April 17, 2006

SunTrust Reports Record First Quarter 2006 Earnings *Company's Strong Growth Trends Continue in the New Year*

ATLANTA — SunTrust Banks, Inc. (NYSE: STI) today reported record net income for the first quarter of 2006 of \$531.5 million, up 8% from \$492.3 million in the first quarter of 2005. Net income per diluted share was also a record \$1.46, up 7% from \$1.36 in the first quarter of 2005.

“Our first quarter results are evidence that we continue to build on the strong operating platform that we have established. We are pleased to report that the Company started out the new year with record results in net income and earnings per share despite a challenging environment. The continued execution of our business strategies across all lines of business drove another quarter of significant loan and revenue growth. This growth, coupled with continued improvement in credit quality, resulted in the strong earnings that we posted for the first quarter,” L. Phillip Humann, chairman and CEO of SunTrust noted. Revenue growth was 9%, and excluding the net gain on sale of factoring assets in the first quarter of 2005 and securities gains and losses, revenue growth was 10% over the first quarter of 2005. Loan growth was 13% over this same time frame. Mr. Humann noted that credit quality trends continued to improve from the already low historical levels experienced over the past year, with key credit measures such as net charge-offs and nonperforming loans to total loans falling to cyclical lows in the first quarter of 2006.

First Quarter 2006 Consolidated Highlights

	<u>1st Quarter 2006</u>	<u>1st Quarter 2005</u>	<u>Reported % Change</u>
Income Statement			
(Dollars in millions except per share data)			
Net income	\$ 531.5	\$ 492.3	8%
Net income per diluted share	1.46	1.36	7%
Revenue – fully taxable-equivalent	2,050.9	1,883.0	9%
Revenue – fully taxable-equivalent excluding securities gains and losses and net gain on sale of factoring assets	2,050.8	1,868.8	10%
Noninterest income	851.5	753.8	13%
Noninterest income excluding securities gains and losses and net gain on sale of factoring assets	851.4	739.6	15%
Balance Sheet			
(Dollars in billions)			
Average loans	\$ 116.3	\$ 103.2	13%
Average consumer and commercial deposits	95.3	91.0	5%

Asset Quality

Net charge-offs to average loans	0.08%	0.14%
Nonperforming loans to total loans	0.25%	0.34%

First Quarter 2006 Consolidated Highlights, continued

- Net income increased 8% and net income per diluted share increased 7% from the first quarter of 2005 driven by the strong revenue growth.
- Total fully taxable-equivalent revenue increased 9% from the first quarter of 2005 driven by noninterest income growth of 13% and fully taxable-equivalent net interest income growth of 6%. Excluding securities gains and losses and the net gain on the sale of factoring assets, total fully taxable-equivalent revenue increased by 10% and noninterest income increased by 15% from the first quarter of 2005.
- Noninterest income growth was led by mortgage-related income, which was driven by strong production levels as well as higher mortgage servicing-related income.
- Total average loans increased 13% and total average consumer and commercial deposits increased 5% from the first quarter of 2005 reflecting the effectiveness of SunTrust's company-wide sales focus.
- Net charge-offs were 0.08% of average loans, down from 0.14% of average loans in the first quarter of 2005. Nonperforming loans to total loans improved as well, dropping from 0.34% for the first quarter of 2005 to 0.25% for the first quarter in 2006, both reflecting exceptional credit quality levels.

CONSOLIDATED FINANCIAL PERFORMANCE

Revenue

Fully taxable-equivalent revenue was \$2,050.9 million for the first quarter of 2006, up 9% from the first quarter of 2005. Fully taxable-equivalent revenue, excluding securities gains and losses and the net gain on sale of factoring assets that occurred in the first quarter of 2005, increased 10% from the first quarter of 2005. Fully taxable-equivalent revenue growth was driven by strong increases in both fully taxable-equivalent net interest income and noninterest income. On a sequential annualized basis, fully-taxable-equivalent revenue increased 9% in the first quarter of 2006 from the fourth quarter of 2005.

