BOOT BARN HOLDINGS, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

1. Description of the Company and Basis of Presentation

Boot Barn Holdings, Inc., formerly known as WW Top Investment Corporation (the “Company”) was formed on November 17, 2011, and is incorporated in the State of Delaware. As of June 8, 2014, the Company held all of the outstanding shares of common stock of WW Holding Corporation, which held 95.0% of the outstanding shares of common stock of Boot Barn Holding Corporation. On June 9, 2014, WW Holding Corporation was merged with and into the Company and then Boot Barn Holding Corporation was merged with and into the Company (“Reorganization”). As a result of this Reorganization, Boot Barn, Inc. became a direct wholly owned subsidiary of the Company. On June 10, 2014, the legal name of the Company was changed from WW Top Investment Corporation to Boot Barn Holdings, Inc. The equity of the Company consists of 100,000,000 authorized shares and 26, 419,252 issued and 26, 412,107 outstanding shares of common stock as of June 25, 2016 . The shares of common stock have voting rights of one vote per share.

The Company operates specialty retail stores that sell western and work boots and related apparel and accessories. The Company operates retail locations throughout the U.S. and sells its merchandise via the internet. The Company operated a total of 210 stores in 29 states as of June 25, 2016 and 208 stores in 29 states as of March 26, 2016 . As of June 25, 2016 , all stores operate under the Boot Barn name, with the exception of two stores which operate under the “American Worker” name.

Basis of Presentation

The Company’s condensed consolidated financial statements as of and for the thirteen weeks ended June 25, 2016 and June 27, 2015 are prepared in accordance with accounting principles generally accepted in the U.S. (“GAAP”), and include the accounts of the Company and each of its subsidiaries, including Boot Barn, Inc., RCC Western Stores, Inc. (“RCC”), Baskins Acquisition Holdings, LLC (“Baskins”), Sheplers Inc. and Sheplers Holding Corporation (collectively with Sheplers, Inc. , “Sheplers”) and Boot Barn International (Hong Kong) Limited (“Hong Kong”). All intercompany accounts and transactions among the Company and its subsidiaries have been eliminated in consolidation. Certain information and footnote disclosures normally included in the Company’s annual consolidated financial statements have been condensed or omitted.

In the opinion of management, the interim condensed consolidated financial statements reflect all adjustments that are of a normal and recurring nature necessary to fairly present the Company’s financial position and results of operations and cash flows in all material respects as of the dates and for the periods presented. The results of operations presented in the interim condensed consolidated financial statements are not necessarily indicative of the results that may be expected for the fiscal year ending April 1, 2017 .

Fiscal Periods

The Company reports its results of operations and cash flows on a 52- or 53-week basis ending on the last Saturday of March unless April 1st is a Saturday, in which case the fiscal year ends on April 1st. In a 52-week year, each quarter includes thirteen weeks of operations; in a 53-week fiscal year, the first, second and third quarters each include thirteen weeks of operations and the fourth quarter includes fourteen weeks of operations. The fiscal year ending on April 1, 2017 (“fiscal 2017”) will consist of 53 weeks; whereas, the fiscal year ended on March 26, 2016 (“fiscal 2016”) consisted of 52 weeks.

2. Summary of Significant Accounting Policies

Information regarding the Company’s significant accounting policies is contained in Note 2, “Summary of Significant Accounting Policies”, to the consolidated financial statements included in the Company’s Annual Report on Form 10-K filed with the Securities and Exchange Commission (the “SEC”) on June 3, 2016 . Presented below in the

following notes is supplemental information that should be read in conjunction with those consolidated financial statements.

Comprehensive Income

The Company does not have any components of other comprehensive income recorded within its consolidated financial statements and, therefore, does not separately present a statement of comprehensive income in its consolidated financial statements.

Segment Reporting

GAAP has established guidance for reporting information about a company's operating segments, including disclosures related to a company's products and services, geographic areas and major customers. The Company operates in a single operating segment, which includes net sales generated from its retail stores and e-commerce websites. The vast majority of the Company's identifiable assets are in the U.S.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Among the significant estimates affecting the Company's consolidated financial statements are those relating to revenue recognition, inventories, goodwill, intangible and long-lived assets, stock-based compensation and income taxes. Management regularly evaluates its estimates and assumptions based upon historical experience and various other factors that management believes to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. To the extent actual results differ from those estimates, the Company's future results of operations may be affected.

Inventories

Inventory consists primarily of purchased merchandise and is valued at the lower of cost or market. Cost is determined on a first-in, first-out basis and includes the cost of merchandise and import related costs, including freight, duty and agent commissions. The Company assesses the recoverability of inventory through a periodic review of historical usage and present demand. When the inventory on hand exceeds the foreseeable demand, the value of inventory that, at the time of the review, is not expected to be sold is written down to its estimated net realizable value.

Fair Value of Certain Financial Assets and Liabilities

The Company follows Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements and Disclosures* ("ASC 820"), which requires disclosure of the estimated fair value of certain assets and liabilities defined by the guidance as financial instruments. The Company's financial instruments consist principally of cash and cash equivalents, accounts receivable, accounts payable and debt. ASC 820 defines the fair value of financial instruments as the price that would be received from the sale of an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820 establishes a three-level hierarchy for disclosure that is based on the extent and level of judgment used to estimate the fair value of assets and liabilities.

- Level 1 uses unadjusted quoted prices that are available in active markets for identical assets or liabilities.
- Level 2 uses inputs other than quoted prices included in Level 1 that are either directly or indirectly observable through correlation with market data. These include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; and inputs to valuation models or other pricing methodologies that do not require significant judgment because the inputs used in the model, such as interest rates and volatility, can be corroborated by readily observable market data.

- Level 3 uses one or more significant inputs that are unobservable and supported by little or no market activity, and reflect the use of significant management judgment. Level 3 assets and liabilities include those whose fair value measurements are determined using pricing models, discounted cash flow methodologies or similar valuation techniques and significant management judgment or estimation. The Company's Level 3 assets include certain acquired businesses.

Cash and cash equivalents, accounts receivable and accounts payable are valued at fair value and are classified according to the lowest level input that is significant to the fair value measurement. As a result, the asset or liability could be classified as Level 2 or Level 3 even though there may be certain significant inputs that are readily observable. The Company believes that the recorded value of its financial instruments approximate their current fair values because of their nature and respective relatively short maturity dates or duration.

Although market quotes for the fair value of the outstanding debt arrangements discussed in Note 5, "Revolving Credit Facilities and Long-Term Debt" are not readily available, the Company believes its carrying value approximates fair value due to the variable interest rates, which are Level 2 inputs. There were no financial assets or liabilities requiring fair value measurements on a recurring basis as of June 25, 2016 .

Recent Accounting Pronouncements

In May 2014, the FASB and the International Accounting Standards Board ("IASB") jointly issued a new revenue recognition standard, Accounting Standards Update ("ASU") No. 2014-09, *Revenue From Contracts with Customers* , that will supersede nearly all existing revenue recognition guidance under GAAP. The revenue recognition standard will allow for the recognition of revenue when a company transfers promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. The standard permits the use of either a full retrospective or retrospective with cumulative effect transition method. Early adoption is not permitted. On August 8, 2015, the FASB issued ASU No. 2015-14, which defers the effective date of ASU No. 2014-09 by one year, and permits early adoption as long as the adoption date is not before the original public entity effective date. The standard is effective for public entities for annual and interim periods beginning after December 15, 2017. The Company has not yet selected a transition method and is currently evaluating the effect that the updated standard will have on the consolidated financial statements.

In April 2015, the FASB issued ASU No. 2015-05, *Intangibles—Goodwill and Other—Internal-Use Software* (Subtopic 350-40): *Customer's Accounting for Fees Paid in a Cloud Computing Arrangement* . ASU No. 2015-05 provides guidance to customers about whether a cloud computing arrangement includes a software license. If a cloud computing arrangement includes a software license, the customer should account for the software license element of the arrangement consistent with the acquisition of other software licenses. If a cloud computing arrangement does not include a software license, the customer should account for the arrangement as a service contract. The new guidance does not change the customer's accounting for service contracts. ASU No. 2015-05 became effective for the Company beginning in fiscal 2017. The adoption of this new guidance in the thirteen weeks ended June 25, 2016 did not have an impact on the Company's consolidated financial statements.

In July 2015, the FASB issued ASU No. 2015-11, *Simplifying the Measurement of Inventory* . This update requires inventory within the scope of the standard to be measured at the lower of cost and net realizable value. Previous guidance required inventory to be measured at the lower of cost or market (where market was defined as replacement cost, with a ceiling of net realizable value and floor of net realizable value less a normal profit margin). This update is effective for annual and interim periods beginning after December 15, 2016. Early adoption is permitted. The Company is currently evaluating the impact the guidance will have on its consolidated financial statements.

In November 2015, the FASB issued ASU No. 2015-17, *Income Taxes: Balance Sheet Classification of Deferred Taxes* . ASU No. 2015-17 eliminates the requirement to bifurcate deferred taxes between current and non-current on the balance sheet and requires that deferred tax liabilities and assets be classified as noncurrent on the balance sheet. ASU No. 2015-17 is effective for public entities in annual periods beginning after December 15, 2016, and for interim periods within those annual periods. The amendments for ASU No. 2015-17 can be applied retrospectively or prospectively and

early adoption is permitted. The Company is currently evaluating the impact the guidance will have on its consolidated financial statements.

In February 2016, the FASB issued ASU No. 2016-02, *Leases* (Topic 842). The FASB issued this ASU to increase transparency and comparability among organizations by requiring lessees to recognize lease assets and lease liabilities on the balance sheet for those leases classified as operating leases under current U.S. GAAP and disclosing key information about leasing arrangements. The amendments in this ASU are effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2018. Early adoption is permitted. The Company is currently evaluating the impact the guidance will have on its consolidated financial statements.

