Voting Shares and Principal Holders Thereof

The Company has an authorized capital consisting of an unlimited number of common shares (the "Common Shares") and an unlimited number of first preferred shares (the "First Preferred Shares"). The board of directors of the Company (the "Board") has fixed May 9, 2001, as the record date for the determination of shareholders entitled to notice of and to vote at the Meeting and at any adjournment thereof. Each Common Share outstanding on the record date carries the right to one vote. The Company has caused to be prepared a list of the holders of its Common Shares on such record date. Each shareholder named in the list will be entitled to one vote at the Meeting for each Common Share shown opposite such shareholder's name except to the extent that (a) such shareholder has transferred the ownership of such Common Share after the date on which the list was prepared and (b) the transferee of such Common Share produces a properly endorsed share certificate or otherwise establishes that the transferee owns such Common Share and demands not later than 10 days before the Meeting that the transferee's name be included in the list in which case the transferee will be entitled to vote such Common Share at the Meeting. A complete list of the shareholders entitled to vote at the Meeting will be open to examination by any shareholder for any purpose germane to the Meeting, during ordinary business hours for a period of 10 days prior to the Meeting, at the office of CIBC Mellon Trust Company at 1600-1066 West Hastings Street, Vancouver, British Columbia, Canada V6E 3X1.

Section 16(a) Beneficial Ownership Reporting Compliance

ELECTION OF DIRECTORS

The term of office of the current directors of the Company will expire at the Meeting or when their successor are duly elected or appointed. The Articles of the Company provides that the number of directors shall consist of a minimum of three and a maximum of 15 directors. The Board is currently composed of six directors, three of whom are Canadian residents. Under the CBCA, a majority of the directors must be Canadian residents but section 105 (4) of CBCA provides an exemption "if the holding corporation earns in Canada directly or through subsidiaries less than 5% of the gross revenues of the holding corporation and all its subsidiary bodies corporate together as shown in the most recent consolidated financial statements". It was determined that the Company currently meets the requirement of section 105 (4) and, as a result, only one third of the directors of the Company must be resident Canadians.

It is proposed to nominate the six persons listed below for election as directors of the Company to hold office until the next annual meeting of the shareholders or until his successor is elected or appointed pursuant to relevant provisions of the Bylaws of the Company or the Company's governing statute. All such proposed nominees are currently directors of the Company.

It is the intention of the persons named as proxyholders in the enclosed proxy form to vote for the election to the Board of those persons hereinafter designated as nominees for election as directors. The Board does not contemplate that any of such nominees will be unable to serve as a director; however, if for any reason any of the proposed nominees do not stand for election or are unable to serve as such, proxies in favor of management designees will be voted for another nominee in the discretion of the proxy agent unless the shareholder has specified in the proxy form that the shareholder's Common Shares are to be withheld from voting in the election of directors.

The following table sets forth the name of each of the persons proposed to be nominated for election as a director; all positions and offices in the Company presently held by him; his present principal occupation or employment; the date of his first appointment as a director; his municipality of residence and his age. See "Security Ownership of Certain Beneficial Owners and Management" for the number of Common Shares of the Company that each nominee has advised are beneficially owned by him, directly or indirectly, or over which control or direction is exercised.

Compensation of Directors

Fees

The total amount of fees paid or payable by the Company to non-employee directors for the year ended December 31, 2000 was \$111,250.

The Company pays an annual fee of:

- . \$24,000 to its non-executive Chairman;
- . \$12,000 to the Chairman of the Audit Committee;
- . \$8,000 to the Chairman of the Compensation and Corporate Governance Committee; and
- . \$6,000 to the other directors.

The Company also pays the following fees for attending a meeting in person or by telephone:

- . \$1,500 to its non-executive Chairman for attending a Board meeting;
- . \$750 to its non-executive directors for attending a Board meeting; and
- . \$500 to its non-executive directors for attending a committee meeting.

