-

**Item 8.01 Other Events.**

Cleveland-Cliffs Inc published a news release dated September 14, 2005 as follows:

**Cleveland-Cliffs Announces Agreement of Asset Sale to PolyMet**

Cleveland, OH—September 14, 2005—Cleveland-Cliffs Inc (NYSE: CLF) today announced that it has reached an agreement in principle with PolyMet Mining Corp. (TSX:POM; OTCBB: POMGF) regarding terms for the early exercise of PolyMet's option to acquire certain assets located at the Cliffs' Erie site in Hoyt Lakes, Minnesota.

In February 2004, Cliffs entered into an agreement with PolyMet that granted PolyMet the option to acquire selected assets formerly owned by the LTV Steel Mining Company. PolyMet had until June 30, 2006, to exercise its option. The transaction is now scheduled to close before the end of this year.

According to the terms of the agreement announced today, upon closing, Cliffs will receive proceeds of \$3.4 million in cash and approximately 6.2 million common shares of PolyMet. In addition, today's agreement calls for PolyMet to assume, from Cliffs, certain ongoing site-related environmental and reclamation obligations.

When this transaction closes, Cliffs will hold approximately 7.2 million common shares of PolyMet, representing nearly eight percent of the 83.4 million shares currently outstanding and will account for PolyMet's results in minority interest. Cliffs also has anti-dilutive rights allowing pro-rata participation in any future cash equity financings of PolyMet.

Cleveland-Cliffs Inc, headquartered in Cleveland, Ohio, is the largest producer of iron ore pellets in North America and sells the majority of its pellets to integrated steel companies in the United States and Canada. Cleveland-Cliffs Inc operates a total of six iron ore mines located in Michigan, Minnesota and Eastern Canada. The Company is majority owner of Portman Limited, the third-largest iron ore mining company in Australia, serving the Asian iron ore markets with direct-shipping fines and lump ore.

This news release contains predictive statements that are intended to be made as "forward-looking" within the safe harbor protections of the Private Securities Litigation Reform Act of 1995. Although the Company believes that its forward-looking statements are based on reasonable assumptions, such statements are subject to risk and uncertainty, including risks associated with PolyMet's ability to finance and complete the transaction, obtain necessary mining and environmental permits and approvals, perform the assumed ongoing site-related environmental and reclamation obligations and the uncertainty as to the valuation of the common shares of PolyMet held by the Company. Reference is also made to the detailed explanation of the many factors and risks that may cause such predictive statements to turn out differently, set forth in the Company's Annual Report for 2004, Reports on Form 10-K and Form 10-Q and previous news releases filed with the Securities and Exchange Commission, which are publicly available on Cleveland-Cliffs' website.

News releases and other information on the Company are available on the Internet at <http://www.cleveland-cliffs.com> .
