PROSPECTUS SUPPLEMENT SUMMARY

The following summary is qualified in its entirety by the more detailed information included elsewhere or incorporated by reference into this prospectus supplement or the accompanying prospectus. You should read the entire prospectus supplement and the accompanying prospectus, including the information incorporated by reference, before making an investment decision.

Franklin Resources, Inc.

General

We are a holding company that, together with our various subsidiaries, is referred to as Franklin Templeton Investments, a global investment management organization. We are regulated as a bank holding company under the Bank Holding Company Act of 1956, as amended, and we have elected to be a financial holding company under the Gramm-Leach-Bliley Act.

In our primary business and operating segment, investment management and related services, we provide services to investment funds and institutional, high net-worth and separately-managed accounts (collectively, our “sponsored investment products”) in the United States (“U.S.”) and internationally. As of April 30, 2010, we had \$602.5 billion in assets under our management, with approximately 23.2 million billable shareholder accounts worldwide. Our investment management and related services include fund administration, shareholder services, transfer agency, underwriting, distribution, custodial, trustee and other fiduciary services. Our sponsored investment products include a broad range of equity, hybrid, fixed-income and cash management funds and accounts. Cash management funds consist of U.S.-registered money market funds and non-U.S.-registered funds with similar investment objectives. We also manage certain sub-advised investment products, some of which may be sold to the public under our brand names.

The investment funds that we manage have various investment objectives designed to meet the needs and goals of different investors. Most of the investment funds we manage are mutual funds, also known as open-end funds, that continuously offer their shares to investors. We also offer closed-end funds that issue a set number of shares to investors in a public offering and the shares are then traded on a public stock exchange. An open-end fund will typically pay fees to distributors that market and distribute the fund’s shares to broker/dealers who sell the shares directly to investors. Broker/dealers and other intermediaries may earn commissions and receive other compensation with respect to the shares sold to investors.

In our secondary business and operating segment, banking/finance, we provide clients with select retail banking, private banking and consumer lending services through our bank subsidiaries.

Franklin Templeton Investments and its predecessors have been engaged in the investment management and related services business since 1947. Franklin Resources, Inc. was incorporated in Delaware in November 1969. We originated our mutual fund business with the Franklin family of funds, which is now known as the Franklin Funds. We expanded our business, in part, by acquiring companies engaged in the investment management and/or related services business.

The financial services industry is highly competitive and has increasingly become a global industry. We believe that we are one of the more widely diversified asset managers based in the United States. We believe that our equity and fixed-income asset mix coupled with our global presence will serve our competitive needs well over the long term. We continue to focus on the performance of our investment products, service to customers and extensive marketing activities through our strong broker/dealer and other financial institution distribution

network as well as with high net-worth and institutional customers. We believe that performance, diversity of products and customer service, along with fees and costs, are the primary drivers of competition in the asset management industry.

Our common stock is traded on the New York Stock Exchange under the trading symbol “BEN”, and is included in the Standard & Poor’s 500 Index. The “Franklin ® Templeton ® Investments” brand name refers to Franklin Resources, Inc. and its subsidiaries.

Our principal executive offices are located at One Franklin Parkway, San Mateo, California 94403. Our telephone number is (650) 312-2000.

Recent Developments

We have a \$420.0 million five-year revolving credit facility with certain banks and financial institutions that expires on June 9, 2010. There are currently no amounts outstanding, and we have never borrowed under this facility. We have decided, at present, not to renew this facility, after considering the costs relative to the potential benefits of maintaining such a facility. We believe that we have sufficient sources of liquidity, including our existing cash and investments, the proceeds of the offering of the notes, our operating cash flow, commercial paper program, existing lines of credit, and possible future capital markets transactions, to fund our liquidity needs.

Table of Contents

| The Offering | |
|------------------------|--|
| Issuer | Franklin Resources, Inc. |
| Securities Offered | \$300,000,000 aggregate principal amount of 2.000% Notes due 2013. \$250,000,000 aggregate principal amount of 3.125% Notes due 2015. \$350,000,000 aggregate principal amount of 4.625% Notes due 2020. |
| Interest Rate | 2.000% per year for the 2013 notes. 3.125% per year for the 2015 notes. 4.625% per year for the 2020 notes. |
| Interest Payment Dates | May 20 and November 20 of each year, beginning November 20, 2010 for each series of the notes. |
| Maturity | May 20, 2013, in the case of the 2013 notes. May 20, 2015, in the case of the 2015 notes. May 20, 2020, in the case of the 2020 notes. |
| Redemption of Notes | The notes of each series may be redeemed prior to maturity in whole or in part at any time, at our option, at a “make-whole” redemption price. In the case of any such redemption, we will also pay accrued and unpaid interest, if any, to the redemption date. For more detailed information on the calculation of the redemption price, see “Description of the Notes—Optional Redemption of Notes.” |
| Ranking | <p>The notes of each series will be unsecured and unsubordinated obligations of Franklin Resources, Inc. and will rank equal in right of payment with all its existing and future unsecured and unsubordinated indebtedness.</p> <p>We are a holding company and, accordingly, substantially all of our operations are conducted through our subsidiaries. As a result, our debt is “structurally subordinated” to all existing and future debt, trade creditors and other liabilities of our subsidiaries. Our rights, and hence the rights of our creditors, including holders of the notes, to participate in any distribution of assets of any subsidiary upon its liquidation or reorganization or otherwise would be subject to the prior claims of that subsidiary’s creditors, except to the extent that our claims as a creditor of such subsidiary may be recognized. As of March 31, 2010, after giving effect to the issuance of the notes offered hereby but not the application of the proceeds as described under “Use of Proceeds,” we would have had approximately \$286.0 million of indebtedness outstanding that ranks equally with the notes, and our subsidiaries would have had approximately \$66 million of indebtedness that will be “structurally senior” to the notes. See “Capitalization.”</p> |

| | |
|-----------------------|--|
| Covenants | The indenture pursuant to which the notes will be issued, as supplemented, or the indenture, will contain limitations on our ability and the ability of our subsidiaries to pledge voting stock or profit participating equity interests in our subsidiaries to secure other debt without also similarly securing the notes equally and ratably. The indenture also includes requirements that must be met if we consolidate or merge with, or sell all or substantially all of our assets to, another entity. |
| Trustee | The Bank of New York Mellon Trust Company, N.A. |
| Additional Notes | From time to time, without the consent of the holders of the notes of any series, we may issue additional debt securities having the same ranking and the same interest rate, maturity and other terms as any series of the notes. Any additional debt securities having those similar terms, together with the previously issued 2013 notes, 2015 notes, 2020 notes, as the case may be, will constitute a single series of debt securities under the indenture. |
| Use of Proceeds | We intend to use the proceeds of this offering for general corporate purposes, which may include repayment of previously issued commercial paper. |
| Events of Default | The notes contain customary events of default. See “Description of Debt Securities—Events of Default” in the accompanying base prospectus and “Description of the Debt Securities—Events of Default” for additional events of default pertaining to the notes. |

The 2020 notes will initially be limited to \$350,000,000 in aggregate principal amount. The notes of each series will be issued in fully registered form only, in denominations of \$2,000 and integral multiples of \$1,000 in excess thereof. |
| Risk Factors | Investing in the notes of any series involves substantial risks. See “Risk Factors” beginning on page S-8 for a description of certain risks that you should consider before investing in the notes of any series. |

SUMMARY HISTORICAL FINANCIAL AND OTHER DATA

The following table presents our summary historical financial and other data as of and for the fiscal years ended September 30, 2007, 2008 and 2009 and as of and for the six months ended March 31, 2009 and 2010. We derived the summary financial data as of and for the fiscal years ended September 30, 2007, 2008 and 2009 from our audited consolidated financial statements. The summary financial data as of and for the six months ended March 31, 2009 and 2010 have been derived from our unaudited consolidated financial statements which, in the opinion of management, have been prepared on the same basis as the annual audited consolidated financial statements and include all adjustments, consisting only of normal recurring adjustments, necessary for a fair statement of the results for the unaudited interim periods presented. You should read this data along with our consolidated financial statements and the related notes incorporated in this prospectus supplement by reference and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” incorporated in this prospectus supplement by reference. See “Incorporation by Reference.” The results of interim periods are not necessarily indicative of results that may be expected for the full year.

