Market data

We operate in an industry in which it is difficult to obtain precise industry and market information.

Although we have obtained some industry data from third-party sources that we believe to be reliable, in many cases we have based certain statements contained or incorporated by reference in this prospectus supplement or the accompanying prospectus regarding our industry and our position in the industry on our estimates concerning our customers and competitors. These estimates are based on our experience in the industry, conversations with our principal vendors, our own investigation of market conditions and information obtained through our numerous acquisitions.

Our company

We are the leading reprographics company in the United States providing business-to-business document management services to the architectural, engineering and construction industry, or AEC industry. We also provide these services to companies in non-AEC industries, such as technology, financial services, retail, entertainment, and food and hospitality, that require sophisticated document management services similar to our core AEC offerings. Reprographics services typically encompass the digital management and reproduction of construction documents or other graphics-related material and the corresponding finishing and distribution services. The business-to-business services we provide to our customers include document management, document distribution and logistics, print-on-demand, and a combination of these services in our customers' offices as on-site services, often referred to as "facilities management." We provide our core services through our suite of reprographics technology products, a national network of approximately 230 locally branded reprographics service centers, and approximately 3,300 facilities management programs at our customers' locations throughout the country. We also sell reprographics equipment and supplies to complement our full range of service offerings. Our services are critical to our customers because they shorten their document processing and distribution time, improve the quality of their document information management, and provide a secure, controlled document management environment.

In support of our strategy to create technology standards in the reprographics industry, we license several of our reprographics technology products, including our flagship internet-based application, PlanWell, to independent reprographers. Most of our licensees are members of our wholly-owned trade organization, the PEiR Group (Profit and Education in Reprographics), through which we charge membership fees and provide purchasing, technology and educational benefits to other reprographers, while continuing to promote our reprographics technology as an industry standard.

We operate approximately 230 reprographics service centers, including 225 service centers in 170 cities in 34 states throughout the United States and the District of Columbia, five reprographics service centers in Canada, and one in Mexico City, Mexico. The majority of our reprographics service centers are located in close proximity to our customers and offer pickup and delivery services within a 15 to 30 mile radius. These service centers are arranged in a hub and satellite structure and are digitally connected as a cohesive network, allowing us to provide our services both locally and nationally. We service approximately 107,000 active customers and employ approximately 4,400 people, including a sales and customer service staff of approximately 730 employees.

In terms of revenue, number of service facilities and number of customers, we believe we are the largest company in our industry, operating in approximately eight times as many cities and with more than six times the number of service facilities as our next largest competitor. We believe that our national footprint, our suite of reprographics technology products, and our value-added services, including logistics and facilities management, provide us with a distinct competitive advantage.

While we began our operations in California and currently derive approximately 46% of our net sales from our operations in the state, we have continued to expand our geographic coverage and market share by entering complementary markets through strategic acquisitions of high-quality companies with well-recognized local brand names and, in most cases, more than 25 years of operating history. Since 1997, we have acquired more than 100 companies. It is our preferred practice to maintain the senior management of companies we acquire. As part of our growth strategy, we sometimes open or acquire branch or satellite service centers in contiguous markets, which we view as a low cost, rapid form of market expansion. Our branch openings require modest capital expenditures and are expected to generate operating profit within 12 months from opening. We opened or acquired an additional 47 production facilities in 2006, closed or consolidated 14, and ended the year with a net gain of 33 locations.

For the year ended December 31, 2006, our net sales were \$591.8 million, our income from operations was \$106.3 million, and our net income was \$51.4 million. For the year ended December 31, 2006, we estimate that the AEC market accounted for approximately 80% of our net sales, with the remaining 20% from non-AEC markets.

Industry overview

According to the International Reprographics Association, or IRgA, and other industry sources, the reprographics industry in the United States is estimated to be approximately \$4.5 billion in size. The IRgA indicates that the reprographics industry is highly fragmented, consisting of approximately 3,000 firms with average annual sales of approximately \$1.5 million and 20 to 25 employees. Since construction documents are the primary medium of communication for the AEC industry, demand for reprographics services in the AEC market is closely tied to the level of activity in the construction industry, which in turn is driven by macroeconomic trends such as GDP growth, interest rates, job creation, office vacancy rates, and tax revenues. According to FMI Corporation, or FMI, a consulting firm to the construction industry, construction industry spending in the United States for 2006 was estimated at \$1.2 trillion, with expenditures divided between residential construction at 53.1% and commercial and public, or non-residential, construction at 46.9%. The \$4.5 billion reprographics industry is approximately 0.4% of the \$1.2 trillion construction industry in the United States. Our AEC revenues are most closely correlated to the non-residential sectors of the construction industry, which sectors are the largest users of reprographics services. According to FMI, the non-residential sectors of the construction industry are projected to grow at an average of 8.6% per year over the next three years.

Market opportunities for business-to-business document management services such as ours are rapidly expanding into non-AEC industries. For example, non-AEC customers are increasingly using large and small format color imaging for point-of-purchase displays, digital publishing, presentation materials, educational materials and marketing materials as these services have become more efficient and available on a short-run, on-demand basis through digital technology. As a result, we believe that our addressable market is substantially larger than the core AEC reprographics market. We believe that the growth of non-AEC industries is generally tied to

growth in the U.S. gross domestic product, or GDP, which is estimated to have grown 2.2% in 2006.

