**ABOUT THIS PROSPECTUS SUPPLEMENT**

This document is in two parts. The first part, the prospectus supplement, describes the specific terms of the notes we are offering and certain other matters relating to Franklin Resources, Inc. The second part, the base prospectus, gives more general information about securities we may offer from time to time, some of which do not apply to the notes we are offering. Generally, when we refer to the prospectus, we are referring to both parts of this document combined. If the description of the notes in the prospectus supplement differs from the description in the base prospectus, the description in the prospectus supplement supersedes the description in the base prospectus.

Unless otherwise expressly stated herein or the context otherwise requires, all references in this prospectus to “Franklin Resources,” “we,” “us,” “our,” “our company” or “the company” refer to Franklin Resources, Inc., a Delaware corporation and its direct and indirect subsidiaries. However, for purposes of the section entitled “Description of the Notes,” whenever we refer to “Franklin Resources,” “we,” “us,” “our,” “our company” or “the company,” we are referring only to Franklin Resources, Inc. and not to any of its direct or indirect subsidiaries. When used herein, unless the context otherwise makes clear, our “funds” means all of the Franklin<sup>®</sup>, Templeton<sup>®</sup>, Mutual Series<sup>®</sup>, Bissett<sup>®</sup>, Fiduciary Trust<sup>™</sup>, Darby<sup>®</sup>, Balanced Equity Management<sup>®</sup> and K2<sup>®</sup> mutual funds.

**NOTICE TO PROSPECTIVE INVESTORS IN THE EUROPEAN ECONOMIC AREA**

In any Member State of the European Economic Area (“EEA”) that has implemented the Prospectus Directive, this prospectus supplement and the accompanying prospectus are only addressed to and are only directed at qualified investors in that Member State within the meaning of the Prospectus Directive.

This prospectus supplement and the accompanying prospectus have been prepared on the basis that any offer of notes in any Member State of the EEA which has implemented the Prospectus Directive (each, a “Relevant Member State”) will be made pursuant to an exemption under the Prospectus Directive from the requirement to publish a prospectus for offers of notes. Accordingly any person making or intending to make any offer in that Relevant Member State of notes which are the subject of the offering contemplated in this prospectus supplement and the accompanying prospectus may only do so in circumstances in which no obligation arises for the Company or any underwriter to publish a prospectus pursuant to Article 3 of the Prospectus Directive in relation to such offer. Neither the Company nor any underwriter has authorized, nor do they authorize, the making of any offer of notes in circumstances in which an obligation arises for the Company or any underwriter to publish a prospectus for such offer.

For the purposes of this provision, the expression “Prospectus Directive” means Directive 2003/71/EC (and amendments thereto, including the 2010 PD Amending Directive, to the extent implemented in the Relevant Member State), and includes any relevant implementing measure in the Relevant Member State and the expression “2010 PD Amending Directive” means Directive 2010/73/EU. Each person in a Relevant Member State who receives any communication in respect of, or who acquires any notes under, the offering contemplated in this prospectus supplement and the accompanying prospectus will be deemed to have represented, warranted and agreed to and with the Company and each underwriter that:

(a) it is a qualified investor within the meaning of the law in that Relevant Member State implementing Article 2(1)(e) of the Prospectus Directive (a “qualified investor”); and (b) in the case of any notes acquired by it as a financial intermediary, as that term is used in Article 3(2) of the Prospectus Directive, (i) the notes acquired by it in the offer have not been acquired on behalf of, nor have they been acquired with a view to their offer or resale to, persons in any Relevant Member State other than qualified investors, or in circumstances in which the prior consent of the underwriters has been given to the offer or resale; or (ii) where notes have been acquired by it on behalf of persons in any Relevant Member State other than qualified investors, the offer of those notes to it is not treated under the Prospectus Directive as having been made to such persons.

---

## Table of Contents

For the purposes of this representation, the expression an “offer to the public” in relation to any notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and any notes to be offered so as to enable an investor to decide to purchase or subscribe for the notes, as the same may be varied in that Relevant Member State by any measure implementing the Prospectus Directive in that Relevant Member State.

The notes are only available to, and any invitation, offer or agreement to subscribe, purchase or otherwise acquire the notes will be engaged in only with, relevant persons. In addition, we may make other written and oral communications from time to time that contain such statements. ### Franklin Resources, Inc.

#### General

We are a holding company that, together with our various subsidiaries, operates as Franklin Templeton Investments<sup>®</sup>. We are a global investment management organization committed to the aim of delivering strong investment performance for our clients by drawing on the experience and perspective gained throughout our more than 65 years in the investment management business. We believe in the value of active investment management, and plan to continue to build on our strengths while pursuing new growth opportunities. Our common stock is traded on the New York Stock Exchange under the ticker symbol “BEN,” and is included in the Standard & Poor’s 500 Index. We offer investment choices under our Franklin<sup>®</sup>, Templeton<sup>®</sup>, Mutual Series<sup>®</sup>, Bissett<sup>®</sup>, Fiduciary Trust<sup>™</sup>, Darby<sup>®</sup>, Balanced Equity Management<sup>®</sup> and K2<sup>®</sup> brand names.

We provide investment management and related services to investors in jurisdictions worldwide through products that include U.S.- and non-U.S.-registered open-end and closed-end funds, unregistered funds, and institutional, high net-worth and separately-managed accounts (collectively, our “SIPs”). As of February 28, 2015, we had \$894.1 billion in assets under management. In addition to investment management, our services include fund administration, sales, distribution, marketing, shareholder servicing, trustee, custody and other fiduciary services. We offer a broad range of SIPs under equity, hybrid, fixed-income and cash management funds and accounts, including alternative investment products, that meet a variety of specific investment needs of individual and institutional investors. We also provide sub-advisory services to certain investment products sponsored by other companies which may be sold to the public under the brand names of those companies or on a co-branded basis.

The business and regulatory environments in which we operate remain complex, uncertain and subject to change. We are subject to various laws, rules and regulations globally that impose restrictions, limitations and registration, reporting and disclosure requirements on our business and add complexity to our global compliance operations. In September 2014, we deregistered as a bank holding company with the Board of Governors of the Federal Reserve System after limiting the operations of Fiduciary Trust Company International and Franklin Templeton Bank & Trust, F.S.B. to trust and fiduciary activities. Fiduciary Trust is now a New York state-chartered limited purpose trust company and FTB&T is a federal savings association.

Our principal executive offices are located at One Franklin Parkway, San Mateo, California 94403. Our telephone number is (650) 312-2000.

**RISK FACTORS**

*You should carefully consider the following risks and the specific risks described in our Annual Report on Form 10-K for the fiscal year ended September 30, 2014, our subsequent Quarterly Report on Form 10-Q and any risk factors set forth in our other filings with the SEC pursuant to Sections 13(a), 13(c) or 15(d) of the Exchange Act, which are incorporated herein by reference, before making an investment decision.*

**Risks Related to the Notes**

Our holding company structure results in structural subordination of our debt and may affect our ability to make payments on notes.

The notes are obligations exclusively of Franklin Resources, Inc. We are a holding company and, accordingly, substantially all of our operations are conducted through our subsidiaries. As a result, our cash flow and our ability to service our debt, including the notes, depend upon the earnings of our subsidiaries. In addition, we depend on the distribution of earnings, loans or other payments by our subsidiaries to us.

Our subsidiaries are separate and distinct legal entities. Our subsidiaries have no obligation to pay any amounts due on the notes or to provide us with funds for our payment obligations. In addition, any payment of dividends, distributions, loans or advances by our subsidiaries to us could be subject to statutory or contractual restrictions, including regulatory capital requirements. Payments to us by our subsidiaries will also be contingent upon our subsidiaries' earnings and business considerations. Our right to receive any assets of any of our subsidiaries, as an equity holder of such subsidiaries, upon their liquidation or reorganization, and therefore the right of the holders of the notes to participate in those assets, will be effectively subordinated to the claims of that subsidiary's creditors, including trade creditors, and to that subsidiary's preferred stockholders, if any. The notes do not restrict the ability of our subsidiaries to incur additional indebtedness or issue preferred stock. In addition, the notes are unsecured. Thus, even if we were a creditor of any of our subsidiaries, our rights as a creditor would be subordinate to any security interest in the assets of our subsidiaries and any indebtedness of our subsidiaries senior to that held by us.