In March 2016, the FASB issued ASU No. 2016-09, *Compensation — Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting*. ASU No. 2016-09 simplifies several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. For public entities, ASU No. 2016-09 is effective for annual periods beginning after December 15, 2016, and interim periods within those annual periods. Early adoption is permitted. The Company is currently evaluating the impact the guidance will have on its consolidated financial statements.

3. Business Combinations

On June 29, 2015, the Company completed the acquisition of Sheplers, a western lifestyle company with 25 retail locations across the United States and an e-commerce business, for a purchase price of \$147.0 million (which included assumption of certain indebtedness), subject to customary adjustments (the “Sheplers Acquisition”). The primary reason for the Sheplers Acquisition was to expand the Company’s retail operations into new and existing markets and grow the Company’s e-commerce business.

The Company funded the Sheplers Acquisition by refinancing approximately \$172.0 million of its and Sheplers’ existing indebtedness in part with an initial borrowing of \$57.0 million under a \$125.0 million syndicated senior secured asset-based revolving credit facility for which Wells Fargo Bank, National Association (“June 2015 Wells Fargo Revolver”), is agent, and a \$200.0 million syndicated senior secured term loan for which GCI Capital Markets LLC (“2015 Golub Term Loan”) is agent. Borrowings under the credit agreements were initially used to pay costs and expenses related to the Sheplers Acquisition and the closing of the credit agreements, and may be used for working capital and other general corporate purposes.

The acquisition-date fair value of the consideration transferred totaled \$149.3 million, which consisted of \$147.0 million in cash and \$2.3 million of a working capital adjustment, cash acquired and other adjustments. The total fair value of consideration transferred for the acquisition was allocated to the net tangible and intangible assets based upon their estimated fair values as of the date of the acquisition. The excess of the purchase price over the net tangible and intangible assets was recorded as goodwill. The goodwill and intangible assets are not deductible for income tax purposes. Such estimated fair values require management to make estimates and judgments, especially with respect to intangible assets.

The fair value of each intangible and fixed asset acquired through the Sheplers Acquisition was measured in accordance with ASC 820. Customer lists, furniture, fixtures, office equipment, leasehold improvements, computer equipment and warehouse equipment were all valued using the cost approach. The trade name was valued under the royalty savings income approach method and inventory was valued under the comparative sales method. All operating leases, below-market leases, capital leases and financing obligations were valued under either the cost or income approach. Such fair values were determined using Level 3 inputs.

[Table of Contents](#)

The following table summarizes the estimated fair values of the assets acquired and liabilities assumed as of the acquisition date based on the purchase price allocation :

| | <u>At June 29, 2015</u> (in thousands) |
|---|---|
| Assets acquired: | |
| Cash | \$ 2,762 |
| Accounts receivable | 1,792 |
| Inventory | 30,436 |
| Prepaid expenses and other current assets | 17,711 |
| Property and equipment | 10,744 |
| Properties under capital lease and financing transactions | 10,528 |
| Intangible - below-market leases | 500 |
| Intangible - trade name | 9,200 |
| Intangible - customer lists | 488 |
| Goodwill | 99,998 |
| Other assets | 128 |
| Total assets acquired | <u>\$ 184,287</u> |
| Liabilities assumed: | |
| Accounts payable | \$ 14,554 |
| Accrued liabilities and other payables | 5,065 |
| Accrued customer liabilities | 1,318 |
| Deferred tax liability | 1,226 |
| Capital lease and financing transactions | 8,853 |
| Other liabilities | 3,968 |
| Total liabilities assumed | <u>34,984</u> |
| Net Assets acquired | <u>\$ 149,303</u> |

Definite-lived intangible assets are recorded at their fair value as of the acquisition date with amortization computed utilizing the straight-line method over the assets' estimated useful lives. The period of amortization for below-market leases is 8 to 12 years and for customer lists is three years. The trade name is an indefinite-lived intangible asset and is not amortized but instead is measured for impairment at least annually, or when events indicate that impairment may exist.

The Company incurred \$0.9 million of acquisition-related costs in fiscal 2016 related to the acquisition of Sheplers, which are recorded in "Acquisition-related expenses" in the condensed consolidated statements of operations for the thirteen weeks ended June 27, 2015.

Supplemental Pro Forma Data

The as adjusted net sales and net loss below give effect to the Sheplers Acquisition as if it had been consummated on March 30, 2014, the first day of the Company's 2015 fiscal year. These amounts have been calculated after applying the Company's accounting policies and adjusting the results of Sheplers to reflect the effects of amortization of purchased intangible assets and acquired inventory valuation step-down, refinanced debt and capital lease and financing transactions as of March 30, 2014 in order to complete the acquisition, and income tax expense. The adjustments are based upon currently available information and certain assumptions that the Company believes are reasonable under the circumstances. Pre-acquisition net sales and net loss numbers for Sheplers are derived from their books and records prepared prior to the acquisition and are not verified by the Company. This as adjusted data is presented for informational purposes only and does not purport to be indicative of the results of future operations or of the results that would have occurred had the acquisition taken place as of the date noted above.

| | Thirteen Weeks Ended June 27, 2015 |
|-----------------------|---|
| (in thousands) | |
| As adjusted net sales | \$ 128,932 |
| As adjusted net loss | \$ (2,263) |

4. Intangible Assets, Net

Net intangible assets as of June 25, 2016 and March 26, 2016 consisted of the following:

| | June 25, 2016 | | | |
|-----------------------------|--|-------------------------------------|------------------|---|
| | Gross Carrying Amount | Accumulated Amortization | Net | Weighted Average Useful Life |
| | (in thousands, except for weighted average useful life) | | | |
| Customer lists | \$ 7,788 | \$ (6,529) | \$ 1,259 | 4.9 |
| Non-compete agreements | 1,290 | (1,035) | 255 | 4.9 |
| Below-market leases | 5,248 | (1,839) | 3,409 | 9.3 |
| Total definite lived | 14,326 | (9,403) | 4,923 | |
| Trademarks—indefinite lived | 59,377 | — | 59,377 | |
| Total intangible assets | <u>\$ 73,703</u> | <u>\$ (9,403)</u> | <u>\$ 64,300</u> | |

| | March 26, 2016 | | | |
|-----------------------------|--|-------------------------------------|------------------|---|
| | Gross Carrying Amount | Accumulated Amortization | Net | Weighted Average Useful Life |
| | (in thousands, except for weighted average useful life) | | | |
| Customer lists | \$ 7,788 | \$ (6,172) | \$ 1,616 | 4.9 |
| Non-compete agreements | 1,290 | (968) | 322 | 4.9 |
| Below-market leases | 5,248 | (1,702) | 3,546 | 9.4 |
| Total definite lived | 14,326 | (8,842) | 5,484 | |
| Trademarks—indefinite lived | 59,377 | — | 59,377 | |
| Total intangible assets | <u>\$ 73,703</u> | <u>\$ (8,842)</u> | <u>\$ 64,861</u> | |

Amortization expense for intangible assets totaled \$0.6 million for both the thirteen weeks ended June 25, 2016 and the thirteen weeks ended June 27, 2015, and is included in selling, general and administrative expenses.

As of June 25, 2016, estimated future amortization of intangible assets was as follows:

| Fiscal Year | (in thousands) |
|--------------------|---------------------------|
| 2017 | \$ 1,462 |
| 2018 | 966 |
| 2019 | 500 |
| 2020 | 388 |
| 2021 | 314 |
| Thereafter | 1,293 |
| Total | \$ 4,923 |

The Company performs its annual goodwill impairment test on the first day of the fourth fiscal quarter, or more frequently if it believes that indicators of impairment exist. As of June 25, 2016, the Company had identified no indicators of impairment with respect to its goodwill, intangible and long-lived asset balances.

5. Revolving Credit Facilities and Long-Term Debt

On June 29, 2015, the Company, as guarantor, and its wholly-owned primary operating subsidiary, Boot Barn, Inc., refinanced the \$150.0 million credit facility with Wells Fargo Bank, N.A. ("February 2015 Wells Fargo Credit Facility") with the \$125.0 million June 2015 Wells Fargo Revolver and the \$200.0 million 2015 Golub Term Loan. The borrowing base of the June 2015 Wells Fargo Revolver is calculated on a monthly basis and is based on the amount of eligible credit card receivables, commercial accounts, inventory, and available reserves. Borrowings under the credit agreements were initially used to pay costs and expenses related to the Sheplers Acquisition and the closing of such credit agreements, and may be used for working capital and other general corporate purposes.

Borrowings under the June 2015 Wells Fargo Revolver bear interest at per annum rates equal to, at the Company's option, either (i) London Interbank Offered Rate ("LIBOR") plus an applicable margin for LIBOR loans, or (ii) the base rate plus an applicable margin for base rate loans. The base rate is calculated as the highest of (a) the federal funds rate plus 0.5%, (b) the Wells Fargo prime rate and (c) one-month LIBOR plus 1.0%. The applicable margin is calculated based on a pricing grid that in each case is linked to quarterly average excess availability. For LIBOR Loans, the applicable margin ranges from 1.00% to 1.25%, and for base rate loans it ranges from 0.00% to 0.25%. The Company also pays a commitment fee of 0.25% per annum of the actual daily amount of the unutilized revolving loans. The interest on the June 2015 Wells Fargo Revolver is payable in quarterly installments ending on June 29, 2020, the maturity date. The amount outstanding under the June 2015 Wells Fargo Revolver for the thirteen weeks ended June 25, 2016 was \$60.2 million. Total interest expense incurred in the thirteen weeks ended June 25, 2016 on the June 2015 Wells Fargo Revolver was \$0.3 million, and the weighted average interest rate for the quarter ended June 25, 2016 was 1.6%.

