PART I — FINANCIAL INFORMATION

Item 1. Financial Statements

The accompanying unaudited Condensed Consolidated Financial Statements of Libbey Inc. and all majority-owned subsidiaries (collectively, Libbey or the Company) have been prepared in accordance with U.S. Generally Accepted Accounting Principles (U.S. GAAP) for interim financial information and with the instructions to Form 10-Q and Item 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments (including normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three month and nine month periods ended September 30, 2012 are not necessarily indicative of the results that may be expected for the year ending December 31, 2012.

The balance sheet at December 31, 2011 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by U.S. GAAP for complete financial statements.

For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2011 .

Libbey Inc.
Notes to Condensed Consolidated Financial Statements
(unaudited)

1. Description of the Business

Libbey is the leading producer of glass tableware products in the Western Hemisphere, in addition to supplying key markets throughout the world. We produce glass tableware in five countries and sell to customers in over 100 countries. We have the largest manufacturing, distribution and service network among glass tableware manufacturers in the Western Hemisphere and are one of the largest glass tableware manufacturers in the world. We design and market an extensive line of high-quality glass tableware, ceramic dinnerware, metal flatware, hollowware and serveware to a broad group of customers in the foodservice, retail and business-to-business markets. We own and operate two glass tableware manufacturing plants in the United States as well as glass tableware manufacturing plants in the Netherlands (Libbey Holland), Portugal (Libbey Portugal), China (Libbey China) and Mexico (Libbey Mexico). Until April 28, 2011, we also owned and operated a plastics plant in Wisconsin. On April 28, 2011, we sold substantially all of the assets of the Traex[®] plastics product line, including the Traex name[®], to the Vollrath Company. In addition, we import products from overseas in order to complement our line of manufactured items. The combination of manufacturing and procurement allows us to compete in the global tableware market by offering an extensive product line at competitive prices.

Our website can be found at www.libbey.com. We make available, free of charge, at this website all of our reports filed or furnished pursuant to Section 13(a) or 15(d) of Securities Exchange Act of 1934, including our annual report on Form 10-K, our quarterly reports on Form 10-Q, our current reports on Form 8-K, as well as amendments to those reports. These reports are made available on our website as soon as reasonably practicable after their filing with, or furnishing to, the Securities and Exchange Commission and can also be found at www.sec.gov.

Our shares are traded on the NYSE MKT exchange under the ticker symbol LBY.

2. Significant Accounting Policies

See our Form 10-K for the year ended December 31, 2011 for a description of significant accounting policies not listed below.

Basis of Presentation

The Condensed Consolidated Financial Statements include Libbey Inc. and its majority-owned subsidiaries (collectively, Libbey or the Company). Our fiscal year end is December 31st. All material intercompany accounts and transactions have been eliminated. The preparation of financial statements and related disclosures in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the Condensed Consolidated Financial Statements and accompanying notes. Actual results could differ materially from management's estimates.

Condensed Consolidated Statements of Comprehensive Income

Net sales in our Condensed Consolidated Statements of Comprehensive Income include revenue earned when products are shipped and title and risk of loss have passed to the customer. Revenue is recorded net of returns, discounts and incentives offered to customers. Cost of sales includes cost to manufacture and/or purchase products, warehouse, shipping and delivery costs and other costs.

Foreign Currency Translation

Assets and liabilities of non-U.S. subsidiaries that operate in a local currency environment, where that local currency is the functional currency, are translated to U.S. dollars at exchange rates in effect at the balance sheet date, with the resulting translation adjustments directly recorded to a separate component of accumulated other comprehensive loss. Income and expense accounts are translated at average exchange rates during the year. The effect of exchange rate changes on transactions denominated in currencies other than the functional currency is recorded in other income (expense).

Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred income tax assets and liabilities are recognized for estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and tax attribute carry-forwards. Deferred income tax assets and liabilities

are measured using enacted tax rates in effect for the year in which those temporary differences are expected to be recovered or settled. Financial Accounting Standards Board Accounting Standards Codification™ (FASB ASC) Topic 740, “Income Taxes,” requires that a valuation allowance be recorded when it is more likely than not that some portion or all of the deferred income tax assets will not be realized. Deferred income tax assets and liabilities are determined separately for each tax jurisdiction in which we conduct our operations or otherwise incur taxable income or losses. In the United States, China, the Netherlands and Portugal, we have recorded valuation allowances against our deferred income tax assets. See note 6 for further discussion.

Stock-Based Compensation Expense

We account for stock-based compensation expense in accordance with FASB ASC Topic 718, “Compensation — Stock Compensation,” and FASB ASC Topic 505-50, “Equity — Equity-Based Payments to Non-Employees”. Stock-based compensation cost is measured based on the fair value of the equity instruments issued. FASB ASC Topics 718 and 505-50 apply to all of our outstanding unvested stock-based payment awards. Stock-based compensation expense charged to the Condensed Consolidated Statements of Comprehensive Income is as follows:

(dollars in thousands)	Three months ended September 30,		Nine months ended September 30,	
	2012	2011	2012	2011
Stock-based compensation expense	\$ 601	\$ 2,398	\$ 2,466	\$ 4,365

The third quarter of 2011 included non-cash compensation charges of \$1.7 million related to accelerated vesting of previously issued equity compensation.

New Accounting Standards

In May 2011, the FASB issued Accounting Standards Update 2011-04, “Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs” (ASU 2011-04). ASU 2011-04 explains how to measure fair value and improves the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with GAAP and IFRS. ASU 2011-04 does not require additional fair value measurements, and it is not intended to establish valuation standards or affect valuation practices outside of financial reporting. The provisions of this update are effective for interim and annual periods beginning after December 15, 2011. The adoption of this accounting pronouncement did not have a material impact on our Condensed Consolidated Financial Statements.

In June 2011, the FASB issued Accounting Standards Update 2011-05, “Comprehensive Income (Topic 220): Presentation of Comprehensive Income” (ASU 2011-05). This ASU requires companies to present items of net income, items of other comprehensive income and total comprehensive income in one continuous statement or two separate but consecutive statements. This guidance is effective for fiscal years and interim periods beginning after December 15, 2011. In December 2011, ASU 2011-05 was modified by the issuance of Accounting Standards Update 2011-12, “Comprehensive Income (Topic 220): Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-05” (ASU 2011-12), which defers certain paragraphs of ASU 2011-05 that would require reclassifications of items from other comprehensive income to net income by component of net income and by component of other comprehensive income. Required interim disclosures have been made in our Condensed Consolidated Financial Statements at September 30, 2012.

In September 2011, the FASB issued Accounting Standards Update 2011-08, “Intangibles — Goodwill and Other (Topic 350): Testing Goodwill for Impairment” (ASU 2011-08). ASU 2011-08 allows for an option to first assess qualitative factors to determine whether the existence of events or circumstances leads to a determination that it is more likely than not that the fair value of a reporting unit exceeds its carrying amount. If the qualitative factors result in the fair value exceeding the carrying value of a reporting unit, then performing the two-step impairment test is unnecessary. This update is effective for periods beginning after December 15, 2011. The provisions of this update did not have any impact on our Condensed Consolidated Financial Statements.

In July 2012, the FASB issued Accounting Standards Update 2012-02, “Intangibles — Goodwill and Other (Topic 350): Testing Indefinite-Lived Intangible Assets for Impairment” (ASU 2012-02). ASU 2012-02 allows for an option to first assess qualitative factors to determine whether the existence of events or circumstances leads to a determination that it is more likely than not that the fair value of the indefinite-lived intangible asset exceeds its carrying amount. If the qualitative factors result in the fair value exceeding the carrying value of the indefinite-lived intangible asset, then the fair value does not need to be calculated. This update is effective for annual and interim impairment tests performed for fiscal years beginning after September 15, 2012, with early adoption permitted. We do not expect the provisions of the update to have any impact on our Condensed Consolidated Financial Statements.

3. Balance Sheet Details

The following table provides detail of selected balance sheet items:

(dollars in thousands)	September 30, 2012	December 31, 2011
Accounts receivable:		
Trade receivables	\$ 92,848	\$ 86,523
Other receivables	1,114	1,522
Total accounts receivable, less allowances of \$5,734 and \$5,307	\$ 93,962	\$ 88,045
Inventories:		
Finished goods	\$ 153,581	\$ 129,091
Work in process	1,033	1,132
Raw materials	4,755	4,369

Interest	11,247	13,008
Commissions payable	1,954	1,137
Contingency liability	2,719	2,719
Other accrued liabilities	8,463	8,351
Total accrued liabilities	\$ 60,741	\$ 53,927
Other long-term liabilities:		
Deferred liability	\$ 5,273	\$ 4,070
Derivative liability	—	298
Other long-term liabilities	4,669	5,041
Total other long-term liabilities	\$ 9,942	\$ 9,409

4. Borrowings

On May 18, 2012, we completed the refinancing of substantially all of the existing indebtedness of our wholly-owned subsidiaries Libbey Glass Inc. (Libbey Glass) and Libbey Europe B.V. (Libbey Europe). The refinancing included:

- the entry into an amended and restated credit agreement with respect to our ABL Facility;
- the issuance of \$450.0 million in aggregate principal amount of 6.875 percent Senior Secured Notes of Libbey Glass due 2020 (New Senior Secured Notes);
- the repurchase and cancellation of \$320.0 million of Libbey Glass's then outstanding 10.0 percent Senior Secured Notes due 2015 (Old Senior Secured Notes); and
- the redemption of \$40.0 million of Libbey Glass's then outstanding 10.0 percent Old Senior Secured Notes (completed June 29, 2012).

We used the proceeds of the offering of the New Senior Secured Notes to fund the repurchase and redemption of \$320.0 million of the Old Senior Secured Notes, pay related fees and expenses, and contribute \$79.7 million to our U.S. pension plans to fully fund our target obligations under ERISA.

On June 29, 2012, we used the remaining proceeds of the New Senior Secured Notes, together with cash on hand, to redeem the remaining \$40.0 million of Old Senior Secured Notes and to pay related fees.

The above transactions included charges of \$23.6 million for an early call premium and \$11.0 million for the write off of the remaining financing fees and discounts from the Old Senior Secured Notes and were considered in the computation of the loss on redemption of debt.

Borrowings consist of the following:

(dollars in thousands)	Interest Rate	Maturity Date	September 30, 2012	December 31, 2011
Borrowings under ABL Facility	floating	May 18, 2017	\$ —	\$ —
New Senior Secured Notes	6.875% (1)	May 15, 2020	450,000	—
Old Senior Secured Notes	10.00%	February 15, 2015	—	360,000
Promissory Note	6.00%	October, 2012 to September, 2016	956	1,111

(1) See Interest Rate Agreements under “New Senior Secured Notes” below and in note 9.

Amended and Restated ABL Credit Agreement

Pursuant to the refinancing, Libbey Glass and Libbey Europe entered into an Amended and Restated Credit Agreement, dated as of February 8, 2010 and amended as of April 29, 2011 and May 18, 2012 (as amended, the ABL Facility), with a group of four financial institutions. The ABL Facility provides for borrowings of up to \$100.0 million, subject to certain borrowing base limitations, reserves and outstanding letters of credit.

All borrowings under the ABL Facility are secured by:

- a first-priority security interest in substantially all of the existing and future personal property of Libbey Glass and its domestic subsidiaries (Credit Agreement Priority Collateral);
- a first-priority security interest in:

[Table of Contents](#)

- 100 percent of the stock of Libbey Glass and 100 percent of the stock of substantially all of Libbey Glass's present and future direct and indirect domestic subsidiaries;
- 100 percent of the non-voting stock of substantially all of Libbey Glass's first-tier present and future foreign subsidiaries; and
- 65 percent of the voting stock of substantially all of Libbey Glass's first-tier present and future foreign subsidiaries
- a first priority security interest in substantially all proceeds and products of the property and assets described above; and
- a second-priority security interest in substantially all of the owned real property, equipment and fixtures in the United States of Libbey Glass and its domestic subsidiaries, subject to certain exceptions and permitted liens (New Notes Priority Collateral).

Additionally, borrowings by Libbey Europe under the ABL Facility are secured by:

- a first-priority lien on substantially all of the existing and future real and personal property of Libbey Europe and its Dutch subsidiaries; and
- a first-priority security interest in:
 - 100 percent of the stock of Libbey Europe and 100 percent of the stock of substantially all of the Dutch subsidiaries; and
 - 100 percent (or a lesser percentage in certain circumstances) of the outstanding stock issued by the first tier foreign subsidiaries of Libbey Europe and its Dutch subsidiaries.

Swingline borrowings are limited to \$15.0 million, with swing line borrowings for Libbey Europe being limited to the US equivalent of \$7.5 million. Loans comprising each CBFR (CB Floating Rate) Borrowing, including each Swingline Loan, bear interest at the CB Floating Rate plus the Applicable Rate, and euro-denominated swing line borrowings (Eurocurrency Loans) bear interest calculated at the Netherlands swing line rate, as defined in the ABL Facility. The Applicable Rates for CBFR Loans and Eurocurrency Loans vary depending on our aggregate remaining availability. The Applicable Rates for CBFR Loans and Eurocurrency Loans were 0.75 percent and 1.50 percent, respectively, at September 30, 2012. Libbey pays a quarterly Commitment Fee, as defined by the ABL Facility, on the total credit provided under the ABL Facility. The Commitment Fee was 0.375 percent at September 30, 2012. No compensating balances are required by the Agreement. The Agreement does not require compliance with a fixed charge coverage ratio covenant, unless aggregate unused availability falls below \$10.0 million. If our aggregate unused ABL availability were to fall below \$10.0 million, the fixed charge coverage ratio requirement would be 1:00 to 1:00. Libbey Glass and Libbey Europe have the option to increase the ABL Facility by \$25.0 million. There were no Libbey Glass or Libbey Europe borrowings under the facility at September 30, 2012, or at December 31, 2011. Interest is payable on the last day of the interest period, which can range from one month to six months depending on the maturity of each individual borrowing on the facility.

