Notes to Condensed Consolidated Financial Statements
Three Months Ended March 31, 2015 and 2014

Note 1. Overview and Basis of Presentation

Business — Sykes Enterprises, Incorporated and consolidated subsidiaries (“SYKES” or the “Company”) provides comprehensive outsourced customer contact management solutions and services in the business process outsourcing arena to companies, primarily within the communications, financial services, technology/consumer, transportation and leisure, and healthcare industries. SYKES provides flexible, high-quality outsourced customer contact management services (with an emphasis on inbound technical support and customer service), which includes customer assistance, healthcare and roadside assistance, technical support and product sales to its clients’ customers. Utilizing SYKES’ integrated onshore/offshore global delivery model, SYKES provides its services through multiple communication channels encompassing phone, e-mail, social media, text messaging and chat. SYKES complements its outsourced customer contact management services with various enterprise support services in the United States that encompass services for a company’s internal support operations, from technical staffing services to outsourced corporate help desk services. In Europe, SYKES also provides fulfillment services including order processing, payment processing, inventory control, product delivery and product returns handling. The Company has operations in two reportable segments entitled (1) the Americas, which includes the United States, Canada, Latin America, Australia and the Asia Pacific Rim, in which the client base is primarily companies in the United States that are using the Company’s services to support their customer management needs; and (2) EMEA, which includes Europe, the Middle East and Africa.

Basis of Presentation — The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“generally accepted accounting principles” or “U.S. GAAP”) for interim financial information, the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three months ended March 31, 2015 are not necessarily indicative of the results that may be expected for any future quarters or the year ending December 31, 2015. For further information, refer to the consolidated financial statements and notes thereto, included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2014, as filed with the Securities and Exchange Commission (“SEC”) on February 19, 2015.

Principles of Consolidation — The condensed consolidated financial statements include the accounts of SYKES and its wholly-owned subsidiaries and controlled majority-owned subsidiaries. All significant intercompany transactions and balances have been eliminated in consolidation.

Use of Estimates — The preparation of condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Subsequent Events — Subsequent events or transactions have been evaluated through the date and time of issuance of the condensed consolidated financial statements. There were no material subsequent events that required recognition or disclosure in the accompanying condensed consolidated financial statements.

New Accounting Standards Not Yet Adopted

In May 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2014-09 “*Revenue from Contracts with Customers (Topic 606)*” (“ASU 2014-09”). The amendments in ASU 2014-09 outline a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and indicate that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. To achieve this, an entity should identify the contract(s) with a customer, identify the performance obligations in the contract, determine the transaction price, allocate the transaction price to the

Table of Contents

performance obligations in the contract and recognize revenue when (or as) the entity satisfies a performance obligation. The amendments are effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. The Company is currently evaluating the impact that the adoption of ASU 2014-09 may have on its financial condition, results of operations and cash flows.

In June 2014, the FASB issued ASU 2014-12 “ *Compensation – Stock Compensation (Topic 718) Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period*” (“ASU 2014-12”). The amendments in ASU 2014-12 require that a performance target that affects vesting and that could be achieved after the requisite service period be treated as a performance condition. A reporting entity should apply existing guidance in Accounting Standards Codification (“ASC”) Topic 718, “ *Compensation — Stock Compensation* ” (“ASC 718”), as it relates to awards with performance conditions that affect vesting to account for such awards. The amendments are effective for annual periods and interim periods within those annual periods beginning after December 15, 2015. The Company does not expect the adoption of ASU 2014-12 to materially impact its financial condition, results of operations and cash flows.

In January 2015, the FASB issued ASU 2015-01 “ *Income Statement – Extraordinary and Unusual Items (Subtopic 225-20) Simplifying Income Statement Presentation by Eliminating the Concept of Extraordinary Items*” (“ASU 2015-01”). This amendment eliminates from U.S. GAAP the concept of extraordinary items as part of the FASB’s initiative to reduce complexity in accounting standards. These amendments are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015. The Company does not expect the adoption of ASU 2015-01 to materially impact its financial condition, results of operations and cash flows.

In February 2015, the FASB issued ASU 2015-02 “ *Consolidation (Topic 810) Amendments to the Consolidation Analysis*) ” (“ASU 2015-02”). These amendments are intended to improve targeted areas of the consolidation guidance for legal entities such as limited partnerships, limited liability corporations and securitization structures. These amendments affect the consolidation evaluation for reporting organizations. In addition, the amendments simplify and improve current U.S. GAAP by reducing the number of consolidation models. The amendments are effective for fiscal years, and for interim periods within those fiscal years, beginning after December 15, 2015. The Company does not expect the adoption of ASU 2015-02 to materially impact its financial condition, results of operations and cash flows.

In April 2015, the FASB issued ASU 2015-03 “ *Interest – Imputation of Interest (Subtopic 835-30) Simplifying the Presentation of Debt Issuance Costs*” (“ASU 2015-03”). These amendments require that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. These amendments are effective for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. The Company does not expect the adoption of ASU 2015-03 to materially impact its financial condition, results of operations and cash flows.

In April 2015, the FASB issued ASU 2015-05 “ *Intangibles – Goodwill and Other – Internal-Use Software (Subtopic 350-40) Customer’s Accounting for Fees Paid in a Cloud Computing Arrangement*” (“ASU 2015-05”). These amendments provide guidance to customers about whether a cloud computing arrangement includes a software license. If a cloud computing arrangement includes a software license, the customer should account for the software license element of the arrangement consistent with the acquisition of other software licenses. If a cloud computing arrangement does not include a software license, the customer should account for the arrangement as a service contract. The new guidance does not change the accounting for a customer’s accounting for service contracts. These amendments are effective for annual periods, including interim periods within those annual periods, beginning after December 15, 2015. The Company does not expect the adoption of ASU 2015-05 to materially impact its financial condition, results of operations and cash flows.

New Accounting Standards Recently Adopted

In April 2014, the Financial Accounting Standards Board (“FASB”) issued ASU 2014-08 “ *Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360) – Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity*” (“ASU 2014-08”). The amendments in ASU 2014-08 indicate that only those disposals of components of an entity that represent a strategic shift that has (or will have) a major effect on an entity’s operations and financial results will be reported as discontinued operations in the financial statements. Currently, a component of an entity that is a reportable segment, an operating segment, a reporting unit, a subsidiary, or an asset group is eligible for discontinued operations presentation. The amendments will be applied to all disposals (or classifications as held for sale) of components of an entity that occur within

Table of Contents

annual periods beginning on or after December 15, 2014, and interim periods within those years. The adoption of ASU 2014-08 on January 1, 2015 did not have a material impact on the financial condition, results of operations and cash flows of the Company.

Note 2. Costs Associated with Exit or Disposal Activities

During 2011 and 2010, the Company announced several initiatives to streamline excess capacity through targeted seat reductions (the “Exit Plans”) in an on-going effort to manage and optimize capacity utilization. These Exit Plans included, but were not limited to, closing customer contact management centers in The Philippines, the United Kingdom, Ireland and South Africa and consolidating leased space in various locations in the U.S. and the Netherlands. These Exit Plans impacted approximately 800 employees. The Company has paid \$14.7 million in cash through March 31, 2015 under these Exit Plans.

The cumulative costs expected and incurred as a result of the Exit Plans were as follows as of March 31, 2015 (in thousands):

	Americas Fourth Quarter 2011	EMEA Fourth Quarter 2011	EMEA Fourth Quarter 2010	Americas Third Quarter 2010	Total
	<u>Exit Plan</u>	<u>Exit Plan</u>	<u>Exit Plan</u>	<u>Exit Plan</u>

(2) Included in "Other long-term liabilities" in the accompanying Condensed Consolidated Balance Sheets.

The remaining restructuring liability relates to future rent obligations to be paid through the remainder of the lease terms, the last of which ends in February 2017.

Note 3. Fair Value

ASC 820 "Fair Value Measurements and Disclosures" ("ASC 820") requires disclosure about how fair value is determined for assets and liabilities and establishes a hierarchy for which these assets and liabilities must be grouped, based on significant levels of observable or unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Company's market assumptions. This hierarchy requires the use of observable market data when available. These two types of inputs have created the following fair value hierarchy:

- Level 1 — Quoted prices for identical instruments in active markets.
- Level 2 — Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets.
- Level 3 — Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

Fair Value of Financial Instruments — The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate that value:

- Cash, Short-Term and Other Investments, Investments Held in Rabbi Trust and Accounts Payable — The carrying values for cash, short-term and other investments, investments held in rabbi trust and accounts payable approximate their fair values.
- Foreign Currency Forward Contracts and Options — Foreign currency forward contracts and options, including premiums paid on options, are recognized at fair value based on quoted market prices of comparable instruments or, if none are available, on pricing models or formulas using current market and model assumptions, including adjustments for credit risk.
- Long-Term Debt — The carrying value of long-term debt approximates its estimated fair value as it re-prices at varying interest rates.

