GLOSSARY OF TERMS AND ABBREVIATIONS

The following terms, abbreviations and acronyms are used to identify frequently used terms in this report:

<u>TERM</u>	<u>DEFINITION</u>
ACNielsen	ACNielsen Corporation – a former affiliate of Old D&B
Adjusted Operating Income	Operating income excluding restructuring and depreciation and amortization
Adjusted Operating Margin	Operating margin excluding restructuring and depreciation and amortization
Americas	Represents countries within North and South America, excluding the U.S.
Analytics	Moody’s Analytics – a reportable segment of MCO formed in January 2008, which includes the non-rating commercial activities of MCO
AOCI	Accumulated other comprehensive income (loss); a separate component of shareholders’ equity (deficit)
ASC	The FASB Accounting Standards Codification; the sole source of authoritative GAAP as of July 1, 2009 except for rules and interpretive releases of the SEC, which are also sources of authoritative GAAP for SEC registrants
Asia-Pacific	Represents countries in Asia also including but not limited to: Australia and its proximate islands, China, India, Indonesia, Japan, Korea, Malaysia, Singapore and Thailand
ASU	The FASB Accounting Standards Update to the ASC. It also provides background information for accounting guidance and the bases for conclusions on the changes in the ASC. ASUs are not considered authoritative until codified into the ASC
B&H	Barrie & Hibbert Limited, an acquisition completed in December 2011; part of the MA segment, a leading provider of risk management modeling tools for insurance companies worldwide
Basel II	Capital adequacy framework published in June 2004 by the Basel Committee on Banking Supervision
Basel III	A new global regulatory standard on bank capital adequacy and liquidity agreed by the members of the Basel Committee on Banking Supervision. Basel III was developed in a response to the deficiencies in financial regulation revealed by the global financial crisis. Basel III strengthens bank capital requirements and introduces new regulatory requirements on bank liquidity and bank leverage.
Board	The board of directors of the Company
Bps	Basis points
Canary Wharf Lease	Operating lease agreement entered into on February 6, 2008 for office space in London, England, occupied by the Company in the second half of 2009
CDOs	Collateralized debt obligation
CFG	Corporate finance group; an LOB of MIS
CLO	Collateralized loan obligation
CMBS	Commercial mortgage-backed securities; part of CREF
Cognizant	Cognizant Corporation – a former affiliate of Old D&B; comprised the IMS Health and NMR businesses
Commission	European Commission
Company	Moody’s Corporation and its subsidiaries; MCO; Moody’s

Table of Contents

<u>TERM</u>	<u>DEFINITION</u>
Copal	Copal Partners; an acquisition completed in November 2011; part of the MA segment; leading provider of outsourced research and analytical services to institutional investors
CP	Commercial paper
CP Program	The Company's commercial paper program entered into on October 3, 2007
CRAs	Credit rating agencies
CRA1	Regulation (EC) No 1060/2009 of the European Parliament and of the Council, establishing an oversight regime for the CRA industry in the EU
CRA2	Regulation (EU) No 513/2011 of the European Parliament and of the Council, which transferred direct supervisory responsibility for the registered CRA industry in the EU to ESMA
CRA3	Regulation (EU) No 462/2013 of the European Parliament and of the Council, which updated the regulatory regimes imposing additional procedural requirements on CRAs
CREF	Commercial real estate finance which includes REITs, commercial real estate CDOs and mortgage-backed securities; part of SFG
CSI	CSI Global Education, Inc.; an acquisition completed in November 2010; part of the MA segment; a provider of financial learning, credentials, and certification in Canada
D&B Business	Old D&B's Dun & Bradstreet operating company
DBPP	Defined benefit pension plans
Debt/EBITDA	Ratio of Total Debt to EBITDA
EBITDA	Earnings before interest, taxes, depreciation and amortization
ECB	European Central Bank
EMEA	Represents countries within Europe, the Middle East and Africa
EPS	Earnings per share
ERS	The enterprise risk solutions LOB within MA (formerly RMS); which offers risk management software products as well as software implementation services and related risk management advisory engagements
ESMA	European Securities and Markets Authority
ESPP	The 1999 Moody's Corporation Employee Stock Purchase Plan
ETR	Effective tax rate
EU	European Union

MOODY'S CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)
 (tabular dollar and share amounts in millions, except per share data)

NOTE 1. DESCRIPTION OF BUSINESS AND BASIS OF PRESENTATION

Moody's is a provider of (i) credit ratings, (ii) credit, capital markets and economic research, data and analytical tools, (iii) software solutions and related risk management services, (iv) quantitative credit risk measures, financial services training and certification services and (v) outsourced research and analytical services to institutional customers. Moody's has two reportable segments: MIS and MA.

MIS, the credit rating agency, publishes credit ratings on a wide range of debt obligations and the entities that issue such obligations in markets worldwide. Revenue is derived from the originators and issuers of such transactions who use MIS ratings in the distribution of their debt issues to investors.

The MA segment, which includes all of the Company's non-rating commercial activities, develops a wide range of products and services that support financial analysis and risk management activities of institutional participants in global financial markets. Within its Research, Data and Analytics business, MA distributes research and data developed by MIS as part of its ratings process, including in-depth research on major debt issuers, industry studies and commentary on topical credit-related events. The RD&A business also produces economic research as well as data and analytical tools such as quantitative credit risk scores. It also provides fixed income pricing in the Asia-Pacific region. Within its Enterprise Risk Solutions business, MA provides software solutions as well as related risk management services. The Professional Services business provides outsourced research and analytical services along with financial training and certification programs.

These interim financial statements have been prepared in accordance with the instructions to Form 10-Q and should be read in conjunction with the Company's consolidated financial statements and related notes in the Company's 2012 annual report on Form 10-K filed with the SEC on February 26, 2013. The results of interim periods are not necessarily indicative of results for the full year or any subsequent period. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation of financial position, results of operations and cash flows at the dates and for the periods presented have been included. The year-end consolidated balance sheet data was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America. Certain prior year amounts have been reclassified to conform to the current year presentation.

NOTE 2. STOCK-BASED COMPENSATION

Presented below is a summary of the stock-based compensation cost and associated tax benefit included in the accompanying consolidated statements of operations:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2013	2012	2013	2012
Stock-based compensation cost	\$ 16.1	\$ 14.9	\$ 33.3	\$ 29.9
Tax benefit	\$ 5.8	\$ 5.4	\$ 12.0	\$ 10.8

During the first six months of 2013, the Company granted 0.5 million employee stock options, which had a weighted average grant date fair value of \$17.58 per share based on the Black-Scholes option-pricing model. The Company also granted 1.3 million shares of restricted stock in the first six months of 2013, which had a weighted average

Table of Contents

grant date fair value of \$46.51 per share and generally vest ratably over a four-year period. Additionally, the Company granted approximately 0.3 million shares of performance-based awards whereby the number of shares that ultimately vest are based on the achievement of certain non-market based performance metrics of the Company over a three-year period. The weighted average grant date fair value of these awards was \$44.07 per share.

The following weighted average assumptions were used in determining the fair value for options granted in 2013:

Expected dividend yield	1.72%
Expected stock volatility	42.6%
Risk-free interest rate	1.53%
Expected holding period	7.2 years
Grant date fair value	\$ 17.58

Unrecognized compensation expense at June 30, 2013 was \$14.6 million and \$94.8 million for stock options and unvested restricted stock, respectively, which is expected to be recognized over a weighted average period of 1.4 years and 1.8 years, respectively. Additionally, there was \$18.8 million of unrecognized compensation expense relating to the aforementioned non-market based performance-based awards, which is expected to be recognized over a weighted average period of one year.

The following tables summarize information relating to stock option exercises and restricted stock vesting:

	Six Months Ended June 30,	
	2013	2012
Stock option exercises:		
Proceeds from stock option exercises	\$ 89.2	\$ 46.7
Aggregate intrinsic value	\$ 66.7	\$ 26.6
Tax benefit realized upon exercise	\$ 24.4	\$ 10.1
Number of shares exercised	2.7	1.9
	Six Months Ended June 30,	
	2013	2012
Restricted stock vesting:		
Fair value of shares vested	\$ 53.8	\$ 37.5
Tax benefit realized upon vesting	\$ 19.1	\$ 13.2
Number of shares vested	1.1	1.0
	Six Months Ended June 30,	
	2013	2012
Performance-based awards vesting:		
Fair value of shares vested	\$ 25.5	\$ —
Tax benefit realized upon vesting	\$ 9.7	\$ —
Number of shares vested	0.5	—

Table of Contents

NOTE 3. INCOME TAXES

Moody's effective tax rate was 32.2% and 33.6% for the three months ended June 30, 2013 and 2012, respectively and 30.5% and 32.9% for the six months ended June 30, 2013 and 2012, respectively. The decrease in the effective tax rate in both periods is primarily due to U.S. tax legislation enacted in the first quarter of 2013 which retroactively extended certain favorable tax benefits to the 2012 tax year and prospectively extended these tax benefits to the 2013 tax year. Additionally, there were lower taxes on foreign income. The decrease in the ETR for the six months ended June 30, 2013 also reflects the tax effect of the litigation settlement in the first quarter of 2013.

The Company classifies interest related to UTPs in interest expense, net in its consolidated statements of operations. Penalties, if incurred, would be recognized in other non-operating (expense) income, net. The Company had an overall increase in its UTPs of \$17.4 million (\$14.7 million net of federal tax benefit) during the second quarter of 2013 and an overall increase in its UTPs during the first six months of 2013 of \$28.0 million (\$23.0 million net of federal tax benefits).

Moody's Corporation and subsidiaries are subject to U.S. federal income tax as well as income tax in various state, local and foreign jurisdictions. The Company's U.S. federal income tax returns for the years 2008 through 2010 are under examination and its 2011 return remains open to examination. The Company's New York State and New York City income tax returns for 2011 remain open to examination. Income tax filings in the U.K. for 2007 through 2010 are under examination and 2011 remains open to examination.

For ongoing audits, it is possible the balance of UTBs could decrease in the next 12 months as a result of the settlement of these audits, which might involve the payment of additional taxes, the adjustment of certain deferred taxes and/or the recognition of tax benefits. It is also possible that new issues might be raised by tax authorities which could necessitate increases to the balance of UTBs. As the Company is unable to predict the timing or outcome of these audits, it is unable to estimate the amount of changes to the balance of UTBs at this time. However, the Company believes that it has adequately provided for its financial exposure relating to all open tax years by tax jurisdiction in accordance with the applicable provisions of Topic 740 of the ASC regarding UTBs.

The following table shows the amount the Company paid for income taxes:

	Six Months Ended June 30,	
	2013	2012
Income Taxes Paid*	\$ 231.6	\$ 235.0

* Includes approximately \$92 million in payments for tax audit settlements in the first quarter of 2012.

Table of Contents

NOTE 4. WEIGHTED AVERAGE SHARES OUTSTANDING

Below is a reconciliation of basic to diluted shares outstanding:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2013	2012	2013	2012
Basic	<u>222.3</u>	<u>223.9</u>	<u>222.8</u>	<u>223.7</u>
Dilutive effect of shares issuable under stock-based compensation plans	<u>3.9</u>	<u>3.3</u>	<u>3.9</u>	<u>3.6</u>
Diluted	<u>226.2</u>	<u>227.2</u>	<u>226.7</u>	<u>227.3</u>
Anti-dilutive options to purchase common shares and restricted stock as well as contingently issuable restricted stock which are excluded from the table above	<u>4.4</u>	<u>7.2</u>	<u>4.7</u>	<u>7.1</u>

The calculation of diluted EPS requires certain assumptions regarding the use of both cash proceeds and assumed proceeds that would be received upon the exercise of stock options and vesting of restricted stock outstanding as of June 30, 2013 and 2012. These assumed proceeds include Excess Tax Benefits and any unrecognized compensation of the awards.

NOTE 5. SHORT-TERM INVESTMENTS

Short-term investments are securities with maturities greater than 90 days at the time of purchase that are available for operations in the next twelve months. The short-term investments, primarily consisting of certificates of deposit, are classified as held-to-maturity and therefore are carried at cost. The remaining contractual maturities of the short-term investments were one month to 12 months and one month to 11 months as of June 30, 2013 and December 31, 2012, respectively. Interest and dividends are recorded into income when earned.

NOTE 6. DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES

The Company is exposed to global market risks, including risks from changes in FX rates and changes in interest rates. Accordingly, the Company uses derivatives in certain instances to manage the aforementioned financial exposures that occur in the normal course of business. The Company does not hold or issue derivatives for speculative purposes.

Interest Rate Swaps

In the fourth quarter of 2010, the Company entered into interest rate swaps with a total notional amount of \$300 million to convert the fixed interest rate on the Series 2005-1 Notes to a floating interest rate based on the 3-month LIBOR. The purpose of this hedge was to mitigate the risk associated with changes in the fair value of the Series 2005-1 Notes, thus the Company has designated these swaps as fair value hedges. The fair value of the swaps is adjusted quarterly with a corresponding adjustment to the carrying value of the Series 2005-1 Notes. The changes in the fair value of the hedges and the underlying hedged item generally offset and the net cash settlements on the swaps are recorded each period within interest income (expense), net, in the Company's consolidated statement of operations.

In May 2008, the Company entered into interest rate swaps with a total notional amount of \$150 million to protect against fluctuations in the LIBOR-based variable interest rate on the 2008 Term Loan, further described in Note 12. These interest rate swaps were designated as cash flow hedges. Accordingly, changes in the fair value of these swaps were recorded to other comprehensive income or loss, to the extent that the hedge is effective, and such amounts were reclassified to earnings in the same period during which the hedged transaction affects income. At June 30, 2013, the 2008 Term Loan has been repaid in full in accordance with the payment terms set forth in Note 12. Accordingly, all amounts in accumulated other comprehensive income have been reclassified to interest income (expense), net in the Company's consolidated statements of operations.

Table of Contents

Foreign Exchange Forwards

The Company also enters into foreign exchange forwards to mitigate the change in fair value on certain assets and liabilities denominated in currencies other than the subsidiary's functional currency. These forward contracts are not designated as hedging instruments under the applicable sections of Topic 815 of the ASC. Accordingly, changes in the fair value of these contracts are recognized immediately in other non-operating (expense) income, net in the Company's consolidated statements of operations along with the FX gain or loss recognized on the assets and liabilities denominated in a currency other than the subsidiary's functional currency. These contracts have expiration dates at various times through September 2013.

The following table summarizes the notional amounts of the Company's outstanding foreign exchange forwards:

	June 30, 2013	December 31, 2012
Notional amount of currency pair:		
Contracts to purchase USD with euros	\$ 25.7	\$ 34.3
Contracts to sell USD for euros	\$ 49.6	\$ 48.4
Contracts to purchase USD with GBP	\$ 3.5	\$ 2.1
Contracts to sell USD for GBP	\$ 0.1	\$ 1.7
Contracts to purchase USD with other foreign currencies	\$ 7.0	\$ 6.7
Contracts to sell USD for other foreign currencies	\$ 11.4	\$ 5.1
Contracts to purchase euros with other foreign currencies	€ 14.2	€ 14.4
Contracts to purchase euros with GBP	€ 2.0	€ —
Contracts to sell euros for GBP	€ 18.3	€ 8.9

Net Investment Hedges

The Company enters into foreign currency forward contracts to hedge the exposure related to non-U.S. dollar net investments in certain foreign subsidiaries against adverse changes in foreign exchange rates. These forward contracts are designated as hedging instruments under the applicable sections of Topic 815 of the ASC. Hedge effectiveness is assessed based on the overall changes in the fair value of the forward contracts on a pre-tax basis. For hedges that meet the effectiveness requirements, any change in the fair value for the hedge is recorded in the currency translation adjustment component of AOCI. Any change in the fair value of these hedges that is the result of ineffectiveness would be recognized immediately in other non-operating (expense) income in the Company's consolidated statement of operations. These outstanding contracts expire in September 2013.

The following table summarizes the notional amounts of the Company's outstanding foreign exchange forward contracts that are designated as net investment hedges:

	June 30, 2013	December 31, 2012
Notional amount of currency pair:		
Contracts to sell euros for USD	€ 50.0	€ 50.0

Table of Contents

The table below shows the classification between assets and liabilities on the Company's consolidated balance sheets for the fair value of the derivative instruments:

Derivatives Instruments	Balance Sheet Location	Fair Value of Derivative Instruments	
		June 30, 2013	December 31, 2012
Assets:			
<i>Derivatives designated as accounting hedges:</i>			
Interest rate swaps	Other assets	\$ 11.2	\$ 13.8
Total derivatives designated as accounting hedges		11.2	13.8
<i>Derivatives not designated as accounting hedges:</i>			
FX forwards on certain assets and liabilities	Other current assets	1.2	1.4
Total assets		\$ 12.4	\$ 15.2
Liabilities:			
<i>Derivatives designated as accounting hedges:</i>			
Interest rate swaps	Accounts payable and accrued liabilities	\$ —	\$ 0.7
FX forwards on net investment in certain foreign subsidiaries	Accounts payable and accrued liabilities	—	1.0
Total derivatives designated as accounting hedges		—	1.7
<i>Derivatives not designated as accounting hedges:</i>			
FX forwards on certain assets and liabilities	Accounts payable and accrued liabilities	0.5	0.7
Total liabilities		\$ 0.5	\$ 2.4

The following table summarizes the net gain (loss) on the Company's foreign exchange forwards which are not designated as accounting hedges as well as the gain (loss) on the interest rate swaps designated as fair value hedges:

Derivatives designated as accounting hedges	Location on Income Statement	Amount of Gain (Loss) Recognized in the consolidated statements of operations			
		Three Months Ended June 30,		Six Months Ended June 30,	
		2013	2012	2013	2012
Interest rate swaps	Interest income(expense), net	\$ 1.0	\$ 0.9	\$ 2.1	\$ 1.7
<i>Derivatives not designated as accounting hedges</i>					
Foreign exchange forwards	Other non-operating income (expense), net	\$ 1.0	\$ (1.4)	\$ (0.1)	\$ (0.4)

Table of Contents

The following table provides information on gains/(losses) on the Company's cash flow hedges:

Derivatives in Cash Flow Hedging Relationships	Amount of Gain/(Loss) Recognized in AOCI on Derivative (Effective Portion)		Location of Gain/(Loss) Reclassified from AOCI into Income (Effective Portion)	Amount of Gain/(Loss) Reclassified from AOCI into Income (Effective Portion)		Location of Gain/(Loss) Recognized in Income on Derivative (Ineffective Portion and Amount Excluded from Effectiveness Testing)	Gain/(Loss) Recognized in Income on Derivative (Ineffective Portion and Amount Excluded from Effectiveness Testing)	
	Three Months Ended June 30,			Three Months Ended June 30,			Three Months Ended June 30,	
	2013	2012		2013	2012		2013	2012
Interest rate swaps	\$ —	\$ —	Interest income (expense), net	\$ (0.1)	\$ (0.7)	N/A	\$ —	\$ —
Total	\$ —	\$ —		\$ (0.1)	\$ (0.7)		\$ —	\$ —
	Six Months Ended June 30,			Six Months Ended June 30,			Six Months Ended June 30,	
	2013	2012		2013	2012		2013	2012
Interest rate swaps	\$ —	\$ (0.1)	Interest income (expense), net	\$ (0.5)	\$ (1.3)	N/A	\$ —	\$ —
Total	\$ —	\$ (0.1)		\$ (0.5)	\$ (1.3)		\$ —	\$ —

All gains and losses (net of income taxes) on interest rate swaps designated as cash flow hedges are initially recognized through AOCI. Realized gains and losses reported in AOCI are reclassified into interest income (expense), net as the underlying transaction is recognized.