The non-executive directors are also reimbursed for transportation and other out-of-pocket expenses reasonably incurred for attendance at Board and committee meetings and in connection with the performance of their duties as directors.

Stock Options

The Company's 1997 Stock Option Plan (the "Plan") provides for an automatic grant of an option to purchase 40,000 Common Shares to each person who becomes non-employee director, as of the date such person first becomes non-employee director, provided that, within the previous year, such person was not granted any other stock options by the Company.

In addition, the Company automatically grant its non-employee director a stock option to purchase 10,000 Common Shares, as of the date such non-employee director is re-elected at an annual general meeting of the Company, provided that in respect of the first additional option to be granted, at least 8 months shall have elapsed since the initial automatic option grant of 40,000 common shares. The Board may, at its discretion, grant additional options to non-employee directors from time to time. All options granted to the non-employee directors vest immediately and have a ten-year term.

Because the non-employee directors of the Company are not employed by Guyanor, they are not eligible to participate in Guyanor's Stock Option Plan. Therefore, the Company has occasionally granted, as additional compensation to its non-employee directors, options to purchase Class B shares of Guyanor from the Class B shares that the Company owns. The term of each option is ten years and the options vested immediately. During the fiscal year ended December 31, 2000, the Company did not grant options to purchase Guyanor shares to its non-employee directors.

During the financial year ended December 31, 2000, the Company granted to its non-employee directors options to purchase a total of 175,000 Common Shares, of which 40,000 were granted at an exercise price of Cdn.\$1.62 and 135,000 at an exercise price of Cdn.\$1.23.

STATEMENT OF CORPORATE GOVERNANCE PRACTICES

The by-laws of the Toronto Stock Exchange require each listed company incorporated in Canada to disclose on an annual basis its approach to corporate governance with reference to the TSE guidelines. The Company's Board and senior management consider good corporate governance to be central to the effective and efficient operation of the Company, and the well-being of the Company and its shareholders. The Board has approved the corporate governance statement described below.

Mandate of Board

The Board is required to supervise the management of the business and affairs of the Company. It establishes overall policies and standards for the Company. The Board expects management to conduct the business of the Company in accordance with the Company's ongoing strategic plan as adopted by the Board. The Board regularly reviews management's progress in meeting these expectations. The directors are kept informed of the Company's operations at meetings of the Board and its Committees and through reports and analyses and discussions with management. The Board normally meets once every two months in person or by telephone conference, with additional meetings being held as needed. In 2000, there were a total of nine meetings, five were held in person and four by telephone conference. All incumbent directors attended at least 75% of the aggregate number of meetings of the Board, while serving on the Board and on the Committees of the Board on which they served.

The following is a summary of how the Board handles matters pertaining to strategic planning, risk management, communication and control systems:

1. Each year the Board reviews planning assumptions and budgets for the year. Because the areas of exploration, the priorities and available funds change constantly, it is not realistic to formulate long range plans other than to select general geographic areas and the types of exploration to be pursued.
2. The Board seeks to identify principal risks of the Company's business which are wide-ranging because of the nature of the Company's business, including risks associated with operating in developing countries, maintaining control of the Company's assets and funds, political risks, exchange controls, environmental risks, government regulation problems, title uncertainties, civil unrest, to name only a few. Further, the Board has the responsibility to periodically review the environmental and safety policies adopted by the Company and its affiliates.
3. The President and the Chief Financial Officer provides for shareholder communication on behalf of the Company.
4. In May 2000, the Environmental Committee of the Company was abolished and all environmental matters have since been handle by the Board. In November 2000, the Board adopted a Policy on Safety, Community Relations and Environment.