Net Interest Income

Fully taxable-equivalent net interest income was \$1,199.4 million in the first quarter of 2006, up 6% from the first quarter of 2005. The primary factor driving the fully taxable-equivalent net interest income growth year-over-year was strong loan growth. Loans grew 13% on average from the first quarter of 2005. The net interest margin of 3.10% for the first quarter of 2006 was unchanged from the fourth quarter of 2005.

Noninterest Income

Total noninterest income was \$851.5 million for the first quarter of 2006, up a strong 13% from the first quarter of 2005. Excluding securities gains and losses and the net gain on sale of factoring assets recorded in the first quarter of 2005, total noninterest income grew 15%. A significant portion of the increase resulted from growth in mortgage related income, reflecting the continued strength in loan production-related income as well as an increase in mortgage servicing-related income. An increase in the level of loan sales as well as our continued sales efforts drove the increase in production-related income in the first quarter. The increase in servicing-related income experienced during the first quarter is an indication of the increased income created from the larger

servicing portfolio, a reduction in the mortgage servicing amortization rate and the realization of the value embedded in the excess mortgage servicing rights through the securitization and subsequent sale of a portion of the excess servicing rights. Additionally, growth in card fees, investment banking income, trust and investment management income and service charges also contributed. On a sequential annualized basis, noninterest income increased 27% in the first quarter of 2006 from the fourth quarter of 2005, largely driven by the increase in mortgage-related income in the first quarter.

Noninterest Expense

Total noninterest expense in the first quarter of 2006 was \$1,226.5 million, up 8% from the first quarter of 2005. The increase in expense reflects certain investments in revenue producing divisions of the Company, including the addition of offices and employees and investment in the infrastructure of the organization to gain greater efficiencies in the future. The increase in marketing and customer development expense reflects the Company's focus on customer acquisition. Offsetting these increases was the lack of merger-related expenses in the first quarter of 2006. On a sequential annualized basis, noninterest expense increased 6% in the first quarter of 2006 from the fourth quarter of 2005. Excluding the merger-related expenses in the fourth quarter of 2005 from total noninterest expense, the increase was 9%. The respective increases of 6% and 9% were mainly attributable to increases in certain employee benefit expenses that are seasonal, such as FICA expense.

The reported efficiency ratio was 59.80% for the first quarter of 2006 compared to 60.20% for the fourth quarter of 2005, an improvement of 40 basis points. Excluding the effect of merger-related expenses included in the fourth quarter of 2005, the efficiency ratio for that quarter was 59.87% and the improvement was 7 basis points.

Balance Sheet

As of March 31, 2006, SunTrust had total assets of \$178.9 billion. Shareholders' equity of \$17.2 billion as of March 31, 2006 represented 10% of total assets. Book value per share was \$47.22 as of March 31, 2006, up from \$46.65 as of December 31, 2005.

Loans

Average loans for the first quarter of 2006 were \$116.3 billion, up 13% from the first quarter of 2005. On a sequential annualized basis, average loans grew 9% in the first quarter of 2006 from the fourth quarter of 2005. Areas of strongest growth in consumer lending were residential real estate and home equity lines. Although reported commercial loans grew 1%, the sequential annualized rate of growth excluding the impact of shorter-term corporate lending facilities, which are temporary and can fluctuate from quarter-to-quarter, was 9% in the first quarter of 2006 from the fourth quarter of 2005. Real estate construction also contributed to the overall loan growth.

Deposits

Average consumer and commercial deposits for the first quarter of 2006 were \$95.3 billion, up 5% from the first quarter of 2005. The growth in deposits was driven mainly by growth in money market accounts and certificates of deposit. On a sequential annualized basis, average consumer and commercial deposits were flat compared to the fourth quarter of 2005. Seasonal declines in noninterest bearing, NOW and savings deposits, as well as the expected seasonal decline in mortgage escrow balances, were offset by strong certificate of deposit growth. Given market conditions and the higher rate environment, customer preference is for higher-yielding deposit products, which is reflected in the deposit mix shift from the fourth quarter to the first quarter. The Company continues to pursue deposit growth initiatives aimed at product promotions, as well as increasing our presence in specific markets within our footprint.