Our competitive strengths

We believe that our competitive strengths include the following:

- *Leading Market Position in Fragmented Industry.* Our size and national footprint provide us with significant purchasing power, economies of scale, the ability to invest in industry-leading technologies, and the resources to service large, national customers.
- *Leader in Technology and Innovation.* We believe our PlanWell online planrooms are well positioned to become the industry standard for managing and procuring reprographics services within the AEC industry. In addition, we have developed other proprietary software applications that complement PlanWell and have enabled us to improve the efficiency of our services, add complementary services and increase our revenue.
- *Extensive National Footprint with Regional Expertise.* Our national network of service centers maintains local customer relationships while benefiting from our centralized corporate functions and national scale. Our service facilities are organized as hub and satellite structures within individual markets, allowing us to balance production capacity and minimize capital expenditures through technology sharing among our service centers within each market. In addition, we serve many of our national and regional customers under a single contract through our Premier Accounts business unit, while offering centralized access to project-specific services, billing, and tracking information.
- *Flexible Operating Model.* By promoting regional decision making for marketing, pricing, and selling practices, we remain responsive to our customers while benefiting from the cost structure advantages of our centralized administrative functions. Our flexible operating model also allows us to capitalize on an improving business environment.
- *Consistent, Strong Cash Flow.* Through management of our inventory and receivables and our low capital expenditure requirements, we have consistently generated strong cash flow from operations after capital expenditures regardless of industry and economic conditions.
- *Low Cost Operator.* We believe we are one of the lowest cost operators in the reprographics industry, which we have accomplished by minimizing branch level expenses and capitalizing on our significant scale for purchasing efficiencies.
- *Experienced Management Team and Highly Trained Workforce.* Our senior management team has an average of over 20 years of industry experience and it is our preferred practice to maintain the senior management of companies we acquire.

Our business strategy

We intend to strengthen our competitive position as the preferred provider of reprographics services in each market we serve. We seek to do so while increasing revenue, cash flow, profitability, and market share. Our key strategies to accomplish this objective include:

- *Facilities Management Contracts.* We expect to capitalize on the continued trend of our customers to outsource their document management services, including their in-house operations. Placing equipment (and sometimes staff) in an architectural studio or construction company office remains a compelling service offering as evidenced by our nine-year compounded annual growth rate of 30% in new on-site services contracts. The renewable nature

of most on-site service contracts leads us to believe that this source of revenue will continue to increase in the near term. We will continue to concentrate on developing ongoing facilities management relationships in all of the markets we serve and building our base of recurring revenue.

- *Targeted Branch Openings.* Significant opportunities exist to expand our geographic coverage, capture new customers and increase our market share by opening additional satellite branches in regions near our established operations. In 2006, we opened an additional 47 branches, closed or consolidated 14, and ended the year with a net gain of 33 locations. We plan to open approximately 15 additional branches by the end of 2007. We believe that our existing corporate infrastructure is capable of supporting a much larger branch network and significantly higher revenue.
- *Strategic Acquisitions.* Acquisitions have historically been an important component of our growth strategy and, accordingly, we have developed a structured approach to acquiring and integrating companies. Because our industry consists primarily of small, privately-held companies that serve only local markets, we believe that we can continue to grow our business by acquiring additional reprographics companies at reasonable prices and subsequently realizing substantial operating and purchasing synergies by leveraging our existing corporate infrastructure, best practices and economies of scale.
- *National Accounts.* Our Premier Accounts business unit offers a comprehensive suite of reprographics services designed to meet the demands of large regional and national businesses. It provides local reprographics services to regional and national companies through our national network of reprographics service centers, while offering centralized access to project-specific services, billing and tracking information. Through our extensive national footprint and industry-leading technology, we believe that we are well positioned to meet the demands of national companies and will continue to capture additional revenues and customers through this business unit.

In addition, we continue to focus on creating new value-added services beyond traditional reprographics to offer all of our customers. We are actively engaged in services such as bid facilitation, print network management for offices and on-site production facilities, and on-demand color publishing. We plan to continue to capitalize on our technological innovation to enhance our existing services, add new revenue streams, and create new reprographics technologies.

Corporate background and reorganization

Our predecessor, Ford Graphics, was founded in Los Angeles, California in 1960. In 1967, this sole proprietorship was dissolved and a new corporate structure was established under the name Micro Device, Inc., which continued to provide reprographics services under the name Ford Graphics. In 1989, our current senior management team purchased Micro Device, Inc., and in November 1997 our company was recapitalized as a California limited liability company, with management retaining a 50% ownership position and the remainder owned by outside investors. In April 2000, Code Hennessy & Simmons LLC, or CHS, through its affiliates acquired a 50% stake in our company from these outside investors in the 2000 recapitalization (referred to as the "2000 recapitalization"). After the completion of this offering CHS will beneficially own less than five percent of our outstanding shares.

In February 2005, we reorganized from American Reprographics Holdings, L.L.C., a California limited liability company, or Holdings, to a Delaware corporation, American Reprographics

Company. In the reorganization, the members of Holdings exchanged their common units and options to purchase common units for shares of our common stock and options to purchase shares of our common stock. As part of our reorganization, all outstanding warrants to purchase common units of Holdings were exchanged for shares of our common stock. We conduct our operations through our wholly-owned operating subsidiary, American Reprographics Company, L.L.C., a California limited liability company, or Opco, and its subsidiaries.

(1) Prior to our reorganization as a Delaware corporation in February 2005, a substantial portion of our business was operated as a limited liability company, or LLC, and taxed as a partnership. As a result, the members of the LLC paid the income taxes on the earnings. The unaudited pro forma incremental income tax provision amounts reflected in the table above were calculated as if our reorganization became effective on January 1, 2002.

