CAUTIONARY NOTE ON FORWARD-LOOKING STATEMENTS

This prospectus contains forward-looking statements within the meaning of the U.S. federal securities laws. Forward-looking statements include, without limitation, statements concerning plans, objectives, goals, projections, strategies, future events or performance, and underlying assumptions and other statements, which are not statements of historical facts. Forward looking statements may be identified by the use of words like “expect,” “anticipate,” “intend,” “forecast,” “outlook,” “will,” “may,” “might,” “potential,” “likely,” “target,” “plan,” “contemplate,” “seek,” “attempt,” “should,” “could,” “would” or expressions of similar meaning. Forward-looking statements reflect management’s good faith evaluation of information currently available and are based on our current expectations and assumptions regarding our business, the economy and other future conditions. Because forward-looking statements relate to the future, they are subject to inherent uncertainties, risks and changes in circumstances that are difficult to predict. Specific factors that may impact performance or other predictions of future actions have, in many but not all cases, been identified in connection with specific forward-looking statements. Our actual results may differ materially from those contemplated by the forward-looking statements. They are neither statements of historical fact nor guarantees or assurances of future performance. We caution you therefore against relying on any of these forward-looking statements.

Important factors that could cause actual results to differ materially from those in the forward-looking statements include economic, business, competitive, market and regulatory conditions and the following:

- our substantial level of indebtedness;
- conditions in the global economy and capital markets;
- volatility in costs or disruption in the supply of the raw materials utilized for our products;
- our loss of market share to other producers of styrene-based chemical products or to producers of other products that can be substituted for our products;
- our compliance with environmental, health and safety laws;
- changes in laws and regulations applicable to our business;
- the unknown future impact, including cost, on our business from the Patient Protection and Affordable Care Act, the Dodd-Frank Wall Street Reform and Consumer Protection Act and the Exchange Act, to which we are not currently subject (including, but not limited to, requirements of Section 404 of the Sarbanes-Oxley Act of 2002 (the “Sarbanes-Oxley Act”)), and the rules to be promulgated thereunder;
- our continued synergistic relationship with The Dow Chemical Company;
- losses due to lawsuits arising out of environmental damage or potential injuries associated with exposure to our chemicals;
- local business risks in different countries in which we operate;
- our dependence upon key executive management and our inability to attract and retain other qualified management personnel;
- fluctuations in currency exchange rates;
- failure of our assumptions and projections to be accurate;
- hazards associated with chemical manufacturing;
- our inability to continue technological innovation and successful introduction of new products;
- our inability to protect our trademarks, patents or other intellectual property rights;
- system security risk issues that could disrupt our internal operations or information technology services;

- fluctuations in global energy markets driving commodity feedstock costs;
- the loss of customers;
- seasonality of our business; and
- other risks described in the “Risk Factors” section of this prospectus.

We derive many of our forward-looking statements from our operating budgets and forecasts, which are based upon many detailed assumptions. While we believe that our assumptions are reasonable, we caution that it is very difficult to predict the impact of known factors, and, it is impossible for us to anticipate all factors that could affect our actual results. Important factors that could cause actual results to differ materially from our expectations, or cautionary statements, are disclosed under the sections entitled “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in this prospectus. All written and oral forward-looking statements attributable to us, or persons acting on our behalf, are expressly qualified in their entirety by the cautionary statements as well as other cautionary statements that are made from time to time in our other public communications. You should evaluate all forward-looking statements made in this prospectus in the context of these risks and uncertainties.

We caution you that the important factors referenced above may not contain all of the factors that are important to you. In addition, we cannot assure you that we will realize the results or developments we expect or anticipate or, even if substantially realized, that they will result in the consequences or affect us or our operations in the way we expect. The forward-looking statements included in this prospectus are made only as of the date hereof. We undertake no obligation to publicly update or revise any forward-looking statement as a result of new information, future events or otherwise, except as otherwise required by law.

Our Company

We are a leading global materials company engaged in the manufacture and marketing of standard, specialty and customized emulsion polymers and plastics. We believe that we have leading market positions in many of the markets in which we compete and that we have developed these strong market positions due to our technological differentiation, diverse global manufacturing base, long-standing customer relationships, commitment to sustainable solutions and advantaged cost positions. We compete in growing global market segments driven in part by improving living standards in emerging markets and increasing environmental awareness leading to increased demand for higher fuel efficiency and lighter-weight materials. We develop new and improved products and processes that enhance our customers' sustainability. In addition, we believe our increasing business presence in developing regions such as China, Southeast Asia and Eastern Europe further enhances our prospects.

We develop customized products for global, diversified end markets including coated paper and packaging board, carpet and artificial turf backing, automotive applications including tires, food service packaging, appliances, medical, consumer electronics and construction applications, among others. We have long-standing relationships with a diverse base of global customers, many of whom are leaders in their markets and rely on us for formulation, customization, and compounding expertise. Certain of our customized products typically represent a low portion of finished product production costs, but impart critical functionality contributing to substantial customer loyalty. We partner with our customers to find sustainable solutions for our products. We operate under four segments: Latex, Synthetic Rubber, Styrenics and Engineered Polymers. Our major products include styrene-butadiene latex ("SB latex"), styrene-acrylate latex ("SA latex"), solution styrene-butadiene rubber ("SSBR"), lithium polybutadiene rubber ("Li-PBR"), emulsion styrene-butadiene rubber ("ESBR"), nickel polybutadiene rubber ("Ni-PBR"), polystyrene, acrylonitrile-butadiene-styrene ("ABS"), styrene-acrylonitrile ("SAN"), ignition resistant polystyrene, polycarbonate ("PC") resins, compounds and blends, and polypropylene compounds.

We are a global business with a diverse revenue mix by geography and significant operations around the world. Our operations in Europe and the Middle East; Asia Pacific (which includes Asia as well as Australia and New Zealand), Latin America (including Mexico) and others; and the United States, generated approximately 61.0%, 26.5%, and 12.5%, respectively, of our net sales for the year ended December 31, 2012 and 60.7%, 26.6%, and 12.7%, respectively, of our net sales for the six month period ended June 30, 2013. Our production facilities include 36 manufacturing plants (which include a total of 84 production units) at 28 sites in 15 countries, inclusive of joint ventures and contract manufacturers, allowing us to serve our customers on a global basis. Our manufacturing locations include sites in high-growth emerging markets such as China, Indonesia and Brazil. Additionally, we operate a number of R&D facilities globally, including mini plants, development centers and pilot coaters, and we believe these to be critical to our global presence and innovation capabilities.

Segment Overview

We operate four segments under two principal business units. Our Emulsion Polymers business unit includes a Latex segment and a Synthetic Rubber segment. Our Plastics business unit includes a Styrenics segment and an Engineered Polymers segment.

	Emulsion Polymers		Plastics	
	Latex	Synthetic Rubber	Styrenics	Engineered Polymers
Major products	• Styrene-butadiene latex (“SB latex”)	• Solution styrene-butadiene rubber (“SSBR”)	• Polystyrene	• Polycarbonate resins (“PC”)
	• Styrene-acrylate latex (“SA latex”)	• Lithium polybutadiene rubber (“Li-PBR”)	• Acrylonitrile-butadiene-styrene (“ABS”)	• Compounds and blends
		• Emulsion styrene-butadiene rubber (“ESBR”)	• Styrene-acrylonitrile (“SAN”)	• Polypropylene compounds
		• Nickel polybutadiene rubber (“Ni-PBR”)	• Ignition resistant polystyrene	

	Emulsion Polymers		Plastics	
	Latex	Synthetic Rubber	Styrenics	Engineered Polymers
Major end-use market	• Coated paper and packaging board • Carpet and artificial turf backings • Tape saturation • Cement modification • Building products	• Performance tires • Standard tires • Polymer modification • Technical rubber goods	• Appliances • Construction/ sheet • Packaging • Automotive • Consumer electronics • Consumer goods	• Automotive • Consumer electronics • Construction • Electrical and Lighting • Medical • Others (including packaging, consumer goods, appliances and optical media)

Latex Segment

We are a global leader in SB latex, holding a strong market position across the geographies and applications in which we participate, including leading market positions in North America and Europe. We produce SB latex primarily for coated paper used in advertising and magazines, packaging board coatings, carpet and artificial turf backings, as well as a number of performance latex applications.

We believe our development and formulation capabilities contribute to our strong position. Further, we believe our growth prospects in latex are enhanced by our leading position in China, which we believe will contribute a significant portion of global growth in the paper and board market segment over the next decade. We believe our growth prospects are also supported by an attractive industry landscape characterized by the recent trends of industry capacity reduction and consolidation, such as the exit of The Lubrizol Corporation from the SB latex market and the business combinations of the BASF Group and Ciba Holding AG, Omnova Solutions and Eliokem, and Yule Catto & Co plc and PolymerLatex GmbH. While the price of one of our principal raw materials, Styrene is still on the rise, the price for Butadiene has gone down significantly. In addition to the advantage gained by the falling Butadiene price, we believe that latex manufacturers who, like us, are offering products made with different chemistries using less expensive raw materials altogether, including vinyl-acetate monomer (“VAM”) based latex and natural binders, may be able to improve their position.

Synthetic Rubber Segment

We are a significant producer of styrene-butadiene and polybutadiene-based rubber products and we have a leading European merchant market position in SSBR. We have very broad synthetic rubber technology and product portfolios in the industry, focusing on specialty products, such as SSBR and Li-PBR, while also producing core products, such as ESBR and Ni-PBR. Our Synthetic Rubber products are extensively used in tires, with additional applications including polymer modification and technical rubber goods. We have strong relationships with most of the top global tire manufacturers and believe we have remained a supplier of choice as a result of our broad rubber portfolio and product customization capabilities.

Our most advanced rubber technology, SSBR, is a critical material for tires with low rolling resistance, which leads to increased fuel efficiency and improved wet-grip, which leads to better traction and safety

characteristics (“high-performance tires”). We believe our growth prospects are enhanced by increasing demand for high-performance tires, resulting from European Union (“EU”) regulatory reforms that are aimed at improving fuel efficiency and reducing CO_2 emissions. Our management estimates that through 2014, demand for SSBR will grow substantially faster than global GDP. We believe global increases in fuel efficiency standards will drive additional demand growth for our SSBR technology. Our newly constructed 50 metric kilotons (“kMT”) capacity expansion at our Schkopau, Germany facility started production on October 1, 2012. Based on management’s assumptions, including projected utilization levels, we currently believe the Schkopau capacity expansion could contribute approximately an additional $30 million of EBITDA to our business in 2013.

Styrenics Segment

Our Styrenics segment includes polystyrene, ABS and SAN products, as well as our internal production and sourcing of styrene monomer, a raw material common in SB latex, synthetic rubber and styrenics products. We are a leading producer of polystyrene and mass ABS (“mABS”). We focus our marketing efforts on applications such as appliances and consumer electronics. Within these applications, we have worked collaboratively with customers to develop more advanced grades of plastics such as our high impact polystyrene (“HIPS”) and mABS products. These products offer superior properties, such as rigidity, insulation and colorability, and, in some cases, an improved environmental footprint versus general purpose polystyrene or emulsion ABS. The Styrenics segment also serves the packaging and construction end-use markets, where we have launched a new general purpose polystyrene (“GPPS”) product for improved performance in foam insulation applications.

We believe our growth prospects in Styrenics are enhanced by periodic trends of industry capacity reduction and consolidation in Europe and North America, such as the completed formation of the Styrolution joint venture combining certain INEOS and BASF assets and the prior acquisition of INEOS Nova by INEOS, as well as INEOS’ most recent asset rationalizations in styrene monomer and polystyrene. We expect further consolidation in certain regions of Asia having numerous producers and low asset utilization, which will create opportunities for us, given our scale and geographic reach. We believe our growth prospects are further enhanced by our established manufacturing footprint in the high economic growth regions of Asia and our focus on attractive end markets where improving living standards drive demand for growing appliances and consumer electronics markets.

Engineered Polymers Segment

We are a leading producer of engineered polymers. Our products are predominantly used in the automotive, consumer electronics, construction, and medical markets. We are focused on differentiated products, which we produce in our polymer and compounds and blends manufacturing facilities located across Europe, Asia, North America and Latin America. We believe that the strategic locations of these facilities combined with close customer collaboration offers us a strategic advantage in serving our customers. We believe many of our PC products and more than half of our compounds and blends products are differentiated, based on their physical properties, performance, aesthetic advantages and value chain management that helps us achieve premium pricing. Our history of innovation has contributed to long-standing relationships with customers who are recognized leaders in their respective end markets. We have established a strong market presence in the global automotive and electronics sector, targeting both component suppliers and final product manufacturers. Our Engineered Polymers segment also compounds and blends our PC and mABS plastics into differentiated products within these sectors, as well as compounds of polypropylene. We have also developed compounds containing post-consumer recycle polymers to answer what we believe is a growing need for some leading customers to include recycled content in their products. We are currently focused on reducing costs in order to improve competitiveness in polycarbonate. However, the market for polycarbonate remains very challenging.

Our Competitive Strengths

We believe we have a number of competitive strengths that differentiate us from our competitors, including:

Leading Market Positions in Attractive Segments and End Markets

We believe that we have leading positions in several of the markets in which we compete, including SB latex, synthetic rubber, mABS products, polystyrene and our engineered polymers products. We attribute our strong market positions to our technological differentiation, diverse global manufacturing base, long-standing customer relationships, superior product and advantaged cost positions. Our strategy is to focus on what we believe are the most attractive segments of the market, where demand is underpinned by global trends driving long-term volume growth. Amongst others, we are focused on the following global trends: improving living standards in emerging markets, fuel efficiency and the increasing use of light-weight materials. We believe that our focus on segments of the market levered to these trends provides us with significant long-term growth opportunities.

Our products serve applications that are affected by improving living standards and increased environmental awareness. For example, our Latex products impart high gloss properties to coated paper that is particularly used in advertising and magazines in emerging markets; our Synthetic Rubber products help to improve fuel efficiency; our Styrenics products and Engineered Polymer products help reduce the weight of vehicles by substituting lighter plastic materials for heavier ones, resulting in improved fuel efficiency.

Technological Advantage and Product Innovation

Most of our materials are critical inputs that significantly impact the functionality, cost to produce and quality of our customers' products. Many of our products are differentiated by their performance, reliability, customization and value, which are critical factors in our customers' selection and retention of materials suppliers. For example, our Latex products are critically important to coated paper applications in paper mills that typically have high fixed costs. We believe our technology offers customers a reduced risk of expensive shut-downs, as well as the potential to reduce ongoing total materials costs when SB latex replaces higher cost paper pulp. In addition, we are innovating and developing new and improved products and processes that enhance our customers' sustainability. Our advanced SSBR technology reduces rolling resistance, resulting in better mileage and fuel efficiency and lower CO_2 emissions while at the same time improving the tire's wet-grip, a measure of braking effectiveness and traction. We believe these are key performance attributes sought by the final customer and also important in meeting European CO_2 emissions legislation, which we expect to become a global standard. The plastic parts developed by the Company reduce potential weight per car. Energy usage is substantially reduced by using our plastic in lighting applications. We have a strong track record of continued product innovation, consistently launching improved grades and new products as well as customizing materials for many of our customers.

Diverse Global Reach with Extensive Presence in Emerging Markets

Our production facilities currently include 36 manufacturing plants (which include a total of 84 production units) at 28 sites in 15 countries, inclusive of joint ventures and contract manufacturers. We believe our diverse locations provide us with a competitive advantage in meeting and anticipating the needs of our global and local customers in both well-established and growing markets. We have a strong presence in Asia, where we supply custom formulated latex products for new paper mills, as well as differentiated engineered polymers, synthetic rubber, and other products.

Long-Standing, Collaborative Customer Relationships

We have long-standing relationships with a diverse base of customers, many of which are well known industry leaders in their respective markets. We have had relationships with many of our customers for 20 years

or more, helping them to develop and commercialize multiple generations of their products. No single customer accounted for more than 6.0% of our net sales in 2012 and through the first six months of 2013. We believe we have developed strong relationships through our highly collaborative process, whereby we work with our customers to develop products that meet their critical needs. As part of this process, we test our products at customer sites and work with customers to optimize and customize our product offerings. As a result of our close collaboration, we have historically achieved a high success rate of retaining customers.

Competitive Cost Positions and Flexible Feedstock Sourcing

We believe that our global scale, efficient operations and site integration with Dow have provided us with a competitive cost position for our products. We believe our plants compare favorably across key operational benchmarks, including quality tracking, maintenance costs, and employee productivity. We source our raw materials through a mix of long-term raw material contracts with strategic suppliers and procure raw materials on the open market through short-term contracts or spot transactions.

Experienced Management Team

Our executive leadership team has significant industry experience, including leadership positions within our business units, and significant public chemical company leadership experience.

Our Growth Strategy

We intend to enhance our position as a leading global materials company engaged in the manufacture and marketing of both standard and specialty and customized emulsion polymers and plastics. The key elements of our growth strategy include:

Continue Product Innovation and Technological Differentiation

We intend to continue to address our customers' critical materials needs by utilizing our technological expertise and leading development capabilities to create specialty grades, new and sustainable products and customized formulations. We believe our technological differentiation positions us to participate in the most attractive, highest growth areas of the markets in which we compete, such as advanced SSBR within Synthetic Rubber, a segment of the market that we believe will grow substantially faster than global GDP through 2014. Our global scale in SB latex allows us to cost-effectively support two pilot coaters where we collaborate with our customers in the development of next generation formulations and leverage regional innovations across our global product platform. We also expect to continue to shift our product mix towards more differentiated products, which offer higher-margin potential, improving the profitability of our business across our portfolio.

Strategic Investments in the Most Attractive Segments of the Market

We plan to make strategic capital investments in what we believe are the most attractive market segments to extend our leadership in these segments, and to meet growing demand. Our new SSBR production line in Schkopau, Germany began production on October 1, 2012, which now expands our capabilities at that facility.

Expand and Deepen Our Presence in Emerging Markets

We believe emerging markets such as China, Southeast Asia, Eastern Europe and the Middle East represent significant, rapidly growing opportunities. Improving living standards, globalization of automotive car platforms and growth in gross domestic product in general in these emerging markets are creating strong demand for our end products. We expect to capitalize on growing demand for our products in emerging markets and expand our share of local demand by deepening our customer base and local capabilities in these geographies.

Continue to Implement Cost Saving Measures and Focus on Cash Flow Generation

We have launched several corporate-wide initiatives intended to further reduce our costs and increase our competitiveness. These initiatives have identified various opportunities that we believe will enhance cost-saving and productivity. We realized savings of approximately $60.0 million in fiscal year 2012. We continue to actively pursue additional cost savings initiatives which will result in incremental cost savings for 2013.

In addition, we continue to focus on cash flow generation through working capital and capital expenditure management. Following the completion of the SSBR expansion in 2012, management expects capital expenditures will be reduced from approximately $120.0 million in 2012 to approximately $70.0 million in 2013. Our expected annualized cost savings are forward-looking statements based on preliminary estimates and reflect the best judgment of our management but involve a number of risks and uncertainties which could cause actual results to differ materially from those set forth in our estimates and from past results, performance or achievements.

Recent Developments

On July 11, 2013, we announced plans to close our latex manufacturing facility at Altona, Australia. Production is intended to cease in the third quarter of 2013, followed by decommissioning in the fourth quarter and demolition in early 2014. Our Altona manufacturing facility currently employs 14 individuals, whose roles will be eliminated. The customers supplied by our Altona manufacturing facility will now be supplied by our facility in Merak, Indonesia.

On July 19, 2013, we entered into an asset purchase agreement with Ravago S.A., a Luxembourg corporation. Pursuant to the asset purchase agreement, we have agreed to sell to RP Compounds, a subsidiary of Ravago, our Expandable Polystyrene (“EPS”) business, including our EPS manufacturing facility in Schkopau, Germany, as well as related intellectual property and the SCONOPOR™ brand. The transaction is expected to close in the third quarter of 2013, subject to regulatory approval and completion of customary conditions. Our EPS manufacturing facility currently employs 35 individuals and accounted for $99.0 million, or 1.8%, of our net sales revenue for the year ended December 31, 2012 and $42.5 million, or 1.5%, for the six months ended June 30, 2013. In connection with the EPS asset purchase agreement, we will enter into a long-term supply agreement of styrene monomer from our Boehlen, Germany facility. The Contract will have an initial term of approximately 10 years from the closing date of the sale and will continue year-to-year thereafter. Under the supply agreement, we will supply a minimum of approximately 77 million pounds of styrene monomer annually. As a result, the EPS sale transaction was not classified as discontinued operations as the Company will have significant continuing cash flows from the supply agreement.