RISK FACTORS

You should carefully consider the following risks and the specific risks described in our Annual Report on Form 10-K for the fiscal year ended September 30, 2009 and any risk factors set forth in our other filings with the SEC pursuant to Sections 13(a), 13(c) or 15(d) of the Exchange Act before making an investment decision.

Risks Related to the Notes

Our holding company structure results in structural subordination of our debt and may affect our ability to make payments on notes.

The notes are obligations exclusively of Franklin Resources, Inc. We are a holding company and, accordingly, substantially all of our operations are conducted through our subsidiaries. As a result, our cash flow and our ability to service our debt, including the notes, depend upon the earnings of our subsidiaries. In addition, we depend on the distribution of earnings, loans or other payments by our subsidiaries to us.

Our subsidiaries are separate and distinct legal entities. Our subsidiaries have no obligation to pay any amounts due on the notes or to provide us with funds for our payment obligations. In addition, any payment of dividends, distributions, loans or advances by our subsidiaries to us could be subject to statutory or contractual restrictions, including regulatory capital requirements. Payments to us by our subsidiaries will also be contingent upon our subsidiaries' earnings and business considerations. Our right to receive any assets of any of our subsidiaries, as an equity holder of such subsidiaries, upon their liquidation or reorganization, and therefore the right of the holders of the notes to participate in those assets, will be effectively subordinated to the claims of that subsidiary's creditors, including trade creditors, and to that subsidiary's preferred stockholders, if any. The notes do not restrict the ability of our subsidiaries to incur additional indebtedness or issue preferred stock. In addition, the notes are unsecured. Thus, even if we were a creditor of any of our subsidiaries, our rights as a creditor would be subordinate to any security interest in the assets of our subsidiaries and any indebtedness of our subsidiaries senior to that held by us.

We may issue additional notes.

Under the terms of the indenture, we may from time to time without notice to, or the consent of, the holders of the notes, create and issue additional notes of a new or existing series, which notes, if of an existing series, will be equal in rank to the notes of that series in all material respects, and the new notes may be consolidated and form a single series with such notes and have the same terms as to status, redemption or otherwise as such notes.

The notes do not restrict our ability to incur additional debt or to take other actions that could negatively affect holders of the notes.

We are not restricted under the terms of the notes from incurring additional unsecured indebtedness, including other senior indebtedness and while the covenants applicable to the notes restrict our ability to incur certain types of secured indebtedness, those restrictions are subject to various important limitations and exceptions. In addition, the limited covenants applicable to the notes do not restrict our ability to pay dividends, issue or repurchase stock or other securities or require us to achieve or maintain any minimum financial results relating to our financial position or results of operations. In addition, the notes will not be subject to redemption or repurchase upon a change of control. Our ability to recapitalize, incur additional debt and take a number of other actions that are not limited by the terms of the notes could have the effect of diminishing our ability to make payments on the notes when due. Although the notes do not contain such financial and other restrictive covenants, future indebtedness could include such covenants. If we incur additional indebtedness or other liabilities, our ability to pay our obligations on our outstanding indebtedness could be adversely affected.

Table of Contents

Our management has broad discretion over the use of proceeds from the offering.

We intend to use the net proceeds of this offering for general corporate purposes. Therefore, we will retain broad discretion over the use of the proceeds from this offering and may use them for purposes other than those contemplated at the time of this offering. You may not agree with the ways we decide to use these proceeds, and our use of the proceeds may not yield any profits. See “Use of Proceeds.”

There are no public markets for the notes.

We have not applied and do not intend to apply for listing of the notes of any series on any securities exchange or automated quotation system. As a result, we can give no assurances concerning the liquidity of any markets that may develop for the notes offered hereby, your ability to sell the notes, or the price at which you would be able to sell them. If markets for the notes do not develop, you may be unable to resell the notes for an extended period of time, if at all. If markets for the notes do develop, they may not continue or they may not be sufficiently liquid to allow holders to resell any of the notes. Consequently, you may not be able to liquidate your investment readily, and lenders may not readily accept the notes as collateral for loans.

The market prices of the notes may be volatile.

The market price of the notes of each series will depend on many factors that may vary over time and some of which are beyond our control, including our financial performance, the amount of indebtedness we and our subsidiaries have outstanding, market interest rates, the market for similar securities, competition and general economic conditions. The capital and credit markets have experienced substantial volatility and disruption during the past fiscal year.

As a result of these factors, you may only be able to sell your notes at prices below those you believe to be appropriate, including prices below the prices you paid for them.

An increase in interest rates could result in a decrease in the relative value of the notes.

In general, as market interest rates rise, notes bearing interest at a fixed rate generally decline in value because the premium, if any, over market interest rates will decline. Consequently, if you purchase the notes and market interest rates increase, the market value of your notes may decline. We cannot predict the future level of market interest rates.

Ratings of the notes may not reflect all risks of an investment in the notes.

We expect that the notes of each series will be rated by at least one nationally recognized statistical rating organization. The ratings of the notes will primarily reflect our financial strength and will change in accordance with the rating of our financial strength. Any rating is not a recommendation to purchase, sell, or hold the notes. The ratings do not correspond to market price or suitability for a particular investor. In addition, ratings at any time may be lowered or withdrawn in their entirety.

USE OF PROCEEDS

We estimate the net proceeds to us from the sale of the notes will be approximately \$892,100,500, after deducting the underwriting discount and the other expenses of the offering payable by us. We intend to use the net proceeds of this offering for general corporate purposes, which may include repayment of previously issued commercial paper.

RATIO OF EARNINGS TO FIXED CHARGES

The following table sets forth our ratio of adjusted earnings to fixed charges for each of the periods indicated:

| Ratio of adjusted earnings to fixed charges (a) | 63.5x | 25.2x | 45.8x | 42.5x | 44.9x | 31.1x | 25.1x |

- (a) For purposes of calculating the ratio of adjusted earnings to fixed charges, adjusted earnings consist of income before taxes and fixed charges, excluding equity in income of investees, minority interest in earnings of consolidated subsidiaries and capitalized interest and including dividends received from equity-method investees. Fixed charges consist of interest expense which includes an interest factor on rent calculated as one-third of rental expense (the approximate portion of rental expense representing interest).

On a pro forma basis giving effect to the issuance of (i) \$300,000,000 principal amount of notes offered hereby at an interest rate of 2.000% per annum, (ii) \$250,000,000 principal amount of notes offered hereby at an interest rate of 3.125% per annum and (iii) \$350,000,000 principal amount of notes offered hereby at an interest rate of 4.625% per annum, our ratio of adjusted earnings to fixed charges for the year ended September 30, 2009 and the six months ended March 31, 2010 would have been 22.3x and 32.7x, respectively.

DESCRIPTION OF THE NOTES

Set forth below is a description of the specific terms of the notes. This description supplements, and should be read together with, the description of the general terms and provisions of the debt securities set forth in the accompanying base prospectus under the caption "Description of Debt Securities". In addition to reading the description of debt securities in the base prospectus and the description of the notes in this prospectus supplement, you should also read the indenture, as supplemented, under which the notes are to be issued. If the description of the notes in this prospectus supplement differs from the description of debt securities in the base prospectus, the description of the notes in this prospectus supplement supersedes the description of debt securities in the base prospectus. When we refer in this section, to "Franklin Resources", "we", "us", "our" "our company" or "the company", we are referring only to Franklin Resources, Inc. and not to its direct or indirect subsidiaries.

