**PROXY STATEMENT
ANNUAL MEETING OF STOCKHOLDERS
JUNE 3, 2009**

We are furnishing you this Proxy Statement in connection with the solicitation of proxies by our Board of Directors to be used at the Annual Meeting and any adjournment thereof. The Annual Meeting will be held on Wednesday, June 3, 2009 at 8:00 a.m. We are first sending this Proxy Statement to our stockholders on or about April 24, 2009.

All references in this Proxy Statement to we, our, us, or the Company refer to Devon Energy Corporation, including our subsidiaries and affiliates.

ABOUT THE ANNUAL MEETING

What is the purpose of the Annual Meeting?

At our Annual Meeting, stockholders will be asked to:

- elect four Class II Directors for a two-year term expiring in 2011;
- ratify the appointment of one Class III Director for a two-year term expiring in 2011;
- ratify the appointment of our independent auditors for 2009;
- consider and vote upon the adoption of the Devon Energy Corporation 2009 Long-Term Incentive Plan;
- consider and vote upon the stockholder proposal set forth in this Proxy Statement, if presented; and
- transact such other business as may properly come before the Annual Meeting or any adjournments thereof.

Who is entitled to vote?

Stockholders as of the close of business on April 6, 2009 (the Record Date) are eligible to vote their shares at the Annual Meeting. As of the Record Date, there were 443,879,648 shares of our common stock outstanding. Each share of common stock is entitled to one vote at the Annual Meeting.

How do I vote?

You may:

- attend the Annual Meeting and vote in person; or
- dial the toll-free number listed on the Notice, Proxy Card or Voting Instruction Form. Easy-to-follow voice prompts allow you to vote your shares and confirm that your instructions have been properly recorded. Telephone voting for stockholders of record will be available 24 hours a day, and will close at 11:59 p.m. Eastern Time on June 2, 2009; or
- go to the following website on the Internet: www.proxyvote.com, simply follow the instructions on the screen, then confirm that your instructions have been properly recorded. If you vote on the Internet, you can request electronic delivery of future proxy materials. Internet voting for stockholders of record will be available 24 hours a day,

and will close at 11:59 p.m. Eastern Time on June 2, 2009; or

- if you elected to receive a paper copy of your proxy materials, mark your selections on the Proxy Card, date and sign it, and return the card in the pre-addressed, postage-paid envelope provided.

Why did I receive a Notice in the mail regarding the Internet availability of proxy materials this year instead of a full set of proxy materials?

This year, in connection with new United States Securities and Exchange Commission (the SEC) rules that allow companies to furnish proxy materials over the Internet, we have sent to most of our stockholders a Notice of Internet Availability of proxy materials instead of a paper copy of the proxy materials. Instructions on how to access the proxy materials over the Internet or to request a paper copy may be found in the Notice. In addition, stockholders may request to receive proxy materials in printed form by mail or electronically by email on an ongoing basis. A stockholder's election to receive proxy materials by mail or email will remain in effect until the stockholder terminates it.

Why didn't I receive a Notice in the mail regarding the Internet availability of proxy materials?

We are providing certain stockholders, including those who have previously requested to receive paper copies of the proxy materials, with paper copies of the proxy materials instead of a Notice. If you would like to reduce the costs incurred by us in mailing proxy materials, you can consent to receive all future proxy materials electronically via email or the Internet. To sign up for electronic delivery, please follow the instructions provided in your proxy materials. When prompted, indicate that you agree to receive or access stockholder communications electronically in the future.

How do I vote the shares held in my 401(k) Plan?

If you are a current employee participating in the Devon Energy Incentive Savings Plan (the 401(k) Plan), please follow the instructions you received via email from Broadridge Financial Solutions, Inc. (Broadridge).

If you are a former employee participating in the 401(k) Plan and have shares of our common stock credited to your 401(k) Plan account as of the Record Date, such shares are shown on the Voting Instruction Form. You have the right to direct Fidelity Management Trust Company (the 401(k) Plan Trustee) regarding how to vote those shares, which you can do by voting your shares in the same manner as provided above.

The 401(k) Plan Trustee will vote your shares in the 401(k) Plan account in accordance with your instructions. If instructions are not received by May 31, 2009, the shares credited to your account will be voted by the 401(k) Plan Trustee in the same proportion as it votes shares for which it did receive timely instructions.

Will each stockholder in our household receive proxy materials?

Generally, no. We try to provide only one set of proxy materials to be delivered to multiple stockholders sharing an address unless you have notified us to the contrary. Any stockholder at a shared address may request delivery of single or multiple copies of proxy materials for future meetings by contacting us at Devon Energy Corporation, Attention: Corporate Secretary, 20 North Broadway, Oklahoma City, Oklahoma 73102-8260, email: janice.dobbs@dvn.com or call (405) 235-3611.

If I vote via telephone or the Internet or by mailing my Proxy Card, may I still attend the Annual Meeting?

Yes.

What if I want to change my vote?

You may revoke your proxy before it is voted by submitting a new proxy with a later date (by mail, telephone or Internet), by voting at the Annual Meeting, or by filing a written revocation with our Corporate Secretary. Your attendance at the Annual Meeting will not automatically revoke your proxy.

Is my vote confidential?

Yes. We have procedures to ensure that regardless of whether stockholders vote by mail, telephone, Internet or in person, all proxies, ballots and voting tabulations that identify stockholders are kept permanently confidential, except as disclosure may be required by federal or state law or as expressly permitted by a stockholder.

In addition, special procedures have been established to maintain the confidentiality of shares voted in our 401(k) Plan. None of our employees will have access to voting information for shares in the 401(k) Plan.

Who will count the votes?

Broadridge will tabulate the votes.

What constitutes a quorum?

A majority of the shares entitled to vote, present in person or represented by proxy, constitutes a quorum. If you vote by telephone, Internet or by returning your Proxy Card, you will be considered part of the quorum. Broadridge, the Inspector of Election, will treat shares represented by a properly executed proxy as present at the meeting. Abstentions and broker non-votes will be counted for purposes of determining a quorum. A broker non-vote occurs when a nominee holding shares for a beneficial owner submits a proxy but does not vote on a particular proposal because the nominee does not have discretionary voting power for that item and has not received instructions from the beneficial owner.

How many votes will be required to approve a proposal?

Election of Directors at the Annual Meeting will be by a plurality of votes cast at the Annual Meeting. Votes may be cast in favor of the election of each Director nominee or withheld.

Our Corporate Governance Guidelines and Bylaws contain a Director Resignation Policy which provides that any nominee for Director in an uncontested election who receives a greater number of votes “withheld” from his or her election than votes “for” such election must submit his or her offer of resignation to the Governance Committee of the Board of Directors within 90 days from the date of the election. The Governance Committee will consider all of the relevant facts and circumstances and recommend to the Board the action to be taken with respect to such offer of resignation.

With respect to other matters, the affirmative vote of the holders of a majority of the shares, present in person or by proxy, and entitled to vote at the Annual Meeting, is required to take any other action.

Shares cannot be voted at the Annual Meeting unless the holder of record is present in person or by proxy.

Can brokers who hold shares in street name vote those shares with respect to the election of Directors if they have received no instructions?

We believe that brokers who are members of the New York Stock Exchange (the NYSE) and hold common stock in street name for customers, but have not received instructions from a beneficial owner, have the authority under the rules of the NYSE to vote those shares with respect to the election of Directors.

How will you treat abstentions and broker non-votes?

We will:

- count abstentions and broker non-votes for purposes of determining the presence of a quorum at the Annual Meeting;
- treat abstentions as votes not cast but as shares represented at the Annual Meeting for determining results on actions requiring a majority of shares present and entitled to vote at the Annual Meeting;
- not consider broker non-votes for determining actions requiring a majority of shares present and entitled to vote at the Annual Meeting; and
- consider neither abstentions nor broker non-votes in determining results of plurality votes.

Who pays the solicitation expenses?

We will bear the cost of solicitation of proxies. Proxies may be solicited by mail or personally by our Directors, officers or employees, none of whom will receive additional compensation for such solicitation. We have retained Georgeson Inc. to assist in the solicitation of proxies at an estimated cost of \$9,000, plus reasonable expenses. Those holding shares of common stock of record for the benefit of others, or nominee holders, are being asked to distribute proxy soliciting materials to, and request voting instructions from, the beneficial owners of such shares. We will reimburse nominee holders for their reasonable out-of-pocket expenses.

Where can I find the voting results of the Annual Meeting?

We will announce preliminary voting results at the Annual Meeting, and we will publish final results in our quarterly report on Form 10-Q for the second quarter of 2009 which will be filed with the SEC. You may obtain a copy of this and other reports free of charge at www.devonenergy.com, or by contacting our Investor Relations Department at (405) 552-4570 or the SEC at (800) 732-0330 or www.sec.gov.

Will your independent auditors be available to respond to stockholder questions?

Yes. The Audit Committee of the Board of Directors has approved KPMG LLP to serve as our independent auditors for the year ending December 31, 2009. Representatives of KPMG LLP are expected to be present at the Annual Meeting. They will have an opportunity to make a statement, if they desire to do so, and will be available to respond to stockholder questions.

In the event that any of the nominees should fail to stand for election, the persons named in the proxy intend to vote for substitute nominees designated by the Board of Directors, unless the Board of Directors reduces the number of Directors to be elected. In accordance with our Corporate Governance Guidelines, the Board considered transactions and relationships between each Director or any member of the Director's immediate family and us, our subsidiaries and affiliates. The Board has affirmatively determined that each of the current Directors, with the exception of our Chairman and CEO, J. Larry Nichols, and our President, John Richels, is an independent Director as defined by the standards for director independence established by applicable laws, rules, and listing standards, including, without limitation, the standards for independent directors established by the NYSE and the SEC, have no material relationship with us that would interfere with the exercise of independent judgment and, therefore, is independent under our Corporate Governance Guidelines and standards established by the NYSE.

Lead Director

The Board has a Lead Director whose primary responsibility is to preside over the executive session of the Board meeting in which Mr. Nichols, Mr. Richels and other members of management do not participate. The Lead Director also performs other duties that the Board may from time to time delegate to assist the Board in the fulfillment of its responsibilities. In 2008, the Lead Director presided over four executive sessions of the Board.

Thomas F. Ferguson has served as our Lead Director since 2008 and will serve in that position until a successor is named by the Board of Directors.

Related Party Transactions

We have adopted a Code of Business Conduct and Ethics that applies to all of our Directors, officers and employees. The Code of Business Conduct and Ethics is posted at www.devonenergy.com. The Code of Business Conduct and Ethics describes our policies and standards for protecting our integrity and provides guidance to our Directors, officers and employees in recognizing and properly resolving any ethical and legal issues that may be encountered while conducting our business. The Code of Business Conduct and Ethics serves as a reference for all directors, officers and employees in fulfilling their responsibility to conduct business in a legal and ethical manner. Any waiver of any provisions of the Code on behalf of an executive officer or director may only be approved by the Board of Directors or a committee designated by the Board of Directors. It is the policy of the Audit Committee to review the terms and substance of any potential related party transaction for purposes of determining whether a waiver to the Code of Business Conduct and Ethics should be granted.

Our Audit Committee reviews information relating to relationships involving each of our Non-Management Directors to determine if the Director meets all independence standards. The Board confirms the independence of each such Director upon receiving the Audit Committee recommendation.

Since the beginning of 2008 there have been no "related person transactions" as defined by applicable SEC regulations.

GOVERNANCE COMMITTEE REPORT

The Governance Committee operates under a written charter approved by the Board of Directors. The Charter may be viewed at www.devonenergy.com. The Governance Committee is comprised of three independent Directors.

The Governance Committee is responsible for proposing qualified candidates to serve on the Board of Directors, and reviews with the Board special director qualifications, taking into account the composition and skills of the entire Board, and specifically ensuring a sufficient number of the members of the Board are financially literate. The Governance Committee will consider nominees recommended by stockholders and will give appropriate consideration in the same manner as given to other nominees. Stockholders who wish to submit director nominees for election at our 2010 Annual Meeting of Stockholders may do so by submitting in writing such nominee's name in compliance with the procedures required by our Bylaws, to the Governance Committee of the Board of Directors, Attention: Chairman, c/o Office of the Corporate Secretary, Devon Energy Corporation, 20 North Broadway, Oklahoma City, Oklahoma 73102-8260. Pursuant to our Bylaws, stockholders may nominate a person for election or re-election as a director by delivering a timely notice to our Corporate Secretary at the address above. Please see "Submission of Stockholder Proposals and Nominees" for a discussion of the deadlines for delivering such notice. The stockholder's notice must contain:

- all information relating to each person being nominated that is required to be disclosed with respect to such person pursuant to Regulation 14A under the Securities Exchange Act of 1934, as amended, including such person's written consent to being named in the Proxy Statement as a nominee and to serving as a director, if elected;
- the name and address of the stockholder giving the notice and the beneficial owner, if any;
- the class and number of shares of our stock which are owned beneficially and of record by the stockholder giving the notice and the beneficial owner, if any;
- a description of all arrangements or understandings between the stockholder giving the notice and any other person or persons (including their names) in connection with the nomination; and
- a representation that the stockholder intends to appear in person or by proxy at the Annual Meeting to bring such business before the meeting.

The Board will take reasonable steps to ensure that a diverse group of qualified candidates are in the pool from which the nominees for the Board are chosen. The Governance Committee may, at its discretion, seek third-party resources to assist in the process and will make final director candidate recommendations to the Board. The basic qualifications, which are identified in our Corporate Governance Guidelines, that the Governance Committee looks for in a director are:

- independence;
- integrity and accountability;
- informed judgment;
- peer respect;
- high performance standards;
- passion for the Company's performance; and
- creativity.

Following election to the Board, the Corporate Governance Guidelines provide for:

- mandatory retirement at the Annual Meeting following the 73rd birthday of a director;
- a recommendation that a director not serve on more than five public company boards in addition to serving on the Company's Board;
- "majority voting," which requires a nominee for director in an uncontested election to submit an offer of resignation to the Governance Committee within 90 days of the date of the election if the director receives a

greater number of “withheld” votes than “for” votes. The Governance Committee will then consider all of the relevant facts and circumstances and recommend to the full Board the action to be taken with respect to the offer to resign;

- approval of the Governance Committee to serve as a director, officer or employee of a competitor of the Company; and
- prompt notification to the Chairman of the Board and Chairman of the Governance Committee upon the acceptance of a directorship of any other public company or any assignment to the Audit or Compensation Committees of the board of any public company.

