### About EXACT Sciences Corporation

EXACT Sciences Corporation is the leader in rapidly applying genomics knowledge to develop effective, patient-friendly screening methods to detect cancer early, so that physicians can save patients' lives. Its first commercial test, PreGen-Plus™, is used for screening for colorectal cancer in the average-risk population. Colorectal cancer, which is the most deadly cancer among non-smokers, is curable if detected early. Despite the availability of colorectal cancer screening and diagnostic tests for more than 20 years, however, the rate of early detection of colorectal cancer remains low, and deaths from colorectal cancer remain high. EXACT Sciences believes its genomics-based technologies will enable early detection of colorectal cancer so that more people can be effectively treated. Founded in 1995, EXACT Sciences is based in Marlborough, Mass. Detailed information on EXACT Sciences and PreGen-Plus can be found on the World Wide Web at [www.exactsciences.com](http://www.exactsciences.com) and [www.pregenplus.com](http://www.pregenplus.com).