***The notes are unsecured.***

The notes are unsecured. The indenture for the notes does not restrict our ability to incur additional indebtedness, including secured indebtedness generally. Holders of any secured indebtedness will have claims that are prior to your claims as holders of the notes, to the extent of the value of the assets securing such indebtedness, in the event of any bankruptcy, liquidation or similar proceeding involving us.

***We may issue additional notes.***

Under the terms of the indenture, we may from time to time without notice to, or the consent of, the holders of the notes, create and issue additional notes of a new or existing series, which notes, if of an existing series, will be equal in rank to the notes of that series in all material respects, and the new notes may be consolidated and form a single series with such notes and have the same terms as to status, redemption or otherwise as such notes.

***The notes do not restrict our ability to incur additional debt or to take other actions that could negatively affect holders of the notes.***

We are not restricted under the terms of the notes from incurring additional unsecured indebtedness, including other senior indebtedness and while the covenants applicable to the notes restrict our ability to incur certain types of secured indebtedness, those restrictions are subject to various important limitations and exceptions. In addition, the limited covenants applicable to the notes do not restrict our ability to pay dividends, issue or repurchase stock or other securities or require us to achieve or maintain any minimum financial results

---

## Table of Contents

relating to our financial position or results of operations. In addition, the notes will not be subject to redemption or repurchase upon a change of control. Our ability to recapitalize, incur additional debt and take a number of other actions that are not limited by the terms of the notes could have the effect of diminishing our ability to make payments on the notes when due. Although the notes do not contain such financial and other restrictive covenants, future indebtedness could include such covenants. If we incur additional indebtedness or other liabilities, our ability to pay our obligations on our outstanding indebtedness could be adversely affected.

***There is no public market for the notes.***

We have not applied and do not intend to apply for listing of the notes on any securities exchange or automated quotation system. As a result, we can give no assurances concerning the liquidity of any market that may develop for the notes offered hereby, your ability to sell the notes, or the price at which you would be able to sell them. If a market for the notes does not develop, you may be unable to resell the notes for an extended period of time, if at all. If a market for the notes does develop, it may not continue or it may not be sufficiently liquid to allow holders to resell any of the notes. Consequently, you may not be able to liquidate your investment readily, and lenders may not readily accept the notes as collateral for loans.

***The market price of the notes may be volatile.***

The market price of the notes will depend on many factors that may vary over time and some of which are beyond our control, including our financial performance, the amount of indebtedness we and our subsidiaries have outstanding, market interest rates, the market for similar securities, competition and general economic conditions. The capital and credit markets continue to experience volatility and disruption worldwide.

As a result of these factors, you may only be able to sell your notes at a price below that you believe to be appropriate, including a price below the price you paid for them.

***An increase in interest rates could result in a decrease in the relative value of the notes.***

In general, as market interest rates rise, notes bearing interest at a fixed rate generally decline in value because the premium, if any, over market interest rates will decline. Consequently, if you purchase the notes and market interest rates increase, the market value of your notes may decline. We cannot predict the future level of market interest rates.

***Ratings of the notes may not reflect all risks of an investment in the notes.***

We expect that the notes will be rated by at least one nationally recognized statistical rating organization. The ratings of the notes will primarily reflect our financial strength and will change in accordance with the rating of our financial strength. Any rating is not a recommendation to purchase, sell, or hold the notes. The ratings do not correspond to market price or suitability for a particular investor. In addition, ratings at any time may be lowered or withdrawn in their entirety.

### **USE OF PROCEEDS**

We estimate the net proceeds to us from the sale of the notes will be approximately \$395.8 million, after deducting the underwriting discount and the other expenses of the offering payable by us. We intend to use approximately \$250.0 million of the net proceeds of this offering to repay our outstanding 3.125% notes due May 2015 and the remainder for general corporate purposes. The foregoing does not constitute a notice of redemption for or an obligation to issue a notice of redemption for our outstanding notes.

**RATIO OF EARNINGS TO FIXED CHARGES**

The following table sets forth our ratio of adjusted earnings to fixed charges for each of the periods indicated:

- (a) For purposes of calculating the ratio of adjusted earnings to fixed charges, adjusted earnings consist of income before taxes and fixed charges, excluding equity in income of investees, noncontrolling interests of consolidated subsidiaries and capitalized interest, and including dividends received from equity-method investees. Fixed charges consist of interest expense which includes an interest factor on rent calculated as one-third of rental expense (the approximate portion of rental expense representing interest).

**DESCRIPTION OF THE NOTES**

Set forth below is a description of the specific terms of the notes. This description supplements, and should be read together with, the description of the general terms and provisions of the debt securities set forth in the accompanying base prospectus under the caption “Description of Debt Securities”. In addition to reading the description of debt securities in the base prospectus and the description of the notes in this prospectus supplement, you should also read the indenture, as supplemented, under which the notes are to be issued. The terms of the notes include those stated in the indenture and those made part of the indenture by reference to the Trust Indenture Act of 1939, as amended. Copies of the indenture may be obtained from us. If the description of the notes in this prospectus supplement differs from the description of debt securities in the base prospectus, the description of the notes in this prospectus supplement supersedes the description of debt securities in the base prospectus. When we refer in this section, to “Franklin Resources”, “we”, “us”, “our” “our company” or “the company”, we are referring only to Franklin Resources, Inc. and not to its direct or indirect subsidiaries.

**General**

The notes will initially be limited to \$400,000,000 in aggregate principal amount. The notes will be issued in fully registered form only, in denominations of \$2,000 and integral multiples of \$1,000 in excess thereof. The notes will mature on March 30, 2025.

The notes will be issued as a series of debt securities under the indenture referred to in the accompanying base prospectus. The indenture does not limit the amount of other debt that we may incur. We may, from time to time, without the consent of the holders of the notes, issue other debt securities under the indenture in addition to the \$400,000,000 aggregate principal amount of the notes. We may also, from time to time, without the consent of the holders of the notes issue additional debt securities having the same ranking and the same interest rate, maturity and other terms as the notes. Any additional debt securities having those similar terms, together with the previously issued notes will constitute a single series of debt securities under the indenture.

The notes will bear interest at the annual rate of 2.850%. Interest on the notes will be payable semi-annually in arrears on March 30 and September 30 of each year, commencing September 30, 2015, to the persons in whose names the notes are registered at the close of business on the immediately preceding March 15 and September 15, respectively, subject to certain exceptions. The amount of interest payable on the notes will be computed on the basis of a 360-day year consisting of twelve 30-day months.

If any interest payment date or the maturity date of the notes is not a business day, then the related payment of interest and/or principal on such date will be paid on the next succeeding business day with the same force and effect as if made on such interest payment date or maturity date and no further interest will accrue in respect of the delay.

The notes will be unsecured and unsubordinated obligations of Franklin Resources and will rank equal in right of payment to all our other unsubordinated indebtedness.

The notes do not provide for any sinking fund.

**Optional Redemption of Notes**

The notes will be redeemable as a whole or in part, at our option at any time, at a redemption price, equal to the greater of (i) 100% of the principal amount of the notes to be redeemed and (ii) the sum of the present values of the remaining scheduled payments of principal and interest on the notes to be redeemed (exclusive of interest accrued to the date of redemption) discounted to the redemption date on a semiannual basis (assuming a 360-day year consisting of twelve 30-day months) at the Treasury Rate plus 15 basis points, plus accrued and unpaid interest thereon to, but not including, the date of redemption.