The Governance Committee also plays a leadership role in shaping the Company’s corporate governance. It undertakes an annual corporate governance self-assessment, consisting of a thorough review of the Company’s corporate governance practices. The Governance Committee reviews the Company’s practices and best practices followed by other companies. The goal is to maintain a corporate governance framework for the Company that is effective and functional and that fully addresses the interests of the Company’s stakeholders. The Governance Committee determined that the Company operates under many corporate governance best practices. The Governance Committee may from time to time recommend enhanced corporate governance standards to the Board. The Board voted to approve these standards which are reflected in:

- the Corporate Governance Guidelines;
- the Charters for each of the Board’s Committees; and
- an expanded Code of Business Conduct and Ethics for all Directors, officers and employees.

The standards reflected in these documents implement and strengthen the Company’s corporate governance practices. These documents, and others related to corporate governance, are available at www.devonenergy.com.

With the Company’s fundamental corporate governance practices firmly in place and annually evaluated, the Governance Committee is prepared to respond quickly to new regulatory requirements and emerging best practices. The Governance Committee intends to continue to require an annual evaluation of the effectiveness of the Board and its Committees and an annual self-assessment of the performance and effectiveness by each member of the Board to enable the Company to maintain its position at the forefront of corporate governance best practices.

AUDIT COMMITTEE REPORT

The Board of Directors maintains an Audit Committee which is comprised of four independent Directors. The Board and the Audit Committee believe that the Audit Committee's current membership satisfies the rules of the NYSE that govern audit committee composition, including the requirement that audit committee members all be independent directors as that term is defined under the listing standards of the NYSE. Also, for purposes of complying with the listing standards of the NYSE, the Board has determined that Michael M. Kanovsky's simultaneous service on the audit committees of more than three public companies does not impair his ability to effectively serve on the Company's Audit Committee. The Audit Committee operates under a written charter approved by the Board of Directors. The Charter is available at www.devonenergy.com.

The Audit Committee oversees the Company's financial reporting process on behalf of the Board of Directors. Management has the primary responsibility for the preparation of the financial statements and the establishment and maintenance of the system of internal controls. This system is designed to provide reasonable assurance regarding the achievement of objectives in the areas of reliability of financial reporting, effectiveness and efficiency of operations and compliance with applicable laws and regulations. In fulfilling its oversight responsibilities, the Audit Committee reviewed with management internal controls over financial reporting in accordance with the standards of the Public Company Accounting Oversight Board and the audited financial statements in the Annual Report. This review included a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments, and the clarity of disclosures in the financial statements.

In fulfilling its duties during 2008, the Audit Committee:

- reviewed with the independent auditors who are responsible for expressing an opinion on the conformity of the Company's audited financial statements with U.S. generally accepted accounting principles and the effective operation of the Company's internal controls over financial reporting;
- reviewed with independent auditors their judgments as to the quality, not just the acceptability, of the Company's accounting principles and other matters;
- discussed with the independent auditors other matters under generally accepted auditing standards, including Statement on Auditing Standards No. 61, Communication with Audit Committees;
- discussed with the independent auditors the auditors' independence, including the matters in the written disclosures and the letter received from the independent auditors required by applicable requirements of the Public Company Accounting Oversight Board regarding the independent auditors' communications with the Audit Committee concerning independence;
- discussed with the independent auditors the overall scope and plans for their audit; and
- met with the independent auditors, with and without management present, to discuss the results of their audit and the overall quality of the Company's financial reporting.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors, and the Board has approved, that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2008 for filing with the SEC. The Audit Committee has approved KPMG LLP as the Company's independent auditors for the year ending December 31, 2009.

Independent Auditors' Fees

Under the terms of its Charter, the Audit Committee approves the fees we pay our independent auditors. For the years ended December 31, 2008 and December 31, 2007, we paid the following fees to KPMG LLP:

	<u>2008</u>	<u>2007</u>
Audit fees	\$3,419,000	\$3,719,000
Audit related fees	371,000	275,000
Tax fees	386,000	205,000
All other fees	—	—
	<u>\$4,176,000</u>	<u>\$4,199,000</u>

Audit fees include services for the audits of the financial statements and the effective operation of our internal controls over financial reporting. Audit related fees consisted principally of audits of financial statements of certain affiliates and subsidiaries and certain accounting consultation. Tax fees consisted of tax compliance and tax consulting fees. The Audit Committee has considered whether the provisions of audit related services and tax services are compatible with maintaining KPMG LLP's independence and has determined the auditors' independence is not impaired.

Audit Committee Pre-Approval Policies and Procedures

All of the 2008 and 2007 audit and non-audit services provided by KPMG LLP were approved by the Audit Committee. The non-audit services which were approved by the Audit Committee were also reviewed to ensure compatibility with maintaining the auditors' independence.

The Audit Committee has pre-approval policies and procedures related to the provision of audit and non-audit services. Under these procedures, the Audit Committee pre-approves both the type of services to be provided by KPMG LLP and the estimated fees related to these services. During the approval process, the Audit Committee considers the impact of the types of services and the related fees on the independence of the auditors. The services and fees must be deemed compatible with the maintenance of the auditors' independence, including compliance with SEC rules and regulations.

RESERVES COMMITTEE REPORT

In 2004, The Board of Directors established a Reserves Committee comprised of three independent Directors. The Reserves Committee operates under a charter approved by the Board of Directors and is available at www.devonenergy.com. The Reserves Committee oversees, on behalf of the Board, the evaluation and reporting process of the Company's oil, gas and natural gas liquids reserves data. Management and our independent engineering consultants have the primary responsibility for the preparation of the reserves reports. In fulfilling its oversight responsibilities, the Reserves Committee reviewed with management the internal procedures relating to the disclosure of reserves in the Company's Annual Report on Form 10-K for the year ended December 31, 2008, having regard to industry practices and all applicable laws and regulations. In fulfilling its duties during 2008, the Reserves Committee has:

- approved AJM Petroleum Consultants, LaRoche Petroleum Consultants, Ltd. and Ryder Scott Company L.P., as the Company's independent engineering consultants for the year ending December 31, 2008;
- reviewed with the independent engineering consultants the scope of the annual review of the Company's reserves;
- met with the independent engineering consultants, with and without management, to review and consider the evaluation of the reserves and any other matters of concern in respect to the evaluation of the reserves;
- reviewed and approved any statement of reserves data or similar reserves information, and any report of the independent engineering consultants regarding such reserves to be filed with any securities regulatory authorities or to be disseminated to the public;
- reviewed the internal procedures relating to the disclosure of reserves; and
- ensured that the independent engineering consultants were independent prior to their appointment and throughout their engagement.

In reliance on the reviews and discussions referred to above, the Reserves Committee recommended to the Board of Directors, and the Board has approved, that the reserves information be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2008 for filing with the SEC.

COMPENSATION DISCUSSION AND ANALYSIS

Introduction

We depend on the performance of highly-trained, experienced and committed executive officers who have the skills, education, experience and personal qualities necessary to lead an oil and gas business. In the uncertainty and volatility of the current economic climate, we believe our executive compensation programs should continue to attract and retain effective leaders in what is still a competitive market for personnel with proven track records in the oil and gas industry. At the same time, our programs will continue to adapt to unexpected industry developments and volatility in the commodities markets.

This Compensation Discussion and Analysis (CD&A) describes the overall executive compensation approach at the Company and specifically discusses total compensation for the following named executive officers:

- J. Larry Nichols, Chairman of the Board and Chief Executive Officer
- John Richels, President
- Danny J. Heatly, Senior Vice President — Accounting and Chief Accounting Officer (principal financial officer)
- Steven J. Hadden, Executive Vice President — Exploration and Production
- Darryl G. Smette, Executive Vice President — Marketing and Midstream

In addition to the term “named executive officers,” we will use one other term in this CD&A to identify a group of our senior level managers. The term “senior executive officers” refers to Messrs. Nichols and Richels as well as our executive vice presidents. Six employees, including Messrs. Hadden and Smette, were executive vice presidents at the end of 2008. Mr. Hadden left the Company in March 2009.

We include Mr. Heatly as a named executive officer because the SEC requires us to provide information about the compensation of the principal financial officer of the Company. Because Mr. Heatly was not a senior executive officer in 2008, his compensation arrangements are more in line with other non-senior executive officers.

Compensation Philosophy and Objectives

Overview

The Company has a two-pronged operating strategy, which includes:

- the investment of a significant portion of capital in low risk development projects on our extensive North American property base, which provides reliable and repeatable production and reserves additions; and
- the investment of capital in long cycle time projects to replenish our development inventory for the future.

We believe that this operating strategy requires a compensation philosophy that recognizes near-term operational and financial success as well as decision making that supports long-term value creation. For these reasons, our executive compensation program is designed to strike the appropriate balance between the near-term and the long-term.

The goals of the program are to:

- motivate, reward, develop and retain management talent to support our goal of increasing shareholder value;
- effectively compete against other oil and gas companies for executive talent;
- consider and respond to developments within the oil and gas industry;
- provide a balance between the achievement of near-term and long-term objectives, without motivating executives to take excessive risk; and
- emphasize direct compensation over indirect compensation, such as benefits and perquisites.

Table of Contents

The following table gives a broad overview of the elements of our executive compensation program, including the description and purpose of each element and the market guidelines we target. In each case, the market guidelines refer to an element's relative value within a group of industry peer companies for comparable executive roles (see further discussion below under "Benchmarking").

Compensation Element	Description and Purpose	Market Guidelines
Base Salary	Provides fixed compensation to pay for experience, expertise and knowledge	At or slightly above the 50 th percentile
Annual Cash Bonus	Emphasizes near-term performance results and current decision-making that affects long-term value creation	From the 50 th to 75 th percentiles based on performance
Long-Term Incentive Awards	Aligns executives' long-term interests with those of our shareholders Promotes retention of executives through time-based vesting of awards Provides for meaningful share ownership opportunities Emphasizes long-term performance results	From the 50 th to 75 th percentiles based on performance
Retirement and Other Benefits	Retirement benefits provide long-term financial security Other benefits include basic health and welfare programs that are made available to all employees Severance benefits allow for short-term financial security in certain cases of termination	Provide program features competitive with the peer group

For senior executive officers, we generally target total direct compensation, which we define as the aggregate of base salary, annual cash bonus and long-term incentive awards, between the 50th and 75th percentiles of the peer group. The most recent data available to the Company in 2008 indicated that its total direct compensation for named executive officers ranged from the 50th to approximately the 75th percentile at that time.

Balancing Compensation for Near-Term and Long-Term Performance

To reinforce the goals of achieving both near-term results and long-term shareholder value, the Company provides senior executive officers both annual cash bonuses and long-term incentive awards. We believe that properly allocating these compensation elements is critical in motivating senior executive officers to carry out our two-pronged operating strategy. Overall, the value of a senior executive officer's total compensation is weighted in favor of long-term incentives.

Compensation Weighted Toward Performance-Based Compensation

We believe that the proportion of an employee's total direct compensation that varies based on performance should increase as the scope of an employee's ability to influence our results increases. Since senior executive officers have the greatest influence over our results, a significant portion of their overall compensation consists of cash bonuses and long-term incentive awards that are "at risk." In 2008, for example, approximately 90% of the estimated value of the total direct compensation of our Chief Executive Officer was at risk. The estimated value of the total direct compensation at risk in 2008 for all other named executive officers ranged from approximately 80% to 85% of their total direct compensation.

Compensation Process

Our process for reviewing and determining the compensation for named executive officers involves the Compensation Committee of the Board of Directors (the "Committee"), senior executive officers of the Company and an independent compensation consultant. The roles of these individual parties are described further in the following sections.

Role of the Committee and Senior Executive Officers

The Committee establishes our executive compensation philosophy and administers the overall executive compensation program. The Committee operates under a written charter approved by the Board of Directors. The Charter is available at www.devonenergy.com.

Each year, the Committee conducts an individual, in-depth interview of each senior executive officer to discuss the officer's analysis of the Company's performance for the year and the performance within his area of responsibility. We believe this is a unique practice among compensation committees and a highly effective tool in the Committee's oversight of the executive compensation process. In addition, the CEO and the President discuss with the Committee their evaluation of each senior executive officer's performance, role, development, and potential to take on greater or different responsibilities. The CEO and President then make recommendations to the Committee for changes to compensation for senior executive officers. Neither the CEO nor the President makes any recommendation to the Committee regarding his own compensation.

The Committee considers the CEO's and the President's recommendations, the Committee's own review of competitive market data, the Company's recent performance, the Committee's interviews with senior executive officers, the independent compensation consultant's input, and the Company's compensation philosophy. The Committee then determines whether to accept the CEO's and the President's recommendations of compensation for senior executive officers, and in a closed session without any senior executive officer present, sets the CEO's and the President's compensation.

Compensation decisions are further discussed in the "Compensation Decisions in 2008" section below.

Role of the Compensation Consultant

For the 2008 compensation process, the Committee retained the services of an independent compensation consulting firm, Hewitt Associates LLC (the "Compensation Consultant"), to evaluate the competitiveness of our programs and assist with executive compensation program design. The Committee did not direct the particular manner or method in which the Compensation Consultant would perform these services. The Committee has the final authority to hire and terminate the Compensation Consultant, and the Committee evaluates the performance of the Compensation Consultant annually. The Company's Board of Directors has a policy that prohibits the Compensation Consultant from providing other services to the Company, or its management, without prior review and approval by the Committee. During the 2008 compensation process, the Compensation Consultant provided no services to the Company or its management other than the services described in this CD&A.

Benchmarking

To successfully compete for executive talent, the Committee, working with the Compensation Consultant, annually compares the compensation of its executives against the compensation of similarly-situated executives at peer companies. The Company establishes a peer group consisting of oil and gas and energy services companies with similar revenue levels and asset and market values as the Company. The Company also considers the enterprise value of companies — calculated as the market value of a company *plus* (i) long-term debt and preferred stock, *minus* (ii) cash and cash equivalents — in establishing a peer group. The Committee believes these metrics are appropriate for determining peers because they provide a reasonable point of reference for comparing executives with similar positions and responsibilities.

For 2008, the Committee approved a peer group consisting of the 21 companies listed below:

- Anadarko Petroleum Corporation*
- Apache Corporation*
- Baker Hughes Incorporated
- Chesapeake Energy Corporation*
- Chevron Corporation*
- ConocoPhillips*
- Dominion Resources, Inc.
- El Paso Corporation
- EnCana Corporation*
- EOG Resources, Inc.*
- Halliburton Company
- Hess Corporation*
- Marathon Oil Corporation*
- Murphy Oil Corporation*
- Nabors Industries Ltd.
- Occidental Petroleum Corporation*
- Schlumberger Limited
- Tesoro Corporation
- Transocean Inc.
- Valero Energy Corporation
- The Williams Companies, Inc.

