Name: Evangelos Chatzis

Title: Chief Financial Officer

DANAOS CORPORATION

OPERATING AND FINANCIAL REVIEW AND PROSPECTS

The following discussion and analysis should be read in conjunction with our interim condensed consolidated financial statements (unaudited) and the notes thereto included elsewhere in this report.

Results of Operations*Three months ended March 31, 2013 compared to three months ended March 31, 2012*

During the three months ended March 31, 2013, Danaos had an average of 63.1 containerships compared to 60.1 containerships for the three months ended March 31, 2012. Our fleet utilization declined to 89.6% in the three months ended March 31, 2013 compared to 94.5% in the three months ended March 31, 2012, mainly due to the 546 days for which 7 of our vessels were off-charter and laid-up in the three months ended March 31, 2013 (3 of which, the *Henry*, the *Pride* and the *Independence* were sold during the three months ended March 31, 2013) compared to 246 days for which 3 of our vessels were off-charter and laid-up in the three months ended March 31, 2012. During the three months ended March 31, 2013, our fleet utilization for the fleet under employment was 99.1% (which excludes the vessels on lay-up).

Operating Revenue

Operating revenue increased 8.9%, or \$11.9 million, to \$146.1 million in the three months ended March 31, 2013, from \$134.2 million in the three months ended March 31, 2012.

The increase was primarily a result of the addition to our fleet of three 13,100 TEU containerships, the *Hyundai Smart*, the *Hyundai Speed* and the *Hyundai Ambition*, on May 3, 2012, June 7, 2012 and June 29, 2012, respectively. These additions to our fleet contributed revenues of \$16.3 million during the three months ended March 31, 2013 (270 operating days in total).

Furthermore, operating revenues for the three months ended March 31, 2013 reflect:

- \$9.4 million of incremental revenues in the three months ended March 31, 2013 compared to the three months ended March 31, 2012, related to one 8,530 TEU containership (the *CMA CGM Melisande*, which was added to our fleet on February 28, 2012), and two 13,100 TEU containerships (the *Hyundai Together* and the *Hyundai Tenacity*, which were added to our fleet on February 16, 2012 and March 8, 2012, respectively).
- \$1.1 million decrease in revenues in the three months ended March 31, 2013 compared to the three months ended March 31, 2012, related to one 2,130 TEU containership, the *Montreal*, which was sold on April 27, 2012.
- \$12.7 million decrease in revenues in the three months ended March 31, 2013 compared to the three months ended March 31, 2012. This was mainly attributable to an increase in off-hire days of 290 days, to 593 days in the three months ended March 31, 2013, from 303 days in the three months ended March 31, 2012, re-chartering of certain vessels during 2012 at lower charter rates compared to what these vessels were earning in three months ended March 31, 2012, as well as reduced revenue of our fleet in the three months ended March 31, 2013 compared to the three months ended March 31, 2012 due to the one additional operating day in February 2012 compared to February 2013.

Voyage Expenses

Voyage expenses increased by \$0.2 million, to \$3.1 million in the three months ended March 31, 2013, from \$2.9 million in the three months ended March 31, 2012. The increase was mainly the result of various increased voyage expenses, due to the increase in the average number of vessels in our fleet.

Vessel Operating Expenses

Vessel operating expenses decreased 2.7%, or \$0.8 million, to \$29.3 million in the three months ended March 31, 2013, from \$30.1 million in the three months ended March 31, 2012. The reduction is mainly attributable to the reduced costs of 6.1 vessels on average which were on lay-up during the three months ended March 31, 2013 compared to 2.7 vessels on average during the three months ended March 31, 2012. The overall decrease in vessel operating expenses was offset in part by the increased average number of vessels in our fleet during the three months ended March 31, 2013 compared to the three months ended March 31, 2012.

The average daily operating cost per vessel was reduced to \$5,912 for the three months ended March 31, 2013, from \$5,945 for the three months ended March 31, 2012 (excluding those vessels on lay-up).

Depreciation

Depreciation expense increased 7.3%, or \$2.3 million, to \$34.0 million in the three months ended March 31, 2013, from \$31.7 million in the three months ended March 31, 2012. The increase in depreciation expense was due to the increased average number of vessels in our fleet during the three months ended March 31, 2013 compared to the three months ended March 31, 2012.

Amortization of Deferred Drydocking and Special Survey Costs

Amortization of deferred dry-docking and special survey costs increased 41.7%, or \$0.5 million, to \$1.7 million in the three months ended March 31, 2013, from \$1.2 million in the three months ended March 31, 2012. The increase reflects increased dry-docking and special survey costs incurred within the year and amortized during the three months ended March 31, 2013 compared to the three months ended March 31, 2012.

General and Administrative Expenses

General and administrative expenses increased 2.1%, or \$0.1 million, to \$4.9 million in the three months ended March 31, 2013, from \$4.8 million in the three months ended March 31, 2012. The increase was mainly the result of increased fees paid to our Manager in the three months ended March 31, 2013 compared to the three months ended March 31, 2012, due to the increase in the average number of vessels in our fleet.

Interest Expense and Interest Income

Interest expense increased by 24.5%, or \$4.5 million, to \$22.9 million in the three months ended March 31, 2013, from \$18.4 million in the three months ended March 31, 2012. The change in interest expense was due to the increase in our average debt by \$263.7 million, to \$3,388.8 million in the three months ended March 31, 2013, from \$3,125.1 million in the three months ended March 31, 2012. Furthermore, the financing of our newbuilding program resulted in \$2.6 million of interest being capitalized, rather than such interest being recognized as an expense, for the three months ended March 31, 2012 compared to nil interest being capitalized for the three months ended March 31, 2013, following the completion of our newbuilding program in June 2012.

Interest income was \$0.5 million in the three months ended March 31, 2013 compared to \$0.4 million in the three months ended March 31, 2012.

Other Finance Costs, Net

Other finance costs, net, increased by \$1.2 million, to \$5.1 million in the three months ended March 31, 2013, from \$3.9 million in the three months ended March 31, 2012. This increase was due to the \$0.7 million increase in amortizing finance fees (which were deferred and are amortized over the term of the respective credit facilities), as well as increased accrued finance fees of \$0.5 million (which accrete in our Statement of Income over the term of the respective facilities) in the three months ended March 31, 2013 compared to the three months ended March 31, 2012.

Other Income/(Expenses), Net

Other income/(expenses), net, was negligible in the three months ended March 31, 2013 compared to an expense of \$0.2 million in the three months ended March 31, 2012.

Unrealized and realized (loss)/gain on derivatives

Unrealized gain/(loss) on interest rate swap hedges was a gain of \$4.4 million in the three months ended March 31, 2013 compared to a gain of \$2.9 million in the three months ended March 31, 2012. The unrealized gains were attributable to mark to market valuation of our swaps and hedge accounting ineffectiveness. Furthermore, we reclassified unrealized losses from Accumulated Other Comprehensive Loss to our earnings due to the discontinuation of hedge accounting since July 1, 2012.

Realized loss on interest rate swap hedges, increased by \$1.2 million, to \$36.6 million in the three months ended March 31, 2013, from \$35.4 million in the three months ended March 31, 2012. This increase is mainly attributable to \$4.8 million of realized losses that had been deferred during the three months ended March 31, 2012 (as discussed below) and were not deferred in the three months ended March 31, 2013, partially offset by the lower average notional amount of swaps during the three months ended March 31, 2013 compared to the three months ended March 31, 2012, which resulted in lower realized losses on derivatives of \$3.6 million during the three months ended March 31, 2013.

With all our newbuildings having been delivered, no realized losses on cash flow hedges were deferred during the three months ended March 31, 2013. During the three months ended March 31, 2012, realized losses on cash flow hedges of \$4.8 million were deferred in "Accumulated Other Comprehensive Loss", rather than being recognized as expenses, and are being reclassified into earnings over the depreciable lives of these vessels that were under construction and financed by loans with interest rates that were

hedged by our interest rate swap contracts. The table below provides an analysis of the items discussed above, and which were recorded in the three months ended March 31, 2013 and 2012:

	Three months ended March 31, 2013	(in millions)	Three months ended March 31, 2012
Unrealized gain on swaps	\$	4.4	\$ 2.9
Total realized losses of swaps	(36.6)		(40.2)
Realized losses of swaps deferred in Other Comprehensive Loss	—		4.8
Realized losses of swaps expensed in Statement of Income		(36.6)	(35.4)
Unrealized and realized loss on derivatives		<u>\$ (32.2)</u>	<u>\$ (32.5)</u>

Liquidity and Capital Resources

Our principal source of funds have been operating cash flows, vessel sales, long-term bank borrowings and a common stock sale in August 2010, as well as our initial public offering in October 2006. Our principal uses of funds have been capital expenditures to establish, grow and maintain our fleet, comply with international shipping standards, environmental laws and regulations and to fund working capital requirements.

Our short-term liquidity needs primarily relate to funding our vessel operating expenses, debt interest payments and servicing the current portion of our debt obligations. Our long-term liquidity needs primarily relate to debt repayment and capital expenditures related to any further growth of our fleet.

We anticipate that our primary sources of funds will be cash from operations and equity or capital markets debt financings, subject to restrictions on uses of such funds and incurrence of debt in our credit facilities.

On March 27, 2013, we entered into an agreement with the lenders under the HSH Nordbank AG-Aegean Baltic Bank-Piraeus Bank credit facility. The agreement provides us the option to sell, for cash, up to 9 mortgaged vessels (the *Henry*, the *Pride*, the *Independence*, the *Honour*, the *Elbe*, the *Hope*, the *Lotus*, the *Kalamata* and the *Komodo*), with the sale proceeds less sale commissions from such vessels' sales to be deposited in a restricted cash account and used to finance the acquisition of new containerships no later than December 31, 2013. Any funds remaining in this restricted cash account after that date will be applied towards prepayment of the respective credit facility. As of March 31, 2013, we concluded the sales of the *Henry*, the *Pride* and the *Independence* and we have also entered into an agreement to sell the *Honour* on April 2, 2013. An amount of \$18.8 million, representing the sale proceeds less sale commissions from the sale of the *Henry*, the *Pride* and the *Independence*, was recorded as non-current restricted cash.

Under our existing multi-year charters as of March 31, 2013, we had contracted revenues of \$438.7 million for the remainder of 2013, \$552.3 million for 2014 and, thereafter, approximately \$3.8 billion. Although these expected revenues are based on contracted charter rates, we are dependent on our charterers' ability and willingness to meet their obligations under these charters.

As of March 31, 2013, we had cash and cash equivalents of \$81.8 million, as well as an amount of \$18.8 million of non-current restricted cash, representing the proceeds less sale commissions from the sale of the *Henry*, the *Pride* and the *Independence* as discussed above. As of March 31, 2013, we had no remaining borrowing availability under our credit facilities. As of March 31, 2013, we had \$168.4 million of vendor financing outstanding, of which \$57.4 million was payable within the next twelve months, and \$3.2 billion of outstanding indebtedness, of which \$139.5 million was payable within the next twelve months. Under the agreement, dated January 24, 2011, with certain of our lenders (the "Bank Agreement"), no principal payments are scheduled to be due before May 15, 2013. After that time, however, we are required under the Bank Agreement to apply a substantial portion of our cash from operations to the repayment of principal under our financing arrangements. We currently expect that the remaining portion of our cash from operations will be sufficient to fund all of our other obligations. Under the Bank Agreement, we are subject to limits on our ability to incur additional indebtedness without our lenders' consent and requirements for the application of proceeds from any future vessel sales or financings, including sales of equity, as well as other transactions. See "Item 5. Operating and Financial Review and Prospects" in our Annual Report on Form 20-F for the year ended December 31, 2012 filed with the Securities and Exchange Commission on March 1, 2013, as well as Note 9, Long-term Debt, to our condensed consolidated financial statements (unaudited) included elsewhere herein.