(2) Non-GAAP Measures.

EBIT and EBITDA and related ratios presented in this prospectus supplement are supplemental measures of our performance that are not required by or presented in accordance with GAAP. These measures are not measurements of our financial performance under GAAP and should not be considered as alternatives to net income, income from operations, or any other performance measures derived in accordance with GAAP or as an alternative to cash flow from operating, investing or financing activities as a measure of our liquidity.

EBIT represents net income before interest and taxes. EBITDA represents net income before interest, taxes, depreciation and amortization. EBIT margin is a non-GAAP measure calculated by subtracting depreciation and amortization from EBITDA and dividing the result by net sales. EBITDA margin is a non-GAAP measure calculated by dividing EBITDA by net sales.

We present EBIT and EBITDA and related ratios because we consider them important supplemental measures of our performance and liquidity. We believe investors may also find these measures meaningful, given how our management makes use of them. The following is a discussion of our use of these measures.

We use EBIT to measure and compare the performance of our operating segments. Our operating segments financial performance includes all of the operation activities except for debt and taxation which are managed at the corporate level. As a result, EBIT is the best measure of divisional profitability and the most useful metric by which to measure and compare the performance of our divisions. We also use EBIT to measure performance for determining division-level compensation and use EBITDA to measure performance for determining consolidated-level compensation. We also use EBITDA as a metric to manage cash flow from our divisions to the corporate level and to determine the financial health of each division. As noted above,

because our divisions do not incur interest or income tax expense, the cash flow from each division should be equal to the corresponding EBITDA of each division, assuming no other changes to a division's balance sheet. As a result, we reconcile EBITDA to cash flow monthly as one of our key internal controls. We also use EBIT and EBITDA to evaluate potential acquisitions and to evaluate whether to incur capital expenditures.

EBIT and EBITDA and related ratios have limitations as analytical tools, and you should not consider them in isolation, or as a substitute for analysis of our results as reported under GAAP. Some of these limitations are as follows:

- They do not reflect our cash expenditures, or future requirements for capital expenditures and contractual commitments;
- They do not reflect changes in, or cash requirements for, our working capital needs;
- They do not reflect the significant interest expense, or the cash requirements necessary, to service interest or principal payments on our debt;
- Although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and EBITDA does not reflect any cash requirements for such replacements; and
- Other companies, including companies in our industry, may calculate these measures differently than we do, limiting their usefulness as comparative measures.

Because of these limitations, EBIT and EBITDA and related ratios should not be considered as measures of discretionary cash available to us to invest in business growth or to reduce our indebtedness. We compensate for these limitations by relying primarily on our GAAP results and using EBIT and EBITDA only as supplements. For more information, see our consolidated financial statements and related notes incorporated by reference in the accompanying prospectus.

Selling stockholders

The following table sets forth information regarding the beneficial ownership of our common stock as of February 15, 2007, and as adjusted to reflect the sale of the shares of common stock offered in this offering, for each stockholder selling shares in this offering.

The number of shares beneficially owned by each stockholder is determined under rules promulgated by the SEC. The information is not necessarily indicative of beneficial ownership for any other purpose. Under these rules, beneficial ownership includes any shares as to which the individual or entity has sole or shared voting or investment power and any shares as to which the individual or entity has the right to acquire beneficial ownership within 60 days after February 15, 2007 through the exercise of any stock option or other right. The applicable percentage of ownership for each stockholder is based on 45,359,460 shares of common stock outstanding as of February 15, 2007, together with applicable options for that stockholder. The inclusion in the following table of those shares, however, does not constitute an admission that the named stockholder is a direct or indirect beneficial owner.

whether any such transaction described above is to be settled by delivery of our common stock or such other securities, in cash or otherwise.

The restrictions described in the immediately preceding paragraph do not apply to:

- the sale of shares of our common stock to the underwriters in connection with this offering;
- the granting by us of options to purchase shares of our common stock under existing employee stock plans;
- the issuance by us of shares of our common stock upon the exercise of options granted under existing employee stock plans;
- the granting by us of shares of our common stock under existing employee stock plans;
- shares of our common stock acquired in open market transactions by any person other than us;
- transfers to wholly-owned subsidiaries of an entity other than us of shares of our common stock or securities convertible into shares of our common stock;
- transfers or distributions by any entity other than us of shares of our common stock or securities convertible into shares of our common stock to members, partners or stockholders of the transferor;
- transfers by any person other than us of shares of our common stock or securities convertible into shares of our common stock as a bona fide gift or gifts; or
- transfers by any person other than us of shares of our common stock or securities convertible into shares of our common stock to any trust for the direct or indirect benefit of the transferor and/or his or her immediate family members;

provided that in the case of each of the last four transactions above, each donee, distributee, transferee or recipient agrees to be subject to the restrictions described in the immediately preceding paragraph. In addition, our directors, executive officers, the selling stockholders and certain other stockholders have agreed that, without the prior written consent of J.P. Morgan Securities Inc. and Goldman, Sachs & Co., they will not, during the period ending 90 days after the date of this prospectus, make any demand for or exercise any right with respect to the registration of any shares of our common stock or any security convertible into or exercisable or exchangeable for common stock.

