MANAGEMENT PROXY CIRCULAR

This Management Proxy Circular is furnished in connection with the solicitation of proxies for use at the Annual General Meeting (the “Meeting”) of shareholders (“Shareholders”) of Eldorado Gold Corporation (the “Company”) to be held on April 30, 2003 at the place and time and for the purposes set forth in the Notice of Meeting. Unless otherwise expressly indicated, the information herein contained is given as at March 26, 2003.

GENERAL PROXY INFORMATION

Solicitation of Proxies

This Management Proxy Circular is furnished to the Shareholders in connection with the solicitation of Proxies by the management of the Company for use at the Meeting. While it is expected that the solicitation will be primarily by mail, proxies may be solicited personally or by telephone by the regular employees of the Company at nominal cost. All costs of solicitation by management will be borne by the Company.

Appointment of Proxy Holder

The individuals named in the accompanying Form of Proxy for the Meeting are officers or directors of the Company. **A SHAREHOLDER HAS THE RIGHT TO APPOINT SOME OTHER PERSON (WHO NEED NOT BE A SHAREHOLDER) TO REPRESENT THE HOLDER AT THE MEETING BY STRIKING OUT THE NAMES OF THOSE PERSONS NAMED IN THE ACCOMPANYING FORM OF PROXY AND BY INSERTING SUCH OTHER PERSON’S NAME IN THE BLANK SPACE PROVIDED IN THE FORM OF PROXY OR BY COMPLETING ANOTHER FORM OF PROXY.**

In order to vote, completed forms of Proxy must be received by Computershare Trust Company of Canada, 4th Floor, 510 Burrard Street, Vancouver, British Columbia, V6C 3B9 by 3 p.m., Vancouver time, on April 28, 2003 or by the Chairman of the Meeting prior to the commencement of the Meeting or any adjournments thereof.

Revocation of Proxies

A Shareholder who has given a Proxy may revoke it by an instrument in writing executed by the Shareholder or by such Shareholder’s attorney authorized in writing or, where the Shareholder is a company or association, by a duly authorized officer or attorney of that company

or association, and delivered either to the registered office of the Company (2100-1075 West Georgia Street, Vancouver, B.C. V6E 3G2) at any time up to and including April 29, 2003 (being the last business day preceding the day of the Meeting) or, if the Meeting is adjourned, on the last business day preceding any reconvening thereof, or with the Chairman of the Meeting on the day of the Meeting or an adjournment thereof, or in any other manner provided by law. A revocation of a Proxy does not affect any matter on which a vote has been taken prior to such revocation.

Exercise of Vote by a Proxy

A proxy will not be valid unless signed by the Shareholder or by the Shareholder's attorney duly authorized in writing, or, if the Shareholder is a company or association, the Proxy must be executed by an officer or by an attorney duly authorized in writing. If the Proxy is executed by an attorney for an individual Shareholder or by an officer or attorney of a Shareholder that is a company or association, the instrument so empowering the officer or attorney, as the case may be, or a notarial copy thereof, must accompany the Proxy .

Shares represented by properly executed proxies in the accompanying form (if executed in favour of management nominees and properly deposited prior to the Meeting) will be voted in accordance with the instructions of the Shareholder on any ballot that may be called for. **If no choice is specified, the person designated in the accompanying form of proxy will vote in favour of every matter proposed by management at the Meeting. The enclosed form of proxy confers discretionary authority upon the persons named**

therein with respect to amendments or variations to matters identified in the Notice of Meeting and with respect to other matters which may properly come before the Meeting. At the date of this Management Proxy Circular, the management of the Company knows of no such amendments, variations or other matters to come before the Meeting. However, if any other matters which are not now known to the management should properly come before the Meeting, then the management nominees intend to vote in accordance with the judgment of management of the Company.

Special Instructions for Voting by Non-Registered Holders

Only registered Shareholders or their duly appointed proxyholders are permitted to vote at the Meeting. Most shareholders of the Company are "non-registered" shareholders because the shares they own are not registered in their names but are instead registered in the name of the brokerage firm, bank or trust company through which they purchased the shares. More particularly, a person is not a registered shareholder in respect of shares which are held on behalf of that person (the "Non-Registered Holder") but which are registered either: (a) in the name of an intermediary (an "Intermediary") that the Non-Registered Holder deals with in respect of the shares (Intermediaries include, among others, banks, trust companies, securities dealers or brokers and trustees or administrators of self-administered RRSP's, RRIF's, RESP's and similar plans); or (b) in the name of a clearing agency (such as The Canadian Depository for Securities Limited) of which the Intermediary is a participant. In accordance with the requirements of National Instrument 54-101 of the Canadian Securities Administrators, the Company has distributed copies of the Notice of Meeting, this Management Proxy Circular, the Form of Proxy and related documents together with the 2002 Financial Review (collectively, the "Meeting Materials") to the clearing agencies and Intermediaries for onward distribution to Non-Registered Holders.