As of March 31, 2013, we were in compliance with the financial and collateral coverage covenants under our debt arrangements. We believe that continued future compliance with the terms of these agreements will allow us to satisfy our liquidity needs. We anticipate that our primary sources of funds described above, including future equity or debt financings in the case of any further growth of our fleet to the extent permitted under our credit facilities, will be sufficient to satisfy all of the short-term and long-term liquidity needs described above, up to the 2018 maturity of the credit facilities under our Bank Agreement, which we expect to refinance at such time. For additional details regarding the Bank Agreement, new credit facilities with existing lenders provided for under the Bank Agreement, Sinasure-CEXIM credit facility and Hyundai Samho Vendor Financing, please refer to "Item 5. Operating and Financial Review and Prospects" in our Annual Report on Form 20-F for the year ended December 31, 2012 filed with the Securities and Exchange Commission on March 1, 2013, as well as Note 9, Long-term Debt, to our condensed consolidated financial statements (unaudited) included elsewhere herein.

Our board of directors determined in 2009 to suspend the payment of further cash dividends as a result of market conditions in the international shipping industry and in order to conserve cash to be applied toward the financing of our then extensive newbuilding program. Under the Bank Agreement and the Sinasure-CEXIM credit facility, we are not permitted to pay cash dividends or repurchase shares of our capital stock unless (i) our consolidated net leverage is below 6:1 for four consecutive quarters and (ii) the ratio of the aggregate market value of our vessels to our outstanding indebtedness exceeds 125% for four consecutive quarters and provided that an event of default has not occurred and we are not, and after giving effect to the payment of the dividend, in breach of any covenant.

We have 15,000,000 outstanding warrants, which will expire on January 31, 2019, with an exercise price of \$7.00 per share. We will not receive any cash upon exercise of the warrants as the warrants are only exercisable on a cashless basis.

Cash Flows

Net Cash Provided by Operating Activities

Net cash flows provided by operating activities decreased by \$17.1 million, to \$48.7 million provided by operating activities in the three months ended March 31, 2013 compared to \$65.8 million provided by operating activities in the three months ended March 31, 2012. The decrease was primarily the result of increased working capital requirements of \$18.9 million in relation to the completion of our extensive new building program in the first six months of 2012 (which were cash settled in the third quarter of 2012), as well as increased interest cost of \$0.5 million (including realized losses on our interest rate swaps), which was partially offset by reduced payments for drydocking of \$2.3 million in the three months ended March 31, 2013 compared to the three months ended March 31, 2012.

Net Cash Provided by/(Used in) Investing Activities

Net cash flows provided by/(used in) investing activities increased by \$199.8 million, to \$15.9 million provided by investing activities in the three months ended March 31, 2013 compared to \$(183.9) million used in investing activities in the three months ended March 31, 2012. The difference reflects vessels additions of \$1.0 million in the three months ended March 31, 2013 compared to installment payments for newbuildings, interest capitalized and other related capital expenditures of \$183.9 million during the three months ended March 31, 2012, as well as net proceeds from the sale of the *Henry*, the *Independence* and the *Pride* of \$16.9 million received during the three months ended March 31, 2013 compared to nil in the three months ended March 31, 2012.

Net Cash (Used in)/Provided by Financing Activities

Net cash flows (used in)/provided by financing activities decreased by \$146.8 million, to \$(38.4) million used in financing activities in the three months ended March 31, 2013 compared to \$108.4 million provided by financing activities in the three months ended March 31, 2012. The decrease is primarily due to the payments of long-term debt and Vendor financing of \$22.4 million during the three months ended March 31, 2013 compared to net proceeds from long-term debt borrowings of \$105.7 million in the three months ended March 31, 2012, the increased restricted cash of \$16.0 million during the three months ended March 31, 2013 compared to the decreased restricted cash of \$2.8 million in the three months ended March 31, 2012, as well as the deferred fees paid to our lenders of \$0.1 million in the three months ended March 31, 2012 compared to nil in the three months ended March 31, 2013.

Non-GAAP Financial Measures

We report our financial results in accordance with U.S. generally accepted accounting principles (GAAP). Management believes, however, that certain non-GAAP financial measures used in managing the business may provide users of this financial information additional meaningful comparisons between current results and results in prior operating periods. Management believes that these non-GAAP financial measures can provide additional meaningful reflection of underlying trends of the business because they provide a comparison of historical information that excludes certain items that impact the overall comparability. Management also uses these non-GAAP financial measures in making financial, operating and planning decisions and in evaluating our performance. See the tables below for supplemental financial data and corresponding reconciliations to GAAP financial measures.

Non-GAAP financial measures should be viewed in addition to, and not as an alternative for, our reported results prepared in accordance with GAAP.

EBITDA and Adjusted EBITDA

EBITDA represents net income before interest income and expense, taxes, depreciation, as well as amortization of deferred drydocking & special survey costs, amortization of deferred realized losses of cash flow interest rate swaps, amortization of finance costs and finance costs accrued. Adjusted EBITDA represents net income before interest income and expense, taxes, depreciation, amortization of deferred drydocking & special survey costs, amortization of deferred realized losses of cash flow interest rate swaps, amortization of finance costs and finance costs accrued, stock based compensation, unrealized (gain)/loss on derivatives, realized gain/(loss) on derivatives and gain/(loss) on sale of vessels. We believe that EBITDA and Adjusted EBITDA assist investors and analysts in comparing our performance across reporting periods on a consistent basis by excluding items that we do not believe are indicative of our core operating performance and because they are used by certain investors to measure a company's ability to service and/or incur indebtedness, pay capital expenditures and meet working capital requirements. EBITDA and Adjusted EBITDA are also used: (i) by prospective and current customers as well as potential lenders to evaluate potential transactions; and (ii) to evaluate and price potential acquisition candidates. Our EBITDA and Adjusted EBITDA may not be comparable to that reported by other companies due to differences in methods of calculation.

EBITDA and Adjusted EBITDA have limitations as analytical tools, and should not be considered in isolation or as a substitute for analysis of our results as reported under U.S. GAAP. Some of these limitations are: (i) EBITDA/Adjusted EBITDA does not reflect changes in, or cash requirements for, working capital needs; and (ii) although depreciation and amortization are non-cash charges, the assets being depreciated and amortized may have to be replaced in the future, and EBITDA/Adjusted EBITDA do not reflect any cash requirements for such capital expenditures. In evaluating Adjusted EBITDA, you should be aware that in the future we may incur expenses that are the same as or similar to some of the adjustments in this presentation. Our presentation of Adjusted EBITDA should not be construed as an inference that our future results will be unaffected by unusual or non-recurring items. Because of these limitations, EBITDA/Adjusted EBITDA should not be considered as principal indicators of our performance.

EBITDA and Adjusted EBITDA Reconciliation to Net Income

	Three Months ended March 31, 2013	Three Months ended March 31, 2012
	(In thousands)	
Net income	\$ 13,432	\$ 9,342

EBITDA increased by \$12.7 million, to \$77.3 million in the three months ended March 31, 2013, from \$64.6 million in the three months ended March 31, 2012. The increase is mainly attributable to increased operating revenues of \$146.1 million in the three months ended March 31, 2013 compared to \$134.2 million in the three months ended March 31, 2012, as well reduced operating expenses of \$29.3 million in the three months ended March 31, 2013 compared to \$30.1 million in the three months ended March 31, 2012 and reduced unrealized and realized losses on derivatives of \$31.2 million (excluding amortization of deferred realized losses of cash flow interest rate swaps of \$1.0 million) in the three months ended March 31, 2013 compared to \$31.8 million (excluding amortization of deferred realized losses of cash flow interest rate swaps of \$0.6 million) in the three months ended March 31, 2012, which were partially offset by other income/(expenses), net of nil in the three months ended March 31, 2013 compared to an income of \$0.2 million in the three months ended March 31, 2012, increased voyage expenses of \$3.1 million in the three months ended March 31, 2013 compared to \$2.9 million in the three months ended March 31, 2012 and increased general and administrative expenses of \$4.9 million in the three months ended March 31, 2013 compared to \$4.8 million in the three months ended March 31, 2012.

Adjusted EBITDA increased by \$12.2 million, to \$108.6 million in the three months ended March 31, 2013, from \$96.4 million in the three months ended March 31, 2012. The increase is mainly attributable to increased operating revenues of \$146.1 million in the three months ended March 31, 2013 compared to \$134.2 million in the three months ended March 31, 2012, as well reduced operating expenses of \$29.3 million in the three months ended March 31, 2013 compared to \$30.1 million in the three months ended March 31, 2012, which were partially offset by other income/(expenses), net of nil in the three months ended March 31, 2013 compared to an income of \$0.2 million in the three months ended March 31, 2012, increased voyage expenses of \$3.1 million in the three months ended March 31, 2013 compared to \$2.9 million in the three months ended March 31, 2012 and increased general and administrative expenses of \$4.9 million in the three months ended March 31, 2013 compared to \$4.8 million in the three months ended March 31, 2012.

Credit Facilities

We, as borrower, and certain of our subsidiaries, as guarantors, have entered into a number of credit facilities in connection with financing the acquisition of certain vessels in our fleet, which are described in Note 9 to our unaudited condensed consolidated financial statements included in this report. Under the Bank Agreement our previously existing credit facilities continue to be made available by the respective lenders, in all cases as term loans, but (other than with respect to our KEXIM and KEXIM-ABN Amro credit facilities which are not covered by the Bank Agreement) with revised amortization schedules, interest rates, financial covenants,

events of default and other terms and additional collateral under certain of these credit facilities and we obtained new credit facilities. The following table summarizes all our credit facilities:

Lender	Outstanding Principal Amount (in millions)(1)	Collateral Vessels
The Royal Bank of Scotland(2)	\$ 686.8	The <i>Hyundai Progress</i> , the <i>Hyundai Highway</i> , the <i>Hyundai Bridge</i> , the <i>Hyundai Federal</i> (ex <i>APL Federal</i>) , the <i>Zim Monaco</i> , the <i>Hanjin Buenos Aires</i> , the <i>Hanjin Versailles</i> , the <i>Hanjin Algeciras</i> , the <i>CMA CGM Racine</i> and the <i>CMA CGM Melisande</i>
Aegean Baltic Bank—HSH Nordbank—Piraeus Bank(3)	\$ 658.2	The <i>Elbe</i> , the <i>Kalamata</i> , the <i>Komodo</i> , the <i>Henry</i> , the <i>Commodore</i> (ex <i>Hyundai Commodore</i>) , the <i>Hyundai Duke</i> (ex <i>APL Duke</i>) , the <i>Independence</i> , the <i>Marathonas</i> , the <i>Messologi</i> , the <i>Mytilini</i> , the <i>Hope</i> , the <i>Honour</i> , the <i>SCI Pride</i> , the <i>Lotus</i> , the <i>Hyundai Vladivostok</i> , the <i>Hyundai Advance</i> , the <i>Hyundai Stride</i> , the <i>Hyundai Future</i> , the <i>Hyundai Sprinter</i>
Credit Agricole	\$ 156.8	The <i>CMA CGM Moliere</i> and the <i>CMA CGM Musset</i>
Deutsche Bank	\$ 180.0	The <i>Zim Rio Grande</i> , the <i>Zim Sao Paolo</i> and the <i>Zim Kingston</i>
Credit Suisse	\$ 221.1	The <i>Zim Luanda</i> , the <i>CMA CGM Nerval</i> and the <i>YM Mandate</i>
ABN Amro—Lloyds TSB—National Bank of Greece	\$ 253.2	The <i>YM Colombo</i> (ex <i>SNL Colombo</i>) , the <i>YM Seattle</i> , the <i>YM Vancouver</i> and the <i>YM Singapore</i>
Commerzbank—Credit Suisse—Credit Agricole	\$ 298.5	The <i>ZIM Dalian</i> , the <i>Hanjin Santos YM Maturity</i> , the <i>Hanjin Constantza</i> and the <i>CMA CGM Attila</i>
HSH Nordbank	\$ 35.0	The <i>Deva</i> and the <i>Derby D</i>
KEXIM	\$ 36.7	The <i>CSCL Europe</i> and the <i>CSCL America</i>
KEXIM-ABN Amro	\$ 73.7	The <i>CSCL Pusan</i> and the <i>CSCL Le Havre</i>
Aegean Baltic—HSH Nordbank—Piraeus Bank (3)	\$ 123.8	The <i>Hyundai Speed</i> , the <i>Hanjin Italy</i> and the <i>CMA CGM Rabelais</i>
RBS(2)	\$ 100.0	The <i>Hyundai Smart</i> and the <i>Hanjin Germany</i>
ABN Amro Club Facility	\$ 37.1	The <i>Hanjin Greece</i>
Club Facility	\$ 83.9	The <i>Hyundai Together</i> and the <i>Hyundai Tenacity</i>
Citi-Eurobank	\$ 80.0	The <i>Hyundai Ambition</i>
Sinosure-CEXIM	\$ 179.7	The <i>CMA CGM Tancredi</i> , the <i>CMA CGM Bianca</i> and the <i>CMA CGM Samson</i>
Vendor Financing		
Hyundai Samho	\$ 168.4	Second priority liens on the <i>Hyundai Smart</i> , the <i>Hyundai Speed</i> , the <i>Hyundai Ambition</i> , the <i>Hyundai Together</i> , the <i>Hyundai Tenacity</i> , the <i>Hanjin Greece</i> , the <i>Hanjin Italy</i> and the <i>Hanjin Germany</i>

(1) As of March 31, 2013.

(2) Pursuant to the Bank Agreement, this credit facility is also secured by a second priority lien on the *Derby D* , the *CSCL America* and the *CSCL Le Havre* .

(3) Pursuant to the Bank Agreement, this credit facility is also secured by a second priority lien on the *Deva* , the *CSCL Europe* and the *CSCL Pusan* .

As of March 31, 2013, there was no remaining borrowing availability under the Company's credit facilities. The Company was in compliance with the covenants under its Bank Agreement and its other credit facilities as of March 31, 2013.

For additional details regarding the Bank Agreement, the New Credit Facilities with existing lenders, Sinosure-CEXIM Credit Facility and Hyundai Samho Vendor Financing, please refer to "Item 5. Operating and Financial Review and Prospects" in our Annual Report on Form 20-F for the year ended December 31, 2012 filed with the Securities and Exchange Commission on March 1, 2013, as well as Note 9, Long-term Debt, to our condensed consolidated financial statements (unaudited) included elsewhere herein.

Qualitative and Quantitative Disclosures about Market Risk

Interest Rate Swaps

We have entered into interest rate swap agreements converting floating interest rate exposure into fixed interest rates in order to hedge our exposure to fluctuations in prevailing market interest rates, as well as interest rate swap agreements converting the fixed rate we pay in connection with certain of our credit facilities into floating interest rates in order to economically hedge the fair value of the fixed rate credit facilities against fluctuations in prevailing market interest rates. We do not use financial instruments for trading or other speculative purposes.

On July 1, 2012, we elected to prospectively de-designate interest rate swaps for which we were obtaining hedge accounting treatment due to the compliance burden associated with this accounting policy. As a result, all changes in the fair value of our interest rate swap agreements are recorded in earnings under "Unrealized and Realized Losses on Derivatives" from the de-designation date forward. We evaluated whether it is probable that the previously hedged forecasted interest payments are probable to not occur in the originally specified time period. We have concluded that the previously hedged forecasted interest payments are probable of occurring. Therefore, unrealized gains or losses in accumulated other comprehensive loss associated with the previously designated cash flow interest rate swaps will remain in accumulated other comprehensive loss and recognized in earnings when the interest payments will be recognized. Furthermore, the fair value of the hedged item associated with the previously designated fair value interest rate swaps will be frozen and recognized in earnings when the interest payments will be recognized. If such interest payments were to be identified as being probable of not occurring, both the accumulated other comprehensive loss balance and the fair value of hedged debt balance pertaining to the respective amounts would be reversed through earnings immediately. Refer to Note 10, Financial Instruments, to our condensed consolidated financial statements (unaudited) included in this report.

Foreign Currency Exchange Risk

We did not enter into derivative instruments to hedge the foreign currency translation of assets or liabilities or foreign currency transactions during the three months ended March 31, 2013 and 2012.

Off-Balance Sheet Arrangements

We do not have any transactions, obligations or relationships that could be considered material off-balance sheet arrangements.

Capitalization

The table below sets forth our consolidated capitalization as of March 31, 2013:

- On an actual basis; and
- on an as adjusted basis to reflect in the period from April 1, 2013 to April 29, 2013 scheduled debt repayment of \$7.0 million, of which \$3.6 million relates to the Hyundai Samho Vendor financing and \$3.4 million to Sinosure-CEXIM-Citi-ABN Amro credit facility.

Other than these adjustments, there have been no material changes to our capitalization from debt or equity issuances, re-capitalizations, special dividends, or debt repayments as adjusted in the table below between April 1, 2013 and April 29, 2013.

	As of March 31, 2013	
	Actual	As Adjusted
	(US Dollars in thousands)	
Debt:		
Total debt(1)	\$ 3,380,122	\$ 3,373,113
Stockholders' equity:		
Preferred stock (par value \$0.01, 100,000,000 preferred shares authorized and none issued; actual and as adjusted)	—	—
Common stock, par value \$0.01 per share; 750,000,000 shares authorized; 109,618,212 shares issued and outstanding actual and as adjusted(2)(3)	1,096	1,096
Additional paid-in capital	546,023	546,023
Accumulated other comprehensive loss	(322,963)	(322,963)
Retained earnings	259,888	259,888
Total stockholders' equity	484,044	484,044
Total capitalization	\$ 3,864,166	\$ 3,857,157

-
- (1) Total debt actual and as adjusted includes \$168.4 million and \$164.8 million of vendor financing, respectively. All of our indebtedness is secured.
 - (2) Does not include 15 million warrants issued to purchase shares of common stock, at an exercise price of \$7.00 per share, which we issued to lenders participating in our comprehensive financing plan. The warrants, which will expire on January 31, 2019, are exercisable solely on a cashless exercise basis.
 - (3) We have agreed to issue in 2013 an additional 35,151 new shares of common stock to employees of our manager in respect of equity awards granted in 2012.

Forward Looking Statements

Matters discussed in this report may constitute forward-looking statements within the meaning of the safe harbor provisions of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements reflect our current views with respect to future events and financial performance and may include statements concerning plans, objectives, goals, strategies, future events or performance, and underlying assumptions and other statements, which are other than statements of historical facts. The forward-looking statements in this report are based upon various assumptions, many of which are based, in turn, upon further assumptions, including management's examination of historical operating trends, data contained in our records and other data available from third parties. Although we believe that these assumptions were reasonable when made, because these assumptions are inherently subject to significant uncertainties and contingencies which are difficult or impossible to predict and are beyond our control, we cannot assure you that it will achieve or accomplish these expectations, beliefs or projections. Important factors that, in our view, could cause actual results to differ materially from those discussed in the forward-looking statements include the strength of world economies and currencies, general market conditions, including changes in charterhire rates and vessel values, charter counterparty performance, ability to obtain financing and comply with covenants contained in our financing agreements, shipyard performance, changes in demand that may affect attitudes of time charterers to scheduled and unscheduled drydocking, changes in our operating expenses, including bunker prices, dry-docking and insurance costs, actions taken by regulatory authorities, potential liability from pending or future litigation, domestic and international political conditions, potential disruption of shipping routes due to accidents and political events or acts by terrorists.

Risks and uncertainties are further described in reports filed by us with the U.S. Securities and Exchange Commission.

DANAOS CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1 Basis of Presentation and General Information

The accompanying condensed consolidated financial statements (unaudited) have been prepared in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The reporting and functional currency of the Company is the United States Dollar.

Danaos Corporation ("Danaos"), formerly Danaos Holdings Limited, was formed on December 7, 1998 under the laws of Liberia and is presently the sole owner of all outstanding shares of the companies listed below. Danaos Holdings Limited was redomiciled in the Marshall Islands on October 7, 2005. In connection with the redomiciliation, the Company changed its name to Danaos Corporation. On October 14, 2005, the Company filed and the Marshall Islands accepted Amended and Restated Articles of Incorporation. The authorized capital stock of Danaos Corporation is 750,000,000 shares of common stock with a par value of \$0.01 and 100,000,000 shares of preferred stock with a par value of \$0.01. Refer to Note 12, Stockholders' Equity.

In the opinion of management, the accompanying condensed consolidated financial statements (unaudited) of Danaos and subsidiaries contain all adjustments necessary to present fairly, in all material respects, the Company's consolidated financial position as of March 31, 2013, the consolidated results of operations for the three months ended March 31, 2013 and 2012 and the consolidated cash flows for the three months ended March 31, 2013 and 2012. All such adjustments are deemed to be of a normal, recurring nature. These financial statements should be read in conjunction with the consolidated financial statements and related notes included in Danaos' Annual Report on Form 20-F for the year ended December 31, 2012. The results of operations for the three months ended March 31, 2013, are not necessarily indicative of the results to be expected for the full year.

The year-end condensed consolidated balance sheet data was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America.

The Company's principal business is the acquisition and operation of vessels. Danaos conducts its operations through the vessel owning companies whose principal activity is the ownership and operation of containerships that are under the exclusive management of a related party of the Company.

The accompanying condensed consolidated financial statements (unaudited) represent the consolidation of the accounts of the Company and its wholly owned subsidiaries. The subsidiaries are fully consolidated from the date on which control is transferred to the Company. They are de-consolidated from the date that control ceases. Inter-company transaction balances and unrealized gains on transactions between the companies are eliminated.

