Notes to Consolidated Interim Financial Statements

June 30, 2012

(Expressed in U.S. Funds)

(Unaudited)

1. Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete consolidated financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included. All such adjustments are of a normal and recurring nature.

These financial statements should be read in conjunction with the audited consolidated financial statements at December 31, 2011. Operating results for the three and six months ended June 30, 2012 are not necessarily indicative of the results that may be expected for the year ending December 31, 2012. The Company prepares its financial statements in accordance with accounting principles generally accepted in the United States ("U.S. GAAP"). This basis of accounting involves the application of accrual accounting and consequently, revenues and gains are recognized when earned, and expenses and losses are recognized when incurred.

The consolidated financial statements include the accounts of the Company and its subsidiary companies. On consolidation, all inter-entity transactions and balances have been eliminated.

The financial statements are expressed in U.S. funds.

Management has performed an evaluation of the Company's activities through the date and time these financial statements were issued and concluded that there are no additional significant events requiring recognition or disclosure.

2. Adoption of New Accounting Standards

Revenue Recognition and Disclosures

In May 2011, the FASB issued Update No. 2011-04, "Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs". The amendments in this Update result in common fair value measurement and disclosure requirements in U.S. GAAP and IFRSs. Consequently, the amendments change the wording used to describe many of the requirements in U.S. GAAP for measuring fair value and for disclosing information about fair value measurements. For many of the requirements, the Board does not intend for the amendments in this Update to result in a change in the application of the requirements in Topic 820. Some of the amendments clarify the Board's intent about the application of existing fair value measurement requirements. Other amendments change a particular principle or requirement for measuring fair value or for disclosing information about fair value measurements. For public entities, ASU 2011-4 is effective during interim and annual periods beginning after December 15, 2011. The adoption of this Statement did not have a material effect on the Company's financial position or results of operations.

2. Adoption of New Accounting Standards (Cont'd)

In June 2011, the FASB issued Update No. 2011-05, "Comprehensive Income (Topic 220): Presentation of Comprehensive Income". Under the amendments, an entity has the option to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. In both choices, an entity is required to present each component of net income along with total net income, each component of other comprehensive income along with a total for other comprehensive income, and a total amount for comprehensive income. This Update eliminates the option to present the components of other comprehensive income as part of the statement of changes in stockholders' equity. The amendments in this Update do not change the items that must be reported in other comprehensive income or when an item of other comprehensive income must be reclassified to net income. ASU 2011-05 should be applied retrospectively. For public entities, the amendments are effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. Early adoption is permitted. In December 2011 however, the FASB issued Update No. 2011-12, "Comprehensive Income (Topic 220): Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-05". The amendments in this Update supersede changes to those paragraphs in Update 2011-05 that pertain to how, when, and where reclassification adjustments are presented. The adoption of this Statement did not have a material effect on the Company's financial position or results of operations.

In September 2011, the FASB issued Update No. 2011-08, "Intangibles—Goodwill and Other (Topic 350): Testing Goodwill for Impairment". The amendments in this Update will allow an entity to first assess qualitative factors to determine whether it is necessary to perform the two-step quantitative goodwill impairment test. Under these amendments, an entity would not be required to calculate the fair value of a reporting unit unless the entity determines, based on a qualitative assessment, that it is more likely than not that its fair value is less than its carrying amount. The amendments include a number of events and circumstances for an entity to consider in conducting the qualitative assessment. For public entities, ASU 2011-08 is effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011. The adoption of this Statement did not have a material effect on the Company's financial position or results of operations.

3. Significant Accounting Policies

Recently Issued Accounting Pronouncements

In December 2011, the FASB issued Update No. 2011-11, "Balance Sheet (Topic 210): Disclosures about Offsetting Assets and Liabilities". The objective of this Update is to provide enhanced disclosures that will enable users of its financial statements to evaluate the effect or potential effect of netting arrangements on an entity's financial position. This includes the effect or potential effect of rights of setoff associated with an entity's recognized assets and recognized liabilities within the scope of this Update. The amendments require enhanced disclosures by requiring improved information about financial instruments and derivative instruments that are either (1) offset in accordance with either Section 210-20-45 or Section 815-10-45 or (2) subject to an enforceable master netting arrangement or similar agreement, irrespective of whether they are offset in accordance with either Section 210-20-45 or Section 815-10-45. ASU 2011-11 is effective for annual reporting periods beginning on or after January 1, 2013, and interim periods within those annual periods. Retrospective disclosure is required for all comparative periods presented. The Company is currently evaluating the impact of this Statement on its consolidated financial statements.

