PART I

ITEM 1. Business

(a) General Development of Business

In 2001, Myers Industries, Inc. (Company) experienced lower sales ending a nine year run of annual increases and record sales. In addition, net income declined, as the recession that began in 2000 accelerated and created weak demand in most markets served by the Company's operations. The fourth quarter, typically a strong one for the Company, was particularly weak.

Net sales for the fourth quarter were \$148.5 million, a decrease of 13 percent from the same period last year. Net income of \$2.3 million was down 48 percent compared to \$4.5 million in the fourth quarter of 2000 and net income per share of \$.10 declined 47 percent compared with \$.19 last year.

For the year, net sales were \$608.0 million, a decrease of 7 percent from the \$652.7 million reported last year. Net income was \$15.2 million or \$.64 per share, a decline of 37 percent from the \$24.0 million and \$1.01 per net share income in fiscal 2000.

Despite the challenges, the Company remained profitable and there were some positive gains made. Cash flow from operations was a record \$76.8 million and the Company was able to reduce total debt by \$35.3 million. In addition, cash dividends were increased for the 26th consecutive year.

(b) Financial Information About Industry Segments

The response to this section of Item 1 is contained in the Industry Segments footnote of the Notes to Consolidated Financial Statements under Item 8 of this report.

(c) Description of Business

The Company conducts its business activities in two segments, Manufacturing and Distribution. For the fiscal year ended December 31, 2001, the Manufacturing Segment generated approximately 75% of sales, while the Distribution Segment contributed approximately 25% of sales.

Our Manufacturing segment designs, manufactures, and markets a variety of plastic and rubber products, ranging from plastic material handling containers and storage boxes to rubber OEM parts and tire repair materials. These products are made through a variety of molding processes in 25 facilities located throughout North America and Europe.

Our Distribution Segment is engaged in the distribution of tools, equipment, and supplies used for tire and wheel service and automotive underbody repair. The Distribution Segment operates through 43 branches located in major cities throughout the United States and in foreign countries through export and businesses in which we hold an equity interest.

Our Manufacturing Segment

In our Manufacturing segment, we design, manufacture, and market more than 11,000 products from plastic and rubber. We currently operate 18 manufacturing facilities in the United States, six in Western Europe and one in Canada. Our manufactured plastic and rubber products are sold nationally and internationally by a direct sales force and through independent sales representatives.

Key Manufactured Product Areas

- Reusable Plastic Material Handling Containers
- Plastic Planters
- Plastic Storage & Organization Products
- Plastic Storage Tanks
- Plastic and Metal Material Handling Carts
- Rubber OEM & Replacement Parts

Table of Contents

- Tire Repair & Retreading Products
- Custom Rubber Sheet Stock
- Reflective Highway Marking Products

Product Brands

- Buckhorn
- Akro-Mils
- Allibert Équipement
- Ameri-Kart
- Buckhorn Rubber
- Dillen
- Listo
- Patch Rubber
- raaco

Manufacturing Capabilities

- Plastic & Rubber Injection Molding
- Compression Molding
- Winding Extrusion
- Vacuum Forming
- Rotational Molding
- Rubber Compounding & Calendering
- Rubber-to-Metal Bonding

Representative Markets

- Agriculture
- Automotive
- Chemical
- Construction
- Consumer
- Food Processing & Distribution
- General Industrial
- Healthcare
- Horticulture
- Marine/ Watercraft
- Recreational Vehicle
- Telecommunications
- Tire Repair & Retread
- Transportation
- Waste Collection
- Water Control

Our largest product line is reusable plastic material handling containers. These products help customers efficiently and economically move products and reduce solid waste in closed-loop distribution systems. We are one of the leading manufacturers of these material handling products, which include collapsible bulk boxes, hand-held containers and trays, small parts bins, pallets, and a variety of other specialty items. We believe that we are one of the few manufacturers positioned to supply material handling product solutions to customers worldwide.

Our material handling products are utilized for shipping and handling a wide range of industrial and commercial items, including automotive, appliance, and electronic components; food products such as meat, poultry, and produce; bulk seed and feed; health and beauty care products; apparel and textiles; and hardware. These products deliver specific cost-saving and productivity benefits to our customers. At the Saturn plant in Springhill, Tennessee, our containers and pallets are reused hundreds of times to carry fasteners and bumpers

Table of Contents

from suppliers directly to the assembly area, reducing the scrap rate and eliminating costly solid waste from cardboard boxes and wood pallets. Chicken delivered to KFC restaurants across the United States comes in the reusable container that we pioneered; the container better protects the chicken during transport and is more sanitary than cardboard boxes. Our plastic bins are used on assembly lines, at distribution centers, and in retail outlets throughout the world to organize small parts and other items.

Growers, retailers, and consumers use our plastic planters and trays to create plant and floral displays. We manufacture a broad line of indoor/outdoor decorative planters, pots, bowls, window boxes, urns, and grower containers and trays; we are also North America's largest producer of hanging baskets. These items serve the needs of the grower at greenhouses and nurseries, as well as retail garden centers, home centers, and mass merchandisers such as Target®, K-Mart®, and Wal-Mart®.

For consumers, we adapt storage solutions for industry to home and office settings. Our popular KeepBox® containers help consumers organize everything from holiday decorations to school supplies. Storage organizers and cabinets provide efficient storage for small items and accessories in the home workshop or at the office. Hobbyists and craftsmen use our popular CraftDesign® products for efficient, portable storage of craft, sewing, and art supplies.

Part of our product line is plastic storage tanks used for storage and transport of a wide variety of solid and liquid materials. These tanks are produced in the United States using rotational molding and in Europe with both winding extrusion and rotational molding. Our extruded tanks are primarily used for storage in industries such as chemical and water treatment and are an effective alternative to stainless steel tanks, giving customers the same performance for a lower price. For industries such as agriculture, plastics, and food, our roto-molded tanks are commonly used as intermediate bulk containers (IBCs), transporting material from one location to another or as a temporary storage vessel; these uses are often "returnable" applications, in which the tanks can be reused for multiple round trips in a closed loop distribution system.

We manufacture plastic carts used in material handling and waste collection. Manufacturers apply our carts and dumpers for in-plant transport of products and scrap. More than 600 municipalities use the carts for residential waste collection.

From seals for water supply lines to hood latches and air hose assemblies for trucks, our engineered, molded OEM and replacement parts meet precise specifications for the waterworks, agriculture, transportation, and civil construction industries. Specialized manufacturing expertise enables us to create a range of specific-performance custom rubber products, including rubber-to-metal bonded items used in marine and maintenance equipment, watercontrol, and environmental applications.

