The Remarketing

Issuer	Genworth Financial, Inc., a Delaware corporation.
Securities Remarketed	Up to \$600,000,000 aggregate principal amount of % senior notes due 2009.
Maturity date	May 16, 2009.
Interest rate	The interest rate on the notes will be reset to % per year, effective from and after May 16, 2007, payable semi-annually in arrears on May 16 and November 16 of each year, beginning November 16, 2007.
The Remarketing	<p>We issued the notes in May 2004 in connection with our issuance and sale to the public of Equity Units. Each Equity Unit initially consisted of both a purchase contract and, initially, a 1/40, or 2.5%, undivided beneficial ownership interest in a \$1,000 principal amount senior note due May 16, 2009, which together are referred to as a Corporate Unit. In order to secure their obligations under the purchase contracts, holders of the Equity Units pledged their notes to us through a collateral agent. Pursuant to the terms of the Equity Units, the remarketing agents will use their reasonable efforts to remarket notes on behalf of current holders of Corporate Units under the terms of and subject to the conditions in the remarketing agreement among us, the remarketing agents, and The Bank of New York, as purchase contract agent and as attorney-in-fact for the holders of purchase contracts. See “Remarketing” in this prospectus supplement.</p> <p>The terms of the Equity Units and the notes require the remarketing agents to use their reasonable efforts to obtain a price for the notes to be remarketed that results in proceeds of at least 100% of the aggregate principal amount of such notes. Upon a successful remarketing, the portion of the proceeds equal to the total principal amount of the notes underlying the Corporate Units will automatically be applied to satisfy in full the Corporate Unit holders’ obligations to purchase Class A Common Stock under the related purchase contracts. If any proceeds remain after this application, the remarketing agents will remit such proceeds for the benefit of the holders.</p>
Ranking	<p>The notes rank equally with all of our other unsecured and unsubordinated obligations. The notes are not obligations of, or guaranteed by, any of our subsidiaries. As a result, the notes are structurally subordinated to all debt and other liabilities of our subsidiaries (including liabilities to policyholders and contractholders), which means that creditors of our subsidiaries will be paid from their assets before holders of the notes would have any claims to those assets. As of March 31, 2007, our subsidiaries had outstanding \$93,509 million of total liabilities, including \$2,765 million of debt (excluding, in each case, intercompany liabilities). The indenture under which the notes are issued, which we refer to as</p>

	<p>the indenture, does not limit our ability, or the ability of our subsidiaries, to issue or incur other debt or issue preferred stock. As a holding company, we depend on the ability of our subsidiaries to transfer funds to us to meet our obligations, including our obligations to pay interest on the notes. See “Risk Factors—Risk Relating to Our Business—As a holding company, we depend on the ability of our subsidiaries to transfer funds to us to pay dividends and to meet our obligations” in “Item 1A. Risk Factors” in our current report on Form 8-K, filed on April 16, 2007, which is incorporated by reference herein, and “Description of the Remarketed Notes” in this prospectus supplement.</p>

Risk Factors	<p>Your investment in the notes will involve risks. You should consider carefully all of the information set forth in this prospectus supplement, the accompanying prospectus, any free writing prospectus with respect to the remarketing filed by us with the Securities and Exchange Commission and the documents incorporated by reference herein and, in particular, you should evaluate the specific factors set forth in the section of this prospectus supplement entitled “Supplemental Risk Factors” and the section entitled “Item 1A. Risk Factors” in our current report on Form 8-K, filed April 16, 2007, before deciding whether to purchase any notes in this remarketing.</p>
Trustee, registrar and paying agent	<p>The Bank of New York</p>

SUPPLEMENTAL RISK FACTORS

You should carefully consider the supplemental risks described below in addition to the risks described in “Item 1A. Risk Factors” in our current report on Form 8-K, filed on April 16, 2007, which is incorporated by reference herein, as well as the other information contained in or incorporated by reference into this prospectus supplement and the accompanying prospectus, before investing in the notes. You could lose part or all of your investment.

There are no financial covenants in the indenture.

Neither we nor any of our subsidiaries are restricted from incurring additional debt or other liabilities, including additional senior debt, under the indenture. If we incur additional debt or liabilities, our ability to pay our obligations on the notes could be adversely affected. We expect that we will from time to time incur additional debt and other liabilities. In addition, we are not restricted from paying dividends or issuing or repurchasing our securities under the indenture.

There are no financial covenants in the indenture. You are not protected under the indenture in the event of a highly leveraged transaction, reorganization, change of control, restructuring, merger or similar transaction that may adversely affect you, except to the extent described under “Description of the Remarketed Notes—Consolidation, Merger and Conveyance of Assets as an Entirety; No Financial Covenants.”

The notes are not guaranteed by any of our subsidiaries and are structurally subordinated to the debt and other liabilities of our subsidiaries, which means that creditors of our subsidiaries will be paid from their assets before holders of the notes would have any claims to those assets.