J.P. Morgan Securities Inc. and Goldman, Sachs & Co. may release any of the securities subject to these lock-up agreements at any time without notice. J.P. Morgan Securities Inc. and Goldman, Sachs & Co. have advised us that they will determine to waive or shorten the lock-ups on a case-by-case basis after considering such factors as the current equity market conditions, the performance of the price of our common stock since the offering and the likely impact of any waiver on the price of our common stock, and the requesting party's reason for making the request. J.P. Morgan Securities Inc. and Goldman, Sachs & Co. have advised us that they have no present intent or arrangement to release any of the securities subject to these lock-up agreements.

We or the selling stockholders may have agreements with the underwriters, dealers and agents to indemnify them against certain civil liabilities, including liabilities under the Securities Act, or to contribute with respect to payments which the underwriters, dealers or agents may be required to make. Underwriters, dealers and agents may engage in their transactions with, or perform services for, us or our subsidiaries in the ordinary course of their businesses.

The underwriters may engage in stabilizing transactions, syndicate covering transactions and penalty bids in accordance with Rule 104 under the Securities Exchange Act in connection with this offering. Stabilizing transactions permit bids to purchase the common stock so long as the stabilizing bids do not exceed a specified maximum. Syndicate covering transactions involve purchases of the common stock on the New York Stock Exchange following completion of this offering to cover all or a portion of a syndicate short position created by the underwriters selling more shares of common stock in connection with this offering than they are committed to purchase from us and the selling stockholders. In addition, the underwriters may impose "penalty bids" under contractual arrangements between the underwriters and dealers participating in this offering whereby they may reclaim from a dealer participating in this offering the selling concession with respect to shares of common stock that are distributed in this offering but subsequently purchased for the account of the underwriters in the open market. Such stabilizing transactions, syndicate covering transactions and penalty bids may result in the maintenance of the price of the common stock at a level above that which might otherwise prevail in the open market. None of the transactions described in this paragraph is required and, if any are undertaken, they may be discontinued at any time.

In connection with this offering, certain underwriters and selling group members, if any, who are qualified market makers on the New York Stock Exchange may engage in passive market making transactions in our common stock on the New York Stock Exchange in accordance with Rule 103 of Regulation M under the Exchange Act. In general, a passive market maker must display its bid at a price not in excess of the highest independent bid of such security; if all independent bids are lowered below the passive market maker's bid, however, such bid must then be lowered when certain purchase limits are exceeded.

Each of the underwriters has represented and agreed that:

- (a) it has not made or will not make an offer of shares to the public in the United Kingdom within the meaning of section 102B of the Financial Services and Markets Act 2000 (as amended) (FSMA) except to legal entities which are authorised or regulated to operate in the financial markets or, if not so authorised or regulated, whose corporate purpose is solely to invest in securities or otherwise in circumstances which do not require the publication by the company of a prospectus pursuant to the Prospectus Rules of the Financial Services Authority (FSA);

(b) it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of section 21 of FSMA) to persons who have professional experience in matters relating to investments falling within Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 or in circumstances in which section 21 of FSMA does not apply to the company; and

(c) it has complied with, and will comply with all applicable provisions of FSMA with respect to anything done by it in relation to the shares in, from or otherwise involving the United Kingdom.

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a Relevant Member State), each Underwriter has represented and agreed that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the Relevant Implementation Date) it has not made and will not make an offer of Shares to the public in that Relevant Member State prior to the publication of a prospectus in relation to the Shares which has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, all in accordance with the Prospectus Directive, except that it may, with effect from and including the Relevant Implementation Date, make an offer of Shares to the public in that Relevant Member State at any time:

(a) to legal entities which are authorised or regulated to operate in the financial markets or, if not so authorised or regulated, whose corporate purpose is solely to invest in securities;

(b) to any legal entity which has two or more of (1) an average of at least 250 employees during the last financial year; (2) a total balance sheet of more than €43,000,000 and (3) an annual net turnover of more than €50,000,000, as shown in its last annual or consolidated accounts;

(c) to fewer than 100 natural or legal persons (other than qualified investors as defined in the Prospectus Directive) subject to obtaining the prior consent of the representatives for any such offer; or

(d) in any other circumstances which do not require the publication by the Issuer of a prospectus pursuant to Article 3 of the Prospectus Directive.

For the purposes of this provision, the expression an “offer of Shares to the public” in relation to any Shares in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Shares to be offered so as to enable an investor to decide to purchase or subscribe the Shares, as the same may be varied in that Relevant Member State by any measure implementing the Prospectus Directive in that Relevant Member State and the expression Prospectus Directive means Directive 2003/71/EC and includes any relevant implementing measure in each Relevant Member State.

The shares may not be offered or sold by means of any document other than to persons whose ordinary business is to buy or sell shares or debentures, whether as principal or agent, or in circumstances which do not constitute an offer to the public within the meaning of the Companies Ordinance (Cap. 32) of Hong Kong, and no advertisement, invitation or document relating to the shares may be issued, whether in Hong Kong or elsewhere, which is directed at, or the contents of which are likely to be accessed or read by, the public in Hong Kong (except if

permitted to do so under the securities laws of Hong Kong) other than with respect to shares which are or are intended to be disposed of only to persons outside Hong Kong or only to “professional investors” within the meaning of the Securities and Futures Ordinance (Cap. 571) of Hong Kong and any rules made thereunder.