SUMMARY OF THE EXCHANGE OFFER

Background	On January 29, 2013, we sold $1,325.0 million aggregate principal amount of 8.750% Senior Secured Notes due 2019 and related guarantees in a private placement exempt from the registration requirements of the Securities Act (the "Original Notes"). All of the Original Notes are eligible to be exchanged for notes which have been registered under the Securities Act (the "Exchange Notes"). The Original Notes and the Exchange Notes are referred to together as the "notes." Simultaneously with the private placement, we entered into a registration rights agreement with the initial purchasers of the Original Notes (the "Registration Rights Agreement"). Under the Registration Rights Agreement, we are required to prepare and file with the SEC a registration statement covering an offer to the holders of the Original Notes to exchange all of their notes for Exchange Notes. Additionally, we are required to use our reasonable best efforts to (1) cause that registration statement to be declared effective by the SEC and to remain effective for at least 180 days thereafter (or such earlier time when a broker dealer is no longer required to deliver a prospectus in connection with market-making or other trading activities); (2) complete the exchange offer within 60 days of such registration statement becoming effective; and (3) complete the exchange offer no later than January 29, 2014. You may exchange your Original Notes for Exchange Notes in this exchange offer. You should read the discussion under the headings "Summary Description of the Exchange Notes," "Description of the Exchange Offer" and "Description of the Exchange Notes" for further information regarding the Exchange Notes.
Exchange Notes	Up to $1,325.0 million aggregate principal amount of 8.750% Senior Secured Notes due 2019 and related guarantees, the issuance of which has been registered under the Securities Act. The form and terms of the Exchange Notes are identical to the Original Notes (except that the offer of the Exchange Notes is registered under the Securities Act, the Exchange Notes will not bear legends restricting their transfer, and specified rights under the Registration Rights Agreement, including the provisions providing for payment of additional interest in specified circumstances relating to the exchange offer, will be eliminated for all of the Exchange Notes).
The Exchange Offer	We are offering to issue up to $1,325.0 million aggregate principal amount of the Exchange Notes in exchange for a like principal amount of the Original Notes to satisfy our obligations under the Registration Rights Agreement. Original Notes may be tendered in minimum denominations of principal amount of $2,000 and integral multiples of $1,000 in excess thereof. We will issue the Exchange Notes promptly after expiration of the exchange offer. See

	"Description of the Exchange Offer—Terms of the Exchange Offer; Period for Tendering Original Notes." If all Original Notes are tendered for exchange, there will be $1,325.0 million aggregate principal amount of Exchange Notes that have been registered under the Securities Act, and no Original Notes, outstanding after this exchange offer is completed. The Exchange Notes will bear interest at the same rate and on the same terms as the Original Notes. Interest on the Exchange Notes will accrue from the last interest payment date on which interest was paid on the Original Notes prior to consummation of the exchange offer or, if no interest has been paid on the Original Notes, from January 29, 2013, the date of initial issuance of the Original Notes. We will deem the right to receive any interest accrued but unpaid on the Original Notes waived by you if we accept your Original Notes for exchange.
Expiration Date	This exchange offer will expire at 5:00 p.m. New York City time, on [•], 2013 (the "Expiration Date" unless we extend or terminate the exchange offer in which case the "Expiration Date" will mean the latest date and time to which we extend the exchange offer).
Withdrawal of Tenders; Non-Acceptance	You may withdraw your tender of Original Notes at any time prior to 5:00 p.m., New York City time, on the Expiration Date by delivering a written notice of withdrawal to the exchange agent in conformity with the procedures discussed under "Description of the Exchange Offer —Withdrawal Rights." If we decide for any reason not to accept any Original Notes tendered for exchange, the Original Notes will be returned to the registered holder at our expense promptly after the expiration or termination of the exchange offer. In the case of the Original Notes tendered by book-entry transfer into the exchange agent's account at the Depository Trust Company ("DTC"), any withdrawn or unaccepted Original Notes will be credited to the tendering holders participants' account at DTC.
Effect of Not Tendering	Original Notes that are not tendered or are tendered but not accepted will, following the consummation of the exchange offer, continue to accrue interest and to be subject to the provisions in the Indenture regarding the transfer and exchange of the Original Notes and the existing restrictions on transfer set forth in the legend on the Original Notes. After completion of this exchange offer, we will have no further obligation to provide for the registration under the Securities Act of those Original Notes except in limited circumstances with respect to specific types of holders of Original Notes, and we do not intend to register the Original Notes under the Securities Act. In general, Original Notes, unless registered under the Securities Act, may not be offered or sold except pursuant to an exemption from, or in a transaction not subject to, the Securities Act and applicable state securities laws.

	Holders who desire to tender their Original Notes in exchange for Exchange Notes registered under the Securities Act should allow sufficient time to ensure timely delivery. Neither the exchange agent nor we are under any duty to give notification of defects or irregularities with respect to the tenders of Original Notes for exchange.
Conditions to the Exchange Offer	The exchange offer is subject to customary conditions, some of which we may assert or waive. For more information, see "Description of the Exchange Offer—Conditions to the Exchange Offer."
Procedures for Tendering	You must do the following on or prior to the expiration or termination of the exchange offer to participate in the exchange offer: • tender your Original Notes by sending (1) the certificates for your Original Notes, in proper form for transfer, (2) a properly completed and duly executed letter of transmittal, with any required signature guarantees, and (3) all other documents required by the letter of transmittal, to Wilmington Trust, National Association, as exchange agent, at the address listed below under the caption "Description of the Exchange Offer—Exchange Agent," or • tender your Original Notes by using the book-entry transfer procedures described below and transmitting a properly completed and duly executed letter of transmittal, with any required signature guarantees, or an agent's message instead of the letter of transmittal, to the exchange agent. In order for a book-entry transfer to constitute a valid tender of your Original Notes in the exchange offer, the exchange agent must receive a confirmation of book-entry transfer of your Original Notes into the exchange agent's account at DTC prior to the expiration or termination of the exchange offer. For more information regarding the use of book-entry transfer procedures, including a description of the required agent's message, see the discussion below under the caption "Description of the Exchange Offer—Book-Entry Transfers."
Special Procedures for Beneficial Owners	If you beneficially own Original Notes registered in the name of a broker, dealer, commercial bank, trust company, or other nominee and you wish to tender your Original Notes in the exchange offer, you should contact the registered holder promptly and instruct it to tender on your behalf. If you wish to tender an Original Note on your own behalf, prior to executing the letter of transmittal and delivering your Original Notes, you must either arrange to have your Original Notes registered in your name or obtain a properly completed bond power from the person in whose name the Original Notes are registered.

Acceptance of Original Notes and Delivery of Exchange Notes	For each Original Note accepted for exchange, the holder will receive an Exchange Note registered under the Securities Act having a principal amount equal to, and in the denomination of, that of the surrendered Original Note. See "Description of the Exchange Offer—Terms of the Exchange Offer; Period for Tendering Original Notes" and "—Acceptance of Original Notes for Exchange; Delivery of Exchange Notes."
Tenders; Broker-Dealers	By tendering your Original Notes, you represent to us that: • you are not our "affiliate," as defined in Rule 405 under the Securities Act; • any Exchange Notes you receive in the exchange offer are being acquired by you in the ordinary course of your business; • neither you nor anyone receiving Exchange Notes from you has any arrangement or understanding with any person to participate in a distribution of the Exchange Notes, as defined in the Securities Act; and • you are not holding Original Notes that have, or are reasonably likely to have, the status of an unsold allotment in the initial offering of the Original Notes. In addition, each broker-dealer that receives Exchange Notes for its own account in the exchange offer must acknowledge that it acquired the Original Notes for its own account as a result of market-making or other trading activities and must agree that it will deliver a prospectus meeting the requirements of the Securities Act in connection with any resale of the Exchange Notes. A participating broker-dealer may use this prospectus, as it may be amended or supplemented from time to time, in connection with resales of Exchange Notes received in exchange for Original Notes where such Original Notes were acquired as a result of market-making activities or other trading activities. For further information regarding resales of Exchange Notes by participating broker-dealers, see "Plan of Distribution."
Resales of Exchange Notes	Based on interpretations by the staff of the SEC as set forth in no-action letters issued to third parties, we believe that you can offer for resale, resell and otherwise transfer the Exchange Notes you receive in the exchange offer without complying with the registration and prospectus delivery requirements of the Securities Act so long as: • you acquire the Exchange Notes in the ordinary course of business; • you are not participating, do not intend to participate, and have no arrangement or understanding with any person to participate, in a distribution of the Exchange Notes; • you are not holding Original Notes that have or are reasonably likely to have the status of an unsold allotment in the initial offering of such Original Notes;

	• you are not an affiliate of ours; and • you are not a broker-dealer. If any of these conditions is not satisfied and you transfer any Exchange Notes without delivering a proper prospectus or without qualifying for a registration exemption, you may incur liability under the Securities Act. We do not assume, or indemnify you against, any such liability. See the discussion below under the caption "Description of the Exchange Offer—Procedures for Tendering Original Notes" for more information.
Guaranteed Delivery Procedures	If you wish to tender your Original Notes and time will not permit your required documents to reach the exchange agent by the expiration time, or the procedures for book-entry transfer cannot be completed by the expiration time, you may tender your Original Notes according to the guaranteed delivery procedures described in "Description of the Exchange Offer—Guaranteed Delivery."
Minimum Condition	The exchange offer is not conditioned on any minimum aggregate principal amount of Original Notes being tendered for exchange.
Certain Income Tax Considerations	The exchange of Original Notes for Exchange Notes pursuant to the exchange offer will not be a taxable event for United States federal income tax purposes. You should consult your tax advisor about the tax consequences of this exchange. See "Certain U.S. Federal Income Tax Considerations."
Use of Proceeds	We will not receive any cash proceeds from the issuance of the Exchange Notes in this exchange offer.
Exchange Agent	Wilmington Trust, National Association is serving as exchange agent in connection with the exchange offer. You can find the address and telephone number of the exchange agent below under the caption "Description of the Exchange Offer—Exchange Agent."
Additional Registration Rights	We and the guarantors have agreed to file a shelf registration statement for the resale of the notes (and guarantees) if we cannot affect the exchange offer within the time periods listed above and in other circumstances described under the caption "Description of the Exchange Offer—Additional Registration Rights."
Risk Factors	You should consider carefully all of the information included in this prospectus, and, in particular, the information under the heading "Risk Factors" beginning on page 26 prior to deciding whether to participate in the exchange offer.

SUMMARY DESCRIPTION OF THE EXCHANGE NOTES

The summary below describes the principal terms of the Exchange Notes. Certain of the terms and conditions described below are subject to important limitations and exceptions. You should carefully review the "Description of the Exchange Notes" section of this prospectus, which contains a more detailed description of the terms and conditions of the Exchange Notes.

Issuers	Trinseo Materials Operating S.C.A., a Luxembourg partnership limited by shares (*société en commandite par actions*), and Trinseo Materials Finance, Inc., a Delaware corporation.

Maturity	The Exchange Notes will mature on February 1, 2019.
Interest Rate	Interest on the Exchange Notes will be payable in cash and will accrue at a rate of 8.750% per annum. We will not pay accrued and unpaid interest on the Original Notes that we acquire in the exchange offer. Instead, interest on the notes will accrue from the most recent interest payment date to which interest has been paid or duly provided for, or if no interest has been paid, from and including January 29, 2013, the date on which we issued the Original Notes.
Interest Payment Dates	February 1 and August 1, commencing on February 1, 2014. Interest will accrue from August 1, 2013, the date on which interest was last paid on the Original Notes.
Use of Proceeds	This exchange offer is intended to satisfy certain of our obligations under the Registration Rights Agreement. We will not receive any proceeds from the issuance of the Exchange Notes in the exchange offer. In exchange for each of the Exchange Notes, we will receive Original Notes in like principal amount. We will retire or cancel all of the Original Notes tendered in the exchange offer. Accordingly, issuance of the Exchange Notes will not result in any change in our capitalization.
Optional Redemption	The Issuers may redeem all or part of the Exchange Notes at any time prior to August 1, 2015 by paying a make-whole premium, plus accrued and unpaid interest to the redemption date. The Issuers may redeem all or part of the Exchange Notes at any time after August 1, 2015 at the redemption prices specified in "Description of the Exchange Notes—Optional Redemption." In addition at any time prior to August 1, 2015, the Issuers may redeem up to 35% of the aggregate principal amount of the notes at a redemption price equal to 108.750% of the face amount thereof plus accrued and unpaid interest, if any, to the redemption date, with the net cash proceeds that we raise in certain equity offerings. The Issuers may also redeem, during any 12-month period commencing from the issue date until August 1, 2015, up to 10% of the original principal amount of the

	notes at a redemption price equal to 103% of the principal amount thereof, plus accrued and unpaid interest, if any, to, but not including, the date of redemption.
Change of Control Offer	Upon the occurrence of specific kinds of changes of control, you will have the right, as holders of the Exchange Notes, to cause the Issuers to repurchase some or all of your Exchange Notes at 101% of their face amount, plus accrued and unpaid interest to, but not including, the redemption date. See “Description of the Exchange Notes—Change of Control.”
Asset Disposition Offers	If the Issuers or their restricted subsidiaries sell assets, under certain circumstances, the Issuers will be required to use the net proceeds to make an offer to purchase Exchange Notes at an offer price in cash in an amount equal to 100% of the principal amount of the Exchange Notes plus accrued and unpaid interest to the redemption date. See “Description of the Exchange Notes—Certain Covenants—Limitation on Sales of Assets and Subsidiary Stock.”
Security	Subject to certain exceptions and permitted liens, the notes and the guarantees are secured by a first-priority lien, pari passu (subject to the intercreditor agreement described below) with the liens granted to secure our Senior Secured Credit Facility, on substantially all of the Issuers’ and the Guarantors’ existing and future assets, including but not limited to accounts, chattel paper, documents, equipment, general intangibles, intellectual property, instruments, inventory, investment property, letter of credit rights, goods, material real property and the capital stock held by the Issuers or any of the Guarantors. See “Description of the Exchange Notes—Collateral and Security Documents.”
Intercreditor Agreement	The trustee and the collateral agent under the Indenture and the administrative agent and collateral agent under the Senior Secured Credit Facility have entered into an intercreditor agreement as to the relative priorities of their respective entitlement to proceeds of the assets securing the notes and obligations under the Senior Secured Credit Facility. See “Description of the Exchange Notes—Intercreditor Agreement.” The intercreditor agreement provides, amongst other things, that the proceeds of any collection, sale, disposition or other realization of collateral received in connection with the exercise of remedies (including distributions of cash, securities or other property on account of the value of the collateral in any bankruptcy, insolvency, reorganization or similar proceedings) will be applied first to pay in full all “superpriority obligations,” including amounts due under our Senior Secured Credit Facility, including any post-petition interest with respect thereto, certain hedging obligations and certain cash management obligations of us and the guarantors owed to the lenders under Senior Secured Credit Facility before the holders of the notes and any other pari passu lien indebtedness receive any proceeds. As a result, the claims of holders

	of notes to such proceeds will rank behind such claims, including interest.
Ranking	The Exchange Notes and the related guarantees will be the Issuers' and the Guarantors' senior secured obligations and will: • rank equally in right of payment with all existing and future senior secured indebtedness of the Issuers and each Guarantor and pari passu with the Issuers' and the Guarantors' indebtedness that is secured by first-priority liens, including our Senior Secured Credit Facility, to the extent of the value of the collateral securing such indebtedness; • rank senior in right of payment to any existing and future subordinated indebtedness of the Issuers and each Guarantor; • be effectively senior to any of the Issuers' and the Guarantors' junior priority secured indebtedness and unsecured indebtedness to the extent of the value of the collateral for the Exchange Notes; and • be structurally subordinated in right of payment to all existing and future indebtedness and other liabilities of our non-guarantor subsidiaries. Claims under the Exchange Notes of guarantees thereof will effectively rank behind the claims of holders of "superpriority" obligations, including interest, under our Senior Secured Credit Facility, in respect of proceeds from any enforcement action with respect to the collateral or in any bankruptcy, insolvency or liquidation proceeding. See "Description of the Exchange Notes—Intercreditor Agreement." As of June 30, 2013: • the Issuers had $1,325.0 million of total indebtedness (including the notes but excluding inter-company indebtedness); and • our non-guarantor subsidiaries had total liabilities, including trade payables but excluding intercompany liabilities, of $232.3 million, all of which would have been structurally senior to the notes.
Guarantees	The Exchange Notes will be unconditionally guaranteed on a senior secured basis by Trinseo, S.A. ("Trinseo") and each of its existing and future wholly-owned subsidiaries that guarantee our Senior Secured Credit Facility, other than its subsidiaries, Styron France S.A.S. and Styron Spain S.L. (together, the "Guarantors"). For the year ended December 31, 2012 and the six-months ended June 30, 2013, our non-guarantor subsidiaries represented approximately 21.9% and 20.8% of our consolidated net sales before eliminations, respectively.

	As of December 31, 2012 and June 30, 2013, our non-guarantor subsidiaries: • represented 23.6% and 28.7% of our consolidated total assets, excluding intercompany balances, respectively; and • had 7.6% and 9.9% of our consolidated total liabilities, including trade payables but excluding intercompany liabilities, respectively.

(1) Net sales and cost of sales increases or decreases were generally based on fluctuations in raw material prices. Consistent with industry practice and as permitted under agreements with many of our customers, raw material price changes are passed through to customers by means of corresponding sales price changes. Prior to June 17, 2010, inventory sales and most purchases between the Predecessor and the Dow business units are recorded at Dow's internal manufacturing cost.

(2) In the Predecessor periods, interest expense was not allocated to the Styron business, as no debt was allocated.

(3) For the year ended December 31, 2011, the loss on extinguishment of debt relates to the February 2, 2011 amendment of our Senior Secured Credit Facility. For the six months ended June 30, 2013, the loss on extinguishment of debt relates to the January 2013 amendment of our Senior Secured Credit Facility.

(4) For the successor period ended December 31, 2010, the year ended December 31, 2011 and the six-month period ended June 30, 2013, the effective tax rate was also negatively impacted due to valuation allowances and certain non-deductible expenses.

(5) The amount of capital expenditures during the six months ended June 30, 2013 and the year ended December 31, 2012 does not include a $6.6 million and $6.1 million, respectively, government subsidy we received during the time periods. We had capital expenditures relating to our Rubber capacity expansion at Schkopau, Germany of $69.2 million as of December 31, 2012 and $54.8 million as of December 31, 2011, which was completed in the fourth quarter of 2012.

(6) We present EBITDA in this prospectus to provide investors with a supplemental measure of our operating performance. EBITDA is a non-GAAP financial measure. We define EBITDA as net income (loss) before interest, taxes and depreciation and amortization. We believe the use of EBITDA as a metric assists our board of directors, management and investors in comparing our operating performance on a consistent basis because it removes the impact of our capital structure (such as interest expense), asset base (such as depreciation and amortization) and tax structure. The use of EBITDA has limitations and you should not consider this performance measure in isolation from or as an alternative to measures presented in accordance with GAAP such as net income (loss).

(7) We define Adjusted EBITDA as income (loss) from continuing operations before interest expense, net; income tax provision; depreciation and amortization expense; asset impairment charges; advisory fees paid to affiliates of Bain Capital; other non-cash charges and certain other charges that management does not believe are reflective of our core operating performance. We believe that the presentation of Adjusted EBITDA provides investors with a useful analytical indicator of our performance. Adjusted EBITDA is not intended to represent cash flow from operations as defined by GAAP and should not be used as an alternative to net income as an indicator of operating performance or to cash flow as a measure of liquidity. The adjustments used by our management to calculate Adjusted EBITDA are based upon various

assumptions and estimates that our management believes are reasonable; however, actual results may differ from these adjustments, assumptions and estimates. Because not all companies use identical calculations, these presentations of Adjusted EBITDA may not be comparable to other similarly-titled measures used by other companies. Adjusted EBITDA is calculated as follows:

(b) Represents the impact of the various raw material supply agreements entered into between Dow and Styron based upon the market pricing in effect during the predecessor period ended June 16, 2010. Adjustment in the successor period ended December 31, 2010 reflects net adjustment for acquisition related fair value of inventories sold during the period.

(c) For periods prior to the Acquisition, utilities and site services at Styron/Dow shared sites, indirect costs such as supply chain and administrative costs and other corporate costs were allocated or charged to Styron using activity based costing or other allocation methodologies. Represents adjustment to the historical amounts based on our estimate of the go-forward stand-alone costs to run the business.

(d) The following table provides detail of the plant closures and other operational items:

These initiatives and associated costs were incurred by the Company as a result of the Acquisition and separation from Dow or other strategic initiatives primarily intended to establish and define the Company's ongoing cost and operational structure. For the year ended December 31, 2010, this included $11.8 million of finance related costs, $7.4 million of strategic initiative evaluation costs, $3.5 million of treasury and human resource related costs, $8.1 million of legal and other duplicative, transitional and one-time related costs, and $56.5 million of Acquisition-related expenses. 	Predecessor			Successor			
	Year Ended December 31,		January 1 through June 16,	June 17 through December 31,	Year Ended December 31,		Six Months Ended June 30,

RISK FACTORS

Investing in the Exchange Notes involves risks. You should review and consider carefully the following risk factors as well as all the other information presented in this prospectus before participating in this exchange offer. Any of the following risks, if they were to occur, could materially and adversely affect our business, results of operations, prospects or financial condition. Additional risks and uncertainties not presently known to us, or that we currently see as immaterial, may also harm our business. If any of these risks occur, the market price and liquidity of the notes could decline and you could lose all or part of your investment. This prospectus also contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in such forward-looking statements as a result of certain factors, including the risks described below and the risks described elsewhere in this prospectus. See "Cautionary Note On Forward-Looking Statements."

Risks Related to the Notes and Our Indebtedness

Our substantial level of indebtedness could adversely affect our financial condition and prevent us from fulfilling our obligations under the notes or our Revolving Facility.