Decisions requiring Board Approval

The Board considers that certain decisions are sufficiently important that management should seek prior approval of the Board. The Board has adopted Policies on Corporate Control with respect to annual budgets, financial and budget reporting, activities reporting, acquisitions and dispositions of assets, joint ventures, spending authorities, contracts and investment banking services. Therefore, in addition to those matters that must by law be approved by the Board, the Board approves, among other things, the terms of acquisitions and dispositions of the mineral properties of the Company and its subsidiaries as well as joint venture agreements on such properties. Operating and capital budgets also require the Board's approval. The Board receives monthly reports on business developments and full Board meetings are held approximately every two months to review and approve the corporate activities. Finally, because of its relatively small size, the Board is very flexible and management has been able to liaise regularly with the Board to seek approval for activities which management felt advisable including any activities outside the normal course of business of the Company.

Composition of the Board and Independence from Management

The Board is currently composed of six directors, all of whom are being nominated for election as directors at the Meeting. Except for Mr. Peter Bradford, President and Chief Executive Officer of the Corporation, the members of the Board are unrelated or outside members with no other affiliation with the Company. Mr. David Fagin was Chairman and Chief Executive Officer from May 15, 1992 to May 1, 1996, and non-executive Chairman until December 31, 1997.

The non-management members have a variety of experience and skills, including the areas of accounting, banking, investment banking, mining, metallurgy, and law. No formal program has been adopted to date to assess Board members individually or the effectiveness of the Board as a whole or of its Committees. The education of new members is managed informally through furnishing records and reports and through meeting with executives as desired.

The Board periodically reviews the adequacy and form of compensation of directors in relation to the responsibilities and risks involved in being an effective director. The form and amount of compensation to be paid to the non-employee directors was revised in 1999. See "Compensation of Directors" above. In addition to the cash compensation, the directors receive options under the Plan and have also received options on shares of Guyanor Ressources, the Company's publicly traded subsidiary. The Board believes the emphasis on compensation through options is particularly appropriate in a resource business where increasing shareholder value is perhaps the only relevant measure of progress.

Board Committees

Audit Committee

The integrity of the Company's internal controls and management information systems is monitored through the Audit Committee and through expenditure control policies established by the Board. The Audit Committee is currently comprised of Messrs. David Fagin (Chairman), Ernest Mercier and Robert Stone, three independent directors (as independent is defined in the listing standards of the American Stock Exchange). The Board has adopted a written Charter of the Audit Committee, which is attached hereto as Appendix A. The primary duties and responsibilities of the Audit Committee are to review the financial reporting process, the system of internal control, the audit process, the Corporate Control Policy and the Company's process for monitoring compliance with laws and regulations. In performing its duties, the Audit Committee maintains effective working relationships with the Board, management and the external auditors. To effectively perform his role, each committee member must obtain and maintain an understanding of the detailed responsibilities of committee membership as well as the Company's business, operations, and risks. The Audit Committee also recommends to the Board the auditors to be appointed and approves their compensation. In addition, the Audit Committee recommends to the Board for approval the annual financial statements, the annual report and certain other documents required by regulatory authorities. In connection with risk assessment, the Audit Committee reviews among other things the nature and adequacy of insurance coverage. The Audit Committee met twice in person and three times by telephone conference during 2000.

Compensation and Corporate Governance Committee

The Compensation Committee of the Board abolished on December 7, 1998 was reinstated in June 1999 as the Compensation and Corporate Governance Committee (the "Compensation Committee"). The Compensation Committee is composed of four non-employee directors, Messrs. Ernest Mercier (Chairman), David Fagin, Ian MacGregor, and Robert Stone. The Compensation Committee, subject to Board approval, supervised the selection, evaluation and determination of compensation of top executives, set corporate-wide policy with respect to compensation and benefits, and administered the Company's 1997 Stock Option Plan and the Employee's Stock Bonus Plan. The Compensation Committee also established descriptions, definitions and limits to management's authorities and approval of objectives and goals for top management in general terms. The Board met three times in 2000 to discuss compensation matters. In addition, several compensation matters were approved by way of consent resolutions.

The Compensation Committee has the general responsibility to authorize and monitor corporate conduct, compliance and disclosure policies. The Compensation Committee is also responsible for recommending nominees to the Board for eventual proposal as candidates for election as directors at the annual meeting of shareholders. The Compensation Committee also advises the Board on matters concerning the size and composition of the Board, the responsibilities of the Board Committees and the selection of the Chairman.