The borrowing base under the ABL Facility is determined by a monthly analysis of the eligible accounts receivable and inventory. The borrowing base is the sum of (a) 85 percent of eligible accounts receivable and (b) the lesser of (i) 85 percent of the net orderly liquidation value (NOLV) of eligible inventory, (ii) 65 percent of eligible inventory, or (iii) \$75.0 million.

The available total borrowing base is offset by rent reserves totaling \$0.7 million and mark-to-market reserves for natural gas contracts of \$0.5 million as of September 30, 2012. The ABL Facility also provides for the issuance of \$30.0 million of letters of credit, which are applied against the \$100.0 million limit. At September 30, 2012, we had \$9.4 million in letters of credit outstanding under the ABL Facility. Remaining unused availability under the ABL Facility was \$87.8 million at September 30, 2012, compared to \$63.8 million under the ABL Facility at December 31, 2011.

New Senior Secured Notes

On May 18, 2012, Libbey Glass closed its offering of the \$450.0 million New Senior Secured Notes. The notes offering was issued at par and had related fees of approximately \$13.3 million. These fees will be amortized to interest expense over the life of the notes.

The New Senior Secured Notes were issued pursuant to an Indenture, dated May 18, 2012 (New Notes Indenture), between Libbey Glass, the Company, the domestic subsidiaries of Libbey Glass listed as guarantors therein (Subsidiary Guarantors and together with the Company, Guarantors), and The Bank of New York Mellon Trust Company, N.A., as trustee (New Notes Trustee) and collateral agent. Under the terms of the New Notes Indenture, the New Senior Secured Notes bear interest at a rate of 6.875 percent per year and will mature on May 15, 2020. Although the New Notes Indenture does not contain financial covenants, the New Notes Indenture contains other covenants that restrict the ability of Libbey Glass and the Guarantors to, among other things:

[Table of Contents](#)

- incur, assume or guarantee additional indebtedness;
- pay dividends, make certain investments or other restricted payments;
- create liens;
- enter into affiliate transactions;
- merge or consolidate, or otherwise dispose of all or substantially all the assets of Libbey Glass and the Guarantors; and
- transfer or sell assets.

The New Notes Indenture provides for customary events of default. In the case of an event of default arising from bankruptcy or insolvency as defined in the New Notes Indenture, all outstanding New Senior Secured Notes will become due and payable immediately without further action or notice. If any other event of default under the New Notes Indenture occurs or is continuing, the New Notes Trustee or holders of at least 25 percent in aggregate principal amount of the then outstanding New Senior Secured Notes may declare all the New Senior Secured Notes to be due and payable immediately.

The New Senior Secured Notes and the related guarantees under the New Notes Indenture are secured by (i) first priority liens on the New Notes Priority Collateral and (ii) second priority liens on the Credit Agreement Priority Collateral.

In connection with the sale of the New Senior Secured Notes, Libbey Glass and the Guarantors entered into a registration rights agreement, dated May 18, 2012 (Registration Rights Agreement), under which they agreed to make an offer to exchange the New Senior Secured Notes and the related guarantees for registered, publicly tradable notes and guarantees that have substantially identical terms to the New Senior Secured Notes and the related guarantees, and in certain limited circumstances, to file a shelf registration statement that would allow certain holders of New Senior Secured Notes to resell their respective New Senior Secured Notes to the public.

Prior to May 15, 2015, we may redeem in the aggregate up to 35 percent of the New Senior Secured Notes with the net cash proceeds of one or more equity offerings at a redemption price of 106.875 percent of the principal amount, provided that at least 65 percent of the original principal amount of the New Senior Secured Notes must remain outstanding after each redemption and that each redemption occurs within 90 days of the closing of the equity offering. In addition, prior to May 15, 2015, but not more than once in any twelve -month period, we may redeem up to 10 percent of the New Senior Secured Notes at a redemption price of 103 percent plus accrued and unpaid interest. The New Senior Secured Notes are redeemable at our option, in whole or in part, at any time on or after May 15, 2015 at set redemption prices together with accrued and unpaid interest.

We had an Interest Rate Agreement (Old Rate Agreement) in place through April 18, 2012 with respect to \$80.0 million of our Old Senior Secured Notes as a means to manage our fixed to variable interest rate ratio. The Old Rate Agreement effectively converted this portion of our long-term borrowings from fixed rate debt to variable rate debt. The variable interest rate for our borrowings related to the Old Rate Agreement at April 18, 2012, excluding applicable fees, was 7.79 percent . Total remaining Old Senior Secured Notes not covered by the Old Rate Agreement had a fixed interest rate of 10.0 percent per year. On April 18, 2012, the swap was called at fair value. We received proceeds of \$3.6 million . During the second quarter, \$0.1 million of the carrying value adjustment on debt related to the Old Rate Agreement was amortized into interest expense. Upon the refinancing of the Old Senior Secured Notes, the remaining unamortized balance of \$3.5 million of the carrying value adjustment on debt related to the Old Rate Agreement was recognized as a gain in the loss on redemption of debt on the Condensed Consolidated Statements of Comprehensive Income.

On June 18, 2012, we entered into an Interest Rate Agreement (New Rate Agreement) with respect to \$45.0 million of our New Senior Secured Notes as a means to manage our fixed to variable interest rate ratio. The New Rate Agreement effectively converts this portion of our long-term borrowings from fixed rate debt to variable rate debt. Prior to May 15, 2015, but not more than once in any twelve -month period, the counterparty may call up to 10 percent of the New Rate Agreement at a call price of 103 percent . The New Rate Agreement is callable at the counterparty's option, in whole or in part, at any time on or after May 15, 2015 at set call premiums. The variable interest rate for our borrowings related to the New Rate Agreement at September 30, 2012 , excluding applicable fees, is 5.70 percent . This New Rate Agreement expires on May 15, 2020. Total remaining New Senior Secured Notes not covered by the New Rate Agreement have a fixed interest rate of 6.875 percent per year through May 15, 2020. If the counterparty to this New Rate Agreement were to fail to perform, this New Rate Agreement would no longer afford us a variable rate. However, we do not anticipate non-performance by the counterparty. The interest rate swap counterparty was rated A+ , as of September 30, 2012 , by Standard and Poor's.

[Table of Contents](#)

The fair market value and related carrying value adjustment are as follows:

(dollars in thousands)	September 30, 2012	December 31, 2011
Fair market value of Rate Agreements - asset (liability)	\$ 394	\$ 3,606
Adjustment to increase (decrease) carrying value of the related long-term debt	\$ 1,205	\$ 4,043

The net impact recorded on the Condensed Consolidated Statements of Comprehensive Income is as follows:

(dollars in thousands)	Three months ended September 30,		Nine months ended September 30,	
	2012	2011	2012	2011
Income (expense) on hedging activities in other income (expense)	\$ (666)	\$ 205	\$ (420)	\$ 697
Income on hedging activities in loss on redemption of debt	\$ —	\$ —	\$ 3,502	\$ —

The fair value of the Old and New Rate Agreements are based on the market standard methodology of netting the discounted expected future fixed cash receipts and the discounted future variable cash payments. The variable cash payments are based on an expectation of future interest rates derived from observed market interest rate forward curves. See note 9 for further discussion.

Promissory Note

In September 2001, we issued a \$2.7 million promissory note at an interest rate of 6.0 percent in connection with the purchase of our Laredo, Texas warehouse facility. At September 30, 2012, we had \$1.0 million outstanding on the promissory note. Principal and interest with respect to the promissory note are paid monthly.

Notes Payable

We have an overdraft line of credit for a maximum of €1.0 million. At September 30, 2012, there were no borrowings under the facility, which has an interest rate of 5.80 percent. Interest with respect to the note is paid monthly.

RMB Loan Contract

On January 23, 2006, Libbey Glassware (China) Co., Ltd. (Libbey China), an indirect wholly owned subsidiary of Libbey Inc., entered into an RMB Loan Contract (RMB Loan Contract) with China Construction Bank Corporation Langfang Economic Development Area Sub-Branch (CCB). Pursuant to the RMB Loan Contract, CCB agreed to lend to Libbey China RMB 250.0 million, or the equivalent of approximately \$39.6 million, for the construction of our production facility in China and the purchase of related equipment, materials and services. The loan has a term of eight years and bears interest at a variable rate as announced by the People's Bank of China. As of the date of the initial advance under the Loan Contract, the annual interest rate was 5.51 percent, and as of September 30, 2012, the annual interest rate was 6.12 percent. As of September 30, 2012, the outstanding balance was RMB 60.0 million (approximately \$9.5 million). Interest is payable quarterly. We pre-paid the July 20, 2012 principal payment of RMB 30.0 million (approximately \$4.8 million) in September 2011, the December 20, 2012 principal payment of RMB 40.0 million (approximately \$6.3 million) in November 2011, the July 20, 2013 principal payment of RMB 60.0 million (approximately \$9.5 million) in April 2012 and the December 20, 2013 principal payment of RMB 60.0 million (approximately \$9.5 million) in September 2012. A principal payment in the amount of RMB 60.0 million (approximately \$9.5 million) is due on January 20, 2014. The obligations of Libbey China are secured by a guarantee executed by Libbey Inc. for the benefit of CCB and a mortgage lien on the Libbey China facility.

BES Euro Line

In January 2007, Crisal (Libbey Portugal) entered into a seven-year €11.0 million line of credit (approximately \$14.1 million) with Banco Espírito Santo, S.A. (BES). The \$7.8 million outstanding at September 30, 2012, was the U.S. dollar equivalent of the €6.1 million outstanding under the line at an interest rate of 3.77 percent. Payment of principal in the amount of €2.8 million (approximately \$3.6 million) is due in December 2012 and payment of €3.3 million (approximately \$4.2 million) is due in December 2013. Interest with respect to the line is paid semi-annually.

AICEP Loan

In July 2012, Libbey Portugal entered into a loan agreement with Agencia para Investimento Comercio Externo de Portugal, EPE (AICEP), the Portuguese Agency for investment and external trade. The amount of the loan is €1.0 million (approximately \$1.2 million) and has an interest rate of 0.0%. Semi-annual installments of principal are due beginning in January 2016 through the maturity date of July 2018.

Fair Value of Borrowings

The fair value of our debt has been calculated based on quoted market prices (Level 2 in the fair value hierarchy) for the same or similar issues. Our \$450.0 million New Senior Secured Notes had an estimated fair value of \$483.8 million at September 30, 2012. The Old Senior Secured Notes had an estimated fair value of \$385.2 million at December 31, 2011. The fair value of the remainder of our debt approximates carrying value at September 30, 2012 and December 31, 2011 due to variable rates.

Capital Resources and Liquidity

Historically, cash flows generated from operations, cash on hand and our borrowing capacity under our ABL Facility have enabled us to meet our cash requirements, including capital expenditures and working capital requirements. At September 30, 2012 we had no borrowings under our ABL Facility, although we had \$ 9.4 million of letters of credit issued under that facility. As a result, we had \$ 87.8 million of unused availability remaining under the ABL Facility at September 30, 2012. In addition, we had \$33.3 million of cash on hand at September 30, 2012.

Based on our operating plans and current forecast expectations, we anticipate that our level of cash on hand, cash flows from operations and our borrowing capacity under our ABL Facility will provide sufficient cash availability to meet our ongoing liquidity needs.

5. Restructuring Charges

Facility Closures

In December 2008, we announced that our Syracuse China manufacturing facility would be shut down in early to mid-2009 in order to reduce costs. The facility was closed on April 9, 2009. See Form 10-K for the year ended December 31, 2011 for further discussion.

Since the activities related to our closure of the Syracuse China manufacturing facility were complete as of March 31, 2011, no additional charges were incurred for the three months ended September 30, 2011. We incurred charges of approximately \$0.1 million in the nine months ended September 30, 2011 related to other costs net of building site clean-up adjustments in connection with the sale of the property in Syracuse, New York in March 2011. This amount was included in special charges on the Condensed Consolidated Statement of Comprehensive Income as detailed in the table below.

(dollars in thousands)	Nine months ended September 30, 2011		
	Glass Operations	Other Operations	Total
Employee termination cost & other	\$ —	\$ 167	\$ 167
Building site clean-up & fixed asset write-down	—	(116)	(116)
Included in special charges	—	51	51
Total pretax charge	\$ —	\$ 51	\$ 51

Fixed Asset and Inventory Write-down

In August 2010, we wrote down decorating assets in our Shreveport, Louisiana facility as a result of our decision to outsource our U.S. decorating business. See Form 10-K for the year ended December 31, 2011 for further discussion.

During the three months and nine months ended September 30, 2011, we recorded a \$0.2 million and \$0.3 million income adjustment, respectively, to special charges on the Condensed Consolidated Statements of Comprehensive Income in the Glass Operations segment. In the three and nine months ended September 30, 2011, we recorded charges of \$0.2 million and \$0.2 million, respectively, to write down inventory and spare machine parts. These amounts were included in cost of sales on the Condensed Consolidated Statements of Comprehensive Income in the Glass Operations segment.

The activities related to our write-down of decorating fixed assets and inventory were complete in the third quarter of 2011.

6. Income Taxes

Our effective tax rate differs from the United States statutory tax rate primarily due to valuation allowances, changes in the mix of earnings in countries with differing statutory tax rates, changes in accruals related to uncertain tax positions and tax planning structures. At September 30, 2012 and December 31, 2011, we had \$1.5 million and \$1.3 million, respectively, of gross unrecognized tax benefits, exclusive of interest and penalties.