The companies designated with an asterisk (*) are included in a subset of peer companies focused on oil and gas exploration and production (E&P). The Committee referred to compensation from these peers to evaluate industry-specific executive roles.

The Committee's benchmarking analysis consists of all components of total direct compensation, including base salary, annual bonus and long-term incentives. The Compensation Consultant collected and summarized compensation data from the Proxy Statements of the peer group and the Compensation Consultant's proprietary databases. The compensation data are typically from the prior year. Thus, when setting current compensation, the Committee works with the Compensation Consultant to adjust the data to account for known or expected changes in the market between the effective date of the data and the current date. Additionally, the Committee typically excludes from its benchmarking analysis those companies whose compensation far exceeds the compensation found at a majority of the peer group.

Tally Sheets and Review of Personal Use of Corporate Aircraft

The Committee annually reviews tally sheets for named executive officers, including potential payments under various termination scenarios. Further detail can be found in the "Potential Payments Upon Termination or Change In Control" section of this Proxy Statement. The Committee also reviews both IRS and SEC calculations in connection with the valuation of personal use of the corporate aircraft.

The Committee has determined that the amounts reflected in these reviews are reasonable and consistent with the Company's compensation philosophy. The Committee has noted that in the case of personal use of the corporate aircraft, the values for named executive officers were significantly less than those reported by our peer companies.

Succession Planning

The Company has a robust succession planning process to ensure the development of executive talent for the near and long term. The process and progress are reviewed with the Committee and the Board of Directors on an annual basis.

Overview of Executive Compensation Elements Used in 2008

Overview

We use several different compensation elements in our executive compensation program for the purpose of addressing both near-term and long-term value creation for the Company. As described earlier, the primary components of our executive compensation program are:

- base salary;
- annual cash bonus;
- long-term incentives; and
- retirement and other benefits.

The design of each compensation element is described further in the sections that follow.

Base Salary

The Committee reviews and approves, on an annual basis, the base salaries of our named executive officers. We consider a competitive base salary vital to ensuring the continuity of our management. The following factors are considered when establishing base salaries for the named executive officers:

- external market forces and data, including the competitive market information provided by the Compensation Consultant;
- the scope of responsibility, experience and tenure of each executive;
- the development plans for the executive and his potential to take on greater or different responsibilities; and
- internal equity considerations.

We believe that our ability to achieve our objectives depends in large part on employing an executive leadership team that has a combination of significant industry experience and longevity with the Company. In order to attract and retain such executives, their base salaries must be competitive with the base salaries of senior executive officers of peer companies with whom we compete for executive personnel. We believe that targeting base salaries at or slightly above the market median enables us to compete successfully and allows us to emphasize variable compensation appropriately.

Annual Cash Bonus

The Committee annually considers cash bonus awards for our named executive officers. The Committee believes that executives' cash bonuses should reflect the near-term operating, strategic, and financial performance and current decision-making that affects long-term shareholder value. In that regard, bonuses awarded by the Committee are intended to be competitive with the market while rewarding named executive officers for:

- delivering near-term financial and operating results;
- developing long-term growth prospects;
- advancing internal talent;
- ensuring positive relationships with regulators, landowners and other stakeholders;
- improving the efficiency and effectiveness of business processes on a continuous basis; and
- building a culture of mutual respect and teamwork focused on creating long-term shareholder value.

To that end, in determining the appropriate bonus amounts, the Committee considers recent Company performance, each named executive officer's individual performance during the year, competitive market conditions, historical practices, incentive awards for others in the Company, and our compensation philosophy. The Committee does not assign target or maximum cash bonus award levels to the named executive officers.

When evaluating recent Company performance, the Committee considers, among other things, our performance in relation to goals approved by the Board of Directors at the beginning of the year. These goals cover a number of both quantitative and qualitative areas, such as growing our oil and gas production and reserves, adhering to capital and operating budgets, delivering shareholder returns, improving environmental, health and safety performance, and enhancing our strategies for

cultivating leadership talent. The Committee does not assign any specific weight to any particular performance goal nor is any specific weight assigned to the performance goals in the aggregate.

In addition to considering the Company's quantitative and qualitative performance goals set at the beginning of the year, the Committee also takes into account market and economic trends and forces, extraordinary internal and market-driven events, unanticipated developments, and other extenuating circumstances. In short, the Committee exercises a comprehensive approach in determining the amount of annual cash bonuses for named executive officers.

While our approach to annual bonuses is not formulaic, it is methodical and purposeful. We have considered the relative merits of a non-formulaic approach to paying annual bonuses versus a formulaic approach. We have concluded that the present non-formulaic approach leads to the creation of a highly-effective, nimble management team that is evaluated on its ability to be flexible in addressing changing market and industry conditions while executing the Company's overall business strategy. We think the Company's recent and long-term performance demonstrate that this flexible approach works well.

Long-Term Incentives

A key element of our compensation program is to reward named executive officers for long-term strategic accomplishments and enhancement of long-term shareholder value through equity-based incentives that vest over an extended period of time. We believe that long-term incentive compensation plays an essential role in attracting and retaining senior executive officers and aligns their interests with the long-term interests of our shareholders.

The Committee approves long-term incentive awards to named executive officers at the year-end Committee meeting in December. The Committee does not backdate stock option grants and does not time the grant of awards in coordination with the release of material nonpublic information.

We establish long-term incentive target values for each level of responsibility within the Company, including the named executive officers. In analyzing the value of long-term incentives awarded to our executives, the Committee takes into account:

- recent Company performance with a focus on how such performance creates value for our shareholders over the long term;
- each senior executive officer's individual performance during the year;
- competitive market conditions;
- historical practices;
- incentive awards for others in the organization;
- the overall impact of awards on the Company's share dilution levels; and
- our compensation philosophy.

Our long-term incentive awards consist of stock options and restricted stock. Stock option awards give senior executive officers the right to purchase common stock of the Company at a specified price within a specified period of time. Restricted stock awards are grants of our common stock that will only be earned by a senior executive officer when the restrictions lapse. For the stock options awarded in 2008, 20% of the stock options immediately vested and became exercisable on the grant date. An additional 20% of each grant vests and becomes exercisable on each of the first four anniversaries of the original grant. With respect to restricted stock awards made in 2008, 25% of each award vests on each of the first four anniversary dates of the original grant. Except as noted elsewhere in this CD&A, senior executive officers generally forfeit awards if they are not employed by the Company at the time the awards vest.

The vesting schedule of our awards provides a strong incentive for our senior executive officers to continue service with the Company for an extended period. Moreover, the long-term interests of our senior executive officers and our shareholders align in that both groups are rewarded when our common stock appreciates in value over time. This is particularly true with respect to stock options, because senior

executive officers only stand to gain from their receipt of stock options if our common stock appreciates in value.

Stock Ownership

While we encourage executives to own and hold our stock, we have not adopted any specific executive stock ownership criteria. We periodically review the number of shares owned by our executives and note that they generally maintain ownership levels we believe align their interests with those of shareholders. For additional detail on the stock owned by our named executive officers, please refer to the Security Ownership of Management table on page 50.

Retirement Benefits

Our named executive officers are entitled to participate in the following retirement benefits:

- A qualified 401(k) Plan with a 6% company match;
- A nonqualified Deferred Compensation Plan that allows executives to defer compensation beyond the limits placed on the 401(k) plan and the company to contribute a match to the extent that the match available under the qualified 401(k) Plan is limited;
- A qualified Defined Benefit Plan that provides annual retirement income of 60% of final average compensation (i.e., the average of the highest three consecutive years' compensation out of the last 10 years), less any benefits due to the participant under Social Security, times a fraction, the numerator of which is credited years of service up to a maximum of 25 and the denominator of which is the greater of 25 or service projected to age 65 (where the fraction is no greater than one); and
- A nonqualified defined benefit plan (the Supplemental Retirement Income Plan or "SRIP") that, among other things, provides retirement benefits calculated without certain limitations applicable to the Defined Benefit Plan, accrues over 20 years of service (rather than the 25 years applicable to the Defined Benefit Plan), with five-year vesting, and allows for payments in a lump sum upon a change in control of the Company.

For additional information on the Defined Benefit Plan and the SRIP and the present values of the accumulated benefits of our named executive officers under each plan, please refer to the Pension Benefits for the Year Ended December 31, 2008, section on page 37 and the Pension Benefits Table on page 38.

Other Benefits

We provide senior executive officers with perquisites on a limited basis. For example, Messrs. Nichols and Richels may make personal use of our aircraft on a limited basis; however, their use of our aircraft has been infrequent. Additionally, personal use of our aircraft by other officers may be appropriate if there is a health-related or other emergency reason, the flight coincides with a business-related flight or there is some other urgent matter that requires the executive's attendance.

Post-Termination or Change in Control Benefits

We maintain employment agreements with each of our named executive officers with the exception of Mr. Heatly, with whom we have a severance agreement. These agreements give each named executive officer certain additional compensation if his employment is involuntarily terminated other than for cause or if the executive voluntarily terminates his employment for good reason, as those terms are defined in the relevant agreements. Also, in these situations, the applicable named executive officer fully vests in any unvested long-term incentive awards.

If a named executive officer, other than Mr. Heatly, is terminated within two years of a change in control, the executive is also entitled to an additional three years of service credit and age in determining entitlement to retiree medical benefits and SRIP benefits. If Mr. Heatly is terminated within two years of a change in control, he is entitled to an additional two years of service credit and age in determining his entitlement to retiree medical benefits.

As noted above, Mr. Heatly was not a senior executive officer in 2008. Accordingly, his post-termination arrangements are more in line with other non-senior executive officers.

Post-termination and change in control benefits are typical in the oil and gas industry and necessary in order to compete for executive talent. Please refer to the Potential Payments Upon Termination or Change In Control section on page 41 for more information.

Compensation Decisions in 2008

As discussed in the "Compensation Process" section of this CD&A, the Committee considers the following factors in making annual compensation decisions for the named executive officers:

- our compensation philosophy;
- the Committee's own review of competitive market data;
- recent Company performance;
- each named executive officer's individual performance during the year;
- interviews with the senior executive officers; and
- input from the Compensation Consultant.

In 2008, the Committee also considered the current economic environment, the volatility in U.S. financial markets and the unique dynamics of the oil and gas industry.

The Committee noted that certain of the Company's total compensation opportunities for named executive officers trailed the median values offered by the subset of its E&P industry peers. In particular, the compensation for Mr. Nichols trailed the Company's intended benchmarks at a time when the Company had performed well relative to internal and external financial, operating and shareholder return benchmarks.

Base Salary

A November 2008 review of the benchmarking data indicated that base salaries for the named executive officers would generally meet the Company's market objective on an overall basis, with some shortfalls to target when measured on an individual basis. Individual salaries ranged from slightly below the median to above the 75th percentile of the benchmarking data. The Committee also determined that in the current economic environment the Company should take a conservative approach to fixed costs. Therefore, with the exception of Mr. Heatly, who is not a senior executive officer, the Committee froze salaries for named executive officers in 2009.

Please refer to the Summary Compensation Table for further information on the base salaries of named executive officers.

Annual Cash Bonus

Overall in 2008, the Committee is of the view that the Company achieved key operational and other successes in a challenging economic environment. In its evaluation, the Committee noted the following metrics related to Company performance:

- Increased oil and gas production by 6% to 238 million barrels of oil equivalent (BOE), generating record oil and gas sales of more than \$13 billion;
- Significantly exceeded budgeted oil and gas reserves additions with greater than 550 million BOE (prior to giving effect to price revisions);
- Accumulated significant acreage in emerging natural gas plays that have significant production and reserve potential;
- Exercised significant financial discipline in relation to capital expenditure and operating budgets in a highly inflationary market;
- Recorded pre-income tax cash costs per BOE in the lower half of our E&P peers; and
- Delivered competitive shareholder returns that were in the top half of peers for both percentage earnings per share growth and percentage share price appreciation.

The Committee also noted that the Company did not meet its budget goals in the areas of lease operating expenses and general and administrative expenses.

In its evaluation of the Company’s performance relating to stakeholders, business processes and learning and people, the Committee noted that the Company met the following goals:

- Strengthened the Company’s positive reputation with stakeholder groups;
- Furthered business improvement strategies to increase operational effectiveness and speed of execution;
- Improved the workforce planning process to align with corporate strategy and budgeting process;
- Enhanced strategies for cultivating leadership talent, including succession management; and
- Improved goal-setting capability throughout the organization to better align each employee’s performance with the overall goals of the Company.

The Committee conducted a thorough evaluation of each named executive officers’ performance, including the individual interviews described above. Among the named executive officers for whom it made bonus determinations, the Committee determined that each had made significant contributions to the Company’s overall results. As previously noted, the Committee does not determine the bonus for Mr. Heatly.

The 2008 benchmarking indicated that bonuses paid to the named executive officers for 2007 performance generally met the Company’s market objective on an overall basis, with individual bonuses approximating the 75th percentile of the benchmarking data.

Based on the Committee’s evaluation of the Company’s performance in 2008 and other factors that it considers when making annual cash bonus decisions (described in “Annual Cash Bonus” under the “Overview of Executive Compensation Elements in 2008” section of this CD&A), the following cash bonuses were awarded to the named executive officers:

Name	2008 Cash Bonuses
J. Larry Nichols	\$3,000,000
John Richels	\$2,000,000
Danny J. Heatly	\$ 350,000
Stephen J. Hadden	\$ 975,000
Darryl G. Smette	\$ 900,000

Please refer to the Summary Compensation Table for further information on the annual cash bonuses of named executive officers.

Long-Term Incentives

For 2008, the Committee made grants of long-term incentive awards to named executive officers in the form of stock options and restricted stock that vest as described in the CD&A section titled “Overview of Executive Compensation Elements Used in 2008.” As was the case in 2007, approximately one-half of the total award value was granted in options, and one-half of the award value was granted in restricted stock. We continue to believe this combination promotes shareholder value creation as well as executive stock ownership and retention.

Benchmarking conducted in 2008 indicated that the value of long-term incentives awarded to the named executive officers in 2007 generally fell within the Company’s market objective on an overall basis, with some shortfalls to target when measured on an individual basis. Individual long-term incentive opportunities ranged from below median to approximately the 75th percentile of peers.

