Notes to Consolidated Interim Financial Statements

1. Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete consolidated financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included. All such adjustments are of a normal and recurring nature.

These financial statements should be read in conjunction with the audited consolidated financial statements at December 31, 2010. Operating results for the three and six months ended June 30, 2011 are not necessarily indicative of the results that may be expected for the year ending December 31, 2011. The Company prepares its financial statements in accordance with accounting principles generally accepted in the United States (“U.S. GAAP”). This basis of accounting involves the application of accrual accounting and consequently, revenues and gains are recognized when earned, and expenses and losses are recognized when incurred.

The consolidated financial statements include the accounts of the Company and its subsidiary companies. On consolidation, all inter-entity transactions and balances have been eliminated.

The financial statements are expressed in U.S. funds.

Management has performed an evaluation of the Company’s activities through the date and time these financial statements were issued and concluded that there are no additional significant events requiring recognition or disclosure.

2. Adoption of New Accounting Standards

Revenue Recognition and Disclosures

In October 2009, the FASB issued Update No. 2009-13, “Revenue Recognition (Topic 605)—Multiple-Deliverable Revenue Arrangements, a consensus of the FASB Emerging Issues Task Force” (ASU 2009-13). ASU 2009-13 provides amendments to the criteria in ASC 605-25 for separating consideration in multiple-deliverable arrangements. As a result of those amendments, multiple-deliverable arrangements will be separated in more circumstances than under existing U.S. GAAP. ASU 2009-13: 1) establishes a selling price hierarchy for determining the selling price of a deliverable, 2) eliminates the residual method of allocation and requires that arrangement consideration be allocated at the inception of the arrangement to all deliverables using the relative selling price method, 3) requires that a vendor determine its best estimate of selling price in a manner that is consistent with that used to determine the price to sell the deliverable on a standalone basis, 4) significantly expands the disclosures related to a vendor’s multiple-deliverable revenue arrangements. ASU 2009-13 is effective prospectively for revenue arrangements entered into or materially modified in fiscal years beginning on or after June 15, 2010. The adoption of ASU 2009-13 did not have a material effect on the Company’s financial position or results of operations.

2. Adoption of New Accounting Standards (Cont'd)

In April 2010, the FASB issued Update No. 2010-17, "Revenue Recognition—Milestone Method (Topic 605): Milestone Method of Revenue Recognition". This ASU provides guidance on defining a milestone under Topic 605 and determining when it may be appropriate to apply the milestone method of revenue recognition for research or development transactions. Consideration that is contingent on achievement of a milestone in its entirety may be recognized as revenue in the period in which the milestone is achieved only if the milestone is judged to meet certain criteria to be considered substantive. Milestones should be considered substantive in their entirety and may not be bifurcated. An arrangement may contain both substantive and non substantive milestones that should be evaluated individually. ASU 2010-17 is effective on a prospective basis for milestones achieved in fiscal years, and interim periods within those years, beginning on or after June 15, 2010. The adoption of ASU 2010-07 did not have a material effect on the Company's financial position or results of operations.

3. Significant Accounting Policies

Recently Issued Accounting Pronouncements

In January 2011, the FASB issued Update No. 2011-01, "Receivables (Topic 310): Deferral of the Effective Date of Disclosures about Troubled Debt Restructurings in Update No. 2010-20". ASU 2010-20 amends Topic 310 to improve the disclosures that an entity provides about the credit quality of its financing receivables and the related allowance for credit losses. As a result of these amendments, an entity is required to disaggregate by portfolio segment or class certain existing disclosures and provide certain new disclosures about its financing receivables and related allowance for credit losses. ASU 2011-01 temporarily delays the effective date of the disclosures about troubled debt restructurings in ASU 2010-20 for public entities.

The FASB believes this guidance will be effective for interim and annual periods ending after June 15, 2011. The adoption of this Statement did not have a material effect on the Company's financial position or results of operations.