The following table provides information on gains/(losses) on the Company's net investment hedges:

Derivatives in Net Investment Hedging Relationships	Amount of Gain/(Loss) Recognized in AOCI on Derivative (Effective Portion)		Location of Gain/(Loss) Reclassified from AOCI into Income (Effective Portion)	Amount of Gain/(Loss) Reclassified from AOCI into Income (Effective Portion)		Location of Gain/(Loss) Recognized in Income on Derivative (Ineffective Portion and Amount Excluded from Effectiveness Testing)	Gain/(Loss) Recognized in Income on Derivative (Ineffective Portion and Amount Excluded from Effectiveness Testing)	
	Three Months Ended June 30,			Three Months Ended June 30,			Three Months Ended June 30,	
	2013	2012		2013	2012		2013	2012
FX forwards	\$ (0.3)	\$ (1.5)	N/A	\$ —	\$ —	N/A	\$ —	\$ —
Total	\$ (0.3)	\$ (1.5)		\$ —	\$ —		\$ —	\$ —
	Six Months Ended June 30,			Six Months Ended June 30,			Six Months Ended June 30,	
	2013	2012		2013	2012		2013	2012
FX forwards	\$ 0.5	\$ (1.5)	N/A	\$ —	\$ —	N/A	\$ —	\$ —
Total	\$ 0.5	\$ (1.5)		\$ —	\$ —		\$ —	\$ —

All gains and losses (net of income taxes) on derivatives designated as net investment hedges are recognized in the currency translation adjustment component of AOCI.

Table of Contents

The cumulative amount of hedge losses recorded in AOCI is as follows:

	Losses, net of tax	
	June 30,	December 31,
	2013	2012
FX forwards on net investment hedges	\$ (1.7)	\$ (2.2)
Interest rate swaps	(0.2)	(0.7)
Total	<u>\$ (1.9)</u>	<u>\$ (2.9)</u>

NOTE 7. GOODWILL AND OTHER ACQUIRED INTANGIBLE ASSETS

The following table summarizes the activity in goodwill for the periods indicated:

	Six Months Ended June 30, 2013								
	MIS			MA			Consolidated		
	Accumulated			Accumulated			Accumulated		
	Gross goodwill	impairment charge	Net goodwill	Gross goodwill	impairment charge	Net goodwill	Gross goodwill	impairment charge	Net goodwill
Balance at beginning of year	\$ 11.5	\$ —	\$ 11.5	\$637.8	\$ (12.2)	\$625.6	\$649.3	\$ (12.2)	\$637.1
Additions/adjustments	—	—	—	—	—	—	—	—	—
Foreign currency translation adjustments	(0.6)	—	(0.6)	(16.7)	—	(16.7)	(17.3)	—	(17.3)
Ending balance	<u>\$ 10.9</u>	<u>\$ —</u>	<u>\$ 10.9</u>	<u>\$621.1</u>	<u>\$ (12.2)</u>	<u>\$608.9</u>	<u>\$632.0</u>	<u>\$ (12.2)</u>	<u>\$619.8</u>
	Year Ended December 31, 2012								
	MIS			MA			Consolidated		
	Accumulated			Accumulated			Accumulated		
	Gross goodwill	impairment charge	Net goodwill	Gross goodwill	impairment charge	Net goodwill	Gross goodwill	impairment charge	Net goodwill
Balance at beginning of year	\$ 11.0	\$ —	\$ 11.0	\$631.9	\$ —	\$631.9	\$642.9	\$ —	\$642.9
Additions/adjustments	—	—	—	(4.4)	—	(4.4)	(4.4)	—	(4.4)
Impairment charge	—	—	—	—	(12.2)	(12.2)	—	(12.2)	(12.2)
Foreign currency translation adjustments	0.5	—	0.5	10.3	—	10.3	10.8	—	10.8
Ending balance	<u>\$ 11.5</u>	<u>\$ —</u>	<u>\$ 11.5</u>	<u>\$637.8</u>	<u>\$ (12.2)</u>	<u>\$625.6</u>	<u>\$649.3</u>	<u>\$ (12.2)</u>	<u>\$637.1</u>

The 2012 additions/adjustments for the MA segment in the table above relate to the acquisitions of Copal and B&H in the fourth quarter of 2011.

The 2012 impairment charge in the table above relates to goodwill in the FSTC reporting unit within MA. The Company evaluates its goodwill for potential impairment annually on July 31 or more frequently if impairment indicators arise throughout the year. Projected operating results for the FSTC reporting unit at December 31, 2012 were lower than projections utilized for the annual impairment analysis performed at July 31, 2012 reflecting a contraction in spending for training and certification services for many individuals and global financial institutions amidst macroeconomic uncertainties. Based on this trend and overall macroeconomic uncertainties at the time, the Company lowered its cash

Table of Contents

flow forecasts for this reporting unit in the fourth quarter of 2012. Accordingly, the Company performed another goodwill impairment assessment as of December 31, 2012 which resulted in an impairment charge of \$12.2 million. The fair value of the FSTC reporting unit utilized in the impairment assessment was estimated using a discounted cash flow methodology and comparable public company and precedent transaction multiples. There were no impairments to goodwill in the three and six months ended June 30, 2013 and 2012. However, a failure of the FSTC reporting unit to meet its financial projections could result in further goodwill impairment.

Acquired intangible assets and related amortization consisted of:

	June 30,	December 31,
	2013	2012
Customer relationships	\$210.3	\$ 219.6
Accumulated amortization	(79.5)	(74.0)
Net customer relationships	130.8	145.6
Trade secrets	31.1	31.4
Accumulated amortization	(17.2)	(16.0)
Net trade secrets	13.9	15.4
Software	67.6	73.2
Accumulated amortization	(33.4)	(33.7)
Net software	34.2	39.5
Trade names	27.7	28.3
Accumulated amortization	(10.8)	(10.3)
Net trade names	16.9	18.0
Other	24.2	24.9
Accumulated amortization	(18.0)	(16.9)
Net other	6.2	8.0
Total acquired intangible assets, net	<u>\$202.0</u>	<u>\$ 226.5</u>

Other intangible assets primarily consist of databases and covenants not to compete.

Amortization expense relating to acquired intangible assets is as follows:

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2013	2012	2013	2012
Amortization expense	\$ 6.9	\$ 7.1	\$ 14.0	\$ 14.4

Table of Contents

Estimated future amortization expense for acquired intangible assets subject to amortization is as follows:

<u>Year Ending December 31,</u>	
2013 (after June 30,)	\$ 16.8
2014	28.9
2015	24.1
2016	17.8
2017	13.1
Thereafter	101.3

Amortizable intangible assets are reviewed for recoverability whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. If the estimated undiscounted future cash flows are lower than the carrying amount of the related asset, a loss is recognized for the difference between the carrying amount and the estimated fair value of the asset. There were no impairments to intangible assets during the three and six months ended June 30, 2013 and 2012.

Table of Contents

NOTE 8. FAIR VALUE

The table below presents information about items, which are carried at fair value on a recurring basis at June 30, 2013 and December 31, 2012:

Description	Fair Value Measurement as of June 30, 2013			
	Balance	Level 1	Level 2	Level 3
Assets:				
Derivatives ^(a)	\$ 12.4	\$ —	\$ 12.4	\$ —
Total	<u>\$ 12.4</u>	<u>\$ —</u>	<u>\$ 12.4</u>	<u>\$ —</u>
Liabilities:				
Derivatives ^(a)	\$ 0.5	\$ —	\$ 0.5	\$ —
Contingent consideration arising from acquisitions ^(b)	10.5	—	—	10.5
Total	<u>\$ 11.0</u>	<u>\$ —</u>	<u>\$ 0.5</u>	<u>\$ 10.5</u>

Description	Fair Value Measurement as of December 31, 2012			
	Balance	Level 1	Level 2	Level 3
Assets:				
Derivatives ^(a)	\$ 15.2	\$ —	\$ 15.2	\$ —
Total	<u>\$ 15.2</u>	<u>\$ —</u>	<u>\$ 15.2</u>	<u>\$ —</u>
Liabilities:				
Derivatives ^(a)	\$ 2.4	\$ —	\$ 2.4	\$ —
Contingent consideration arising from acquisitions ^(b)	9.0	—	—	9.0
Total	<u>\$ 11.4</u>	<u>\$ —</u>	<u>\$ 2.4</u>	<u>\$ 9.0</u>

^(a) Represents interest rate swaps and FX forwards on certain assets and liabilities as well as on certain non-U.S. dollar net investments in certain foreign subsidiaries as more fully described in Note 6 to the financial statements

^(b) Represents contingent consideration liabilities pursuant to the agreements for certain MA acquisitions.

Table of Contents

The following table summarizes the changes in the fair value of the Company's Level 3 liabilities:

	Contingent Consideration	
	Six Months Ended June 30,	
	2013	2012
Balance as of January 1	\$ 9.0	\$ 9.1
Settlements	(2.5)	(0.5)
Total losses (realized and unrealized):		
Included in earnings	4.1	(2.5)
Foreign currency translation adjustments	(0.1)	0.3
Balance as of June 30	<u>\$ 10.5</u>	<u>\$ 6.4</u>

The losses included in earnings in the table above are recorded within operating expenses in the Company's consolidated statements of operations. These losses relate to contingent consideration obligations outstanding at June 30, 2013.

The \$10.5 million of contingent consideration obligations as of June 30, 2013 is classified in other liabilities within the Company's consolidated balance sheet.

The following are descriptions of the methodologies utilized by the Company to estimate the fair value of its derivative contracts and contingent consideration obligations:

Derivatives:

In determining the fair value of the derivative contracts in the table above, the Company utilizes industry standard valuation models. Where applicable, these models project future cash flows and discount the future amounts to a present value using spot rates, forward points, currency volatilities, interest rates as well as the risk of non-performance of the Company and the counterparties with whom it has derivative contracts. The Company established strict counterparty credit guidelines and only enters into transactions with financial institutions that adhere to these guidelines. Accordingly, the risk of counterparty default is deemed to be minimal.

Contingent consideration:

At June 30, 2013, the Company has contingent consideration obligations related to the acquisitions of CSI and Copal which are based on certain financial and non-financial metrics set forth in the acquisition agreements. These obligations are measured using Level 3 inputs as defined in the ASC. The Company recorded the obligations for these contingent consideration arrangements on the date of each respective acquisition based on management's best estimates of the achievement of the metrics and the value of the obligations are adjusted quarterly.

The contingent consideration obligation for CSI is based on the achievement of a certain contractual milestone by January 2016. The Company utilizes a discounted cash flow methodology to value this obligation. The future expected cash flow for this obligation is discounted using an interest rate available to borrowers with similar credit risk profiles to that of the Company. The most significant unobservable input involved in the measurement of this obligation is the probability that the milestone will be reached by January 2016. At June 30, 2013, the Company expects that this milestone will be reached by the aforementioned date.

There are several contingent consideration obligations relating to the acquisition of Copal. A portion of the contingent cash payments are based on revenue and EBITDA growth for certain of the Copal entities. This growth is calculated by comparing revenue and EBITDA in the year immediately prior to the exercise of the put/call option to acquire the remaining 33% ownership interest of Copal Partners Limited which the Company does not currently own, to revenue and EBITDA in Copal's fiscal year ended March 31, 2011. There are no limitations set forth in the acquisition

Table of Contents

agreement relating to the amount payable under this contingent consideration arrangement. Payments under this arrangement, if any, would be made upon the exercise of the aforementioned put/call option. Other contingent cash payments are based on the achievement of revenue targets for Copal's fiscal year ended March 31, 2012 and 2013, with certain limits on the amount of revenue that can be applied to the calculation of these contingent payments. Each of these contingent payments had a maximum payout of \$2.5 million and have been settled as of June 30, 2013. The Company utilizes discounted cash flow methodologies to value these obligations. The expected future cash flows for these obligations are discounted using a risk-free interest rate plus a credit spread based on the option adjusted spread of the Company's publicly traded debt as of the valuation date. The most significant unobservable input involved in the measurement of these obligations is the projected future financial results of the applicable Copal entities. Also, for the portion of the obligations which are dependent upon the exercise of the call/put option, the Company has utilized a Monte Carlo simulation model to estimate when the option will be exercised, thus triggering the payment of contingent consideration.

A significant increase or decrease in any of the aforementioned significant unobservable inputs related to the fair value measurement of the Company's contingent consideration obligations would result in a significantly higher or lower reported fair value for these obligations.

NOTE 9. OTHER BALANCE SHEET AND STATEMENT OF OPERATIONS INFORMATION

The following tables contain additional detail related to certain balance sheet captions:

	June 30,	December 31,
	<u>2013</u>	<u>2012</u>
Other current assets:		
Prepaid taxes	\$ 94.0	\$ 31.8

Redeemable Noncontrolling Interest:

In connection with the acquisition of Copal, the Company and the non-controlling shareholders entered into a put/call option agreement whereby the Company has the option to purchase from the non-controlling shareholders and the non-controlling shareholders have the option to sell to the Company the remaining 33% ownership interest of Copal Partners Limited based on a strike price to be calculated on pre-determined formulas using a combination of revenue and EBITDA multiples when exercised. The value of the estimated put/call option strike price on the date of acquisition was based on a Monte Carlo simulation model. This model contemplated multiple scenarios which simulated certain of Copal's revenue, EBITDA margins and equity values to estimate the present value of the expected strike price of the option. The option is subject to a minimum exercise price of \$46 million. There is no limit as to the maximum amount of the strike price on the put/call option.

Table of Contents

The following table shows changes in the redeemable noncontrolling interest related to the acquisition of Copal:

(in millions)	Six Months Ended		Year Ended
	June 30, 2013		December 31,
	Redeemable Noncontrolling Interest		
Balance January 1,	\$	72.3	\$ 60.5
Adjustment due to right of offset for UTPs*		—	6.8

NOTE 11. PENSION AND OTHER RETIREMENT BENEFITS

Moody's maintains funded and unfunded noncontributory Defined Benefit Pension Plans. The U.S. DBPPs provide defined benefits using a cash balance formula based on years of service and career average salary for its employees or final average pay for selected executives. The Company also provides certain healthcare and life insurance benefits for retired U.S. employees. The retirement healthcare plans are contributory; the life insurance plans are noncontributory. Moody's funded and unfunded U.S. pension plans, the U.S. retirement healthcare plans and the U.S. retirement life insurance plans are collectively referred to herein as the "Retirement Plans". The funded and unfunded U.S. pension plans are referred to herein as "Pension Plans". The U.S. retirement healthcare plans and the U.S. retirement life insurance plans are collectively referred to herein as the "Other Retirement Plans".

Effective January 1, 2008, the Company no longer offers DBPPs to U.S. employees hired or rehired on or after January 1, 2008. New U.S. employees will instead receive a retirement contribution of similar benefit value under the Company's Profit Participation Plan. Current participants of the Company's DBPPs continue to accrue benefits based on existing plan formulas.

Table of Contents

The components of net periodic benefit expense related to the Retirement Plans are as follows:

	Three Months Ended June 30,			
	Pension Plans		Other Retirement Plans	
	2013	2012	2013	2012
Components of net periodic expense				
Service cost	\$ 4.7	\$ 5.0	\$ 0.4	\$ 0.4
Interest cost	3.3	3.3	0.2	0.2
Expected return on plan assets	(3.1)	(3.1)	—	—

Total long-term debt	<u>\$1,605.0</u>	<u>\$ 1,607.4</u>

2012 Facility

On April 18, 2012, the Company and certain of its subsidiaries entered into a \$1 billion five-year senior, unsecured revolving credit facility in an aggregate principal amount of \$1 billion that expires in April 2017. The 2012 Facility replaced the \$1 billion 2007 Facility that was scheduled to expire in September 2012. The proceeds from the 2012 Facility will be used for general corporate purposes, including, without limitation, support for the Company's \$1 billion commercial paper program, share repurchases and acquisition financings. Interest on borrowings under the facility is payable at rates that are based on LIBOR plus a premium that can range from 77.5 basis points to 120 basis points per annum of the outstanding amount, depending on the Company's Debt/EBITDA ratio. The Company also pays quarterly facility fees, regardless of borrowing activity under the 2012 Facility. These quarterly fees can range from 10 basis points of the facility amount to 17.5 basis points, depending on the Company's Debt/ EBITDA Ratio.

The 2012 Facility contains covenants that, among other things, restrict the ability of the Company and its subsidiaries, without the approval of the lenders, to engage in mergers, consolidations, asset sales, transactions with affiliates and sale-leaseback transactions or to incur liens, as set forth in the facility agreement. The 2012 Facility also contains a financial covenant that requires the Company to maintain a Debt to EBITDA Ratio of not more than 4 to 1 at the end of any fiscal quarter. Upon the occurrence of certain financial or economic events, significant corporate events or certain other events constituting an event of default under the 2012 Facility, all loans outstanding under the facility (including accrued interest and fees payable thereunder) may be declared immediately due and payable and all commitments under the facility may be terminated.

Commercial Paper

On October 3, 2007, the Company entered into a private placement commercial paper program under which the Company may issue CP notes up to a maximum amount of \$1.0 billion. Amounts available under the CP Program may be re-borrowed. The CP Program is supported by the Company's 2012 Facility. The maturities of the CP Notes will vary, but may not exceed 397 days from the date of issue. The CP Notes are sold at a discount from par or, alternatively, sold at par and bear interest at rates that will vary based upon market conditions at the time of issuance. The rates of interest will

Table of Contents

depend on whether the CP Notes will be a fixed or floating rate. The interest on a floating rate may be based on the following: (a) certificate of deposit rate; (b) commercial paper rate; (c) federal funds rate; (d) LIBOR; (e) prime rate; (f) Treasury rate; or (g) such other base rate as may be specified in a supplement to the private placement agreement. The CP Program contains certain events of default including, among other things: non-payment of principal, interest or fees; entrance into any form of moratorium; and bankruptcy and insolvency events, subject in certain instances to cure periods.

Notes Payable

On September 30, 2005, the Company issued and sold through a private placement transaction, \$300.0 million aggregate principal amount of its Series 2005-1 Senior Unsecured Notes due 2015 pursuant to the 2005 Agreement. The Series 2005-1 Notes have a ten-year term and bear interest at an annual rate of 4.98%, payable semi-annually on March 30 and September 30. Proceeds from the sale of the Series 2005-1 Notes were used to refinance \$300.0 million aggregate principal amount of the Company's outstanding 7.61% senior notes which matured on September 30, 2005. In the event that Moody's pays all, or part, of the Series 2005-1 Notes in advance of their maturity, such prepayment will be subject to a Make Whole Amount. The Series 2005-1 Notes are subject to certain covenants that, among other things, restrict the ability of the Company and certain of its subsidiaries, without the approval of the lenders, to engage in mergers, consolidations, asset sales, transactions with affiliates and sale-leaseback transactions or to incur liens, as defined in the related agreements.

On September 7, 2007, the Company issued and sold through a private placement transaction, \$300.0 million aggregate principal amount of its 6.06% Series 2007-1 Senior Unsecured Notes due 2017 pursuant to the 2007 Agreement. The Series 2007-1 Notes have a ten-year term and bear interest at an annual rate of 6.06%, payable semi-annually on March 7 and September 7. Under the terms of the 2007 Agreement, the Company may, from time to time within five years, in its sole discretion, issue additional series of senior notes in an aggregate principal amount of up to \$500.0 million pursuant to one or more supplements to the 2007 Agreement. The Company may prepay the Series 2007-1 Notes, in whole or in part, at any time at a price equal to 100% of the principal amount being prepaid, plus accrued and unpaid interest and a Make Whole Amount. The 2007 Agreement contains covenants that limit the ability of the Company, and certain of its subsidiaries to, among other things: enter into transactions with affiliates, dispose of assets, incur or create liens, enter into any sale-leaseback transactions, or merge with any other corporation or convey, transfer or lease substantially all of its assets. The Company must also not permit its Debt/EBITDA ratio to exceed 4.0 to 1.0 at the end of any fiscal quarter.