General

The 2013 notes will initially be limited to \$300,000,000 in aggregate principal amount. The 2015 notes will initially be limited to \$250,000,000 in aggregate principal amount. The 2020 notes will initially be limited to \$350,000,000 in aggregate principal amount. The notes of each series will be issued in fully registered form only, in denominations of \$2,000 and integral multiples of \$1,000 in excess thereof. The 2013 notes will mature on May 20, 2013. The 2015 notes will mature on May 20, 2015. The 2020 notes will mature on May 20, 2020.

Each of the notes will be issued as a series of debt securities under the indenture referred to in the accompanying base prospectus. The indenture does not limit the amount of other debt that we may incur. We may, from time to time, without the consent of the holders of the notes of any series, issue other debt securities under the indenture in addition to the \$300,000,000 aggregate principal amount of the 2013 notes, the \$250,000,000 aggregate principal amount of the 2015 notes, and the \$350,000,000 aggregate principal amount of the 2020 notes. We may also, from time to time, without the consent of the holders of the notes of any series issue additional debt securities having the same ranking and the same interest rate, maturity and other terms as the notes of any series. Any additional debt securities having those similar terms, together with the previously issued 2013 notes, 2015 notes or 2020 notes, as the case may be, will constitute a single series of debt securities under the indenture.

The 2013 notes will bear interest from May 20, 2010, at the annual rate of 2.000%. The 2015 notes will bear interest from May 20, 2010, at the annual rate of 3.125%. The 2020 notes will bear interest from May 20, 2010, at the annual rate of 4.625%. Interest on the notes will be payable semi-annually on May 20 and November 20 of each year, commencing November 20, 2010, to the persons in whose names the notes are registered at the close of business on the immediately preceding May 1 and November 1, respectively, subject to certain exceptions. The amount of interest payable on the notes will be computed on the basis of a 360-day year consisting of twelve 30-day months.

If any interest payment date or the maturity date of the notes is not a business day, then the related payment of interest and/or principal on such date will be paid on the next succeeding business day with the same force and effect as if made on such interest payment date or maturity date and no further interest will accrue in respect of the delay.

The 2013 notes, the 2015 notes and the 2020 notes will be unsecured and unsubordinated obligations of Franklin Resources and will rank equal in right of payment to all our other unsubordinated indebtedness.

The notes do not provide for any sinking fund.

Optional Redemption of Notes

The notes of each series will be redeemable as a whole or in part, at our option at any time, at a redemption price, equal to the greater of (i) 100% of the principal amount of the notes to be redeemed and (ii) the sum of the present values of the remaining scheduled payments of principal and interest thereon (exclusive of interest accrued to the date of redemption) discounted to the redemption date on a semiannual basis (assuming a 360-day year consisting of twelve 30-day months) at the Treasury Rate plus 15 basis points in the case of the 2013 notes, 20 basis points in the case of the 2015 notes and 25 basis points in the case of the 2020 notes, plus in each case, accrued interest thereon to the date of redemption.

“Treasury Rate” means, with respect to any redemption date, the rate per annum equal to the semiannual equivalent yield to maturity or interpolated (on a day count basis) of the Comparable Treasury Issue, assuming a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for such redemption date.

“Comparable Treasury Issue” means the United States Treasury security or securities selected by an Independent Investment Banker as having an actual or interpolated maturity comparable to the remaining term of the notes to be redeemed that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of a comparable maturity to the remaining term of such notes.

“Independent Investment Banker” means one of the Reference Treasury Dealers appointed by us.

“Comparable Treasury Price” means, with respect to any redemption date, (A) the average of the Reference Treasury Dealer Quotations for such redemption date, after excluding the highest and lowest such Reference Treasury Dealer Quotations, or (B) if the trustee obtains fewer than four such Reference Treasury Dealer Quotations, the average of all such quotations.

“Reference Treasury Dealer Quotations” means, with respect to each Reference Treasury Dealer and any redemption date, the average, as determined by us, of the bid and asked prices for the Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing to the Trustee by such Reference Treasury Dealer at 3:30 p.m. New York time on the third business day preceding such redemption date.

“Reference Treasury Dealer” means each of Banc of America Securities LLC and Morgan Stanley & Co. Incorporated or their respective affiliates which are primary U.S. government securities dealers, and their respective successors; provided, however, that if any of the foregoing or their affiliates shall cease to be a primary U.S. government securities dealer in The City of New York (a “Primary Treasury Dealer”), we shall substitute therefor another Primary Treasury Dealer.

Notice of any redemption will be given by us or, at our request, by the trustee in our name and at our expense at least 30 days but not more than 60 days before the redemption date to each holder of the notes.

Unless we default in payment of the redemption price, on and after the redemption date interest will cease to accrue on the notes or portions thereof called for redemption.

Ranking

The notes of each series are our obligations exclusively, and are not obligations of our subsidiaries. We are a holding company and, accordingly, substantially all of our operations are conducted through our subsidiaries. As a result, our cash flow and our ability to service our debt, including the notes, depend upon the earnings of our subsidiaries. In addition, we depend on the distribution of earnings, loans or other payments by our subsidiaries to us.

Table of Contents

Our subsidiaries are separate and distinct legal entities. Our subsidiaries have no obligation to pay any amounts due on the notes of any series or to provide us with funds for our payment obligations. In addition, any payment of dividends, distributions, loans or advances by our subsidiaries to us could be subject to statutory or contractual restrictions. Payments due to us by our subsidiaries will also be contingent upon our subsidiaries' earnings and business considerations.

Our right to receive any assets of any of our subsidiaries, as an equity holder of such subsidiaries, upon their liquidation or reorganization, and therefore the right of the holders of the notes of any series to participate in those assets, would be structurally subordinated to the claims of that subsidiary's creditors, including trade creditors. None of the series of notes restrict the ability of our subsidiaries to incur additional indebtedness. In addition, the notes are unsecured. Thus, even if we were a creditor of any of our subsidiaries, our rights as a creditor would be subordinate to any security interest in the assets of our subsidiaries and any indebtedness of our subsidiaries senior to that held by us.

Limitations on Liens

The indenture will provide that Franklin Resources will not, and will not cause or permit any Included Subsidiary to, create, assume, incur or guarantee any indebtedness for money borrowed that is secured by a pledge, mortgage or other lien on any voting stock or profit participating equity interests of our Included Subsidiaries or any entity that succeeds (whether by merger, consolidation, sale of assets or otherwise) to all or any substantial part of the business of our Included Subsidiaries, without providing that the notes (together with, if we shall so determine, any other indebtedness of, or guarantee by, us ranking equally with the notes and existing as of the closing of the offering of the notes or thereafter created) will be secured equally and ratably with or prior to all other indebtedness secured by such pledge, mortgage or other lien on the voting stock or profit participating equity interests of our Included Subsidiaries. This covenant will not apply to (a) liens existing at the time an entity becomes a Subsidiary of Franklin Resources or is merged into Franklin Resources or a subsidiary of Franklin Resources, (b) statutory liens, liens granted to comply with regulatory requirements, liens for taxes or assessments or governmental charges or levies not yet due or delinquent or which can be paid without penalty or are being contested in good faith, (c) liens on any voting stock or profit participating equity interests of any Subsidiary of Franklin Resources that is acquired after the date of issuance of the notes to secure or provide for the payment of the purchase price or acquisition cost thereof, (d) liens in favor of Franklin Resources or any subsidiary, (e) liens in existence on the date of issuance of the notes, (f) liens (not otherwise permitted under this covenant) which secure obligations in an aggregate amount at any one time outstanding not exceeding 7% of the Consolidated Net Worth, measured at the time of the creation, incurrence or assumption of any such lien and based upon the Consolidated Net Worth as at the end of the most recently completed fiscal quarter of Franklin Resources for which financial statements are publicly available, and (g) any extension, renewal, substitution, refinancing or replacement (or successive extensions, renewals, substitutions or replacements), in whole or in part, of any lien referred to in the foregoing clauses (a), (c) and (e) that is secured by the same collateral that originally secured the lien.