Applications and communications relating to candidates for director may be sent to the Secretary of the Company at the head office in Denver.

Employment, Change of Control Agreements and Other Agreements

All the Named Executive Officers currently employed by the Company have agreements with the Company in respect of their employment with the Company. The base salary amounts payable under these employment agreements are reviewed annually by the Compensation Committee.

The employment agreement with Mr. Bradford is for an indefinite term and may be terminated by the Company without cause provided that the Company pays in cash to Mr. Bradford in a lump sum at the time of termination six months of salary and benefits plus one additional month of salary and benefits for each additional full month worked for the Company up to a maximum of 24 months of salary and benefits.

If Mr. Bradford's employment is terminated as a result of a change in control of the Company, the Company shall pay in cash to Mr. Bradford in a lump sum at the time of termination a sum equal to 24 months of salary and benefits. A change in control includes: (i) the acquisition by any person of a sufficient number of the outstanding voting securities of the Company to materially affect the control of the Company; (ii) a majority of the board of Directors of the Company shall be individuals who are not nominated by the Board of Directors of the Company; (iii) the Company is merged or consolidated with any person (and the Company is not the surviving corporation); (iv) all or substantially all of the assets of the Company are acquired by another person; or (v) Mr. Bradford's office, station or duties are materially reduced or adversely changed as a result of the occurrence of one of the events mentioned above in this paragraph in (i), (ii), (iii) and (iv).

In the case of Mr. Marter, his employment can be terminated by the Company upon a three-month written notice or, at the Company's option, by paying in cash to Mr. Marter a lump sum equivalent to three months of salary. The employment of Mr. Marter can also be terminated as a result of a change in control (as defined above) by paying him a lump sum equal to three months of salary plus one additional month of salary for each additional full year worked for the Company up to a maximum of 12 months.

Mr. Gray is employed by the Company's subsidiary, Bogoso Gold Limited ("BGL"). BGL can terminate its employment agreement with Mr. Gray by giving him a 3-month notice in writing.

In January 2001, in reaction to the continuing weak gold prices and the need to reduce costs, the Company notified Mr. Bertoni that his employment relationship with the Company will terminate at the end of 2001.

In March 2001, also in response to the continuing weak gold prices and the need to reduce costs and conserve cash, the Company and Mr. Peloquin reached a separation agreement pursuant to which the Company agreed, amongst other things, to pay Mr. Peloquin, in one lump sum, the equivalent of six months of salary and other benefits. Mr. Peloquin has the option to continue to work for the Company until the sums due to him under the separation agreement are paid in full.

Stock Option Plan

The Company's 1997 Stock Option Plan, as amended, (referred to herein as the "Plan") provides to certain key employees, consultants and directors of the Company and its subsidiaries an incentive to maintain and to enhance the long-term performance of the Company through the acquisition of Common Shares pursuant to the exercise of stock options. The Plan consists of two components:

(i) a discretionary component, under which options may be granted to employees, consultants and directors (including non-employee directors), and (ii) a non-discretionary component, under which options are automatically granted, upon appointment or election and on an annual basis, to non-employee directors.

The Plan is currently administered by the Compensation Committee. The Compensation Committee has the authority, subject to the terms of the Plan, to determine when and to whom to make grants under the Plan, the number of shares to be covered by the grants, the terms of options granted and the exercise price of options, and to prescribe, amend and rescind rules and regulations relating to the Plan. Subject to certain other limitations, the maximum number of Common Shares that can be issued under the Plan is 5,600,000.