## Table of Contents

“Comparable Treasury Issue” means the United States Treasury security or securities selected by an Independent Investment Banker as having an actual or interpolated maturity comparable to the remaining term of the notes of the applicable series to be redeemed that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of a comparable maturity to the remaining term of such notes.

“Comparable Treasury Price” means, with respect to any redemption date, (A) the average of the four Reference Treasury Dealer Quotations for such redemption date, after excluding the highest and lowest such Reference Treasury Dealer Quotations, or (B) if the Company obtains fewer than four such Reference Treasury Dealer Quotations, the average of all such quotations.

“Independent Investment Banker” means one of the Reference Treasury Dealers appointed by us.

“Reference Treasury Dealer” means each of Merrill Lynch, Pierce, Fenner & Smith Incorporated and Morgan Stanley & Co. LLC or their respective affiliates which are primary U.S. government securities dealers, and two other primary U.S. government securities dealers selected by us, and each of their respective successors that are primary U.S. government securities dealers; provided, however, that if any of the foregoing or their affiliates shall cease to be a primary U.S. government securities dealer in The City of New York (a “Primary Treasury Dealer”), we shall substitute therefor another Primary Treasury Dealer.

“Reference Treasury Dealer Quotations” means, with respect to each Reference Treasury Dealer and any redemption date, the average, as determined by us, of the bid and asked prices for the Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing to the Company by such Reference Treasury Dealer at 3:30 p.m. New York time on the third business day preceding such redemption date.

“Treasury Rate” means, with respect to any redemption date, the rate per annum equal to the semiannual equivalent yield to maturity or interpolated (on a day count basis) of the Comparable Treasury Issue, assuming a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for such redemption date.

Notice of any redemption will be given by us or, at our request, by the trustee in our name and at our expense at least 30 days but not more than 60 days before the redemption date to each holder of the notes. On or before a redemption date, we will deposit with a paying agent (or the Trustee) money sufficient to pay the redemption price of and accrued and unpaid interest on the notes to be redeemed on that date. If less than all of the notes are to be redeemed, the notes to be redeemed shall be selected *pro rata* or by lot and in accordance with the applicable depository procedures.

Unless we default in payment of the redemption price, on and after the redemption date interest will cease to accrue on the notes or portions thereof called for redemption.

### Ranking

The notes are our obligations exclusively, and are not obligations of our subsidiaries. We are a holding company and, accordingly, substantially all of our operations are conducted through our subsidiaries. As a result, our cash flow and our ability to service our debt, including the notes, depend upon the earnings of our subsidiaries. In addition, we depend on the distribution of earnings, loans or other payments by our subsidiaries to us.

Our subsidiaries are separate and distinct legal entities. Our subsidiaries have no obligation to pay any amounts due on the notes or to provide us with funds for our payment obligations. In addition, any payment of dividends, distributions, loans or advances by our subsidiaries to us could be subject to statutory or contractual restrictions. Payments due to us by our subsidiaries will also be contingent upon our subsidiaries' earnings and business considerations.

---

## Table of Contents

Our right to receive any assets of any of our subsidiaries, as an equity holder of such subsidiaries, upon their liquidation or reorganization, and therefore the right of the holders of the notes to participate in those assets, would be structurally subordinated to the claims of that subsidiary's creditors, including trade creditors. None of the notes restrict the ability of our subsidiaries to incur additional indebtedness. In addition, the notes are unsecured. Thus, even if we were a creditor of any of our subsidiaries, our rights as a creditor would be subordinate to any security interest in the assets of our subsidiaries and any indebtedness of our subsidiaries senior to that held by us.

### Limitations on Liens

The indenture will provide that Franklin Resources will not, and will not cause or permit any Included Subsidiary to, create, assume, incur or guarantee any indebtedness for money borrowed that is secured by a pledge, mortgage or other lien on any Voting Stock or profit participating equity interests of our Included Subsidiaries or any entity that succeeds (whether by merger, consolidation, sale of assets or otherwise) to all or any substantial part of the business of our Included Subsidiaries and becomes an Included Subsidiary, without providing that the notes (together with, if we shall so determine, any other indebtedness of, or guarantee by, us ranking equally with the notes and existing as of the closing of the offering of the notes or thereafter created) will be secured equally and ratably with or prior to all other indebtedness secured by such pledge, mortgage or other lien on the Voting Stock or profit participating equity interests of our Included Subsidiaries. This covenant will not apply to (a) liens existing at the time an entity becomes a Subsidiary of Franklin Resources or is merged into Franklin Resources or a subsidiary of Franklin Resources, (b) statutory liens, liens granted to comply with regulatory requirements, liens for taxes or assessments or governmental charges or levies not yet due or delinquent or which can be paid without penalty or are being contested in good faith, (c) liens on any Voting Stock or profit participating equity interests of any Subsidiary of Franklin Resources that is acquired after the date of issuance of the notes to secure or provide for the payment of the purchase price or acquisition cost thereof, (d) liens in favor of Franklin Resources or any subsidiary, (e) liens in existence on the date of issuance of the notes, (f) liens (not otherwise permitted under this covenant) which secure obligations in an aggregate amount at any one time outstanding not exceeding 10% of the Consolidated Net Worth, measured at the time of the creation, incurrence or assumption of any such lien and based upon the Consolidated Net Worth as at the end of the most recently completed fiscal quarter of Franklin Resources for which financial statements are publicly available, and (g) any extension, renewal, substitution, refinancing or replacement (or successive extensions, renewals, substitutions or replacements), in whole or in part, of any lien referred to in the foregoing clauses (a), (c) and (e) that is secured by the same collateral that originally secured the lien.

“Consolidated Net Worth” means, at a particular date, all amounts which would be included, under stockholders' equity, on a consolidated balance sheet of Franklin Resources and its Included Subsidiaries determined on a consolidated basis in accordance with GAAP as at such date.

“Funds” means the collective reference to all investment companies advised by Franklin Resources or any of its Subsidiaries.

“GAAP” means generally accepted accounting principles in the United States of America in effect from time to time.

“Included Subsidiary” means any Subsidiary of Franklin Resources other than any Real Estate Subsidiary or Trust Company Subsidiary.

“Real Estate Subsidiary” means, at any time any Subsidiary of Franklin Resources principally engaged at such time in the real estate investment and property management business or any Subsidiary of any such Subsidiary.

“Subsidiary” means, as to any person at any time of determination, a corporation, partnership or other entity (other than any Fund or any other investment company or similar investment entity existing under foreign law

substantially equivalent to an investment company) of which shares of stock or other ownership interests having ordinary voting power (other than stock or such other ownership interests having such power only by reason of the happening of a contingency) to elect a majority of the board of directors or other managers of such corporation, partnership or other entity are at the time owned, or the management of which is otherwise controlled, directly or indirectly through one or more intermediaries or Subsidiaries, or both, by such person.

“Trust Company Subsidiary” means, at any time, Fiduciary Trust Company International, Franklin Templeton Bank and Trust Company, F.S.B. or any other Subsidiary of Franklin Resources principally engaged at such time in providing trust and fiduciary services or any Subsidiary of any such Subsidiary.

“Voting Stock” means, with respect to any specified “person” (as that term is used in Section 13(d)(3) of the Exchange Act) as of any date, the capital stock of such person that is at the time entitled to vote generally in the election of the board of directors of such person.

This covenant will not limit our ability or the ability of our Subsidiaries to incur indebtedness or other obligations secured by liens on assets other than the Voting Stock or profit participating equity interests of our Included Subsidiaries.