Asset Quality

The Company reached cyclical lows in several key credit measures in the first quarter of 2006 from the already exceptionally good levels in prior quarters. Net charge-offs in the first quarter of 2006 were 0.08% of average loans, down from 0.17% of average loans in the fourth quarter of 2005 and 0.14% of average loans in the first quarter of 2005. Net charge-offs were \$22.3 million in the first quarter of 2006 compared to \$49.9 million in the fourth quarter of 2005 and \$36.8 million in the first quarter of 2005. Nonperforming assets were relatively stable in the first quarter of 2006 compared to the fourth quarter of 2005, and were down \$58.0 million, or 15%,

from the first quarter of 2005. Nonperforming assets were \$334.3 million, or 0.28% of loans, other real estate owned and other repossessed assets as of March 31, 2006 compared to \$334.2 million, or 0.29% of loans, other real estate owned and other repossessed assets as of December 31, 2005.

The allowance for loan and lease losses increased \$11.1 million to \$1,039.2 million as of March 31, 2006 from \$1,028.1 million as of December 31, 2005 due to strong loan growth during the period. Provision expense decreased from \$48.1 million in the fourth quarter of 2005 to \$33.4 million in the first quarter of 2006. The allowance for loan and lease losses as of March 31, 2006 represented 0.88% of period-end loans, a slight decrease from 0.90% as of December 31, 2005. The allowance for loan and lease losses as of March 31, 2006 represented 358.7% of period-end nonperforming loans, an increase from 346.9% as of December 31, 2005.

LINE OF BUSINESS FINANCIAL PERFORMANCE

Retail

<i>preliminary data</i> (in millions)	<u>1st Quarter 2006</u>	<u>1st Quarter 2005</u>	<u>% Change</u>
Net income	\$ 190.5	\$ 141.6	35%
Revenue – fully taxable-equivalent	850.7	759.3	12%
Average total loans	31,246.0	29,519.8	6%
Average total deposits	67,158.1	63,527.4	6%

Retail's net income for the first quarter of 2006 was \$190.5 million, an increase of \$48.9 million, or 35%, compared to the first quarter of 2005. The increase was primarily the result of higher fully taxable-equivalent net interest income, lower net charge-offs and higher noninterest income partially offset by higher noninterest expense.

Fully taxable-equivalent net interest income increased \$71.0 million, or 14%, from the first quarter of 2005. The increase was attributable to loan and deposit growth and widening deposit spreads due to deposit rate increases that have been slower relative to market rate increases. Average loans increased \$1.7 billion, or 6%, and average deposits increased \$3.6 billion, or 6% from the first quarter of 2005. The loan growth was driven primarily by home equity lines, while the deposit growth was driven by certificates of deposit.

Provision for loan losses, which represents net charge-offs for the lines of business, decreased \$12.9 million, or 40%, from the first quarter of 2005 primarily due to a decline in consumer indirect net charge-offs.

Total noninterest income increased \$20.4 million, or 9%, from the first quarter of 2005. The increase was driven primarily by interchange income due to increased volumes, gains on sales of student loans and service charges on deposit accounts.

Total noninterest expense increased \$29.2 million, or 6%, from the first quarter of 2005. The increase was driven primarily by increases in personnel expense and operation costs related to investments in the branch distribution network and technology.

Commercial

<i>preliminary data</i> (in millions)	<u>1st Quarter 2006</u>	<u>1st Quarter 2005</u>	<u>% Change</u>
Net income	\$ 106.8	\$ 91.5	17%
Revenue – fully taxable-equivalent	300.7	267.4	13%
Average total loans	31,508.4	29,949.6	5%

Average total deposits	13,705.4	13,256.4	3%
------------------------	----------	----------	----

Commercial's net income for the first quarter of 2006 was \$106.8 million, an increase of \$15.2 million, or 17%, compared to the first quarter of 2005. The increase was driven by higher fully taxable-equivalent net interest income and noninterest income, partially offset by an increase in noninterest expense.