On August 19, 2010, the Company issued \$500 million aggregate principal amount of unsecured notes in a public offering. The 2010 Senior Notes bear interest at a fixed rate of 5.50% and mature on September 1, 2020. Interest on the 2010 Senior Notes will be due semi-annually on September 1 and March 1 of each year, commencing March 1, 2011. The Company may prepay the 2010 Senior Notes, in whole or in part, at any time at a price equal to 100% of the principal amount being prepaid, plus accrued and unpaid interest and a Make-Whole Amount. Additionally, at the option of the holders of the notes, the Company may be required to purchase all or a portion of the notes upon occurrence of a "Change of Control Triggering Event," as defined in the 2010 Indenture, at a price equal to 101% of the principal amount thereof, plus accrued and unpaid interest to the date of purchase. The 2010 Indenture contains covenants that limit the ability of the Company and certain of its subsidiaries to, among other things, incur or create liens and enter into sale and leaseback transactions. In addition, the Indenture contains a covenant that limits the ability of the Company to consolidate or merge with another entity or to sell all or substantially all of its assets to another entity. The 2010 Indenture contains customary default provisions. In addition, an event of default will occur if the Company or certain of its subsidiaries fail to pay the principal of any indebtedness (as defined in the 2010 Indenture) when due at maturity in an aggregate amount of \$50 million or more, or a default occurs that results in the acceleration of the maturity of the Company's or certain of its subsidiaries' indebtedness in an aggregate amount of \$50 million or more. Upon the occurrence and during the continuation of an event of default under the 2010 Indenture, the notes may become immediately due and payable either automatically or by the vote of the holders of more than 25% of the aggregate principal amount of all of the notes then outstanding.

Table of Contents

On November 4, 2011, in connection with the acquisition of Copal, a subsidiary of the Company issued a \$14.2 million non-interest bearing note to the sellers which represented a portion of the consideration transferred to acquire the Copal entities. If a seller subsequently transfers to the Company all of its shares, the Company must repay the seller its proportion of the principal on the later of (i) the fourth anniversary date of the note or (ii) within a time frame set forth in the acquisition agreement relating to the resolution of certain income tax uncertainties pertaining to the transaction. Otherwise, the Company must repay any amount outstanding on the earlier of (i) two business days subsequent to the exercise of the put/call option to acquire the remaining shares of Copal or (ii) the tenth anniversary date of the issuance of the note. The Company has the right to offset payment of the note against certain indemnification assets associated with UTPs related to the acquisition. Accordingly, the Company has offset the liability for this note against the indemnification asset, thus no balance for this note is carried on the Company's consolidated balance sheet at June 30, 2013 and December 31, 2012. In the event that the Company would not be required to settle amounts related to the UTPs, the Company would be required to pay the sellers the principal in accordance with the note agreement. The Company may prepay the note in accordance with certain terms set forth in the acquisition agreement.

On August 20, 2012, the Company issued \$500 million aggregate principal amount of unsecured notes in a public offering. The 2012 Senior Notes bear interest at a fixed rate of 4.50% and mature on September 1, 2022. Interest on the 2012 Senior Notes will be due semi-annually on September 1 and March 1 of each year, commencing March 1, 2013. The Company may prepay the 2012 Senior Notes, in whole or in part, at any time at a price equal to 100% of the principal amount being prepaid, plus accrued and unpaid interest and a Make-Whole Amount. Additionally, at the option of the holders of the notes, the Company may be required to purchase all or a portion of the notes upon occurrence of a "Change of Control Triggering Event," as defined in the 2012 Indenture, at a price equal to 101% of the principal amount thereof, plus accrued and unpaid interest to the date of purchase. The 2012 Indenture contains covenants that limit the ability of the Company and certain of its subsidiaries to, among other things, incur or create liens and enter into sale and leaseback transactions. In addition, the 2012 Indenture contains a covenant that limits the ability of the Company to consolidate or merge with another entity or to sell all or substantially all of its assets to another entity. The 2012 Indenture contains customary default provisions. In addition, an event of default will occur if the Company or certain of its subsidiaries fail to pay the principal of any indebtedness (as defined in the 2012 Indenture) when due at maturity in an aggregate amount of \$50 million or more, or a default occurs that results in the acceleration of the maturity of the Company's or certain of its subsidiaries' indebtedness in an aggregate amount of \$50 million or more. Upon the occurrence and during the continuation of an event of default under the Indenture, the 2012 Senior notes may become immediately due and payable either automatically or by the vote of the holders of more than 25% of the aggregate principal amount of all of the notes then outstanding.

2008 Term Loan

On May 7, 2008, Moody's entered into a five-year, \$150.0 million senior unsecured term loan with several lenders due at various times through May 7, 2013. Proceeds from the loan were used to pay off a portion of the CP outstanding. Interest on borrowings under the 2008 Term Loan was payable quarterly at rates that were based on LIBOR plus a margin that can range from 125 basis points to 175 basis points depending on the Company's Debt/EBITDA ratio.

The 2008 Term Loan contained restrictive covenants that, among other things, restricted the ability of the Company to engage or to permit its subsidiaries to engage in mergers, consolidations, asset sales, transactions with affiliates and sale-leaseback transactions or to incur, or permit its subsidiaries to incur, liens, in each case, subject to certain exceptions and limitations. The 2008 Term Loan also limited the amount of debt that subsidiaries of the Company may incur. In addition, the 2008 Term Loan contained a financial covenant that requires the Company to maintain a Debt/EBITDA ratio of not more than 4.0 to 1.0 at the end of any fiscal quarter. The 2008 Term Loan was repaid in full at June 30, 2013.

Table of Contents

The principal payments due on the Company's long-term borrowings for each of the next five years are presented in the table below:

Year Ended December 31,	Series 2005-1 Notes	Series 2007-1 Notes	2010 Senior Notes	2012 Senior Notes	Total
2013 (after June 30,)	\$ —	\$ —	\$ —	\$ —	\$ —
2014	—	—	—	—	—
2015	300.0	—	—	—	300.0
2016	—	—	—	—	—
2017	—	300.0	—	—	300.0
Thereafter	—	—	500.0	500.0	1,000.0
Total	\$ 300.0	\$ 300.0	\$ 500.0	\$ 500.0	\$1,600.0

In the fourth quarter of 2010, the Company entered into interest rate swaps with a total notional amount of \$300 million which converted the fixed rate of interest on the Series 2005-1 Notes to a floating LIBOR-based interest rate. Also, on May 7, 2008, the Company entered into interest rate swaps with a total notional amount of \$150 million to protect against fluctuations in the LIBOR-based variable interest rate on the 2008 Term Loan. Both of these interest rate swaps are more fully discussed in Note 6 above.

At June 30, 2013, the Company was in compliance with all covenants contained within all of the debt agreements. In addition to the covenants described above, the 2012 Facility, the 2007 Facility, the 2005 Agreement, the 2007 Agreement, the 2012 Senior Notes, the 2010 Senior Notes and the 2008 Term Loan contain cross default provisions. These provisions state that default under one of the aforementioned debt instruments could in turn permit lenders under other debt instruments to declare borrowings outstanding under those instruments to be immediately due and payable. As of June 30, 2013, there were no such cross defaults.

Interest expense, net

The following table summarizes the components of interest as presented in the consolidated statements of operations:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2013	2012	2013	2012
Income	\$ 1.2	\$ 1.2	\$ 2.4	\$ 2.5
Expense on borrowings	(20.5)	(16.4)	(41.5)	(32.8)
(Expense) income on UTPs and other tax related liabilities (a)	(2.4)	(1.5)	(4.6)	3.5
Capitalized	—	0.1	—	(0.1)
Total	\$ (21.7)	\$ (16.6)	\$ (43.7)	\$ (26.9)

- (a) The amount in the six months ended June 30, 2012 contains a benefit of approximately \$7 million related to the settlement of state and local income tax audits.

Table of Contents

The following table shows the cash paid for interest:

	Six Months Ended June 30,	
	2013	2012
Interest paid*	\$ 41.4	\$ 32.0

* Interest paid includes payments of interest relating to the settlement of income tax audits in the first quarter of 2012 as well as net settlements on interest rate swaps more fully discussed in Note 6.

The Company's long-term debt, including the current portion, is recorded at cost except for the Series 2005-1 Notes which are carried at cost adjusted for the fair value of an interest rate swap used to hedge the fair value of the note. The fair value and carrying value of the Company's long-term debt as of June 30, 2013 and December 31, 2012 are as follows:

	June 30, 2013		December 31, 2012	
	Carrying Amount	Estimated Fair Value	Carrying Amount	Estimated Fair Value
Series 2005-1 Notes*	\$ 311.0	\$ 322.4	\$ 313.8	\$ 326.1
Series 2007-1 Notes	300.0	335.6	300.0	348.3
2010 Senior Notes	497.6	535.7	497.4	562.8
2012 Senior Notes	496.4	501.2	496.2	528.8
2008 Term Loan	—	—	63.8	63.8
Total	<u>\$1,605.0</u>	<u>\$ 1,694.9</u>	<u>\$1,671.2</u>	<u>\$ 1,829.8</u>

* The carrying amount includes an \$11.0 million and \$13.8 million fair value adjustment on an interest rate hedge at June 30, 2013 and December 31, 2012, respectively.

The fair value of the Company's long-term debt is estimated using discounted cash flows with inputs based on prevailing interest rates available to the Company for borrowings with similar maturities.

NOTE 13. CONTINGENCIES

From time to time, Moody's is involved in legal and tax proceedings, governmental investigations and inquiries, claims and litigation that are incidental to the Company's business, including claims based on ratings assigned by MIS. Moody's is also subject to ongoing tax audits in the normal course of business. Management periodically assesses the Company's liabilities and contingencies in connection with these matters based upon the latest information available. Moody's discloses material pending legal proceedings pursuant to SEC rules and other pending matters as it may determine to be appropriate.

Following events in the global credit markets over the last several years, including in the U.S. subprime residential mortgage sector, MIS and other credit rating agencies are the subject of intense scrutiny, increased regulation, ongoing inquiry and governmental investigations, and civil litigation. Legislative, regulatory and enforcement entities around the world are considering additional legislation, regulation and enforcement actions, including with respect to MIS's compliance with newly imposed regulatory standards. Moody's has received subpoenas and inquiries from states attorneys general and other domestic and foreign governmental authorities and is responding to such investigations and inquiries.

Table of Contents

In addition, the Company is facing litigation from market participants relating to the performance of MIS rated securities. Although Moody's in the normal course experiences such litigation, the volume and cost of defending such litigation has significantly increased following the events in the U.S. subprime residential mortgage sector and global credit markets more broadly over the last several years.

Two purported class action complaints have been filed by purported purchasers of the Company's securities against the Company and certain of its senior officers, asserting claims under the federal securities laws. The first was filed by Raphael Nach in the U.S. District Court for the Northern District of Illinois on July 19, 2007. The second was filed by Teamsters Local 282 Pension Trust Fund in the United States District Court for the Southern District of New York on September 26, 2007. Both actions have been consolidated into a single proceeding entitled *In re Moody's Corporation Securities Litigation* in the U.S. District Court for the Southern District of New York. On June 27, 2008, a consolidated amended complaint was filed, purportedly on behalf of all purchasers of the Company's securities during the period February 3, 2006 through October 24, 2007. Plaintiffs allege that the defendants issued false and/or misleading statements concerning the Company's business conduct, business prospects, business conditions and financial results relating primarily to MIS's ratings of structured finance products including RMBS, CDO and constant-proportion debt obligations. The plaintiffs seek an unspecified amount of compensatory damages and their reasonable costs and expenses incurred in connection with the case. The Company moved for dismissal of the consolidated amended complaint in September 2008. On February 23, 2009, the court issued an opinion dismissing certain claims and sustaining others. On January 22, 2010, plaintiffs moved to certify a class of individuals who purchased Moody's Corporation common stock between February 3, 2006 and October 24, 2007, which the Company opposed. On March 31, 2011, the court issued an opinion denying plaintiffs' motion to certify the proposed class. On April 14, 2011, plaintiffs filed a petition in the United States Court of Appeals for the Second Circuit seeking discretionary permission to appeal the decision. The Company filed its response to the petition on April 25, 2011. On July 20, 2011, the Second Circuit issued an order denying plaintiffs' petition for leave to appeal. On September 14, 2012, the Company filed a motion for summary judgment, which was fully briefed on December 21, 2012. Oral arguments on the motion for summary judgment took place on April 9, 2013.

On August 25, 2008, Abu Dhabi Commercial Bank filed a purported class action in the United States District Court for the Southern District of New York asserting numerous common-law causes of action against two subsidiaries of the Company, another rating agency, and Morgan Stanley & Co. The action related to securities issued by a structured investment vehicle called Cheyne Finance (the "Cheyne SIV") and sought, among other things, compensatory and punitive damages. The central allegation against the rating agency defendants was that the credit ratings assigned to the securities issued by the Cheyne SIV were false and misleading. In early proceedings, the court dismissed all claims against the rating agency defendants except those for fraud and aiding and abetting fraud. In June 2010, the court denied plaintiff's motion for class certification, and additional plaintiffs were subsequently added to the complaint. In January 2012, the rating agency defendants moved for summary judgment with respect to the fraud and aiding and abetting fraud claims. Also in January 2012, in light of new New York state case law, the court permitted the plaintiffs to file an amended complaint that reasserted previously dismissed claims against all defendants for breach of fiduciary duty, negligence, negligent misrepresentation, and related aiding and abetting claims. In May 2012, the court, ruling on the rating agency defendants' motion to dismiss, dismissed all of the reasserted claims except for the negligent misrepresentation claim, and on September 19, 2012, after further proceedings, the court also dismissed the negligent misrepresentation claim. On August 17, 2012, the court ruled on the rating agencies' motion for summary judgment on the plaintiffs' remaining claims for fraud and aiding and abetting fraud. The court dismissed, in whole or in part, the fraud claims of four plaintiffs as against Moody's but allowed the fraud claims to proceed with respect to certain claims of one of those plaintiffs and the claims of the remaining 11 plaintiffs. The court also dismissed all claims against Moody's for aiding and abetting fraud. Three of the plaintiffs whose claims were dismissed filed motions for reconsideration, and on November 7, 2012, the court granted two of these motions, reinstating the claims of two plaintiffs that were previously dismissed. On February 1, 2013, the court dismissed the claims of one additional plaintiff on jurisdictional grounds. Trial on the remaining fraud claims against the rating agencies, and on claims against Morgan Stanley for aiding and abetting

Table of Contents

fraud and for negligent misrepresentation, was scheduled for May 2013. On April 24, 2013, pursuant to confidential settlement agreements, the 14 plaintiffs with claims that had been ordered to trial stipulated to the voluntary dismissal, with prejudice, of these claims as against all defendants, and the Court so ordered that stipulation on April 26, 2013. The settlement did not cover certain claims of two plaintiffs that were previously dismissed by the Court. On May 23, 2013, these two plaintiffs filed a Notice of Appeal to the Second Circuit, seeking reversal of the dismissal of their claims and also seeking reversal of the Court's denial of class certification. According to pleadings filed by plaintiffs in earlier proceedings, they seek approximately \$76 million in total compensatory damages in connection with the two claims at issue on the appeal .

In October 2009, plaintiffs King County, Washington and Iowa Student Loan Liquidity Corporation each filed substantially identical putative class actions in the Southern District of New York against two subsidiaries of the Company and several other defendants, including two other rating agencies and IKB Deutsche Industriebank AG. These actions arose out of investments in securities issued by a structured investment vehicle called Rhinebridge Plc (the "Rhinebridge SIV") and sought, among other things, compensatory and punitive damages. Each complaint asserted a claim for common law fraud against the rating agency defendants, alleging, among other things, that the credit ratings assigned to the securities issued by the Rhinebridge SIV were false and misleading. The case was assigned to the same judge presiding over the litigation concerning the Cheyne SIV, described above. In April 2010, the court denied the rating agency defendants' motion to dismiss. In June 2010, the court consolidated the two cases and the plaintiffs filed an amended complaint that, among other things, added Morgan Stanley & Co. as a defendant. In January 2012, in light of new New York state case law, the court permitted the plaintiffs to file an amended complaint that asserted claims against the rating agency defendants for breach of fiduciary duty, negligence, negligent misrepresentation, and aiding and abetting claims. In May 2012, the court, ruling on the rating agency defendants' motion to dismiss, dismissed all of the new claims except for the negligent misrepresentation claim and a claim for aiding and abetting fraud; on September 28, 2012, after further proceedings, the court also dismissed the negligent misrepresentation claim. Plaintiffs did not seek class certification. On September 7, 2012 the rating agencies filed a motion for summary judgment dismissing the remaining claims against them. On January 3, 2013, the Court issued an order dismissing the claim for aiding and abetting fraud against the rating agencies but allowing the claim for fraud to proceed to trial. In June 2012 and March 2013, respectively, defendants IKB Deutsche Industriebank AG (and a related entity) and Fitch, Inc. informed the court that they had executed confidential settlement agreements with the plaintiffs. On April 24, 2013, pursuant to a confidential settlement agreement, the plaintiffs stipulated to the voluntary dismissal, with prejudice, of all remaining claims as against the remaining defendants, including Moody's, and the Court so ordered that stipulation on April 26, 2013.

For claims, litigation and proceedings and governmental investigations and inquires not related to income taxes, where it is both probable that a liability is expected to be incurred and the amount of loss can be reasonably estimated, the Company records liabilities in the consolidated financial statements and periodically adjusts these as appropriate. When the reasonable estimate of the loss is within a range of amounts, the minimum amount of the range is accrued unless some higher amount within the range is a better estimate than another amount within the range. In other instances, because of uncertainties related to the probable outcome and/or the amount or range of loss, management does not record a liability but discloses the contingency if significant. As additional information becomes available, the Company adjusts its assessments and estimates of such matters accordingly. In view of the inherent difficulty of predicting the outcome of litigation, regulatory, governmental investigations and inquiries, enforcement and similar matters and contingencies, particularly where the claimants seek large or indeterminate damages or where the parties assert novel legal theories or the matters involve a large number of parties, the Company cannot predict what the eventual outcome of the pending matters will be or the timing of any resolution of such matters. The Company also cannot predict the impact (if any) that any such matters may have on how its business is conducted, on its competitive position or on its financial position, results of operations or cash flows. As the process to resolve any pending matters progresses, management will continue to review the latest information available and assess its ability to predict the outcome of such matters and the effects, if any, on its operations and financial condition. However, in light of the large or indeterminate damages sought in some of them, the absence of similar court rulings on the theories of law asserted and uncertainties regarding apportionment of any potential damages, an estimate of the range of possible losses cannot be made at this time.

Table of Contents

Legacy Tax Matters

Moody's continues to have exposure to potential liabilities arising from Legacy Tax Matters. As of June 30, 2013, Moody's has recorded liabilities for Legacy Tax Matters totaling \$39.8 million. This includes liabilities and accrued interest due to New D&B arising from the 2000 Distribution Agreement. It is possible that the ultimate liability for Legacy Tax Matters could be greater than the liabilities recorded by the Company, which could result in additional charges that may be material to Moody's future reported results, financial position and cash flows.

The following summary of the relationships among Moody's, New D&B and their predecessor entities is important in understanding the Company's exposure to the Legacy Tax Matters.