### Events of Default

The notes contain customary events of default, including the non-payment of interest or principal. See “Description of Debt Securities—Events of Default” in the accompanying base prospectus. In addition, in lieu of the events of default set forth in the fifth and sixth bullets of the first paragraph of the section of the accompanying base prospectus entitled “Description of Debt Securities—Events of Default”, the following shall constitute events of default with respect to the notes:

- certain events of bankruptcy, insolvency or reorganization involving us or any Significant Subsidiary (as defined below), including the entry of any court order or decree related to these events; and
- acceleration of indebtedness of Franklin Resources or any Significant Subsidiary, or failure to pay any such debt at maturity, in a principal amount in excess of \$75 million under the terms of the instrument under which such indebtedness was issued or secured, if such acceleration is not annulled within 30 days after a written notice of default is given by the Trustee or the holders of at least 25% in aggregate principal amount of the outstanding debt securities of such series as provided in the indenture.

“Significant Subsidiary” means any subsidiary that would be a “significant subsidiary” of Franklin Resources within the meaning of Rule 1-02 under Regulation S-X promulgated by the SEC.

### Discharge, Legal Defeasance or Covenant Defeasance

We may discharge certain obligations to holders of notes that have not already been delivered to the Trustee for cancellation and that have either become due and payable or are by their terms due and payable within one year (or scheduled for redemption within one year) by irrevocably depositing with the Trustee funds or government obligations denominated in U.S. dollars in an amount sufficient to pay the entire indebtedness on such notes with respect to principal (and premium, if any) and interest to the date of such deposit (if such notes have become due and payable) or to the maturity thereof or the date of redemption, as the case may be.

The indenture provides that, subject to certain conditions, we may elect, at any time, to terminate all of our obligations under the notes and the indenture, except for certain obligations, including those relating to the defeasance trust and obligations to register the transfer or exchange of the notes, to replace mutilated, destroyed, lost or stolen notes and to maintain a registrar and paying agent in respect of the notes. We refer to this as “legal defeasance.” We may also elect, at any time, to terminate our obligations under the covenants described under, “—Limitations on Liens” and the bankruptcy provisions with respect to Significant Subsidiaries described under “—Events of Default” above. We refer to this as “covenant defeasance.”

---

## Table of Contents

In order to exercise our defeasance options with respect to the notes, we must irrevocably deposit in trust for the benefit of the holders of the relevant notes money or certain U.S. government obligations, or both, for the payment of principal of, premium, if any, and interest on the relevant notes to maturity or redemption. We must comply with certain other conditions, including delivery to the Trustee of an opinion of counsel to the effect that the holders and beneficial owners of the notes will not recognize income, gain or loss for U.S. federal income tax purposes as a result of that defeasance and will be subject to federal income tax on the same amounts, in the same manner and at the same times as would have been the case if the defeasance had not occurred. In the case of a legal defeasance, the opinion must refer to and be based on (a) our receipt from, or the publication by, the U.S. Internal Revenue Service of a ruling, or (b) a change in the applicable U.S. federal income tax law since the date of the indenture.

### Modification

The provisions of the indenture relating to amendment and modification described in the section of the accompanying prospectus entitled “Description of Debt Securities—Modification and Waiver” shall apply to the notes, except that references to any requirement for the consent of holders of not less than 66-2/3% in principal amount of the “outstanding debt securities” shall, insofar as they apply to the notes, require the consent of holders of not less than a majority in aggregate principal amount of the outstanding notes.

### Book-Entry System; Delivery and Form

The notes will be issued in the form of one or more fully registered global securities which will be deposited with, or on behalf of, The Depository Trust Company, New York, New York, which we refer to as DTC, and registered in the name of Cede & Co., DTC’s nominee. We will not issue notes in certificated form. Beneficial interests in the global securities will be represented through book-entry accounts of financial institutions acting on behalf of beneficial owners as direct and indirect participants in DTC. Investors may elect to hold interests in the global securities through either DTC in the United States, or Clearstream Banking, S.A. or Euroclear Bank S.A./N.V., as operator of the Euroclear System in Europe, referred to as Clearstream and Euroclear, if they are participants of those systems, or, indirectly, through organizations that are participants in those systems. Clearstream and Euroclear will hold interests on behalf of their participants through customers’ securities accounts in Clearstream’s and Euroclear’s names on the books of their respective depositories, which in turn will hold such interests in customers’ securities accounts in the depositories’ names on the books of DTC. Beneficial interests in the global securities will be held in denominations of \$2,000 and integral multiples of \$1,000 in excess thereof. Except as set forth below, the global securities may be transferred, in whole but not in part, only to another nominee of DTC or to a successor to DTC or its nominee.

DTC, the world’s largest depository, is a limited-purpose trust company organized under the New York Banking Law, a banking organization within the meaning of the New York Banking Law, a member of the Federal Reserve System, a clearing corporation within the meaning of the New York Uniform Commercial Code, and a clearing agency registered pursuant to the provisions of Section 17A of the Exchange Act. DTC holds and provides asset servicing for issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments that DTC’s participants, which we refer to as direct participants, deposit with DTC. DTC also facilitates the post-trade settlement among direct participants of sales and other securities transactions in deposited securities through electronic computerized book-entry transfers and pledges between direct participants’ accounts. This eliminates the need for physical movement of securities certificates. Direct participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. Access to the DTC system also is available to others, such as U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations, that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. We refer to those entities as indirect participants.

Purchases of notes under the DTC system must be made by or through direct participants, who receive a credit for the notes on DTC’s records. The ownership interest of each actual purchaser of each note, who we refer

---

## Table of Contents

to as a beneficial owner, is in turn recorded on the direct and indirect participants' records. Beneficial owners will not receive written confirmation from DTC of their purchase. Beneficial owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct or indirect participants through which the beneficial owner entered into the transaction. Transfers of ownership interests in the notes will be accomplished by entries made on the books of direct and indirect participants acting on behalf of beneficial owners. Beneficial owners will not receive certificates representing their ownership interests in the notes, except in the event that use of the book entry system for the notes is discontinued.

To facilitate subsequent transfers, all notes deposited by direct participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of notes with DTC and their registration in the name of Cede & Co. or another DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the notes. DTC's records reflect only the identity of the direct participants to whose accounts the notes are credited, which may or may not be the beneficial owners. The direct and indirect participants remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Redemption notices will be sent to DTC. If less than all of the notes are being redeemed, DTC's practice is to determine by lot the amount of the interest of each direct participant in the notes to be redeemed.

Neither DTC, Cede & Co. nor any other DTC nominee will consent or vote with respect to the notes unless authorized by a direct participant in accordance with DTC's procedures. Under its usual procedures, DTC mails an omnibus proxy to us as soon as possible after the record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants to whose accounts notes are credited on the record date.

Redemption proceeds, distributions and interest payments on the notes will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit direct participants' accounts upon DTC's receipt of funds and corresponding detail information from us or the exchange agent on the payable date in accordance with their respective holdings shown on DTC's records. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, DTC may discontinue providing its services as depository with respect to the notes at any time by giving reasonable notice to us or the exchange agent.

Under such circumstances, in the event that a successor depository is not obtained, certificates representing the affected notes are required to be printed and delivered. In addition, we may decide to discontinue use of the system of book-entry transfers through DTC or a successor securities depository with respect to the notes. In that event, certificates representing the notes will be printed and delivered.

Similar to DTC, Euroclear and Clearstream hold securities for participating organizations. They also facilitate the clearance and settlement of securities transactions between their respective participants through electronic book-entry changes in the accounts of such participants. Euroclear and Clearstream provide various services to their participants, including the safekeeping, administration, clearance, settlement, lending and borrowing of internationally traded securities. Euroclear and Clearstream interface with domestic securities markets. Euroclear and Clearstream participants are financial institutions such as underwriters, securities brokers and dealers, banks, trust companies and certain other organizations. Indirect access to Euroclear and Clearstream is also available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Euroclear and Clearstream participant, either directly or indirectly.

