**NOTE 2 - CREDIT FACILITY**

On May 2, 2000, the Company amended and restated its existing syndicated credit facility with a syndicate of lenders (the "Amended Credit Facility"). Pursuant to the terms of the Amended Credit Facility, the amount of the Company's revolving credit facility was maintained at \$150.0 million. The \$150.0 million Amended Credit Facility includes a \$10.0 million swingline loan to be used for working capital purposes. In addition, the Company amended and restated its \$15.0 million multi-currency credit facility that provides for multi-currency lending. Borrowings under the Amended Credit Facility bear interest, at the Company's option, at (a) the lender's base rate plus an applicable margin of up to .25% or (b) a Eurodollar rate plus an applicable margin of up to 1.75 %. Borrowings under the \$10.0 million swingline loan bear interest, at the Company's option, at (a) the lender's base rate plus an applicable margin of up to .25% or (b) a Quoted Rate for swingline loans. Borrowings under the \$15.0 million multi-currency facility bear interest, at the Company's option, at (a) the lender's base rate plus an applicable margin of up to .25% or (b) a quoted Euro rate for swingline loans. The Company paid aggregate financing fees of approximately \$0.3 million, which have been deferred and are being amortized over the term of the Amended Credit Agreement. In addition, a commitment fee up to .375% will be charged on the unused portion of the Amended Credit Facility on a quarterly basis. The Amended Credit Facility matures on February 28, 2003, and the multi-currency facility matures on February 28, 2002.

Borrowings under the Amended Credit Facility are guaranteed by certain of the Company's subsidiaries as evidenced by a pledge of 66% of the respective subsidiary's common stock. Under the terms of the Amended Credit Facility, the Company is required to maintain certain financial ratios and other financial and non-financial conditions. The Amended Credit Facility prohibits, without the consent of the syndicated lenders, the Company from incurring additional indebtedness, limits certain investments, advances or loans and restricts substantial asset sales, capital expenditures and cash dividends.

**NOTE 3 - COMMITMENTS AND CONTINGENCIES**

As of August 1, 2000, the Company is aware of 14 purported class action lawsuits that have been filed against Sykes and certain of its officers alleging violations of federal securities laws. All of the actions were filed in the United States District court for the Middle District of Florida, and all of the actions have been consolidated into one action. The plaintiffs of these lawsuits purport to assert claims on behalf of a class of purchasers of Sykes common stock during part of 1999 and through February 4, 2000. The actions claim violations of Sections 10(b) and 20(a) of the Securities Exchange Act of 1934 and Rule 10b-5 promulgated thereunder. Among other things, the actions allege that during 1999 and 2000, the Company and certain of its officers made materially false statements concerning the Company's financial condition and its future prospects. The complaints also claim that certain of the Company's quarterly financial statements during 1999 were not prepared in accordance with generally accepted accounting principles. The actions seek compensatory and other damages, and costs and expenses associated with the litigation.

The Company intends to defend the actions vigorously. However, the Company cannot predict the outcome of this lawsuit or the impact that they may have on the Company. The Company also cannot predict whether any other suits, claims, or investigations may arise in the future based on the same claims. The outcome of this lawsuit or any future lawsuits, claims, or investigations relating to the same subject matter may have a material adverse impact on the Company's financial condition and results of operations.

The Company from time to time is involved in legal actions arising in the ordinary course of business. With respect to these matters, management believes that it has adequate legal defenses and/or provided adequate accruals for related costs such that the ultimate outcome will not have a material adverse effect on the Company's future financial position.

During January 2000, the Company became contingently liable for a letter of credit in the amount of \$30.0 million, which guarantees performance of a contractual obligation.

**NOTE 4 - ACCUMULATED OTHER COMPREHENSIVE INCOME**

Sykes' Business Solutions group which represents approximately 10% of the Company's consolidated revenue, provides professional services in e-commerce, globalization and Customer Relationship Management (CRM) with a focus on business strategy development, solution implementation, web design, development and education, localization and program management. Sykes' Business Services group represents approximately 90% of the Company's consolidated revenue and is comprised of the Company's core competencies of technical and customer support, distribution and fulfillment. These services are delivered through multiple communication channels encompassing web, e-mail and telephony support. The revenue comparisons below reflect the Company's strategic focus on its operations as Business Solutions and Business Services.