FASB ASC 740-20, "Income Taxes - Intra-period Tax Allocation," requires that the provision for income taxes be allocated between continuing operations and other categories of earnings (such as discontinued operations or other comprehensive income) for each tax jurisdiction. In periods in which there is a year-to-date pre-tax loss from continuing operations and pre-tax income in other categories of earnings, the tax provision is first allocated to the other categories of earnings. A related tax benefit is then recorded in continuing operations. A tax benefit of \$4.2 million was recorded in our income tax provision for the nine months ended September 30, 2012. There was no similar tax benefit recorded for the three months ended September 30, 2012 or the three months and nine months ended September 30, 2011. Depending upon the level of our future earnings and losses and their impact on other comprehensive income, it is possible that a tax benefit may be recorded, changed, or reversed in future periods.

Further, our current and future provision for income taxes for 2012 is significantly impacted by valuation allowances. In the United States, China, the Netherlands and Portugal we have recorded valuation allowances against our deferred income tax assets. We did not release any valuation allowance for the three months and nine months ended September 30, 2012, or the three months and nine months ended September 30, 2011. In assessing the need for recording a valuation allowance, we weigh all available positive and negative evidence. Examples of the evidence we consider are cumulative losses in recent years, losses expected in early future years, a history of potential tax benefits expiring unused, and whether there was an unusual, infrequent or extraordinary item to be considered. Based on our analysis of all available evidence, we intend to maintain these allowances until it is more likely than not that the deferred income tax assets will be realized; however, based upon management's assessment, a release of the valuation allowance in China could occur.

Income tax payments consisted of the following:

(dollars in thousands)	Three months ended September 30,		Nine months ended September 30,	
	2012	2011	2012	2011
Total income tax payments, net of refunds	\$ 1,366	\$ 1,843	\$ 3,981	\$ 13,029
Less: credits or offsets	491	842	1,915	4,340
Cash paid, net	\$ 875	\$ 1,001	\$ 2,066	\$ 8,689

7. Pension and Non-pension Postretirement Benefits

We have pension plans covering the majority of our employees. Benefits generally are based on compensation for salaried employees and job grade and length of service for hourly employees. Our policy is to fund pension plans such that sufficient assets will be available to meet future benefit requirements. In addition, we have an unfunded supplemental employee retirement plan (SERP) that covers certain salaried U.S.-based employees of Libbey hired before January 1, 2006. The U.S. pension plans cover the salaried U.S.-based employees of Libbey hired before January 1, 2006 and most hourly U.S.-based employees (excluding employees hired at Shreveport after 2008 and at Toledo after September 30, 2010). U.S. salaried employees will not be eligible for additional company contribution credits beginning January 1, 2013. The non-U.S. pension plans cover the employees of our wholly owned subsidiaries in the Netherlands and Mexico. The plan in Mexico is not funded.

[Table of Contents](#)

The components of our net pension expense, including the SERP, are as follows:

Three months ended September 30, (dollars in thousands)	U.S. Plans		Non-U.S. Plans		Total	
	2012	2011	2012	2011	2012	2011
Service cost	\$ 1,543	\$ 1,372	\$ 118	\$ 390	\$ 1,661	\$ 1,762
Interest cost	3,702	4,014	1,327	1,190	5,029	5,204

Pension expense	\$ 1,977	\$ 2,785	\$ 1,161	\$ 1,204	\$ 3,138	\$ 3,989

Nine months ended September 30, (dollars in thousands)	U.S. Plans		Non-U.S. Plans		Total	
	2012	2011	2012	2011	2012	2011
Service cost	\$ 4,468	\$ 4,118	\$ 1,108	\$ 1,275	\$ 5,576	\$ 5,393
Interest cost	11,548	12,042	3,761	3,811	15,309	15,853
Expected return on plan assets	(13,885)	(12,879)	(1,786)	(1,756)	(15,671)	(14,635)
Amortization of unrecognized:						
Prior service cost	1,537	1,622	198	249	1,735	1,871
Loss	4,822	3,496	408	373	5,230	3,869
Settlement charge	457	—	93	—	550	—
Curtailed charge (credit)	(125)	—	—	—	(125)	—
Pension expense	\$ 8,822	\$ 8,399	\$ 3,782	\$ 3,952	\$ 12,604	\$ 12,351

During the first nine months of 2012, we incurred pension settlement and curtailment charges totaling \$0.4 million. The pension settlement charges were triggered by excess lump sum distributions, which required us to record unrecognized gains and losses. The curtailment charges resulted from the third quarter announcement that as of January 1, 2013, we are ceasing annual company contribution credits to the cash balance accounts in our Libbey U.S. Salaried Pension Plan and SERP. As a result, these plans were remeasured as of July 31, 2012. At that time the discount rate was reduced from 5.00 percent to 3.87 percent. The re-measurement resulted in a reduction in pension expense of \$1.1 million in the third quarter of 2012 compared to what our expense would have been for the nine months ended September 30, 2012 had these events not occurred. This amount is included in the above table. In May 2012, we used a portion of the proceeds of our debt refinancing to contribute \$79.7 million to our U.S. pension plans to fully fund our target obligations under ERISA. During the second quarter of 2012, the pension expense calculation was not adjusted as a result of this discretionary contribution as it was not contemplated in the assumption set used for the expense determination for the year. As a result of the U.S. salaried pension plan re-measurement on July 31, 2012, the portion of this contribution related to this plan did affect the pension expense calculation. We have contributed \$3.9 million and \$98.7 million of cash into our pension plans (including the \$79.7 million contribution made to the U.S. pension plans in May 2012) for the three months and nine months ended September 30, 2012, respectively. Pension contributions for the remainder of 2012 are estimated to be \$4.2 million.

We provide certain retiree health care and life insurance benefits covering our U.S. and Canadian salaried and non-union hourly employees hired before January 1, 2004 and a majority of our union hourly employees (excluding employees hired at Shreveport after 2008 and at Toledo after September 30, 2010). Effective January 1, 2013, we are ending our existing healthcare benefit for salaried retirees age 65 and older and will instead provide a Retiree Health Reimbursement Arrangement (RHRA) that supports retirees in purchasing a Medicare plan that meets their needs. Also effective January 1, 2013, the life insurance benefit will be 20.0 percent of the retiree's final salary, with a maximum benefit of \$10,000. Employees are generally eligible for benefits upon retirement and completion of a specified number of years of creditable service. Benefits for most hourly retirees are determined by collective bargaining. The U.S. non-pension postretirement plans cover the hourly and salaried U.S.-based employees of Libbey (excluding those mentioned above). The non-U.S. non-pension postretirement plans cover the retirees and active employees of Libbey who are located in Canada. The postretirement benefit plans are not funded.

[Table of Contents](#)

The provision for our non-pension postretirement benefit expense consists of the following:

Three months ended September 30, (dollars in thousands)	U.S. Plans		Non-U.S. Plans		Total	
	2012	2011	2012	2011	2012	2011

Loss / (gain)	687	831	(1)	(13)	686	818
Non-pension postretirement benefit expense	\$ 4,676	\$ 4,890	\$ 80	\$ 80	\$ 4,756	\$ 4,970

Our 2012 estimate of non-pension payments was \$4.7 million , and we have paid \$1.0 million and \$3.0 million for the three and nine months ended September 30, 2012 , respectively.

8. Net Income (Loss) per Share of Common Stock

The following table sets forth the computation of basic and diluted earnings (loss) per share:

(dollars in thousands, except earnings per share)	Three months ended September 30,		Nine months ended September 30,	
	2012	2011	2012	2011
Numerators for earnings per share —				
—Net income (loss) that is available to common shareholders	\$ 14,861	\$ 7,127	\$ 5,359	\$ 21,532
Denominator for basic earnings per share —				
Weighted average shares outstanding	20,896,291	20,181,558	20,834,742	20,079,412
Effect of stock options and restricted stock units	464,195	457,247	432,535	524,769
Effect of warrants	—	76,341	—	122,295
Total effect of dilutive securities	464,195	533,588	432,535	647,064
Denominator for diluted earnings per share —				
—Adjusted weighted average shares and assumed conversions	21,360,486	20,715,146	21,267,277	20,726,476
Basic earnings (loss) per share	\$ 0.71	\$ 0.35	\$ 0.26	\$ 1.07
Diluted earnings (loss) per share	\$ 0.70	\$ 0.34	\$ 0.25	\$ 1.04

When applicable, diluted shares outstanding include the dilutive impact of warrants and restricted stock units. Diluted shares also include the impact of in-the-money employee stock options, which are calculated based on the average share price for each fiscal period using the treasury stock method.

9. Derivatives

We utilize derivative financial instruments to hedge certain interest rate risks associated with our long-term debt, commodity price risks associated with forecasted future natural gas requirements and foreign exchange rate risks associated with transactions denominated in a currency other than the U.S. dollar. Most of these derivatives, except for the foreign currency contracts, qualify for hedge accounting since the hedges are highly effective, and we have designated and documented contemporaneously the hedging relationships involving these derivative instruments. While we intend to continue to meet the

[Table of Contents](#)

conditions for hedge accounting, if hedges do not qualify as highly effective or if we do not believe that forecasted transactions would occur, the changes in the fair value of the derivatives used as hedges would be reflected in our earnings. All of these contracts were accounted for under FASB ASC 815 “Derivatives and Hedging.”

Fair Values

The following table provides the fair values of our derivative financial instruments for the periods presented:

(dollars in thousands)	Asset Derivatives:			
	September 30, 2012		December 31, 2011	
Derivatives designated as hedging instruments under FASB ASC 815:	Balance Sheet Location	Fair Value	Balance Sheet Location	Fair Value
Interest rate contract	Derivative asset	\$ 394	Derivative asset	\$ 3,606
Natural gas contracts	Derivative asset	36	Derivative asset	—
Total designated		430		3,606
Derivatives not designated as hedging instruments under FASB ASC 815:				
Currency contracts	Prepaid and other current assets	—	Prepaid and other current assets	107
Total undesignated		—		107
Total		\$ 430		\$ 3,713

(dollars in thousands)	Liability Derivatives:			
	September 30, 2012		December 31, 2011	
Derivatives designated as hedging instruments under FASB ASC 815:	Balance Sheet Location	Fair Value	Balance Sheet Location	Fair Value
Natural gas contracts	Derivative liability	\$ 276	Derivative liability	\$ 3,390
Natural gas contracts	Other long-term liabilities	—	Other long-term liabilities	298
Total designated		276		3,688
Derivatives not designated as hedging instruments under FASB ASC 815:				
Currency contracts	Derivative liability	155	Derivative liability	—
Total undesignated		155		—
Total		\$ 431		\$ 3,688

Interest Rate Swaps as Fair Value Hedges

We had an interest rate swap agreement in place through April 18, 2012 (Old Rate Agreement) with a notional amount of \$80.0 million . On April 18, 2012, the Old Rate Agreement was called at fair value. We received proceeds of \$3.6 million . During the second quarter, \$0.1 million of the carrying value adjustment on debt related to the Old Rate Agreement was amortized into interest expense. Upon the refinancing of the Old Senior Secured Notes, the remaining unamortized balance of \$3.5 million of the carrying value adjustment on debt related to the Old Rate Agreement was recognized as a gain in the loss on redemption of debt on the Condensed Consolidated Statements of Comprehensive Income.

On June 18, 2012, we entered into an interest rate swap agreement (New Rate Agreement) with a notional amount of \$45.0 million that is to mature in 2020. The New Rate Agreement was executed in order to convert a portion of the New Senior Secured Notes fixed rate debt into floating rate debt and maintain a capital structure containing fixed and floating rate debt.

Our fixed-to-floating interest rate swaps are designated and qualify as a fair value hedges. The change in the fair value of the derivative instrument related to the future cash flows (gain or loss on the derivative), as well as the offsetting change in the fair value of the hedged long-term debt attributable to the hedged risk, are recognized in current earnings. We include the gain or loss on the hedged long-term debt in other income (expense), along with the offsetting loss or gain on the related interest rate swap on the Condensed Consolidated Statements of Comprehensive Income.

[Table of Contents](#)

The following table provides a summary of the gain (loss) recognized on the Condensed Consolidated Statements of Comprehensive Income:

(dollars in thousands)	Three months ended September 30,		Nine months ended September 30,	
	2012	2011	2012	2011
Interest rate swap	\$ 582	\$ 740	\$ 243	\$ 1,539
Related long-term debt	(1,248)	(535)	2,839	(842)
Net impact	\$ (666)	\$ 205	\$ 3,082	\$ 697

The gain or loss on the hedged long-term debt netted with the offsetting gain or loss on the related interest rate swap was recorded on the Condensed Consolidated Statements of Comprehensive Income as follows:

(dollars in thousands)	Three months ended September 30,		Nine months ended September 30,	
	2012	2011	2012	2011
Loss on redemption of debt	\$ —	\$ —	\$ 3,502	\$ —
Other income (expense)	(666)	205	(420)	697
Net impact	\$ (666)	\$ 205	\$ 3,082	\$ 697

Commodity Futures Contracts Designated as Cash Flow Hedges

We use commodity futures contracts related to forecasted future North American natural gas requirements. The objective of these futures contracts and other derivatives is to limit the fluctuations in prices paid due to price movements in the underlying commodity. We consider our forecasted natural gas requirements in determining the quantity of natural gas to hedge. We combine the forecasts with historical observations to establish the percentage of forecast eligible to be hedged, typically ranging from 40 percent to 70 percent of our anticipated requirements, up to eighteen months in the future. The fair values of these instruments are determined from market quotes. As of September 30, 2012, we had commodity contracts for 2,430,000 million British Thermal Units (BTUs) of natural gas. At December 31, 2011, we had commodity contracts for 3,070,000 million BTUs of natural gas.