This prospectus supplement and accompanying prospectus has not been registered as a prospectus with the Monetary Authority of Singapore. Accordingly, this prospectus supplement and accompanying prospectus and any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the shares may not be circulated or distributed, nor may the shares be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than (i) to an institutional investor under Section 274 of the Securities and Futures Act, Chapter 289 of Singapore (the “SFA”), (ii) to a relevant person, or any person pursuant to Section 275(1A), and in accordance with the conditions, specified in Section 275 of the SFA or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA.

Where the shares are subscribed or purchased under Section 275 by a relevant person which is: (a) a corporation (which is not an accredited investor) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor; or (b) a trust (where the trustee is not an accredited investor) whose sole purpose is to hold investments and each beneficiary is an accredited investor, shares, debentures and units of shares and debentures of that corporation or the beneficiaries’ rights and interest in that trust shall not be transferable for 6 months after that corporation or that trust has acquired the shares under Section 275 except: (1) to an institutional investor under Section 274 of the SFA or to a relevant person, or any person pursuant to Section 275(1A), and in accordance with the conditions, specified in Section 275 of the SFA; (2) where no consideration is given for the transfer; or (3) by operation of law.

The securities have not been and will not be registered under the Securities and Exchange Law of Japan (the Securities and Exchange Law) and each underwriter has agreed that it will not offer or sell any securities, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan (which term as used herein means any person resident in Japan, including any corporation or other entity organized under the laws of Japan), or to others for re-offering or resale, directly or indirectly, in Japan or to a resident of Japan, except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the Securities and Exchange Law and any other applicable laws, regulations and ministerial guidelines of Japan.

We estimate that our total expenses attributable to this offering will be approximately \$450,000, excluding underwriting discounts and commissions which are payable by the selling stockholders.

In the ordinary course of the underwriters’ respective businesses, the underwriters and their affiliates have engaged and may engage in commercial, investment banking and other advisory transactions with us or the selling stockholders for which they have received and will receive customary fees and expenses.

S. Chandramohan, the Chief Executive Officer of the company, maintains a private investment account with Goldman, Sachs & Co. In connection with a project to construct a new Goldman, Sachs & Co. headquarters in New York City, following a competitive bidding process, the developer, with Goldman, Sachs & Co.’s concurrence, has selected ARC to provide reprographics services for the project.

About this prospectus

This prospectus is part of a registration statement that we filed with the Securities and Exchange Commission, or SEC, using the SEC's shelf registration process. Under this shelf registration process, certain stockholders to be named in a supplement to this prospectus may sell up to 6,515,623 shares of common stock in one or more offerings.

This prospectus provides you with a general description of the securities the selling stockholders may sell. Each time the selling stockholders sell securities under this prospectus, we will provide a prospectus supplement that will contain specific information about the terms of that offering. The prospectus supplement may also add, update or change information contained in this prospectus. If so, the prospectus supplement should be read as superseding this prospectus. You should read this prospectus, the applicable prospectus supplement, and the additional information described below under the headings "Where you can find more information" and "Certain documents incorporated by reference."

In this prospectus we use the terms "American Reprographics," "we," "us," "our," and "our company" and similar phrases to refer to American Reprographics Company, a Delaware corporation, and its consolidated subsidiaries.

American Reprographics Company

We are the leading reprographics company in the United States providing business-to-business document management services to the architectural, engineering and construction industry, or AEC industry. We also provide these services to companies in non-AEC industries, such as technology, financial services, retail, entertainment, and food and hospitality, that require sophisticated document management services similar to our core AEC offerings. Reprographics services typically encompass the digital management and reproduction of construction documents or other graphics-related material and the corresponding finishing and distribution services. The business-to-business services we provide to our customers include document management, document distribution and logistics, print-on-demand, and a combination of these services in our customers' offices as on-site services, often referred to as "facilities management." We provide our core services through our suite of reprographics technology products, a national network of approximately 230 locally branded reprographics service centers, and approximately 3,300 facilities management programs at our customers' locations throughout the country. We also sell reprographics equipment and supplies to complement our full range of service offerings. In support of our strategy to create technology standards in the reprographics industry, we license several of our reprographics technology products, including our flagship internet-based application, PlanWell, to independent reprographers. Most of our licensees are members of our wholly-owned trade organization, the PEiR Group (Profit and Education in Reprographics), through which we charge membership fees and provide purchasing, technology and educational benefits to other reprographers, while continuing to promote our reprographics technology as an industry standard. Our services are critical to our customers because they shorten their document processing and distribution time, improve the quality of their document information management, and provide a secure, controlled document management environment.

Our main office is located at 700 North Central Avenue, Suite 550, Glendale, California 91203 and our telephone number is (818) 500-0225.

Risk factors

Investing in the securities to be offered pursuant to this prospectus and any applicable prospectus supplement may involve a high degree of risk. You should carefully consider the important factors set forth under the heading “Risk Factors” in our Annual Report on Form 10-K for the fiscal year ended December 31, 2006 filed with the SEC on March 1, 2007, the applicable prospectus supplement and in other periodic reports we file with the SEC before investing in any securities that may be offered.

Forward-looking statements

Some statements and disclosures in this prospectus, including the documents incorporated by reference, are “forward-looking statements.” Forward-looking statements include statements concerning our plans, objectives, goals, strategies, future events, future revenues or performance, capital expenditures, financing needs, plans or intentions relating to acquisitions, our competitive strengths and weaknesses, our business strategy and the trends we anticipate in the industry and economies in which we operate and other information that is not historical information. When used in this prospectus, the words “estimates,” “expects,” “anticipates,” “projects,” “plans,” “intends,” “believes” and variations of such words or similar expressions are intended to identify forward-looking statements. All forward-looking statements, including, without limitation, our examination of historical operating trends, are based upon our current expectations and various assumptions. Our expectations, beliefs and projections are expressed in good faith, and we believe there is a reasonable basis for them, but we cannot assure you that our expectations, beliefs and projections will be realized.

