ABOUT THIS PROSPECTUS

Only the information contained or incorporated by reference in this prospectus should be relied upon. The Company has not authorized any other person to provide different information. If anyone provides different or inconsistent information, it should not be relied upon. The Securities offered hereunder may not be offered or sold in any jurisdiction where the offer or sale is not permitted. Unless otherwise indicated, the statistical, operating and financial information contained in this prospectus is presented as at August 19, 2015. It should be assumed that the information appearing in this prospectus and the documents incorporated by reference herein are accurate only as of their respective dates. The Company's business, financial condition, results of operations and prospects may have changed since those dates.

In this prospectus, unless stated otherwise, the "Company", "we", "us" and "our" refer to Agnico Eagle Mines Limited and its consolidated subsidiaries.

The Company publishes its consolidated financial statements in United States dollars ("US dollars"). Unless otherwise indicated, all references to "\$", "US\$" or "dollar" in this prospectus refer to US dollars and "C\$" refers to Canadian dollars. For information purposes, the noon buying rate in Canadian dollars as reported by the Bank of Canada (the "Noon Buying Rate") on August 18, 2015 was US\$1.00 = C\$1.3073.

The Company reports its financial results using International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board. The Company adopted IFRS as its basis of accounting, replacing United States generally accepted accounting principles effective July 1, 2014, with a transition date of January 1, 2013. Unless otherwise stated herein, all financial statement data used herein were prepared in accordance with IFRS.

NOTE TO INVESTORS CONCERNING ESTIMATES OF MINERAL RESERVES AND MINERAL RESOURCES

The mineral reserve and mineral resource estimates contained in or incorporated by reference in this prospectus have been prepared in accordance with the Canadian securities regulatory authorities' National Instrument 43-101 *Standards of Disclosure for Mineral Projects* ("NI 43-101"). These standards are similar to those used by the United States Securities and Exchange Commission's (the "SEC") Industry Guide No. 7 ("Guide 7"), as interpreted by Staff at the SEC. However, the definitions in NI 43-101 differ in certain respects from those under Guide 7. Accordingly, mineral reserve and mineral resource information contained or incorporated by reference herein may not be comparable to similar information disclosed by U.S. companies. Under the requirements of the SEC, mineralization may not be classified as a "reserve" unless the determination has been made that the mineralization could be economically and legally produced or extracted at the time the reserve determination is made. The SEC does not recognize measures of "mineral resource".

The mineral reserve and mineral resource data presented in this prospectus and in documents incorporated by reference herein are estimates, and no assurance can be given that the anticipated tonnages and grades will be achieved or that the indicated level of recovery will be realized. The Company does not include equivalent gold ounces for byproduct metals contained in mineral reserves in its calculation of contained ounces.

Cautionary Note to Investors Concerning Estimates of Measured and Indicated Resources

This prospectus and documents incorporated by reference herein use the terms "measured mineral resources" and "indicated mineral resources". Investors are advised that while those terms are recognized and required by Canadian regulations, the SEC does not recognize them. **Investors are cautioned not to assume that any part or all of the mineral deposits in these categories will ever be converted into reserves.**

Cautionary Note to Investors Concerning Estimates of Inferred Resources

This prospectus and documents incorporated by reference herein use the term "inferred mineral resources". Investors are advised that while this term is recognized and required by Canadian regulations, the SEC does not recognize it. "Inferred mineral resources" have a great amount of uncertainty as to their existence and as to their economic and legal feasibility. It cannot be assumed that all or any part of an inferred mineral resource will ever be upgraded to a higher category. Under Canadian rules, estimates of inferred mineral

resources may not form the basis of feasibility or pre-feasibility studies, except in rare cases. **Investors are cautioned not to assume that any part or all of an inferred mineral resource exists, or is economically or legally mineable.**

For definitions of the terms used in this section, see the Company's annual information form for the year ended December 31, 2014 (the "AIF") filed with the Canadian securities regulatory authorities on the System for Electronic Document Analysis and Retrieval ("SEDAR") on March 25, 2015.