We have substantial indebtedness, which, as of June 30, 2013, totaled an aggregate of approximately $1,480.0 million. Our indebtedness currently consists principally of the notes and borrowings from our accounts receivable securitization facility. As of June 30, 2013, we do not have outstanding borrowings under our Revolving Facility. Our Revolving Facility currently allows for up to $300.0 million in available borrowings. We are also party to an agreement for an accounts receivable securitization facility, for up to a total of $200.0 million in borrowings. As of June 30, 2013, there was approximately $177.4 million of accounts receivable available to support this facility, based on our pool of eligible accounts receivable and there were approximately $148.9 million in outstanding borrowings. We are also party to a short-term revolving facility through our subsidiary in China that provides for approximately $15.0 million of uncommitted funds available for borrowings. Outstanding borrowings under this revolving facility were $3.4 million as of June 30, 2013. See "Description of Other Indebtedness."

As a result of our substantial indebtedness:

- our ability to obtain additional financing for working capital, capital expenditures, debt service requirements or other general corporate purposes may be impaired;
- we must use a substantial portion of our cash flow to pay interest on our indebtedness which will reduce the funds available to us for other purposes;
- we are vulnerable to economic downturns and adverse industry conditions;
- our ability to capitalize on business opportunities and to react to competitive pressures, as compared to our competitors, may be compromised;
- our ability to borrow additional funds may be limited; and
- we may be unable to refinance our indebtedness, the majority of which becomes due in 2019, on satisfactory terms, or at all.

Our Indenture and Senior Secured Credit Facility contain a number of covenants imposing significant restrictions on our business. These restrictions may affect our ability to operate our business and may limit our ability to take advantage of business opportunities and require that we maintain a certain Adjusted EBITDA level. These covenants restrict, among other things, our ability to:

- sell assets;
- incur additional indebtedness;

- pay dividends;
- make investments or acquisitions;
- create liens;
- repurchase or redeem capital stock;
- engage in mergers or consolidations;
- engage in transactions with affiliates; and
- consolidate, merge or transfer all or substantially all of our assets.

The ability for us to comply with the covenants and financial ratios and tests contained in our Indenture and Senior Secured Credit Facility, to pay interest on indebtedness, fund working capital, and make anticipated capital expenditures depends on our future performance, which is subject to general economic conditions and other factors, some of which are beyond our control. There can be no assurance that our business will generate sufficient cash flow from operations or that future borrowings will be available under the Senior Secured Credit Facility to fund liquidity needs in an amount sufficient to enable us to service indebtedness. Furthermore, if we decide to undertake additional investments in existing or new facilities, this will likely require additional capital, and there can be no assurance that this capital will be available on satisfactory terms or at all.

A failure to repay amounts owed under the Revolving Facility at maturity would result in a default. In addition, a breach of any of the covenants in the Revolving Facility or our inability to comply with the required financial ratios or limits could result in a default. If a default occurs, our lenders could refuse to lend us additional funds and/or declare all of our debt and any accrued interest and fees immediately due and payable. A default under one of our debt agreements may trigger a cross-default under our other debt agreements. If any of our indebtedness is accelerated, we cannot assure you that we would have sufficient assets to repay all of our obligations. Our failure to repay our obligations could, among other things, materially adversely affect the market value of the notes.

To service our indebtedness, we will require a significant amount of cash. If we are unable to execute on our business strategy and generate significant cash flow, we may be unable to service our indebtedness and repay in full the notes at maturity.

To service our indebtedness, including the notes, we will require a significant amount of cash. Our ability to generate cash flow and service our debt obligations will depend upon, among other things, our future financial condition and operating performance. These factors depend partly on economic, financial, competitive conditions and to certain financial, business, legislative, regulatory and other factors beyond our control. We may not be able to generate sufficient cash from operations to meet our debt service obligations as well as fund necessary capital expenditures.

If our cash flows and capital resources are insufficient to fund our debt service obligations, we could face substantial liquidity problems and could be forced to reduce or delay investments and capital expenditures or to dispose of material assets or operations, seek additional debt or equity capital or restructure or refinance our indebtedness, including the notes. We may not be able to effect any such alternative measures on commercially reasonable terms or at all, and, even if successful, those alternative actions may not allow us to meet our scheduled debt service obligations. The Senior Secured Credit Facility and the Indenture restrict our ability to dispose of assets and the use of proceeds from those dispositions and may also restrict our ability to raise debt or equity capital to be used to repay other indebtedness when it becomes due. We may not be able to consummate those dispositions or to obtain proceeds in an amount sufficient to meet any debt service obligations then due.

As of June 30, 2013, we had cash and cash equivalents of approximately $170.6 million. If we are unable to meet our debt service obligations under the notes, the holders of the notes would have the right following a cure

period to cause the entire principal amount of the notes to become immediately due and payable. If the amount outstanding under the notes is accelerated, we cannot assure you that our assets will be sufficient to repay in full the money owed to our noteholders.

Restrictive covenants in the Indenture and the Senior Secured Credit Facility may limit our current and future operations, particularly our ability to respond to changes in our business or to pursue our business strategies.

The Indenture and the Revolving Facility contain, and any future indebtedness of ours may contain, a number of restrictive covenants that impose significant operating and financial restrictions, including restrictions on our ability to take actions that we believe may be in our interest. The Indenture and the Revolving Facility, among other things, limit our ability to:

- incur additional indebtedness and guarantee indebtedness;
- pay dividends on or make distributions in respect of capital stock or make certain other restricted payments or investments;
- enter into agreements that restrict distributions from restricted subsidiaries;
- sell or otherwise dispose of assets, including capital stock of restricted subsidiaries;
- enter into transactions with affiliates;
- create or incur liens;
- merge, consolidate or sell all or substantially all of our assets;
- materially alter the business we conduct;
- make investments and acquire assets;
- prepay, redeem or repurchase certain debt; and
- issue certain preferred stock or similar equity securities.

In addition, the Revolving Facility requires us to maintain a springing first lien leverage ratio; the ability to meet these financial ratios and tests can be affected by events beyond our control. You should read the discussions under the headings “Description of the Exchange Notes—Certain Covenants” and “Description of Other Indebtedness—Senior Secured Credit Facility” for further information about these covenants.

A breach of the covenants or restrictions under the Indenture or the Revolving Facility could result in a default under the applicable indebtedness. Such a breach or default may allow our creditors to declare such related debt due and payable and/or to accelerate the related debt and may result in the acceleration of any other debt to which a cross-acceleration or cross-default provision applies. In addition, an event of default under the Revolving Facility would permit the lenders under our Revolving Facility to terminate all commitments to extend further credit under that facility. Furthermore, if we were unable to repay the amounts due and payable under our Revolving Facility, the lenders thereof could proceed against the collateral granted to them to secure that indebtedness. In the event our lenders and noteholders accelerate the repayment of our borrowings, we and our subsidiaries may not have sufficient assets to repay our indebtedness.

Despite our current levels of indebtedness, we may incur substantially more debt, which could further exacerbate the risks associated with our substantial indebtedness.

Although the Senior Secured Credit Facility and the Indenture contain restrictions on the incurrence of additional indebtedness, these restrictions are subject to a number of qualifications and exceptions and the indebtedness incurred in compliance with these restrictions could be substantial. Also, we are not prevented from incurring obligations that do not constitute “indebtedness” as defined in the Senior Secured Credit Facility or the

Indenture, such as operating leases and trade payables. If new debt is added to our current debt levels, the risks related to our substantial indebtedness that we now face could intensify.

The Issuers are holding companies and depend on subsidiaries to satisfy their obligations under the notes.

As holding companies, the Issuers conduct substantially all of their operations through their subsidiaries, which own substantially all of our consolidated assets. Consequently, the principal source of cash to pay the Issuers' obligations, including obligations under the notes, is the cash that our subsidiaries generate from their operations. We cannot assure you that our subsidiaries will be able to, or be permitted to, make distributions to enable the Issuers to make payments in respect of their obligations. Each of our subsidiaries is a distinct legal entity and, under certain circumstances, applicable laws and regulatory limitations may limit the Issuers' ability to obtain cash from our subsidiaries. In the event the Issuers do not receive distributions from our subsidiaries, the Issuers may be unable to make required payments on the notes or our other indebtedness.

Not all of our subsidiaries are guarantors, and, therefore, the notes will be structurally subordinated in right of payment to the indebtedness and other liabilities of our existing and future subsidiaries that do not guarantee the notes. Your right to receive payments on the notes could be adversely affected if any of these non-guarantor subsidiaries declare bankruptcy, liquidate or reorganize.

The notes are fully and unconditionally guaranteed by the Guarantors on a joint and several basis. The Guarantors include Trinseo and each of our existing and future wholly-owned subsidiaries that guarantee the Senior Secured Credit Facility, other than our subsidiaries, Styron France S.A.S. and Styron Spain S.L. None of our minority-owned joint ventures guarantee the notes. Our subsidiaries that do not guarantee the notes have no obligation, contingent or otherwise, to pay amounts due under the notes or to make any funds available to pay those amounts, whether by dividend, distribution, loan or other payment. The notes and guarantees are structurally subordinated to all of the liabilities of any of our subsidiaries that do not guarantee the notes and are required to be paid before the holders of the notes have a claim, if any, against those subsidiaries and their assets. Therefore, if there were a dissolution, bankruptcy, liquidation or reorganization of any such subsidiary, the holders of notes would not receive any amounts with respect to the notes from the assets of such subsidiary until after the payment in full of the claims of creditors, including trade creditors and preferred stockholders, of such subsidiary.

In addition, the equity interests of other equity holders in any non-wholly-owned non-guarantor subsidiary in any dividend or other distribution made by these entities would need to be satisfied on a proportionate basis with us. These less than wholly-owned subsidiaries may also be subject to restrictions on their ability to distribute cash to us in their financing or other agreements, and, as a result, we may not be able to access their cash flow to service our debt obligations, including in respect of the notes.

Our non-guarantor subsidiaries accounted for approximately $1,385.1 million, or 21.9%, and $656.6 million, or 20.8%, of our consolidated net sales before eliminations for the year ended December 31, 2012 and the six-months ended June 30, 2013, respectively. Our non-guarantor subsidiaries accounted for approximately $629.5 million or 23.6% and $751.8 million or 28.7% of our total assets excluding intercompany balances, and approximately $180.1 million or 7.6% and $232.3 million or 9.9% of our total liabilities excluding intercompany balances, in each case as of December 31, 2012 and June 30, 2013, respectively.

In addition, the Guarantors of the notes will be automatically released from those guarantees upon the occurrence of certain events, including the following:

- the designation of that Guarantor as an unrestricted subsidiary;
- the release or discharge of any guarantee or indebtedness that resulted in the creation of the guarantee of the notes by such Guarantor; or

- the sale or other disposition, including the sale of substantially all the assets, of that Guarantor.

If any Subsidiary Guarantee is released, no holder of the notes will have a claim as a creditor against that subsidiary, and the indebtedness and other liabilities, including trade payables and preferred stock, if any, whether secured or unsecured, of that subsidiary will be effectively senior to the claim of any holders of the notes. See "Description of the Exchange Notes—Guarantees."

Federal, state and foreign fraudulent transfer laws may permit a court to void the notes and/or the guarantees, and if that occurs, you may not receive any payments on the notes.

Federal, state and foreign bankruptcy, fraudulent transfer and conveyance statutes may apply to the issuance of the notes, the incurrence of the guarantees and any related security of the notes. Under federal or foreign bankruptcy law and comparable provisions of state and foreign bankruptcy, fraudulent transfer or conveyance laws, which may vary among jurisdictions, the notes, the guarantees or the related security thereof could be voided as a fraudulent transfer or conveyance if we or any of the guarantors, as applicable, (a) issued the notes or incurred the guarantees or granted the related security with the intent of hindering, delaying or defrauding creditors or with a view to giving one creditor a preference over another creditor or (b) received less than reasonably equivalent value or fair consideration in return for either issuing the notes or incurring the guarantees or granting the related security and, in the case of (b) only, one of the following is also true at the time thereof:

- the Issuers or any of the Guarantors, as applicable, were insolvent or rendered insolvent by reason of the issuance of the notes or the incurrence of the guarantees or granting the related security;
- the issuance of the notes or the incurrence of the guarantees or granting the related security left the Issuers or any of the Guarantors, as applicable, with an unreasonably small amount of capital or assets to carry on the business;
- the Issuers or any of the Guarantors intended to, or believed that the Issuers or such Guarantor would, incur debts beyond the Issuers' or the Guarantors' ability to pay as they mature; or
- the Issuers or any of the Guarantors were a defendant in an action for money damages, or had a judgment for money damages docketed against the Issuers or the Guarantors if, in either case, the judgment is unsatisfied after final judgment.

As a general matter, value is given for a transfer or an obligation if, in exchange for the transfer or obligation, property is transferred or a valid antecedent debt is secured or satisfied. A court would likely find that a Guarantor did not receive reasonably equivalent value or fair consideration for its guarantee to the extent such Guarantor did not obtain a reasonably equivalent benefit directly or indirectly from the issuance of the notes.

We cannot be certain as to the standards a court would use to determine whether or not the Issuers or the Guarantors were insolvent at the relevant time or, regardless of the standard that a court uses, whether the notes or the guarantees would be subordinated to the Issuers or any of the Guarantors' other debt. In general, however, a court would deem an entity insolvent if:

- the sum of its debts, including contingent and unliquidated liabilities, was greater than the fair saleable value of all of its assets;
- the present fair saleable value of its assets was less than the amount that would be required to pay its probable liability on its existing debts, including contingent liabilities, as they become absolute and mature; or
- it could not pay its debts as they became due.

If a court were to find that the issuance of the notes, the incurrence of a guarantee or the grant of security was a fraudulent transfer, conveyance or other similar voidable transaction, the court could void the payment

obligations under the notes or that guarantee, could subordinate the notes or that guarantee to presently existing and future indebtedness of the Issuers or of the related Guarantor or could require the holders of the notes to repay any amounts received with respect to that guarantee. In the event of a finding that a transfer at undervalue preference, fraudulent transfer or conveyance or similar voidable transaction occurred, you may not receive any repayment on the notes. Further, the avoidance of the notes could result in an event of default with respect to our and our subsidiaries' other debt that could result in acceleration of that debt.

As a court of equity, the bankruptcy court may subordinate the claims in respect of the notes to other claims against us under the principle of equitable subordination if the court determines that (1) the holder of notes engaged in some type of inequitable conduct, (2) the inequitable conduct resulted in injury to our other creditors or conferred an unfair advantage upon the holders of notes and (3) equitable subordination is not inconsistent with the provisions of the bankruptcy code.

Additionally, certain of the Guarantors are organized under the laws of Luxembourg. The Luxembourg Companies Act, does not provide for rules governing the ability of a Luxembourg company to guarantee the indebtedness of another entity of the same group. Reciprocal assistance from one company in the group to another does not necessarily conflict with the interest of the assisting company. However, such assistance must be temporary, in proportion with the real financial means of the assisting company or have a reciprocal character. A company may provide a guarantee, provided that the giving of such guarantee is covered by the company's corporate purposes as set forth in the articles of association and is in the interest of the company. The test regarding a guarantor's corporate interest is whether the company that provides the guarantee receives some consideration in return (such as an economic or commercial benefit) and whether the benefit is proportionate to the burden of the assistance. A guarantee that substantially exceeds each guarantor company's ability to meet its obligations to the beneficiary of the guarantee and to its other creditors would expose its directors or managers to personal liability or criminal liability.

In addition, certain guarantors are incorporated in Germany in the form of a GmbH (a form of limited liability company) (the "German Guarantors"). Consequently, the guarantee of the notes by the German Guarantors is subject to certain provisions of the German Limited Liability Company Act. The Indenture contains customary limitations on the guarantees of the German Guarantors under which the beneficiaries of the guarantees agree to enforce the guarantees against the German subsidiary only to the extent that such enforcement does not result in the GmbH's net assets (assets minus liabilities and liability reserves) falling below, or increasing an existing shortfall of, its stated share capital.

In addition to the limitations resulting from the capital maintenance rules, the guarantees of the notes granted by the German Guarantors contain provisions limiting the enforcement thereof in the event it would result in the insolvency of the relevant German subsidiary.

German capital maintenance and enforcement limitation provisions are subject to evolving case law. We cannot assure you that future court rulings may not further limit the access of shareholders to assets of its subsidiaries constituted in the form of a limited liability company, which can negatively affect the ability of the Issuers to make payment on the notes or of the subsidiaries to make payments on the guarantees.

Moreover, it cannot be ruled out that the case law of the German Federal Supreme Court (*Bundesgerichtshof*) regarding so-called "destructive interference" in which a shareholder deprives a GmbH of the liquidity necessary for it to meet its own payment obligations) may be applied by courts with respect to the enforcement of a guarantee granted by the German subsidiaries. In such case, the amount of proceeds to be realized in an enforcement process may be reduced, even to nothing.

In the event of German insolvency proceedings with respect to a German Guarantor, the guarantee provided by that entity or any payment made by a German Guarantor on such guarantee could be subject to potential challenges by an insolvency administrator (*Insolvenzverwalter*) under the rules of avoidance as set out in the

German Insolvency Code (*Insolvenzordnung*). To the extent the guarantees were avoided, the holders of the notes would be under an obligation to repay the amounts received from the relevant insolvent Guarantor to the insolvency estate and/or to waive such guarantee granted by the insolvent Guarantor.

Furthermore, even in the absence of an insolvency proceeding, a third party creditor, under certain circumstances, has the right to avoid certain transactions, such as the payment of debt, pursuant to the German Code on Avoidance (*Anfechtungsgesetz*).

Certain other Guarantors of the notes are organized under the laws of Ireland, Belgium, England and Wales, Sweden, Switzerland and Italy. Each guarantee of the notes provided by these Guarantors is subject to, and limited by, the laws of such Guarantor's jurisdiction of organization, and any such guarantee will not be applicable to the extent that it would result in a violation of any such laws.

We may be unable to repurchase the notes upon a change of control or asset sale.

Upon the occurrence of specified kinds of change of control events, the Issuers will be required to offer to repurchase all outstanding notes at a price equal to 101% of the principal amount of the notes, together with accrued and unpaid interest, if any, to the date of repurchase. Similarly, under certain circumstances, the Issuers may be required to make an offer to repurchase notes if we make certain asset sales.

Additionally, under the Senior Secured Credit Facility, a change of control (as defined therein) constitutes an event of default that permits the lenders to accelerate the maturity of borrowings under the respective agreements and terminate their commitments to lend.

The source of funds for any purchase of the notes and repayment of borrowings under the Revolving Facility would be our available cash or cash generated from our subsidiaries' operations or other sources, including borrowings, sales of assets or sales of equity. However, it is possible that we will not have sufficient funds when required under the Indenture to make the required repurchase of the notes. If we fail to repurchase notes in that circumstance, we will be in default under the Indenture. If we are required to repurchase a significant portion of the notes, we may require third-party financing. We may be unable to obtain third-party financing on acceptable terms, or at all.

Further, the Issuers' ability to repurchase the notes may be limited by law. In order to avoid the obligations to repurchase the notes and events of default and potential breaches of the Senior Secured Credit Facility, the Issuers may have to avoid certain change of control transactions that would otherwise be beneficial to us.

In addition, some important corporate events, such as leveraged recapitalizations, may not, under the Indenture, constitute a "change of control" that would require us to repurchase the notes, even though those corporate events could increase the level of our indebtedness or otherwise adversely affect our capital structure, credit ratings or the value of the notes.

If the Issuers make an offer to repurchase notes in connection with a change of control, and holders of not less than 90% in aggregate principal amount of the outstanding notes validly tender and do not withdraw such notes, the Issuers will have the right, if it purchases all of the notes validly tendered and not withdrawn, upon not less than 30 nor more than 60 days' prior notice (such notice to be given not more than 30 days following such purchase), to redeem all notes that remain outstanding following such purchase at a price in cash equal to 101% of the principal amount of the notes plus accrued and unpaid interest to but excluding the date of redemption.

One of the circumstances under which a change of control may occur is upon the sale or disposition of all or substantially all of the Issuers' assets. However, the phrase "all or substantially all" will likely be interpreted under applicable state law and will be dependent upon particular facts and circumstances. As a result, there may be a degree of uncertainty in ascertaining whether a sale or disposition of "all or substantially all" of the Issuers' capital stock, membership interests or assets has occurred, in which case, the ability of a holder of the notes to obtain the benefit of an offer to repurchase all of a portion of the notes held by such holder may be impaired.

The exercise by the holders of notes of their right to require the Issuers to repurchase the notes pursuant to a change of control offer or an asset sale offer could cause a default under the agreements governing our other indebtedness, including future agreements, even if the change of control or asset sale, if applicable, itself does not, due to the financial effect of such repurchases on us. In the event a change of control offer or an asset sale offer is required to be made at a time when the Issuers are prohibited from purchasing notes, the Issuers could attempt to refinance the borrowings that contain such prohibition. If the Issuers do not obtain a consent or repay those borrowings, the Issuers will remain prohibited from purchasing notes. In that case, the Issuers' failure to purchase tendered notes would constitute an event of default under the Indenture which could, in turn, constitute a default under the Issuers' other indebtedness, including the Senior Secured Credit Facility. Finally, the Issuers' ability to pay cash to the holders of notes upon a repurchase may be limited by the Issuers' then existing financial resources.