---

## Table of Contents

Distributions with respect to notes held beneficially through Euroclear or Clearstream will be credited to the cash accounts of participants in Euroclear or Clearstream, as the case may be, in accordance with their respective procedures, to the extent received by the U.S. depository for Euroclear or Clearstream.

The information in this section concerning DTC, Euroclear and Clearstream have been obtained from sources that we believe to be reliable, but neither we nor the trustee take any responsibility for the accuracy of the information.

### **Global Clearance and Settlement Procedures**

Initial settlement for the notes will be made in immediately available funds. Secondary market trading between participants will occur in the ordinary way in accordance with DTC's rules and will be settled in immediately available funds using DTC's Same-Day Funds Settlement System. Secondary market trading between Clearstream participants and Euroclear participants will occur in the ordinary way in accordance with the applicable rules and operating procedures of Clearstream and Euroclear and will be settled using the procedures applicable to conventional eurobonds in immediately available funds.

Cross-market transfers between persons holding directly or indirectly through DTC on the one hand, and directly or indirectly through Clearstream or Euroclear participants, on the other, will be effected within DTC in accordance with DTC's rules on behalf of the relevant European international clearing system by its U.S. depository; however, such cross-market transactions will require delivery of instructions to the relevant European international clearing system by the participant in such system in accordance with its rules and procedures and within its established deadlines. The relevant European international clearing system will, if the transaction meets its settlement requirements, deliver instructions to its U.S. depository to take action to effect final settlement on its behalf by delivering or receiving notes in DTC, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC. Clearstream participants and Euroclear participants may not deliver instructions directly to their respective U.S. depositories. Because of time-zone differences, credits of notes received in Clearstream or Euroclear as a result of a transaction with a DTC participant will be made during subsequent securities settlement processing and dated the business day following the DTC settlement date. Such credits, or any transactions in the notes settled during such processing, will be reported to the relevant Euroclear participants or Clearstream participants on that business day. Cash received in Clearstream or Euroclear as a result of sales of notes by or through a Clearstream participant or a Euroclear participant to a DTC participant will be received with value on the business day of settlement in DTC but will be available in the relevant Clearstream or Euroclear cash account only as of the business day following DTC settlement in DTC.

Although DTC, Clearstream and Euroclear have agreed to the foregoing procedures in order to facilitate transfers of securities among participants of DTC, Clearstream and Euroclear, they are under no obligation to perform or continue to perform such procedures and they may discontinue the procedures at any time.

**CERTAIN ERISA CONSIDERATIONS**

The Employee Retirement Income Security Act of 1974, as amended (“ERISA”), and the Internal Revenue Code of 1986, as amended (the “Code”), impose certain restrictions on (a) employee benefit plans (as defined in Section 3(3) of ERISA) subject to ERISA, (b) plans (as defined in Section 4975(e)(1) of the Code) subject to Section 4975 of the Code, including individual retirement accounts or Keogh plans, (c) any entities whose underlying assets include “plan assets” under the Plan Asset Regulation (29 C.F.R. Section 2510.3-101), as modified by Section 3(42) of ERISA, (each, a “Plan”) and (d) persons and entities who are fiduciaries with respect to the plans described in (a), (b) and (c) (each, a “Party-in-Interest” under ERISA and “Disqualified Person” under the Code). A Party-in-Interest or Disqualified Person who engages in a non-exempt prohibited transaction may be subject to excise taxes and other penalties and liabilities under ERISA and the Code. Thus, a Plan fiduciary considering a purchase of the notes should consider whether such purchase might constitute or result in a prohibited transaction under ERISA or Section 4975 of the Code, for which no exemption is available.

Section 406 of ERISA and Section 4975 of the Code prohibit certain direct or indirect transactions between Plans and Parties-in-Interest and Disqualified Persons. We and certain of our subsidiaries may be considered Parties-in-Interest or Disqualified Persons with respect to many Plans. Prohibited transactions within the meaning of ERISA or the Code may arise if notes are acquired by or with the assets of a Plan with respect to which we are a Party-in-Interest or Disqualified Person, including, for example, a prohibited loan to us. Certain exemptions from the prohibited transaction rules could be applicable, depending in part upon the type of Plan fiduciary making the decision to acquire the notes and the circumstances under which such decision is made.

The acquisition and holding of the notes may be eligible for one of the exemptions noted below if the acquisition:

- is made solely with the assets of a bank collective investment fund and the acquisition and holding of the notes satisfies the requirements and conditions of Prohibited Transaction Class Exemption (“PTCE”) 91-38 issued by the Department of Labor (“DOL”);
- is made solely with assets of an insurance company pooled separate account and the acquisition and holding of the notes satisfies the requirements and conditions of PTCE 90-1 issued by the DOL;
- is made solely with assets managed by a qualified professional asset manager and the acquisition and holding of the notes satisfies the requirements and conditions of PTCE 84-14 issued by the DOL;
- is made solely with assets of an insurance company general account and the acquisition and holding of the notes satisfies the requirements and conditions of PTCE 95-60 issued by the DOL;
- is made solely with assets managed by an in-house asset manager and the acquisition and holding of the notes satisfies the requirements and conditions of PTCE 96-23 issued by the DOL; or
- is made solely with assets of a Plan and the acquisition and holding of the notes satisfies the requirements and conditions of Section 408(b)(17) of ERISA and Section 4975(d)(20) of the Code (together, the “Service Provider Exemption”).

Governmental plans, foreign and certain church plans, while not subject to the fiduciary responsibility provisions of ERISA or the prohibited transaction provisions of ERISA or Section 4975 of the Code, may nevertheless be subject to local, state, and other federal or non-US laws that are substantially similar to the foregoing provisions of ERISA and the Code, which we refer to as similar law.

By purchasing and holding the notes, the purchaser and any fiduciary of the purchaser advising or effecting its purchase and holding of the notes will be deemed to represent and warrant that either (i) it is not, and is not acquiring the notes on behalf of, or with the assets of, a Plan or a governmental, foreign or church plan subject to any similar law or (ii) on each day the purchaser holds the notes, its acquisition, holding and disposition of the notes will not constitute or result in a non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Code (or in a violation of any similar laws).

UNITED STATES FEDERAL INCOME TAX CONSEQUENCES TO NON-U.S. HOLDERS

**General**

The following discussion is a summary of United States federal income tax considerations generally applicable to the ownership, sale or other disposition of the notes offered hereby by a Non-U.S. Holder (as defined below) who acquired such notes at original issuance at the price indicated on the cover of this prospectus supplement. This summary is based upon United States federal income tax law as of the date hereof, which is subject to change or differing interpretations, possibly with retroactive effect. This summary does not discuss all aspects of United States federal income taxation that may be important to particular investors in light of their individual circumstances, such as investors subject to special tax rules (e.g., certain former citizens and former long-term residents of the United States, “controlled foreign corporations,” and “passive foreign investment companies”), persons that will hold the notes as a part of a broader transaction, or partnerships (as described below), all of whom may be subject to tax rules that differ materially from those summarized below. In addition, this summary does not discuss any foreign, state or local tax considerations. This summary is written for investors that will hold the notes offered hereby as “capital assets” under the Internal Revenue Code of 1986, as amended (the “Code”).

**Prospective purchasers of notes are encouraged to consult their own tax advisors concerning the United States federal income, estate and gift tax consequences to them of acquiring, owning and disposing of notes, as well as the application of any state, local and non-U.S. income and other tax laws.**

For purposes of this summary, a “Non-U.S. Holder” is a beneficial owner of a note that is not, for United States federal income tax purposes, (i) an individual who is a citizen or resident of the United States, (ii) a corporation or other entity treated as a corporation for United States federal income tax purposes, created in or organized under the law of the United States or any state or political subdivision thereof, (iii) an estate the income of which is includible in gross income for United States federal income tax purposes regardless of its source, or (iv) a trust (A) the administration of which is subject to the primary supervision of a United States court and with respect to which one or more United States persons have the authority to control all substantial decisions of the trust, or (B) that has in effect a valid election under applicable United States Treasury regulations to be treated as a United States person. If a partnership (including any entity or arrangement treated as a partnership for United States federal income tax purposes) is a beneficial owner of notes, the treatment of a partner in the partnership will generally depend upon the status of the partner and the activities of the partnership. A holder of notes that is a partnership and partners in such a partnership are urged to consult their tax advisors about the United States federal income tax consequences of holding and disposing of notes.

