PART III — Narrative

State in reasonable detail the reasons why the Form 10-K or portion thereof could not be filed within the prescribed time period.

Golden Star needs additional time to complete the analysis of the correct accounting for certain derivative contracts of Golden Star's subsidiary, EURO Ressources S.A. ("EURO"), and to determine whether certain contracts, which have since the first quarter of 2005 been accounted for as qualifying for hedge accounting under Canadian GAAP, are properly accounted for under hedge accounting requirements. Golden Star owns approximately 53% of EURO, and the financial results of EURO are consolidated with those of Golden Star. Therefore, Golden Star will be unable to complete its financial statements and Form 10-K prior to the filing deadline.

If answer no, identify report(s).

Yes No

(3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof?

Yes No

Golden Star expects to report a loss for the year ended December 31, 2005 of \$(12.1) million compared to net income of \$2.5 million for the year ended December 31, 2004. The major factors contributing to the loss were a substantial operating loss at the new Wassa mine and reduced operating income at Bogoso/ Prestea on lower production and higher operating costs. If Golden Star concludes, as a result of its analysis of the accounting treatment of the EURO derivative contracts, that Golden Star's previous reporting with respect to such contracts should be changed to the mark-to-market method, Golden Star's loss for the year ended December 31, 2005 could be increased by an unrealized non-cash charge (which would be recaptured and brought back into income in future periods) of up to \$6.4 million. There would be no impact to the 2005 loss if the contracts are determined to qualify for hedge accounting.