"Consolidated Net Worth" means, at a particular date, all amounts which would be included, under stockholders' equity, on a consolidated balance sheet of Franklin Resources and its Included Subsidiaries determined on a consolidated basis in accordance with GAAP as at such date.

"GAAP" means generally accepted accounting principles in the United States of America in effect from time to time.

"Included Subsidiary" means any Subsidiary of Franklin Resources other than any Banking Subsidiary, Finance Subsidiary, Insurance Subsidiary or Real Estate Subsidiary.

"Banking Subsidiary" means, at any time, Fiduciary Trust Company International, Franklin Templeton Bank and Trust Company, F.S.B. or any other Subsidiary of Franklin Resources licensed to engage, and principally engaged, at such time in the banking or trust business or any Subsidiary of any such Subsidiary.

Table of Contents

“Finance Subsidiary” means Franklin Capital Corporation or any other Subsidiary of Franklin Resources created for the sole purpose of acting as a finance or securitization subsidiary.

“Insurance Subsidiary” means, at any time any Subsidiary of Franklin Resources licensed to engage, and principally engaged, at such time in the insurance business or any Subsidiary of such Subsidiary.

“Real Estate Subsidiary” means, at any time any Subsidiary of Franklin Resources principally engaged at such time in the real estate investment and property management business or any Subsidiary of any such Subsidiary.

“Subsidiary” means, as to any person at any time of determination, a corporation, partnership or other entity (other than any Fund or any other investment company or similar investment entity existing under foreign law substantially equivalent to an investment company) of which shares of stock or other ownership interests having ordinary voting power (other than stock or such other ownership interests having such power only by reason of the happening of a contingency) to elect a majority of the board of directors or other managers of such corporation, partnership or other entity are at the time owned, or the management of which is otherwise controlled, directly or indirectly through one or more intermediaries or Subsidiaries, or both, by such person. “Funds” means the collective reference to all investment companies advised by Franklin Resources or any of its Subsidiaries.

This covenant will not limit our ability or the ability of our subsidiaries to incur indebtedness or other obligations secured by liens on assets other than the voting stock or profit participating equity interests of our Included Subsidiaries.

Events of Default

The notes of each series contain customary events of default, including in the non-payment of interest or principal. See “Description of Debt Securities—Events of Default” in the accompanying base prospectus. In addition, in lieu of the events of default set forth in the fifth and sixth bullets of the first paragraph of the section of the accompanying base prospectus entitled “Description of Debt Securities—Events of Default”, the following shall constitute events of default with respect to the notes of each series:

- certain events of bankruptcy, insolvency or reorganization involving us or any Significant Subsidiary (as defined below), including the entry of any court order or decree related to these events; and
- acceleration of indebtedness of Franklin Resources or any Significant Subsidiary, or failure to pay any such debt at maturity, in a principal amount in excess of \$75 million under the terms of the instrument under which such indebtedness was issued or secured, if such acceleration is not annulled within 30 days after a written notice of default is given by the Trustee or the holders of at least 25% in aggregate principal amount of the outstanding debt securities of such series as provided in the indenture.

“Significant Subsidiary” means any subsidiary that would be a “significant subsidiary” of Franklin Resources within the meaning of Rule 1-02 under Regulation S-X promulgated by the SEC.

Legal Defeasance or Covenant Defeasance

The indenture provides that, subject to certain conditions, we may elect, at any time, to terminate all of our obligations under the notes and the indenture, except for certain obligations, including those relating to the defeasance trust and obligations to register the transfer or exchange of the notes, to replace mutilated, destroyed, lost or stolen notes and to maintain a registrar and paying agent in respect of the notes. We refer to this as “legal

Table of Contents

defeasance.” We may also elect, at any time, to terminate our obligations under the covenants described under, “—Limitations on Liens” and the bankruptcy provisions with respect to Significant Subsidiaries described under “—Events of Default” above. We refer to this as “covenant defeasance.”

In order to exercise our defeasance options with respect to the notes of any series, we must irrevocably deposit in trust for the benefit of the holders of the relevant notes money or certain U.S. government obligations, or both, for the payment of principal of, premium, if any, and interest on the relevant notes to maturity or redemption. We must comply with certain other conditions, including delivery to the Trustee of an opinion of counsel to the effect that the holders and beneficial owners of the notes of that series will not recognize income, gain or loss for U.S. federal income tax purposes as a result of that defeasance and will be subject to federal income tax on the same amounts, in the same manner and at the same times as would have been the case if the defeasance had not occurred. In the case of a legal defeasance, the opinion must refer to and be based on (a) our receipt from, or the publication by, the U.S. Internal Revenue Service of a ruling, or (b) a change in the applicable U.S. federal income tax law since the date of the indenture.

Modification

The provisions of the indenture relating to amendment and modification described in the section of the accompanying prospectus entitled “Description of Debt Securities—Modification and Waiver” shall apply to the notes, except that references to any requirement for the consent of holders of not less than 66-2/3% in principal amount of the “outstanding debt securities” shall, insofar as they apply to the notes, require the consent of holders of not less than a majority in aggregate principal amount of the outstanding notes.

Book-Entry System; Delivery and Form

The notes will be issued in the form of one or more fully registered global securities which will be deposited with, or on behalf of, The Depository Trust Company, New York, New York, which we refer to as DTC, and registered in the name of Cede & Co., DTC’s nominee. We will not issue notes in certificated form. Beneficial interests in the global securities will be represented through book-entry accounts of financial institutions acting on behalf of beneficial owners as direct and indirect participants in DTC. Investors may elect to hold interests in the global securities through either DTC in the United States, or Clearstream Banking, S.A. or Euroclear Bank S.A./N.V., as operator of the Euroclear System in Europe, referred to as Clearstream and Euroclear, if they are participants of those systems, or, indirectly, through organizations that are participants in those systems. Clearstream and Euroclear will hold interests on behalf of their participants through customers’ securities accounts in Clearstream’s and Euroclear’s names on the books of their respective depositories, which in turn will hold such interests in customers’ securities accounts in the depositories’ names on the books of DTC. Beneficial interests in the global securities will be held in denominations of \$2,000 and integral multiples of \$1,000 in excess thereof. Except as set forth below, the global securities may be transferred, in whole but not in part, only to another nominee of DTC or to a successor to DTC or its nominee.

DTC, the world’s largest depository, is a limited-purpose trust company organized under the New York Banking Law, a banking organization within the meaning of the New York Banking Law, a member of the Federal Reserve System, a clearing corporation within the meaning of the New York Uniform Commercial Code, and a clearing agency registered pursuant to the provisions of Section 17A of the Exchange Act. DTC holds and provides asset servicing for issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments that DTC’s participants, which we refer to as direct participants, deposit with DTC. DTC also facilitates the post-trade settlement among direct participants of sales and other securities transactions in deposited securities through electronic computerized book-entry transfers and pledges between direct participants’ accounts. This eliminates the need for physical movement of securities certificates. Direct participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. Access to the DTC system also is available to others, such as U.S.

Table of Contents

and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations, that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. We refer to those entities as indirect participants.