We are a holding company and conduct substantially all of our operations through subsidiaries. However, the notes are obligations exclusively of Genworth Financial, Inc. and are not guaranteed by any of our subsidiaries. As a result, the notes are structurally subordinated to all debt and other liabilities of our subsidiaries (including liabilities to policyholders and contractholders), which means that creditors of our subsidiaries will be paid from their assets before holders of the notes would have any claims to those assets. As of March 31, 2007, our subsidiaries had outstanding \$93,509 million of total liabilities, including \$2,765 million of debt (excluding, in each case, intercompany liabilities).

If an active trading market for the notes does not develop, you may not be able to resell your notes.

There is currently no trading market for the notes and we do not plan to list the notes on any national securities exchange or include the notes in an automated quotation system. In addition, the liquidity of any trading market for the notes, and the market price quoted for the notes, may be adversely affected by changes in the overall market for these notes, by changes in interest rates and by changes in our financial performance or prospects or in the prospects of companies in our industry generally. We cannot predict the extent, if any, to which investors’ interest will lead to a liquid trading market.

If a trading market does develop, changes in our credit ratings or the debt markets could adversely affect the market price of the notes.

The price for the notes depends on many factors, including:

- our credit ratings with major credit rating agencies;
- the prevailing interest rates being paid by other companies similar to us;
- our financial condition, financial performance and future prospects; and
- the overall condition of the financial markets.

Table of Contents

The condition of the financial markets and prevailing interest rates have fluctuated in the past and are likely to fluctuate in the future. Such fluctuations could have an adverse effect on the price of the notes.

In addition, credit rating agencies continually review their ratings for the companies that they follow, including us. The credit rating agencies also evaluate the insurance industry as a whole and may change their credit rating for us based on their overall view of our industry. A negative change in our rating could have an adverse effect on the price of the notes.

USE OF PROCEEDS

We are remarketing up to \$600,000,000 aggregate principal amount of notes to investors on behalf of holders of the Corporate Units.

The proceeds from the remarketing of the notes are estimated to be \$. We will separately pay a fee to the remarketing agents for their services as remarketing agents, and we will not receive any proceeds of the remarketing, except as set forth below.

The portion of the proceeds from the remarketing equal to the principal amount of the notes remarketed will automatically be applied to satisfy in full the obligations of the holders of our Corporate Units to purchase our Class A Common Stock under the related purchase contracts. Any excess proceeds will be delivered to the purchase contract agent for the benefit of the holders of Corporate Units as of the close of business, 5 p.m., New York City time, on May 16, 2007.

DESCRIPTION OF THE REMARKETED NOTES

The following description is a summary of the terms of the notes being remarketed. The descriptions in this prospectus supplement contain descriptions of certain terms of the notes and the indenture but do not purport to be complete, and reference is hereby made to the indenture and supplemental indenture No. 1 which have been incorporated by reference in the registration statement, and to the Trust Indenture Act.

General

The notes were issued in an aggregate principal amount of \$600,000,000 under an indenture, dated as of May 24, 2004, between us and The Bank of New York, as trustee, as supplemented by supplemental indenture No. 1, dated as of May 24, 2004, between us and the trustee (as so supplemented, the “indenture”). The notes were issued in connection with our issuance of Equity Units. The Equity Units consist of units, referred to as Corporate Units, each with a stated amount of \$25. Each Corporate Unit is comprised of (1) a purchase contract pursuant to which the holder (a) agrees to purchase from us not later than May 16, 2007, for a price of \$25 in cash, between 1.0631 and 1.2864 shares of our Class A Common Stock, subject to anti-dilution adjustments, depending on the average closing price of our Class A Common Stock over the 20-trading day period ending on the third trading day prior to such date and (b) receives from us quarterly contract adjustment payments; and (2) a 1/40, or 2.5%, undivided beneficial ownership interest in a \$1,000 principal amount of a senior note due on May 16, 2009.

This prospectus supplement relates to the remarketing of the notes on behalf of the holders of Corporate Units.

The trustee is presently the security registrar and the paying agent for the notes. Following a successful remarketing, notes will be issued in registered form, will be in denominations of \$1,000 and integral multiples of \$1,000 in excess thereof, without coupons, and may be transferred or exchanged, without service charge but upon payment of any taxes or other governmental charges payable in connection with the transfer or exchange, at the office described below. Payments on notes issued as a global security will be made to the depository or a successor depository. Principal and interest with respect to certificated notes, if any, will be payable, the transfer of the notes will be registrable and notes will be exchangeable for notes of a like aggregate principal amount in denominations of \$1,000 and integral multiples of \$1,000, at the office or agency maintained by us for this purpose in the City of New York. We have designated the corporate trust office of the trustee as that office. However, at our option, payment of interest may be made by check mailed to the address of the holder entitled to payment or by wire transfer to an account appropriately designated by the holder entitled to payment.

The notes are not subject to a sinking fund provision and are not subject to defeasance or redemption. The entire principal amount of the notes will mature and become due and payable, together with any accrued and unpaid interest thereon, on May 16, 2009.

Ranking

The notes are our direct, unsecured obligations and rank without preference or priority among themselves and equally with all of our other existing and future unsecured and unsubordinated senior debt.