More than 50 years ago we started making tire patches. We now offer the most comprehensive line of tire repair and retreading products in the United States. To service the nearly 221 million damaged tires that occur each year, we make all the materials and products customers need to perform safe and profitable tire repairs: the plug that fills a puncture, the cement that seats the plug, the tire innerliner patch, and the final sealing compound. Our products are used to repair the smallest puncture in passenger tires and the most severe tear in large, off-the-road tires.

Our calendared rubber sheet stock is used in many applications. The telecommunications industry splices cabling with our specialty tapes. In the mining industry, our materials are used to create linings for material handling conveyor systems. Another of our custom sheet stocks is used as the base material to produce the world's top-selling line of golf grips, "Golf Pride®".

We have applied our rubber calendaring and compounding expertise to create reflective marking products for the road repair and construction industry. Transportation professionals use our reflective tape striping, symbols, and legends for marking roadways, intersections, and hazardous areas. Our tape stock is easier to apply, more reflective, and longer lasting than paint. We make the tape in both temporary and permanent grades.

The Company's Manufacturing business is dependent upon outside suppliers for raw materials, principally polyethylene, polypropylene, polystyrene and synthetic and natural rubber. We believe that the loss of

Table of Contents

any one supplier or group of suppliers would not have a materially adverse effect on our business, since in most instances identical or similar materials are readily obtainable from other suppliers.

Our Distribution Segment

In our Distribution Segment, we are the largest distributor of tools, equipment, and supplies to tire, wheel, and automotive underbody service specialists in the United States. We buy and sell nearly 10,000 different tool, equipment, and supply items ranging from computerized alignment systems and tire balancers to tire patches, repair cement, and small hand tools.

Key Distribution Products

- Tire Valves & Accessories
- Tire Changing & Balancing Equipment
- Lifts & Alignment Equipment
- Service Equipment & Tools
- Tire Repair/ Retread Equipment & Supplies

Product Brand

- Myers Tire Supply

Capabilities

- International Distribution
- Broad Sales Coverage
- Personalized Service
- Customer Product Training
- National Accounts

Representative Markets

- Retail Tire Dealers
- Truck Tire Dealers
- Auto Dealers
- Commercial Auto & Truck Fleets
- Tire Retreaders
- General Repair Facilities

Within the continental United States, we provide widespread distribution and sales coverage from 43 branches in 31 states. Each branch operates as a profit center and is staffed by a branch manager, salespeople, office, warehouse, and delivery personnel.

Internationally, we have five wholly owned warehouse distributors located in Canada and Central America. We also own interests in several foreign warehouse distributors. Sales personnel from our Akron, Ohio headquarters cover the Far East, Middle East, South Pacific and South American territories.

We buy products from top suppliers to ensure quality is delivered to our customers. Each of the brand-name products we sell is associated with superior performance in its respective area. Some of these leading brands include: Chicago Pneumatic air tools; Hennessy tire changing, balancing, and alignment equipment; Corghi tire changers and balancers; Ingersoll-Rand air service equipment; John Bean Co. tire balancing and changing equipment; our own Patch Rubber brand tire patches, cements, and repair supplies; and Rotary lifts and related equipment.

An essential element of our success in the Distribution segment is our 170 sales representatives, who deliver personalized service on a local level. Customers rely on Myers' sales representatives to introduce the latest tools and technologies and provide training in new product features and applications. Representatives also teach the proper use of diagnostic equipment, and present on-site workshops demonstrating industry approved techniques for tire repair and undercar service.

Competition

Competition in the Manufacturing segment is substantial and varied in form and size from manufacturers of similar products and of other products which can be readily substituted for those produced by the Company. Competition in the Distribution segment is generally from local and regional businesses.

Employees

As of December 31, 2001 the Company had a total of 4,114 full-time and part-time employees. Of these employees, 3,393 were engaged in the Manufacturing segment, 623 were employed in the Distribution segment and 98 were employed at the Company's corporate offices. Approximately 10% of the Company's employees are members of unions, however, in certain countries in which the Company operates union membership is not known due to confidentiality laws. The Company believes it has a good relationship with its union employees.

(d) Financial Information about Foreign and Domestic Operations and Export Sales

The Response to this section of Item 1 is contained in the Industry Segments footnote of the Notes to Consolidated Financial Statements under Item 8 of this Report.

ITEM 2. Properties

The following table sets forth by segment certain information with respect to properties owned by the Registrant:

Distribution:

Location	Approximate Floor Space (Square Feet)	Approximate Land Area (Acres)	Use
Akron, Ohio	129,000	8	Executive offices and warehousing
Akron, Ohio	60,000	5	Warehousing
Akron, Ohio	31,000	2	Warehousing
Pomona, California	17,700	1	Sales and distribution
Englewood, Colorado	9,500	1	Sales and distribution
San Antonio, Texas	4,500	1	Sales and distribution
Phoenix, Arizona	8,200	1	Sales and distribution

Houston, Texas	7,900	1	Sales and distribution
Indianapolis, Indiana	7,800	2	Sales and distribution
Cincinnati, Ohio	7,500	1	Sales and distribution
York, Pennsylvania	7,400	3	Sales and distribution
Atlanta, Georgia	7,000	1	Sales and distribution
Minneapolis, Minnesota	5,500	1	Sales and distribution
Charlotte, North Carolina	5,100	1	Sales and distribution
Syracuse, New York	4,800	1	Sales and distribution
Franklin Park, Illinois	4,400	1	Sales and distribution

Manufacturing:

Location	Approximate Floor Space (Square Feet)	Approximate Land Area (Acres)	Use
Gaillon, France	500,000	23	Manufacturing and distribution
Middlefield, Ohio	400,000	24	Manufacturing and distribution
Nykobing, Falster Denmark	227,000	68	Manufacturing and distribution
Springfield, Missouri	227,000	19	Manufacturing and distribution
Dawson Springs, Kentucky	209,000	36	Manufacturing and distribution
Wadsworth, Ohio	197,000	23	Manufacturing and distribution
Hannibal, Missouri	196,000	10	Manufacturing and distribution
Sparks, Nevada	185,000	11	Manufacturing and distribution
Bluffton, Indiana	175,000	17	Manufacturing and distribution
Roanoke Rapids, N. Carolina	172,000	20	Manufacturing and distribution
Shelbyville, Kentucky	160,000	8	Manufacturing and distribution
Sandusky, Ohio	155,000	8	Manufacturing and distribution
Bristol, Indiana	139,000	12	Manufacturing and distribution
Akron, Ohio	121,000	17	Manufacturing and distribution
Gloucester, England	118,000	3	Manufacturing and distribution
Dayton, Ohio	85,000	5	Manufacturing and distribution
Palua De Plegamans, Spain	85,000	7	Manufacturing and distribution
Prunay, France	71,000	4	Manufacturing and distribution
Goddard, Kansas	62,000	7	Manufacturing and distribution
Santa Perpetua De Mogoda, Spain	61,000	3	Manufacturing and distribution
Fostoria, Ohio	50,000	3	Manufacturing and distribution
Akron, Ohio	49,000	6	Manufacturing and distribution
Surrey, B.C., Canada	42,000	3	Manufacturing and distribution
Ontario, California	40,000	2	Distribution and warehousing
Mebane, North Carolina	30,000	5	Manufacturing and distribution
Maia, Portugal	13,000	3	Sales and distribution