Your right to take enforcement action with respect to the liens securing the notes is limited in certain circumstances, and you will receive the proceeds from such enforcement only after "superpriority" obligations under the Senior Secured Credit Facility and any other permitted "superpriority" obligations have been paid in full.

The notes and indebtedness and other obligations under our Senior Secured Credit Facility will be secured by first-priority liens on the same collateral. Under the terms of the security documents and/or intercreditor agreement, however, the proceeds of any collection, sale, disposition or other realization of collateral received in connection with the exercise of remedies (including distributions of cash, securities or other property on account of the value of the collateral in a bankruptcy, insolvency, reorganization or similar proceedings) will be applied first to repay "superpriority" obligations, including borrowings under our Senior Secured Credit Facility and additional "superpriority" borrowings that we may incur in the future under incremental facilities established under the Senior Secured Credit Facility, before the holders of notes and any other pari passu lien indebtedness receive any proceeds. As a result, the claims of holders of notes to such proceeds will effectively rank behind the claims, including interest, of holders of "superpriority" obligations under our Senior Secured Credit Facility. See "Description of the Exchange Notes—Intercreditor Agreement." If you (or the trustee on your behalf) receive any proceeds as a result of an enforcement of security interests or the guarantees prior to the satisfaction of the claims of those that are superior or ratable with those of the notes, you (or the trustee on your behalf) will be required to turn over such proceeds until superior claims are satisfied and until ratable claims are equally satisfied. Accordingly, you will recover less from the proceeds of an enforcement of interests in the collateral than you otherwise would have. As a result of these and other provisions governing the guarantees and the collateral and in the security documents, you may not be able to fully recover under the guarantees or the collateral in the event of a default on the notes.

The rights of the holders of the notes with respect to the collateral are limited, even during an event of default under the Indenture. If obligations are outstanding under our Senior Secured Credit Facility (including any replacement credit facility), if at any time the agent under the Senior Secured Credit Facility has commenced and is diligently pursuing any enforcement action or the Issuers or any Guarantor is subject to any insolvency or liquidation proceeding, any actions that may be taken in respect of any of the collateral securing the notes, including the ability to cause the commencement of enforcement proceedings against the collateral and to control the conduct of such proceedings, are controlled and directed by the agent for lenders under our Senior Secured Credit Facility. In those circumstances, the notes collateral agent, on behalf of itself, the trustee and the holders of the notes, will not have the ability to control or direct such actions, even if an event of default under the Indenture has occurred or if the rights of the trustee, the notes collateral agent and the holders of the notes are or may be adversely affected. The agent and the lenders under our Senior Secured Credit Facility are under no obligation to take into account the interests of the trustee under the Indenture, the notes collateral agent and the holders of the notes when determining whether and how to exercise their rights with respect to the collateral securing our Senior Secured Credit Facility on a first priority basis, subject to the intercreditor agreement. Their interests and rights may be significantly different from or adverse to yours and they will continue to maintain control over such lien enforcement matters even if the remaining amount of obligations under the Senior Secured

Credit Facility (or replacement credit facility) is immaterial. To the extent that collateral is released from the first priority liens in connection with an enforcement action, the first priority liens securing the notes and the guarantees related thereto will also automatically be released without any noteholder consent. See "Description of the Exchange Notes—Intercreditor Agreement."

Any time the agent under the Senior Secured Credit Facility does not have the right to take actions with respect to the collateral pursuant to the intercreditor agreement, that right passes to the authorized representative of the holders of the largest outstanding principal amount of other indebtedness secured by a first lien on the collateral. For example, if we issue additional first-lien notes in the future in a greater principal amount than the notes, then the authorized representative of those additional notes would be earlier in line to exercise rights under the first-lien intercreditor agreement than the authorized representative for the notes.

The Indenture and the related security documents permit the Issuers and the Guarantors to create additional liens under specified circumstances. Any obligations secured by such liens may further limit the recovery from the realization of the collateral available to satisfy holders of the notes.

It may be difficult to realize the value of the collateral securing the notes.

The collateral securing the notes will be subject to any and all exceptions, defects, encumbrances, liens and other imperfections as may be permitted by the Indenture, whether on or after the date the notes are issued. The existence of any such exceptions, defects, encumbrances, liens and other imperfections could adversely affect the value of the collateral securing the notes as well as the ability of the collateral agent to realize or foreclose on such collateral.

The value of the collateral at any time will depend on market and other economic conditions, including the availability of suitable buyers. By their nature, some or all of the collateral may be illiquid and may have no readily ascertainable market value. We cannot assure you that the fair market value of the collateral as of the date of this prospectus exceeds the principal amount of the debt secured thereby. The value of the assets pledged as collateral for the notes could be impaired in the future as a result of changing economic conditions, our failure to implement our business strategy, competition, unforeseen liabilities and other future events. Accordingly, there may not be sufficient collateral to pay all or any of the amounts due on the notes. Any claim for the difference between the amount, if any, realized by holders of the notes from the sale of the collateral securing the notes and the obligations under the notes will rank equally in right of payment with all of our other unsecured unsubordinated indebtedness and other obligations, including trade payables. Additionally, in the event that a bankruptcy case is commenced by or against us, if the value of the collateral is less than the amount of principal and accrued and unpaid interest on the notes and all other senior secured obligations, interest may cease to accrue on the notes from and after the date the bankruptcy petition is filed.

To the extent that third parties enjoy prior liens, such third parties may have rights and remedies with respect to the property subject to such liens that, if exercised, could adversely affect the value of the collateral. Additionally, the terms of the Indenture allow us to issue additional notes and incur change of control refinancing indebtedness in certain circumstances. The Indenture does not require that we maintain the current level of collateral or maintain a specific ratio of indebtedness to asset values. Under the Indenture, any additional notes issued pursuant to the Indenture and change of control refinancing indebtedness incurred in accordance with the terms of the Indenture will rank pari passu with the notes and be entitled to the same rights and priority with respect to the collateral. Thus, the issuance of additional notes pursuant to the Indenture may have the effect of significantly diluting your ability to recover payment in full from the then existing pool of collateral. Releases of collateral from the liens securing the notes will be permitted under some circumstances.

The rights of holders of notes in the collateral may be adversely affected by the failure to perfect security interests in the collateral and other issues generally associated with the realization of security interests in the collateral.

Applicable law requires that a security interest in certain tangible and intangible assets can only be properly perfected and its priority retained through certain actions (including, making filings, within statutory time periods, with government authorities). The liens on the collateral securing obligations under the notes from time to time owned by the Issuers or the Guarantors may not be perfected if such actions necessary to perfect any of those liens upon or prior to the issuance of the notes have not been taken. The inability or failure of us to promptly take all actions necessary to create properly perfected security interests in the collateral may result in the loss of the priority, or a defect in the perfection, of the security interest for the benefit of the noteholders to which they would have been otherwise entitled.

In addition, applicable law requires that certain property and rights acquired after the grant of a general security interest can only be perfected at the time such property and rights are acquired and identified. We cannot assure you that the collateral agent will monitor, or that the Issuers or the Guarantors will inform such collateral agent of, the future acquisition of property and rights that constitute collateral, and that the necessary action will be taken to properly perfect the security interest in such after acquired collateral. The collateral agent for the notes has no obligation to monitor the acquisition of additional property or rights that constitute collateral or the perfection of any security interest. Such failure may result in the loss of the security interest in the collateral or the priority of the security interest in favor of the notes and the note guarantees against third parties.

The security interest of the collateral agent will be subject to practical challenges generally associated with the realization of security interests in the collateral. For example, the consent of a third party may be required to obtain or enforce a security interest in an asset or the Governmental Procedures may need to be completed. We cannot assure you that the Issuers, the Guarantors or the collateral agent will be able to obtain any such consent or that the consents of any third parties will be given when required to facilitate a foreclosure on such assets. As a result, the collateral agent may not have the ability to foreclose upon those assets and the value of the collateral may significantly decrease. In addition, if the collateral agent forecloses on our assets, including our stock or the stock of our subsidiaries, it may constitute a change of control or assignment under our long-term contracts with our customers, and the counterparties may be entitled to amend or terminate the contracts, which could adversely affect the value of the collateral.

The collateral agent may not be able to possess certain assets located outside of the United States on enforcement or in an insolvency and may also be prevented from holding security interests in certain collateral located outside of the United States.

A significant portion of the assets pledged by the Issuers and Guarantors as collateral for the notes is located in jurisdictions outside the United States. Applicable laws may restrict the ability of the collateral agent from taking possession of certain collateral located outside of the United States on enforcement or in an insolvency. In addition, certain jurisdictions restrict the ability of foreign entities to hold the benefit of security interests over certain assets. This may mean that the collateral agent will be unable to benefit from security interests in certain collateral located outside of the United States and may also restrict the ability of the collateral agent to transfer collateral into its name on enforcement or in an insolvency.

Enforcing your rights as a holder of notes or under the guarantees across multiple jurisdictions may prove difficult.

The notes were issued by Trinseo Materials Operating, S.C.A., which is organized under the laws of Luxembourg, and by Trinseo Materials Finance, Inc., a Delaware corporation, and guaranteed by the Guarantors, which are organized under the laws of multiple jurisdictions, including Australia, Belgium, Canada, Germany, Hong Kong, Ireland, Italy, Luxembourg, the Netherlands, Singapore, Sweden, Switzerland, England and Wales

and the United States. In the event of a bankruptcy, insolvency or similar event, proceedings could be initiated in any of these jurisdictions. Such multi-jurisdictional proceedings are likely to be complex and costly for creditors and otherwise may result in greater uncertainty and delay regarding the enforcement of your rights. Your rights under the notes and the guarantees are subject to the insolvency and administrative laws of several jurisdictions, and there can be no assurance that you will be able to effectively enforce your rights in such complex, multiple bankruptcy, insolvency or similar proceedings.

In addition, the bankruptcy, insolvency, administrative and other laws of the Issuers' and the Guarantors' jurisdictions of organization may be materially different from, or in conflict with, each other, including in the areas of rights of creditors, priority of government and other creditors, ability to obtain post-petition interest and duration of the proceedings. The application of these laws, or any conflict among them, could call into question whether any particular jurisdiction's law should apply, adversely affect your ability to enforce your rights under the notes and the guarantees in these jurisdictions, or limit any amounts that you may receive.

The imposition of certain permitted liens could materially adversely affect the value of the collateral.

The collateral securing the notes and the guarantees may also be subject to liens permitted under the terms of the Indenture, whether arising on or after the date the notes were issued. The existence of any permitted liens could materially adversely affect the value of the collateral that could be realized by the holders of the notes as well as the ability of the collateral agent to realize or foreclose on such collateral. In addition, the imposition of certain permitted liens will cause the relevant assets to become "excluded assets," which will not secure the notes or the guarantees. See "Description of the Exchange Notes—Collateral and Security Documents" for the definition of "excluded assets." The collateral that secures the notes and the guarantees may also secure future indebtedness and other obligations of us and the guarantors to the extent permitted by the Indenture and the security documents, and the liens securing such indebtedness and other obligations may rank prior to or pari passu with the liens on the collateral securing the notes and the guarantees. Your rights to the collateral would be diluted by any increase in the indebtedness secured by the collateral.

Bankruptcy laws may limit your ability to realize value from the collateral.

The right of the collateral agent to repossess and dispose of the collateral or to take certain other actions upon the occurrence of an event of default under the Indenture or otherwise is likely to be significantly impaired or otherwise prohibited by applicable bankruptcy law if a bankruptcy case were to be commenced by or against the Issuers and/or any Guarantor before the collateral agent repossessed and disposed of the collateral and/or took certain other actions. Upon the commencement of a case under the bankruptcy code, a secured creditor such as the collateral agent is prohibited from repossessing its security from a debtor in a bankruptcy case, from disposing of security repossessed from such debtor, and/or taking certain other actions without bankruptcy court approval, which may not be given depending on the circumstances. Moreover, the bankruptcy code permits the debtor to continue to retain and use collateral even though the debtor is in default under the applicable debt instruments or otherwise, provided that the secured creditor is given, upon its request to the bankruptcy court, "adequate protection" under the bankruptcy code. The meaning of the term "adequate protection" may vary according to circumstances and the particular bankruptcy court, but it is intended in general to protect the value of the secured creditor's interest in the collateral and may include cash payments or the granting of additional security if and at such times as the bankruptcy court in its discretion determines that the value of the secured creditor's interest in the collateral is declining during the pendency of the bankruptcy case or for certain other reasons. A bankruptcy court may determine that a secured creditor may not require actual monetary or other compensation for a diminution in the value of its collateral or other adequate protection if the value of the collateral exceeds the debt it secures or for other reasons. Other jurisdictions may provide similar restrictions.

In view of the lack of a precise definition of the term "adequate protection" and the broad discretionary power of a bankruptcy court with respect to what may be adequate protection and in general, it is impossible to predict:

- how long payments, if any, under the notes could be delayed following commencement of a bankruptcy case;
- whether or when the collateral agent could repossess or dispose of the collateral;
- the value of the collateral at the time of the filing of the bankruptcy petition or some other relevant time thereafter; or
- whether or to what extent holders of the notes would be compensated for any loss of value of the collateral through the requirement of "adequate protection" or otherwise.

Any disposition of the collateral by the collateral agent during a bankruptcy case would also require permission from the bankruptcy court. Furthermore, in the event a bankruptcy court determines the value of the collateral is not sufficient to repay all amounts due on first-priority lien debt, the holders of the notes would hold a secured claim only to the extent of the value of the collateral to which the holders of the notes are entitled and unsecured claims with respect to such shortfall or deficiency, unless the holders of the notes were to elect otherwise under section 1111(b) of the bankruptcy code, in which case such holders would not be able to assert any such unsecured deficiency claims but rather would retain their entire secured claim.

Under certain circumstances a court could cancel the notes or the related guarantees and the security interests that secure the notes and any guarantees under fraudulent conveyance laws.

The Issuers' issuance of the notes and the related guarantees may be subject to review under federal or state fraudulent transfer or conveyance law or similar laws. If the Issuers become debtors in a case or cases under the bankruptcy code or encounter other financial difficulties, a court might avoid or cancel their obligations under the notes. The court might do so, if it found that, when the Issuers issued the notes, (i) they received less than reasonably equivalent value or fair consideration and (ii) the Issuers (1) were rendered insolvent, (2) were left with inadequate capital to conduct their respective businesses, (3) believed or reasonably should have believed that they would incur debts beyond their ability to pay or (4) were defendants in an action for money damages or had a judgment form money damages docketed against them (if, in either case, after final judgment the judgment is unsatisfied). The court could also avoid the obligations under the notes, without regard to factors (i) and (ii), if it found that the Issuers issued the notes with actual intent to hinder, delay or defraud the Issuers' creditors.

Similarly, if one of the Guarantors becomes a debtor in a case under the bankruptcy code or encounters other financial difficulty, a court might avoid or cancel its guarantee if it finds that when such guarantor issued its guarantee (or in some jurisdictions, when payments became due under the guarantee), factors (i) and (ii) above applied to such guarantor, such guarantor was a defendant in an action for money damages or had a judgment for money damages docketed against it (if, in either case, after final judgment the judgment is unsatisfied), or without regard to factors (i) and (ii), if it found that such Guarantor issued its guarantee with actual intent to hinder, delay or defraud its creditors.

In addition, a court could avoid or undo any payment by the Issuers or any Guarantor pursuant to the notes or a guarantee or any realization on the pledge of assets securing the notes or the guarantees, and require the disgorgement and return to the Issuers or Guarantor of any payment or the return of any realized value to the Issuers or the Guarantor, as each case may be, or to a fund for the benefit of the creditors of the Issuers or the Guarantors. In addition, under inappropriate circumstances, a court could subordinate rather than avoid obligations under the notes, the guarantees or the pledges, and in that event, the guarantees would be subordinated (including structurally) to all of that Guarantor's other debt. If the court were to avoid, cancel or subordinate any guarantee, funds may not be available to pay the notes from another guarantor or from any other source.

The test for determining solvency for purposes of the foregoing and below will vary depending on the law of the jurisdiction being applied. In general, a court would consider an entity insolvent either if the sum of its existing debts exceeds the fair value of all of its property, or its assets' present fair saleable value is less than the amount required to pay the probable liability on its existing debts as they become due. For this analysis, "debts" includes contingent and unliquidated debts. A court could also find that an entity was insolvent if it (i) was engaged in business or a transaction, or was about to engaged in business or a transaction, with unreasonably small capital, (ii) it intended to incur, or believed that it would incur, debts beyond its ability to pay as such debts matured or (iii) it could not pay its debts as they became due.

The Indenture limits the liability of each Guarantor on its guarantee to the maximum amount that such Guarantor can incur without risk that its guarantee will be subject to avoidance as a fraudulent transfer. This limitation will not necessarily protect such guarantees from fraudulent transfer challenges or, if it does, that the remaining amount due and collectible under the guarantees would suffice, if necessary, to pay the notes in full when due. It is not clear, however, whether those limits would ultimately be adhered to or otherwise enforceable.

If a court avoided the Issuers' obligations under the notes and the obligations of all of the Guarantors under their guarantees, you could cease to be the Issuers' creditor or creditor of the Guarantors and would likely have no source from which to recover amounts due under the notes. Even if the guarantee of a Guarantor is not avoided as a fraudulent transfer, a court may subordinate the guarantee to that Guarantor's other debt, and in that event, the guarantees would be subordinated (including structurally) to all of that Guarantor's other debt.

Any future pledge of collateral might be avoidable in bankruptcy.

Any future pledge of collateral in favor of the collateral agent, including pursuant to security documents delivered after the date of the Indenture and/or perfection of such or any other pledge of collateral, might be avoidable by the pledgor (as debtor in possession) or by a trustee in bankruptcy if certain events or circumstances exist or occur, including, among others, if the pledgor is insolvent at the time of the pledge, the pledge permits the holders of the notes to receive a greater recovery than if the pledge had not been given and a bankruptcy proceeding in respect of the pledgor is commenced within 90 days following the pledge, or, in certain circumstances, a longer period, and certain defenses are not applicable.

The collateral is subject to casualty risks.

Although we maintain insurance policies to insure against losses, there are certain losses that may be either uninsurable or not economically insurable, in whole or in part. As a result, it is possible that the insurance proceeds will not compensate us fully for our losses in the event of a catastrophic loss. If there is a total or partial loss of any of the pledged collateral, we cannot assure you that any insurance proceeds received by us will be sufficient to satisfy all the secured obligations, including the notes.

There is no established trading market for the notes and there is no guarantee that an active trading market for the notes will develop. You may not be able to sell the notes readily or at all or at or above the price that you paid.

Currently there is no established trading market for the notes. We do not intend to apply for the notes to be listed on any securities exchange or to arrange for quotation on any automated dealer quotation system. You may not be able to sell your notes at a particular time or at favorable prices. As a result, any trading market for the notes may not be liquid. Accordingly, you may be required to bear the financial risk of your investment in the notes indefinitely. If a trading market were to develop, future trading prices of the notes may be volatile and will depend on many factors, including:

- the number of holders of notes;
- prevailing interest rates;

- our operating performance and financial condition;
- the interest of securities dealers in making a market for them; and
- the market for similar securities.

Historically, the market for non-investment grade debt has been subject to severe disruptions that have caused substantial volatility in the prices of securities similar to the notes. The market for the notes, if any, may be subject to similar disruptions that could adversely affect the liquidity in that market or their value. In addition, subsequent to their initial issuance, the notes may trade at a discount from their initial offering price, depending upon prevailing interest rates, the market for similar notes, our performance and other factors.

A lowering or withdrawal of the ratings assigned to our debt securities by rating agencies or change in the rating agencies' outlook towards us may increase our future borrowing costs and reduce our access to capital.

Our debt currently has a non-investment grade rating, and any rating assigned could be lowered or withdrawn entirely by a rating agency if, in that rating agency's judgment, future circumstances relating to the basis of the rating, such as adverse changes, so warrant. Consequently, real or anticipated changes in our credit ratings will generally affect the market value of the notes. Credit ratings are not recommendations to purchase, hold or sell the notes. Additionally, credit ratings may not reflect the potential effect of risks relating to the structure or marketability of the notes.

Any future lowering of our ratings or change in the rating agencies' outlook towards us likely would make it more difficult or more expensive for us to obtain additional debt financing. If any credit rating initially assigned to the notes is subsequently lowered or withdrawn for any reason, you may not be able to resell your notes without a substantial discount.

Many of the covenants in the Indenture do not apply while the notes are rated investment grade by Moody's and Standard & Poor's.

Many of the covenants in the Indenture do not apply to the Issuers if the notes are rated investment grade by both Moody's and Standard & Poor's, provided at such time no default or event of default has occurred and is continuing. These covenants restrict, among other things, our ability to pay distributions, incur debt and to enter into certain other transactions. There can be no assurance that the notes will ever be rated investment grade, or that if they are rated investment grade, that the notes will maintain these ratings. However, suspension of these covenants would allow the Issuers to engage in certain transactions that would not be permitted while these covenants are in force. To the extent the covenants are subsequently reinstated, any such actions taken while the covenants were suspended would not result in an event of default under the Indenture. See "Description of the Exchange Notes—Certain Covenants."

The interests of our controlling shareholder may be in conflict with the interests of noteholders.

Bain Capital, our controlling stockholder, owns 90% of the our ordinary shares and has the ability to elect a majority of the board of directors and generally to determine our corporate and management policies relating to fundamental corporate actions. Circumstances may occur in which the interests of Bain Capital, as our shareholder, could be in conflict with the interests of the holders of the notes.