We are a holding company and conduct substantially all of our operations through subsidiaries. However, the notes are obligations exclusively of Genworth Financial, Inc. and are not guaranteed by any of our subsidiaries. As a result, the notes are structurally subordinated to all debt and other liabilities of our subsidiaries (including liabilities to policyholders and contractholders), which means that creditors of our subsidiaries will be paid from their assets before holders of the notes would have any claims to those assets. As of March 31, 2007, our subsidiaries had outstanding \$93,509 million of total liabilities, including \$2,765 million of debt (excluding, in each case, intercompany liabilities).

Table of Contents

As a holding company, dividends from our subsidiaries and permitted payments to us under our tax sharing arrangements with our subsidiaries will be our principal sources of cash to pay interest and principal on the notes and meet our other obligations. The payment of dividends and other distributions to us by our insurance subsidiaries is regulated by insurance laws and regulations. In general, dividends in excess of prescribed limits are deemed “extraordinary” and require insurance regulatory approval. The ability of our insurance subsidiaries to pay dividends to us is also subject to various conditions imposed by the rating agencies for us to maintain our ratings. Our subsidiaries have no obligation to pay any amounts due on the notes. See “Supplemental Risk Factors—The notes are not guaranteed by any of our subsidiaries and are structurally subordinated to the debt and other liabilities of our subsidiaries, which means that creditors of our subsidiaries will be paid from their assets before holders of the notes would have any claims to those assets.”

As of March 31, 2007, we had outstanding \$4,182 million of unsecured and unsubordinated debt at the parent company level (including the notes but excluding non-recourse funding obligations). The indenture under which the notes are issued does not limit our ability, or the ability of our subsidiaries, to issue or incur other debt or liabilities (secured or unsecured) or issue preferred stock.

Interest

The interest rate on the notes will be reset to _____ % per year, effective from and after May 16, 2007. Interest will be payable semi-annually in arrears on November 16 and May 16 of each year, beginning on November 16, 2007, to the person in whose name the note is registered at the close of business on the first business day of the month in which the interest payment date falls.

The amount of interest payable for any full interest period will be computed on the basis of a 360-day year consisting of twelve 30-day months. The amount of interest payable for any period shorter than a full interest period for which interest is computed will be computed on the basis of a 30-day month and, for any period less than a month, on the basis of the actual number of days elapsed per 30-day month. If an interest payment date falls on a date that is not a business day, then interest will be paid on the next day that is a business day and no interest on such payment will accrue for the period from and after such interest payment date to the actual date of payment, provided that interest shall be payable on any overdue principal and interest.

Agreement by Purchasers of Certain Tax Treatment

Each note provides that, by acceptance of the note or a beneficial interest therein, the holder thereof intends that the note constitutes indebtedness and agrees to treat it as indebtedness for United States federal, state and local income and franchise tax purposes.

Events of Default

Any of the following events will constitute an event of default under the indenture with respect to the notes:

- failure to pay interest on the notes for thirty days past the applicable due date,
- failure to pay the principal amount of the notes when due (whether at maturity or otherwise),
- failure to observe or perform any other covenant or agreement in the indenture, which continues for 60 days after written notice from the trustee or holders of at least 25% of the outstanding principal amount of the notes as provided in the indenture,
- acceleration of more than \$100 million of our indebtedness for borrowed money by the terms thereof if the acceleration is not rescinded or annulled within 10 days after written notice from the trustee or holders of at least 25% of the outstanding principal amount of such indebtedness as provided in the indenture, provided that this event of default will be remedied, cured or waived without further action upon the part of either the trustee or any of the holders if the default under our other indebtedness is remedied, cured or waived, and
- specified events relating to the bankruptcy, insolvency or reorganization of us or any of our significant subsidiaries.

Table of Contents

The term “significant subsidiary” has the same meaning as the definition of that term set forth in Rule 1-02 of Regulation S-X as promulgated by the Securities and Exchange Commission.

Remedies

If an event of default arising from specified events of the bankruptcy, insolvency or reorganization of us or any of our significant subsidiaries occurs, the principal amount of all outstanding notes will become due and payable immediately, without further action or notice on the part of the holders of the notes or the trustee. If any other event of default with respect to the notes occurs, the trustee or the holders of not less than 25% in principal amount of outstanding notes may declare the principal amount of the notes to be due and payable immediately, by a notice in writing to us, and to the trustee if given by holders. Upon that declaration the principal amount of the notes will become immediately due and payable. However, at any time after a declaration has been made or the notes have otherwise become due and payable, but before a judgment or decree for payment of the money due has been obtained, the holders of a majority in principal amount of outstanding notes may, subject to conditions specified in the indenture, rescind and annul that declaration or acceleration and its consequences.

Subject to the provisions of the indenture relating to the duties of the trustee, if an event of default then exists, the trustee will be under no obligation to exercise any of its rights or powers under the indenture at your request, order or direction, unless you have offered to the trustee reasonable security or indemnity. Subject to the provisions for the security or indemnification of the trustee and otherwise in accordance with the conditions specified in the indenture, the holders of a majority in principal amount of outstanding notes of any series have the right to direct the time, method and place of conducting any proceeding for and remedy available to the trustee, or exercising any trust or power conferred on the trustee in connection with the notes of such series.

