## **IntelGenx Announces Government of Canada Funding for CNS VersaFilm™ Project**

**Saint Laurent, Quebec**, - (Newsfile Corp. - April 30, 2014) - IntelGenx Corp. (TSXV: IGX) (OTCQX: IGXT) (“IntelGenx”), a Canadian drug delivery company focusing on oral drug delivery, today announced financial support from the National Research Council of Canada Industrial Research Assistance Program (NRC-IRAP). In addition to advisory services and technological expertise, the funding provided by NRC-IRAP will support further development of a product for the treatment of central nervous system (CNS) diseases and disorders. The product will be based upon IntelGenx’ proprietary, oral thin film, VersaFilm™, technology.

“We are extremely pleased to have support from NRC-IRAP for this project”, said Rajiv Khosla, IntelGenx’ President and Chief Executive Officer. “This is further testimony of our scientific innovation and expertise, which we believe will enable us to develop a new therapeutic entity offering a treatment benefit to certain CNS patients in the future.”

In order to maintain IntelGenx’ competitive advantage, no specific details related to this project are being disclosed at this time.