The following table sets forth by segment certain information with respect to facilities leased by the Registrant:

Manufacturing

Location	Approximate Floor Space (Square Feet)	Expiration Date of Lease	Use
Cassopolis, Michigan	210,000	October 31, 2005	Manufacturing and distribution
Droitwich, England	73,000	December 31, 2002	Sales and distribution
Mulheim, Germany	54,000	December 31, 2005	Sales and distribution
Brampton, Ontario, Canada	43,000	September 30, 2005	Sales and distribution
Nanterre Cedex, France	25,000	April 30, 2008	Administration and sales
Milford, Ohio	22,000	August 31, 2006	Sales and distribution
Nivelles, Belgium	14,000	March 14, 2006	Sales and distribution
Orbassano, Italy	3,000	December 31, 2006	Sales and distribution

Table of Contents

The Registrant also leases distribution facilities in 32 locations throughout the United States and Canada which, in the aggregate, amount to approximately 167,000 square feet of warehouse and office space. All of these locations are used by the distribution of aftermarket repair products and services segment.

The Registrant believes that all of its properties, machinery and equipment generally are well maintained and adequate for the purposes for which they are used.

ITEM 3. Legal Proceedings

There are no material pending legal proceedings other than ordinary routine litigation incidental to the Registrant's business.

ITEM 4. Submission of Matters to a Vote of Security Holders

During the fourth quarter of the fiscal year ended December 31, 2001, there were no matters submitted to a vote of security holders.

Executive Officers of the Registrant

Set forth below is certain information concerning the executive officers of the Registrant. Executive officers are elected annually by the Board of Directors and serve at the pleasure of the Board.

Name	Age	Years as Executive Officer	Title
Stephen E. Myers	59	29	President and Chief Executive Officer
Milton I. Wiskind	76	30	Senior Vice President and Secretary
Gregory J. Stodnick	59	22	Vice President — Finance
Jean-Paul Lesage	57	2	Vice President
Kevin C. O'Neil	46	3	Assistant Secretary

Each executive officer has been principally employed in the capacities shown or similar ones with the Registrant for over the past five years with the exception of Mr. O'Neil who consults as Assistant Secretary.

Section 16(a) of the Securities Exchange Act of 1934 requires the Registrant's Directors, certain of its executive officers and persons who own more than ten percent of its Common Stock ("Insiders") to file reports of ownership and changes in ownership with the Securities and Exchange Commission and the New York Stock Exchange, Inc., and to furnish the Company with copies of all such forms they file. The Company understands from the information provided to it by the Insiders that they adhered to all filing requirements applicable to the Section 16 Filers, except that Mr. Wiskind sold 2,640 shares in October, 2001, which was reported on his February 2002 Form 4.

PART II

ITEM 5. Market for Registrant’s Common Stock and Related Stockholder Matters

The Company’s Common Stock is traded on the New York Stock Exchange (ticker symbol MYE). The approximate number of record holders at December 31, 2001 was 2,200. High and low stock prices and dividends for the last two years were:

	2001 Quarter Ended	Sales Price		Dividends Paid
		High	Low	
March 31		14.55	10.01	.055
June 30		14.18	11.14	.055
September 30		13.82	10.70	.06
December 31		14.58	10.90	.06
	2000 Quarter Ended	Sales Price		Dividends Paid
		High	Low	
March 31		13.22	9.66	.05
June 30		11.83	8.88	.05
September 30		12.95	9.09	.055
December 31		13.41	8.75	.055

ITEM 7. Management's Discussion and Analysis of Results of Operations and Financial Condition

2001 Results of Operations

For the year ended December 31, 2001, net sales of \$608.0 million were down 7 percent from the \$652.7 million in 2000. Net income for 2001 of \$15.2 million or \$.64 per share decreased 37 percent from the \$24.0 million and \$1.01 per share reported in 2000.

The Company experienced sales declines in both of its business segments. Distribution segments sales were down \$7.2 million or 5 percent reflecting lower unit volumes, particularly for capital equipment. In the Manufacturing segment, sales decreased \$37.7 million or 7 percent from the prior year as the Company experienced sharply lower demand brought on by the general recession and global economic slowdown affecting most of the industrial markets we serve. In addition, competitive pressures and lower raw material

Table of Contents

costs resulted in conditions to maintain or lower selling prices for most of the Company's product lines and markets. Excluding the impact of acquired companies, sales in the manufacturing segment would have declined 10 percent and total sales would be down 9 percent for the year. The translation effect of foreign currencies, primarily the euro, did not have a material impact with a difference of less than one percent on the sales amounts as reported.

Cost of sales decreased \$32.1 million or 7 percent, reflecting the significant drop in fiscal 2001 sales. Gross profit, expressed as a percentage of sales, improved slightly to 33.7 percent for the year ended December 31, 2001, compared with 33.3 percent in the prior year. In the distribution segment, margins improved slightly reflecting a shift in sales mix to higher margin supplies versus capital equipment. In the manufacturing segment, margins were virtually unchanged as a benefit of lower raw material costs were offset by slightly lower selling prices and a decrease in the absorption of fixed manufacturing costs resulting from reduced production.

Total operating expenses increased \$4.7 million, or 3 percent, to \$159.0 million. The increase in fiscal 2001 reflects the full year impact of expenses of companies acquired in the fourth quarter of last year as well as the amortization of related goodwill. In addition, the Company experienced substantially higher costs for medical insurance and bad debt expense, including approximately \$1.0 million as a result of the K-Mart bankruptcy filing in January 2002. Expressed as a percentage of sales, operating expenses were 26.1 percent in 2001 compared with 23.6 percent in 2000. This decrease in operating expense leverage is a result of both the higher costs and reduced sales volume in the current year.