**SIX MONTHS ENDED JUNE 30, 2000 COMPARED TO SIX MONTHS ENDED JUNE 30, 1999**

For the six months ended June 30, 2000, the Company recorded consolidated revenues of \$318.1 million, an increase of \$47.6 million or 17.6%, from the \$270.5 million of consolidated revenues for the comparable period during 1999. Exclusive of SHPS (in which 93.5% of the Company's ownerships interest was sold on June 30, 2000), revenues increased \$47.2 million or 20.1% to \$282.4 million for the six months ended June 30, 2000 from \$235.2 million for the comparable period during 1999. This growth in revenue was the result of a \$46.4 million or 19.1% increase in Business Services' revenues (\$46.0 million or 22.1% exclusive of SHPS) and an increase of \$1.2 million or 4.5% from Business Solutions' revenues.

**AND RESULTS OF OPERATIONS**

**SIX MONTHS ENDED JUNE 30, 2000 COMPARED TO SIX MONTHS ENDED JUNE 30, 1999**  
(CONTINUED)

The increase in Business Services' revenues for the six months ended June 30, 2000 was primarily attributable to an increase in the number of technical and customer support centers providing services throughout the period, and the resultant increase in e-mail requests and telephony call volumes from clients, the licensing of the Company's diagnostic software, partially offset by a decrease from distribution and fulfillment services revenues. The new technical support centers were required as a result of continued growth of technical and customer support services from both e-commerce and telephony support services. Subsequent to the second quarter of 1999, the Company opened four domestic and four international technical support centers, and significantly expanded an additional four international centers. During the six months ended June 30, 2000, the Company recognized \$4.7 million of revenue associated with the licensing of the Company's AnswerTeam(TM) diagnostic software, of which \$3.5 million relates to a one-year licensing agreement that was completed during the six months ended June 30, 2000, and \$1.2 million relates to the pro rata recognition of revenue associated with a licensing agreement completed during 1999. The decrease in distribution and fulfillment services revenue for the six months ended June 30, 2000 was primarily attributable to a client's decision to discontinue its operations within North America. The increase in Business Solutions' revenues was attributable to a focus on professional e-commerce services, including web design, development and program management, an increase in the average bill rate charged for consulting services, an increase in language translation and localization services, partially offset by a \$1.9 million reduction in revenue associated with the sale of the Company's Manufacturing and Distribution operations during the second quarter of 1999.

Direct salaries and related costs increased \$28.6 million or 16.6% to \$200.8 million for the six months ended June 30, 2000, from \$172.2 million in 1999. As a percentage of revenues, direct salaries and related costs decreased to 63.1% in 2000 from 63.7% for the comparable period in 1999. The increase in the dollar amount was primarily attributable to a \$36.1 million increase in salaries and benefits to support revenue growth and associated training costs, partially offset by a \$7.3 million decrease in direct material costs associated with distribution and fulfillment services. In addition, during the six months ended June 30, 1999, the Company capitalized \$0.6 million of costs related to internally developed software with no additional costs capitalized during the six months ended June 30, 2000. Exclusive of SHPS, direct salaries and related costs increased \$24.6 million or 16.1% to \$177.6 million or 62.9% of revenue. The decrease in direct salaries and related costs as a percentage of revenue resulted from economies of scale associated with spreading costs over a larger revenue base.

General and administrative expenses increased \$18.3 million or 24.7% to \$92.3 million for the six months ended June 30, 2000, from \$74.0 million in 1999. As a percentage of revenues, general and administrative expenses increased to 29.0% in 2000 from 27.4% for the comparable period in 1999. The increase in both the dollar amount and percentage of revenue of general and administrative expenses was primarily attributable to a \$6.9 million increase in salaries and benefits to support the Company's organic growth, a \$3.7 million increase in depreciation expenses associated with facility and capital equipment expenditures incurred in connection with the integration and expansion of the Company's technical and customer support services, a \$2.0 million increase in telecom costs and a \$6.6 million increase of other costs. Grants received in excess of property and equipment costs are recognized as a reduction of general and administrative expenses which were \$0.9 million higher during the six months ended June 30, 2000 compared to the six months ended June 30, 1999. Exclusive of SHPS, general and administrative expenses increased \$21.0 million or 34.6% to \$81.5 million, or 28.9% of revenue.