Fully taxable-equivalent net interest income increased \$22.5 million, or 11%, from the first quarter of 2005. The increase is attributable to increased loan volumes and deposit spreads. Average loans

4

increased \$1.6 billion, or 5%, from the first quarter of 2005 with the strongest growth in construction lending. Average deposits increased \$449.1 million, or 3%, from the first quarter of 2005 driven by an increase in public funds and partially offset by a decrease in demand deposits.

Provision for loan losses, which represents net charge-offs for the lines of business, improved from a net recovery position of \$0.4 million in the first quarter of 2005 to a net recovery position of \$1.1 million in the first quarter of 2006.

Total noninterest income increased \$10.8 million, or 19%, from the first quarter of 2005. The increase was primarily driven by increases in Affordable Housing revenue, sweep income and letter of credit fees.

Total noninterest expense increased \$12.4 million, or 9%, from the first quarter of 2005. Investment in personnel and higher Affordable Housing expenses were the primary drivers.

Corporate and Investment Banking

<i>preliminary data</i> (in millions)	<u>1st Quarter 2006</u>	<u>1st Quarter 2005</u>	<u>% Change</u>
Net income	\$ 64.2	\$ 72.5	(12)%
Impact of factoring asset divestiture	(0.0)	(14.5)	
Net income excluding impact of factoring asset divestiture	<u>64.2</u>	<u>58.0</u>	11%
Revenue – fully taxable-equivalent	225.4	236.4	(5)%
Impact of factoring asset divestiture	(0.2)	(27.9)	
Revenue excluding impact of factoring asset divestiture	<u>225.2</u>	<u>208.5</u>	8%
Average total loans (including leases)	16,106.2	13,946.2	16%
Average total deposits	3,693.2	3,133.5	18%

Corporate and Investment Banking's net income for the first quarter of 2006 was \$64.2 million, a decrease of \$8.3 million, or 12%, compared to the first quarter of 2005. Growth in fully taxable-equivalent net interest and capital markets income in the first quarter of 2006 was offset by the divestiture of factoring assets in the first quarter of 2005. Adjusting net income and fully taxable-equivalent revenue for the impact from the March 2005 divestiture of factoring assets, net income increased 11%, and fully taxable-equivalent revenue increased 8% from the first quarter of 2005.

Fully taxable-equivalent net interest income increased \$8.3 million, or 14%, from the first quarter of 2005. Average loans and leases increased \$2.2 billion, or 16%, from the first quarter of 2005. Average deposits increased \$559.7 million, or 18%, from the first quarter of 2005. Loan growth is due to increased corporate demand and merger and acquisition activity. Corporate demand for long-term CDs drove deposit growth.

Provision for loan losses, which represents net charge-offs for the lines of business, declined from a net recovery position of \$0.7 million in the first quarter of 2005 to a net recovery position of \$0.4 million in the first quarter of 2006.

Total noninterest income decreased \$19.4 million, or 11%, from the first quarter of 2005 primarily driven by the divestiture of factoring assets in the first quarter of 2005. Also contributing to the decrease was weakness in merger and acquisition related fees and fixed income trading. This was partially offset by revenue growth related to securitizations, derivatives and syndicated loans.

Total noninterest expense increased \$2.3 million, or 2%, from the first quarter of 2005. The majority of this change was due to increased compensation as a direct result of capital markets revenue growth. This was partially offset by the expense reduction from the factoring asset divestiture.

Mortgage

<i>preliminary data</i> (in millions)	1st Quarter 2006	1st Quarter 2005	% Change
Net income	\$ 79.7	\$ 38.2	109%
Revenue – fully taxable-equivalent	268.8	170.3	58%
Average total loans	28,924.5	21,977.5	32%
Average total deposits	1,443.9	1,298.4	11%

Mortgage's net income for the first quarter of 2006 was \$79.7 million, an increase of \$41.5 million, or 109%, compared to the first quarter of 2005. Record loan sales to investors, gains from the securitization and sale of excess mortgage servicing rights and increased volumes drove the increase.