The Company also consolidates entities that are determined to be variable interest entities as defined in the authoritative guidance under U.S. GAAP. A variable interest entity is defined as a legal entity where either (a) equity interest holders as a group lack the characteristics of a controlling financial interest, including decision making ability and an interest in the entity's residual risks and rewards, or (b) the equity holders have not provided sufficient equity investment to permit the entity to finance its activities without additional subordinated financial support, or (c) the voting rights of some investors are not proportional to their obligations to absorb the expected losses of the entity, their rights to receive the expected residual returns of the entity, or both and substantially all of the entity's activities either involve or are conducted on behalf of an investor that has disproportionately few voting rights.

The condensed consolidated financial statements (unaudited) have been prepared to reflect the consolidation of the companies listed below. The historical balance sheets and results of operations of the companies listed below have been reflected in the consolidated balance sheets and consolidated statements of income, cash flows and stockholders' equity at and for each period since their respective incorporation dates.

The consolidated companies are referred to as "Danaos," or "the Company."

As of March 31, 2013, Danaos included the vessel owning companies (the "Danaos Subsidiaries") listed below. All vessels are container vessels:

2 Significant Accounting Policies

All accounting policies are as described in the Company's Annual Report on Form 20-F for the year ended December 31, 2012 filed with the Securities and Exchange Commission on March 1, 2013, except for the one below:

Assets held for sale : Long-lived assets are classified as "Assets held for sale" when the following criteria are met: management has committed to a plan to sell the asset; the asset is available for immediate sale in its present condition; an active program to locate a buyer and other actions required to complete the plan to sell the asset have been initiated; the sale of the asset is probable, and transfer of the asset is expected to qualify for recognition as a completed sale within one year; the asset is being actively marketed for sale at a price that is reasonable in relation to its current fair value and actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn. Long-lived assets classified as held for sale are measured at the lower of their carrying amount or fair value less cost to sell. These assets are not depreciated once they meet the criteria to be held for sale. Assets held for sale are stated net of cost and accumulated depreciation, as well as capitalized cost of dry-docking and special survey and accumulated amortization. As of March 31, 2013 and December 31, 2012, the transfer to assets held for sale totaled \$7.9 million and nil, respectively.

Recent Accounting Pronouncements

Comprehensive Income

In February 2013, the FASB issued new guidance for reporting of amounts reclassified out of accumulated other comprehensive income. The amendment requires an entity to report the effect of significant reclassifications out of accumulated other comprehensive income on the respective line items in net income if the amount being reclassified is required under U.S. GAAP to be reclassified in its entirety to net income. For other amounts that are not required under U.S. GAAP to be reclassified in their entirety to net income in the same reporting period, an entity is required to cross-reference other disclosures required under U.S. GAAP that provide additional detail about those amounts. Public companies are required to comply with these amendments for all reporting periods presented, including interim periods. The amended guidance was effective for the Company for reporting periods beginning after December 15, 2012. The adoption of the new guidance did not have an effect on the Company's condensed consolidated financial statements.

3 Restricted Cash

Restricted cash is comprised of the following (in thousands):

	As of March 31, 2013	As of December 31, 2012
Retention account	\$ 9	\$ 2,821
Restricted deposits	\$ 19,240	\$ 430
Total	\$ 19,249	\$ 3,251

The Company was required to maintain cash of \$9 thousand and \$2.8 million as of March 31, 2013 and December 31, 2012, respectively, in a retention bank account as collateral for the upcoming scheduled debt payments of its KEXIM and KEXIM-ABN Amro credit facilities, which were recorded under current assets in the Company's Balance Sheets.

On March 27, 2013, the Company has entered into an agreement with the lenders under the *HSH Nordbank AG-Aegean Baltic Bank-Piraeus Bank* credit facility. The agreement provides the Company the option to sell, for cash, up to 9 mortgaged vessels (the *Henry*, the *Pride*, the *Independence*, the *Honour*, the *Elbe*, the *Hope*, the *Lotus*, the *Kalamata* and the *Komodo*) with the sale proceeds less sale commissions from such vessels' sales to be deposited in a restricted cash account and used to finance the acquisition of new containership vessels no later than December 31, 2013. Any funds remaining in this restricted cash account after that date will be applied towards prepayment of the respective credit facility. As of March 31, 2013, the Company had concluded the sales of the *Henry*, the *Pride* and the *Independence* and it has also entered into an agreement to sell the *Honour* on April 2, 2013. An amount of \$18.8 million, representing the sale proceeds less sale commissions from the sale of the *Henry*, the *Pride* and the *Independence*, was recorded as non-current restricted cash.

Furthermore, the Company recorded non-current restricted cash of \$0.4 million as cash collateral for one of its outstanding swaps as of March 31, 2013 and December 31, 2012.

DANAOS CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

4 Fixed assets, net

Fixed assets consist of vessels. Vessels' cost, accumulated depreciation and changes thereto were as follows (in thousands):

	Vessel Cost	Accumulated Depreciation	Net Book Value
As of January 1, 2012	\$ 3,703,781	\$ (461,830)	\$ 3,241,951
Additions	1,022,560	(143,938)	878,622
Disposal	(20,606)	15,801	(4,805)
Impairment loss	(129,630)	—	(129,630)
As of December 31, 2012	\$ 4,576,105	\$ (589,967)	\$ 3,986,138
Additions	981	(33,983)	(33,002)
Transfer to Vessel held for sale	(31,167)	23,507	(7,660)
Disposal	(42,572)	25,764	(16,808)
As of March 31, 2013	\$ 4,503,347	\$ (574,679)	\$ 3,928,668

- i. On February 13, 2013, the Company sold and delivered the *Independence*. The gross sale consideration was \$7.0 million. The *Independence* was 26 years old.
- ii. On February 28, 2013, the Company sold and delivered the *Henry*. The gross sale consideration was \$6.1 million. The *Henry* was 27 years old.
- iii. On March 25, 2013, the Company sold and delivered the *Pride*. The gross sale consideration was \$6.5 million. The *Pride* was 25 years old.

On April 2, 2013, the Company entered into an agreement to sell the *Honour*. The gross sale consideration was \$9.1 million. The *Honour* was 24 years old and was laid up as of March 31, 2013. As of March 31, 2013, the Company classified an amount of \$7.9 million as Held for Sale in its condensed consolidated balance sheet, in accordance with the accounting guidance of Long-lived Assets Classified as Held for Sale.

As of December 31, 2012, the Company recorded an impairment loss of \$129.6 million in relation to thirteen of its older vessels, which were laid up or on short-term charters in the spot market. Fair value of each vessel was determined with the assistance from valuations obtained by third party independent shipbrokers.

The residual value (estimated scrap value at the end of the vessels' useful lives) of the fleet was estimated at \$412.6 million as of March 31, 2013 and \$431.9 million as of December 31, 2012. The Company has calculated the residual value of the vessels taking into consideration the 10 year average and the 5 year average of the scrap. The Company has applied uniformly the scrap value of \$300 per ton for all vessels. The Company believes that \$300 per ton is a reasonable estimate of future scrap prices, taking into consideration the cyclicity of the nature of future demand for scrap steel. Although the Company believes that the assumptions used to determine the scrap rate are reasonable and appropriate, such assumptions are highly subjective, in part, because of the cyclical nature of future demand for scrap steel.

DANAOS CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

5 Deferred Charges, net

Deferred charges, net consisted of the following (in thousands):

	Drydocking and Special Survey Costs	Finance and other Costs	Total Deferred Charges
As of January 1, 2012	\$ 6,431	\$ 93,280	\$ 99,711
Additions	9,308	186	9,494
Amortization	(6,070)	(14,314)	(20,384)
As of December 31, 2012	\$ 9,669	\$ 79,152	\$ 88,821
Additions	(245)	21	(224)
Written off amounts	(57)	—	(57)
Reclassified to vessel held for sale	(224)	—	(224)
Amortization	(1,730)	(3,900)	(5,630)
As of March 31, 2013	\$ 7,413	\$ 75,273	\$ 82,686

The Company follows the deferral method of accounting for drydocking and special survey costs in accordance with accounting for planned major maintenance activities, whereby actual costs incurred are deferred and amortized on a straight-line basis over the period until the next scheduled survey, which is two and a half years. If special survey or drydocking is performed prior to the scheduled date, the remaining unamortized balances are immediately written off. Furthermore, when a vessel is drydocked for more than one reporting period, the respective costs are identified and recorded in the period in which they were incurred and not at the conclusion of the drydocking.

6 Other Non-current Assets

Other non-current assets consisted of the following (in thousands):

	As of March 31, 2013	As of December 31, 2012
Fair value of swaps	\$ 2,553	\$ 2,908
Notes receivable from ZIM	34,358	33,899
Other non-current assets	1,103	1,176
Total	\$ 38,014	\$ 37,983

On October 30, 2009, the Company agreed with one of its charterers, Zim Integrated Shipping Services Ltd. (“ZIM”), revisions to charterparties for six of its vessels in operation, which kept the original charter terms in place, reducing the cash settlement of each charter hire by 17.5%, for a period ending on December 31, 2012, which would become a subsequent payment. Each subsequent payment, which accumulates in any financial quarter, is satisfied by callable exchange notes (the “CENs”). CENs were issued by ZIM once per financial quarter at a face value equal to the aggregate amount of such subsequent payments from that financial quarter plus a premium amount (being an amount calculated as if each such subsequent payment had accrued interest at the rate of 6% p.a. from the date when it would have been due under the original charter party until the relevant issue date for the CENs). Unless previously converted at the holder’s option into ZIM’s common stock (only upon ZIM becoming a publicly listed company) or redeemed partially prior to or in full in cash, on July 1, 2016, ZIM will redeem the CENs at their remaining nominal amount together with the 6% interest accrued up to that date in cash only. In this respect, the Company recorded notes receivable from ZIM in “Other non-current assets” of \$34.4 million and \$33.9 million as of March 31, 2013 and December 31, 2012, respectively.

In respect of the fair value of swaps, refer to Note 10b, Financial Instruments — Fair Value Interest Rate Swap Hedges.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

7 Accrued Liabilities

Accrued liabilities consisted of the following (in thousands):

	As of March 31, 2013	As of December 31, 2012
Accrued payroll	\$ 1,224	\$ 969
Accrued interest	14,080	12,473
Accrued expenses	20,190	19,452
Total	\$ 35,494	\$ 32,894

Accrued expenses mainly consisted of accrued realized losses on cash flow interest rate swaps of \$15.3 million and \$15.2 million as of March 31, 2013 and December 31, 2012, respectively, as well as other accruals related to the operation of the Company's fleet of \$4.9 million and \$4.3 million as of March 31, 2013 and December 31, 2012, respectively.

8 Other Current and Long-term Liabilities

Other current liabilities consisted of the following (in thousands):

	As of March 31, 2013	As of December 31, 2012
Fair value of swaps	\$ 126,705	\$ 130,100
Other current liabilities	365	365
Total	\$ 127,070	\$ 130,465

Other long-term liabilities consisted of the following (in thousands):

	As of March 31, 2013	As of December 31, 2012
Fair value of swaps	\$ 146,407	\$ 176,948
Other long-term liabilities	11,225	10,315
Total	\$ 157,632	\$ 187,263

Other long-term liabilities mainly consist of \$4.8 million as of March 31, 2013 and December 31, 2012 in relation to a deferred fee accrued pursuant to the Bank Agreement (refer to Note 9, Long-Term Debt), which will be cash settled on December 31, 2014 and is recorded at amortized cost.