Fair Value Measurements — ASC 820 defines fair value, establishes a framework for measuring fair value in accordance with generally accepted accounting principles and expands disclosures about fair value measurements. ASC 820-10-20 clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants.

Table of Contents

ASC 825 “*Financial Instruments*” (“ASC 825”) permits an entity to measure certain financial assets and financial liabilities at fair value with changes in fair value recognized in earnings each period. The Company has not elected to use the fair value option permitted under ASC 825 for any of its financial assets and financial liabilities that are not already recorded at fair value.

Determination of Fair Value— The Company generally uses quoted market prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access to determine fair value, and classifies such items in Level 1. Fair values determined by Level 2 inputs utilize inputs other than quoted market prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted market prices in active markets for similar assets or liabilities, and inputs other than quoted market prices that are observable for the asset or liability. Level 3 inputs are unobservable inputs for the asset or liability, and include situations where there is little, if any, market activity for the asset or liability.

If quoted market prices are not available, fair value is based upon internally developed valuation techniques that use, where possible, current market-based or independently sourced market parameters, such as interest rates, currency rates, etc. Assets or liabilities valued using such internally generated valuation techniques are classified according to the lowest level input or value driver that is significant to the valuation. Thus, an item may be classified in Level 3 even though there may be some significant inputs that are readily observable.

The following section describes the valuation methodologies used by the Company to measure assets and liabilities at fair value on a recurring basis, including an indication of the level in the fair value hierarchy in which each asset or liability is generally classified.

Money Market and Open-End Mutual Funds— The Company uses quoted market prices in active markets to determine the fair value of money market and open-end mutual funds, which are classified in Level 1 of the fair value hierarchy.

Foreign Currency Forward Contracts and Options— The Company enters into foreign currency forward contracts and options over the counter and values such contracts using quoted market prices of comparable instruments or, if none are available, on pricing models or formulas using current market and model assumptions, including adjustments for credit risk. The key inputs include forward or option foreign currency exchange rates and interest rates. These items are classified in Level 2 of the fair value hierarchy.

Investments Held in Rabbi Trust— The investment assets of the rabbi trust are valued using quoted market prices in active markets, which are classified in Level 1 of the fair value hierarchy. For additional information about the deferred compensation plan, refer to Note 6, Investments Held in Rabbi Trust, and Note 15, Stock-Based Compensation.

Guaranteed Investment Certificates— Guaranteed investment certificates, with variable interest rates linked to the prime rate, approximate fair value due to the automatic ability to re-price with changes in the market; such items are classified in Level 2 of the fair value hierarchy.

Certain assets, under certain conditions, are measured at fair value on a nonrecurring basis utilizing Level 3 inputs, like those associated with acquired businesses, including goodwill, other intangible assets and other long-lived assets. For these assets, measurement at fair value in periods subsequent to their initial recognition would be applicable if these assets were determined to be impaired. The adjusted carrying values for assets measured at fair value on a nonrecurring basis (no liabilities) subject to the requirements of ASC 820 were not material at March 31, 2015 and December 31, 2014.

Note 5. Financial Derivatives

Cash Flow Hedges – The Company has derivative assets and liabilities relating to outstanding forward contracts and options, designated as cash flow hedges, as defined under ASC 815 “*Derivatives and Hedging*” (“ASC 815”), consisting of Philippine Peso, Costa Rican Colon, Hungarian Forint and Romanian Leu contracts. These contracts are entered into to protect against the risk that the eventual cash flows resulting from such transactions will be adversely affected by changes in exchange rates.

The deferred gains (losses) and related taxes on the Company’s cash flow hedges recorded in “Accumulated other comprehensive income (loss)” (“AOCI”) in the accompanying Condensed Consolidated Balance Sheets are as follows (in thousands):

	<u>March 31, 2015</u>	<u>December 31, 2014</u>
Deferred gains (losses) in AOCI	\$ 1,323	\$ (157)
Tax on deferred gains (losses) in AOCI	(19)	46
Deferred gains (losses) in AOCI, net of taxes	<u>\$ 1,304</u>	<u>\$ (111)</u>
Deferred gains (losses) expected to be reclassified to “Revenues” from AOCI during the next twelve months	<u>\$ 1,323</u>	

Deferred gains (losses) and other future reclassifications from AOCI will fluctuate with movements in the underlying market price of the forward contracts and options.

Net Investment Hedge – During the three months ended March 31, 2015 and 2014, the Company entered into foreign exchange forward contracts to hedge its net investment in a foreign operation, as defined under ASC 815. The purpose of these derivative instruments is to protect the Company’s interests against the risk that the net assets of certain foreign subsidiaries will be adversely affected by changes in exchange rates and economic exposures related to the Company’s foreign currency-based investments in these subsidiaries.

Non-Designated Hedges – The Company also periodically enters into foreign currency hedge contracts that are not designated as hedges as defined under ASC 815. The purpose of these derivative instruments is to protect the Company’s interests against adverse foreign currency moves pertaining to intercompany receivables and payables, and other assets and liabilities that are denominated in currencies other than the Company’s subsidiaries’ functional currencies. These contracts generally do not exceed 180 days in duration.

- (1) Cash flow hedge as defined under ASC 815. Purpose is to protect against the risk that eventual cash flows resulting from such transactions will be adversely affected by changes in exchange rates.
- (2) Net investment hedge as defined under ASC 815. Purpose is to protect against the risk that the net assets of certain of our international subsidiaries will be adversely affected by changes in exchange rates and economic exposures related to our foreign currency-based investments in these subsidiaries.
- (3) Foreign currency hedge contract not designated as a hedge as defined under ASC 815. Purpose is to reduce the effects on the Company's operating results and cash flows from fluctuations caused by volatility in currency exchange rates, primarily related to intercompany loan payments and cash held in non-functional currencies.

Master netting agreements exist with each respective counterparty to reduce credit risk by permitting net settlement of derivative positions. In the event of default by the Company or one of its counterparties, these agreements include a set-off clause that provides the non-defaulting party the right to net settle all derivative transactions, regardless of the currency and settlement date. The maximum amount of loss due to credit risk that, based on gross fair value, the Company would incur if parties to the derivative transactions that make up the concentration failed to perform according to the terms of the contracts was \$12.9 million and \$5.5 million as of March 31, 2015 and December 31, 2014, respectively. After consideration of these netting arrangements and offsetting positions by counterparty, the total net settlement amount as it relates to these positions are asset positions of \$12.4 million and \$4.4 million as of March 31, 2015 and December 31, 2014, respectively, and a liability position of \$0.1 million as of December 31, 2014 (none at March 31, 2015).

Although legally enforceable master netting arrangements exist between the Company and each counterparty, the Company has elected to present the derivative assets and derivative liabilities on a gross basis in the accompanying Condensed Consolidated Balance Sheets. Additionally, the Company is not required to pledge, nor is it entitled to receive, cash collateral related to these derivative transactions.

Note 9. Borrowings

On May 3, 2012, the Company entered into a \$245 million revolving credit facility (the "2012 Credit Agreement") with a group of lenders and KeyBank National Association, as Lead Arranger, Sole Book Runner and Administrative Agent ("KeyBank"). The 2012 Credit Agreement replaced the Company's previous \$75 million revolving credit facility dated February 2, 2010, as amended, which agreement was terminated simultaneous with entering into the 2012 Credit Agreement. The 2012 Credit Agreement is subject to certain borrowing limitations and includes certain customary financial and restrictive covenants.

The 2012 Credit Agreement includes a \$184 million alternate-currency sub-facility, a \$10 million swingline sub-facility and a \$35 million letter of credit sub-facility, and may be used for general corporate purposes including acquisitions, share repurchases, working capital support and letters of credit, subject to certain limitations. The Company is not currently aware of any inability of its lenders to provide access to the full commitment of funds that exist under the revolving credit facility, if necessary. However, there can be no assurance that such facility will be available to the Company, even though it is a binding commitment of the financial institutions.

Borrowings consist of the following (in thousands):

	<u>March 31, 2015</u>	<u>December 31, 2014</u>
Revolving credit facility	\$ 74,000	\$ 75,000
Less: Current portion	—	—
Total long-term debt	<u>\$ 74,000</u>	<u>\$ 75,000</u>

The 2012 Credit Agreement matures on May 2, 2017 and has no varying installments due.

Borrowings under the 2012 Credit Agreement will bear interest at the rates set forth in the Credit Agreement. In addition, the Company is required to pay certain customary fees, including a commitment fee of 0.175%, which is due quarterly in arrears and calculated on the average unused amount of the 2012 Credit Agreement.

Table of Contents

The 2012 Credit Agreement is guaranteed by all of the Company's existing and future direct and indirect material U.S. subsidiaries and secured by a pledge of 100% of the non-voting and 65% of the voting capital stock of all the direct foreign subsidiaries of the Company and those of the guarantors.