Notice of Default

The trustee will, within 90 days after the occurrence of an event of default with respect to the notes, mail to the holders of the notes notice of such event of default, unless such event of default has been cured or waived. However, the Trust Indenture Act and the indenture currently permits the trustee to withhold notices of events of default (except for certain payment defaults) if the trustee in good faith determines the withholding of such notices to be in the interests of the holders.

We will furnish the trustee with an annual statement as to our compliance with the conditions and covenants in the indenture.

Legal Proceedings and Enforcement of Right of Payment

You will not have any right to institute any proceeding in connection with the indenture or for any remedy under the indenture, unless you have previously given to the trustee written notice of a continuing event of default with respect to the notes. In addition, the holders of at least 25% in principal amount of the outstanding notes of a series must have made written request, and offered reasonable indemnity, to the trustee to institute that proceeding as trustee, and, within 60 days following the receipt of that notice, the trustee must not have received from the holders of a majority in principal amount of the outstanding notes of such series a direction inconsistent with that request, and must have failed to institute the proceeding. However, you will have an absolute right to receive payment of the principal of and interest on that note at the place, time, rate and in the currency expressed in the indenture and the note and to institute a suit for the enforcement of that payment.

Consolidation, Merger and Conveyance of Assets as an Entirety; No Financial Covenants

We have agreed in the indenture that we will not merge or consolidate with any other person or sell, convey, transfer, or otherwise dispose of all or substantially all of our assets unless:

- either we are the continuing corporation or the successor person is a corporation or limited liability company organized under the laws of the United States of America or any state thereof or the District of Columbia and this other person expressly assumes all of our obligations under the indenture and the notes; and

Table of Contents

- we are not, or such successor entity is not, immediately after such merger, consolidation, sale, conveyance, transfer or other disposition, in default in the performance of any obligations thereunder.

In case of any such consolidation, merger, sale, conveyance (other than by way of lease), transfer or other disposition, and upon any such assumption by the successor corporation or limited liability company, such successor corporation or limited liability company shall succeed to and be substituted for us, with the same effect as if it had been named in the indenture as us and we shall be relieved of any further obligation under the indenture and under the notes.

The indenture does not contain any financial or other similar restrictive covenants.

Modification of Indenture

We may enter into supplemental indentures for the purpose of modifying or amending the indenture with respect to the notes with the consent of holders of at least a majority in aggregate principal amount of the notes. However, the consent of each holder affected is required for any amendment:

- to change the stated maturity of principal of, or any installment of principal of or interest on, any note,
- to reduce the rate of or extend the time for payment of interest on any note or to alter the manner of calculation of interest payable on any note (except as part of the remarketing of the notes and the interest rate reset),
- to reduce the principal amount on any note,
- to make the principal of or interest on any note payable in a different currency,
- to reduce the percentage in principal amount of the notes, the holders of which are required to consent to any supplemental indenture or to any waiver of any past default or event of default,
- to change any place of payment where the notes or interest thereon is payable,
- to impair the right of any holder of the notes to bring a lawsuit for the enforcement of any payment on or after the stated maturity of any note, or
- to modify provisions of the indenture relating to waiver of defaults or amendment of the indenture, except to increase the percentage in principal amount of notes whose holders must consent to an amendment or to provide that certain other provisions of the indenture cannot be modified or waived without the consent of the holder of each outstanding note affected by the modification or waiver.

In addition, we and the trustee with respect to the indenture may enter into supplemental indentures without the consent of the holders of the notes for one or more of the following purposes:

- to evidence that another corporation or limited liability company has become our successor under the provisions of the indenture relating to consolidations, mergers, and sales of assets and that the successor assumes our covenants, agreements, and obligations in the indenture and in the notes,
- to add to our covenants further covenants, restrictions, conditions, or provisions for the protection of the holders of the notes, and to make a default in any of these additional covenants, restrictions, conditions, or provisions a default or an event of default under the indenture,
- to cure any ambiguity, to correct or supplement any provisions that may be defective or inconsistent with any other provision or to make such other provisions in regard to matters or questions arising under the indenture that do not adversely affect the interests of any holders of notes, provided that any amendment made solely to conform the provisions of the indenture to the description of the notes contained in this prospectus will not be deemed to adversely affect the interests of the holders of the notes,
- to modify or amend the indenture to permit the qualification of the indenture or any supplemental indenture under the Trust Indenture Act of 1939 as then in effect,

Table of Contents

- to add guarantees with respect to any series of notes issued under the indenture or to secure any series of notes, and
- to evidence and provide for the acceptance of appointment by a successor or separate trustee with respect to the notes.

Miscellaneous Provisions

The indenture provides that certain series of notes, including those for which payment has been deposited or set aside in trust as described under “—Satisfaction and Discharge” below, will not be deemed to be “outstanding” in determining whether the holders of the requisite principal amount of the outstanding notes have given or taken any demand, direction, consent or other action under the indenture as of any date, or are present at a meeting of holders for quorum purposes.

