**Genworth Financial Mortgage Insurance Pty Limited**  
**Notes to Condensed Consolidated Financial Statements**  
**Three Months Ended March 31, 2011 and 2010**  
**(Unaudited)**

**(1) Nature of Business, Formation of Genworth Mortgage and Basis of Presentation**

Genworth Financial Mortgage Insurance Pty Limited (“Genworth Mortgage” or the “Company” as appropriate) offers mortgage insurance products in Australia and New Zealand and is headquartered in Sydney, Australia. In particular, the Company offers primary mortgage insurance, known as “lenders mortgage insurance,” or LMI, and portfolio credit enhancement policies. The principal product is LMI, which is generally single premium business and provides 100% coverage of the loan amount in the event of a mortgage default. The nature of the Australian economy is that the majority of mortgages are originated through the big four banks; therefore, the Company has a high concentration of business written over mortgages originating through these lenders.

The Company’s condensed consolidated financial statements are unaudited and have been prepared in accordance with U.S. generally accepted accounting principles (“U.S. GAAP”) and rules and regulations of the United States Securities and Exchange Commission (“SEC”) disclosure requirements for interim financial information. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete consolidated financial statements. These condensed consolidated financial statements include all adjustments considered necessary by management to present a fair statement of the financial position, results of operations and cash flow for the periods presented. The results reported in these condensed consolidated financial statements should not be regarded as necessarily indicative of results that may be expected for the entire year. The condensed consolidated financial statements included herein should be read in conjunction with the audited financial statements and related notes contained in our 2010 year end financial statements on Form 8-K furnished on March 29, 2011.

The Company’s management has determined that the Company has one reportable operating segment, mortgage insurance.

The condensed consolidated financial statements are presented in U.S. dollars. The accompanying financial statements include Genworth Financial Mortgage Indemnity Limited and are prepared on a consolidated basis. All intercompany transactions have been eliminated in the consolidated financial statements.

**(2) Accounting Pronouncements**

*Recently adopted*

On January 1, 2011, we adopted new accounting guidance related to goodwill impairment testing when a reporting unit’s carrying value is zero or negative. This guidance did not impact our consolidated financial statements upon adoption, as the reporting unit’s goodwill balance has a positive carrying value.

On January 1, 2011, we adopted new accounting guidance related to additional disclosures about purchases, sales, issuances and settlements in the rollforward of Level 3 fair value measurements. The adoption of this new accounting guidance did not have a material impact on our consolidated financial statements.

*Not Yet Adopted*

In October 2010, the Financial Accounting Standard Board (the “FASB”) issued new accounting guidance related to accounting for costs associated with acquiring or renewing insurance contracts. This new accounting guidance will be effective for us on January 1, 2012. When adopted, we expect to defer fewer costs. The new guidance is effective prospectively with retrospective adoption allowed. We have not yet determined the method nor impact this accounting guidance will have on our consolidated financial statements.

**Genworth Financial Mortgage Insurance Pty Limited**  
**Notes to Condensed Consolidated Financial Statements**  
**Three Months Ended March 31, 2011 and 2010**  
**(Unaudited)**

**(3) Investments**

*Net Investment Income*

Sources of net investment income were as follows for the periods indicated:

<u>(U.S. dollar amounts in thousands)</u>	Three months ended March 31,	
	2011	2010
Fixed maturity securities	\$41,088	\$35,554
Cash and cash equivalents	2,998	2,690
Gross investment income before expenses and fees	44,086	38,244
Expenses and fees	(1,230)	(1,268)
Net investment income	<u>\$42,856</u>	<u>\$36,976</u>

*Net Investment Gains and Losses*

The following table sets forth net investment gains (losses) for the periods indicated:

<u>(U.S. dollar amounts in thousands)</u>	Three months ended March 31,	
	2011	2010
Available-for-sale investment securities:		
Realized gains on sale	\$ 563	\$ 193
Realized losses on sale	(226)	(45)
Net realized gains (losses) on available-for-sales securities	<u>337</u>	<u>148</u>
Impairments:		
Total other-than-temporary impairments	—	—
Portion of other-than-temporary impairments included in other comprehensive income (loss)	—	—
Net other-than-temporary impairments	—	—
Net investment gains (losses)	<u>\$ 337</u>	<u>\$ 148</u>

The Company generally intends to hold securities in unrealized loss positions until they recover. However, from time to time, the intent on an individual security may change, based upon market or other unforeseen developments. In such instances, the Company sells securities in the ordinary course of managing its portfolio to meet diversification, credit quality, yield and liquidity requirements. If a loss is recognized from a sale subsequent to a balance sheet date due to these unexpected developments, the loss is recognized in the period in which the intent to hold the securities to recovery no longer exists.