Borrowings under the 2015 Golub Term Loan bear interest at per annum rates equal to, at the Company's option, either (a) LIBOR plus an applicable margin for LIBOR loans with a LIBOR floor of 1.0%, or (b) the base rate plus an applicable margin for base rate loans. The base rate is calculated as the greater of (i) the higher of (x) the prime rate and (y) the federal funds rate plus 0.5% and (ii) the sum of one-month LIBOR plus 1.0%. The applicable margin is 4.5% for LIBOR Loans and 3.5% for base rate loans. The principal and interest on the 2015 Golub Term Loan is payable in quarterly installments ending on June 29, 2021, the maturity date. Quarterly principal payments of \$500,000 are due each quarter. Total interest expense incurred in the thirteen weeks ended June 25, 2016 on the 2015 Golub Term Loan was \$ 2.8 million, and the weighted average interest rate for the quarter ended June 25, 2016 was 5.5%.

All obligations under each of the 2015 Golub Term Loan and the June 2015 Wells Fargo Revolver are unconditionally guaranteed by the Company and each of its direct and indirect domestic subsidiaries (other than certain immaterial subsidiaries) which are not named as borrowers under the 2015 Golub Term Loan or the June 2015 Wells Fargo Revolver, as applicable.

The priority with respect to collateral under each of the 2015 Golub Term Loan and the June 2015 Wells Fargo Revolver is subject to the terms of an intercreditor agreement among the lenders under the 2015 Golub Term Loan and the June 2015 Wells Fargo Revolver.

Each of the June 2015 Wells Fargo Revolver and the 2015 Golub Term Loan contains customary provisions relating to mandatory prepayments, restricted payments, voluntary payments, affirmative and negative covenants, and events of default. In addition, the terms of the June 2015 Wells Fargo Revolver require the Company to maintain, on a consolidated basis, a Consolidated Fixed Charge Coverage Ratio of at least 1.00:1.00 during such times as a covenant trigger event shall exist. The terms of the 2015 Golub Term Loan require the Company to maintain, on a consolidated basis, a maximum Consolidated Total Net Leverage Ratio as of June 25, 2016 of 4.75:1.00. As provided for in the 2015 Golub Term Loan, this ratio steps down to 4.50:1.00 as of December 24, 2016, 4.25:1.00 as of April 1, 2017, and 4.00:1.00 as of September 30, 2017 and for all subsequent periods. As of June 25, 2016, we were in compliance with the June 2015 Wells Fargo Revolver and the 2015 Golub Term Loan debt covenants. The June 2015 Wells Fargo Revolver and 2015 Golub Term Loan also require the Company to pay additional interest of 2.0% per annum upon triggering certain specified events of default set forth therein. For financial accounting purposes, the requirement for the Company to pay a higher interest rate upon an event of default is an embedded derivative. As of June 25, 2016, the fair value of these embedded derivatives was estimated and was not significant.

\$150 Million Credit Facility (Wells Fargo Bank, N.A.)

On February 23, 2015, the Company and Boot Barn, Inc., the Company's wholly-owned primary operating subsidiary, entered into the February 2015 Wells Fargo Credit Facility, which consisted of a \$75.0 million revolving credit facility, including a \$5.0 million sub-limit for letters of credit, and a \$75.0 million term loan, and also provided the Company with the ability to incur additional incremental term loans of up to \$50.0 million, provided that certain conditions were met, including compliance with certain covenants. On June 29, 2015, the Company repaid all outstanding borrowings under the February 2015 Wells Fargo Credit Facility and terminated such facility in connection with the refinancing discussed above.

Total interest expense incurred in the thirteen weeks ended June 27, 2015 on the February 2015 Wells Fargo Credit Facility was \$0.8 million and the weighted average interest rate at June 27, 2015 was 4.09%.

Debt Issuance Costs and Debt Discount

The Company paid \$1.4 million of transaction fees in connection with the February 2015 Wells Fargo Credit Facility. These transaction fees were paid to both Wells Fargo and other advisors via a reduction in the proceeds from the February 2015 Wells Fargo Credit Facility and were accounted for as debt issuance costs and a debt discount at March 28, 2015. On June 29, 2015, the February 2015 Wells Fargo Credit Facility was repaid when the new financing was obtained, and the \$1.4 million remaining debt issuance costs and debt discounts were written off to interest expense.

Debt issuance costs totaling \$0.9 million were incurred under the June 2015 Wells Fargo Revolver and are included as assets on the condensed consolidated balance sheets in prepaid expenses and other current assets. Total debt issuance costs were \$0.7 million and \$0.8 million as of June 25, 2016 and March 26, 2016, respectively. These amounts are being amortized to interest expense over the term of the June 2015 Wells Fargo Revolver.

Debt issuance costs and debt discount totaling \$5.6 million were incurred under the 2015 Golub Term Loan and are included as a reduction of the current and non-current note payable on the condensed consolidated balance sheets. Total debt issuance costs and debt discount were \$4.6 million and \$4.9 million as of June 25, 2016 and March 26, 2016, respectively. These amounts are being amortized to interest expense over the term of the 2015 Golub Term Loan.

The following sets forth the balance sheet information related to the term loan:

| (in thousands) | June 25, 2016 | March 26, 2016 |
|--|--------------------------|---------------------------|
| Term Loan | \$ 198,000 | \$ 198,500 |
| Unamortized value of the debt issuance costs and debt discount | (4,649) | (4,886) |
| Net carrying value | <u>\$ 193,351</u> | <u>\$ 193,614</u> |

Total amortization expense of \$0.3 million related to the June 2015 Wells Fargo Revolver and 2015 Golub Term Loan is included as a component of interest expense in the thirteen weeks ended June 25, 2016.

Aggregate Contractual Maturities

Aggregate contractual maturities for the Company's line of credit and long-term debt as of June 25, 2016 are as follows:

| Fiscal Year | (in thousands) |
|--------------------|---------------------------|
| 2017 | \$ 1,500 |
| 2018 | 2,000 |
| 2019 | 2,000 |
| 2020 | 2,000 |
| 2021 | 2,000 |
| Thereafter | 248,690 |
| Total | <u>\$ 258,190</u> |

6. Stock-Based Compensation

Equity Incentive Plans

On January 27, 2012, the Company approved the 2011 Equity Incentive Plan (the "2011 Plan"). The 2011 Plan authorized the Company to issue options to employees, consultants and directors exercisable for up to a total of 3,750,000 shares of common stock. As of June 25, 2016, all awards granted by the Company under the 2011 Plan have been nonqualified stock options. Options granted under the 2011 Plan have a life of 10 years and vest over service periods of five years or in connection with certain events as defined by the 2011 Plan.

On October 19, 2014, the Company approved the 2014 Equity Incentive Plan (the "2014 Plan"). The 2014 Plan authorizes the Company to issue awards to employees, consultants and directors for up to a total of 1,600,000 shares of common stock, par value \$0.0001 per share. As of June 25, 2016, all awards granted by the Company under the 2014 Plan to date have been nonqualified stock options, restricted stock awards or restricted stock units. Options granted under the 2014 Plan have a life of eight years and vest over service periods of five years or in connection with certain events as defined by the 2014 Plan. Restricted stock awards granted vest over one or four years, as determined by the Compensation Committee of the Board of Directors. Restricted stock units vest over service periods of one or five years, as determined by the Compensation Committee of the Board of Directors.

Non-Qualified Stock Options

During the thirteen weeks ended June 25, 2016, the Company granted certain members of management options to purchase a total of 560,892 shares under the 2014 Plan. The total grant date fair value of stock options granted during the thirteen weeks ended June 25, 2016 was \$1.5 million, with grant date fair values ranging from \$2.50 to \$2.95 per share. The Company is recognizing the expense relating to these stock options on a straight-line basis over the five-year service period of the awards. The exercise prices of these awards range between \$7.11 and \$8.38 per share.

During the thirteen weeks ended June 27, 2015, the Company granted certain members of management options to purchase a total of 283,613 shares under the 2014 Plan. The total grant date fair value of stock options granted during the

[Table of Contents](#)

thirteen weeks ended June 27, 2015 was \$3.2 million, with grant date fair values ranging from \$7.49 to \$15.72 per share. The Company is recognizing the expense relating to these stock options on a straight-line basis over the five-year service period of the awards. The exercise prices of these awards range between \$22.31 and \$28.82 per share.

On October 29, 2014, the Company granted its Chief Executive Officer (“CEO”) options to purchase 99,650 shares of common stock under the 2014 Plan. These options contain both service and market conditions. Vesting of the options occurs if the market price of the Company’s stock achieves stated targets through the third anniversary of the date of grant. As of March 26, 2016, the market price targets were achieved, and the options will vest in equal amounts on the third, fourth and fifth anniversaries of the grant date. The fair value of the options was estimated using a Monte Carlo simulation model. The following significant assumptions were used as of October 29, 2014:

| | |
|--------------------------------|-----------|
| Stock price | \$ 16.00 |
| Exercise price | \$ 16.00 |
| Expected option term | 6.0 years |
| Expected volatility | 55.0 % |
| Risk-free interest rate | 1.8 % |
| Expected annual dividend yield | 0 % |

The stock option awards discussed above, with the exception of options awarded to the Company’s CEO on October 29, 2014, were measured at fair value on the grant date using the Black-Scholes option valuation model. Key input assumptions used to estimate the fair value of stock options include the exercise price of the award, the expected option term, expected volatility of the Company’s stock price over the option’s expected term, the risk-free interest rate over the option’s expected term and the Company’s expected annual dividend yield, if any. The Company’s estimate of pre-vesting forfeitures, or forfeiture rate, was based on its internal analysis, which included the award recipients’ positions within the Company and the vesting period of the awards. The Company will issue shares of common stock when the options are exercised.

The fair values of stock options granted during the thirteen weeks ended June 25, 2016 and June 27, 2015 were estimated on the grant dates using the following assumptions:

| | Thirteen Weeks Ended | | | |
|---|----------------------|----------|------------------|----------|
| | June 25, 2016 | | June 27, 2015 | |
| Expected option term ⁽¹⁾ | 5.5 years | | 5.5 years | |
| Expected volatility factor ⁽²⁾ | 35.8 % | - 36.0 % | 33.3 % | - 37.1 % |
| Risk-free interest rate ⁽³⁾ | 1.38 % | - 1.43 % | 1.6 % | - 2.0 % |
| Expected annual dividend yield | 0 % | | 0 % | |

- (1) The Company has limited historical information regarding expected option term. Accordingly, the Company determined the expected life of the options using the simplified method.
- (2) Stock volatility for each grant is measured using the weighted average of historical daily price changes of the Company’s competitors’ common stock over the most recent period equal to the expected option term of the Company’s awards.
- (3) The risk-free interest rate is determined using the rate on treasury securities with the same term.