We are entitled to set any day as a record date for the purpose of determining the holders of outstanding notes issued under the indenture entitled to give or take any demand, direction, consent or other action under the indenture, in the manner and subject to the limitations provided in the indenture. In certain circumstances, the indenture trustee also is entitled to set a record date for action by holders. If such a record date is set for any action to be taken by holders of particular notes issued under the indenture, such action may be taken only by persons who are holders of such notes on the record date.

Satisfaction and Discharge

The indenture will generally cease to be of any further effect with respect to any series of notes, if:

- we have delivered to the trustee for cancellation all outstanding notes of such series (with certain limited exceptions), or
- all notes of such series not previously delivered to the trustee for cancellation have become due and payable or are by their terms to become due and payable within one year, and we have deposited with the trustee as trust funds the entire amount sufficient to pay all of the outstanding notes,
- and if, in either case, we also pay or cause to be paid all other sums payable under the indenture by us.

The indenture will be deemed satisfied and discharged when no notes remain outstanding and when we have paid all other sums payable by us under the indenture.

Any monies and U.S. government obligations deposited with the trustee for payment of principal of, and interest on, the notes and not applied but remaining unclaimed by the holders of the notes for two years after the date upon which the principal of, and interest on, the notes, as the case may be, shall have become due and payable, shall be repaid to us by the trustee on written demand. Thereafter, the holder of such notes may look only to us for payment thereof.

Resignation and Removal of the Trustee; Deemed Resignation

The trustee may resign at any time by giving written notice thereof to us.

The trustee may also be removed by act of the holders of a majority in principal amount of the then outstanding notes of one or more series.

No resignation or removal of the trustee and no appointment of a successor trustee will become effective until the acceptance of appointment by a successor trustee in accordance with the requirements of the indenture.

Under certain circumstances, we may appoint a successor trustee and if the successor accepts, the trustee will be deemed to have resigned.

Governing Law

The indenture and the notes provide that they are to be governed by and construed in accordance with the laws of the State of New York.

Book-Entry System

Notes will be issued in the form of one or more global certificates, which are referred to as global securities, registered in the name of the depositary or its nominee. Except under the limited circumstances described below, notes represented by the global securities will not be exchangeable for, and will not otherwise be issuable as, notes in certificated form. The global securities described above may not be transferred except by the depositary to a nominee of the depositary or by a nominee of the depositary to the depositary or another nominee of the depositary or to a successor depositary or its nominee.

The laws of some jurisdictions may require that some purchasers of securities take physical delivery of securities in certificated form. These laws may impair the ability to transfer beneficial interests in the notes so long as the notes are represented by a global security.

Except as provided below, owners of beneficial interests in such a global security will not be entitled to receive physical delivery of notes in certificated form and will not be considered the holders (as defined in the indenture) thereof for any purpose under the indenture, and no global security representing notes shall be exchangeable, except for another global security of like denomination and tenor to be registered in the name of the depositary or its nominee or a successor depositary or its nominee. Accordingly, each beneficial owner must rely on the procedures of the depositary or if such person is not a participant, on the procedures of the participant through which such person owns its interest to exercise any rights of a holder under the indenture.

We will issue the notes in definitive certificated form if the depositary notifies us that it is unwilling or unable to continue as depositary or the depositary ceases to be a clearing agency registered under the Securities Exchange Act of 1934, as amended, and a successor depositary is not appointed by us within 90 days. In addition beneficial interests in a global security certificate may be exchanged for definitive certificated notes upon request by or on behalf of the depositary in accordance with customary procedures following the request of a beneficial owner seeking to exercise or enforce its rights under such notes. If we determine at any time that the notes shall no longer be represented by global security certificates, we will inform the depositary of such determination who will, in turn, notify participants of their right to withdraw such representation by global security certificates, and if such participants elect to withdraw their beneficial interests, we will issue certificates in definitive form in exchange for such beneficial interests in the global security certificates. Any global note, or portion thereof, that is exchangeable pursuant to this paragraph will be exchangeable for note certificates registered in the names directed by the depositary. We expect that these instructions will be based upon directions received by the depositary from its participants with respect to ownership of beneficial interests in the global security certificates.

UNITED STATES FEDERAL INCOME TAX CONSEQUENCES

This section summarizes the material U.S. federal income tax consequences to Non-U.S. Holders of the purchase, ownership and disposition of notes. This summary deals only with notes that are held as capital assets by Non-U.S. Holders that purchase the notes in this remarketing at the price indicated on the front cover of this prospectus supplement. A “Non-U.S. Holder” is a beneficial owner of notes and is generally an individual, corporation, estate or trust other than:

- an individual who is a citizen or resident of the United States;
- a corporation (or other entity taxable as a corporation for U.S. federal income tax purposes) created or organized in the United States or under the laws of the United States or any subdivision thereof;
- an estate the income of which is includible in gross income for U.S. federal income tax purposes regardless of its source; and
- a trust if a court within the U.S. is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust or such trust has a valid election in effect under applicable Treasury regulations to be treated as a U.S. person.