Intermediaries are required to forward the Meeting Materials to Non-Registered Holders unless in the case of certain proxy-related materials a Non-Registered Holder has waived the right to receive them. Very often, Intermediaries will use service companies to forward the Meeting Materials to Non-Registered Holders. With those Meeting Materials, Intermediaries or their service companies should provide Non-Registered Holders with a request for voting instruction form and which, when properly completed and signed by the Non-Registered Holder and **returned to the Intermediary or its service company** , will constitute voting instructions which the Intermediary must follow. The purpose of this procedure is to permit Non-Registered Holders to direct the voting of the shares which they beneficially own. Should a Non-Registered Holder wish to vote at the Meeting in person, the Non-Registered Holder should follow the procedure in the request for voting instructions provided by or on behalf of the Intermediary and request a form of legal proxy which will grant the Non-Registered Holder the right to attend the Meeting and vote in person. **Non-Registered Holders should carefully follow the instructions of their Intermediary, including those regarding when and where the completed request for voting instructions is to be delivered.**

Only registered Shareholders have the right to revoke a proxy. Non-Registered Holders who wish to change their vote must in sufficient time in advance of the Meeting, arrange for their respective Intermediaries to change their vote and if necessary revoke their proxy in accordance with the revocation procedures set above

Record Date

Each holder of common shares ("Common Shares") of the Company on March 26, 2003, is entitled to vote at the Meeting as more particularly described below.

Voting Shares and Principal Holders Thereof

On March 26, 2003, a total of 212,598,776 Common Shares were issued and outstanding, with each Common Share carrying the right to one vote on all resolutions before the Meeting. The affirmative vote of a majority of the votes cast at the Meeting is required for approval of each matter set forth in this Management Proxy Circular. Two shareholders present or deemed to be present or represented by proxy and together holding or representing by proxy not less than 5% of the Common Shares outstanding will constitute a quorum at the Meeting.

As at March 26, 2003, there is no person who is known to the Company, its directors or officers, to beneficially own, directly or indirectly, or to exercise control or direction over, shares carrying more than 10% of the votes attached to shares of the Company.

ELECTION OF DIRECTORS

The Articles and Bylaws of the Company provide that the Board of Directors is to consist of a minimum of 3 directors and a maximum of 20, with the actual number to be elected at any meeting to be the number of directors then in office unless the directors or shareholders otherwise determine. The Board presently consists of five directors. For this forthcoming year, the Board of Directors has, by resolution, fixed the number of directors at seven (7).

Management proposes the election at the Meeting of seven directors, each to hold office until the next annual meeting of shareholders or until his or her successor is elected or appointed. In the following table and notes thereto is stated the name of each

Composition and Responsibility of the Compensation Committee

The Compensation Committee is responsible for establishing, reviewing and approving the Company's compensation policies and practices and for reviewing and recommending, for the approval of the Board of Directors, the remuneration of the Company's senior management. The Compensation Committee is composed of three directors: Mr. Wayne Lenton, Mr. Joe Conway and Mr. Hugh Morris.

Report on Executive Compensation***Compensation Philosophy***

The Company's principal goal is to create value for its shareholders. The Company's executive compensation philosophy is based on the objectives of linking the interests of the executive officers with both the short-and long-term interests of the Company, of linking executive compensation to the performance of the Company and the individual and of compensating executive officers at a level and in a manner that ensures the Company is capable of attracting, motivating and retaining individuals with exceptional executive skills.

The compensation of the Company's executive officers is composed of base salaries, stock options, a short term incentive plan and a contribution towards the individual's registered retirement savings plan and is intended to be competitive with the executive compensation offered by similar companies in the gold mining industry.

The mandate of the Compensation Committee is to review from time to time, as necessary or appropriate, the terms of employment of the Company's senior management, to meet at least two times per year to evaluate the performance of the Company's executive officers, to review the competitiveness and effectiveness of the Company's compensation plan, and to report to the Board the Committee's findings and recommendations.