In November 1996, The Dun & Bradstreet Corporation separated into three separate public companies: The Dun & Bradstreet Corporation, ACNielsen Corporation and Cognizant Corporation. In June 1998, The Dun & Bradstreet Corporation separated into two separate public companies: Old D&B and R.H. Donnelley Corporation. During 1998, Cognizant separated into two separate public companies: IMS Health Incorporated and Nielsen Media Research, Inc. In September 2000, Old D&B separated into two separate public companies: New D&B and Moody's.

Old D&B and its predecessors entered into global tax planning initiatives in the normal course of business. These initiatives are subject to normal review by tax authorities. Old D&B and its predecessors also entered into a series of agreements covering the sharing of any liabilities for payment of taxes, penalties and interest resulting from unfavorable IRS determinations on certain tax matters, and certain other potential tax liabilities, all as described in such agreements. Further, in connection with the 2000 Distribution and pursuant to the terms of the 2000 Distribution Agreement, New D&B and Moody's have agreed on the financial responsibility for any potential liabilities related to these Legacy Tax Matters.

At the time of the 2000 Distribution, New D&B paid Moody's \$55.0 million for 50% of certain anticipated future tax benefits through 2012. In the event that these tax benefits are not claimed or otherwise not realized by New D&B, or there is an IRS audit of New D&B impacting these tax benefits, Moody's would be required to repay to New D&B an amount equal to the discounted value of its share of the related future tax benefits as well as its share of any tax liability incurred by New D&B. In June 2011, the statute of limitations for New D&B relating to the 2004 tax year expired. As a result, in the second quarter of 2011, Moody's recorded a reduction of accrued interest expense of \$2.8 million (\$1.7 million, net of tax) and an increase in other non-operating income of \$6.4 million, relating to amounts due to New D&B. In August 2012, New D&B effectively settled examinations for the 2005 and 2006 tax years. As a result, in the third quarter of 2012, Moody's recorded a reduction of accrued interest expense of \$4.4 million (\$2.6 million, net of tax) and an increase in other non-operating income of \$12.8 million, relating to amounts due to New D&B. As of June 30, 2013, Moody's liability with respect to this matter totaled \$37.7 million. Furthermore, the Company continues to carry a \$2.1 million liability for an unrelated Legacy Tax Matter.

Table of Contents

NOTE 14. SEGMENT INFORMATION

The Company is organized into two reportable segments: (i) MIS and (ii) MA. The MIS segment is comprised of all of the Company's ratings activities. All of Moody's other non-rating commercial activities are included in the MA segment.

The MIS segment consists of four lines of business—corporate finance, structured finance, financial institutions and public, project and infrastructure finance—that generate revenue principally from fees for the assignment and ongoing monitoring of credit ratings on debt obligations and the entities that issue such obligations in markets worldwide.

The MA segment, which includes all of the Company's non-rating commercial activities, develops a wide range of products and services that support the risk management activities of institutional participants in global financial markets. The MA segment consists of three lines of business – RD&A, ERS and PS.

Revenue for MIS and expenses for MA include an intersegment royalty charged to MA for the rights to use and distribute content, data and products developed by MIS. Also, revenue for MA and expenses for MIS include an intersegment fee charged to MIS from MA for certain MA products and services utilized in MIS's ratings process. These fees charged by MA are generally equal to the costs incurred by MA to produce these products and services. Additionally, overhead costs and corporate expenses of the Company which exclusively benefit only one segment, are fully charged to that segment. Overhead costs and corporate expenses of the Company which benefit both segments are allocated to each segment based on a revenue-split methodology. Overhead expenses include costs such as rent and occupancy, information technology and support staff such as finance, human resources and information technology. Beginning on January 1, 2013, the Company refined its methodology for allocating certain overhead departments to its segments to better align the costs allocated based on each segment's usage of the overhead service. The refined methodology is reflected in the segment results for the three and six months ended June 30, 2013 and accordingly, the segment results for the three and six months ended June 30, 2012 have been reclassified to conform to the new presentation. "Eliminations" in the table below represent intersegment revenue/expense.

- (a) Represents common assets that are shared between each segment or utilized by the corporate entity. Such assets primarily include cash and cash equivalents, short-term investments, unallocated property and equipment and deferred taxes.

NOTE 15. RECENTLY ISSUED ACCOUNTING STANDARDS

In February 2013, the FASB issued ASU No. 2013-02, "Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income". The objective of this ASU is to improve reporting by requiring entities to report the effect of significant reclassifications out of accumulated other comprehensive income on the respective line items in the statement of operations. The amendments in this ASU are required to be applied prospectively and are effective for reporting periods beginning after December 15, 2012. The Company has fully adopted all provisions of this ASU as of January 1, 2013 and the implementation did not have any impact on the Company's consolidated financial statements other than to provide additional footnote disclosure which is included in Note 10.

NOTE 16. SUBSEQUENT EVENTS

On July 15, 2013, the Board approved the declaration of a quarterly dividend of \$0.25 per share of Moody's common stock, payable on September 10, 2013 to shareholders of record at the close of business on August 20, 2013.

Table of Contents

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This discussion and analysis of financial condition and results of operations should be read in conjunction with the Moody's Corporation condensed consolidated financial statements and notes thereto included elsewhere in this quarterly report on Form 10-Q.

This Management's Discussion and Analysis of Financial Condition and Results of Operations contains Forward-Looking Statements. See "Forward-Looking Statements" commencing on page 70 for a discussion of uncertainties, risks and other factors associated with these statements.

The Company

Moody's is a provider of (i) credit ratings, (ii) credit and economic related research, data and analytical tools, (iii) software solutions and related risk management services, (iv) quantitative credit risk measures, financial services training and certification services and (v) outsourced research and analytical services to institutional customers. Moody's has two reportable segments: MIS and MA.

MIS, the credit rating agency, publishes credit ratings on a wide range of debt obligations and the entities that issue such obligations in markets worldwide. Revenue is derived from the originators and issuers of such transactions who use MIS ratings in the distribution of their debt issues to investors.

The MA segment, which includes all of the Company's non-rating commercial activities, develops a wide range of products and services that primarily support financial analysis and risk management activities of institutional participants in global financial markets. Within its RD&A business, MA distributes research and data developed by MIS as part of its ratings process, including in-depth research on major debt issuers, industry studies and commentary on topical credit-related events. It also provides fixed income pricing services in the Asia-Pacific region. The RD&A business also produces economic research as well as data and analytical tools such as quantitative credit risk scores. Within its ERS business, MA provides software solutions as well as related risk management services. The PS business provides outsourced research and analytical services and financial training and certification programs.

Critical Accounting Estimates

Moody's discussion and analysis of its financial condition and results of operations are based on the Company's condensed consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires Moody's to make estimates and judgments that affect reported amounts of assets and liabilities and related disclosures of contingent assets and liabilities at the dates of the financial statements and revenue and expenses during the reporting periods. These estimates are based on historical experience and on other assumptions that are believed to be reasonable under the circumstances. On an ongoing basis, Moody's evaluates its estimates, including those related to revenue recognition, accounts receivable allowances, contingencies, restructuring, goodwill and acquired intangible assets, pension and other retirement benefits, stock-based compensation, and income taxes. Actual results may differ from these estimates under different assumptions or conditions. Item 7, MD&A, in the Company's annual report on Form 10-K for the year ended December 31, 2012, includes descriptions of some of the judgments that Moody's makes in applying its accounting estimates in these areas. Since the date of the annual report on Form 10-K, there have been no material changes to the Company's critical accounting estimates.

Table of Contents

Operating Segments

The MIS segment consists of four lines of business—corporate finance, structured finance, financial institutions and public, project and infrastructure finance—that generate revenue principally from fees for the assignment and ongoing monitoring of credit ratings on debt obligations and the entities that issue such obligations in markets worldwide.

The MA segment, which includes all of the Company's non-rating commercial activities, develops a wide range of products and services that support financial analysis and risk management activities of institutional participants in global financial markets. The MA segment consists of three lines of business – RD&A, ERS and PS.

The following is a discussion of the results of operations of these segments, including the intersegment royalty revenue for MIS and expense charged to MA for the rights to use and distribute content, data and products developed by MIS. The discussion also includes intersegment fees charged to MIS from MA for the use of certain MA products and services in MIS's ratings process. These fees charged by MA are generally equal to the costs incurred by MA to provide these products and services. Overhead charges and corporate expenses which exclusively benefit one segment are fully charged to that segment. Additionally, overhead costs and corporate expenses of the Company which benefit both segments are generally allocated to each segment based on a revenue-split methodology. Overhead expenses include costs such as rent and occupancy, information technology and support staff such as finance, human resources and information technology.

Beginning on January 1, 2013, the Company refined its methodology for allocating certain overhead departments to its segments to better align the costs allocated based on each segment's usage of the overhead service. The refined methodology is reflected in the segment results for the three and six months ended June 30, 2013 and accordingly, the segment results for the prior year comparative periods have been reclassified to conform to the new presentation. These reclassifications were not material.

Table of Contents

RESULTS OF OPERATIONS

Three months ended June 30, 2013 compared with three months ended June 30, 2012

Executive Summary

Moody's revenue in the second quarter of 2013 totaled \$756.0 million, an increase of \$115.2 million compared to 2012 and reflected growth across all LOBs in both reportable segments. Total expenses were \$405.2 million, an increase of \$42.9 million compared to the prior year primarily due to higher compensation costs relating to headcount growth and annual compensation increases. Additionally, there were higher non-compensation expenses which reflected an increase in IT costs and legal expenses for ongoing matters. Operating income of \$350.8 million increased \$72.3 million compared to 2012 and resulted in an operating margin of 46.4% in 2013 compared to 43.5% in the prior year period. Adjusted Operating Income of \$373.9 million in the second quarter of 2013 increased \$73.3 million compared to 2012 resulting in an Adjusted Operating Margin of 49.5% compared to 46.9% in the prior year period. Diluted EPS of \$1.00 in the second quarter of 2013 increased \$0.24 over the prior year period.

Table of Contents

The table below shows Moody's global staffing by geographic area:

	June 30,		% Change
	2013	2012	
United States	2,686	2,531	6%
International	4,284	3,955	8%
Total	6,970	6,486	7%

Global revenue of \$756.0 million in the second quarter of 2013 increased \$115.2 million compared to 2012 reflecting growth in both reportable segments. The most notable growth in the ratings segment was from CFG where there were strong rated issuance volumes for high-yield corporate debt and bank loans as well as investment-grade corporate debt. The growth in MA reflects higher revenue across all LOBs, most notably in RD&A and ERS. Transaction revenue accounted for 52% and 47% of global MCO revenue in the second quarter of 2013 and 2012, respectively.

U.S. revenue of \$408.4 million increased \$62.3 million over 2012, reflecting growth across all ratings LOBs, most notably in CFG and SFG, coupled with growth in all LOBs within MA. Also contributing to the growth were changes in the mix of fee type, new fee initiatives and certain pricing increases in the MIS segment.

Non-U.S. revenue increased \$52.9 million compared to 2012, primarily reflecting higher CFG revenue in all international regions partially offset by declines in most asset classes in SFG in the EMEA region. Also contributing to the revenue growth were increases in the RD&A and ERS LOBs within MA in the EMEA region coupled with revenue growth across all MA LOBs in the Asia Pacific region.

Operating expenses were \$197.1 million in the second quarter of 2013, an increase of \$16.5 million from 2012 and reflected an increase in both compensation and non-compensation costs. The increase in compensation costs of approximately \$12 million reflects higher salaries and related employee benefits reflecting headcount growth as well as the impact of annual compensation increases coupled with higher incentive compensation. The increase in incentive compensation reflected greater projected achievement against full-year targeted results through the second quarter of 2013 compared to the same period in 2012 as well as increases in headcount. The increase in non-compensation costs of approximately \$4 million is primarily due to higher IT costs for ongoing initiatives.

SG&A expenses of \$185.0 million in the second quarter of 2013 increased \$25.4 million from 2012 primarily related to growth in both compensation and non-compensation costs of approximately \$15 million and \$10 million, respectively. The growth in compensation costs reflects higher salaries and related employee benefits due to annual compensation increases and headcount growth in sales personnel within MA as well as in overhead support areas. The growth also reflects higher incentive compensation primarily resulting from greater projected achievement against full-year targeted results through the second quarter of 2013 compared to the same period in 2012 as well as increases in headcount. The increase in non-compensation expenses is primarily due to higher costs for ongoing IT initiatives as well as higher legal fees for ongoing matters.

Operating income of \$350.8 million increased \$72.3 million from 2012. Adjusted Operating Income was \$373.9 million in the second quarter of 2013 and increased \$73.3 million compared to 2012. Operating margin and Adjusted Operating Margin in the second quarter of 2013 of 46.4% and 49.5%, respectively, increased 290bps and 260bps, respectively, compared to the prior year, reflecting strong revenue growth exceeding expense growth.

Table of Contents

Interest income (expense), net in the second quarter of 2013 was (\$21.7) million, a \$5.1 million increase in expense compared to 2012. This increase is primarily due to higher interest on borrowings reflecting the issuance of the 2012 Senior Notes in the third quarter of 2012.

Other non-operating income (expense), net was \$7.7 million in the second quarter of 2013, a \$5.0 million increase in income compared to 2012 and reflected approximately \$5 million in FX gains in the second quarter of 2013 compared to immaterial FX gains in the prior year. The FX gains in 2013 primarily related to the strengthening of the euro relative to the British pound.

The Company's ETR was 32.2% in the second quarter of 2013, down from 33.6% in 2012. The decrease was primarily due to U.S. tax legislation enacted in the first quarter of 2013 which retroactively extended certain tax benefits to the 2012 tax year and prospectively extended these tax benefits to the 2013 tax year. Additionally, there were lower taxes on non-U.S. income.

Net Income in the second quarter of 2013 was \$225.5 million, or \$1.00 per diluted share. This is an increase of \$53.0 million, or \$0.24 per diluted share, compared to the second quarter of 2012.

Segment Results

Moody's Investors Service

The table below provides a summary of revenue and operating results, followed by further insight and commentary:

	Three months ended June 30,		% Change Favorable (Unfavorable)
	2013	2012	
Revenue:			
Corporate finance (CFG)	\$ 262.9	\$ 191.5	37%
Structured finance (SFG)	97.2	90.7	7%
Financial institutions (FIG)	84.5	77.8	9%
Public, project and infrastructure finance (PPIF)	92.7	81.2	14%
Total external revenue	537.3	441.2	22%
Intersegment royalty	19.0	17.5	9%
Total MIS Revenue	556.3	458.7	21%
Expenses:			
Operating and SG&A (including intersegment expenses)	236.2	211.3	(12%)
Adjusted Operating Income	320.1	247.4	29%
Depreciation and amortization	11.5	10.7	(7%)
Operating income	\$ 308.6	\$ 236.7	30%
Adjusted Operating Margin	57.5%	53.9%	
Operating margin	55.5%	51.6%	

The following is a discussion of external MIS revenue and operating and SG&A expenses:

Global MIS revenue of \$537.3 million for the second quarter of 2013 increased \$96.1 million compared to 2012, reflecting growth in all ratings LOBs. The most notable growth was within CFG and reflected an increase in rated issuance volumes for speculative-grade corporate debt and bank loans as well as investment-grade corporate debt. The growth over the prior year period also reflected changes in the mix of fee type, new fee initiatives and certain pricing increases, primarily in the U.S. Transaction revenue for MIS was 65% and 60% in the second quarter of 2013 and 2012, respectively.

Table of Contents

In the U.S., revenue was \$313.2 million in the second quarter of 2013, an increase of \$55.2 million, or 21% compared to 2012. The increase primarily reflects strong growth in rated issuance volumes for high-yield corporate debt and bank loans as well as investment-grade corporate debt in CFG coupled with an increase in rated issuance volumes for CMBS and REITs within SFG. Also contributing to the growth over the second quarter of 2012 were benefits from changes in the mix of fee type, new fee initiatives and certain pricing increases.

Non-U.S. revenue was \$224.1 million in the second quarter of 2013, an increase of \$40.9 million compared to 2012. The growth over 2012 primarily reflects higher revenue from rating speculative-grade corporate debt and bank loans coupled with higher investment-grade corporate debt revenue across all regions and higher infrastructure finance revenue in EMEA. Also contributing to the growth over the second quarter of 2012 were benefits from changes in the mix of fee type, new fee initiatives and certain pricing increases. Partially offsetting these increases were declines in issuance across most asset classes in SFG within the EMEA region.

Global CFG revenue of \$262.9 million in the second quarter of 2013 increased \$71.4 million from 2012 reflecting strong growth in rated issuance volumes for high-yield corporate debt and bank loans as well as investment-grade corporate debt. Also contributing to the growth in revenue were changes in the mix of fee type, new fee initiatives and certain pricing increases, primarily in the U.S. The aforementioned increase in rated issuance volumes largely reflected issuers taking advantage of the overall low interest rate environment to issue new debt as well as refinance existing borrowings combined with increased investor appetite for higher-yielding fixed income securities. Transaction revenue represented 75% of total CFG revenue in the second quarter of 2013, compared to 70% in 2012. In the U.S., revenue in the second quarter of 2013 was \$152.2 million, or \$33.7 million higher than 2012. Internationally, revenue of \$110.7 million in the second quarter of 2013 increased \$37.7 million compared to 2012 reflecting strong high-yield corporate debt issuance in the EMEA and Asia-Pacific regions.

Global SFG revenue of \$97.2 million in the second quarter of 2013 increased \$6.5 million compared to 2012 and reflected an increase in rated issuance volumes in the CMBS and REIT asset classes in the U.S. being partially offset by declines across most asset classes in the EMEA region. Transaction revenue was 61% of total SFG revenue in the second quarter of 2013 compared to 57% in 2012. In the U.S., revenue of \$62.1 million increased \$13.9 million compared to 2012, reflecting growth in CMBS and REIT issuance. The growth in these asset classes reflects the current low interest rate environment as well as narrowing credit spreads and increased investor demand for these securities. Non-U.S. revenue in the second quarter of 2013 of \$35.1 million decreased \$7.4 million compared to 2012 reflecting declines across most asset classes in the EMEA region, most notably in RMBS and ABS. The decline in RMBS issuance reflects fewer deals originating as banks have had alternative access to capital as a result of the "Funding for Lending" program implemented in the U.K which allows institutions to borrow from the Bank of England at favorable rates in exchange for providing mortgage loans as collateral for the borrowing.

Global FIG revenue of \$84.5 million in the second quarter of 2013 was \$6.7 million higher compared to 2012 with the primary driver of the growth reflecting benefits from changes in the mix of fee type, new fee initiatives and pricing increases. Additionally, the growth reflects higher banking-related rated issuance volumes in the U.S. and EMEA. The increase in rated issuance volumes reflects larger financial institutions coming to market as credit spreads have tightened in this sector. Also contributing to the increase was higher insurance revenue in EMEA primarily reflecting insurers opportunistically refinancing existing borrowings as well as issuance to fund acquisition-related activities. Transaction revenue was 37% of total FIG revenue in the second quarter of 2013 compared to 35% in 2012. In the U.S. and internationally, revenue was \$36.0 million and \$48.5 million, respectively, in the three months ended June 30, 2013, or 9% and 8% higher, respectively, compared to the second quarter of 2012.

Table of Contents

Global PPIF revenue was \$92.7 million in the second quarter of 2013, an increase of \$11.5 million compared to 2012, with approximately one-half of the increase reflecting benefits from changes in the mix of fee type, new fee initiatives and pricing increases. Additionally, there was growth in infrastructure finance rated issuance volumes across all regions and higher project finance rated issuance volumes in the U.S. These increases reflect issuers coming to market in the current low interest rate environment as well as issuance to expand their liquidity positions while interest rates remain favorable. Revenue generated from new transactions was 65% in the second quarter of 2013 compared to 62% in 2012. In the U.S., revenue in the second quarter of 2013 was \$62.9 million and increased \$4.5 million compared to 2012. Outside the U.S., PPIF revenue increased \$7 million.