If a partnership holds notes, the tax treatment of a partner will generally depend upon the status of the partner and the activities of the partnership. Special rules may apply if a Non-U.S. Holder is a “controlled foreign corporation” or “passive foreign investment company,” as defined under the Internal Revenue Code of 1986, as amended (the “Code”), and to certain expatriates or former long-term residents of the United States. If you fall within any of the foregoing categories, you should consult your own tax advisor to determine the U.S. federal, state, local and foreign tax consequences that may be relevant to you.

This summary does not describe all of the U.S. federal income tax consequences that may be relevant to the purchase, ownership and disposition of notes by a prospective Non-U.S. Holder in light of that investor’s particular circumstances. In addition, this summary does not address alternative minimum taxes or state, local or foreign taxes.

This section is based upon the Code, judicial decisions, final, temporary and proposed Treasury regulations, published rulings and other administrative pronouncements, changes to any of which subsequent to the date of this prospectus supplement may affect the tax consequences described herein, possibly with retroactive effect.

Please consult your own tax advisor as to the particular tax consequences to you of purchasing, holding and disposing of notes in your particular circumstances under the Code and the laws of any other taxing jurisdiction.

U.S. Federal Withholding Tax

Subject to the discussion below concerning backup withholding, U.S. federal withholding tax will not apply to any payment of principal or interest on the notes, provided that:

- you do not actually (or constructively) own 10% or more of the total combined voting power of all classes of our voting stock within the meaning of the Code and the Treasury regulations;
- you are not a controlled foreign corporation that is related, directly or indirectly, to us through stock ownership; and
- (a) you provide your name, address and certain other information on an Internal Revenue Service Form W-8BEN (or a suitable substitute form), and certify, under penalties of perjury, that you are not a U.S. person or (b) you hold your notes through certain foreign intermediaries or certain foreign partnerships and certain certification requirements are satisfied.

Table of Contents

Interest payments that are effectively connected with the conduct of a trade or business by you within the United States (and, where an applicable tax treaty so provides, are also attributable to a U.S. permanent establishment maintained by you) are not subject to the U.S. federal withholding tax, but instead are subject to U.S. federal income tax, as described below.

If you cannot satisfy the requirements described above, payments of interest will be subject to a 30% U.S. federal withholding tax unless a tax treaty applies or the interest payments are effectively connected with the conduct of a U.S. trade or business. If a tax treaty applies to you, you may be eligible for a reduced rate of withholding. In order to claim any exemption from or reduction in the 30% withholding tax, you should provide a properly executed Internal Revenue Service Form W-8BEN (or suitable substitute form) claiming a reduction of or an exemption from withholding under an applicable tax treaty or a properly executed Internal Revenue Service Form W-8ECI (or a suitable substitute form) stating that such payments are not subject to withholding tax because they are effectively connected with your conduct of a trade or business in the United States.

U.S. Federal Income Tax

If you are engaged in a trade or business in the United States (and, if a tax treaty applies, if you maintain a permanent establishment within the United States) and interest on the notes is effectively connected with the conduct of such trade or business (and, if a tax treaty applies, attributable to such permanent establishment), you will be subject to U.S. federal income tax (but not withholding tax assuming a properly executed Form W-8ECI (or suitable substitute form) is provided) on such interest on a net income basis in generally the same manner as if you were a U.S. person. In addition, in certain circumstances, if you are a foreign corporation you may be subject to a 30% (or, if a tax treaty applies, such lower rate as provided) branch profits tax.

Any gain or income realized on the disposition of a note will generally not be subject to U.S. federal income tax unless:

- such gain or income is effectively connected with your conduct of a trade or business in the United States (and, where an applicable tax treaty so provides, is also attributable to a U.S. permanent establishment maintained by you); or
- you are an individual who is present in the United States for 183 days or more in the taxable year of the disposition and certain other conditions are met.

Backup Withholding and Information Reporting

Unless you are an exempt recipient, such as a corporation, interest payments on the notes and the proceeds received from a sale of notes may be subject to information reporting and may also be subject to U.S. federal backup withholding at the applicable rate if you fail to comply with applicable U.S. information reporting or certification requirements. The certification procedures required to claim the exemption from withholding tax on interest described above will satisfy the certification requirements necessary to avoid the backup withholding tax as well.

Any amounts so withheld under the backup withholding rules may be allowed as a credit against your U.S. federal income tax liability provided you furnish the required information to the IRS.

The preceding discussion of certain material U.S. federal income tax consequences is general information only and is not tax advice. Accordingly, you should consult your own tax advisor as to the particular tax consequences to you of purchasing, holding or disposing of notes, including the applicability and effect of any state, local or non-U.S. tax laws, and of any changes or proposed changes in applicable law.

BENEFIT PLAN INVESTOR CONSIDERATIONS

The following discussion was not intended or written to be used, and cannot be used, for the purpose of avoiding United States federal tax penalties. This discussion was written in connection with the promotion or marketing of the notes.

