NOTE 1. INTERIM FINANCIAL STATEMENTS

Basis of Presentation

The unaudited interim condensed consolidated financial statements for the three and six months ended December 31, 2009 and 2008, in the opinion of management, reflect all adjustments (consisting of normal recurring accruals) necessary for a fair presentation of the consolidated results of operations, financial position and cash flows of The Clorox Company and its subsidiaries (the Company) for the periods presented. Certain prior period amounts have been reclassified in the condensed consolidated financial statements to conform to the current period presentation. The results for the interim period ended December 31, 2009, are not necessarily indicative of the results that may be expected for the fiscal year ending June 30, 2010, or for any future period. The Company's condensed consolidated financial statements were evaluated for subsequent events after the balance sheet date through February 5, 2010, the date the consolidated financial statements were issued.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) have been omitted or condensed pursuant to the rules and regulations of the Securities and Exchange Commission (the SEC). The information in this report should be read in conjunction with the Company's Annual Report on Form 10-K filed with the SEC for the fiscal year ended June 30, 2009, which includes a complete set of footnote disclosures, including the Company's significant accounting policies.

Use of Estimates

The preparation of condensed consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect reported amounts and related disclosures. Actual results could differ materially from estimates and assumptions made.

Foreign Currency Translation

Prior to December 31, 2009, the Company translated its Venezuelan subsidiary's financial statements using Venezuela's official exchange rate, which had been fixed by the Venezuelan government at 2.15 Bolivar Fuertes (VEF) to the U.S. dollar. However, the Company's access to the official exchange rate has become increasingly limited due to delays in obtaining U.S. dollars through the government sponsored currency exchange process at the official exchange rate and the removal of some products from the official list of items that may be imported at the official exchange rate. This has led to the substantial use of the parallel market currency exchange rate to convert VEFs to U.S. dollars to pay for certain imported inventory purchases. The parallel market currency exchange rate represents the rates negotiated with local financial intermediaries. Due to these circumstances, effective December 31, 2009, the Company began translating its Venezuelan subsidiary's financial statements using the parallel market currency exchange rate, the rate at which the Company expects to be able to remit dividends or return capital. The rate used at December 31, 2009, was 5.87 VEF to the U.S. dollar. On a pre-tax basis, the translation resulted in a remeasurement loss of \$12.

During the three and six months ended December 31, 2009, net sales in Venezuela were approximately 3% of total Company net sales. As of December 31, 2009, total assets in Venezuela were approximately 1% of total Company assets.

Effective January 1, 2010, according to U.S. GAAP, Venezuela has been designated as a hyper-inflationary economy. A hyper-inflationary economy designation occurs when a country has experienced cumulative inflation of approximately 100 percent or more over a 3 year period. The hyper-inflationary designation requires the local subsidiary in Venezuela to record all transactions as if they were denominated in U.S. dollars. Bolivar denominated monetary assets will be remeasured at the parallel market currency rate and will be recognized in earnings rather than in currency translation adjustment on the balance sheet.

New Accounting Pronouncements

Recently adopted pronouncements

On July 1, 2009, the Company adopted a new accounting standard which provides that unvested share-based payment awards that contain nonforfeitable rights to dividends or dividend equivalents, whether paid or unpaid, are participating securities that must be included in the computation of earnings per share pursuant to the two-class method. These payment awards were previously not considered participating securities. Accordingly, the Company's unvested performance units, restricted stock awards and restricted stock units that provide such nonforfeitable rights are now considered participating securities in the calculation of net earnings per share (EPS). The Company's share-based payment awards granted in fiscal year 2010 are not participating securities. The new standard requires the retrospective adjustment of the Company's earnings per share data. The impact of the retrospective adoption of the new accounting standard on the fiscal year 2009 reported EPS data was as follows:

	Basic		Diluted	
	As previously reported	As restated	As previously reported	As restated
Three months ended December 31, 2008	\$ 0.62	\$ 0.62	\$ 0.62	\$ 0.61
Six months ended December 31, 2008	1.55	1.53	1.52	1.51
Three months ended March 31, 2009	1.09	1.08	1.08	1.08
Nine months ended March 31, 2009	2.64	2.61	2.60	2.59
Three months ended June 30, 2009	1.22	1.21	1.20	1.20
Year ended June 30, 2009	3.86	3.82	3.81	3.79

The calculation of EPS under the new accounting standard is disclosed in Note 7.

On July 1, 2009, the Company adopted a new accounting standard which establishes principles and requirements for how the acquirer of a business recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, including contingent liabilities, and any noncontrolling interest in an acquired business. The new accounting standard also provides for recognizing and measuring the goodwill acquired in a business combination and requires disclosure of information to enable users of the financial statements to evaluate the nature and financial effects of the business combination. The adoption of the new accounting standard had no impact on the condensed consolidated financial statements.

On July 1, 2009, the Company adopted a new accounting standard which establishes new accounting and reporting standards for the noncontrolling interest in a subsidiary (previously referred to as minority interest) and for the deconsolidation of a subsidiary. The new standard establishes accounting and reporting standards that require the noncontrolling interest to be reported as a component of equity. Changes in a parent's ownership interest while the parent retains its controlling interest will be accounted for as equity transactions and any retained noncontrolling equity investment upon the deconsolidation of a subsidiary will be initially measured at fair value. The adoption of the new accounting standard had no material impact on the condensed consolidated financial statements.

NOTE 1. INTERIM FINANCIAL STATEMENTS (Continued)

On July 1, 2009, the Company adopted a new accounting standard which requires disclosures about fair value of financial instruments in interim financial information (See Note 3). The Company already complies with the provisions of this accounting standard for its annual reporting.

On July 1, 2009, the Company adopted the provisions of the accounting standard on fair value measurements that apply to nonfinancial assets and liabilities that are recognized or disclosed at fair value on a non-recurring basis. The adoption of these provisions did not have an impact on the condensed consolidated financial statements.

On September 30, 2009, the Company adopted the Financial Accounting Standards Board (FASB) Accounting Standards Codification (the Codification). The Codification is the single official source of authoritative U.S. GAAP (other than the SEC's views), superseding all other accounting literature except that issued by the SEC. The adoption of the Codification had no impact on the condensed consolidated balance sheets, statements of operations or cash flows.

Pronouncements to be adopted

On December 30, 2008, the FASB issued an accounting standard that will require additional disclosures about the major categories of plan assets and concentrations of risk for an employer's plan assets of a defined benefit pension or other postretirement plan, as well as disclosure of fair value levels, similar to the disclosure requirements of the fair value measurements accounting standard. This standard is effective for fiscal years ending after December 15, 2009, with early application permitted. The Company will provide these enhanced disclosures about plan assets in its 2010 Annual Report on Form 10-K.

In January 2010, the FASB issued an accounting standard update (ASU) to Fair Value Measurements and Disclosures. This ASU requires some new disclosures and clarifies existing disclosure requirements about fair value measurement. Specifically, the Company will be required to disclose separately the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements and to also describe the reasons for the transfers. This ASU is applicable for the Company beginning in its fiscal 2010 third quarter. The Company does not expect the adoption of this ASU to have a material impact on its consolidated financial statements disclosures.

NOTE 2. RESTRUCTURING

In fiscal year 2008, the Company began a restructuring plan that involves simplifying its supply chain and other restructuring activities (Supply Chain and Other restructuring plan), which was subsequently expanded to include additional costs, primarily severance, associated with the Company's plan to reduce certain staffing levels. The Company anticipates the Supply Chain and Other restructuring plan will be completed in fiscal year 2012.