Purchases of notes under the DTC system must be made by or through direct participants, who receive a credit for the notes on DTC's records. The ownership interest of each actual purchaser of each note, who we refer to as a beneficial owner, is in turn recorded on the direct and indirect participants' records. Beneficial owners will not receive written confirmation from DTC of their purchase. Beneficial owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct or indirect participants through which the beneficial owner entered into the transaction. Transfers of ownership interests in the notes will be accomplished by entries made on the books of direct and indirect participants acting on behalf of beneficial owners. Beneficial owners will not receive certificates representing their ownership interests in the notes, except in the event that use of the book entry system for the notes is discontinued.

To facilitate subsequent transfers, all notes deposited by direct participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of notes with DTC and their registration in the name of Cede & Co. or another DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the notes. DTC's records reflect only the identity of the direct participants to whose accounts the notes are credited, which may or may not be the beneficial owners. The direct and indirect participants remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Redemption notices will be sent to DTC. If less than all of the notes are being redeemed, DTC's practice is to determine by lot the amount of the interest of each direct participant in the notes to be redeemed.

Neither DTC, Cede & Co. nor any other DTC nominee will consent or vote with respect to the notes unless authorized by a direct participant in accordance with DTC's procedures. Under its usual procedures, DTC mails an omnibus proxy to us as soon as possible after the record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants to whose accounts notes are credited on the record date.

Redemption proceeds, distributions and interest payments on the notes will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit direct participants' accounts upon DTC's receipt of funds and corresponding detail information from us or the exchange agent on the payable date in accordance with their respective holdings shown on DTC's records. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in street name, and will be the responsibility of such participant and not of DTC or its nominee, us, the trustee or the exchange agent, subject to any statutory or regulatory requirements in effect from time to time. Payment of redemption proceeds, distributions, and dividend payments to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC, is the responsibility of us or the exchange agent. Disbursement of such payments to direct participants will be the responsibility of DTC, and disbursement of such payments to the beneficial owners will be the responsibility of direct and indirect participants.

DTC may discontinue providing its services as depository with respect to the notes at any time by giving reasonable notice to us or the exchange agent. Under such circumstances, in the event that a successor depository is not obtained, certificates representing the affected notes are required to be printed and delivered. In addition,

Table of Contents

we may decide to discontinue use of the system of book-entry transfers through DTC or a successor securities depository with respect to the notes. In that event, certificates representing the notes will be printed and delivered.

Similar to DTC, Euroclear and Clearstream hold securities for participating organizations. They also facilitate the clearance and settlement of securities transactions between their respective participants through electronic book-entry changes in the accounts of such participants. Euroclear and Clearstream provide various services to their participants, including the safekeeping, administration, clearance, settlement, lending and borrowing of internationally traded securities. Euroclear and Clearstream interface with domestic securities markets. Euroclear and Clearstream participants are financial institutions such as underwriters, securities brokers and dealers, banks, trust companies and certain other organizations. Indirect access to Euroclear and Clearstream is also available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Euroclear and Clearstream participant, either directly or indirectly.

Distributions with respect to notes held beneficially through Euroclear or Clearstream will be credited to the cash accounts of participants in Euroclear or Clearstream, as the case may be, in accordance with their respective procedures, to the extent received by the U.S. depository for Euroclear or Clearstream.

The information in this section concerning DTC, Euroclear and Clearstream have been obtained from sources that we believe to be reliable, but neither we nor the trustee take any responsibility for the accuracy of the information.

Global Clearance and Settlement Procedures

Initial settlement for the notes will be made in immediately available funds. Secondary market trading between participants will occur in the ordinary way in accordance with DTC's rules and will be settled in immediately available funds using DTC's Same-Day Funds Settlement System. Secondary market trading between Clearstream participants and Euroclear participants will occur in the ordinary way in accordance with the applicable rules and operating procedures of Clearstream and Euroclear and will be settled using the procedures applicable to conventional eurobonds in immediately available funds.

Cross-market transfers between persons holding directly or indirectly through DTC on the one hand, and directly or indirectly through Clearstream or Euroclear participants, on the other, will be effected within DTC in accordance with DTC's rules on behalf of the relevant European international clearing system by its U.S. depository; however, such cross-market transactions will require delivery of instructions to the relevant European international clearing system by the participant in such system in accordance with its rules and procedures and within its established deadlines. The relevant European international clearing system will, if the transaction meets its settlement requirements, deliver instructions to its U.S. depository to take action to effect final settlement on its behalf by delivering or receiving notes in DTC, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC. Clearstream participants and Euroclear participants may not deliver instructions directly to their respective U.S. depositories. Because of time-zone differences, credits of notes received in Clearstream or Euroclear as a result of a transaction with a DTC participant will be made during subsequent securities settlement processing and dated the business day following the DTC settlement date. Such credits, or any transactions in the notes settled during such processing, will be reported to the relevant Euroclear participants or Clearstream participants on that business day. Cash received in Clearstream or Euroclear as a result of sales of notes by or through a Clearstream participant or a Euroclear participant to a DTC participant will be received with value on the business day of settlement in DTC but will be available in the relevant Clearstream or Euroclear cash account only as of the business day following DTC settlement in DTC.

Although DTC, Clearstream and Euroclear have agreed to the foregoing procedures in order to facilitate transfers of securities among participants of DTC, Clearstream and Euroclear, they are under no obligation to perform or continue to perform such procedures and they may discontinue the procedures at any time.

CERTAIN ERISA CONSIDERATIONS

The Employee Retirement Income Security Act of 1974, as amended (“ERISA”), and the Internal Revenue Code of 1986, as amended (the “Code”), impose certain restrictions on (a) employee benefit plans (as defined in Section 3(3) of ERISA) subject to ERISA, (b) plans described in Section 4975(e)(1) of the Code, including individual retirement accounts or Keogh plans, (c) any entities whose underlying assets include “plan assets” under the Plan Asset Regulation (29 C.F.R. Section 2510.3-101), as modified by Section 3(42) of ERISA, (each, a “Plan”) and (d) persons and entities who have certain specified relationships to such Plans (each, a “Party-in-Interest” under ERISA and “Disqualified Person” under the Code). A Plan fiduciary considering a purchase of the notes should consider whether such purchase might constitute or result in a prohibited transaction under ERISA or Section 4975 of the Code, for which no exemption is available.

Section 406 of ERISA and Section 4975 of the Code prohibit certain direct or indirect transactions between Plans and Parties-in-Interest and Disqualified Persons. We and certain of our subsidiaries may be considered Parties-in-Interest or Disqualified Persons with respect to many Plans. Prohibited transactions within the meaning of ERISA or the Code may arise if notes are acquired by or with the assets of a Plan with respect to which we are a Party-in-Interest or Disqualified Person, including, for example, a prohibited loan to us. Certain exemptions from the prohibited transaction rules could be applicable, depending in part upon the type of Plan fiduciary making the decision to acquire the notes and the circumstances under which such decision is made.

The acquisition of the notes may be eligible for one of the exemptions noted below if the acquisition:

- is made solely with the assets of a bank collective investment fund and satisfies the requirements and conditions of Prohibited Transaction Class Exemption (“PTCE”) 91-38 issued by the Department of Labor (“DOL”);
- is made solely with assets of an insurance company pooled separate account and satisfies the requirements and conditions of PTCE 90-1 issued by the DOL;
- is made solely with assets managed by a qualified professional asset manager and satisfies the requirements and conditions of PTCE 84-14 issued by the DOL;
- is made solely with assets of an insurance company general account and satisfies the requirements and conditions of PTCE 95-60 issued by the DOL;
- is made solely with assets managed by an in-house asset manager and satisfies the requirements and conditions of PTCE 96-23 issued by the DOL; or
- is made solely with assets of a Plan and satisfies the requirements and conditions of Section 408(b)(17) of ERISA and Section 4975(d)(20) of the Code (together, the “Service Provider Exemption”).

