VANCOUVER - BC – Paul N. Wright President and Chief Executive Officer of Eldorado Gold Corporation (“Eldorado” the “Company” or “We”) is pleased to provide a production update on the Company’s Tanjianshan and Kisladag Mines.

The acquisition of Sino Gold Mining Limited was implemented on December 15, 2009. Eldorado’s year end financial results scheduled for release on March 19, 2010 will include the relatively modest contribution of attributable December 2009 production from the Jinfeng and White Mountain mines.

Eldorado presently forecasts 2010 production to be in the range of 550,000 – 600,000 ounces of gold. We will provide the year’s projected full operating cost, production and capital investment guidance for the Company’s mining operations at the end of January.

“We are extremely pleased with the performance of our Kisladag and Tanjianshan mines and the progress of the Company’s development and exploration projects throughout 2009. In 2008, we were the top performer on the S&P/TSX composite index with share appreciation of 65 percent and have now followed up with a gain of 55 percent in 2009. The Company continues to successfully execute a strategy designed to build a high quality gold company in a manner that consistently delivers superior returns its share holders,” commented Paul N.