Under the terms of the non-discretionary component of the Plan, each person who is first elected, appointed or otherwise first becomes a non-employee director will generally be automatically granted an option to purchase 40,000 Common Shares as of the date on which such person first becomes a non-employee director. Upon a non-employee director being re-elected at each successive annual general meeting of the Company, he will generally be automatically granted then an additional option to purchase 10,000 Common Shares. With respect to any non-discretionary option, each option is exercisable for a period of ten years from the date of the grant. Each initial option and annual option vests and becomes fully exercisable on the date of grant and the exercise price of such options may not be less than the fair market value of the Common Shares on the date of the grant. Also see "Election of Directors - Compensation of Directors - Stock Options".

Options granted under the discretionary component of the Plan are exercisable over a period determined by the Board, but not to exceed ten years from the date of grant, and the exercise price of an option may not be less than the fair market value of the Common Shares on the date of grant. In addition, such options may be subject to vesting conditions established by the Board and provided in the option agreement evidencing the grant of such option.

Provision is made in the Plan for interest-free non-recourse loans to employee participants. The loans are secured by a pledge to the Company of the Common Shares acquired through the exercise of an option and are repayable prior to the earliest of the date which is five years from the date of the loan, ten years from the date of grant of the particular option and 30 days after the optionee ceases to be employed by the Company for any reason other than death.

Stock Bonus Plan

In December 1992, the Company established an Employees' Stock Bonus Plan (the "Bonus Plan") for any full-time or part-time employee (whether or not a director) of the Company or any of its subsidiaries who has rendered meritorious services that contributed to the success of the Company or any of its subsidiaries. The Bonus Plan is currently administered by the Board and provides that the Board may grant bonus Common Shares on terms that the Board may determine, within the limitations of the Bonus Plan and subject to the rules of applicable regulatory authorities. The maximum number of Common Shares issuable under the Bonus Plan is currently limited to 320,000 Common Shares. In addition, in any calendar year such reservation is limited to 1% of the total number of Common Shares which were issued and outstanding at the end of the preceding fiscal year (with no more than 0.5% being issuable to insiders of the Corporation). See proposed amendments described under "Approval of Amendments to the Employees' Stock Bonus Plan". If the amendments were approved at the meeting, the maximum number of Common Shares issuable under the Bonus Plan would be increased to 900,000 Common Shares.

A total of 201,007 Common Shares have been issued under the Bonus Plan to date. 40,000 Common Shares were issued in 2000, all of which were issued to a Named Executive Officer.

Report on Repricing of Options

On January 15, 1999, the Board approved a resolution amending certain outstanding stock options held by non-employee directors, executive officers and employees. The amendments to the options provided for (i) a reduction of the exercise price of each repriced option from its original price to Cdn.\$1.80 (the closing price of the Common Shares on the Toronto Stock Exchange on January 14, 1999) and (ii) a 20% reduction of the number of shares that can be purchased under each Repriced Option. The other terms of the repriced options were not changed. On March 10, 1999, the Toronto Stock Exchange consented to the amendments of all such options granted to non-employee directors and to executive officers, subject to receiving the approval of disinterested shareholders at the Meeting. The resolution was approved by a majority of the votes cast by the disinterested holders of Common Shares at the June 15, 1999 Annual General Meeting of the shareholders of the Company.

The following table sets forth any repricing of options held by any executive officer during the last ten completed fiscal years.

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

The Compensation Committee of the Company was first established in 1992. In December 1998, given the fact that the Board was comprised exclusively of non-employee directors, the Board decided to abolish the Compensation Committee. The committee was reinstated in June 1999 and is comprised of four non-employee directors. Its members are Messrs. Ernest Mercier (Chairman), Robert Stone, David Fagin, and Ian MacGregor.

The responsibility of the Compensation Committee includes approving compensation arrangements for all executive officers of the Company and its controlled subsidiaries (subject to the approval of the board of directors of the subsidiaries, if required). Cash and benefits compensation is provided for in agreements that have been negotiated and entered into with the President and Chief Executive Officer and the Vice-Presidents of the Company. At the time such agreements were entered into, the Compensation Committee considered the compensation levels for such positions to be comparable to those of other public gold exploration companies. Subsequent adjustments have reflected, among other things, merit, cost of living and special living conditions and the Company's cost-reduction effort. Executive salaries are reviewed on a yearly basis and are set for individual executive officers based on the level of responsibility, scope and complexity of the executive's position and a subjective evaluation of each individual's role and performance in advancing the successful development of the Company, the officer's performance in general, the Company's performance and a comparison of salary ranges for executives of other similar companies in the mining industry. In February 2000, the Board, upon recommendation of the Compensation Committee, adopted a remuneration matrix for 2000 based essentially on these criteria.