Governmental plans, foreign and certain church plans, while not subject to the fiduciary responsibility provisions of ERISA or the prohibited transaction provisions of ERISA or Section 4975 of the Code, may nevertheless be subject to local, state, other federal or non-US laws that are substantially similar to the foregoing provisions of ERISA and the Code, which we refer to as similar law.

By purchasing and holding the notes, the purchaser and any fiduciary of the purchaser advising its purchase and holding of the notes will be deemed to represent and warrant that either (i) it is not, and is not acquiring the notes on behalf of, or with the assets of, a Plan or governmental, foreign or church plan subject to similar law or (ii) on each day the purchaser holds the notes that its acquisition, holding and disposition of the notes will not constitute or result in a prohibited transaction under Section 406 of ERISA or Section 4975 of the Code (or in a violation of any similar laws), unless an exemption is available and all its conditions have been satisfied.

CERTAIN MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES TO NON-U.S. HOLDERS

This section summarizes certain material U.S. federal income tax consequences to Non-U.S. Holders (as defined below) of the purchase, ownership and disposition of notes, but does not purport to be a complete analysis of all potential tax consequences and considerations. This section is based on the Code, judicial decisions and Treasury regulations, published rulings and other administrative pronouncements, changes to any of which subsequent to the date of this prospectus supplement may affect the tax consequences described herein, possibly with retroactive effect.

This summary deals only with notes that are held as capital assets (within the meaning of Section 1221 of the Code) by Non-U.S. Holders that purchase the notes in this offering at the notes' issue price (within the meaning of Section 1273 of the Code). A "Non-U.S. Holder" is a beneficial owner of notes and is generally an individual, corporation, estate or trust other than:

- an individual who is a citizen or resident of the United States;
- a corporation (or other entity taxable as a corporation for U.S. federal income tax purposes) created or organized in the United States or under the laws of the United States or any subdivision thereof;
- an estate the income of which is includible in gross income for U.S. federal income tax purposes regardless of its source; and
- a trust if (a) a court within the U.S. is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust, or (b) such trust has a valid election in effect under applicable Treasury regulations to be treated as a U.S. person.

If a partnership holds notes, the tax treatment of a partner will generally depend upon the status of the partner and the activities of the partnership. Special rules may apply if a Non-U.S. Holder is a "controlled foreign corporation" or "passive foreign investment company", as defined under the Code, and to certain expatriates or former long-term residents of the United States. If you fall within any of the foregoing categories, you should consult your own tax advisor to determine the U.S. federal, state, local and foreign tax consequences that may be relevant to you.

This summary does not describe all of the U.S. federal income tax consequences that may be relevant to the purchase, ownership and disposition of notes by a prospective Non-U.S. Holder in light of that investor's particular circumstances. In addition, this summary does not address other U.S. federal taxes (such as gift or estate taxes or alternative minimum taxes) or state, local or foreign taxes.

Please consult your own tax advisor as to the particular tax consequences to you of purchasing, holding and disposing of notes in your particular circumstances under the Code and the laws of any other taxing jurisdiction.

U.S. Federal Withholding Tax

Subject to the discussion below concerning backup withholding, U.S. federal withholding tax will not apply to any payment of principal or interest on the notes, provided that in the case of interest:

- you do not actually or constructively own 10% or more of the total combined voting power of all classes of our voting stock within the meaning of the Code and the Treasury regulations;
- you are not a controlled foreign corporation that is related, directly or indirectly, to us through stock ownership; and
- you provide your name, address and certain other information on an Internal Revenue Service ("IRS") Form W-8BEN (or a suitable substitute form), and certify, under penalties of perjury, that you are not a U.S. person or (b) you hold your notes through certain foreign intermediaries or certain foreign partnerships and certain certification requirements are satisfied.

Table of Contents

In addition, interest payments that are effectively connected with the conduct of a trade or business by you within the United States are also not subject to the U.S. federal withholding tax, but instead may be subject to U.S. federal income tax, as described below under “—U.S. Federal Income Tax”.

If you cannot satisfy the requirements described above, payments of interest generally will be subject to a 30% U.S. federal withholding tax unless a tax treaty applies. If a tax treaty applies to you, you may be eligible for a reduction of or exemption from U.S. federal withholding tax.

To claim any exemption from or reduction in the 30% withholding tax, you should provide a properly executed IRS Form W-8BEN (or suitable substitute form) claiming a reduction of or an exemption from withholding tax under an applicable tax treaty or a properly executed IRS Form W-8ECI (or a suitable substitute form) stating that such payments are not subject to withholding tax because they are effectively connected with your conduct of a trade or business in the United States.

U.S. Federal Income Tax

If you are engaged in a trade or business in the United States (and, if a tax treaty applies, if you maintain a permanent establishment within the United States) and interest on the notes, including interest received on redemption or retirement, is effectively connected with the conduct of such trade or business (and, if a tax treaty applies, attributable to such permanent establishment), you will be subject to U.S. federal income tax (but not U.S. withholding tax assuming a properly executed Form W-8ECI (or suitable substitute form) is provided) on such interest on a net income basis in generally the same manner as if you were a U.S. person. In addition, in certain circumstances, if you are a foreign corporation you may be subject to a 30% (or, if a tax treaty applies, such lower rate as provided) branch profits tax.

Any gain or income, other than interest which is taxable as set forth above, realized on the disposition of a note (including a redemption or retirement) will generally not be subject to U.S. federal income tax unless:

- such gain or income is effectively connected with your conduct of a trade or business in the United States (and, where an applicable tax treaty so provides, is also attributable to a U.S. permanent establishment maintained by you); or
- you are an individual who is present in the United States for 183 days or more in the taxable year of the disposition and certain other conditions are met.

Backup Withholding and Information Reporting

Unless you are an exempt recipient, such as a corporation, interest payments on the notes and the proceeds received from a disposition (including a redemption or retirement) of notes may be subject to U.S. federal backup withholding at the applicable rate and related information reporting if you fail to comply with applicable certification requirements. The certification procedures required to claim the exemption from withholding tax on interest (described above) will satisfy the certification requirements necessary to avoid the backup withholding tax as well.

Backup withholding is not an additional tax. Any amounts so withheld under the backup withholding rules may be refunded or credited against your U.S. federal income tax liability, provided you timely furnish the required information to the IRS.

The preceding discussion of certain material U.S. federal income tax consequences is general information only and is not tax advice. Accordingly, you should consult your own tax advisor as to the particular tax consequences to you of purchasing, holding or disposing of notes, including the applicability and effect of any state, local or non-U.S. tax laws, and of any changes or proposed changes in applicable law.

The underwriting agreement provides that the obligations of the underwriters to purchase the notes included in this offering are subject to approval of legal matters by counsel and to other conditions. The underwriters are obligated to purchase all the notes if they purchase any of the notes.

The underwriters propose to offer some of the notes directly to the public at the public offering price set forth on the cover page of this prospectus supplement and some of the notes to dealers at the public offering price less a concession not to exceed: (i) 0.300% of the principal amount of the 2013 notes with respect to the 2013 notes, (ii) 0.350% of the principal amount of the 2015 notes with respect to the 2015 notes and (iii) 0.400% of the principal amount of the 2020 notes with respect to the 2020 notes. The underwriters may allow, and dealers may reallocate a concession not to exceed: (i) 0.175% of the principal amount of the 2013 notes with respect to the 2013 notes, (ii) 0.200% of the principal amount of the 2015 notes with respect to the 2015 notes, and (iii) 0.250% of the principal amount of the 2020 notes with respect to the 2020 notes, on sales to other dealers. After the initial offering of the notes to the public, the representatives may change the public offering price and concessions.