Net interest expense for 2001 decreased \$3.7 million or 16 percent compared with the prior year. This decrease reflects primarily the impact of lower interest rates. In addition, the Company reduced total debt by \$35.3 million in fiscal 2001 and, therefore, received the benefit of lower average borrowing levels.

Income taxes as a percent of income before taxes was 44.2 percent compared to 41.3 percent in the prior year. The higher effective tax rate reflects the more significant impact of non-deductible goodwill amortization resulting from lower pretax income combined with higher foreign tax rate difference.

2000 Results of Operations

Net sales for the year ended December 31, 2000, increased \$71.9 million or 12 percent to a record \$652.7 million. Excluding contributions from acquisitions, total net sales would have increased 3 percent. Sales in the distribution segment decreased 2 percent for the year as sales of capital equipment, the more cyclical part of the distribution segment, continued to be weak. In the manufacturing segment, sales increased 18 percent over the comparable 12 months. Excluding acquisitions, sales in the manufacturing segment increased 5 percent for the year. The translation effect of the euro reduced total sales and manufacturing segment sales by \$20.0 million for the year. Without the translation effect and excluding acquisitions, both total sales and manufacturing segment sales would have increased 6 percent for the year.

Cost of sales increased \$67.4 million, or 18 percent, reflecting the higher sales levels and increased cost of raw materials, mainly plastic resins, which reduced gross profit as a percentage of sales from 36.7 percent in 1999 to 33.3 percent in 2000.

Total operating expenses increased \$10.7 million, or 7 percent, to \$154.3 million. Included in fourth quarter 2000 administrative expense were costs of approximately \$3.2 million related to the closing of the Company's Dayton, Ohio manufacturing facility. These costs were primarily to cover the estimated loss on disposition of the land, buildings, machinery and equipment and other fixed assets used at the closed facility. Expressed as a percentage of sales, operating expenses were 23.6 percent in 2000 and 24.7 percent in 1999. This improvement reflects the benefit from greater integration of the various acquisitions made in 1999.

Net interest expense increased \$7.2 million to \$22.4 million for the year. This increase reflects the higher average borrowing levels resulting from acquisitions combined with slightly higher rates.

Income taxes as a percent of income before taxes was 41.3 percent for 2000 compared to 42.6 percent in the prior year. This decrease is attributable to foreign tax rate differences.

Table of Contents

Financial Condition

Liquidity and Capital Resources

In 2001, the Company generated cash from operating activities of \$76.8 million. Investments in property, plant and equipment were \$25.2 million. In 2001, total debt was reduced by \$35.3 million and debt as a percentage of total capitalization was reduced from 58 percent to 55 percent. At December 31, 2001, the Company had working capital of \$91.7 million and a current ration of 1.9 to 1.

At December 31, 2001, available borrowing under the Company's revolving credit facility was approximately \$47 million. In addition, there is an uncommitted \$25 million springing facility. During the next five years management anticipates on-going capital expenditures in the range of \$25 to \$30 million annually. Cash flows from operations and funds available under existing credit facilities will provide the Company's primary source of future financing. Management believes that it has sufficient financial resources to meet anticipated business requirements in the foreseeable future, including capital expenditures, dividends, working capital and debt service.

Market Risk and Derivative Financial Instruments

The Company has financing arrangements that require interest payments based on floating interest rates. As such, the Company's financial results are subject to changes in the market rate of interest. Our objective in managing the exposure to interest rate changes is to limit the volatility and impact of rate changes on earnings while maintaining the lowest overall borrowing cost. At present, the Company has not entered into any interest rate swaps or other derivative instruments to fix the interest rate on any portion of its financing arrangements with floating rates. Accordingly, based on current debt levels at December 31, 2001, if market interest rates increased one percent, the Company's interest expense would increase approximately \$2.5 million.

Some of the Company's subsidiaries operate in foreign countries and, as such, their financial results are subject to the variability that arises from exchange rate movements. The Company believes that foreign currency exchange rate fluctuations do not represent a significant market risk due to the nature of the foreign countries in which we operate, primarily Canada and Western Europe, as well as the size of those operations relative to the total Company.

The Company uses certain commodities, primarily plastic resins, in its manufacturing processes. As such, the cost of operations is subject to fluctuation as the market for these commodities changes. The Company monitors this risk but currently has no derivative contracts to hedge this risk, however, the Company also has no significant purchase obligations to purchase fixed quantities of such commodities in the future.

Accounting Standards for Business Combinations and Goodwill

The Financial Accounting Standards Board recently issued Statement of Financial Accounting Standard No. 141 (SFAS 141), "Business Combinations," and SFAS 142, "Goodwill and Other Intangible Assets." The statements are effective for the Company on January 1, 2002. These statements will result in modifications relative to the Company's accounting for goodwill and other intangible assets. Specifically, the Company will cease goodwill and certain intangible asset amortization beginning January 1, 2002. Upon adopting the new standards and cessation of amortization for goodwill, the Company anticipates increases in annual income before taxes of \$9.2 million and earnings per shares of approximately \$.30 per share. Additionally, intangible assets, including goodwill, will be subject to new impairment testing criteria. Other than the impact to future earnings of eliminating goodwill amortization, the Company has not yet made a complete evaluation regarding the impact of adoption on the Company's financial statements, including the possible impairment of goodwill as recorded on the December 31, 2001, balance sheet.

Forward-Looking Information

Statements contained in this report concerning the Company's goals, strategies, and expectations for business and financial results may be "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 and are based on current indicators and expectations. These

Table of Contents

statements involve a number of risks and uncertainties that could cause actual results to differ materially from those expressed or implied in the applicable statements. Such risks include, but are not limited to, fluctuations in product demand, market acceptance, general economic conditions in domestic and international markets, competition, difficulties in manufacturing operations, raw material availability, and others.

ITEM 8. Financial Statements and Supplementary Data

The consolidated financial statements and accompanying notes and the reports of management and independent accountants follow Item 9 of this Report.

Summarized Quarterly Results of Operations (Unaudited) Thousands of Dollars, Except Per Share Data

ITEM 9. Disagreements on Accounting and Financial Disclosure

There were no disagreements with the Registrant's independent accountants on accounting and financial disclosure matters within the two-year period ended December 31, 2001, or in any period subsequent to such date.