The following is a summary of certain considerations associated with the purchase of the notes by employee benefit plans that are subject to the U.S. Employee Retirement Income Security Act of 1974, as amended, (ERISA Plans), or by plans, individual retirement accounts and other arrangements that are subject to Section 4975 of the Code or provisions under any federal, state, local, non-U.S. or other laws or regulations that are similar to such provisions of ERISA or the Code (collectively, Similar Laws), and entities whose underlying assets are considered to include “plan assets” of such plans, accounts and arrangements (each, a Plan).

General Fiduciary Matters

Under ERISA and the Code, any person who exercises any discretionary authority or control over the administration of a Plan or the management or disposition of the assets of such Plan, or who renders investment advice for a fee or other compensation to a Plan, is generally considered to be a fiduciary of the Plan.

Each fiduciary of a Plan should consider the fiduciary standards of ERISA in the context of the Plan’s particular circumstances before authorizing an investment in the notes. Accordingly, among other factors, the fiduciary should consider whether the investment is in accordance with the documents and instruments governing the Plan and the applicable provisions of ERISA, the Code or any Similar Law relating to a fiduciary’s duties to the Plan including, without limitation, the prudence, diversification, delegation of control and prohibited transaction provisions of ERISA, the Code and any other applicable Similar Law.

Prohibited Transaction Issues

Section 406 of ERISA and Section 4975 of the Code prohibit ERISA Plans from engaging in specified transactions involving plan assets with persons or entities who are “parties in interest,” within the meaning of ERISA, or “disqualified persons,” within the meaning of Section 4975 of the Code, unless an exemption is available with respect to such transaction. A party in interest or disqualified person who engages in a non-exempt prohibited transaction may be subject to excise taxes and other penalties and liabilities under ERISA and the Code and the prohibited transaction itself may have to be rescinded. In addition, the fiduciary of the ERISA Plan that permits such a non-exempt prohibited transaction may be subject to penalties and liabilities under ERISA and the Code.

The acquisition and/or holding of notes by an ERISA Plan with respect to which the issuer, the remarketing agents or the current holders of Equity Units, is considered a party in interest or a disqualified person, may constitute or result in a direct or indirect prohibited transaction under Section 406 of ERISA and/or Section 4975 of the Code, unless the investment is acquired and is held in accordance with an applicable statutory, class or individual prohibited transaction exemption. In this regard, the U.S. Department of Labor, or the DOL, has issued prohibited transaction class exemptions, or PTCEs, that may apply to the acquisition and holding of the notes. These class exemptions include, without limitation, PTCE 84-14 (relating to transactions determined by independent qualified professional asset managers), PTCE 90-1 (relating to transactions involving insurance company pooled separate accounts), PTCE 91-38 (relating to transactions involving bank collective investment funds), PTCE 95-60 (relating to transactions involving life insurance company general accounts) and PTCE 96-23 (relating to transactions determined by in-house asset managers). Although these exemptions exist, a purchaser of any notes should be aware that there can be no assurance that all of the conditions of any such exemptions will be satisfied. Furthermore, a purchaser of the notes should be aware that even if the conditions specified in one or more of the above-referenced exemptions are met, the scope of the exemptive relief provided by the exemption might not cover all acts which might be construed as prohibited transactions.

Table of Contents

In addition, any insurance company proposing to use assets of its general account to purchase the notes should consider the implications of the United States Supreme Court's decision in *John Hancock Mutual Life Insurance Co. v. Harris Trust and Savings Bank*, 510 U.S. 86, 114 S. Ct. 517 (1993) as well as the regulations issued by the United States Department of Labor (DOL) in January 2000 in response to the decision. In the decision, the Court held that to the extent that insurance contracts issued to employee benefit plans provide for a return that is not guaranteed, but instead varies with the performance of the insurer's general account, the insurer's general account may become "plan assets" subject to ERISA and therefore subject to the fiduciary obligations of ERISA.

Because of the preceding, the notes should not be purchased or held by any person investing "plan assets" of any Plan, unless such purchase and holding will not constitute a non-exempt prohibited transaction under ERISA and the Code or similar violation of any applicable Similar Laws.

Representation

Accordingly, by acceptance of a note, each purchaser and subsequent transferee of a note will be deemed to have represented and warranted that either (i) no portion of the assets used by such purchaser or transferee to acquire or hold the notes constitutes assets of any Plan or (ii) the purchase and holding of the notes by such purchaser or transferee will not constitute a non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Code or similar violation under any applicable Similar Laws.

The preceding discussion is general in nature and is not intended to be all-inclusive. Due to the complexity of these rules and the penalties that may be imposed upon persons involved in non-exempt prohibited transactions, it is particularly important that fiduciaries, or other persons considering purchasing the notes on behalf of, or with the assets of, any Plan, consult with their counsel regarding the potential applicability of ERISA, Section 4975 of the Code and any Similar Laws to such investment and whether an exemption would be applicable to the purchase and holding of the notes.