Fully taxable-equivalent net interest income increased by \$23.0 million, or 18%, from the first quarter of 2005. Total average loans increased \$6.9 billion, or 32%, from the first quarter of 2005 due to strong construction-permanent production and continued demand for portfolio loan products. The higher loan balances contributed \$22.3 million to the increase in net interest income. Loans held for sale increased \$3.3 billion, or 58%, to \$9.1 billion from the first quarter of 2005. However, due to compressed spreads, income from loans held for sale decreased \$3.5 million, or 8%, from the first quarter of 2005. Average deposits were up \$145.6 million, or 11%, from the first quarter of 2005 due to increased escrow balances associated with higher servicing balances. The higher deposit balances combined with the benefit in a higher rate environment from this funding contributed an additional \$4.6 million to net interest income.

Provision for loan losses, which represents net charge-offs for the lines of business, increased \$1.7 million to \$2.8 million from the first quarter of 2005, which was less than 0.01% of total average loans for the first quarter of 2006.

Total noninterest income was up \$75.5 million, or 169%, from the first quarter of 2005. Production income increased \$43.8 million, or 219%, from the first quarter of 2005 principally due to higher loan sales to investors. Loan sales were up \$4.9 billion, or 92%, from the first quarter of 2005 to a record level of \$10.3 billion. Increased loan production also contributed to higher noninterest income. Loan production was \$11.6 billion, up \$2.9 billion, or 34%, from the first quarter of 2005. Servicing income increased \$32.3 million, or 274% compared with last year. The securitization and subsequent sale of excess mortgage servicing rights related to \$12.8 billion in servicing balances resulted in income of \$24.4 million. Additionally, fee income increased due to higher servicing balances. Total loans serviced as of March 31, 2006 were \$112.2 billion compared to \$83.6 billion as of March 31, 2005, an increase of \$28.5 billion or 34%.

Total noninterest expense increased by \$31.3 million, or 28%, from the first quarter of 2005. Increased volume and growth-related costs were the primary drivers of the higher expense.

Wealth and Investment Management

<i>(in millions)</i>	<u>2006</u>	<u>2005</u>	<u>% Change</u>
Net income	\$ 45.7	\$ 42.7	7%
Revenue – fully taxable-equivalent	331.2	310.1	7%
Average total loans	8,149.1	7,574.3	8%
Average total deposits	9,217.4	9,403.9	(2)%

Wealth and Investment Management's net income for the first quarter of 2006 was \$45.7 million, an increase of \$2.9 million, or 7%, compared to the first quarter of 2005. The growth was primarily driven by increased net interest income, partially offset by expenses related to the continued build-out of the business.

Fully taxable-equivalent net interest income increased \$15.0 million, or 19%, from the first quarter of 2005 attributable to increased loan volume and deposit spreads. Average loans increased

6

\$574.7 million, or 8%, from the first quarter of 2005 driven by strong consumer mortgage, equity line and commercial real estate demand, partially offset by a decline in consumer direct installment loans. Average deposits decreased \$186.4 million, or 2%, from the first quarter of 2005.

Provision for loan losses, which represents net charge-offs for the lines of business, decreased \$0.1 million from the first quarter of 2005.

Total noninterest income increased \$6.1 million, or 3%, from the first quarter of 2005 due to growth in trust income which resulted from higher assets under management. Assets under management increased approximately \$7.8 billion, or 6%, from last year due to new business and an increase in equity market valuations. End of period assets under management were approximately \$136.9 billion compared to \$129.1 billion in the same period last year. Assets under management include individually managed assets, the STI Classic Funds, institutional assets managed by Trusco Capital Management and participant-directed retirement accounts. SunTrust's total assets under advisement were approximately \$245.4 billion, which include \$136.9 billion in assets under management, \$45.5 billion in non-managed trust assets, \$35.0 billion in retail brokerage assets and \$28.0 billion in non-managed corporate trust assets.

Total noninterest expense increased \$16.6 million, or 7%, from the first quarter of 2005. The growth was primarily driven by increased expenses paid to third parties, increased operations costs, and continued investments in the business.