In respect of the fair value of swaps, refer to Note 10a, Financial Instruments — Cash Flow Interest Rate Swap Hedges.

All floating rate loans discussed above are collateralized by first and second preferred mortgages over the vessels financed, general assignment of all hire freights, income and earnings, the assignment of their insurance policies, as well as any proceeds from the sale of mortgaged vessels and the corporate guarantee of Danaos Corporation.

DANAOS CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

9 Long -Term Debt (continued)

Maturities of long-term debt for the next five years and thereafter subsequent to March 31, 2013, are as follows (in thousands):

Payment due by period ended	Fixed principal repayments	Variable principal payments	Final Payment due on December 31, 2018*	Total principal payments
March 31, 2014	\$ 126,812	\$ 12,652	\$ —	\$ 139,464
March 31, 2015	137,782	37,782	—	175,564
March 31, 2016	159,554	65,465	—	225,019
March 31, 2017	194,547	176,220	—	370,767
March 31, 2018	169,415	168,091	—	337,506
March 31, 2019 and thereafter	288,741	84,805	1,582,566	1,956,112
Total long-term debt	\$ 1,076,851	\$ 545,015	\$ 1,582,566	\$ 3,204,432

* The last payment due on December 31, 2018, includes the unamortized remaining principal debt balances under the restructuring agreement, as such amount will be determinable following the fixed and variable amortization.

The maturities of long-term debt for the twelve month periods subsequent to March 31, 2013 are based on the terms of the Bank Agreement, under which the Company is not required to repay any outstanding principal amounts under its existing credit facilities, other than the KEXIM and KEXIM-ABN Amro credit facilities which are not covered by the Bank Agreement, until after May 15, 2013; thereafter until December 31, 2018 it will be required to make quarterly principal payments in fixed amounts. In addition, the Company is required to make an additional payment in such amount that, together with the fixed principal payment, equals a certain percentage of its Actual Free Cash Flow of the preceding financial quarter. The table above includes both the fixed payments for which the Company has a contractual obligation, as well as the Company's estimate of the future Actual Free Cash Flows and resulting variable amortization. The last payment due on December 31, 2018, will also include the unamortized remaining principal debt balances, as such amount will be determinable following the fixed and variable amortization.

Maturities of Hyundai Samho vendor financing for the next periods subsequent to March 31, 2013, are as follows (in thousands):

Payment due by period ended	
March 31, 2014	\$ 57,388
March 31, 2015	57,388
March 31, 2016	42,911
March 31, 2017	10,695
Total vendor financing	\$ 168,382

As of February 9, 2012, the Company signed a supplemental letter extending the terms of the August 12, 2010 supplemental letter through June 30, 2014, which amended the interest rate margin and the financial covenants of its KEXIM-ABN Amro credit facility. More specifically, the financial covenants were aligned with those set forth in the Bank Agreement (see below), and the interest rate margin was increased by 0.5 percentage points for the same period.

Bank Agreement

On January 24, 2011, the Company entered into a definitive agreement, which became effective on March 4, 2011, referred to as the Bank Agreement, that superseded, amended and supplemented the terms of each of the Company's then-existing credit facilities (other than its credit facilities with KEXIM and KEXIM-ABN Amro which are not covered thereby), and provided for, among other things, revised amortization schedules, maturities, interest rates, financial covenants, events of defaults, guarantee and security packages and approximately \$425 million of new debt financing. Subject to the terms of the Bank Agreement and the intercreditor agreement (the "Intercreditor Agreement"), which the Company entered into with each of the lenders participating under the Bank Agreement to govern the relationships between the lenders thereunder, under the New Credit Facilities (as described and defined below) and under the Hyundai Samho Vendor Financing described below, the lenders participating thereunder continue to provide the Company's then-existing credit facilities and amended the covenants under the existing credit facilities in accordance with the terms of the Bank Agreement.

DANAOS CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

9 Long -Term Debt (continued)

Under the terms of the Bank Agreement, borrowings under each of the Company's existing credit facilities, other than the KEXIM and KEXIM-ABN Amro credit facilities which are not covered by the Bank Agreement, bear interest at an annual interest rate of LIBOR plus a margin of 1.85%.

The Company is required to pay an amendment fee of \$5.0 million on December 31, 2014. This amendment fee was accrued under the "Other long-term liabilities" in the consolidated balance sheet and is deferred and amortized over the life of the respective credit facilities with the effective interest method. In addition, the Company is required to pay exit fees, which are discussed in detail below.

Principal Payments

Under the terms of the Bank Agreement, the Company is not required to repay any outstanding principal amounts under its existing credit facilities, other than the KEXIM and KEXIM-ABN Amro credit facilities which are not covered by the Bank Agreement, until after May 15, 2013; thereafter, the Company will be required to make quarterly principal payments in fixed amounts, in relation to the Company's total debt commitments from the Company's lenders under the Bank Agreement and New Credit Facilities, as specified in the table below:

	<u>February 15,</u>	<u>May 15,</u>	<u>August 15,</u>	<u>November 15,</u>	<u>December 31,</u>	<u>Total</u>
2013	—	19,481,395	21,167,103	21,482,169	—	62,130,667
2014	22,722,970	21,942,530	22,490,232	24,654,040	—	91,809,772
2015	26,736,647	27,021,750	25,541,180	34,059,102	—	113,358,679
2016	30,972,971	36,278,082	32,275,598	43,852,513	—	143,379,164
2017	44,938,592	36,690,791	35,338,304	31,872,109	—	148,839,796
2018	34,152,011	37,585,306	44,398,658	45,333,618	65,969,274	227,438,867
Total						786,956,945

* The Company may elect to make the scheduled payments shown in the above table three months earlier.

Furthermore, an additional variable payment in such amount that, together with the fixed principal payment (as disclosed above), equals 92.5% of Actual Free Cash Flow of the preceding financial quarter until the earlier of (x) the date on which the Company's consolidated net leverage is below 6:1 and (y) May 15, 2015; and thereafter through maturity, which will be December 31, 2018 for each covered credit facility, it will be required to make fixed quarterly principal payments in fixed amounts as specified in the Bank Agreement and described above plus an additional payment in such amount that, together with the fixed principal payment, equals 89.5% of Actual Free Cash Flow of the preceding financial quarter. In addition, any additional amounts of cash and cash equivalents, but during the final principal payment period described above only such additional amounts in excess of the greater of (1) \$50 million of accumulated unrestricted cash and cash equivalents and (2) 2% of the Company's consolidated debt, would be applied first to the prepayment of the New Credit Facilities and after the New Credit Facilities are repaid, to the existing credit facilities. The last payment due on December 31, 2018 will also include the unamortized remaining principal debt balances, as such amount will be determinable following the fixed and variable amortization.

Under the Bank Agreement, "Actual Free Cash Flow" with respect to each credit facility covered thereby is equal to revenue from the vessels collateralizing such facility, less the sum of (a) interest expense under such credit facility, (b) pro-rata portion of payments under its interest rate swap arrangements, (c) interest expense and scheduled amortization under the Hyundai Samho Vendor Financing and (d) per vessel operating expenses and pro rata per vessel allocation of general and administrative expenses (which are not permitted to exceed the relevant budget by more than 20%), plus (e) the pro-rata share of operating cash flow of any Applicable Second Lien Vessel (which means, with respect to an existing facility, a vessel with respect to which the participating lenders under such facility have a second lien security interest and the first lien credit facility has been repaid in full).

Under the terms of the Bank Agreement, the Company continues to be required to make any mandatory prepayments provided for under the terms of its existing credit facilities and is required to make additional prepayments as follows

- 50% of the first \$300 million of net equity proceeds (including convertible debt and hybrid instruments), excluding the \$200 million of net equity proceeds which was a condition to the Bank Agreement and were received in August 2010 for which there are no specified required uses, after entering into the Bank Agreement and 25% of any additional net equity proceeds thereafter until December 31, 2018; and

DANAOS CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

9 Long -Term Debt (continued)

- any debt proceeds (after repayment of any underlying secured debt covered by vessels collateralizing the new borrowings) (excluding the New Credit Facilities, the Sinosure-CEXIM Credit Facility and the Hyundai Samho Vendor Financing),

which amounts would first be applied to repayment of amounts outstanding under the New Credit Facilities and then to the existing credit facilities. Any equity proceeds retained by the Company and not used within 12 months for certain specified purposes would be applied for prepayment of the New Credit Facilities and then to the existing credit facilities. The Company would also be required to prepay the portion of a credit facility attributable to a particular vessel upon the sale or total loss of such vessel; the termination or loss of an existing charter for a vessel, unless replaced within a specified period by a similar charter acceptable to the lenders; or the termination of a newbuilding contract. The Company's respective lenders under its existing credit facilities covered by the Bank Agreement and the New Credit Facilities may, at their option, require the Company to repay in full amounts outstanding under such respective credit facilities, upon a "Change of Control" of the Company, which for these purposes is defined as (i) Dr. Coustas ceasing to be its Chief Executive Officer, (ii) its common stock ceasing to be listed on the NYSE (or Nasdaq or other recognized stock exchange), (iii) a change in the ultimate beneficial ownership of the capital stock of any of its subsidiaries or ultimate control of the voting rights of those shares, (iv) Dr. Coustas and members of his family ceasing to collectively own over one-third of the voting interest in its outstanding capital stock or (v) any other person or group controlling more than 20% of the voting power of its outstanding capital stock.

Covenants and Events of Default

Under the Bank Agreement, the financial covenants under each of the Company's existing credit facilities (other than under the KEXIM-ABN Amro credit facility which is not covered thereby, but which has been aligned with those covenants below through June 30, 2014 under the supplemental letter dated August 12, 2010 and amendment thereto dated February 9, 2012 and our KEXIM credit facility, which contains only a collateral coverage covenant of 130%), have been reset to require the Company to:

- maintain a ratio of (i) the market value of all of the vessels in the Company's fleet, on a charter-inclusive basis, plus the net realizable value of any additional collateral, to (ii) the Company's consolidated total debt above specified minimum levels gradually increasing from 90% through December 31, 2011 to 130% from September 30, 2017 through September 30, 2018;
- maintain a minimum ratio of (i) the market value of the nine vessels (*Hyundai Smart*, *Hyundai Speed*, *Hyundai Ambition*, *Hyundai Together*, *Hyundai Tenacity*, *Hanjin Greece*, *Hanjin Italy*, *Hanjin Germany* and *CMA CGM Rabelais*) collateralizing the New Credit Facilities, calculated on a charter-free basis, plus the net realizable value of any additional collateral, to (ii) the Company's aggregate debt outstanding under the New Credit Facilities of 100% from September 30, 2012 through September 30, 2018;
- maintain minimum free consolidated unrestricted cash and cash equivalents, less the amount of the aggregate variable principal amortization amounts, described above, of \$30.0 million at the end of each calendar quarter, other than during 2012 when the Company will be required to maintain a minimum amount of \$20.0 million;
- ensure that the Company's (i) consolidated total debt less unrestricted cash and cash equivalents to (ii) consolidated EBITDA (defined as net income before interest, gains or losses under any hedging arrangements, tax, depreciation, amortization and any other non-cash item, capital gains or losses realized from the sale of any vessel, finance charges and capital losses on vessel cancellations and before any non-recurring items and excluding any accrued interest due to us but not received on or before the end of the relevant period; provided that non-recurring items excluded from this calculation shall not exceed 5% of EBITDA calculated in this manner) for the last twelve months does not exceed a maximum ratio gradually decreasing from 12:1 on December 31, 2010 to 4.75:1 on September 30, 2018;
- ensure that the ratio of the Company's (i) consolidated EBITDA for the last twelve months to (ii) net interest expense (defined as interest expense (excluding capitalized interest), less interest income, less realized gains on interest rate swaps (excluding capitalized gains) and plus realized losses on interest rate swaps (excluding capitalized losses)) exceeds a minimum level of 1.50:1 through September 30, 2013 and thereafter gradually increasing to 2.80:1 by September 30, 2018; and

DANAOS CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

9 Long -Term Debt (continued)

- maintain a consolidated market value adjusted net worth (defined as the amount by which the Company's total consolidated assets adjusted for the market value of the Company's vessels in the water less cash and cash equivalents in excess of the Company's debt service requirements exceeds the Company's total consolidated liabilities after excluding the net asset or liability relating to the fair value of derivatives as reflected in the Company's financial statements for the relevant period) of at least \$400 million.

