Tortoise Capital Resources Corp. Releases Fiscal 2011 Second Quarter Financial Results

Jul 13, 2011 - LEAWOOD, Kan.--(BUSINESS WIRE)-- Tortoise Capital Resources Corp. (NYSE: TTO) (the company) today announced that it has filed its Form 10-Q for the second quarter ended May 31, 2011.

Recent Highlights

- *Distribution guidance of not less than \$0.40 per share annually*
- *Acquired first real property asset for \$16.1 million — electric transmission line in New Mexico*
- *Invested \$9.9 million indirectly in Arc Terminals — a refined products storage business*
- *Net asset value \$10.66 per share as of May 31, 2011*

Distribution Guidance

On June 1, 2011, the company paid a quarterly distribution of \$0.10 per common share, the same amount as the prior quarter. This quarter's distribution of \$0.10 per share was in excess of distributable cash flow for the quarter, therefore the company elected to pay out a small portion of the IRP gains. After investing most of the proceeds of the IRP sale, the company expects its earned DCF to support a quarterly distribution of \$0.10 per share (\$0.40 annually), with upside potential depending on the performance of its private equity investments.

Quarterly Performance Review and Investment Outlook

As of May 31, 2011, the company's net asset value was \$10.66 per share compared to \$10.46 per share at February 28, 2011. The fair value of the company's securities investment portfolio (excluding short-term investments) totaled \$70.1 million, with approximately \$43.3 million in private securities and approximately \$26.8 million in publicly-traded securities, diversified among 85 percent midstream and downstream, 14 percent aggregates and 1 percent upstream.

High Sierra's fair value increased approximately \$4.5 million this quarter. In May, High Sierra completed the sale of Monroe Gas Storage for \$148 million. In June, High Sierra acquired the assets of Marcum Midstream, a Colorado-based water disposal company serving the oil and gas industry. The completion of these transactions, along with a new credit facility which closed in March, is expected to result in the resumption of a modest quarterly cash distribution as early as next quarter.

Mowood's fair value decreased slightly this quarter, due to the delay in the completion of construction projects. Mowood expects that revenues from Ft. Leonard Wood-based pipeline assets, managed by its subsidiary, Omega Pipeline, will bolster its performance for the remainder of 2011.

VantaCore's fair value decreased approximately \$2.0 million this quarter and VantaCore was unable to earn its minimum quarterly distribution (MQD) of \$0.475 per unit for its quarter ended March 31, 2011. Common and preferred unitholders elected to receive their MQD as a combination of \$0.12 in cash and the remainder in newly issued preferred units, compared to \$0.09 in cash and the remainder in newly issued preferred units in the prior quarter. VantaCore has initiated a number of projects at both locations designed to improve profitability.

Subsequent to quarter end, the company successfully reinvested most of the proceeds from the recent IRP sale into two private investments and public MLPs. In early June, the company purchased a \$9.9 million interest in Magnetar MLP Investment LP which was formed solely to invest in Lightfoot Capital Partners LP, the same team that was involved in the IRP investment. This investment in Lightfoot facilitated an indirect investment in its portfolio company, Arc Terminals, an independent operator of above ground storage and delivery services for petroleum products and chemicals including refined products, renewable fuels and crude oil. Since its inception in 2007, Arc's business has grown to more than 3.5 million barrels of storage capacity through acquisitions and development projects. Lightfoot also holds approximately \$60 million set aside for other platform investments or additional investments in Arc.

On June 30, 2011, the company acquired its first real property asset with the purchase of a 40 percent undivided interest in the Eastern Interconnect Project for approximately \$16.1 million, including the assumption of \$3.4 million of debt. The project moves electricity between Albuquerque and Clovis, New Mexico, and is subject to a triple-net-lease with Public Service Company of New Mexico that expires in 2015.

The company plans to utilize liquid assets on its balance sheet, plus leverage and proceeds of equity issuances to fund the acquisition of new REIT-qualifying assets. The company does not expect to make additional investments in securities, other than short term, highly liquid investments to be held pending acquisition of real property assets. If sufficient suitable REIT-qualifying investments are made during 2011 and held for calendar year 2012, TTO expects to qualify as a REIT for the 2012 tax year.