Risks Related to the Exchange Offer

Holders who fail to exchange their Original Notes will continue to be subject to restrictions on transfer.

If you do not exchange your Original Notes for Exchange Notes in the exchange offer, you will continue to be subject to the restrictions on transfer of your Original Notes described in the legend on the certificates for your Original Notes. The restrictions on transfer of your Original Notes arise because we issued the Original Notes under exemptions from, or in transactions not subject to, the registration requirements of the Securities Act and applicable state securities laws. In general, you may only offer or sell the Original Notes if they are registered under the Securities Act and applicable state securities laws, or are offered and sold under an exemption from these requirements. Subject to limited exceptions, we do not plan to register the Original Notes under the Securities Act or any state securities laws. In addition, if a large number of Original Notes are exchanged for Exchange Notes and there is only small amount of Original Notes outstanding, there may not be an active market in the Original Notes, which may adversely affect the market price and liquidity of the Original Notes. For further information regarding the consequences of tendering or not tendering your Original Notes in the exchange offer, see the discussions below under the captions "Description of the Exchange Offer—Consequences of Exchanging or Failing to Exchange Original Notes" and "Certain U.S. Federal Income Tax Considerations."

You must comply with the exchange offer procedures in order to receive new, registered Exchange Notes.

Delivery of Exchange Notes in exchange for Original Notes tendered and accepted for exchange pursuant to the exchange offer will be made only after timely receipt by the exchange agent of the following:

- certificates for Original Notes or a book-entry confirmation of a book-entry transfer of Original Notes into the Exchange Agent's account at DTC, New York, New York as depository, including an agent's message (as defined herein) if the tendering holder does not deliver a letter of transmittal;
- a completed and signed letter of transmittal (or facsimile thereof), with any required signature guarantees, or an agent's message in lieu of the letter of transmittal; and
- any other documents required by the letter of transmittal.

Therefore, holders of Original Notes who would like to tender Original Notes in exchange for Exchange Notes should be sure to allow enough time for the Original Notes to be delivered on time. We are not required to notify you of defects or irregularities in tenders of Original Notes for exchange. Original Notes that are not tendered or that are tendered but we do not accept for exchange will, following consummation of the exchange offer, continue to be subject to the existing transfer restrictions under the Securities Act and, upon consummation of the exchange offer, certain registration and other rights under the registration rights agreement will terminate. See "Description of the Exchange Offer—Procedures for Tendering Original Notes" and "Description of the Exchange Offer—Consequences of Exchanging or Failing to Exchange Original Notes."

You may not be able to resell Exchange Notes you receive in the exchange offer without registering those Exchange Notes or delivering a prospectus.

Based on interpretations by the staff of the SEC in no-action letters issued to third parties, we believe, with respect to Exchange Notes issued in the exchange offer, that:

- holders who are not "affiliates" of ours within the meaning of Rule 405 of the Securities Act;
- holders who acquire their Exchange Notes in the ordinary course of business; and
- holders who do not engage in, intend to engage in, or have arrangements to participate in a distribution (within the meaning of the Securities Act) of the Exchange Notes

do not have to comply with the registration and prospectus delivery requirements of the Securities Act.

Holders described in the preceding sentence must tell us in writing at our request that they meet these criteria. Holders that do not meet these criteria could not rely on interpretations of the staff of the SEC in no-action letters, and would have to register the notes they receive in the exchange offer and deliver a prospectus for them. In addition, holders that are broker-dealers may be deemed "underwriters" within the meaning of the Securities Act in connection with any resale of notes acquired in the exchange offer. Holders that are broker-dealers must acknowledge that they acquired their outstanding notes in market-making activities or other trading activities and must deliver a prospectus when they resell the notes they acquire in the exchange offer in order not to be deemed an underwriter.

Risks Related to Our Business

Conditions in the global economy and capital markets may adversely affect our results of operations, financial condition and cash flows.

Our products are sold in markets that are sensitive to changes in general economic conditions, such as sales of automotive and construction products. Downturns in general economic conditions can cause fluctuations in demand for our products, product prices, volumes and margins. A decline in the demand for our products or a shift to lower-margin products due to deteriorating economic conditions could adversely affect sales of our products and our profitability and could also result in impairments of certain of our assets.

Our business and operating results were severely affected by the global recession beginning in 2008. We continue to be impacted by turbulence in the credit markets, dislocations in the housing and commercial real estate markets, fluctuating commodity prices, volatile exchange rates and other challenges currently affecting the global economy and our customers. Instability in financial and commodity markets throughout the world has caused, among other things, severely diminished liquidity and credit availability, rating downgrades of certain investments and declining valuations and pricing volatility of others, volatile energy and raw materials costs, geopolitical issues and failure and the potential failure of major financial institutions. In addition, the on-going sovereign debt crisis affecting various countries in the European Union is creating further uncertainties in the global credit markets. Deterioration in the financial and credit market heightens the risk of customer bankruptcies and delay in payment. We are unable to predict the duration of the current economic conditions or their effects on financial markets, our business and results of operations. If economic conditions further deteriorate, our results of operations, financial condition and cash flows could be materially adversely affected.

Volatility in the cost of the raw materials utilized for our products or disruption in the supply of the raw materials may adversely affect our financial condition and results of operations.

Our results of operations can be directly affected positively and negatively by volatility in the cost of our raw materials, which are subject to global supply and demand and other factors beyond our control. Our principal raw materials (benzene, ethylene, butadiene, bisphenol A ("BPA") and styrene) together represent approximately 60 % of our total cost of goods sold. Volatility in the cost of these raw materials makes it more challenging to manage pricing and pass the increases on to our customers in a timely manner. We believe that rapid changes in pricing also can affect the volume our customers consume. As a result, our gross profit and margins could be adversely affected.

Styrene, a principal raw material purchased and produced by us, is used in the production of polystyrene, ABS, SAN, SB latex and our rubber products and, like its principal raw materials, ethylene and benzene, is subject to a volatile market. The wider the styrene to benzene and ethylene spread, with styrene more than benzene and ethylene, the more profitable it is to produce styrene. Currently, the market is experiencing a favorable spread but that condition is subject to fluctuations.

Crude oil prices also impact our raw material costs. Generally, higher crude oil prices lead to higher costs of raw materials, although some raw materials are impacted less than others.

Market volatility also impacts our accounting for our inventories. We use either our cost to us or market price, whichever is lower, with cost being determined on the first-in, first-out ("FIFO") method. As a result, in periods of rapidly declining cost of inventories, the FIFO impact on our reported earnings may be negative. Similarly, in periods of rapidly increasing cost of inventories, the effects of the FIFO method could skew our results of operations, causing them to appear more positive than the actual results.

If the availability of any of our principal raw materials is limited, we may be unable to produce some of our products in the quantities demanded by our customers, which could have an adverse effect on plant utilization and our sales of products requiring such raw materials.

For example, in 2012, the North American market was structurally short of butadiene and relied on imports of crude C4 (unpurified butadiene) and/or butadiene to balance demand. Historically, the European market has had excess supply and provided exports to North America. In all regions, in the first and second quarter of 2013, butadiene demand has continued to decline and the market is long. The current trend could be reversed with increases in rubber demand.

Suppliers may have temporary limitations preventing them from meeting our butadiene requirements, and we may not be able to obtain substitute supplies of butadiene from alternative suppliers in a timely manner or on favorable terms. The quantity of butadiene available in any one region is dependent on the raw material inputs and operating rates of the ethylene crackers. Raw material inputs to the crackers (either ethane or naphtha) depend on the flexibility of the cracker to use various feeds and the economics of the available raw materials.

In June 2010, we entered into long-term supply agreements (5 to 10 years) with Dow for ethylene, benzene, butadiene, BPA and other raw materials amounting to approximately 45% to 50% of our raw materials (based on aggregate purchase price). The remainder is purchased via other third-party suppliers on a global basis. As our Dow contracts and other third party contracts expire, we may be unable to renew these contracts or obtain new long-term supply agreements on terms comparable or favorable to us, depending on market conditions, which may significantly impact our operations.

In addition, many of our long-term contracts contain provisions that allow our suppliers to limit the amount of raw materials shipped to us below the contracted amount in force majeure circumstances. If we are required to obtain alternate sources for raw materials because Dow or any other supplier is unwilling or unable to perform under raw material supply agreements or if a supplier terminates its agreements with us, we may not be able to obtain these raw materials from alternative suppliers in a timely manner or be able to enter into long-term supply agreements on terms comparable or favorable to us.

Our end-use markets are highly competitive, and we may lose market share to other producers of styrene-based chemical products or to producers of other products that can be substituted for our products.

Our industry is highly competitive and we face significant competition from large international producers, as well as from smaller regional competitors. Our most significant competitors include BASF, Nippon Zeon, LG Chemicals, Wacker Chemie AG, Bayer Lanxess AG, SABIC, Styrolution, Total and Versalis. Competition is based on a number of factors, such as product quality, service and price. Our competitors may improve their competitive position in our core end-use markets by successfully introducing new products, improving their manufacturing processes or expanding their capacity or manufacturing facilities. In addition, while we benefit from the decline of the Butadiene price, the price of Styrene, one of our principal SB latex raw materials, is still on the rise, which may enable other latex manufacturers who, like us, are offering products made with different chemistries using less expensive raw materials altogether, including VAM-based latex and natural binders, to improve their position. The long-term impact of the competition from these products, in particular relative to natural binders, is unclear. Some of our competitors may be able to drive down prices for our products if their costs are lower than our costs. Some of our competitors' financial, technological and other resources may be greater than our resources and such competitors may be better able to withstand changes in market condition. Our

competitors may be able to respond more quickly than we can to new or emerging technologies or changes in customer requirements. If we are unable to keep pace with our competitors' product and manufacturing process innovations, our financial condition and results of operations could be materially adversely affected.

Competition between styrene-based chemical products and other products within the end-use markets in which we compete is intense. In addition, at one stage, vinyl-based systems did emerge as competitive products, particularly in the carpet backing market in North America and had an unfavorable impact at first, which has been substantially reversed due to SB latex performance and decreased Butadiene cost and increased availability. Increased competition from existing or newly developed products may reduce demand for our products in the future and our customers may decide on alternate sources to meet their requirements.

In addition, consolidation of our competitors or customers may result in reduced demand for our products or make it more difficult for us to compete with our competitors. If we are unable to successfully compete with other producers of styrene-based chemical products or if other products can be successfully substituted for our products, our sales may decline.

We may be unable to achieve, or may be delayed in achieving our estimates and projections regarding our Schkopau addition, product development pipeline and cost-saving measures.

Compliance with extensive environmental, health and safety laws may require material expenditures.

We use large quantities of hazardous substances and generate hazardous wastes in our manufacturing operations. Consequently, our operations are subject to extensive environmental, health and safety laws and regulations at both the national and local level in multiple jurisdictions. Many of these laws and regulations have become more stringent over time and the costs of compliance with these requirements may increase, including costs associated with any capital investments for pollution control facilities. For example, in the United States, the U.S. Environmental Protection Agency ("EPA") has moved forward on requirements for new air emission regulations covering greenhouse gas emissions which have not yet been sanctioned by Congress. European plants that manufacture "organic commodity chemicals" with a capacity of over 100 metric tons per day are now required to participate in the European Trading Scheme for Greenhouse gases, and the German greenhouse gas trading program may be costly to implement at certain German facilities. In addition, our production facilities require operating permits that are subject to periodic renewal and, in circumstances of noncompliance, may be subject to revocation. The necessary permits may not be issued or continue in effect, and any issued permits may contain more stringent limitations on our operations.

Compliance with more stringent environmental requirements would likely increase our costs of transportation and storage of raw materials and finished products, as well as the costs of storage and disposal of wastes. Additionally, we may incur substantial costs, including penalties, fines, damages, criminal or civil sanctions and remediation costs, or experience interruptions in our operations for failure to comply with these laws or permit requirements.

Adoption of Complex Health Care Legislation and Related Regulations and Financial Reform Could Increase our Operating Costs and Adversely Affect Our Results of Operations.

The adoption of the Patient Protection and Affordable Care Act and the regulations resulting from such legislation could increase the costs of providing health care to our employees as well as cause us to incur additional administrative costs to comply with certain provisions of this legislation. We are unable to predict the amount and timing of any such increased costs or to what extent we may need to divert other resources to comply with various provisions of this legislation. Additionally, the Dodd-Frank Wall Street Reform and Consumer Protection Act could result in increased costs to us either as a result of our efforts to comply with the corporate governance provisions which may be applicable to us or due to the impact of such legislation on the derivative contracts or other financial instruments or financial markets that we may utilize in the normal course of our business.

Regulatory and statutory changes applicable to our raw materials and products and our customers' products could require material expenditures, changes in our operations and adversely affect our financial condition and results of operations.

Changes in environmental, health and safety regulations, in jurisdictions where we manufacture and sell our products, could lead to a decrease in demand for our products. In addition to changes in regulations, health and safety concerns could increase the costs incurred by our customers to use our products and otherwise limit the use of these products, which could lead to decreased demand for these products. Such a decrease in demand likely would have an adverse effect on our business and results of operation. Materials such as acrylonitrile, ethylbenzene, styrene, butadiene, BPA and halogenated flame retardant are used in the manufacturing of our products and have come under increased regulatory scrutiny due to potentially significant or perceived health and safety concerns.

Our products are also used in a variety of end-uses that have specific regulatory requirements such as those relating to products that have contact with food or medical end-uses. We and many of the applications for the products in the end-use markets in which we sell our products are regulated by various national and local rules, laws and regulations. Changes in regulations could result in additional compliance costs, seizures, confiscations, recall or monetary fines, any of which could prevent or inhibit the development, distribution and sale of our products. Changes in environmental and safety laws and regulations banning or restricting the use of these residual materials in our products, or our customers' products, could adversely affect our results of operations and adversely affect our financial condition. Failure to appropriately manage safety, human health, product liability and environmental risks associated with our products, product life cycles and production processes could adversely impact employees, communities, stakeholders, our reputation and the results of our operations.

Ethylbenzene, Butadiene and Acrylonitrile : By way of example, occupational exposure limits and chemical control regulations are in place or are being considered in many countries for ethylbenzene and acrylonitrile, two raw materials used extensively in our operations. Furthermore, on January 14, 2011, the European Commission enacted EU Regulation 10/2011, which effectively reduced the allowable amount of acrylonitrile which is permitted to migrate out of food contact products. We have been working with our customers to ensure compliance with this regulation.

Styrene : In 2011, the NTP ("National Toxicology Program"), a body within the U.S. HHS (Department of Health and Human Services), reclassified styrene as "reasonably anticipated to be a human carcinogen" in its 12th Report on Carcinogens ("ROC"). The industry believes that this re-classification is not supported by scientific data, and challenged the re-classification in a lawsuit which upheld the listing on procedural grounds. Although the NTP listing is informational and not a regulatory action, it did trigger the need to provide the reclassification information on safety data sheets for a few of our products (which are not our standard commercial grades). Our trade association SIRC continues to actively advocate, including urging postponement of legislative action on styrene until the completion of the National Academy of Sciences' peer review scientific study of the NTP decision on styrene (anticipated, 2014). The industry continues to educate the public and we continue to educate our customers about the safety of styrene, including reference to scientific studies such as a study of 16,000 styrene exposed workers which found no credible evidence of an increased risk of cancers (*Epidemiology* March 2013).

In November 2012, the Risk Assessment Committee ("RAC") of the European Chemicals Agency ("ECHA") suggested that styrene should be classified as:

- Category 1 for specific target organ toxicity following repeated exposure (STOT RE 1). The accompanying recommended hazard statement is H372 "Causes damage to hearing organs through prolonged or repeated exposure via inhalation"; and
- Category 2 for reproductive toxicity accompanied by hazard statement H361d "Suspected of damaging the unborn child".

An assessment by the styrenics industry of available scientific data concluded that a classification as a reproductive toxin is scientifically unjustified. However, the styrenics industry supports the STOT RE 1 classification, which was proposed by the industry in the REACH Registration dossier for styrene in October 2010. We have not seen any business impact to date for the following reasons: (1) The concentrations of styrene monomer to which our employees could be exposed are orders of magnitude lower than the levels set by regulatory bodies. End-use applications would typically present an even lower potential exposure. (2) We are reassuring our customers that our products can continue to be used in making a wide range of products, in line with current best practices, safety laws and regulations, and existing occupational exposure limits. (3) It is our view that there are no simple substitutes for our products that can deliver the same performance, quality, safety and cost effectiveness as the current set of products customers buy from us. Nevertheless, there is a risk that our customers could move away from styrenics products due to the NTP reclassification, other initiatives and adverse public opinion. Styrene monomer, like butadiene and acrylonitrile, are considered residual materials that could potentially migrate out of the product.

BPA : Bisphenol A ("BPA") is a monomer that we use in the production of polycarbonate, which some consider an endocrine disruptor. BPA is receiving high visibility in the media, subjecting other companies to class action litigation and has resulted in customer and consumer deselection of materials particularly in food contact applications such as baby bottles, sippy cups, toys and water bottles, as well as legislative initiatives banning its use. For example, on October 5, 2011, California enacted a law to ban BPA in baby bottles and infant sippy cups, and, in July 2012, the U.S. Food and Drug Administration ("FDA") banned BPA in baby bottles and sippy cups after the American Chemistry Council petitioned the FDA to revise its regulations to provide clarification for consumers that BPA is no longer used to manufacture baby bottles and sippy cups and will not be used in these products in the future. The FDA is currently conducting additional studies to address uncertainties in the findings of studies about the potential effect of BPA on the brain, behavior, fetuses, infants, and children. In June 2013, the U.S. FDA updated its website about the safety of BPA: "Based on FDA's ongoing safety review of scientific evidence, the available information continues to support the safety of BPA for the currently approved uses in food containers and packaging."

In July, the German risk authority, Bundesinstitut fur Risikobewertung ("BfR") issued a new statement on BPA: "So far no detrimental health effects of low doses of bisphenol A have reliably been identified which would call into question existing assessments."

ECHA included BPA on its list of chemicals to be fully evaluated for health and environmental risks under Registration, Evaluation and Authorization of Chemicals ("REACH") although a prior assessment concluded that there was no need for further assessment or precautionary measures.

On April 19, 2013 BPA (at a threshold level much higher than BPA typically present in our products) was withdrawn from the State of California's proposed additions to the Proposition 65 list as a result of a court decision granting a motion for preliminary injunction filed by the American Chemistry Council ("ACC"). The court will next decide whether to grant a permanent injunction, after hearing the case on the merits. The U.S. government has been funding a number of comprehensive studies to resolve questions about the safety of BPA. The studies that have been completed so far have all confirmed the safety of BPA (at the typical levels of human exposure).

Notwithstanding the EU's desire to avoid individual country bans that conflict with the European Union's scientific agency, The European Food Safety Authority ("EFSA")'s conclusion that consumers are not at risk from exposure to BPA in food; France, Sweden and Belgium have approved contrary legislation. Sweden and Belgium plan to ban BPA in food packaging marketed to children under 3 years old and France enacted a more sweeping law. France plans to enforce a health warning regarding the use of BPA-based food packaging for breastfeeding and pregnant women and children up to the age of three years. The French Government intends to extend an existing ban on use of BPA in baby bottles to cover the manufacture, importation, exportation and placing on the market of any food packaging containing BPA beginning on January 1, 2015. This action by

France is contrary to the positions of EU authorities, as well as EU and WTO trade rules. As a result, in March 2013, the EU plastics trade association filed a complaint with the EU Commission, which is pending. The EU Commission has stated its intention to await the issuance of an updated study by EFSA prior to reaching a decision on the French ban. EFSA announced in July that this study will include both food and nonfood sources and will be released in 2014. Industry trade associations continue to actively address this issue through political advocacy, media relations, legal action, and scientific and regulatory activities.

We do not see any quantifiable business impact from these developments at this point, for several reasons. (1) We are reassuring our customers that our products can continue to be used in making a wide range of products, in line with current best practices, safety laws and regulations. (2) The concentrations of BPA to which consumers could be exposed are orders of magnitude lower than the levels set by regulatory bodies, and BPA is rapidly broken down and eliminated from the body. (3) We do not see any quantifiable business impact from these developments at this point, as we do not sell any significant volumes of polycarbonate or PC blends into food-contact applications. Additional regulation of residual levels of BPA in appliances, medical devices and other products could arise in the future which could significantly impact our plastics business.

Hexabromocyclododecane ("HBCD") : HBCD, a halogenated flame retardant, was banned by REACH commencing in the year 2015. In anticipation of that event, alternative flame retardants have been identified and suppliers are now introducing these products in semi-commercial quantities. We plan to convert to a new flame retardant in 2014.

There is no assurance that we will be able to renew all necessary licenses, certificates, approvals and permits for our operation.

Our operation is subject to various licenses, certificates, approvals and permits in different foreign jurisdictions. There is no assurance that we will be able to renew our licenses, certificates, approvals and permits upon their expiration. The eligibility criteria for such license, certificates, approvals and permits may change from time to time and may become more stringent. In addition, new requirements for licenses, certificates, approvals and permits my come into effect in the future. The introduction of any new and/or more stringent laws, regulation, licenses, certificates, approvals and permits requirements relevant to our business operations may significantly escalate our compliance and maintenance costs or may preclude us to continue with our existing operation or may limit or prohibit us from expanding our business. Any such event may have an adverse effect to our business, financial results and future prospects.