All of our natural gas derivatives qualify and are designated as cash flow hedges at September 30, 2012. Hedge accounting is applied only when the derivative is deemed to be highly effective at offsetting changes in fair values or anticipated cash flows of the hedged item or transaction. For hedged forecasted transactions, hedge accounting is discontinued if the forecasted transaction is no longer probable to occur, and any previously deferred gains or losses would be recorded to earnings immediately. Changes in the effective portion of the fair value of these hedges are recorded in other comprehensive income (loss). The ineffective portion of the change in the fair value of a derivative designated as a cash flow hedge is recognized in current earnings. As the natural gas contracts mature, the accumulated gains (losses) for the respective contracts are reclassified from accumulated other comprehensive loss to current expense in cost of sales in our Condensed Consolidated Statements of Comprehensive Income. We paid additional cash of \$1.1 million and \$1.3 million in the three months ended September 30, 2012 and 2011, respectively, and \$4.3 million and \$3.4 million in the nine months ended September 30, 2012 and 2011, respectively, due to the difference between the fixed unit rate of our natural gas contracts and the variable unit rate of our natural gas cost from suppliers. Based on our current valuation, we estimate that accumulated losses currently carried in accumulated other comprehensive loss that will be reclassified into earnings over the next twelve months will result in \$0.2 million of expense in our Condensed Consolidated Statements of Comprehensive Income.

The following table provides a summary of the effective portion of derivative gain (loss) recognized in other comprehensive income (loss):

(dollars in thousands)	Three months ended September 30,		Nine months ended September 30,	
	2012	2011	2012	2011
Derivatives in Cash Flow Hedging relationships:				
Natural gas contracts	\$ 682	\$ (1,587)	\$ (836)	\$ (2,223)
Total	\$ 682	\$ (1,587)	\$ (836)	\$ (2,223)

[Table of Contents](#)

The following table provides a summary of the effective portion of derivative gain (loss) reclassified from accumulated other comprehensive loss to the Condensed Consolidated Statements of Comprehensive Income:

(dollars in thousands)		Three months ended September 30,		Nine months ended September 30,	
		2012	2011	2012	2011
Derivative:	Location:				
Natural gas contracts	Cost of sales	\$ (1,088)	\$ (1,340)	\$ (4,284)	\$ (3,382)
Total impact on net income (loss)		\$ (1,088)	\$ (1,340)	\$ (4,284)	\$ (3,382)

Currency Contracts

Our foreign currency exposure arises from transactions denominated in a currency other than the U.S. dollar primarily associated with our Canadian dollar denominated accounts receivable. We enter into a series of foreign currency contracts to sell Canadian dollars. As of September 30, 2012 and December 31, 2011, we had contracts for C\$19.2 million and C\$3.9 million, respectively. The fair values of these instruments are determined from market quotes. The values of these derivatives will change over time as cash receipts and payments are made and as market conditions change.

Gains (losses) for derivatives that were not designated as hedging instruments are recorded in current earnings as follows:

(dollars in thousands)		Three months ended September 30,		Nine months ended September 30,	
		2012	2011	2012	2011
Derivative:	Location:				
Currency contracts	Other income (expense)	\$ (190)	\$ 934	\$ (220)	\$ 608
Total		\$ (190)	\$ 934	\$ (220)	\$ 608

We do not believe we are exposed to more than a nominal amount of credit risk in our interest rate swap, natural gas hedges and currency contracts as the counterparties are established financial institutions. The counterparty for the New Rate Agreement is rated A+ and the counterparties for the other derivative agreements are rated BBB+ or better as of September 30, 2012, by Standard and Poor's.

10. Comprehensive Income (Loss)

Components of comprehensive income (loss), net of tax, are as follows:

(dollars in thousands)	Three months ended September 30,		Nine months ended September 30,	
	2012	2011	2012	2011
Net income (loss)	\$ 14,861	\$ 7,127	\$ 5,359	\$ 21,532
Pension and other postretirement benefits, net of tax	3,028	3,488	9,865	13,296
Derivative instruments, net of tax	1,545	(254)	3,022	1,046
Foreign currency translation	2,196	(5,949)	(483)	3,291
Total comprehensive income (loss)	\$ 21,630	\$ 4,412	\$ 17,763	\$ 39,165

Accumulated other comprehensive loss, net of tax, is as follows:

(dollars in thousands)	Foreign Currency Translation	Derivative Instruments	Pension and Other Postretirement Benefits	Total Accumulated Comprehensive Loss
	Balance on December 31, 2011	\$ (4,005)	\$ (2,370)	\$ (121,997)
Change	(483)	3,448	13,869	16,834
Tax effect	—	(426)	(4,004)	(4,430)
Balance on September 30, 2012	\$ (4,488)	\$ 652	\$ (112,132)	\$ (115,968)

11. Condensed Consolidated Guarantor Financial Statements

Libbey Glass is a direct, 100 percent owned subsidiary of Libbey Inc. and is the issuer of the New Senior Secured Notes. The obligations of Libbey Glass under the New Senior Secured Notes are fully and unconditionally and jointly and severally guaranteed by Libbey Inc. and by certain indirect, 100 percent owned domestic subsidiaries of Libbey Inc., as described below. All are related parties that are included in the Condensed Consolidated Financial Statements for the three months and nine months ended September 30, 2012 and September 30, 2011 .

At September 30, 2012 , December 31, 2011 and September 30, 2011 , Libbey Inc.'s indirect, 100 percent owned domestic subsidiaries were Syracuse China Company, World Tableware Inc., LGA4 Corp., LGA3 Corp., The Drummond Glass Company, LGC Corp., Dane Holding Co. (dissolved in June of 2012 and known as Traex Company prior to April 28, 2011), Libbey.com LLC, LGFS Inc., and LGAC LLC (collectively, Subsidiary Guarantors). The following tables contain Condensed Consolidating Financial Statements of (a) the parent, Libbey Inc., (b) the issuer, Libbey Glass, (c) the Subsidiary Guarantors, (d) the indirect subsidiaries of Libbey Inc. that are not Subsidiary Guarantors (collectively, Non-Guarantor Subsidiaries), (e) the consolidating elimination entries, and (f) the consolidated totals.

12. Segments

We have two reportable segments defined as follows:

Glass Operations — includes worldwide sales of manufactured and sourced glass tableware and other glass products from domestic and international subsidiaries.

Other Operations — includes worldwide sales of sourced ceramic dinnerware, metal tableware, hollowware and serveware and plastic items. Plastic items were included in this segment until we sold substantially all of the assets of our Traex subsidiary on April 28, 2011.

Our measure of profit for our reportable segments is Segment Earnings before Interest and Taxes (Segment EBIT) and excludes amounts related to certain items we consider not representative of ongoing operations as well as certain retained corporate costs. We use Segment EBIT, along with net sales and selected cash flow information, to evaluate performance and to allocate resources. Segment EBIT for reportable segments includes an allocation of some corporate expenses based on both a percentage of sales and direct billings based on the costs of services performed.

Certain activities not related to any particular reportable segment are reported within retained corporate costs. These costs include certain headquarter, administrative and facility costs, and other costs that are global in nature and are not allocable to the reporting segments. Corporate assets primarily include finance fees, capitalized software and income tax assets.

The accounting policies of the reportable segments are the same as those described in note 2. We do not have any customers who represent 10 percent or more of total sales. Inter-segment sales are consummated at arm's length and are reflected in eliminations below.

Consolidated	\$ 5,412	\$ 8,059	\$ 17,244	\$ 26,457

(1) Net gain on the sale of land at our Libbey Holland facility.

13. Fair Value

FASB ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. FASB ASC 820 establishes a fair value hierarchy that prioritizes the inputs used in measuring fair value into three broad levels as follows:

- Level 1 — Quoted prices in active markets for identical assets or liabilities.
- Level 2 — Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly.
- Level 3 — Unobservable inputs based on our own assumptions.

Asset / (Liability) (dollars in thousands)	Fair Value at September 30, 2012				Fair Value at December 31, 2011			
	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3	Total
Commodity futures natural gas contracts	\$ —	\$ (240)	\$ —	\$ (240)	\$ —	\$ (3,688)	\$ —	\$ (3,688)
Currency contracts	—	(155)	—	(155)	—	107	—	107
Interest rate agreements	—	394	—	394	—	3,606	—	3,606
Net derivative asset (liability)	\$ —	\$ (1)	\$ —	\$ (1)	\$ —	\$ 25	\$ —	\$ 25

The fair values of our commodity futures natural gas contracts and currency contracts are determined using observable market inputs. The fair value of our interest rate agreement is based on the market standard methodology of netting the discounted expected future fixed cash receipts and the discounted future variable cash payments. The variable cash payments are based on an expectation of future interest rates derived from observed market interest rate forward curves. Since these inputs are observable in active markets over the terms that the instruments are held, the derivatives are classified as Level 2 in the hierarchy. We also evaluate Company and counterparty risk in determining fair values. The commodity futures natural gas contracts and interest rate agreements are hedges of either recorded assets or liabilities or anticipated transactions. Changes in values of the underlying hedged assets and liabilities or anticipated transactions are not reflected in the above table.

The total derivative position is recorded on the Condensed Consolidated Balance Sheets as follows:

Asset / (Liability) (dollars in thousands)	September 30, 2012	December 31, 2011
Prepaid and other current assets	\$ —	\$ 107
Derivative asset	430	3,606
Derivative liability	(431)	(3,390)
Other long-term liabilities	—	(298)
Net derivative asset (liability)	\$ (1)	\$ 25

14. Other Income (Expense)

Items included in other income (expense) in the Condensed Consolidated Statements of Comprehensive Income are as follows:

(dollars in thousands)	Three months ended September 30,		Nine months ended September 30,	
	2012	2011	2012	2011
Gain on sale of land at Libbey Holland	\$ —	\$ —	\$ —	\$ 3,445
Gain on sale of Traex assets	—	(81)	—	3,240
Gain (loss) on currency translation	(374)	1,705	(765)	130
Hedge ineffectiveness	(666)	503	(436)	990
Other non-operating income (expense)	845	110	842	502
Other income (expense)	\$ (195)	\$ 2,237	\$ (359)	\$ 8,307

15. Contingencies

We are currently undergoing an unclaimed property audit that is being conducted by various state authorities. The property subject to review in this audit process generally includes unclaimed wages, vendor payments and customer refunds. State escheat laws generally require entities to report and remit abandoned and unclaimed property. Failure to timely report and remit the property can result in assessments that include interest and penalties, in addition to the payment of the escheat liability itself. We may have obligations associated with unclaimed property in an estimated amount of approximately \$2.7 million. While we have recorded this estimate as expense of \$1.8 million and \$0.9 million in cost of sales and selling, general and administrative expense, respectively, on the Condensed Consolidated Statements of Comprehensive Income in the third quarter of 2011, it is too early to determine the ultimate outcome of these audits and, as a result, our actual obligations may be less than or greater than the amount we have recorded. At this time, we believe that the impact of these adjustments is not material to our results of operations.

16. Property, Plant and Equipment

During the second quarter of 2010, we wrote down certain after-processing equipment within our Glass Operations segment. During the second quarter of 2011, we received a \$1.0 million credit from the supplier of this equipment. This was recorded in selling, general and administrative expense and other income (expense) on the Condensed Consolidated Statements of Comprehensive Income.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our Condensed Consolidated Financial Statements and the related notes thereto appearing elsewhere in this report and in our Annual Report filed with the Securities and Exchange Commission. This discussion and analysis contains forward-looking statements that involve risks, uncertainties and assumptions. Our actual results may differ from those anticipated in these forward-looking statements as a result of many factors. Our risk factors are set forth in Exhibit 99.1, Operational Factors Affecting Libbey Inc.'s Business and Other Information, "Risk Factors", in our Current Report on Form 8-K filed May 9, 2012.

Overview

North America's economy is expected to remain fragile during the last quarter of 2012, with political and global economic uncertainties continuing to lead to relatively weak demand. The European economy continued to soften during the third quarter of 2012, and we expect it to remain weak for the remainder of 2012. In addition, political uncertainty exists in China as a result of the anticipated leadership change there, and, although the economy in China continues to grow, the rate of growth has slowed considerably. Despite these conditions, our China, Mexico and U.S. and Canadian sales regions within our Glass Operations segment showed improvement in net sales for the first nine months of 2012, excluding the impact of currency, with increased unit shipments and a favorable mix shift. Net sales within our European sales region increased during the three months ended September 30, 2012, excluding the impact of currency, compared to the year-ago period.

Gross profit grew 14.1 percent, compared to the third quarter of 2011, increasing to an all-time third quarter record of \$51.2 million from \$44.9 million in the year-ago quarter. Income from operations grew 32.4 percent, compared to the third quarter of 2011, increasing to an all-time third quarter record of \$24.3 million from \$18.4 million in the year-ago quarter. These records resulted from increased shipments, a better mix of products sold, lower distribution costs, lower utility costs and lower freight costs, partially offset by costs related to implementing our new strategic plan. We are committed to further improving our cost structure, leveraging our advantaged businesses and nurturing our strong customer relationships. We believe these efforts, combined with our overall productivity improvements, will enable strengthened financial and operational performance.

Strengthening our balance sheet remains a high priority. On May 18, 2012, we completed the refinancing of substantially all of the existing indebtedness of our wholly-owned subsidiaries Libbey Glass and Libbey Europe. We used the proceeds of the offering of the \$450.0 million New Senior Secured Notes to fund the repurchase and redemption of \$320.0 million of the Old Senior Secured Notes, pay related fees and expenses, and contribute \$79.7 million to our U.S. pension plans to fully fund our target obligations under ERISA. On June 29, 2012, we used the remaining proceeds of the New Senior Secured Notes, together with cash on hand, to redeem the remaining \$40.0 million of Old Senior Secured Notes and to pay related fees. In April and September of 2012, Libbey China pre-paid the respective July and December 2013 scheduled principal payments each of RMB 60.0 million (approximately \$9.5 million) each.

We have two reportable segments defined as follows:

Glass Operations—includes worldwide sales of manufactured and sourced glass tableware and other glass operations from domestic and international subsidiaries.

Other Operations—includes worldwide sales of sourced ceramic dinnerware, metal tableware, hollowware and serveware and plastic items. Plastic items were included in this segment until we sold substantially all of the assets of our Traex subsidiary on April 28, 2011.