**Non-U.S. Holders**

The following discussion of the United States federal income and withholding tax considerations of the ownership or disposition of notes by a Non-U.S. Holder assumes that the holder is not engaged in a United States trade or business. For a discussion of certain United States federal income tax considerations for Non-U.S. Holders that are engaged in a United States trade or business, please see the discussion set forth under the heading “—Income Effectively Connected with a United States Trade or Business” below.

**Interest.** All payments of interest will be exempt from United States federal income and withholding tax, *provided* that: (i) such Non-U.S. Holder does not own, actually or constructively, 10% or more of the total combined voting power of all classes of our stock entitled to vote, (ii) such Non-U.S. Holder is not a controlled foreign corporation related, directly or indirectly, to us through stock ownership, and (iii) the beneficial owner of the notes certifies, under penalties of perjury, to us or our paying agent on IRS Form W-8BEN (or appropriate substitute form) that it is not a United States person and provides its name, address and certain other required information or certain other certification requirements are satisfied.

If a Non-U.S. Holder cannot satisfy the requirements described above, payments of interest will be subject to the 30% United States federal withholding tax, unless such Non-U.S. Holder provides us with a properly

executed (i) IRS Form W-8BEN (or appropriate substitute form) claiming an exemption from or reduction in withholding under the benefit of an applicable income tax treaty or (ii) IRS Form W-8ECI (or appropriate substitute form) stating that interest paid or accrued on the notes is not subject to withholding tax because it is effectively connected with the conduct of a trade or business in the United States.

***Sale, Exchange, Retirement or Other Disposition of the Notes.*** Subject to the discussion below concerning backup withholding and except with respect to accrued but unpaid interest, which will be taxable as described above under “—Interest,” a Non-U.S. Holder will generally not be subject to United States federal income or withholding tax on the receipt of payments of principal on a note, or on any gain recognized upon the sale, exchange, retirement or other disposition of a note, unless in the case of gain (i) such gain is effectively connected with the conduct by such Non-U.S. Holder of a trade or business within the United States and, if a treaty applies (and the holder complies with applicable certification and other requirements to claim treaty benefits), is attributable to a permanent establishment maintained by the Non-U.S. Holder within the United States or (ii) such Non-U.S. Holder is an individual who is present in the United States for 183 days or more in the taxable year of disposition, and certain other conditions are met.

***Income Effectively Connected with a United States Trade or Business.*** If a Non-U.S. Holder of notes is engaged in a trade or business in the United States, and if interest on the notes, or gain realized on the sale, exchange, retirement or other disposition of the notes is effectively connected with the conduct of such trade or business, the Non-U.S. Holder will generally be subject to regular United States federal income tax on such income or gain in the same manner as if the Non-U.S. Holder were a United States person unless such Non-U.S. Holder is eligible for treaty benefits. If the Non-U.S. Holder is eligible for the benefits of an income tax treaty between the United States and the holder’s country of residence, any “effectively connected” income or gain will generally be subject to United States federal income tax only if it is also attributable to a permanent establishment or fixed base maintained by the holder in the United States. Payments of interest that are effectively connected with a United States trade or business (and, if an income tax treaty applies, attributable to a permanent establishment or fixed base), and therefore included in the gross income of a Non-U.S. Holder, will not be subject to the 30% withholding tax *provided* that the holder claims exemption from withholding. To claim exemption from withholding, the holder must certify its qualification, which can be done by filing a properly executed IRS Form W-8ECI. In addition, if such a Non-U.S. Holder is a foreign corporation, such holder may also be subject to a branch profits tax equal to 30% (or such lower rate provided by an applicable treaty) of its effectively connected earnings and profits for the taxable year, subject to certain adjustments.

### **Information Reporting and Backup Withholding**

A Non-U.S. Holder may be required to comply with certain certification procedures to establish that the holder is not a United States person in order to avoid backup withholding tax with respect to our payment of principal and interest on, or the proceeds of the sale or other disposition of, a note. Such requirements are generally satisfied by providing a properly executed IRS Form W-8BEN (or appropriate substitute form) described above. Any amounts withheld under the backup withholding rules will be allowed as a refund or a credit against that Non-U.S. Holder’s United States federal income tax liability provided the required information is furnished to the IRS. In certain circumstances, the name and address of the beneficial owner and the amount of interest paid on a note, as well as the amount, if any, of tax withheld, may be reported to the IRS. Copies of these information returns may also be made available under the provisions of a specific treaty or agreement to the tax authorities of the country in which the Non-U.S. Holder resides.

### **The Foreign Account Tax Compliance Act, or FATCA**

FATCA and existing guidance issued thereunder generally require, in certain circumstances, U.S. federal withholding at a rate of 30% on interest payments in respect of, and, for dispositions occurring on or after January 1, 2017, gross proceeds from the disposition of, notes held by or through certain foreign financial institutions (including investment funds and including in certain instances where such institutions are acting as intermediaries), unless such institution (i) enters into, and complies with, an agreement with the IRS to report, on

an annual basis, information with respect to interests in, and accounts maintained by, the institution to the extent such interests or accounts are held by certain U.S. persons and by certain non-U.S. entities that are wholly or partially owned by U.S. persons and to withhold on certain payments, or (ii) if required under an intergovernmental agreement between the U.S. and an applicable foreign country, reports such information to its local tax authority, which will exchange such information with the U.S. authorities. An intergovernmental agreement between the United States and an applicable foreign country, or future Treasury regulations or other guidance, may modify these requirements. Accordingly, the entity through which the notes are held will affect the determination of whether such withholding is required. Similarly, interest in respect of, and gross proceeds from the sale of, the notes held by an investor that is a non-financial non-U.S. entity that does not qualify under certain exemptions will be subject to U.S. federal withholding at a rate of 30%, unless such entity either (i) certifies to us that such entity does not have any “substantial United States owners” or (ii) provides certain information regarding the entity’s “substantial United States owners,” which we will in turn provide to the IRS. We will not pay any additional amounts to holders in respect of any amounts withheld. Holders are encouraged to consult their tax advisors regarding the possible implications of FATCA on their investment in the notes.

### UNDERWRITING

Merrill Lynch, Pierce, Fenner & Smith Incorporated, Morgan Stanley & Co. LLC and Citigroup Global Markets Inc. are acting as joint book-running managers of the offering and as representatives of the underwriters named below.

Subject to the terms and conditions stated in the underwriting agreement dated the date of this prospectus supplement, each underwriter named below has severally agreed to purchase, and we have agreed to sell to that underwriter, the principal amount of the notes set forth opposite the underwriter's name.

<u>Underwriter</u>	<u>Principal Amount of Notes</u>
Merrill Lynch, Pierce, Fenner & Smith Incorporated	\$ 120,000,000
Morgan Stanley & Co. LLC	\$ 120,000,000
Citigroup Global Markets Inc.	\$ 80,000,000
HSBC Securities (USA) Inc.	\$ 26,667,000
J.P. Morgan Securities LLC	\$ 26,667,000
UBS Securities LLC	\$ 26,666,000
Total	\$ 400,000,000

The underwriting agreement provides that the obligations of the underwriters to purchase the notes included in this offering are subject to approval of legal matters by counsel and to other conditions. The underwriters are obligated to purchase all the notes if they purchase any of the notes.