Failure to maintain an effective system of internal control could adversely impact our ability to both timely and accurately report our financial results.

We establish and maintain internal controls necessary to provide reliable financial results and to assist in the effective prevention of fraud. We have experienced material weaknesses in our internal controls in prior years caused by inadequate internal staffing and skills and inadequate controls over our quarter-end closing processes. We have remediated the deficiencies causing our prior material weaknesses as of December 31, 2012, however, we cannot assure you that the measures we have taken to date, or any measures we may take in the future, will be sufficient to avoid potential future material weaknesses.

In addition, as a reporting company under the Exchange Act, our management will be required to conduct an annual evaluation of our internal controls over financial reporting and include a report of management on our internal controls in our annual reports on Form 10-K. Under current rules, we will be subject to these requirements beginning with our annual report on Form 10-K for the year ending December 31, 2014. If we are unable to conclude that we have maintained effective internal controls over financial reporting investors could lose confidence in the reliability of our financial statements, which could result in a decrease in the market price of the notes.

Our independent auditors are not currently required to formally attest to the effectiveness of our internal controls over financial reporting. However, this will change if we complete an initial public offering. If it is required to do so, our independent registered public accounting firm may issue a report that is adverse in the event that we have not maintained the effectiveness of our internal controls over financial reporting.

Dow provides significant operating and other services, and certain raw materials used in the production of our products, under agreements that are important to our business. The failure of Dow to perform their obligations, or the termination of these agreements, could adversely affect our operations.

Prior to June 17, 2010, we were operated by Dow. Dow has provided and continues to provide services under certain agreements that are important to our business. We are a party to:

- an outsourcing service agreement pursuant to which Dow provides certain administrative and business services to us for our operations;
- supply and sales agreements pursuant to which Dow, among other things, provides us with raw materials, including ethylene, benzene, butadiene and BPA;
- a contract manufacturing agreement pursuant to which Dow operates and maintains one of its Freeport, Texas facilities to produce PC products for us; and
- an operating services agreement pursuant to which Dow will operate and maintain certain of our facilities at Rheinmuenster, Germany as well as employ and provide almost all of the staff for this facility.

Under the terms of the above agreements, either party is permitted to terminate the applicable agreement in a variety of situations. Should Dow fail to provide these services or raw materials, or should any of the above agreements be terminated, we would be forced to obtain these services and raw materials from third parties or provide them ourselves. Additionally, if Dow terminates agreements pursuant to which we are obligated to provide certain services, we may lose the fees received by us under these agreements. From time to time, as part of our ongoing business operations, we discuss potential changes in the terms of our various agreements with Dow based upon changes in market conditions or other factors. Any agreed changes to any of these contractual arrangements are not binding until the execution of formal documentation. The failure of Dow to perform its obligations under, or the termination of, any of these contracts could adversely affect our operations and, depending on market conditions at the time of any such termination, we may not be able to enter into substitute arrangements in a timely manner, or on terms as favorable to us.

Under certain of these agreements, we are required to indemnify Dow in certain circumstances, including for loss and damages resulting from Dow’s negligence in performing their obligations, subject to certain limitations.

In connection with the Acquisition, we acquired ownership of, or in some cases, a worldwide right and license to use, certain patents, patent applications and other intellectual property of Dow that were used by Dow to operate the Styron business segments or held by Dow primarily for the benefit of the Styron business segments, prior to the Acquisition. Generally, we acquired ownership of the intellectual property that was primarily used in the Styron business segments and acquired a license to a more limited set of intellectual property that had broader application within Dow beyond the Styron business segments. Our license from Dow is perpetual, irrevocable, fully paid, and royalty-free. Furthermore, our license from Dow is exclusive within the Styron business segments for certain patents and patent applications that were used by Dow primarily in those Styron business segments prior to the Acquisition, subject to licenses previously granted by Dow, to any current and future requirements of the U.S. Federal Trade Commission and to certain retained rights of Dow, including the right to use patents and patent applications outside the Styron business segments and for internal consumption by Dow. Our license from Dow relates to polymeric compositions, manufacturing processes and end applications for the polymeric compositions; and is limited to use in defined areas corresponding to our current business

segments excluding certain products and end-use application technology retained by Dow. Our ability to develop, manufacture or sell products and technology outside of these defined areas may be impeded by the intellectual property rights that have been retained by Dow, which could adversely affect our business, financial condition and results of operations. Additionally, we may not be able to enforce, and Dow may be unwilling to enforce, this intellectual property that has been retained by Dow where infringement could also impact our business and competitive position.

We may be subject to losses due to lawsuits arising out of environmental damage or personal injuries associated with exposure to chemicals or the release of chemicals.

We face the risk that individuals could seek damages for personal injury due to exposure to chemicals at our facilities, chemicals which have been released from our facilities, chemicals otherwise owned or controlled by us, or chemicals which allegedly migrated from products containing our materials. Legal claims and regulatory actions could subject us to both civil and criminal penalties, which could affect our product sales, reputation and profitability. We may be subject to claims with respect to workplace exposure, workers' compensation and other health and safety matters. There are several properties which we now own on which Dow has been conducting remediation to address historical contamination. Those properties include Allyn's Point, Connecticut; Dalton, Georgia; Livorno, Italy; and Guaruja, Brazil. There are other properties with historical contamination that are owned by Dow that we lease for our operations, including our facility in Midland, Michigan. While we did not assume the liabilities associated with these properties in the U.S., because certain environmental laws can impose liability for contamination on the current owner or operator of a property, even if it did not create the contamination, there is a possibility that a governmental authority or private party could seek to include us in an action or claim for remediation or damages, even though the contamination may have occurred prior to our ownership or occupancy. While Dow has agreed to indemnify us for liability for releases of hazardous materials that occurred prior to our separation from Dow, the indemnity is subject to limitations, and we cannot be certain that Dow will fully honor the indemnity or that the indemnity will be sufficient to satisfy all claims that we may incur. In addition, we face the risk that future claims might fall outside of the scope of the indemnity, particularly if we experience a release of hazardous materials that occurs in the future or at any time after the closing of the Acquisition.

The environmental liabilities at a particular site could increase as a result of, among other things, changes in laws and regulations, modifications to the site's investigation and remediation plans, unanticipated construction problems, identification of additional areas or quantities of contamination, increases in labor, equipment and technology costs, significant changes in the financial condition of Dow or other responsible parties and the outcome of any related legal and administrative proceedings to which we may become a party. Any increase in liability may be outside the scope of the indemnity provided by Dow, resulting in increased costs payable by us. It is not possible for us to reasonably estimate the amount and timing of all future expenditures related to environmental or other contingent matters. Accruals for environmental matters are recorded by us when it is probable that a liability has been incurred and the amount of the liability can be reasonably estimated based on current law and existing technologies.

Our business involves risk of exposure to product liability claims.

Even though we are generally a material supplier rather than a manufacturer of finished goods, the development, manufacture and sales of specialty emulsion polymers and plastics by us involve inherent risk of exposure to product liability claims, product recalls and related adverse publicity. While we attempt to protect ourselves from such claims and exposures in our adherence to standards and specifications and contractual negotiations, there can be no assurance that our efforts in this regard will ultimately protect us from any such claims. A consumer may attempt to seek contribution from us due to a product liability claim brought against them by a consumer, or a consumer may bring a product liability claim directly against us. A product liability claim or judgment against us could result in substantial and unexpected expenditures, affect consumer or customer confidence in our products, and divert management's attention from other responsibilities. A successful

product liability claim or series of claims against us in excess of our insurance coverage payments, for which we are not otherwise indemnified, could have a material adverse effect on our financial condition or results of operations.

Production at our manufacturing facilities could be disrupted for a variety of reasons. Disruptions could expose us to significant losses or liabilities.

The hazards and risks of disruption associated with chemical manufacturing and the related storage and transportation of raw materials, products and wastes exist in our operations and the operations of other occupants with whom we share manufacturing sites. These potential risks of disruption include, but are not necessarily limited to:

- pipeline and storage tank leaks and ruptures;
- explosions and fires;
- inclement weather and natural disasters;
- terrorist attacks;
- failure of mechanical, process safety and pollution control equipment;
- chemical spills and other discharges or releases of toxic or hazardous substances or gases; and
- exposure to toxic chemicals.

These hazards could expose employees, customers, the community and others to toxic chemicals and other hazards, contaminate the environment, damage property, result in personal injury or death, lead to an interruption or suspension of operations, damage our reputation and adversely affect the productivity and profitability of a particular manufacturing facility or us as a whole, and result in the need for remediation, governmental enforcement, regulatory shutdowns, the imposition of government fines and penalties and claims brought by governmental entities or third parties. Legal claims and regulatory actions could subject us to both civil and criminal penalties, which could affect our product sales, reputation and profitability. We have comprehensive environmental, health and safety compliance and management systems to prevent potential risks and emergency response and crisis management plans in place to mitigate potential risks.

If disruptions occur, alternative facilities with sufficient capacity or capabilities may not be available, may cost substantially more or may take a significant time to start production. Each of these scenarios could negatively affect our business and financial performance. If one of our key manufacturing facilities is unable to produce our products for an extended period of time, our sales may be reduced by the shortfall caused by the disruption and we may not be able to meet our customers' needs, which could cause them to seek other suppliers. Furthermore, to the extent a production disruption occurs at a manufacturing facility that has been operating at or near full capacity, the resulting shortage of our product could be particularly harmful because production at the manufacturing facility may not be able to reach levels achieved prior to the disruption.

Although we maintain property, business interruption, comprehensive general liability, environmental impairment liability and other insurance of the types and in the amounts that we believe are customary for the industry, we may not be fully insured against all potential causes of disruption due to limitations and exclusions in our policies. While the hazards associated with chemical manufacturing have not resulted in incidents that have significantly disrupted our operations or exposed us to significant losses or liabilities since the Acquisition, there can be no assurances we will not suffer such losses in the future.

Any increase in the cost of natural gas or electricity may adversely affect our results of operations.

We use natural gas and electricity to operate our facilities and generate heat and steam for our various manufacturing processes. Natural gas prices have experienced significant volatility in the past several years.

Wide fluctuations in natural gas prices may result from relatively minor changes in supply and demand, market uncertainty, and other factors, both domestic and foreign, that are beyond our control. In addition, natural gas is often a substitute for petroleum-based energy supplies. Future increases in the price of petroleum (resulting from increased demand, political instability or other factors) may result in significant additional increases in the price of natural gas. In addition, electricity prices are generally affected by increases in the price of petroleum. Any increase in the cost of natural gas or electricity could have a material adverse impact on our financial condition and results of operations.

We are subject to customs, international trade, export control, antitrust, zoning and occupancy and labor and employment laws that could require us to modify our current business practices and incur increased costs.

We are subject to numerous regulations, including customs and international trade laws, export/import control laws, and associated regulations. These laws and regulations limit the countries in which we can do business; the persons or entities with whom we can do business; the products which we can buy or sell; and the terms under which we can do business, including anti-dumping restrictions. In addition, we are subject to antitrust laws and zoning and occupancy laws that regulate manufacturers generally and/or govern the importation, promotion and sale of our products, the operation of factories and warehouse facilities and our relationship with our customers, suppliers and competitors. If any of these laws or regulations were to change or were violated by our management, employees, suppliers, buying agents or trading companies, the costs of certain goods could increase, or we could experience delays in shipments of our goods, be subject to fines or penalties, or suffer reputational harm, which could reduce demand for our products and hurt our business and negatively impact results of operations. In addition, in some areas we benefit from certain trade protections, including anti-dumping protection and the European Union's Authorized Economic Operator program, which provides expedited customs treatment for materials crossing national borders. If we were to lose these protections, our results of operations could be adversely affected.

In addition, changes in statutory minimum wage laws and other laws relating to employee benefits could cause us to incur additional wage and benefits costs, which could negatively impact our profitability.

Legal requirements are frequently changed and subject to interpretation, and we are unable to predict the ultimate cost of compliance with these requirements or their effects on our operations. We may be required to make significant expenditures or modify our business practices to comply with existing or future laws and regulations, which may increase our costs and materially limit our ability to operate our business.

We are dependent on the continued service and recruitment of key executives, the loss of any of whom could adversely affect our business.

Our performance is substantially dependent on the performance of our senior management team, including Christopher D. Pappas, our President and Chief Executive Officer, and John A. Feenan, our Executive Vice President and Chief Financial Officer. We have entered into agreements with each member of our senior management team that restrict their ability to compete with us should they decide to leave our Company. Even though we have entered into these agreements, we cannot be sure that any member of our senior management team will remain with us, or that they will not seek to compete with us in the future. The loss of members of our senior management team or our inability to hire qualified management personnel in a timely manner could impair our ability to execute our business plan and growth strategy, cause us to lose customers and reduce revenue, or lead to employee morale problems and/or the loss of additional key employees.

Fluctuations in currency exchange rates may significantly impact our results of operations and may significantly affect the comparability of our results between financial periods.

Our operations are conducted by subsidiaries in many countries. The results of the operations and the financial position of these subsidiaries are reported in the relevant foreign currencies and then translated into U.S. dollars at the applicable exchange rates for inclusion in our consolidated financial statements. The main currencies to which we are exposed are the Euro, the British pound, Chinese renminbi, Indian rupee, Korean won, Brazilian real and Swedish krona. The exchange rates between these currencies and the U.S. dollar in recent years have fluctuated significantly and may continue to do so in the future. A depreciation of these currencies against the U.S. dollar, in particular the Euro, will decrease the U.S. dollar equivalent of the amounts derived from these operations reported in our consolidated financial statements and an appreciation of these currencies will result in a corresponding increase in such amounts. Because some of our raw material costs are procured on a U.S. dollar rather than on these currencies, depreciation of these currencies may have an adverse effect on our profit margins or our reported results of operations. Conversely, to the extent that we are required to pay for goods or services in foreign currencies, the appreciation of such currencies against the U.S. dollar will tend to negatively impact our results of operations. In addition, currency fluctuations may affect the comparability of our results of operations between financial periods.

We incur currency transaction risk whenever we enter into either a purchase or sale transaction using a currency other than the local currency of the transacting entity. Given the volatility of exchange rates, there can be no assurance that we will be able to effectively manage our currency transaction risks or that any volatility in currency exchange rates will not have a material adverse effect on our financial condition or results of operations.

We generally do not have long-term contracts with our customers, and the loss of customers could adversely affect our sales and profitability.

With some exceptions, our business is based primarily upon individual sales orders with our customers. As such, our customers could cease buying our products from us at any time, for any reason, with little or no recourse. If multiple customers elected not to purchase products from us, our business prospects, financial condition and results of operations could be adversely affected.

If we are not able to continue the technological innovation and successful commercial introduction of new products, our customers may turn to other producers to meet their requirements.

Our industry and the end-use markets into which we sell our products experience periodic technological change and ongoing product improvements.

In addition, our customers may introduce new generations of their own products or require new technological and increased performance specifications that would require us to develop customized products. Innovation or other changes in our customers' product performance requirements may also adversely affect the demand for our products. Our future growth will depend on our ability to gauge the direction of the commercial and technological progress in all key end-use markets, and upon our ability to successfully develop, manufacture and market products in such changing end-use markets. We need to continue to identify, develop and market innovative products on a timely basis to replace existing products in order to maintain our profit margins and our competitive position. We may not be successful in developing new products and technology that successfully compete with such materials, and our customers may not accept any of our new products. If we fail to keep pace with evolving technological innovations or fail to modify our products in response to our customers' needs, then our business, financial condition and results of operations could be adversely affected as a result of reduced sales of our products.

Our business relies on intellectual property and other proprietary information and our failure to protect our rights could harm our competitive advantages with respect to the manufacturing of some of our products.

Our success depends to a significant degree upon our ability to protect and preserve our intellectual property and other proprietary information of our business. However, we may be unable to prevent third parties from using our intellectual property and other proprietary information without our authorization or independently developing intellectual property and other proprietary information that is similar to ours, particularly in those countries where the laws do not protect proprietary rights to the same degree as in the United States. The unauthorized use of our intellectual property and other proprietary information by others could reduce or eliminate any competitive advantage we have developed, cause us to lose sales or otherwise harm our business. If it becomes necessary for us to litigate to protect our proprietary rights, any proceedings could be burdensome and costly, and we may not prevail. In connection with the Acquisition, patents, copyrights and trade secrets of Dow that were used by Dow to operate the Styron business segments, or held by Dow primarily for the benefit of the Styron business segments, prior to the Acquisition were either assigned to us or licensed to us on a worldwide basis, subject to exclusive licenses granted by Dow prior to the Acquisition. Our license from Dow is exclusive within the Styron business segments for certain patents and patent applications that were used by Dow primarily in those Styron business segments prior to the Acquisition and is exclusive with respect to certain patents used for the production of specified foams that have a specified density, subject to licenses previously granted by Dow, to any current and future requirements of the U.S. Federal Trade Commission and to certain retained rights of Dow, including the right to use patents and other intellectual property that we acquired from Dow in the Acquisition outside the Styron business segments and for styrene acrylate latexes sold outside of specified markets and for internal consumption by Dow. Our license from Dow is limited to use in defined areas corresponding to our current business segments excluding certain products and end-use application technology retained by Dow. Our ability to develop, manufacture or sell products and technology outside of these defined areas may be impeded by the intellectual property rights that have been retained by Dow, which may limit our ability to develop new products and enter new markets.

Any patents we own, or that are exclusively licensed to us, that have been issued or will be issued in the future, may not provide us with any competitive advantage and may be challenged by third parties. Our competitors also may attempt to design around our patents or copy or otherwise obtain and use our intellectual property and other proprietary information. Moreover, our competitors may already hold or have applied for patents in the United States or abroad that, if enforced following their issuance, could possibly limit our ability to manufacture or sell one or more of our products in the jurisdictions in which such patents are issued. In general, competitors or other parties may, from time to time, assert issued patents or other intellectual property rights against us. If we are legally determined, at some future date, to infringe or violate the intellectual property rights of another party, we may have to pay damages, stop the infringing use, or attempt to obtain a license of such intellectual property from the owner of such intellectual property. With respect to our pending patent applications, we may not be successful in securing patents for the patent claims we are pursuing. Our failure to secure these patents may limit our ability to protect inventions that these applications were intended to cover. In addition, as our patents expire, or are allowed to lapse, in the coming years, we may face increased competition with consequent erosion of profit margins.

It is our policy to enter into confidentiality agreements with our employees and third parties to protect our unpatented proprietary manufacturing know how, continuing technological innovation, proprietary business information and other trade secrets, but our confidentiality agreements could be breached and may not prevent our manufacturing know how and other trade secrets from being misappropriated by others. Adequate remedies may not be available in the event of an unauthorized use or disclosure of our trade secrets and manufacturing know how. Violations by others of our confidentiality agreements and the loss of employees who have specialized knowledge and expertise could harm our competitive position and cause our sales and operating results to decline as a result of increased competition. In addition, others may obtain knowledge of our trade secrets through independent development or other access by legal means.

We have registered and applied for registration of certain service marks, trademarks and patents, and will continue to evaluate the registration and maintenance of additional service marks, trademarks and patents, as appropriate. The applicable governmental authorities may not approve our pending applications. A failure to obtain, or maintain, trademark registrations and patents in the United States and in other countries could limit our ability to protect and enforce our trademarks and innovations and impede our marketing efforts in those jurisdictions. Moreover, third parties may seek to oppose our applications or otherwise challenge the resulting registrations. In the event that our trademarks or patents are successfully challenged, we could be forced to rebrand our products or lose product differentiations, which could result in loss of brand recognition or customer loyalty and could require us to devote resources to advertising and marketing new brands and the development of new products.

We may be unable to determine when third parties are using our intellectual property rights without our authorization. In addition, we cannot be certain that any intellectual property rights that we have licensed to third parties are being used only as authorized by the applicable license agreement. The undetected or unremedied, unauthorized use of our intellectual property rights or the legitimate development or acquisition of intellectual property related to our industry by third parties could reduce or eliminate any competitive advantage we have as a result of our intellectual property, adversely affecting our financial condition and results of operations.

If we fail to adequately protect our intellectual property and other proprietary information, including our processes, apparatuses, technology, trade secrets, trade names and proprietary manufacturing know how, methods and compounds, through obtaining patent protection and securing trademark registrations and confidentiality agreements of appropriate scope, our competitive advantages over other producers could be materially adversely affected. If we must take legal action to protect, defend or enforce our intellectual property rights, any suits or proceedings could result in significant costs and diversion of our resources and our management's attention. We may not prevail in any such suits or proceedings. A failure to protect, defend or enforce our intellectual property rights could have an adverse effect on our financial condition and results of operations.

Our products may infringe the intellectual property rights of others, which may cause us to incur unexpected costs or prevent us from selling our products.