In May 2012, the Company paid an underwriting fee of \$0.9 million for the 2012 Credit Agreement, which is deferred and amortized over the term of the loan. The 2012 Credit Agreement had an average daily utilization of \$74.3 million and \$96.3 million during the three months ended March 31, 2015 and 2014, respectively. During the three months ended March 31, 2015 and 2014, the related interest expense, excluding amortization of deferred loan fees, under our credit agreement was \$0.2 million and \$0.3 million, respectively, which represented weighted average interest rates of 1.3% and 1.3%, respectively.

Note 10. Accumulated Other Comprehensive Income (Loss)

The Company presents data in the Condensed Consolidated Statements of Changes in Shareholders' Equity in accordance with ASC 220 "Comprehensive Income" ("ASC 220"). ASC 220 establishes rules for the reporting of comprehensive income (loss) and its components. The components of accumulated other comprehensive income (loss) consist of the following (in thousands):

Except as discussed in Note 11, Income Taxes, earnings associated with the Company's investments in its foreign subsidiaries are considered to be indefinitely reinvested and no provision for income taxes on those earnings or translation adjustments have been provided.

Note 11. Income Taxes

The Company's effective tax rate was 27.1% and 30.7% for the three months ended March 31, 2015 and 2014, respectively. The decrease in the effective tax rate is due to several factors, including fluctuations in earnings among the various jurisdictions in which the Company operates, none of which are individually material. The difference between the Company's effective tax rate of 27.1% as compared to the U.S. statutory federal income tax rate of 35.0% was primarily due to the recognition of tax benefits resulting from foreign tax rate differentials, income earned in certain tax holiday jurisdictions, changes in uncertain tax positions, adjustments of valuation allowances and tax credits, partially offset by the tax impact of permanent differences and foreign withholding taxes.

The Company has accrued \$11.8 million and \$13.3 million as of March 31, 2015 and December 31, 2014, respectively, excluding penalties and interest, for the liability for unrecognized tax benefits. As of December 31, 2014, \$2.7 million of unrecognized tax benefits was recorded to "Deferred charges and other assets" in the accompanying Condensed Consolidated Balance Sheet in accordance with ASU 2013-11 "Income Taxes (Topic 740) – Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists". The \$11.8 million and the remaining \$10.6 million of the unrecognized tax benefits at March 31, 2015 and December 31, 2014, respectively, are recorded in "Long-term income tax liabilities" in the accompanying Condensed Consolidated Balance Sheets.

Earnings associated with the investments in the Company's foreign subsidiaries are considered to be indefinitely reinvested outside of the U.S. Therefore, a U.S. provision for income taxes on those earnings or translation adjustments has not been recorded, as permitted by criterion outlined in ASC 740 "Income Taxes." Determination of any unrecognized deferred tax liability for temporary differences related to investments in foreign subsidiaries that are essentially permanent in duration is not practicable due to the inherent complexity of the multi-national tax environment in which the Company operates.

Table of Contents

The Company is currently under audit in several tax jurisdictions. The Company received assessments for the Canadian 2003-2009 audit. Requests for Competent Authority Assistance were filed with both the Canadian Revenue Agency and the U.S. Internal Revenue Service and the Company paid mandatory security deposits to Canada as part of this process. The total amount of deposits, net of fluctuations in the foreign exchange rate, are \$14.7 million and \$15.9 million as of March 31, 2015 and December 31, 2014, respectively, and are included in “Deferred charges and other assets” in the accompanying Condensed Consolidated Balance Sheets. Although the outcome of examinations by taxing authorities is always uncertain, the Company believes it is adequately reserved for these audits and resolution is not expected to have a material impact on its financial condition and results of operations.

The significant tax jurisdictions currently under audit are as follows:

<u>Tax Jurisdiction</u>	<u>Tax Year Ended</u>
Canada	2003 to 2009
The Philippines	2010

Note 12. Earnings Per Share

Basic earnings per share are based on the weighted average number of common shares outstanding during the periods. Diluted earnings per share includes the weighted average number of common shares outstanding during the respective periods and the further dilutive effect, if any, from stock appreciation rights, restricted stock, restricted stock units and shares held in a rabbi trust using the treasury stock method.

The numbers of shares used in the earnings per share computation are as follows (in thousands):

	<u>Three Months Ended March 31,</u>	
	<u>2015</u>	<u>2014</u>
Basic:		
Weighted average common shares outstanding	42,181	42,739
Diluted:		
Dilutive effect of stock appreciation rights, restricted stock, restricted stock units and shares held in a rabbi trust	259	98
Total weighted average diluted shares outstanding	42,440	42,837
Anti-dilutive shares excluded from the diluted earnings per share calculation	21	74

On August 18, 2011, the Company’s Board of Directors (the “Board”) authorized the Company to purchase up to 5.0 million shares of its outstanding common stock (the “2011 Share Repurchase Program”). A total of 4.2 million shares have been repurchased under the 2011 Share Repurchase Program since inception. The shares are purchased, from time to time, through open market purchases or in negotiated private transactions, and the purchases are based on factors, including but not limited to, the stock price, management discretion and general market conditions. The 2011 Share Repurchase Program has no expiration date.

Table of Contents

The shares repurchased under the Company's share repurchase programs were as follows (in thousands, except per share amounts):

Note 13. Commitments and Loss Contingency

Commitments

During the three months ended March 31, 2015, the Company entered into several leases in the ordinary course of business. The following is a schedule of future minimum rental payments required under operating leases that have noncancelable lease terms as of March 31, 2015 (in thousands):

	<u>Amount</u>
2015 (remaining nine months)	\$ 171
2016	452
2017	452
2018	452
2019	452
2020	1,962
2021 and thereafter	12,869
Total minimum payments required	<u>\$16,810</u>

During the three months ended March 31, 2015, the Company entered into agreements with third-party vendors in the ordinary course of business whereby the Company committed to purchase goods and services used in its normal operations. These agreements, which are not cancelable, generally range from one to five year periods and contain fixed or minimum annual commitments. Certain of these agreements allow for renegotiation of the minimum annual commitments based on certain conditions. The following is a schedule of the future minimum purchases remaining under the agreements as of March 31, 2015 (in thousands):

	<u>Amount</u>
2015 (remaining nine months)	\$1,656
2016	787
2017	633
2018	—
2019	—
2020	—
2021 and thereafter	—
Total minimum payments required	<u>\$3,076</u>

Except as outlined above, there have not been any material changes to the outstanding contractual obligations from the disclosure in our Annual Report on Form 10-K for the year ended December 31, 2014.

Loss Contingency

The Company from time to time is involved in legal actions arising in the ordinary course of business. With respect to these matters, management believes that the Company has adequate legal defenses and/or when possible and appropriate, provided adequate accruals related to those matters such that the ultimate outcome will not have a material adverse effect on the Company's financial position or results of operations.

(2) Included in "Income taxes" in the accompanying Condensed Consolidated Statements of Operations.

(3) Included in "Additional paid-in capital" in the accompanying Condensed Consolidated Statements of Changes in Shareholders' Equity.

There were no capitalized stock-based compensation costs as of March 31, 2015 and December 31, 2014.

2011 Equity Incentive Plan — The Company's Board adopted the Sykes Enterprises, Incorporated 2011 Equity Incentive Plan (the "2011 Plan") on March 23, 2011, as amended on May 11, 2011 to reduce the number of shares of common stock available to 4.0 million shares. The 2011 Plan was approved by the shareholders at the May 2011 annual shareholders meeting. The 2011 Plan replaced and superseded the Company's 2001 Equity Incentive Plan (the "2001 Plan"), which expired on March 14, 2011. The outstanding awards granted under the 2001 Plan will remain in effect until their exercise, expiration or termination. The 2011 Plan permits the grant of restricted stock, stock appreciation rights, stock options and other stock-based awards to certain employees of the Company, members of the Company's Board of Directors and certain non-employees who provide services to the Company in order to encourage them to remain in the employment of, or to faithfully provide services to, the Company and to increase their interest in the Company's success.

Stock Appreciation Rights — The Board, at the recommendation of the Compensation and Human Resources Development Committee (the "Compensation Committee"), has approved in the past, and may approve in the future, awards of stock-settled stock appreciation rights ("SARs") for eligible participants. SARs represent the right to receive, without payment to the Company, a certain number of shares of common stock, as determined by the Compensation Committee, equal to the amount by which the fair market value of a share of common stock at the time of exercise exceeds the grant price. The SARs are granted at the fair market value of the Company's common stock on the date of the grant and vest one-third on each of the first three anniversaries of the date of grant, provided the participant is employed by the Company on such date. The SARs have a term of 10 years from the date of grant. The fair value of each SAR is estimated on the date of grant using the Black-Scholes valuation model that uses various assumptions.

