We have audited the accompanying statements of financial position of Ryder System, Inc. Deferred Compensation Plan (the "Plan") as of December 31, 2001 and 2000, and the related statements of income and changes in plan equity for each of the years in the three-year period ended December 31, 2001. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

# RYDER SYSTEM, INC. DEFERRED COMPENSATION PLAN

## NOTES TO FINANCIAL STATEMENTS

### 1. Description of Plan

The following description of the Ryder System, Inc. Deferred Compensation Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more comprehensive description of the Plan's provisions.

General. The Plan was adopted effective January 1, 1997. The Plan is unfunded and is intended to be exempt from the participation, vesting, funding, and fiduciary requirements of Title I of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"), but is subject to certain reporting and disclosure requirements under ERISA. Further, benefits under the Plan are not guaranteed under Title IV of ERISA. The right of a participant or his designated beneficiary to receive a distribution under the Plan will be an unsecured claim against the general assets of Ryder System, Inc. (the "Company"), and neither the participant nor a designated beneficiary will have any rights in or against any specific assets of the Company.

Effective July 1, 1997, the Company transferred assets to a grantor trust (the "Trust") solely for the benefit of the Plan participants which may be used to pay all or a portion of the obligations of the Plan and certain other non-qualified benefit plan obligations of the Company. The Trust provides greater assurance that future benefits under the Plan will be paid in the event that a change of control should occur or under other circumstances. However, the right of a participant or his designated beneficiary to receive a distribution under the Plan will be an unsecured claim against the Trust and the general assets of the Company in the event of bankruptcy, and neither the Plan, participant, nor a designated beneficiary will have any rights in or against any specific assets of the Trust or the Company.

The Plan Administrator is the Ryder System, Inc. Retirement Committee comprised of seven persons appointed by the Ryder System, Inc. Board of Directors. The Plan's trustee and recordkeeper is Fidelity Management Trust Co.

Eligibility. Participation in the Plan is voluntary. To participate in the Plan, an employee must (i) be designated by a committee appointed by the Board of Directors, (ii) be part of a select group of management or highly compensated employees within the meaning of Sections 201(2), 301(a)(3) and 401 (a)(1) of ERISA, and (iii) be an eligible employee of the Company with tax-deferred contributions or Company matching contributions under the Ryder System, Inc. Savings Plan A or B (the "Savings Plan") limited by reason of limitations imposed by Sections 402(g), 415 or 401 (a)(17) of the Internal Revenue Code of 1986 (the "Code"), as amended. Members of the Company's Board of Directors are eligible for participation in the Plan.

Contributions. Compensation deferral agreements are effective on a Plan year basis, and must be filed before the beginning of a Plan year. Participants may defer up to 100% of compensation less the amount of Savings Plan tax-deferred contributions. Income taxes are deferred on participants' salary reductions and the deferred salary amounts are assumed to be invested ("notional investments") in accordance with investment options selected by each participant. Participants may elect to contribute to any of thirteen notional investment options. Participants may transfer their contributions among funds on a daily basis. The Company contributions are automatically allocated on a notional basis to the Ryder System,

Inc. Common Stock Fund and will remain there until the participant terminates employment or reaches age 55, whichever comes first. The Company matches 50% of employee contributions up to 4% of compensation (6% if the Company meets its Economic Value Added or EVA goal), offset by any company match recorded during the plan year in the Savings Plans. Plan contributions and match are not tied to participation in the Savings Plan.

Beginning January 1, 1999, the Company has revised the additional EVA match component so that participants will receive a pro-rata portion of the EVA match based on the portion of the EVA goal attained.

**Participant Accounts.** Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) appreciation which is indexed to the market performance of the participants' elections among the notional investment funds made available under the Plan less administrative expenses, if any. Allocations are based on participant earnings or account balance. Appreciation is allocated daily based on units of notional investment. Forfeited balances of terminated participants' non-vested accounts are used to reduce future Company contributions. At December 31, 2001, forfeited non-vested accounts available to reduce future employer contributions totaled \$22,593. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

**Vesting.** Participants are immediately vested in their contributions and any appreciation thereon. Upon completion of two years of service, participants vest 25% in the Company contributions and the appreciation attributable to such contributions and 25% upon completion of each year thereafter until they are fully vested. At retirement age, (the earlier of age 65 or the date in which a participant has both attained age 55 and completed at least 10 years of service), a participant becomes fully vested in the Company contributions and the appreciation attributable to such contributions.