Compensation expense associated with the exercise of options was \$7.8 million for the six months ended June 30, 2000. This charge related to payments made to certain SHPS' option holders as part of the Company's sale of a 93.5% ownership interest in SHPS that occurred on June 30, 2000.

The Company recorded restructuring and other charges of \$9.6 million during the six months ended June 30, 2000. These charges were associated with (1) the consolidation of certain of the Company's distribution and fulfillment operations; (2) the consolidation of certain of the Company's professional services locations; (3) elimination of

redundant property, leasehold improvements and equipment; and (4) lease termination costs associated with vacated properties and transportation equipment.

Interest and other expense was \$2.2 million during the six months ended June 30, 2000, compared to \$1.4 million during the comparable 1999 period. The increase in interest and other expense for the six-month period was attributable to an overall increase in interest rates and to an increase in the Company's average outstanding debt position. The Company's average interest rate for the six months ended June 30, 2000 was 7.7% compared to 6.5% for the comparable period of 1999, resulting in an increase of interest expense of \$0.5 million. The Company's average debt balance for the six months ended June 30, 2000, was \$83.7 million compared to \$76.7 million for the six months ended June 30, 1999. The increase in the average debt balance is principally due to capital expenditures and the Company's repurchase of 1.0 million shares of its common stock during the first quarter of 2000 that is being held as treasury shares.

On June 30, 2000, the Company sold 93.5% of its ownership interest in SHPS for \$165.5 million cash. The sale of SHPS resulted in a gain for financial accounting purposes of \$84.0 million (\$59.9 million net of taxes).

The provision for income taxes increased \$18.4 million to \$27.2 million for the six months ended June 30, 2000 from \$8.8 million for the comparable period in 1999. The increase in the provision for income taxes was primarily attributable to the gain associated with the sale of SHPS, partially offset by the compensation expense associated with the exercise of options and the restructuring and other charges that were incurred during the six months ended June 30, 2000. The Company's effective tax rate exclusive of the gain and one-time charges was 38.8% for the six months ended June 30, 2000 compared to 38.7% for the comparable 1999 period.

**THREE MONTHS ENDED JUNE 30, 2000 COMPARED TO THREE MONTHS ENDED JUNE 30, 1999** For the three months ended June 30, 2000, the Company recorded consolidated revenues of \$156.8 million, an increase of \$22.7 million or 16.9%, from the \$134.1 million of consolidated revenues for the comparable period during 1999. Exclusive of SHPS, revenues increased \$23.0 million or 19.7% to \$139.2 million for the three months ended June 30, 2000, from \$116.3 million for the comparable period during 1999. This growth in revenue was the result of a \$20.5 million or 16.9% increase in Business Services' revenues (\$20.7 million or 20.0% exclusive of SHPS) and an increase of \$2.2 million or 17.5% from Business Solutions' revenues.

The increase in Business Services' revenues for the three months ended June 30, 2000 was primarily attributable to an increase in the number of technical and customer support centers providing services throughout the period and the resultant increase in e-mail requests and telephony call volumes from clients, the licensing of the Company's diagnostic software, partially offset by a decrease from distribution and fulfillment services revenues. The new technical and customer support centers were required as a result of continued growth of technical and customer support services from both e-commerce and traditional telephony support services. Subsequent to the first six months of 1999, the Company opened four domestic and four international technical and customer support centers, and significantly expanded an additional four international centers. During the three months ended June 30, 2000, the Company recognized \$4.7 million of revenue associated with the licensing of the Company's AnswerTeam(TM) diagnostic software, of which \$3.5 million relates to a one-year licensing agreement that was completed during the three months ended June 30, 2000, and \$1.2 million relates to the pro rata recognition of revenue associated with a licensing agreement completed during 1999. a \$0.7 million reduction in revenue associated with the sale of the Company's Manufacturing and Distribution operation during the second quarter of 1999.