The following table summarizes the assumptions used to estimate the fair value of SARs granted (none in 2015):

	Three Months Ended March 31,	
	2015	2014
Expected volatility	—	38.9%
Weighted-average volatility	—	38.9%
Expected dividend rate	—	0.0%

Forfeited or expired	—	\$ —
Nonvested at March 31, 2015	207	\$ 6.80

As of March 31, 2015, there was \$1.4 million of total unrecognized compensation cost, net of estimated forfeitures, related to nonvested SARs granted under the 2011 Plan. This cost is expected to be recognized over a weighted average period of 1.3 years.

Restricted Shares – The Board, at the recommendation of the Compensation Committee, has approved in the past, and may approve in the future, awards of performance and employment-based restricted shares (“restricted shares”) for eligible participants. In some instances, where the issuance of restricted shares has adverse tax consequences to the recipient, the Board may instead issue restricted stock units (“RSUs”). The restricted shares are shares of the Company’s common stock (or in the case of RSUs, represent an equivalent number of shares of the Company’s common stock) which are issued to the participant subject to (a) restrictions on transfer for a period of time and (b) forfeiture under certain conditions. The performance goals, including revenue growth and income from operations targets, provide a range of vesting possibilities from 0% to 100% and will be measured at the end of the performance period. If the performance conditions are met for the performance period, the shares will vest and all restrictions on the transfer of the restricted shares will lapse (or in the case of RSUs, an equivalent number of shares of the Company’s common stock will be issued to the recipient). The Company recognizes compensation cost, net of estimated forfeitures, based on the fair value (which approximates the current market price) of the restricted shares (and RSUs) on the date of grant ratably over the requisite service period based on the probability of achieving the performance goals.

Changes in the probability of achieving the performance goals from period to period will result in corresponding changes in compensation expense. The employment-based restricted shares currently outstanding vest one-third on each of the first three anniversaries of the date of grant, provided the participant is employed by the Company on such date.

Weighted average grant-date fair value per restricted share/RSTU	\$ —	\$ 19.77
Fair value of restricted shares/RSTUs vested	\$ 2,019	\$ 895

As of March 31, 2015, based on the probability of achieving the performance goals, there was \$9.1 million of total unrecognized compensation cost, net of estimated forfeitures, related to nonvested restricted shares/RSTUs granted under the 2011 Plan. This cost is expected to be recognized over a weighted average period of 1.5 years.

2004 Non-Employee Director Fee Plan — The Company’s 2004 Non-Employee Director Fee Plan (the “2004 Fee Plan”), as last amended on May 17, 2012, provided that all new non-employee directors joining the Board would receive an initial grant of shares of common stock on the date the new director is elected or appointed, the number of which will be determined by dividing \$60,000 by the closing price of the Company’s common stock on the trading day immediately preceding the date a new director is elected or appointed, rounded to the nearest whole number of shares. The initial grant of shares vested in twelve equal quarterly installments, one-twelfth on the date of grant and an additional one-twelfth on each successive third monthly anniversary of the date of grant. The award lapses with respect to all unvested shares in the event the non-employee director ceases to be a director of the Company, and any unvested shares are forfeited.

The 2004 Fee Plan also provided that each non-employee director would receive, on the day after the annual shareholders meeting, an annual retainer for service as a non-employee director (the “Annual Retainer”). Prior to May 17, 2012, the Annual Retainer was \$95,000, of which \$50,000 was payable in cash, and the remainder was paid in stock. The annual grant of cash vested in four equal quarterly installments, one-fourth on the day following the annual meeting of shareholders, and an additional one-fourth on each successive third monthly anniversary of the date of grant. The annual grant of shares paid to non-employee directors prior to May 17, 2012 vests in eight equal quarterly installments, one-eighth on the day following the annual meeting of shareholders, and an additional one-eighth on each successive third monthly anniversary of the date of grant. On May 17, 2012, upon the recommendation of the Compensation Committee, the Board adopted the Fifth Amended and Restated Non-Employee Director Fee Plan (the “Amendment”), which increased the common stock component of the Annual Retainer by \$30,000, resulting in a total Annual Retainer of \$125,000, of which \$50,000 was payable in cash and the remainder paid in stock. In addition, the Amendment also changed the vesting period for the annual equity award, from a two-year vesting period, to a one-year vesting period (consisting of four equal quarterly installments, one-fourth on the date of grant and an additional one-fourth on each successive third monthly anniversary of the date of grant). The award lapses with respect to all unpaid cash and unvested shares in the event the non-employee director ceases to be a director of the Company, and any unvested shares and unpaid cash are forfeited.

In addition to the Annual Retainer award, the 2004 Fee Plan also provided for any non-employee Chairman of the Board to receive an additional annual cash award of \$100,000, and each non-employee director serving on a committee of the Board to receive an additional annual cash award. The additional annual cash award for the Chairperson of the Audit Committee is \$20,000 and Audit Committee members’ are entitled to an annual cash

Table of Contents

award of \$10,000. Prior to May 20, 2011, the annual cash awards for the Chairpersons of the Compensation Committee, Finance Committee and Nominating and Corporate Governance Committee were \$12,500 and the members of such committees were entitled to an annual cash award of \$7,500. On May 20, 2011, the Board increased the additional annual cash award to the Chairperson of the Compensation Committee to \$15,000. All other additional cash awards remained unchanged.

The 2004 Fee Plan expired in May 2014, prior to the 2014 Annual Shareholder Meeting. In March 2014, upon the recommendation of the Compensation Committee, the Board determined that, following the expiration of the 2004 Fee Plan, the compensation of non-employee Directors should continue on the same terms as provided in the Fifth Amended and Restated Non-Employee Director Fee Plan, and that the stock portion of such compensation would be issued under the 2011 Plan.

At the Board's regularly scheduled meeting on December 9, 2014, upon the recommendation of the Compensation Committee, the Board determined that the amount of the cash and equity compensation payable to non-employee directors beginning on the date of the 2015 annual shareholder meeting would be increased as follows: cash compensation would be increased by \$5,000 per year to a total of \$55,000 and equity compensation would be increased by \$25,000 per year to a total of \$100,000. No change would be made in the additional amounts payable to the Chairman of the Board or the Chairs or members of the various Board committees for their service on such committees, and no changes would be made in the payment terms described above for such cash and equity compensation.

The Board may pay additional cash compensation to any non-employee director for services on behalf of the Board over and above those typically expected of directors, including but not limited to service on a special committee of the Board.

The following table summarizes nonvested common stock share award activity as of March 31, 2015 and for the three months then ended:

As of March 31, 2015, there was \$0.1 million of total unrecognized compensation cost, net of estimated forfeitures, related to nonvested common stock share awards granted under the 2004 Fee Plan. This cost is expected to be recognized over a weighted average period of 1.1 years.

Deferred Compensation Plan — The Company's non-qualified Deferred Compensation Plan (the "Deferred Compensation Plan"), which is not shareholder-approved, was adopted by the Board effective December 17, 1998. It was amended and restated on August 20, 2014, effective as of January 1, 2014. It provides certain eligible employees the ability to defer any portion of their compensation until the participant's retirement, termination, disability or death, or a change in control of the Company. Using the Company's common stock, the Company matches 50% of the amounts deferred by certain senior management participants on a quarterly basis up to a total of \$12,000 per year for the president, chief executive officer and executive vice presidents and \$7,500 per year for senior vice presidents, global vice presidents and vice presidents (participants below the level of vice president are

not eligible to receive matching contributions from the Company). Matching contributions and the associated earnings vest over a seven year service period. Deferred compensation amounts used to pay benefits, which are held in a rabbi trust, include investments in various mutual funds and shares of the Company's common stock (see Note 6, Investments Held in Rabbi Trust). As of March 31, 2015 and December 31, 2014, liabilities of \$7.6 million and \$7.0 million, respectively, of the Deferred Compensation Plan were recorded in "Accrued employee compensation and benefits" in the accompanying Condensed Consolidated Balance Sheets.

Additionally, the Company's common stock match associated with the Deferred Compensation Plan, with a carrying value of approximately \$1.6 million and \$1.5 million at March 31, 2015 and December 31, 2014, respectively, is included in "Treasury stock" in the accompanying Condensed Consolidated Balance Sheets.

The following table summarizes nonvested common stock activity as of March 31, 2015 and for the three months then ended:

Note 16. Segments and Geographic Information

The Company operates within two regions, the Americas and EMEA. Each region represents a reportable segment comprised of aggregated regional operating segments, which portray similar economic characteristics. The Company aligns its business into two segments to effectively manage the business and support the customer care needs of every client and to respond to the demands of the Company's global customers.