Intrinsic value for stock options is defined as the difference between the market price of the Company’s common stock on the last business day of the fiscal quarter and the weighted average exercise price of in-the-money stock options outstanding at the end of each fiscal period. The market value per share at June 25, 2016 was \$8.27.

[Table of Contents](#)

The following table summarizes the stock award activity for the thirteen weeks ended June 25, 2016:

| | Stock Options | Grant Date Weighted Average Exercise Price | Weighted Average Remaining Contractual Life (in Years) | Aggregate Intrinsic Value (in thousands) |
|---|------------------|---|--|--|
| Outstanding at March 26, 2016 | 2,447,133 | \$ 9.87 | | |
| Granted | 560,892 | \$ 7.38 | | |
| Exercised | (57,750) | \$ 4.64 | | \$ 212 |
| Cancelled, forfeited or expired | (63,470) | \$ 10.46 | | |
| Outstanding at June 25, 2016 | <u>2,886,805</u> | <u>\$ 9.47</u> | <u>6.6</u> | <u>\$ 3,948</u> |
| Vested and expected to vest after June 25, 2016 | <u>2,886,805</u> | <u>\$ 9.47</u> | <u>6.6</u> | <u>\$ 3,948</u> |
| Exerciseable at June 25, 2016 | <u>1,136,119</u> | <u>\$ 8.03</u> | <u>6.0</u> | <u>\$ 1,915</u> |

A summary of the status of non-vested stock options as of June 25, 2016 including changes during the thirteen weeks ended June 25, 2016 is presented below:

| | Shares | Weighted- Average Grant Date Fair Value |
|-----------------------------|------------------|--|
| Nonvested at March 26, 2016 | 1,335,103 | \$ 5.82 |
| Granted | 560,892 | \$ 2.60 |
| Vested | (81,839) | \$ 7.71 |
| Nonvested shares forfeited | (63,470) | \$ 6.58 |
| Nonvested at June 25, 2016 | <u>1,750,686</u> | <u>\$ 4.67</u> |

Restricted Stock

During the thirteen weeks ended June 25, 2016, the Company granted 116,732 restricted stock units to various directors and employees under the 2014 Plan. The shares granted to employees vest in five equal annual installments beginning on the grant date, provided that the respective award recipient continues to be employed by the Company through each of those dates. The shares granted to the Company's directors vest on the first anniversary of the date of grant. The grant date fair value of these awards totaled \$0.8 million. The Company is recognizing the expense relating to these awards on a straight-line basis over the service period of each award, commencing on the date of grant.

During the thirteen weeks ended June 27, 2015, the Company granted 43,546 restricted stock units to various employees under the 2014 Plan. The shares granted to employees vest in five equal annual installments beginning on the grant date, provided that the respective award recipient continues to be employed by the Company through each of those dates. The grant date fair value of these awards totaled \$1.3 million. The Company is recognizing the expense relating to these awards on a straight-line basis over the service period of each award, commencing on the date of grant.

Stock-Based Compensation Expense

Stock-based compensation expense was \$0.8 million and \$0.7 million for the thirteen weeks ended June 25, 2016 and June 27, 2015, respectively. Stock-based compensation expense of \$0.1 million was recorded in cost of goods sold in the condensed consolidated statements of operations for each of the thirteen weeks ended June 25, 2016 and June 27, 2015, respectively. All other stock-based compensation expense is included in selling, general and administrative expenses in the condensed consolidated statements of operations.

As of June 25, 2016, there was \$ 6.9 million of total unrecognized stock-based compensation expense related to unvested stock options, with a weighted-average remaining recognition period of 3.26 years. As of June 25, 2016, there

was \$2.4 million of total unrecognized stock-based compensation expense related to restricted stock, with a weighted-average remaining recognition period of 4.01 years.

7. Commitments and Contingencies

The Company is involved, from time to time, in litigation that is incidental to its business. The Company has reviewed these matters to determine if reserves are required for losses that are probable and reasonable to estimate in accordance with FASB ASC Topic 450, Contingencies. The Company evaluates such reserves, if any, based upon several criteria, including the merits of each claim, settlement discussions and advice from outside legal counsel, as well as indemnification of amounts expended by the Company's insurers or others, if any.

On April 28, 2016, two employees, on behalf of themselves and all other similarly situated employees, filed a wage-and-hour class action, which includes claims for penalties under California's Private Attorney General Act, in the Fresno County Superior Court, Case No. 16 CE CG 01330, alleging violations of California's wage and hour, overtime, meal break and statement of wages rules and regulations among other things. The complaint seeks an unspecified amount of damages and penalties. The Company intends to defend this claim vigorously. At present, the Company cannot reasonably estimate the loss that may arise from this matter, but has recorded as of June 25, 2016 an amount for the estimated probable loss, which is not material to the financial statements. Depending on the actual outcome of pending litigation, charges in excess of such recorded amount could be recorded in the future, which may have a material adverse effect on the Company's financial position, results of operations or liquidity.

During the normal course of its business, the Company has made certain indemnifications and commitments under which the Company may be required to make payments for certain transactions. These indemnifications include those given to various lessors in connection with facility leases for certain claims arising from such facility leases, and indemnifications to directors and officers of the Company to the maximum extent permitted under the laws of the State of Delaware. The majority of these indemnifications and commitments do not provide for any limitation of the maximum potential future payments the Company could be obligated to make, and their duration may be indefinite. The Company has not recorded any liability for these indemnifications and commitments in the condensed consolidated balance sheets as the impact is expected to be immaterial.

8. Capital Leases and Financing Transactions

As of June 25, 2016, the Company had non-cancelable capital leases for property and equipment rentals with principal and interest payments due monthly. The liability under capital lease arrangements as of June 25, 2016 totals \$1.0 million.

During fiscal 2016, the Company acquired leases related to two retail stores, two office buildings, one distribution center facility and land as part of the Sheplers Acquisition. On July 30, 2007, Sheplers sold these properties to an unrelated third-party real estate company and simultaneously entered into an arrangement with the third-party real estate company to lease back these properties. Sheplers maintained continuing involvement in these properties such that this sale did not qualify for sale-leaseback accounting treatment. This transaction is recorded as a financing transaction with the assets and related financing obligation recorded on the balance sheet. The lease has a 20-year term expiring in 2027 and includes renewal options and certain default provisions requiring the Company to perform repairs and maintenance, make timely rent payments and insure the buildings and equipment. The liability under the financing transaction as of June 25, 2016 totals \$7.6 million.

The total liability under capital lease and financing transactions as of June 25, 2016 is \$8.6 million and is included as capital lease obligations in the condensed consolidated balance sheet. The current portion of the capital lease arrangements is included in accrued expenses and other current liabilities on the condensed consolidated balance sheets. The interest rates range from 6.1% to 11.1%.

[Table of Contents](#)

The net property and equipment involved in the Company's capital leases and financing transaction are included in property and equipment as follows:

| <u>(in thousands)</u> | <u>June 25,</u> <u>2016</u> | <u>March 26,</u> <u>2016</u> |
|--------------------------------|--------------------------------|---------------------------------|
| Buildings | \$ 7,588 | \$ 7,588 |
| Land | 2,530 | 2,530 |
| Site improvements | 410 | 410 |
| Equipment | 63 | 63 |
| Property and equipment, gross | 10,591 | 10,591 |
| Less: accumulated depreciation | (707) | (551) |
| Property and equipment, net | <u>\$ 9,884</u> | <u>\$ 10,040</u> |

As of June 25, 2016, future minimum capital lease and financing transaction payments are as follows:

| <u>Fiscal Year</u> | <u>(in thousands)</u> |
|---|-----------------------|
| 2017 | 954 |
| 2018 | 1,286 |
| 2019 | 1,309 |
| 2020 | 1,321 |
| 2021 | 1,345 |
| Thereafter | 8,310 |
| Total | <u>14,525</u> |
| Less: Imputed interest | (5,967) |
| Present value of capital leases and financing transaction | 8,558 |
| Less: Current capital leases and financing transaction | (389) |
| Noncurrent capital leases and financing transaction | <u>\$ 8,169</u> |

9. Income Taxes

The Company accounts for income taxes in accordance with ASC 740, *Income Taxes* ("ASC 740"). In accordance with ASC 740, the Company recognizes deferred tax assets and liabilities based on the liability method, which requires an adjustment to the deferred tax asset or liability to reflect income tax rates currently in effect. When income tax rates increase or decrease, a corresponding adjustment to income tax expense is recorded by applying the rate change to the cumulative temporary differences. ASC 740 prescribes the recognition threshold and measurement principles for financial statement disclosure of tax positions taken or expected to be taken on a tax return. ASC 740 requires the Company to determine whether it is "more likely than not" that a tax position will be sustained upon examination by the appropriate taxing authorities before any part of the benefit can be recognized. Additionally, ASC 740 provides guidance on recognition measurement, derecognition, classification, related interest and penalties, accounting in interim periods, disclosure and transition.

The provision for income taxes is based on the current estimate of the annual effective tax rate and is adjusted as necessary for discrete events occurring in a particular period. The income tax rate was 29.9 % and 43.8 % for the thirteen weeks ended June 25, 2016 and June 27, 2015, respectively. The effective tax rate for the thirteen weeks ended June 25, 2016 is lower than the comparable period in fiscal 2016 due to nondeductible acquisition costs not incurred in the current quarter and discrete items recognized in the first quarter of fiscal 2017, including a state tax credit. Because management believes that it is more likely than not that the Company will realize the full amount of the net deferred tax assets, the Company has not recorded any valuation allowance for the deferred tax assets.