The aggregate fair value of securities sold at a loss during the three months ended March 31, 2011 and 2010 was \$30 million and \$11 million, respectively, which was approximately 99.3% and 99.8% of book value, respectively.

**Genworth Financial Mortgage Insurance Pty Limited**  
**Notes to Condensed Consolidated Financial Statements**  
**Three Months Ended March 31, 2011 and 2010**  
**(Unaudited)**

*Unrealized Investment Gains and Losses*

Net unrealized gains and losses on available-for-sale investment securities reflected as a separate component of accumulated other comprehensive income (loss) were as follows as of the dates indicated:

<u>(U.S. dollar amounts in thousands)</u>	March 31, <u>2011</u>	December 31, <u>2010</u>
Net unrealized gains (losses) on available-for-sale investment securities:		
Fixed maturity securities	\$13,862	\$ (7,677)
Deferred income taxes	(4,006)	2,407
Net unrealized investment gains (losses)	<u>\$ 9,856</u>	<u>\$ (5,270)</u>

The change in net unrealized gains (losses) on available-for-sale investment securities reported in accumulated other comprehensive income (loss) was as follows for the three months ended March 31:

<u>(U.S. dollar amounts in thousands)</u>	<u>2011</u>	<u>2010</u>
Beginning balance	\$ (5,270)	\$ 3,627
Unrealized gains (losses) arising during the period:		
Unrealized gains (losses) on investment securities	21,876	(4,489)
Provision for deferred taxes	(6,514)	1,347
Change in unrealized gains (losses)	15,362	(3,142)
Reclassification adjustments to net investment gains (losses), net of taxes of \$101 and \$44	(236)	(104)
Ending balance	<u>\$ 9,856</u>	<u>\$ 381</u>

*Fixed Maturity Securities*

As of March 31, 2011, the amortized cost or cost, gross unrealized gains and losses and fair value of the fixed maturity securities classified as available-for-sale were as follows:

<u>(U.S. dollar amounts in thousands)</u>	<u>Amortized cost or cost</u>	<u>Gross unrealized gains on securities</u>		<u>Gross unrealized losses on securities</u>		<u>Fair value</u>
		<u>Not other-than- temporarily impaired</u>	<u>Other-than- temporarily impaired</u>	<u>Not other-than- temporarily impaired</u>	<u>Other-than- temporarily impaired</u>

We expect our investments in corporate securities will continue to perform in accordance with our conclusions about the amount and timing of estimated cash flows. Although we do not anticipate such events, it is at least reasonably possible that issuers of our investments in corporate securities will perform worse than current expectations. Such events may lead us to recognize potential future write-downs within our portfolio of corporate securities.

The following table presents the concentration of gross unrealized losses related to corporate securities by industry as of March 31, 2011:

<u>(U.S. dollar amounts in thousands)</u>	<u>Investment grade</u>		<u>Below investment grade</u>	
	Less than	12 months	Less than	12 months

The other industry category primarily consists of foreign agency, supranational, foreign local government and sovereign securities.

Given the current market conditions, including current financial industry events and uncertainty around global economic conditions, the fair value of these securities has declined due to credit spreads that have widened since acquisition. In our examination of these securities, we considered all available evidence, including the issuers' financial condition and current industry events to develop our conclusion on the

The scheduled maturity distribution of fixed maturity securities as of March 31, 2011 is set forth below. Actual maturities may differ from contractual maturities because issuers of securities may have the right to call or prepay obligations with or without call or prepayment penalties.

<u>(U.S. dollar amounts in thousands)</u>	<u>Amortized cost or cost</u>	<u>Fair value</u>
Due one year or less	\$ 255,096	\$ 255,978
Due after one year through five years	1,976,837	1,988,461
Due after five years through ten years	602,063	606,098
Due after ten years	53,619	53,736
Subtotal	<u>2,887,615</u>	<u>2,904,273</u>
Residential mortgage-backed securities	50,246	50,246
Total	<u>\$2,937,861</u>	<u>\$2,954,519</u>

As of March 31, 2011, \$86 million of investments were subject to certain call provisions. Typically, call provisions provide the issuer the ability to redeem a security, prior to its stated maturity, at or above par.

*Investment Concentrations*

As of March 31, 2011, securities issued by finance and insurance industry groups and foreign state government represented approximately 22% and 42%, respectively, of the corporate fixed maturity securities portfolio held by the Company.

