LogMeIn Announces Third Quarter 2010 Results

Quarterly Revenue up 34% year-over-year to \$25.3 Million; Non-GAAP Net Income up 84% to \$5.4 Million; Net Income Doubles to \$4.0 million

Woburn, Mass., October 27, 2010 – LogMeIn, Inc. (NASDAQ: LOGM), a leading provider of SaaS-based, remote-connectivity solutions, today announced results for the quarter ended September 30, 2010.

For the third quarter of 2010, revenue increased 34 percent to \$25.3 million from \$19.0 million reported in the third quarter of 2009. Net income for the third quarter of 2010 increased to \$4.0 million, or \$0.16 per diluted share, from \$1.8 million, or \$0.07 per diluted share, reported in the third quarter of 2009. Revenue in the third quarter of 2010 includes approximately \$200,000 in revenue related to the early termination of the Intel connectivity service and marketing agreement.

Non-GAAP net income for the third quarter of 2010 increased 84 percent to \$5.4 million, or \$0.22 per diluted share. This compares to non-GAAP net income for the third quarter of 2009 of \$2.9 million, or \$0.12 per diluted share. Non-GAAP net income for the third quarter of 2010 excludes \$111,000 in amortization of intangibles and \$1.3 million in stock compensation expense.

The Company reported cash flow from operations of \$7.0 million for the third quarter of 2010. Cash flow from operations as reported has been reduced for GAAP purposes by \$1.7 million of non-cash tax benefits associated with the exercise of employee stock options. Non-GAAP cash flow from operations for the third quarter of 2010 was \$8.7 million, or 34 percent of revenue, as compared to non-GAAP cash flow from operations of \$7.1 million, or 37 percent of revenue, reported in the third quarter of 2009. A reconciliation of the comparable GAAP financial measures to the non-GAAP measures used above is included in the attached tables. The Company closed the third quarter of 2010 with cash, cash equivalents and short-term investments of \$156.0 million.

Additionally, the Company reported total deferred revenue of \$40.5 million, an increase of \$2.1 million over the prior quarter. Total premium customers were approximately 490,000, an increase of 85,000 customers, versus an increase of approximately 65,000 in the second quarter of 2010.

“We are pleased to report another very strong quarter for LogMeIn. Both our access and support subscription businesses showed strong year-over-year and quarter-over-quarter growth,” said Michael Simon, president and CEO of LogMeIn. “And our LogMeIn Ignition

business continues to benefit from the proliferation and popularity of new tablets and smartphones hitting the market.”

“Encouraging trends in increased workforce mobility have proven to be beneficial to our business. We believe that our mobility infrastructure provides a great complement to the new generation of mobile hardware and software products. The rapid rise of smart, web-enabled devices is creating a distinct opportunity for LogMeIn’s remote access and remote support products.”

“We intend to expand our portfolio of products to better serve our growing user base. Our newest product, join.me, adds remote collaboration to our access and support product lines. We are optimistic that join.me will expand our addressable market and serve an unmet demand created by the increase in overall mobility. Given the continued growth in our core business and our expanding product portfolio, we remain confident that LogMeIn is uniquely positioned to capitalize on this favorable market environment. As a result, we are raising our outlook for the year,” concluded Simon.

Business Outlook

Based on information available as of October 27, 2010, the Company is issuing guidance for the fourth quarter 2010 and fiscal year 2010 as follows:

Fourth Quarter 2010: The Company expects fourth quarter 2010 revenue to be in the range of \$29.3 million to \$29.6 million, which includes approximately \$3.3 million of revenue recognized due to the early termination of our agreement with Intel.

Non-GAAP net income is expected to be in the range of \$5.7 million to \$6.0 million, and non-GAAP net income per diluted share is expected to be in the range of \$0.23 to \$0.24. Non-GAAP net income excludes an estimated \$100,000 in amortization of intangibles and \$1.5 million in stock compensation expense.

Net income, which includes an estimated \$100,000 in amortization of intangibles and \$1.5 million in stock compensation expense, is expected to be in the range of \$4.1 million to \$4.4 million, or \$0.16 to \$0.18 per share.

Non-GAAP net income assumes an effective tax rate of approximately 15 percent. Net income assumes an effective tax rate of approximately 18 percent.

Net income per diluted share calculations for the fourth quarter of 2010 are based on estimated fully-diluted weighted average shares outstanding of 25.1 million shares.

Fiscal Year 2010: The Company expects fiscal year 2010 revenue, including approximately \$3.5 million of revenue related to the early termination of the Intel agreement, to be in the range of \$99.5 million to \$99.8 million.

Non-GAAP net income is expected to be in the range of \$19.9 million to \$20.2 million and non-GAAP net income per diluted share is expected to be in the range of \$0.81 to \$0.82. Non-GAAP net income excludes an estimated \$600,000 in amortization of intangibles, \$5.1 million in stock compensation expense and a one-time tax benefit of \$5.6 million associated with the reversal of a valuation allowance related to certain deferred tax assets.

Net income, which includes an estimated \$600,000 in amortization of intangibles, \$5.2 million in stock compensation expense and the one-time tax benefit of \$5.6 million, is expected to be in the range of \$19.8 million to \$20.1 million, or \$0.80 to \$0.81 per share.

Non-GAAP net income assumes an effective tax rate for the fiscal year of approximately 13 percent. Excluding the one-time tax benefit of \$5.6 million, net income assumes an effective tax rate for the fiscal year of approximately 17 percent.

Net income per diluted share calculations for 2010 are based on estimated fully diluted weighted average shares outstanding of 24.7 million shares.

Non-GAAP Financial Measures

This press release contains non-GAAP financial measures including non-GAAP operating income, non-GAAP net income, non-GAAP net income per diluted share and non-GAAP cash flow from operations. Non-GAAP operating income excludes the amortization of intangibles and stock compensation expense. Non-GAAP net income and non-GAAP net income per diluted share exclude the amortization of intangibles, stock compensation expense and expenses related to the accretion of redeemable convertible preferred stock. Non-GAAP net income further excludes a one-time tax benefit associated with the reversal of a valuation allowance. Non-GAAP cash flow from operations includes a non-cash tax benefit associated with the exercise of employee stock options. The Company believes that these non-GAAP measures of financial results provide useful information to management and investors regarding certain financial and business trends relating to the Company's financial condition and results of operations. The Company's management uses these non-GAAP measures to compare the Company's performance to that of prior periods and uses these measures in financial reports

prepared for management and the Company's board of directors. The Company believes that the use of these non-GAAP financial measures provides an additional tool for investors to use in evaluating ongoing operating results and trends and in comparing the Company's financial measures with other software-as-a-service companies, many of which present similar non-GAAP financial measures to investors.

The Company does not consider these non-GAAP measures in isolation or as an alternative to financial measures determined in accordance with GAAP. The principal limitation of these non-GAAP financial measures is that they exclude significant elements that are required by GAAP to be recorded in the Company's financial statements. In addition, they are subject to inherent limitations as they reflect the exercise of judgments by management in determining these non-GAAP financial measures. In order to compensate for these limitations, management of the Company presents its non-GAAP financial measures in connection with its GAAP results. The Company urges investors to review the reconciliation of its non-GAAP financial measures to the comparable GAAP financial measures, which it includes in press releases announcing quarterly financial results, including this press release, and not to rely on any single financial measure to evaluate the Company's business.

Reconciliation tables of the most comparable GAAP financial measures to the non-GAAP measures used in this press release are included in this release.