The reportable segments consist of (1) the Americas, which includes the United States, Canada, Latin America, Australia and the Asia Pacific Rim, and provides outsourced customer contact management solutions (with an emphasis on technical support and customer service) and technical staffing and (2) EMEA, which includes Europe, the Middle East and Africa, and provides outsourced customer contact management solutions (with an emphasis on technical support and customer service) and fulfillment services. The sites within Latin America, Australia and the Asia Pacific Rim are included in the Americas segment given the nature of the business and client profile, which is primarily made up of U.S.-based companies that are using the Company's services in these locations to support their customer contact management needs.

Note 18. Related Party Transactions

In January 2008, the Company entered into a lease for a customer contact management center located in Kingstree, South Carolina. The landlord, Kingstree Office One, LLC, is an entity controlled by John H. Sykes, the founder, former Chairman and Chief Executive Officer of the Company and the father of Charles Sykes, President and Chief Executive Officer of the Company. The lease payments on the 20-year lease were negotiated at or below market rates, and the lease is cancellable at the option of the Company. There are significant penalties for early cancellation which decrease over time. The Company paid \$0.1 million to the landlord during both the three months ended March 31, 2015 and 2014 under the terms of the lease.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of
Sykes Enterprises, Incorporated
400 North Ashley Drive
Tampa, Florida

We have reviewed the accompanying condensed consolidated balance sheet of Sykes Enterprises, Incorporated and subsidiaries (the “Company”) as of March 31, 2015, and the related condensed consolidated statements of operations and comprehensive income for the three-month periods ended March 31, 2015 and 2014, of changes in shareholders’ equity for the three-month period ended March 31, 2015, and of cash flows for the three-month periods ended March 31, 2015 and 2014. These interim financial statements are the responsibility of the Company’s management.

We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to such condensed consolidated interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of Sykes Enterprises, Incorporated and subsidiaries as of December 31, 2014, and the related consolidated statements of operations, comprehensive income, shareholders’ equity, and cash flows for the year then ended (not presented herein); and in our report dated February 19, 2015, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of December 31, 2014 is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This discussion should be read in conjunction with the condensed consolidated financial statements and notes included elsewhere in this report and the consolidated financial statements and notes in the Sykes Enterprises, Incorporated ("SYKES," "our," "we" or "us") Annual Report on Form 10-K for the year ended December 31, 2014, as filed with the Securities and Exchange Commission ("SEC").

Our discussion and analysis may contain forward-looking statements (within the meaning of the Private Securities Litigation Reform Act of 1995) that are based on current expectations, estimates, forecasts, and projections about SYKES, our beliefs, and assumptions made by us. In addition, we may make other written or oral statements, which constitute forward-looking statements, from time to time. Words such as "believe," "estimate," "project," "expect," "intend," "may," "anticipate," "plan," "seek," variations of such words, and similar expressions are intended to identify such forward-looking statements. Similarly, statements that describe our future plans, objectives, or goals also are forward-looking statements. These statements are not guarantees of future performance and are subject to a number of risks and uncertainties, including those discussed below and elsewhere in this report. Our actual results may differ materially from what is expressed or forecasted in such forward-looking statements, and undue reliance should not be placed on such statements. All forward-looking statements are made as of the date hereof, and we undertake no obligation to update any such forward-looking statements, whether as a result of new information, future events or otherwise.

Factors that could cause actual results to differ materially from what is expressed or forecasted in such forward-looking statements include, but are not limited to: (i) the impact of economic recessions in the U.S. and other parts of the world, (ii) fluctuations in global business conditions and the global economy, (iii) currency fluctuations, (iv) the timing of significant orders for our products and services, (v) variations in the terms and the elements of services offered under our standardized contract including those for future bundled service offerings, (vi) changes in applicable accounting principles or interpretations of such principles, (vii) difficulties or delays in implementing our bundled service offerings, (viii) failure to achieve sales, marketing and other objectives, (ix) construction delays of new or expansion of existing customer contact management centers, (x) delays in our ability to develop new products and services and market acceptance of new products and services, (xi) rapid technological change, (xii) loss or addition of significant clients, (xiii) political and country-specific risks inherent in conducting business abroad, (xiv) our ability to attract and retain key management personnel, (xv) our ability to continue the growth of our support service revenues through additional technical and customer contact management centers, (xvi) our ability to further penetrate into vertically integrated markets, (xvii) our ability to expand our global presence through strategic alliances and selective acquisitions, (xviii) our ability to continue to establish a competitive advantage through sophisticated technological capabilities, (xix) the ultimate outcome of any lawsuits, (xx) our ability to recognize deferred revenue through delivery of products or satisfactory performance of services, (xxi) our dependence on trend toward outsourcing, (xxii) risk of interruption of technical and customer contact management center operations due to such factors as fire, earthquakes, inclement weather and other disasters, power failures, telecommunication failures, unauthorized intrusions, computer viruses and other emergencies, (xxiii) the existence of substantial competition, (xxiv) the early termination of contracts by clients, (xxv) the ability to obtain and maintain grants and other incentives (tax or otherwise), (xxvi) the potential of cost savings/synergies associated with acquisitions not being realized, or not being realized within the anticipated time period, (xxvii) risks related to the integration of the acquisitions and the impairment of any related goodwill, and (xxviii) other risk factors which are identified in our most recent Annual Report on Form 10-K, including factors identified under the headings "Business," "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations."

Executive Summary

We provide comprehensive customer contact management solutions and services to a wide range of clients including Fortune 1000 companies, medium-sized businesses and public institutions around the world, primarily in the communications, financial services, technology/consumer, transportation and leisure and healthcare industries. We serve our clients through two geographic operating regions: the Americas (United States, Canada, Latin America, Australia and the Asia Pacific Rim) and EMEA (Europe, the Middle East and Africa). Our Americas and EMEA groups primarily provide customer contact management services (with an emphasis on inbound technical support and customer service), which include customer assistance, healthcare and roadside assistance, technical support and product sales to our clients' customers. These services, which represented 98.6% and 98.2% of consolidated revenues during the three months ended March 31, 2015 and 2014, respectively, are delivered through multiple communication channels encompassing phone, e-mail, social media, text messaging and chat. We also provide

various enterprise support services in the United States (“U.S.”) that include services for our client’s internal support operations, from technical staffing services to outsourced corporate help desk services. In Europe, we also provide fulfillment services including order processing, payment processing, inventory control, product delivery, and product returns handling. Our complete service offering helps our clients acquire, retain and increase the lifetime value of their customer relationships. We have developed an extensive global reach with customer contact management centers throughout the United States, Canada, Europe, Latin America, Australia, the Asia Pacific Rim and Africa.

Consolidated revenues decreased \$0.7 million, or (0.2)%, for the three months ended March 31, 2015 from the comparable period in 2014.

The increase in Americas' revenues was due to higher volumes from existing clients of \$27.8 million and new clients of \$3.2 million, partially offset by end-of-life client programs of \$24.5 million and a negative foreign currency impact of \$3.6 million. Revenues from our offshore operations represented 42.2% of Americas' revenues, compared to 36.8% for the comparable period in 2014.

The decrease in EMEA's revenues was due to a negative foreign currency impact of \$12.5 million and end-of-life client programs of \$0.6 million, partially offset by higher volumes from existing clients of \$7.6 million and new clients of \$1.9 million.

On a consolidated basis, we had 39,900 brick-and-mortar seats as of March 31, 2015, a decrease of 1,300 seats from the comparable period in 2014. This decrease in seats was primarily due to on-going capacity rationalization. The capacity utilization rate on a combined basis was 80% compared to 76% in the comparable period in 2014. This increase was primarily due to capacity rationalization and higher demand.

On a geographic segment basis, 33,200 seats were located in the Americas, a decrease of 1,800 seats from the comparable period in 2014, and 6,700 seats were located in EMEA, an increase of 500 seats from the comparable period in 2014. Capacity utilization rates as of March 31, 2015 were 78% for the Americas and 88% for EMEA, compared to 74% and 85%, respectively, in the comparable period in 2014, primarily due to capacity rationalization and higher demand. We strive to attain an 85% capacity utilization metric at each of our locations.

We plan to add approximately 1,700 seats on a gross basis in 2015 to support certain client program expansions. Approximately 400 seats were added during the three months ended March 31, 2015, with more than three-quarters of the gross seat additions to be added in or around the first half of 2015. Total seat count on a net basis for the full year, however, is expected to remain unchanged as we continue to rationalize excess capacity.

The decrease of \$7.7 million in direct salaries and related costs included a positive foreign currency impact of \$5.6 million in the Americas and a positive foreign currency impact of \$9.0 million in EMEA.

The decrease in Americas' direct salaries and related costs, as a percentage of revenues, was primarily attributable to lower compensation costs of 2.2% driven by the increase in new client program ramp up costs in the prior period in the communications vertical, and lower communication costs of 0.2%.