The following table summarizes restructuring costs associated with the Company's Supply Chain and Other restructuring plan by affected reportable segment, with unallocated amounts set forth in Corporate:

	Three Months Ended		Six Months Ended	
	12/31/2009	12/31/2008	12/31/2009	12/31/2008

NOTE 2. RESTRUCTURING (Continued)

For the three months ended December 31, 2009, the Company recognized in cost of products sold restructuring-related costs associated with the Supply Chain and Other restructuring plan of \$4. For the six months ended December 31, 2009, the Company recognized restructuring-related costs associated with the Supply Chain and Other restructuring plan of \$1 and \$7, included in selling and administrative expenses and cost of products sold, respectively.

For the three and six months ended December 31, 2008, the Company recognized in cost of products sold restructuring-related costs associated with the Supply Chain and Other restructuring plan of \$2 and \$7, respectively.

The following table summarizes restructuring-related costs associated with the Company's Supply Chain and Other restructuring plan by affected reportable segment, with unallocated amounts set forth in Corporate:

	Three Months Ended		Six Months Ended	
	12/31/2009	12/31/2008	12/31/2009	12/31/2008

Household	2	-	3	3
International	-	-	-	1
Corporate	1	-	2	-
Total Company	<u>\$ 4</u>	<u>\$ 2</u>	<u>\$ 8</u>	<u>\$ 7</u>

Total costs associated with the Supply Chain and Other restructuring plan since inception through December 31, 2009, were \$110, of which \$34, \$43, \$12 and \$21 related to the Cleaning, Household, International segments and Corporate, respectively.

The Company anticipates incurring approximately \$18 to \$25 of Supply Chain and Other restructuring-related charges in fiscal year 2010, of which approximately \$2 are expected to be noncash related. The Company anticipates approximately \$5 to \$8 of the fiscal year 2010 charges to be in Corporate and \$9 to \$11 to be in the Cleaning segment, of which approximately \$7 to \$9 are expected to be recognized as cost of products sold charges. The remaining estimated charges of \$4 to \$6 are expected to be recognized as cost of products sold in the Household segment. The total anticipated charges related to the Supply Chain and Other restructuring plan for the fiscal years 2011 and 2012 are estimated to be approximately \$10 to \$12.

NOTE 2. RESTRUCTURING (Continued)

The following table reconciles the accrual for the Supply Chain and Other restructuring charges discussed above:

	<u>Severance</u>	<u>Accumulated Depreciation</u>	<u>Other</u>	<u>Total</u>

The Company may, from time to time, decide to pursue additional restructuring-related initiatives that involve charges in future periods.

NOTE 3. FINANCIAL INSTRUMENTS AND FAIR VALUE MEASUREMENTS

The Company is exposed to certain commodity and foreign currency risks relating to its ongoing business operations. The Company uses commodity futures and fixed price swap contracts to fix the price of a portion of its forecasted raw material requirements. Contract maturities, which are generally no longer than 18 months, are matched to the length of the raw material purchase contracts. The Company also enters into certain foreign currency related derivative contracts to manage a portion of the Company's foreign exchange risk associated with the purchase of inventory. These foreign currency contracts generally have durations no longer than 12 months.

The accounting for changes in the fair value (i.e., gains or losses) of a derivative instrument depends on whether it has been designated and qualifies as a hedge, and on the type of the hedging relationship. For those derivative instruments designated and qualifying as hedging instruments, the Company must designate the hedging instrument as a fair value hedge or a cash flow hedge. The Company designates as cash flow hedges, commodity forward and future contracts of forecasted purchases for raw materials and foreign currency forward contracts of forecasted purchases of inventory. During the three and six months ended December 31, 2009, the Company had no hedging instruments designated as a fair value hedge.

For derivative instruments designated and qualifying as a cash flow hedge, the effective portion of the gain or loss on the derivative is reported as a component of other comprehensive income (OCI) and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings. The estimated amount of the existing net gain at the reporting date expected to be reclassified into earnings within the next 12 months is \$3. Gains and losses on the derivative instruments representing either hedge ineffectiveness or hedge components excluded from the assessment of effectiveness are recognized in current earnings. During the three and six month periods ended December 31, 2009, the hedge ineffectiveness was not material.

[Table of Contents](#)

NOTE 3. FINANCIAL INSTRUMENTS AND FAIR VALUE MEASUREMENTS (Continued)

The Company's derivative financial instruments designated as hedging instruments are recorded at fair value in the condensed consolidated balance sheet as follows:

	Balance Sheet location	Fair value	
		12/31/2009	6/30/2009
Assets			
Commodity purchase contracts	Other current assets	\$ 7	\$ 6
Liabilities			
Foreign exchange contracts	Accrued liabilities	\$ (1)	\$ -
Commodity purchase contracts	Accrued liabilities	(3)	(21)
		\$ (4)	\$ (21)

The effects of derivative instruments on OCI and on the statement of earnings were as follows:

Cash flow hedges	Three months ended 12/31/2009		Six months ended 12/31/2009	
	Gain recognized in OCI	Loss reclassified from OCI and recognized in earnings	Gain (Loss) recognized in OCI	Loss reclassified from OCI and recognized in earnings
Commodity purchase contracts	\$ 12	\$ (7)	\$ 18	\$ (17)
Foreign exchange contracts	-	(1)	(1)	(2)
Total	\$ 12	\$ (8)	\$ 17	\$ (19)

The losses reclassified from OCI and recognized in earnings during the three and six month periods ended December 31, 2009, are included in cost of products sold.

As of December 31, 2009, the net notional value of commodity derivatives was \$83, of which \$52 related to diesel fuel, \$16 related to jet fuel, \$13 related to soybean oil and \$2 related to unleaded gas.

As of December 31, 2009, the Company had outstanding foreign currency forward contracts used to hedge forecasted purchases of inventory of \$36 and \$8 related to its subsidiaries in Canada and Australia, respectively.

Table of Contents

NOTE 3. FINANCIAL INSTRUMENTS AND FAIR VALUE MEASUREMENTS (Continued)

Certain terms of the agreements governing the Company's over-the-counter derivative instruments require the Company or the counterparty to post collateral when the fair value of the derivative instruments exceeds contractually defined counterparty liability position limits. There was no collateral posted at December 31, 2009.

Certain terms of the agreements governing the over-the-counter derivative instruments contain provisions that require the credit ratings, as assigned by Standard and Poor's and Moody's to the Company and its counterparties, to remain at a level equal to or better than the minimum of an investment grade credit rating. As of December 31, 2009, the Company and each of its counterparties maintained investment grade ratings with both Standard and Poor's and Moody's.

U.S. GAAP prioritizes the inputs used in measuring fair value into the following hierarchy:

Level 1: Quoted market prices in active markets for identical assets or liabilities.

Level 2: Observable market-based inputs or unobservable inputs that are corroborated by market data.

Level 3: Unobservable inputs reflecting the reporting entity's own assumptions.

At December 31, 2009, the Company's financial assets and liabilities that were measured at fair value on a recurring basis during the year were level 2 commodity purchase contracts with a fair value of \$7 (included in other current assets), and commodity purchase and foreign exchange contracts with a fair value of \$3 and \$1, respectively, (included in accrued liabilities).

Commodity purchase contracts are fair valued using market quotations obtained off of the New York Mercantile Exchange.

The foreign exchange contracts are fair valued using foreign exchange rates and forward points quoted by foreign exchange dealers.

The carrying values of cash and cash equivalents, accounts receivable, accounts payable and notes and loans payable approximate their fair values at December 31, 2009 and June 30, 2009, due to the short maturity and nature of those balances. The estimated fair value of long-term debt, including current maturities, was \$3,155 and \$2,816 at December 31, 2009 and June 30, 2009, respectively. The Company accounts for its long-term debt at face value, net of any unamortized discounts or premiums. The fair value of long-term debt was determined using secondary market prices quoted by corporate bond dealers.

