PROXY STATEMENT
April 29, 2009

This proxy statement is furnished in connection with the solicitation of proxies by our Board of Directors for use at the annual meeting of stockholders of EXACT Sciences Corporation, a Delaware corporation (the "Company" or "EXACT") to be held at the offices of Goodwin Procter LLP, our outside legal counsel, located at Exchange Place, 53 State Street, Boston, Massachusetts 02109 on July 17, 2009, at 10:00 a.m., local time, and any adjournments or postponements thereof. Our 2008 Annual Report to Stockholders, containing financial statements for the fiscal year ended December 31, 2008, is being mailed together with this proxy statement to all stockholders entitled to vote at the annual meeting. This proxy statement and the accompanying notice and form of proxy is expected to be first sent or given to stockholders on or about May 30, 2009.

The record date for the determination of stockholders entitled to notice of and to vote at the annual meeting has been fixed by our Board of Directors as the close of business on May 19, 2009. Holders of our common stock are entitled to cast one vote for each share held of record at the close of business on May 19, 2009 on each matter submitted to a vote at the annual meeting. As of April 27, 2009, 30,887,484 shares of the Company's common stock were outstanding.

Stockholders may vote in person or by proxy. Execution of a proxy will not in any way affect a stockholder's right to attend the annual meeting and vote in person. Any proxy given pursuant to this solicitation may be revoked by the person giving it at any time before it is voted. Proxies may be revoked by (i) filing with the Secretary of the Company, before the taking of the vote at the annual meeting, a written notice of revocation bearing a later date than the proxy, (ii) duly completing a later- dated proxy relating to the same shares and delivering it to the Secretary of the Company before the taking of the vote at the annual meeting, or (iii) attending the annual meeting and voting in person (although attendance at the annual meeting will not in and of itself constitute a revocation of a proxy). If a stockholder is not attending the annual meeting, any proxy or notice of revocation should be returned to the Secretary of the Company at the above address in time for receipt no later than the close of business on the day preceding the annual meeting.

A majority in interest of the outstanding shares of our common stock entitled to vote and represented at the annual meeting in person or by proxy shall constitute a quorum for the transaction of business. Votes withheld from any nominee, abstentions and broker "non-votes" are counted as present or represented for purposes of determining the presence or absence of a quorum for the annual meeting. A "non-vote" occurs when a broker or other nominee holding shares for a beneficial owner votes on one proposal, but does not vote on another proposal because the broker or other nominee does not have discretionary voting power and has not received instructions from the beneficial owner. Directors are elected by a plurality of the votes cast by stockholders entitled to vote and voting on the matter at the annual meeting. On all other matters that may be submitted to stockholders, an affirmative vote of at least a majority of the shares present, or represented by proxy, entitled to vote and voting at the annual meeting is required for approval. Broker "non-votes" on any matter shall be deemed not to have been voted on such matter. The vote on each matter submitted to stockholders is tabulated separately.

The persons named as attorneys-in-fact in the proxy, Kevin T. Conroy and Maneesh Arora, were selected by the Board of Directors and are officers of the Company. All properly executed proxies returned in time to be counted at the meeting will be voted by such persons at the meeting. Where a choice has been specified on the proxy with respect to the foregoing matters, the shares represented by the proxy will be voted in accordance with the specifications. With respect to the election of directors, any stockholder submitting a proxy has a right to withhold authority to vote for any individual nominee by writing that nominee's name in the space provided on the proxy. Where a proxy is properly signed and returned without indicating any voting instructions regarding the foregoing matters, the shares represented by the proxy will be voted **FOR** the proposal.

The Board of Directors knows of no other matters to be presented at the annual meeting. If any other matter should be presented at the annual meeting upon which a vote properly may be taken, shares represented by all proxies received by the Board of Directors will be voted with respect thereto in accordance with the judgment of the persons named in the proxies.

Mr. Zenner also served as interim Chief Executive Officer of Curagen Corporation from May 2005 to March 2006. Mr. Zenner holds a BS in business administration from Creighton University and an MBA from Fairleigh Dickinson University and is a Trustee of both universities.

Our executive officers are elected by the Board of Directors on an annual basis and serve until their successors have been duly elected and qualified. There are no family relationships among any of our executive officers and directors.

CORPORATE GOVERNANCE PRINCIPLES AND BOARD MATTERS

Board Independence

The Board of Directors has determined that each of James Connelly, Sally W. Crawford, Edwin M. Kania, Jr., Katherine Napier, Lance Willsey, Michael E. Singer, Connie Mack, III and Patrick J. Zenner, comprising eight of its nine members, is currently an independent director within the meaning of the director independence standards of The NASDAQ Stock Market, Inc., or NASDAQ. Furthermore, the Board has determined that all of the members of the Audit Committee, Compensation Committee and Corporate Governance and Nominating Committee are independent within the meaning of the director independence standards of NASDAQ and the rules of the SEC applicable to each such committee.

Executive Sessions of Independent Directors

Executive sessions of our independent directors are generally held following each regularly scheduled in-person meeting of the Board of Directors. Executive sessions do not include any non-independent directors and are led by the chairman of the Board of Directors, who is independent. The independent directors of the Board of Directors met in executive session six times in 2008.

Policy Governing Security Holder Communications with the Board of Directors

Any of our security holders who wish to communicate directly with the Board of Directors or an individual member of the Board of Directors may do so by sending such communication by certified mail addressed to the Chairperson of the Board, as a representative of the entire Board of Directors, or to the individual director or directors, in each case, c/o Secretary, EXACT Sciences Corporation, 100 Campus Drive, Marlborough, Massachusetts 01752. We will forward any such security holder communication to the Chairperson and/or to the director to whom the communication is addressed on a periodic basis.

Policies Regarding Director Nominations

Director Qualifications

The Corporate Governance and Nominating Committee is responsible for reviewing with the Board of Directors from time to time the appropriate qualities, skills and characteristics desired of members of the Board of Directors in the context of the needs of the business and current make-up of the Board of Directors. Director candidates are considered based upon a variety of criteria, including demonstrated business and professional skills and experiences relevant to our business and strategic direction, concern for long-term shareholder interests, personal integrity and sound business judgment. The Board of Directors seeks members from diverse professional backgrounds who combine a broad spectrum of relevant industry and strategic experience and expertise that, in concert, offer us and our shareholders diversity of opinion and insight in the areas most important to us and our corporate mission. In addition, nominees for director are selected to have complementary, rather than overlapping, skill sets. All candidates for director nominee must have time available to devote to the activities of the Board of Directors. The Corporate Governance and Nominating Committee also considers the independence of candidates for director nominee, including the appearance of any conflict in serving as a director. Candidates for director nominees who do not meet all of these criteria may still be considered for nomination to the Board of Directors, if the Corporate Governance and

Nominating Committee believes that the candidate will make an exceptional contribution to us and our stockholders.