Operating and SG&A expenses in the second quarter of 2013 increased \$24.9 million compared to 2012 due to growth in both compensation and non-compensation expenses of approximately \$17 million and \$8 million, respectively. The growth in compensation costs reflects higher salaries and related employee benefits resulting from annual compensation increases, headcount growth in the ratings LOBs as well as in support areas such as IT, finance and human resources for which the costs are allocated to each segment based on a revenue-split methodology. Additionally, there was an increase in incentive compensation which reflects greater achievement against full-year targeted results through the second quarter of 2013 compared to the same period in the prior year coupled with the aforementioned headcount growth. The growth in non-compensation expenses reflects higher costs related to continued investment in IT initiatives as well as higher costs for ongoing legal matters.

Adjusted Operating Income in the second quarter of 2013, which includes intersegment royalty revenue and intersegment expenses was \$320.1 million, an increase of \$72.7 million compared to 2012. Operating income in the second quarter of 2013 of \$308.6 million, which includes intersegment royalty revenue and intersegment expenses, increased \$71.9 million from the same period in 2012. Adjusted Operating margin and operating margin were 57.5% and 55.5%, respectively, or 360bps and 390bps higher compared to the second quarter of 2012 due to strong revenue growth outpacing increases in operating and SG&A expenses.

Moody's Analytics

The table below provides a summary of revenue and operating results, followed by further insight and commentary:

	Three months ended June 30,		% Change Favorable (Unfavorable)
	2013	2012	
Revenue:			
Research, data and analytics (RD&A)	\$ 130.3	\$ 121.8	7%
Enterprise risk solutions (ERS)	60.2	51.5	17%
Professional services (PS)	28.2	26.3	7%
Total external revenue	218.7	199.6	10%
Intersegment revenue	2.7	2.9	(7%)
Total MA Revenue	221.4	202.5	9%
Expenses:			
Operating and SG&A (including intersegment expenses)	167.6	149.3	(12%)
Adjusted Operating Income	53.8	53.2	1%
Depreciation and amortization	11.6	11.4	(2%)
Operating income	\$ 42.2	\$ 41.8	1%
Adjusted Operating Margin	24.3%	26.3%	
Operating margin	19.1%	20.6%	

Table of Contents

The following is a discussion of external MA revenue and operating and SG&A expenses:

Global MA revenue increased \$19.1 million compared to the second quarter of 2012, and reflected growth across all three LOBs. Recurring revenue comprised 79% of total MA revenue in the second quarter ended June 30, 2013 compared with 80% in the prior year period.

In the U.S., revenue of \$95.2 million in the second quarter of 2013 increased \$7.1 million, and reflected growth across all three LOBs. International revenue of \$123.5 million in the second quarter of 2013 was \$12.0 million higher than in the same period in 2012, and also reflected growth in all LOBs.

Global RD&A revenue, which comprised 60% and 61% of total external MA revenue in the second quarter ended June 30, 2013 and 2012, respectively, increased \$8.5 million over the prior year period. The growth was primarily due to increased sales of credit research via the CreditView product and solid growth from other data and analytic products. Global ERS revenue in the second quarter of 2013 increased \$8.7 million over the same period in 2012, primarily due to revenue from the sale and implementation of regulatory and compliance software to various financial institutions. Revenue from the PS LOB increased \$1.9 million compared to the second quarter of 2012, reflecting growth in revenue from outsourced research and analytical services to institutional customers. Revenue from the FSTC reporting unit within the PS LOB was flat compared to the second quarter of 2012. If the FSTC reporting unit does not achieve its financial forecast it could result in a goodwill impairment charge in future quarters. Revenue in the ERS LOB is subject to quarterly volatility resulting from the variable nature of project timing and the concentration of revenue in a relatively small number of engagements.

Operating and SG&A expenses in the second quarter of 2013, which include the intersegment royalty for the right to use and distribute content, data and products developed by MIS, increased \$18.3 million compared to 2012 reflecting higher compensation costs of approximately \$11 million and higher non-compensation expenses of approximately \$7 million. The increase in compensation costs reflects higher headcount to support business growth coupled with annual compensation increases as well as higher headcount in support areas for which the costs are allocated to each segment based on a revenue-split methodology. The expense growth also reflects an increase in incentive compensation resulting from higher projected achievement against full-year targeted results through the second quarter of 2013 compared to projected achievement in the same period of the prior year. The increase in non-compensation expenses reflects higher contingent consideration costs related to the acquisition of Copal coupled with higher professional service fees related to product delivery.

Adjusted Operating Income was \$53.8 million in the second quarter of 2013, including intersegment revenue and expenses, and increased \$0.6 million compared to 2012. Operating income of \$42.2 million in the second quarter of 2013 increased \$0.4 million compared to the same period in 2012. Adjusted Operating Margin for the second quarter of 2013 was 24.3%, and decreased 200bps compared to 2012. Operating margin was 19.1%, and decreased 150bps from the prior year.

Table of Contents

Six months ended June 30, 2013 compared with six months ended June 30, 2012

Executive Summary

Moody's revenue in the first half of 2013 totaled \$1,487.8 million, an increase of \$200.2 million compared to 2012 and reflected growth in both reportable segments, most notably in the high-yield sector of CFG within MIS. Total expenses were \$856.6 million, an increase of \$116.5 million compared to the prior year and reflected the settlement of the Abu Dhabi and Rhinebridge litigation matters more fully discussed in the "Contingencies" section of this MD&A. Expenses also increased due to higher compensation costs relating to headcount growth and annual compensation increases. Operating income of \$631.2 million increased \$83.7 million compared to 2012 and resulted in an operating margin of 42.4% in 2013, which was flat compared to the prior year. Adjusted Operating Income of \$677.9 million in the first half of 2013 increased \$84.8 million compared to 2012 resulting in an Adjusted Operating Margin of 45.6% compared to 46.1% in the prior year period. Diluted EPS of \$1.83 in the first half of 2013, which includes a \$0.14 charge related to the aforementioned settlement of litigation matters in the first quarter, increased \$0.31 over the prior year period. Excluding the litigation settlement in the first quarter of 2013, non-GAAP EPS was \$1.97, or \$0.45 higher than in in the prior year period.

	Six months ended June 30,		% Change Favorable (Unfavorable)

Refer to the section entitled "Non-GAAP Financial Measures" of this Management Discussion and Analysis for further information regarding these measures.

Table of Contents

Global revenue of \$1,487.8 million in the first half of 2013 increased \$200.2 million compared to 2012 reflecting growth in both reportable segments. The increase in ratings revenue reflects strong growth in CFG due to higher rated issuance volumes for high-yield corporate debt and bank loans in all regions as well as higher rated issuance volumes in U.S. investment-grade corporate debt. The growth in MA reflects higher revenue across all LOBs, most notably in RD&A and ERS. Transaction revenue accounted for 52% and 48% of global MCO revenue in the first half of 2013 and 2012, respectively.

U.S. revenue of \$818.3 million increased \$127.1 million over 2012, reflecting growth across all ratings LOBs, most notably in CFG and SFG, coupled with growth in all LOBs within MA. Also contributing to the growth were changes in the mix of fee type, new fee initiatives and certain pricing increases in the MIS segment.

Non-U.S. revenue increased \$73.1 million compared to 2012, reflecting higher CFG revenue in all regions coupled with increases in MA revenue in all LOBs within the EMEA region. These increases were partially offset by declines in most asset classes in SFG in the EMEA region.

Operating expenses were \$397.9 million in the first half of 2013, an increase of \$31.8 million from 2012 and reflected increases in both compensation and non-compensation costs. The increase in compensation costs of approximately \$21 million reflects higher salaries and related employee benefits primarily resulting from increases in headcount as well as the impact of annual compensation increases. Additionally, the increase reflects higher incentive compensation due to higher projected achievement against full-year targeted results through the first half of 2013 compared to the same period in 2012 coupled with the aforementioned headcount growth. The increase in non-compensation costs of approximately \$10 million is primarily due to an increase in costs relating to ongoing IT initiatives.

SG&A expenses of \$412.0 million in the first half of 2013 increased \$83.6 million from 2012 with the primary driver of the expense growth reflecting the settlement of the Abu Dhabi and Rhinebridge litigation matters more fully discussed in the “Contingencies” section of this MD&A. The remaining increase in SG&A expenses reflects growth in compensation costs primarily due to higher salaries and related employee benefits resulting from annual compensation increases and headcount growth in sales personnel within MA as well as in overhead support areas. Additionally, the growth reflects higher incentive compensation due to higher projected achievement against full-year targeted results through the first half of 2013 compared to the same period in 2012 coupled with the aforementioned headcount growth. The increase in non-compensation expenses is primarily due to an increase in costs to support ongoing IT initiatives as well as higher legal defense costs for ongoing matters.

Operating income of \$631.2 million increased \$83.7 million from 2012. Adjusted Operating Income was \$677.9 million in the first half of 2013 and increased \$84.8 million compared to 2012. Operating margin was flat compared to 2012. Adjusted Operating Margin in the first half of 2013 of 45.6% declined 50bps compared to the prior year, as the aforementioned litigation settlement charge had a greater impact on the Adjusted Operating Income’s smaller expense base.

Interest income (expense), net in the first half of 2013 was (\$43.7) million, a \$16.8 million increase in expense compared to 2012. This increase is due to higher interest on borrowings reflecting the issuance of the 2012 Senior Notes in the third quarter of 2012 coupled with an approximate \$7 million reversal of interest on UTPs in the prior year relating to the settlement of state and local tax audits.

Other non-operating income (expense), net was \$16.5 million in the first half of 2013, a \$13.9 million increase in income compared to 2012 and reflected approximately \$13 million in FX gains in the first six months of 2013 compared to FX losses of approximately \$1 million in the prior year. The FX gains in 2013 primarily related to the strengthening of the euro relative to the British pound.

The Company’s ETR was 30.5% in the first half of 2013, down from 32.9% in 2012. The decrease was primarily due to tax benefits on the aforementioned litigation settlement charge as well as U.S. tax legislation enacted in early 2013 which retroactively extended certain tax benefits to the 2012 tax year and prospectively extended these tax benefits to the 2013 tax year. Additionally, there were lower taxes on foreign income.

Table of Contents

Net Income in the first half of 2013 was \$413.9 million, or \$1.83 per diluted share, and included a \$0.14 charge in the first quarter of 2013 related to the aforementioned litigation settlement. This is an increase of \$67.9 million, or \$0.31 per diluted share, compared to the first half of 2012. Excluding the charge for the litigation settlement, non-GAAP EPS of \$1.97 in the first half of 2013 was \$0.45 higher than in the same period of the prior year.

Segment Results

Moody's Investors Service

The table below provides a summary of revenue and operating results, followed by further insight and commentary:

	Six months ended June 30,		% Change Favorable (Unfavorable)
	2013	2012	
Revenue:			
Corporate finance (CFG)	\$ 521.2	\$ 392.0	33%
Structured finance (SFG)	190.2	185.0	3%
Financial institutions (FIG)	171.0	156.6	9%
Public, project and infrastructure finance (PPIF)	176.1	160.3	10%
Total external revenue	1,058.5	893.9	18%
Intersegment royalty	37.9	34.6	10%
Total MIS Revenue	1,096.4	928.5	18%
Expenses:			
Operating and SG&A (including intersegment expenses)	520.5	432.4	(20%)
Adjusted Operating Income	575.9	496.1	16%
Depreciation and amortization	22.8	21.9	(4%)
Operating income	\$ 553.1	\$ 474.2	17%
Adjusted Operating Margin	52.5%	53.4%	
Operating margin	50.4%	51.1%	

The following is a discussion of external MIS revenue and operating and SG&A expenses:

Global MIS revenue of \$1,058.5 million for the first six months of 2013 increased \$164.6 million compared to 2012, reflecting growth in all ratings LOBs. The most notable growth was within CFG and reflected an increase in rated issuance volumes for speculative-grade corporate debt and bank loans as well as higher revenue from rating investment-grade corporate debt. The growth over the prior year period also reflected changes in the mix of fee type, new fee initiatives and certain pricing increases, primarily in the U.S. Transaction revenue for MIS was 65% and 61% in the first six months of 2013 and 2012, respectively.

In the U.S., revenue was \$626.3 million in the first half of 2013, an increase of \$109.1 million, or 21% compared to 2012. The increase reflects strong growth in rated issuance volumes for high-yield and investment-grade corporate debt and bank loans in CFG as well as an increase in rated issuance volumes for CMBS and CLOs within SFG. Also contributing to the growth over the first half of 2012 were benefits from changes in the mix of fee type, new fee initiatives and certain pricing increases.

Non-U.S. revenue was \$432.2 million in the first half of 2013, an increase of \$55.5 million compared to 2012. The growth over 2012 reflects higher revenue from rating high-yield and investment-grade corporate debt as well as bank loans coupled with higher banking, insurance and infrastructure finance-related revenue in the EMEA region. Also contributing to the growth over the first half of 2012 were benefits from changes in the mix of fee type, new fee initiatives and certain pricing increases. Partially offsetting these increases were declines in issuance across most asset classes in SFG within the EMEA region.

Table of Contents

Global CFG revenue of \$521.2 million in the first half of 2013 increased \$129.2 million from 2012 reflecting strong growth in rated issuance volumes for high-yield corporate debt and bank loans across all regions coupled with higher rated issuance volumes for investment-grade corporate debt in the U.S. Also contributing to the growth in revenue were changes in the mix of fee type, new fee initiatives and certain pricing increases, primarily in the U.S. The aforementioned increase in rated issuance volumes largely reflected issuers taking advantage of the overall low interest rate environment to issue new debt as well as refinance existing borrowings combined with increased investor appetite for higher-yielding fixed income securities. Transaction revenue represented 76% of total CFG revenue in the first half of 2013, compared to 72% in 2012. In the U.S., revenue in the first half of 2013 was \$314.3 million, or \$65.8 million higher than 2012. Internationally, revenue of \$206.9 million in the first half of 2013 increased \$63.4 million compared to 2012 reflecting strong growth in speculative-grade and bank loan revenue in the EMEA and Asia-Pacific region.

Global SFG revenue of \$190.2 million in the first half of 2013 increased \$5.2 million compared to 2012 and reflected higher CLO, CMBS and REIT issuance in the U.S. coupled with the favorable impact of changes in the mix of fee type, new fee initiatives and certain pricing increases, primarily in the U.S. These increases were partially offset by declines across most asset classes in the EMEA region. Transaction revenue was 60% of total SFG revenue in the first half of 2013 compared to 57% in 2012. In the U.S., revenue of \$121.6 million increased \$26.3 million compared to the same period in 2012, reflecting growth in CLO, CMBS and REIT rated issuance volumes. The growth in these asset classes reflects the current low interest rate environment as well as narrow credit spreads and increased investor demand for these securities. Additionally, the growth in CLO revenue reflected issuance in the first quarter of 2013 ahead of a new FDIC regulation effective in April 2013 which deems these securities to be “higher risk securitizations” for purposes of calculating insurance assessments for insured depository institutions. Non-U.S. revenue in the first half of 2013 of \$68.6 million decreased \$21.1 million compared to 2012 reflecting declines across all asset classes in the EMEA region, most notably in RMBS and ABS. The decline in RMBS issuance reflects fewer deals originating as banks have had alternative access to capital as a result of the “Funding for Lending” program implemented in the U.K which allows institutions to borrow from the Bank of England at favorable rates in exchange for providing mortgage loans as collateral for the borrowing. The decline in ABS issuance in the EMEA region reflects continued macroeconomic uncertainties in Europe as well as banks in the region being currently well funded from the ECBs long term refinancing operation.

Global FIG revenue of \$171.0 million in the first half of 2013 was \$14.4 million higher compared to 2012 reflecting benefits from changes in the mix of fee type, new fee initiatives and pricing increases. Also contributing to the increase was growth in banking-related revenue in the U.S. reflecting an increase in rated issuance volumes. The increase in rated issuance volumes in the U.S. reflects larger financial institutions coming to market as credit spreads have tightened in this sector. Also contributing to the increase was higher insurance revenue in EMEA primarily reflecting issuers opportunistically refinancing debt amidst favorable interest rate conditions coupled with issuance to fund M&A activity in the sector. Transaction revenue was 38% of total FIG revenue in the first half of 2013 compared to 36% in the same period in 2012. In the U.S. and internationally, revenue was \$71.9 million and \$99.1 million, respectively, in the six months ended June 30, 2013, or 11% and 8% higher, respectively, compared to the first half of 2012.

Global PPIF revenue was \$176.1 million in the first half of 2013, an increase of \$15.8 million compared to 2012, primarily reflecting the favorable impact of the aforementioned changes in the mix of fee type, new fee initiatives and pricing increases as well as increases in U.S. project and infrastructure finance rated issuance volumes. Revenue generated from new transactions was 63% in the first half of 2013 compared to 62% in 2012. In the U.S., revenue in the first half of 2013 was \$118.5 million and increased \$9.6 million compared to 2012. Outside the U.S., PPIF revenue increased \$6.2 million compared to 2012.

Table of Contents

Operating and SG&A expenses in the first half of 2013 increased \$88.1 million compared to 2012 primarily due to growth in both non-compensation and compensation costs of \$67 million and \$21 million, respectively. The primary driver of the increase in non-compensation expenses was the settlement of the Abu Dhabi and Rhinebridge litigation matters more fully discussed in the “Contingencies” section of this MD&A coupled with higher legal costs for ongoing matters. The growth in compensation costs reflected higher salaries resulting from annual compensation increases, headcount growth in the ratings LOBs as well as in support areas such as IT, finance and human resources for which the costs are allocated to each segment based on a revenue-split methodology. Compensation costs also increased due to higher pension expense resulting from a decrease in the discount rate used to value the Company’s obligation and the amortization of prior year actuarial losses.

Adjusted Operating Income in the first half of 2013, which includes intersegment royalty revenue, intersegment expenses and the aforementioned litigation settlement charge was \$575.9 million, an increase of \$79.8 million compared to 2012. Operating income in the first half of 2013 of \$553.1 million increased \$78.9 million from the same period in 2012. Adjusted Operating Margin and operating margin were 52.5% and 50.4%, respectively, or 90bps and 70bps lower compared to the first half of 2012 due to the aforementioned litigation settlements.

Moody’s Analytics

The table below provides a summary of revenue and operating results, followed by further insight and commentary:

	Six months ended June 30		% Change Favorable (Unfavorable)
	2013	2012	
Revenue:			
Research, data and analytics (RD&A)	\$ 259.9	\$ 241.6	8%
Enterprise risk solutions (ERS)	113.2	99.6	14%
Professional services (PS)	56.2	52.5	7%
Total external revenue	429.3	393.7	9%
Intersegment revenue	5.5	5.9	(7%)
Total MA Revenue	434.8	399.6	9%
Expenses:			
Operating and SG&A (including intersegment expenses)	332.8	302.6	(10%)
Adjusted Operating Income	102.0	97.0	5%
Depreciation and amortization	23.9	23.7	(1%)
Operating income	\$ 78.1	\$ 73.3	7%
Adjusted Operating Margin	23.5%	24.3%	
Operating margin	18.0%	18.3%	

The following is a discussion of external MA revenue and operating and SG&A expenses:

Global MA revenue increased \$35.6 million compared to the first half of 2012, with the most notable growth in RD&A and ERS. Recurring revenue comprised 80% of total MA revenue in both the first half of 2013 and 2012.

In the U.S., revenue of \$192.0 million in the first half of 2013 increased \$18.0 million, and reflected growth across all three LOBs. International revenue of \$237.3 million in the first half of 2013 was \$17.6 million higher than in the same period in 2012.