There are a number of risks and uncertainties that could cause our actual results to differ materially from the forward-looking statements contained in this prospectus, including the documents incorporated by reference. Important factors that could cause our actual results to differ materially from the forward-looking statements we make in this prospectus are set forth in, or incorporated by reference into, this prospectus, including, but not limited to, the factors described in the sections entitled “Forward-Looking Statements” and “Risk Factors” in our Annual Report on Form 10-K for the fiscal year ended December 31, 2006 and any related prospectus supplement. If any of these risks or uncertainties materialize, or if any of our underlying assumptions are incorrect, our actual results may differ significantly from the results that we express in, or imply by, any of our forward-looking statements. We do not undertake any obligation to revise these forward-looking statements to reflect future events or circumstances.

Use of proceeds

We are registering the shares of our common stock offered by this prospectus and the applicable prospectus supplement for the account of the selling stockholders identified in the applicable prospectus supplement in the section entitled "Selling stockholders". All of the net proceeds from the sale of our common stock by this prospectus and the applicable prospectus supplement will go to the selling stockholders who offer and sell their shares of our common stock. We will not receive any part of the proceeds from the sale of these shares.

Selling stockholders

This prospectus covers the offering for resale of up to 6,515,623 shares of common stock held by selling stockholders. The applicable prospectus supplement will set forth, with respect to each selling stockholder:

- the name of the selling stockholder;
- the nature of the position, office or other material relationship which the selling stockholder will have had within the prior three years with us or any of our affiliates;
- the number of shares of common stock owned by the selling stockholder prior to the offering;
- the number of shares of common stock to be offered for the selling stockholder's account; and
- the amount and (if one percent or more) the percentage of shares of common stock to be owned by the selling stockholder after the completion of the offering.

Pursuant to our agreements with certain of the selling stockholders, all expenses incurred, excluding underwriting discounts and commissions, in connection with the offering of the shares of common stock owned by the selling stockholders, other than those selling stockholders identified in the applicable prospectus supplement, will be borne by us.

Description of common stock and preferred stock

Our authorized capital stock consists of 150,000,000 shares of common stock, \$.001 par value per share, and 25,000,000 shares of undesignated preferred stock, \$.001 par value per share. As of February 15, 2007, 45,359,460 shares of common stock were issued and outstanding, and no shares of our preferred stock were outstanding.

The following description of our capital stock does not purport to be complete and is subject to and is qualified in its entirety by the terms of our capital stock contained in our amended and restated certificate of incorporation, a copy of which is filed as an exhibit to the registration statement of which this prospectus is a part. Reference is made to such exhibit for a detailed description of the provisions thereof summarized below.

Common stock

The holders of common stock are entitled to one vote for each share held of record on all matters submitted to a vote of the stockholders. Subject to preferences that may be applicable to any outstanding preferred stock, holders of common stock are entitled to receive ratably such dividends as may be declared by the board of directors out of funds legally available for that purpose. In the event of our liquidation, dissolution or winding up, the holders of common stock are entitled to share ratably in all assets remaining after payment of liabilities, subject to the prior distribution rights of any outstanding preferred stock. The common stock has no preemptive or conversion rights or other subscription rights. The outstanding shares of common stock are, and any shares of common stock to be issued pursuant to this prospectus will be, fully paid and non-assessable.

Preferred stock

The board of directors has the authority, without further action by the stockholders, to issue up to 25,000,000 shares of preferred stock, \$.001 par value, in one or more series. The board of directors also has the authority to designate the rights, preferences, privileges, and restrictions of each such series, including dividend rights, dividend rates, conversion rights, voting rights, terms of redemption, redemption prices, liquidation preferences, and the number of shares constituting any series.

The issuance of preferred stock may have the effect of delaying, deferring or preventing a change in control of our company without further action by the stockholders. The issuance of preferred stock with voting and conversion rights may also adversely affect the voting power of the holders of common stock. In certain circumstances, an issuance of preferred stock could have the effect of decreasing the market price of the common stock.

Certain effects of authorized but unissued stock

We have shares of common stock and preferred stock available for future issuance without stockholder approval. These additional shares may be used for a variety of corporate purposes, including future public offerings to raise additional capital, facilitate corporate acquisitions or payable as a dividend on the capital stock.

The existence of unissued and unreserved common stock and preferred stock may enable our board of directors to issue shares in a strategic transaction to persons friendly to current management or to issue preferred stock with terms that could render more difficult or discourage an attempt to obtain control of us by means of a merger, tender offer, proxy contest or

otherwise, thereby protecting the continuity of our management. In addition, the issuance of preferred stock could adversely affect the voting power of holders of common stock and the likelihood that such holders will receive dividend payments and payments upon liquidation.

Registration rights agreement

As of February 15, 2007, holders of 14,958,657 shares of common stock are entitled to rights with respect to the registration of their shares under the Securities Act of 1933, as amended, or Securities Act. These registration rights are contained in a registration rights agreement and are described below.

