Results of Operations and Financial Condition.

On May 5, 2016, Atlassian Corporation Plc ("Atlassian") issued a press release announcing its results for the fiscal quarter ended March 31, 2016. A copy of the press release is attached as Exhibit 99.1 to this report on Form 6-K and is incorporated by reference herein.

Other Events.

On May 5, 2016, Atlassian announced that in February 2016, Scott Farquhar and Mike Cannon-Brookes each adopted stock trading plans in accordance with guidelines specified under Rule 10b5-1 of the Securities and Exchange Act of 1934, as amended (the "Exchange Act"), and the policies of Atlassian regarding stock transactions.

Both Scott and Mike are Co-Founders, directors of Atlassian, and serve as Atlassian's Co-CEOs.

These pre-arranged trading plans were adopted in order to allow Scott and Mike to sell a portion of their Atlassian stock over time as part of their long-term strategies for individual asset diversification and liquidity. Using these plans, they will diversify their investment portfolios and spread stock trades out over a period of a year from the time the sales restrictions on their shares end in June 2016 to reduce market impact on any given day. All sales of shares under Scott's and Mike's trading plans are subject to volume limitations, pursuant to Rule 144, which limits the amount of shares that can be sold in any three-month period. Sales under these trading plans will not take place prior to the expiration of the lock-up agreements entered into in conjunction with Atlassian's initial public offering.

In the aggregate, Scott and Mike currently hold approximately 139.46 million Class B ordinary shares, which represent approximately 65% of Atlassian's outstanding Class A and Class B ordinary shares, taken together, and approximately 86% of the voting power of Atlassian's outstanding capital stock. Under the terms of the trading plans, Scott and Mike each intends to sell up to 2.65 million Class B ordinary shares (with such shares converting into Class A ordinary shares upon sale). If Scott and Mike complete all the planned sales under these trading plans, they would continue to collectively own approximately 134.16 million Class B ordinary shares, which would represent approximately 63% of Atlassian's outstanding Class A and Class B ordinary shares, taken together, and approximately 83% of the voting power of Atlassian's outstanding capital stock (assuming no other issuances, repurchases, sales or conversions of Atlassian's capital stock occur).

The information in this report on Form 6-K and the exhibit attached hereto shall not be deemed "filed" for purposes of Section 18 of the Exchange Act or otherwise subject to the liabilities of that Section, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, regardless of any general incorporation language in such filing.

Atlassian Announces Third Quarter Fiscal Year 2016 Results

Quarterly revenue of \$117.9 million, up 40% year-over-year

Quarterly IFRS operating loss of \$4.9 million and non-IFRS operating income of \$18.3 million

Quarterly free cash flow of \$40.7 million, up 39% year-over-year

SAN FRANCISCO (May 5, 2016) — Atlassian Corporation Plc (NASDAQ: TEAM), a leading provider of team collaboration and productivity software, today announced financial results for its third quarter of fiscal 2016 ended March 31, 2016.

"We achieved another solid quarter of top-line and free cash flow growth," said Scott Farquhar, Atlassian's co-CEO and co-founder. "Our unique ability to solve the full set of collaboration needs for teams is driving momentum across our products. Customers increasingly rely on Atlassian products to boost the productivity of their technical and non-technical teams by improving how those teams communicate, create and share information, and track work."

Third Quarter Fiscal Year 2016 Financial Highlights:

On an IFRS basis. Atlassian reported:

- Revenue: Total revenue was \$117.9 million for the third quarter of fiscal 2016, up 40% from \$84.0 million for the third quarter of fiscal 2015.
- Operating Loss: Operating loss was \$4.9 million for the third quarter of fiscal 2016, compared with \$1.5 million for the third quarter of fiscal 2015.
- Net Loss and Net Loss Per Diluted Share: Net loss was \$1.1 million for the third quarter of fiscal 2016, compared with \$0.6 million for the third quarter of fiscal 2015. Net loss per diluted share was \$0.01 for the third quarter of fiscal 2016, compared with \$0.00 per diluted share for the third quarter of fiscal 2015.
- Balance Sheet: Cash and cash equivalents and short-term investments at the end of the third guarter of fiscal 2016 totaled \$723.3 million.