Results of Operations

The following table presents key results of our operations for the three and nine months ended September 30, 2012 and 2011:

(dollars in thousands, except percentages and per-share amounts)	Three months ended September 30,		Nine months ended September 30,	
	2012	2011	2012	2011
Net sales	\$ 209,150	\$ 207,246	\$ 606,226	\$ 602,274
Gross profit ⁽²⁾	\$ 51,209	\$ 44,884	\$ 150,612	\$ 130,866
<i>Gross profit margin</i>	24.5 %	21.7 %	24.8 %	21.7 %
Income from operations (IFO) ⁽³⁾	\$ 24,322	\$ 18,377	\$ 68,221	\$ 53,782
<i>IFO margin</i>	11.6 %	8.9 %	11.3 %	8.9 %
Earnings (loss) before interest and income taxes(EBIT) ⁽¹⁾⁽²⁾⁽³⁾⁽⁴⁾	\$ 24,127	\$ 20,614	\$ 36,787	\$ 59,286
<i>EBIT margin</i>	11.5 %	9.9 %	6.1 %	9.8 %
Earnings before interest, taxes, depreciation and amortization (EBITDA) ⁽¹⁾⁽²⁾⁽³⁾⁽⁴⁾	\$ 34,200	\$ 30,971	\$ 67,684	\$ 91,551
<i>EBITDA margin</i>	16.4 %	14.9 %	11.2 %	15.2 %
Adjusted EBITDA ⁽¹⁾	\$ 37,986	\$ 35,784	\$ 102,545	\$ 91,794
<i>Adjusted EBITDA margin</i>	18.2 %	17.3 %	16.9 %	15.2 %
Net income (loss) ⁽²⁾⁽³⁾⁽⁴⁾	\$ 14,861	\$ 7,127	\$ 5,359	\$ 21,532
<i>Net income (loss) margin</i>	7.1 %	3.4 %	0.9 %	3.6 %
Diluted net income (loss) per share	\$ 0.70	\$ 0.34	\$ 0.25	\$ 1.04

- (1) We believe that EBIT, EBITDA and Adjusted EBITDA, all non-GAAP financial measures, are useful metrics for evaluating our financial performance, as they are measures that we use internally to assess our performance. For a reconciliation from net income (loss) to EBIT, EBITDA, and Adjusted EBITDA, see the "Adjusted EBITDA" section below in the Discussion of Third Quarter 2012 Compared with Third Quarter 2011 and the reasons we believe these non-GAAP financial measures are useful.
- (2) The three and nine month periods ended September 30, 2012 include \$2.3 million of severance resulting from the implementation of our new strategic plan. The three and nine month periods ended September 30, 2011 include \$1.8 million accrued for an on-going unclaimed property audit and \$0.2 million of restructuring charges related to the closure of the decorating operations at our Shreveport manufacturing facility. (See notes 5 and 15 to the Condensed Consolidated Financial Statements.)
- (3) In addition to item (2) above, the three and nine month periods ended September 30, 2012 include \$1.4 million of severance resulting from the implementation of our new strategic plan. The three and nine month periods ended September 30, 2011 include \$0.9 million accrued for an on-going unclaimed property audit. The third quarter of 2011 includes \$2.1 million of CEO transition expenses and a \$0.2 million restructuring credit related to the closure of the decorating operations at our Shreveport manufacturing facility. The nine months ended September 30, 2011 include \$2.5 million of CEO transition expenses, an equipment credit of \$0.8 million, and a restructuring credit of \$0.3 million related to the closure of our Syracuse, New York, manufacturing facility and the decorating operations at our Shreveport manufacturing facility. (See notes 5, 15 and 16 to the Condensed Consolidated Financial Statements.)
- (4) In addition to item (3) above, the nine months ended September 30, 2012 includes \$31.1 million for the write-off of unamortized finance fees and discounts and call premium payments on the ABL Facility and \$360.0 million of Old Senior Secured Notes redeemed in May and June 2012, partially offset by the write-off of the debt carrying value adjustment related to the termination of the \$80.0 million interest rate swap. The three months ended September 30, 2011 includes \$0.1 million of expenses related to the sale of substantially all of the assets of Traex. The nine months ended September 30, 2011 includes a \$3.2 million gain on the sale of substantially all of the assets of Traex, income of \$3.4 million related to the gain on the sale of land at our Libbey Holland facility, a loss of \$2.8 million related to the redemption of \$40.0 million of Old Senior Secured Notes and an equipment credit of \$0.2 million. (See notes 4, 14 and 16 to the Condensed Consolidated Financial Statements.)

Discussion of Third Quarter 2012 Compared to Third Quarter 2011

Net Sales

For the quarter ended September 30, 2012, net sales increased 0.9 percent to \$209.2 million, compared to \$207.2 million in the year-ago quarter. When adjusted for currency impact, net sales were up 3.9 percent. The increase in net sales was attributable to increased sales of \$2.8 million in our Other Operations segment, partially offset by a \$1.0 million decline in our Glass

Operations segment net sales.

(dollars in thousands)	Three months ended September 30,	
	2012	2011
Glass Operations	\$ 189,860	\$ 190,813
Other Operations	19,427	16,597
Eliminations	(137)	(164)
Consolidated	\$ 209,150	\$ 207,246

Net Sales — Glass Operations

Net sales in the Glass Operations segment were \$189.9 million, compared to \$190.8 million in the third quarter of 2011, a decrease of 0.5 percent (an increase of 2.7 percent excluding currency fluctuation). Primary contributors to the decreased net sales were a 9.7 percent decrease in net sales within our European sales region (1.7 percent increase excluding currency fluctuation) and a 15.5 percent decrease in our International sales region, partially offset by a 0.8 percent increase in net sales within our U.S. and Canadian sales region, a 13.0 percent increase in net sales within our China sales region (11.4 percent excluding the impact of currency), and a 9.0 percent increase within our Mexico sales region (14.8 percent increase excluding the peso devaluation), compared to the prior year quarter. The increase in our European sales region, when excluding currency, is due to a more favorable mix of products sold. The decrease in our International sales region is a result of decreased shipments within all market channels. Net sales to U.S. and Canadian retail customers increased 1.2 percent, net sales to U.S. and Canadian foodservice glassware customers increased 1.3 percent, and net sales to U.S. and Canadian business to business customers decreased 1.2 percent. The increase in our China sales region is the result of our change in our go-to market strategy in the domestic Chinese market. The increase in our Mexico sales region is primarily driven by increased shipments in the business to business channel.

Net Sales — Other Operations

Net sales in the Other Operations segment increased by 17.1 percent, from \$16.6 million in the third quarter of 2011 to \$19.4 million in the third quarter of 2012. This increase is the result of solid sales increases to both Syracuse China and World Tableware customers, including a large replacement of dinnerware with a major restaurant chain.

Gross Profit

Gross profit increased to \$51.2 million in the third quarter of 2012, compared to \$44.9 million in the prior year quarter. Gross profit as a percentage of net sales increased to 24.5 percent in the third quarter of 2012, compared to 21.7 percent in the prior year period. The primary drivers of the \$6.3 million gross profit increase were a \$5.3 million impact from changes in sales volume and mix and decreased utilities, direct materials (primarily lower packaging costs) and freight expenses of \$3.7 million in the third quarter of 2012 compared to the third quarter of 2011. Partially offsetting these improvements was \$2.8 million attributable to decreased production activity net of volume-related production costs.

Income (Loss) From Operations

Income from operations for the quarter ended September 30, 2012 increased \$5.9 million, to \$24.3 million, compared to \$18.4 million in the prior year quarter. Income from operations as a percentage of net sales was 11.6 percent for the quarter ended September 30, 2012, compared to 8.9 percent in the prior year quarter. The increase in income from operations is the result of an increase in gross profit (discussed above).

Earnings (Loss) Before Interest and Income Taxes (EBIT)

EBIT for the quarter ended September 30, 2012 increased by \$3.5 million, to \$24.1 million from \$20.6 million in the third quarter of 2011. EBIT as a percentage of net sales increased to 11.5 percent in the third quarter of 2012, compared to 9.9 percent in the prior year quarter. The increase in EBIT is a result of an increase in income from operations (discussed above), partially offset by a \$2.4 million reduction in other income (expense) primarily resulting from a \$2.1 million change in currency translation.

Segment EBIT

The following table summarizes Segment EBIT ⁽¹⁾ by operating segments:

(dollars in thousands)	Three months ended September 30,	
	2012	2011
Glass Operations	\$ 33,970	\$ 29,801
Other Operations	4,356	2,978

(1) *Segment EBIT represents earnings before interest and taxes and excludes amounts related to certain items we consider not representative of ongoing operations as well as certain retained corporate costs. See note 12 to the Condensed Consolidated Financial Statements for reconciliation of Segment EBIT to net income (loss).*

Segment EBIT — Glass Operations

Segment EBIT increased to \$34.0 million in the third quarter of 2012, compared to \$29.8 million in the third quarter of 2011. Segment EBIT as a percentage of net sales for Glass Operations increased to 17.9 percent in the third quarter of 2012, compared to 15.6 percent in the prior-year period. The primary drivers of the \$4.2 million increase in Segment EBIT were a \$4.4 million favorable impact from changes in sales volume and mix, a \$3.4 million decrease in costs primarily related to labor and benefits, utilities, freight and direct materials (primarily packaging), partially offset by a \$3.0 million reduction attributable to decreased production activity net of volume-related production costs.

Segment EBIT — Other Operations

Segment EBIT increased by \$1.4 million, or 46.3 percent, to \$4.4 million for the third quarter of 2012, compared to \$3.0 million in the prior-year period. Segment EBIT as a percentage of net sales for Other Operations increased to 22.4 percent for the quarter ended September 30, 2012, compared to 17.9 percent in the prior-year quarter. Increased shipments to World Tableware and Syracuse China customers and reductions in labor and benefit costs led to the growth in Segment EBIT.

Earnings Before Interest, Taxes, Depreciation & Amortization (EBITDA)

EBITDA increased by \$3.2 million in the third quarter 2012, to \$34.2 million, compared to \$31.0 million in the year-ago quarter. As a percentage of net sales, EBITDA increased to 16.4 percent in the third quarter of 2012, from 14.9 percent in the year-ago quarter. The key contributors to the increase in EBITDA were those factors discussed above under Earnings (Loss) Before Interest and Income Taxes (EBIT).

Adjusted EBITDA

Adjusted EBITDA increased by \$2.2 million in the third quarter of 2012, to \$38.0 million, compared to \$35.8 million in the third quarter of 2011. As a percentage of net sales, Adjusted EBITDA was 18.2 percent for the third quarter of 2012, compared to 17.3 percent in the year-ago quarter. The key contributors to the increase in Adjusted EBITDA were those factors discussed above under Earnings Before Interest, Taxes, Depreciation & Amortization (EBITDA) and the elimination of the special items noted below in the reconciliation of net income (loss) to EBIT, EBITDA and Adjusted EBITDA.

[Table of Contents](#)

(dollars in thousands)	Three months ended September 30,	
	2012	2011

We sometimes refer to data derived from condensed consolidated financial information but not required by GAAP to be presented in financial statements. Certain of these data are considered “non-GAAP financial measures” under Securities and Exchange Commission (SEC) Regulation G. We believe that certain non-GAAP data provide investors with a more complete understanding of underlying results in our core business and trends. In addition, we use non-GAAP data internally to assess performance. Although we believe that the non-GAAP financial measures presented enhance investors’ understanding of our business and performance, these non-GAAP measures should not be considered an alternative to GAAP.

We define EBIT as net income (loss) before interest expense and income taxes. The most directly comparable U.S. GAAP financial measure is net income (loss).

We believe that EBIT is an important supplemental measure for investors in evaluating operating performance in that it provides insight into company profitability. Libbey’s senior management uses this measure internally to measure profitability. EBIT also allows for a measure of comparability to other companies with different capital and legal structures, which accordingly may be subject to different interest rates and effective tax rates.

The non-GAAP measure of EBIT does have certain limitations. It does not include interest expense, which is a necessary and ongoing part of our cost structure resulting from debt incurred to expand operations. Because this is a material and recurring item, any measure that excludes it has a material limitation. EBIT may not be comparable to similarly titled measures reported by other companies.

We define EBITDA as net income (loss) before interest expense, income taxes, depreciation and amortization. The most directly comparable U.S. GAAP financial measure is net income (loss).

We believe that EBITDA is an important supplemental measure for investors in evaluating operating performance in that it provides insight into company profitability and cash flow. Libbey’s senior management uses this measure internally to measure profitability and to set performance targets for managers. It also has been used regularly as one of the means of publicly providing guidance on possible future results. EBITDA also allows for a measure of comparability to other companies with different capital and legal structures, which accordingly may be subject to different interest rates and effective tax rates, and to companies that may incur different depreciation and amortization expenses or impairment charges.

The non-GAAP measure of EBITDA does have certain limitations. It does not include interest expense, which is a necessary and ongoing part of our cost structure resulting from debt incurred to expand operations and fund our U.S. pension plans. EBITDA also excludes depreciation and amortization expenses. Because these are material and recurring items, any measure that excludes them has a material limitation. EBITDA may not be comparable to similarly titled measures reported by other companies.

We present Adjusted EBITDA because we believe it assists investors and analysts in comparing our performance across reporting periods on a consistent basis by excluding items that we do not believe are indicative of our core operating performance. In addition, we use Adjusted EBITDA internally to measure profitability and to set performance targets for managers.

Adjusted EBITDA has limitations as an analytical tool. Some of these limitations are:

[Table of Contents](#)

- *Adjusted EBITDA does not reflect our cash expenditures or future requirements for capital expenditures or contractual commitments;*
- *Adjusted EBITDA does not reflect changes in, or cash requirements for, our working capital needs;*
- *Adjusted EBITDA does not reflect the significant interest expense, or the cash requirements necessary to service interest or principal payments, on our debts;*
- *Although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and Adjusted EBITDA does not reflect any cash requirements for such replacements;*
- *Adjusted EBITDA does not reflect the impact of certain cash charges resulting from matters we consider not to be indicative of our ongoing operations; and*
- *Other companies in our industry may calculate Adjusted EBITDA differently than we do, limiting its usefulness as a comparative measure.*

Because of these limitations, Adjusted EBITDA should not be considered in isolation or as a substitute for performance measures calculated in accordance with GAAP.