Process for Identifying and Evaluating Director Nominees

The Board of Directors is responsible for selecting its own members. The Board of Directors delegates the selection and nomination process to the Corporate Governance and Nominating Committee, with the expectation that other members of the Board of Directors, and of management, may be requested to take part in the process as appropriate. Generally, the Corporate Governance and Nominating Committee identifies candidates for director nominees in consultation with management, through the use of search firms or other advisers, through the recommendations submitted by other directors or stockholders or through such other methods as the Corporate Governance and Nominating Committee deems appropriate. Once candidates have been identified, the Corporate Governance and Nominating Committee confirms that the candidates meet the qualifications for director nominees established by the Corporate Governance and Nominating Committee. The Corporate Governance and Nominating Committee may gather information about the candidates through interviews, detailed questionnaires, comprehensive background checks, or any other means that the Corporate Governance and Nominating Committee deems to be helpful in the evaluation process. The Corporate Governance and Nominating Committee then meets as a group to discuss and evaluate the qualities and skills of each candidate, both on an individual basis and taking into account the overall composition and needs of the Board of Directors. Based on the results of the evaluation process, the Corporate Governance and Nominating Committee recommends candidates for the Board of Directors' approval as director nominees for election to the Board of Directors. The Corporate Governance and Nominating Committee also recommends candidates for the Board of Directors' appointment to the standing committees of the Board of Directors.

Procedures for Recommendation of Director Nominees by Stockholders

The policy of the Corporate Governance and Nominating Committee is to consider properly submitted shareholder nominations for candidates for membership on the Board of Directors. Stockholders, in submitting recommendations to the Corporate Governance and Nominating Committee for director nominee candidates, shall make such recommendation in writing and shall include:

- the name and address of the stockholder making the recommendation, as they appear on our books and records, and of such record holder's beneficial owner, if any;
- the class and number of shares of our equity that are owned beneficially and held of record by such stockholder and such beneficial owner including all "synthetic equity instruments" (e.g., derivatives, swaps, hedges, etc.), voting rights, rights to fees, dividends, or other material rights;
- a description of the material terms of any agreements, arrangements or understandings (whether or not in writing) entered into between such stockholder or such beneficial owner and any other person for the purpose of acquiring, holding, disposing or voting of any shares of any class of our equity;
- the name of the individual recommended for consideration as a director nominee;

- why such recommended candidate meets our criteria and would be able to fulfill the duties of a director;
- how the recommended candidate meets applicable independence requirements established by the SEC and NASDAQ;
- the recommended candidate's beneficial ownership in our securities;
- any relationships between the recommended candidate and us which may constitute a conflict of interest; and
- all other information relating to the recommended candidate that would be required to be disclosed in solicitations of proxies for the election of directors or is otherwise required, in each case pursuant to Regulation 14A under the Exchange Act, including the recommended candidate's written consent to being named in the proxy statement as a nominee and to serving as a director if approved by the Board of Directors and elected.

Nominations must be sent to the Chairman of the Corporate Governance and Nominating Committee, c/o Secretary, EXACT Sciences Corporation, 100 Campus Drive, Marlborough, Massachusetts 01752. The Secretary must receive any such recommendation for nomination not later than the close of business on the 90th day nor earlier than the close of business on the 120th day prior to the first anniversary of the date of preceding year's annual meeting of stockholders; provided, however, that with respect to a special meeting of stockholders called by us for the purpose of electing directors to the Board of Directors, the Secretary must receive any such recommendation not earlier than the 90th day prior to such special meeting nor later than the later of (i) the close of business on the 60th day prior to such special meeting or (ii) the close of business on the 10th day following the day on which a public announcement is first made regarding such special meeting. We will promptly forward any such nominations to the Corporate Governance and Nominating Committee. Once the Corporate Governance and Nominating Committee receives the nomination of a candidate, such candidate will be evaluated and a recommendation with respect to such candidate will be delivered to the Board of Directors.

Policy Governing Director Attendance at Annual Meetings of Stockholders

Our policy is to schedule a regular meeting of the Board of Directors on the same date as our annual meeting of stockholders and, accordingly, directors are encouraged to be present at such stockholder meetings. Five of our six then-current board members attended the annual meeting of stockholders held in 2008.

Code of Ethics

In 2003, we adopted a "code of ethics" as defined by regulations promulgated under the Securities Act of 1933, as amended, known as the Securities Act, and the Exchange Act, which applies to all of our directors, officers and employees. The code of ethics is designed to deter wrongdoing and promote:

- honest and ethical conduct, including the ethical handling of actual or apparent conflicts of interest between personal and professional relationships;
- full, fair, accurate, timely and understandable disclosure in reports and documents that we file with, or submit to, the SEC and in other public communications that we make;

- compliance with applicable governmental laws, rules and regulations;
- the prompt internal reporting of violations of the code to an appropriate person identified in the code of ethics;
- accountability for adherence to the code of ethics; and
- anonymous reporting of violations of the code via reporting mechanisms approved by our Audit Committee.

A current copy of our code of ethics is available at <http://www.exactsciences.com> . A copy may also be obtained, free of charge, from us upon a request directed to EXACT Sciences Corporation, 100 Campus Drive, Marlborough, Massachusetts 01752, attention: Investor Relations. We intend to disclose any amendments to or waivers of a provision of the code of ethics by posting such information on our website available at <http://www.exactsciences.com> and/or in our public filings with the SEC.

The Board of Directors performs periodic self-evaluations of its composition and performance, including evaluations of its standing committees and its individual directors. In addition, our Board of Directors retains the authority to engage its own advisors and consultants.

nominee candidates for election or re-election by our stockholders or, in the event of a vacancy on the Board of Directors, by the Board of Directors. REPORT OF THE AUDIT COMMITTEE

The following Report of the Audit Committee shall not be deemed to be "soliciting material" or to be "filed" with the SEC nor shall this information be incorporated by reference into any filing under the Securities Act or the Exchange Act, except to the extent that EXACT specifically incorporates it by reference into such filing.

The Audit Committee is comprised of Sally W. Crawford, Edwin M. Kania, Jr., Michael E. Singer and Lance Willsey. None of the members of the Audit Committee is an officer or employee of the Company, and the Board of Directors has determined that each member of the Audit Committee meets the independence requirements promulgated by The NASDAQ Stock Market and the SEC, including Rule 10A-3 (b)(1) under the Exchange Act. The Audit Committee operates under a written charter adopted by the Board of Directors, a current copy of which is available at <http://www.exactsciences.com>.

The Audit Committee oversees the Company's financial reporting process on behalf of the Board of Directors. Management has the primary responsibility for the financial statements and the reporting process, including the systems of internal controls and the certification of the integrity and reliability of the Company's internal controls procedures. In fulfilling its oversight responsibilities, the Audit Committee has reviewed the Company's audited balance sheets at December 31, 2008 and 2007 and the related statements of operations, stockholders' equity and cash flows for each of the three years in the period ended December 31, 2008, and has discussed them with both management and Ernst & Young LLP ("Ernst & Young"), the Company's independent registered public accounting firm. The Audit Committee has also discussed with the independent registered public accounting firm the matters

required to be discussed by the Statement on Auditing Standards No. 61 (*Communications with Audit Committees*), as currently in effect. The Audit Committee has reviewed permitted services under rules of the SEC as currently in effect and discussed with Ernst & Young their independence from management and the Company, including the matters in the written disclosures and the letter from the independent registered public accounting firm required by the applicable requirements of the Public Company Accounting Oversight Board regarding the independent accountant's communications with the Audit Committee concerning independence. The Audit Committee has also considered and discussed the compatibility of non-audit services provided by Ernst & Young with that firm's independence. In addition, the Audit Committee discussed the rules of the SEC that pertain to the Audit Committee and the roles and responsibilities of Audit Committee members.