Demand Registrations. The holders of a majority of the registrable securities held by ARC Acquisition Co., L.L.C. and the holders of a majority of the registrable securities held by Messrs. Chandramohan and Suriyakumar (or entities in which they control a majority of the voting shares) are each entitled (as a group) to request up to two registrations on Form S-1 or similar long-form registration statements, respectively, and two short-form registrations on Form S-2, Form S-3 or any similar short-form registration statements, respectively. The holders of a majority of all other registrable securities under this agreement are entitled to request one short-form registration.

Piggyback Rights. The holders of registrable securities other than those originally requesting registration pursuant to a demand registration can request to participate in, or “piggyback” on, any demand registration.

Piggyback Registrations. If we propose to register any of our equity securities under the Securities Act (other than pursuant to a demand registration of registrable securities or a registration on Form S-4 or Form S-8) for us or for holders of securities other than the registrable securities, we will offer the holders of registrable securities the opportunity to register their registrable securities.

Conditions and Limitations; Expenses. The registration rights are subject to conditions and limitations, including the right of the underwriters to limit the number of shares to be included in a registration and our right to delay or withdraw a registration statement under specified circumstances. We will pay the registration expenses of the holders of registrable securities in demand registrations and piggyback registrations in connection with the registration rights agreement.

Delaware anti-takeover law and charter and bylaw provisions

Provisions of Delaware law and our charter documents could make the acquisition of our company and the removal of incumbent officers and directors more difficult. These provisions are expected to discourage certain types of coercive takeover practices and inadequate takeover bids and to encourage persons seeking to acquire control of our company to negotiate with it first. We believe that the benefits of increased protection of its potential ability to negotiate with the proponent of an unfriendly or unsolicited proposal to acquire or restructure our company outweigh the disadvantages of discouraging such proposals because, among other things, negotiation of such proposals could result in an improvement of their terms.

Section 203. We are subject to the provisions of Section 203 of the Delaware General Corporation Law. In general, the statute prohibits a publicly-held Delaware corporation from engaging in a “business combination” with an “interested stockholder” for a period of three years after the date that the person became an interested stockholder unless, subject to exceptions, the business combination or the transaction in which the person became an interested stockholder

is approved in a prescribed manner. Generally, a “business combination” includes a merger, asset or stock sale, or other transaction resulting in a financial benefit to the stockholder. Generally, an “interested stockholder” is a person who, together with affiliates and associates, owns, or within three years prior, did own, 15% or more of the corporation’s voting stock. These provisions may have the effect of delaying, deferring or preventing a change in control of our company without further action by the stockholders.

Special Stockholder Meetings. Our amended and restated certificate of incorporation provides that special meetings of the stockholders for any purpose or purposes, unless required by law, may only be called by the board of directors, the chairman of the board, if any, the chief executive officer or the president. This limitation on the ability to call a special meeting could make it more difficult for stockholders to initiate actions that are opposed by the board. These actions could include the removal of an incumbent director or the election of a stockholder nominee as a director. They could also include the implementation of a rule requiring stockholder ratification of specific defensive strategies that have been adopted by the board with respect to unsolicited takeover bids. In addition, the limited ability to call a special meeting of stockholders may make it more difficult to change the existing board and management.

Board of Directors. Subject to the rights of the holders of any outstanding series of preferred stock, our amended and restated certificate of incorporation authorizes only the board of directors to fill vacancies, including newly created directorships. Our amended and restated certificate of incorporation also provides that directors may be removed by stockholders only by affirmative vote of holders of two-thirds of the outstanding shares of voting stock.

Supermajority Vote to Amend Charter and Bylaws. Our amended and restated certificate of incorporation and amended and restated bylaws each provide that our bylaws may be amended by our stockholders only with a two-thirds vote of the outstanding shares. In addition, our amended and restated certificate of incorporation provides that its provisions related to, among other things, limitation of director liability and indemnification may only be amended by a two-thirds vote of the outstanding shares.

No Stockholder Action by Written Consent. Our amended and restated certificate of incorporation provides that stockholder action can be taken only at an annual or special meeting of stockholders and may not be taken by written consent. The amended and restated bylaws provide that special meetings of stockholders can be called only by the board of directors, the chairman of the board, if any, the chief executive officer and the president. Moreover, the business permitted to be conducted at any special meeting of stockholders is limited to the business brought before the meeting by the board of directors, the chairman of the board, if any, and the president.

Advance Notice Procedures. Our amended and restated bylaws provide for an advance notice procedure for the nomination, other than by or at the direction of our board of directors, of candidates for election as directors as well as for other stockholder proposals to be considered at annual meetings of stockholders.

Indemnification provisions

Our amended and restated certificate of incorporation limit the liability of directors to the maximum extent permitted by Delaware law. Delaware law expressly permits a corporation to

provide that its directors will not be personally liable for monetary damages for breach of their fiduciary duties as directors, except liability for:

- any breach of their duty of loyalty to the corporation or its stockholders;
- acts or omissions that are not in good faith or that involve intentional misconduct or a knowing violation of law;
- unlawful payments of dividends or unlawful stock repurchases or redemptions; or
- any transaction from which the director derived an improper personal benefit.

These express limitations do not apply to liabilities arising under the federal securities laws and do not affect the availability of equitable remedies, including injunctive relief or rescission.

The provisions of Delaware law that relate to indemnification expressly state that the rights provided by the statute are not exclusive and are in addition to any rights provided in a certificate of incorporation, bylaws, agreement or otherwise. Our amended and restated certificate of incorporation provides that we will indemnify our directors and officers, to the maximum extent permitted by law and that we may indemnify other employees and agents. Our amended and restated bylaws also permit us to secure insurance on behalf of any officer, director, employee or agent for any liability arising out of actions in his or her capacity as an officer, director, employee or agent. We have an insurance policy that insures our directors and officers against losses, above a deductible amount, from specified types of claims. We believe that these provisions and policies will help us attract and retain qualified persons.