Net Income (Loss) and Diluted Net Income (Loss) Per Share

We recorded net income of \$14.9 million , or \$0.70 per diluted share, in the third quarter of 2012, compared to net income of \$7.1 million , or \$0.34 per diluted share, in the year-ago quarter. Net income as a percentage of net sales was 7.1 percent in the third quarter of 2012, compared to 3.4 percent in the year-ago quarter. The increase in net income and diluted net income per share is generally due to the factors discussed in Earnings (Loss) Before Interest and Income Taxes (EBIT) above, a \$1.8 million reduction in interest expense, and a \$2.4 million decrease in the provision for income taxes. The reduction in interest expense is primarily the result of lower interest rates. The effective tax rate was 3.5 percent for the third quarter of 2012, compared to 29.1 percent in year-ago quarter. The effective tax rate was influenced by jurisdictions with recorded valuation allowances, changes in the mix of earnings in countries with differing statutory tax rates and changes in accruals related to uncertain tax positions.

Discussion of First Nine Months 2012 Compared to First Nine Months 2011

Net Sales

For the nine months ended September 30, 2012 , net sales increased 0.7 percent to \$606.2 million , compared to \$602.3 million in the year-ago period. The increase in net sales was attributable to increased sales in our Glass Operations segment, offset by decreased sales in Other Operations, as the first nine months of 2011 included \$4.8 million of net sales of Traex[®] products (prior to the sale of substantially all of the Traex assets in late April, 2011), which were no longer offered.

(dollars in thousands)	Nine months ended September 30,	
	2012	2011
Glass Operations	\$ 551,679	\$ 547,353
Other Operations	55,123	55,448
Eliminations	(576)	(527)
Consolidated	\$ 606,226	\$ 602,274

Net Sales — Glass Operations

Net sales in the Glass Operations segment were \$551.7 million in the first nine months of 2012 compared to \$547.4 million in the first nine months of 2011, an increase of 0.8 percent (3.9 percent excluding the impact of currency). Primary contributors to the increased net sales were a 34.6 percent increase in net sales within our China sales region (31.0 percent excluding the impact of currency), a 3.7 percent increase within our U.S. and Canadian sales region, flat net sales within our Mexico sales region (7.5 percent increase excluding the peso effect), partially offset by a 10.0 percent decrease in the European sales region (1.1 percent decrease excluding the euro effect), and a 4.1 percent decrease within our International sales region, compared to the first nine months of 2011. The increase in our China sales region is the result of the change in our go-to market strategy in the domestic Chinese market. Net sales to U.S. and Canadian foodservice glassware customers increased 5.4 percent due to increased shipments, net sales to U.S. and Canadian business to business customers increased 2.9 percent due to increased shipments, and net sales to U.S. and Canadian retail customers increased 2.5 percent due to a more favorable mix of products sold. The decrease in our European sales region is a result of decreased shipments attributable to the uncertain European economic conditions. Excluding the effects of currency, the Mexican sales region increase in sales was driven by increased shipments.

Net Sales — Other Operations

Net sales in the Other Operations segment declined by 0.6 percent from \$55.4 million in the first nine months of 2011, when Traex[®] products contributed \$4.8 million in net sales, to \$55.1 million in the first nine months of 2012. Offsetting most of the decline, which is attributable to the sale of substantially all of the assets of Traex in April 2011, were increases in net sales to World Tableware customers of 8.2 percent and to Syracuse China customers of 10.5 percent in the first nine months of 2012 as compared to the first nine months of 2011.

Gross Profit

Gross profit increased to \$150.6 million in the first nine months of 2012, compared to \$130.9 million in the prior year period. Gross profit as a percentage of net sales increased to 24.8 percent in the first nine months of 2012, compared to 21.7 percent in the prior year period. The primary drivers of the \$19.7 million gross profit increase were a \$14.9 million impact from changes in sales volume and mix, increased production activity net of volume-related production costs of \$4.0 million, lower natural gas costs of \$2.8 million, lower direct material costs of \$2.1 million and lower freight costs of \$1.1 million in the first nine months of 2012 compared to the first nine months of 2011, offset by a \$3.7 million adverse currency impact due to the changes in the value of the Mexican peso and euro. The first nine months of 2011 also included gross profit of \$1.0 million related to Traex, substantially all of the assets of which were sold in late April 2011.

Income (Loss) From Operations

Income from operations for the nine months ended September 30, 2012 increased \$14.4 million, to \$68.2 million, compared to \$53.8 million in the prior year period. Income from operations as a percentage of net sales was 11.3 percent for the nine months ended September 30, 2012, compared to 8.9 percent in the prior-year period. The increase in income from operations is the result of an increase in gross profit (discussed above), net of a \$5.0 million increase in selling, general and administrative expenses. The increase in selling, general and administrative expense is attributable to \$2.5 million of severance expense related to organizational changes and implementation of our new strategy, \$0.6 million of bad debt expense, \$2.9 million of additional legal and professional fees, and \$0.5 million of additional selling and marketing expenses, offset by a favorable currency impact of \$1.5 million.

Earnings (Loss) Before Interest and Income Taxes (EBIT)

EBIT for the nine months ended September 30, 2012 decreased by \$22.5 million, or 37.9 percent, to \$36.8 million from \$59.3 million in the first nine months of 2011. EBIT as a percentage of net sales decreased to 6.1 percent in the first nine months of 2012, compared to 9.8 percent in the prior year period. The decrease in EBIT is a result of a \$28.3 million increase in loss on redemption of debt from the debt refinancing (write-off of unamortized finance fees and discounts and call premium payments related to the redemption of Old Senior Secured Notes), partially offset by an increase in income from operations (discussed above). The first nine months of 2011 also included a \$3.4 million gain on the sale of land at our Libbey Holland facility and a \$3.2 million gain on the sale of substantially all of the assets of Traex.

Segment EBIT

The following table summarizes Segment EBIT⁽¹⁾ by operating segments:

(dollars in thousands)	Nine months ended September 30,	
	2012	2011
Glass Operations	\$ 94,259	\$ 77,165
Other Operations	\$ 11,097	\$ 9,619

(1) *Segment EBIT represents earnings (loss) before interest and taxes and excludes amounts related to certain items we consider not representative of ongoing operations as well as certain retained corporate costs. See note 12 to the Condensed Consolidated Financial Statements for reconciliation of Segment EBIT to net income (loss).*

Segment EBIT — Glass Operations

Segment EBIT increased to \$94.3 million in the first nine months of 2012, compared to \$77.2 million in the first nine months of 2011. Segment EBIT as a percentage of net sales increased to 17.1 percent in the first nine months of 2012, compared to

[Table of Contents](#)

14.1 percent in the prior year period. The primary drivers of the \$17.1 million increase in Segment EBIT were a \$16.9 million favorable impact from changes in sales volume and mix, a \$3.9 million increase attributable to increased production activity net of volume-related production costs, and \$1.0 million decrease in depreciation and amortization. Offsetting these favorable items were a \$2.2 million adverse currency impact due to the changes in the value of the Mexican peso and a \$2.0 million increase in costs primarily related to labor and benefits, repair and maintenance, selling and marketing costs, and electricity costs.

Segment EBIT — Other Operations

Segment EBIT increased by \$1.5 million, or 15.4 percent, to \$11.1 million for the first nine months of 2012, compared to \$9.6 million in the prior year period. Segment EBIT as a percentage of net sales increased to 20.1 percent for the nine months ended September 30, 2012, compared to 17.3 percent in the prior-year nine-month period. Increased sales to World Tableware and Syracuse China customers, partially offset by \$0.6 million of Segment EBIT related to Traex included in the first nine months of 2011, contributed to the increased Segment EBIT.

Earnings Before Interest, Taxes, Depreciation & Amortization (EBITDA)

EBITDA decreased by \$23.9 million in the first nine months of 2012, to \$67.7 million, compared to \$91.6 million in the year-ago period. As a percentage of net sales, EBITDA decreased to 11.2 percent in the first nine months of 2012, from 15.2 percent in the year-ago period. The key contributors to the decrease in EBITDA were those factors discussed above under Earnings (Loss) Before Interest and Income Taxes (EBIT).

Adjusted EBITDA

Adjusted EBITDA increased by \$10.8 million in the first nine months of 2012, to \$102.5 million, compared to \$91.8 million (which included a \$0.8 million contribution related to Traex) in the first nine months of 2011. As a percentage of net sales, Adjusted EBITDA was 16.9 percent for the first nine months of 2012, compared to 15.2 percent in the year-ago period. The key contributors to the increase in Adjusted EBITDA were those factors discussed above under Earnings Before Interest, Taxes, Depreciation & Amortization (EBITDA) and the elimination of the special items noted below in the reconciliation of net income (loss) to EBIT, EBITDA and Adjusted EBITDA.

(dollars in thousands)	Nine months ended September 30,	
	2012	2011
Net income (loss)	\$ 5,359	\$ 21,532
Add: Interest expense	29,085	32,929
Add: Provision (benefit) for income taxes	2,343	4,825
Earnings (loss) before interest and income taxes (EBIT)	36,787	59,286
Add: Depreciation and amortization	30,897	32,265
Earnings before interest, taxes, deprecation and amortization (EBITDA)	67,684	91,551
Add: Special items before interest and taxes:		
Loss on redemption of debt (see note 4) ⁽¹⁾	31,075	2,803
Severance and other	3,786	—
Gain on sale of land at Libbey Holland facility	—	(3,445)
Gain on sale of Traex assets	—	(3,240)
Abandoned property (see note 15)	—	2,719
CEO transition expenses	—	2,511
Equipment credit (see note 16)	—	(1,021)
Restructuring charges	—	(84)
Adjusted EBITDA	\$ 102,545	\$ 91,794

(1) In 2012, loss on redemption of debt includes the write-off of unamortized finance fees and discounts and call premium payments on the ABL Facility and \$360.0 million Old Senior Secured Notes redeemed in May and June 2012, partially offset by the write-off of the debt carrying value adjustment related to the termination of the \$80.0 million interest rate swap. The nine month period in 2011 includes the write-off of unamortized finance fees and discounts and call premium payments on the \$40.0 million Old Senior Secured Notes redeemed in March 2011.

We sometimes refer to data derived from condensed consolidated financial information but not required by GAAP to be presented in financial statements. Certain of these data are considered “non-GAAP financial measures” under SEC Regulation G. We believe that certain non-GAAP data provide investors with a more complete understanding of underlying results in our core business and trends. In addition, we use non-GAAP data internally to assess performance. Although we believe that the non-GAAP financial measures presented enhance investors’ understanding of our business and performance, these non-GAAP measures should not be considered an alternative to GAAP. For our definition of these non-GAAP measures and certain limitations, see the Adjusted EBITDA section in the Discussion of Third Quarter 2012 Compared with Third Quarter 2011 above.

Net Income (Loss) and Diluted Net Income (Loss) Per Share

We recorded net income of \$5.4 million , or \$0.25 per diluted share, in the first nine months of 2012, compared to net income of \$21.5 million , or \$1.04 per diluted share, in the year-ago period. Net income as a percentage of net sales was 0.9 percent in the first nine months of 2012, compared to 3.6 percent in the first nine months of 2011. The decrease in net income and diluted net income per share is generally due to the factors discussed in Earnings (Loss) Before Interest and Income Taxes (EBIT) above, partially offset by a \$3.8 million reduction in interest expense, and a \$2.5 million decrease in the provision for income taxes. The reduction in interest expense is primarily the result of a mix of lower debt and interest rates in various months throughout the first nine months of the year. The effective tax rate increased to 30.4 percent for the first nine months of 2012, compared to 18.3 percent in year-ago period. The effective tax rate was influenced by jurisdictions with recorded valuation allowances, intraperiod tax allocations, changes in the mix of earnings in countries with differing statutory tax rates and changes in accruals related to uncertain tax positions.

Capital Resources and Liquidity

Historically, cash flows generated from operations, cash on hand and our borrowing capacity under our ABL Facility have enabled us to meet our cash requirements, including capital expenditures and working capital requirements. At September 30, 2012 , we had no borrowings outstanding under our ABL Facility, although we had \$9.4 million of letters of credit issued under that facility. As a result, we had \$87.8 million of unused availability remaining under the ABL Facility at September 30, 2012 . In addition, we had \$33.3 million of cash on hand at September 30, 2012 .

Based on our operating plans and current forecast expectations, we anticipate that our level of cash on hand, cash flows from operations and our borrowing capacity under our ABL Facility will provide sufficient cash availability to meet our ongoing liquidity needs.

Libbey China pre-paid the July 2013 and December 2013 scheduled principal payments of RMB 60.0 million (approximately \$9.5 million) each, on April 18, 2012 and September 12, 2012, respectively, incurring no fees, penalties or change in the remaining payment schedule.

On May 18, 2012, we completed the refinancing of substantially all of the existing indebtedness of our wholly-owned subsidiaries Libbey Glass and Libbey Europe. We used the proceeds of the offering of the \$450.0 million New Senior Secured Notes to fund the repurchase and redemption of \$320.0 million of the Old Senior Secured Notes, pay related fees and expenses, and contribute \$79.7 million to our U.S. pension plans to fully fund our target obligations under ERISA. On June 29, 2012, we used the remaining proceeds of the New Senior Secured Notes, together with cash on hand, to redeem the remaining \$40.0 million of Old Senior Secured Notes and to pay related fees.

Balance Sheet and Cash Flows

Cash and Equivalents

See the cash flow section below for a discussion of our cash balance.

