IntelGenx Reports Record Third Quarter 2015 Financial Results

Saint Laurent, Quebec , November 3, 2015 - IntelGenx Technologies Corp. (TSX-V: IGX) (OTCQX: IGXT) (the “Company” or “IntelGenx”) today reported financial results for the three and nine month periods ended September 30, 2015. All amounts are in U.S. Dollars unless otherwise stated.

2015 Third Quarter Financial Highlights:

- Revenues reached \$2.38 million, an increase of 427% over the same period last year
- Net income was \$1.35 million, compared to a net loss of \$0.43 million over the same period last year
- Adjusted EBITDA was \$1.39 million, compared to a negative \$0.41 million over the same period last year
- Cash and cash equivalents totaled \$2.26 million as at September 30, 2015

2015 Nine Month Financial Highlights:

- Revenue was \$3.59 million, an increase of 331% over the same period last year
- Net income was \$1.02 million, compared to a net loss of \$1.49 million over the same period last year
- Adjusted EBITDA was \$1.26 million, compared to a negative \$1.38 million over the same period last year

Recent Operational Highlights:

- Net sales of Forfivo XL continued to grow in the third quarter 2015 by 16% compared to the second quarter of 2015, with net sales at \$2.5 million (\$4.7 million gross). For the past nine months, net sales of Forfivo XL[®] totaled \$6.3 million (\$12 million gross), an increase of 117% compared to the nine month period in 2014
- IntelGenx state-of-the-art manufacturing and laboratory facilities soon to be completed with new corporate offices now fully operational

“Our record results this quarter clearly demonstrate the strong execution of our strategy to become one of the leading drug delivery companies globally,” commented Dr. Horst G. Zerbe, President and CEO of IntelGenx. “We are pleased with the continued sales growth of Forfivo XL as it generates revenue for the Company which is invested back into building our strong pipeline for long-term future growth. With our state-of-the-art manufacturing and laboratory facilities soon to be completed, this will give the Company many competitive advantages including offering full service to our customers and most importantly mitigate risks of our competitors gaining knowledge of our superior technology in the oral thin films business.”

Financial Results:

Total revenues for the three month period ended September 30, 2015 amounted to \$2.38 million, representing an increase of \$1.9 million or 427% compared to \$0.45 million for the three month period ended September 30, 2014. Total revenues for the nine month period ended September 30, 2015 amounted to \$3.59 million representing an increase of \$2.75 million or 331% compared to \$0.83 million for the nine month period ended September 30, 2014. The increases for the three month and nine month periods ended September 30, 2015 compared to the last year’s corresponding periods are mainly attributable to the one-time milestone payment of \$3 million from IntelGenx’ licensing partner Edgemont triggered by Edgemont reaching in July 2015, \$7 million of cumulative net trade sales of Forfivo XL[®] over the preceding 12 months. From that \$3 million milestone payment, \$1 million was received in the current quarter and the \$2 million balance will be received in Q1 2016. Nevertheless, 2/6 of the \$2 million was recognized as revenue in the quarter ended September 30, 2015.

Operating costs and expenses were \$1.03 million for the third quarter of 2015 compared to \$0.9 million in the comparable period of 2014. Operating costs and expenses were \$2.49 million for the first nine months of 2015, versus \$2.35 million for the corresponding period of 2014.

IntelGenx recorded operating income of \$1.35 million for the three month period ended September 30, 2015 compared to an operating loss of \$0.44 million for the three month period ended September 30, 2014. For the first nine months of 2015, the Company generated operating income of \$1.10 million compared to an operating loss of \$1.51 million for the comparable period of 2014.

The Company generated net income of \$1.35 million or \$0.02 on a basic and diluted per share basis for the three month period ended September 30, 2015 compared to a net loss of \$0.43 million or (\$0.01) on a basic and diluted per share basis for the three month period ended September 30, 2014. Net income was \$1.02 million or \$0.01 on a basic and diluted per share basis for the first nine months of 2015 compared to a net loss of \$1.49 million or (\$0.03) on a basic and diluted per share basis for the first nine months of 2014.

“We continue to focus on managing our costs in an effort of keeping our strong financial discipline and we are highly confident that we will achieve EBITDA positive for the entire year,” said Mr. Andre Godin, Executive Vice-President and CFO of IntelGenx. “We are making a concerted effort of building a stronger capital market presence for IntelGenx with the key goal of increasing long-term shareholder value.”

Cash on hand as at September 30, 2015 was \$2.26 million, representing a decrease of \$2.13 million compared with the balance of \$4.39 million as at December 31, 2014. The decrease in cash relates primarily to the investments made into our state-of-the-art manufacturing facilities.