On a non-IFRS basis, Atlassian reported:

- Operating Income: Operating income was \$18.3 million for the third quarter of fiscal 2016, compared with \$11.1 million for the third quarter of fiscal 2015.
- **Net Income and Net Income Per Diluted Share:** Net income was \$17.0 million for the third quarter of fiscal 2016, compared with \$9.4 million for the third quarter of fiscal 2015. Net income per diluted share was \$0.07 for the third quarter of fiscal 2016, compared with \$0.06 per diluted share for the third quarter of fiscal 2015.
- Free Cash Flow: Cash flow from operations for the third quarter of fiscal 2016 was \$48.2 million while capital expenditures totaled \$7.5 million, leading to free cash flow of \$40.7 million, an increase of 39% year-over-year.

A reconciliation of IFRS to non-IFRS financial measures has been provided in the financial statement tables included in this press release. An explanation of these measures is also included below, under the heading "About Non-IFRS Financial Measures."

Recent Business Highlights:

• **Customer growth:** Atlassian ended the third quarter of fiscal 2016 with a total customer count on an active subscription or maintenance agreement basis of 57,431, a 26% increase over March 31, 2015. Atlassian added 3,169 net new customers during the quarter.

- Best place to work: During the quarter, Atlassian was named the #1 best large workplace in Asia and the #1 place to work in the Netherlands for 2016. This continues Atlassian's recognition as a great place to work. For companies with less than a thousand employees, Atlassian was named the #2 place to work in the United States in 2015. And in Australia, across companies of all sizes, Atlassian was recognized as the #1 place to work for the second year in a row in 2015.
- Advanced diversity reporting: In March, Atlassian released its first diversity report, taking a groundbreaking approach by focusing on team diversity data. Team-level data provides crucial insight into how well people from underrepresented backgrounds are spread across the company. Atlassian also revealed its 'n-Space' approach to pursuing a more inclusive culture, expanding its analysis beyond traditional diversity metrics by adding LGBT identification, international representation and age - a first for the tech industry - to its report.

Forward-Looking Statements

This press release contains forward-looking statements under the Private Securities Litigation Reform Act of 1995, which statements involve substantial risks and uncertainties. Forward-looking statements include all statements that are not historical facts and, in some cases, can be identified by terms such as "may," "will," "should," "might," "expects," "plans," "anticipates," "could," "intends," "target," "projects," "contemplates," "believes," "estimates," "predicts," "potential," or "continue" or the negative of these words or other similar terms or expressions that concern our expectations, strategy, plans or intentions. Forward-looking statements contained in this press release include, but are not limited to, statements about our products, including our investments in products, technology and other key strategic areas, and our financial targets such as revenue, share count and IFRS and non-IFRS financial measures including gross margin, operating margin, net income per diluted share and free cash flow.

Atlassian undertakes no obligation to update any forward-looking statements made in this press release to reflect events or circumstances after the date of this press release or to reflect new information or the occurrence of unanticipated events, except as required by law.

The achievement or success of the matters covered by such forward-looking statements involves known and unknown risks, uncertainties and assumptions. If any such risks or uncertainties materialize or if any of the assumptions prove incorrect, Atlassian's results could differ materially from the results expressed or implied by the forward-looking statements we make. You should not rely upon forward-looking statements as predictions of future events. Forward-looking statements represent our management's beliefs and assumptions only as of the date such statements are made.

Further information on these and other factors that could affect Atlassian's financial results is included in filings it makes with the Securities and Exchange Commission from time to time, including the section titled "Risk Factors" in the company's Form F-1 previously filed with the SEC and Form 6-K report filed on February 10, 2016. These documents are available on the SEC Filings section of the Investor Relations section of Atlassian's website at: http://investors.atlassian.com.