The following table shows the underwriting discounts and commissions that we are to pay to the underwriters in connection with this offering (expressed as a percentage of the principal amount of the notes).

| | Paid by Franklin Resources |
|---------------|-------------------------------|
| Per 2013 note | 0.450% |
| Per 2015 note | 0.600% |
| Per 2020 note | 0.650% |

In connection with the offering of the notes of each series, the joint book-running managers on behalf of the underwriters may purchase and sell notes of that series in the open market. These transactions may include over-allotment, syndicate covering transactions and stabilizing transactions. Over-allotment involves syndicate sales of notes in excess of the principal amount of notes to be purchased by the underwriters in the offering, which creates a syndicate short position. Syndicate covering transactions involve purchases of the notes of a given series in the open market after the distribution has been completed in order to cover syndicate short positions. Stabilizing transactions consist of certain bids or purchases of notes of a given series made for the purpose of preventing or retarding a decline in the market price of the notes of that series while the offering is in progress.

Table of Contents

Any of these activities may have the effect of preventing or retarding a decline in the market price of the notes of the relevant series. They may also cause the price of the notes of the relevant series to be higher than the price that otherwise would exist in the open market in the absence of these transactions. The underwriters may conduct these transactions in the over-the-counter market or otherwise. If the underwriters commence any of these transactions, they may discontinue them at any time.

We estimate that our total expenses for this offering will be \$1,580,000.

The underwriters have performed investment banking and advisory services for us and for certain of the Franklin Resources funds from time to time in the ordinary course, for which they have received customary fees and expenses. These services have included acting as underwriters and distributors for certain of the Franklin Resources funds and providing financing to us and to those funds. The underwriters may, from time to time, engage in other transactions with and perform services for us in the ordinary course of their business.

A prospectus in electronic format may be made available on the websites maintained by one or more of the underwriters. The representatives may agree to allocate a number of notes to underwriters for sale to their online brokerage account holders. The representatives will allocate notes to underwriters that may make Internet distributions on the same basis as other allocations. In addition, notes may be sold by the underwriters to securities dealers who resell notes to online brokerage account holders.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act of 1933, or to contribute to payments the underwriters may be required to make because of any of those liabilities.

For the purposes of this provision, the expression an “offer to the public” in relation to any Securities in any Relevant Member State means the communication in any form and by any means of sufficient information

RATIO OF EARNINGS TO FIXED CHARGES

The following table sets forth our ratio of adjusted earnings to fixed charges for each of the periods indicated:

| | Three months ended December 31, | | Year ended September 30, | | | | |
|--|------------------------------------|---------|--------------------------|-------|-------|-------|-------|
| | 2007 | 2006 | 2007 | 2006 | 2005 | 2004 | 2003 |
| Ratio of adjusted earnings to fixed charges(a) | 39.4 | x 42.9x | 44.9x | 31.1x | 25.1x | 20.7x | 17.4x |

DESCRIPTION OF DEBT SECURITIES

We may issue debt securities from time to time in one or more series. Any debt securities offered hereby will be issued under an indenture, dated as of May 19, 1994, as amended and supplemented from time to time, between us and The Bank of New York Mellon Trust Company, N.A., as successor trustee, referred to as the Trustee. A copy of the indenture is filed as an exhibit to the registration statement, which this prospectus constitutes a part of. The following summaries of certain provisions of the indenture do not purport to be complete and are subject to, and are qualified in their entirety by reference to, all provisions of the indenture, including the definitions therein of certain terms. The particular terms of the debt securities offered by any prospectus supplement will be described in the prospectus supplement.

We are a holding company whose assets consist principally of the stock in our subsidiaries. Therefore, our rights and the rights of our creditors, including the holders of debt securities, to participate in the assets of any subsidiary upon the subsidiary's liquidation or recapitalization or otherwise will be subject to the prior claims of the subsidiary's creditors, except to the extent that claims as a creditor of the subsidiary may be recognized. In addition, dividends, loans and advances from certain of our subsidiaries may be restricted by net capital requirements under the Exchange Act and under rules of certain regulatory bodies.

General

The indenture does not limit the aggregate principal amount of debt securities which may be issued thereunder and provides that debt securities may be issued from time to time in one or more series. The debt securities will be our unsecured obligations. Neither the indenture nor the debt securities will limit or otherwise restrict the amount of other indebtedness we may incur or the amount of other securities we or any of our subsidiaries may issue. The debt securities will rank on a parity with all other unsecured unsubordinated indebtedness.

The terms of any particular series of debt securities will be included in a prospectus supplement and will provide for the following:

- the title and series of the debt securities;
- any limit on the aggregate principal amount of the debt securities;
- the price or prices (expressed as a percentage of their aggregate principal amount) at which the debt securities will be issued;
- the maturity date or dates, or the method of determining the maturity date or dates of the debt securities;
- the interest rate or rates (which may be fixed or variable) per annum of the debt securities or the method of determining the interest rate or rates of the debt securities;

- the dates, if any, on which and the price or prices at which the debt securities will, pursuant to any mandatory sinking fund provisions, or may, pursuant to any optional sinking fund or at the option of the holder, be redeemed by us, and the other detailed terms and provisions of the redemption or purchase;
- the date, if any, after which and the price or prices at which the debt securities may, pursuant to any optional redemption provisions, be redeemed at our option or of the holders of the debt securities and the other detailed terms and provisions of such optional redemption;

- any deletions from, modifications of or additions to the events of default or covenants with respect to any of such debt securities; and
- any other terms of the series.

Table of Contents

Debt securities may be issued as original issue discount securities to be sold at a substantial discount below their principal amount. In the event of an acceleration of the maturity of any original issue discount security, the amount payable to the holder of the original issue discount security upon such acceleration will be determined in accordance with the applicable prospectus supplement, the terms of such debt security and the indenture, but will be an amount less than the amount payable at the maturity of the principal of such original issue discount security. Special federal income tax and other considerations applicable to the debt security will be described in the related prospectus supplement.

The indenture does not contain any provisions that would limit our ability to incur indebtedness or that would afford holders of debt securities protection in the event of a highly leveraged or similar transaction involving us. Information with respect to any deletions from, modifications of or additions to the events of default described below or our covenants contained in the indenture, including any addition of a covenant or other provision providing event risk or similar protection will be set forth in the prospectus supplement.

Registration, Transfer, Payment and Paying Agent

Unless otherwise indicated in the prospectus supplement, each series of debt securities will be issued in registered form only, without coupons. The indenture, however, provides that we may also issue debt securities in bearer form only, or in both registered and bearer form. Debt securities in bearer form will not be offered, sold, resold or delivered in connection with their original issuance in the United States or to any United States person other than offices located outside the United States of certain United States financial institutions. The term “United States person” means any citizen or resident of the United States, any corporation, partnership or other entity created or organized in or under the laws of the United States, or any estate or trust, the income of which is subject to United States federal income taxation regardless of its source, and “United States” means the United States of America (including the States and the District of Columbia), its territories, its possessions and other areas subject to its jurisdiction. Purchasers of debt securities in bearer form will be subject to certification procedures and may be affected by certain limitations under United States tax laws. These procedures and limitations will be described in the prospectus supplement relating to the offering of the debt securities in bearer form.

Unless otherwise indicated in a prospectus supplement, registered debt securities will be issued in denominations of \$1,000 or any integral multiple thereof and bearer debt securities will be issued in denominations of \$5,000. No service charge will be made for any transfer or exchange of the debt securities, but we may require payment of a sum sufficient to cover any tax or other governmental charge payable in connection with the transfer or the exchange.