The limited liability and indemnification provisions in our amended and restated certificate of incorporation, amended and restated bylaws and any related indemnification agreements may discourage stockholders from bringing a lawsuit against our directors for breach of their fiduciary duties and may reduce the likelihood of derivative litigation against our directors and officers, even though a derivative action, if successful, might otherwise benefit us and our stockholders. A stockholder's investment in us may be adversely affected to the extent we pay the costs of settlement or damage awards against our directors and officers under these indemnification provisions.

At present, there is no pending litigation or proceeding involving any of our directors, officers or employees in which indemnification is sought, nor are we aware of any threatened litigation that may result in claims for indemnification.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to our directors, officers, employees, and agents under our amended and restated certificate of incorporation, our amended and restated bylaws or any related indemnification agreements we have been advised that, in the opinion of the SEC, this indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable.

Transfer agent and registrar

The transfer agent and registrar for our common stock is Mellon Investor Services LLC.

Listing

Our common stock is listed on the New York Stock Exchange under the symbol "ARP."

Plan of distribution

The selling stockholders may sell the common stock:

- through underwriters or dealers;
- through agents; or
- directly to purchasers.

We will describe in a prospectus supplement, the particular terms of the offering of the common stock, including the following:

- the names of any underwriters;
- the purchase price and the proceeds the selling stockholders will receive from the sale;
- any underwriting discounts and other items constituting underwriters' compensation;
- any initial public offering price and any discounts or concessions allowed or reallocated or paid to dealers; and
- any other information we think is important.

If the selling stockholders use underwriters in the sale, such underwriters will acquire the securities for their own account. The underwriters may resell the securities in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale.

The securities may be either offered to the public through underwriting syndicates represented by managing underwriters or by underwriters without a syndicate. The obligations of the underwriters to purchase the securities will be subject to certain conditions. The underwriters will be obligated to purchase all the securities offered if any of the securities are purchased. The underwriters may change from time to time any initial public offering price and any discounts or concessions allowed or reallocated or paid to dealers.

The selling stockholders may sell offered securities through agents designated by the selling stockholders. Any agent involved in the offer or sale of the securities for which this prospectus is delivered will be named, and any commissions payable to that agent will be set forth, in the prospectus supplement. Unless indicated in the prospectus supplement, the agents have agreed to use their reasonable best efforts to solicit purchases for the period of their appointment.

The selling stockholders also may sell offered securities directly. In this case, no underwriters or agents would be involved.

The selling stockholders may enter into derivative transactions with third parties, or sell securities not covered by this prospectus to third parties in privately negotiated transactions. If the applicable prospectus supplement indicates, in connection with those derivatives, the third parties may sell securities covered by this prospectus and the applicable prospectus supplement, including in short sale transactions.

If so, the third parties may use securities pledged by the selling stockholders or borrowed from the selling stockholders or others to settle those sales or to close out any related open borrowings of stock, and may use securities received from the selling stockholders in settlement of those derivatives to close out any related open borrowings of stock. The third parties in such sale transactions will be underwriters and, if not identified in this prospectus, will be identified in the applicable prospectus supplement (or a post-effective amendment).

The selling stockholders may loan or pledge securities to a financial institution or other third party that in turn may sell the securities using this prospectus.

Underwriters, dealers and agents that participate in the distribution of the common stock may be underwriters as defined in the Securities Act, and any discounts or commissions received by them from the selling stockholders and any profit on the resale of the offered securities by them may be treated as underwriting discounts and commissions under the Securities Act. We will identify any underwriters or agents, and describe their compensation, in a prospectus supplement. In compliance with the guidelines of the NASD, the maximum commission or discount to be received by any NASD member or independent broker-dealer may not exceed 8% of the aggregate principal amount of the securities offered pursuant to a prospectus supplement.

Certain of any such underwriters and agents, including their associates, may be customers of, engage in transactions with and perform services for us and our subsidiaries in the ordinary course of business.

We or the selling stockholders may have agreements with the underwriters, dealers and agents to indemnify them against certain civil liabilities, including liabilities under the Securities Act, or to contribute with respect to payments which the underwriters, dealers or agents may be required to make. Underwriters, dealers and agents may engage in transactions with, or perform services for, us or our subsidiaries in the ordinary course of their businesses.

In order to facilitate the offering of the securities, any underwriters or agents, as the case may be, involved in the offering of such securities may engage in transactions that stabilize, maintain or otherwise affect the price of such securities or any other securities the prices of which may be used to determine payments on such securities. Specifically, the underwriters or agents, as the case may be, may over allot in connection with the offering, creating a short position in such securities for their own account. In addition, to cover over allotments or to stabilize the price of such securities or any such other securities, the underwriters or agents, as the case may be, may bid for, and purchase, such securities or any such other securities in the open market. Finally, in any offering of such securities through a syndicate of underwriters, the underwriting syndicate may reclaim selling concessions allotted to an underwriter or a dealer for distributing such securities in the offering if the syndicate repurchases previously distributed securities in transactions to cover syndicate short positions, in stabilization transaction or otherwise. Any of these activities may stabilize or maintain the market price of the securities above independent market levels. The underwriters or agents, as the case may be, are not required to engage in these activities, and may end any of these activities at any time.