Base Salary

To ensure that the Company will continue to attract and retain qualified and experienced executives, cash compensation is reviewed and adjusted annually, based on individual and corporate performance and compensation practices of similar companies in the gold mining industry.

Stock Options

The purpose of the Company's Stock Option Plan (the "Current Plan") is to ensure that an incentive exists to maximize shareholder value by linking executive compensation to share price performance and to reward those executives making a long-term commitment and contribution to the Company. The Board of Directors has, in the past, established informal guidelines for the granting of options based on the seniority and the responsibilities of employees, and the responsibilities, achievements and day-to-day involvement of the officers and directors. Options granted under the Current Plan expire not later than the tenth anniversary of the date options were granted. Subject to stock exchange requirements, alternative terms and conditions on stock option grants are at the discretion of the Board of Directors.

At the Shareholders Meeting on April 30, 2003 shareholders will be asked to approve a stock option plan designed to separate those options granted to officers and directors of the Company from those granted to employees, consultants and advisors. The proposed stock option plan for officers and directors of the Company will limit the number of shares reserved for issuance pursuant to options under that plan to a maximum of 7,000,000 or approximately 3% of the issued and outstanding shares of the Company as of March 26, 2003.

Chief Executive Officer's 2002 Compensation

Mr. Paul Wright was appointed to the position of President and Chief Executive Officer on October 1, 1999. The Board of Directors, upon the recommendation of the Compensation Committee determined Mr. Wright's base salary of Cdn\$390,000 for 2002. The Compensation Committee reviewed industry surveys and public information regarding base salaries paid to chief executive officers of public companies in the gold mining industry of comparable size and complexity. The Committee also considered other factors such as Mr. Wright's responsibilities and contribution to business performance and the Company's overall past and anticipated future performance. As the Company's President and Chief Executive Officer, Mr. Wright's responsibilities include setting long-term strategic goals, supervising the Company's mining, development and exploration activities and selecting and managing an executive management group.

The following Report on Executive Compensation is that of the Compensation Committee of the Board of Directors.

Compensation of Directors

In 1998 the Compensation Committee carried out a review of compensation of directors of public companies in Canada. This review covered compensation for attendance at meetings of the board of directors and committees, compensation for chairing of meetings of the board and its committees, allotment of stock options for directors, and reimbursement of all expenses properly and reasonably incurred by any director in the conduct of the Company's business or in the discharge of his duties as a director. Based on the results of that review, the Company adopted a compensation schedule for the directors of the Company effective July 1, 1998. In September 2001 the Company amended the directors compensation package adjusting the annual retainer paid to the outside chairman to \$25,000 and the annual retainer paid to the other member directors to \$5,000. Effective June 1, 2002 the Company re-instated the member retainer to \$10,000.

The outside chairman was awarded an additional 100,000 share options in 2002.

Mandate of the Board of Directors

At the annual meeting of Shareholders, the Shareholders elect directors to the Board to represent the interests of the Shareholders with respect to the management of the Company. The Board is responsible for the stewardship of the Company and the enhancement of shareholder value.

The Board of Directors' mandate is to establish corporate goals and objectives for the Company, to formulate the strategies necessary to achieve such objectives, and to see to it that the Company's senior management implements those objectives. The Board of Directors has established an administrative procedure that prescribes rules governing the approval of transactions carried out in the course of the Company's operations, the delegation of authority and the signing or execution of documents on behalf of the Company. All major acquisitions, dispositions, and investments, as well as financing and significant matters outside the ordinary course of the Company's business are subject to approval by the Board of Directors.

Composition of the Board of Directors

The Board is currently composed of five directors. Seven directors are nominated for election to the Board of Directors for the 2003/2004 term. Applying the criteria established in the TSX Guidelines, six of the nominee Directors are unrelated directors and one, Mr. Wright, the President and Chief Executive Officer of the Company, is a related director.

The members of the Board of Directors have been chosen on the basis of their skill, expertise and experience in the international gold mining industry and other businesses as well as their ability to actively contribute on the broad range of issues with which the Board of Directors must deal.