Unless otherwise described in the applicable prospectus supplement, the principal, premium, if any, and interest, if any, of or on the debt securities will be payable, and transfer of the debt securities will be registrable, at the corporate trust office of The Bank of New York Mellon Trust Company, N.A., as paying agent and security registrar under the indenture, in The City of New York, New York, provided that payments of interest may be made at our option by check mailed to the address appearing in the security register of the person in whose name such registered debt security is registered at the close of business on the regular record date.

Unless otherwise indicated in a prospectus supplement, payment of principal of, premium, if any, and interest, if any, on debt securities in bearer form will be made payable, subject to any applicable laws and regulations, at such office outside the United States as specified in the prospectus supplement and as we may designate from time to time, at the option of the holder, by check or by transfer to an account maintained by the payee with a bank located outside the United States. Unless otherwise indicated in the prospectus supplement, payment of interest and certain additional amounts on debt securities in bearer form will be made only against surrender of the coupon relating to that interest payment date. Except in limited circumstances, no payment with respect to any debt security in bearer form will be made at any office or agency of ours in the United States or by check mailed to any address in the United States or by transfer to an account maintained with a bank located in the United States.

Global Securities

The debt securities of a series may be issued in whole or in part in the form of one or more global securities, referred to as global debt securities. Global debt securities will be deposited with, or on behalf of, a depository identified in the prospectus supplement relating to the series. Global debt securities may be issued in either registered or bearer form and in either temporary or permanent form. Unless and until it is exchanged in whole or in part for individual certificates evidencing debt securities in definitive form represented thereby, a global debt security may not be transferred except as a whole by the depository for such global debt security to a nominee of such depository or by a nominee of such depository to such depository or another nominee of such depository or by such depository or any such nominee to a successor of such depository or a nominee of such successor.

The specific terms of the depository arrangement with respect to a series of global debt securities and certain limitations and restrictions relating to a series of bearer global debt securities, will be described in the prospectus supplement relating to that series.

Events of Default

Unless otherwise provided in a prospectus supplement, the following are events of default under the indenture with respect to debt securities of any series:

- failure to pay principal of or any premium on any debt security of that series when due;
- failure to pay any interest on any debt security of that series when due, continued for 30 days;
- failure to deposit any sinking fund payment, when due, in respect of any debt security of that series;
- breach of any other covenant or warranty of ours in the indenture (other than a covenant or warranty included in the indenture solely for the benefit of series of debt securities other than that series), continued for 60 days after a written notice of default is given by the Trustee or the holders of at least 25% in aggregate principal amount of the outstanding debt securities of such series as provided in the indenture;
- certain events in bankruptcy, insolvency or reorganization involving us or any Material Subsidiary (as defined below);
- acceleration of indebtedness of ours or any Material Subsidiary in a principal amount in excess of \$10,000,000 under the terms of the instrument under which such Indebtedness was issued or secured, if such acceleration is not annulled within 30 days after a written notice of default is given by the Trustee or the holders of at least 25% in aggregate principal amount of the outstanding debt securities of such series as provided in the indenture; and

At any time after a declaration of acceleration with respect to debt securities of any series has been made, but before a judgment or decree based on acceleration has been obtained, the holders of a majority in aggregate principal amount of outstanding debt securities of that series may rescind and annul the acceleration, provided that, among other things, all events of default with respect to that series, other than payment defaults caused by such acceleration, have been cured or waived as provided in the indenture.

The indenture provides that, subject to the duty of the Trustee during default to act with the required standard of care, the Trustee will be under no obligation to exercise any of its rights or powers under the indenture at the request or direction of any of the holders, unless such holders shall have offered to the Trustee satisfactory security or indemnity. Subject to such provisions for the indemnification of the Trustee and certain other conditions, the holders of a majority in aggregate principal amount of the outstanding debt securities of any series will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the Trustee, or exercising any trust or power conferred on the Trustee, with respect to the debt securities of that series.

No holder of any debt security of any series will have any right to institute any proceeding with respect to the indenture or for any remedy, unless each of the following has occurred:

In determining whether the holders of the requisite principal amount of outstanding debt securities have given any request, demand, authorization, direction, notice, consent or waiver under the indenture, (i) the portion of the principal amount of an original issue discount security that will be deemed to be outstanding for such purposes will be that portion of the principal amount thereof that could be declared to be due and payable upon acceleration pursuant to the terms of such original issue discount security as of the date of such determination, (ii) the principal amount of any indexed security will be the principal face amount of the indexed security determined on the date of its original issuance and (iii) any debt security owned by us or any other obligor on such debt security or any affiliate of ours or such other obligor shall be deemed not to be outstanding.

Dealers and agents participating in the distribution of the securities may be deemed to be underwriters, and compensation received by them on resale of the securities may be deemed to be underwriting discounts. If such dealers or agents were deemed to be underwriters, they may be subject to statutory liabilities under the Securities Act.

Agents may from time to time solicit offers to purchase the securities. If required, we will name in the applicable prospectus supplement any agent involved in the offer or sale of the securities. Unless otherwise indicated in the prospectus supplement, any agent will be acting on a best efforts basis for the period of its appointment. If an underwriter or underwriters are used in the sale of securities, an underwriting agreement will be executed with the underwriter or underwriters at the time an agreement for the sale is reached. The applicable prospectus supplement will set forth the managing underwriter or underwriters, as well as any other underwriter or underwriters, with respect to a particular underwritten offering of securities, and will set forth the terms of the transactions, including compensation of the underwriters and dealers and the public offering price, if applicable. The prospectus and the applicable prospectus supplement will be used by the underwriters to resell the securities.

If a dealer is used in the sale of the securities, we or an underwriter will sell the securities to the dealer, as principal. The dealer may then resell the securities to the public at varying prices to be determined by the dealer at the time of resale. To the extent required, we will set forth in the prospectus supplement the name of the dealer and the terms of the transactions.

Table of Contents

We may directly solicit offers to purchase the securities and we may make sales of securities directly to institutional investors or others. These persons may be deemed to be underwriters within the meaning of the Securities Act with respect to any resale of the securities. To the extent required, the prospectus supplement will describe the terms of any such sales, including the terms of any bidding or auction process, if used.

Agents, underwriters and dealers may be entitled under agreements which may be entered into with us to indemnification by us against specified liabilities, including liabilities incurred under the Securities Act, or to contribution by us to payments they may be required to make in respect of such liabilities. If required, the prospectus supplement will describe the terms and conditions of such indemnification or contribution. Some of the agents, underwriters or dealers, or their affiliates may be customers of, engage in transactions with or perform services for us or our subsidiaries in the ordinary course of business.

Under the securities laws of some states, the securities offered by this prospectus may be sold in those states only through registered or licensed brokers or dealers.

Any person participating in the distribution of common stock registered under the registration statement that includes this prospectus will be subject to applicable provisions of the Exchange Act, and the applicable SEC rules and regulations, including, among others, Regulation M, which may limit the timing of purchases and sales of any of our common stock by any such person. Furthermore, Regulation M may restrict the ability of any person engaged in the distribution of our common stock to engage in market-making activities with respect to our common stock. These restrictions may affect the marketability of our common stock and the ability of any person or entity to engage in market-making activities with respect to our common stock.

Certain persons participating in an offering may engage in over-allotment, stabilizing transactions, short-covering transactions and penalty bids in accordance with Regulation M under the Exchange Act that stabilize, maintain or otherwise affect the price of the offered securities. If any such activities will occur, they will be described in the applicable prospectus supplement.

Unless otherwise specified in the applicable prospectus supplement, the validity of the securities covered by this prospectus will be passed upon for us by Weil, Gotshal & Manges LLP, New York, New York.