About Non-IFRS Financial Measures

Our reported results and financial targets include certain non-IFRS financial measures, including non-IFRS gross profit, non-IFRS operating income, non-IFRS net income, non-IFRS net income per diluted share and free cash flow. Management believes that the use of non-IFRS financial measures provides consistency and comparability with our past financial performance, facilitates period to period comparisons of results of operations, and also facilitates comparisons with other peer companies, many of which use similar non-IFRS or non-GAAP financial measures to supplement their IFRS or GAAP results. Non-IFRS results are presented for supplemental informational purposes only to aid in understanding our operating results. The non-IFRS results should not be considered a substitute for financial information presented in accordance with IFRS, and may be different from non-IFRS measures used by other companies.

Our non-IFRS financial measures reflect adjustments based on the items below:

Non-IFRS gross profit. Excludes expenses related to share-based compensation and amortization of acquired intangibles.

Non-IFRS operating income. Excludes expenses related to share-based compensation and amortization of acquired intangibles.

Non-IFRS net income and non-IFRS net income per diluted share. Excludes expenses related to share-based compensation, amortization of acquired intangibles and related income tax effects on these items.

Free cash flow. Free cash flow is defined as net cash provided by operating activities less capital expenditures, which consist of purchases of property, equipment and software.

We exclude expenses related to share-based compensation, amortization of acquired intangibles and income tax effect on these items from certain of our non-IFRS financial measures as we believe this helps investors understand our operational performance. In addition, share-based compensation expense can be difficult to predict and varies from period to period and company to company due to differing valuation methodologies, subjective assumptions and the variety of equity instruments, as well as changes in stock price. Management believes that providing non-IFRS financial measures that exclude share-based compensation expense, amortization of acquired intangibles and the tax effects of those items allow for more meaningful comparisons between our operating results from period to period.

We include the effect of our outstanding share options and RSUs in weighted-average shares used in computing non-IFRS net income per diluted share. IFRS excludes the impact of the full weighting of these outstanding equity awards until the effectiveness of our initial public offering ("IPO"). We have presented the full weighting impact of these additional shares from previously granted share options and RSUs, as if they were outstanding from the date of grant, in order to provide investors with insight into the full impact of all potentially dilutive awards outstanding and provide comparability.

Management considers free cash flow to be a liquidity measure that provides useful information to management and investors about the amount of cash generated by our business that can be used for strategic opportunities, including investing in our business, making strategic acquisitions and strengthening our statement of financial position.

Our management uses non-IFRS gross profit, non-IFRS operating income, non-IFRS net income, non-IFRS net income per diluted share and free cash flow:

- as a measure of operating performance, because these financial measures do not include the impact of items not directly resulting from our core operations;
- · for planning purposes, including the preparation of our annual operating budget;
- to allocate resources to enhance the financial performance of our business;
- · to evaluate the effectiveness of our business strategies; and
- in communications with our board of directors concerning our financial performance.

The tables in this press release titled "Reconciliation of IFRS to Non-IFRS Results" and "Reconciliation of Selected IFRS to Non-IFRS Financial Targets" provide reconciliations of non-IFRS financial measures to the most recent directly comparable financial measures calculated and presented in accordance with IFRS.

We understand that although non-IFRS gross profit, non-IFRS operating income, non-IFRS net income, non-IFRS net income per diluted share and free cash flow are frequently used by investors and securities analysts in their evaluation of companies, these measures have limitations as analytical tools, and you should not consider them in isolation or as substitutes for analysis of our results of operations as reported under IFRS.

⁽¹⁾ The effects of these dilutive securities were not included in the IFRS calculation of diluted net loss per share for the three months ended March 31, 2016 and 2015 because the effect would have been anti-dilutive.

⁽²⁾ Gives effect to unvested share options and RSUs in periods prior to our IPO for comparability.