Board Effectiveness

At its regularly scheduled meetings, the Board reviews on an on-going basis management's significant operational plans, initiatives and activities, as well as systems related to the identification and control of principal business risks. Board members meet as necessary between regularly scheduled meetings to deal with extraordinary matters and attend special strategic discussion sessions. At least one "In Camera" session of the unrelated members of the Board is held during the year. Board meetings are held at the sites of the Company's operations when relevant insight into the business and operations of the Company will be so gained by the Directors. Management provides the Board with a comprehensive package of pertinent materials in advance of each meeting.

Committees of the Board of Directors

The Board of Directors has established and provided mandates for the Board and its committees. These mandates are reviewed on an annual basis.

Audit Committee

The Audit Committee is composed of three outside and unrelated directors. The Committee is responsible for reviewing the annual and quarterly financial statements and attachments with management and the Company's auditors, and for the review of any reports, opinions or significant transactions in connection with the financial statements of the Company. The Committee is responsible for the review and recommendation of the outside auditors of the Company. It is also responsible for ensuring that the Company's management has designed and implemented an effective system of internal financial controls, for reviewing and reporting on the integrity of the consolidated financial statements of the Company, and for ensuring compliance with regulatory and statutory requirements as they relate to financial statements, taxation matters and the disclosure of material facts. The Committee also reviews the appropriateness and effectiveness of the Company's policies and business practices which have an impact on the financial integrity of the Company, including those relating to internal auditing, accounting, information services, systems and financial controls, management reporting and risk management. The Audit Committee met five times in 2002.

Compensation Committee

The Compensation Committee is composed of three outside and unrelated directors. The Committee is responsible for reviewing and making recommendations to the Board of Directors concerning human resources compensation policies and guidelines for the Company. In addition, it is responsible for the annual performance evaluation of the Chief Executive Officer. The Committee is also responsible for the annual review and recommendations to the Board of Directors for the Chief Executive Officer's and senior executives' compensation, and the Chief Executive Officer's and the senior executives' performance objectives for the coming year. The Compensation Committee also reviews periodically the appropriateness and form of the compensation of directors. The Compensation Committee met three times in 2002.

Corporate Governance

For 2002 the Board of Directors had the mandate to develop and oversee the Company's corporate governance policies and practices, to review candidates for election as directors and to recommend nominees for election at the Company's annual general meeting, to propose appointees to the Board Committees, to review the Company's succession plan for the Chief Executive Officer and senior management, to review and report bi-annually to the Board the results of an assessment of the Board's performance, and to review and approve the Terms of Reference for the Board Committees.

Environmental, Health and Safety

For 2002 the Board of Directors held the responsibility for recommending actions for development programs and procedures to ensure that the Company's environmental, health and safety practices were adhered to and achieved, and to propose changes in the Company's practices from time to time as may be warranted to keep pace with environmental, health and safety trends or developments in the mining industry.

Shareholder Communications

The Company maintains a shareholder communications program that is designed to ensure on-going communications with shareholders. Inquiries receive a prompt response, either from the Manager of Investor Relations, President and Chief Executive Officer or from an appropriate officer of the Company. The Board of Directors is kept informed of any material issues of concern to shareholders and provides direction for action as needed.

Compliance with TSX Corporate Governance Guidelines

To enhance disclosure to Shareholders, the Company's corporate governance practices in relation to each of the TSX's 14 guidelines are specifically set out below.

1. *The board of directors of every corporation should explicitly assume responsibility for the stewardship of the corporation and, as part of the overall stewardship, should assume responsibility for the following matters:*

- (a) *adoption of a strategic planning process*

The board of directors annually reviews and approves the strategic plan of the Company, monitors management's success in implementing the strategies set out in the plan, and provides guidance and judgment to changes in the strategic plan.

- (b) *the identification of the principal risks of the corporation's business and ensuring the implementation of appropriate systems to manage these risks;*

The board has identified with management the areas of principal risk of the Company in order to ensure that there are systems in place to effectively monitor and manage business risks, particularly relating to gold and foreign currency fluctuations, environmental, health and safety issues, and insurance coverage.

- (c) *succession planning, including appointing, training and monitoring senior management;*

The Company has strenuously reduced costs and the size of its managerial and administrative staff in response to lower prices for gold experienced over the past several years. Under these circumstances, the Company is constrained in its planning for succession for all senior managers from within its ranks.

- (d) *a communications policy for the corporation;*

The board is mindful of and ensures accurate, timely disclosure and frequent communication with Shareholders and the public, and in 2002 the Company appointed a dedicated Manager of Investor Relations to further this process. The board is kept informed of any material issue of concern to shareholders and provides direction as required.