The Compensation Committee considers an essential element of its compensation arrangements for executive officers to consist of options to purchase Common Shares and stock bonuses in order to provide appropriate incentive for individual and group effort. In determining the amount of stock options and stock bonuses to be granted, the Board considers, among other things, the officer's position, salary, and performance both overall and against specific objectives, which relates to the officer's accomplishments and the Company's performance. In addition, stock options can be granted to new executive officers as an incentive to join the Company. In February 2000, the Board, upon recommendation of the Compensation Committee, adopted a new guide for determining option awards based on multiples that are function of the Company's and the executive's performance. The Company granted stock options to three executive officers based on this new guide. One executive received a bonus in the form of stock and cash.

The following graph shows the cumulative total shareholder return on the Common Shares for the fiscal years ended December 31, 1996 through 2000, together with the total shareholder return of the TSE 300 Total Return Index and the TSE Gold and Precious Metals Index. The graph assumes an initial investment of US\$100 at December 31, 1995 and is based on the trading prices of the Common Shares on the Toronto Stock Exchange for the dates indicated. Because the Company did not pay dividends on its Common Shares during the measurement period, the calculation of the cumulative total shareholder return on the Common Shares does not include dividends.

Mr. MacGregor, counsel with Fasken Martineau DuMoulin LLP., a law firm based in Toronto, Canada which has served as the Corporation's principal Canadian legal counsel during 2000, serves as a director of the Corporation.

Except as otherwise disclosed herein, no insider of the Company, nor any associate or affiliate of an insider, has had any material interest in any transaction or proposed transaction which has materially affected or would materially affect the Company or any of its subsidiaries, nor has any director of the Company been involved, directly or indirectly, in any business or professional relationship with the Company in connection with the provision by the director or the Company of property, services or financing to the other since January 1, 2000.

APPOINTMENT OF AUDITOR

The persons named in the enclosed proxy form intend to vote for the re- appointment of PricewaterhouseCoopers LLP, Chartered Accountants (a firm formed by the merger of PriceWaterhouse and Coopers & Lybrand) as auditor of the Company to hold office until the next annual general meeting of shareholders and to authorize the directors of the Company to fix the auditor's remuneration. PricewaterhouseCoopers (then Coopers & Lybrand) was first appointed the auditor of the Company on May 16, 1992.

SHAREHOLDER APPROVAL FOR ISSUANCE OF SHARES TO ANVIL MINING NL

In September 1999, the Company and Anvil acquired 70% and 20%, respectively, of the common shares of Bogoso Gold Limited ("BGL"), the owner and operator of the Bogoso gold mine in Ghana. The total acquisition cost including initial payments, future payments, financing costs and administrative costs was \$17.0 million. The sellers (the "Sellers") received \$6.5 million cash on September 30, 1999 and agreed to receive future payments of up to \$10 million in the aggregate, to be determined by (i) the average price of gold over the two years following the September 30, 1999 acquisition and (ii) the future acquisition of reserves in Ghana outside of the region of BGL's mining interests. The Company and Anvil together were scheduled to make an interim payment in the aggregate amount of \$2.8 million on September 30, 2000. The Company paid \$1.4 million of such amount on November 9, 2000 and the Company and Anvil and agreed with the Sellers that the balance, plus interest at 10% per annum, was to be paid by December 22, 2000. To date the remaining balance and accrued interest have not been paid.

