PROXY STATEMENT

The Board of Directors of ACE Limited (the "Company") is soliciting the accompanying proxy to be voted at a special meeting of shareholders, called an Extraordinary General Meeting, of the Company to be held at 2:30 p.m. on Tuesday, January 22, 2002, at Ace Global Headquarters at 17 Woodbourne Avenue, Hamilton, Bermuda, and any adjournments thereof. When the proxy is properly executed and returned, the Ordinary Shares it represents will, subject to any direction to the contrary, be voted at the meeting in favor of the matters specified in the "Notice of Extraordinary General Meeting" attached hereto.

Any shareholder giving a proxy may revoke it prior to its exercise by providing the Secretary of the Company with written notice of revocation, by voting in person at the Extraordinary General Meeting or by executing a later-dated proxy; provided, however, that the action is taken in sufficient time to permit the necessary examination and tabulation of the subsequent proxy or revocation before the vote is taken.

Only holders of Ordinary Shares of record as of the close of business on December 17, 2001 will be entitled to vote at the meeting. As of the close of business on December 17, 2001, there were outstanding Ordinary Shares of the Company entitled to vote at the meeting, with each Ordinary Share entitling the holder of record on such date to one vote (except that if, and so long as, the Controlled Shares (defined generally to include all shares of the Company directly, indirectly or constructively owned or beneficially owned by any person or group of persons) of any person constitute 10% or more of the issued Ordinary Shares, the voting rights with respect to the Controlled Shares owned by such person shall be limited, in the aggregate, to a voting power of approximately 10%, pursuant to a formula specified in the Company's Amended and Restated Articles of Association (the "Articles")).

The affirmative vote of holders of two-thirds of the outstanding shares represented at the Extraordinary General Meeting is required for approval of each of the proposals to increase the number of authorized Ordinary Shares and the proposal to increase the number of authorized Other Shares; provided that a quorum of at least 6 persons holding two-thirds of the outstanding shares are represented at the meeting. Ordinary Shares owned by shareholders electing to abstain from voting with respect to any proposal and "broker non-votes" will be counted towards the presence of a quorum but will not be considered present and voting. Therefore, abstentions and "broker non-votes" will have no effect on the outcome of the proposals to increase the number of authorized shares.

This Proxy Statement, the attached Notice of Extraordinary General Meeting and the accompanying proxy card are first being mailed to shareholders on or about December 19, 2001.

The Company knows of no specific matter to be brought before the Extraordinary General Meeting which is not referred to in the attached Notice of Extraordinary General Meeting. If any such matter comes before the meeting, including any shareholder proposal properly made, the proxy holders will vote proxies in accordance with their judgment.

PROPOSAL NO. 1

APPROVAL OF INCREASE IN NUMBER OF AUTHORIZED ORDINARY SHARES

The Board of Directors has adopted a resolution declaring it advisable to increase the number of authorized Ordinary Shares from Three Hundred Million (300,000,000) to Five Hundred Million (500,000,000) (the "Ordinary Shares Proposal"). The Board of Directors directed that the Ordinary Shares Proposal be submitted for consideration by the shareholders at an Extraordinary General Meeting. The Ordinary Shares Proposal is separate and distinct from Proposal No. 2 relating to the increase of the number of the Company's Other Shares, and may be adopted without regard to the outcome of Proposal No. 2.

The Company's Memorandum of Association ("Memorandum") currently authorizes the issuance of up to 300,000,000 Ordinary Shares, U.S. \$0.041666667 par value per share. As of December 17, 2001, there were Ordinary Shares issued and outstanding. In addition, as of the same date, approximately Ordinary Shares were reserved for issuance under various Company employee benefit plans and arrangements and in connection with outstanding mandatorily convertible securities of the Company. Each Ordinary Share currently outstanding is coupled with one right to purchase one one-thousandth of a share of the Company's Series A Junior Participating Ordinary Shares, par value U.S. \$1.00 per share, pursuant to the Rights Agreement, between the Company and its transfer agent. The rights will automatically attach to any new Ordinary Shares issued.