In April 2011, the FASB issued Update No. 2011-02, "Receivables (Topic 310): A Creditor's Determination of Whether a Restructuring Is a Troubled Debt Restructuring". The amendments in ASU 2011-02 apply to all creditors that restructure receivables that fall within the scope of Subtopic 310-40, Receivables—Troubled Debt Restructurings by Creditors. The amendments in this ASU provide additional guidance to assist creditors in determining whether a restructuring of a receivable meets the criteria to be considered a troubled debt restructuring. ASU 2011-2 is effective for public companies for interim and annual periods beginning on or after June 15, 2011 and is to be applied retrospectively to restructurings occurring on or after the beginning of the fiscal year of adoption. Early application is permitted. The adoption of this Statement did not have a material effect on the Company's financial position or results of operations.

3. Significant Accounting Policies (Cont'd)

In May 2011, the FASB issued Update No. 2011-04, "Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs". The amendments in this Update result in common fair value measurement and disclosure requirements in U.S. GAAP and IFRSs. Consequently, the amendments change the wording used to describe many of the requirements in U.S. GAAP for measuring fair value and for disclosing information about fair value measurements. For many of the requirements, the Board does not intend for the amendments in this Update to result in a change in the application of the requirements in Topic 820. Some of the amendments clarify the Board's intent about the application of existing fair value measurement requirements. Other amendments change a particular principle or requirement for measuring fair value or for disclosing information about fair value measurements. For public entities, ASU 2011-4 is effective during interim and annual periods beginning after December 15, 2011 and early application is not permitted. The adoption of this amendment is not expected to have a material effect on the Company's financial position or results of operations.

In June 2011, the FASB issued Update No. 2011-05, "Comprehensive Income (Topic 220): Presentation of Comprehensive Income. Under the amendments, an entity has the option to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. In both choices, an entity is required to present each component of net income along with total net income, each component of other comprehensive income along with a total for other comprehensive income, and a total amount for comprehensive income. This Update eliminates the option to present the components of other comprehensive income as part of the statement of changes in stockholders' equity. The amendments in this Update do not change the items that must be reported in other comprehensive income or when an item of other comprehensive income must be reclassified to net income. ASU 2011-05 should be applied retrospectively. For public entities, the amendments are effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. Early adoption is permitted. The adoption of this amendment is not expected to have a material effect on the Company's financial position or results of operations.

Item 2. Management’s Discussion and Analysis of Financial Conditions and Results of Operations.

Introduction to Management’s Discussion and Analysis

The purpose of this section, Management’s Discussion and Analysis of Financial Condition and Results of Operations, is to provide a narrative explanation of the financial statements that enables investors to better understand our business, to enhance our overall financial disclosures, to provide the context within which our financial information may be analyzed, and to provide information about the quality of, and potential variability of, our financial condition, results of operations and cash flows. Unless otherwise indicated, all financial and statistical information included herein relates to our continuing operations. Unless otherwise indicated or the context otherwise requires, the words, “IntelGenx, “Company”, “we”, “us”, and “our” refer to IntelGenx Technologies Corp. and its subsidiaries, including IntelGenx Corp. This information should be read in conjunction with the accompanying unaudited Consolidated Financial Statements and Notes thereto.

Company Background

We are a drug delivery company established in 2003 and headquartered in Montreal, Quebec, Canada. Our focus is on the development of novel oral immediate-release and controlled-release products for the pharmaceutical market. Our business strategy is to develop pharmaceutical products based on our proprietary drug delivery technologies and, once the viability of a product has been demonstrated, to license the commercial rights to partners in the pharmaceutical industry. In certain cases, we rely upon partners in the pharmaceutical industry to fund development of the licensed products, complete the regulatory approval process with the U.S. Food and Drug Administration (“FDA”) or other regulatory agencies relating to the licensed products, and assume responsibility for marketing and distributing such products.

In addition, we may choose to pursue the development of certain products until the project reaches the marketing and distribution stage. We will assess the potential for successful development of a product and associated costs, and then determine at which stage it is most prudent to seek a partner, balancing such costs against the potential for additional returns earned by partnering later in the development process.

We have also undertaken a strategy under which we will work with pharmaceutical companies in order to develop new dosage forms for pharmaceutical products for which patent protection is nearing expiration. Under §(505)(b)(2) of the Food, Drug, and Cosmetics Act, the FDA may grant market exclusivity for a term of up to three years of exclusivity following approval of a listed drug that contains previously approved active ingredients but is approved in a new dosage, dosage form, route of administration or combination, or for a new use, the approval of which was required to be supported by new clinical trials, other than bioavailability studies, conducted by or for the sponsor.

