Cirrus Logic Announces Preliminary Q3 Revenue Increases 49 Percent Year Over Year to \$65 Million

Earnings Conference Call Set for Jan. 28

AUSTIN, Texas--(BUSINESS WIRE)--January 11, 2010--Cirrus Logic Inc. (Nasdaq: CRUS) today announced that the company expects net revenue for the third fiscal quarter, which ended on Dec. 26, 2009, to be up 49 percent year over year, and up 17 percent sequentially to approximately \$65 million, an increase from the previous guidance of \$58 million to \$62 million. The increase over forecasted revenue was driven by stronger than anticipated demand for a broad range of audio products, as well as modest improvement in demand for energy products.

The company expects gross margin to be approximately 54 percent. Combined R&D and SG&A expenses are expected to be approximately \$24.3 million and include an estimated \$1.8 million in share-based compensation and amortization of acquisition-related intangible expenses, as well as \$400,000 in favorable facilities related credits.

“We continued to experience strong growth in the December quarter as revenue from new products maintained its momentum and we had increased demand from our customers for a broad mix of both our audio and energy products,” said Jason Rhode, president and chief executive officer of Cirrus Logic. “Building on this momentum, we believe that revenue for the March quarter will exceed \$53 million, which would represent greater than 58 percent year over year growth. We will release full guidance for the March quarter on Jan. 28.”

Cirrus Logic will hold its quarterly conference call to discuss third quarter, fiscal year 2010 financial results on Thursday, Jan. 28, 2010, at 10:30 a.m. EST. Cirrus Logic will release the company's financial results at approximately 8:00 a.m. EST on the same day.