The additional authorized Ordinary Shares resulting from the Ordinary Shares Proposal will have terms and rights identical to existing Ordinary Shares. All outstanding Ordinary Shares would continue to have one vote per share (subject to certain voting "cutbacks" described in the Company's Articles) and would have no preemptive rights to subscribe for additional shares.

The Company recently completed a successful public offering of 32,890,000 shares, raising aggregate net proceeds of \$1.1 billion. The Company expects to use the net proceeds to expand its net underwriting capacity, either through internal growth and/or acquisitions of lines of business or companies, and for general corporate purposes. Following this offering, the Company now has only Ordinary Shares available for new issuance. The Company believes that in order to maintain its competitive strength, it needs the flexibility to pursue transactions that may include the issuance of Ordinary Shares. Often, these transactions arise quickly and opportunities may be available for only a limited time period. It is often not practical, and sometimes it is not possible, to delay a transaction by the length of time necessary to convene a shareholders meeting. Therefore, the Board of Directors has recommended that the number of authorized Ordinary Shares be increased.

As is currently the case, the authorized Ordinary Shares in excess of those presently outstanding or reserved will be available for issuance at such times and for such purposes as the Board of Directors may deem advisable without further action by the Company's shareholders, except as may be required by applicable laws or regulations, including the rules of the New York Stock Exchange. For example, the additional authorized Ordinary Shares will be available for issuance by the Board in connection with financings, acquisitions of other companies, stock dividends, employee benefit programs or other corporate purposes. Except for Ordinary Shares issuable pursuant to the Company's employee benefit programs and in connection with outstanding mandatorily convertible securities of the Company, the Company at this time does not have any plans or commitments to issue Ordinary Shares. The Board does not intend to issue any stock except on terms or for reasons which the Board deems to be in the best interests of the Company and its shareholders. Because the holders of the Company's Ordinary Shares do not have preemptive rights, the issuance of Ordinary Shares (other than on a pro-rata basis to all current shareholders such as pursuant to a stock dividend) would have the effect of reducing the current shareholders' proportionate interests. However, in any such event, shareholders wishing to maintain their interests may be able to do so through normal market purchases.

Under current NYSE rules, shareholder approval is generally required to issue Ordinary Shares, or securities convertible into or exercisable for Ordinary Shares, in one or a series of related transactions, if such Ordinary Shares represent 20% or more of the voting power or outstanding Ordinary Shares of the Company. However, Ordinary Shares issued for cash in a public offering are excluded from this shareholder approval requirement as are Ordinary Shares issued for cash in a private offering at a price at least equal to both book value and market value of the Ordinary Shares. NYSE rules also require shareholder approval for an issuance of shares that would result in a change of control of the Company as well as for stock issuances in connection with certain benefit plans or related party transactions.

The Board of Directors has the authority, without action by the shareholders, to designate and issue Other Shares in one or more series and to designate the dividend rate, voting rights, conversion rights, conversion rates, rights and terms of redemption and other rights, preferences and restrictions of each series, any or all of which may be greater than the rights of the Ordinary Shares. It is not possible to state the actual effect of the issuance of any Other Shares upon the rights of holders of the Ordinary Shares until the Board of Directors determines the specific rights of the holders of such Other Shares. However, the effects might include, among other things, restricting dividends on the Ordinary Shares, diluting the voting power of the Ordinary Shares, impairing the liquidation rights of the Ordinary Shares and delaying or preventing a change in control of the Company without further action by the shareholders. Any future issuance of Ordinary Shares will be subject to the rights of holders of outstanding Other Shares the Company may issue in the future. The Company at this time has no plans or commitments to issue any additional Other Shares (other than in connection with the shareholders rights plan mentioned above), although the Company from time to time considers financing and acquisition alternatives, each of which could include the issuance of Other Shares. Subject to NYSE requirements and limitations, Other Shares may be issued from time to time without action by the Company's shareholders to such persons and for such consideration and on such terms as the Board of Directors determines.