We are currently continuing to develop the existing products in our pipeline and may also perform research and development on other potential products as opportunities arise.

We currently purchase and/or lease, on an as-needed basis, the equipment necessary for performing research and development activities related to our products.

We plan to hire new personnel, primarily in the area of research and development, on an as-needed basis as we enter into partnership agreements and increase our research and development activities.

Key Developments

We achieved a number of milestones in our strategic development, growth and future income potential throughout the first six months of 2011, most notably:

Financing:

On June 22, 2011, we announced the closing of two concurrent private placement offerings in the USA and Canada. We issued approximately 4.8 million shares of common stock at a per share purchase price of US\$0.67, and three-year warrants to purchase up to approximately 2.4 million shares of common stock at an exercise price of US\$0.74 per share, for aggregate gross proceeds of approximately US\$3.2 million. We intend to use the net proceeds to support our strategic development projects and for working capital.

CPI-300 Antidepressant Tablet:

Background:

CPI-300 is a higher strength of the antidepressant bupropion HCl, the active ingredient in Wellbutrin XL®.

April 2009: submitted a New Drug Application ("NDA") to the FDA.

August 2009: sued by Biovail Laboratories SLR ("Biovail") for patent infringement under the Hatch-Waxman Act.

January 2010: announced manufacturing site change for the manufacture of CPI-300 to Pillar5 Pharma.

March 2010: U.S. PTO issued patent number US 7,674,479 protecting CPI-300 against generic copies.

February 2010: Complete Response Letter ("CRL") received from FDA.

June 2010: met with FDA to clarify steps necessary to obtain regulatory approval.

Progress in 2011:

On January 4, 2011, we announced that the United States District Court of Delaware has ruled in our favor regarding claim construction for the two patent terms at issue in the patent infringement action brought forward by Biovail. The ruling arises from a special proceeding required under U.S. patent law called a "Markman Hearing" where both sides present to the court their arguments on how they believe the patent terms at issue should be interpreted.

On February 3, 2011, we announced that the United States District Court of Delaware had dismissed the lawsuit against us. Biovail agreed to dismissal of the action following the ruling on the Markman Hearing.

On May 16, 2011, we announced that we had submitted our reply to the CRL issued in February 2010 by the FDA.

On June 14, 2011, we announced that the FDA has accepted the resubmission of our NDA 505(b)(2) in response to the February 2010 CRL as a complete, Class 2 response. In addition, the FDA has established November 13, 2011 as its target action date under the Prescription Drug User Fee Act ("PDUFA").

Anti-Psychotic Film:

On February 7, 2011, we announced the completion of a pilot study that indicates that we have successfully developed a novel oral film, INT0022, which is likely to be bioequivalent to a leading anti-psychotic in a pivotal bioequivalency study. INT0022 has been developed using our proprietary immediate release "VersaFilm" drug delivery technology. This was a randomized, two-period, two-way crossover study in healthy male subjects. The study was designed to determine whether INT0022 will be bioequivalent to a leading anti-psychotic product in a pivotal bioequivalency study as measured by industry standard pharmacokinetic measures, peak plasma concentration (C_{max}) and area under the curve (AUC). The study results indicate that INT0022 will likely be bioequivalent with the brand product and allow us to advance the product to the pivotal stage.

On June 14, 2011, we announced the execution of a binding term-sheet with RedHill Biopharma Ltd. ("RedHill"), an Israeli corporation, to co-develop and license our anti-psychotic oral thin film. The term-sheet sets forth the main criteria to be incorporated into a definitive development and license agreement under which RedHill would obtain exclusive worldwide rights to market and sell our rapidly dissolving anti-psychotic oral film product. In exchange, we would receive upfront, milestone, and external development fees totaling up to US\$2.3 million from RedHill and, upon commercialization of the product, we would receive up to 50% of all proceeds including, but not limited to, all sales milestones and income from the product world-wide.

Insomnia Film:

On April 6, 2011 we announced the completion of a pilot biostudy indicating that we have developed a novel oral film, INT0020, that suggests bioequivalency to a leading branded product for the treatment of insomnia. INT0020 has been developed using our proprietary immediate release "VersaFilm" drug delivery technology.

