**Notes to Consolidated Interim Financial Statements**  
**September 30, 2006**  
**(Expressed in U.S. Funds)**  
**(Unaudited)**

**1. Basis of Presentation and Reorganization of the Corporation**

**Basis of Presentation**

The accompanying unaudited financial statements have been prepared in accordance with U.S. generally accepted accounting principles for interim financial information and item 310(b) of Regulation S-B and are prepared using the same accounting policies as outlined in note 3 of IntelGenx Corp. financial statements for the year ended December 31, 2005 and 2004 except for those discussed in note 4 below. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and nine months ended September 30, 2006 are not necessarily indicative of the results that may be expected for the year ended December 31, 2006. The unaudited financial statements should be read in conjunction with the financial statements and notes thereto included in the IntelGenx Corp. audited financial statements for the years ended December 31, 2005 and 2004.

**Reorganization of the Corporation**

On April 28, 2006, IntelGenx Corp. entered into a share exchange agreement with IntelGenx Technologies Corp. (formerly Big Flash Corporation), an inactive public shell company, for the acquisition by IntelGenx Technologies Corp. of all the issued and outstanding shares of IntelGenx Corp.

Under accounting principles generally accepted in the United States, the share exchange is considered to be a capital transaction in substance, rather than a business combination. That is, the share exchange is equivalent to the issuance of stock by IntelGenx Corp. for the net monetary assets of IntelGenx Technologies Corp. accompanied by a recapitalization, and is accounted for as a change in capital structure. Accordingly, the accounting for the share exchange is identical to that resulting from a reverse acquisition, except no goodwill is recorded. Under reverse takeover accounting, the post reverse acquisition comparative historical financial statements of the legal acquirer, IntelGenx Technologies Corp., are those of the legal acquiree, IntelGenx Corp., which is considered to be the accounting acquirer. All of the IntelGenx Corp. shares, through a series of exchanges, were exchanged for shares of IntelGenx Technologies Corp. common shares and/or exchangeable shares of 6544361 Canada Inc. a wholly-owned subsidiary of IntelGenx Technologies Corp. The exchangeable shares are exchangeable for common shares of IntelGenx Technologies Corp. on a one for one basis. Until such time as the holders of the exchangeable shares wish to exchange their shares for IntelGenx Technologies Corp. shares, the IntelGenx Technologies Corp. shares are held in trust by a trustee on behalf of the exchangeable shareholders. The trustee shall be entitled to the voting rights in IntelGenx Technologies Corp. stated in the terms of the exchange and voting agreement and shall exercise these voting rights according to the instructions of the holders of the exchangeable shares on a basis of one vote for every exchangeable share held. These financial statements reflect the accounts of the balance sheets, the results of operations and the cash flows of IntelGenx Corp. at their carrying amounts, since it is deemed to be the accounting acquirer.

**1. Basis of Presentation and Reorganization of the Corporation (Cont'd)**

The results of operations, the cash flows and the assets and liabilities of IntelGenx Technologies Corp. have been included in these consolidated financial statements since April 28, 2006, the acquisition date. Amounts reported for the periods prior to April 28, 2006 are those of IntelGenx Corp.

The fair value assigned to the asset of IntelGenx Technologies Corp. acquired on April 28, 2006 is as follows:

**Asset**

Prepaid investor relations services	\$	133,250
<b>Asset Acquired</b>	<b>\$</b>	<b>133,250</b>

As part of the transaction, a shareholder of IntelGenx Technologies Corp. forgave the due to shareholder and related interest payable amounting to \$23,160 and IntelGenx Technologies Corp. issued 325,000 common shares in consideration of investor relations services to be rendered.

**2. Going Concern**

The accompanying financial statements have been prepared assuming the Company will continue as a going concern. The Company has reported a net loss of \$413,580 from inception (June 15, 2003) to September 30, 2006. The Company has reported deficient cash flows from operating activities of \$428,981 from inception (June 15, 2003) to September 30, 2006. To date, these losses and cash flow deficiencies have been financed principally through long-term debt, debt from related parties and common shares issuance. Additional capital and/or borrowings will be necessary in order for the Company to continue in existence until attaining and sustaining profitable operations.

Management has continued to develop a strategic plan to develop a management team, maintain reporting compliance and establish contracts with pharmaceutical companies. Management anticipates generating revenue through development contracts during the year. Should the Company be unable to continue as a going concern, it may be unable to realize the carrying value of its assets and to meet its liabilities as they become due.

**3. Nature of Business**

The Company specializes in the development of pharmaceutical products in co-operation with various pharmaceutical companies. Prior to March 31, 2006, the Company was in the development stage and its efforts were focused on establishing contracts with pharmaceutical companies and the development of pharmaceutical products. The Company completed the development stage of its operations when the Company commenced consistently generating revenues from its operations in April 2006.