Table of Contents

Based on the 2008 benchmarking results and other factors that it considers when making long-term incentive grant decisions (described in “Long-Term Incentives” under the “Overview of Executive Compensation Elements in 2008” section of this CD&A), the Committee approved the following grants during its year-end meeting:

Name	2008 Option Awards	2008 Stock Awards
J. Larry Nichols	240,000	92,100
John Richels	126,600	48,500
Danny J. Heatly	31,000	10,332
Stephen J. Hadden	63,000	22,300
Darryl G. Smette	45,000	16,000

The number of shares underlying the long-term incentive grants awarded to each named executive officer was greater than that of the prior year. The Committee believed this decision was appropriate based on the long-term value created by the addition of significant production and reserve potential in emerging natural gas plays.

For additional detail on the Company’s long-term incentive award grants in 2008, please refer to the Summary Compensation Table and the Grants of Plan-Based Awards Table.

In 2008, the Company, with the approval of the Committee, modified the equity-based long-term incentives for our senior executive officers, including the named executive officers. The new arrangements provide that each senior executive officer who meets certain years-of-service and age criteria may be selected upon retirement to continue to vest in outstanding equity-based grants in accordance with the vesting dates established in the original grants so long as he agrees to certain covenants to protect Devon’s business. With the modification, the Company’s treatment of equity at retirement is now consistent with competitive practices for senior executives in our industry.

The modification results in earlier expense recognition when a senior executive officer meets the years-of-service and age criteria as existing grants must be expensed at that time rather than at a later date when the grants actually vest. At the time the modification was made, certain senior executive officers had already met the years-of-service and age criteria, which resulted in the recognition of approximately \$27 million of equity-based compensation expense in the second quarter of 2008. This expense would have been recognized in future reporting periods if the modification had not been made and the senior executive officers had continued their employment with the Company.

Changes to Other Programs

In 2008, the Committee reviewed the current vesting period of the SRIP in relation to comparable plans in the marketplace. Based on the market data and the immaterial present value financial impact of the change, the Committee approved an amendment to the SRIP to change the vesting schedule from 10 years to five years.

The Committee made no other material changes to its executive compensation programs in 2008.

Material Differences in Compensation Decisions for Named Executive Officers

Mr. Nichols’ compensation for 2008 was higher than that of other named executive officers primarily because of his seniority, his long tenure with the Company, his status as a founder of the Company, the compensation levels of comparable executives of other companies against whom his compensation is benchmarked and his greater influence over and responsibility for the entire Company (as opposed to a distinct division or function). In addition, Mr. Nichols’ compensation recognized his leadership role with respect to matters affecting the oil and gas industry generally.

Mr. Richels’ total compensation was higher than that of other named executive officers, except for Mr. Nichols, primarily because of his seniority, experience and stature in the industry, his reporting relationship to the CEO, the compensation levels of comparable executives of other companies against whom his

compensation is benchmarked and his greater influence over and responsibility for the entire Company (as opposed to a distinct division or function). In addition, Mr. Richels' compensation recognized the increased leadership role he has taken with respect to the day-to-day operations of the Company.

Mr. Hadden's and Mr. Smette's total compensation levels reflected their roles and responsibilities as the respective heads of the Company's exploration and production and midstream and marketing divisions, their individual contributions to the Company and the officer team, and compensation levels for similar positions at our peer companies.

Conclusion

In summary, after evaluating all of the considerations reviewed by the Committee, including the current economic climate, the Committee believes the compensation delivered to the named executive officers for 2008 is reasonable and appropriate. Further, the Committee believes the total executive compensation program does not encourage executives to take unnecessary or excessive risk.

Consideration of Tax Implications

Section 162(m) of the Internal Revenue Code (the "Code") disallows, with certain exceptions, a federal income tax deduction for compensation over \$1,000,000 paid to the Chief Executive Officer or any other named executive officer except the Chief Financial Officer. One exception applies to "performance-based compensation" paid pursuant to shareholder-approved employee benefit plans (essentially, compensation that is paid only if the individual's performance meets pre-established objective performance goals using performance measures approved by our shareholders).

Although we have generally attempted to structure executive compensation so as to preserve deductibility, we also believe that there are circumstances where our interests are best served by maintaining flexibility in the way compensation is provided, even if it results in the non-deductibility of certain compensation under the Code. A portion of the payments made under our current annual cash compensation program are not deductible in accordance with the provisions of Section 162(m). However, the Committee has determined that the benefit of enhanced flexibility in program design outweighs the value of the lost deduction.

A minor portion of the stock options we granted to our executives are incentive stock options, which allow the executives to defer the payment of certain taxes upon exercise of the options and provide for the characterization of certain gains as long-term capital gains.

Section 422 of the Code limits the amount of incentive stock options that may vest for any one employee each year. Section 422 provides that, to the extent the aggregate fair market value of stock with respect to which incentive stock options become exercisable each year exceeds \$100,000, such stock options will be treated as nonqualified stock options. We take this \$100,000 limit into consideration when granting incentive stock options to our executives, so that their incentive stock options will not be re-characterized as nonqualified stock options.

SUMMARY COMPENSATION TABLE

The following table and accompanying footnotes summarize the compensation attributed to our named executive officers for the years ended December 31, 2008, 2007 and 2006, including the compensation cost related to the stock and option awards granted in 2004 through 2008 (no unusual increase of stock and option awards were granted in 2008), that are reported as compensation expense in Devon's 2008 Consolidated Financial Statements computed in accordance with Statement of Financial Accounting Standards No. 123(R), Share-Based Payment (SFAS 123(R)). The effect of accelerated expensing of certain stock and option awards on the 2008 compensation totals is more fully described in footnote 1 of the following table. The named executive officers are our Chief Executive Officer, our principal financial officer and our three most highly compensated executive officers (other than our CEO and principal financial officer) for the year ended December 31, 2008.

- (1) With the approval of our Compensation Committee, we modified the share-based compensation arrangements for certain of our executives in the second quarter of 2008. Although this modification does not accelerate the vesting of the executives' grants, it did accelerate in 2008 the expense recognition in our financial statements of equity awards made to three executives as set forth in the following table:

The modified compensation arrangements provide that executives who meet certain years-of-service and age criteria may be selected upon retirement to continue vesting in outstanding share-based grants subject to satisfaction of certain conditions. As a condition to receiving the benefits of these modifications, the executives must agree not to use or disclose our confidential information and not to solicit our employees and customers. The executives are required to agree to these conditions at retirement and again in each subsequent year until all grants have vested. This modification was made to bring our share-based compensation plans in-line with those of our peers.

When the modification was made in the second quarter of 2008, Messrs. Nichols, Richels and Smette had already met the years-of-service and age criteria. As a result of this modification, we recorded accelerated stock and option award expenses of \$11.6 million, \$3.2 million and \$2.1 million, respectively, for Messrs. Nichols, Richels and Smette in the second quarter of 2008. These amounts were related to stock and option awards granted prior to 2008.

Also, as a result of the modification, we recorded an additional \$10.3 million, \$3.3 million and \$1.7 million, respectively, for Messrs. Nichols, Richels and Smette in the fourth quarter of 2008 as a result of stock and option awards that occurred in December 2008. All of the additional stock and option award expenses recorded in 2008 would have been recognized in future reporting periods if the modification had not been made and the executives continued their employment with Devon.

- (2) The dollar amounts reported in these columns are recognized in our financial statements for the applicable year pursuant to SFAS No. 123(R). For a discussion of the valuation assumptions, see *Note 12 — Share-Based Compensation* of the Notes to Consolidated Financial Statements included in our Annual Report on Form 10-K for the year ended December 31, 2008. No stock or option awards granted to our named executive officers were forfeited during 2008, 2007 or 2006.
- (3) The amounts in this column reflect the aggregate change in the actuarial present value of each executive officer's accumulated benefits under our Defined Benefit Plan and the SRIP during the applicable year. The amounts shown were not paid to the executives. None of our named executive officers received above market or preferential earnings on deferred compensation in any of the reported years.

(1) The incremental cost of personal use of our aircraft is calculated based on our average variable operating costs. Variable operating costs include fuel, engine reserves, maintenance, weather-monitoring, on-board catering, landing/ramp fees and other miscellaneous variable costs. The total annual variable costs are divided by the annual number of hours our aircraft flew to determine an average variable cost per hour. This average variable cost per hour is then multiplied by the hours flown for personal use to determine the incremental cost. The methodology excludes fixed costs that do not change based on usage, such as pilots' and other employees' salaries, purchase costs of the aircraft and non-trip related hangar expenses.

**OPTION EXERCISES AND STOCK VESTED DURING THE YEAR ENDED

(2) The dollar amounts shown in this column are determined by multiplying the number of stock awards that vested by the per share closing price of our common stock on the vesting date.

PENSION BENEFITS FOR THE YEAR ENDED DECEMBER 31, 2008

We maintain three defined benefit retirement plans in which our named executive officers may participate:

- A tax qualified defined benefit retirement plan and related trust for certain employees (the "Defined Benefit Plan").
- A nonqualified Benefit Restoration Plan (the "BRP") that provides benefits that would be provided under the Defined Benefit Plan except for:
 - limitations imposed by the Code;
 - limitations imposed for those who earned greater than \$220,000; and
 - the inclusion of nonqualified deferred compensation in the definition of compensation.
- A nonqualified Supplemental Retirement Income Plan (the "SRIP") for a small group of executives that provides the benefits similar to those provided by the BRP plus certain additional benefits.

The following table shows the estimated present value of accumulated retirement benefits as provided under the Defined Benefit Plan and the SRIP to the named executive officers. All named executive officers are participants in the SRIP, therefore BRP benefits are not included in the table below. SRIP benefits vest after five years of service. Participants who are terminated for cause lose their SRIP benefits and are instead paid under the BRP. Amounts payable under the SRIP or the BRP are reduced by the amounts payable under the Defined Benefit Plan so there is no duplication of benefits. Retirement benefits are calculated based upon years of service and "final average compensation." Final average compensation consists of the average of the highest three consecutive years' compensation out of the last 10 years. The definition of compensation under the Defined Benefit Plan is the same as the definition under the SRIP and BRP except nonqualified deferred compensation is excluded and compensation is limited by Code compensation limits.

- (1) We calculated the present value of each named executive officer's accumulated benefits as of December 31, 2008 under our pension plans assuming 25% of participants would elect a single life annuity, 15% of participants would elect a 50% joint and survivor annuity and 60% would elect a 100% joint and survivor annuity. We assumed that each named executive officer began receiving payments at normal retirement age (age 65) and were vested in those payments. The present value is calculated using the RP 2000 mortality table (no collar) with projected improvements to 2016, and a discount rate of 6%. No pre-retirement decrements were used in this calculation.
- (2) Messrs. Smette and Richels are eligible for early retirement under the Defined Benefit Plan and the SRIP. Mr. Heatly is eligible for early retirement under the SRIP. See the following "Defined Benefit Plan — Early Retirement" for a description of the eligibility requirements and benefits payable under our Defined Benefit Plans.
- (3) Years of credited service for Mr. Richels for the Defined Benefit Plan are determined based on time worked in the U.S. For the SRIP, Mr. Richels' service is based on time worked in the U.S. and Canada while with the Company. Mr. Richels' Canadian service is included for benefit eligibility purposes (vesting and early retirement) in both plans.
- (4) Benefits payable to Mr. Richels under the SRIP are reduced by benefits payable to Mr. Richels under our Pension Plan for Employees of Devon Canada Corporation. Mr. Richels' benefit under the Canadian Pension Plan is frozen and Mr. Richels' future pension benefits are accruing under the Defined Benefit Plan and the SRIP.

Defined Benefit Plan

The Defined Benefit Plan is a qualified defined benefit retirement plan which provides benefits based upon employment service with us. Employees hired before October 1, 2007, became eligible to participate in the Defined Benefit Plan when they earned one year of service and attained the age of 21 years. Employees who were hired after September 30, 2007, are not eligible to participate in the Defined Benefit Plan. Each eligible employee who retires is entitled to receive monthly retirement income, based upon their final average compensation, years of credited service and reduced by Social Security benefits payable to the employee. Contributions by employees are neither required nor permitted under the Defined Benefit Plan. Benefits are computed based on straight-life annuity amounts. Benefits under the Defined Benefit Plan are reduced for certain highly compensated employees, including our named executive officers, in order to comply with certain requirements of ERISA and the Code.

Normal Retirement

Employees, including the named executive officers, are eligible for normal retirement benefits under the Defined Benefit Plan upon reaching age 65. Normal retirement benefits for the named executive officers are equal to 60% of the executive’s final average compensation less any benefits due to the participant under Social Security, multiplied by a fraction, the numerator of which is his or her credited years of service and the denominator of which is his or her estimated years of service at normal retirement age (not less than 25 years).

Early Retirement

Employees, including the named executive officers, are eligible for Early Retirement benefits under the Defined Benefit Plan after (i) attaining age 55, and (ii) earning at least 10 years of credited service. Early retirement benefits are equal to a percentage of the normal retirement income the participant would otherwise be entitled to if he or she had commenced benefits at age 65 depending on the participant’s age when he or she elects to begin receiving benefits:

Age When Benefits Begin	Percentage of Normal Retirement Income
65	100%
64	97 %
63	94 %
62	91 %
61	88 %
60	85 %
59	80 %
58	75 %
57	70 %
56	65 %
55	60 %

Deferred Vested Pension

Participants in the Defined Benefit Plan are fully vested in their accrued benefits after five years of service. If the participant’s employment is terminated after attaining five years of service but before eligibility for Early Retirement, the participant is entitled to a deferred vested pension based on his or her accrued benefit on the date of termination. An unreduced deferred vested pension is payable at age 65. Alternatively, the participant may elect to receive a reduced benefit as early as age 55. The benefit payable prior to age 65 is a percentage of his or her normal retirement benefit based on his or her age at the time the benefit begins, as shown in the table below:

Age at Election to Receive Deferred Vested Pension	Percentage of Normal Retirement Income
65	100.00%
64	90.35 %
63	81.88 %
62	74.40 %
61	67.79 %
60	61.91 %
59	56.68 %

58	52.00 %
57	47.80 %
56	44.03 %
55	40.63 %

If a participant is:

- involuntarily terminated for any reason other than death or “cause,” is between the ages of 50 and 55 and has at least 10 years of credited service, or
- involuntarily terminated for any reason other than “cause” within two years following a change in control and has at least 10 years of credited service regardless of the participant’s age,

then the participant may elect to have his or her benefits under the Defined Benefit Plan paid at any time on or after the age of 55 subject to the same percentage reduction in benefits as set forth under “Early Retirement” applicable to the participant.