REPORT OF INDEPENDENT PUBLIC ACCOUNTANTS

We have audited the accompanying statements of consolidated financial position of Myers Industries, Inc. (an Ohio Corporation) and Subsidiaries as of December 31, 2001 and 2000, and the related statements of consolidated income, shareholders' equity and comprehensive income and cash flows for each of the three years in the period ended December 31, 2001. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Myers Industries, Inc. and Subsidiaries as of December 31, 2001 and 2000, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2001, in conformity with accounting principles generally accepted in the United States.

MYERS INDUSTRIES, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

For The Years Ended December 31, 2001, 2000 and 1999

Summary of Significant Accounting Policies

Basis of Presentation

The consolidated financial statements include the accounts of Myers Industries, Inc. and all wholly owned subsidiaries (Company). Significant intercompany accounts and transactions have been eliminated in consolidation. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures at the date of the financial statements and the reported amount of revenues and expenses during the reported period. Actual results could differ from those estimates. Certain amounts in the fiscal 2000 and 1999 financial statements have been reclassified to conform with the fiscal year 2001 presentation.

Translation of Foreign Currencies

All balance sheet accounts of consolidated foreign subsidiaries are translated at the current exchange rate as of the end of the accounting period and income statement items are translated at an average currency exchange rate. The resulting translation adjustment is recorded as a separate component of shareholders' equity and other comprehensive income.

Financial Instruments

Temporary cash investments, all of which have an original maturity of ninety days or less, are considered cash equivalents. Other financial instruments, consisting of trade and notes receivable, and long-term debt, are considered to have a fair value which approximates carrying value at December 31, 2001.

Inventories

Inventories are stated at the lower of cost or market. For approximately 45 percent of its inventories, the Company uses the last-in, first-out (LIFO) method of determining cost. All other inventories are valued at the first-in, first-out (FIFO) method of determining cost.

If the FIFO method of inventory cost valuation had been used exclusively by the Company, inventories would have been \$3,731,000, \$4,756,000 and \$3,779,000 higher than reported at December 31, 2001, 2000 and 1999, respectively.

Property, Plant and Equipment

Property, plant and equipment are carried at cost less accumulated depreciation and amortization. The Company provides for depreciation and amortization on the basis of the straight-line method over the estimated useful lives of the assets as follows:

Buildings	20 to 30 years
Leasehold Improvements	7 to 10 years
Machinery & Equipment	3 to 10 years
Vehicles	1 to 3 years

Revenue Recognition

The Company recognizes revenue from sales when goods are shipped and title has passed to the customer.

MYERS INDUSTRIES, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements — Continued

Income Taxes

Deferred income taxes are provided to recognize the timing differences between financial statement and income tax reporting, principally for depreciation, non-deductible reserves and certain valuation allowances. Deferred taxes are not provided on the unremitted earnings of foreign subsidiaries as the Company's intention is to permanently reinvest these earnings in the operations of these subsidiaries. If these earnings would be remitted in future years, the taxes due after considering available foreign tax credits would not be material.

Excess of Cost Over Fair Value of Net Assets of Companies Acquired

This asset represents the excess of cost over the fair value of net assets of companies acquired and is being amortized on a straight-line basis over periods ranging from 15 to 40 years. Accumulated amortization at December 31, 2001 and 2000 was \$30,706,000 and \$21,483,000, respectively.

In June 2001, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 141 (SFAS 141), "Business Combinations", and SFAS 142, "Goodwill and Other Intangible Assets". These statements are effective for the Company on January 1, 2002 and will result in modifications relative to the accounting for goodwill and other intangible assets. Specifically, the Company will no longer amortize goodwill and certain intangible assets, however, such assets will be subject to periodic testing for potential impairment. Upon adopting the new standards and cessation of amortization for goodwill, the Company anticipates increases in annual income before taxes of \$9.2 million and earnings per share of approximately \$.30 per share, however, the Company has not yet made a complete evaluation regarding the impact of the new standards, including the possible impairment of goodwill as recorded on the December 31, 2001 balance sheet.

Net Income Per Share

Basic net income per share, as shown on the Statements of Consolidated Income, is determined on the basis of the weighted average number of common shares outstanding during the year, and for all periods shown basic and diluted earnings per share are identical. During the years ended December 31, 2001, 2000 and 1999, the Company paid a ten percent stock dividend. All per share data has been adjusted for the stock dividends.

Acquisitions

In October, 2000, the Company acquired R.B. Manufacturing (RB), a Sandusky, Ohio manufacturer of material handling carts and Best Plastics, Inc. a Cassopolis, Michigan manufacturer of thermoformed and rotational molded plastic products. Total cost of the acquisitions was approximately \$18.2 million and both acquisitions have been accounted for under the purchase method of accounting. The excess of purchase price over the fair value of assets acquired was approximately \$12.4 million which is being amortized on a straight line basis over 30 years. Consolidated pro-forma sales, income and earning per share, adjusted to reflect the acquisitions of RB and Best, would not be materially different from the reported amounts for fiscal years 2000 or 1999.

On February 4, 1999, the Company acquired all of the shares of the entities comprising Allibert Equipment (Allibert), the material handling division of Sommer Allibert S.A., and acquired Allibert-Contico, LLC, a joint venture between Sommer Allibert S.A. and Contico International, Inc. for a total purchase price of approximately \$150 million. The acquired businesses have five manufacturing facilities in Europe and one in North America and had 1998 annual sales of approximately \$145 million.

In August 1999, the Company acquired substantially all of the assets of Dillen Products Companies (Dillen) of Middlefield, Ohio, for approximately \$54 million and all of the outstanding shares of Listo Products, Ltd. (Listo) of Canada for approximately \$15 million. In 2001, the Company paid approximately \$7.5 million as additional and final consideration in connection with the acquisition of Dillen. The Listo

MYERS INDUSTRIES, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements — Continued

purchase agreement provides for payment of additional consideration contingent upon future earnings of the acquired business through February 2002. The Company anticipates a payment of approximately \$2.5 million in 2002 as final consideration in connection with the acquisition of Listo. Dillen and Listo are leading manufacturers of plastic horticultural containers including pots, trays, saucers, and decorative planters for customers including greenhouses and nurseries as well as retail garden centers and mass merchandisers.

The acquisitions have been accounted for under the purchase method of accounting and, accordingly, the results of operations have been included in the Company's consolidated financial statements since the dates of acquisition, and the acquisition costs have been allocated to the assets acquired and liabilities assumed based upon their estimated fair values. The excess of purchase price over fair value of net assets acquired of approximately \$166 million is being amortized over lives of 15 to 40 years.