Direct salaries and related costs increased \$9.7 million or 10.9% to \$98.6 million for the three months ended June 30, 2000, from \$88.9 million in 1999. As a percentage of revenues, direct salaries and related costs decreased to 62.9% in 2000 from 66.3% for the comparable period in 1999. The increase in the dollar amount was primarily attributable to a \$15.5 million increase in salaries and benefits to support revenue growth and associated training costs, partially offset by a \$5.7 million decrease in direct material costs associated with distribution and fulfillment services. Exclusive of SHPS, direct salaries and related costs increased \$8.8 million or 11.2% to \$87.3 million or 62.7% of revenue. The decrease as a percentage of revenue resulted from economies of scale associated with spreading costs over a larger revenue base.

General and administrative expenses increased \$7.6 million or 20.1% to \$45.4 million for the three months ended June 30, 2000, from \$37.8 million in 1999. As a percentage of revenues, general and administrative expenses increased to 28.9% in 2000 from 28.2% for the comparable period in 1999. The increase in the dollar amount of general and administrative expenses was primarily attributable to a \$2.3 million increase in salaries and benefits to support the Company's organic growth, a \$2.6 million increase in depreciation expenses associated with facility and capital equipment expenditures incurred in connection with the integration and expansion of the Company's technical and customer support a \$1.1 million increase in telecom costs and a \$2.5 million increase of other costs. Compensation expense associated with the exercise of options was \$7.8 million for the three months ended June 30, 2000. This charge related to payments made to certain SHPS' option holders as part of the Company's sale of a 93.5% ownership interest in SHPS that occurred on June 30, 2000.

The Company recorded restructuring and other charges of \$9.6 million during the three months ended June 30, 2000. Interest and other expense was \$1.0 million during the three months ended June 30, 2000, compared to \$0.9 million during the comparable 1999 period. The increase in interest and other expense for the three-month period was attributable to an increase in interest rates and to an increase in the Company's average outstanding debt position. The Company's average interest rate for the second quarter of 2000 was 7.6% compared to 6.6% for the comparable period of 1999, resulting in an increase of interest expense of \$0.2 million. The Company's average debt balance for the second quarter of 2000 was \$90.3 million compared to \$78.0 million for the second quarter of 1999. The increase in the average debt balance is principally due to capital expenditures and the Company's repurchase of 1.0 million shares of its common stock during the first quarter that is being held as treasury shares.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION**  
**AND RESULTS OF OPERATIONS**

**LIQUIDITY AND CAPITAL RESOURCES**

The Company's primary sources of liquidity are cash flows from operations and available borrowings under its credit facilities. The Company has utilized its capital resources to make capital expenditures associated primarily with its technical and customer support services, invest in technology applications and tools to further develop the Company's service offerings, repurchase its shares in the open market and for working capital and other general corporate purposes. In addition, the Company intends to use its future sources of liquidity for the aforementioned items and for possible acquisitions.

During the six-month period ended June 30, 2000, the Company generated approximately \$29.9 million in cash from operations. The Company utilized these funds and a portion of the cash generated from the sale of 93.5% of its interest in SHPS to fund repayments under its credit facility, to fund the purchase of \$16.2 million of common stock being held in treasury and \$34.1 million of capital expenditures. The purchase of the shares of the Company's common stock was in connection with a stock repurchase program announced in February 2000. During July 2000, the Company announced an additional stock repurchase program for up to two million shares. The capital expenditures were predominately the result of the Company's enhancement of its initiatives including the integration and expansion of the Company's technical and customer support centers.