In December 2011, the FASB issued Update No. 2011-12, "Comprehensive Income (Topic 220): Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-05". The amendments in this Update supersede changes to those paragraphs in Update 2011-05 that pertain to how, when, and where reclassification adjustments are presented. The adoption of this amendment is not expected to have a material effect on the Company's financial position or results of operations, but will affect the presentation of Other Comprehensive Income in the Company's financial statements.

4. Deferred License Revenue

Deferred license revenue represents upfront payments received for the granting of licenses to the Company's patents, intellectual property and proprietary technology for commercialization. Deferred license revenue is recognized in income over the period where sales of the licensed products will occur.

6. Additional Paid-In Capital

Stock options

On June 13, 2012 the Company granted 40,000 stock options to two employees to purchase common shares. The stock options are exercisable at \$0.51 per share and vest over 2 years at 25% every six months. The stock options were accounted for at their fair value, as determined by the Black-Scholes valuation model, of approximately \$10 thousand, using the following assumptions:

Expected volatility	83%
Expected life	3.1 years
Risk-free interest rate	0.4%
Dividend yield	Nil

Compensation expenses for stock-based compensation of \$29 thousand and \$24 thousand were recorded during the six-month period ended June 30, 2012 and 2011 respectively. Of the amount expensed in 2012, \$1 thousand (2011 - \$7 thousand) relates to stock options granted to investor relations firms as compensation for investor relation services, and \$28 thousand (2011 - \$17 thousand) relates to stock options granted to employees and directors. As at June 30, 2012, the Company has \$65 thousand (2011 - \$45 thousand) of unrecognized stock-based compensation.

Warrants

During the six month period ended June 30, 2012 a total of 1,207,818 warrants and agents' warrants were exercised for 728,230 common shares having a par value of \$0 thousand in aggregate, for cash consideration of \$234 thousand, resulting in an increase in additional paid-in capital of \$234 thousand.

During the six month period ended June 30, 2012 a total of 178,571 warrants expired unexercised.

7. Related Party Transactions

Included in management salaries are \$3 thousand (2011 - \$2 thousand) for options granted to the Chief Financial Officer, \$3 thousand (2011 - \$2 thousand) for options granted to the Chief Executive Officer and \$13 thousand (2011 - \$4 thousand) for options granted to non-employee directors under the 2006 Stock Option Plan.

Also included in management salaries are director fees of \$55 thousand (2011 - \$40 thousand) for attendance to board meetings and audit committee meetings.

The above related party transactions have been measured at the exchange amount which is the amount of the consideration established and agreed to by the related parties.

8. Basic and Diluted Loss Per Common Share

Basic and diluted loss per common share is calculated based on the weighted average number of shares outstanding during the period. The warrants, share-based compensation and convertible notes have been excluded from the calculation of diluted loss per share since they are anti-dilutive.

Introduction to Management's Discussion and Analysis

The purpose of this section, Management's Discussion and Analysis of Financial Condition and Results of Operations, is to provide a narrative explanation of the financial statements that enables investors to better understand the business of the Company, to enhance the Company's overall financial disclosures, to provide the context within which the Company's financial information may be analyzed, and to provide information about the quality of, and potential variability of, the Company's financial condition, results of operations and cash flows. Unless otherwise indicated, all financial and statistical information included herein relates to continuing operations of the Company. Unless otherwise indicated or the context otherwise requires, the words, "IntelGenx", "Company", "we", "us", and "our" refer to IntelGenx Technologies Corp. and its subsidiaries, including IntelGenx Corp. This information should be read in conjunction with the accompanying unaudited Consolidated Financial Statements and Notes thereto.

Company Background

We are a drug delivery company established in 2003 and headquartered in Montreal, Quebec, Canada. Our focus is on the development of novel oral immediate-release and controlled-release products for the pharmaceutical market. Our business strategy is to develop pharmaceutical products based on our proprietary drug delivery technologies and, once the viability of a product has been demonstrated, to license the commercial rights to partners in the pharmaceutical industry. In certain cases, we rely upon partners in the pharmaceutical industry to fund development of the licensed products, complete the regulatory approval process with the U.S. Food and Drug Administration ("FDA") or other regulatory agencies relating to the licensed products, and assume responsibility for marketing and distributing such products.