The following unaudited pro-forma information presents a summary of consolidated results of operations of the Company and the acquisitions of Allibert, Dillen and Listo, as if the acquisitions of Allibert, Dillen and Listo had occurred January 1, 1999:

(In thousands, except per share)	Fiscal Year Ended December 31, 1999
Net Sales	\$625,407
Net Income	31,759
Net Income Per Share	1.30

These unaudited pro-forma results have been prepared for comparative purposes only and may not be indicative of results of operations which actually would have resulted had the combination been in effect on January 1, 1999, or of future results.

Long-Term Debt and Credit Agreements

Long-term debt at December 31, 2001 and 2000, consisted of the following:

	2001	2000
Revolving credit agreement	\$192,992,890	\$214,461,680
Term loan	53,500,000	65,500,000
Industrial revenue bonds	4,000,000	4,000,000
Other	14,420,032	16,204,418
	264,912,922	300,166,098
Less Current Portion	17,767,688	15,893,001
	\$247,145,234	\$284,273,097

The Company has a Multi-Currency Loan Agreement with a group of banks which provides for a \$53.5 million term loan facility and a revolving credit facility in five currencies, approximating \$240 million (US). In addition, there is an uncommitted \$25 million springing facility. Amounts available under the revolving credit facility are 185 million US dollars, 30 million euros, 22 million Canadian dollars, 63 million Danish kroner, and three million pound sterling. At December 31, 2001, the amount borrowed was \$53.5 million under the term loan, and 157 million US dollars, 21 million euros, 15 million Canadian dollars, 40 million Danish kroner and two million pound sterling under the revolving credit facility.

The borrowing under this facility was used to retire the prior revolving credit agreement, fund acquisitions, and for general corporate purposes. Interest is based upon LIBOR for US dollars and similar bases for the other currencies plus an applicable margin that varies depending on the Company's ratio of total

MYERS INDUSTRIES, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements — Continued

debt to earnings before interest, taxes, depreciation and amortization (EBITDA). The current average interest rate on the outstanding advances at December 31, 2001, is 3.97 percent. In addition, the Company pays a quarterly facility fee at a rate dependent on the EBITDA ratio, and is currently 45 basis points. The Multi-Currency Loan Agreement expires in February 2005.

The Credit Agreement contains the customary covenants which include among other things, the maintenance of certain financial ratios regarding leverage, net worth, interest coverage, and limits as to payments for cash dividends and capital expenditures. At December 31, 2001, the Company was in compliance with all of its debt covenants. In addition, the facility restricts debt outside the facility to \$35 million. At December 31, 2001, the Company had \$18.4 million borrowed against this limit consisting of industrial revenue bonds, certain indebtedness of acquired companies, and in-country credit facilities for the Company's international operations. The weighted average interest rate on these amounts outstanding is 4.7%.

Maturities of long-term debt for the five years ending December 31, 2006 are: \$18,000,000 in 2002; \$17,000,000 in 2003; \$27,000,000 in 2004; \$195,000,000 in 2005 and \$1,000,000 in 2006.

Leases

The Company and certain of its subsidiaries are committed under non-cancelable operating leases involving certain facilities and equipment. Aggregate rental expense for all leased assets was \$9,493,000, \$5,416,000 and \$4,436,000 for the years ended December 31, 2001, 2000 and 1999, respectively.

Future minimum rental commitments for the next five years are as follows:

Year Ended December 31,	Commitment
2002	\$8,232,000
2003	7,101,000
2004	5,931,000
2005	5,284,000
2006	4,697,000

Retirement Plans

The Company and certain of its subsidiaries have pension and profit sharing plans covering substantially all of their employees. Two plans are defined benefit plans with benefits primarily based upon a fixed amount for each completed year of service as defined. It is the Company's policy to fund pension costs accrued, which are at least equal to the minimum required contribution as defined by the Employee Retirement Income Security Act of 1974.

For the Company's defined benefit plans, the net periodic pension cost was as follows:

	2001	2000	1999
Service Cost	\$ 179,192	\$ 131,294	\$ 147,496
Interest Cost	288,493	259,886	245,145
Expected return on assets	(291,192)	(333,208)	(304,447)
Amortization of transition obligation	2,525	6,497	6,497
Amortization of prior service cost	42,776	27,825	27,825
Amortization of net gain	-0-	(42,305)	(6,046)
Net periodic pension cost	\$ 221,794	\$ 49,989	\$ 116,470

MYERS INDUSTRIES, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements — Continued

The reconciliation of changes in benefit obligations are as follows:

	2001	2000	1999
Benefit obligation at beginning of year	\$3,980,688	\$3,444,466	\$3,475,325
Service Cost	179,192	131,294	147,496
Interest Cost	288,493	259,886	245,145
Plan Amendments	-0-	204,084	120,577
Actuarial loss (gain)	190,309	94,742	(379,828)
Benefits paid	(153,361)	(153,784)	(164,249)
Benefit obligation at end of year	\$4,485,321	\$3,980,688	\$3,444,466

The following table reflects the change in the fair value of the plans' assets:

	2001	2000	1999
Fair value of plan assets at beginning of year	\$3,744,411	\$4,236,512	\$3,901,959
Actual return on plan assets	(380,259)	(358,045)	523,851
Company contribution	6,435	46,618	-0-
Expenses paid	(18,000)	(26,890)	(25,049)
Benefits paid	(153,361)	(153,784)	(164,249)
Fair value of plan assets at end of year	\$3,199,226	\$3,744,411	\$4,236,512

The following table provides a reconciliation of the funded status of the plans, both of which were underfunded at December 31, 2001 and 2000:

	2001	2000
Funded Status	\$(1,286,095)	\$(236,277)
Unrecognized net asset	(5,887)	(3,362)
Unrecognized prior service cost	404,477	447,253
Unrecognized net loss (gain)	707,248	(172,512)
(Accrued) prepaid benefit cost	\$ (180,257)	\$ 35,102

Assumptions used for these plans were a discount rate of 7 percent and expected rate of return on plan assets of 8.0 percent. Future benefit increases were not considered as there is no substantive commitment to increase benefits.

A profit sharing plan is maintained for the Company's U.S. based employees, not covered under defined benefit plans, who have met eligibility service requirements. The amount to be contributed by the Company under the profit sharing plan is determined at the discretion of the Board of Directors. Profit Sharing plan expense was \$1,500,000, \$2,000,000 and \$1,700,000 for the fiscal years 2001, 2000 and 1999 respectively. In addition, the Company has a Supplemental Executive Retirement Plan (SERP) to provide participating senior executives with retirement benefits in addition to amounts payable under the profit sharing plan. Expense related to the SERP was \$108,000, \$128,000 and \$375,000 for the years 2001, 2000 and 1999, respectively. The SERP is unfunded apart from the general assets of the Company.