Corporate Other and Treasury

<i>preliminary data</i> <i>(in millions)</i>	<u>1st Quarter</u> <u>2006</u>	<u>1st Quarter</u> <u>2005</u>	<u>% Change</u>
Net income	\$ 44.8	\$ 105.8	(58)%
Securities available for sale	24,754.2	27,067.9	(9)%

Corporate Other and Treasury's net income for the first quarter of 2006 was \$44.8 million, a decrease of \$61.0 million, or 58%, compared to the same period in 2005 mainly due to a decrease in net interest income.

Fully taxable-equivalent net interest income decreased \$69.7 million, or 52%, from the first quarter of 2005. The main drivers for the reduction in net interest income were a \$2.3 billion decrease in securities available for sale, a decrease in income on receive fixed/pay floating interest rate swaps used to extend the duration of the commercial loan portfolio, and an increase in short-term borrowing costs due to an increase in the size of these borrowings needed to fund earning asset growth, as well as a significant rise in short-term interest rates over the past year.

Total average deposits increased \$11.0 billion, or 80%, from last year mainly due to growth in brokered and foreign deposits of \$11.2 billion. Additionally, other short-term borrowings and long-term debt declined \$2.5

billion from the first quarter of 2005.

Provision for loan losses, which represents the difference between net charge-offs for the lines of business and total provision for loan losses, increased \$34.5 million from the first quarter of 2005.

Total noninterest income increased \$4.2 million, or 76%, from the first quarter of 2005. This was mainly due to net securities gains of \$0.1 million in the first of 2006 compared to net securities losses of \$6.4 million in the same period of 2005.

Total noninterest expense increased \$0.8 million, or 6%, from the first quarter of 2005.

a.m. (Eastern Time) by dialing 1-888-972-7805 (Passcode: 1Q06; Leader: Greg Ketron). Individuals calling from outside the United States should dial 1-517-308-9091 (Passcode: 1Q06; Leader: Greg Ketron). A replay of the call will be available beginning April 17, 2006 and ending May 1, 2006 by dialing 1-866-498-5444 (domestic) or 1-203-369-1795 (international).

Alternatively, individuals may listen to the live webcast of the presentation by visiting the SunTrust Web site at www.suntrust.com. The webcast will be hosted under "Investor Relations" located under "About SunTrust" or may be accessed directly from the SunTrust home page by clicking on the earnings-related link, "1st Quarter Earnings Release." Beginning the afternoon of April 17, 2006, listeners may access an archived version of the webcast in the "Webcasts and Presentations" subsection found under "Investor Relations." This webcast will be archived and available for one year. A link to the Investor Relations page is also found in the footer of the SunTrust home page.

SunTrust Banks, Inc., headquartered in Atlanta, is one of the nation's largest banking organizations, serving a broad range of consumer, commercial, corporate and institutional clients. The Company operates an extensive branch and ATM network throughout the high-growth Southeast and Mid-Atlantic states and a full array of technology-based, 24-hour delivery channels. The Company also serves customers in selected markets nationally. Its primary businesses include deposit, credit, trust and investment services. Through various subsidiaries the Company provides credit cards, mortgage banking, insurance, brokerage, equipment leasing and capital markets services. SunTrust's Internet address is www.suntrust.com.

###

Forward Looking Statements

This press release contains forward-looking statements, including statements about future prospects of the Company and credit quality. Statements that are not historical or current facts, including statements about beliefs and expectations, are forward-looking statements. These statements often include the words "may," "could," "would," "should," "believes," "expects," "anticipates," "estimates," "intends," "plans," "targets," "potentially," "probably," "projects," "outlook" or similar expressions. Such statements are based upon the current beliefs and expectations of SunTrust's management and are subject to significant risks and uncertainties. Do not unduly rely on forward-looking statements. Actual results may differ materially from those set forth in the forward-looking statements. Factors that could cause SunTrust's results to differ materially from those described in the forward-looking statements can be found in the Company's 2005 Annual Report on Form 10-K, in the Quarterly Reports on Form 10-Q and in the Current Reports filed on Form 8-K with the Securities and Exchange Commission and available at the Securities and Exchange Commission's internet site (<http://www.sec.gov>). Those factors include (1) as a financial services company, adverse changes in general business or economic conditions could have a material adverse effect on our financial condition and results of operations; (2) changes in market interest rates or