In April 2001, the Company and Anvil reached an agreement whereby the Company agreed to acquire all of Anvil's rights, interests and obligations in BGL, including Anvil's 20% equity interest and 22.2% shareholder loan interest. The agreement also requires the Company to assume all of Anvil's obligations to the Sellers and to indemnify Anvil against all other liabilities it may have as a participant in the Bogoso joint venture. Upon completion of the transaction, the Company will own a 90% equity interest in BGL and the Republic of Ghana will retain its 10% equity interest. In consideration for the acquisition of Anvil's interest in the BGL, the Company has agreed to issue to Anvil 3 million Common Shares (which Common Shares will not be registered under the U.S Securities Act of 1933 and may not be offered or sold in the United States without registration or exemption from registration requirements thereunder) at a deemed issue price of US\$0.40 per share. The agreement with Anvil provides that the transaction is subject to the receipt of all relevant Ghanaian approvals and consents for the transfer of Anvil's interests in BGL to the Company and to the Company obtaining, in respect of the issuance of the 3 million Common Shares to Anvil, the approval of the Toronto Stock Exchange and the Company's shareholders.

Management believes that the consolidation of shareholdings in BGL (except for the 10% equity interest of the Republic of Ghana) will improve the Company's access to the funding necessary to pursue development programs at the Bogoso gold mine and enable the Company to receive a greater share of the net proceeds therefrom. The Board approved this transaction.

In negotiating and determining the number of Common Shares to be issued to Anvil in consideration for its interest in BGL, the Company's management and directors considered a number of factors, including but not limited to, the known potential and net present value of the Bogoso gold mine, the outstanding portion of the purchase price payable to the Sellers and the fact that the issuance of 3 million Common Shares would increase the Company's issued and outstanding capital by 7.9% (non diluted) or 5.6% (fully diluted).

For additional discussion about BGL, please refer to the Company's Form 10-K for the year ended December 31, 2000 and other documents filed with the Securities and Exchange Commission and the Canadian securities commissions.

At the Meeting, shareholders will be asked to consider and, if deemed advisable, approve, with or without amendment, an ordinary resolution in the following terms:

"RESOLVED that, upon receiving all approvals necessary to give effect to the transfer of all of the rights and interests of Anvil Mining NL in Bogoso Gold Limited to the Corporation and execution of the documentation necessary to effect such transfer, the issuance by the Company to Anvil Mining NL of 3,000,000 Common Shares of the Company, as is more particularly described in the Company's Management Information Circular dated May 18, 2001, is hereby approved."

To become effective, the resolution must be approved by a majority of the votes cast in respect thereof.

The agreement with Anvil provides that the transaction is subject to the receipt of all relevant Ghanaian approvals. If shareholders approve the resolution, the 3 million Common Shares will be issued to Anvil following the receipt of all such approvals. The Common Shares authorized to be issued by this resolution will be issued in addition to any Common Shares that may be issued in accordance with the resolution described below under "Advance Shareholder Approval for Private Placements". If shareholders do not approve the issuance of the Common Shares to Anvil, the Common Shares will not be issued and the acquisition by the Company of Anvil's interest in BGL will not proceed in the manner described above.

Mr. Peter Bradford, a director and officer of the Company, is also a director of Anvil and owns approximately 3% of Anvil's share capital and has the right to acquire an additional 3%. Mr. Bradford did not participate in the negotiations with Anvil or in discussions among the Company's board of directors on the transaction. Mr. Bradford left the room when the Company's directors deliberated on the approval of the transaction and abstained from voting when the Company's directors approved the agreement with Anvil. Except as described in this Management Information Circular, Mr. Bradford will not receive, directly or indirectly, any remuneration in connection with the transaction.

THE BOARD OF DIRECTORS STRONGLY RECOMMENDS THAT THE SHAREHOLDERS VOTE "FOR" THE FOREGOING PROPOSAL AND, UNLESS A SHAREHOLDER GIVES INSTRUCTIONS ON THE PROXY CARD TO THE CONTRARY, THE APPOINTEES NAMED THEREON INTEND SO TO VOTE.