NOTE TO INVESTORS CONCERNING CERTAIN MEASURES OF PERFORMANCE

This prospectus and the documents incorporated by reference herein present certain measures, including "total cash costs per ounce", "all-in sustaining costs per ounce" and "minesite costs per tonne", that are not recognized measures under IFRS. This data may not be comparable to data disclosed by other gold producers. A reconciliation of these measures to the most directly comparable financial information presented in the consolidated financial statements prepared in accordance with IFRS is set out (i) in respect of the data for the year ended December 31, 2014, in the Company's management's discussion and analysis for the year ended December 31, 2014 filed with the Canadian securities regulatory authorities on SEDAR on March 25, 2015, and (ii) in respect of the three months and six months ended June 30, 2015, in the Company's management's discussion and analysis for the three and six months ended June 30, 2015 filed with the Canadian securities regulatory authorities on SEDAR on August 12, 2015. The Company believes that these generally accepted industry measures are realistic indicators of operating performance and are useful in allowing year over year comparisons. However, these non-IFRS measures should be considered together with other data prepared in accordance with IFRS, and these measures, taken by themselves, are not necessarily indicative of operating costs or cash flow measures prepared in accordance with IFRS. This prospectus and the documents incorporated by reference herein also contain information as to estimated future total cash costs per ounce, all-in sustaining costs per ounce and minesite costs per tonne. The estimates of total cash costs per ounce, all-in sustaining costs per ounce and minesite costs per tonne are based upon the total cash costs per ounce, all-in sustaining costs per ounce and minesite costs per tonne that the Company expects to incur to mine gold at its projects and, consistent with the reconciliation of these actual costs referred to above, do not include production costs attributable to accretion expense and other asset retirement costs, which will vary over time as each project is developed and mined. It is therefore not practicable to reconcile these forward-looking non-IFRS financial measures to the most comparable IFRS measure.

PROSPECTUS SUMMARY

The following information is a summary only and is to be read in conjunction with, and is qualified in its entirety by, the more detailed information appearing elsewhere in this prospectus and in the documents incorporated by reference herein. Capitalized terms used but not defined in this summary have the respective meanings ascribed thereto elsewhere in this prospectus. Unless otherwise indicated, the statistical, operating and financial information contained in this prospectus is presented as at August 19, 2015.

The Company

The Company is an established Canadian-based international gold producer with mining operations in northwestern Quebec, northern Mexico, northern Finland and Nunavut and exploration activities in Canada, Europe, Latin America and the United States. The Company's operating history includes over four decades of continuous gold production, primarily from underground operations. Since its formation on June 1, 1972, the Company has produced approximately 11.7 million ounces of gold.

The Company's strategy is to focus on the continued exploration, development and expansion of its properties, all of which are located in politically stable jurisdictions. The Company has spent approximately \$2.7 billion on mine development since January 1, 2010. Through this development program, the Company transformed itself from a regionally focused, single mine producer to a multi-mine international gold producer with seven operating 100% owned mines, one operating 50% owned mine, and one advanced exploration project. The Company plans to pursue opportunities for growth in gold production and gold reserves through the prudent acquisition or development of exploration properties, development properties, producing properties and other mining businesses in the Americas and Europe. As at December 31, 2014, on a contained gold ounces basis, the gold reserves of the Company were 19,976,000 ounces (258,711,000 tonnes grading on average 2.40 grams of gold per tonne).

In 2014, the Company produced 1,429,288 ounces of gold at total cash costs per ounce of \$637 on a byproduct basis and at all-in sustaining costs per ounce of \$954 on a byproduct basis. For 2015, the Company expects to produce approximately 1.6 million ounces of gold at a total cash costs per ounce of gold on a byproduct basis between \$600 and \$620 and at all-in sustaining costs per ounce between \$870 and \$890 on a byproduct basis. The expected decrease in total cash costs per ounce of gold produced on a byproduct basis in 2015 compared with 2014 is due primarily to increased production and changes in foreign exchange rates. During the six-month period ended June 30, 2015, the Company produced 807,888 ounces of gold at total cash costs per ounce of \$595 on a byproduct basis and at all-in sustaining costs per ounce of \$835 on a byproduct basis. The Company has traditionally sold all of its production at the spot price of gold due to its general policy not to sell forward its future gold production.

Recent Developments

Recent Acquisitions

On June 9, 2015, the Company completed its acquisition of all of the issued and outstanding common shares of Soltoro Ltd. ("Soltoro"), a Canadian-based mineral exploration company listed on the TSX Venture Exchange, pursuant to a court-approved plan of arrangement under the *Canada Business Corporations Act*. Under the terms of the arrangement, each shareholder of Soltoro received 0.00793 of a common share of the Company, C\$0.01 in cash and one common share of a newly-formed Ontario company named Palamina Corp. valued at approximately C\$0.02 per share. Through this transaction, the Company acquired more than 30,000 hectares of property in Jalisco State, Mexico, including the El Rayo silver-gold project and another exploration property that are contiguous with and to the east of the Company's existing El Barqueno project. Soltoro is now a wholly-owned subsidiary of the Company.