In addition, we may choose to pursue the development of certain products until the project reaches the marketing and distribution stage. We will assess the potential for successful development of a product and associated costs, and then determine at which stage it is most prudent to seek a partner, balancing such costs against the potential for additional returns earned by partnering later in the development process.

We have also undertaken a strategy under which we will work with pharmaceutical companies in order to develop new dosage forms for pharmaceutical products for which patent protection is nearing expiration. Under §(505)(b)(2) of the Food, Drug, and Cosmetics Act, the FDA may grant market exclusivity for a term of up to three years of exclusivity following approval of a listed drug that contains previously approved active ingredients but is approved in a new dosage, dosage form, route of administration or combination, or for a new use, the approval of which was required to be supported by new clinical trials, other than bioavailability studies, conducted by or for the sponsor.

We are currently continuing to develop the existing products in our pipeline and may also perform research and development on other potential products as opportunities arise.

We currently purchase and/or lease, on an as-needed basis, the equipment necessary for performing research and development activities related to our products.

We plan to hire new personnel, primarily in the area of research and development, on an as-needed basis as we enter into partnership agreements and increase our research and development activities.

Key Developments

Anti-migraine VersaFilm (rizatriptan):

On May 29, 2012 we announced the completion of the pivotal bioequivalence study for a novel oral thin-film formulation of Rizatriptan, the active drug in Maxalt-MLT® orally disintegrating tablets. Maxalt-MLT® is a leading branded anti-migraine product manufactured by Merck & Co. According to Merck's most recent annual report, sales of Maxalt® grew 16% to \$639 million in 2011. The thin-film formulation of rizatriptan has been developed using our proprietary immediate release "VersaFilm" drug delivery technology. The film is now undergoing a pivotal stability study, with a 505(b)(2) new drug application expected to be filed with the FDA in the first quarter of 2013.

We developed our anti-migraine VersaFilm product in accordance with the co-development and commercialization agreement with RedHill Biopharma Ltd. ("RedHill"), an Israeli corporation, which was executed in August 2010. Under the terms of the agreement, RedHill obtained certain exclusive worldwide rights to market and sell our rapidly dissolving anti-migraine oral film product and in exchange we received upfront and milestone payments, and will receive additional milestone payments and external development fees. Furthermore, upon commercialization of the product, we could receive up to 70% of all proceeds including, but not limited to, all sales milestones and income from the product world-wide.

Forfivo XL™ (formerly CPI-300) Anti-depressant VersaTab (bupropion):

On February 14, 2012 we announced an exclusive agreement with Edgemont Pharmaceuticals, LLC ("Edgemont") for the commercialization of our lead product, Forfivo XL™, in the United States.

Under the terms of the agreement, Edgemont has obtained certain exclusive rights to market and sell Forfivo XL™ in the U.S. In exchange, we received a \$1.0 million upfront payment and could receive launch related milestones totaling up to \$4.0 million. In addition, we will be eligible for milestones of up to \$23.5 million upon achieving certain sales and exclusivity targets, and we will receive double-digit royalties on the net sales of Forfivo XL™.

We expect Forfivo XL™ to be commercially launched by Edgemont in the third quarter of 2012

Forfivo XL™ is a novel, high mg strength formulation of bupropion HCl, the active ingredient in Wellbutrin XL®. When launched, Forfivo™ will provide high dose bupropion XL patients the opportunity to achieve their mg dose in a single pill versus the multiple pills they currently need to take. Reducing the number of pills per dose is a well-published and important clinical benefit.

Currency rate fluctuations

Our operating currency is Canadian dollars, while our reporting currency is U.S. dollars. Accordingly, our results of operations and balance sheet position have been affected by currency rate fluctuations. The following management discussion and analysis takes this into consideration whenever material.

Results of Operations for the six month period ended June 30, 2012 compared with the six month period ended June 30, 2011.

In U.S.\$ thousands	2012	2011	Increase/ (Decrease)	Percentage Increase/ (Decrease)
Revenue	\$ 120	\$ 141	\$ (21)	(15%)
Other Income	5	3	2	67%
Research and Development Expenses	601	634	(33)	(5)%
Research and Development Tax Credit	(50)	(83)	(33)	(40%)
Management Salaries	318	268	50	19%
General and Administrative Expenses	160	163	(3)	(2)%
Professional Fees	288	274	14	5%
Foreign Exchange	3	49	(46)	(94%)
Net Loss	(1,214)	(1,180)	34	3%

Revenue and Other Income

Total revenue and other income decreased by \$19 thousand, or 13%, from \$144 thousand in the first six months of 2011 to \$125 thousand in the first six months of 2012.