Benefit Restoration Plan

The BRP is a nonqualified retirement defined benefit plan, the purpose of which is to restore retirement benefits for certain selected key management and highly compensated employees because their benefits under the Defined Benefit Plan are limited in order to comply with certain requirements of ERISA and the Code or because their final average compensation is reduced as a result of contributions into our Deferred Compensation Plan. Benefits under the BRP are equal to 65% of the executive’s final average compensation less any benefits due to the executive under Social Security, multiplied by a fraction, the numerator of which is his or her years of credited service (not to exceed 25) and the denominator of which is 25. The BRP benefit is reduced by the benefit that is otherwise payable under the Defined Benefit Plan. An employee must be selected by the Compensation Committee in order to be eligible for participation in the BRP. The same early retirement and deferred vested pension provisions that apply under the Defined Benefit Plan are available under the BRP. Participants become vested in retirement benefits under the BRP at the same time as the participant becomes vested for retirement benefits under the Defined Benefit Plan.

Supplemental Retirement Income Plan

The SRIP is another nonqualified defined benefit retirement plan for a small group of our key executives, the purpose of which is to provide additional retirement benefits for these executives. An employee must be selected by the Compensation Committee in order to be eligible for participation in the SRIP. Participants in the SRIP become vested in the SRIP benefits after five years of service. If the executive is terminated for “cause” as that term is defined in the executive’s employment agreement, then all benefits under the SRIP are forfeited and the executive would receive benefits under the BRP. If the executive is receiving benefits under the SRIP, he is not eligible for benefits under the BRP.

The SRIP provides for retirement income equal to 65% of the executive’s final average compensation less any benefits due to the participant under Social Security, multiplied by a fraction, the numerator of which is his credited years of service (not to exceed 20) and the denominator of which is 20. For those participating in the plan as of January 24, 2002 (“Grandfathered Participants”), the SRIP benefit is reduced by a fraction of the benefits otherwise accrued under the Defined Benefit Plan, the numerator of which is years of credited service (not greater than 20) and the denominator of which is 20. For those who became participants after January 24, 2002, the SRIP benefit is reduced by the full benefits otherwise accrued under the defined benefit plan. Of the named executive officers, Mr. Hadden is not a Grandfathered Participant. In the case of Mr. Richels, his SRIP benefit is also reduced by amounts payable to him under the defined contribution provisions of our Canadian Pension Plan. The same early retirement and deferred vested pension provisions that apply under the Defined Benefit Plan are available under the SRIP, except that early retirement benefits are payable under the SRIP after 20 years of service regardless of age. The early retirement benefit prior to age 55 is the actuarial equivalent to the age 55 early retirement benefit. In the event that a named executive officer is terminated “without cause” or terminates his or her employment for “good reason” as those terms are defined in our employment agreements with our named

executive officers, then the executive will be 100% vested in his accrued SRIP benefit. If a named executive officer is terminated within two years following a “change in control” his or her benefit will be paid in a single lump sum payment of the normal retirement annuity payable immediately, unreduced for early commencement. Otherwise, the benefit will be paid monthly for the life of the executive. The SRIP may be informally funded through a rabbi trust arrangement.

NONQUALIFIED DEFERRED COMPENSATION IN 2008

The table below shows information about our Deferred Compensation Plan. The Deferred Compensation Plan is designed to allow each executive to contribute up to 50% of his or her base salary and up to 100% of his or her bonus, and receive a Company match beyond the contribution limits prescribed by the IRS with regard to our 401(k) Plan. The Deferred Compensation Plan allows executives to defer a portion of their cash compensation in a tax effective way at a minimal cost to us.

POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE IN CONTROL

We will be obligated to make certain payments to our named executive officers or potentially accelerate the vesting of their equity awards and pension benefits upon termination of their employment or upon a change in control pursuant to the following plans or agreements:

- employment agreements entered into with each of our named executive officers (a severance agreement in the case of Mr. Heatly);
- the Defined Benefit Plan;
- the BRP or the SRIP depending on the circumstances of the executive officer’s termination; and
- the 2005 Long-Term Incentive Plan.

The following tables provide the estimated compensation and present value of benefits potentially payable to each named executive officer upon a change in control of the Company or a termination of employment of the named executive officer. The benefit values shown do not include benefits that are broadly available to substantially all salaried employees. The amounts shown assume that the termination or change in control occurred on December 31, 2008. The actual amounts to be paid can only be determined at the time of such executive’s actual separation from the Company.

Please see the narrative for the following tables for a discussion of the methods of calculating the payments required upon termination of our named executive officers in the manners set forth in each column. The footnotes to the following tables apply to all of our named executive officers and are presented after the table for the last named executive officer.

- (1) The employment agreements or severance agreement for our named executive officers provide that each executive is entitled to the payment of a pro rata share of any bonus for the performance period in which the termination occurs based on the number of days worked in the period. For purposes of quantifying the potential payments for our named executive officers upon a termination, we have assumed that the termination took place on December 31, 2008. As a result, each named executive officer would be entitled to all the bonus they earned in 2008. Those bonus amounts are set forth in the bonus column of the Summary Compensation Table on page 30.
- (2) Participants are vested in their benefits under the SRIP after five years of service. Benefits under the SRIP and the BRP are mutually exclusive; therefore, participants will not receive a benefit under the SRIP if they are receiving a benefit under the BRP and vice versa. Participants forfeit their benefits under the SRIP if they are terminated for “cause” and will instead receive benefits under the BRP except for Mr. Richels who is not a participant in the BRP. Benefits paid under the SRIP or the BRP are reduced by any amounts payable under the Defined Benefit Plan so that there is no duplication of benefits.
- (3) The values shown for the SRIP and the BRP benefits for each named executive officer are the present values as of December 31, 2008, of the benefits that would be payable under the SRIP or BRP as of each executive’s earliest possible commencement date. Except in the case of a termination following a change in control where the benefit is paid as a lump sum and in the case of benefits payable to a spouse upon death as a monthly single life annuity, we have assumed that 25% of participants would elect the SRIP and BRP benefits in the form of a single life annuity, 15% would elect a 50% joint and survivor annuity and 60% of participants would elect a 100% joint and survivor annuity. All other assumptions are the same as those used to determine the present value of benefits disclosed in the Pension Benefits Table. Pursuant to the disability provisions under the plan, the present value of benefits payable upon disability includes continued service increases to the executive’s earliest commencement date for those participants that currently have over 10 years of service.
- (4) Under the SRIP, all named executive officers, except Mr. Heatly, will receive credit for an additional three years of service and an additional three years of age, when determining their SRIP benefit following a change in control. All benefits under the SRIP, including Mr. Heatly’s, are payable as a lump

sum payment, within 30 days of their termination following a change in control where the lump sum payment is the present value of the unreduced accrued benefit payable immediately. The lump sum amount shown is based on the lump sum rate in effect for payments beginning January 2009.

- (5) Participants are immediately vested in the SRIP accrued benefit upon death. The benefit is payable to an eligible spouse at the date the participant would have reached age 55 with 10 years of service, reduced by subsidized early retirement factors and assuming that the participant had elected a 100% joint and survivor pension.
- (6) Values displayed for acceleration of vesting of stock options represent the number of options multiplied by the difference between the market price of our common stock on December 31, 2008, which was \$65.71 per share, and the exercise price of each option.
- (7) Values displayed for acceleration of vesting of restricted stock represent the fair value of our common stock as of December 31, 2008, which was \$65.71 per share.
- (8) For all named executive officers except Mr. Heatly, health care benefits are payable for 18 months following termination without cause or following their termination in connection with a change in control. Mr. Heatly is entitled to 18 months of health care benefits following his termination in connection with a change in control. All named executive officers, except Mr. Heatly, are also entitled to a payment in an amount equal to 18 times the monthly COBRA premium following termination without cause or following their termination in connection with a change in control. Mr. Heatly is entitled to a payment in an amount equal to six times the monthly COBRA premium following his termination in connection with a change of control. The values in the tables are estimated based on our current cost of these benefits.
- (9) Both Mr. Richels and Mr. Heatly will receive an enhancement in their post-retirement medical benefit upon a change in control as all other named executives either would not be eligible for a post-retirement medical benefit or are fully accrued in the benefit. We have not included the value of benefits that would be available to substantially all employees, and have instead only included the value of the enhancement that is payable based on individual employment or severance agreements.
- (10) Outplacement services are provided following termination without cause or following termination in connection with a change in control. The value in the table is estimated based on our current cost of this benefit.
- (11) We recognize that our nonqualified employee benefit plans including the SRIP, the BRP, the Deferred Compensation Plan, employment agreements and severance agreements are subject, all or in part, to Section 409A of the Code, which requires certain payments that are to be made under these plans and agreements to be delayed for six months. The information reflects the status of the plans during 2008 which required good faith operational compliance and transitional relief for the SRIP and BRP. These plans were amended and restated effective January 1, 2009, to satisfy Section 409A documentary compliance requirements.

Employment and Severance Agreements

Except for Mr. Heatly, all of the named executive officers are parties to employment agreements that set out their rights to compensation following their termination under various circumstances. Mr. Heatly is a party to a severance agreement which provides for similar rights as the employment agreements. Differences between the employment agreements and Mr. Heatly's severance agreement are noted throughout the following discussion.

Rights Upon Termination for Any Reason

Under the employment agreements and the severance agreement, regardless of the manner in which a named executive officer's employment terminates, he is entitled to receive amounts earned during his term of employment. Such amounts include:

- unpaid salary through the date of termination;
- unused vacation pay;
- bonuses that have already been earned;
- amounts otherwise entitled to under our employee benefit plans; and
- a "gross-up" payment in an amount equal to any excise tax, or interest or penalties related to any excise tax, assessed against the named executive officer pursuant to Section 4999 of the Code based upon the payments paid or payable pursuant to the employment agreement.

Rights Upon Termination for Death or Disability

The employment agreements provide that if the named executive officer's employment terminates by reason of death or disability, then, in addition to the items set forth under "Rights Upon Termination for Any Reason," the named executive officer is entitled to receive a pro rata share of any bonus for the performance period in which the day of termination occurs (based on the number of days worked in the performance period), payable at the same time it is payable to other participants in the bonus plan.

Rights Upon Termination Without Cause and Constructive Discharge

If the named executive officer's employment is involuntarily terminated other than for "cause" or the named executive officer terminates for "good reason," as those terms are defined in the employment agreements and severance agreement, then in addition to the items set forth under "Rights Upon Termination for Any Reason," the named executive officer is entitled to the following:

- a lump sum cash payment equal to three times the aggregate annual compensation of each named executive officer, with the exception of Mr. Heatly who will receive two times his aggregate annual compensation. "Aggregate annual compensation" is equal to the sum of:
 - the executive officer's annual base salary, and
 - an amount equal to the largest annual bonus paid or payable to the named executive officer for the three consecutive calendar years prior to the date the named executive officer's termination occurs;
- payment of a pro rata share of any bonus for the performance period in which the day of termination occurs (based on the number of days worked in the performance period), payable at the same time it is payable to other participants in the bonus plan;
- the same basic health and welfare benefits that the executive would otherwise be entitled to receive if the named executive officer were our employee for 18 months following termination. The severance agreement provides for similar benefits to Mr. Heatly for the 18 months following his date of termination but only in connection with a change in control;
- payment of an amount equal to 18 times the monthly COBRA premium. The severance agreement provides for a payment to Mr. Heatly in an amount equal to six times the monthly COBRA premium following his date of termination in connection with a change of control; and

- payment of a reasonable amount for outplacement services commensurate with the named executive officer's title and position with the Company and other executives similarly situated in other companies in our peer group.

Termination Following a Change in Control

Under the employment and severance agreements, if within 24 months following a "change in control" of the Company, the named executive officer:

- is terminated without "cause" by us, or
- terminates his or her employment with us for "good reason", as each of those terms are defined in the employment agreements, then, in addition to the items set forth under "Rights Upon Termination for Any Reason" and "Rights Upon Termination Without Cause and Constructive Discharge," the named executive officer is entitled to the following:
 - three years of service and three years of age (two years of service and two years of age in the case of Mr. Heatly) shall be added to the named executive officer's actual years of service and actual age when determining the named executive officer's entitlement under our Retiree Medical Benefit Coverage. In no event, however, should the additional years of age be construed to reduce or eliminate the executive's right to coverage under the plan; and
 - three years of service shall be added to the named executive officer's actual years of service when determining the named executive officer's benefits under the SRIP. The severance agreement does not provide similar benefits to Mr. Heatly.

"Change in control" is defined as the date on which one of the following occurs:

- an entity or group acquires 30% or more of our outstanding voting securities,
- the incumbent board ceases to constitute at least a majority of our board, or
- a merger, reorganization or consolidation is consummated, after shareholder approval, unless
 - substantially all of the shareholders prior to the transaction continue to own more than 50% of the voting power after the transaction;
 - no person owns 30% or more of the combined voting securities; and
 - the incumbent board constitutes at least a majority of the board after the transaction.

Defined Benefit Plan, BRP and SRIP

Under the Defined Benefit Plan, if a participant is:

- involuntarily terminated for any reason other than "cause," is between the ages of 50 and 55 and has at least 10 years of credited service, or
- involuntarily terminated for any reason other than "cause" within two years following a change in control and has at least 10 years of credited service regardless of the participant's age,

then the participant may elect to have his or her benefits under the Defined Benefit Plan paid at any time after the age of 55 subject to the same percentage reduction in the benefits as set forth under "Pension Benefits for the Year Ended December 31, 2008 — Defined Benefit Plan — Early Retirement" that is applicable to the participant.

Additionally, upon a change in control of the Company, all participants in the Defined Benefit Plan, the BRP and the SRIP immediately become 100% vested in their accrued benefits under those plans.

Participants are immediately vested in the accrued benefit upon death which is payable to an eligible spouse at the date the participant would have reached age 55 with 10 years of service, reduced by subsidized early retirement factors and assuming that the participant had elected a 100% joint and survivor pension.

Additionally, if the participant becomes disabled and has greater than 10 years of service at the

time of disability, the benefit is calculated based on final average compensation and projected service to commencement date (as early as age 55), reduced with subsidized early retirement factors. If the disabled participant has less than 10 years of service, then he or she is 100% vested in the accrued benefit.

Long-Term Incentive Plan

The Compensation Committee is authorized to provide in the award agreements for the acceleration of any unvested portion of any outstanding awards under our 2005 Long-Term Incentive Plan upon a change in control, retirement or disability. Awards automatically vest upon the death of the executive.