**(Expressed in U.S. Funds)**

**4. Significant Accounting Policies**

**Share-Based Payments**

The Company accounts for share-based payments in accordance with the provisions of FAS 123R "Share-based payments (Revised)" and accordingly recognizes in its financial statements share-based payments at their fair value. In addition, it will recognize in the financial statements an expense based on the grant date fair value of stock options granted to employees. The expense will be recognized on a straight-line basis over the vesting period and the offsetting credit will be recorded in additional paid-in capital. Upon exercise of options, the consideration paid together with the amount previously recorded as additional paid-in capital will be recognized as capital stock. When options are forfeited because the service requirements are not met, any expense previously recorded is reversed in the period of forfeiture. The Company uses the Black-Scholes-Merton option pricing model to determine the fair value of the options.

**5. Long-Term Debt**

During the nine-month period ended September 30, 2006, the Company obtained an additional loan from Business Development Bank of Canada, of \$53,754 bearing interest at the lender's prime rate plus 1.5% per annum, maturing in 2011 and payable in annual instalments of \$8,550.

**8. Related Party Transactions**

During the nine-month period ending September 30, 2006, the Company incurred expenses of approximately \$13,602 (2005 - \$8,596) for laboratory equipment leased from a shareholder and \$4,305 (2005 - \$3,849) for interest on the loan payable shareholder. The Company has entered into employment contracts with certain executives. For the nine months ended September 30, 2006, the research and development expense and the administrative salaries expense include \$108,000 and \$56,000 respectively paid to executives. The transaction costs (see note 6) include approximately \$95,000 paid to a company controlled by an executive. The above related party transactions have been measured at the exchange amount which is the amount of the consideration established and agreed to by the related parties.

## **Item 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The following information should be read in conjunction with the financial statements for the three and nine month periods ended September 30, 2006 and notes thereto appearing elsewhere in this Form 10-QSB. On August 10, 2006, pursuant to a vote by our shareholders, we changed our corporate name from Big Flash Corp. to IntelGenx Technologies Corp. Unless otherwise indicated or the context otherwise requires, the "Company" we, "us," and "our" and "Intelgenx" refer to IntelGenx Technologies Corp. and its subsidiaries including IntelGenx Corp. IntelGenx Corp. is reporting its financial results in U.S. dollar, therefore in this MD&A, unless otherwise noted, all dollar amounts are expressed in U.S. dollars.

### **Overview**

#### ***Company Background***

IntelGenx is a drug delivery company established in 2003 and headquartered in Montreal, Quebec, Canada, which focuses on the development of novel oral immediate-release and controlled-release products for the generic pharmaceutical market. IntelGenx's business strategy is to develop pharmaceutical products based on its proprietary drug delivery technologies and then license commercial rights for such products to pharmaceutical partners once the viability of a product has been demonstrated. We expect a partner company will, in some cases, fund development of the licensed products, complete the Food and Drug Administration ("FDA") regulatory approval process relating to the licensed products, and assume responsibility for marketing and distributing such products.

In addition, the Company anticipates that it may undertake full development of certain products without seeking a partner until the product reaches the marketing and distribution stage. The Company will assess the potential for successful development of a product and associated costs, and then determine at which stage it is most prudent to seek a partner, balancing such costs against the potential for additional returns earned by partnering later in the development process.

The Company has also undertaken a strategy under which it will work with pharmaceutical companies in order to develop new dosage forms in addition to already existing ones for pharmaceutical products for which patent protection is about to expire. Under §(505)(b)(2) of the Food, Drug & Cosmetics Act, FDA will grant a market exclusivity of up to three years for such a new dosage form. The Company anticipates significant returns from successfully obtaining market exclusivity in this manner.

The Company is currently continuing to develop the existing products in its pipeline and may also perform research and development on other potential products as the opportunities present themselves. The Company does not currently plan to acquire a manufacturing facility. The Company currently purchases and or leases, on an as-needed basis, the equipment necessary for performing research and development activities related to its products.

The Company will hire new personnel, primarily in the area of research and development, on an as-needed basis as the Company enters into partnership agreements and increases its research and development activities.

## ***Recent Developments***

On April 28, 2006, the Company entered into a Share Exchange Agreement, whereby the Company, (through its wholly-owned subsidiary 6544361 Canada, Inc., a Canadian company) acquired 100% of the issued and outstanding common stock and warrants of IntelGenx Corp., a Canadian corporation. Pursuant to the Share Exchange Agreement, and several separate related agreements, the Company issued, as consideration for the IntelGenx Corp. common stock, 14,507,489 shares of the Company's common stock to various shareholders of IntelGenx Corp., along with 100,000 common stock purchase warrants to an IntelGenx Corp. shareholder. The warrants granted are exercisable at \$0.41 per share of common stock, and expire on April 28, 2008. Upon completion of the acquisition, the total shares of common stock issued by the Company pertaining to the acquisition of IntelGenx Corp. constituted 68.7% of the 16,007,489 shares of common stock of the Company then outstanding. Following the completion of the acquisition, IntelGenx Corp. continued its operations as a controlled subsidiary of the Company.

Since we did not have any substantial assets or operations during the two fiscal years prior to the IntelGenx Corp. Acquisition, IntelGenx Corp. is deemed to be the accounting acquirer of IntelGenx Technologies Corp. and the discussion of operations below relate to the operations of IntelGenx Corp.