The decrease in EMEA's direct salaries and related costs, as a percentage of revenues, was primarily attributable to lower compensation costs of 1.3% driven by the increase in new and existing client program ramp up costs in the prior period in the communications vertical, and lower billable supply costs of 1.0%, partially offset by higher fulfillment materials costs of 0.6%, higher communication costs of 0.6% and higher other costs of 0.2%.

Consolidated	<u>\$72,727</u>	<u>22.5%</u>	<u>\$73,377</u>	<u>22.6%</u>	<u>\$(650)</u>	<u>-0.1%</u>

The decrease of \$0.7 million in general and administrative expenses included a positive foreign currency impact of \$1.1 million in the Americas and a positive foreign currency impact of \$2.4 million in EMEA.

The decrease in Americas' general and administrative expenses, as a percentage of revenues, was primarily attributable to lower facility-related costs of 0.4%, lower other taxes of 0.3% and lower compensation costs of 0.2%.

The decrease in EMEA's general and administrative expenses, as a percentage of revenues, was primarily attributable to lower compensation costs of 0.6%, lower communication costs of 0.3% and lower other costs of 0.1%.

The increase of \$2.4 million in Other general and administrative expenses, which includes corporate and other costs, was primarily attributable to higher compensation costs of \$1.7 million, higher legal and professional fees of \$0.4 million and higher consulting costs of \$0.3 million.

Client Concentration

Our top ten clients accounted for approximately 49.8% and 46.6% of our consolidated revenues in the three months ended March 31, 2015 and 2014, respectively.

Total revenues by segment from AT&T Corporation (“AT&T”), a major provider of communication services for which we provide various customer support services over several distinct lines of AT&T businesses, were as follows (in thousands):

	Three Months Ended March 31,			
	2015		2014	
	Amount	% of Revenues	Amount	% of Revenues
Americas	\$60,023	22.7%	\$47,899	18.3%
EMEA	750	1.3%	897	1.4%
	<u>\$60,773</u>	<u>18.8%</u>	<u>\$48,796</u>	<u>15.0%</u>

We have multiple distinct contracts with AT&T spread across multiple lines of businesses, which expire at varying dates between 2015 and 2017. We have historically renewed most of these contracts. However, there is no assurance that these contracts will be renewed, or if renewed, will be on terms as favorable as the existing contracts. Each line of business is governed by separate business terms, conditions and metrics. Each line of business also has a separate decision maker such that a loss of one line of business would not necessarily impact our relationship with the client and decision makers on other lines of business. The loss of (or the failure to retain a significant amount of business with) any of our key clients, including AT&T, could have a material adverse effect on our performance. Many of our contracts contain penalty provisions for failure to meet minimum service levels and are cancelable by the client at any time or on short notice. Also, clients may unilaterally reduce their use of our services under our contracts without penalty.

Total revenues by segment from our next largest client, which was in the financial services vertical in each of the periods, were as follows (in thousands):

	Three Months Ended March 31,			
	2015		2014	
	Amount	% of Revenues	Amount	% of Revenues

	<u>\$14,794</u>	<u>4.6%</u>	<u>\$18,975</u>	<u>5.8%</u>

Other than AT&T, total revenues by segment of our clients that each individually represents 10% or greater of that segment’s revenues in each of the periods were as follows (in thousands):

	Three Months Ended March 31,			
	2015		2014

Business Outlook

For the three months ended June 30, 2015, we anticipate the following financial results:

- Revenues in the range of \$300.0 million to \$305.0 million;
- Effective tax rate of approximately 27.0%;
- Fully diluted share count of approximately 42.4 million;
- Diluted earnings per share in the range of \$0.18 to \$0.21; and
- Capital expenditures in the range of \$17.0 million to \$20.0 million

For the twelve months ended December 31, 2015, we anticipate the following financial results:

- Revenues in the range of \$1,270.0 million to \$1,285.0 million;
- Effective tax rate of approximately 26.0%;
- Fully diluted share count of approximately 42.8 million;
- Diluted earnings per share in the range of \$1.32 to \$1.40; and
- Capital expenditures in the range of \$50.0 million to \$55.0 million

We are fine tuning our full-year 2015 diluted earnings per share and revenues outlook due to on-going foreign exchange volatility and somewhat lower demand forecasted from a handful of existing clients within the communications vertical. Since the initial full-year 2015 business outlook, which was disclosed in our Annual Report on Form 10-K for the year ended December 31, 2014, the functional currencies of our various international operations have weakened further relative to the U.S. Dollar. This further weakening is expected to impact 2015 revenues by an incremental \$17.0 million, above the initial \$50.0 million in foreign exchange impact forecasted in our initial full-year 2015 business outlook. In addition to the foreign exchange impact, a handful of clients have forecasted lower volumes for the remainder of the year due in large part to more muted competitive dynamics expected in the industry, which is also impacting revenues by approximately \$20.0 million.

Our revenues and earnings per share assumptions for the second quarter and full-year 2015 are based on foreign exchange rates as of April 2015. Therefore, the continued volatility in foreign exchange rates between the U.S. dollar and the functional currencies of the markets we serve could have a further impact, positive or negative, on revenues and earnings per share relative to the business outlook for the second quarter and full-year as disclosed above.

We anticipate a slightly lower effective tax rate for full-year 2015 relative to initial expectations, driven chiefly by a shift in the geographic mix of earnings to lower tax rate jurisdictions.

Not included in this guidance is the impact of any future acquisitions, share repurchase activities or a potential sale of previously exited customer contact management centers.

Liquidity and Capital Resources

Our primary sources of liquidity are generally cash flows generated by operating activities and from available borrowings under our revolving credit facility. We utilize these capital resources to make capital expenditures associated primarily with our customer contact management services, invest in technology applications and tools to further develop our service offerings and for working capital and other general corporate purposes, including repurchase of our common stock in the open market and to fund acquisitions. In future periods, we intend similar uses of these funds.

On August 18, 2011, the Board authorized us to purchase up to 5.0 million shares of our outstanding common stock (the “2011 Share Repurchase Program”). A total of 4.2 million shares have been repurchased under the 2011 Share Repurchase Program since inception. The shares are purchased, from time to time, through open market purchases or in negotiated private transactions, and the purchases are based on factors, including but not limited to, the stock price, management discretion and general market conditions. The 2011 Share Repurchase Program has no expiration date.

The shares repurchased under our share repurchase program were as follows (in thousands, except per share amounts):

	Total Number of Shares Repurchased	Range of Prices Paid Per Share		Total Cost of Shares Repurchased
		Low	High	
Three Months Ended:				
March 31, 2015	221	\$ 22.81	\$ 23.46	\$ 5,136
March 31, 2014	130	\$ 19.92	\$ 19.98	\$ 2,605

During the three months ended March 31, 2015, cash increased \$28.6 million from operating activities and \$0.2 million from excess tax benefits from stock-based compensation. The increase in cash was offset by \$10.9 million used for capital expenditures, \$1.0 million to repay long-term debt, \$5.1 million to repurchase common stock and \$1.1 million to repurchase common stock for minimum tax withholding on equity awards, resulting in a \$1.1 million decrease in available cash (including the unfavorable effects of foreign currency exchange rates on cash and cash equivalents of \$11.8 million).

Net cash flows provided by operating activities for the three months ended March 31, 2015 were \$28.6 million, compared to \$16.2 million for the comparable period in 2014. The \$12.4 million increase in net cash flows from operating activities was due to a \$5.3 million increase in net income and a net increase of \$8.1 million in cash flows from assets and liabilities, partially offset by a \$1.0 million decrease in non-cash reconciling items such as

Table of Contents

depreciation, amortization, unrealized foreign currency transaction (gains) losses and deferred income taxes. The \$8.1 million increase in 2015 from 2014 in cash flows from assets and liabilities was principally a result of a \$15.8 million decrease in accounts receivable, a \$1.6 million increase in taxes payable and a \$7.3 million increase in other liabilities, partially offset by a \$12.1 million increase in other assets and a \$4.5 million decrease in deferred revenue. The \$15.8 million decrease in the change in accounts receivable was primarily due to lower volumes within certain clients as well as the timing of billings and collections in the three months ended March 31, 2015 over the comparable period in 2014. The \$12.1 million increase in other assets was primarily due to a change in the net investment hedge of \$6.3 million and a change in deferred tax assets of \$6.8 million in the three months ended March 31, 2015 over the comparable period in 2014.

Capital expenditures, which are generally funded by cash generated from operating activities, available cash balances and borrowings available under our credit facilities, were \$10.9 million for the three months ended March 31, 2015, compared to \$11.7 million for the comparable period in 2014, a decrease of \$0.8 million. In 2015, we anticipate capital expenditures in the range of \$50.0 million to \$55.0 million, primarily for new seat additions, Enterprise Resource Planning upgrades, facility upgrades, maintenance and systems infrastructure.