The Company's policy is to accrue interest and penalties related to unrecognized tax benefits as a component of income tax expense. At June 25, 2016 and March 26, 2016, the Company had no accrued liability for penalties and interest.

The Company files income tax returns in the U.S. federal jurisdiction and various state jurisdictions. At June 25, 2016, the Company is not aware of tax examinations (current or potential) in any tax jurisdictions.

10. Related Party Transactions

During the thirteen weeks ended June 25, 2016, the Company had capital expenditures with a specialty retail vendor in the flooring market that is 30.4% owned by Freeman Spogli, our majority stock holder. These capital expenditures amounted to less than \$0.1 million in the thirteen weeks ended June 25, 2016 and were recorded as property and equipment, net on the condensed consolidated balance sheet. There were no costs incurred with this vendor in the prior year period.

11. Earnings Per Share

Earnings per share is computed under the provisions of FASB ASC Topic 260, *Earnings Per Share*. Basic earnings per share is computed based on the weighted average number of outstanding shares of common stock during the period. Diluted earnings per share is computed based on the weighted average number of shares of common stock plus the effect of dilutive potential common shares outstanding during the period using the treasury stock method, whereby proceeds from such exercise, unamortized compensation and hypothetical excess tax benefits, if any, on share-based awards, are assumed to be used by the Company to purchase the common shares at the average market price during the period. The dilutive effect of stock options and restricted stock is applicable only in periods of net income.

The components of basic and diluted earnings per share of common stock, in aggregate, for the thirteen weeks ended June 25, 2016 and June 27, 2015 are as follows:

| <u>(in thousands, except per share data)</u> | <u>Thirteen Weeks Ended</u> | |
|---|-----------------------------|--------------------------|
| | <u>June 25, 2016</u> | <u>June 27, 2015</u> |
| Net income | \$ 624 | \$ 2,271 |
| Weighted average basic shares outstanding | 26,373 | 25,865 |
| Dilutive effect of options and restricted stock | 243 | 1,108 |
| Weighted average diluted shares outstanding | <u>26,616</u> | <u>26,973</u> |
| Basic earnings per share | \$ 0.02 | \$ 0.09 |
| Diluted earnings per share | \$ 0.02 | \$ 0.08 |

Options to purchase 2,001,560 shares and 244,613 shares of common stock were outstanding during the thirteen weeks ended June 25, 2016 and June 27, 2015, respectively, but were not included in the computation of weighted average diluted common shares outstanding as the effect of doing so would have been anti-dilutive.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of the financial condition and results of our operations should be read together with the financial statements and related notes of Boot Barn Holdings, Inc. and Subsidiaries included in Item 1 of this Quarterly Report on Form 10-Q and with our audited financial statements and the related notes included in our Annual Report on Form 10-K filed with the Securities and Exchange Commission, or SEC, on June 3, 2016 (the “Fiscal 2016 10-K”). As used in this Quarterly Report on Form 10-Q, except where the context otherwise requires or where otherwise indicated, the terms “company”, “Boot Barn”, “we”, “our” and “us” refer to Boot Barn Holdings, Inc. and its subsidiaries.

Cautionary Statement Regarding Forward-Looking Statements

This Quarterly Report on Form 10-Q contains forward-looking statements that involve risks and uncertainties, as well as assumptions that, if they never materialize or prove incorrect, could cause our results to differ materially from those expressed or implied by such forward-looking statements. The statements contained in this Quarterly Report on Form 10-Q that are not purely historical are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). Forward-looking statements are often identified by the use of words such as, but not limited to, “anticipate”, “believe”, “can”, “continue”, “could”, “estimate”, “expect”, “intend”, “may”, “plan”, “project”, “seek”, “should”, “target”, “will”, “would” and similar expressions or variations intended to identify forward-looking statements. These statements are based on the beliefs and assumptions of our management based on information currently available to management. These forward-looking statements are subject to numerous risks and uncertainties, including the risks and uncertainties described under the section titled “Risk Factors” in our Fiscal 2016 10-K, those identified in this “Management’s Discussion and Analysis of Financial Condition and Results of Operations”, and elsewhere in this Quarterly Report on Form 10-Q. Moreover, we operate in an evolving environment. New risks and uncertainties emerge from time to time and it is not possible for our management to predict all risks and uncertainties, nor can we assess the impact of all risks on our business or the extent to which any risk, or combination of risks, may cause actual results to differ materially from those contained in any forward-looking statement. We qualify all of our forward-looking statements by these cautionary statements.

We caution you that the risks and uncertainties identified by us may not be all of the factors that are important to you. Furthermore, the forward-looking statements included in this Quarterly Report on Form 10-Q are made only as of the date hereof. Our forward-looking statements do not reflect the potential impact of any future acquisitions, mergers, dispositions, joint ventures or investments that we may make. We undertake no obligation to publicly update or revise any forward-looking statement as a result of new information, future events or otherwise, except as otherwise required by law.

Overview

Management believes that Boot Barn is the largest and fastest-growing lifestyle retail chain devoted to western and work-related footwear, apparel and accessories in the U.S. As of June 25, 2016, we operated 210 stores in 29 states, as well as an e-commerce channel, consisting of www.bootbarn.com and www.sheplers.com. Our product offering is anchored by an extensive selection of western and work boots and is complemented by a wide assortment of coordinating apparel and accessories. Our stores feature a comprehensive assortment of brands and styles, coupled with attentive, knowledgeable store associates. Many of the items that we offer are basics or necessities for our customers’ daily lives and typically represent enduring styles that are not meaningfully impacted by changing fashion trends.

We strive to offer an authentic, one-stop shopping experience that fulfills the everyday lifestyle needs of our customers, and as a result, many of our customers make purchases in both the western and work wear sections of our stores. We target a broad and growing demographic, ranging from passionate western and country enthusiasts, to workers seeking dependable, high-quality footwear and apparel. Our broad geographic footprint, which comprises more than twice as many stores as our nearest direct competitor that sells primarily western and work wear, provides us with significant economies of scale, enhanced supplier relationships, the ability to recruit and retain high quality store associates and the ability to reinvest in our business at levels that we believe exceed those of our competition.

How We Assess the Performance of Our Business

In assessing the performance of our business, we consider a variety of performance and financial measures. The key indicators we use to evaluate the financial condition and operating performance of our business are net sales and gross profit. In addition, we also review other important metrics, such as same store sales, new store openings, selling, general and administrative expenses, earnings before interest, taxes, depreciation and amortization (“EBITDA”) and Adjusted EBITDA.

Net sales

Net sales reflect revenue from the sale of our merchandise at retail locations, as well as sales of merchandise through our e-commerce websites. We recognize revenue upon the purchase of merchandise by customers at our stores and upon delivery of the product in the case of our e-commerce websites. Net sales also include shipping and handling fees for e-commerce shipments that have been delivered to our customers. Net sales are net of returns on sales during the period as well as an estimate of returns and award redemptions expected in the future stemming from current period sales. Revenue from the sale of gift cards is deferred until the gift cards are used to purchase merchandise.

Our business is moderately seasonal and as a result our revenues fluctuate from quarter to quarter. In addition, our revenues in any given quarter can be affected by a number of factors including the timing of holidays, weather patterns, rodeos and country concerts. The third quarter of our fiscal year, which includes the Christmas shopping season, has historically produced higher sales and disproportionately larger operating income than the other quarters of our fiscal year. In addition, neither the western nor the work component of our business has been meaningfully impacted by fashion trends or seasonality historically. We believe that many of our customers are driven primarily by utility and brand, and our best-selling styles.

Same store sales

The term “same store sales” refers to net sales from stores that have been open at least 13 full fiscal months as of the end of the current reporting period, although we include or exclude stores from our calculation of same store sales in accordance with the following additional criteria:

- stores that are closed for five or fewer days in any fiscal month are included in same store sales;
- stores that are closed temporarily, but for more than five days in any fiscal month, are excluded from same store sales beginning in the fiscal month in which the temporary closure begins until the first full month of operation once the store re-opens;
- stores that are closed temporarily and relocated within their respective trade areas are included in same store sales;
- stores that are permanently closed are excluded from same store sales beginning in the month preceding closure; and
- acquired stores are added to same store sales beginning on the later of (a) the applicable acquisition date and (b) the first day of the first fiscal month after the store has been open for at least 13 full fiscal months regardless of whether the store has been operated under our management or predecessor management.

If the criteria described above are met, then all net sales of an acquired store, excluding those net sales before our acquisition of that store, are included for the period presented. However, when an acquired store is included for the period presented, the net sales of such acquired store for periods before its acquisition are included (to the extent relevant) for purposes of calculating “same store sales growth” and illustrating the comparison between the applicable periods. Pre-acquisition net sales numbers are derived from the books and records of the acquired company, as prepared prior to the acquisition, and have not been independently verified by us.

In addition to retail store sales, same store sales also includes e-commerce sales, e-commerce shipping and handling revenue and actual retail store or e-commerce sales returns. We exclude gift card escheatment, provision for sales returns and estimated future loyalty award redemptions from sales in our calculation of net sales per store.

Measuring the change in year-over-year same store sales allows us to evaluate how our store base is performing. Numerous factors affect our same store sales, including:

- national and regional economic trends;
- our ability to identify and respond effectively to regional consumer preferences;
- changes in our product mix;
- changes in pricing;
- competition;
- changes in the timing of promotional and advertising efforts;
- holidays or seasonal periods; and
- weather.

Opening new stores is an important part of our growth strategy and we anticipate that a significant percentage of our net sales in the near future will come from stores not included in our same store sales calculation. Accordingly, same store sales are only one measure we use to assess the success of our business and growth strategy. Some of our competitors and other retailers may calculate “same” or “comparable” store sales differently than we do. As a result, data in this Quarterly Report on Form 10-Q regarding our same store sales may not be comparable to similar data made available by other retailers.

