White Mountain Update

VANCOUVER - BC – Paul N. Wright President and Chief Executive Officer of Eldorado Gold Corporation (“Eldorado” the “Company” or “We”) is pleased to provide the following update on the status of its 95% owned White Mountain underground mine in Jilin Province, PRC.

The mine has received all of the necessary approvals and production has re-commenced. During the approximately 5 month shutdown period, the mine continued to work on underground access and development and as a result it is expected that the mine will ramp up to full production quickly. The mine is now able to discharge treated water under an approved change to the Environmental Impact Assessment.

“We are glad that the situation at White Mountain has been resolved in a technically and environmentally sound manner and we look forward to a full year of production from the mine. Eldorado is committed to working with the local communities in all of the jurisdictions in which we operate, and at White Mountain we intend to focus on continuing to develop a strong relationship with local stakeholders,” commented Paul N. Wright, President and Chief Executive Officer.

Eldorado is a gold producing, exploration and development company actively growing businesses in Brazil, China, Greece, and Turkey and surrounding regions. We are one of the lowest cost pure gold producers. With our international expertise in mining, finance and project development, together with highly skilled and dedicated staff, we believe that Eldorado is well positioned to grow in value as we create and pursue new opportunities.