On May 2, 2000, the Company amended and restated its existing syndicated credit facility with a syndicate of lenders (the "Amended Credit Facility"). Pursuant to the terms of the Amended Credit Facility, the amount of the Company's revolving credit facility was maintained at \$150.0 million. The \$150.0 million Amended Credit Facility includes a \$10.0 million swingline loan to be used for working capital purposes. In addition, the Company amended and restated its \$15.0 million multi-currency credit facility that provides for multi-currency lending. Borrowings under the Amended Credit Facility bear interest, at the Company's option, at (a) the lender's base rate plus an applicable margin of up to .25% or (b) a Eurodollar rate plus an applicable margin of up to 1.75 %. Borrowings under the \$10.0 million swingline loan bear interest, at the Company's option, at (a) the lender's base rate plus an applicable margin of up to .25% or (b) a Quoted Rate for swingline loans. Borrowings under the \$15.0 million multi-currency facility bear interest, at the Company's option, at (a) the lender's base rate plus an applicable margin of up to .25% or (b) a quoted Euro rate for swingline loans. The Company paid aggregate financing fees of approximately \$0.3 million, which have been deferred and are being amortized over the term of the Amended Credit Agreement. In addition, a commitment fee up to .375% will be charged on the unused portion of the Amended Credit Facility on a quarterly basis. The Amended Credit Facility matures on February 28, 2003, and the multi-currency facility matures on February 28, 2002. At June 30, 2000, the Company had \$154.8 million of availability under its credit facilities.

The Company believes that its current cash levels, accessible funds under its credit facilities and cash flows from future operations will be adequate to meet its working capital needs, continued expansion objectives, anticipated levels of capital expenditures and debt repayment requirements, including those that may be required pursuant to the integration of its acquisitions, for the foreseeable future.

**QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK**

The Company's earnings and cash flows are subject to fluctuations due to changes in non-U.S. currency exchange rates. The Company is exposed to non-U.S. exchange rate fluctuations as the financial results of non-U.S. subsidiaries are translated into U.S. dollars in consolidation. As exchange rates vary, those results, when translated, may vary from expectations and adversely impact overall expected profitability. The cumulative translation effects for subsidiaries using functional currencies other than the U.S. dollar are included in accumulated other

comprehensive income in shareholders' equity. Movements in non-U.S. currency exchange rates may affect the Company's competitive position, as exchange rate changes may affect business practices and/or pricing strategies of non-United States based competitors. Under its current policy, the Company does not use non-U.S. exchange derivative instruments to manage its exposure to changes in non-U.S. currency exchange rates.

The Company's exposure to interest rate risk results from its variable rate debt outstanding under its credit facilities. At June 30, 2000, the Company had \$10.2 million in debt outstanding at variable interest rates, which is generally equal to the Eurodollar rate plus an applicable margin. Based on the Company's level of variable rate debt during the first six months of 2000, a one-point increase in the weighted average interest rate would increase the Company's annual interest expense by approximately \$0.9 million. Under its current policy, the Company does not use derivative instruments to manage its exposure to changes in interest rates.

**IMPACT OF YEAR 2000**

In prior periods, the Company discussed the nature and progress of its plans to become Year 2000 compliant. During September 1999, the Company completed its remediation and testing of its systems. As a result of those planning and implementation efforts, the Company experienced no significant disruptions in critical information technology and non-information technology systems and believes those systems successfully responded to the Year 2000 date change. Sykes is not aware of any material problems resulting from Year 2000 issues, either with its products and services, its internal systems, or those products or services of third parties. Sykes will continue to monitor its critical computer applications and those of its suppliers and vendors throughout the year 2000 to ensure that any delayed Year 2000 matters that may arise are addressed promptly.

**FLUCTUATIONS IN QUARTERLY RESULTS**

For the year ended December 31, 1999, quarterly revenues as a percentage of total annual revenues were approximately 24%, 23%, 25% and 28%, respectively, for the first through fourth quarters of the year. The Company has experienced and anticipates that in the future it will continue to experience variations in quarterly revenues. The variations are due to the timing of new contracts and renewal of existing contracts, the timing of expenses incurred to support new business, the timing and frequency of client spending for e-commerce and e-business activities, non-U.S. currency fluctuations, and the seasonal pattern of technical and customer support, and distribution and fulfillment services.