**Distributions.** Each participant of the Plan elects a method of receipt of distributions from the Plan upon retirement, disability, death or other termination of employment, each an event of separation of employment or a participant can elect a fixed date distribution. Such election indicates that the participant has chosen to receive either: (a) a lump sum on the January 1 immediately following the earliest triggering event of the participant's separation from employment, or (b) a minimum of two, and a maximum of 15 annual installments beginning on the January 1 immediately following the earliest triggering event of the participant's separation from employment, or as soon as administratively practicable thereafter. A participant may request a distribution of all or a portion of his elective contribution account balance if he can demonstrate financial hardship. The Plan Administrator must approve the request and the amount withdrawn cannot be subsequently repaid to the Company. Such amounts will be considered distributions to the participant for tax purposes. At anytime, participants may elect to withdraw the entire vested portion of their account less a withdrawal penalty of 10% of such amount. Once payment is made, the participant shall not be eligible to participate in the Plan again.

## 2. Summary of Significant Accounting Policies

**Basis of Accounting.** The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect reported amounts and related disclosures. Actual results could differ from those estimates.

Receivable from Company. The Plan records a receivable from the Company equal to the notional amount of the participants' accounts including company matches. Purchases and sales of notional investments are recorded on a trade- date basis. Dividends on notional investments in Company common stock and mutual funds are recorded on the record date. Interest income on notional investments is recorded on the accrual basis.

Payment of Benefits. Benefits are recorded when paid.

Risk and Uncertainties. The amount of the Plan's receivable from Ryder System, Inc. is based on, among other things, the performance of the notional investments, which consist of stocks, bonds, fixed income securities, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.

While it has not expressed any intention to do so, the Company may amend or terminate the Plan at any time. In the event the Plan is terminated, distribution of amounts in the participant's account shall be made to the participant on January 1st immediately following a participant's separation from employment. Payment will be made in accordance with the participant's most recent participant election and enrollment form, which is effective at least one year prior to the date of separation of employment. No additional credits of contributions shall be made to the participant's account for periods after termination of the Plan, but the Retirement Committee shall continue to credit gains and losses to the participant's account, until the balance has been fully distributed.

#### 6. Tax Status of the Plan

A participant generally will not be taxed on the tax-deferred contributions or the Company matching contributions to the Plan, or earnings thereon, allocable to his participant's account until such amounts are distributed to the participant or his beneficiary under the Plan. The value of the participant's account, including any earnings, is deductible by the Company for federal tax purposes in the year in which those amounts become taxable to the participant or his beneficiary.

Participants or their beneficiaries generally will be taxed, at ordinary income rates, on the amount they receive as a distribution from the Plan at the time they receive the distribution. Since the Plan is not qualified under Section 401(a) of the Code, distributions from the Plan

will not qualify for any of the favorable tax rulings applicable to qualified tax distributions, such as tax-deferred rollovers or five year averaging. On the other hand, distributions from the Plan will not be subject to various excise taxes applicable to qualified plan distributions, such as 10% excise tax on distribution prior to age 59 1/2, or the 15% excise tax on excess benefit payments.

An employee's tax-deferred contributions to the Plan are subject to federal social security and Medicare taxes and federal unemployment taxes when earned, and Company matching contributions, and any earnings thereon prior to the time such amounts become vested, are subject to those taxes as and when they become vested.

#### 7. Plan Fees and Expenses

Although all expenses of administration relating to the Plan may be charged against a participant's account, at the present time, the Company has elected to pay all administrative and marketing expenses.

#### 8. Subsequent Event

Beginning May 1, 2002 the investment options offered by the Plan have been expanded to a total of fifteen notional investments. The Fidelity Aggressive Growth Fund and the Fidelity Asset Manager Fund will be eliminated and replaced with the UAM: Rice, Hall, James Small Cap Fund and five new life stage investment options offered by Fidelity Investments.