New store openings

New store openings reflect the number of stores, excluding acquired stores, that are opened during a particular reporting period. In connection with opening new stores, we incur pre-opening costs. Pre-opening costs consist of costs incurred prior to opening a new store and primarily consist of manager and other employee payroll, travel and training costs, marketing expenses, initial opening supplies and costs of transporting initial inventory and certain fixtures to store locations, as well as occupancy costs incurred from the time that we take possession of a store site to the opening of that store. Occupancy costs are included in cost of goods sold and the other pre-opening costs are included in selling, general and administrative (“SG&A”) expenses. All of these costs are expensed as incurred.

New stores often open with a period of high sales levels, which subsequently decrease to normalized sales volumes. In addition, we experience typical inefficiencies in the form of higher labor, advertising and other direct operating expenses, and as a result, store-level profit margins at our new stores are generally lower during the start-up period of operation. The number and timing of store openings has had, and is expected to continue to have, a significant impact on our results of operations. In assessing the performance of a new store, we review its actual sales against the sales that we projected that store to achieve at the time we initially approved its opening. We also review the actual number of stores opened in a fiscal year against the number of store openings that we included in our budget at the beginning of that fiscal year.

Gross profit

Gross profit is equal to our net sales less our cost of goods sold. Cost of goods sold includes the cost of merchandise, obsolescence and shrinkage provisions, store and warehouse occupancy costs (including rent, depreciation and utilities), inbound and outbound freight, supplier allowances, occupancy-related taxes, compensation costs for merchandise purchasing and warehouse personnel, and other inventory acquisition-related costs. These costs are significant and can be expected to continue to increase as we grow. The components of our reported cost of goods sold may not be comparable to those of other retail companies, including our competitors.

Our gross profit generally follows changes in net sales. We regularly analyze the components of gross profit, as well as gross profit as a percentage of net sales. Specifically, we examine the initial markup on purchases, markdowns and reserves, shrinkage, buying costs, distribution costs and occupancy costs. Any inability to obtain acceptable levels of initial markups, a significant increase in our use of markdowns or in inventory shrinkage, or a significant increase in freight and other inventory acquisition costs, could have an adverse impact on our gross profit and results of operations.

Gross profit is also impacted by shifts in the proportion of sales of our private brand products compared to third-party brand products, as well as by sales mix changes within and between brands and major product categories such as footwear, apparel or accessories.

Selling, general and administrative expenses

Our SG&A expenses are composed of labor and related expenses, other operating expenses and general and administrative expenses not included in cost of goods sold. Specifically, our SG&A expenses include the following:

Labor and related expenses —Labor and related expenses include all store-level salaries and hourly labor costs, including salaries, wages, benefits and performance incentives, labor taxes and other indirect labor costs.

Other operating expenses —Other operating expenses include all operating costs, including those for advertising, marketing campaigns, operating supplies, utilities, and repairs and maintenance, as well as credit card fees and costs of third-party services.

General and administrative expenses —General and administrative expenses comprise expenses associated with corporate and administrative functions that support the development and operations of our stores, including compensation and benefits, travel expenses, corporate occupancy costs, stock compensation costs, legal and professional fees, insurance and other related corporate costs.

The components of our SG&A expenses may not be comparable to those of our competitors and other retailers. We expect our selling, general and administrative expenses will increase in future periods as a result of incremental share-based compensation, legal, accounting, and other compliance-related expenses associated with being a public company and increases resulting from growth in the number of our stores.

EBITDA and Adjusted EBITDA

EBITDA and Adjusted EBITDA are important financial measures used by our management, board of directors and lenders to assess our operating performance. We use EBITDA and Adjusted EBITDA as key performance measures because we believe that they facilitate operating performance comparisons from period to period by excluding potential differences primarily caused by the impact of variations from period to period in tax positions, interest expense and depreciation and amortization, as well as, in the case of Adjusted EBITDA, excluding non-cash expenses, such as stock-based compensation and the non-cash accrual for future award redemptions, and unusual or non-recurring costs and expenses that are not directly related to our operations, including acquisition-related expenses and loss on disposal of assets and contract termination costs. See “Results of Operations” below for a reconciliation of our EBITDA and Adjusted EBITDA to net income, the most directly comparable financial measure calculated and presented in accordance with GAAP. Because EBITDA and Adjusted EBITDA facilitate internal comparisons of our historical operating performance on a more consistent basis, we also use EBITDA and Adjusted EBITDA (or some variations thereof) for business planning purposes, in calculating covenant compliance for our credit facilities, in determining incentive compensation for members of our management and in evaluating acquisition opportunities. In addition, we believe that EBITDA and Adjusted EBITDA and similar measures are widely used by investors, securities analysts, ratings agencies and other parties in evaluating companies in our industry as a measure of financial performance and debt-service capabilities. Given that EBITDA and Adjusted EBITDA are measures not deemed to be in accordance with GAAP and are susceptible to varying calculations, our EBITDA and Adjusted EBITDA may not be comparable to similarly titled measures of other companies, including companies in our industry, because other companies may calculate EBITDA and Adjusted EBITDA in a different manner than we calculate these measures.

Critical Accounting Policies and Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses, as well as the related disclosures of contingent assets and liabilities at the date of the financial statements. A summary of our significant accounting policies is included in Note 2 to our consolidated financial statements included in the Fiscal 2016 10-K.

Certain of our accounting policies and estimates are considered critical, as these policies and estimates are the most important to the depiction of our consolidated financial statements and require significant, difficult or complex judgments, often about the effect of matters that are inherently uncertain. Such policies are summarized in the “Management’s Discussion and Analysis of Financial Condition and Results of Operations” section of our Fiscal 201 6 10-K. As of the date of this filing, there were no significant changes to any of the critical accounting policies and estimates described in the Fiscal 201 6 10-K.

Results of Operations

We operate on a fiscal calendar that results in a 52- or 53-week fiscal year ending on the last Saturday of March unless April 1st is a Saturday, in which case the fiscal year ends on April 1st. In a 52-week fiscal year, each quarter includes thirteen weeks of operations; in a 53-week fiscal year, the first, second and third quarters each include thirteen weeks of operations and the fourth quarter includes fourteen weeks of operations. The fiscal year ending on April 1, 2017 (“fiscal 201 7”) will consist of 53 weeks; whereas, the fiscal year ended on March 26, 2016 (“fiscal 201 6”) consisted of 52 weeks. We identify our fiscal years by reference to the calendar year in which the fiscal year ends.

The following table summarizes key components of our results of operations for the periods indicated, both in dollars and as a percentage of our net sales:

| (dollars in thousands) | Thirteen Weeks Ended | |
|--|----------------------|------------------|
| | June 25, 2016 | June 27, 2015 |
| Condensed Consolidated Statements of Operations Data (Unaudited): | | |
| Net sales | \$ 133,414 | \$ 96,000 |
| Cost of goods sold | 92,664 | 65,221 |
| Gross profit | 40,750 | 30,779 |
| Operating expenses: | | |
| Selling, general and administrative expenses | 36,300 | 25,053 |
| Acquisition-related expenses | — | 891 |
| Total operating expenses | 36,300 | 25,944 |
| Income from operations | 4,450 | 4,835 |
| Interest expense, net | 3,560 | 791 |
| Income before income taxes | 890 | 4,044 |
| Income tax expense | 266 | 1,773 |
| Net income | \$ 624 | \$ 2,271 |
| Percentage of Net Sales (Unaudited): | | |
| Net sales | 100.0 % | 100.0 % |
| Cost of goods sold | 69.5 % | 67.9 % |
| Gross profit | 30.5 % | 32.1 % |
| Operating expenses: | | |
| Selling, general and administrative expenses | 27.2 % | 26.1 % |
| Acquisition-related expenses | — % | 0.9 % |
| Total operating expenses | 27.2 % | 27.0 % |
| Income from operations | 3.3 % | 5.1 % |
| Interest expense, net | 2.7 % | 0.8 % |
| Income before income taxes | 0.6 % | 4.3 % |
| Income tax expense | 0.2 % | 1.8 % |
| Net income | 0.4 % | 2.5 % |

[Table of Contents](#)

The following table presents a reconciliation of EBITDA and Adjusted EBITDA to our net income, the most directly comparable financial measure calculated and presented in accordance with GAAP, for each of the periods indicated:

| (in thousands) | Thirteen Weeks Ended | |
|--|----------------------|---------------|
| | June 25, 2016 | June 27, 2015 |
| EBITDA Reconciliation (Unaudited): | | |
| Net income | \$ 624 | \$ 2,271 |
| Income tax expense | 266 | 1,773 |
| Interest expense, net | 3,560 | 791 |
| Depreciation and intangible asset amortization | 4,079 | 2,637 |
| EBITDA | 8,529 | 7,472 |
| Non-cash stock-based compensation ^(a) | 756 | 653 |
| Non-cash accrual for future award redemptions ^(b) | 42 | (248) |
| Acquisition-related expenses ^(c) | — | 891 |
| Loss on disposal of assets and contract termination costs ^(d) | 59 | 11 |
| Adjusted EBITDA | \$ 9,386 | \$ 8,779 |

- (a) Represents non-cash compensation expenses related to stock options, restricted stock awards and restricted stock units granted to certain of our employees and directors.
- (b) Represents the non-cash accrual for future award redemptions in connection with our customer loyalty program.
- (c) Includes direct costs and fees related to the Sheplers Acquisition.
- (d) Represents loss on disposal of assets and contract termination costs from store closures and unused office and warehouse space.