The underwriters propose to offer some of the notes directly to the public at the public offering price set forth on the cover page of this prospectus supplement and some of the notes to dealers at the public offering price less a concession not to exceed 0.40% of the principal amount of the notes. The underwriters may allow, and dealers may reallow a concession not to exceed 0.25% of the principal amount of the notes, on sales to other dealers. After the initial offering of the notes to the public, the representatives may change the public offering price and concessions.

The following table shows the underwriting discounts and commissions that we are to pay to the underwriters in connection with this offering (expressed as a percentage of the principal amount of the notes).

	<u>Paid by Franklin Resources</u>
Per note	0.65%

In connection with the offering of the notes, the joint book-running managers on behalf of the underwriters may purchase and sell notes in the open market. These transactions may include over-allotment, syndicate covering transactions and stabilizing transactions. Over-allotment involves syndicate sales of notes in excess of the principal amount of notes to be purchased by the underwriters in the offering, which creates a syndicate short position. Syndicate covering transactions involve purchases of the notes in the open market after the distribution has been completed in order to cover syndicate short positions. Stabilizing transactions consist of certain bids or purchases of notes made for the purpose of preventing or retarding a decline in the market price of the notes while the offering is in progress.

Any of these activities may have the effect of preventing or retarding a decline in the market price of the notes. They may also cause the price of the notes to be higher than the price that otherwise would exist in the open market in the absence of these transactions. The underwriters may conduct these transactions in the over-the-counter market or otherwise. If the underwriters commence any of these transactions, they may discontinue them at any time.

We estimate that our total expenses for this offering will be approximately \$863,000.

Some of the underwriters and their affiliates have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with us or our affiliates. They have received, or may in the future receive, customary fees and commissions for these transactions.

In addition, in the ordinary course of their business activities, the underwriters and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. Certain of the underwriters or their affiliates that have a lending relationship with us routinely hedge their credit exposure to us consistent with their customary risk management policies. Typically, such underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the notes offered hereby. Any such short positions could adversely affect future trading prices of the notes offered hereby. The underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

A prospectus in electronic format may be made available on the websites maintained by one or more of the underwriters. The representatives may agree to allocate a number of notes to underwriters for sale to their online brokerage account holders. The representatives will allocate notes to underwriters that may make Internet distributions on the same basis as other allocations. In addition, notes may be sold by the underwriters to securities dealers who resell notes to online brokerage account holders.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act of 1933, or to contribute to payments the underwriters may be required to make because of any of those liabilities.

We expanded our business, in part, by acquiring companies engaged in the investment management and/or related services business.

Our principal executive offices are located at One Franklin Parkway, San Mateo, California 94403. Our telephone number is (650) 312-2000.

### RISK FACTORS

Please carefully consider the risk factors described in our periodic reports filed with the SEC, which are incorporated by reference in this prospectus. Before making an investment decision, you should carefully consider these risks as well as other information we include or incorporate by reference in this prospectus or include in any applicable prospectus supplement. Additional risks and uncertainties not presently known to us or that we deem currently immaterial may also impair our business operations or adversely affect our results of operations or financial condition.

### USE OF PROCEEDS

Unless otherwise described in the applicable prospectus supplement, we intend to use the net proceeds from the sale of the securities for general corporate purposes, which may include, but are not limited to, the financing of our operations, the repayment or refinancing of outstanding indebtedness and the financing of acquisitions.

### RATIO OF EARNINGS TO FIXED CHARGES

The following table sets forth our ratio of adjusted earnings to fixed charges for each of the periods indicated:

	Nine Months Ended	Year Ended September 30,				
	June 30, 2012	2011	2010	2009	2008	2007
Ratio of adjusted earnings to fixed charges(a)	39.3x	36.1x	52.5x	45.8x	42.5x	44.9x

- (a) For purposes of calculating the ratio of adjusted earnings to fixed charges, adjusted earnings consist of income before taxes and fixed charges, excluding equity in income of investees, noncontrolling interests of consolidated subsidiaries and capitalized interest, and including dividends received from equity-method investees. Fixed charges consist of interest expense which includes an interest factor on rent calculated as one-third of rental expense (the approximate portion of rental expense representing interest).

## **DESCRIPTION OF DEBT SECURITIES**

We may issue debt securities from time to time in one or more series. Any debt securities offered hereby will be issued under an indenture, dated as of May 19, 1994, as amended and supplemented from time to time, between us and The Bank of New York Mellon Trust Company, N.A., as trustee, referred to as the Trustee. A copy of the indenture is filed as an exhibit to the registration statement, which this prospectus constitutes a part of. The following summaries of certain provisions of the indenture do not purport to be complete and are subject to, and are qualified in their entirety by reference to, all provisions of the indenture, including the definitions therein of certain terms. The particular terms of the debt securities offered by any prospectus supplement will be described in the prospectus supplement.

We are a holding company whose assets consist principally of the stock in our subsidiaries. We are dependent upon the earnings of our subsidiaries and the distribution of those earnings to us or upon the payment of funds to us by those subsidiaries to service our debt obligations. Our rights and the rights of our creditors, including the holders of debt securities, to participate in the assets of any subsidiary upon the subsidiary's liquidation or recapitalization or otherwise will be subject to the prior claims of the subsidiary's creditors, except to the extent that claims as a creditor of the subsidiary may be recognized. Our subsidiaries are separate and distinct legal entities and have no obligation, contingent or otherwise, to pay any amounts due pursuant to the debt securities or to make funds available to us, whether by dividends, loans or other payments. In addition, dividends, loans and advances from certain of our subsidiaries may be restricted by net capital requirements under the Exchange Act and under rules of certain regulatory bodies.

### **General**

The indenture does not limit the aggregate principal amount of debt securities which may be issued thereunder and provides that debt securities may be issued from time to time in one or more series. The debt securities will be our unsecured obligations. Neither the indenture nor the debt securities will limit or otherwise restrict the amount of other indebtedness we may incur or the amount of other securities we or any of our subsidiaries may issue. The debt securities will rank on a parity with all other unsecured unsubordinated indebtedness.

The terms of any particular series of debt securities will be included in a prospectus supplement and will provide for the following:

- the title and series of the debt securities;
- any limit on the aggregate principal amount of the debt securities;
- the price or prices (expressed as a percentage of their aggregate principal amount) at which the debt securities will be issued;
- the maturity date or dates, or the method of determining the maturity date or dates of the debt securities;

- the terms, if any, upon which the holders may convert or exchange the debt securities into or for our common stock, preferred stock or other securities or property; and
- any other terms of the series.

Debt securities may be issued as original issue discount securities to be sold at a substantial discount below their principal amount. In the event of an acceleration of the maturity of any original issue discount security, the amount payable to the holder of the original issue discount security upon such acceleration will be determined in accordance with the applicable prospectus supplement, the terms of such debt security and the indenture, but will be an amount less than the amount payable at the maturity of the principal of such original issue discount security. Special federal income tax and other considerations applicable to the debt security will be described in the related prospectus supplement.

The indenture does not contain any provisions that would limit our ability to incur indebtedness or that would afford holders of debt securities protection in the event of a highly leveraged or similar transaction involving us. Information with respect to any deletions from, modifications of or additions to the events of default described below or our covenants contained in the indenture, including any addition of a covenant or other provision providing event risk or similar protection will be set forth in the prospectus supplement.

### **Registration, Transfer, Payment and Paying Agent**

Unless otherwise indicated in the prospectus supplement, each series of debt securities will be issued in registered form only, without coupons. The indenture, however, provides that we may also issue debt securities in bearer form only, or in both registered and bearer form. Debt securities in bearer form will not be offered, sold, resold or delivered in connection with their original issuance in the United States or to any United States person other than offices located outside the United States of certain United States financial institutions. The term “United States person” means any citizen or resident of the United States, any corporation, partnership or other entity created or organized in or under the laws of the United States, or any estate or trust, the income of which is subject to United States federal income taxation regardless of its source, and “United States” means the United States of America (including the States and the District of Columbia), its territories, its possessions and other areas subject to its jurisdiction. Purchasers of debt securities in bearer form will be subject to certification procedures and may be affected by certain limitations under United States tax laws. These procedures and limitations will be described in the prospectus supplement relating to the offering of the debt securities in bearer form.