NOTE 6. DEBT

In November 2009, the Company issued \$300 of long-term debt in senior notes. The notes carry an annual fixed interest rate of 3.55% payable semi-annually in May and November. The notes mature on November 1, 2015. Proceeds from the notes were used to retire commercial paper. The notes rank equally with all of the Company's existing and future senior indebtedness.

NOTE 7. NET EARNINGS PER SHARE

The Company computes EPS using the two-class method (See Note 1), which is an earnings allocation formula that determines EPS for common stock and participating securities.

EPS for common stock is computed by dividing net earnings applicable to common stock by the weighted average number of common shares outstanding each period on an unrounded basis. Net earnings applicable to common stock includes dividends paid to common shareholders during the period plus a proportionate share of undistributed net earnings which is based on the weighted average number of shares of common stock and participating securities outstanding during the period.

Diluted EPS for common stock reflects the earnings dilution that could occur from common shares that may be issued through stock options, restricted stock awards, performance units and restricted stock units, that are not participating securities. Excluded from this calculation are amounts allocated to participating securities.

The following are reconciliations of net earnings to net earnings applicable to common stock, and the number of common shares outstanding (in thousands) used to calculate basic EPS to those used to calculate diluted EPS:

	<u>Three Months Ended</u>		<u>Six Months Ended</u>

During the three and six months ended December 31, 2009, the Company did not include stock options to purchase 4,126 thousand and 4,150 thousand shares, respectively, of the Company's common stock, in the calculations of diluted EPS because their inclusion would be anti-dilutive.

During the three and six months ended December 31, 2008, the Company did not include stock options to purchase 5,000 thousand of the Company's common stock, in the calculations of diluted EPS because their inclusion would be anti-dilutive.

During the three and six months ended December 31, 2009, the Company issued 450 thousand and 1,312 thousand shares, respectively, of the Company's common stock.

During the three and six months ended December 31, 2008, the Company issued 325 thousand and 1,180 thousand shares, respectively, of the Company's common stock.

The Company did not repurchase any shares during the three and six months ended December 31, 2009 and 2008.

NOTE 8. COMPREHENSIVE INCOME (LOSS)

Comprehensive income (loss) includes net earnings and certain adjustments that are excluded from net earnings, but included as a separate component of stockholders' equity (deficit), net of tax. Comprehensive income (loss) was as follows:

NOTE 9. INCOME TAXES

In determining its quarterly provision for income taxes, the Company uses an estimated annual effective tax rate, which is based on expected annual income, statutory tax rates and tax planning opportunities available in the various jurisdictions in which the Company operates. Certain significant or unusual items are separately recognized in the quarter in which they occur and can be a source of variability in the effective tax rates from quarter to quarter.

As of December 31, 2009 and June 30, 2009, the total amount of unrecognized tax benefits was \$86 and \$98, respectively, of which \$86 and \$91, respectively, would reduce income tax expense and the effective tax rate if recognized.

The Company recognizes interest and penalties related to uncertain tax positions as a component of income tax expense. As of December 31, 2009 and June 30, 2009, the total balance of accrued interest and penalties related to uncertain tax positions was \$20 and \$17, respectively. Interest and penalties included in income tax expense were \$2 and \$5 for the three and six months ended December 31, 2009, and \$1 and \$(1) for the three and six months ended December 31, 2008, respectively.

The Company files income tax returns in the U.S. federal and various state, local and foreign jurisdictions. Certain issues relating to 2003, 2004 and 2006 are under review by the IRS Appeals Division. The Company made payments of tax and interest to the IRS related to fiscal years 2004 and 2006 in the first quarter of fiscal year 2010 of \$8. No tax benefits had previously been recognized for these payments. Various income tax returns in state and foreign jurisdictions are currently in the process of examination.

In the twelve months succeeding December 31, 2009, audit resolutions could potentially reduce total unrecognized tax benefits by up to \$26, primarily as a result of cash settlement payments. Audit outcomes and the timing of audit settlements are subject to significant uncertainty.

During its first quarter of fiscal year 2010, the Company made a \$33 discretionary contribution to the U.S. pension plan. Based on current pension funding rules, the Company is not required to make any contributions in fiscal year 2010.

NOTE 11. CONTINGENCIES

The Company is involved in certain environmental matters, including Superfund and other response actions at various locations. The Company has a recorded liability of \$18 and \$19 at December 31, 2009 and June 30, 2009, respectively, for its share of the related aggregate future remediation cost. One matter in Dickinson County, Michigan, for which the Company is jointly and severally liable, accounts for a substantial majority of the recorded liability at both December 31, 2009 and June 30, 2009. The Company is subject to a cost-sharing arrangement with Ford Motor Co. (Ford) for this matter, under which the Company has agreed to be liable for 24.3% of the aggregate remediation and associated costs, other than legal fees, as the Company and Ford are each responsible for their own such fees. If Ford is unable to pay its share of the response and remediation obligations, the Company would likely be responsible for such obligations. In October 2004, the Company and Ford agreed to a consent judgment with the Michigan Department of Environmental Quality, which sets forth certain remediation goals and monitoring activities. Based on the current status of this matter, and with the assistance of environmental consultants, the Company maintains an undiscounted liability representing its best estimate of its share of costs associated with the capital expenditures, maintenance and other costs to be incurred over an estimated 30-year remediation period. The most significant components of the liability relate to the estimated costs associated with the remediation of groundwater contamination and excess levels of subterranean methane deposits. The Company made payments of less than \$1 during each of the three and six months ended December 31, 2009 and 2008, towards remediation efforts. Currently, the Company cannot accurately predict the timing of the payments that will likely be made under this estimated obligation. In addition, the Company's estimated loss exposure is sensitive to a variety of uncertain factors, including the efficacy of remediation efforts, changes in remediation requirements and the timing, varying costs and alternative clean-up technologies that may become available in the future. Although it is possible that the Company's exposure may exceed the amount recorded, any amount of such additional exposures, or range of exposures, is not estimable at this time.

The Company is subject to various other lawsuits and claims relating to issues such as contract disputes, product liability, patents and trademarks, advertising, employee and other matters. Although the results of claims and litigation cannot be predicted with certainty, it is the opinion of management that the ultimate disposition of these matters, to the extent not previously provided for, will not have a material adverse effect, individually or in the aggregate, on the Company's consolidated financial statements taken as a whole.

NOTE 12. SEGMENT RESULTS

The Company operates through strategic business units which are aggregated into four reportable segments: Cleaning, Household, Lifestyle and International. The four reportable segments consist of the following:

- Cleaning consists of laundry, home-care, professional products and auto-care products marketed and sold in the United States. Products within this segment include laundry additives, including bleaches, under the Clorox[®] and Clorox 2[®] brands; home-care products, primarily under the Clorox[®], Formula 409[®], Liquid-Plumr[®], Pine-Sol[®], S.O.S[®] and Tilex[®] brands; natural cleaning and laundry products under the Green Works[™] brand; and auto-care products primarily under the Armor All[®] and STP[®] brands.
- Household consists of charcoal, cat litter and plastic bags, wraps and container products marketed and sold in the United States. Products within this segment include plastic bags, wraps and containers, under the Glad[®] brand; cat litter products, under the Fresh Step[®], Scoop Away[®] and Ever Clean[®] brands; and charcoal products under the Kingsford[®] and Match Light[®] brands.
- Lifestyle consists of food products and water-filtration systems and filters marketed and sold in the United States and all natural personal care products. Products within this segment include dressings and sauces, primarily under the Hidden Valley[®] and K C Masterpiece[®] brands, water-filtration systems and filters under the Brita[®] brand; and all natural personal care products under the Burt's Bees[®] brand.
- International consists of products sold outside the United States, excluding natural personal care products.

Corporate includes certain nonallocated administrative costs, interest income, interest expense and certain other nonoperating income and expenses. Corporate assets include cash and cash equivalents, the Company's headquarters and research and development facilities, information systems hardware and software, pension balances, and other investments.