As of March 31, 2011, the Company held \$433 million in corporate fixed maturity securities issued by the New South Wales Treasury Corporation, which comprised 22% of total stockholders' equity. Additionally, the Company held \$358 million in corporate fixed maturity securities issued by Queensland Treasury Corporation, which comprised 18% of total stockholder's equity. No other single issuer exceeded 10% of total stockholders' equity.

**(4) Fair Value Measurements**

*Recurring Fair Value Measurements*

We have fixed maturity securities which are carried at fair value. Below is a description of the valuation techniques and inputs used to determine fair value by class of instrument.

*Fixed maturity securities*

The valuations of fixed maturity securities are determined using a market approach, income approach or a combination of the market and income approach depending on the type of instrument and availability of information.

We utilize certain third-party data providers when determining fair value. We consider information obtained from third-party pricing services as well as third-party broker provided prices, or broker quotes, in our determination of fair value. Additionally, we utilize internal models to determine the valuation of securities using an income approach where the inputs are based on third-party provided market inputs. While we consider the valuations provided by third-party pricing services and broker quotes, management determines the fair value of our investment securities after considering all relevant and available information. We also obtain an understanding of the valuation methodologies and procedures used by third-party data providers to ensure sufficient understanding to evaluate the valuation data received and determine the appropriate fair value.

**Genworth Financial Mortgage Insurance Pty Limited**  
**Notes to Condensed Consolidated Financial Statements**  
**Three Months Ended March 31, 2011 and 2010**  
**(Unaudited)**

In general, we first obtain valuations from pricing services. If a price is not supplied by a pricing service, we will typically seek a broker quote. For certain private fixed maturity securities where we do not obtain valuations from pricing services, we utilize an internal model to determine fair value since transactions for identical securities are not readily observable and these securities are not typically valued by pricing services. For all securities, excluding certain private fixed maturity securities, if neither a pricing service nor broker quote valuation is available, we determine fair value using internal models.

For pricing services, we obtain an understanding of the pricing methodologies and procedures for each type of instrument. In general, a pricing service does not provide a price for a security if sufficient information is not readily available to determine fair value or if such security is not in the specific sector or class covered by a particular pricing service. Given our understanding of the pricing methodologies and procedures of pricing services, the securities valued by pricing services are typically classified as Level 2 unless we determine the valuation process for a security or group of securities utilizes significant unobservable inputs.

For private fixed maturity securities, we utilize an internal model to determine fair value and utilize public bond spreads by sector, rating and maturity to develop the market rate that would be utilized for a similar public bond. We then add an additional premium to the public bond spread to adjust for the liquidity and other features of our private placements. We utilize the estimated market yield to discount the expected cash flows of the security to determine fair value. We assign each security an internal rating to determine an appropriate public bond spread that should be utilized in the valuation. While we generally consider the public bond spreads by sector and maturity to be observable inputs, we evaluate the similarities of our private placement with the public bonds to determine whether the spreads utilized would be considered observable inputs for the private placement being valued. To determine the significance of unobservable inputs, we calculate the impact on the valuation from the unobservable input and will classify a security as Level 3 when the impact on the valuation exceeds 10%.

For remaining securities priced using internal models, we maximize the use of observable inputs but typically utilize significant unobservable inputs to determine fair value. Accordingly, the valuations are typically classified as Level 3.

The following table summarizes the primary sources considered when determining fair value of each class of fixed maturity securities as of March 31, 2011.

<u>(U.S. dollar amounts in thousands)</u>	<u>Total</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>

**(Unaudited)**

The following tables present additional information about assets measured at fair value on a recurring basis and for which we have utilized significant unobservable (Level 3) inputs to determine fair value as of or for the dates indicated:

(U.S. dollar amounts in thousands)	Beginning balance as of January 1, 2011	Total realized and unrealized gains (losses)							Transfer out of Level 3	Ending balance as of March 31, 2011	Total gains (losses) included in net income attributable to assets still held
		Included in net income	Included in OCI	Purchases	Sales	Issuances	Settlements	Transfer in Level 3			
Fixed maturity securities:											
Government—non-U.S.	\$ 835	\$ —	\$ (18)	\$ —	\$ —	\$ —	\$ —	\$ —	\$ —	\$ 817	\$ —
Residential mortgage-backed	49,715	—	531	—	—	—	—	—	—	50,246	—
Total Level 3 assets	<u>\$ 50,550</u>	<u>\$ —</u>	<u>\$ 513</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ 51,063</u>	<u>\$ —</u>