- (e) *the integrity of the corporation's internal control and management information systems.*

The audit committee acts on behalf of the board in monitoring internal accounting controls and the business conduct of the Company. It regularly reviews matters relating to the financial position of the Company in order to provide reasonable assurances that the Company is in compliance with applicable laws and regulations and is conducting its affairs ethically and that effective controls are maintained. The board of directors is responsible for reviewing and approving corporate environmental, health & safety policies and practices and ensuring that appropriate management systems are in place.

2. *The board of directors of every corporation should be constituted with a majority of individuals who qualify as unrelated directors.*

Currently, there are five directors on the board of directors consisting of the chief executive officer of the Company and four unrelated directors. There are seven individuals nominated for election of the Board for the 2003/2004 term, six of whom are unrelated directors.

3. *The application of the definition of "unrelated director" to the circumstances of each individual director should be the responsibility of the board which will be required to disclose on an annual basis whether the board has a majority of unrelated directors or, in the case of a corporation with a significant shareholder, whether the board is constituted with the appropriate number of directors which are not related to either the corporation or the significant shareholder.*

On an on-going basis, board members ensure that any potential business conflicts are declared and such board members will absent themselves from dealing with any related matters or issues. The board has a majority of unrelated directors.

4. *The board of directors of every corporation should appoint a committee of directors composed exclusively of outside, i.e., non-management, directors, a majority of whom are unrelated directors, with the responsibility for proposing to the full board new nominees to the board and for assessing directors on an on-going basis.*

Nominees to the board are proposed by members of the board of directors. The board assesses directors and the overall performance of the board on a bi-annual basis.

5. *Every board of directors should implement a process to be carried out by the nominating committee or other appropriate committee for assessing the effectiveness of the board as a whole, the committees of the board and the contribution of individual directors.*

The board assesses its own performance and the effectiveness and contributions of its directors. This is accomplished through the mechanism of a confidential questionnaire completed by the members of the board bi-annually. The results of the questionnaire are tabulated and recommendations are made to the board for changes arising out of the responses.

6. *Every corporation, as an integral element of the process for appointing new directors, should provide an orientation and education program for new recruits to the Board.*

The Company ensures the orientation and continuing education of directors by management presentations, relevant site visits to its operations and other means.

7. *Every board of directors should examine its size and, with a view to determining the impact of the number upon effectiveness, undertake where appropriate a program to reduce the number of directors to a number which facilitates more effective decision-making.*

The size of the board is reviewed by the directors as part of the performance review described in 5 above. In the assessment completed in February 2003 it was recommended that the Board should be increased to enhance the knowledge, skills and expertise of the board necessary for effective decision-making in the planned advancement of the Company's business. There are seven director nominees for the 2003/2004 term.

8. *The board of directors should review the adequacy and form of the compensation of directors and ensure the compensation realistically reflects the responsibilities and risk involved in being an effective director.*

The compensation committee periodically reviews the adequacy of directors' compensation, and the composition of the directors' compensation package.

9. *Committees of the board of directors should generally be composed of outside directors, a majority of whom are unrelated directors, although some board committees, such as the executive committee may include one or more inside directors.*

All board committees are composed of outside and unrelated directors.

10. *Every board of directors should expressly assume responsibility for, or assign to a committee of directors the general responsibility for, developing the corporation's approach to governance issues. This committee would, amongst other things, be responsible for the corporation's response to these governance guidelines.*

For 2002 the board of directors was responsible for developing and overseeing the Company's corporate governance practices.

11. *The board of directors, together with the CEO, should develop position descriptions for the board and for the CEO, involving the definition of the limits to management's responsibilities. In addition, the board should approve or develop the corporate objectives which the CEO is responsible for meeting.*

The board has approved position descriptions for its chairman and for the Company's president and chief executive officer, and sets corporate objectives to be reached by the chief executive officer and senior executives and management. The Company has adopted terms of reference for the roles of directors and the board.

12. *Every board of directors should have in place appropriate structures and procedures to ensure that the board can function independently of management. An appropriate structure would be to (i) appoint a chair of the board who is not a member of management with responsibility to ensure the board discharges its responsibilities or (ii) adopt alternate means such as assigning this responsibility to a committee of the board or to a director, sometimes referred to as the "lead director". Appropriate procedures may involve the board meeting on a regular basis without management present or may involve expressly assigning the responsibility for administering the board's relationship to management to a committee of the board.*

The position of chairman of the board of the Company is separate from that of the CEO. The incumbent chairman is not a member of the Company's management.