The following table presents store operating data for the periods indicated:

| Selected Store Data (Unaudited): | Thirteen Weeks Ended | |
|---|----------------------|---------------|
| | June 25, 2016 | June 27, 2015 |
| Same Store Sales growth | 0.4 % | 5.6 % |
| Stores operating at end of period | 210 | 176 |
| Total retail store square footage, end of period (in thousands) | 2,409 | 1,889 |
| Average store square footage, end of period | 11,473 | 10,731 |
| Average net sales per store (in thousands) | \$ 531 | \$ 521 |

Thirteen Weeks Ended June 25, 2016 Compared to Thirteen Weeks Ended June 27, 2015

Net sales. Net sales increased \$ 37.4 million, or 39.0 %, to \$ 133.4 million for the thirteen weeks ended June 25, 2016 from \$ 96.0 million for the thirteen weeks ended June 27, 2015. The increase in net sales was the result of contributions from recently acquired Sheplers, 17 new stores opened between the beginning of the second quarter of fiscal 2016 and the end of the first quarter of fiscal 2017 and an increase of 0.4% in consolidated same store sales during the thirteen weeks ended June 25, 2016. This consolidated same store sales growth was pressured by the softening of local economies dependent on oil and other commodities between the thirteen weeks ended June 25, 2016 and June 27, 2015, respectively.

Gross profit. Gross profit increased \$ 10.0 million, or 32.4 %, to \$ 40.8 million for the thirteen weeks ended June 25, 2016 from \$ 30.8 million for the thirteen weeks ended June 27, 2015. As a percentage of net sales, gross profit was 30.5 % and 32.1 % for the thirteen weeks ended June 25, 2016 and June 27, 2015, respectively. The gross profit increase was a result of the addition of the Sheplers' business and the opening of 17 new stores between the beginning of the second

quarter of fiscal 2016 and the end of the first quarter of fiscal 2017 . The decline in gross profit rate during the thirteen weeks ended June 25, 2016 , was primarily driven by the addition of the lower margin Sheplers' business .

Selling, general and administrative expenses. SG&A expenses increased \$ 11.2 million, or 44.9 % , to \$ 36.3 million for the thirteen weeks ended June 25, 2016 from \$ 25.1 million for the thirteen weeks ended June 27, 2015 . As a percentage of net sales, SG&A was 27.2 % and 26.1 % for the thirteen weeks ended June 25, 2016 and June 27, 2015 , respectively. The increase is primarily due to the cost of operating the Sheplers business and 17 new stores opened between the beginning of the second quarter of fiscal 2016 and the end of the first quarter of fiscal 2017 , compared to the prior year period when the Company did not own Sheplers or operate these stores .

Income from operations. Income from operations for the thirteen weeks ended June 25, 2016 totaled \$ 4.5 million, a decrease of \$ 0.4 million from income from operations for the thirteen weeks ended June 27, 2015 . As a percentage of net sales, income from operations was 3.3 % for the thirteen weeks ended June 25, 2016 , compared to income from operations as a percentage of net sales of 5.1 % for the thirteen weeks ended June 27, 2015 . The change in income from operations was attributable to the factors noted above.

Interest expense, net. Interest expense, net, increased 350.1 % or \$ 2.8 million, to \$ 3.6 million for the thirteen weeks ended June 25, 2016 from \$ 0.8 million for the thirteen weeks ended June 27, 2015 . The increase in interest expense, net was primarily due to the Company refinancing its \$150.0 million February 2015 Wells Fargo Credit Facility with the \$125.0 million June 2015 Wells Fargo Revolver and the \$200.0 million 2015 Golub Term Loan. See Note 5, "Revolving Credit Facilities and Long -Term Debt. "

Income tax expense. Income tax expense decreased \$1.5 million, to \$ 0.3 million for the thirteen weeks ended June 25, 2016 from \$ 1.8 million of income tax expense for the thirteen weeks ended June 27, 2015 . The decrease in our income tax expense results from a lower tax rate and the \$ 3.2 million decrease in income before income taxes for the thirteen weeks ended June 25, 2016 as compared to the thirteen weeks ended June 27, 2015 . Our effective tax rate was 29.9 % and 43.8 % for the thirteen weeks ended June 25, 2016 and June 27, 2015 , respectively. The effective tax rate for the thirteen weeks ended June 25, 2016 is lower than the comparable period in fiscal 2016 due to nondeductible acquisition costs not incurred in the current quarter and discrete items recognized in the first quarter of fiscal 2017 , including a state tax credit .

Net income . Net income decreased \$1.6 million, from \$ 2.3 million for the thirteen weeks ended June 27, 2015 to \$ 0.6 million for the thirteen weeks ended June 25, 2016 . The decrease in net income was attributable to the factors noted above.

Adjusted EBITDA. Adjusted EBITDA increased \$ 0.6 million, or 6.9 % , to \$ 9.4 million for the thirteen weeks ended June 25, 2016 from \$ 8.8 million for the thirteen weeks ended June 27, 2015 . The increase was primarily a result of the additional adjusted EBITDA contributions from the acquired Sheplers business and 17 new stores that opened between the beginning of the second quarter of fiscal year 2016 and the end of the first quarter of fiscal year 2017 . These increases were partially offset by additions to SG&A required to support the expanded business operations .

Liquidity and Capital Resources

We rely on cash flows from operating activities and our credit facility as our primary sources of liquidity. Our primary cash needs are for inventories, operating expenses, capital expenditures associated with opening new stores and remodeling or refurbishing existing stores, improvements to our distribution facilities, marketing and information technology expenditures, debt service and taxes. We have also used cash for acquisitions, the subsequent rebranding and integration of the stores acquired in those acquisitions and costs to consolidate the corporate offices. In addition to cash and cash equivalents, the most significant components of our working capital are accounts receivable, inventories, accounts payable and accrued expenses and other current liabilities. We believe that cash flows from operating activities and the availability of cash under our credit facilities or other financing arrangements will be sufficient to cover working capital requirements, anticipated capital expenditures and other anticipated cash needs for at least the next 12 months.

Our liquidity is moderately seasonal. Our cash requirements generally increase in our third fiscal quarter as we increase our inventory in advance of the Christmas shopping season. Our cash usage from operations increased in the thirteen weeks ended June 25, 2016 as compared to cash provided by operations in the thirteen weeks ended June 27, 2015, primarily as a result of a \$1.6 million reduction in net income and a significant decrease in accounts payable and accrued expenses and other current liabilities in the thirteen weeks ended June 25, 2016, relative to the thirteen weeks ended June 27, 2015. Additionally, there was an increase in prepaid expenses and other current assets in the current year compared to a decrease in prepaid expenses and other current assets in the prior year. The changes in these balances year over year are attributable to the timing of payments.

During the thirteen weeks ended June 25, 2016, we used \$ 4.7 million in investing activities, primarily associated with capital expenditures related to the relocation of the Store Support Center in Irvine, California, opening of two new stores in the thirteen weeks ended June 25, 2016 and improvements to our e-commerce information technology infrastructures. We are planning to continue to open new stores, remodel and refurbish our existing stores, and make improvements to our e-commerce and information technology infrastructures, which will result in increased capital expenditures. We estimate that our total capital expenditures in fiscal 2017 will be between approximately \$ 13.0 million and \$15.0 million, net of landlord tenant allowances, and we anticipate that we will use cash flows from operations to fund these expenditures.

\$150 Million Credit Facility (Wells Fargo Bank, N.A.)

On February 23, 2015, we and Boot Barn, Inc., our wholly-owned primary operating subsidiary, entered into the February 2015 Wells Fargo Credit Facility, which consisted of a \$75.0 million revolving credit facility, including a \$5.0 million sub-limit for letters of credit, and a \$75.0 million term loan, and also provided us with the ability to incur additional incremental term loans of up to \$50.0 million, provided that certain conditions were met, including compliance with certain covenants. On June 29, 2015, we repaid all outstanding borrowings under the February 2015 Wells Fargo Credit Facility and terminated such facility in connection with the refinancing discussed below.

Total interest expense incurred in the thirteen weeks ended June 27, 2015 on the February 2015 Wells Fargo Credit Facility was \$0.8 million and the weighted average interest rate at June 27, 2015 was 4.09%.

June 2015 Wells Fargo Revolver and Golub Term Loan

On June 29, 2015, we, as guarantor, and our wholly-owned primary operating subsidiary, Boot Barn, Inc., refinanced our \$150 million February 2015 Wells Fargo Credit Facility with the \$125 million June 2015 Wells Fargo Revolver and \$200 million 2015 Golub Term Loan. Borrowings under the credit agreements were initially used to pay costs and expenses related to the acquisition and the closing of the new credit agreements, and may be used for working capital and other general corporate purposes.

Borrowings under the June 2015 Wells Fargo Revolver bear interest at per annum rates equal to, at our option, either (i) the London Interbank Offered Rate (“LIBOR”) plus an applicable margin for LIBOR loans, or (ii) the base rate plus an applicable margin for base rate loans. The base rate is calculated as the highest of (a) the federal funds rate plus 0.5%, (b) the Wells Fargo prime rate and (c) one-month LIBOR plus 1.0%. The applicable margin is calculated based on a pricing grid that in each case is linked to quarterly average excess availability. For LIBOR Loans, the applicable margin ranges from 1.00% to 1.25%, and for base rate loans it ranges from 0.00% to 0.25%. We also pay a commitment fee of 0.25% per annum of the actual daily amount of the unutilized revolving loans. The interest on the June 2015 Wells Fargo Revolver is payable in quarterly installments ending on June 29, 2020, the maturity date. The amount outstanding under the June 2015 Wells Fargo Revolver for the thirteen weeks ended June 25, 2016 was \$60.2 million. Total interest expense incurred in the thirteen weeks ended June 25, 2016 on the June 2015 Wells Fargo Revolver was \$0.3 million, and the weighted average interest rate for the quarter ended June 25, 2016 was 1.6%.

Borrowings under the 2015 Golub Term Loan bear interest at per annum rates equal to, at our option, either (a) LIBOR plus an applicable margin for LIBOR loans with a LIBOR floor of 1.0%, or (b) the base rate plus an applicable margin for base rate loans. The base rate is calculated as the greater of (i) the higher of (x) the prime rate and (y) the federal funds rate plus 0.5% and (ii) the sum of one-month LIBOR plus 1.00%. The applicable margin is 4.5% for

LIBOR Loans and 3.5% for base rate loans. The principal and interest on the 2015 Golub Term Loan will be payable in quarterly installments ending on June 29, 2021, the maturity date. Quarterly principal payments of \$500,000 are due for each quarter. Total interest expense incurred in the thirteen weeks ended June 25, 2016 on the 2015 Golub Term Loan was \$ 2.8 million, and the weighted average interest rate for the quarter ended June 25, 2016 was 5.5%.