The table below presents reportable segment information and a reconciliation of the segment information to the Company's net sales and earnings before income taxes, with amounts that are not allocated to the operating segments shown as Corporate.

Net sales to the Company's largest customer, Wal-Mart Stores, Inc. and its affiliates, were 26% of consolidated net sales for the three and six months ended December 31, 2009 and 2008.

NOTE 13. SUBSEQUENT EVENTS

In January 2010, the Company acquired the assets of Caltech Industries, a company which provides disinfectants for the health care industry, for an aggregate price of \$23, with the objective of expanding the Company's capabilities in the areas of health and wellness. In connection with the purchase, the Company acquired Caltech Industries' facility and its employees. The transaction was structured as an all cash acquisition.

Overview

The Clorox Company (the Company or Clorox) is a leading manufacturer and marketer of consumer products. The Company sells its products primarily through mass merchandisers, grocery stores and other retail outlets. Clorox markets some of consumers’ most trusted and recognized brand names, including its namesake bleach and cleaning products, Green Works™ natural cleaners and laundry products, Poett® and Mistolín® cleaning products, Armor All® and STP® auto-care products, Fresh Step® and Scoop Away® cat litter, Kingsford® charcoal, Hidden Valley® and K C Masterpiece® dressings and sauces, Brita® water-filtration systems, Glad® bags, wraps and containers, and Burt’s Bees® natural personal care products. With approximately 8,300 employees worldwide, the Company manufactures products in more than two dozen countries and markets them in more than 100 countries.

The Company operates through strategic business units which are aggregated into four reportable segments: Cleaning, Household, Lifestyle and International. The four reportable segments consist of the following:

- Cleaning consists of laundry, home-care, professional products and auto-care products marketed and sold in the United States. Products within this segment include laundry additives, including bleaches, under the Clorox® and Clorox 2® brands; home-care products, primarily under the Clorox®, Formula 409®, Liquid-Plumr®, Pine-Sol®, S.O.S® and Tilex® brands; natural cleaning and laundry products under the Green Works™ brand; and auto-care products primarily under the Armor All® and STP® brands.
- Household consists of charcoal, cat litter and plastic bags, wraps and container products marketed and sold in the United States. Products within this segment include plastic bags, wraps and containers, under the Glad® brand; cat litter products, under the Fresh Step®, Scoop Away® and Ever Clean® brands; and charcoal products under the Kingsford® and Match Light® brands.
- Lifestyle consists of food products and water-filtration systems and filters marketed and sold in the United States and all natural personal care products. Products within this segment include dressings and sauces, primarily under the Hidden Valley® and K C Masterpiece® brands, water-filtration systems and filters under the Brita® brand; and all natural personal care products under the Burt’s Bees® brand.
- International consists of products sold outside the United States, excluding natural personal care products.

Corporate includes certain nonallocated administrative costs, interest income, interest expense and certain other nonoperating income and expenses. Corporate assets include cash and cash equivalents, the Company’s headquarters and research and development facilities, information systems hardware and software, pension balances, and other investments.

The Company primarily markets its leading brands in midsized categories considered to have attractive economic profit potential. Most of the Company’s products compete with other nationally-advertised brands within each category and with “private-label” brands.

Table of Contents

The Company reported net earnings of \$110 and \$267 and diluted net earnings per share of \$0.77 and \$1.88 for the three and six months ended December 31, 2009, respectively. This compares to net earnings of \$86 and \$214 and diluted net earnings per share of \$0.61 and \$1.51 for the three and six months ended December 31, 2008, respectively. Restructuring-related charges were \$0.03 and \$0.06 per diluted share for the three and six months ended December 31, 2009, respectively, and \$0.01 and \$0.04 per diluted share for the three and six months ended December 31, 2008, respectively (See “Restructuring costs” below). The impact of foreign currency losses was \$0.09 and \$0.13 per diluted share for the three and six months ended December 31, 2009, respectively, and \$0.01 and \$0.02 per diluted share for the three and six months ended December 31, 2008, of, respectively. The foreign currency losses during the three months ended December 31, 2009, include \$0.06 per diluted share in currency translation losses for the remeasurement of U.S. dollar denominated assets and liabilities in Venezuela (See “Operating Activities” below).

The following discussion of the Company’s financial condition and results of operations should be read in conjunction with the Management’s Discussion and Analysis of Financial Condition and Results of Operations and Consolidated Financial Statements and related notes included in our Annual Report on Form 10-K for the fiscal year ended June 30, 2009, which was filed with the Securities and Exchange Commission (SEC) on August 25, 2009, and the unaudited Condensed Consolidated Financial Statements and related notes contained in this quarterly report on Form 10-Q.

Results of Operations

Management’s Discussion and Analysis of the Results of Operations, unless otherwise noted, compares the three and six months ended December 31, 2009 (the current periods), to the three and six months ended December 31, 2008 (the prior periods), using percentages calculated on a rounded basis, except as noted.

	Three Months Ended			% of Net Sales	
	12/31/2009	12/31/2008	% Change	12/31/2009	12/31/2008
Diluted net earnings per share	\$ 0.77	\$ 0.61	26%		
Net sales	\$ 1,279	\$ 1,216	5%	100.0%	100.0%
Gross profit	561	486	15	43.9	40.0
Selling and administrative expenses	187	172	9	14.6	14.1
Advertising costs	127	107	19	9.9	8.8
Research and development costs	29	27	7	2.3	2.2

	Six Months Ended			% of Net Sales	
	12/31/2009	12/31/2008	% Change	12/31/2009	12/31/2008
Diluted net earnings per share	\$ 1.88	\$ 1.51	25%		
Net sales	\$ 2,651	\$ 2,600	2%	100.0%	100.0%
Gross profit	1,180	1,048	13	44.5	40.3
Selling and administrative expenses	362	356	2	13.7	13.7
Advertising costs	254	226	12	9.6	8.7
Research and development costs	56	54	4	2.1	2.1

Diluted net earnings per share increased \$0.16 and \$0.37 in the current periods, respectively, compared to the prior periods primarily due to favorable commodity costs, cost savings, price increases, and lower interest expense. These increases were partially offset by increased advertising costs, unfavorable product mix, increased manufacturing and logistics costs and increased foreign currency losses attributable to the Company’s operations in Venezuela (See “Operating Activities” below).

Table of Contents

Net sales and volume increased in the current periods as compared to the prior periods. Volume growth of 5% for the current quarter was primarily driven by increased shipments of disinfecting products due to the H1N1 flu pandemic. Also contributing to the increase in shipments were Brita[®] water-filtration products. Partially offsetting these volume increases were lower shipments of Glad[®] products primarily due to competitive activity in the trash bag category.

Volume growth of 3% during the six months ended December 31, 2009, was primarily driven by increased shipments of disinfecting products due to the H1N1 flu pandemic. Also contributing to the increase were higher shipments of Hidden Valley[®] salad dressing and Brita[®] water-filtration products. Partially offsetting these volume increases were lower shipments of Glad[®] products primarily due to competitive activity in the trash bag category and the exit from a private-label food bags business.

Gross profit increased in the current periods as compared to the prior periods. Gross margin expansion in the current quarter reflects approximately 300 basis points due to favorable commodity costs, 160 basis points from cost savings and 80 basis points from pricing. These factors were partially offset by 80 basis points and 60 basis points from increased manufacturing and logistics costs and trade promotion spending, respectively.

Gross margin expansion for the six months ended December 31, 2009, reflects approximately 270 basis points due to favorable commodity costs, 160 basis points from cost savings and 130 basis points from pricing. These factors were partially offset by approximately 60 basis points from increased manufacturing and logistics costs.