Global RD&A revenue, which comprised 61% of total external MA revenue in the first half of both 2013 and 2012, increased \$18.3 million over the prior year period. The growth was primarily due to increased sales of credit research via the CreditView product and solid growth from other data and analytic products. Global ERS revenue in the

Table of Contents

first half of 2013 increased \$13.6 million over the same period in 2012, primarily due to revenue from the sale and implementation of regulatory and compliance software to various financial institutions. Revenue from the PS LOB increased \$3.7 million compared to the first half of 2012, reflecting growth in revenue from outsourced research and analytical services to institutional customers being partially offset by softness in the FSTC reporting unit. If the FSTC reporting unit does not achieve its financial forecast it could result in a goodwill impairment charge in future quarters. Revenue in the ERS LOB is subject to quarterly volatility resulting from the variable nature of project timing and the concentration of revenue in a relatively small number of engagements.

Operating and SG&A expenses in the first half of 2013, which include the intersegment royalty for the right to use and distribute content, data and products developed by MIS, increased \$30.2 million compared to 2012 reflecting both higher compensation and non-compensation costs of approximately \$20 million and \$10 million, respectively. The increase in compensation costs reflects higher headcount to support business growth coupled with annual compensation increases as well as higher headcount in support areas for which the costs are allocated to each segment based on a revenue-split methodology. The expense growth also reflects an increase in incentive compensation resulting from higher projected achievement against full-year targeted results through the first half of 2013 compared to the same period in the prior year. The increase in non-compensation expenses is primarily due to higher contingent consideration costs of approximately \$7 million relating to the acquisition of Copal.

Adjusted Operating Income was \$102.0 million in the first half of 2013 and increased \$5.0 million compared to the same period in 2012. Operating income of \$78.1 million in the first half of 2013, which includes intersegment revenue and expenses, increased \$4.8 million compared to the same period in 2012. Adjusted Operating Margin for the first half of 2013 was 23.5%, compared to 24.3% in the first half of 2012. Operating margin was 18.0%, or essentially flat compared to the prior year.

Table of Contents

Liquidity and Capital Resources

Cash Flow

The Company is currently financing its operations, capital expenditures and share repurchases from operating cash flow. The following is a summary of the changes in the Company's cash flows followed by a brief discussion of these changes:

	Six Months Ended June 30,		\$ Change Favorable (Unfavorable)
	2013	2012	
Net cash provided by operating activities	\$ 369.1	\$ 235.5	\$ 133.6
Net cash used in investing activities	\$ (19.0)	\$ (25.9)	\$ 6.9
Net cash used in financing activities	\$(426.2)	\$(142.5)	\$ (283.7)
Free cash flow*	\$ 351.0	\$ 213.6	\$ 137.4

* Free cash flow is a non-GAAP measure and is defined by the Company as net cash provided by operating activities less cash paid for capital additions. Refer to the section "Non-GAAP Financial Measures" of this MD&A for further information on this financial measure.

Net cash provided by operating activities

The following changes related to non-cash items impacted cash provided by operating activities in 2013 compared to 2012, relative to net income:

- a \$36.7 million decrease in deferred income taxes primarily due to the utilization of deferred tax assets relating to a payment for UTBs upon the settlement of state and local tax audits in the first quarter of 2012;
- a \$17.8 million decrease relating to greater excess tax benefits from stock-based compensation plans primarily due to an increase in stock option exercises in 2013 resulting from the increase in Moody's stock price.

In addition to the non-cash items discussed above and an increase in Net Income of \$68.3 million, the \$133.6 million increase in net cash flows provided by operating activities reflected:

- payments of approximately \$121 million in the first quarter of 2012, reflecting the settlement of state and local tax audits;
- a \$42.9 million increase in cash flow from changes in accounts receivable balances primarily reflecting a larger increase in accounts receivable balances in the first six months of 2012 compared to 2013. The increase in 2012 reflected lower accounts receivable balances at December 31, 2011 resulting from declines in corporate finance issuance in the fourth quarter of 2011. Approximately 27% of the Company's accounts receivable balance at both June 30, 2013 and 2012 represents unbilled receivables which primarily reflect certain annual fees in MIS which are invoiced in arrears;

Partially offset by:

- an approximate \$51 million decrease primarily relating to higher incentive compensation payouts in 2013 compared to the prior year reflecting higher achievement against full-year targeted results in 2012 compared to achievement in the prior year period.

The remaining increase in cash flow is due to changes in various other assets and liabilities.

Table of Contents

Net cash used in financing activities

The \$283.7 million increase in cash used in financing activities was attributed to:

- Treasury shares repurchased of \$350.4 million in the first half of 2013 compared to \$100.0 million repurchased in the prior year period;
- Repayments on the 2008 Term Loan of \$63.8 million in the first half of 2013 compared to \$7.5 million in the prior year period;

Partially offset by:

- Higher net proceeds from stock-based compensation plans of \$25.9 million reflecting an increase in stock option exercises in 2013 which is generally correlated with the increase in Moody's share price. These proceeds were partially offset by a greater number of shares retained in treasury stock to satisfy employee tax withholding obligations in connection with the vesting of restricted stock in March 2013;
- Higher excess tax benefits from stock-based compensation plans of \$17.8 million due to higher stock option exercises in 2013 resulting from the higher trading price of Moody's common shares.

Cash held in non-U.S. jurisdictions

The Company's aggregate cash and cash equivalents of \$1,633.0 million at June 30, 2013 consisted of approximately \$1 billion located outside of the U.S, of which approximately 70% is denominated in euros and British pounds. The cash held in the Company's non-U.S. operations contains approximately \$920 million in entities whose undistributed earnings are indefinitely reinvested in the Company's foreign operations. Accordingly, the Company has not provided deferred income taxes on these indefinitely reinvested earnings. A future distribution or change in assertion regarding reinvestment by the foreign subsidiaries relating to these earnings could result in additional tax liability to the Company. It is not practicable to determine the amount of the potential additional tax liability due to complexities in the tax laws and in the hypothetical calculations that would have to be made. The Company manages both its U.S and international cash flow to maintain sufficient liquidity in all regions to effectively meet its operating needs.

Future Cash Requirements

The Company believes that it has the financial resources needed to meet its cash requirements and expects to have positive operating cash flow for the next twelve months. Cash requirements for periods beyond the next twelve months will depend, among other things, on the Company's profitability and its ability to manage working capital requirements. The Company may also borrow from various sources.

The Company remains committed to using its strong cash flow to create value for shareholders by investing in growing areas of the business, reinvesting in ratings quality initiatives, making selective acquisitions in related businesses, repurchasing stock and paying a dividend, all in the manner consistent with maintaining sufficient liquidity. On July 15, 2013, the Board of Directors of the Company declared a quarterly dividend of \$ 0.25 per share of Moody's common stock, payable on September 10, 2013 to shareholders of record at the close of business on August 20, 2013. The continued payment of dividends at this rate, or at all, is subject to the discretion of the Board. Additionally, the Company expects to complete approximately \$650 million of share repurchases in the second half of 2013. Share repurchase activity in the near term is subject to available cash flow, market conditions and other capital allocation decisions. As of June 30, 2013, Moody's had \$1.3 billion of share repurchase authority remaining under its current programs, which do not have an established expiration, and reflect the additional \$1.0 billion of share repurchase authority approved by the Board on February 12, 2013.

Table of Contents

As part of the Copal acquisition in November 2011, Moody's and the non-controlling shareholders entered into a put/call arrangement whereby the noncontrolling shareholders have the option to sell the portion of Copal that Moody's does not currently own and Moody's has the option to purchase this portion from the noncontrolling shareholders. The exercise price of this option was valued at \$68 million at the time of acquisition and will fluctuate based on the financial results of Copal subject to a floor exercise price of approximately \$46 million. The redemption value of this redeemable noncontrolling interest was \$78.7 million at June 30, 2013. There is no limit as to the amount of the strike price on the put/call option. It is estimated that the exercise of the put/call arrangement will take place in the next one to four years based on a Monte Carlo simulation. This put/call arrangement expires on the sixth anniversary date of the acquisition.

At June 30, 2013, Moody's had \$1.6 billion of outstanding debt, which is further described in the "Indebtedness" section of this MD&A below, with \$1.0 billion of additional capacity available under the 2012 Facility. Principal payments on the Company's borrowings will be made in accordance with the schedule of payments outlined in the "Indebtedness" section of this MD&A below.

On February 6, 2008, the Company entered into a 17.5 year operating lease agreement to occupy six floors of an office tower located in the Canary Wharf district of London, England. The total base rent of the Canary Wharf Lease over its 17.5-year term is approximately 134 million GBP, and the Company began making base rent payments in 2011. In addition to the base rent payments the Company will be obligated to pay certain customary amounts for its share of operating expenses and tax obligations. The total remaining lease payments as of June 30, 2013 are approximately GBP 121 million, of which approximately GBP 10 million will be paid in the next 12 months.

On October 20, 2006, the Company entered into an operating lease agreement with 7 World Trade Center, LLC for 589,945 square-feet of an office building located at 7WTC at 250 Greenwich Street, New York, New York, which is serving as Moody's headquarters. The 7WTC Lease has an initial term of 21 years with a total of 20 years of renewal options. The total base rent of 7WTC Lease over its initial 21-year term is approximately \$536 million including rent credits from the World Trade Center Rent Reduction Program promulgated by the Empire State Development Corporation. On March 28, 2007, the 7WTC lease agreement was amended for the Company to lease an additional 78,568 square-feet at 7WTC. The additional base rent is approximately \$106 million over a 20-year term. The total remaining lease payments as of June 30, 2013, including the aforementioned rent credits, are approximately \$493 million, of which approximately \$32 million will be paid during the next 12 months.

Indebtedness

The following table summarizes total indebtedness:

	June 30, 2013	December 31, 2012
2012 Facility	\$ —	\$ —
Commercial paper	—	—
Notes Payable:		
Series 2005-1 Notes, due 2015; which includes the fair value of interest rate swap of \$11.0 million at 2013 and \$13.8 million at 2012	311.0	313.8
Series 2007-1 Notes due 2017	300.0	300.0
2010 Senior Notes, due 2020, net of unamortized discount of \$2.4 million in 2013 and \$2.6 million in 2012	497.6	497.4
2012 Senior Notes, due 2022, net of unamortized discount of \$3.5 million in 2013 and \$3.8 million in 2012	496.4	496.2
2008 Term Loan	—	63.8
Total debt	1,605.0	1,671.2
Current portion	—	(63.8)
Total long-term debt	<u>1,605.0</u>	<u>\$ 1,607.4</u>

2012 Facility

On April 18, 2012, the Company and certain of its subsidiaries entered into a \$1 billion five-year senior, unsecured revolving credit facility in an aggregate principal amount of \$1 billion that expires in April 2017. The 2012 Facility replaced the \$1 billion 2007 Facility that was scheduled to expire in September 2012. The proceeds from the 2012 Facility will be used for general corporate purposes, including, without limitation, support for the Company's \$1 billion commercial paper program, share repurchases and acquisition financings. Interest on borrowings under the facility is payable at rates that are based on LIBOR plus a premium that can range from 77.5 basis points to 120 basis points per annum of the outstanding amount, depending on the Company's Debt/EBITDA ratio. The Company also pays quarterly facility fees, regardless of borrowing activity under the 2012 Facility. These quarterly fees can range from 10 basis points of the facility amount to 17.5 basis points, depending on the Company's Debt/ EBITDA Ratio.

The 2012 Facility contains covenants that, among other things, restrict the ability of the Company and its subsidiaries, without the approval of the lenders, to engage in mergers, consolidations, asset sales, transactions with affiliates and sale-leaseback transactions or to incur liens, as set forth in the facility agreement. The 2012 Facility also contains a financial covenant that requires the Company to maintain a Debt to EBITDA Ratio of not more than 4 to 1 at the end of any fiscal quarter. Upon the occurrence of certain financial or economic events, significant corporate events or certain other events constituting an event of default under the 2012 Facility, all loans outstanding under the facility (including accrued interest and fees payable thereunder) may be declared immediately due and payable and all commitments under the facility may be terminated.

Commercial Paper

On October 3, 2007, the Company entered into a private placement commercial paper program under which the Company may issue CP notes up to a maximum amount of \$1.0 billion. Amounts available under the CP Program may be re-borrowed. The CP Program is supported by the Company's 2012 Facility. The maturities of the CP Notes will vary, but may not exceed 397 days from the date of issue. The CP Notes are sold at a discount from par or, alternatively, sold at par

Table of Contents

and bear interest at rates that will vary based upon market conditions at the time of issuance. The rates of interest will depend on whether the CP Notes will be a fixed or floating rate. The interest on a floating rate may be based on the following: (a) certificate of deposit rate; (b) commercial paper rate; (c) federal funds rate; (d) LIBOR; (e) prime rate; (f) Treasury rate; or (g) such other base rate as may be specified in a supplement to the private placement agreement. The CP Program contains certain events of default including, among other things: non-payment of principal, interest or fees; entrance into any form of moratorium; and bankruptcy and insolvency events, subject in certain instances to cure periods.

Notes Payable

On September 30, 2005, the Company issued and sold through a private placement transaction, \$300.0 million aggregate principal amount of its Series 2005-1 Senior Unsecured Notes due 2015 pursuant to the 2005 Agreement. The Series 2005-1 Notes have a ten-year term and bear interest at an annual rate of 4.98%, payable semi-annually on March 30 and September 30. Proceeds from the sale of the Series 2005-1 Notes were used to refinance \$300.0 million aggregate principal amount of the Company's outstanding 7.61% senior notes which matured on September 30, 2005. In the event that Moody's pays all, or part, of the Series 2005-1 Notes in advance of their maturity, such prepayment will be subject to a Make Whole Amount. The Series 2005-1 Notes are subject to certain covenants that, among other things, restrict the ability of the Company and certain of its subsidiaries, without the approval of the lenders, to engage in mergers, consolidations, asset sales, transactions with affiliates and sale-leaseback transactions or to incur liens, as defined in the related agreements.

On September 7, 2007, the Company issued and sold through a private placement transaction, \$300.0 million aggregate principal amount of its 6.06% Series 2007-1 Senior Unsecured Notes due 2017 pursuant to the 2007 Agreement. The Series 2007-1 Notes have a ten-year term and bear interest at an annual rate of 6.06%, payable semi-annually on March 7 and September 7. Under the terms of the 2007 Agreement, the Company may, from time to time within five years, in its sole discretion, issue additional series of senior notes in an aggregate principal amount of up to \$500.0 million pursuant to one or more supplements to the 2007 Agreement. The Company may prepay the Series 2007-1 Notes, in whole or in part, at any time at a price equal to 100% of the principal amount being prepaid, plus accrued and unpaid interest and a Make Whole Amount. The 2007 Agreement contains covenants that limit the ability of the Company, and certain of its subsidiaries to, among other things: enter into transactions with affiliates, dispose of assets, incur or create liens, enter into any sale-leaseback transactions, or merge with any other corporation or convey, transfer or lease substantially all of its assets. The Company must also not permit its Debt/EBITDA ratio to exceed 4.0 to 1.0 at the end of any fiscal quarter.

On August 19, 2010, the Company issued \$500 million aggregate principal amount of unsecured notes in a public offering. The 2010 Senior Notes bear interest at a fixed rate of 5.50% and mature on September 1, 2020. Interest on the 2010 Senior Notes will be due semi-annually on September 1 and March 1 of each year, commencing March 1, 2011. The Company may prepay the 2010 Senior Notes, in whole or in part, at any time at a price equal to 100% of the principal amount being prepaid, plus accrued and unpaid interest and a Make-Whole Amount. Additionally, at the option of the holders of the notes, the Company may be required to purchase all or a portion of the notes upon occurrence of a "Change of Control Triggering Event," as defined in the 2010 Indenture, at a price equal to 101% of the principal amount thereof, plus accrued and unpaid interest to the date of purchase. The 2010 Indenture contains covenants that limit the ability of the Company and certain of its subsidiaries to, among other things, incur or create liens and enter into sale and leaseback transactions. In addition, the Indenture contains a covenant that limits the ability of the Company to consolidate or merge with another entity or to sell all or substantially all of its assets to another entity. The 2010 Indenture contains customary default provisions. In addition, an event of default will occur if the Company or certain of its subsidiaries fail to pay the principal of any indebtedness (as defined in the 2010 Indenture) when due at maturity in an aggregate amount of \$50 million or more, or a default occurs that results in the acceleration of the maturity of the Company's or certain of its subsidiaries' indebtedness in an aggregate amount of \$50 million or more. Upon the occurrence and during the continuation of an event of default under the 2010 Indenture, the notes may become immediately due and payable either automatically or by the vote of the holders of more than 25% of the aggregate principal amount of all of the notes then outstanding.

Table of Contents

On November 4, 2011, in connection with the acquisition of Copal, a subsidiary of the Company issued a \$14.2 million non-interest bearing note to the sellers which represented a portion of the consideration transferred to acquire the Copal entities. If a seller subsequently transfers to the Company all of its shares, the Company must repay the seller its proportion of the principal on the later of (i) the fourth anniversary date of the note or (ii) within a time frame set forth in the acquisition agreement relating to the resolution of certain income tax uncertainties pertaining to the transaction. Otherwise, the Company must repay any amount outstanding on the earlier of (i) two business days subsequent to the exercise of the put/call option to acquire the remaining shares of Copal or (ii) the tenth anniversary date of the issuance of the note. The Company has the right to offset payment of the note against certain indemnification assets associated with UTPs related to the acquisition. Accordingly, the Company has offset the liability for this note against the indemnification asset, thus no balance for this note is carried on the Company's consolidated balance sheet at June 30, 2013 and December 31, 2012. In the event that the Company would not be required to settle amounts related to the UTPs, the Company would be required to pay the sellers the principal in accordance with the note agreement. The Company may prepay the note in accordance with certain terms set forth in the acquisition agreement.

On August 20, 2012, the Company issued \$500 million aggregate principal amount of unsecured notes in a public offering. The 2012 Senior Notes bear interest at a fixed rate of 4.50% and mature on September 1, 2022. Interest on the 2012 Senior Notes will be due semi-annually on September 1 and March 1 of each year, commencing March 1, 2013. The Company may prepay the 2012 Senior Notes, in whole or in part, at any time at a price equal to 100% of the principal amount being prepaid, plus accrued and unpaid interest and a Make-Whole Amount. Additionally, at the option of the holders of the notes, the Company may be required to purchase all or a portion of the notes upon occurrence of a "Change of Control Triggering Event," as defined in the 2012 Indenture, at a price equal to 101% of the principal amount thereof, plus accrued and unpaid interest to the date of purchase. The 2012 Indenture contains covenants that limit the ability of the Company and certain of its subsidiaries to, among other things, incur or create liens and enter into sale and leaseback transactions. In addition, the 2012 Indenture contains a covenant that limits the ability of the Company to consolidate or merge with another entity or to sell all or substantially all of its assets to another entity. The 2012 Indenture contains customary default provisions. In addition, an event of default will occur if the Company or certain of its subsidiaries fail to pay the principal of any indebtedness (as defined in the 2012 Indenture) when due at maturity in an aggregate amount of \$50 million or more, or a default occurs that results in the acceleration of the maturity of the Company's or certain of its subsidiaries' indebtedness in an aggregate amount of \$50 million or more. Upon the occurrence and during the continuation of an event of default under the Indenture, the 2012 Senior notes may become immediately due and payable either automatically or by the vote of the holders of more than 25% of the aggregate principal amount of all of the notes then outstanding.