This was a randomized, two-period, two-way crossover study in healthy male subjects. The study was designed to determine whether INT0020 is bioequivalent to a leading insomnia product as measured by industry standard pharmacokinetic measures, peak plasma concentration (Cmax) and area under the curve (AUC). The study results indicate that INT0020 should meet acceptance criteria for bioequivalency for both Cmax and AUC once we decide to advance the product to the larger pivotal bioequivalency study.

Currency rate fluctuations

Our operating currency is Canadian dollars, while our reporting currency is U.S. dollars. Accordingly, our results of operations and balance sheet position have been affected by currency rate fluctuations. The following management discussion and analysis takes this into consideration whenever material.

Results of Operations for the six month period ended June 30, 2011 compared to the six month period ended June 30, 2010.

In U.S.\$ thousands	2011	2010	Increase/ (Decrease)	Percentage Change
Revenue	\$ 144	\$ 308	\$ (164)	53%
Research and Development Expenses	634	579	55	9%
Research and Development Tax Credit	(83)	(48)	35	73%
Management Salaries	268	316	(48)	15%
General and Administrative Expenses	163	105	58	55%
Professional Fees	274	1,050	(776)	74%
Net Loss	(1,180)	(1,715)	(535)	31%

Revenue

Total revenue and other income decreased from \$308 thousand in the first six months of 2010 to \$144 thousand in the first six months of 2011.

Royalty revenues earned from commercialization of the first product fully-developed by us, a prenatal multivitamin supplement marketed as Gesticare® in the USA, decreased to approximately \$52 thousand in the first six months of 2011 from \$154 thousand in the same period of the previous year. The deterioration results from increased competition in the nutritional supplement market.

Revenue earned from our pharmaceutical partners for development milestones achieved decreased from \$143 thousand in the first six months of 2010 to \$89 thousand in the first six months of 2011. The decrease reflects the changing status of research and development projects as they progress and development milestones are realized, new development projects are undertaken, or projects are completed.

Research and Development (“R&D”) Expenses

R&D expenses totaled \$634 thousand in the first six months of 2011, compared with \$579 thousand in the first six months of 2010.

Included within R&D expenses for 2011 are R&D Salaries of \$318 thousand, of which approximately \$7 thousand represents non-cash compensation. This compares to R&D Salaries of \$242 thousand in 2010, of which approximately \$2 thousand represented non-cash compensation. Approximately \$21 thousand of the increase in R&D Salaries is related to the foreign exchange impact arising from the translation of our operating currency into our reporting currency, and approximately \$55 thousand of the increase is attributable to the addition of a scientist in May 2010, the return of a scientist from maternity leave, and R&D staff salary increases.

In the first six months of 2011 we recorded estimated Research and Development Tax Credits and refunds of \$83 thousand, compared with \$48 thousand that was recorded in the first six months of the previous year.

Management Salaries and General and Administrative Expenses

Management salaries decreased from \$316 thousand in the first six months of 2010 to \$268 thousand in the first six months of 2011. The decrease relates to the termination of a consultancy agreement for business development activities in the fourth quarter of 2010, which was partially compensated by the additional costs of temporary assistance for business development through the first quarter of 2011, plus approximately \$18 thousand related to the foreign exchange impact arising from the translation of our operating currency into our reporting currency.

Included in management salaries are approximately \$5 thousand (2010: \$14 thousand) in non-cash compensation resulting from options granted to management employees in 2008 and 2009, and \$5 thousand (2010: \$21 thousand) in non-cash compensation from options granted to non-employee directors in 2010.

General and administrative expenses increased from \$105 thousand in the first six months of 2010 to \$163 thousand in the first six months of 2011. The increase relates to the write-off of a receivable in the amount of approximately \$52 thousand, which is no longer collectible, plus approximately \$11 thousand related to the foreign exchange impact arising from the translation of our operating currency into our reporting currency.

Professional Fees

Professional fees for the first six months of 2011 decreased by \$776 thousand, or 74%, to \$274 thousand from \$1,050 thousand in the first six months of 2010.