Based solely upon a review of Forms 3, 4 and 5 furnished to us during and with respect to our most recently completed fiscal year, and any written representations of reporting persons, we believe that all transactions by reporting persons during 2008 were reported on a timely basis except that in April 2008 a late Form 4 was filed by J. Todd Mitchell to report the receipt by a trust of which he is the sole trustee and beneficiary of one distribution of shares of our common stock by a limited partnership to its partners, which include the trust. In addition, in March 2009 a late Form 4 was filed by Mr. Mitchell to report two gifts of our common stock received by the same trust in June 2005 and May 2006, as well as the acquisition by the trust of shares of our common stock pursuant to a broker-sponsored dividend reinvestment program at the end of each quarter from the third quarter of 2005 through the last quarter of 2008. Four Form 5's and one Form 4 were not timely filed to report these gifts and dividend reinvestments.

AGENDA ITEM 4. ADOPTION OF THE DEVON ENERGY CORPORATION 2009 LONG-TERM INCENTIVE PLAN

Subject to approval by Devon's stockholders, Devon's Board of Directors has approved the Devon Energy Corporation 2009 Long-Term Incentive Plan, which we sometimes refer to in this document as the "new long-term incentive plan" or the "2009 plan."

The new long-term incentive plan authorizes the Compensation Committee of Devon's Board of Directors to grant nonqualified and incentive stock options, stock appreciation rights, restricted stock awards, restricted stock units, and Canadian restricted stock units, and performance units to selected employees. The 2009 plan also authorizes the grant of nonqualified stock options, stock appreciation rights, restricted stock units and restricted stock awards to Directors. A total of 21,500,000 shares of common stock have been authorized for award under the 2009 plan.

In 2005, Devon's stockholders approved the Devon Energy Corporation 2005 Long-Term Incentive Plan which reserved in the aggregate 32,000,000 shares of Devon common stock to be issued to key employees and Directors. The 2005 plan allows for grants of various award types including nonqualified stock options, incentive stock options, restricted stock awards and Canadian restricted stock units. Over the three calendar years since the plan was approved, the company has granted on average approximately 2,000,000 shares underlying options and 2,800,000 restricted stock awards and Canadian restricted stock units per year. The average annual dilution rate over this period net of shares forfeited is less than 1% of common stock outstanding. As of the end of 2008, 3,275,264 shares were available for future grant under the 2005 plan. Even with Devon's measured approach to equity compensation and low rate of dilution we do not anticipate this share reserve will be sufficient to attract and retain employees at competitive levels in 2009.

The 2009 plan is designed to allow for continued employee attraction, retention and shareholder alignment by providing the company with flexibility to make future equity compensation grants. In addition to the award types allowed under the 2005 plan, the 2009 plan allows for grants of restricted stock units. Any awards granted out of the plan other than stock options and appreciation rights will reduce the number of shares available for future grant by 1.84 shares. Shares underlying grants made under prior Devon plans that are outstanding as of the effective date of the 2009 plan but subsequently cancelled or forfeited will revert to the 2009 plan and be available for future grant. The Board of Directors will terminate the 2005 plan upon stockholder approval of the new incentive plan. A summary of the new long-term incentive plan follows and is qualified by reference to the full text of the 2009 plan, which is included in this Proxy Statement as Appendix A.

As of December 31, 2008, approximately 11,894,081 options and 6,334,643 restricted stock awards and Canadian restricted stock units were outstanding. As a result of subsequent equity grants, option exercises and cancellations, as of March 27, 2009 (the last Friday of the Company's fiscal first quarter) Devon had approximately 11,677,656 options and 6,179,347 unvested restricted stock awards and Canadian restricted stock units outstanding. The options had a weighted average exercise price of \$55.53 and weighted average term of 3.56 years.

The Board of Directors recommends a vote "FOR" the adoption of the Devon Energy Corporation 2009 Long-Term Incentive Plan.

Purpose and Key Features of the Plan

The purpose of the 2009 plan is to create incentives designed to motivate selected employees to significantly contribute toward our growth and profitability. The shares under the 2009 plan will enable us to attract and retain experienced employees who, by their positions, abilities and diligence, are able to make important contributions to our success.

The plan is designed to provide flexibility to meet our needs over two to three years in a changing and competitive environment while attempting to minimize dilution to stockholders. We do not intend to use all incentive awards at all times for each participant but will selectively grant awards primarily to achieve long-term goals. Awards will

be granted in such a way as to align the interests of participants with those of our stockholders. The plan is very similar to the 2005 plan with three exceptions:

- authorization of restricted stock units, which provide flexibility to grant equity to employees in some foreign jurisdictions tax-efficiently;
- the adjustment provision for awards other than stock options or appreciation rights that reduces the number of shares available for grant by 1.84 shares, compared to 2.2 shares under the 2005 plan, for each share awarded; and
- shares underlying grants made under prior Devon plans that are outstanding as of the effective date of the 2009 plan but subsequently cancelled or forfeited will revert to the 2009 plan and be available for future grant.

Key features of the new long-term incentive plan include:

- a prohibition against the repricing of stock options;
- a prohibition against granting options with an exercise price less than the fair market value of our common stock on the date of grant;
- a provision under which shares granted as awards other than stock options or appreciation rights will be subtracted from the total shares available for award as 1.84 shares for every one share granted;
- a maximum eight-year life for any award made under the plan; and
- the following award limits:
 - the maximum number of shares that may be awarded in the form of options to an employee in any calendar year is 800,000;
 - the maximum number of shares that may be awarded in the form of restricted stock awards, performance units, restricted stock units and Canadian restricted stock units to an employee in any calendar year is 400,000; and
 - the Compensation Committee (composed entirely of independent Directors) administers the plan and the grant of options and restricted stock awards to the Company's executive officers.

Administration

The new long-term incentive plan consists of three separate stock plans:

- *Non-executive officer plan:* this aspect of the plan is limited to participants who are not subject to Section 16 of the Securities Exchange Act of 1934 because they are not executive officers of the Company. The non-executive officer plan is administered by the Compensation Committee. However, the Compensation Committee may, to the extent permitted by law, delegate authority to the regular award committee to administer the non-executive officer plan. Our Chief Executive Officer and other individuals appointed by the Compensation Committee will comprise the regular award committee. Although the regular award committee may be authorized to administer the non-executive officer plan, it can only make awards within guidelines set by the Compensation Committee.
- *Executive officer plan:* this aspect of the plan is limited to participants who are executive officers of the Company and who, therefore, are subject to the reporting requirements of Section 16 of the Securities Exchange Act of 1934. The executive officer plan is administered exclusively by the Compensation Committee.

Except for administration and the category of participants eligible to receive awards, the terms of the non-executive officer plan and the executive officer plan are identical.

- *Non-employee Director plan:* this aspect of the plan is limited to non-employee Directors of the Company and permits only grants of nonqualified stock options, stock appreciation rights, restricted stock units and restricted stock awards. The Company's Board of Directors is responsible for selection of non-employee Directors for awards and for determination of the nature of the award. The

Compensation Committee is responsible for the administration of awards granted to non-employee Directors.

Eligibility for Participation

Our employees are eligible to participate in the new long-term incentive plan. Subject to the provisions of the 2009 plan, the Compensation Committee has exclusive power in selecting participants from among the eligible employees. In addition, non-employee Directors are eligible to receive grants of nonqualified stock options, stock appreciation rights, restricted stock units and restricted stock awards under the 2009 plan.

Types of Awards

The new long-term incentive plan provides that any or all of the following types of awards may be granted:

- nonqualified stock options and stock options intended to qualify as “incentive stock options” under Section 422 of the Internal Revenue Code;
- stock appreciation rights (SARs);
- restricted stock;
- restricted stock units;
- Canadian restricted stock units; and
- performance units.

Stock Options. The Compensation Committee may grant awards under the plan in the form of options to purchase shares of our common stock. The Compensation Committee will have the authority to determine the terms and conditions of each option, the number of shares subject to the option, and the manner and time of the option’s exercise.

The exercise price of an option may not be less than the fair market value of our common stock on the date of grant. The fair market value of shares of common stock subject to options is determined by the closing price as reported on the NYSE. As of March 31, 2009, the closing price of the Company’s common stock as reported on the NYSE was \$44.69. A participant may pay the exercise price of an option in cash, in shares of the Company’s common stock or a combination of both, provided that the exercise price (including required withholding taxes) may be paid using shares of the Company’s common stock only to the extent such exercise would not result in a compensation expense to the Company for financial accounting purposes. The Compensation Committee may permit the exercise of stock options through a broker-dealer acting on a participant’s behalf if in accordance with procedures adopted by the Company to ensure that the arrangement will not constitute a personal loan to the participant. Unless sooner terminated, the stock options granted under the plan expire eight years from the date of the grant.

Stock Appreciation Rights. The Compensation Committee may grant awards under the Plan in the form of SARs. A SAR permits the participant to receive an amount (in cash or common stock) equal to the number of SARs exercised by the participant multiplied by the excess of the fair market value of common stock on the exercise date over the exercise price. The exercise price of SARs granted under the Plan cannot be less than the fair market value of a share of common stock on the date the SAR is granted. The Compensation Committee will have the authority to determine the terms and conditions of each SAR, the number of shares subject to the SAR, and the manner and time payment of amounts attributable to a SAR.

Restricted Stock Awards and Units. Shares of restricted stock and restricted stock units awarded under the plan will be subject to the terms, conditions, restrictions and/or limitations, if any, that the Compensation Committee deems appropriate, including restrictions on continued employment.

Canadian Restricted Stock Units. The Compensation Committee may authorize the establishment of a trust for purposes of administering the grant of Canadian restricted stock units to employees of our Canadian subsidiaries and affiliated entities who perform the majority of their employment duties in Canada. The restricted stock units will have substantially the same after-tax effect for Canadian employees as the restricted stock awards described above have on United States employees. Cash contributions will be made to the trust in amounts that approximate the value

of units awarded to participants. The trust will be authorized to purchase shares of our common stock on the open market for use in settling the Canadian restricted stock units granted under the Plan. Upon vesting, the trustee of the trust would distribute the shares of our common stock which have been allocated to a participant's account. Due to restrictions in the Canadian Income Tax Act, the term of a Canadian restricted stock unit must be limited to three years.

Performance Units. The Plan permits grants of performance units, which are rights to receive cash or common stock based upon the achievement of performance goals established by the Compensation Committee. Such awards are subject to the fulfillment of conditions that may be established by the Compensation Committee including, without limitation, the achievement of performance targets based upon the factors described above relating to restricted stock awards.

Award Limitations. Subject to certain adjustment provisions, the Compensation Committee cannot grant options with respect to more than 800,000 shares of the Company's common stock to any participant in any calendar year. In addition, and subject to certain adjustment provisions, no more than 400,000 shares of the Company's common stock can be awarded to a participant under the Plan as restricted stock awards, performance units, restricted stock units or Canadian restricted stock units in any calendar year.

Termination of Employment

The Compensation Committee will determine the treatment of a participant's award in the event of death, disability, retirement or termination of employment for an approved reason. If a participant's employment is terminated for any other reason, all unvested awards will terminate (unless the participant's award agreement provides otherwise) and the Compensation Committee will provide in the award agreement the terms of exercise/payment of vested awards.

Amending the New Long-Term Incentive Plan

The Company's Board of Directors may amend the new long-term incentive plan at any time. The Company's Board of Directors may not, however, without Devon stockholder approval,

- adopt any amendment that would increase the maximum number of shares that may be granted under the 2009 plan (except for certain anti-dilution adjustments),
- materially modify the 2009 plan's eligibility requirements, or
- materially increase the benefits provided to participants under the 2009 plan. Amendments to award agreements that would have the effect of repricing participants' options are prohibited.

Change in Control Event

The Compensation Committee is authorized to provide in the award agreements for the acceleration of any unvested portion of any outstanding awards under the 2009 plan upon a change of control event.

New Plan Benefits

To date, no awards have been made under the new long-term incentive plan.

Automatic Adjustment Features

The 2009 plan provides for the automatic adjustment of the number and kind of shares available under it, and the number and kind of shares subject to outstanding awards in the event our common stock is changed into or exchanged for a different number or kind of shares of stock or other securities of Devon or another corporation, or if the number of shares of our common stock is increased through a stock dividend. The 2009 plan also provides that the Compensation Committee may adjust the number of shares available under the 2009 plan and the number of shares subject to any outstanding awards if, in the Compensation Committee's opinion, any other change in the number or kind of shares of outstanding common stock equitably requires such an adjustment.

U.S. Federal Tax Treatment

Incentive Stock Option Grant/Exercise. A participant who is granted an incentive stock option does not realize any taxable income at the time of grant or at the time of exercise (except for alternative minimum tax). Similarly, we are not entitled to a deduction at the time of grant or at the time of exercise. If the participant makes no disposition of the shares acquired pursuant to an incentive stock option before the later of two years from the date of grant of such option or one year from the date of the exercise of such shares by the participant, any gain or loss realized on a subsequent disposition of the shares will be treated as a long-term capital gain or loss. Under such circumstances, we will not be entitled to any deduction for federal income tax purposes.

Nonqualified Stock Option and Stock Appreciation Right Grant/Exercise. A participant who is granted a nonqualified stock option or stock appreciation right does not have taxable income at the time of grant. Taxable income occurs at the time of exercise in an amount equal to the difference between the exercise price of the shares and the market value of the shares on the date of exercise. We are entitled to a corresponding deduction for the same amount.

Restricted Stock Awards. A participant who has been granted an award in the form of restricted stock will not realize taxable income at the time of grant, and we will not be entitled to a deduction at the time of grant, assuming that the restrictions constitute a substantial risk of forfeiture for U.S. income tax purposes. When such restrictions lapse, the participant will receive taxable income (and have tax basis in the shares) in an amount equal to the excess of the fair market value of the shares at such time over the amount, if any, paid for such shares, and we will be entitled to a corresponding deduction. The participant may elect to include the value of his restricted stock award as income at the time it is granted under Section 83(b) of the Code, and we will take a corresponding income tax deduction at such time.

Restricted Stock Units. A participant who has been granted an award in the form of restricted stock units will not realize taxable income at the time of grant, and we will not be entitled to a deduction at the time of grant, assuming that the restrictions constitute a substantial risk of forfeiture for U.S. income tax purposes. When such restrictions lapse, the participant will receive taxable income in an amount equal to the fair market value of the shares at such time and we will be entitled to a corresponding deduction.

Section 162(m) of the Code. Section 162(m) of the Code precludes a public corporation from taking a deduction for annual compensation in excess of \$1 million paid to its principal executive officer and any of its three other most highly compensated officers. However, compensation that qualifies under Section 162(m) of the Code as “performance-based” is specifically exempt from the deduction limit. Based on Section 162(m) of the Code and the regulations thereunder, the Company’s ability to deduct compensation expense generated in connection with the exercise of stock options and stock appreciation rights granted under the plan should not be limited by Section 162(m) of the Code.