For the purpose of these covenants, the market value of the Company's vessels will be calculated, except as otherwise indicated above, on a charter-inclusive basis (using the present value of the "bareboat-equivalent" time charter income from such charter) so long as a vessel's charter has a remaining duration at the time of valuation of more than 12 months plus the present value of the residual value of the relevant vessel (generally equivalent to the charter free value of such a vessel at the age such vessel would be at the expiration of the existing time charter). The market value for newbuilding vessels, all of which currently have multi-year charters, would equal the lesser of such amount and the newbuilding vessel's book value.

Under the terms of the Bank Agreement, the existing credit facilities also contain customary events of default, including those relating to cross-defaults to other indebtedness, defaults under its swap agreements, non-compliance with security documents, material adverse changes to its business, a Change of Control as described above, a change in its Chief Executive Officer, its common stock ceasing to be listed on the NYSE (or Nasdaq or another recognized stock exchange), a change in, or breach of the management agreement by the manager for the vessels securing the respective credit facilities and cancellation or amendment of the time charters (unless replaced with a similar time charter with a charterer acceptable to the lenders) for the vessels securing the respective credit facilities.

Under the terms of the Bank Agreement, the Company generally will not be permitted to incur any further financial indebtedness or provide any new liens or security interests, unless such security is provided for the equal and ratable benefit of each of the lenders party to the Intercreditor Agreement, other than security arising by operation of law or in connection with the refinancing of outstanding indebtedness, with the consent, not to be unreasonably withheld, of all lenders with a lien on the security pledged against such outstanding indebtedness. In addition, the Company would not be permitted to pay cash dividends or repurchase shares of its capital stock unless (i) its consolidated net leverage is below 6:1 for four consecutive quarters and (ii) the ratio of the aggregate market value of its vessels to its outstanding indebtedness exceeds 125% for four consecutive quarters and provided that an event of default has not occurred and the Company is not, and after giving effect to the payment of the dividend, in breach of any covenant.

Collateral and Guarantees

Each of the Company's existing credit facilities and swap arrangements, to the extent applicable, continue to be secured by their previous collateral on the same basis, and received, to the extent not previously provided, pledges of the shares of the Company's subsidiaries owning the vessels collateralizing the applicable facilities, cross-guarantees from each subsidiary owning the vessels collateralizing such facilities, assignment of the refund guarantees in relation to any newbuildings funded by such facilities and other customary shipping industry collateral.

New Credit Facilities (Aegean Baltic Bank—HSH Nordbank—Piraeus Bank, RBS, ABN Amro Club facility, Club Facility and Citi-Eurobank)

On January 24, 2011, the Company entered into agreements for the following new term loan credit facilities ("New Credit Facilities"):

- (i) a \$123.8 million credit facility provided by HSH, which is secured by *Hyundai Speed*, *Hanjin Italy* and *CMA CGM Rabelais* and customary shipping industry collateral related thereto (the \$123.8 million amount includes principal commitment of \$23.75 million under the Aegean Baltic Bank—HSH Nordbank—Piraeus Bank credit facility already drawn as of December 31, 2010, which was transferred to the new facility upon finalization of the agreement in 2011);
- (ii) a \$100.0 million credit facility provided by RBS, which is secured by *Hyundai Smart* and *Hanjin Greece* and customary shipping industry collateral related thereto;
- (iii) a \$37.1 million credit facility with ABN Amro and lenders participating under the Bank Agreement which is secured by *Hanjin Germany* and customary shipping industry collateral related thereto;
- (iv) a \$83.9 million new club credit facility to be provided, on a pro rata basis, by the other existing lenders participating under the Bank Agreement, which is secured by *Hyundai Together* and *Hyundai Tenacity* and customary shipping industry collateral related thereto; and

DANAOS CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

9 Long -Term Debt (continued)

- (v) a \$80 million credit facility with Citibank and Eurobank, which is secured by *Hyundai Ambition* and customary shipping industry collateral related thereto (i)-(v), collectively, the “New Credit Facilities”).

As of March 31, 2013, \$424.8 million was outstanding under the above New Credit Facilities and there were nil undrawn funds available.

Borrowings under each of the New Credit Facilities above bear interest at an annual interest rate of LIBOR plus a margin of 1.85%, subject, on and after January 1, 2013, to increases in the applicable margin to: (i) 2.50% if the aggregate outstanding indebtedness thereunder exceeds \$276 million, (ii) 3.00% if the aggregate outstanding indebtedness thereunder exceeds \$326 million and (iii) 3.50% if the aggregate outstanding indebtedness thereunder exceeds \$376 million.

Principal Payments

Under the Bank Agreement, the Company is not required to repay any outstanding principal amounts under its New Credit Facilities until May 15, 2013 and thereafter it will be required to make quarterly principal payments in fixed amounts as specified in the Bank Agreement plus an additional quarterly variable amortization payment, all as described above under “—Bank Agreement—Principal Payments.”

Covenants, Events of Default and Other Terms

The New Credit Facilities contain substantially the same financial and operating covenants, events of default, dividend restrictions and other terms and conditions as applicable to the Company’s existing credit facilities as revised under the Bank Agreement described above.

Collateral and Guarantees

The collateral described above relating to the newbuildings financed by the respective credit facilities, will be (other than in respect of the *CMA CGM Rabelais*) subject to a limited participation by Hyundai Samho in any enforcement thereof until repayment of the related Hyundai Samho Vendor financing (described below) for such vessels. In addition lenders who participate in the new \$83.9 million club credit facility described above received a lien on *Hyundai Together* and *Hyundai Tenacity* as additional security in respect of the existing credit facilities the Company has with such lenders. The lenders under the other New Credit Facilities also received a lien on the respective vessels securing such New Credit Facilities as additional collateral in respect of its existing credit facilities and interest rate swap arrangements with such lenders and Citibank and Eurobank also received a second lien on *Hyundai Ambition* as collateral in respect of its previously unsecured interest rate arrangements with them.

In addition, Aegean Baltic—HSH Nordbank—Piraeus Bank also received a second lien on the *Deva*, the *CSCL Europe* and the *CSCL Pusan* as collateral in respect of all borrowings from Aegean Baltic—HSH Nordbank—Piraeus Bank and RBS also received a second lien on the *Derby D*, *CSCL America* and the *CSCL Le Havre* as collateral in respect of all borrowings from RBS.

The Company’s obligations under the New Credit Facilities are guaranteed by its subsidiaries owning the vessels collateralizing the respective credit facilities. The Company’s Manager has also provided an undertaking to continue to provide the Company with management services and to subordinate its rights to the rights of its lenders, the security trustee and applicable hedge counterparties.

Sinosure-CEXIM-Citi-ABN Amro Credit Facility

On February 21, 2011, the Company entered into a bank agreement with Citibank, acting as agent, ABN Amro and the Export-Import Bank of China (“CEXIM”) for a senior secured credit facility (the “Sinosure-CEXIM Credit Facility”) of up to \$203.4 million, in three tranches each in an amount equal to the lesser of \$67.8 million and 60.0% of the contract price for the newbuilding vessels, *CMA CGM Tancredi*, *CMA CGM Bianca* and *CMA CGM Samson*, securing such tranche for post-delivery financing of these vessels. The Company took delivery of the respective vessels in 2011. The China Export & Credit Insurance Corporation, or Sinosure, covers a number of political and commercial risks associated with each tranche of the credit facility.

Borrowings under the Sinosure-CEXIM Credit Facility bear interest at an annual interest rate of LIBOR plus a margin of 2.85% payable semi-annually in arrears. The Company is required to repay principal amounts drawn under each tranche of the Sinosure-CEXIM Credit Facility in consecutive semi-annual installments over a ten-year period commencing after the delivery of the respective newbuilding being financed by such amount through the final maturity date of the respective tranches and repay the respective tranche in full upon the loss of the respective newbuilding.

DANAOS CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

9 Long -Term Debt (continued)

As of March 31, 2013 , \$179.7 million was outstanding under the credit facility and there were no undrawn funds available.

Covenants, Events of Default and Other Terms

The Sinosure-CEXIM Credit Facility requires the Company to:

- maintain a ratio of total net debt (defined as total liabilities less cash and cash equivalents) to adjusted total consolidated assets (total consolidated assets with market value of vessels replacing book value of vessels less cash and cash equivalents) of no more than 70%;
- maintain a minimum ratio of the market value of the vessel collateralizing a tranche of the facility to debt outstanding under such tranche of 125%;
- maintain minimum free consolidated unrestricted cash and cash equivalents, through February 21, 2014, of \$30.0 million, and the higher of \$30.0 million and 2% of consolidated total debt thereafter;
- ensure that the ratio of the Company's (i) consolidated EBITDA (defined as net income before interest, gains or losses under any hedging arrangements, tax, depreciation, amortization and any other non-cash item, capital gains or losses realized from the sale of any vessel, financing payments, fees and commissions and capital losses on vessel cancellations and before any non-recurring items) for the last twelve months to (ii) interest expense (defined as the aggregate amount of interest, commission, fees and other finance charges (excluding capitalized interest)) exceeds 2.50:1; and
- maintain a consolidated market value adjusted net worth (defined as the Company's total consolidated assets adjusted for the market value of the Company's vessels less the Company's total consolidated liabilities) of at least \$400 million.

For the purpose of these covenants, the market value of the Company's vessels will be calculated, except as otherwise indicated above, on a charter-inclusive basis (using the present value of the "bareboat-equivalent" time charter income from such charter) so long as a vessel's charter has a remaining duration at the time of valuation of more than six months plus the present value of the residual value of the relevant vessel (generally equivalent to the charter free value of such a vessel at the age such vessel would be at the expiration of the existing time charter).

The Sinosure-CEXIM credit facility also contains customary events of default, including those relating to cross-defaults to other indebtedness, defaults under its swap agreements, non-compliance with security documents, material adverse changes to its business, a Change of Control as described above, a change in its Chief Executive Officer, its common stock ceasing to be listed on the NYSE (or Nasdaq or another recognized stock exchange), a change in, or breach of the management agreement by, the manager for the mortgaged vessels and cancellation or amendment of the time charters (unless replaced with a similar time charter with a charterer acceptable to the lenders) for the mortgaged vessels.