capital markets could adversely affect our revenues and expenses, the value of assets and obligations, costs of capital, or liquidity; (3) the fiscal and monetary policies of the federal government and its agencies could have a material adverse effect on our earnings; (4) a decrease in the market for residential real estate could harm our revenue and profitability; (5) clients could pursue alternatives to bank deposits, causing us to lose a relatively inexpensive source of funding; (6) consumers may decide not to use banks to complete their financial transactions, which could affect our net income; (7) we have businesses other than banking which subjects the Company to a variety of risks; (8) hurricanes and other natural disasters may adversely affect loan portfolios and operations and increase the cost of doing business; (9) negative public opinion could damage our reputation and adversely impact business and revenues; (10) we rely on other companies to provide key components of our business infrastructure; (11) we depend on the accuracy and completeness of information about clients and counterparties; (12) regulation by federal and state agencies could adversely affect the business, revenue and profit margins; (13) competition in the financial services industry is intense and could result in losing business or reducing margins; (14) future legislation could harm our competitive position; (15) maintaining or increasing market share depends on market acceptance and regulatory

approval of new products and services; (16) the Company's ability to receive dividends from its subsidiaries accounts for most of its revenue and could affect its liquidity and ability to pay dividends; (17) we have in the past and may in the future pursue acquisitions, which could affect costs and from which we may not be able to realize anticipated benefits; (18) we depend on the expertise of key personnel, and if these individuals leave or change their roles without effective replacements then operations could suffer; (19) we may not be able to hire or retain additional qualified personnel and recruiting costs may increase as a result of turnover, both of which may increase costs and reduce profitability and may adversely impact our ability to implement the business strategy; (20) our accounting policies and methods are key to how we report financial condition and results of operations, and may require management to make estimates about matters that are uncertain; (21) our stock price can be volatile; and (22) our disclosure controls and procedures may not prevent or detect all errors or acts of fraud. The forward-looking statements in this press release speak only as of the date of this filing, and SunTrust does not assume any obligation to update the forward-looking statements or to update the reasons why actual results could differ from those contained in the forward-looking statements.

This press release contains certain non-GAAP financial measures to describe our Company's performance. The reconciliation of those measures to the most directly comparable GAAP financial measures, and the reasons why SunTrust believes such financial measures may be useful to investors, can be found in the financial information contained in the appendices of this press release.

¹ See Appendix A for a reconciliation of non-GAAP performance measures. "RCM" refers to Receivables Capital Management.

² Revenue, net interest margin, and efficiency ratios are presented on a fully taxable-equivalent ("FTE") basis. The FTE basis adjusts for the tax-favored status of income from certain loans and investments. The Company believes this measure to be the preferred industry measurement of net interest income and provides relevant comparison between taxable and non-taxable amounts.

Revenue — FTE equals net interest income — FTE plus noninterest income.

³ Current period tier 1 capital, total capital and tier 1 leverage ratios are estimated as of the press release date.

Savings	5,291,229	5,472,928	(3.3)	5,291,229	7,506,923	(29.5)
Total average low cost consumer and commercial deposits	\$ 46,189,846	\$ 47,177,300	(2.1)	\$ 46,189,846	\$ 48,709,851	(5.2)

¹ SunTrust presents a return on average assets less net unrealized gains on securities. The foregoing numbers reflect primarily adjustments to remove the effects of the Company's securities portfolio which includes the ownership by the Company of 48.3 million shares of The Coca-Cola Company. The Company uses this information internally to gauge its actual performance in the industry. The Company believes that the return on average assets less the net unrealized securities gains is more indicative of the Company's return on assets because it more accurately reflects the return on the assets that are related to the Company's core businesses which are primarily customer relationship and customer transaction driven. The return on average assets less net unrealized gains on securities is computed by dividing annualized net income, excluding securities gains/losses and The Coca-Cola Company dividend, by average assets less net unrealized securities gains.