## ***Results of Operations — nine months period ended September 30, 2006 compared to the nine months period ended September 30, 2005.***

	<b>2006</b>	<b>2005</b>	<b>Increase/ (Decrease)</b>	<b>Percentage Change</b>
Revenue	\$ 205,984	\$ 0	\$ 205,984	%
Research and development	368,638	40,351	382,287	814%
General and Administrative	192,313	44,498	147,815	332%
Interest and financing fees	32,304	5,869	26,435	450%
Net income (loss)	(376,851)	(73,120)	303,731	415%

## ***Revenue***

Our revenues from R&D services provided are \$205,984 for the first three quarters of 2006, compared to \$0 for the same period in 2005. Management believes that we may begin to realize increased sales revenues in 2007 resulting from the commercialization of our pre-natal vitamin supplement. Upon commercialization, we would receive royalty revenue on product sales. Our prenatal vitamin supplement is presently at the scale up manufacturing stage and we expect that it will be ready to enter the commercialization phase in the second half of 2007. We also expect increased revenue from additional research and development service contracts for which we are presently in discussions with potential clients. If we are successful in signing on potential clients, we could receive some upfront fees and research and development fees during 2007.

## ***Research and development***

Costs related to research and development increased from \$40,351 in the nine month period ended September 30, 2005 to \$368,638 for the same period in 2006, which reflects the commencement of some projects with certain partners started in 2005 and 2006. Management believes that with funding provided by the private placement of common stock (See "Business – Recent Developments"), research and development expenses will increase significantly during the remainder of 2006 and into 2007.

### ***General and Administrative***

General administrative expenses increased by \$147,815 (332%) from \$44,498 for the nine month period ended September 30, 2005 to \$192,313 for the nine month period ended September 30, 2006. Included in the amount are \$50,000 for the issuance of options granted to three non-employee board members as non cash compensation. The additional increase is attributed to an increase in corporate operations. Management expects General and Administrative expenses from operation to remain at this level for the remainder of the year.

### ***Interest Expenses***

We incurred interest and financing fee expenses of \$32,304 in the nine month period ended September 30, 2006 compared to \$5,869 for the same period in 2005. Included in the interest expense for the first nine month of 2006 are \$19,420 representing the value of 100,000 warrants issued as a non-cash financing fee payment for a bridge loan. Since the loan was received and repaid in the first nine month of this year and the warrants are a one time expense, Management expects the interest expense to be significantly lower for the rest of 2006.

### ***Net Loss***

We recorded a net loss of \$378,312 in the nine month period ended September 30, 2006 compared to a net loss of \$73,120 for the same period in 2005. Management believes that we will continue to operate at a net loss until such time as we can complete our business development efforts and begin to realize increased sales revenues by early 2007.

### ***Income tax Losses***

We have approximately \$100,000 of Canadian and provincial income tax losses as of December 31, 2005, which may be carried forward and offset against taxable income in future years. The use of these losses to reduce future income taxes will depend on the generation of sufficient taxable income prior to the expiration of the carryforwards after the year 2015. In the event of certain changes in control, there will be an annual limitation on the amount of the income tax losses carryforwards which can be used. No tax benefit regarding these losses has been reported in the financial statements for the year ended December 31, 2005 nor for the nine month ended September 30, 2006 because management believes there is a 50% or greater chance that the carryforward will not be used. Accordingly, the potential tax benefit of the loss carryforward is offset by a valuation allowance of the same amount.

### ***Prepaid Expenses***

At September 30, 2006 our Balance Sheet shows prepaid expenses of \$103,592 compared to \$3,186 for the same period in 2005. The increase is due to the issuance of 325,000 shares in consideration of investor relations services to be rendered. \$33,312 of the total amount of the investor relations contract was expensed in the last quarter of the reporting period.

### ***Liquidity and Capital Resources***

At September 30, 2006, we had cash on hand of \$468,826. We also had accounts receivable of \$102,720, \$85,854 of the amount is the expected sales tax refund, receivable in the first quarter of 2007. We also had income taxes recoverable of \$9,794 and estimated investment tax credits receivable of \$94,664.

At September 30, 2006, we had accounts payable and accrued liabilities of \$161,885. Of these liabilities, approximately \$26,000 was payable to shareholders and \$105,987 was due for legal and accounting expenses in connection with the transaction in April 28, 2006. Our current portion of the long term debt was \$12,540.

At September 30, 2006, we had an operating line of credit in place with a maximum of \$45,000 of which \$0 was borrowed.

Management believes that our cash supply and expected tax refunds will be sufficient to satisfy our cash requirements for the next eight to ten months, even in the unlikely event, that no additional revenue would be received in the next months.

At September 30, 2006, we had total assets of \$943,186 and shareholders' equity of \$586,356.

### ***Off-Balance Sheet Arrangements***

We have no off-balance sheet arrangements.

We also acquired, through Exchangeco, 10,991,000 shares of IntelGenx, held by its principal shareholders pursuant to a share exchange agreement dated April 10, 2006, in exchange for 10,991,000 Class A special shares of Exchangeco.