Working Capital

The following table presents our working capital components:

(dollars in thousands, except percentages and DSO, DIO, DPO and DWC)	September 30, 2012	December 31, 2011
Accounts receivable — net	\$ 93,962	\$ 88,045
<i>DSO</i> ⁽¹⁾	41.8	39.3
Inventories — net	\$ 170,814	\$ 145,859
<i>DIO</i> ⁽²⁾	75.9	65.2
Accounts payable	\$ 46,650	\$ 58,759
<i>DPO</i> ⁽³⁾	20.7	26.3
Working capital ⁽⁴⁾	\$ 218,126	\$ 175,145
<i>DWC</i> ⁽⁵⁾	97.0	78.2
<i>Percentage of net sales</i>	26.6 %	21.4 %

(1) *Days sales outstanding (DSO) measures the number of days it takes to turn receivables into cash.*

(2) *Days inventory outstanding (DIO) measures the number of days it takes to turn inventory into cash.*

(3) *Days payable outstanding (DPO) measures the number of days it takes to pay the balances of our accounts payable.*

(4) *Working capital is defined as net accounts receivable plus net inventories less accounts payable. See below for further discussion as to the reasons we believe this non-GAAP financial measure is useful.*

(5) *Days working capital (DWC) measures the number of days it takes to turn our working capital into cash.*

DSO, DIO, DPO and DWC are calculated using the last twelve months' net sales as the denominator and are based on a 365-day year.

We believe that working capital is important supplemental information for investors in evaluating liquidity in that it provides insight into the availability of net current resources to fund our ongoing operations. Working capital is a measure used by management in internal evaluations of cash availability and operational performance.

Working capital is used in conjunction with and in addition to results presented in accordance with U.S. GAAP. Working capital is neither intended to represent nor be an alternative to any measure of liquidity and operational performance recorded under U.S. GAAP. Working capital may not be comparable to similarly titled measures reported by other companies.

Working capital (as defined above) was \$218.1 million at September 30, 2012, an increase of \$43.0 million from December 31, 2011. Our working capital normally increases during the first nine months of the year due to the seasonality of our business. In particular, inventory normally increases to prepare for seasonally higher orders that typically exceed production levels in the later part of the year. Our increase is primarily due to additional inventories resulting from increased production levels. The impact of currency increased total working capital by \$3.4 million at September 30, 2012, primarily driven by the Mexican peso, with a partial offset by the euro. As a result of the factors above, working capital as a percentage of last twelve-month net sales increased to 26.6 percent at September 30, 2012 from 21.4 percent at December 31, 2011. Working capital as a percentage of last twelve-month net sales at September 30, 2012 has increased from 25.7 percent at September 30, 2011.

Borrowings

The following table presents our total borrowings:

(dollars in thousands)	Interest Rate	Maturity Date	September 30, 2012	December 31, 2011
Borrowings under ABL Facility	floating	May 18, 2017	\$ —	\$ —
New Senior Secured Notes	6.875% (1)	May 15, 2020	450,000	—
Old Senior Secured Notes	10.00%	February 15, 2015	—	360,000
Promissory Note	6.00%	October, 2012 to September, 2016	956	1,111
Notes Payable	floating	October, 2012	—	339
RMB Loan Contract	floating	January, 2014	9,498	28,332
BES Euro Line	floating	December, 2012 to December, 2013	7,780	7,835
AICEP Loan	0.00%	July 30, 2018	1,238	—
Total borrowings			469,472	397,617
Less — unamortized discount			—	4,300
Plus — carrying value adjustment on debt related to the Interest Rate Agreement (1)			1,205	4,043
Total borrowings — net (2)			\$ 470,677	\$ 397,360

(1) See “Derivatives” below and notes 4 and 9 to the Condensed Consolidated Financial Statements.

(2) The total borrowings — net includes notes payable, long-term debt due within one year and long-term debt as stated in our Condensed Consolidated Balance Sheets.

We had total borrowings of \$469.5 million and \$397.6 million at September 30, 2012 and December 31, 2011, respectively. The \$71.9 million increase in borrowings was primarily the result of the previously discussed refinancing and the contribution of \$79.7 million to our U.S. pension plans to fully fund our target obligations under ERISA.

Of our total borrowings, \$62.3 million, or approximately 13.3 percent, was subject to variable interest rates at September 30, 2012. A change of one percentage point in such rates would result in a change in interest expense of approximately \$0.6 million on an annual basis.

Included in interest expense is the amortization of discounts, warrants and financing fees. These items amounted to \$0.5 million and \$1.0 million for the three months ended September 30, 2012 and 2011, respectively, and \$1.9 million and \$3.3 million for the nine months ended September 30, 2012 and 2011, respectively.

Cash Flow

The following table presents key drivers to our free cash flow for the periods presented.

(dollars in thousands)	Three months ended September 30,		Nine months ended September 30,	
	2012	2011	2012	2011
Net cash provided by (used in) operating activities	\$ 27,889	\$ (4,690)	\$ (43,630)	\$ 2,144
Capital expenditures	(5,412)	(8,059)	(17,244)	(26,457)
Net proceeds from sale of Traex	—	158	—	13,000
Proceeds from asset sales and other	131	65	550	5,264
Free Cash Flow (1)	\$ 22,608	\$ (12,526)	\$ (60,324)	\$ (6,049)

(1) We define Free Cash Flow as net cash provided by (used in) operating activities less capital expenditures plus proceeds from asset sales and other (including the sale of Traex assets). The most directly comparable U.S. GAAP financial measure is net cash provided by (used in) operating activities.

We believe that Free Cash Flow is important supplemental information for investors in evaluating cash flow performance in that it provides insight into the cash flow available to fund such things as discretionary debt service, acquisitions and other strategic investment opportunities. It is a measure of performance we use to internally evaluate the overall performance of the business.

Free Cash Flow is used in conjunction with and in addition to results presented in accordance with U.S. GAAP. Free Cash Flow is neither intended to represent nor be an alternative to the measure of net cash provided by (used in) operating activities recorded under U.S. GAAP. Free Cash Flow may not be comparable to similarly titled measures reported by other companies.

Discussion of Third Quarter 2012 vs. Third Quarter 2011 Cash Flow

Our net cash provided by operating activities was \$27.9 million in the third quarter of 2012, compared to net cash used in operating activities of \$(4.7) million in the year-ago quarter, an increase of \$32.6 million. The major factors impacting cash flow from operations were improvements of \$7.7 million from net income, \$15.3 million from changes in accrued interest and amortization of discounts, warrants and finance fees, \$12.8 million from changes in pension and non-pension postretirement benefits and \$6.1 million from changes in accrued liabilities and prepaid expenses, offset by unfavorable cash flow impacts of \$3.5 million change in income taxes and \$6.6 million change in working capital. The change in accrued interest and amortization of discounts, warrants and finance fees was the result of the change in the timing of interest payments on the New Senior Notes. Interest is payable in May and November whereas the interest was payable on the Old Senior Notes in February and August. The change in pension and non-pension postretirement benefits resulted from funding the U.S. pension plans in the second quarter, before significantly reducing the third quarter contributions.

Our net cash used in investing activities was \$(5.3) million and \$(7.8) million in the third quarter of 2012 and 2011, respectively, primarily representing capital expenditures.

Net cash used in financing activities was \$(8.9) million in the third quarter of 2012, compared to \$(6.8) million in the year-ago quarter. During the third quarter of 2012, we utilized \$9.6 million for repayment of RMB 60.0 million on our loan in China. During the third quarter of 2011, we utilized \$6.8 million for repayment of our ABL credit facility and RMB 30.0 million on our loan in China. Also during the third quarter of 2012, we entered into a \$1.2 million AICEP loan with the Portuguese Agency for investment and external trade.

Our Free Cash Flow was \$22.6 million during the third quarter of 2012, compared to \$(12.5) million in the year-ago quarter, a increase of \$35.1 million. The primary contributors to this change were the \$32.6 million favorable cash flow impact from operating activities in the current period, as discussed above, and the \$2.6 million reduction in capital expenditures.

Discussion of First Nine Months 2012 vs. First Nine Months 2011 Cash Flow

Our net cash used in operating activities was \$(43.6) million in the first nine months of 2012, compared to net cash provided by operating activities of \$2.1 million in the year-ago period, a reduction of \$45.8 million. The major factors impacting cash flow from operations were the unfavorable cash flow of \$72.8 million in changes from the pension and non-pension postretirement benefits, which includes the \$79.7 million contribution to the U.S. pension plans from the New Senior Secured Note proceeds, offset by \$31.8 million of favorable cash flow impact related to our debt refinancing.

Our net cash used in investing activities was \$(16.7) million and \$(8.2) million in the first nine months of 2012 and 2011, respectively. The first nine months of 2012 included \$17.2 million in capital expenditures, offset by proceeds of \$0.5 million from asset sales. The first nine months of 2011 included \$26.5 million in capital expenditures, offset by proceeds of \$13.0 million on the sale of substantially all of the assets of Traex and \$5.3 million from other asset sales.

Net cash provided by (used in) financing activities was \$35.4 million in the first nine months of 2012, compared to \$(46.0) million in the year-ago period. The first nine months of 2012 reflects New Senior Secured Note proceeds of \$450.0 million, offset by Old Senior Note payments of \$360.0 million, call premium payments of \$23.6 million, debt issuance costs of \$13.0 million, and other debt payments of \$19.5 million. During the first nine months of 2011, we redeemed \$40.0 million of our Old Senior Secured Notes, repaid \$4.8 million of other borrowings, paid a related call premium of \$1.2 million and incurred debt issuance costs of \$0.5 million, offset by \$0.5 million from stock options exercised.

At September 30, 2012 our cash balance was \$33.3 million, a decrease of \$24.9 million from \$58.3 million at December 31, 2011.

Our Free Cash Flow was \$(60.3) million during the first nine months of 2012, compared to \$(6.0) million in the first nine months of 2011, a reduction of \$54.3 million. The primary contributors to this change were the unfavorable cash flow from operating activities, primarily driven by our contribution of \$79.7 million to our U.S. pension plans and the prior year cash proceeds on the sale of Traex assets and other asset sales, offset by a decrease in capital expenditures in the current period, all as discussed above.

Derivatives

We had an Interest Rate Agreement (Old Rate Agreement) in place through April 18, 2012 with respect to \$80.0 million of our Old Senior Secured Notes as a means to manage our fixed to variable interest rate ratio. On April 18, 2012, we called the Old Rate Agreement at fair value and received proceeds of \$3.6 million.

On June 18, 2012, we entered into an Interest Rate Agreement (New Rate Agreement) with a notional amount of \$45.0 million that is to mature in 2020. The New Rate Agreement was executed in order to convert a portion of the New Senior Secured Notes fixed rate debt into floating rate debt and maintain a capital structure containing fixed and floating rate debt. Prior to May 15, 2015, but not more than once in any twelve -month period, the counterparty may call up to 10 percent of the New Rate Agreement at a call price of 103 percent . The New Rate Agreement is callable at the counterparty's option, in whole or in part, at any time on or after May 15, 2015 at set call premiums. The variable interest rate for our borrowings related to the New Rate Agreement at September 30, 2012 , excluding applicable fees, is 5.7 percent . This New Rate Agreement expires on May 15, 2020. Total remaining New Senior Secured Notes not covered by the New Rate Agreement have a fixed interest rate of 6.875 percent per year through May 15, 2020. If the counterparty to this New Rate Agreement were to fail to perform, this New Rate Agreement would no longer afford us a variable rate. However, we do not anticipate non-performance by the counterparty. The interest rate swap counterparty was rated A+ , as of September 30, 2012 , by Standard and Poor's.

The fair market value for the New Rate Agreement at September 30, 2012 , was a \$0.4 million asset. The fair market value of the New Rate Agreement is based on the market standard methodology of netting the discounted expected future fixed cash receipts and the discounted future variable cash payments. The variable cash payments are based on an expectation of future interest rates derived from observed market interest rate forward curves.

We also use commodity futures contracts related to forecasted future North American natural gas requirements. The objective of these futures contracts is to reduce the effects of fluctuations and price movements in the underlying commodity. We consider our forecasted natural gas requirements in determining the quantity of natural gas to hedge. We combine the forecasts with historical observations to establish the percentage of forecast eligible to be hedged, typically ranging from 40 percent to 70 percent of our anticipated requirements up to eighteen months in the future. The fair values of these instruments are determined from market quotes. At September 30, 2012 , we had commodity futures contracts for 2,430,000 million British Thermal Units (BTUs) of natural gas with a fair market value of a \$(0.2) million liability. We have hedged a portion of our forecasted transactions through December 2013. At December 31, 2011, we had commodity futures contracts for 3,070,000 million BTUs of natural gas with a fair market value of a \$(3.7) million liability. The counterparties for these derivatives were rated BBB+ or better as of September 30, 2012 , by Standard & Poor's.

Item 3. Qualitative and Quantitative Disclosures about Market Risk

Currency

We are exposed to market risks due to changes in currency values, although the majority of our revenues and expenses are denominated in the U.S. dollar. The currency market risks include devaluations and other major currency fluctuations relative to the U.S. dollar, Canadian dollar, euro, RMB or Mexican peso that could reduce the cost competitiveness of our products compared to foreign competition.

Interest Rates

We have an Interest Rate Agreement (New Rate Agreement) with respect to \$45.0 million of debt in order to convert a portion of the New Senior Secured Notes fixed rate debt into floating rate debt and maintain a capital structure containing fixed and floating rate debt. The interest rate for our borrowings related to the New Rate Agreement at September 30, 2012 is 5.7 percent per year. The New Rate Agreement expires on May 15, 2020. Total remaining New Senior Secured Notes not covered by the New Rate Agreement have a fixed interest rate of 6.875 percent. If the counterparty to the New Rate Agreement were to fail to perform, the New Rate Agreement would no longer provide the desired results. However, we do not anticipate nonperformance by the counterparty. The counterparty was rated A+ as of September 30, 2012 by Standard and Poor's.