MYERS INDUSTRIES, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements — Continued

Income Taxes

The effective tax rate was 44.2% in 2001, 41.3% in 2000 and 42.6% in 1999. A reconciliation of the Federal statutory income tax rate to the Company's effective tax rate is as follows:

	Percent of Pre-Tax Income		
	2001	2000	1999
Statutory federal income tax rate	35.0%	35.0%	35.0%
State income taxes — net of Federal tax benefit	3.8	4.2	4.2
Foreign tax rate differential	2.1	(0.5)	2.1
Effect of non-deductible depreciation and amortization	2.3	1.3	0.7
Other	1.0	1.3	0.6
Effective tax rate for the year	44.2%	41.3%	42.6%

Income taxes consisted of the following:

	2001		2000		1999	
	Current	Deferred	Current	Deferred	Current	Deferred
(Dollars in thousands)						
Federal	\$ 6,518	\$2,140	\$12,152	\$671	\$13,052	\$3,250
Foreign	2,322	(529)	1,457	(12)	3,190	9
State and Local	1,651	(53)	2,325	316	3,343	281
	\$10,491	\$1,558	\$15,934	\$975	\$19,585	\$3,540

Significant components of the Company's deferred tax liabilities as of December 31, 2001 and 2000 are as follows:

	2001	2000
(Dollars in thousands)		
Deferred income tax liabilities		
Property, plant and equipment	\$19,689	\$17,332
Employee benefit trust	435	354
Other	388	969
	20,512	18,655
Deferred income tax assets		
Compensation	3,276	2,945
Inventory valuation	1,246	1,129
Allowance for uncollectible accounts	971	733
Non-deductible accruals	2,423	2,810
	7,916	7,617
Net deferred income tax liability	\$12,596	\$11,038

Stock Options

In 1999, the Company and its shareholders adopted the 1999 Stock Option Plan allowing key employees to purchase Common Stock of the Company at the market price on the date of grant. The plan provides that

MYERS INDUSTRIES, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements — Continued

stock options expire five years from date of grant and are exercisable up to 20 percent of the shares granted each year. At December 31, 2001 there were 1,336,289 stock option shares available for future grant. The activity listed below covers the 1999 Stock Plan, the 1997 Incentive Stock Plan, and the 1992 Stock Option Plan.

Options granted during the past three years:

Year	Shares	Price
2001	240,129	\$10.45 to \$13.00
2000	13,200	\$10.23 to \$11.36
1999	281,590	\$10.95 to \$17.37

Options exercised during the past three years:

Year	Shares	Price
2001	57,671	\$10.45 to \$12.29
2000	24,430	\$ 8.92 to \$10.15
1999	111,411	\$ 8.85 to \$12.92

Options outstanding and exercisable at December 31, 2001, 2000 and 1999 were as follows:

Year	Outstanding	Price	Exercisable
2001	946,661	\$10.23 to \$19.73	596,556
2000	821,049	\$10.23 to \$19.73	511,615
1999	866,553	\$ 8.92 to \$19.73	336,324

The Company accounts for stock options under APB Opinion No. 25 and, therefore, does not recognize employee compensation for options granted using the fair value method set forth in the FASB Statement No. 123 "Accounting for Stock-Based Compensation". If the Company had followed FASB 123 rather than APB 25, net income would not have been materially different than the reported amounts and earnings per share would be identical for 2001, 2000 and 1999.

In calculating the pro-forma compensation expense under SFAS 123 the Company assumes that all options issued will vest and be exercised at the expiration date of the grant. The compensation amount is determined using the Black-Scholes option pricing model with certain variables including an assumed risk free interest rate of 4.85 percent, a dividend yield of 2 percent on the shares and a volatility measure based on the Company's stock beta of .90.

Industry Segments

The Company's business units have separate management teams and offer different products and services. Using the criteria of FASB No. 131, these business units have been aggregated into two reportable segments; Distribution of aftermarket repair products and services and Manufacturing of polymer products. The aggregation of business units is based on management by the chief operating decision maker for the segment as well as similarities of production processes, distribution methods and economic characteristics (e.g. average gross margin and the impact of economic conditions on long-term financial performance).

The Company's distribution segment is engaged in the distribution of equipment, tools and supplies used for tire servicing and undervehicle repair. The distribution segment operates domestically through 43 branches located in major cities throughout the United States and in foreign countries through export sales and businesses in which the Company holds an equity interest.

MYERS INDUSTRIES, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements — Continued

The Company's manufacturing segment designs, manufactures and markets a variety of polymer based plastic and rubber products. These products are manufactured primarily through the molding process in facilities throughout the United States and in Europe. Sales to external customers for manufactured plastic products were \$411.1 million, \$443.7 million and \$366.2 million for fiscal years 2001, 2000 and 1999, respectively. Sales of manufactured rubber products were \$46.0 million, \$50.8 million and \$52.7 million for fiscal years 2001, 2000 and 1999.

Operating income for each segment is based on net sales less cost of products sold, and the related selling, administrative and general expenses. In computing segment operating income general corporate overhead expenses and interest expenses are not included. The identifiable assets of each segment include: accounts receivable, inventory, net fixed assets, excess of cost over fair value of net assets acquired, patents and other intangible assets. Corporate assets are principally land, buildings, computer equipment, cash and temporary cash investments.

Total sales from foreign business units and export were approximately \$182.0 million, \$194.2 million and \$173.8 million for the years 2001, 2000 and 1999, respectively. There are no individual foreign countries for which sales are material. Long-lived assets in foreign countries consist primarily of property, plant, equipment and excess of cost over fair value of net assets acquired were approximately \$113.3 million at December 31, 2001, and \$124.4 million at December 31, 2000. No single customer accounts for 10 percent or more of total company net sales or the net sales of either business segment.

Financial Statements for the Myers Industries, Inc. Employee Stock Purchase Plan:

- (1) Statements of Assets Available for Plan Benefits as of December 31, 2001 and 2000; and
- (2) Statements of Changes in Assets Available for Plan Benefits for the Years Ended December 31, 2001, 2000 and 1999.