13. *The audit committee of every board of directors should be composed only of outside directors. The roles and responsibilities of the audit committee should be specifically defined so as to provide appropriate guidance to audit committee members as to their duties. The audit committee should direct communication channels with the internal and external auditors to discuss and review specific issues as appropriate. The audit committee duties should include oversight responsibility for management reporting on internal controls. While it is management's responsibility to design and implement an effective system of internal controls, it is the responsibility of the audit committee to ensure that management has done so.*

The audit committee is composed entirely of outside and unrelated directors. Its duties and responsibilities are set out in its terms of reference, which are reviewed annually by the audit committee and the board. These responsibilities include oversight responsibility for management reporting on internal controls and to ensure that management has developed and implemented an effective system of internal controls. The audit committee has direct communication with the external auditors and regularly meets in-camera with each.

14. *The board of directors should implement a system which enables an individual director to engage an outside adviser at the expense of the corporation in appropriate circumstances. The engagement of the outside advisor should be subject to the approval of an appropriate committee of the board.*

Individual directors of the Company are able to engage an outside advisor at the Company's expense in order to assist an individual director in fulfilling his or her responsibilities. The engagement and payment by the Company for the services of an outside advisor to an individual director or directors is currently subject to approval by senior management.

INTEREST OF CERTAIN PERSONS IN MATTERS TO BE ACTED UPON

Other than as set forth in this Management Proxy Circular, none of the directors or senior officers of the Company, nor any person who has held such a position since the beginning of the last completed financial year of the Company, nor any proposed nominee for election as a director of the Company, nor any of their respective associates or affiliates, has any substantial or material interest, direct or indirect, by way of beneficial ownership of securities or otherwise, in any matter to be acted upon at the Meeting.

APPOINTMENT OF AUDITORS

Unless otherwise specified by the shareholder, the persons named in the accompanying Proxy intend to vote the Common Shares represented by the Proxy for the reappointment of PricewaterhouseCoopers LLP, Chartered Accountants, of Vancouver, British Columbia, Canada as auditors of the Company and to authorize the directors to fix their remuneration. PricewaterhouseCoopers LLP of Vancouver and its predecessors have been the auditors of the Company since 1992.

STOCK OPTION PLAN OFFICERS & DIRECTORS

The Company has reviewed corporate governance rules and guidelines published by securities regulators both in the United States and Canada together with the petitions of institutional and retail shareholders. In consideration of its review the Company considers it advisable to implement a stock option plan that provides for the grant of options to officers and directors of the Company (the "Officers & Directors Plan") separate from the Current Plan.

The Current Plan provides for the grant of stock options to employees, directors, officers, consultants and advisors of the Company and its affiliates. It will be amended to remove the eligibility of directors and officers of the Company for grants of options thereunder. Directors and officers of the Company's affiliates will remain subject to the Current Plan.

The Officers & Directors Plan provides that the Board of Directors may from time to time grant options to acquire all or part of the Common Shares that may be issued under the Officers & Directors Plan to any person who is an officer or director of the Company. The maximum number of outstanding Common Shares that may be issued under the Officers & Directors Plan is 7,000,000 Shares (representing approximately 3% of the issued and outstanding Common Shares as of the date hereof). The total number of Common Shares that may be reserved for issuance to any one director or officer pursuant to options under the Officers & Directors Plan is limited to 1% of the Common Shares outstanding on the date of grant. In addition, the maximum number of Common Shares that may be issued to insiders and their associates under the Officers & Directors Plan within any one year period together with the number of Common Shares issued to such insiders and their associates under the Company's other previously established or proposed share compensation arrangements is limited to 10% of the outstanding Common Shares at the end of the period and in the case of any one insider and his associates is limited to 5% of such outstanding Common Shares.

The exercise price for options to purchase Common Shares granted pursuant to the Directors & Officers Plan will be determined by the Board of Directors on the date of the grant provided that the price may not be less than the closing price of the Common Shares on the trading day immediately preceding the grant date. Options granted under the Officers & Directors Plan expire no later than ten years from the date of the grant. The Board may impose additional terms, including vesting, on the options granted under the Directors & Officers Plan.

The complete text of the Officers & Directors Stock Option Plan is set out in Schedule A hereto. Shareholders are urged to read the Officers & Directors Stock Option Plan in its entirety.