On June 11, 2015, Agnico Eagle Sweden AB ("AE Sweden") acquired from Orex Minerals Inc. ("Orex") a 55% interest in Gunnarn Mining AB ("Gunnarn"), which holds the Barsele Gold Project in northern Sweden. Consideration for the acquisition was comprised of \$6 million paid to Orex at closing and additional payments of \$2 million due to Orex on each of the first and second anniversaries of the closing. As part of the transaction,

Orex received a 2% net smelter royalty on production from the project. At closing, AE Sweden, the Company, Orex and Gunnarn entered into a joint venture agreement governing the project under which AE Sweden committed to spend \$7 million on exploration at the project prior to the third anniversary of the closing, will obtain a further 15% interest in Gunnarn on the completion of a prefeasibility study in respect of the project and is the operator of the project.

Changes to the Board of Directors

During the second quarter of 2015, the Company received the resignation of Mr. Bernard Kraft due to health reasons. Mr. Kraft had been a director of the Company since 1992. To fill the vacancy created by the resignation of Mr. Kraft, Mr. Jamie Sokalsky was appointed to the board of directors of the Company.

The Company operates through three business units: Northern Business, Southern Business and Exploration.

The Company's Northern Business is comprised of the Company's operations in Canada and Finland. The Company's Canadian properties include the LaRonde mine, the Lapa mine and the Goldex mine in the Province of Quebec, and the Meadowbank mine and the Meliadine and Amaruq projects in the Nunavut Territory, each of which is held directly by the Company, and the Canadian Malartic mine in the Province of Quebec, which is held through a general partnership in which the Company and Yamana Gold Inc. In 2014, the Northern Business accounted for approximately 79% of the Company's gold production. In 2015, the Company anticipates that the Northern Business will account for approximately 80% of the Company's gold production.

The Company's Southern Business is comprised of the Company's operations in Mexico. The Company's mining at Pinos Altos is conducted through its subsidiary, Agnico Eagle Mexico S.A. de C.V., which owns the Pinos Altos mine, including the Creston Mascota deposit. The La India mine is owned by the Company's indirect subsidiary, Agnico Sonora, S.A. de C.V. The El Barqueno project is owned by the Company's indirect subsidiary, Minas Chaparral, S.A. de C.V. In 2014, the Southern Business accounted for approximately 21% of the Company's gold production. In 2015, the Company anticipates that the Southern Business will account for approximately 20% of the Company's gold production.

The Company's Exploration group focuses primarily on the identification of new mineral reserves and resources and new development opportunities in politically stable and proven gold producing regions. Current exploration activities are concentrated in Canada, Europe, Latin America and the United States. Several projects were evaluated during 2014 and 2015 in other countries where the Company believes the potential for gold occurrences is excellent and which the Company believes to be politically stable and supportive of the

mining industry. The Company currently manages 72 properties in Canada, five properties in the United States, three groups of properties in Finland, two properties in Sweden and 18 properties in Mexico. Exploration activities are managed from offices in Val d'Or, Quebec; Reno, Nevada; Tucson, Arizona; Chihuahua and Hermosillo, Mexico; Kittila, Finland; and Vancouver, British Columbia.

The Company's executive and registered office is located at 145 King Street East, Suite 400, Toronto, Ontario, Canada M5C 2Y7; telephone: (416) 947-1212; website: <http://www.agnicoeagle.com>. The information contained on the website is not part of this prospectus.

Proven and Probable Mineral Reserves

Historically, mineral reserves and mineral resources for all properties were typically estimated using historic three-year average metals prices and foreign exchange rates in accordance with SEC guidelines. These guidelines require the use of prices that reflect current economic conditions at the time of reserve determination, which the Staff of the SEC has interpreted to mean historic three-year average prices. Given the commodity price environment, the Company decided to use price assumptions below the three-year averages for its 2013 and 2014 mineral reserve and mineral resource estimates. The assumptions used for the Company's 2014 mineral reserves and mineral resources estimate at all mines and advanced projects reported by the Company in this prospectus (other than the Canadian Malartic mine) were \$1,150 per ounce gold, \$18 per ounce silver, \$1.00 per pound zinc, \$3.00 per pound copper and exchange rates of C\$1.08 per \$1.00, 13.00 Mexican pesos per \$1.00 and \$1.30 per €1.00. The assumptions used at the Canadian Malartic mine were \$1,300 per ounce gold, a cut-off grade between 0.28 g/t and 0.35 g/t gold (depending on the deposit) and an exchange rate of C\$1.10 per \$1.00. For information regarding the estimation of the Company's mineral reserves and mineral resources, see "Operations and Production — Mineral Reserves and Mineral Resources" in the AIF and "Note to Investors Concerning Estimates of Mineral Reserves and Mineral Resources" in this prospectus.