Notes to Financial Statements for the Myers Industries, Inc. Employee Stock Purchase Plan

REPORT OF INDEPENDENT PUBLIC ACCOUNTANTS

To the Myers Industries, Inc. Employee
Stock Purchase Plan Administrator:

We have audited the accompanying statements of assets available for plan benefits of the Myers Industries, Inc. Employee Stock Purchase Plan as of December 31, 2001 and 2000, and the related statements of changes in assets available for plan benefits for each of the three years in the period ended December 31, 2001. These financial statements are the responsibility of the Plan Administrator. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the assets available for plan benefits of the Myers Industries, Inc. Employee Stock Purchase Plan as of December 31, 2001 and 2000, and the changes in its assets available for plan benefits for each of the three years in the period ended December 31, 2001, in conformity with accounting principles generally accepted in the United States.

MYERS INDUSTRIES, INC.

Employee Stock Purchase Plan

**Notes to Financial Statements
For The Years Ended December 31, 2001, 2000 and 1999**

1. Description of Plan

The following description of the Myers Industries, Inc. Employee Stock Purchase Plan (“Stock Plan”) provides only general information. Participants should refer to the Plan Agreement and Prospectus for the Stock Plan for a more complete description of the Plan’s provisions.

(a) **General.** The shareholders of the Company approved the adoption of a nonqualified and a qualified Employee Stock Purchase Plan. The Stock Plan is designed to encourage, facilitate and provide employees with an opportunity to share in the favorable performance of the Company through ownership of the Company’s Common Stock. The total number of shares of the Common Stock which may be sold under the Stock Plan is currently limited to 188,176 shares.

(b) **Purpose.** The purpose of the Stock Plan is to provide employees (including officers) of the Company and its subsidiaries with an opportunity to purchase Common Stock through payroll deductions.

(c) **Administration.** The Stock Plan is administered by a committee appointed by the Board of Directors. All questions of interpretation or application of the Stock Plan are determined by the Board of Directors (or its appointed committee) and its decisions are final, conclusive and binding upon all participants.

(d) **Eligibility and Participation.** Any permanent employee (including an officer) who has been employed for at least one calendar year by the Company, or its subsidiaries who have adopted the Stock Plan, is eligible to participate in the Stock Plan, provided that such employee is employed by the Company on the date his participation is effective and subject to limitations on stock ownership described in the Stock Plan. Eligible employees become participants in the Stock Plan by delivering to the Company a subscription agreement authorizing payroll deductions prior to the commencement of the applicable offering period.

(e) **Offering Dates.** The Stock Plan is implemented by one offering during each calendar quarter. Offering periods commence on the last day of each calendar quarter. The Board of Directors has the power to alter the duration of the offering periods without shareholder approval.

(f) **Purchase Price.** The price at which shares may be purchased in an offering under the Stock Plan is 90% of the fair market value of the Common Stock on the last day of the prior calendar quarter. The fair market value of the Common Stock on a given date is the closing price for that date as listed on the New York Stock Exchange.

(g) **Payroll Deductions.** The purchase price of the shares to be acquired under the Stock Plan are accumulated by payroll deductions over the offering period. The rate of deductions may not be less than five dollars (\$5.00) per week or exceed 10% of a participant’s compensation, and the aggregate of all payroll deductions during the offering may not exceed 10% of the participant’s aggregate compensation for the offering period. A participant may discontinue his participation in the Stock Plan or may decrease or increase the rate of payroll deductions at any time during the offering period by filing with the Company a new authorization for payroll deductions.

All payroll deductions made for a participant are credited to their account under the Stock Plan and are deposited with the general funds of the Company to be used for any corporate purpose. The amount by which an employee’s payroll deductions exceed the amount required to purchase whole shares will be placed in a suspense account for the employee with no interest thereon and rolled over into the next offering period.

(h) **Withdrawal.** A participant in the Stock Plan may terminate his interest in a given offering in whole, but not in part, by giving written notice to the Company of his election to withdraw at any time prior to the end of the applicable offering period. Such withdrawal automatically terminates the participant’s interest

MYERS INDUSTRIES, INC.

Employee Stock Purchase Plan

Notes to Financial Statements — (Continued)

in that offering, but does not have any effect upon such participant's eligibility to participate in subsequent offerings under the Stock Plan.

(i) **Termination of Employment.** Termination of a participant's employment for any reason, including retirement or death, cancels his or her participation in the Stock Plan immediately.

(j) **Nonassignability.** No rights or accumulated payroll deductions of an employee under the Stock Plan may be pledged, assigned, transferred or otherwise disposed of in any way for any reason, other than on account of death. Any attempt to do so may be treated by the Company as an election to withdraw from the Stock Plan.

(k) **Amendment and Termination of The Plan.** The Board of Directors may at any time amend or terminate the Stock Plan. Except as provided above, no amendment may be made to the Stock Plan without prior approval of the shareholders if such amendment would increase the number of shares reserved under the Stock Plan, permit payroll deductions at a rate in excess of 10% of a participant's compensation, materially modify the eligibility requirements or materially increase the benefits which may accrue to participants under the Stock Plan.

(l) **Taxation.** Participants in the Stock Plan, which is nonqualified for federal income tax purposes, are taxed currently on the 10% discount in the purchase price granted by the Stock Plan in the year in which stock is purchased. The 10% discount is treated as ordinary income to the participant and that amount is currently deductible by the Company to the extent the participant's total compensation from the Company is within the "reasonable compensation" limits imposed by Section 162 of the Internal Revenue Code of 1986, as amended.

2. Summary of Significant Accounting Policies

(a) **Basis of Presentation.** The accompanying statements of assets available for plan benefits and statements of changes in assets available for plan benefits are prepared on the accrual basis of accounting.

(b) **Administrative Expenses.** Administrative costs and expenses are absorbed by the Trustee.

PART III

ITEM 10. Directors and Executive Officers of the Registrant

For information about the directors of the Registrant, see “Election of Directors” on pages 4 through 6 of Registrant’s Proxy Statement dated March 18, 2002 (“Proxy Statement”), which is incorporated herein by reference.

Information about the Executive Officers of Registrant appears in Part I of this Report.

Disclosures by the Registrant with respect to compliance with Section 16(a) appear on page 8 of the Proxy Statement, and are incorporated herein by reference.

ITEM 11. Executive Compensation

See “Executive Compensation and Other Information” on pages 9 through 13 of the Proxy Statement, which is incorporated herein by reference.

ITEM 12. Security Ownership of Certain Beneficial Owners and Management

See “Principal Shareholders” and “Election of Directors” on page 17, and pages 3 through 7, respectively, of the Proxy Statement, which are incorporated herein by reference.

ITEM 13. Certain Relationships and Related Transactions

See “Certain Relationships and Related Transactions” on page 8 of the Proxy Statement, which is incorporated herein by reference.

PART IV