The Company will not be permitted to pay cash dividends or repurchase shares of its capital stock unless (i) its consolidated net leverage is below 6:1 for four consecutive quarters and (ii) the ratio of the aggregate market value of its vessels to its outstanding indebtedness exceeds 125% for four consecutive quarters and provided that an event of default has not occurred and the Company is not, and after giving effect to the payment of the dividend is not, in breach of any covenant.

Collateral

The Sinosure-CEXIM Credit Facility is secured by customary pre-delivery and post-delivery shipping industry collateral with respect to the newbuilding vessels, *CMA CGM Tancredi* , *CMA CGM Bianca* and *CMA CGM Samson* , securing the respective tranche.

DANAOS CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

9 Long -Term Debt (continued)

Hyundai Samho Vendor Financing

The Company entered into an agreement with Hyundai Samho Heavy Industries (“Hyundai Samho”) for a financing facility of \$190.0 million in respect of eight of its newbuilding containerships being built by Hyundai Samho, *Hyundai Smart*, *Hyundai Speed*, *Hyundai Ambition*, *Hyundai Together*, *Hyundai Tenacity*, *Hanjin Greece*, *Hanjin Italy* and *Hanjin Germany*, in the form of delayed payment of a portion of the final installment for each such newbuilding.

Borrowings under this facility bear interest at a fixed interest rate of 8%. The Company will be required to repay principal amounts under this financing facility in six consecutive semi-annual installments commencing one and a half years, in the case of three of the newbuilding vessels being financed, and in seven consecutive semi-annual installments commencing one year, in the case of the other five newbuilding vessels, after the delivery of the respective newbuilding being financed. This financing facility does not require the Company to comply with financial covenants, but contains customary events of default, including those relating to cross-defaults. This financing facility is secured by second priority collateral related to the newbuilding vessels being financed.

Exit Fees

The Company will be required to pay an Initial Exit Fee of \$15.0 million. Furthermore, the Company will be required to pay an Additional Exit Fee of \$10.0 million, if it does not repay at least \$150.0 million in the aggregate with equity proceeds by December 31, 2013. Both Exit Fees, in the respective proportion to Existing Facilities and New Money Facilities, are payable the earlier of (a) December 31, 2018 and (b) the date on which the respective facilities are repaid in full. The Exit Fees will accrete in the condensed consolidated Statement of Income over the life of the respective facilities (with the effective interest method) and are reported under “Long-term debt, net of current portion” in the condensed consolidated Balance Sheet. The Company has recognized an amount of \$5.3 million and \$4.4 million as of March 31, 2013 and December 31, 2012, respectively.

10 Financial Instruments

The principal financial assets of the Company consist of cash and cash equivalents, trade receivables and other assets. The principal financial liabilities of the Company consist of long-term bank loans, accounts payable and derivatives.

Derivative Financial Instruments: The Company only uses derivatives for economic hedging purposes. The following is a summary of the Company's risk management strategies and the effect of these strategies on the Company's condensed consolidated financial statements.

Interest Rate Risk: Interest rate risk arises on bank borrowings. The Company monitors the interest rate on borrowings closely to ensure that the borrowings are maintained at favorable rates.

Concentration of Credit Risk: Financial instruments that potentially subject the Company to significant concentrations of credit risk consist principally of cash, trade accounts receivable and derivatives. The Company places its temporary cash investments, consisting mostly of deposits, with established financial institutions. The Company performs periodic evaluations of the relative credit standing of those financial institutions that are considered in the Company's investment strategy. The Company is exposed to credit risk in the event of non-performance by counterparties to derivative instruments, however, the Company limits this exposure by diversifying among counterparties with high credit ratings. The Company depends upon a limited number of customers for a large part of its revenues. Credit risk with respect to trade accounts receivable is generally managed by the selection of customers among the major liner companies in the world and their dispersion across many geographic areas. The Company's maximum exposure to credit risk is mainly limited to the carrying value of its derivative instruments. The Company is not a party to master netting arrangements.

Fair Value: The carrying amounts reflected in the accompanying condensed consolidated balance sheets of financial assets and liabilities excluding long-term bank loans approximate their respective fair values due to the short maturity of these instruments. The fair values of long-term floating rate bank loans approximate the recorded values, generally due to their variable interest rates. The fair value of the swap agreements equals the amount that would be paid by the Company to cancel the swaps.

Interest Rate Swaps: The off-balance sheet risk in outstanding swap agreements involves both the risk of a counter-party not performing under the terms of the contract and the risk associated with changes in market value. The Company monitors its positions, the credit ratings of counterparties and the level of contracts it enters into with any one party. The counterparties to these contracts are major financial institutions. The Company has a policy of entering into contracts with parties that meet stringent qualifications and, given the high level of credit quality of its derivative counter-parties, the Company does not believe it is necessary to obtain collateral arrangements.

DANAOS CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

10 Financial Instruments (continued)

a. Cash Flow Interest Rate Swap Hedges

The Company, according to its long-term strategic plan to maintain relative stability in its interest rate exposure, has decided to swap part of its interest expense from floating to fixed. To this effect, the Company has entered into interest rate swap transactions with varying start and maturity dates, in order to pro-actively and efficiently manage its floating rate exposure.

These interest rate swaps are designed to economically hedge the variability of interest cash flows arising from floating rate debt, attributable to movements in three-month USD\$ LIBOR. According to the Company's Risk Management Accounting Policy, and after putting in place the formal documentation required by hedge accounting in order to designate these swaps as hedging instruments, as from their inception, these interest rate swaps qualified for hedge accounting, and, accordingly, from that time until June 30, 2012, only hedge ineffectiveness amounts arising from the differences in the change in fair value of the hedging instrument and the hedged item were recognized in the Company's earnings. Assessment and measurement of prospective and retrospective effectiveness for these interest rate swaps were performed on a quarterly basis. For qualifying cash flow hedges, the fair value gain or loss associated with the effective portion of the cash flow hedge was recognized initially in stockholders' equity, and recognized to the Statement of Income in the periods when the hedged item affects profit or loss.

On July 1, 2012, the Company elected to prospectively de-designate cash flow interest rate swaps for which it was obtaining hedge accounting treatment due to the compliance burden associated with this accounting policy. As a result, all changes in the fair value of the Company's cash flow interest rate swap agreements are recorded in earnings under "Unrealized and Realized Losses on Derivatives" from the de-designation date forward. The Company evaluated whether it is probable that the previously hedged forecasted interest payments are probable to not occur in the originally specified time period. The Company has concluded that the previously hedged forecasted interest payments are probable of occurring. Therefore, unrealized gains or losses in accumulated other comprehensive loss associated with the previously designated cash flow interest rate swaps will remain in accumulated other comprehensive loss and recognized in earnings when the interest payments will be recognized. If such interest payments were to be identified as being probable of not occurring, the accumulated other comprehensive loss balance pertaining to these amounts would be reversed through earnings immediately.

The interest rate swap agreements converting floating interest rate exposure into fixed were as follows (in thousands):

Counter-party	Contract Trade Date	Effective Date	Termination Date	Notional Amount on Effective Date	Fixed Rate (Danaos pays)	Floating Rate (Danaos receives)	Fair Value March 31, 2013	Fair Value December 31, 2012

DANAOS CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

10 Financial Instruments (continued)

The Company recorded in the condensed consolidated statements of income unrealized gains of \$33.9 million and \$1.2 million in relation to fair value changes of interest rate swaps for the three months ended March 31, 2013 and 2012, respectively, and hedge ineffectiveness gains of \$1.5 million for the three months ended March 30, 2012. Furthermore, unrealized losses of \$29.3 million were reclassified from Accumulated Other Comprehensive Loss to earnings for the three months ended March 31, 2013 (following the hedge accounting discontinuance as of July 1, 2012). The total fair value change of the interest rate swaps for the three months ended March 31, 2013 and 2012, amounted to \$33.9 million and \$18.3 million, respectively.

The variable-rate interest on specific borrowings was associated with vessels under construction and was capitalized as a cost of the specific vessels. In accordance with the accounting guidance on derivatives and hedging, the amounts in accumulated other comprehensive income/(loss) related to realized gains or losses on cash flow hedges that have been entered into and qualify for hedge accounting, in order to hedge the variability of that interest, were classified under other comprehensive income/(loss) and are reclassified into earnings over the depreciable life of the constructed asset, since that depreciable life coincides with the amortization period for the capitalized interest cost on the debt. Deferred realized losses on cash flow hedges of nil and \$4.8 million were recorded in other comprehensive loss for the three months ended March 31, 2013 and 2012, respectively. In addition, an amount of \$1.0 million and \$0.6 million was reclassified into earnings for the three months ended March 31, 2013 and 2012, respectively, representing its amortization over the depreciable life of the vessels. Following the delivery of all of our vessels under construction, deferral of realized losses on cash flow hedges was eliminated since June 30, 2012.

	Three months ended March 31, 2013	Three months ended March 31, 2012
	(in millions)	
Total realized losses	\$ (36.0)	\$ (40.1)
Realized losses deferred in Other Comprehensive Loss	—	4.8
Realized losses expensed in condensed consolidated Statements of Income	(36.0)	(35.3)
Amortization of deferred realized losses	(1.0)	(0.6)
Unrealized gains	4.6	2.7
Unrealized and realized losses on cash flow interest rate swaps	\$ (32.4)	\$ (33.2)

The Company was in an over-hedged position under its cash flow interest rate swaps, which was due to deferred progress payments to shipyards and cancellation of three newbuildings in 2010, replacements of variable interest rate debt with a fixed interest rate seller's financing and equity proceeds from the Company's private placement in 2010, all of which reduced initial forecasted variable interest rate debt and resulted in notional cash flow interest rate swaps being above the variable interest rate debt eligible for hedging. Realized losses attributable to the over-hedging position were nil and \$6.9 million for the three months ended March 31, 2013 and 2012, respectively. The over-hedged position described above was eliminated in 2012.

b. Fair Value Interest Rate Swap Hedges

These interest rate swaps are designed to economically hedge the fair value of the fixed rate loan facilities against fluctuations in the market interest rates by converting the Company's fixed rate loan facilities to floating rate debt. Pursuant to the adoption of the Company's Risk Management Accounting Policy, and after putting in place the formal documentation required by hedge accounting in order to designate these swaps as hedging instruments, as of June 15, 2006, these interest rate swaps qualified for hedge accounting, and, accordingly, from that time until June 30, 2012, hedge ineffectiveness amounts arising from the differences in the change in fair value of the hedging instrument and the hedged item were recognized in the Company's earnings. The Company considered its strategic use of interest rate swaps to be a prudent method of managing interest rate sensitivity, as it prevented earnings from being exposed to undue risk posed by changes in interest rates. Assessment and measurement of prospective and retrospective effectiveness for these interest rate swaps was performed on a quarterly basis, on the financial statement and earnings reporting dates.

On July 1, 2012, the Company elected to prospectively de-designate fair value interest rate swaps for which it was applying hedge accounting treatment due to the compliance burden associated with this accounting policy. All changes in the fair value of the Company's fair value interest rate swap agreements continue to be recorded in earnings under "Unrealized and Realized Losses on Derivatives" from the de-designation date forward.