On May 3, 2012, we entered into a \$245 million revolving credit facility (the “2012 Credit Agreement”) with a group of lenders and KeyBank National Association, as Lead Arranger, Sole Book Runner and Administrative Agent (“KeyBank”). The 2012 Credit Agreement replaced our previous \$75 million revolving credit facility dated February 2, 2010, as amended, which agreement was terminated simultaneous with entering into the 2012 Credit Agreement. The 2012 Credit Agreement is subject to certain borrowing limitations and includes certain customary financial and restrictive covenants. At March 31, 2015, we were in compliance with all loan requirements of the 2012 Credit Agreement and had \$74.0 million and \$75.0 million of outstanding borrowings under this facility as of March 31, 2015 and December 31, 2014, respectively, with an average daily utilization of \$74.3 million and \$96.3 million for the three months ended March 31, 2015 and 2014, respectively. During the three months ended March 31, 2015 and 2014, the related interest expense, excluding amortization of deferred loan fees, under the 2012 Credit Agreement was \$0.2 million and \$0.3 million, respectively, which represented weighted average interest rates of 1.3% and 1.3%, respectively.

The 2012 Credit Agreement includes a \$184 million alternate-currency sub-facility, a \$10 million swingline sub-facility and a \$35 million letter of credit sub-facility, and may be used for general corporate purposes including acquisitions, share repurchases, working capital support and letters of credit, subject to certain limitations. We are not currently aware of any inability of our lenders to provide access to the full commitment of funds that exist under the 2012 Credit Agreement, if necessary. However, there can be no assurance that such facility will be available to us, even though it is a binding commitment of the financial institutions. The 2012 Credit Agreement will mature on May 2, 2017.

Borrowings under the 2012 Credit Agreement will bear interest at the rates set forth in the Credit Agreement. In addition, we are required to pay certain customary fees, including a commitment fee of 0.175%, which is due quarterly in arrears and calculated on the average unused amount of the 2012 Credit Agreement.

The 2012 Credit Agreement is guaranteed by all of our existing and future direct and indirect material U.S. subsidiaries and secured by a pledge of 100% of the non-voting and 65% of the voting capital stock of all of our direct foreign subsidiaries and those of the guarantors.

We are currently under audit in several tax jurisdictions. We received assessments for the Canadian 2003-2009 audit. Requests for Competent Authority Assistance were filed with both the Canadian Revenue Agency and the U.S. Internal Revenue Service and we paid mandatory security deposits to Canada as part of this process. The total amount of deposits, net of fluctuations in the foreign exchange rate, are \$14.7 million and \$15.9 million as of March 31, 2015 and December 31, 2014, respectively, and are included in “Deferred charges and other assets” in the accompanying Condensed Consolidated Balance Sheets. Although the outcome of examinations by taxing authorities is always uncertain, we believe we are adequately reserved for these audits and resolution is not expected to have a material impact on our financial condition and results of operations.

As of March 31, 2015, we had \$214.1 million in cash and cash equivalents, of which approximately 90.9%, or \$194.5 million, was held in international operations and is deemed to be indefinitely reinvested offshore. These funds may be subject to additional taxes if repatriated to the United States, including withholding tax applied by the country of origin and an incremental U.S. income tax, net of allowable foreign tax credits. There are circumstances where we may be unable to repatriate some of the cash and cash equivalents held by our international operations due

Table of Contents

to country restrictions. We do not intend nor currently foresee a need to repatriate these funds. We expect our current domestic cash levels and cash flows from operations to be adequate to meet our domestic anticipated working capital needs, including investment activities such as capital expenditures and debt repayment for the next twelve months and the foreseeable future. However, from time to time, we may borrow funds under our 2012 Credit Agreement as a result of the timing of our working capital needs, including capital expenditures. Additionally, we expect our current foreign cash levels and cash flows from foreign operations to be adequate to meet our foreign anticipated working capital needs, including investment activities such as capital expenditures for the next twelve months and the foreseeable future.

If we should require more cash in the U.S. than is provided by our domestic operations for significant discretionary unforeseen activities such as acquisitions of businesses and share repurchases, we could elect to repatriate future foreign earnings and/or raise capital in the U.S through additional borrowings or debt/equity issuances. These alternatives could result in higher effective tax rates, interest expense and/or dilution of earnings. We have borrowed funds domestically and continue to have the ability to borrow additional funds domestically at reasonable interest rates.

Our cash resources could also be affected by various risks and uncertainties, including but not limited to, the risks described in our Annual Report on Form 10-K for the year ended December 31, 2014.

Off-Balance Sheet Arrangements and Other

As of March 31, 2015, we did not have any material commercial commitments, including guarantees or standby repurchase obligations, or any relationships with unconsolidated entities or financial partnerships, including entities often referred to as structured finance or special purpose entities or variable interest entities, which would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes.

From time to time, during the normal course of business, we may make certain indemnities, commitments and guarantees under which we may be required to make payments in relation to certain transactions. These include, but are not limited to: (i) indemnities to clients, vendors and service providers pertaining to claims based on negligence or willful misconduct and (ii) indemnities involving breach of contract, the accuracy of representations and warranties, or other liabilities assumed by us in certain contracts. In addition, we have agreements whereby we will indemnify certain officers and directors for certain events or occurrences while the officer or director is, or was, serving at our request in such capacity. The indemnification period covers all pertinent events and occurrences during the officer's or director's lifetime. The maximum potential amount of future payments we could be required to make under these indemnification agreements is unlimited; however, we have director and officer insurance coverage that limits our exposure and enables us to recover a portion of any future amounts paid. We believe the applicable insurance coverage is generally adequate to cover any estimated potential liability under these indemnification agreements. The majority of these indemnities, commitments and guarantees do not provide for any limitation of the maximum potential for future payments we could be obligated to make. We have not recorded any liability for these indemnities, commitments and other guarantees in the accompanying Condensed Consolidated Balance Sheets. In addition, we have some client contracts that do not contain contractual provisions for the limitation of liability, and other client contracts that contain agreed upon exceptions to limitation of liability. We have not recorded any liability in the accompanying Condensed Consolidated Balance Sheets with respect to any client contracts under which we have or may have unlimited liability.

Table of Contents

Contractual Obligations

The following table summarizes the material changes to our contractual cash obligations as of March 31, 2015, and the effect these obligations are expected to have on liquidity and cash flow in future periods (in thousands):

	Payments Due By Period					
	Total	Less Than 1 Year	1 - 3 Years	3 - 5 Years	After 5 Years	Other
Operating leases ⁽¹⁾	\$ 16,810	\$ 171	\$ 904	\$ 904	\$ 14,831	\$ —
Purchase obligations ⁽²⁾	3,076	1,656	1,420	—	—	—
	<u>\$ 19,886</u>	<u>\$ 1,827</u>	<u>\$ 2,324</u>	<u>\$ 904</u>	<u>\$ 14,831</u>	<u>\$ —</u>

(1) Amounts represent the expected cash payments under our operating leases.

(2) Amounts represent the expected cash payments under our purchase obligations, which include agreements to purchase goods or services that are enforceable and legally binding on us and that specify all significant terms, including: fixed or minimum quantities to be purchased; fixed, minimum or variable price provisions; and the approximate timing of the transaction. Purchase obligations exclude agreements that are cancelable without penalty.

Except for the contractual obligations mentioned above, there have not been any material changes to the outstanding contractual obligations from the disclosure in our Annual Report on Form 10-K as of and for the year ended December 31, 2014 filed on February 19, 2015.

Critical Accounting Estimates

See “Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our Annual Report and Form 10-K for the year ended December 31, 2013 filed on February 19, 2015 for a discussion of our critical accounting estimates.

There have been no material changes to our critical accounting estimates in 2015.

New Accounting Standards Not Yet Adopted

In May 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2014-09 “*Revenue from Contracts with Customers (Topic 606)*” (“ASU 2014-09”). The amendments in ASU 2014-09 outline a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and indicate that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. To achieve this, an entity should identify the contract(s) with a customer, identify the performance obligations in the contract, determine the transaction price, allocate the transaction price to the performance obligations in the contract and recognize revenue when (or as) the entity satisfies a performance obligation. The amendments are effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. We are currently evaluating the impact that the adoption of ASU 2014-09 may have on our financial condition, results of operations and cash flows.

In June 2014, the FASB issued ASU 2014-12 “*Compensation – Stock Compensation (Topic 718) Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period*” (“ASU 2014-12”). The amendments in ASU 2014-12 require that a performance target that affects vesting and that could be achieved after the requisite service period be treated as a performance condition. A reporting entity should apply existing guidance in Accounting Standards Codification Topic 718, “*Compensation — Stock Compensation*” (“ASC 718”), as it relates to awards with performance conditions that affect vesting to account for such awards. The amendments are effective for annual periods and interim periods within those annual periods beginning after December 15, 2015. We do not expect the adoption of ASU 2014-12 to materially impact our financial condition, results of operations and cash flows.