The Audit Committee reviewed management's report on its assessment of the effectiveness of the Company's internal control over financial reporting. The Audit Committee also meets with the independent registered public accounting firm, with and without management present, to discuss the results of their examination and the overall quality of the Company's financial reporting.

Based on its review of the financial statements and the aforementioned discussions, the Audit Committee concluded that it would be reasonable to recommend, and on that basis did recommend, to the Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2008.

The Audit Committee also reviewed the Company's quarterly financial statements during 2008, and discussed them with both the management of the Company and the Company's independent registered public accounting firm prior to including such interim financial statements in the Company's quarterly reports on Form 10-Q.

In connection with the Company's Annual Report on Form 10-K for the year ended December 31, 2008, and quarterly reports on Form 10-Q, the Audit Committee discussed the results of the Company's certification process with the responsible executive officers relating to the certification of financial statements under Sections 302 and 906 of the Sarbanes-Oxley Act of 2002.

Respectfully submitted by the Audit Committee.

COMPENSATION AND OTHER INFORMATION CONCERNING DIRECTORS AND OFFICERS

Compensation Discussion and Analysis

Overview

Our compensation philosophy is based on a desire to balance retention of executive talent with pay for performance-based incentive compensation. In this regard, we have designed our compensation programs to reward our named executive officers for continued service and our sustained financial and operating performance. We also believe that the compensation of our named executive officers should align our executives' interests with those of our stockholders and focus executive behavior on the achievement of both near-term corporate targets as well as long-term business objectives and strategies. It is the responsibility of the Compensation Committee of our Board of Directors to administer our compensation practices to ensure that they are competitive and include incentives that are designed to appropriately drive our performance. Our Compensation Committee reviews and approves all of our executive compensation policies, including executive officer salaries, bonuses and equity awards.

Objectives of Our Executive Compensation Programs

Our compensation programs for our executive officers are designed to achieve the following objectives:

- Focus executive behavior on achievement of our annual and long-term objectives and strategy;
- Provide a competitive compensation package that enables us to attract and retain, on a long-term basis, talented executives;
- Provide a total compensation structure that the Compensation Committee believes is at least comparable with similarly-sized companies in the biotechnology industry for which we would compete for talent and which consists of a mix of base salary, cash incentives and equity; and
- Align the interests of management and stockholders by providing management with longer-term incentives through equity ownership.

Our executive compensation program consists of three primary elements: salary, long-term equity interest, primarily in the form of stock options, and a cash incentive program based on both corporate and individual performance. All of our executive officers are also eligible for certain benefits offered to employees generally, including, for fiscal 2008, life, health, disability and dental insurance, as well as participation in our 401(k) plan and 2000 Employee Stock Purchase Plan. We do not believe it is necessary for the attraction or retention of management talent to provide executive officers with compensation in the form of perquisites. We have also entered into agreements with certain executive officers that provide for certain retention benefits following a change in control or other significant transaction of the Company as well as severance benefits upon termination of employment without cause or for good reason following a change in control of the Company. In addition, the Compensation Committee considers and approves, from time to time, other compensatory arrangements with our executive officers.

It is the responsibility of the Compensation Committee to administer our compensation practices, to ensure that they are competitive, financially prudent and that they include incentives that are designed to appropriately drive performance. To achieve this, the Compensation Committee periodically reviews commercially available, industry specific survey data for companies of generally similar employee size and complexity in the biotechnology and biopharmaceutical industries as a general guide

for establishing its pay and equity practices and structures. The Compensation Committee, along with the Board of Directors, also reviews corporate and individual objectives for each of its executives, to confirm that appropriate goals have been established and to track performance against them. Following the completion of each fiscal year, the Compensation Committee uses this information, along with the recommendations of the Chief Executive Officer (except for his own compensation), to determine compensation for executive officers. In making these recommendations, the Compensation Committee takes into account both our overall performance and the individual performance of our executive officers, consulting with the Chief Executive Officer and the Board of Directors on these evaluations as appropriate. In addition, in 2009, the Compensation Committee engaged DolmatConnell & Partners to assist in the development of the compensation packages to our new President and Chief Executive Officer, Kevin Conroy, and Chief Financial Officer, Maneesh Arora.

In connection with base salary and long-term equity compensation decisions for 2008, our former Senior Vice President, Chief Financial Officer, Treasurer and Secretary provided the Compensation Committee with market compensation data from biotechnology companies with a similar employee headcount and market capitalization as ours, as reported by Equilar, a company that provides compensation benchmarking data for publicly traded companies, in a survey using data compiled from proxy statements filed during 2008 relating primarily to 2007 compensation. The report included data aggregated from approximately 40 companies in the biotechnology and biopharmaceutical industries. The Compensation Committee also gathered input from our Chief Executive Officer on the individual performance level of each executive reporting to him. The Compensation Committee also takes into account the compensation data provided to it regarding the executive's historical compensation, including historical equity incentive award data for each executive, in determining long-term compensation awards to executives.

In March 2008, we announced the retention of an investment bank to assist our Board of Directors in its evaluation of strategic alternatives for the business, including, but not limited to, a sale or merger with another entity. In connection with this announcement and to better align executive compensation with the achievement of corporate goals, the Compensation Committee determined to forego our cash incentive program for 2008, and instead entered into amended and restated employee retention agreements with our executive officers that, in part, provided for cash bonuses equal to one year of the executive's respective annual base salary upon consummation of a such a strategic alternative.

Recent Compensation Actions

Resignation of Named Executive Officers

On April 2, 2009, Jeffrey R. Lubner and Charles R. Carelli, Jr. resigned as our President and Chief Executive Officer and our Chief Financial Officer, respectively. In connection with the termination of their employment, Messrs. Lubner and Carelli were entitled to (i) severance payments equal to eighteen (18) months and fifteen (15) months, respectively, in the form of salary continuation at a rate equivalent to their respective base salaries as of the date of termination; (ii) continued health insurance premium payments for such respective periods; and (iii) nine (9) months accelerated vesting of unvested stock options, in each case under their respective employee retention agreements.

On March 31, 2009, we entered into release agreements with Messrs. Lubner and Carelli that provided, in exchange for a general release in favor of us, for the accelerated payment of our salary continuation obligations in an aggregate amount of \$472,500 and \$287,500, respectively (such amount, equal to eighteen months and fifteen months, respectively, of their base salaries as of the date of

termination). In addition, the release agreements also provided for the repurchase by us of options held by Messrs. Luber and Carelli with respect to an aggregate of 895,000 shares of common stock. This repurchase is in lieu of accelerated vesting and an extension of the option exercise period under each executive's respective employee retention agreement. We paid Messrs. Luber and Carelli approximately \$39,000 and \$11,000, respectively, to repurchase Mr. Luber's options to purchase 620,000 shares and Mr. Carelli's options to purchase 275,000 shares. The purchase price of the outstanding options represented a 75 percent discount from the estimated fair value of the vested options as of March 31, 2009. Messrs. Luber and Carelli retained the balance of their existing options, which will remain exercisable for two years following, and are subject to nine months acceleration of vesting upon, the termination of their respective employment with us.

Appointment of New Chief Executive Officer and New Chief Financial Officer

Our Board of Directors appointed Kevin T. Conroy as our new President and Chief Executive Officer, effective April 2, 2009.