The Company evaluated whether it is probable that the previously hedged forecasted interest payments will not occur in the originally specified time period. The Company has concluded that the previously hedged forecasted interest payments continue to be probable of occurring. Therefore, the fair value of the hedged item associated with the previously designated fair value interest rate swaps will be frozen and recognized in earnings when the interest payments are recognized. If such interest payments were to be identified as being probable of not occurring, the fair value of hedged debt balance pertaining to these amounts would be reversed through earnings immediately.

The interest rate swap agreements converting fixed interest rate exposure into floating were as follows (in thousands):

Counter party	Contract trade Date	Effective Date	Termination Date	Notional Amount on Effective Date	Fixed Rate (Danaos receives)	Floating Rate (Danaos pays)	Fair Value March 31, 2013	Fair Value December 31, 2012
RBS	11/15/2004	12/15/2004	8/27/2016	\$ 60,528	5.0125% p.a.	USD LIBOR 3M BBA + 0.835% p.a.	\$ 1,216	\$ 1,390
RBS	11/15/2004	11/17/2004	11/2/2016	\$ 62,342	5.0125% p.a.	USD LIBOR 3M BBA + 0.855% p.a.	\$ 1,337	\$ 1,518
Total fair value							\$ 2,553	\$ 2,908

The total fair value change of the interest rate swaps for the period from January 1, 2013 until March 31, 2013, amounted to \$0.3 million loss, and is included in the condensed consolidated statement of income in "Unrealized and realized loss on derivatives". The related asset of \$2.6 million is shown under "Other non-current assets" in the condensed consolidated balance sheet. The Company reclassified from "Long-term debt, net of current portion", where its fair value of hedged item was recorded, to its earnings unrealized gains of \$0.1 million for the three months ended March 31, 2013 (following the hedge accounting discontinuance as of July 1, 2012).

	Three months ended March 31, 2013	Three months ended March 31, 2012

c. Fair Value of Financial Instruments

The fair value hierarchy has three levels based on the reliability of the inputs used to determine fair value.

Level I: Inputs are unadjusted, quoted prices for identical assets or liabilities in active markets that we have the ability to access. Valuation of these items does not entail a significant amount of judgment.

Level II: Inputs other than quoted prices included in Level I that are observable for the asset or liability through corroboration with market data at the measurement date.

Level III: Inputs that are unobservable. The Company did not use any Level 3 inputs as of March 31, 2013.

The following tables present the Company's assets and liabilities that are measured at fair value on a recurring basis and are categorized using the fair value hierarchy.

	Fair Value Measurements as of March 31, 2013			
	Total	(Level I)	(Level II)	(Level III)
(in thousands of \$)				
Assets				
Interest rate swap contracts	\$ 2,553	\$ —	\$ 2,553	\$ —
Liabilities				
Interest rate swap contracts	\$ 273,112	\$ —	\$ 273,112	\$ —

	Fair Value Measurements as of December 31, 2012			
	Total	(Level I)	(Level II)	(Level III)
(in thousands of \$)				
Assets				
Interest rate swap contracts	\$ 2,908	\$ —	\$ 2,908	\$ —
Liabilities				
Interest rate swap contracts	\$ 307,048	\$ —	\$ 307,048	\$ —

Interest rate swap contracts are measured at fair value on a recurring basis. Fair value is determined based on inputs that are readily available in public markets or can be derived from information available in publicly quoted markets. Such instruments are typically classified within Level 2 of the fair value hierarchy. The fair values of the interest rate swap contracts have been calculated by discounting the projected future cash flows of both the fixed rate and variable rate interest payments. Projected interest payments are calculated using the appropriate prevailing market forward rates and are discounted using the zero-coupon curve derived from the swap yield curve. Refer to Note 10(a)-(b) above for further information on the Company's interest rate swap contracts.

The Company is exposed to credit-related losses in the event of nonperformance of its counterparties in relation to these financial instruments. As of March 31, 2013, these financial instruments are in the counterparties' favor. The Company has considered its risk of non-performance and of its counterparties in accordance with the relevant guidance of fair value accounting. The Company performs evaluations of its counterparties for credit risk through ongoing monitoring of their financial health and risk profiles to identify risk or changes in their credit ratings.

The estimated fair values of the Company's financial instruments are as follows:

	As of March 31, 2013		As of December 31, 2012	
	Book Value	Fair Value	Book Value	Fair Value
(in thousands of \$)

The estimated fair value of the financial instruments that are not measured at fair value on a recurring basis, categorized based upon the fair value hierarchy, are as follows (in thousands):

	Fair Value Measurements as of March 31, 2013			
	Total	(Level I)	(Level II)	(Level III)
	(in thousands of \$)			
Notes receivable from ZIM(1)	\$ 34,376	\$ —	\$ 34,376	\$ —
Long-term debt, including current portion(2)	\$ 3,212,912	\$ —	\$ 3,212,912	\$ —
Vendor financing, including current portion(3)	\$ 168,619	\$ —	\$ 168,619	\$ —
Accrued liabilities(4)	\$ 36,404	\$ —	\$ 36,404	\$ —

	Fair Value Measurements as of December 31, 2012			
	Total	(Level I)	(Level II)	(Level III)
	(in thousands of \$)			
Notes receivable from ZIM(1)	\$ 34,071	\$ —	\$ 34,071	\$ —
Long-term debt, including current portion(2)	\$ 3,223,337	\$ —	\$ 3,223,337	\$ —
Vendor financing, including current portion(3)	\$ 179,500	\$ —	\$ 179,500	\$ —
Accrued liabilities(4)	\$ 32,894	\$ —	\$ 32,894	\$ —

- (1) The fair value is estimated based on currently available information on the Company's counterparty, other contracts with similar terms, remaining maturities and interest rates.
- (2) The fair value of the Company's debt is estimated based on currently available debt with similar contract terms, interest rate and remaining maturities, as well as taking into account our creditworthiness.
- (3) The fair value of the Company's Vendor financing is estimated based on currently available financing with similar contract terms, interest rate and remaining maturities, as well as taking into account our creditworthiness.
- (4) The fair value of the Company's accrued liabilities, which mainly consists of accrued interest on our credit facilities and accrued realized losses on our cash flow interest rate swaps, is estimated based on currently available debt and swap agreements with similar contract terms, interest rates and remaining maturities, as well as taking into account our creditworthiness.

11 Contingencies

On November 22, 2010, a purported Company shareholder filed a derivative complaint in the High Court of the Republic of the Marshall Islands. The derivative complaint names as defendants seven of the eight members of the Company's board of directors at the time the complaint was filed. The derivative complaint challenges the amendments in 2009 and 2010 to the Company's management agreement with Danaos Shipping and certain aspects of the sale of common stock in August 2010. The complaint includes counts for breach of fiduciary duty and unjust enrichment. On February 11, 2011, the Company filed a motion to dismiss the Complaint. After briefing was completed, the Court heard oral argument on October 26, 2011. On December 21, 2011, the Court granted the Company's motion to dismiss but gave the plaintiff leave to file an amended complaint. Plaintiff filed the amended complaint on January 30, 2012. The amended complaint names the same parties and bases its claims on the same transactions. The Company has moved to dismiss the amended complaint and completed briefing on that motion on July 16, 2012. A hearing on the Company's motion to dismiss was held on April 24, 2013. The parties' respective proposed orders in respect of the Company's motion to dismiss are due on May 20, 2013. In the opinion of management, the disposition of this lawsuit is not expected to have a material effect on the Company's results of operations, financial position and cash flows.

Other than as described above, there are no material legal proceedings to which the Company is a party or to which any of its properties are the subject, or other contingencies that the Company is aware of, other than routine litigation incidental to the Company's business.

DANAOS CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

12 Stockholders' Equity

As of April 18, 2008, the Board of Directors and the Compensation Committee approved incentive compensation of Manager's employees with its shares from time to time, after specific for each such time, decision by the compensation committee and the Board of Directors in order to provide a means of compensation in the form of free shares to certain employees of the Manager of the Company's common stock. The plan was effective as of December 31, 2008. Pursuant to the terms of the plan, employees of the Manager may receive (from time to time) shares of the Company's common stock as additional compensation for their services offered during the preceding period. The stock will have no vesting period and the employee will own the stock immediately after grant. The total amount of stock to be granted to employees of the Manager will be at the Company's Board of Directors' discretion only and there will be no contractual obligation for any stock to be granted as part of the employees' compensation package in future periods. As of March 31, 2013, the Company had not granted any shares under the plan. During the three months ended March 31, 2013 the Company issued 559 new shares of common stock, which were distributed to the employees of the Manager in settlement of prior grants and will issue 35,151 new shares of common stock in the remainder of 2013 in relation to prior grants as well.

The Company has also established the Directors Share Payment Plan under its 2006 equity compensation plan. The purpose of the plan is to provide a means of payment of all or a portion of compensation payable to directors of the Company in the form of Company's Common Stock. The plan was effective as of April 18, 2008. Each member of the Board of Directors of the Company may participate in the plan. Pursuant to the terms of the plan, directors may elect to receive in Common Stock all or a portion of their compensation. During 2012, one director elected to receive in Company shares 50% of his compensation and one director elected to receive in Company shares 100% of his compensation only for the first quarter of 2012. During the three months ended March 31, 2013, none of the directors elected to receive in Company shares their compensation. Following December 31 of each year, the Company delivers to each Director the number of shares represented by the rights credited to their Share Payment Account during the preceding calendar year. During the three months ended March 31, 2013 the Company issued 13,613 new shares of common stock, which were distributed to directors of the Company in full settlement of shares credited as of December 31, 2012.

13 Earnings per Share

The following table sets forth the computation of basic and diluted earnings per share:

	Three months ended	
	March 31, 2013	March 31, 2012
	(in thousands)	
<i>Numerator:</i>		
Net income	\$ 13,432	\$ 9,342
<i>Denominator (number of shares):</i>		
Basic and diluted weighted average common shares outstanding	109,653	109,605

The Warrants issued and outstanding as of March 31, 2013 and 2012, were excluded from the diluted Earnings per Share, because they were antidilutive.

14 Sale of Vessels

On February 13, 2013, the Company sold and delivered the *Independence*. The gross sale consideration was \$7.0 million. The Company realized a net gain on this sale of \$518 thousand and net sale proceeds of \$6.0 million. The *Independence* was 26 years old.

On February 28, 2013, the Company sold and delivered the *Henry*. The gross sale consideration was \$6.1 million. The Company realized a net gain on this sale of \$138 thousand and net sale proceeds of \$5.37 million. The *Henry* was 27 years old.

On March 25, 2013, the Company sold and delivered the *Pride*. The gross sale consideration was \$6.5 million. The Company realized a net loss on this sale of \$671 thousand and net sale proceeds of \$5.48 million. The *Pride* was 25 years old.

DANAOS CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

15 Subsequent Events

On April 2, 2013, the Company entered into an agreement to sell the *Honour*. The gross sale consideration was \$9.1 million. The *Honour* was 24 years old and was laid up as of March 31, 2013 (refer to Note 4, Fixed Assets, net). The Company expects to deliver the vessel to her buyers in May 2013.
