### Non-GAAP Financial Measures

This press release contains non-GAAP financial measures including adjusted EBITDA, adjusted EBITDA margin, non-GAAP operating income, non-GAAP income before provision for income taxes, non-GAAP provision for income taxes, non-GAAP net income, non-GAAP net income per diluted share and non-GAAP cash flow from operations.

Adjusted EBITDA is GAAP net income (loss) excluding income tax expense (benefit), interest, and other (income) expense, net, depreciation and amortization, acquisition related costs, stock-based compensation expense, and litigation related expense. Adjusted EBITDA margin is calculated by dividing adjusted EBITDA by revenue. Non-GAAP operating income excludes acquisition related costs and amortization, stock-based compensation expense, and litigation related expense. Non-GAAP provision for income taxes excludes the tax impact of acquisition related costs and amortization, stock-based compensation expense, and litigation related expense. Non-GAAP net income and non-GAAP net income per diluted share exclude acquisition related costs and amortization, stock-based compensation expense, litigation related expense, and their related tax impacts. Non-GAAP cash flow from operations excludes payments and receipts related to litigation related costs, and acquisition related payments.

The exclusion of certain expenses in the calculation of non-GAAP financial measures should not be construed as an inference that these costs are unusual or infrequent. We anticipate excluding these expenses in the future presentation of the Company's non-GAAP financial measures. The Company believes that these non-GAAP measures of financial results provide useful information to management and investors regarding certain financial and business trends relating to the Company's financial condition and results of operations. The Company's management uses these non-GAAP measures to compare the Company's performance to that of prior periods and uses these measures in financial reports prepared for management and the Company's board of directors. The Company believes that the use of these non-GAAP financial measures provides an additional tool for investors to use in evaluating ongoing operating results and trends and in comparing the Company's financial measures with other software-as-a-service companies, many of which present similar non-GAAP financial measures to investors. The Company does not consider these non-GAAP measures in isolation or as an alternative to financial measures determined in accordance with GAAP. The principal limitation of these non-GAAP financial measures is that they exclude significant elements that are required by GAAP to be recorded in the Company's financial statements. In addition, they are subject to inherent limitations as they reflect the exercise of judgment by management in determining these non-GAAP financial measures. In order to compensate for these limitations, management of the Company presents its non-GAAP financial measures in connection with its GAAP results. The Company urges investors to review the reconciliation of its non-GAAP financial measures to the comparable GAAP financial measures, which it includes in press releases announcing quarterly financial results, including this press release, and not to rely on any single financial measure to evaluate the Company's business.

---

Reconciliation tables of the most comparable GAAP financial measures to the non-GAAP measures used in this press release are included in this release.
