## **Tortoise Capital Resources Corp. Announces Intention to Deregister as a Business Development Corporation and Shift to Investing in Real Assets**

**LEAWOOD, Kan.** – Jan. 11, 2011 – (BUSINESS WIRE) – Tortoise Capital Resources Corp. (NYSE: TTO) today announced the filing of a preliminary proxy statement with the Securities and Exchange Commission (SEC) with respect to its annual meeting. Included within the proxy is a proposal unanimously approved by the Company's Board of Directors to withdraw the Company's election to be treated as a business development company (BDC) as defined in the Investment Company Act of 1940.

The Board of Directors believes this proposal is in the best interests of the Company and its stockholders for two primary reasons:

- There are significant opportunities for investment in real assets in the energy infrastructure sector, but the 70 Percent Test limits these types of direct investments; and
- The Company should have greater access to capital and flexibility in raising capital for its investment strategy.

The Company's investment strategy will be very similar to the one it has historically followed, targeting investments in the energy infrastructure sector. However, the withdrawal will allow the Company to expand its investment pool to include real, physical assets, as opposed to only investment securities. The Company will seek to identify and invest in energy infrastructure assets that have the potential to become real estate investment trust (REIT) qualified. The Company may in the future elect to be taxed as a REIT, provided that it has qualifying assets and income to permit such election.

To assist TTO, Tortoise Capital Advisors, L.L.C. (Tortoise) has entered into a consulting agreement with Corridor Energy, LLC (Corridor Energy), an asset management company focused on assisting select institutional investors as they seek access to real asset infrastructure investments. Corridor Energy will help Tortoise identify, analyze and finance potential investment opportunities for the Company that are consistent with its investment strategy. Corridor Energy was formed by principals of The Calvin Group, as well as Tortoise and Tortoise's majority owner, Montage Asset Management, LLC.

If the proposal is approved by stockholders, after filing a notice with the SEC, the Company would no longer be required to meet the requirement that 70 percent of its portfolio be comprised of "qualifying assets" (the "70 Percent Test"). The Company currently satisfies the 70 Percent Test principally by owning securities of eligible private companies. The Company expects to continue operating as a BDC until it no longer meets the 70 Percent Test. The proposal to withdraw from BDC status is not expected to affect the Company's expectations to continue to make quarterly distributions.

A copy of the Company's preliminary proxy statement is on the SEC's website at [www.sec.gov](http://www.sec.gov). The preliminary proxy statement is subject to review by the SEC staff and other changes by the Company. The Company expects to file a definitive proxy statement on or around February 1, 2011, which will then be available at [www.tortoiseadvisors.com](http://www.tortoiseadvisors.com). Stockholders should review that document carefully. Stockholders should make no decision about the proposal until reviewing the definitive proxy statement sent to them. The date for the Company's Annual Meeting of Stockholders will be in late March or early April 2011, and will be held in the Company's offices in Leawood, Kansas.