Set out below are the Company's mineral reserve estimates as of December 31, 2014, calculated in accordance with NI 43-101 (tonnages and contained gold quantities are rounded to the nearest thousand).

The following summary describes certain general terms of the debt securities and certain provisions of the indenture, although it does not purport to be complete and is subject to, and is qualified in its entirety by reference to, the Prospectus Supplement relating to such debt securities and all of the provisions of the indenture. The terms of debt securities the Company offers may differ from the general information provided below. - provisions as to modification, amendment or variation of any rights or terms attaching to the debt securities; and
- any other terms of the debt securities.

Unless stated otherwise in the applicable Prospectus Supplement, no holder will have the right to require the Company to repurchase the debt securities and there will be no increase in the interest rate if the Company becomes involved in a highly leveraged transaction or there is a change of control of the Company.

The Company may issue debt securities bearing no interest or interest at a rate below the prevailing market rate at the time of issuance, and offer and sell these securities at a discount below their stated principal amount. The Company may also sell any of the debt securities for a foreign currency or currency unit, and payments on the debt securities may be payable in a foreign currency or currency unit. In any of these cases, the Company will describe in the applicable Prospectus Supplement, any Canadian and United States federal income tax consequences and other special considerations.

The Company may issue debt securities with terms different from those of debt securities previously issued and, without the consent of the holders thereof, the Company may reopen a previous issue of a series of debt securities and issue additional debt securities of such series (unless the reopening was restricted when such series was created).

Unless stated otherwise in the applicable Prospectus Supplement, the Company will issue debt securities only in fully registered form without coupons, in denominations of \$1,000 and multiples of \$1,000. In addition, all or a portion of the debt securities of any series may be issued in permanent registered global form which will be exchangeable for definitive debt securities only under certain conditions. The applicable Prospectus Supplement may indicate the denominations to be issued, the procedures for payment of interest and principal and other matters. No service charge will be made for any registration of transfer or exchange of the debt securities, but the Company may, in certain instances, require payment of a sum sufficient to cover any tax or other governmental charge payable in connection with these transactions.

Ranking

The debt securities will be direct unsecured obligations of the Company. The debt securities will be senior or subordinated indebtedness of the Company as described in the applicable Prospectus Supplement. If the debt securities are senior indebtedness, they will rank equally and rateably with all other unsecured indebtedness of the Company from time to time issued and outstanding which is not subordinated. If the debt securities are subordinated indebtedness, they will be subordinated to senior indebtedness of the Company as described in the applicable Prospectus Supplement, and they will rank equally and rateably with other subordinated indebtedness of the Company from time to time issued and outstanding as described in the applicable Prospectus Supplement. The Company reserves the right to specify in a Prospectus Supplement whether a particular series of subordinated debt securities is subordinated to any other series of subordinated debt securities.

Payment and Transfer

Unless stated otherwise in the applicable Prospectus Supplement, the Company will make payments of principal of (and premium, if any, on) debt securities of a particular series in the designated currency against

surrender of the debt securities at the office of the paying agent the Company designates from time to time. Unless stated otherwise in the applicable Prospectus Supplement, the Company will make payment of any installment of interest on debt securities to the persons in whose names the debt securities are registered on the close of business on the day or days specified by the Company. Unless otherwise indicated in the applicable Prospectus Supplement, payments of interest will be made, at the Company's option:

- at the corporate trust office of the paying agent that the Company designates from time to time;
- by electronic funds transfer to an account that the holder designates from time to time; or
- by cheque in the designated currency mailed to each holder at the relevant holder's registered address.

Unless stated otherwise in the applicable Prospectus Supplement, holders may transfer or exchange fully registered debt securities at the corporate trust office of the trustee or at any other office or agency the Company maintains, or causes to be maintained, for these purposes, without the payment of any service charge except for any tax or governmental charge.

Global Securities

The Company may issue debt securities of a series in the form of one or more global securities which will be deposited with a depository, or its nominee, identified in the applicable Prospectus Supplement. The global securities may be in temporary or permanent form. The applicable Prospectus Supplement will describe the terms of any depository arrangement and the rights and limitations of owners of beneficial interests in any global security. The applicable Prospectus Supplement will also describe the exchange, registration and transfer rights relating to any global security.

Merger, Amalgamation or Consolidation

The indenture will generally permit the Company to amalgamate or consolidate with or merge into any other person, and to transfer or dispose of substantially all of its assets, so long as (a) the resulting person (i) is the Company or (ii) is a Canadian or U.S. entity and assumes the Company's obligations regarding the debt securities and under the indenture, and (b) immediately after giving effect to the transaction, no default or event of default under the indenture shall have occurred and be continuing.