The decrease in professional fees is primarily attributable to the dismissal in February 2011 of the patent infringement lawsuit that was initiated by Biovail against us in August 2009. The dismissal of the litigation followed our previous announcement on January 4th, 2011 that the court had ruled in favor of IntelGenx regarding claim construction for the two patent terms at issue in the patent infringement action brought forward by Biovail under the Drug Price Competition and Patent Term Restoration Act ("Hatch-Waxman Act"). The ruling arose from a special proceeding required under U.S. patent law called a "Markman Hearing" where both sides presented to the court their arguments on how they believed the patent terms at issue should be interpreted. Subsequent to the ruling on the Markman Hearing, Biovail agreed to dismissal of the action.

In the first six months of 2010 we incurred legal expenses in respect of the Biovail litigation of approximately \$705 thousand, compared with \$20 thousand in the first six months of 2011.

Included within professional fees in the first six months of 2011 is a non-cash expense of approximately \$7 thousand (2010: \$7 thousand) for options granted to investor relation firms for investor relation services.

Share-Based Compensation Expense, Warrants and Stock Based Payments

Share-based compensation expense, warrants and share-based payments totaled \$24 thousand in the first six months of 2011, compared with \$44 thousand in the first six months of 2010.

We expensed approximately \$12 thousand in the first six months of 2011 for options granted to our employees in 2009, 2010 and 2011 under the 2006 Stock Option Plan and approximately \$5 thousand for options granted to non-employee directors in 2010, compared with \$16 thousand and \$21 thousand, respectively, which was expensed in the first six months of the previous year.

We also expensed \$7 thousand in the first six months of 2011 for options granted to investor relation firms for investor relation services, compared to \$7 thousand that was expensed in the first six months of 2010.

There remains approximately \$45 thousand in stock-based compensation to be expensed in fiscal 2011, 2012 and 2013 of which approximately \$39 thousand relates to the issuance of options to our employees and directors during 2009 and 2010, and approximately \$6 thousand relates to options granted to investor relations firms. We anticipate the issuance of additional options and warrants in the future, which will continue to result in stock-based compensation expense.

Net Loss

The net loss for the first six months of 2011 declined by \$535 thousand, or 31%, versus the net loss of \$1,715 thousand in the same period of the previous year. Included within the net loss for the first six months of 2011 is a loss of approximately \$80 thousand related to a foreign exchange impact arising from the translation of our operating currency into our reporting currency, which is the effect of the strengthening of the Canadian dollar versus the U.S. dollar. The decrease in net loss primarily relates to the decrease in legal fees of \$685 thousand related to the dismissal of the Biovail litigation, partly offset by a decrease in revenue and other income of \$164 thousand, the write-off of an accounts receivable in the amount of \$52 thousand deemed to be no longer collectible

Key items from the Balance Sheet as at June 30, 2011 compared to December 31, 2010

In U.S.\$ thousands

	<u>2011</u>	<u>2010</u>	<u>Increase/ (Decrease)</u>	<u>Percentage Change</u>
Current Assets	\$ 3,629	\$ 1,666	\$ 1,963	118%

Current Liabilities	382	349	33	9%
Additional Paid-in Capital	14,090	11,087	3,003	27%

Current Assets

Current assets totaled \$3,629 thousand at June 30, 2011 compared with \$1,666 thousand at December 31, 2010. The increase of \$1,963 thousand is primarily attributable to an increase in cash and cash equivalents of approximately \$2,057 thousand arising from the private placement offerings completed on June 21, 2011 and an increase in investment tax credits receivable of approximately \$89 thousand, partially off-set by a decrease in accounts receivable of approximately \$202 thousand.

Prepaid Expenses

As of June 30, 2011 prepaid expenses totaled \$66 thousand, compared to \$47 thousand at December 31, 2010. The increase relates primarily to a deposit paid in respect of planned attendance at an exhibition in the fourth quarter of 2011.

Liquidity and Capital Resources

On June 21, 2011, as part of two concurrent private placement offerings, we issued approximately 4.8 million shares of common stock, and three-year warrants to purchase up to approximately 2.4 million shares of common stock, for aggregate gross proceeds of approximately US\$3.2 million. Each warrant entitles the holder to purchase one half of one common share at an exercise price of \$0.74 per common share and expires 36 months after the date of issuance.

