**Item 2.05 Costs Associated with Exit or Disposal Activities.**

On November 3, 2005, Sykes Enterprises, Incorporated (the “Company”) committed to a plan (the “Plan”) to reduce its workforce by approximately 200 people in one of its European customer contact management centers in response to the notification of the October 2005 contractual expiration of a technology client program, which has generated annual revenues of approximately \$12.0 million. The Company expects to complete the Plan by the end of the second quarter of 2006.

The Company estimates that during the fourth quarter of 2005 and the first half of 2006, it will incur total charges related to the Plan of approximately \$1.3 million to \$1.6 million. These charges include approximately \$1.1 million to \$1.2 million for severance and related costs and \$0.1 million to \$0.2 million for other exit costs. Additionally, upon completion of the Plan, the Company will cease using certain property and equipment estimated at \$0.2 million, and will begin immediately to depreciate these assets over the shortened useful life, which approximates eight months. As a result, the Company will record additional depreciation of approximately \$0.1 million to \$0.2 million during the eight-month period ended June 2006. The severance and other exit costs require the outlay of cash during the fourth quarter of 2005 and the first half of 2006, while the depreciation charges related to property and equipment represent non-cash charges.