If the resulting person assumes the Company's obligations, subject to certain exceptions, the Company will be relieved of those obligations.

Events of Default

When the Company uses the term "event of default" in the indenture, it will mean, in respect of a series of debt securities:

- the Company fails to pay principal or any premium on any debt security of that series when it is due;
- the Company fails to pay interest on any debt security of that series for 30 days after the date when it is due;
- the Company fails to comply with any of its other agreements relating to the debt securities or the indenture for 60 days after written notice by the trustee or by holders of at least 25% of the aggregate principal amount of the debt securities of that series then outstanding;
- certain events involving its bankruptcy, insolvency or reorganization; and
- any other event of default provided for with respect to that series of debt securities.

The Prospectus Supplement for a series of debt securities may include additional events of default or changes to the events of default described above. The trustee will give notice within a reasonable time (not exceeding 30 days) to the holders of debt securities of any default unless it determines in good faith the withholding of such notice is in the best interests of the holders, collectively, and so advises the Company in writing.

A default under one series of debt securities will not necessarily be a default under another series.

If an event of default for any series of debt securities occurs and is continuing, the trustee or the holders of at least 25% of the aggregate principal amount of the debt securities of that series may require the Company to repay immediately:

- the aggregate unpaid principal amount of the debt securities of the series; or
- if the debt securities are discounted securities, that portion of the principal as is described in the applicable Prospectus Supplement.

If an event of default relates to events involving the Company's or a material subsidiary's bankruptcy, insolvency or reorganization, the aggregate unpaid principal amount of all debt securities will become immediately due and payable without any action by the trustee or any holder. In either case, subject to certain conditions, the holders of a majority of the aggregate principal amount of the debt securities of the affected series can rescind the accelerated payment requirement.

Other than its duties in case of a default, the trustee will not be obligated to exercise any of its rights or powers under the indenture at the request, order or direction of any holders, unless the holders offer the trustee reasonable indemnity. If they provide this reasonable indemnity, the holders of a majority in principal amount of any series of debt securities may, subject to certain limitations, direct the time, method and place of conducting any proceeding or any remedy available to the trustee, or exercising any power conferred on the trustee, for any series of debt securities.

The Company will be required to furnish to the trustee a statement annually as to its compliance with all conditions and covenants under the indenture and, if the Company is not in compliance, it must specify any defaults.

Defeasance

When the Company uses the term "defeasance", it means that the Company is deemed to have paid and discharged the entire indebtedness represented by all debt securities of a particular series then outstanding and to have satisfied all its other obligations with respect to such series. If the Company deposits with the trustee sufficient cash or government securities to pay the principal, interest, any premium and any other sums due to the stated maturity date or a redemption date of the debt securities of a series, then at its option:

- the Company will be discharged from its obligations with respect to the debt securities of that series; or
- the Company will no longer be under any obligation to comply with certain restrictive covenants under the indenture, and certain events of default will no longer apply to the Company.

If this happens, the holders of the debt securities of the affected series will not be entitled to the benefits of the indenture except for registration of transfer and exchange of the debt securities and the replacement of lost, stolen or mutilated debt securities. These holders may look only to the deposited fund for payment on their debt securities.

Unless stated otherwise in the applicable Prospectus Supplement, in order to exercise its defeasance option, the Company will be required to deliver to the trustee an opinion of counsel to the effect that the deposit and related defeasance would not cause the holders of the debt securities to recognize income, gain or loss for Canadian federal or Canadian provincial (and any other jurisdiction specified for this purpose in the Prospectus Supplement) income tax purposes. The Company also will be required to deliver a certificate of an officer of the Company and an opinion of counsel, each stating that all of the conditions precedent provided for relating to defeasance have been satisfied. In addition, other conditions will be required to be met before the Company may exercise its defeasance option.

Modification and Waiver

The Company may modify the indenture with the consent of the holders of a majority in aggregate principal amount of the outstanding debt securities of each series affected by the modification. However, without the consent of each holder affected, no modification may:

- reduce the percentage of the unpaid principal amount of any series whose holders must consent to any amendment or waiver under the indenture or which may otherwise require notice, information or action or effect any action, or modify the provisions in the indenture relating to amendment or waiver;
- reduce the amount of, or change the currency of payment of, or delay the time of, any payments (whether of principal, premium, interest or otherwise) to be made to the holders of debt securities of any series;
- change the definition of or the manner of calculating amounts (including any change in the applicable rate or rates of interest) to which any holder of debt securities of any series is entitled under the indenture;
- make any change that adversely affects the redemption, conversion or exchange rights of holders of debt securities of any series;
- make any change that would result in the issuer being required to make any deduction or withholding from payments to be made to holders of debt securities of any series; or
- impair the right of holders to institute a suit to enforce their rights to payment.