Natural Gas

We are exposed to market risks associated with changes in the price of natural gas. We use commodity futures contracts related to forecasted future natural gas requirements of our manufacturing operations in North America. The objective of these futures contracts is to limit the fluctuations in prices paid and potential volatility in earnings or cash flows from price movements in the underlying natural gas commodity. We consider the forecasted natural gas requirements of our manufacturing operations in

determining the quantity of natural gas to hedge. We combine the forecasts with historical observations to establish the percentage of forecast eligible to be hedged, typically ranging from 40 percent to 70 percent of our anticipated requirements up to six quarters in the future. For our natural gas requirements that are not hedged, we are subject to changes in the price of natural gas, which affect our earnings. If the counterparties to these futures contracts were to fail to perform, we would no longer be protected from natural gas fluctuations by the futures contracts. However, we do not anticipate nonperformance by these counterparties. All counterparties were rated BBB+ or better by Standard and Poor's as of September 30, 2012.

Retirement Plans

We are exposed to market risks associated with changes in the various capital markets. Changes in long-term interest rates affect the discount rate that is used to measure our benefit obligations and related expense. Changes in the equity and debt securities markets affect our pension plans' asset performance and related pension expense. Sensitivity to these key market risk factors is as follows:

- A change of 1.0 percent in the discount rate would change our total annual pension and nonpension postretirement expense by approximately \$4.5 million.
- A change of 1.0 percent in the expected long-term rate of return on plan assets would change annual pension expense by approximately \$2.5 million.

Item 4. Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our Securities Exchange Act of 1934 (the "Exchange Act") reports are recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well-designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As required by SEC Rule 13a-15(b), we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and our Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the quarter covered by this report. Based on the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective at the reasonable assurance level.

There has been no change in our controls over financial reporting during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.

PART II — OTHER INFORMATION

This document and supporting schedules contain statements that are not historical facts and constitute projections, forecasts or forward-looking statements. These forward-looking statements reflect only our best assessment at this time, and may be identified by the use of words or phrases such as "anticipate," "believe," "expect," "intend," "may," "planned," "potential," "should," "will," "would" or similar phrases. Such forward-looking statements involve risks and uncertainty; actual results may differ materially from such statements, and undue reliance should not be placed on such statements. Readers are cautioned that these forward-looking statements are only predictions and are subject to risks, uncertainties and assumptions that are difficult to predict. Therefore, actual results may differ materially and adversely from those expressed in any forward-looking statements. We undertake no obligation to revise or update any forward-looking statements for any reason.

Item 1A. Risk Factors

Our risk factors are set forth in Exhibit 99.1, Operational Factors Affecting Libbey Inc.'s Business and Other Information, "Risk Factors", in our Current Report on Form 8-K filed May 9, 2012.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**Issuer's Purchases of Equity Securities**

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs ⁽¹⁾
July 1 to July 31, 2012	—	—	—	1,000,000
August 1 to August 31, 2012	—	—	—	1,000,000
September 1 to September 30, 2012	—	—	—	1,000,000
Total	—	—	—	1,000,000

(1) We announced on December 10, 2002, that our Board of Directors authorized the purchase of up to 2,500,000 shares of our common stock in the open market and negotiated purchases. There is no expiration date for this plan. In 2003, 1,500,000 shares of our common stock were purchased for \$38.9 million. No additional shares were purchased from 2004 through the nine months ended September 30, 2012. Our ABL Facility and the indentures governing the New Senior Secured Notes significantly restrict our ability to repurchase additional shares.

Item 6. Exhibits

Exhibits: The exhibits listed in the accompanying "Exhibit Index" are filed as part of this report.

EXHIBIT INDEX

S-K Item 601 No.	Document
3.1	Restated Certificate of Incorporation of Libbey Inc. (filed as Exhibit 3.1 to Registrant's Quarterly Report on Form 10-Q for the quarter ended June 30, 1993 and incorporated herein by reference).
3.2	Amended and Restated By-Laws of Libbey Inc. (filed as Exhibit 3.2 to Libbey Inc.'s Current Report on Form 8-K filed August 1, 2011, and incorporated herein by reference).
3.3	Certificate of Incorporation of Libbey Glass Inc. (filed as Exhibit 3.3 to Libbey Glass Inc.'s Form S-4 (Reg No. 333-139358) filed December 14, 2006, and incorporated herein by reference).
3.4	Amended and Restated By-Laws of Libbey Glass Inc. (filed as Exhibit 3.4 to Libbey Glass Inc.'s Form S-4 (Reg No. 333-139358) filed December 14, 2006, and incorporated herein by reference).
4.1	Amended and Restated Registration Rights Agreement, dated October 29, 2009, among Libbey Inc. and Merrill Lynch PCG, Inc. (filed as Exhibit 4.4 to Registrant's Form 8-K filed October 29, 2009 and incorporated herein by reference).
4.2	Amended and Restated Credit Agreement, dated February 8, 2010, among Libbey Glass Inc. and Libbey Europe B.V., as borrowers, Libbey Inc., as a loan guarantor, the other loan parties party thereto as guarantors, JPMorgan Chase Bank, N.A., as administrative agent with respect to the U.S. loans, J.P. Morgan Europe Limited, as administrative agent with respect to the Netherlands loans, Bank of America, N.A. and Barclays Capital, as Co-Syndication Agents, Wells Fargo Capital Finance, LLC, as Documentation Agent and the other lenders and agents party thereto (filed as Exhibit 4.1 to Libbey Inc.'s Current Report on Form 8-K filed on February 12, 2010 and incorporated herein by reference).
4.3	Amendment No. 1 to Amended and Restated Credit Agreement dated as of January 14, 2011 among Libbey Glass Inc. and Libbey Europe B.V. as borrowers, the other loan parties thereto, JPMorgan Chase Bank, N.A., as Administrative Agent for the Lenders with respect to the U.S. loans, and J.P. Morgan Europe Limited, as Administrative Agent for the Lenders with respect to the Netherlands loans (filed as Exhibit 4.6 to Libbey Inc.'s Annual Report on Form 10-K for the year ended December 31, 2011 and incorporated herein by reference).
4.4	Amendment No. 2 to the Amended and Restated Credit Agreement dated as of April 29, 2011 (filed as Exhibit 10.1 to Libbey Inc.'s Current Report on Form 8-K filed on May 3, 2011 and incorporated herein by reference).
4.5	Amendment No. 3 to Amended and Restated Credit Agreement dated as of September 14, 2011 among Libbey Glass Inc. and Libbey Europe B.V., as borrowers, the other loan parties thereto, JPMorgan Chase Bank, N.A., as Administrative Agent for the Lenders with respect to the U.S. loans, and J.P. Morgan Europe Limited, as Administrative Agent for the Lenders with respect to the Netherlands loans (filed as Exhibit 4.8 to Libbey Inc.'s Annual Report on Form 10-K for the year ended December 31, 2011 and incorporated herein by reference).
4.6	Amendment No. 4 to Amended and Restated Credit Agreement dated as of May 18, 2012 among Libbey Glass Inc. and Libbey Europe B.V., as borrowers, the other loan parties thereto, JPMorgan Chase Bank, N.A., as Administrative Agent for the Lenders with respect to the U.S. loans, and J.P. Morgan Europe Limited, as Administrative Agent for the Lenders with respect to the Netherlands loans (filed as Exhibit 4.1 to Libbey Inc.'s Current Report on Form 8-K filed on May 18, 2012 and incorporated herein by reference).
4.7	New Notes Indenture, dated May 18, 2012, among Libbey Glass Inc., Libbey Inc., the domestic subsidiaries of Libbey Glass Inc. listed as guarantors therein, and The Bank of New York Mellon Trust Company, N.A., as trustee and collateral agent (filed as Exhibit 4.2 to Libbey Inc.'s Current Report on Form 8-K filed on May 18, 2012 and incorporated herein by reference).
4.8	Registration Rights Agreement, dated May 18, 2012, among Libbey Glass Inc., Libbey Inc., and the domestic subsidiaries of Libbey Glass Inc. listed as guarantors (filed as Exhibit 4.4 to Libbey Inc.'s Current Report on Form 8-K filed on May 18, 2012 and incorporated herein by reference).
4.9	Intercreditor Agreement, dated May 18, 2012, among Libbey Glass Inc., Libbey Inc., and the domestic subsidiaries of Libbey Glass Inc. listed as guarantors (filed as Exhibit 4.5 to Libbey Inc.'s Current Report on Form 8-K filed on May 18, 2012 and incorporated herein by reference).
10.1	Pension and Savings Plan Agreement dated as of June 17, 1993 between Owens-Illinois, Inc. and Libbey Inc. (filed as

Exhibit 10.4 to Libbey Inc.'s Quarterly Report on Form 10-Q for the quarter ended June 30, 1993 and incorporated herein by reference).

10.2 Cross-Indemnity Agreement dated as of June 24, 1993 between Owens-Illinois, Inc. and Libbey Inc. (filed as Exhibit 10.5 to Libbey Inc.'s Quarterly Report on Form 10-Q for the quarter ended June 30, 1993 and incorporated herein by reference).

S-K Item 601 No.	Document
10.3	Libbey Inc. Guarantee dated as of October 10, 1995 in favor of The Pfaltzgraff Co., The Pfaltzgraff Outlet Co. and Syracuse China Company of Canada Ltd. guaranteeing certain obligations of LG Acquisition Corp. and Libbey Canada Inc. under the Asset Purchase Agreement for the Acquisition of Syracuse China (Exhibit 2.0) in the event certain contingencies occur (filed as Exhibit 10.17 to Libbey Inc.'s Current Report on Form 8-K dated October 10, 1995 and incorporated herein by reference).
10.4	Susquehanna Pfaltzgraff Co. Guarantee dated as of October 10, 1995 in favor of LG Acquisition Corp. and Libbey Canada Inc. guaranteeing certain obligations of The Pfaltzgraff Co., The Pfaltzgraff Outlet Co. and Syracuse China Company of Canada, Ltd. under the Asset Purchase Agreement for the Acquisition of Syracuse China (Exhibit 2.0) in the event certain contingencies occur (filed as Exhibit 10.18 to Libbey Inc.'s Current Report on Form 8-K dated October 10, 1995 and incorporated herein by reference).
10.5	First Amended and Restated Libbey Inc. Executive Savings Plan (filed as Exhibit 10.23 to Libbey Inc.'s Annual Report on Form 10-K for the year ended December 31, 1996 and incorporated herein by reference).
10.6	Form of Non-Qualified Stock Option Agreement between Libbey Inc. and certain key employees participating in The 1999 Equity Participation Plan of Libbey Inc. (filed as Exhibit 10.69 to Libbey Inc.'s Quarterly Report on Form 10-Q for the quarter ended September 30, 1999 and incorporated herein by reference).
10.7	The 1999 Equity Participation Plan of Libbey Inc. (filed as Exhibit 10.67 to Libbey Inc.'s Annual Report on Form 10-K for the year ended December 31, 1999 and incorporated herein by reference).
10.8	Stock Promissory Sale and Purchase Agreement between VAA — Vista Alegre Atlantis SGPS, SA and Libbey Europe B.V. dated January 10, 2005 (filed as Exhibit 10.76 to Libbey Inc.'s Annual Report on Form 10-K for the year ended December 31, 2004 and incorporated herein by reference).
10.9	RMB Loan Contract between Libbey Glassware (China) Company Limited and China Construction Bank Corporation Langfang Economic Development Area Sub-branch entered into January 23, 2006 (filed as exhibit 10.75 to Libbey Inc.'s Annual Report on Form 10-K for the year ended December 31, 2005 and incorporated herein by reference).
10.10	Guarantee Contract executed by Libbey Inc. for the benefit of China Construction Bank Corporation Langfang Economic Development Area Sub-branch (filed as exhibit 10.76 to Libbey Inc.'s Annual Report on Form 10-K for the year ended December 31, 2005 and incorporated herein by reference).
10.11	Guaranty, dated May 31, 2006, executed by Libbey Inc. in favor of Fondo Stiva S.A. de C.V. (filed as exhibit 10.2 to Libbey Inc.'s Quarterly Report on Form 10-Q for the quarter ended June 30, 2006 and incorporated herein by reference).
10.12	Guaranty Agreement, dated June 16, 2006, executed by Libbey Inc. in favor of Vitro, S.A. de C.V. (filed as exhibit 10.3 to Libbey Inc.'s Quarterly Report on Form 10-Q for the quarter ended June 30, 2006 and incorporated herein by reference).
10.13	Libbey Inc. Amended and Restated Deferred Compensation Plan for Outside Directors (incorporated by reference to Exhibit 10.61 to Libbey Glass Inc.'s Registration Statement on Form S-4; File No. 333-139358).
10.14	2009 Director Deferred Compensation Plan (filed as Exhibit 10.51 to Libbey Inc.'s Quarterly Report on Form 10-Q for the quarter ended September 30, 2008 and incorporated herein by reference).
10.15	Executive Deferred Compensation Plan (filed as Exhibit 10.52 to Libbey Inc.'s Quarterly Report on Form 10-Q for the quarter ended September 30, 2008 and incorporated herein by reference).
10.16	Form of Amended and Restated Indemnity Agreement dated as of December 31, 2008 between Libbey Inc. and the respective officers identified on Appendix 1 thereto (filed as exhibit 10.36 to Libbey Inc.'s Annual Report on Form 10-K for the year ended

December 31, 2008 and incorporated herein by reference).

- 10.17 Form of Amended and Restated Indemnity Agreement dated as of December 31, 2008 between Libbey Inc. and the respective outside directors identified on Appendix 1 thereto (filed as exhibit 10.37 to Libbey Inc.'s Annual Report on Form 10-K for the year ended December 31, 2008 and incorporated herein by reference).

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

Libbey Inc.

Date: November 8, 2012

by: /s/ Sherry Buck

Sherry Buck

Vice President, Chief Financial Officer

Certification of Chief Executive Officer
Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

I, Stephanie A. Streeter, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Libbey Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