Although the proposal to increase the authorized Ordinary Shares may be construed as having an anti-takeover effect, since authorized and unissued Ordinary Shares could be issued for the purpose of discouraging an attempt by another person or entity to take control of the Company, neither the management of the Company nor the Board of Directors views this proposal in that light. The proposal has not been prompted by any effort by anyone to gain control of the Company, and the Company is not aware of any such effort. In addition, neither this proposal nor Proposal No. 2 relating to the increase of the number of the Company's Other Shares is part of any plan by the Company to recommend a series of anti-takeover amendments to the Memorandum or Articles and the Company does not currently contemplate recommending the adoption of other amendments to its Memorandum or Articles that could be construed to affect the ability of third parties to take over or change control of the Company.

The text of the special resolution for the Ordinary Shares Proposal reads as follows:

Special Resolution Relating to the Increase in the Number of Authorized Ordinary Shares

1.1 the authorized share capital of the Company shall be increased by U.S. \$8,333,334, by way of an increase in the number of Ordinary Shares, par value U.S. 0.041666667 per share, in the share capital of the Company to 500,000,000 Ordinary Shares.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THE INCREASE IN THE NUMBER OF AUTHORIZED ORDINARY SHARES. The affirmative vote of holders of two-thirds of the outstanding shares represented at the Extraordinary General Meeting is required for approval of this proposal; provided that a quorum of at least 6 persons holding two-thirds of the outstanding shares are represented at the meeting. If the Ordinary Shares Proposal is approved by the shareholders, it will become effective immediately.

PROPOSAL NO. 2

APPROVAL OF INCREASE IN NUMBER OF AUTHORIZED OTHER SHARES

The Board of Directors has adopted a resolution declaring it advisable to increase the number of authorized Other Shares from Ten Million (10,000,000) to Twenty Million (20,000,000) (the "Other Shares Proposal"). The Board of Directors directed that the Other Shares Proposal be submitted for consideration by the shareholders at an Extraordinary General Meeting. The Other Shares Proposal is separate and distinct from Proposal No. 1, the Ordinary Shares Proposal, and may be adopted without regard to the outcome of the Ordinary Shares Proposal.

The Company's Memorandum currently authorizes the issuance of up to 10,000,000 Other Shares, U.S. \$1.00 par value per share. As of December 17, 2001, there were 6,221,000 8.25% Cumulative Redeemable Preferred Shares, Series A, which are a series of Other Shares, issued and outstanding. In addition, each Ordinary Share currently outstanding is coupled with one right to purchase one one-thousandth of a share of the Company's Series A Junior Participating Ordinary Shares, par value U.S. \$1.00 per share, which is also a series of Other Shares, pursuant to a Rights Agreement between the Company and its transfer agent. Therefore, the Company must maintain a reserve of this series of Other Shares which is equal to one one-thousandth of the number of Ordinary Shares outstanding from time to time.

The Memorandum and Articles authorize the directors to create and issue one or more other classes or series of Other Shares and to determine the rights and preferences of each such class or series, to the extent permitted by the Memorandum and Articles and applicable law. Among other rights, the directors may determine:

- . the number of shares of that class or series and the distinctive designation thereof;
- . the voting powers, full or limited, if any, of the shares of that class or series;
- . the dividend rights of the shares of that class or series, whether dividends will be cumulative and, if so, from which date or dates and the relative rights or priority, if any, of payment of dividends on shares of that class or series and any limitations, restrictions or conditions on the payment of dividends;
- . the relative amounts, and the relative rights or priority, if any, of payment in respect of shares of that class or series, which the holders of the shares of that class or series will be entitled to receive upon any liquidation, dissolution or winding up of the Company; the terms and conditions (including the price or prices, which may vary under different conditions and at different redemption dates), if any, upon which all or any part of the shares of that class or series may be redeemed, and any limitations, restrictions or conditions on such redemption;
- . the terms, if any, of any purchase, retirement or sinking fund to be provided for the shares of that class or series;
- . the terms, if any, upon which the shares of that class or series will be convertible into or exchangeable for shares of any other class, classes or series, or other securities, whether or not issued by the Company;
- . the restrictions, limitations and conditions, if any, upon the issuance of indebtedness of the Company so long as any shares of that class or series are outstanding; and
- . any other preferences and relative, participating, optional or other rights and limitations not inconsistent with applicable law or the Articles.