In February 2012 we received a \$1.0 million upfront payment under our agreement with Edgemont. The upfront payment has been recorded as deferred license revenue and will be recognized as revenue on a straight-line basis until December 2015, which is the estimated minimum time period that the product could retain market exclusivity. The product is expected to be commercially launched in the third quarter of 2012 and, accordingly, none of the upfront payment has been recognized as revenue to date.

Other income of \$5 thousand was recorded in the first six months of 2012, compared with \$3 thousand in the same period of the previous year.

Research and Development (“R&D”) Expenses

R&D expenses totaled \$601 thousand in the six months ended June 30, 2012, representing a decrease of \$33 thousand, or 5%, to the expense of \$634 thousand recorded in the same period of last year.

The decrease in R&D expenses is primarily related to the cancellation of an invoice that had been received and recorded from a supplier in 2011, largely off-set by costs associated with pilot clinical studies for two of our projects that were completed in the second quarter of 2012.

Included within R&D expenses for the first six months of 2012 are R&D Salaries of \$305 thousand, of which approximately \$9 thousand represents non-cash compensation. This compares to R&D salaries of \$318 thousand in the first six months of 2011, of which approximately \$7 thousand represented non-cash compensation. The decrease in R&D salaries relates to the unpaid temporary absence of an employee, partly offset by staff salary increases effective from January 2012.

In the six months ended June 30, 2012 we recorded estimated Research and Development Tax Credits and refunds of \$50 thousand, compared with \$83 that was recorded in the same period of the previous year.

Management Salaries and General and Administrative (“G&A”) Expenses

Management salaries increased from \$268 thousand in the first six months of 2011 to \$318 thousand in the first six months of 2012, representing an increase of \$50 thousand, or 19%. The increase is attributable to the appointment of a new member of our Board of Directors in May 2011, stock compensation expense related to options granted to members of our Board, and annual staff salary increases effective from January 2012.

Included in management salaries are approximately \$6 thousand (2011: \$5 thousand) in non-cash compensation from options granted to management employees in 2010 and 2011, and \$13 thousand (2011: \$5 thousand) in non-cash compensation from options granted to non-employee directors in 2010 and 2011.

General and administrative expenses decreased from \$163 thousand in the six months ended June 30, 2011 to \$160 thousand in the six months ended June 30, 2012.

Professional Fees

Professional fees for the six months ended June 30, 2012 totaled \$288 thousand and represent a slight increase of \$14 thousand compared with the amount of \$274 thousand recorded in the same period of 2011.

Included within professional fees is a non-cash expense of \$1 thousand (2011: \$7 thousand) for options granted to investor relation firms for investor relation services.

Share-Based Compensation Expense, Warrants and Stock Based Payments

Share-based compensation expense, warrants and share-based payments totaled \$29 thousand for the six months ended June 30, 2012, compared with \$24 thousand for the six months ended June 30, 2011.

We expensed approximately \$15 thousand in the first six months of 2012 for options granted to our employees in 2010, 2011 and 2012 under the 2006 Stock Option Plan, and approximately \$13 thousand for options granted to non-employee directors in 2010 and 2011, compared with \$12 thousand and \$5 respectively that was expensed in the same period of the previous year.

We also expensed \$1 thousand in the first six months of 2012 for options granted to investor relation firms for investor relation services, compared with \$7 thousand that was expensed in the same period of 2011.

There remains approximately \$65 thousand in stock based compensation to be expensed in 2012 through 2014 all of which relates to the issuance of options to employees and directors of the Company during 2010, 2011 and 2012. We anticipate the issuance of additional options and warrants in the future, which will continue to result in stock-based compensation expense.

Foreign Exchange

A foreign exchange loss of approximately \$3 thousand was recorded in the six months ended June 30, 2012 compared with a foreign exchange loss of \$49 thousand in the same period of the previous year. The foreign exchange gains and losses relate primarily to currency fluctuations between the Canadian dollar and the U.S. dollar.

Key items from the Balance Sheet.