The holders of a majority in principal amount of outstanding debt securities of any series may on behalf of the holders of all outstanding debt securities of that series waive, only insofar as that series is concerned, any prospective or existing defaults under the indenture and the Company's compliance with certain restrictive provisions of the indenture. However, these holders may not waive a default in any payment on any debt security or compliance with a provision that cannot be modified without the consent of each holder affected.

Unless stated otherwise in the applicable Prospectus Supplement, the Company may modify the indenture without the consent of the holders to:

- cure any ambiguity, defect or inconsistency, provided, however, that the amendment to cure any ambiguity, defect or inconsistency does not adversely affect the rights of any holder;
- provide for the assumption by a successor of the Company's obligations under the indenture;
- give effect to certain directions of the holders;
- provide for uncertificated debt securities in addition to or in place of certificated debt securities, as long as those uncertificated debt securities are in registered form for United States federal income tax purposes;
- make any change to maintain the qualification of the indenture under the United States Trust Indenture Act of 1939, as amended, or to comply with applicable laws;
- change or eliminate any provisions of the indenture provided that there are no debt securities outstanding under the indenture at the time when such change or elimination takes effect;
- add to the Company's covenants or the Company's obligations under the indenture or surrender any right, power or option conferred upon the Company by the indenture; or
- make any other change that would not adversely affect the rights of holders.

The Trustee

The trustee under the indenture or its affiliates may provide banking and other services to the Company in the ordinary course of its business.

The indenture will contain certain limitations on the rights of the trustee, as long as it or any of its affiliates remain the Company's creditor, to obtain payment of claims in certain cases or to realize on certain property

received on any claim as security or otherwise. The trustee and its affiliates will be permitted to engage in other transactions with the Company. If a material conflict of interest arises with respect to the trustee, the trustee shall, within 90 days of ascertaining that the conflict exists, either eliminate the conflict or resign.

Governing Law

Unless stated otherwise in the applicable Prospectus Supplement, the indenture and the debt securities will be governed by and construed in accordance with the laws of the Province of Ontario and the federal laws of Canada applicable in such Province.

DESCRIPTION OF WARRANTS

The Company may issue warrants to purchase debt securities or common shares of the Company. The Company may issue warrants independently or together with other securities, and warrants sold with other securities may be attached to or separate from the other securities. Unless the Prospectus Supplement otherwise indicates, warrants will be issued under, and governed by the terms of, one or more indentures that the Company will enter into with a warrant trustee or trustees that will be named in the Prospectus Supplement.

The following sets forth certain general terms and provisions of the warrants offered under this prospectus. The specific terms of the warrants, and the extent to which the general terms described in this section apply to these warrants, will be set out in the applicable Prospectus Supplement.

The Prospectus Supplement relating to any warrants the Company offers will describe the warrants and include specific terms relating to the offering. The Prospectus Supplement will include some or all of the following:

- the designation and aggregate number of warrants offered;
- the currency or currencies in which the warrants will be offered;
- the designation, number and terms of the common shares or debt securities purchasable on exercise of the warrants, and procedures that will result in the adjustment of those numbers;
- the exercise price of the warrants;
- the dates or periods on, after or during which the warrants are exercisable;
- the designation and terms of any securities with which the warrants are issued;
- if the warrants are issued as a unit with another security, the date on and after which the warrants and the other security will be separately transferable;
- any minimum or maximum amount of warrants that may be exercised at any one time;
- any terms, procedures and limitations relating to the transferability, exchange or exercise of the warrants;
- whether the warrants will be subject to redemption or call and, if so, the terms of such redemption or call provisions;
- provisions as to modification, amendment or variation of the warrant indenture or any rights or terms attaching to the warrants;
- material Canadian and United States tax consequences of owning the warrants; and
- any other material terms, preferences, rights or limitations of, or restrictions on, the warrants.

Prior to the exercise of their warrants, holders of warrants will not have any of the rights of holders of the securities for which the warrants are exercisable.

The Company may amend the warrant indenture(s) and the warrants, without the consent of the holders of the warrants, to cure any ambiguity, to cure, correct or supplement any defective or inconsistent provision, or in any other manner that will not prejudice the rights of the holders of outstanding warrants, as a group.

