## **Tortoise Capital Resources Corp. Releases Fiscal 2011 Third Quarter Financial Results**

Oct 13, 2011 - LEAWOOD, Kan .--(BUSINESS WIRE)-- Tortoise Capital Resources Corp. (NYSE: TTO) (the company) today announced that it has filed its Form 10-Q for the third quarter ended Aug. 31, 2011.

### ***Recent Highlights***

- *Withdraw election to be regulated as a business development company*
- *Distribution guidance of not less than \$0.40 per share annually*
- *Net asset value \$10.62 per share as of Aug.31, 2011*

### **Regulatory Structure and Investment Outlook**

TTO is focused on identifying and acquiring real property assets in the U.S. energy infrastructure sector that have the potential to become real estate investment trust qualified. The company acquired its first real property asset in June 2011 with the purchase of a 40 percent undivided interest in the New Mexico transmission line, known as the Eastern Interconnect Project. The project moves electricity between Albuquerque and Clovis, New Mexico, and is subject to a triple-net-lease with Public Service Company of New Mexico that expires in 2015. The lessee and operator of the transmission line, Public Service Company of New Mexico, performed as expected and a recent strategy announcement led to Standard & Poor's upgrading the utility's senior unsecured debt rating to BBB- from BB+. If TTO finds sufficient suitable, REIT-qualifying investments during the remainder of 2011 and satisfies the REIT requirements throughout 2012, then TTO expects to make an election to be treated as a REIT for tax purposes for 2012.

### **Liquidity and Capital Resources**

Subsequent to the withdrawal of its election to be regulated as a business development company, the company expects to have greater flexibility in raising both equity and debt capital. On Sept. 21, 2011, the company filed a shelf registration statement with the SEC which effectively converted the previously filed N-2 registration under the 1940 Act, to an S-3 registration statement under the 1933 Act. When effective, the shelf registration will allow TTO to prudently raise additional capital. The company is also currently seeking to obtain a secured facility to support future working capital needs and potential investments.

TTO does not plan to make additional investments in securities (other than short-term, highly liquid investments to be held pending acquisition of real property assets) and will liquidate its securities portfolio in an orderly manner. The publicly traded securities can be liquidated more readily than the private company securities.

### **Distribution Guidance**

On Sept. 1, 2011, the company paid a quarterly distribution of \$0.10 per common share, the same amount as the prior quarter. The company expects its earned distributable cash flow to support a quarterly distribution of \$0.10 per share (\$0.40 annually), with upside potential depending on the performance of its private equity investments.

### **Quarterly Performance Review**

As of Aug. 31, 2011, the company's net asset value was \$10.62 per share compared to \$10.66 per share at May 31, 2011. The fair value of the company's securities investment portfolio (excluding short-term investments) totaled \$81.5 million, with approximately \$54.5 million in private securities and approximately \$27.0 million in publicly-traded securities. In the future, the company will not be required to include net asset value per share on the face of its financial statements; however, the company does plan to provide net asset value (book value) per share as supplemental non-GAAP information.

In June 2011, TTO invested \$9.9 million in Magnetar MLP Investment LP (Magnetar MLP) which was formed solely to invest in Lightfoot Capital Partners LP. The Magnetar MLP investment represents an indirect investment into Lightfoot Capital Partners, LP (Lightfoot) which owns 83.5 percent of the outstanding limited partner units of Arc Terminals LP (Arc) and 100 percent of Arc Terminals GP, which also includes a 2.0 percent limited partnership interest. At the time of the investment, Lightfoot held approximately \$60 million in cash set aside for other platform investments or additional investments in Arc. Arc is an independent operator of above ground storage and delivery services for petroleum products and chemicals including refined products, renewable fuels and crude oil. As of August 2011, Arc had nine terminals located in the United States with a combined working capacity of 3.6 million barrels.

High Sierra's fair value increased approximately \$2.7 million this quarter. In May, High Sierra completed the sale of Monroe Gas Storage for \$148 million. In June, High Sierra acquired the assets of Marcum Midstream, a Colorado-based water disposal company serving the oil and gas industry.

Mowood reported a very strong third quarter, due largely to its July performance in which revenues and EBITDA were well above projections. Mowood's fair value increased approximately \$0.3 million for the quarter.

In August 2011, VantaCore completed an acquisition of Cherry Grove Quarry in Todd County, Kentucky. TTO provided VantaCore \$1.2

million in August to help fund the acquisition in exchange for newly issued Preferred B units. The fair value of VantaCore securities decreased approximately \$3.3 million in total in the quarter, exclusive of these Preferred B units. As VantaCore was unable to meet its minimum quarterly distribution of \$0.475 per unit for its quarter ended June 30, 2011, TTO received 27,167 preferred units in addition to \$0.04 in cash per common and preferred unit.