In connection with his appointment, we entered into an employment agreement with Mr. Conroy that provides for a base salary of \$340,000 and for a target bonus opportunity equal to 50 percent of his base salary, with the exact amount of any such bonus to be based upon the achievement of corporate and individual performance goals to be determined by the Compensation Committee of the Board of Directors. Mr. Conroy was also granted an option to purchase 2.5 million shares of our common stock at an exercise price of \$0.83 (the closing price of our common stock on the NASDAQ Capital Market on the date Mr. Conroy was hired). Twenty-five percent of the shares underlying the stock option will become exercisable on the one-year anniversary of the date of grant, with the remainder vesting quarterly over the subsequent three years.

In the event of termination by us without cause or by Mr. Conroy for good reason, then Mr. Conroy will receive (i) salary continuation for a period of 18 months at his then-current base salary, (ii) any accrued but unpaid base salary as of the termination date, (iii) any accrued but unpaid bonus (including any performance-based bonus), (iv) 12 months' accelerated vesting of any unvested equity awards, and (v) the right to exercise any vested equity awards until the earlier of two years from the date of termination or the date such equity award expires. In the event of termination by us without cause or by Mr. Conroy for good reason, within 12 months before, or if Mr. Conroy remains employed with the Company on the effective date of, a "Change of Control" (as defined in the agreement), Mr. Conroy will receive a lump-sum payment equal to 24 months (which period will be reduced under certain circumstances) of his then-current base salary. Upon a Change of Control and subject to Mr. Conroy's agreement to remain employed by us (or by any successor), if requested, for a period of at least six months following such Change of Control at his then current base salary, all of Mr. Conroy's outstanding stock options would become fully vested and exercisable. The foregoing change of control payments shall be subject to increase to cover any excise tax imposed by Section 4999 of the Internal Revenue Code of 1986, as amended.

Our Board of Directors appointed Maneesh Arora as Senior Vice President and Chief Financial Officer of the Company, effective April 2, 2009. In connection with his appointment, we entered into an employment agreement with Mr. Arora that provides for a base salary of \$240,000 and for a target bonus opportunity equal to 40 percent of his base salary, with the exact amount of any such bonus to be based upon the achievement of corporate and individual performance goals to be determined by the Compensation Committee. Mr. Arora was also granted an option to purchase 1.25 million shares of our

common stock, at an exercise price of \$0.83 (the closing price of our common stock on the NASDAQ Capital Market on the date Mr. Arora was hired). Twenty-five percent of the shares underlying the stock options will become exercisable on the one-year anniversary of the date of grant, with the remainder vesting quarterly over the subsequent three years.

In the event of termination by us without cause or by Mr. Arora for good reason, then Mr. Arora will receive (i) salary continuation for a period of 15 months at his then-current base salary, (ii) any accrued but unpaid base salary as of the termination date, (iii) any accrued but unpaid bonus (including any performance-based bonus), (iv) 12 months' accelerated vesting of any unvested equity awards, and (v) the right to exercise any vested equity awards until the earlier of two years from the date of termination or the date such equity award expires. In the event of termination by us without cause or by Mr. Arora for good reason, within 12 months before, or if Mr. Arora remains employed on the effective date of, a "Change of Control" (as defined in the agreement), Mr. Arora will receive a lump-sum payment equal to 18 months (which period will be reduced under certain circumstances) of his then-current base salary. Upon a Change of Control and subject to Mr. Arora's agreement to remain employed by us (or any successor), if requested, for a period of at least six months following such Change of Control at his then current base salary, all of Mr. Arora's outstanding stock options would become fully vested and exercisable.

In connection with the employment of Messrs. Conroy and Arora, the Compensation Committee also developed a long-term incentive plan which provides for minimum cash payments to Messrs. Conroy and Arora upon certain changes of control of the Company.

The compensation packages for Messrs. Conroy and Arora were determined by the Compensation Committee with assistance from DolmatConnell & Partners, a compensation consultant, and pursuant to negotiations with Messrs. Conroy and Arora. We believe that these compensation packages are appropriate in light of the intense competition for top executives in the biotechnology field and among similarly situated companies, and that the terms of these arrangements are consistent with our executive compensation goals, including the balancing of short-term and long-term compensation to properly motivate our executive officers.

Our Executive Compensation Programs

Our executive compensation primarily consists of salary, long-term equity interest, primarily in the form of stock options, and a cash incentive program based on both corporate and individual performance. As noted under "Objectives of Our Executive Compensation Programs" above, in 2008, we did not provide a cash incentive plan for our executive officers. In January 2009, we also paid one-time transaction bonuses to our then-current executive officers pursuant to employee retention agreements entered into in April 2008. These transaction bonuses were paid in connection with the consummation of the strategic transaction with Genzyme Corporation on January 27, 2009 (as described in our Form 8-K filed January 28, 2009). In April 2009, we also adopted a long-term incentive plan that provides for minimum cash payments to our executive officers upon certain changes of control of the Company.

As part of our regular review to ensure competitive pay levels for our named executive officers we pay close attention to:

- the amount of compensation generally paid by similarly situated companies to their executives with similar roles and responsibilities;

- the roles and responsibilities of our named executive officers; the individual experience and skills of, and expected contributions from, our named executive officers;
- and the amount of historical compensation paid to our named executive officers.

In addition to the criteria above, the actual amount and allocation of total compensation (i.e., base salary, incentive bonuses and equity awards) paid or issued to our executive officers also reflects the timing and circumstances of when the executive joined us. For instance, the compensation package of our current President and Chief Executive Officer, who joined us in March 2009, partially reflects a negotiated employment and compensation package based on current market conditions and our state of transition following our strategic transaction with Genzyme Corporation in January 2009. Each of the primary elements of our executive compensation is discussed in detail below, including a description of the particular element and how it fits into our overall executive compensation and a discussion of the amounts of compensation paid to our named executive officers in 2008 under each of these elements. In the descriptions below, we have identified particular compensation objectives that we have designed elements of our executive compensation to serve; however, we have designed our compensation programs to complement each other and collectively serve all of our executive compensation objectives described above. Accordingly, whether or not specifically mentioned below, we believe that, as a part of our overall executive compensation, each element to a greater or lesser extent serves each of our objectives.

Annual Cash Compensation

Base Salary

The Compensation Committee believes that our executive officers, including our President and Chief Executive Officer, are paid salaries in line with their qualifications, experience and responsibilities. Salaries are structured so that they are at least comparable with salaries paid by the peer companies reviewed by the Compensation Committee in the biotechnology and biopharmaceutical industry with whom we compete for talent. Salaries are reviewed generally on an annual basis to ensure we remain competitive with our peers and further our objective of attracting and retaining highly qualified personnel.

Fiscal 2008 base salaries were determined by the Compensation Committee after considering the base salary level of the executive officers in prior years and taking into account for each executive officer the amount of base salary as a component of total compensation. Base salary levels for each of our executive officers were also based upon evaluations and recommendations made by the former interim Chief Executive Officer. These recommendations include an assessment of the individual's responsibilities, experience, individual performance and contribution to our performance, and also generally take into account the competitive environment for attracting and retaining executives consistent with our business needs. In light of the considerations discussed above, and within the context of the overall objectives of our compensation programs, the Compensation Committee increased for 2008 the base salary of Mr. Luber from \$285,000 to \$315,000, and the base salary of Mr. Carelli from \$215,000 to \$230,000. Mr. Zenner, who served as our interim Chief Executive Officer from July 2007 to March 2008, received no compensation for his service as our interim Chief Executive Officer during 2008. Instead, Mr. Zenner received a grant of 25,000 shares of restricted common stock in September 2007 as compensation for his services as interim Chief Executive Officer through March 2008.