Canadian Tax Treatment

Stock Options. A participant who is granted a stock option does not have taxable income on the date of grant. Instead, tax liability is deferred until the time that the stock option is exercised. At the time of exercise, the participants are subject to tax on the difference between the value of the underlying shares acquired on the exercise of the stock option and the exercise price paid to acquire the shares. Generally, the participant will only be taxed on 50% of the difference in value. However, in certain circumstances, participants may also defer the recognition of this income until disposition of the shares. We will not be entitled to a deduction for Canadian tax purposes.

Canadian Restricted Stock Units. A participant who is granted a Canadian restricted stock unit will not have taxable income at the time of grant. Taxable income will instead occur as the participant becomes vested and shares of common stock are distributed to the participant. We will be entitled to a deduction for the payments made to the trust. However, the deduction will be deferred to the year in which the shares are vested and distributed to the participants.

AGENDA ITEM 5. STOCKHOLDER PROPOSAL FOR A DIRECTOR ELECTION MAJORITY VOTE STANDARD

The United Brotherhood of Carpenters and Joiners of America (the “UBCJA”), located at 101 Constitution Avenue, N.W., Washington, D.C., 20001, has notified Devon that it intends to present the resolution set forth below at the Annual Meeting for action by the stockholders. The UBCJA’s supporting statement for the resolution, along with the Board of Directors’ statement in opposition is set forth below. As of December 19, 2008, the UBCJA owned 7,065 shares of Devon common stock. Proxies solicited on behalf of the Board of Directors will be voted “**AGAINST**” this proposal unless stockholders specify a contrary choice in their proxies.

Resolved: That the shareholders of Devon Energy Corporation (“Company”) hereby request that the Board of Directors initiate the appropriate process to amend the Company’s bylaws to provide that director nominees shall be elected by the affirmative vote of the majority of votes cast at an annual meeting of shareholders, with a plurality vote standard retained for contested director elections, that is, when the number of director nominees exceeds the number of board seats.

Supporting Statement: In order to provide shareholders a meaningful role in director elections, our Company’s director election vote standard should be changed to a majority vote standard. A majority vote standard would require that a nominee receive a majority of the votes cast in order to be elected. The standard is particularly well-suited for the vast majority of director elections in which only board nominated candidates are on the ballot. We believe that a majority vote standard in board elections would establish a challenging vote standard for board nominees and improve the performance of individual directors and entire boards. Our Company presently uses a plurality vote standard in all director elections. Under the plurality vote standard, a nominee for the board can be elected with as little as a single affirmative vote, even if a substantial majority of the votes cast are “withheld” from the nominee.

In response to strong shareholder support for a majority vote standard in director elections, a strong majority of the nation’s leading companies, including Intel, General Electric, Motorola, Hewlett-Packard, Morgan Stanley, Wal-Mart, Home Depot, Gannett, Marathon Oil, and Safeway have adopted a majority vote standard in company bylaws or articles of incorporation. Additionally, these companies have adopted director resignation policies in their bylaws or corporate governance policies to address post-election issues related to the status of director nominees that fail to win election. However, our Company has responded only partially to the call for change, simply adopting a post-election director resignation policy that sets procedures for addressing the status of director nominees that receive more “withhold” votes than “for” votes. The plurality vote standard remains in place.

We believe that a post-election director resignation policy without a majority vote standard in Company bylaws or articles is an inadequate reform. The critical first step in establishing a meaningful vote policy is the adoption of a majority vote standard. With a majority vote policy in place, the Board can then consider action on developing post-election procedures to address the status of directors that fail to win election. A majority vote standard combined with a post-election director resignation policy would establish a meaningful right for shareholders to elect directors, and reserve for the Board an important post-election role in determining the continued status of an unelected director. We feel that this combination of the majority vote standard with a post-election policy represents a true majority vote standard.”

The Board of Directors recommends a vote “AGAINST**” the proposal for a Director election majority vote standard for these reasons:**

Opposition Statement of the Company: The Board of Directors believes that adherence to sound corporate governance policies and practices is important to ensuring that the Company is governed and managed with the highest standards of responsibility, ethics and

integrity and in the best interests of its stockholders.

Devon is incorporated under the laws of Delaware, and stockholders currently elect its directors by plurality voting. Plurality voting is the default standard under Delaware law and has long been the accepted standard among most public companies. Consequently, the rules governing plurality voting are well established and understood. The Board is cognizant of recent developments with respect to majority voting in the election of directors, and in fact has already addressed the concerns expressed in the proposal. In 2005 the Board adopted a policy (Director Resignation Policy) which is set forth in the Company's Corporate Governance Guidelines at www.devonenergy.com/CorporateGovernance. Under the Director Resignation Policy any director nominee in an uncontested election who receives a greater number of votes "withheld" than votes "for" such election shall submit his or her offer of resignation. The Governance Committee will then consider all of the relevant facts and circumstances and recommend to the Board the action to be taken with respect to such offer of resignation. The Board recently adopted an amendment to the Company's Bylaws that incorporates this policy.

We believe that the Director Resignation Policy provides stockholders a meaningful and significant voice in the election of directors, while preserving the Board's ability to exercise its independent judgment in a way that best serves the interests of both the Company and the stockholders — on a case-by-case basis. By allowing stockholders to express their preferences regarding director nominees, the Director Resignation Policy already accomplishes the primary objective of the stockholder proposal, thereby making the adoption of a majority vote standard unnecessary. Stockholders of many public companies have rejected similar stockholder proposals when those companies followed a policy similar to the Director Resignation Policy.

The shareholder proposal's characterization of our plurality voting standard, particularly the statement that a director could be elected with a single vote, is highly unrealistic. In fact, in the past 10 years, the average affirmative vote for directors has been greater than 98% of the shares voted through the plurality voting process with no director receiving less than 97% of the votes cast. As a result, the adoption of a majority voting standard would not have affected the outcome of the elections in any of these years. Not only have our Directors historically received very high levels of support, but, in addition, we maintain a strong director nomination and election process. The nomination and election process has been instrumental in the construction of a Board that is comprised of highly qualified directors from diverse backgrounds, and currently, with the exception of the Chairman and the President, all Directors are independent as defined under the New York Stock Exchange listing standards. Since our stockholders have a history of electing highly qualified and independent directors using a plurality voting system, a change in the director election process is not necessary to improve the Company's corporate governance.

In evaluating this proposal, the Board has currently determined that the Director Resignation Policy incorporated in the Company's Bylaws and our Corporate Governance Guidelines allow the Board to consider and address stockholder concerns without creating undue uncertainty. In contrast, the shareholder proposal does not address what would occur if a candidate fails to receive the requisite majority vote. Under Delaware law and Devon's Bylaws, the possible scenarios include an incumbent director remaining in office until a successor is elected and qualified, the Board of Directors electing a director to fill a vacancy, or the position remaining vacant. All of these alternatives, in the view of Devon's Board of Directors, are less desirable than the election of directors by plurality vote.

Similar shareholder proposals were made in connection with the 2004 and 2005 Annual Meetings. In both 2004 and 2005, Devon's Board of Directors recommended a vote against the proposal as the Board believed it would not improve Devon's corporate governance and was not in the best interest of Devon's stockholders. In 2004, the proposal failed overwhelmingly with a 90% vote against the proposal. In 2005, Devon's Board adopted the Director Resignation Policy as an amendment to the Corporate Governance

Guidelines and the proposal was then considered moot and not presented at the meeting. Now, with the recent adoption of the amendment to its Bylaws, the Company has strengthened its position in support of the Director Resignation Policy.

Finally, to further enhance director accountability to stockholders, in 2008 the Board of Directors recommended, and the stockholders approved, an amendment to the Company's Restated Certificate of Incorporation to eliminate the classified board structure. Following the transition period provided for by the amendment, all Directors of Devon will stand for election each year beginning with the 2011 Annual Meeting.

We are committed to strong corporate governance and it is our fiduciary duty to act in the best interests of our stockholders. We demonstrated this by the adoption of the Director Resignation Policy and the declassification of our Board. However, we will continue to monitor the majority vote issue and may take additional steps in the future consistent with our commitment to act in the best interests of our stockholders. The proposal at issue would not further enhance the ability of stockholders to impact the outcome of director elections, and, for that and the reasons presented above, we do not believe that the proposal is in the best interests of the Company or its stockholders.

For the foregoing reasons, the Board of Directors recommends a vote "AGAINST" the proposal for a Director election majority vote standard.

SUBMISSION OF STOCKHOLDER PROPOSALS AND NOMINEES

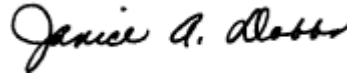

Any stockholder desiring to present a proposal for inclusion in our Proxy Statement for our 2010 Annual Meeting of Stockholders must present the proposal to our Corporate Secretary not later than December 25, 2009. Devon Energy Corporation
2009 Long-Term Incentive Plan

ARTICLE I
PURPOSE

SECTION 1.1 *Purpose.* The 2009 Devon Energy Corporation Long-Term Incentive Plan is established by Devon Energy Corporation (the “Company”) to create incentives designed to provide meaningful share ownership opportunities that align Participants’ long-term interests with those of our stockholders, emphasize long-term performance results, and promote retention of Participants. Toward these objectives, the Plan provides for the grant of Options, Restricted Stock Awards, Restricted Stock Units, Canadian Restricted Stock Units, Performance Units and SARs to Eligible Employees and the grant of Nonqualified Stock Options, SARs, Restricted Stock Awards and Restricted Stock Units to Eligible Directors, subject to the conditions set forth in the Plan. The Plan is designed to provide flexibility to meet the needs of the Company in a changing and competitive environment while minimizing dilution to the Company’s stockholders. The Company does not intend to use all incentive vehicles at all times for each Participant but will selectively grant Awards to achieve long-term goals.

SECTION 1.2 *Establishment.* The Plan is effective June 3, 2009 and for a period of ten years thereafter. The Plan shall continue in effect until all matters relating to the payment of Awards and administration of the Plan have been settled. The Plan is subject to the approval by the holders of a majority of the outstanding shares of Common Stock present, or represented and entitled to vote at a meeting called for such purpose, which approval must occur within the period ending twelve months after the date the Plan is approved by the Board. No Awards may be granted under the Plan prior to the receipt of stockholder approval.

SECTION 1.3 *Shares Subject to the Plan.* Subject to the limitations set forth in the Plan, Awards may be made under this Plan for a total of 21,500,000 shares of Common Stock. Shares of Common Stock covered by an Award under prior Devon Energy Corporation long-term incentive plans, including assumed plans, which are forfeited, cancelled, or expire after the effective date of this Plan shall be added to the shares of Common Stock authorized for issuance under this Plan. Any shares granted as Options or SARs shall be counted against this limit as one share for each share granted. Any shares granted under Awards other than Options or SARs shall be counted against this limit as 1.84 shares for each share granted. Provided further, that a maximum of 21,500,000 shares of the total authorized under this Section 1.3 may be granted as Incentive Stock Options. The limitations of this Section 1.3 shall be subject to adjustment pursuant to Article XI. The number of shares that are subject to Options or other Awards outstanding at any time under the Plan shall not exceed the number of shares which then remain available for issuance under the Plan. The Company shall, at all times, reserve and keep available sufficient shares to satisfy the requirements of the Plan during the term of the Plan.

(iii) the consummation of a merger, consolidation, statutory share exchange, or similar form of corporate transaction involving the Company or any of its subsidiaries that requires the approval of the Company’s stockholders, whether for such transaction or the issuance of securities in the transaction (a “Reorganization”), or the sale or other disposition of all or substantially all of the Company’s assets to an entity that is not an Affiliate (a “Sale”), unless:

(A) immediately following the consummation of the Reorganization or Sale, the holders of the Company’s shares of common stock hold or receive in such Reorganization or hold more than 50% of each of the outstanding common stock and the total voting power of securities eligible to vote in the election of directors of (x) the corporation resulting from such Reorganization or the corporation that has acquired all or substantially all of the assets of the Company (in either case, the “Surviving Corporation”), or (y) if applicable, the ultimate parent corporation that directly or indirectly has beneficial ownership of 100% of the voting securities eligible to elect directors of the Surviving Corporation (the “Parent Corporation”),

Benefits granted in the Canadian Employee Benefit Plan will take the form of Canadian Restricted Stock Units having substantially the same income tax consequences for such Canadian Eligible Employees as would Restricted Stock Awards granted by the Company to Eligible Employees who are residents of the United States. The Committee may further authorize the establishment of an employee benefit trust (a “Canadian Employee Benefit Trust”) for the purpose of holding the assets of the Canadian Employee Benefit Plan and shall appoint one or more persons who are residents of Canada to act as trustees of the Canadian Employee Benefit Trust.

SECTION 8.2 *Grant of Awards and Contributions to Canadian Employee Benefit Trust.* The Committee may grant to Eligible Employees, Canadian Restricted Stock Units entitling such Eligible Employees to an interest in the assets of the Canadian Employee Benefit Trust in such form that it determines necessary to comply with applicable Canadian tax law requirements, subject to the terms of the Canadian Employee Benefit Plan and such other terms and conditions as it may determine. Each Award of Canadian Restricted Stock Units shall be evidenced by an Award Agreement and such Award Agreement shall contain the terms and conditions of the Award subject to the provisions of the Canadian Employee Benefit Plan. At the time of granting an Award of Canadian Restricted Stock Units, the Committee may authorize the Company or any of its Canadian Subsidiaries or Affiliated Entities to make cash contributions to the Canadian Employee Benefit Trust, with such contributions to be used as specified in the Canadian Employee Benefit Plan, including for the purpose of acquiring shares of Common Stock of the Company on the open market through the facilities of a stock exchange. The Committee shall designate, at the time of making any contribution in respect of a Participant, when the shares of Common Stock of the Company which are acquired with the contribution pursuant to the terms of the Canadian Employee Benefit Plan are to vest pursuant to the applicable Award Agreement, and shall inform the trustees of the same.

SECTION 8.3 *Holding of Shares of Common Stock in Trust.* Subject to the specific provisions of the Canadian Employee Benefit Plan, upon completion of any purchases of shares of Common Stock of the Company by the trustees, the trustees shall immediately notionally allocate such shares to an account in respect of each Participant in proportion to the contributions received in respect of each Participant in the preceding month. The Trustees shall hold the shares in trust in the name of the trustee, until such time as: (i) the Canadian Restricted Stock Units granted to Participants are vested, in accordance with the vesting conditions designated by the Committee in the Award Agreement, or (ii) the Canadian Restricted Stock Units are forfeited by Eligible Employees as provided in the Canadian Employee Benefit Plan.