In connection with the amendments to the Current Plan, all outstanding options of directors and officers of the Company granted under the Current Plan will, on the effective date of the amended Current Plan, become subject to the Officers & Directors Plan and will cease to be governed by the Current Plan. As of the date hereof, 4,452,500 options to purchase 4,452,500 Common Shares are outstanding under the Current Plan and a total of 125,358 options remain available under the Current Plan. Under the Current Plan, 10,200,000 Common Shares were reserved for issuance, of which as of the date hereof, an aggregate of 5,622,142 Common Shares have been issued pursuant to the exercise of options. The effective date of the amended Current Plan will be the effective date of the Officers & Directors Plan. Accordingly, on such effective date, based on the number of options outstanding as of the date hereof:

- (a) 1,702,500 options to purchase 1,702,500 Common Shares will be outstanding under the amended Current Plan with a total of 2,875,358 options remaining available for grants under such plan;

-
- (b) 2,750,000 options to purchase 2,750,000 Common Shares will be outstanding under the Officers & Directors Plan with a total of 4,250,000 options remaining available for grants under such plan.

As an enhancement to the Company's corporate governance practices, options granted under the Officers & Directors Plan will be reported annually to the Shareholders and the Shareholders will be provided an opportunity to respond in an advisory capacity to the Company's practice.

Implementation of the Officers & Directors Plan is subject to receipt of all necessary regulatory approval, including approval of the TSX. In order to comply with the stock option plan requirements of the TSX, the Officers & Directors Plan must be approved by an ordinary resolution of the Shareholders.

Shareholders are being asked to consider and vote upon the following resolution to approve the Stock Option Plan for Officers & Directors:

"BE IT RESOLVED THAT:

1. The Stock Option Plan for Officers & Directors, as summarized in, and appended to, the Management Proxy Circular of the Company date March 26, 2003 be and is hereby approved with an effective date of April 30, 2003.
2. The Resolution approving the Officers & Directors Plan will require approval by a majority of votes cast on the matter at the Meeting. Unless otherwise instructed the management nominees named in the form of Proxy accompanying this Management Proxy Circular will vote "FOR" the Resolution to approve the Stock Option Plan for Officers & Directors.

For the purposes of this Subsection 8.3, “change of control” shall mean the acquisition by a person, or combination of persons acting in concert, of a sufficient number of the voting rights attached to the outstanding voting securities of the Company at the time of such acquisition, to affect materially the control of the Company.

-6-

hereof, the Optionee may exercise any Option granted hereunder to the extent such Option was exercisable and had vested on the date of termination no later than thirty (30) days after such termination or such later date within the Option Period first established by the Board for such Option as the Board may fix. In the event an Optionee’s employment or directorship is terminated for cause, each Option held by the Optionee that has not been effectively exercised prior to such termination shall lapse and become null and void immediately upon such termination.

- The Board may also in its sole discretion increase the periods permitted to exercise all or any of the Options covered by any Grant following a termination of employment or directorship as provided in Subsections 8.1, 8.2, 8.3, 8.4 or 8.5 above, if allowable under applicable law; provided, however, that in no event shall any Option be exercisable following the expiration of the Option Period applicable thereto.
- The Plan shall not confer upon any Optionee any right with respect to a continuation of employment or directorship of, the Company nor shall it interfere in any way with the right of the Company to terminate any Optionee’s employment at any time.
- For the purposes of Section 8, termination in the case of officers is determined to be the last day of active employment with the Company or its Affiliate, as the case may be, regardless of any salary continuance or notice period to the Company.

- Exercise of Options

Subject to the provisions of the Plan, an Option may be exercised from time to time by delivery to the Company at its head office of a written notice of exercise addressed to the Secretary of the Company specifying the number of Shares with respect to which the Option is being exercised, together with the appropriate form of payment (to be determined by the Company) for the aggregate of the Option Prices to be paid for the Shares to be purchased. Certificates for such Shares shall be issued and delivered to the Optionee within a reasonable time following the receipt of such notice and payment.

- Adjustment on Alteration of Share Capital

In the event of a subdivision, consolidation or reclassification of outstanding Shares or other capital adjustment, or the payment of a stock dividend thereon, the number of Shares reserved or authorized to be reserved under the Plan, the number of Shares receivable on the exercise of an Option and the Option Price therefor shall be increased or reduced proportionately and such other adjustments shall be made as may be deemed necessary or equitable by the Board.