The Compensation Committee believes that some portion of overall cash compensation for executive officers should be "at risk," i.e., contingent upon successful implementation of our strategy and goals. In prior years, the granting of a cash bonus was based on an evaluation of achievement against predetermined corporate objectives and individual performance, generally on a fiscal-year basis, in accordance with our Executive Incentive Plan, which is approved annually by the Compensation Committee. To better align cash incentives with our corporate objective of seeking a strategic transaction, for 2008 the Compensation Committee did not establish corporate or individual performance goals for our named executive officers under our Executive Incentive Plan. Instead, for 2008, the Compensation Committee entered into amended and restated employee retention agreements with our executive officers that provided, in part, for cash bonuses upon consummation of a sale or other change in control of the company, a sale of the company's assets and other significant corporate transactions. On January 27, 2009, we entered into a strategic transaction with Genzyme Corporation (as described in our Form 8-K filed on January 28, 2009), pursuant to which we sold and licensed certain of our intellectual property in the fields of prenatal and reproductive health to Genzyme for \$18.5 million and sold three million shares of our common stock to Genzyme for \$6.0 million. In connection with the consummation of this transaction, the Compensation Committee awarded Messrs. Luber and Carelli transaction bonuses equal to each executive's annual base salary as of the date of payment, \$315,000 and \$230,000, respectively.

Our current President and Chief Executive Officer, Mr. Conroy, will be eligible to earn an annual cash bonus in 2010 of up to 50 percent of his base salary and our current Senior Vice President and Chief Financial Officer, Mr. Arora, will be eligible to earn an annual cash bonus in 2010 of up to 40 percent of his base salary with the exact amount, in each case, determined by the Compensation Committee.

Long-Term Incentives

Our executive officers (and other employees) are eligible to receive restricted stock, stock option grants and other stock awards that are intended to promote success by aligning employee financial interests with long-term shareholder value. These stock-based incentives, which in recent years have consisted solely of stock option grants, are based on various factors primarily relating to the responsibilities of the individual officer or employee, their past performance, anticipated future contributions and prior option grants. In general, the Compensation Committee bases its decisions to grant stock-based incentives on recommendations of management and the Compensation Committee's analysis of third-party compensation information, with the intention of keeping the executives' overall compensation, including the equity component of that compensation, at a competitive level with the comparator companies reviewed by the Compensation Committee in the biotechnology and biopharmaceutical industries. The Compensation Committee also considers the number of shares of common stock outstanding, the number of shares of common stock authorized for issuance under its equity compensation plans, the number of options and shares held by the executive officer for whom an award is being considered and the other elements of the officer's compensation, as well as our compensation objectives and policies described above. As with the determination of base salaries and short term incentive payments, the Compensation Committee exercises subjective judgment and discretion in view of the above criteria.

During fiscal year 2008, the Compensation Committee made stock option grants to each of the named executive officers, with the exception of Mr. Zenner (who received a restricted stock award in 2007 for his service as interim Chief Executive Officer through March 2008), generally targeted at the market median of the comparator companies reviewed by the Compensation Committee in the biotechnology industry, with adjustments to reflect roles within the Company, individual performance and the overall incentive opportunity provided each officer. The stock options granted to our named executive officers under our 2000 Stock Option and Incentive Plan have an exercise price equal to the fair market value of the common stock at the time of grant. On February 21, 2008, Messrs. Luber and Carelli were granted options to acquire 175,000 and 90,000 shares, respectively. Stock options granted in 2008 vest in equal monthly installments over a three year period beginning one month following the grant date. We believe that time-based vesting of stock options enables us to retain our leadership team in an extremely competitive environment.

The Compensation Committee believes that these equity incentives provide the executive officers with the opportunity to acquire long-term stock ownership positions, and help to align the executives' interests with stockholders' interests. The Compensation Committee believes that this directly motivates executive officers to maximize long-term stockholder value.

Equity Grant Practices

We generally provide our executive officers with equity in one of three ways: new hire stock option grants, annual stock options grants or special grants.

The number of stock options granted to our executive officers as a part of our annual employee stock option grant is determined at either the last Compensation Committee meeting of the fiscal year preceding the year in which the grant will be made or the first Compensation Committee meeting of the grant year. The number of stock options granted is based on a Compensation Committee-approved grant matrix relating to the position level of the executive and the level of individual performance as determined by the Chief Executive Officer in consultation with the Compensation Committee. Award recommendations outside of the matrix may also be proposed, subject to Compensation Committee approval. The grant date for the annual option grant is predetermined and approved by the Compensation Committee as the third Thursday in February each year and the strike price is the closing price of our common stock on that date.

New hire stock option grants are provided on the date an executive officer commences employment with us. The amounts of such awards are generally recommended by the Chief Executive Officer and are subject to the advance approval of the Compensation Committee. New hire options are priced using the closing price of our common stock on the first day of employment of the executive officer. In connection with the employment of Mr. Conroy, our current President and Chief Executive Officer, and Mr. Arora, our current Senior Vice President and Chief Financial Officer, the Compensation Committee engaged DolmatConnell & Partners to assist it in developing the equity awards negotiated with Messrs. Conroy and Arora. Messrs Conroy and Arora were granted options to purchase 2.5 million and 1.25 million share of our common stock, respectively, twenty-five percent of which shall vest and become exercisable on the one-year anniversary of the date of grant, with the remainder vesting quarterly over the subsequent three years, subject to acceleration upon termination of employment or a change in control of the Company.

Special stock option grants can be recommended by the Chief Executive Officer and approved by the Compensation Committee at any meeting or by written consent. In the event that a special stock

option grant is awarded by written consent, it is priced based on the closing price of our common stock on the date that we receive the last Compensation Committee member's signature. All options awarded at a Compensation Committee meeting are priced either on the date of the meeting or at such other subsequent date as may be authorized by the Compensation Committee.

Other Compensation

We also permit executive officers and other employees to purchase common stock at a discount through our 2000 Employee Stock Purchase Plan. Employees, including executive officers, may also participate in our 401(k) Plan. In 2006, the Compensation Committee approved an amended EXACT Sciences 401(k) Plan that provides for the investment of a portion of plan assets in shares of our common stock. The Compensation Committee also approved a discretionary matching Company contribution to the plan for fiscal 2008. The matching contribution was made using Company stock in an amount equal to 50 percent of an employee's total salary deferrals into the plan. This matching contribution resulted in stock contributions valued at \$7,750 to each of Messrs. Lubner and Carelli in 2008. The Compensation Committee reviewed these additional benefits, together with the primary compensation elements of salary, long-term incentives and cash incentives, in determining the total compensation for our executive officers. The Compensation Committee believes that these elements of compensation were reasonable in the aggregate. In connection with the retention of Messrs. Conroy and Arora, the Compensation Committee in its discretion may revise, amend or add to the executive officers' benefits if it deems it advisable.