2008 Term Loan

On May 7, 2008, Moody's entered into a five-year, \$150.0 million senior unsecured term loan with several lenders due at various times through May 7, 2013. Proceeds from the loan were used to pay off a portion of the CP outstanding. Interest on borrowings under the 2008 Term Loan was payable quarterly at rates that were based on LIBOR plus a margin that can range from 125 basis points to 175 basis points depending on the Company's Debt/EBITDA ratio.

The 2008 Term Loan contained restrictive covenants that, among other things, restricted the ability of the Company to engage or to permit its subsidiaries to engage in mergers, consolidations, asset sales, transactions with affiliates and sale-leaseback transactions or to incur, or permit its subsidiaries to incur, liens, in each case, subject to certain exceptions and limitations. The 2008 Term Loan also limited the amount of debt that subsidiaries of the Company may incur. In addition, the 2008 Term Loan contained a financial covenant that requires the Company to maintain a Debt/EBITDA ratio of not more than 4.0 to 1.0 at the end of any fiscal quarter. The 2008 Term Loan was repaid in full at June 30, 2013.

Table of Contents

The principal payments due on the Company's long-term borrowings for each of the next five years are presented in the table below:

Year Ended December 31,	Series 2005-1 Notes	Series 2007-1 Notes	2010 Senior Notes	2012 Senior Notes	Total
2013 (after June 30,)	\$ —	\$ —	\$ —	\$ —	\$ —
2014	—	—	—	—	—
2015	300.0	—	—	—	300.0
2016	—	—	—	—	—
2017	—	300.0	—	—	300.0
Thereafter	—	—	500.0	500.0	1,000.0
Total	\$ 300.0	\$ 300.0	\$ 500.0	\$ 500.0	\$1,600.0

In the fourth quarter of 2010, the Company entered into interest rate swaps with a total notional amount of \$300 million which converted the fixed rate of interest on the Series 2005-1 Notes to a floating LIBOR-based interest rate. Also, on May 7, 2008, the Company entered into interest rate swaps with a total notional amount of \$150 million to protect against fluctuations in the LIBOR-based variable interest rate on the 2008 Term Loan. Both of these interest rate swaps are more fully discussed in Note 6 to the condensed consolidated financial statements.

At June 30, 2013, the Company was in compliance with all covenants contained within all of the debt agreements. In addition to the covenants described above, the 2012 Facility, the 2007 Facility, the 2005 Agreement, the 2007 Agreement, the 2012 Senior Notes and the 2010 Senior Notes contain cross default provisions. These provisions state that default under one of the aforementioned debt instruments could in turn permit lenders under other debt instruments to declare borrowings outstanding under those instruments to be immediately due and payable. As of June 30, 2013, there were no such cross defaults.

Interest expense, net

The following table summarizes the components of interest as presented in the consolidated statements of operations:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2013	2012	2013	2012
Income	\$ 1.2	\$ 1.2	\$ 2.4	\$ 2.5
Expense on borrowings	(20.5)	(16.4)	(41.5)	(32.8)
(Expense) income on UTPs and other tax related liabilities (a)	(2.4)	(1.5)	(4.6)	3.5
Capitalized	—	0.1	—	(0.1)
Total	\$ (21.7)	\$ (16.6)	\$ (43.7)	\$ (26.9)

- (a) The six months ended June 30, 2012 amount contains a benefit of approximately \$7 million related to the settlement of state and local income tax audits.

Table of Contents

The following table shows the cash paid for interest:

	Six Months Ended June 30,	
	2013	2012
Interest paid*	\$ 41.4	\$ 32.0

* Interest paid includes payments of interest relating to the settlement of income tax audits in the first quarter of 2012 as well as net settlements on interest rate swaps more fully discussed in Note 6.

The Company's long-term debt, including the current portion, is recorded at cost except for the Series 2005-1 Notes which are carried at cost adjusted for the fair value of an interest rate swap used to hedge the fair value of the note. The fair value and carrying value of the Company's long-term debt as of June 30, 2013 and December 31, 2012 are as follows:

	June 30, 2013		December 31, 2012	
	Carrying Amount	Estimated Fair Value	Carrying Amount	Estimated Fair Value
Series 2005-1 Notes*	\$ 311.0	\$ 322.4	\$ 313.8	\$ 326.1
Series 2007-1 Notes	300.0	335.6	300.0	348.3
2010 Senior Notes	497.6	535.7	497.4	562.8
2012 Senior Notes	496.4	501.2	496.2	528.8
2008 Term Loan	—	—	63.8	63.8
Total	<u>\$1,605.0</u>	<u>\$ 1,694.9</u>	<u>\$1,671.2</u>	<u>\$ 1,829.8</u>

* The carrying amount includes an \$11.0 million and \$13.8 million fair value adjustment on an interest rate hedge at June 30, 2013 and December 31, 2012, respectively.

The fair value of the Company's long-term debt is estimated using discounted cash flows with inputs based on prevailing interest rates available to the Company for borrowings with similar maturities.

Management may consider pursuing additional long-term financing when it is appropriate in light of cash requirements for operations, share repurchases and other strategic opportunities, which would result in higher financing costs.

Off-Balance Sheet Arrangements

At June 30, 2013, Moody's did not have any relationships with unconsolidated entities or financial partnerships, such as entities often referred to as special purpose or variable interest entities where Moody's is the primary beneficiary, which would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes. As such, Moody's is not exposed to any financing, liquidity, market or credit risk that could arise if it had engaged in such relationships.

Table of Contents

Contractual Obligations

The following table presents payments due under the Company's contractual obligations as of June 30, 2013:

(in millions)	Total	Payments Due by Period			
		Less Than 1 Year	1 - 3 Years	3 - 5 Years	Over 5 Years
Indebtedness ⁽¹⁾	\$2,130.8	\$ 79.1	\$ 453.3	\$ 428.3	\$ 1,170.1
Operating lease obligations	773.4	77.2	126.6	106.7	462.9
Purchase obligations	132.8	69.7	63.1	—	—
Contingent consideration related to acquisitions ⁽²⁾	2.3	—	2.3	—	—
Pension obligations ⁽³⁾	118.2	19.9	10.2	13.5	74.6
Total ⁽⁴⁾	<u>\$3,157.5</u>	<u>\$ 245.9</u>	<u>\$ 655.5</u>	<u>\$ 548.5</u>	<u>\$ 1,707.6</u>

- (1) Reflects principal payments, related interest and applicable fees due on the Series 2005-1 Notes, the Series 2007-1 Notes, the 2010 Senior Notes, the 2012 Senior Notes and the 2012 Facility, as described in Note 12 to the condensed consolidated financial statements
- (2) Reflects a \$2.3 million contingent cash payment related to the November 18, 2010 acquisition of CSI Global Education, Inc. The cash payment is dependent upon the achievement of a certain contractual milestone by January 2016.
- (3) Reflects projected benefit contributions to the Company's funded U.S. DBPP and payments relating to the Company's U.S. unfunded DBPPs and Other Retirement Plans described in Note 11 to the condensed consolidated financial statements
- (4) The table above does not include the Company's net long-term tax liabilities of \$222.7 million relating to UTP and Legacy Tax Matters, since the expected cash outflow of such amounts by period cannot be reasonably estimated. This amount is excluded as the exact amount of the payment is still uncertain. In addition, the table above does not include the following relating to the acquisition of Copal; (i) the \$14.2 million note payable as described in Note 12 to the consolidated financial statements, (ii) \$8.2 million in contingent consideration payments and (iii) the \$78.7 million Redeemable Noncontrolling Interest, as the expected cash outflow of such amounts by period cannot be reasonably estimated

Dividends

On July 15, 2013, the Board approved the declaration of a quarterly dividend of \$ 0.25 per share of Moody's common stock, payable on September 10, 2013 to shareholders of record at the close of business on August 20, 2013.

Non-GAAP Financial Measures:

In addition to its reported results, Moody's has included in this MD&A certain adjusted results that the SEC defines as "non-GAAP financial measures." Management believes that such non-GAAP financial measures, when read in conjunction with the Company's reported results, can provide useful supplemental information for investors analyzing period to period comparisons of the Company's performance, facilitate comparisons to competitors' operating results and can provide greater transparency to investors of supplemental information used by management in its financial and operational decision-making. These non-GAAP measures, as defined by the Company, are not necessarily comparable to similarly defined measures of other companies. Furthermore, these non-GAAP measures should not be viewed in isolation or used as a substitute for other GAAP measures in assessing the operating performance or cash flows of the Company. Below are brief descriptions of the Company's non-GAAP financial measures accompanied by a reconciliation of the non-GAAP measure to its most directly comparable GAAP measure:

Table of Contents

Adjusted Operating Income and Adjusted Operating Margin :

The Company presents Adjusted Operating Income because management deems this metric to be a useful measure of assessing the operating performance of Moody's, measuring the Company's ability to service debt, fund capital expenditures, and expand its business. Adjusted Operating Income excludes depreciation and amortization because companies utilize productive assets of different ages. Companies also have different methods of depreciating and amortizing productive assets. Management believes that the exclusion of this item allows for a more meaningful comparison of the Company's operating results from period to period and across companies. Below is a reconciliation of the Company's operating income and operating margin to Adjusted Operating Income and Adjusted Operating Margin:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2013	2012	2013	2012
Operating income	\$350.8	\$278.5	\$631.2	\$547.5
Adjustments:				
Depreciation and amortization	23.1	22.1	46.7	45.6
Adjusted Operating Income	<u>\$373.9</u>	<u>\$300.6</u>	<u>\$677.9</u>	<u>\$593.1</u>
Operating Margin	46.4%	43.5%	42.4%	42.5%
Adjusted Operating Margin	49.5%	46.9%	45.6%	46.1%

Non-GAAP Diluted EPS

The Company presents this non-GAAP measure to exclude the impact of litigation settlements to allow for a more meaningful comparison of Moody's diluted earnings per share from period to period. Below is a reconciliation of these measures to their most directly comparable U.S. GAAP amount:

	Six Months Ended June 30, 2013
Diluted EPS - GAAP	\$ 1.83
Impact of litigation settlements	0.14
Diluted EPS - Non-GAAP	<u>\$ 1.97</u>

	Full Year Ended December 31, 2013
Diluted EPS guidance - GAAP	\$3.35 - \$3.45
Impact of litigation settlements	0.14
Diluted EPS guidance - Non-GAAP	<u>\$3.49 - \$3.59</u>

Table of Contents

Free Cash Flow:

The Company defines free cash flow as net cash provided by operating activities minus payments for capital additions. Management believes that free cash flow is a useful metric in assessing the Company's cash flows to service debt, pay dividends and to fund acquisitions and share repurchases. Management deems capital expenditures essential to the Company's product and service innovations and maintenance of Moody's operational capabilities. Accordingly, capital expenditures are deemed to be a recurring use of Moody's cash flow. Below is a reconciliation of the Company's net cash flows from operating activities to free cash flow:

	Six Months Ended	
	June 30,	
	2013	2012
Net cash flows provided by operating activities	\$ 369.1	\$ 235.5
Capital additions	(18.1)	(21.9)
Free cash flow	<u>\$ 351.0</u>	<u>\$ 213.6</u>
Net cash used in investing activities	\$ (19.0)	\$ (25.9)
Net cash used in financing activities	\$(426.2)	\$(142.5)

2013 Outlook

Moody's outlook for 2013 is based on assumptions about many macroeconomic and capital market factors, including interest rates, corporate profitability and business investment spending, merger and acquisition activity, consumer borrowing and securitization, and the amount of debt issued. There is an important degree of uncertainty surrounding these assumptions and, if actual conditions differ, Moody's results for the year may differ materially from the current outlook. Moody's guidance assumes foreign currency translation at end-of-quarter exchange rates.

Moody's full-year EPS guidance remains \$3.35 to \$3.45 on a GAAP basis, including the \$0.14 per share impact of the litigation settlement charge. Moody's full-year 2013 non-GAAP EPS guidance range, which excludes the impact of the litigation settlement charge, remains \$3.49 to \$3.59. For Moody's overall, the Company still expects full-year 2013 revenue to grow in the high-single-digit percent range. Full-year 2013 operating expenses are still projected to increase in the mid-single-digit percent range. Full-year 2013 operating margin is still projected to be 41 to 42 percent and Adjusted Operating Margin for the year is still expected to be 44 to 45 percent. Guidance ranges for operating expenses, operating margin and Adjusted Operating Margin all include the first quarter litigation settlement charge. The effective tax rate is still expected to be approximately 32 percent. Moody's has raised its annualized dividend to \$1.00 per share, a 25% increase from the prior \$0.80. Full-year 2013 total share repurchases are now expected to be approximately \$1 billion, subject to available cash, market conditions and other ongoing capital allocation decisions. Capital expenditures are still projected to be approximately \$50 million. The Company still expects approximately \$100 million in depreciation and amortization expense. Free cash flow is still expected to be approximately \$850 million.

Certain components of 2013 revenue guidance have been modified to reflect the Company's current view of business conditions. For the global MIS business, revenue for full-year 2013 is still expected to increase in the high-single-digit percent range. Both U.S. and non-U.S. MIS revenue are also now expected to increase in the high-single-digit percent range. Corporate finance revenue is now projected to grow in the low-teens percent range. Revenue from structured finance is now expected to decrease in the low-single-digit percent range, while revenue from financial institutions is still expected to grow in the low-single-digit percent range. Public, project and infrastructure finance revenue is still expected to increase in the low-double-digit percent range.

Table of Contents

For MA, full-year 2013 revenue is still expected to increase in the high-single-digit percent range. Within the U.S., MA revenue is now expected to increase in the low-double-digit percent range. Non-U.S. revenue is now expected to increase in the mid-single-digit percent range. Revenue from research, data and analytics is still projected to grow in the high-single-digit percent range, while revenue for enterprise risk solutions is still expected to grow in the low-double-digit percent range. Professional services revenue is still expected to grow in the high-single-digit percent range.

Recently Issued Accounting Pronouncements

In February 2013, the FASB issued ASU No. 2013-02, "Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income". The objective of this ASU is to improve reporting by requiring entities to report the effect of significant reclassifications out of accumulated other comprehensive income on the respective line items in the statement of operations. The amendments in this ASU are required to be applied prospectively and are effective for reporting periods beginning after December 15, 2012. The Company has fully adopted all provisions of this ASU as of January 1, 2013 and the implementation did not have any impact on the Company's consolidated financial statements other than to provide additional footnote disclosure which is included in Note 10.

Contingencies

From time to time, Moody's is involved in legal and tax proceedings, governmental investigations and inquiries, claims and litigation that are incidental to the Company's business, including claims based on ratings assigned by MIS. Moody's is also subject to ongoing tax audits in the normal course of business. Management periodically assesses the Company's liabilities and contingencies in connection with these matters based upon the latest information available. Moody's discloses material pending legal proceedings pursuant to SEC rules and other pending matters as it may determine to be appropriate.

Following events in the global credit markets over the last several years, including in the U.S. subprime residential mortgage sector, MIS and other credit rating agencies are the subject of intense scrutiny, increased regulation, ongoing inquiry and governmental investigations, and civil litigation. Legislative, regulatory and enforcement entities around the world are considering additional legislation, regulation and enforcement actions, including with respect to MIS's compliance with newly imposed regulatory standards. Moody's has received subpoenas and inquiries from states attorneys general and other domestic and foreign governmental authorities and is responding to such investigations and inquiries.

In addition, the Company is facing litigation from market participants relating to the performance of MIS rated securities. Although Moody's in the normal course experiences such litigation, the volume and cost of defending such litigation has significantly increased following the events in the U.S. subprime residential mortgage sector and global credit markets more broadly over the last several years.

Two purported class action complaints have been filed by purported purchasers of the Company's securities against the Company and certain of its senior officers, asserting claims under the federal securities laws. The first was filed by Raphael Nach in the U.S. District Court for the Northern District of Illinois on July 19, 2007. The second was filed by Teamsters Local 282 Pension Trust Fund in the United States District Court for the Southern District of New York on September 26, 2007. Both actions have been consolidated into a single proceeding entitled *In re Moody's Corporation Securities Litigation* in the U.S. District Court for the Southern District of New York. On June 27, 2008, a consolidated amended complaint was filed, purportedly on behalf of all purchasers of the Company's securities during the period February 3, 2006 through October 24, 2007. Plaintiffs allege that the defendants issued false and/or misleading statements concerning the Company's business conduct, business prospects, business conditions and financial results relating primarily to MIS's ratings of structured finance products including RMBS, CDO and constant-proportion debt obligations. The plaintiffs seek an unspecified amount of compensatory damages and their reasonable costs and expenses

Table of Contents

incurred in connection with the case. The Company moved for dismissal of the consolidated amended complaint in September 2008. On February 23, 2009, the court issued an opinion dismissing certain claims and sustaining others. On January 22, 2010, plaintiffs moved to certify a class of individuals who purchased Moody's Corporation common stock between February 3, 2006 and October 24, 2007, which the Company opposed. On March 31, 2011, the court issued an opinion denying plaintiffs' motion to certify the proposed class. On April 14, 2011, plaintiffs filed a petition in the United States Court of Appeals for the Second Circuit seeking discretionary permission to appeal the decision. The Company filed its response to the petition on April 25, 2011. On July 20, 2011, the Second Circuit issued an order denying plaintiffs' petition for leave to appeal. On September 14, 2012, the Company filed a motion for summary judgment, which was fully briefed on December 21, 2012. Oral arguments on the motion for summary judgment took place on April 9, 2013.

On August 25, 2008, Abu Dhabi Commercial Bank filed a purported class action in the United States District Court for the Southern District of New York asserting numerous common-law causes of action against two subsidiaries of the Company, another rating agency, and Morgan Stanley & Co. The action related to securities issued by a structured investment vehicle called Cheyne Finance (the "Cheyne SIV") and sought, among other things, compensatory and punitive damages. The central allegation against the rating agency defendants was that the credit ratings assigned to the securities issued by the Cheyne SIV were false and misleading. In early proceedings, the court dismissed all claims against the rating agency defendants except those for fraud and aiding and abetting fraud. In June 2010, the court denied plaintiff's motion for class certification, and additional plaintiffs were subsequently added to the complaint. In January 2012, the rating agency defendants moved for summary judgment with respect to the fraud and aiding and abetting fraud claims. Also in January 2012, in light of new New York state case law, the court permitted the plaintiffs to file an amended complaint that reasserted previously dismissed claims against all defendants for breach of fiduciary duty, negligence, negligent misrepresentation, and related aiding and abetting claims. In May 2012, the court, ruling on the rating agency defendants' motion to dismiss, dismissed all of the reasserted claims except for the negligent misrepresentation claim, and on September 19, 2012, after further proceedings, the court also dismissed the negligent misrepresentation claim. On August 17, 2012, the court ruled on the rating agencies' motion for summary judgment on the plaintiffs' remaining claims for fraud and aiding and abetting fraud. The court dismissed, in whole or in part, the fraud claims of four plaintiffs as against Moody's but allowed the fraud claims to proceed with respect to certain claims of one of those plaintiffs and the claims of the remaining 11 plaintiffs. The court also dismissed all claims against Moody's for aiding and abetting fraud. Three of the plaintiffs whose claims were dismissed filed motions for reconsideration, and on November 7, 2012, the court granted two of these motions, reinstating the claims of two plaintiffs that were previously dismissed. On February 1, 2013, the court dismissed the claims of one additional plaintiff on jurisdictional grounds. Trial on the remaining fraud claims against the rating agencies, and on claims against Morgan Stanley for aiding and abetting fraud and for negligent misrepresentation, was scheduled for May 2013. On April 24, 2013, pursuant to confidential settlement agreements, the 14 plaintiffs with claims that had been ordered to trial stipulated to the voluntary dismissal, with prejudice, of these claims as against all defendants, and the Court so ordered that stipulation on April 26, 2013. The settlement did not cover certain claims of two plaintiffs that were previously dismissed by the Court. On May 23, 2013, these two plaintiffs filed a Notice of Appeal to the Second Circuit, seeking reversal of the dismissal of their claims and also seeking reversal of the Court's denial of class certification. According to pleadings filed by plaintiffs in earlier proceedings, they seek approximately \$76 million in total compensatory damages in connection with the two claims at issue on the appeal.