PLAN OF DISTRIBUTION

The Company may offer and sell the Securities, separately or together, to or through one or more underwriters or dealers, purchasing as principal for public offering and sale by them, and also may sell Securities to one or more other purchasers directly or through agents. Each Prospectus Supplement will set out the terms of the offering, including:

- the name or names of any underwriters or agents;
- the purchase price or prices, and form of consideration for, the Securities;
- the proceeds to the Company from the sale of the Securities;
- any underwriting discounts or commissions and other items constituting underwriters' compensation;
- any delayed delivery arrangements; and
- any securities exchanges on which the Securities may be listed.

A Prospectus Supplement may also provide that the Securities sold thereunder will be "flow-through" securities.

The Securities may be sold, from time to time in one or more transactions at a fixed price or prices which may be changed or at market prices prevailing at the time of sale, at prices related to such prevailing market prices or at negotiated prices. The price at which the Securities may be offered may vary as between purchasers and during the distribution period. If, in connection with the offering of Securities at a fixed price or prices, the underwriters have made a *bona fide* effort to sell all of the Securities at the initial offering price fixed in the applicable Prospectus Supplement, the public offering price may be decreased and thereafter further changed, from time to time, to an amount not greater than the initial public offering price fixed in such Prospectus Supplement, in which case the compensation realized by the underwriters will be decreased by the amount that the aggregate price paid by purchasers for the Securities is less than the gross proceeds paid by the underwriters to the Company.

Underwriters, dealers and agents that participate in the distribution of the Securities may be entitled under one or more agreements to be entered into with the Company to indemnification by the Company against certain liabilities, including liabilities under Canadian and U.S. securities legislation, or to contribution with respect to payments which such underwriters, dealers or agents may be required to make in respect thereof. Such underwriters, dealers and agents may engage in transactions with, or perform services for, the Company in the ordinary course of business.

Unless otherwise set out in a Prospectus Supplement relating to a particular offering of Securities, the underwriters or dealers, as the case may be, may over-allot or effect transactions intended to fix or stabilize the market price of the Securities at a level above that which might otherwise prevail in the open market. Such transactions, if commenced, may be discontinued at any time.

AVAILABLE INFORMATION

The Company has filed with the SEC a registration statement on Form F-10 under the United States Securities Act of 1933, as amended, with respect to the securities offered hereby. This prospectus, which forms a part of the registration statement, does not contain all of the information set forth in the registration statement, certain parts of which have been omitted in accordance with the rules and regulations of the SEC. For further information with respect to the Company and the Securities offered in this prospectus, reference is made to the registration statement and to the schedules and exhibits filed therewith. Statements contained in this prospectus as to the contents of certain documents are not necessarily complete and, in each instance, reference is made to the copy of the document filed and exhibits to the registration statement. Each such statement is qualified in its entirety by such reference.

The Company is subject to the informational requirements of the Exchange Act and in accordance therewith files reports and other information with the SEC. Under a multijurisdictional disclosure system adopted by the United States, such reports and other information may be prepared in accordance with the disclosure requirements of Canada, which requirements are different from those of the United States. Any information filed with the SEC can be read and copied at prescribed rates at the SEC's Public Reference Room

at 100 F Street, N.E., Washington, D.C. 20549. Information on the operation of the Public Reference Room may be obtained by calling the SEC at 1-800-SEC-0330 or by accessing its website at www.sec.gov. Some of the documents the Company files with or furnishes to the SEC are electronically available from the SEC's Electronic Document Gathering and Retrieval System, which is commonly known by the acronym "EDGAR", and may be accessed at www.sec.gov.

ENFORCEABILITY OF CERTAIN CIVIL LIABILITIES

The Company is incorporated under the laws of the Province of Ontario, Canada. The majority of the Company's directors and officers and the experts named in this prospectus are residents of Canada. Also, almost all of the Company's assets and the assets of these persons are located outside of the United States. As a result, it may be difficult for shareholders to initiate a lawsuit within the United States against these non-U.S. residents, or to enforce U.S. judgments against the Company or these persons. The Company's Canadian counsel has advised the Company that a monetary judgment of a U.S. court predicated solely upon the civil liability provisions of U.S. federal securities laws would likely be enforceable in Canada if the U.S. court in which the judgment was obtained had a basis for jurisdiction in the matter that was recognized by a Canadian court for such purposes. The Company cannot provide assurance that this will be the case. It is less certain that an action could be brought in Canada in the first instance on the basis of liability predicated solely upon the civil liability provisions of U.S. federal securities laws.