(U.S. dollar amounts in thousands)	Beginning balance as of January 1, 2010	Total realized and unrealized gains (losses)					Transfer in Level 3	Transfer out of Level 3	Ending balance as of March 31, 2010	Total gains (losses) included in net income attributable to assets still held
		Included in net income	Included in OCI	Purchases, sales						
				issuances and settlements, net						
Fixed maturity securities:										
Government—non-U.S.	\$ 778	\$ —	\$ (15)	\$ —	\$ —	\$ —	\$ —	\$ 763	\$ —	
Corporate—non-U.S.	1,362	—	—	—	—	—	(1,362)	—	—	
Residential mortgage-backed securities	—	—	—	44,516	—	—	—	44,516	—	
Total Level 3 assets	<u>\$ 2,140</u>	<u>\$ —</u>	<u>\$ (15)</u>	<u>\$ 44,516</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$(1,362)</u>	<u>\$ 45,279</u>	<u>\$ —</u>	

Realized and unrealized gains (losses) on Level 3 assets and liabilities are primarily reported in either net investment gains (losses) within the consolidated statements of income or other comprehensive income (loss) (“OCI”) within stockholders’ equity based on the appropriate accounting treatment for the instrument.

Purchases, sales, issuances and settlements represent the activity that occurred during the period that results in a change of the asset or liability but does not represent changes in fair value for the instruments held at the beginning of the period. Such activity consists of purchases and sales of fixed maturity securities.

The amount presented for unrealized gains (losses) for assets still held as of the reporting date primarily represents accretion on certain fixed maturity securities which were recorded in net investment gains (losses).

**(6) Securitization Entities**

Part of the Company’s product offering includes portfolio credit enhancement policies to Australian regulated lenders that have originated housing loans for securitization in the Australian, European and U.S. markets. Portfolio mortgage insurance serves as an important form of credit enhancement for the Australian securitization market and the Company’s portfolio credit enhancement coverage is generally purchased for low loan-to-value, seasoned loans written by regulated institutions.

As of March 31, 2011 and December 31, 2010, the Company had a maximum exposure to loss from the provision of portfolio credit enhancement to securitization trusts sponsored by third parties of \$167 million and \$171 million, respectively. The exchange rate for calculating the maximum exposure to loss of translating the Australian dollar into the U.S. dollar as of March 31, 2011 and December 31, 2010 was \$1.04 and \$1.03, respectively. This exposure was calculated based on the expectation of a 1

**Notes to Condensed Consolidated Financial Statements**  
**Three Months Ended March 31, 2011 and 2010**  
**(Unaudited)**

in 250 year event. The Company has applied the Australian Prudential Regulation Authority (“APRA”) stress scenario to calculate this exposure. The Company holds sufficient capital resources to meet this obligation were it to occur.

**(7) Statutory Accounting**

Genworth Mortgage prepares financial statements for its regulator, APRA, in accordance with the accounting practices prescribed by the regulator, which is a comprehensive basis of accounting other than U.S. GAAP.

The balance sheet is recorded under Australian accounting standards and a prudential adjustment is made to derive the APRA capital base, being the tax-effected difference between the insurance liabilities under APRA and Australian accounting standards.

The Company’s APRA net income after tax, capital base, minimum capital requirement and solvency ratio were as follows as of and for the year ended December 31:

<u>(U.S. dollar amounts in thousands)</u>	<u>2010</u>
APRA net income after tax	\$ 169,455
APRA capital base	\$2,147,652
APRA minimum capital requirement	\$1,381,449
APRA solvency ratio	1.55

The above APRA net income after tax, capital base, minimum capital requirement and solvency ratio are the combined amounts of Genworth Financial Mortgage Insurance Pty Limited and its wholly-owned subsidiary, Genworth Financial Mortgage Indemnity Limited.

Under the prudential regulation framework in Australia, mortgage insurers are required to establish a catastrophic risk charge defined as a 1 in 250 year event. APRA specifies a formula to quantify this event. The Company is required to maintain adequate capital to fund this charge, in addition to normal insurance liabilities, by ensuring that its capital base exceeds its minimum capital requirement at all times.

As of March 31, 2011, the APRA solvency ratio was 1.62. During the first quarter of 2011, we amended a reinsurance agreement with our affiliates, Genworth Mortgage Insurance Corporation and Brookfield Life Assurance Company Limited, with an effective date of January 1, 2011 subject to approval by the North Carolina Department of Insurance which was received in April 2011. Accordingly, we did not recognize this amendment in the local regulatory financial return as requested by APRA. If this had been recognized in the first quarter of 2011, the APRA solvency ratio would have been 1.39.

The Company’s ability to pay dividends to Genworth Financial Mortgage Insurance Holdings Pty Limited is restricted to the extent the payment of dividends exceeds current year income. Any dividend above this level requires prior approval from APRA. In addition, any dividend payment must result in the Company continuing to meet the APRA minimum capital requirement.