Employee Retention Agreements

Messrs. Lubner and Carelli were parties to employee retention agreements which provided for certain severance benefits that may be triggered as a result of the termination of their respective employment under certain circumstances. In April 2008, these agreements were amended and restated to, among other things, increase severance benefits, provide for retention bonuses upon a change in control or other significant corporate transaction, and provide gross-up payments for excise tax obligations imposed by Section 4999 of the Code as discussed elsewhere in this Compensation Discussion and Analysis. Under these agreements, in the event that we terminated his employment other than for cause, Mr. Lubner and Mr. Carelli would each have received severance payments in the form of salary continuation at his then-current base salary for 18 months and 15 months, respectively. In addition to the severance and retention bonus provisions, the employee retention agreements provided for acceleration of vesting of stock options and an extension of the exercisability of such options in certain circumstances. The benefits provided by the executive retention agreements were intended to ensure that each executive officer focused his attention on our management, including a willingness to undertake a reasonable degree of business risk in an effort to create shareholder value. We believe these retention bonuses and other severance and change of control benefits would have helped our executive officers remain focused on our corporate goals and objectives in the event of a change in control transaction. See "Potential Benefits Upon Termination or Change in Control" below for a description of benefits to which Messrs. Lubner and Carelli would have been entitled in certain circumstances, as well as a description of the benefits they received upon the termination of their employment in April 2009.

Compliance with Internal Revenue Code Section 162(m)

In general, under Section 162(m) of the Code, we cannot deduct, for federal income tax purposes, compensation in excess of \$1,000,000 paid to certain executive officers. This deduction limitation does not apply, however, to compensation that constitutes "qualified performance-based compensation" within the meaning of Section 162(m) of the Code and the regulations promulgated thereunder. We have considered the limitations on deductions imposed by Section 162(m) of the Code, and it is our present intention that, with the exception of stock awards made to such executives pursuant to the 2000 Stock Option and Incentive Plan after the date of our 2004 annual meeting of stockholders, and for so long as it is consistent with the Compensation Committee's overall compensation objective, tax deductions attributable to executive compensation will generally not be subject to the deduction limitations of Section 162(m). We recognize that tax deductions attributable to executive compensation under the 2000 Stock Option and Incentive Plan after the date of the 2004 annual meeting of stockholders may be subject to the deduction limitations of Section 162(m).

Luber and Carelli to purchase an aggregate of 895,000 shares of common stock. This repurchase was in lieu of accelerated vesting and an extension of the option exercise period under their respective employee retention agreements. We paid Messrs. Luber and Carelli approximately \$39,000 and \$11,000, respectively, to repurchase Mr. Luber's options to purchase 620,000 shares and Mr. Carelli's options to purchase 275,000 shares. The purchase price of the outstanding options represented a 75 percent discount from the estimated fair value of the vested options as of March 31, 2009.

None of our named executive officers participate in or have account balances in qualified or non-qualified defined benefit plans sponsored by us.

Nonqualified Deferred Compensation

Potential Benefits Upon Termination or Change in Control

Severance and Change in Control Arrangements in General

Messrs. Luber and Carelli each signed an amended and restated employee retention agreement in April 2008 which provided that, in the event that we terminated his employment other than for cause, we would make severance payments equal to 18 months and 15 months, respectively, in the form of salary continuation to Mr. Luber and Mr. Carelli at a rate equivalent to their base salaries as of the date of termination. Such severance payments would also be due to Messrs. Luber and Carelli upon a change in control and termination without cause, or for "good reason", which was defined in the employee retention agreements as a material diminution in job responsibility, a substantial reduction in compensation or a certain geographic movement during the two-year period following the change in control. In addition, pursuant to the employee retention agreements, Mr. Luber and Mr. Carelli would each have been entitled to a retention bonus in an amount equal to such executive's then-current annual base salary upon the closing of a transaction resulting in a change in control of EXACT or other significant transaction as determined by the Board of Directors. Retention bonus amounts would be due in a lump sum at the closing of such a transaction. Mr. Luber and Mr. Carelli received no additional death and disability benefits other than those provided to employees generally.

Cash Payments and Stock Option Vesting Acceleration Following Certain Termination Events

Our 2000 Stock Option and Incentive Plan provides that all outstanding options granted will have their vesting accelerated by one year following a change in control. In addition, the 2000 Stock Option and Incentive Plan provides that if we experience a change in control and the employment of a plan participant is terminated without cause, or if such participant terminates his or her employment for certain reasons, generally referred to as "good reason", including a substantial reduction in compensation or geographic movement during the one-year period following the change in control, then all unvested stock options held by such participant become fully-vested and immediately exercisable. Notwithstanding any provisions to the contrary included in our 2000 Stock Option Plan, the employee retention agreements with Messrs. Luber and Carelli provide for acceleration of vesting of certain stock options as described in the tables below.

Termination Payments to Our Former President and Chief Executive Officer and Former Senior Vice President, Chief Financial Officer, Treasurer and Secretary

On April 2, 2009, Jeffrey R. Luber and Charles R. Carelli, Jr. resigned as our President and Chief Executive Officer and our Chief Financial Officer, respectively. In connection with the termination of their employment, Messrs. Luber and Carelli were entitled to (i) severance payments equal to eighteen (18) months and fifteen (15) months, respectively, in the form of salary continuation at a rate equivalent to their respective base salaries as of the date of termination; (ii) continued health insurance premium payments for such respective periods; and (iii) nine (9) months accelerated vesting of unvested stock options, in each case under their respective employee retention agreements.

On March 31, 2009, we entered into release agreements with Messrs. Luber and Carelli that provided, in exchange for a general release in favor of us, for the accelerated payment of our salary continuation obligations in an aggregate amount of \$472,500 and \$287,500, respectively (such amount, equal to eighteen months and fifteen months, respectively, of their base salaries as of the date of termination). In addition, the release agreements also provided for the repurchase by us of options held

by Messrs. Luber and Carelli with respect to an aggregate of 895,000 shares of common stock. This repurchase is in lieu of accelerated vesting and an extension of the option exercise period under each executive's respective employee retention agreement. We paid Messrs. Luber and Carelli approximately \$39,000 and \$11,000, respectively, to repurchase Mr. Luber's options to purchase 620,000 shares and Mr. Carelli's options to purchase 275,000 shares. The purchase price of the outstanding options represented a 75 percent discount from the estimated fair value of the vested options as of March 31, 2009. Messrs. Luber and Carelli retained the balance of their existing options, which will remain exercisable for two years following, and are subject to nine months acceleration of vesting upon, the termination of their respective employment with us.

A summary of the actual termination benefits provided to Messrs. Luber and Carelli in connection with their termination of employment as of their respective termination dates is below.

Termination Arrangements for our Former President and Chief Executive Officer

The following table outlines certain cash payments and benefits that Jeffrey R. Lubert, our former President and Chief Executive Officer, would be entitled to receive under the triggering events described below, assuming that his employment terminated on December 31, 2008 and based on the terms of the amended and restated employee retention agreement entered into in April 2008 between us and Mr. Lubert. The following table also provides the intrinsic value (that is, the value based upon our stock price on December 31, 2008, minus the exercise price) of stock options that would become exercisable or vested as a result of these acceleration events as of December 31, 2008 in connection with a change in control. In addition, the table provides an estimate of the tax gross-up payment we would have made to Mr. Lubert in connection with his excise tax obligations related to severance payments. The actual amounts that we paid Mr. Lubert upon the termination of his employment with us on April 2, 2009 are discussed above under "Termination Payments to Our Former President and Chief Executive Officer and Former Senior Vice President, Chief Financial Officer, Treasurer and Secretary."