Selling and administrative expenses increased in the current periods as compared to the prior periods, primarily due to higher legal costs partially offset primarily by lower consulting spending and lower incentive compensation accruals in the prior period.

Advertising costs increased in the current periods as compared to the prior periods. The increase for the current periods was primarily due to higher spending to support new product launches for International and Burt's Bees[®] natural personal care products, continued support of Hidden Valley[®] and higher spending to support Glad[®] premium trash bags. Also contributing to the increase in the six months ended December 31, 2009, was higher spending to support the new product launch for Green Works[™] natural laundry detergent.

Research and development costs remained relatively unchanged in comparison to the prior periods as the Company continues to support its new products and established brands.

Restructuring costs in the current and prior periods relate to the Company's Supply Chain and Other restructuring initiative. In fiscal year 2008, the Company began a restructuring plan that involves simplifying its supply chain and other restructuring activities (Supply Chain and Other restructuring plan), which was subsequently expanded to include additional costs, primarily severance, associated with the Company's plan to reduce certain staffing levels. The Company anticipates the Supply Chain restructuring will be completed in fiscal year 2012.

Table of Contents

The following table summarizes restructuring costs associated with the Company's Supply Chain and Other restructuring plan by affected reportable segment, with unallocated amounts set forth in Corporate:

	Three Months Ended		Six Months Ended	
	12/31/2009	12/31/2008	12/31/2009	12/31/2008
Cleaning	\$ 2	\$ 1	\$ 2	\$ 2
Corporate	-	-	2	-
Total Company	\$ 2	\$ 1	\$ 4	\$ 2

For the three months ended December 31, 2009, the Company recognized in cost of products sold restructuring-related costs associated with the Supply Chain and Other restructuring plan of \$4. For the six months ended December 31, 2009, the Company recognized restructuring-related costs associated with the Supply Chain and Other restructuring plan of \$1 and \$7, included in selling and administrative expenses and cost of products sold, respectively.

For the three and six months ended December 31, 2008, the Company recognized in cost of products sold restructuring-related costs associated with the Supply Chain and Other restructuring plan of \$2 and \$7, respectively.

The following table summarizes restructuring-related costs associated with the Company's Supply Chain and Other restructuring plan by affected reportable segment, with unallocated amounts set forth in Corporate:

	Three Months Ended		Six Months Ended	
	12/31/2009	12/31/2008	12/31/2009	12/31/2008

Household	2	-	3	3
International	-	-	-	1
Corporate	1	-	2	-
Total Company	\$ 4	\$ 2	\$ 8	\$ 7

Total costs associated with the Supply Chain and Other restructuring plan since inception through December 31, 2009, were \$110, of which \$34, \$43, \$12 and \$21 related to the Cleaning, Household, International segments and Corporate, respectively.

The Company anticipates incurring approximately \$18 to \$25 of Supply Chain and Other restructuring-related charges in fiscal year 2010, of which approximately \$2 are expected to be noncash related. The Company anticipates approximately \$5 to \$8 of the fiscal year 2010 charges to be in Corporate and \$9 to \$11 to be in the Cleaning segment, of which approximately \$7 to \$9 are expected to be recognized as cost of products sold charges. The remaining estimated charges of \$4 to \$6 are expected to be recognized as cost of products sold in the Household segment. The total anticipated charges related to the Supply Chain and Other restructuring plan for the fiscal years 2011 and 2012 are estimated to be approximately \$10 to \$12.

Table of Contents

The following table reconciles the accrual for the Supply Chain and Other restructuring charges discussed above:

	<u>Severance</u>	<u>Accumulated Depreciation</u>	<u>Other</u>	<u>Total</u>
Accrual Balance as of June 30, 2009	\$ 15	\$ -	\$ -	\$ 15
Charges	2	2	2	6

Charges against assets	-	(1)	-	(1)
Accrual Balance as of December 31, 2009	<u>\$ 9</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 9</u>

The Company may, from time to time, decide to pursue additional restructuring-related initiatives that involve charges in future periods.

Interest expense decreased by \$7 and \$13, respectively, in the current periods, primarily due to a decline in average debt balances and a lower weighted average interest rate for total debt.

Other expense, net increased \$12 and \$17, respectively, in the current periods, primarily from translating the Venezuelan subsidiary's financial statements using the parallel exchange rate. The translation resulted in a remeasurement loss of \$12 (See "Operating Activities" below).

The effective tax rate was 32.7% and 34.4% for the current periods, respectively, as compared to 33.9% and 32.5% for the prior periods, respectively, on an unrounded basis. The lower rate in the current quarter was primarily due to lower foreign tax expense, partially offset by higher valuation allowances in the current quarter and favorable tax settlements in the year-ago period. The lower rate in the prior year-to-date period was primarily the result of favorable tax settlements in the prior period.

SEGMENT RESULTS

The following presents the results of operations from the Company's reportable segments excluding certain unallocated costs included in Corporate:

CLEANING

	<u>Three Months Ended</u>			<u>Six Months Ended</u>		
	<u>12/31/2009</u>	<u>12/31/2008</u>	<u>% Change</u>	<u>12/31/2009</u>	<u>12/31/2008</u>	<u>% Change</u>
Net sales	\$ 424	\$ 413	3%	\$ 927	\$ 900	3%
Earnings before income taxes	85	78	9%	222	193	15%

Table of Contents

Net sales, volume and earnings before income taxes increased in the current periods as compared to the year-ago periods. Volume growth of 8% in the current quarter and 6% during the six months ended December 31, 2009, was primarily driven by increased shipments of disinfecting products to meet demand associated with the H1N1 flu pandemic and increased shipments of Clorox[®] toilet bathroom cleaners. During the current quarter there were also increased shipments of Armor All[®] auto-care products, partially offset by lower shipments of Tilex[®]. During the six months ended December 31, 2009, the volume increases were partially offset by category softness in the auto category.

Volume growth outpaced net sales growth in both periods primarily due to unfavorable product mix (approximately 330 basis points and 200 basis points, respectively) and higher trade-promotion spending (approximately 200 basis points and 100 basis points, respectively).

The increase in earnings before income taxes in both periods was primarily due to higher net sales and lower commodity costs of \$13 and \$22, primarily resin, and cost savings of \$6 and \$14, respectively, including more efficient sourcing of raw materials and transportation costs, the implementation of cost-effective packaging, including a concentrated formulation of Clorox 2[®] stain fighter and color booster and packaging simplification. During the six months ended December 31, 2009, the increase in earnings before income taxes also reflects the benefit of price increases of \$7.

HOUSEHOLD

	Three Months Ended			Six Months Ended		
	12/31/2009	12/31/2008	% Change	12/31/2009	12/31/2008	% Change
Net sales	\$ 334	\$ 354	(6)%	\$ 715	\$ 781	(8)%
Earnings before income taxes	27	27	-%	82	88	(7)%

Net sales declined while volume and earnings before income taxes were flat during the current quarter, as compared to the year-ago quarter. For the six months ended December 31, 2009, net sales, volume and earnings before income taxes declined as compared to the year-ago period.

Volume in the current quarter was primarily driven by higher shipments of Fresh Step[®] scoopable cat litter and Glad[®] trash bags, offset by lower shipments of Glad[®] food storage products primarily due to competitive activity.

Volume decline of 4% during the six months ended December 31, 2009, was primarily driven by lower shipments of Glad[®] products primarily due to category softness, competitive activity and the company's exit from its private label food bags business, partially offset by increased shipments of Fresh Step[®] cat litter.

The variance between changes in volume and sales during the three and six months ended December 31, 2009, was primarily due to price declines on Glad[®] trash bags in the previous fiscal year to bring the pricing in line with resin costs, which have dropped below year-ago levels (approximately 470 basis points and 250 basis points, respectively).