In January 2015, the FASB issued ASU 2015-01 “*Income Statement – Extraordinary and Unusual Items (Subtopic 225-20) Simplifying Income Statement Presentation by Eliminating the Concept of Extraordinary Items*” (“ASU 2015-01”). These amendments eliminate from U.S. GAAP the concept of extraordinary items as part of the FASB’s initiative to reduce complexity in accounting standards. These amendments are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015. We do not expect the adoption of ASU 2015-01 to materially impact our financial condition, results of operations and cash flows.

Table of Contents

In February 2015, the FASB issued ASU 2015-02 “ *Consolidation (Topic 810) Amendments to the Consolidation Analysis*) ” (“ASU 2015-02”). These amendments are intended to improve targeted areas of the consolidation guidance for legal entities such as limited partnerships, limited liability corporations and securitization structures. These amendments affect the consolidation evaluation for reporting organizations. In addition, the amendments in this guidance simplify and improve current U.S. GAAP by reducing the number of consolidation models. These amendments are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015. We do not expect the adoption of ASU 2015-02 to materially impact our financial condition, results of operations and cash flows.

In April 2015, the FASB issued ASU 2015-03 “ *Interest – Imputation of Interest (Subtopic 835-30) Simplifying the Presentation of Debt Issuance Costs*” (“ASU 2015-03”). These amendments require that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. These amendments are effective for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. We do not expect the adoption of ASU 2015-03 to materially impact our financial condition, results of operations and cash flows.

In April 2015, the FASB issued ASU 2015-05 “ *Intangibles – Goodwill and Other – Internal-Use Software (Subtopic 350-40) Customer’s Accounting for Fees Paid in a Cloud Computing Arrangement*” (“ASU 2015-05”). These amendments provide guidance to customers about whether a cloud computing arrangement includes a software license. If a cloud computing arrangement includes a software license, the customer should account for the software license element of the arrangement consistent with the acquisition of other software licenses. If a cloud computing arrangement does not include a software license, the customer should account for the arrangement as a service contract. The new guidance does not change the accounting for a customer’s accounting for service contracts. These amendments are effective for annual periods, including interim periods within those annual periods, beginning after December 15, 2015. We do not expect the adoption of ASU 2015-05 to materially impact our financial condition, results of operations and cash flows.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Foreign Currency Risk

Our earnings and cash flows are subject to fluctuations due to changes in currency exchange rates. We are exposed to foreign currency exchange rate fluctuations when subsidiaries with functional currencies other than the U.S. Dollar (“USD”) are translated into our USD consolidated financial statements. As exchange rates vary, those results, when translated, may vary from expectations and adversely impact profitability. The cumulative translation effects for subsidiaries using functional currencies other than USD are included in “Accumulated other comprehensive income (loss)” in shareholders’ equity. Movements in non-USD currency exchange rates may negatively or positively affect our competitive position, as exchange rate changes may affect business practices and/or pricing strategies of non-U.S. based competitors.

We employ a foreign currency risk management program that periodically utilizes derivative instruments to protect against unanticipated fluctuations in certain earnings and cash flows caused by volatility in foreign currency exchange (“FX”) rates. We also utilize derivative contracts to hedge intercompany receivables and payables that are denominated in a foreign currency and to hedge net investments in foreign operations.

We serve a number of U.S.-based clients using customer contact management center capacity in The Philippines and Costa Rica, which are within our Americas segment. Although the contracts with these clients are priced in USDs, a substantial portion of the costs incurred to render services under these contracts are denominated in Philippine Pesos (“PHP”) and Costa Rican Colones (“CRC”), which represent FX exposures. Additionally, our EMEA segment services clients in Hungary and Romania where the contracts are priced in Euros (“EUR”), with a substantial portion of the costs incurred to render services under these contracts denominated in Hungarian Forints (“HUF”) and Romanian Leis (“RON”).

In order to hedge a portion of our anticipated cash flow requirements denominated in PHP, CRC, HUF and RON, we had outstanding forward contracts and options as of March 31, 2015 with counterparties through February 2016 with notional amounts totaling \$152.8 million. As of March 31, 2015, we had net total derivative assets associated with these contracts with a fair value of \$2.2 million, which will settle within the next 11 months. If the USD was to weaken against the PHP and CRC and the EUR was to weaken against the HUF and RON by 10% from current period-end levels, we would incur a loss of approximately \$12.8 million on the underlying exposures of the derivative instruments. However, this loss would be mitigated by corresponding gains on the underlying exposures.

Table of Contents

We entered into forward exchange contracts with notional amounts totaling \$63.5 million to hedge net investments in our foreign operations. The purpose of these derivative instruments is to protect against the risk that the net assets of certain foreign subsidiaries will be adversely affected by changes in exchange rates and economic exposures related to our foreign currency-based investments in these subsidiaries. As of March 31, 2015, the fair value of these derivatives was a net asset of \$10.4 million. The potential loss in fair value at March 31, 2015, for these contracts resulting from a hypothetical 10% adverse change in the foreign currency exchange rates is approximately \$5.3 million. However, this loss would be mitigated by corresponding gains on the underlying exposures.

We also entered into forward exchange contracts with notional amounts totaling \$55.0 million that are not designated as hedges. The purpose of these derivative instruments is to protect against FX volatility pertaining to intercompany receivables and payables, and other assets and liabilities that are denominated in currencies other than our subsidiaries' functional currencies. As of March 31, 2015, the fair value of these derivatives was a net liability of \$0.2 million. The potential loss in fair value at March 31, 2015, for these contracts resulting from a hypothetical 10% adverse change in the foreign currency exchange rates is approximately \$4.4 million. However, this loss would be mitigated by corresponding gains on the underlying exposures.

We evaluate the credit quality of potential counterparties to derivative transactions and only enter into contracts with those considered to have minimal credit risk. We periodically monitor changes to counterparty credit quality as well as our concentration of credit exposure to individual counterparties.

We do not use derivative financial instruments for speculative trading purposes, nor do we hedge our foreign currency exposure in a manner that entirely offsets the effects of changes in foreign exchange rates.

As a general rule, we do not use financial instruments to hedge local currency denominated operating expenses in countries where a natural hedge exists. For example, in many countries, revenue from the local currency services substantially offsets the local currency denominated operating expenses.

Interest Rate Risk

Our exposure to interest rate risk results from variable debt outstanding under our revolving credit facility. We pay interest on outstanding borrowings at interest rates that fluctuate based upon changes in various base rates. As of March 31, 2015, we had \$74.0 million in borrowings outstanding under the revolving credit facility. Based on our level of variable rate debt outstanding during the three months ended March 31, 2015, a 1.0% increase in the weighted average interest rate, which generally equals the LIBOR rate plus an applicable margin, would have had an impact of \$0.2 million on our results of operations.

We have not historically used derivative instruments to manage exposure to changes in interest rates.

Fluctuations in Quarterly Results

For the year ended December 31, 2014, quarterly revenues as a percentage of total consolidated annual revenues were approximately 24%, 24%, 25% and 27%, respectively, for each of the respective quarters of the year. We have experienced and anticipate that in the future we will experience variations in quarterly revenues. The variations are due to the timing of new contracts and renewal of existing contracts, the timing and frequency of client spending for customer contact management services, non-U.S. currency fluctuations, and the seasonal pattern of customer contact management support and fulfillment services.

Item 4. Controls and Procedures

As of March 31, 2015, under the direction of our Chief Executive Officer and Chief Financial Officer, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rule 13a – 15(e) under the Securities Exchange Act of 1934, as amended. Our disclosure controls and procedures are designed to provide reasonable assurance that the information required to be disclosed in our SEC reports is recorded, processed, summarized and reported within the time period specified by the SEC's rules and forms, and is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure. We concluded that, as of March 31, 2015, our disclosure controls and procedures were effective at the reasonable assurance level.

Table of Contents

There were no changes in our internal controls over financial reporting during the quarter ended March 31, 2015 that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

Part II. OTHER INFORMATION

Item 1. Legal Proceedings

From time to time, we are involved in legal actions arising in the ordinary course of business. With respect to these matters, we believe that we have adequate legal defenses and/or provided adequate accruals for related costs such that the ultimate outcome will not have a material adverse effect on our future financial position or results of operations.

Item 1A. Risk Factors

For risk factors, see Item 1A, "Risk Factors," of our Annual Report on Form 10-K for the year ended December 31, 2014 filed on February 19, 2015.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Below is a summary of stock repurchases for the three months ended March 31, 2015 (in thousands, except average price per share). See Note 12, Earnings Per Share, of "Notes to Condensed Consolidated Financial Statements" for information regarding our stock repurchase program.

Period	Total Number of Shares Purchased (1)	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares That May Yet Be Purchased Under Plans or Programs