The private placements consisted of a definitive securities purchase agreement with certain accredited and institutional investors for the issuance and sale in a private placement transaction (the "US Private Offering") of 2,582,536 shares and warrants to purchase up to 1,291,268 shares of common stock, for aggregate gross proceeds of approximately \$1.7 million, and a definitive subscription agreement solely with Canadian investors for the issuance and sale in a concurrent non-brokered private placement transaction (the "Canadian Private Offering") of 2,238,806 shares and warrants to purchase up to 1,119,403 shares of common stock, for aggregate gross proceeds of approximately \$1.5 million.

We paid an agent cash commissions in the amount of approximately \$121 thousand, representing 7% of the aggregate gross proceeds received by us in the US Private Offering, plus expenses in the amount of approximately \$28 thousand, and issued warrants to the agent to purchase 180,778 shares of common stock, representing 7% of the amount of shares sold in the US Private Offering. We also paid cash finder's fees in the amount of approximately \$105 thousand, representing 7% of the aggregate gross proceeds received by us in the Canadian Private Offering; and issued warrants to purchase 156,716 shares of common stock, representing 7% of the amount of shares sold in the Canadian Private Offering. Each warrant entitles the holder to purchase one half of one common share at an exercise price of \$0.74 per common share and expires 36 months after the date of issuance. In addition, we paid approximately \$114 thousand in cash consideration for other transaction costs, which have been reflected as a reduction of the common shares and the warrants based on their relative fair values.

Cash and cash equivalents totaled \$3,201 thousand as at June 30, 2011, representing an increase of \$2,057 thousand, compared to \$1,144 thousand as at December 31, 2010.

On March 4, 2011, \$108 thousand agents' warrants were exercised for 227,625 common shares having a par value of \$0 thousand for cash consideration of \$108 thousand, resulting in an increase in additional paid-in capital of \$108 thousand.

On June 29, 2011, \$9 thousand agents' warrants were exercised for 18,531 common shares having a par value of \$0 thousand for cash consideration of \$9 thousand, resulting in an increase in additional paid-in capital of \$9 thousand.

As at June 30, 2011, we had accumulated a deficit of \$10,941 thousand compared with an accumulated deficit of \$9,761 thousand as at December 31, 2010. Total assets amounted to \$3,779 thousand and shareholders' equity totaled \$3,397 thousand as at June 30, 2011, compared with total assets and shareholders' equity of \$1,825 thousand and \$1,476 thousand, respectively, as at December 31, 2010.

Accounts receivable totaled \$76 thousand as at June 30, 2011 compared with \$278 thousand as at December 31, 2010. The decrease relates primarily to a sales tax refund in the amount of approximately \$135 thousand that we received in the second quarter of 2011, and the write-off of a receivable in the first quarter of 2011 in the amount of approximately \$52 thousand that was no longer deemed to be collectible.

In addition, we had R&D investment tax credits receivable of approximately \$286 thousand as at June 30, 2011 as compared to \$197 thousand as at December 31, 2010. We expect to receive a refund of approximately \$200 thousand of the R&D investment tax credits during the second half of 2011.

Accounts payable and accrued liabilities as at June 30, 2011 amounted to \$382 thousand (December 31, 2010 - \$349 thousand), of which approximately \$30 thousand relates to research and development activities, approximately \$219 thousand relates to professional fees, and approximately \$123 thousand relates to accrued payroll liabilities.

- 75,428 shares issued related to the cashless exercise of warrants on May 18, 2011
- 4,821,342 shares issued related to the US and Canadian private placements on June 21, 2011
- 221,710 shares issued related to the cashless exercise of warrants on June 23, 2011
- 18,531 shares issued related to the exercise of agents' warrants on June 29, 2011

Capital stock is disclosed at its par value with the excess of proceeds shown in Additional Paid-in-Capital.

Additional Paid-in-Capital

Additional paid-in capital totaled \$14,090 thousand at June 30, 2011 compared with \$11,087 thousand at December 31, 2010. The change is made up of increases of \$2,414 thousand, \$817 thousand, and \$153 thousand for the private placements completed on June 21, 2011 in relation to common stock issued, warrants, and agent's compensation respectively as well as a decrease of \$522 thousand for transaction costs. Additional paid in capital also increased by \$117 thousand related to the exercise of agents' warrants and \$24 thousand for stock-based compensation, of which approximately \$7 thousand is attributable to the amortization of stock options granted to our investor relations consultants and approximately \$17 thousand is attributable to the amortization of stock options granted to employees and directors.