All obligations under each of the 2015 Golub Term Loan and the June 2015 Wells Fargo Revolver are unconditionally guaranteed by us and each of our direct and indirect domestic subsidiaries (other than certain immaterial subsidiaries) which are not named as borrowers under the 2015 Golub Term Loan or the June 2015 Wells Fargo Revolver, as applicable.

The priority with respect to collateral under each of the 2015 Golub Term Loan and the June 2015 Wells Fargo Revolver is subject to the terms of an intercreditor agreement among the lenders under the 2015 Golub Term Loan and the June 2015 Wells Fargo Revolver.

Each of the June 2015 Wells Fargo Revolver and the 2015 Golub Term Loan contains customary provisions relating to mandatory prepayments, restricted payments, voluntary payments, affirmative and negative covenants, and events of default. In addition, the terms of the June 2015 Wells Fargo Revolver require the Company to maintain, on a consolidated basis, a Consolidated Fixed Charge Coverage Ratio of at least 1.00:1.00 during such times as a covenant trigger event shall exist. The terms of the 2015 Golub Term Loan require the Company to maintain, on a consolidated basis, a maximum Consolidated Total Net Leverage Ratio as of June 25, 2016 of 4.75:1.00. As provided for in the 2015 Golub Term Loan, this ratio steps down to 4.50:1.00 as of December 24, 2016, 4.25:1.00 as of April 1, 2017, and 4.00:1.00 as of September 30, 2017 and for all subsequent periods. The June 2015 Wells Fargo Revolver and 2015 Golub Term Loan also require us to pay additional interest of 2% per annum upon triggering certain specified events of default as set forth therein. For financial accounting purposes, the requirement for us to pay a higher interest rate upon an event of default is an embedded derivative. As of June 25, 2016, the fair value of these embedded derivatives was estimated and was not significant.

As of June 25, 2016, we were in compliance with the June 2015 Wells Fargo Revolver and the 2015 Golub Term Loan debt covenants.

Cash Position and Cash Flow

Cash and cash equivalents were \$ 5.8 million as of June 25, 2016 compared to \$ 7.2 million as of March 26, 2016.

The following table presents summary cash flow information for the periods indicated (in thousands):

| (in thousands) | Thirteen Weeks Ended | |
|---------------------------------|----------------------|------------------|
| | June 25, 2016 | June 27, 2015 |
| Net cash provided by/(used in): | | |
| Operating activities | \$ (7,650) | \$ 5,238 |
| Investing activities | (4,721) | (7,085) |
| Financing activities | 11,015 | 13,319 |
| Net (decrease)/increase in cash | \$ (1,356) | \$ 11,472 |

Operating Activities

Net cash used in operating activities was \$ 7.7 million for the thirteen weeks ended June 25, 2016. The significant components of cash flows used in operating activities were net income of \$ 0.6 million, the add-back of non-cash depreciation and amortization expense of \$ 4.1 million, stock-based compensation expense of \$ 0.8 million, and amortization of debt issuance fees and debt discount of \$ 0.3 million. Accounts payable and accrued expenses and other current liabilities decreased by \$ 11.5 million due to the timing of payments. Further contributing to the cash used in operations for the thirteen weeks ended June 25, 2016, was an increase in inventories of \$ 2.9 million due to the growth of the company.

Net cash provided by operating activities was \$5.2 million for the thirteen weeks ended June 27, 2015. The significant components of cash flows provided by operating activities were net income of \$2.3 million, the add-back of non-cash depreciation and amortization expense of \$2.6 million, stock-based compensation expense of \$0.7 million, an increase in deferred taxes of \$0.2 million and the excess tax benefit related to the exercise of stock options of \$2.1 million. Accounts payable and accrued expenses and other current liabilities increased by \$3.7 million due to the timing of payments and growth of the company. Prepaid expenses and other current assets decreased by \$3.1 million primarily due to the timing of prepaid rent. Other liabilities increased by \$1.2 million due to landlord tenant allowance for the opening of new stores. The above was offset by an increase in inventories of \$7.1 million due to the growth of the company.

Investing Activities

Net cash used in investing activities was \$ 4.7 million for the thirteen weeks ended June 25, 2016 , which was attributable to purchases of property and equipment during the period.

Net cash used in investing activities was \$7.1 million for the thirteen weeks ended June 27, 2015, which represents purchases of property and equipment during the period.

Financing Activities

Net cash provided by financing activities was \$ 11.0 million for the thirteen weeks ended June 25, 2016 . We increased our line of credit borrowings by \$ 11.4 million and repaid \$ 0.6 million on our debt and capital lease obligations during the period. We also received \$ 0.3 million from the issuance of common stock related to stock-based compensation .

Net cash provided by financing activities was \$13.3 million for the thirteen weeks ended June 27, 2015. Net proceeds from drawings on our revolving credit facility totaled \$10.9 million. We received \$1.2 million from the exercise of stock options, and \$2.1 million excess tax benefit from the exercise of those options.

Contractual Obligations

During the thirteen weeks ended June 25, 2016, there were no significant changes to our contractual obligations described in the “Management’s Discussion and Analysis of Financial Condition and Results of Operations” section of our Fiscal 2016 10-K , other than those which occur in the normal course of business.

Off-Balance Sheet Arrangements

We are not a party to any off-balance sheet arrangements, except for operating leases and purchase obligations.

Implications of Being an Emerging Growth Company

We are an “emerging growth company” as defined in the Jumpstart Our Business Startups Act of 2012, which we refer to as the JOBS Act. We will remain an emerging growth company until the earlier of (1) the last day of our fiscal year (a) following the fifth anniversary of the completion of our IPO, (b) in which we have total annual gross revenue of at least \$1.0 billion, or (c) in which we are deemed to be a large accelerated filer, which means the market value of our common stock that is held by non-affiliates exceeds \$700.0 million as of the last business day of our most recently completed second fiscal quarter, and (2) the date on which we have issued more than \$1.0 billion in non-convertible debt securities during the prior three-year period. An emerging growth company may take advantage of specified reduced reporting and other burdens that are otherwise generally applicable to public companies.

Item 3. Quantitative and Qualitative Disclosure of Market Risk

We are subject to interest rate risk in connection with borrowings under our credit facilities, which bear interest at variable rates. As of June 25, 2016 , we had \$60.2 million in outstanding borrowings under the June 2015 Wells Fargo

Revolver and \$198.0 million under the 2015 Golub Term Loan. The annual impact of a 1.0% rate change on the outstanding total debt balance as of June 25, 2016 would be approximately \$2.6 million.

As of June 25, 2016, there were no other material changes in the market risks described in the “Quantitative and Qualitative Disclosure of Market Risks” section of the Fiscal 2016 10-K.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our management, including our Chief Executive Officer and our Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures as of June 25, 2016. The term “disclosure controls and procedures,” as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, means controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company’s management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure. Based on the evaluation of our disclosure controls and procedures as of June 25, 2016, our Chief Executive Officer and Chief Financial Officer concluded that, as of such date, our disclosure controls and procedures were effective at the reasonable assurance level.

Changes in Internal Control Over Financial Reporting

During the quarter ended June 25, 2016, no changes occurred with respect to our internal control over financial reporting that materially affected, or are reasonably likely to materially affect, internal control over financial reporting.

Inherent Limitations on Effectiveness of Controls

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Part II. Other Information

Item 1. Legal Proceedings

For information on legal proceedings, see Note 7, “Commitments and Contingencies”, to our unaudited financial statements included in this Quarterly Report, which information is incorporated herein by reference.

Item 1A. Risk Factors

There have been no material changes to our risk factors as set forth in “Item 1A—Risk Factors” in our Fiscal 2016 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not Applicable.

Item 5. Other Information

None.

Item 6. Exhibit s

**CERTIFICATION OF CHIEF EXECUTIVE OFFICER PURSUANT TO SECTION 302 OF
THE SARBANES-OXLEY ACT OF 2002**

I, James G. Conroy, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Boot Barn Holdings, Inc. for the quarter ended June 25, 2016 ;
2. Based on my knowledge, this report does not contain any untrue statement of material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**CERTIFICATION PURSUANT TO
18 U.S.C. SECTION 1350
AS ADOPTED PURSUANT TO SECTION 906
OF THE SARBANES-OXLEY ACT OF 2002**

In connection with the quarterly report of Boot Barn Holdings, Inc., (the "Company") on Form 10-Q for the quarter ended June 25, 2016 as filed with the Securities and Exchange Commission on the date hereof (the "Report"), I, James G. Conroy, President and Chief Executive Officer of the Company, certify, based on my knowledge, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that:

- (1) The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78m(a) or 78o(d)): and
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.

Date: July 26, 2016

/s/ James G. Conroy

James G. Conroy
President and Chief Executive Officer
(Principal Executive Officer)

This certification accompanies the Report to which it relates, is not deemed filed with the Securities and Exchange Commission and is not to be incorporated by reference into any filing of the Company under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended (whether made before or after the date of the Form 10-Q), irrespective of any general incorporation language contained in such filing.

**CERTIFICATION PURSUANT TO
18 U.S.C. SECTION 1350
AS ADOPTED PURSUANT TO SECTION 906
OF THE SARBANES-OXLEY ACT OF 2002**

In connection with the quarterly report of Boot Barn Holdings, Inc., (the "Company") on Form 10 -Q for the quarter ended June 25, 2016 as filed with the Securities and Exchange Commission on the date hereof (the "Report"), I, Gregory V. Hackman, Chief Financial Officer and Secretary of the Company, certify, based on my knowledge, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that:

- (1) The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78m(a) or 78o(d)): and
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.

Date: July 26 , 2016