- (1) Amount represents 18 months of salary continuation due to Mr. Lubert upon the triggering event described in the column heading. Pursuant to the terms of his employee retention agreement, in connection with the termination of his employment on April 2, 2009, this amount was paid to Mr. Lubert as described above.
- (2) Amount represents a retention bonus equal to one year of base salary to be paid in a lump sum upon the closing of a change in control or other significant transaction as determined by the Board of Directors. In connection with the consummation of the Genzyme strategic transaction, this bonus was paid to Mr. Lubert in January 2009.
- (3) The closing price of our common stock on the NASDAQ Capital Market on December 31, 2008 of \$0.57 per share was lower than the exercise price of any unexercisable stock options for which vesting would have been accelerated, and, therefore, the value of the accelerated portion of stock options is \$0. Pursuant to his employee retention agreement with us dated April 18, 2008,

Mr. Lubber would have been entitled to the acceleration of nine months of his unexercisable stock options as of December 31, 2008 upon an involuntary termination without cause without a change in control. Additionally, pursuant to Mr. Lubber's employee retention agreement, the expiration date of all of Mr. Lubber's then-exercisable stock options would be extended to two years from his termination date. See above for a description of our repurchase of certain options granted to and certain options retained by Mr. Lubber.

- (4) The closing price of our common stock on the NASDAQ Capital Market on December 31, 2008 of \$0.57 per share was lower than the exercise price of any unexercisable stock options for which vesting would have been accelerated, and, therefore, the value of the accelerated portion of stock options is \$0. Pursuant to Mr. Lubber's employee retention agreement, Mr. Lubber would have been entitled to the acceleration of fifty percent of his unexercisable stock options as of December 31, 2008 upon a change in control without termination. If Mr. Lubber's employment is terminated without cause or for "good reason" within the two-year period following a change in control, all outstanding options held by Mr. Lubber would have become exercisable. Additionally, pursuant to Mr. Lubber's employee retention agreement, the expiration date of all of Mr. Lubber's then exercisable stock options would be extended to two years from his termination date. See above for a description of our repurchase of certain options granted to and certain options retained by Mr. Lubber.
- (5) The closing price of our common stock on the NASDAQ Capital Market on December 31, 2008 of \$0.57 per share was lower than the exercise price of any unexercisable stock options for which vesting would have been accelerated, and, therefore, the value of the accelerated portion of stock options is \$0. Mr. Lubber would have been entitled to acceleration of all of his unexercisable stock options as of December 31, 2008 upon a change in control and termination without cause or for good reason. Additionally, pursuant to Mr. Lubber's employee retention agreement, the expiration date of all of Mr. Lubber's then exercisable stock options would be extended to two years from his termination date. See above for a description of our repurchase of certain options granted to and certain options retained by Mr. Lubber.
- (6) Amount represents the estimated value of health and dental benefits due to Mr. Lubber for a period of 18 months based on the triggering event in the column heading.
- (7) Amount represents an estimate, as of December 31, 2008, of the tax gross up payment that would be due to Mr. Lubber for federal excise taxes due under Section 4999 of the Internal Revenue Code. We or our successor would also be responsible for paying such excise tax gross up amount upon Mr. Lubber's termination without cause or for good reason, as defined in Mr. Lubber's employee retention agreement, within two years of a change in control. For purposes of calculating this tax gross up amount as of December 31, 2008, and to the extent that that any excise tax gross up payment would have been due to Mr. Lubber at some future date pursuant to Mr. Lubber's employee retention agreement, it was assumed that Mr. Lubber pays federal income taxes at the highest marginal rate of federal income taxation applicable to individuals for the calendar year in which the gross up payment is to be made, and state and local income taxes at the highest marginal rates of individual taxation in the state and locality of Mr. Lubber's residence on the date of Mr. Lubber's termination of service with us, net of the maximum reduction in federal income taxes which could be obtained from deduction of such state and local taxes.

The following table outlines certain cash payments and benefits that Charles R. Carelli, Jr., our former Senior Vice President, Chief Financial Officer, Treasurer and Secretary, would be entitled to receive under the triggering events described below, assuming that his employment terminated on December 31, 2008 and based on the terms of the amended and restated employee retention agreement entered into in April 2008 between us and Mr. Carelli. The following table also provides the intrinsic value (that is, the value based upon our stock price on December 31, 2008, minus the exercise price) of stock options that would become exercisable or vested as a result of these acceleration events as of December 31, 2008 in connection with a change in control. The actual amounts that we paid Mr. Carelli upon the termination of his employment with us on April 2, 2009 are discussed above under "Termination Payments to Our Former President and Chief Executive Officer and Former Senior Vice President, Chief Financial Officer, Treasurer and Secretary."

Mr. Carelli would have been entitled to acceleration of all of his unexercisable stock options as of December 31, 2008 upon a change in control and termination without cause or for good reason. Additionally, pursuant to Mr. Carelli's employee retention agreement, the expiration date of all of Mr. Carelli's then exercisable stock options would be extended to two years from his termination date. See above for a description of our repurchase of certain options granted to and certain options retained by Mr. Carelli.
- (6) Amount represents the estimated value of health and dental benefits due to Mr. Carelli for a period of 15 months based on the triggering event in the column heading.

None of our other executive officers would have received any payments or benefits upon a termination of employment on December 31, 2008, as Mr. Zenner was not entitled to any such payments and Messrs. Conroy and Arora were not employed by us in 2008.

Director Compensation

Compensation Policy for Non-Employee Directors in 2008

We maintain a compensation package for our non-employee directors, or Director Compensation Policy, to enable us to attract and retain, on a long-term basis, high-caliber directors who are not employees or officers of us or our subsidiaries.

Pursuant to the Director Compensation Policy in effect prior to December 11, 2008, all non-employee directors received annual compensation for board service in shares of our common stock, as indicated in the table below.

	Annual Retainer
	(in shares of our
	common stock)
Executive Chairman	15,000
Chairperson	15,000
Director	10,000

Any newly elected non-employee director (i.e., each director joining the Board of Directors for the first time) elected between August 9, 2007 and December 11, 2008 was granted an option to purchase 10,000 shares of common stock (adjusted for stock splits) pursuant to our 2000 Plan, on the date they were elected to the Board of Directors, this grant vested one-third on the first year anniversary of the date of grant, and then ratably thereafter on a monthly basis over a period of twenty-four months.

In addition to the grants for newly elected non-employee directors, each non-employee director was granted an option to purchase 15,000 shares of common stock (adjusted for stock splits), pursuant to the 2000 Plan, on the date of the first meeting of the Board of Directors following each annual meeting of stockholders, or the Annual Option Grant. The first Annual Option Grant received by a non-employee director during his/her tenure on the Board of Directors vested 100% on the date of the annual meeting of stockholders next following the date of grant. All subsequent Annual Option Grants received by a non-employee director during his/her service on the Board of Directors with us vested ratably over a period of twelve months from the date of each such grant. In the event that a non-employee director was elected to the Board of the Directors other than in connection with an annual meeting of stockholders, the number of options granted to such director under the first Annual Option Grant received by such non-employee director was reduced by 1,250 shares for each month since our last annual meeting of stockholders to the date of such non-employee director's election to the Board of Directors.