In October 2009, plaintiffs King County, Washington and Iowa Student Loan Liquidity Corporation each filed substantially identical putative class actions in the Southern District of New York against two subsidiaries of the Company and several other defendants, including two other rating agencies and IKB Deutsche Industriebank AG. These actions arose out of investments in securities issued by a structured investment vehicle called Rhinebridge Plc (the "Rhinebridge SIV") and sought, among other things, compensatory and punitive damages. Each complaint asserted a claim for common law fraud against the rating agency defendants, alleging, among other things, that the credit ratings assigned to the securities issued by the Rhinebridge SIV were false and misleading. The case was assigned to the same

Table of Contents

judge presiding over the litigation concerning the Cheyne SIV, described above. In April 2010, the court denied the rating agency defendants' motion to dismiss. In June 2010, the court consolidated the two cases and the plaintiffs filed an amended complaint that, among other things, added Morgan Stanley & Co. as a defendant. In January 2012, in light of new New York state case law, the court permitted the plaintiffs to file an amended complaint that asserted claims against the rating agency defendants for breach of fiduciary duty, negligence, negligent misrepresentation, and aiding and abetting claims. In May 2012, the court, ruling on the rating agency defendants' motion to dismiss, dismissed all of the new claims except for the negligent misrepresentation claim and a claim for aiding and abetting fraud; on September 28, 2012, after further proceedings, the court also dismissed the negligent misrepresentation claim. Plaintiffs did not seek class certification. On September 7, 2012 the rating agencies filed a motion for summary judgment dismissing the remaining claims against them. On January 3, 2013, the Court issued an order dismissing the claim for aiding and abetting fraud against the rating agencies but allowing the claim for fraud to proceed to trial. In June 2012 and March 2013, respectively, defendants IKB Deutsche Industriebank AG (and a related entity) and Fitch, Inc. informed the court that they had executed confidential settlement agreements with the plaintiffs. On April 24, 2013, pursuant to a confidential settlement agreement, the plaintiffs stipulated to the voluntary dismissal, with prejudice, of all remaining claims as against the remaining defendants, including Moody's, and the Court so ordered that stipulation on April 26, 2013.

For claims, litigation and proceedings and governmental investigations and inquires not related to income taxes, where it is both probable that a liability is expected to be incurred and the amount of loss can be reasonably estimated, the Company records liabilities in the consolidated financial statements and periodically adjusts these as appropriate. When the reasonable estimate of the loss is within a range of amounts, the minimum amount of the range is accrued unless some higher amount within the range is a better estimate than another amount within the range. In other instances, because of uncertainties related to the probable outcome and/or the amount or range of loss, management does not record a liability but discloses the contingency if significant. As additional information becomes available, the Company adjusts its assessments and estimates of such matters accordingly. In view of the inherent difficulty of predicting the outcome of litigation, regulatory, governmental investigations and inquiries, enforcement and similar matters and contingencies, particularly where the claimants seek large or indeterminate damages or where the parties assert novel legal theories or the matters involve a large number of parties, the Company cannot predict what the eventual outcome of the pending matters will be or the timing of any resolution of such matters. The Company also cannot predict the impact (if any) that any such matters may have on how its business is conducted, on its competitive position or on its financial position, results of operations or cash flows. As the process to resolve any pending matters progresses, management will continue to review the latest information available and assess its ability to predict the outcome of such matters and the effects, if any, on its operations and financial condition. However, in light of the large or indeterminate damages sought in some of them, the absence of similar court rulings on the theories of law asserted and uncertainties regarding apportionment of any potential damages, an estimate of the range of possible losses cannot be made at this time.

Legacy Tax Matters

Moody's continues to have exposure to potential liabilities arising from Legacy Tax Matters. As of June 30, 2013, Moody's has recorded liabilities for Legacy Tax Matters totaling \$39.8 million. This includes liabilities and accrued interest due to New D&B arising from the 2000 Distribution Agreement. It is possible that the ultimate liability for Legacy Tax Matters could be greater than the liabilities recorded by the Company, which could result in additional charges that may be material to Moody's future reported results, financial position and cash flows.

The following summary of the relationships among Moody's, New D&B and their predecessor entities is important in understanding the Company's exposure to the Legacy Tax Matters.

In November 1996, The Dun & Bradstreet Corporation separated into three separate public companies: The Dun & Bradstreet Corporation, ACNielsen Corporation and Cognizant Corporation. In June 1998, The Dun & Bradstreet Corporation separated into two separate public companies: Old D&B and R.H. Donnelley Corporation. During 1998, Cognizant separated into two separate public companies: IMS Health Incorporated and Nielsen Media Research, Inc. In September 2000, Old D&B separated into two separate public companies: New D&B and Moody's.

Table of Contents

Old D&B and its predecessors entered into global tax planning initiatives in the normal course of business. These initiatives are subject to normal review by tax authorities. Old D&B and its predecessors also entered into a series of agreements covering the sharing of any liabilities for payment of taxes, penalties and interest resulting from unfavorable IRS determinations on certain tax matters, and certain other potential tax liabilities, all as described in such agreements. Further, in connection with the 2000 Distribution and pursuant to the terms of the 2000 Distribution Agreement, New D&B and Moody's have agreed on the financial responsibility for any potential liabilities related to these Legacy Tax Matters.

At the time of the 2000 Distribution, New D&B paid Moody's \$55.0 million for 50% of certain anticipated future tax benefits through 2012. In the event that these tax benefits are not claimed or otherwise not realized by New D&B, or there is an IRS audit of New D&B impacting these tax benefits, Moody's would be required to repay to New D&B an amount equal to the discounted value of its share of the related future tax benefits as well as its share of any tax liability incurred by New D&B. In June 2011, the statute of limitations for New D&B relating to the 2004 tax year expired. As a result, in the second quarter of 2011, Moody's recorded a reduction of accrued interest expense of \$2.8 million (\$1.7 million, net of tax) and an increase in other non-operating income of \$6.4 million, relating to amounts due to New D&B. In August 2012, New D&B effectively settled examinations for the 2005 and 2006 tax years. As a result, in the third quarter of 2012, Moody's recorded a reduction of accrued interest expense of \$4.4 million (\$2.6 million, net of tax) and an increase in other non-operating income of \$12.8 million, relating to amounts due to New D&B. As of June 30, 2013, Moody's liability with respect to this matter totaled \$37.7 million. Furthermore, the Company continues to carry a \$2.1 million liability for an unrelated Legacy Tax Matter.

Regulation

MIS and many of the securities that it rates are subject to extensive regulation in both the U.S. and in other countries (including by state and local authorities). Thus, existing and proposed laws and regulations can impact the Company's operations and the markets for securities that it rates. Additional laws and regulations have been adopted but not yet implemented or have been proposed or are being considered. Each of the existing, adopted, proposed and potential laws and regulations can increase the costs and legal risk associated with the issuance of credit ratings and may negatively impact Moody's operations or profitability, the Company's ability to compete, or result in changes in the demand for credit ratings, in the manner in which ratings are utilized and in the manner in which Moody's operates.

In the EU, in 2009, the European Parliament passed a new regulation ("CRA1") that establishes an oversight regime for the CRA industry in the European Union. CRA1, which requires the registration, formal regulation and periodic inspection of CRAs operating in the EU, became fully effective in September 2010. MIS applied for registration in August 2010 and was granted registration in October 2011. In addition, through a new regulatory instrument (CRA2), the European Securities and Markets Authority was established in January 2011 and has had direct supervisory responsibility for the registered CRA industry in the EU since July 2011.

In Spring 2013, the European Union adopted rules that augmented the existing framework. These rules are commonly referred to as CRA3, and they became effective on June 20, 2013. Among other things, CRA3:

- imposes various additional procedural requirements with respect to ratings of sovereign issuers;
- requires member states to adopt laws imposing liability on CRAs for an intentional or grossly negligent failure to abide by the applicable regulations;
- imposes mandatory rotation requirements on CRAs hired by issuers of securities for ratings of securitizations, which may limit the number of years a CRA can issue ratings for such securities of a particular issuer;

Table of Contents

- imposes restrictions on CRAs or their shareholders if certain ownership thresholds are crossed; and
- imposes additional procedural and substantive requirements on the pricing of services.

Certain of the provisions of CRA3 will be subject to ESMA rule-making and it is expected that process will happen within the year.

In December 2012, the Staff of the SEC’s Trading and Markets Division published a “Report to Congress on Assigned Credit Ratings.” The delivery of this report, commonly referred to as the Franken Amendment Study, discharged one of the SEC’s obligations under the Financial Reform Act regarding the CRA industry. In the report, the SEC Staff identified several potential courses of action without endorsing any of them and noted that any changes through SEC rulemaking would require additional study of relevant information. Moody’s participated at a roundtable held by the SEC on May 14, 2013 where proponents and critics of the various options discussed the report and its findings. The timing regarding the remainder of the SEC’s rulemaking under the Financial Reform Act remains uncertain. Other legislation and regulation relating to credit rating and research services is being considered by local, national and multinational bodies and this type of activity is likely to continue in the future. In addition, in certain countries, governments may provide financial or other support to locally-based rating agencies. For example, governments may from time to time establish official rating agencies or credit ratings criteria or procedures for evaluating local issuers. If enacted, any such legislation and regulation could change the competitive landscape in which MIS operates. The legal status of rating agencies has been addressed by courts in various decisions and is likely to be considered and addressed in legal proceedings from time to time in the future. Management of the Company cannot predict whether these or any other proposals will be enacted, the outcome of any pending or possible future legal proceedings, or regulatory or legislative actions, or the ultimate impact of any such matters on the competitive position, financial position or results of operations of Moody’s.

Forward-Looking Statements

Certain statements contained in this quarterly report on Form 10-Q are forward-looking statements and are based on future expectations, plans and prospects for the Company’s business and operations that involve a number of risks and uncertainties. Such statements involve estimates, projections, goals, forecasts, assumptions and uncertainties that could cause actual results or outcomes to differ materially from those contemplated, expressed, projected, anticipated or implied in the forward-looking statements. Those statements appear at various places throughout this quarterly report on Form 10-Q, including in the sections entitled “2013 Outlook” and “Contingencies” under Item 2. “MD&A”, commencing on page 41 of this quarterly report on Form 10-Q, under “Legal Proceedings” in Part II, Item 1, of this Form 10-Q, and elsewhere in the context of statements containing the words “believe”, “expect”, “anticipate”, “intend”, “plan”, “will”, “predict”, “potential”, “continue”, “strategy”, “aspire”, “target”, “forecast”, “project”, “estimate”, “should”, “could”, “may” and similar expressions or words and variations thereof relating to the Company’s views on future events, trends and contingencies. Stockholders and investors are cautioned not to place undue reliance on these forward-looking statements. The forward-looking statements and other information are made as of the date of this quarterly report on Form 10-Q, and the Company undertakes no obligation (nor does it intend) to publicly supplement, update or revise such statements on a going-forward basis, whether as a result of subsequent developments, changed expectations or otherwise. In connection with the “safe harbor” provisions of the Private Securities Litigation Reform Act of 1995, the Company is identifying examples of factors, risks and uncertainties that could cause actual results to differ, perhaps materially, from those indicated by these forward-looking statements.

Those factors, risks and uncertainties include, but are not limited to, the current world-wide credit market disruptions and economic slowdown, which is affecting and could continue to affect the volume of debt and other securities issued in domestic and/or global capital markets; other matters that could affect the volume of debt and other securities issued in domestic and/or global capital markets, including credit quality concerns, changes in interest rates and other volatility in

Table of Contents

the financial markets; the uncertain effectiveness and possible collateral consequences of U.S. and foreign government initiatives to respond to the current world-wide credit market disruptions and economic slowdown; concerns in the marketplace affecting our credibility or otherwise affecting market perceptions of the integrity or utility of independent credit agency ratings; the introduction of competing products or technologies by other companies; pricing pressure from competitors and/or customers; the impact of regulation as an NRSRO, the potential for new U.S., state and local legislation and regulations, including provisions in the Financial Reform Act and anticipated regulations resulting from that Act; the potential for increased competition and regulation in the EU and other foreign jurisdictions; exposure to litigation related to our rating opinions, as well as any other litigation to which the Company may be subject from time to time; provisions in the Financial Reform Act legislation modifying the pleading standards, and EU regulations modifying the liability standards, applicable to credit rating agencies in a manner adverse to credit rating agencies; provisions of EU regulations imposing additional procedural and substantive requirements on the pricing of services; the possible loss of key employees; failures or malfunctions of our operations and infrastructure; any vulnerabilities to cyber threats or other cybersecurity concerns; the outcome of any review by controlling tax authorities of the Company's global tax planning initiatives; the outcome of those Legacy Tax Matters and legal contingencies that relate to the Company, its predecessors and their affiliated companies for which Moody's has assumed portions of the financial responsibility; the ability of the Company to successfully integrate acquired businesses; currency and foreign exchange volatility; and a decline in the demand for credit risk management tools by financial institutions. These factors, risks and uncertainties as well as other risks and uncertainties that could cause Moody's actual results to differ materially from those contemplated, expressed, projected, anticipated or implied in the forward-looking statements are described in greater detail under "Risk Factors" in Part I, Item 1A of the Company's annual report on Form 10-K for the year ended December 31, 2012, and in other filings made by the Company from time to time with the SEC or in materials incorporated herein or therein. Stockholders and investors are cautioned that the occurrence of any of these factors, risks and uncertainties may cause the Company's actual results to differ materially from those contemplated, expressed, projected, anticipated or implied in the forward-looking statements, which could have a material and adverse effect on the Company's business, results of operations and financial condition. New factors may emerge from time to time, and it is not possible for the Company to predict new factors, nor can the Company assess the potential effect of any new factors on it.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

There was no material change in the Company's exposure to market risk since December 31, 2012. For a discussion of the Company's exposure to market risk, refer to Item 7A. "Quantitative and Qualitative Disclosures about Market Risk", contained in the Company's annual report on Form 10-K for the year ended December 31, 2012.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures: The Company carried out an evaluation, as required by Rule 13a-15(b) under the Exchange Act, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures, as defined in Rule 13a-15(e) of the Exchange Act, as of the end of the period covered by this report (the "Evaluation Date"). Based on such evaluation, such officers have concluded that, as of the Evaluation Date, the Company's disclosure controls and procedures were effective to provide reasonable assurance that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the communication to the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

In addition, the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, has determined that there were no changes in the Company's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, these internal controls over financial reporting during the period covered by the report.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

See the discussion of legal matters under Part I, Item 2. “MD&A – Contingencies”, commencing on page 66 of this quarterly report on Form 10-Q, which is incorporated into this Item 1 by reference.

Item 1A. Risk Factors

There have been no material changes since December 31, 2012 to the significant risk factors and uncertainties known to the Company that, if they were to occur, could materially adversely affect the Company’s business, financial condition, operating results and/or cash flow. For a discussion of the Company’s risk factors, refer to Item 1A. “Risk Factors”, contained in the Company’s annual report on Form 10-K for the year ended December 31, 2012.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

**MOODY’S PURCHASES OF EQUITY SECURITIES
For the Three Months Ended June 30, 2013**

<u>Period</u>	<u>Total Number of Shares Purchased (1)</u>	<u>Average Price Paid per Share</u>	<u>Total Number of Shares Purchased as Part of Publicly Announced Program</u>	<u>Approximate Dollar Value of Shares That May Yet be Purchased Under the Program (2)</u>
April 1 - 30	601,663	\$ 53.16	600,865	\$ 1,554.0 million
May 1 - 31	1,477,996	\$ 66.03	1,477,996	\$ 1,456.4 million
June 1 - 30	2,050,875	\$ 63.10	2,050,875	\$ 1,326.9 million
Total	<u>4,130,534</u>	\$ 62.70	<u>4,129,736</u>	

- (1) Includes the surrender to the Company of 798 shares of common stock in April to satisfy tax withholding obligations in connection with the vesting of restricted stock issued to employees
- (2) As of the last day of each of the months and reflects the remaining authority under all of the Company’s publicly announced programs. On July 30, 2007, the Company’s Board authorized a \$2.0 billion share repurchase program which the Company began utilizing in January 2008 upon completion of the June 2006 authorization. On February 12, 2013, the Board authorized a new \$1 billion share repurchase program. The Company expects to commence repurchases under the new program immediately following the completion of the existing program. There is no established expiration date for either of the remaining authorizations.

During the second quarter of 2013, Moody’s issued 1.7 million shares under employee stock-based compensation plans.

STATEMENT OF COMPUTATION OF RATIOS OF EARNINGS TO FIXED CHARGES

<i>amounts in millions, except fixed charges ratios</i>	<u>Six Months Ended June 30,</u>		<u>Year Ended December 31,</u>				
	<u>2013</u>	<u>2012</u>	<u>2012</u>	<u>2011</u>	<u>2010</u>	<u>2009</u>	<u>2008</u>
Earnings:							
Income before income taxes and noncontrolling interests	\$ 604.0	\$ 523.2	\$1,024.0	\$839.8	\$714.4	\$646.2	\$729.8
Add:							
Fixed charges (see below)	58.2	42.0	98.7	101.7	85.3	70.2	96.3
Amortization of capitalized interest	0.4	0.4	0.7	0.2	0.2	0.1	0.1
Less:							
Capitalized interest	—	(0.1)	—	3.1	1.8	1.5	1.1
Total earnings for computation of ratio	<u>\$ 662.6</u>	<u>\$ 565.7</u>	<u>\$1,123.4</u>	<u>\$938.6</u>	<u>\$798.1</u>	<u>\$715.0</u>	<u>\$825.1</u>
Fixed charges:							
Interest expense on borrowings ⁽¹⁾	\$ 41.5	\$ 32.8	\$ 73.8	\$ 65.5	\$ 52.2	\$ 45.5	\$ 60.0
Interest expense (income), net on unrecognized tax benefits and other tax-related liabilities ⁽²⁾	4.6	(3.5)	(0.4)	8.7	7.7	(1.6)	13.7
Interest capitalized	—	(0.1)	—	3.1	1.8	1.5	1.1
Estimated interest portion of rental expense ⁽³⁾	12.1	12.8	25.3	24.4	23.6	24.8	21.5
Total fixed charges	<u>\$ 58.2</u>	<u>\$ 42.0</u>	<u>\$ 98.7</u>	<u>\$101.7</u>	<u>\$ 85.3</u>	<u>\$ 70.2</u>	<u>\$ 96.3</u>
Ratio of earnings to fixed charges	11.4	13.5	11.4	9.2	9.4	10.2	8.6

- (1) Amounts are net of gains and losses on certain interest rate swaps that the Company utilizes to mitigate interest rate risk on its borrowings
- (2) Represents net interest expense (income) related to unrecognized tax benefits and other tax-related liabilities. There may be periods whereby interest expense may be wholly or partially offset by reductions in accrued interest due to the completion of tax audits or updates to the Company's tax positions which could result in the reversal of accrued interest
- (3) Represents one third of rent expense which is our estimate of the interest component of rent expense

**CHIEF EXECUTIVE OFFICER CERTIFICATION
PURSUANT TO SECTION 302 OF THE
SARBANES-OXLEY ACT OF 2002**

I, Raymond W. McDaniel, Jr., President and Chief Executive Officer of Moody's Corporation, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Moody's Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the periods covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15(d)-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