Unless otherwise indicated in a prospectus supplement, registered debt securities will be issued in denominations of \$1,000 or any integral multiple thereof and bearer debt securities will be issued in denominations of \$5,000. No service charge will be made for any transfer or exchange of the debt securities, but we may require payment of a sum sufficient to cover any tax or other governmental charge payable in connection with the transfer or the exchange.

Unless otherwise described in the applicable prospectus supplement, the principal, premium, if any, and interest, if any, of or on the debt securities will be payable, and transfer of the debt securities will be registrable, at the corporate trust office of The Bank of New York Mellon Trust Company, N.A., as paying agent and security registrar under the indenture, in The City of New York, New York, provided that payments of interest may be made at our option by check mailed to the address appearing in the security register of the person in whose name such registered debt security is registered at the close of business on the regular record date.

designate from time to time, at the option of the holder, by check or by transfer to an account maintained by the payee with a bank located outside the United States. Unless otherwise indicated in the prospectus supplement, payment of interest and certain additional amounts on debt securities in bearer form will be made only against surrender of the coupon relating to that interest payment date. Except in limited circumstances, no payment with respect to any debt security in bearer form will be made at any office or agency of ours in the United States or by check mailed to any address in the United States or by transfer to an account maintained with a bank located in the United States.

### Global Securities

The debt securities of a series may be issued in whole or in part in the form of one or more global securities, referred to as global debt securities. Global debt securities will be deposited with, or on behalf of, a depository identified in the prospectus supplement relating to the series. Global debt securities may be issued in either registered or bearer form and in either temporary or permanent form. Unless and until it is exchanged in whole or in part for individual certificates evidencing debt securities in definitive form represented thereby, a global debt security may not be transferred except as a whole by the depository for such global debt security to a nominee of such depository or by a nominee of such depository to such depository or another nominee of such depository or by such depository or any such nominee to a successor of such depository or a nominee of such successor.

The specific terms of the depository arrangement with respect to a series of global debt securities and certain limitations and restrictions relating to a series of bearer global debt securities, will be described in the prospectus supplement relating to that series.

### Events of Default

Unless otherwise provided in a prospectus supplement, the following are events of default under the indenture with respect to debt securities of any series:

- failure to pay principal of or any premium on any debt security of that series when due;
- failure to pay any interest on any debt security of that series when due, continued for 30 days;
- failure to deposit any sinking fund payment, when due, in respect of any debt security of that series;
- breach of any other covenant or warranty of ours in the indenture (other than a covenant or warranty included in the indenture solely for the benefit of series of debt securities other than that series), continued for 60 days after a written notice of default is given by the Trustee or the holders of at least 25% in aggregate principal amount of the outstanding debt securities of such series as provided in the indenture;
- certain events in bankruptcy, insolvency or reorganization involving us or any Material Subsidiary (as defined below);
- acceleration of indebtedness of ours or any Material Subsidiary in a principal amount in excess of \$10,000,000 under the terms of the instrument under which such Indebtedness was issued or secured, if such acceleration is not annulled within 30 days after a written notice of default is given by the Trustee or the holders of at least 25% in aggregate principal amount of the outstanding debt securities of such series as provided in the indenture; and
- any other event of default provided with respect to debt securities of that series.

If an event of default with respect to debt securities of any series at the time outstanding occurs and is continuing, either the Trustee or the holders of at least 25% in aggregate principal amount of the outstanding debt securities of that series may declare the principal amount of all the debt securities of that series to be due and payable immediately. At any time after a declaration of acceleration with respect to debt securities of any series has been made, but before a judgment or decree based on acceleration has been obtained, the holders of a

majority in aggregate principal amount of outstanding debt securities of that series may rescind and annul the acceleration, provided that, among other things, all events of default with respect to that series, other than payment defaults caused by such acceleration, have been cured or waived as provided in the indenture.

### Additional Provisions

The indenture provides that, subject to the duty of the Trustee during default to act with the required standard of care, the Trustee will be under no obligation to exercise any of its rights or powers under the indenture at the request or direction of any of the holders, unless such holders shall have offered to the Trustee reasonable security or indemnity. Subject to such provisions for the indemnification of the Trustee and certain other conditions, the holders of a majority in aggregate principal amount of the outstanding debt securities of any series will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the Trustee, or exercising any trust or power conferred on the Trustee, with respect to the debt securities of that series.

No holder of any debt security of any series will have any right to institute any proceeding with respect to the indenture or for any remedy, unless each of the following has occurred:

We are also required to deliver to the Trustee, within five days after the occurrence thereof, written notice of any event which after notice or lapse of time or both would constitute an event or default.

### Outstanding Debt Securities

In determining whether the holders of the requisite principal amount of outstanding debt securities have given any request, demand, authorization, direction, notice, consent or waiver under the indenture, (i) the portion of the principal amount of an original issue discount security that will be deemed to be outstanding for such purposes will be that portion of the principal amount thereof that could be declared to be due and payable upon

The holders of a majority in aggregate principal amount of the outstanding debt securities of each series may, on behalf of all holders of debt securities of that series, waive any past default under the indenture with respect to debt securities of that series, except a default in the payment of principal or any premium or interest, or a default in respect of a provision which under the indenture cannot be modified or amended without the consent of the holder of each affected outstanding debt security of that series.

We and the Trustee may make modification and amendment of the indenture without the consent of any holder for any of the following purposes:

- to evidence the succession of another corporation to us and the assumption by the successor corporation of our covenants under the indenture and the debt securities;

underwriters, with respect to a particular underwritten offering of securities, and will set forth the terms of the transactions, including compensation of the underwriters and dealers and the public offering price, if applicable. The prospectus and the applicable prospectus supplement will be used by the underwriters to resell the securities.

If a dealer is used in the sale of the securities, we or an underwriter will sell the securities to the dealer, as principal. The dealer may then resell the securities to the public at varying prices to be determined by the dealer at the time of resale. To the extent required, we will set forth in the prospectus supplement the name of the dealer and the terms of the transactions.

We may directly solicit offers to purchase the securities and we may make sales of securities directly to institutional investors or others. These persons may be deemed to be underwriters within the meaning of the Securities Act with respect to any resale of the securities. To the extent required, the prospectus supplement will describe the terms of any such sales, including the terms of any bidding or auction process, if used.

Agents, underwriters and dealers may be entitled under agreements which may be entered into with us to indemnification by us against specified liabilities, including liabilities incurred under the Securities Act, or to contribution by us to payments they may be required to make in respect of such liabilities. If required, the prospectus supplement will describe the terms and conditions of such indemnification or contribution. Some of the agents, underwriters or dealers, or their affiliates may be customers of, engage in transactions with or perform services for us or our subsidiaries in the ordinary course of business.

Under the securities laws of some states, the securities offered by this prospectus may be sold in those states only through registered or licensed brokers or dealers.

Any person participating in the distribution of common stock registered under the registration statement that includes this prospectus will be subject to applicable provisions of the Exchange Act, and the applicable SEC rules and regulations, including, among others, Regulation M, which may limit the timing of purchases and sales of any of our common stock by any such person. Furthermore, Regulation M may restrict the ability of any person engaged in the distribution of our common stock to engage in market-making activities with respect to our common stock. These restrictions may affect the marketability of our common stock and the ability of any person or entity to engage in market-making activities with respect to our common stock.

Certain persons participating in an offering may engage in over-allotment, stabilizing transactions, short-covering transactions and penalty bids in accordance with Regulation M under the Exchange Act that stabilize, maintain or otherwise affect the price of the offered securities. If any such activities will occur, they will be described in the applicable prospectus supplement.