Pursuant to the Director Compensation Policy, in 2008, each of Ms. Crawford, Messrs. Kania, Mack, and Zenner and Dr. Willsey received Annual Option Grants to purchase 15,000 shares of common stock under the 2000 Plan. In addition, Mr. Zenner received 15,000 shares of common stock and Messrs. Kania and Mack, Ms. Crawford and Dr. Willsey each received 10,000 shares of common stock as an annual retainer under the Director Compensation Policy.

On December 11, 2008, the Board of Directors amended and restated the Director Compensation Policy. On January 1st of each year, each non-employee director shall be paid an annual retainer equal to the following dollar value worth of restricted stock of our company ("Restricted Stock") as measured by the closing sale price of our common stock on the first trading day following January 1, which shall

vest in full one year from the date of grant, subject to full acceleration of vesting upon a change in control of the Company:

	Annual Retainer
	(\$ value of Restricted Stock)
Chairman of the Board	\$ 37,500
Chairman of a Committee	\$ 35,000
Director	\$ 25,000

In addition, on the date of the first meeting of the Board of Directors following each annual meeting of our stockholders, each non-employee director shall be granted \$15,000 worth of Restricted Stock as measured by the closing sale price of our common stock on the first trading day following the date of such meeting of the Board of Directors, which shall vest in full one year from the date of grant, and which shall be subject to full acceleration of vesting upon an Acquisition.

Upon his or her initial election to the Board of Directors, a new director shall receive \$25,000 worth of Restricted Stock as measured by the closing sale price of our common stock on the first trading day following the date of initial election, which shall vest in full one year from the date of grant, and which shall be subject to 12 months acceleration of vesting upon an Acquisition.

The initial election grant and initial annual retainer for 2009 to Michael E. Singer consisted of 130,000 shares of Restricted Stock which vest 100% on the first anniversary of the date of grant.

All vesting under the Restricted Stock grants described in this policy immediately ceases upon cessation of service as a director for any reason.

The foregoing compensation is in addition to reimbursement of all out-of-pocket expenses incurred by directors in attending meetings of the Board of Directors.

All of the foregoing options are granted at fair market value on the date of grant and, except as otherwise provided under the 2000 Plan, all vesting thereunder immediately ceases upon cessation of service as a director for any reason. In addition, the form of option agreement gives directors up to one year following cessation of service as a director to exercise all options that are vested as of the date of such cessation.

The foregoing compensation is in addition to reimbursement of all out-of-pocket expenses incurred by directors in attending meetings of the Board of Directors.

The following table provides compensation information for the one-year period ended December 31, 2008 for each non-employee member of our Board of Directors. No member of our Board employed by us receives separate compensation for services rendered as a member of our Board.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Other than compensation agreements and other arrangements which are described in "Compensation Discussion & Analysis," in 2008, there has not been, and there is not currently proposed, any transaction or series of similar transactions to which we were or will be a party in which the amount involved exceeded or will exceed \$120,000 in which any director, executive officer, holder of five percent or more of any class of our capital stock or any member of their immediate family had or will have a direct or indirect material interest.

In April 2007, our Board of Directors adopted a written related person transaction approval policy, which sets forth our policies and procedures for the review, approval or ratification of any transaction required to be reported in our filings with the Securities and Exchange Commission. Our policy with regard to related person transactions is that all future related person transactions between us and any related person (as defined in Item 404 of Regulation S-K) or their affiliates, in which the amount involved is equal to or greater than \$120,000, be reviewed by our Secretary and approved in advance by our Audit Committee.

- (1) Audit fees include fees for professional services rendered for the audit of our consolidated annual statements, quarterly reviews, consents and assistance with and review of documents filed with the SEC.

The Audit Committee did not pre-approve any fees associated with financial systems consulting and, accordingly, no such fees were incurred by us.

Pre-approval Policies and Procedures

The Audit Committee has adopted a formal policy that requires that all services to be provided by Ernst & Young, including audit services and permitted non-audit services, must be pre-approved by the Audit Committee. The Audit Committee approved all audit and permitted non-audit services provided by Ernst & Young during fiscal year 2008 pursuant to this policy. As permitted by the SEC's rules, the Audit Committee has authorized one of its members to pre-approve audit, audit-related, tax and non-audit services, provided that such approved service is reported to the full Audit Committee at its next meeting. Proposed services that have not been pre-approved pursuant to the Audit Committee's Pre-Approval Policy must be specifically pre-approved by the Audit Committee before they may be provided by Ernst & Young. Any pre-approved services exceeding the pre-approved monetary limits require specific approval by the Audit Committee.

HOUSEHOLDING OF ANNUAL MEETING MATERIALS

Some banks, brokers and other nominee record holders may be participating in the practice of "householding." This means that only one copy of our annual report and proxy statement will be sent to stockholders who share the same last name and address. Householding is designed to reduce duplicate mailings and save significant printing and postage costs.

If you receive a household mailing this year and would like to receive additional copies of our annual report and/or proxy statement, please submit your request in writing to: EXACT Sciences Corporation, 100 Campus Drive, Marlborough, Massachusetts 01752, Attention: Secretary or by calling EXACT at (508) 683-1200. Any stockholder who wants to receive separate copies of the proxy statement in the future, or who is currently receiving multiple copies and would like to receive only one copy for his or her household, should contact his or her bank, broker, or other nominee record holder.

STOCKHOLDER PROPOSALS

Proposals of stockholders intended for inclusion in the proxy statement to be furnished to all stockholders entitled to vote at the next annual meeting of our stockholders, pursuant to Rule 14a-8 promulgated under the Exchange Act by the SEC, must be received at our principal executive offices no later than December 30, 2009. Stockholders who wish to make a proposal at the next annual meeting of our stockholders—other than one that will be included in our proxy statement—must notify us between March 19, 2010 and April 18, 2010. In order to avoid controversy as to the date on which we received a proposal, it is suggested that proponents submit their proposals by Certified Mail—Return Receipt Requested. In addition, such proposals must satisfy the procedures set forth in Rule 14a-8 under the Exchange Act. In addition, shareholders wishing to nominate a director should comply with the procedures set forth herein under "Policies Regarding Director Nominations— *Procedures for Recommendation of Director Nominees by Stockholders* " located on page 11.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires our directors, executive officers and persons who own more than ten percent of a registered class of our equity securities, collectively known as the Reporting Persons, to file reports of ownership and changes in ownership with the SEC. Such persons are required by regulations of the SEC to furnish us with copies of all such filings. Based solely on our review of copies of such filings, we believe that all Reporting Persons complied on a timely basis with all Section 16(a) filing requirements during the year ended December 31, 2008.

EXPENSES AND SOLICITATION

The cost of solicitation of proxies will be borne by us, and in addition to soliciting stockholders by mail, our directors, officers and other employees may, without receiving additional compensation, solicit proxies personally or by telephone. Solicitation by our directors, officers and other employees may also be made of some of our stockholders in person or by mail, telephone or telegraph following the original solicitation. We may request banks, brokers and other custodians, nominees and fiduciaries to forward proxy soliciting materials to the owners of our stock held in their names and, if so, will reimburse such banks, brokers and other custodians, nominees and fiduciaries for their reasonable out-of-pocket costs incurred in connection with the distribution of such proxy materials. We may also retain an independent proxy solicitation firm to assist in the solicitation of proxies.

OTHER BUSINESS

The Board of Directors knows of no business that will be presented for consideration at the annual meeting other than those items stated above. If any other business should come before the annual meeting, votes may be cast pursuant to proxies in respect to any such business in the best judgment of the person or persons acting under the proxies.