² The Company also believes that the return on average realized equity is more indicative of the Company's return on equity because the excluded equity relates primarily to a long term holding of a specific security. The return on average realized shareholders' equity is computed by dividing annualized net income, excluding securities gains/losses and The Coca-Cola Company dividend, by average realized shareholders' equity.

³ Computed by dividing noninterest expense by total revenue — FTE. The efficiency ratios are presented on an FTE basis. The FTE basis adjusts for the tax-favored status of income from certain loans and investments. The Company believes this measure to be the preferred industry measurement of net interest income and provides relevant comparison between taxable and non-taxable amounts.

⁴ SunTrust presents a tangible efficiency ratio which excludes the cost of intangible assets. The Company believes this measure is useful to investors because, by removing the effect of intangible asset costs (the level of which may vary from company to company) it allows investors to more easily compare the Company's efficiency to other companies in the industry. This measure is utilized by management to assess the efficiency of the Company and its lines of business.

⁵ SunTrust presents a tangible equity to tangible assets ratio that excludes the impact of purchase accounting intangible assets. The Company believes this measure is useful to investors because, by removing the effect of intangible assets that result from merger and acquisition activity (the level of which may vary from company to company) it allows investors to more easily compare the Company's capital adequacy to other companies in the industry. This measure is used by management to analyze capital adequacy.

⁶ SunTrust presents total noninterest income and total revenue excluding realized securities gains/losses and the net gain on the sale of RCM assets. The Company believes total noninterest income and total revenue without securities gains/losses is more indicative of the Company's performance because it isolates income that is primarily customer relationship and customer transaction driven. SunTrust further excludes the net gain on the sale of RCM assets because the Company believes the exclusion of the net gain is more indicative of normalized operations.

⁷ Multiply by 4 to calculate sequential annualized growth or reductions discussed in the earnings call.

Tangible efficiency ratio excluding merger expense and net gain on sale of RCM assets	58.47%	58.46%	56.70	56.90	57.80%

¹ SunTrust presents selected financial data on a basis that excludes merger expense, which represents incremental costs to integrate the operations of National Commerce Financial ("NCF"). The Company also presents selected financial data that further excludes the net gain related to the sale of RCM assets. The Company believes the exclusion of these two measures is more reflective of normalized operations.

² Computed by dividing annualized net income excluding merger expense by average total assets.

³ Computed by dividing annualized net income excluding merger expense by average total shareholders' equity.

⁴ Computed by dividing noninterest expense by total revenue — FTE. The efficiency ratios are presented on an FTE basis. The FTE basis adjusts for the tax-favored status of income from certain loans and investments. The Company believes this measure to be the preferred industry measurement of net interest income and provides relevant comparison between taxable and non-taxable amounts.

⁵ SunTrust presents a tangible efficiency ratio which excludes the cost of intangible assets. The Company believes this measure is useful to investors because, by removing the effect of intangible asset costs (the level of which may vary from company to company) it allows investors to more easily compare the Company's efficiency to other companies in the industry. This measure is utilized by management to assess the efficiency of the Company and its lines of business.

¹ Multiply percentage change by 4 to calculate sequential annualized change. Any sequential annualized change over 100 percent is labeled as "NM". Those changes over 100 percent were not considered to be meaningful.

² Includes service charges on deposits, card fees and other charges and fees.

³ Includes retail investment services, investment banking income and trading account profits and commissions.

SunTrust presents selected financial data on a basis that excludes merger expense, which represents incremental costs to integrate the operations of NCF. The Company believes the exclusion of merger expense is more reflective of normalized operations. SunTrust also presents noninterest income before securities gains/(losses) and net gain on the sale of RCM assets. The Company believes noninterest income before securities gains/(losses) is more indicative of the Company's performance because it isolates income that is primarily customer relationship and customer transaction driven. SunTrust further excludes the net gain on the sale of RCM assets because the Company believes the exclusion of the net gain provides better comparability and is more indicative of normalized operations.

⁵ The Company presents noninterest expense before an impairment charge on Affordable Housing Properties, amortization of intangible assets and merger expense. The Company believes the exclusion of these measures provides better comparability and is more reflective of normalized operations.