Table of Contents

Earnings before income taxes for the current quarter reflect the impact of lower sales of Glad[®] products and higher advertising of \$7 in response to competitive activity partially offset by lower commodity costs of \$17, primarily resin, and cost savings of \$7 primarily associated with the Company's diversification of its supplier base and various manufacturing efficiencies.

The decline in earnings before income taxes for the six months ended December 31, 2009, was primarily driven by lower sales of Glad[®] products and higher advertising of \$11 partially offset by lower commodity costs of \$35 and cost savings of \$14, primarily associated with the Company's diversification of its supplier base and various manufacturing efficiencies.

Net sales	\$ 212	\$ 193	10%	\$ 412	\$ 387	6%
Earnings before income taxes	78	67	16%	144	123	17%

Net sales, volume and earnings before income taxes increased in the current periods as compared to the year-ago periods. Volume growth of 12% in the current quarter and 8% during the six months ended December 31, 2009, was primarily driven by increased shipments of Brita[®] water-filtration products and Hidden Valley[®] salad dressing. During the current quarter there were also increased shipments of Burt's Bees[®] natural personal care products.

Volume growth outpaced net sales growth in both periods primarily due to increased trade-promotion spending (approximately 130 basis points and 70 basis points, respectively) and unfavorable product mix (approximately 110 basis points and 140 basis points, respectively).

The increase in earnings before income taxes in both periods was primarily due to higher net sales and lower commodity costs of \$6 and \$10, respectively.

Net sales, volume and earnings before income taxes increased in the current periods as compared to the year-ago periods. Volume growth of 1% in the current quarter and 2% during the six months ended December 31, 2009, was primarily driven by increased shipments of bleach and other disinfecting products in Latin America due to increased demand as a result of the H1N1 flu pandemic.

Net sales growth outpaced volume growth in the current quarter primarily due to price increases (approximately 1,040 basis points) and the impact of favorable foreign exchange rates (approximately 770 basis points). Net sales growth outpaced volume growth during the six months ended December 31, 2009, primarily due to price increases (approximately 1,070 basis points).

Table of Contents

The increase in earnings before income taxes for the current period was primarily due to increased sales . This was partially offset by a foreign currency loss of \$12 from remeasuring Venezuela's net monetary USD-denominated liabilities using the parallel market exchange rate, foreign currency transaction losses of \$7 also from Venezuela as a result of converting local currency to U.S. dollars through the parallel market currency exchange rate to pay for certain inventory purchases (see "Operating Activities" section below), and higher advertising of \$7 behind infection control support and new product launches.

The increase in earnings before income taxes during the six months ended December 31, 2009, was primarily due to increased sales . This was partially offset by Venezuela foreign currency transaction losses of \$15, the foreign currency remeasurement loss of \$12 from Venezuela described above, higher advertising of \$9 and the negative impact of foreign exchange rates of \$9.

The decrease in losses before income taxes attributable to Corporate during the current periods was primarily due to lower interest expense primarily due to a decline in average debt balances and a decrease in average interest rate paid on commercial paper borrowings. Also contributing to the decrease in losses before income taxes for the six months ended December 31, 2009, were lower consulting costs.

Financial Condition, Liquidity and Capital Resources

Operating Activities

The Company's financial condition and liquidity remains strong as of December 31, 2009. Net cash provided by operations was \$246 for the six months ended December 31, 2009 as compared to \$191 for the year-ago period. The increase was primarily due to higher net earnings and the positive cash impact of changes in working capital, partially offset by a \$33 million voluntary pension plan contribution made during the first quarter of fiscal year 2010. Based on current pension funding rules, the Company is not required to make any contributions in fiscal year 2010.

Foreign currency translation

Prior to December 31, 2009, the Company translated its Venezuelan subsidiary's financial statements using Venezuela's official exchange rate, which had been fixed by the Venezuelan government at 2.15 Bolivar Fuertes (VEF) to the U.S. dollar. However, the Company's access to the official exchange rate has become increasingly limited due to delays in obtaining U.S. dollars through the government sponsored currency exchange process at the official exchange rate and the removal of some products from the official list of items that may be imported at the official exchange rate. This has led to the substantial use of the parallel market currency exchange rate to convert VEFs to U.S. dollars to pay for certain imported inventory purchases. The parallel market currency exchange rate represents the rates negotiated with local financial intermediaries. Due to these circumstances, effective December 31, 2009, the Company began translating its Venezuelan subsidiary's financial statements using the parallel market currency exchange rate, the rate at which the Company expects to be able to remit dividends or return capital. The rate used at December 31, 2009, was 5.87 VEF to the U.S. dollar. On a pre-tax basis, the translation resulted in a remeasurement loss of \$12.

Table of Contents

During the three and six months ended December 31, 2009, net sales in Venezuela were approximately 3% of total Company net sales. As of December 31, 2009, total assets in Venezuela were approximately 1% of total Company assets.

Effective January 1, 2010, according to accounting principles generally accepted in the United States of America (U.S. GAAP), Venezuela has been designated as a hyper-inflationary economy. A hyper-inflationary economy designation occurs when a country has experienced cumulative inflation of approximately 100 percent or more over a 3 year period. The hyper-inflationary designation requires the local subsidiary in Venezuela to record all transactions as if they were denominated in U.S. dollars. Bolivar denominated monetary assets will be remeasured at the parallel market currency rate and will be recognized in earnings rather than in currency translation adjustment on the balance sheet.

The Company estimates pre-tax foreign currency losses for Venezuela of approximately \$20 or about 9 cents per diluted share in the second half of fiscal 2010, resulting primarily from transacting at the parallel market currency rate. The Company further estimates that net sales will be reduced by approximately 2% during the same period.

Working Capital

The Company's working capital, defined in this context as total current assets net of total current liabilities, increased by \$488 from June 30, 2009 to December 31, 2009, principally due to a decrease in notes and loans payable by \$396 resulting from the use of proceeds from a new bond issuance (See "Financing Activities" below) and other Company cash flows to pay down commercial paper. Also contributing to the increase in working capital was a decrease in accounts payable and accrued liabilities primarily driven by a \$54 reduction as a result of improved vendor accounts management and timing of vendor payments, and a \$28 reduction related to the payment of the fiscal year 2009 annual incentive program and value sharing awards, net of fiscal year 2010 first half annual incentive and value sharing accruals.

Investing Activities

Capital expenditures were \$76 during the six months ended December 31, 2009, compared to \$84 in the comparable prior year period. Capital spending as a percentage of net sales was 2.9% during the six months ended December 31, 2009, compared to 3.2% during the six months ended December 31, 2008. Higher capital spending during the six months ended December 31, 2008, was driven primarily by the Company's manufacturing network consolidation efforts.

In January 2010, the Company acquired the assets of Caltech Industries, a company which provides disinfectants for the health care industry, for an aggregate price of \$23, with the objective of expanding the Company's capabilities in the areas of health and wellness. In connection with the purchase, the Company acquired Caltech Industries' facility and its employees. The transaction was structured as an all cash acquisition .

Financing Activities

Net cash used for financing activities was \$225 for the six months ended December 31, 2009, compared to net cash used for financing activities of \$210 in the comparable prior year period. The increase in cash used for financing activities was primarily due to an increase in dividend payment.

In November 2009, the Company issued \$300 of long-term debt in senior notes. The notes carry an annual fixed interest rate of 3.55% payable semi-annually in May and November. The notes mature on November 1, 2015. Proceeds from the notes were used to retire commercial paper. The notes rank equally with all of the Company's existing and future senior indebtedness.