Because the Board of Directors has the authority, without action by the shareholders, to designate and issue Other Shares in one or more series and to designate the dividend rate, voting rights, conversion rights, conversion rates, rights and terms of redemption and other rights, preferences and restrictions of each series, authorized Other Shares enable the Company to pursue complex and innovative financing, acquisition and other transactions as needs and opportunities arise. Among the uses, the Other Shares provide the Company with increased access to the capital markets with a different cost profile relative to Ordinary Shares or debt securities. Because the

Company has used or reserved approximately two-thirds of its authorized Other Shares, the Board of Directors believes it is important to increase the number of authorized Other Shares at this time so that the Company is in the best position to pursue its strategies in a timely fashion. As stated in the discussion of the Ordinary Shares Proposal, it is time consuming to call shareholder meetings. The Board believes it is in the best interests of the Company to increase the number of authorized Other Shares at this time to provide the Company with the flexibility to issue series of Other Shares specifically designed to meet the requirements of transactions that the Board of Directors of the Company determines to be desirable. The Board does not intend to issue any Other Shares except on terms or for reasons which the Board deems to be in the best interests of the Company and its shareholders.

The characteristics of each series of Other Shares may affect the voting powers and the equity of the holders of the Ordinary Shares, as well as the funds available for dividends and the distribution of assets upon liquidation. For example, the Other Shares could be given more than one vote per share and a liquidation preference over the Ordinary Shares. Because dividends on preferred stock generally are paid prior to dividends on Ordinary Shares outstanding, Other Shares may affect the funds available for dividends on the Ordinary Shares. In addition, the issuance of shares of Other Shares could cause a dilution of the voting rights, the net earnings and the net book value per share of the Ordinary Shares.

While the Board of Directors believes it important for the Company to have the flexibility of an increased number of Other Shares that it could designate and issue, the Company does not currently have any binding commitments or arrangements that would require the issuance of such shares (other than pursuant to its rights agreement, as discussed above). The Board of Directors believes it would be in the Company's best interest, however, to have additional authorized Other Shares available to enable the Company to take advantage of opportunities for possible future acquisitions, refinancing of existing debt and raising capital for future growth.

As is the case with the proposal to increase the authorized number of Ordinary Shares, a proposal to increase the authorized Other Shares may be construed as having an anti-takeover effect, since authorized and unissued Other Shares could be issued for the purpose of discouraging an attempt by another person or entity to take control of the Company, although neither the management of the Company nor the Board of Directors views the proposal to increase the number of authorized Other Shares in that light. The Board of Directors could, for example, approve the issuance of additional shares of capital stock having classes, series, rights and preferences (including the number of votes applicable to each share of such class or series of capital stock) which may render it more difficult in the future for takeover bidders or others to accomplish takeovers or changes in control of the Company. The proposal has not been prompted by any effort by anyone to gain control of the Company, and the Company is not aware of any such effort. In addition neither this proposal nor the Ordinary Shares Proposal is part of any plan by the Company to recommend a series of anti-takeover amendments to its Memorandum and Articles and the Company does not currently contemplate recommending the adoption of other amendments to its Memorandum and Articles that could be construed to affect the ability of third parties to take over or change control of the Company. Designation of certain classes, series, rights and preferences with respect to the Company's Other Shares would be subject to applicable rules and regulations of the NYSE and any other exchange on which such securities are listed for quotation.

The text of the special resolution for the Other Shares Proposal reads as follows:.

Special Resolution Relating to the Increase in the Number of Authorized Other Shares

1.1 the authorized share capital of the Company shall be increased by U.S. \$10,000,000, by way of an increase in the number of Other Shares, par value U.S. \$1.00 per share, in the share capital of the Company to 20,000,000 Other Shares.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THE INCREASE IN THE NUMBER OF AUTHORIZED OTHER SHARES. The affirmative vote of holders of two-thirds of the outstanding shares represented at the Extraordinary General Meeting is required for approval of this proposal; provided that a quorum of at least 6 persons holding two-thirds of the outstanding shares are represented at the meeting. If the proposed Other Shares Proposal is approved by the shareholders, it will become effective upon the filing of the special resolution with the Cayman Islands Registrar of Companies, which will occur as soon as reasonably practicable after approval.
