage of its total sales, because of both internal expansion and the addition of First Brands international operations. As a result, the Company will increasingly face the risks created by having foreign operations, including:

* economic or political instability in its overseas markets; and
* fluctuations in foreign currency exchange rates that may make the Company's products more expensive in its foreign markets or negatively impact its sales or earnings.

All of these risks could have a significant impact on the Company's ability to sell its products on a timely and competitive basis in foreign markets and may have a material adverse effect on the Company's results of operations or financial position.

The Company seeks to limit its foreign currency exchange risks through the use of foreign currency forward contracts when practical, but cannot be sure that this strategy will be successful. In addition, the Company's international operations are subject to the risk of new and different legal and regulatory requirements in local jurisdictions, potential...
difficulties in staffing and managing local operations, credit
risk of local customers and distributors, and potentially
adverse tax consequences.

**INTEGRATION OF ACQUISITIONS AND MERGERS MAY NOT BE SUCCESSFUL.**

One of the Company's strategies is to increase its sales volumes,
earnings and the markets it serves through the acquisition of,
or merger with, other businesses in the United States and
internationally. There can be no assurance that the Company
will be able to identify, acquire, or profitably manage
additional companies or operations or successfully integrate
recent or future acquisitions or mergers, including the First
Brands businesses, into its operations. In addition, there
can be no assurance that companies or operations acquired will
be profitable at the time of their acquisition or will achieve
sales levels and profitability that justify the investment made,
including the investment in First Brands.

**FINANCIAL PERFORMANCE DEPENDS ON CONTINUOUS AND SUCCESSFUL NEW
PRODUCT INTRODUCTIONS.** In most categories in which the Company
competes, there are frequent introductions of new products and
line extensions. An important factor in the Company's future
performance will be its ability to identify emerging consumer
and technological trends and to maintain and improve the
competitiveness of its products. The Company cannot be sure
that it will successfully achieve those goals. Continued product
development and marketing efforts have all the risks inherent
in the development of new products and line extensions, including
development delays, the failure of new products and line extensions
to achieve anticipated levels of market acceptance, and the cost
of failed product introductions.

**GOVERNMENT REGULATIONS COULD IMPOSE MATERIAL COSTS.** The
manufacture, packaging, storage, distribution and labeling of the
Company's products and the Company's business operations generally
all must comply with extensive federal, state, and foreign laws
and regulations. For example, in the United States, many of the
Company's products are regulated by the Environmental Protection
Agency, the Food and Drug Administration, and the Consumer Product
Safety Commission. Most states have agencies that regulate in
parallel to these federal agencies. The failure to comply
with applicable laws and regulations in these or other areas,
including taxes, could subject the Company to civil remedies,
including fines, injunctions, recalls or asset seizures, as
well as potential criminal sanctions, any of which could
have a material adverse effect on the Company. Loss of or
failure to obtain necessary permits and registrations could
delay or prevent the Company from introducing new products,
building new facilities or acquiring new businesses and could
adversely affect operating results.

ENVIRONMENTAL MATTERS CREATE POTENTIAL LIABILITY RISKS. The
Company must comply with various environmental laws and
regulations in the jurisdictions in which it operates, including
those relating to air emissions, water discharges, the handling
and disposal of solid and hazardous wastes, and the remediation
of contamination associated with the use and disposal of
hazardous substances. The Company has incurred, and will
continue to incur, capital and operating expenditures and
other costs in complying with those laws and regulations in
the United States and internationally. The Company is
currently involved in or has potential liability with respect
to the remediation of past contamination in the operation of
some of its presently and formerly owned and leased facilities.
In addition, some of the Company's present and former facilities have been or had been in operation for many years, and over that time, some of these facilities may have used substances or generated and disposed of wastes that are or may be considered hazardous. It is possible that those sites, as well as disposal sites owned by third parties to which the Company has sent waste, may in the future be identified and become the subject of remediation. It is possible that the Company could become subject to additional environmental liabilities in the future that could result in a material adverse effect on the Company's results of operations or financial condition.

**FAILURE TO PROTECT OUR INTELLECTUAL PROPERTY COULD IMPACT OUR COMPETITIVENESS.** The Company relies on trademark, trade secret, patent and copyright laws to protect its intellectual property. The Company cannot be sure that these intellectual property rights can be successfully asserted in the future or will not be invalidated, circumvented or challenged. In addition, laws of some of the foreign countries in which the Company's products are or may be sold do not protect the Company's intellectual property rights to the same extent as the laws of the United States. The failure of the Company to protect its proprietary information and any successful intellectual property challenges or infringement proceedings against the Company could make it less competitive and could have a material adverse effect on the Company's business, operating results and financial condition.

(d) **FINANCIAL INFORMATION ABOUT FOREIGN AND DOMESTIC OPERATIONS AND EXPORT SALES.**

Net sales, pretax earnings and identifiable assets related to foreign operations (including Puerto Rico and exports) for each of the last three fiscal years is included in the
ITEM 2. PROPERTIES

PRODUCTION FACILITIES. The Company operates production and major warehouse facilities for its operations in 29 locations throughout the United States, and its subsidiaries operate production facilities in 24 locations internationally. Most of the space is owned. Some space, mainly for warehousing, is leased. The Company also leases six domestic regional distribution centers for the Company's products which are operated by service providers. None of the Company's facilities were closed during fiscal year 1999, and one former production facility, in Kansas City, Missouri, was sold. The Company acquired property adjacent to its production facility in Fairfield, California, for warehousing space during fiscal year 1999. The Company considers its manufacturing and warehousing facilities to be adequate to support its business.

OFFICES AND R&D FACILITIES. The Company owns its general office building located in Oakland, California. The Company also owns its Technical Center and Data Center located in Pleasanton, California. The Company leases its research and development center and its engineering research facility for Glad and GladWare products, which are located in Willowbrook, Illinois, and Kennesaw, Georgia, respectively. The Company also leases its research and development center for STP products located in Brookfield, Connecticut. The Company plans to close the leased First Brands general office building and to sublease such space in the near future. Leased sales and other office facilities
are located at a number of manufacturing and other locations.

ENCUMBRANCES. None of the Company’s owned facilities are encumbered to secure debt owed by the Company, except that the manufacturing facility in Belle, Missouri, secures industrial revenue bond indebtedness incurred in relation to the construction or upgrade thereof.

ITEM 3. LEGAL PROCEEDINGS

None.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

None.