Table of Contents

At December 31, 2009, the Company had \$22 of commercial paper outstanding at a weighted average interest rate of 0.3%. In January 2010, \$575 of debt became due and was paid. The Company funded the debt repayment through the use of commercial paper and to a lesser extent, operating cash flows. The Company continues to successfully issue commercial paper. Continued volatility in the capital markets may increase costs associated with issuing commercial paper or other debt instruments or affect our ability to access those markets in the future. Notwithstanding these adverse market conditions, the Company believes that current cash balances and cash generated by operations, together with access to external sources of funds as described below, will be sufficient to meet the Company's operating and capital needs in the foreseeable future.

Credit Arrangements

At December 31, 2009, the Company had a \$1,100 revolving credit agreement with an expiration date of April 2013. There were no borrowings under this revolving credit arrangement, which the Company believes is now available and will continue to be available for general corporate purposes and to support commercial paper issuances. The revolving credit agreement includes certain restrictive covenants. The primary restrictive covenant is a maximum ratio of total debt to EBITDA for the trailing 4 quarters (EBITDA ratio), as defined in the Company's lending agreements, of 3.25. EBITDA, as defined by the revolving credit agreement, may not be comparable to similarly titled measures used by other entities. The Company's EBITDA ratio at December 31, 2009, was 2.45.

The following table sets forth the calculation of the EBITDA ratio, as defined in the Company's lending agreement, at December 31, 2009:

	<u>3/31/2009</u>	<u>6/30/2009</u>	<u>9/30/2009</u>	<u>12/31/2009</u>	<u>Total</u>
Net earnings	\$ 153	\$ 170	\$ 157	\$ 110	\$ 590
Add back:					
Interest expense	39	36	36	37	148
Income tax expense	80	91	87	53	311
Depreciation and amortization	49	48	48	47	192

Deduct:					
Interest income	(1)	(1)	(1)	(1)	(4)
EBITDA	<u>\$ 320</u>	<u>\$ 347</u>	<u>\$ 327</u>	<u>\$ 246</u>	<u>\$ 1,240</u>
				Debt at December 31, 2009	<u>\$ 3,035</u>
				EBITDA ratio	<u>2.45</u>

The Company is in compliance with all restrictive covenants and limitations as of December 31, 2009. The Company anticipates being in compliance with all restrictive covenants for the foreseeable future.

The Company continues to monitor the financial markets and assess its ability to fully draw under its revolving credit facility, but expects that any drawing under the facility will be fully funded.

In addition, the Company had \$45 of foreign working capital credit lines and other facilities at December 31, 2009, of which \$31 was available for borrowing. The Company was also a party to letters of credit of \$20, primarily related to one of its insurance carriers.

Table of Contents

Share Repurchases

The Company has two share repurchase programs: an open-market purchase program, which had, as of December 31, 2009, a total authorization of \$750, and a program to offset the impact of share dilution related to share-based awards (the Evergreen Program), which has no authorization limit as to amount or timing of repurchases.

The Company did not repurchase any shares during the three or six month periods ended December 31, 2009 and 2008.

Contingencies

The Company is involved in certain environmental matters, including Superfund and other response actions at various locations. The Company has a recorded liability of \$18 and 19 at December 31, 2009 and June 30, 2009, respectively, for its share of the related aggregate future remediation cost. One matter in Dickinson County, Michigan, for which the Company is jointly and severally liable, accounts for a substantial majority of the recorded liability at both December 31, 2009 and June 30, 2009. The Company is subject to a cost-sharing arrangement with Ford Motor Co. (Ford) for this matter, under which the Company has agreed to be liable for 24.3% of the aggregate remediation and associated costs, other than legal fees, as the Company and Ford are each responsible for their own such fees. If Ford is unable to pay its share of the response and remediation obligations, the Company would likely be responsible for such obligations. In October 2004, the Company and Ford agreed to a consent judgment with the Michigan Department of Environmental Quality, which sets forth certain remediation goals and monitoring activities. Based on the current status of this matter, and with the assistance of environmental consultants, the Company maintains an undiscounted liability representing its best estimate of its share of costs associated with the capital expenditures, maintenance and other costs to be incurred over an estimated 30-year remediation period. The most significant components of the liability relate to the estimated costs associated with the remediation of groundwater contamination and excess levels of subterranean methane deposits. The Company made payments of less than \$1 during each of the three and six months ended December 31, 2009 and 2008, towards remediation efforts. Currently, the Company cannot accurately predict the timing of the payments that will likely be made under this estimated obligation. In addition, the Company's estimated loss exposure is sensitive to a variety of uncertain factors, including the efficacy of remediation efforts, changes in remediation requirements and the timing, varying costs and alternative clean-up technologies that may become available in the future. Although it is possible that the Company's exposure may exceed the amount recorded, any amount of such additional exposures, or range of exposures, is not estimable at this time.

The Company is subject to various other lawsuits and claims relating to issues such as contract disputes, product liability, patents and trademarks, advertising, employee and other matters. Although the results of claims and litigation cannot be predicted with certainty, it is the opinion of management that the ultimate disposition of these matters, to the extent not previously provided for, will not have a material adverse effect, individually or in the aggregate, on the Company's consolidated financial statements taken as a whole.

Recently adopted pronouncements

On July 1, 2009, the Company adopted a new accounting standard which provides that unvested share-based payment awards that contain nonforfeitable rights to dividends or dividend equivalents, whether paid or unpaid, are participating securities that must be included in the computation of earnings per share pursuant to the two-class method. These payment awards were previously not considered participating securities. Accordingly, the Company's unvested performance units, restricted stock awards and restricted stock units that provide such nonforfeitable rights are now considered participating securities in the calculation of net earnings per share (EPS). The Company's share-based payment awards granted in fiscal year 2010 are not participating securities. The new standard requires the retrospective adjustment of the Company's earnings per share data. The impact of the retrospective adoption of the new accounting standard on the fiscal year 2009 reported EPS data was as follows:

	Basic		Diluted	
	As previously reported	As restated	As previously reported	As restated
Three months ended December 31, 2008	\$ 0.62	\$ 0.62	\$ 0.62	\$ 0.61
Six months ended December 31, 2008	1.55	1.53	1.52	1.51
Three months ended March 31, 2009	1.09	1.08	1.08	1.08
Nine months ended March 31, 2009	2.64	2.61	2.60	2.59
Three months ended June 30, 2009	1.22	1.21	1.20	1.20
Year ended June 30, 2009	3.86	3.82	3.81	3.79

The calculation of EPS under the new accounting standard is disclosed in Note 7 to Condensed Consolidated Financial Statements .

On July 1, 2009, the Company adopted a new accounting standard which establishes principles and requirements for how the acquirer of a business recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, including contingent liabilities, and any noncontrolling interest in an acquired business. The new accounting standard also provides for recognizing and measuring the goodwill acquired in a business combination and requires disclosure of information to enable users of the financial statements to evaluate the nature and financial effects of the business combination. The adoption of the new accounting standard had no impact on the condensed consolidated financial statements.

On July 1, 2009, the Company adopted a new accounting standard which establishes new accounting and reporting standards for the noncontrolling interest in a subsidiary (previously referred to as minority interest) and for the deconsolidation of a subsidiary. The new standard establishes accounting and reporting standards that require the noncontrolling interest to be reported as a component of equity. Changes in a parent's ownership interest while the parent retains its controlling interest will be accounted for as equity transactions and any retained noncontrolling equity investment upon the deconsolidation of a subsidiary will be initially measured at fair value. The adoption of the new accounting standard had no material impact on the condensed consolidated financial statements.

Table of Contents

On July 1, 2009, the Company adopted a new accounting standard which requires disclosures about fair value of financial instruments in interim financial information (See Note 3 to Condensed Consolidated Financial Statements). The Company already complies with the provisions of this accounting standard for its annual reporting.

On July 1, 2009, the Company adopted the provisions of the accounting standard on fair value measurements that apply to nonfinancial assets and liabilities that are recognized or disclosed at fair value on a non-recurring basis. The adoption of these provisions did not have an impact on the condensed consolidated financial statements.