If the Company amalgamates, consolidates with or merges with or into another body corporate, whether by way of amalgamation, statutory arrangement or otherwise (the right to do so being hereby expressly reserved), any Share receivable on the exercise of an Option shall be converted into the securities, property or cash which the Optionee would have received upon such amalgamation, consolidation or merger if the Optionee had exercised his or her Option immediately prior to the effective date of such amalgamation, consolidation or merger and the

Option Price shall be adjusted appropriately by the Board and such adjustment shall be binding for all purposes of the Plan.

- In the event of a change in the Company's currently authorized Shares which is limited to a change in the designation thereof, the shares resulting from any such change shall be deemed to be Shares within the meaning of the Plan.
- In the event of any other change affecting the Shares, such adjustment, if any, shall be made as may be deemed equitable by the Board to properly reflect such event.
- No adjustment provided in this Section 10 shall require the Company to issue a fractional Share and the total adjustment with respect to each Option shall be limited accordingly.
- If, at any time when an Option granted under the Plan remains unexercised, an offer to purchase all of the Shares of the Company is made by a third party, the Company shall use its best efforts to bring such offer to the attention of the Optionee as soon as practicable and the Company may, at its option, require the acceleration of the time for the exercise of the Options granted under the Plan and of the time for the fulfillment of any conditions or restrictions on such exercise.
- Notwithstanding any other provision herein, if because of a proposed merger, amalgamation or other corporate arrangement or reorganization, the exchange or replacement of shares in the Company of those in another company is imminent, the Board may, in a fair and equitable manner, determine the manner in which all unexercised option rights granted under the Plan shall be treated including, for example, requiring the acceleration of the time for the exercise of such rights by the Optionees and of the time for the fulfillment of any conditions or restrictions on such exercise. All determinations of the Board under this paragraph 10.7 shall be binding for all purposes of the Plan.
 - Regulatory Approval
- Notwithstanding any of the provisions contained in the Plan or any Option, the Company's obligation to grant Options and issue Shares and to issue and deliver certificates for such securities to an Optionee pursuant to the exercise of an Option shall be subject to:
 - compliance with all applicable laws, regulations, rules, orders of governmental or regulatory authorities in Canada and the United States ("Securities Regulators");
 - compliance with the requirements of the Exchange; and
 - receipt from the Optionee of such covenants, agreements, representations and undertakings, including as to future dealings in such Shares, as the Company determines to be necessary or advisable in order to safeguard against the violation of the securities laws of any jurisdiction.

- The Company shall in no event be obligated to take any action in order to cause the issuance and delivery of such certificates to comply with any laws, regulations, rules, orders or requirements.
- If any amendment, modification or termination to the provisions hereof or any Option made pursuant hereto are required by any Securities Regulators, a stock exchange or a market as a condition of approval to a distribution to the public of any Shares or to obtain a listing or quotation of any Shares, the Board is authorized to make such amendments and thereupon the terms of the Plan, any Options, including any option agreement made pursuant hereto, shall be deemed to be amended accordingly without the requiring the consent or agreement of any Optionee.
 - Miscellaneous

- An Optionee entitled to Shares as a result of the exercise of an Option shall not be deemed for any purpose to be, or to have rights as, a shareholder of the Company by such exercise, except to the extent Shares are issued therefor and then only from the date such Shares are issued. No adjustment shall be made for dividends or distributions or other rights which the record date is prior to the date such Shares are issued pursuant to the exercise of Options.
- The Company may require an Optionee, as a condition of exercise of an Option, to pay or reimburse any taxes which are required to be withheld in connection with the exercise of such Option.
- Effective Date, Amendment and Termination
- The Plan is effective as of April 30, 2003.
- The Board may, subject where required to Securities Regulators and/or Exchange approval, from time to time amend, suspend or terminate the Plan in whole or in part.
- No action by the Board to terminate the Plan pursuant to this Section 13 shall affect any Options granted hereunder which became effective pursuant to the Plan prior to such action.
- The Board may amend, modify or terminate any outstanding Option, including, but not limited to, substituting another award of the same or of a different type or changing the date of exercise; provided, however that, the Optionee's consent to such action shall be required unless the Board determines that the action, when taken with any related action, would not materially and adversely affect the Optionee or is made pursuant to Section 11 hereof. The Option Price of any outstanding Option granted to an insider may not be reduced unless disinterested shareholder approval is obtained in accordance with regulatory requirements.