ADVANCE SHAREHOLDER APPROVAL FOR PRIVATE PLACEMENTS

The Company from time to time investigates opportunities to raise financing on advantageous terms and may effectuate private placements of its common shares. The Company expects to undertake one or more financings over the next year and expects some of them to be structured as private placements.

Under the rules of the TSE the aggregate number of shares of a listed company which are issued or made subject to issuance (i.e. issuable under a share purchase warrant or option or other convertible security) by way of one or more private placement transactions during any particular six-month period must not exceed 25% of the number of shares outstanding (on a non-diluted basis) prior to giving effect to such transactions (the "TSE 25% Rule"), unless there has been shareholder approval of such transactions.

The application of the TSE 25% Rule may restrict the availability to the Company of funds which it may wish to raise in the future by private placement of its securities.

Management of the Company considers it to be in the best interests of the Company to raise funds by private placement to finance business opportunities, fund work programs on its mining properties and increase its working capital. The TSE has a working practice that it will accept advance approval by shareholders in anticipation of private placement transactions that may exceed the

TSE 25% Rule, provided such private placement are completed within 12 months of the date such advance shareholder approval is given.

As at May 1, 2001, the Company had issued and outstanding 38,088,988 Common Shares. The Company proposes that the maximum number of Common Shares which either would be issued or made subject to issuance under one or more private placement transactions within the 12-month period following the date of the Meeting would not exceed 20,000,000 Common Shares in the aggregate, or 53% of the Company's issued and outstanding Common Shares as at May 1, 2001.

Any private placement transactions proceeded with by the Company under the advance approval being sought at the Meeting will be subject to the following additional restrictions:

- (a) each must be substantially with parties at arm's length to the Company;
- (b) each cannot materially affect control of the Company;
- (c) each must be completed within a 12-month period following the date the shareholder approval is given; and
- (d) each must comply with the TSE's pricing rules for private placements which currently require that the issue price per Common shares must not be lower than the closing market price of the Common Shares on the TSE on the trading day prior to the date the notice of private placement is given to the TSE (the "Market Price"), less the applicable discount, as follow:

Market Price	Maximum Discount
\$0.50 or less	25%
\$0.51 to \$2.00	20%
Above \$2.00	15%

In addition, the terms of the Common Shares to be issued in any private placement transaction will be determined by the Board of Directors of the Company. If this proposal is approved, no further authorization for any such issuance by a vote of the Company's shareholders will be solicited prior to such issuance. The TSE will, however, retain the discretion to decide whether or not a particular private placements is "substantially" at arm's length or will materially affect control in which case specific shareholder approval may be required. The Company is in discussions with a number of parties concerning possible private placements, but while the Company is hopeful that some may eventuate, none are currently contemplated.

In anticipation that the Company may wish to enter into one or more Private Placement Transactions in the next 12 months that will result in it issuing and/or making issuable such number of its Common Shares, taking into account any shares that may be issued upon exercise of any warrants, options or other rights granted in connection with Private Placement Transactions, that will exceed the TSE 25% Rule, at the Meeting, shareholders will be asked to consider and, if deemed advisable, approve, with or without amendment, an ordinary resolution in the following terms:

"RESOLVED that the issuance by the Company in one or more private placement transactions during the 12-month period commencing June 27, 2001 of such number of securities that would result in the Company issuing or making issuable 20,000,000 Common Shares of the Company, as is more particularly described in the Company's Management Information Circular dated May 18, 2001, is hereby approved."

To become effective, the resolution must be approved by a majority of the votes cast in respect thereof.

THE BOARD OF DIRECTORS STRONGLY RECOMMENDS THAT THE SHAREHOLDERS VOTE "FOR" THE FOREGOING PROPOSAL AND, UNLESS A SHAREHOLDER GIVES INSTRUCTIONS ON THE PROXY CARD TO THE CONTRARY, THE APPOINTEES NAMED THEREON INTEND SO TO VOTE.