On September 30, 2009, the Company adopted the Financial Accounting Standards Board (FASB) Accounting Standards Codification (the Codification). The Codification is the single official source of authoritative U.S. GAAP (other than the SEC's views), superseding all other accounting literature except that issued by the SEC. The adoption of the Codification had no impact on the condensed consolidated balance sheets, statements of operations or cash flows.

Pronouncements to be adopted

On December 30, 2008, the FASB issued an accounting standard that will require additional disclosures about the major categories of plan assets and concentrations of risk for an employer's plan assets of a defined benefit pension or other postretirement plan, as well as disclosure of fair value levels, similar to the disclosure requirements of the fair value measurements accounting standard. This standard is effective for fiscal years ending after December 15, 2009, with early application permitted. The Company will provide these enhanced disclosures about plan assets in its 2010 Annual Report on Form 10-K.

In January 2010, the FASB issued an accounting standard update (ASU) to Fair Value Measurements and Disclosures. This ASU requires some new disclosures and clarifies existing disclosure requirements about fair value measurement. Specifically, the Company will be required to disclose separately the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements and to also describe the reasons for the transfers. This ASU is applicable for the Company beginning in its fiscal 2010 third quarter. The Company does not expect the adoption of this ASU to have a material impact on its consolidated financial statements disclosures.

Cautionary Statement

This Quarterly Report on Form 10-Q (this Report), including the exhibits hereto contains “forward looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended (the Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act), and such forward looking statements involve risks and uncertainties. Except for historical information, matters discussed below, including statements about future volume, sales, costs, cost savings, earnings, cash flows, plans, objectives, expectations, growth, or profitability, are forward looking statements based on management’s estimates, assumptions and projections. Words such as “expects,” “anticipates,” “targets,” “goals,” “projects,” “intends,” “plans,” “believes,” “seeks,” “estimates,” and variations on such words, and similar expressions, are intended to identify such forward looking statements. These forward looking statements are only predictions, subject to risks and uncertainties, and actual results could differ materially from those discussed below. Important factors that could affect performance and cause results to differ materially from management’s expectations are described in the sections entitled “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in the Company’s Annual Report on Form 10-K for the year ended June 30, 2009, as updated from time to time in the Company’s SEC filings. These factors include, but are not limited to: unfavorable general economic and marketplace conditions and events, including consumer confidence and consumer spending levels, the rate of economic growth, the rate of inflation, and the financial condition of our customers, suppliers and service providers; foreign currency exchange rate and interest rate fluctuations; unfavorable political conditions in international markets and risks relating to international operations; the Company’s costs, including volatility and increases in commodity costs such as resin, diesel, chlor-alkali, agricultural commodities and other raw materials; increases in energy costs; the impact of the volatility of the debt markets on the Company’s cost of borrowing and access to funds, including commercial paper and its credit facility; risks relating to changes in the Company’s capital structure; risks arising from declines in cash flow, whether resulting from tax payments, debt payments, share repurchases, interest cost increases greater than management’s expectations, or increases in debt or changes in credit ratings, or otherwise; changes in the Company’s tax rate; the success of the Company’s strategies, including its previously announced Centennial Strategy; risks relating to acquisitions, mergers and divestitures, including the Company’s ability to achieve the projected strategic and financial benefits from the Burt’s Bees acquisition; the ability of the Company to implement and generate expected savings from its programs to reduce costs, including its Supply Chain Restructuring and Other restructuring plan changes; the need for any unanticipated restructuring or asset-impairment charges; the success of new products and the ability of the Company to develop products that delight the consumer; consumer and customer reaction to price increases; risks related to customer concentration; customer-specific ordering patterns and trends; competitive actions; supply disruptions or any future supply constraints that may affect key commodities or product inputs; risks inherent in supplier relationships, including sole-supplier relationships; risks related to the handling and/or transportation of hazardous substances, including but not limited to chlorine; risks related to the conversion of the Company’s information systems, including potential disruptions and costs; risks arising out of natural disasters; the impact of disease outbreaks, epidemics or pandemics on the Company’s operations; risks inherent in litigation; risks inherent in maintaining an effective system of internal controls, including the potential impact of acquisitions or the use of third-party service providers; the ability to manage and realize the benefit of joint ventures and other cooperative relationships, including the Company’s joint venture regarding the Company’s Glad[®] plastic bags, wraps and containers business, and the agreements relating to the provision of information technology and related services by third parties; the ability of the Company to successfully manage tax, regulatory, product liability, intellectual property, environmental and other legal matters, including the risk resulting from joint and several liability for environmental contingencies and risks inherent in litigation including class action litigation; and the Company’s ability to maintain its business reputation and the reputation of its brands.

The Company’s forward looking statements in this Report are based on management’s current views and assumptions regarding future events and speak only as of their dates. The Company undertakes no obligation to publicly update or revise any forward looking statements, whether as a result of new information, future events or otherwise, except as required by the federal securities laws.

In this Report, unless the context requires otherwise, the terms “the Company” and “Clorox” refer to The Clorox Company and its subsidiaries.

Item 3. Quantitative and Qualitative Disclosure about Market Risk.

There have not been any material changes to the Company's market risk during the three and six months ended December 31, 2009. For additional information, refer to the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2009.

Item 4. Controls and Procedures

The Company's management, with the participation of the Company's chief executive officer and chief financial officer, evaluated the effectiveness of the Company's disclosure controls and procedures as of the end of the period covered by this report. Based on that evaluation, the chief executive officer and chief financial officer concluded that the Company's disclosure controls and procedures, as of the end of the period covered by this report, were effective such that the information required to be disclosed by the Company in reports filed under the Securities Exchange Act of 1934 is (i) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and (ii) accumulated and communicated to management, including the chief executive officer and chief financial officer, as appropriate to allow timely decisions regarding disclosure. There was no change in the Company's internal control over financial reporting that occurred during the Company's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II – OTHER INFORMATION (Unaudited)

Item 1.A. Risk Factors

For information regarding Risk Factors, please refer to Item 1.A. in the Company’s Annual Report on Form 10-K for the year ended June 30, 2009.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

The following table sets out the purchases of the Company’s securities by the Company and any affiliated purchasers within the meaning of Rule 10b-18(a)(3) (17 CFR 240.10b-18(a)(3)) during the second quarter of fiscal year 2010.

Period	[a] Total Number of Shares (or Units) Purchased ⁽¹⁾	[b] Average Price Paid per Share (or Unit)	[c] Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	[d] Maximum Number (or Approximate Dollar Value) that May Yet Be Purchased Under the Plans or Programs ⁽²⁾

November 1 to 30, 2009	959	\$ 59.02	-	\$ 750,000,000
December 1 to 31, 2009	1,228	\$ 59.63	-	\$ 750,000,000

-
- (1) The shares purchased in October, November and December 2009 relate entirely to the surrender to the Company of shares of common stock to satisfy tax withholding obligations in connection with the exercise of stock options and vesting of restricted stock, restricted stock units and performance units.
- (2) On May 13, 2008, the board of directors approved a new \$750,000,000 share repurchase program, all of which remains available for repurchase as of June 30, 2009. On September 1, 1999, the Company announced a share repurchase program to reduce or eliminate dilution upon the issuance of shares pursuant to the Company’s stock compensation plans. The program initiated in 1999 has no specified cap and therefore is not included in column [d] above. On November 15, 2005, the Board of Directors authorized the extension of the 1999 program to reduce or eliminate dilution in connection with issuances of common stock pursuant to the Company’s 2005 Stock Incentive Plan. None of these programs has a specified termination date.

CERTIFICATION

I, Donald R. Knauss, certify that:

1. I have reviewed this quarterly report on Form 10-Q of The Clorox Company;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