We continually seek to improve our business processes and develop new products and applications. Many of our competitors have a substantial amount of intellectual property that we must continually monitor to avoid infringement. Although it is our policy and intention not to infringe valid patents, we cannot provide assurances that our processes and products do not and will not infringe issued patents (whether present or future) or other intellectual property rights belonging to others, either in the United States or abroad. From time to time, and where permitted by applicable law, we oppose patent applications that we consider overbroad or otherwise invalid in order to help ensure that we have the necessary freedom to operate fully in our various business lines without the risk of being sued for patent infringement. If, however, patents are subsequently issued on any such applications by other parties, or if patents belonging to others already exist that cover our products, processes or technologies, it is possible that we could possibly be liable for infringement of such patents and we could be required to take remedial or curative actions to continue our manufacturing and sales activities with respect to one or more products that are found to be infringing. We may also be subject to indemnity claims by our licensees arising out of claims of alleged infringement of the patents, trademarks and other intellectual property rights of third parties by such licensees in connection with their use of our products. Intellectual property litigation often is expensive and time-consuming, regardless of the merits of any claim, and our involvement in such litigation could divert our management's attention from operating our business. If we were to discover that any of our processes, technologies or products infringe the valid intellectual property rights of others, we might determine to obtain licenses from the owners of such rights or to substantially re-engineer our products in order to avoid infringement. We may not be able to obtain the necessary licenses on acceptable terms, or at all, or be able to re-engineer our products in a manner that is successful in avoiding infringement. Moreover, if we are sued for infringement and lose, we could be required to pay substantial damages and/or be enjoined from using or selling the infringing products or technology. Any of the foregoing could cause us to incur significant costs and prevent us from selling our products.

The labor and employment laws in many jurisdictions in which we operate are more restrictive than in the United States. Additionally, we have unionized employees in the United States who may stage work stoppages. Our relationship with our employees could deteriorate, which could have an adverse effect on our operations.

As a manufacturing company, we rely on our employees and good relations with our employees to produce our products and maintain our production processes and productivity. Approximately 85% of our employees are employed outside of the United States. In certain of those countries, such as the member states of the European Union, labor and employment laws are more restrictive than in the United States. In many jurisdictions, the laws grant significant job protection to employees, which subject us to employment arrangements that are very similar to collective bargaining agreements.

In addition, as of June 30, 2013, approximately 19% of our employees within the United States are members of a union and subject to a collective bargaining agreement. We are required to consult with and seek the consent or advice of the unions or works' councils that represent our employees for certain of our activities. This requirement could have a significant impact on our flexibility in managing costs and responding to market changes. Furthermore, there can be no assurance that we will be able to negotiate labor agreements with our unionized employees in the future on satisfactory terms. If those employees were to engage in a strike, work stoppage or other slowdown, or if any of our other employees were to become unionized, we could experience a significant disruption of our operations or higher ongoing labor costs, which could have a material adverse effect on our financial condition and results of operations.

As a global business, we are exposed to local business risks in different countries, which could have a material adverse effect on our financial condition or results of operations.

We have significant operations in foreign countries, including manufacturing facilities, research and development facilities, sales personnel and customer support operations. Currently, we operate, or others operate on our behalf, 36 manufacturing plants (which include a total of 84 production units) at 28 sites around the world, including in Brazil, Colombia, Germany, the Netherlands, Belgium, Italy, Finland, Sweden, China, South Korea, Indonesia, Japan and Taiwan, in addition to our operations in the United States. Our offshore operations are subject to risks inherent in doing business in foreign countries, including, but not necessarily limited to:

- new and different legal and regulatory requirements in local jurisdictions;
- uncertainties regarding interpretation and enforcement of laws and regulations;
- variation in political and economic policy of the local governments and social conditions;
- export duties or import quotas;
- domestic and foreign customs and tariffs or other trade barriers;
- potential staffing difficulties and labor disputes;
- managing and obtaining support and distribution for local operations;
- increased costs of transportation or shipping;
- credit risk and financial conditions of local customers and distributors;
- potential difficulties in protecting intellectual property;
- risk of nationalization of private enterprises by foreign governments;
- potential imposition of restrictions on investments;
- potentially adverse tax consequences, including imposition or increase of withholding and other taxes on remittances and other payments by subsidiaries;
- legal restrictions on doing business in or with certain nations, certain parties and/or certain products;

- foreign currency exchange restrictions and fluctuations; and
- local economic, political and social conditions, including the possibility of hyperinflationary conditions and political instability.

We may not be successful in developing and implementing policies and strategies to address the foregoing factors in a timely and effective manner at each location where we do business. Consequently, the occurrence of one or more of the foregoing factors could have a material adverse effect on our international operations or upon our financial condition and results of operations.

Our operations in developing markets could expose us to political, economic and regulatory risks that are greater than those we may face in established markets. Further, our international operations require us to comply with a number of United States and international regulations. For example, we must comply with the Foreign Corrupt Practices Act ("FCPA"), which prohibits companies or their agents and employees from providing anything of value to a foreign official or agent thereof for the purposes of influencing any act or decision of these individuals in their official capacity to help obtain or retain business, direct business to any person or corporate entity or obtain any unfair advantage. We operate in some nations that have experienced significant levels of governmental corruption. Any failure by us to ensure that our employees and agents comply with the FCPA and applicable laws and regulations in foreign jurisdictions could result in substantial civil and criminal penalties or restrictions on our ability to conduct business in certain foreign jurisdictions or reputational damage, and our results of operations and financial condition could be materially and adversely affected.

Our quarterly results of operations are subject to fluctuations due to the seasonality of our business.

Seasonal changes and weather conditions typically affect the construction and building materials end-use markets. In particular, sales volumes for construction and building materials generally rise in the warmer months and generally decline during the colder months of fall and winter. Abnormally cold or wet seasons may cause reduced purchases from our construction and building materials customers and, therefore, adversely affect our financial results. However, because seasonal weather patterns are difficult to predict, we cannot accurately estimate fluctuations in our quarterly construction and building materials sales in any given year. Because of the seasonality of our business, results for any one quarter are not necessarily indicative of the results that may be achieved for any other quarter or for the full fiscal year.

Local insolvency laws may not be as favorable to you as U.S. bankruptcy laws or those of another jurisdiction with which you are familiar.

Trinseo Materials Operating S.C.A., the co-issuer of the notes, is organized under the laws of Luxembourg. Insolvency proceedings with respect to a Luxembourg company may proceed under, and be governed by, Luxembourg insolvency laws. The following is a brief description of certain aspects of insolvency laws in Luxembourg. Under Luxembourg insolvency laws, the following types of proceedings (together referred to as "insolvency proceedings") may be opened against a Luxembourg company to the extent that it has its registered office or centre of main interest in Luxembourg:

- bankruptcy proceedings (*faillite*), the opening of which may be requested by the company, by any of its creditors or by a Luxembourg court of competent jurisdiction. Following such a request, the courts having jurisdiction may open bankruptcy proceedings, if the company (a) is in default of payment (*cessation de paiements*) and (b) has lost its commercial creditworthiness (*ébranlement de crédit*). If the court considers that these conditions are met, it may open bankruptcy proceedings ex officio;
- controlled management proceedings (*gestion contrôlée*), the opening of which may only be requested (i) by the company and not by its creditors and (ii) if the company has lost it commercial creditworthiness (*ébranlement de credit*) or be unable to completely fulfill its obligations; and
- composition proceedings (*concordat préventif de la faillite*), the opening of which may only be requested by the company, to the extent being in financial difficulties, and not by its creditors

themselves, subject to obtaining the consent of the majority of its creditors representing three quarters of the claims that have been accepted by the court.

In addition to these proceedings, the ability of the holders of notes to receive payment on the notes may be affected by a decision of a court to grant a reprieve from payments (*sursis de paiements*) or to put the Luxembourg company into judicial liquidation (*liquidation judiciaire*). The management of such liquidation proceedings will generally follow similar rules as those applicable to bankruptcy proceedings.

The Luxembourg company's liabilities in respect of the notes will, in the event of its liquidation following bankruptcy or judicial liquidation proceedings, rank after the cost of liquidation (including any debt incurred for the purpose of such liquidation) and those of the concerned company's debts that are entitled to priority under Luxembourg law. Preferential debts under Luxembourg law for instance include, among others, certain amounts owed to the Luxembourg Inland Revenue (*Administration des contributions directes*), value-added tax and other taxes and duties owed to the Luxembourg Customs and Excise, social security contributions, and remuneration owed to employees.

During insolvency proceedings, all enforcement measures by unsecured creditors are suspended. The ability of secured creditors to enforce their security interest may also be limited in the event of controlled management proceedings automatically causing the rights of secured creditors to be frozen until a final decision has been taken by the court as to the petition for controlled management, and may be affected thereafter by a reorganization order given by the court. Assets over which a security interest has been granted will in principle not be available for distribution to unsecured creditors (except after enforcement and to the extent a surplus is realized). The Luxembourg law on financial collateral arrangements dated August 5, 2005, as amended (the "Collateral Act 2005") expressly provides that all financial collateral arrangements including enforcement measures are valid and enforceable, save in the case of fraud.

Generally, Luxembourg insolvency laws may also affect transactions entered into or payments made by a Luxembourg company during the pre-bankruptcy hardening period (*periode suspecte*) which is a maximum of six months and ten days preceding the judgment declaring bankruptcy, except that in certain specific situations the court may set the start of the suspect period at an earlier date.

The Collateral Act 2005 provides that with the exception of the provisions of the Luxembourg law of December 8, 2000 on over-indebtedness (which only apply to natural persons), the provisions of Book III, Title XVII of the Luxembourg Civil Code, of Book 1, Title VIII and of Book III of the Luxembourg Commercial Code and national or foreign provisions governing reorganization measures, winding-up proceedings or other similar proceedings and attachments or other measures referred to in article 19(b) of the Collateral Act 2005 are not applicable to financial collateral arrangements (such as Luxembourg pledges over shares, accounts or receivables) and shall not constitute an obstacle to the enforcement and to the performance by the parties of their obligations.

In principle, a bankruptcy order rendered by a Luxembourg court does not result in automatic termination of contracts except for intuitu personae contracts, that is, contracts for which the identity of the company or its solvency were crucial. The contracts, therefore, subsist after the bankruptcy order, although the insolvency receiver may choose to terminate certain contracts. However, as of the date of adjudication of bankruptcy, no interest on any unsecured claim will accrue vis-à-vis the bankruptcy estate. The bankruptcy order provides for a period of time during which creditors must file their claims with the clerk's office of the Luxembourg district court sitting in commercial matters. After having converted all available assets of the company into cash and determined all the company's liabilities, after deduction of the receiver fees, the bankruptcy administration costs and the payment of any other preferred creditors, the insolvency receiver will distribute any remaining proceeds, on a pro rata basis, to the other creditors.

Certain of the guarantors are organized under the laws of one of Luxembourg, Australia, Belgium, Canada, Germany, Hong Kong, Ireland, Italy, Netherlands, Singapore, Sweden, England and Wales and Switzerland, and

their guarantees will be subject to limitations under local law. The insolvency laws of those jurisdictions may not be as favorable to your interests as the laws of the United States or other jurisdictions with which you are familiar. In the event that any one or more of the Issuers, the Guarantors or any other of our subsidiaries experience financial difficulty, it is not possible to predict with certainty in which jurisdiction insolvency or similar proceedings would be commenced or the outcome of such proceedings. Pursuant to the insolvency laws of any of these jurisdictions, your ability to receive payment under the notes may be more limited than would be the case under U.S. bankruptcy laws.

Following this exchange offer, we will incur additional costs and face increased demands on our management.

Following this exchange offer, we will be treated as a public company under certain circumstances and may need to comply with an extensive body of regulations that did not apply to us previously, including provisions of the Sarbanes-Oxley Act and regulations of the SEC. We expect these rules and regulations to increase our legal and financial compliance costs and to make some activities more time-consuming and costly. We will incur incremental costs in order to improve our internal control over financial reporting and comply with Section 404 of the Sarbanes-Oxley Act, including increased auditing and legal fees and costs associated with hiring additional accounting and administrative staff. We will also incur additional costs associated with the reporting requirements set forth in the Indenture. We are currently evaluating and monitoring developments with respect to these rules, and we cannot predict or estimate the amount of additional costs we may incur or the timing of such costs. Furthermore, our management may have increased demands on its time in order to ensure we comply with public company reporting requirements and the compliance requirements of the Sarbanes-Oxley Act, as well as the rules subsequently implemented by the SEC. When we begin to conduct reviews in compliance with the requirements of Section 404 of the Sarbanes-Oxley Act, the outcome may adversely affect us. During the course of our review, we may identify control deficiencies of varying degrees and severity, and we may incur significant costs to remediate those deficiencies or otherwise improve our internal controls.

As a privately held company, we are not subject to the governance and other requirements applicable to a company listed on a national exchange, and the interests of our stockholders may differ from yours.

We are not subject to the same corporate governance requirements, financial reporting practices, internal control audit requirements and similar compliance procedures required of a company with securities listed on a national exchange. Among other things, we do not have any independent directors.

Risks Related to Investment in a Luxembourg Company

Trinseo is a *société anonyme* (public limited liability company) organized under the laws of Luxembourg and Trinseo Materials Operating S.C.A. is a *société en commandite par actions* (partnership limited by shares) organized under the laws of Luxembourg and it may be difficult for you to obtain or enforce judgments against us or our executive officers and directors in the United States.

Trinseo and Trinseo Materials Operating S.C.A. are organized under the laws of the Grand Duchy of Luxembourg. Most of our assets are located outside the United States. Furthermore, some of our directors and officers named in this prospectus reside outside the United States and most of their assets are located outside the United States. As a result, investors may find it difficult to effect service of process within the United States upon us, Trinseo Materials Operating S.C.A. or these persons or to enforce outside the United States judgments obtained against us or these persons in U.S. courts, including judgments in actions predicated upon the civil liability provisions of the U.S. federal securities laws. Likewise, it may also be difficult for an investor to enforce in U.S. courts judgments obtained against us, Trinseo Materials Operating S.C.A. or these persons in courts located in jurisdictions outside the United States, including actions predicated upon the civil liability provisions of the U.S. federal securities laws. It may also be difficult for an investor to bring an original action in a

Luxembourg court predicated upon the civil liability provisions of the U.S. federal securities laws against us, Trinseo Materials Operating S.C.A. or these persons. Luxembourg law, furthermore, does not recognize a shareholder's right to bring a derivative action on our behalf.

As there is no treaty in force on the reciprocal recognition and enforcement of judgments in civil and commercial matters between the United States and the Grand Duchy of Luxembourg other than arbitral awards rendered in civil and commercial matters, courts in Luxembourg will not automatically recognize and enforce a final judgment rendered by a U.S. court. The enforceability in Luxembourg courts of a final judgment entered by U.S. courts will depend upon the conditions set forth in Article 678 et seq. of the Luxembourg New Code of Civil Procedure, which may include the following:

- the judgment of the U.S. court is final and enforceable (*exécutoire*) in the United States;
- the U.S. court had full jurisdiction over the subject matter leading to the judgment (that is, its jurisdiction was in compliance both with Luxembourg private international law rules and with the applicable domestic U.S. federal or state jurisdictional rules);
- the U.S. court has applied to the dispute the law which is designated by the Luxembourg conflict of laws rules or, at least, the order must not contravene the principles underlying those rules;
- the decision of the foreign court must not have been obtained by fraud, but in compliance with the principles of natural justice, the rights of the defendant and its own procedural laws; and
- the decisions and the considerations of the foreign court must not be contrary to Luxembourg international public policy rules or have been given in proceedings of a tax, penal or criminal nature (which would include awards of damages made under civil liabilities provisions of the U.S. federal securities laws, or other laws, to the extent that the same would be classified by Luxembourg courts as being of a penal or punitive nature (for example, fines or punitive damages)) or rendered subsequent to an evasion of Luxembourg law (*fraude à la loi*).

In a judgment of the Luxembourg District Court, dated January 10, 2008, the court differed slightly from the traditional rules for enforcing a judgment described above, and decided that, in order to enforce a foreign judgment in Luxembourg, a Luxembourg judge has to make sure that three conditions are fulfilled: (1) the "indirect" competence of the foreign judge based on the connection of the litigation with such judge, (2) the conformity with international public policy requirements, both substantive and procedural, and (3) the absence of fraud to the law. In the judgment, the court held that the Luxembourg judge does not need to verify that the (substantive) law applied by the foreign judge is the law which would have been applicable according to Luxembourg conflict of law rules. Whether the court's opinion described in this paragraph will develop into the prevailing position of Luxembourg case law cannot be forecast with certainty at this stage, especially considering that in the case at issue the matter was not appealed to the court of appeal.

Further, in the event of any proceedings being brought in a Luxembourg court in respect of a monetary obligation expressed to be payable in a currency other than euros, a Luxembourg court would have power to give judgment expressed as an order to pay a currency other than euros. However, enforcement of the judgment against any party in Luxembourg would be available only in euros and for such purposes all claims or debts would be converted into euros.

Trinseo's directors and officers, past and present, are entitled to indemnification from us to the fullest extent permitted by Luxembourg law against liability and all expenses reasonably incurred or paid by him in connection with any losses or liabilities, claim, action, suit or proceeding in which he is involved by virtue of his being or having been a director or officer and against amounts paid or incurred by him in the settlement thereof, subject to limited exceptions. To the extent allowed by applicable law, the rights and obligations among us and any of our current or former directors and officers will, in principle, be governed by the laws of Luxembourg and subject to the jurisdiction of the Luxembourg courts, unless such rights or obligations do not relate to or arise out of their

capacities as directors or officers. Although there is doubt as to whether U.S. courts would enforce such a provision in an action brought in the United States under U.S. securities laws, such provision could make enforcing judgments obtained outside Luxembourg more difficult to enforce against our assets in Luxembourg or in jurisdictions that would apply Luxembourg law.

USE OF PROCEEDS

This exchange offer is intended to satisfy our obligations under the Registration Rights Agreement entered into in connection with the issuance of the Original Notes. We will not receive any cash proceeds from the issuance of the Exchange Notes under the exchange offer. The form and terms of the Exchange Notes are identical to the form and terms of the Original Notes, except as otherwise described under the heading "Description of the Exchange Offer." The Original Notes properly tendered and exchanged for Exchange Notes will be retired and cancelled. Accordingly, issuance of the Exchange Notes will not result in any change in our capitalization. We have agreed to bear the expense of the exchange offer.

(1) On June 17, 2010, we acquired 100% of the former Styron business from Dow through Trinseo Materials Operating S.C.A., a wholly owned subsidiary, for approximately $1.5 billion plus transaction expenses. The purchase price paid was allocated to the acquired assets and liabilities at fair value. Prior to June 17, 2010, our business was wholly owned by Dow.

(2) Net sales and cost of sales increase or decrease based on fluctuations in raw material prices. Consistent with industry practice and as permitted under agreements with many of our customers, raw material price changes are passed through to customers by means of corresponding price changes. In 2009, raw material prices decreased approximately 23.8% from 2008, leading to a related decrease in selling prices. Prior to June 17, 2010, all inventory sales between the Predecessor and Dow business units are recorded at Dow's internal manufacturing cost.

(3) Included in the Predecessor periods presented are expenses related to planned major maintenance activity or turnaround activities. The Predecessor periods presented represent the financial results of the Styron business prior to the Acquisition and were derived from the consolidated financial statements and accounting records of Dow, which elected the direct expensing method for the treatment of turnaround activities. This included $14.2 million of turnaround activities during the Predecessor period from January 1 through June 16, 2010 and $7.6 million of turnaround activities during the Predecessor period ending December 31, 2009. No turnaround activities were incurred in the Predecessor period ending December 31, 2008. As disclosed in the Company's significant accounting policies, during all Successor periods presented, the Company has elected to capitalize qualified turnaround activities and amortize those costs over the period to the next scheduled turnaround date, consistent with the deferral method of accounting. We incurred $14.1 million, $13.8 million and $1.3 million in turnaround activities during the years ended December 31, 2011, 2012 and the six months ended June 30, 2013, respectively. No such turnaround activities were directly incurred by us in the Successor period ended December 31, 2010.

(4) Goodwill impairment charges of $31.1 million in 2008 relate to an impairment within our Engineered Polymers segment.

(5) Restructuring charges of $42.0 million in 2008 relate to impairment of long-lived assets and related severance charges.

(6) In the Predecessor periods, interest expense was not allocated to the Styron business as no debt was allocated.

(7) For the year ended December 31, 2011, the loss on extinguishment of debt relates to the February 2, 2011 amendment of our Senior Secured Credit Facility. For the six months ended June 30, 2013, the loss on extinguishment of debt relates to the January 2013 amendment of our Senior Secured Credit Facility.

(8) We present EBITDA in this prospectus to provide investors with a supplemental measure of our operating performance. EBITDA is a non-GAAP financial measure. We define EBITDA as net income (loss) before interest, taxes, depreciation and amortization. We believe the use of EBITDA as a metric assists our board of directors, management and investors in comparing our operating performance on a consistent basis because it removes the impact of our capital structure (such as interest expense), asset base (such as depreciation and amortization) and tax structure. The use of EBITDA has

limitations and you should not consider this performance measure in isolation from or as an alternative to measures presented in accordance with U.S. GAAP such as net income (loss). EBITDA is calculated as follows:

Such notice, in the case of any extension, will be issued by means of a press release or other public announcement no later than 9:00 a.m., New York City time, on the next business day after the previously scheduled Expiration Date.

Interest on the Exchange Notes

The Exchange Notes will bear interest at the same rate and on the same terms as the Original Notes. Interest on the Exchange Notes will accrue from the last interest payment date on which interest was paid on the Original Notes prior to consummation of the exchange offer or, if no interest has been paid on the Original Notes, from January 29, 2013, which was the date of initial issuance of the Original Notes. We will deem the right to receive any interest accrued but unpaid on the Original Notes waived by you if we accept your Original Notes for exchange.