In U.S.\$ thousands	June 30, 2012	December 31, 2011	Increase/ (Decrease)	Percentage Increase/ (Decrease)
Current Assets	\$ 3,759	\$ 4,296	\$ (537)	(13%)
Property and Equipment	371	149	222	149%
Intangible Assets	125	125	0	0%
Current Liabilities	514	666	(152)	(23%)
Deferred License Revenue	769	-	769	N/A
Capital Stock	0	0	0	0%
Additional Paid-in-Capital	16,181	15,918	263	2%

Current Assets

Current assets totaled \$3,759 thousand at June 30, 2012 compared with \$4,296 thousand at December 31, 2011. The decrease of \$537 thousand is attributable to a decrease in cash of approximately \$450 thousand, a decrease in investment tax credits receivable of approximately \$144 thousand and a decrease in loan receivable of approximately \$85 thousand, partly offset by an increase in accounts receivable of approximately \$127 thousand and an increase in prepaid expenses of approximately \$15 thousand.

Prepaid Expenses

As of June 30, 2012, prepaid expenses totaled \$83 thousand as compared with \$68 thousand at December 31, 2011. The increase relates to the payment of annual insurance premiums that will be expensed ratably until January 31, 2013, together with prepayments for a trade exhibition and an investor conference, each planned for the second half of 2012.

Liquidity and Capital Resources

Cash and cash equivalents totaled \$3,055 thousand as at June 30, 2012 representing a decrease of \$450 thousand compared with the balance of \$3,505 thousand as at December 31, 2011.

In February 2012 we received a \$1.0 million upfront payment under an exclusive agreement with Edgemont Pharmaceuticals for the commercialization of our lead product, CPI-300, in the United States. The upfront payment has been recorded as deferred license revenue and will be recognized as revenue on a straight-line basis until December 2015.

During the six month period ended June 30, 2012 a total of 1,207,818 warrants and agents' warrants were exercised for 728,230 common shares for cash consideration of \$234 thousand.

Also during the six month period ended June 30, 2012 we invested approximately \$200 thousand in new equipment for our VersaFilm technology.

As at June 30, 2012 we had accumulated a deficit of \$13,427 thousand compared with an accumulated deficit of \$12,213 thousand as at December 31, 2011. Total assets amounted to \$4,255 thousand and shareholders' equity totaled \$2,972 thousand as at June 30, 2012, compared with total assets and shareholders' equity of \$4,570 thousand and \$3,904 thousand respectively, as at December 31, 2011.

Accounts receivable totaled \$390 thousand as at June 30, 2012 and comprise of approximately \$295 thousand billed to one of our trading partners at the end of the second quarter, together with approximately \$95 thousand of taxes that are expected to be refunded in the first quarter of 2013. The accounts receivable balance of \$263 thousand as at December 31, 2011 was received by us within the first half of 2012.

An interest-bearing short-term loan of \$85 thousand that was provided to an employee, who is also an officer of the Company, on November 9, 2011, was repaid on February 28, 2012.

As at June 30, 2012, we had R&D investment tax credits receivable of approximately \$231 thousand compared with \$375 thousand as at December 31, 2011. We expect to receive approximately \$182 thousand during the fourth quarter of 2012, and the balance during the fourth quarter of 2013.

Accounts payable and accrued liabilities as at June 30, 2012 amounted to \$283 thousand (December 31, 2011: \$666 thousand), of which approximately \$107 thousand relates to research and development activities, approximately \$37 thousand relates to professional fees, and approximately \$134 thousand relates to accrued payroll liabilities.

Property and Equipment

As at June 31, 2012, the net book value of property and equipment amounted to \$371 thousand, compared with \$149 thousand at December 31, 2011. In the six months ended June 30, 2012 additions to assets totaled \$239 thousand and comprised \$238 thousand for manufacturing and laboratory equipment, and \$1 thousand for computer equipment. Total depreciation in the six months ended June 30, 2012 amounted to \$17 thousand.

Intangible Assets

As at June 30, 2012 the net book value of intangible assets amounted to \$125 thousand, compared with \$125 thousand at December 31, 2011. Amortization of this asset will commence upon the commercial launch of Forfivo XL™, which is expected to be in the third quarter of 2012, and will continue until December 2015, which is the estimated minimum time period that the product could retain market exclusivity.

Deferred License Revenue

Deferred license revenue represents upfront payments received for the granting of licenses to the Company's patents, intellectual property and proprietary technology for commercialization. Deferred license revenue is recognized in income over the period where sales of the licensed products will occur.