SECTION 8.4 *Conditions of Awards.* Each Award of Canadian Restricted Stock Units shall be subject to the following general conditions (with the specific details to be determined by the Company upon establishment of the Canadian Employee Benefit Plan):

Participants will not be entitled to receive cash in settlement of an Award of a Canadian Restricted Stock Unit. The Company, its Canadian Subsidiaries or Affiliated Entities, and the trustees may withhold from any amount payable to an Eligible Employee, either under the Canadian Employee Benefit Plan, or otherwise, such amount as may be necessary so as to ensure compliance with the applicable provisions of any federal, provincial or local law relating to the withholding of tax or other required deductions. For greater certainty and notwithstanding any other provision of the Canadian Employee Benefit Plan, all amounts payable to, or in respect of, a Participant under the Canadian Employee Benefit Plan shall be paid within three years following the end of the year in respect of which the Award of Canadian Restricted Stock Units was made.

(c) *Rights of Stockholders.* Prior to the date the shares of Common Stock are distributed by the trustees, Participants will have no rights to the shares of Common Stock and no rights as stockholders of the Company with respect to the shares of Common Stock held by the Canadian Employee Benefit Trust related to an Award. Title and all incidents of beneficial ownership of the shares of Common Stock will remain with the trustees while the shares are held in trust.

(d) *Additional Awards.* The Committee may authorize the Company or its Canadian Subsidiaries or Affiliated Entities to grant an additional Award to the Participant equal to the dividend that the Participant would have received had the Award been made with the underlying shares of Common Stock directly, rather than in Canadian Restricted Stock Units.

ARTICLE IX PERFORMANCE UNITS

SECTION 9.1 *Grant of Awards.* The Committee may grant Performance Units to Eligible Employees, subject to the provisions of the Plan and such other terms and conditions as it may determine. Each Award of Performance Units shall be evidenced by an Award Agreement executed by the Company and Eligible Employee, and shall contain such terms and conditions and be in such form as the Committee may from time to time approve, subject to the requirements of Section 9.2.

The Award may be paid out in cash or Common Stock as determined in the sole discretion of the Committee no later than 75 days after the vesting date of the Award unless otherwise required by applicable law.

ARTICLE X STOCK APPRECIATION RIGHTS

SECTION 10.1 *Grant of SARs.* The Committee may grant a SAR to any Eligible Employee, subject to the provisions of the Plan and subject to other terms and conditions as the Committee may determine. SARs may be granted as an independent Award separate from an Option or granted in tandem with an Option, subject to the limitations of Section 10.3. Each grant of a SAR shall be evidenced by an Award Agreement executed by the Company and the Participant and shall contain such terms and conditions and be in such form as the Committee may from time to time approve, subject to the requirements of the Plan. The exercise price of the SAR shall not be less than the Fair Market Value of a share of Common Stock on the Date of Grant of the SAR.

SECTION 10.2 *Exercise and Payment.* SARs granted under the Plan shall be exercisable in whole or in installments and at such times as shall be provided by the Committee in the Award Agreement. The amount payable with respect to each SAR shall be equal in value to the excess, if any, of the Fair Market Value of a share of Common Stock on the exercise date over the exercise price of the SAR. Payment of amounts attributable to a SAR shall be made in shares of Common Stock or cash as established by the Committee in the Award Agreement.

SECTION 10.3 *Tandem Awards.* SARs may be granted in tandem with an Option, in which event, the Participant has the right to elect to exercise either the SAR or the Option. Upon the Participant's election to exercise one of these Awards, the other tandem award is automatically terminated. In the event a SAR is granted in tandem with an Incentive Stock Option, the Committee shall subject the SAR to restrictions necessary to ensure satisfaction of the requirements under Section 422 of the Code.

ARTICLE XI STOCK ADJUSTMENTS

SECTION 11.1 *Stock Adjustments.* In the event that the shares of Common Stock, as constituted on the effective date of the Plan, shall be changed into or exchanged for a different number or kind of shares of stock or other securities of the Company or of another corporation (whether by reason of merger, consolidation, recapitalization, reclassification, stock split, combination of shares or otherwise), or if the number of such shares of Common Stock shall be increased through the payment of a stock dividend, or if rights or warrants to purchase securities of the Company shall be issued to holders of all outstanding Common Stock, then there shall be substituted for or added to each share available under and subject to the Plan (including those held in the Canadian Employee Benefit Trust), and each share theretofore appropriated under the Plan, the number and kind of shares of stock or other securities into which each outstanding share of Common Stock shall be so changed or for which each such share shall be exchanged or to which each such share shall be entitled, as the case may be, on a fair and equivalent basis in accordance with the applicable provisions of Section 424 of the Code; provided, however, with respect to Options, in no such event will such adjustment result in a modification of any Option as defined in Section 424(h) of the Code. In the event there shall be any other change in the number or kind of the outstanding shares of Common Stock, or any stock or other securities into which the Common Stock shall have been changed or for which it shall have been exchanged, then if the Committee shall, in its sole discretion, determine that such change equitably requires an adjustment in the shares available under and subject to the Plan, or in any Award, theretofore granted, such adjustments shall be made in accordance with such determination, except that no adjustment of the number of shares of Common Stock available under the Plan or to which any Award relates that would otherwise be required shall be made unless and until such adjustment either by itself or with other adjustments not previously made would require an increase or decrease of at least 1% in the number of shares of Common Stock available under the Plan or to which any Award relates immediately prior to the making of such adjustment (the "Minimum Adjustment"). Any adjustment representing a change of less than such minimum amount shall be carried forward and made as soon as such adjustment together with other adjustments required by this Article XI and not previously made would result in a Minimum Adjustment. Notwithstanding the foregoing, any adjustment required by this Article XI which otherwise would not result in a Minimum Adjustment shall be made with respect to shares of Common Stock relating to any Award immediately prior to exercise, payment or settlement of such Award. No fractional shares of Common Stock or units of other securities shall be issued pursuant to any such adjustment, and any fractions resulting from any such adjustment shall be eliminated in each case by rounding downward to the nearest whole share.

ARTICLE XII
GENERAL

SECTION 12.1 *Amendment or Termination of Plan.* The Board may alter, suspend or terminate the Plan at any time. In addition, the Board may, from time to time, amend the Plan in any manner, but may not, without stockholder approval, adopt any amendment which would (i) increase the aggregate number of shares of Common Stock available under the Plan (except by operation of Article XI), (ii) materially modify the requirements as to eligibility for participation in the Plan, or (iii) materially increase the benefits to Participants provided by the Plan.

SECTION 12.2 *Termination of Employment; Termination of Service.* If an Eligible Employee's employment with the Company, a Subsidiary, or an Affiliated Entity terminates for a reason other than death, disability, retirement, or any approved reason, all unexercised, unearned, and/or unpaid Awards, including, but not by way of limitation, Awards earned, but not yet paid, all unpaid dividends and dividend equivalents, and all interest, if any, accrued on the foregoing shall be cancelled or forfeited, as the case may be, unless the Eligible Employee's Award Agreement provides otherwise. The Compensation Committee shall (i) determine what events constitute disability, retirement or termination for an approved reason for purposes of the Plan, and (ii) determine the treatment of a Participant under the Plan in the event of death, disability, retirement, or termination for an approved reason. The Committee shall also determine the method, if any, for accelerating the vesting or exercisability of any Awards, or providing for the exercise of any unexercised Awards in the event of an Eligible Employee's death, disability, retirement, or termination for an approved reason.

In the event an Eligible Director terminates service as a director of the Company, the unvested portion of any Award shall be forfeited unless otherwise accelerated pursuant to the terms of the Eligible Director's Award Agreement or by the Board. The Eligible Director shall have a period of three years following the date he ceases to be a director to exercise any Nonqualified Stock Options or SARs which are otherwise exercisable on his date of termination of service.

SECTION 12.3 *Nontransferability of Awards.* Awards may be exercised during the lifetime of the Participant only by the Participant. More particularly (but without limiting the generality of the foregoing), an Award shall not be assigned, transferred (except as provided above), pledged or hypothecated in any way whatsoever, shall not be assigned by operation of law, and shall not be subject to execution, attachment or similar process. Any attempted assignment, transfer, pledge, hypothecation, or other disposition of the award contrary to the provisions hereof, shall be null and void and without effect. However, in the event of a Participant's death, an Award may be transferred in accordance with the provisions of a Participant's will, the applicable laws of descent and distribution or, with respect to Awards other than Incentive Stock Options, a beneficiary designation that is in a form approved by the Committee and in compliance with the provisions of this Plan and the applicable Award Agreement.

SECTION 12.4 *Withholding Taxes.* Unless otherwise paid by the Participant, the Company, its Subsidiaries or any of its Affiliated Entities shall be entitled to deduct from any payment under the Plan, regardless of the form of such payment, the amount of all applicable income and employment taxes required by law to be withheld with respect to such payment or may require the Participant to pay to it such tax prior to and as a condition of the making of such payment. In accordance with any applicable administrative guidelines it establishes, the Committee may allow a Participant to pay the amount of taxes required by law to be withheld from an Award by (i) directing the Company to withhold from any payment of the Award a number of shares of Common Stock having a Fair Market Value on the date of payment equal to the amount of the required withholding taxes or (ii) delivering to the Company previously owned shares of Common Stock having a Fair Market Value on the date of payment equal to the amount of the required withholding taxes. However, any payment made by the Participant pursuant to either of the foregoing clauses (i) or (ii) shall not be permitted if it would result in an adverse accounting charge with respect to such shares used to pay such taxes unless otherwise approved by the Committee.

SECTION 12.5 *Change of Control.* Notwithstanding any other provision in this Plan to the contrary, Awards granted under the Plan to any Eligible Employee or Eligible Director may, in the discretion of the Committee, provide in the Award Agreement that such Awards shall be immediately vested, fully earned and exercisable upon the occurrence of a Change in Control Event.

SECTION 12.6 *Amendments to Awards.* Subject to the limitations of Article IV, such as the prohibition on repricing of Options, the Committee may at any time unilaterally amend the terms of any Award Agreement, whether or not presently exercisable or vested, to the extent it deems appropriate. However, amendments which are adverse to the Participant shall require the Participant's consent.

SECTION 12.7 *Regulatory Approval and Listings.* The Company shall use its best efforts to file with the Securities and Exchange Commission as soon as practicable following approval by the stockholders of the Company of the Plan as provided in Section 1.2 of the Plan, and keep continuously effectively, a Registration Statement on Form S-8 with respect to shares of Common Stock subject to Awards hereunder. Notwithstanding anything contained in this Plan to the contrary, the Company shall have no obligation to issue shares of Common Stock under this Plan prior to:

(a) the obtaining of any approval from, or satisfaction of any waiting period or other condition imposed by, any governmental agency which the Committee shall, in its sole discretion, determine to be necessary or advisable;

(b) the admission of such shares to listing on the stock exchange on which the Common Stock may be listed; and

(c) the completion of any registration or other qualification of such shares under any state or Federal law or ruling of any governmental body which the Committee shall, in its sole discretion, determine to be necessary or advisable.

SECTION 12.8 *Right to Continued Employment.* Participation in the Plan shall not give any Eligible Employee any right to remain in the employ of the Company, any Subsidiary, or any Affiliated Entity. The Company or, in the case of employment with a Subsidiary or an Affiliated Entity, the Subsidiary or Affiliated Entity reserves the right to terminate any Eligible Employee at any time. Further, the adoption of this Plan shall not be deemed to give any Eligible Employee or any other individual any right to be selected as a Participant or to be granted an Award.

SECTION 12.9 *Beneficiary Designation.* In the event of the death of a Participant, the portion of the Participant's Award with respect to which vesting dates have occurred shall be paid to the then surviving beneficiary designated by the Participant, and if there is no beneficiary then surviving or designated, then such benefits will automatically be paid to the estate of the Participant.

SECTION 12.10 *Reliance on Reports.* Each member of the Committee and each member of the Board shall be fully justified in relying or acting in good faith upon any report made by the independent public accountants of the Company and its Subsidiaries and upon any other information furnished in connection with the Plan by any person or persons other than himself or herself. In no event shall any person who is or shall have been a member of the Committee or of the Board be liable for any determination made or other action taken or any omission to act in reliance upon any such report or information or for any action taken, including the furnishing of information, or failure to act, if in good faith.

SECTION 12.11 *Construction.* Masculine pronouns and other words of masculine gender shall refer to both men and women. The titles and headings of the sections in the Plan are for the convenience of reference only, and in the event of any conflict, the text of the Plan, rather than such titles or headings, shall control.

SECTION 12.12 *Governing Law.* The Plan shall be governed by and construed in accordance with the laws of the State of Delaware except as superseded by applicable federal law.

SECTION 12.13 *Severability*. If any provision of the Plan or any Award is or becomes or is deemed to be invalid, illegal, or unenforceable in any jurisdiction or as to any Participant or Award, or would disqualify the Plan or any Award under any law deemed applicable by the Committee, such provision shall be construed or deemed amended to conform to the applicable laws, or if it cannot be construed or deemed amended without, in the determination of the Committee, materially altering the intent of the Plan or the Award, such provision shall be stricken as to such jurisdiction, Participant or Award and the remainder of the Plan and any such Award shall remain in full force and effect.

SECTION 12.14 *Other Laws*. The Committee may refuse to issue or transfer any shares of Common Stock or other consideration under an Award if, acting in its sole discretion, it determines that the issuance or transfer of such shares or such other consideration might violate any applicable law or regulation or entitle the Company to recover the same under Section 16(b) of the Exchange Act, and any payment tendered to the Company by a Participant, other holder or beneficiary in connection with the exercise of such Award shall be promptly refunded to the relevant Participant, holder or beneficiary.

SECTION 12.15 *Section 409A Considerations*. In the event the Committee grants to a Participant an Award that is subject to Section 409A of the Code, the Award Agreement shall contain such terms as are necessary to satisfy the documentary requirements imposed by Section 409A of the Code and the regulations promulgated thereunder at the time the Award is granted.

SECTION 12.16 *No Trust or Fund Created*. Except as provided in the Canadian Employee Benefit Plan for the creation of the Canadian Employee Benefit Trust, neither the Plan nor an Award shall create or be construed to create a trust or separate fund of any kind or a fiduciary relationship between the Company and a Participant or any other person. To the extent that a Participant acquires the right to receive payments from the Company pursuant to an Award, such right shall be no greater than the right of any general unsecured creditor of the Company.