STATUTORY RIGHTS OF WITHDRAWAL AND RESCISSION

Securities legislation in certain of the provinces of Canada provides purchasers with the right to withdraw from an agreement to purchase securities. This right may be exercised within two business days after receipt or deemed receipt of a prospectus and any amendment. In several of the provinces, the securities legislation further provides a purchaser with remedies for rescission or, in some jurisdictions, revisions of the price or damages if the prospectus and any amendment contains a misrepresentation or is not delivered to the purchaser, provided that the remedies for rescission, revisions of the price or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province for the particulars of these rights or consult with a legal adviser.

In an offering of warrants or convertible debt securities, original purchasers will have a contractual right of rescission against the Company in respect of the exercise or conversion of such warrants or convertible debt securities. The contractual right of rescission will entitle such original purchasers to receive the amount paid upon exercise or conversion, upon surrender of the underlying securities issued thereby, in the event that this prospectus, the applicable Prospectus Supplement or any amendment contains a misrepresentation, provided that: (i) the exercise or conversion takes place within 180 days of the date of the purchase of the warrants or convertible debt securities under this prospectus and the applicable Prospectus Supplement; and (ii) the right of rescission is exercised within 180 days of the date of the purchase of the warrants or convertible debt securities under this prospectus and the applicable Prospectus Supplement. This contractual right of rescission will be consistent with the statutory right of rescission described under section 130 of the *Securities Act* (Ontario), and is in addition to any other right or remedy available to original purchasers under Section 130 of the *Securities Act* (Ontario) or otherwise at law.

Purchasers of warrants or convertible debt securities are cautioned that the statutory right of action for damages for a misrepresentation contained in the prospectus is limited, in certain provincial securities legislation, to the price at which the warrants or convertible debt securities are offered to the public under the prospectus offering. This means that, under the securities legislation of certain provinces, if the purchaser pays additional amounts upon exercise or conversion of the security, those amounts may not be recoverable under the statutory right of action for damages that applies in those provinces. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province for the particulars of this right of action for damages or consult with a legal adviser.

DOCUMENTS FILED AS PART OF THE REGISTRATION STATEMENT

PART II

INFORMATION NOT REQUIRED TO BE DELIVERED TO OFFEREES OR PURCHASERS

INDEMNIFICATION

Under the *Business Corporation Act* (Ontario), the Registrant may indemnify a present or former director or officer or person who acts or acted at the Registrant's request as a director or officer of another corporation of which the Registrant is or was a shareholder or creditor, and his heirs and legal representatives, against all costs, charges and expenses, including an amount paid to settle an action or satisfy a judgment, reasonably incurred by him in respect of any civil, criminal or administrative action or proceeding to which he is made a party by reason of his being or having been a director or officer of the Registrant or such other corporation on condition that (i) the director or officer acted honestly and in good faith with a view to the best interests of the Registrant and (ii) in the case of a criminal or administrative action or proceeding that is enforced by a monetary penalty, had reasonable grounds for believing that his conduct was lawful. Further, the Registrant may, with court approval, indemnify a person described above in respect of an action by or on behalf of the Registrant to procure a judgment in its favor, to which the person is made a party by reason of being or having been a director or an officer of the Registrant, against all costs, charges and expenses reasonably incurred by the person in connection with such action if he or she fulfils conditions (i) and (ii) above. A director is entitled to indemnification from the Registrant as a matter of right if he was substantially successful on the merits in his defense and fulfilled conditions (i) and (ii) above.

In accordance with the *Business Corporation Act* (Ontario), the by-laws of the Registrant indemnify a director or officer, a former director or officer, or a person who acts or acted at a Registrant's request as a director or officer of a corporation in which the Registrant is or was a shareholder or creditor against any and all losses and expenses reasonably incurred by him in respect of any civil, criminal, administrative action or proceeding to which he was made a party by reason of being or having been a director or officer of the Registrant or other corporation if he acted honestly and in good faith with a view to the best interests of the Registrant, or, in the case of a criminal or administrative action or proceeding that is enforced by monetary penalty, he had reasonable grounds for believing that his conduct was lawful.

A policy of directors' and officers' liability insurance is maintained by the Registrant which insures directors and officers for losses as a result of claims against the directors and officers of the Registrant in their capacity as directors and officers and also reimburses the Registrant for payments made pursuant to the indemnity provisions under the by-laws of the Registrant and the *Business Corporation Act* (Ontario).

Insofar as indemnification for liabilities under the Securities Act of 1933, as amended (the "Securities Act"), may be permitted to directors, officers or persons controlling the Registrant pursuant to the foregoing provisions, the Registrant has been informed that in the opinion of the U.S. Securities and Exchange Commission such indemnification is against public policy in the United States as expressed in the Securities Act and is therefore unenforceable.