Capital Stock

As at June 30, 2012 capital stock amounted to \$496 compared with \$489 at December 31, 2011. The increase reflects the issuance of 728,230 shares related to the exercise of warrants issued at par value of \$0.00001. Capital stock is disclosed at its par value with the excess of proceeds shown in additional paid-in-capital.

Additional Paid-in-Capital

Additional paid-in capital totaled \$16,181 thousand at June 30, 2012, compared with \$15,918 thousand at December 31, 2011. Approximately \$233 thousand of the increase relates to warrants, and approximately \$1 thousand relates to Agents' warrants, exercised in the six month period ended June 30, 2012. An additional \$29 thousand relates to stock based compensation, of which approximately \$1 thousand is attributable to the amortization of stock options granted to our investor relations consultants and approximately \$28 thousand is attributable to the amortization of stock options granted to employees and directors.

Key items from the Statement of Cash Flows

In U.S.\$ thousands	June 30, 2012	June 30, 2011	Increase/ (Decrease)	Percentage Increase/ (Decrease)
Operating Activities	\$ (464)	\$ (1,013)	\$ (549)	(54%)

Investing Activities	(242)	(3)	239	7,967%
Cash - end of period	3,055	3,201	(146)	(5%)

Statement of cash flows

Net cash used by operating activities was \$464 thousand in the six months ended June 30, 2012, compared with net cash used of \$1,013 thousand for the six months ended June 30, 2011. In the first half of 2012, net cash used by operating activities consisted of an operating loss of \$1,168 thousand net of non-cash related expenses of approximately \$46 thousand, and an increase in non-cash operating elements of working capital of \$704 thousand.

Operating activities will continue to consume our available funds until we are able to generate increased revenues.

The net cash provided by financing activities was \$234 thousand in the first six months of 2012, compared with \$2,978 thousand provided in the same period of the previous year. The net cash provided in the first half of 2012 resulted from the exercise of warrants and agents' options, whereas in the first half of 2011 net proceeds of \$2,861 thousand resulted from Canadian and US private placements and \$117 thousand resulted from the exercise of warrants.

Net cash used in investing activities amounted to \$242 thousand in the six months ended June 30, 2012 compared with \$3 thousand in the six months ended June 30, 2011. Included within the use of funds in the first half of 2012 is an investment of approximately \$200 thousand in new equipment for our VersaFilm technology.

The balance of cash as at June 30, 2012 amounted to \$3,055 thousand, compared with \$3,201 thousand at June 30, 2011.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements.

Forward-Looking and Cautionary Statements

This report contains certain forward-looking statements that involve risks and uncertainties relating to, among other things, our future financial performance or future events. Forward-looking statements give management's current expectations, plans, objectives, assumptions or forecasts of future events. All statements other than statements of current or historical fact contained in this Form 10Q, including statements regarding our future financial position, business strategy, budgets, projected costs and plans and objectives of management for future operations, are forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as "anticipate," "estimate," "plans," "potential," "projects," "ongoing," "expects," "management believes," "we believe," "we intend," and similar expressions. These statements involve known and unknown risks, estimates, assumptions and uncertainties that could cause actual results to differ materially from the results set forth in this Annual Report. You should not place undue reliance on these forward-looking statements. You should be aware that our actual results could differ materially from those contained in the forward-looking statements due to a number of factors such as:

- continued development of our technology;
- lack of product revenues
- successful completion of clinical trials and obtaining regulatory approval to market
- ability to protect our intellectual property
- dependence on collaborative partners
- ability to generate positive cash flow
- ability to raise additional capital if and when necessary
- dependence on key personnel;
- competitive factors;
- the operation of our business; and
- general economic conditions.

These factors should be considered carefully and readers are cautioned not to place undue reliance on such forward looking statements. These forward-looking statements speak only as of the date on which they are made, and except to the extent required by federal securities laws, we undertake no obligation to update any forward-looking statements to reflect events or circumstances after the date on which the statement is made or to reflect the occurrence of unanticipated events. In addition, we cannot assess the impact of each factor on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

Item 3. Controls and Procedures.

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of management, including our chief executive officer and principal financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934. Based upon that evaluation, our chief executive officer and principal financial officer concluded that our disclosure controls and procedures are effective to cause the material information required to be disclosed by us in the reports that we file or submit under the Exchange Act to be recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. There have been no significant changes in our internal controls or in other factors which could significantly affect internal controls subsequent to the date we carried out our evaluation.