Each purchaser and holder of the notes has exclusive responsibility for ensuring that its purchase and holding of the notes does not violate the fiduciary and prohibited transaction rules of ERISA, the Code or any Similar Laws. The sale of any notes to any Plan is in no respect a representation by us or any of our affiliates or representatives that such an investment meets all relevant legal requirements with respect to investments by Plans generally or any particular Plan, or that such an investment is appropriate for Plans generally or any particular Plan.

REMARKETING

Under the terms and subject to the conditions contained in a remarketing agreement, dated as of May 8, 2007, among us, Morgan Stanley & Co. Incorporated and Merrill Lynch, Pierce, Fenner & Smith Incorporated, as the remarketing agents, and The Bank of New York, as the purchase contract agent and attorney-in-fact of holders of Equity Units, the remarketing agents will use their reasonable efforts to remarket the notes. Upon a successful remarketing, the remarketing agents will reset the interest rate on the notes to a reset rate that the notes should bear in order for the notes that are subject to the remarketing to have an approximate aggregate market value on the reset date of 100% of the aggregate principal amount of the notes. The reset rate will in no event exceed the maximum rate permitted by applicable law.

The proceeds from the remarketing of the notes are estimated to be \$. We will not receive any proceeds of the remarketing, except as provided in the next sentence. The portion of the proceeds from the remarketing equal to the principal amount of the notes remarketed will automatically be applied to satisfy in full the obligations of the holders of Corporate Units to purchase our Class A Common Stock under the related purchase contracts. Any excess proceeds will be delivered to The Bank of New York, as the purchase contract agent, for the benefit of the holders of Corporate Units as of the close of business, 5 p.m., New York City time, on May 16, 2007.

None of the remarketing agents has any obligation to purchase any of the senior notes.

The remarketing agreement provides that the remarketing is subject to customary conditions precedent, including the delivery of legal opinions.

We will pay a fee to the remarketing agents for their services as remarketing agents. The remarketing fee equals 0.25% of the principal amount of the remarketed notes. We estimate that the total expenses for this remarketing will be approximately \$, not including the remarketing fee.

The notes have no established trading market. The remarketing agents have advised us that they intend to make a market in the notes, but they have no obligation to do so and may discontinue market making at any time without providing any notice. We cannot provide you with any assurance as to the liquidity of any trading market for the notes.

In order to facilitate the remarketing of the notes, the remarketing agents may engage in transactions that stabilize, maintain or otherwise affect the price of the notes. These transactions consist of bids or purchases for the purpose of pegging, fixing or maintaining the price of the senior notes. In general, purchases of notes for the purpose of stabilization, as well as other purchases by the remarketing agents for their own accounts, could cause the price of the notes to be higher than it might be in the absence of these purchases. We and the remarketing agents make no representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the notes. In addition, we and the remarketing agents make no representation that the remarketing agents will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

It is expected that delivery of the notes will be made against payment therefor on or about the date specified in the last paragraph of the cover page of this prospectus supplement, which will be the fifth business day following the date of the pricing of the notes. Under Rule 15c6-1 of the Exchange Act, trades in the secondary market generally are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade the notes on the date of pricing (and the following day) will be required, by virtue of the fact that the notes initially will settle in T+5, to specify alternative settlement arrangements to prevent a failed settlement.

We have agreed to indemnify the remarketing agents against certain liabilities, including liabilities under the Securities Act of 1933, arising out of or in connection with their duties under the remarketing agreement, and to contribute to payments the remarketing agents may be required to make in respect of those liabilities.

Table of Contents

The remarketing agents and their affiliates have, from time to time, performed, and may in the future perform, various financial advisory, investment banking and commercial banking services for us, for which they received or will receive customary fees and expenses. Affiliates of the remarketing agents are also lenders under our two \$1.0 billion 5-year revolving credit facilities. We believe that the fees and commissions paid in respect of participation in the credit facilities are customary for borrowers with a credit profile similar to ours, for a similar-size financing and for borrowers in our industry.

Selling Restrictions

European Economic Area

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive, each remarketing agent has represented and agreed that with effect from and including the date on which the Prospectus Directive is implemented in that Member State it has not made and will not make an offer of notes to the public in that Member State, except that it may, with effect from and including such date, make an offer of notes to the public in that Member State:

- at any time to legal entities which are authorized or regulated to operate in the financial markets or, if not so authorized or regulated, whose corporate purpose is solely to invest in securities;
- at any time to any legal entity which has two or more of (1) an average of at least 250 employees during the last financial year; (2) a total balance sheet of more than €43,000,000; and (3) an annual net turnover of more than €50,000,000, as shown in its last annual or consolidated accounts; or
- at any time in any other circumstances which do not require the publication by us of a prospectus pursuant to Article 3 of the Prospectus Directive (except in reliance on Article 3.2(b) of the Prospectus Directive).

For the purposes of the above, the expression an “offer of notes to the public” in relation to any notes in any Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the notes to be offered so as to enable an investor to decide to purchase or subscribe the notes, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State and the expression Prospectus Directive means Directive 2003/71/EC and includes any relevant implementing measure in that Member State.