Procedures for Tendering Original Notes

The tender to us of Original Notes by you as set forth below and our acceptance of the Original Notes will constitute a binding agreement between us and you upon the terms and subject to the conditions set forth in this prospectus and in the accompanying letter of transmittal. Except as set forth below, to tender Original Notes for exchange pursuant to the exchange offer, you must transmit a properly completed and duly executed letter of transmittal, including all other documents required by such letter of transmittal or, in the case of a book-entry transfer, an agent's message in lieu of such letter of transmittal, to Wilmington Trust, National Association, as exchange agent, at the address set forth below under "—Exchange Agent" on or prior to the Expiration Date. In addition:

- certificates for such Original Notes must be received by the exchange agent along with the letter of transmittal; or
- a timely confirmation of a book-entry transfer (a "book-entry confirmation") of such Original Notes, if such procedure is available, into the exchange agent's account at DTC pursuant to the procedure for

book-entry transfer must be received by the exchange agent, prior to the Expiration Date, with the letter of transmittal or an agent's message in lieu of such letter of transmittal.

The term "agent's message" means a message, transmitted by DTC to and received by the exchange agent and forming a part of a book-entry confirmation, which states that DTC has received an express acknowledgment from the tendering participant stating that such participant has received and agrees to be bound by the letter of transmittal and that we may enforce such letter of transmittal against such participant.

The method of delivery of Original Notes, letters of transmittal and all other required documents is at your election and risk. If such delivery is by mail, it is recommended that you use registered mail, properly insured, with return receipt requested. In all cases, you should allow sufficient time to assure timely delivery. No letter of transmittal or Original Notes should be sent to us.

Signatures on a letter of transmittal or a notice of withdrawal, as the case may be, must be guaranteed unless the Original Notes surrendered for exchange are tendered:

- by a holder of the Original Notes who has not completed the box entitled "Special Issuance Instructions" or "Special Delivery Instructions" on the letter of transmittal; or
- for the account of an eligible institution (as defined below).

In the event that signatures on a letter of transmittal or a notice of withdrawal are required to be guaranteed, such guarantees must be by a firm which is a member of the Securities Transfer Agent Medallion Program, the Stock Exchanges Medallion Program or the New York Stock Exchange Medallion Signature Program (each such entity being hereinafter referred to as an "eligible institution"). If Original Notes are registered in the name of a person other than the signer of the letter of transmittal, the Original Notes surrendered for exchange must be endorsed by, or be accompanied by a written instrument or instruments of transfer or exchange, in satisfactory form as we determine in our sole discretion, duly executed by the registered holders with the signature thereon guaranteed by an eligible institution.

We, in our sole discretion, will make a final and binding determination on all questions as to the validity, form, eligibility (including time of receipt) and acceptance of Original Notes tendered for exchange. We reserve the absolute right to reject any and all tenders of any particular Original Note not properly tendered or to not accept any particular Original Note which acceptance might, in our judgment or our counsel's, be unlawful. We also reserve the absolute right to waive any defects or irregularities or conditions of the exchange offer as to any particular Original Note either before or after the Expiration Date (including the right to waive the ineligibility of any holder who seeks to tender Original Notes in the exchange offer). Our interpretation of the terms and conditions of the exchange offer as to any particular Original Note either before or after the Expiration Date (including the letter of transmittal and the instructions thereto) will be final and binding on all parties. Unless waived, any defects or irregularities in connection with tenders of Original Notes for exchange must be cured within a reasonable period of time, as we determine. We are not, nor is the exchange agent or any other person, under any duty to notify you of any defect or irregularity with respect to your tender of Original Notes for exchange, and no one will be liable for failing to provide such notification.

If the letter of transmittal is signed by a person or persons other than the registered holder or holders of Original Notes, such Original Notes must be endorsed or accompanied by powers of attorney, in either case signed exactly as the name(s) of the registered holder(s) that appear on the Original Notes and the signatures must be guaranteed by an eligible institution.

If the letter of transmittal or any Original Notes or powers of attorney are signed by trustees, executors, administrators, guardians, attorneys-in-fact, officers of corporations or others acting in a fiduciary or representative capacity, such persons should so indicate when signing. Unless waived by us, proper evidence satisfactory to us of their authority to so act must be submitted with the letter of transmittal.

By tendering Original Notes, you represent to us that, among other things, the Exchange Notes acquired pursuant to the exchange offer are being obtained in the ordinary course of business of the person receiving such Exchange Notes, whether or not such person is the holder, that neither the holder nor such other person has any arrangement or understanding with any person to participate in the distribution of the Exchange Notes, and that you are not holding Original Notes that have, or are reasonably likely to have, the status of an unsold allotment in the initial offering of the Original Notes. If you are our "affiliate," as defined under Rule 405 under the Securities Act, are engaged in or intend to engage in or have an arrangement or understanding with any person to participate in a distribution of the Exchange Notes to be acquired pursuant to the exchange offer, you or any such other person:

- cannot rely on the applicable interpretations of the staff of the SEC; and
- must comply with the registration and prospectus delivery requirements of the Securities Act in connection with any resale transaction.

Each broker-dealer that receives Exchange Notes for its own account in exchange for Original Notes, where such Original Notes were acquired by such broker-dealer as a result of market-making activities or other trading activities, must acknowledge that it will deliver a prospectus in connection with any resale of such Exchange Notes. See "Plan of Distribution." The letter of transmittal states that by so acknowledging and by delivering a prospectus, a broker-dealer will not be deemed to admit that it is an "underwriter" within the meaning of the Securities Act.

Furthermore, any broker-dealer that acquired any of its Original Notes directly from us:

- may not rely on the applicable interpretation of the staff of the SEC contained in the *Exxon Capital Holdings Corp.* , SEC no-action letter (Apr. 13, 1988), *Morgan, Stanley & Co. Inc.*, SEC no-action letter (June 5, 1991) and *Shearman & Sterling* , SEC no-action letter (July 2, 1993); and
- must also be named as a selling security holder in connection with the registration and prospectus delivery requirements of the Securities Act relating to any resale transaction.

Acceptance of Original Notes for Exchange; Delivery of Exchange Notes

Upon satisfaction or waiver of all of the conditions to the exchange offer, we will accept, promptly after the Expiration Date, all Original Notes properly tendered and will issue exchanges notes promptly after acceptance of the Original Notes. See "—Conditions to the Exchange Offer." For purposes of the exchange offer, we will be deemed to have accepted properly tendered Original Notes for exchange if and when we give written notice to the exchange agent.

The holder of each Original Note accepted for exchange will receive an Exchange Note in the amount equal to the surrendered Original Note. Holders of Exchange Notes on the relevant record date for the first interest payment date following the consummation of the exchange offer will receive interest accruing from the most recent date to which interest has been paid on the Original Notes. Holders of Exchange Notes will not receive any payment in respect of accrued interest on Original Notes otherwise payable on any interest payment date, the record date for which occurs on or after the consummation of the exchange offer.

In all cases, issuance of Exchange Notes for Original Notes that are accepted for exchange will be made only after timely receipt by the exchange agent of:

- a timely book-entry confirmation of such Original Notes into the exchange agent's account at DTC;
- a properly completed and duly executed letter of transmittal or an agent's message in lieu thereof; and
- all other documents required by this Prospectus.

If any tendered Original Notes are not accepted for any reason set forth in the terms and conditions of the exchange offer or if Original Notes are tendered for a greater principal amount than the holder desires to exchange, such unaccepted or non-exchanged Original Notes will be returned to the holder without cost to such holder or, in the case of Original Notes tendered by book-entry transfer into the exchange agent's account at DTC pursuant to the procedure described above, such unaccepted or non-exchanged Original Notes will be credited to an account maintained with DTC promptly after the expiration or termination of the exchange offer.

Book-Entry Transfers

For purposes of the exchange offer, the exchange agent will request that an account be established with respect to the Original Notes at DTC within two business days after the date of this prospectus, unless the exchange agent has already established an account with DTC suitable for the exchange offer. Any financial institution that is a participant in DTC may make book-entry delivery of Original Notes by causing DTC to transfer such Original Notes into the exchange agent's account at DTC in accordance with DTC's procedures for transfer. Although delivery of Original Notes may be effected through book-entry transfer at DTC, the letter of transmittal or facsimile thereof, with any required signature guarantees and any other required documents, must, in any case, be transmitted to and received by the exchange agent at the address set forth under "—Exchange Agent" on or prior to the Expiration Date. In lieu thereof, an agent's message must be transmitted and received by the exchange agent on or prior to the Expiration Date.

Guaranteed Delivery

If you desire to tender Original Notes, and the Original Notes are not immediately available, or time will not permit the Original Notes or other required documents to reach the exchange agent before the Expiration Date, or the procedure for book-entry transfer described above cannot be completed on a timely basis, a tender may nonetheless be made if:

- the tender is made through an eligible institution;
- prior to the Expiration Date, the exchange agent receives from an eligible institution a properly completed and duly executed notice of guaranteed delivery, substantially in the form provided by us, by facsimile transmission, mail or hand delivery:
  - stating the name and address of the holder of the Original Notes and the amount of Original Notes tendered;
  - stating that the tender is being made; and
  - guaranteeing that within three New York Stock Exchange trading days after the Expiration Date, the certificates for all physically tendered Original Notes, in proper form for transfer, or a book-entry confirmation, as the case may be, and a properly completed and duly executed letter of transmittal, or an agent's message, and any other documents required by the letter of transmittal will be deposited by the eligible institution with the exchange agent; and
- the certificates for all physically tendered Original Notes, in proper form for transfer, or a book-entry confirmation, as the case may be, and a properly completed and duly executed letter of transmittal, or any agent's message, and all other documents required by the letter of transmittal, are received by the exchange agent within three New York Stock Exchange trading days after the Expiration Date.

Withdrawal Rights

You may withdraw your tender of Original Notes at any time prior to 5:00 p.m., New York City time, on the Expiration Date. To be effective, a written notice of withdrawal must be received by the exchange agent at one of the addresses set forth under "—Exchange Agent." This notice must specify:

- the name of the person having tendered the Original Notes to be withdrawn;
- the Original Notes to be withdrawn (including the principal amount of such Original Notes); and

- where certificates for Original Notes have been transmitted, the name in which such Original Notes are registered, if different from that of the withdrawing holder.

If certificates for Original Notes have been delivered or otherwise identified to the exchange agent, then, prior to the release of such certificates, the withdrawing holder must also submit the serial numbers of the particular certificates to be withdrawn and a signed notice of withdrawal with signatures guaranteed by an eligible institution, unless such holder is an eligible institution. If Original Notes have been tendered pursuant to the procedure for book-entry transfer described above, any notice of withdrawal must specify the name and number of the account at DTC to be credited with the withdrawn Original Notes and otherwise comply with the procedures of DTC.

We will make a final and binding determination on all questions as to the validity, form and eligibility (including time of receipt) of such notices. Any Original Notes so withdrawn will be deemed not to have been validly tendered for exchange for purposes of the exchange offer. Any Original Notes tendered for exchange but not exchanged for any reason will be returned to the holder without cost to such holder (or, in the case of Original Notes tendered by book-entry transfer into the exchange agent's account at DTC pursuant to the book-entry transfer procedures described above, such Original Notes will be credited to an account maintained with DTC for the Original Notes as soon as practicable after withdrawal, rejection of tender or termination of the exchange offer).

Properly withdrawn Original Notes may be retendered by following one of the procedures described under "—Procedures for Tendering Original Notes" above at any time on or prior to the Expiration Date.

Conditions to the Exchange Offer

Notwithstanding any other provision of the exchange offer, we are not required to accept for exchange, or to issue Exchange Notes in exchange for, any Original Notes and may terminate or amend the exchange offer, if any of the following events occur prior to the Expiration Date:

(i) the exchange offer violates any applicable law or applicable interpretation of the staff of the SEC; or

(ii) there is threatened, instituted or pending any action or proceeding before, or any injunction, order or decree has been issued by, any court or governmental agency or other governmental regulatory or administrative agency or commission,

  (a) seeking to restrain or prohibit the making or consummation of the exchange offer or any other transaction contemplated by the exchange offer, or assessing or seeking any damages as a result thereof, or

  (b) resulting in a material delay in our ability to accept for exchange or exchange some or all of the Original Notes pursuant to the exchange offer; or

(iii) any statute, rule, regulation, order or injunction has been sought, proposed, introduced, enacted, promulgated or deemed applicable to the exchange offer or any of the transactions contemplated by the exchange offer by any government or governmental authority, domestic or foreign, or any action has been taken, proposed or threatened, by any government, governmental authority, agency or court, domestic or foreign, that might, directly or indirectly, result in any of the consequences referred to in clauses (i) or (ii) above or might result in the holders of Exchange Notes having obligations with respect to resales and transfers of Exchange Notes which are greater than those described in the interpretation of the SEC referred to on the cover page of this prospectus, or would otherwise make it inadvisable to proceed with the exchange offer; or

(iv) there has occurred:

  (c) any general suspension of or general limitation on prices for, or trading in, our securities on any national securities exchange or in the over-the-counter market;

(d) any limitation by a governmental agency or authority which may adversely affect our ability to complete the transactions contemplated by the exchange offer;

(e) a declaration of a banking moratorium or any suspension of payments in respect of banks in the United States or any limitation by any governmental agency or authority which adversely affects the extension of credit; or

(f) a commencement of a war, armed hostilities or other similar international calamity directly or indirectly involving the United States, or, in the case of any of the foregoing existing at the time of the commencement of the exchange offer, a material acceleration or worsening thereof;

which in any case, and regardless of the circumstances (including any action by us) giving rise to any such condition, makes it inadvisable to proceed with the exchange offer and/or with such acceptance for exchange or with such exchange.

The foregoing conditions are for our sole benefit and may be asserted by us regardless of the circumstances giving rise to any condition or may be waived by us in whole or in part at any time in our sole discretion. Our failure at any time to exercise any of the foregoing rights will not be deemed a waiver of any such right and each such right will be deemed an ongoing right which may be asserted at any time.

In addition, we will not accept for exchange any Original Notes tendered, and no Exchange Notes will be issued in exchange for any such Original Notes, if at such time any stop order is threatened or in effect with respect to the registration statement of which this prospectus constitutes a part, or the qualification of the Indenture under the Trust Indenture Act of 1939, as amended (the "Trust Indenture Act").

Telephone Inquiries: (302) 636-6181

DELIVERY OF THE LETTER OF TRANSMITTAL TO AN ADDRESS OTHER THAN AS SET FORTH ABOVE OR TRANSMISSION OF SUCH LETTER OF TRANSMITTAL VIA FACSIMILE OTHER THAN AS SET FORTH ABOVE DOES NOT CONSTITUTE A VALID DELIVERY OF THE LETTER OF TRANSMITTAL.

Fees and Expenses

The principal solicitation is being made by mail by Wilmington Trust, National Association, as exchange agent. We will pay the exchange agent customary fees for its services, reimburse the exchange agent for its reasonable out-of-pocket expenses incurred in connection with the provision of these services and pay other

registration expenses, including fees and expenses of the trustee under the Indenture relating to the Exchange Notes, filing fees, blue sky fees and printing and distribution expenses. We will not make any payment to brokers, dealers or others soliciting acceptances of the exchange offer.

Additional solicitation may be made by telephone, facsimile or in person by our and our affiliates' officers and regular employees and by persons so engaged by the exchange agent.

Accounting Treatment

We will record the Exchange Notes at the same carrying value as the Original Notes, as reflected in our accounting records on the date of the exchange. Accordingly, we will not recognize any gain or loss for accounting purposes. The expenses of the exchange offer will be amortized over the term of the Exchange Notes.

Transfer Taxes

Holders who tender their Original Notes for exchange will not be obligated to pay any related transfer taxes, except that holders who instruct us to register Exchange Notes in the name of, or request that Original Notes not tendered or not accepted in the exchange offer be returned to, a person other than the registered tendering holder will be responsible for the payment of any applicable transfer taxes.

Consequences of Exchanging or Failing to Exchange Original Notes

If you do not exchange your Original Notes for Exchange Notes in the exchange offer, your Original Notes will continue to be subject to the provisions of the Indenture relating to the notes regarding transfer and exchange of the Original Notes and the restrictions on transfer of the Original Notes described in the legend on such notes. These transfer restrictions are required because the Original Notes were issued under an exemption from, or in transactions not subject to, the registration requirements of the Securities Act and applicable state securities laws. In general, the Original Notes may not be offered or sold unless registered under the Securities Act, except under an exemption from, or in a transaction not subject to, the Securities Act and applicable state securities laws. We do not plan to register the Original Notes under the Securities Act or any state securities laws. Based on interpretations by the staff of the SEC, as set forth in no-action letters issued to third parties, we believe that the Exchange Notes you receive in the exchange offer may be offered for resale, resold or otherwise transferred without compliance with the registration and prospectus delivery provisions of the Securities Act. However, you will not be able to freely transfer the Exchange Notes if:

- you are our "affiliate," as defined in Rule 405 under the Securities Act;
- you are not acquiring the Exchange Notes in the exchange offer in the ordinary course of your business;
- you have an arrangement or understanding with any person to participate in the distribution, as defined in the Securities Act, of the Exchange Notes you will receive in the exchange offer;
- you are holding Original Notes that have, or are reasonably likely to have, the status of an unsold allotment in the initial offering; or
- you are a participating broker-dealer.

We do not intend to request the SEC to consider, and the SEC has not considered, the exchange offer in the context of the no-action letters discussed above. As a result, we cannot guarantee that the staff of the SEC would make a similar determination with respect to the exchange offer as in the circumstances described in such no action letters. Each holder, other than a broker-dealer, must acknowledge that it is not engaged in, and does not intend to engage in, a distribution of Exchange Notes and has no arrangement or understanding to participate in a distribution of Exchange Notes. If you are our affiliate, are engaged in or intend to engage in a distribution of

Exchange Notes or have any arrangement or understanding with respect to the distribution of Exchange Notes you will receive in the exchange offer, you may not rely on the applicable interpretations of the staff of the SEC and you must comply with the registration and prospectus delivery requirements of the Securities Act in connection with any resale transaction involving Exchange Notes. If you are a participating broker-dealer, you must acknowledge that you will deliver a prospectus in connection with any resale of the Exchange Notes. In addition, to comply with state securities laws, you may not offer or sell the Exchange Notes in any state unless they have been registered or qualified for sale in that state or an exemption from registration or qualification is available and is complied with. The offer and sale of the Exchange Notes to "qualified institutional buyers" (as defined in Rule 144A of the Securities Act) is generally exempt from registration or qualification under state securities laws. We do not plan to register or qualify the sale of the Exchange Notes in any state where an exemption from registration or qualification is required and not available.

Additional Registration Rights

If:

(i) we determine in good faith that we are not:

  (a) required to file the exchange offer registration statement; or

  (b) permitted to consummate the exchange offer because the exchange offer is not permitted by applicable law or SEC policy;

(ii) for any reason the exchange offer is not consummated prior to January 29, 2014; or

(iii) any holder of "transfer restricted securities" notifies us that:

  (a) it is prohibited by law or SEC policy from participating in the exchange offer;

  (b) it may not resell the Exchange Notes acquired by it in the exchange offer to the public without delivering a prospectus and the prospectus contained in the exchange offer registration statement is not appropriate or available for such resales; or

  (c) it is a broker-dealer and owns Original Notes acquired directly from us or one of our affiliates,

we will (1) file a shelf registration statement with the SEC on or prior to 45 days after such filing obligation arises but no earlier than January 29, 2014, and (2) use our commercially reasonable efforts to cause such shelf registration statement to be declared effective by the SEC on or prior to 90 days after such obligation arises (or 60 days after such obligation arises if such shelf registration statement is not reviewed by the SEC) and to keep such shelf registration statement effective until the earlier of: (i) the date when all registrable securities shall have been sold pursuant to the shelf registration statement, and (ii) the date which is one year from the initial effectiveness date of such shelf registration statement.

For purposes of the foregoing, "transfer restricted securities" means each Original Note until the earliest to occur of:

(i) the date on which such Original Note has been exchanged by a person other than a broker-dealer for an Exchange Note in the exchange offer;

(ii) the date on which such Original Note has been effectively registered under the Securities Act and disposed of in accordance with a shelf registration statement; and

(iii) the date on which such Original Note has been distributed to the public by a broker-dealer pursuant to the "Plan of Distribution" section in this prospectus.

If:

(i) the exchange offer registration statement or the shelf registration statement is not declared effective by the SEC on or prior to the date specified in the Registration Rights Agreement for such effectiveness, which we refer to as the "effectiveness target date;"

(ii) we fail to consummate the exchange offer within 30 business days of the effectiveness target date with respect to the exchange offer registration statement; or

(iii) the shelf registration statement or the exchange offer registration statement is declared effective but thereafter ceases to be effective or usable in connection with resales of transfer restricted securities during the periods specified in the registration rights agreement;

each of which we refer to as a "registration default," then we will pay special interest to each holder of transfer restricted securities until all registration defaults have been cured.

With respect to the first 90-day period immediately following the occurrence of the first registration default, special interest will be paid in an amount equal to 0.25% per annum of the principal amount of entitled securities outstanding. The amount of the special interest will increase by an additional 0.25% per annum with respect to each subsequent 90-day period until all registration defaults have been cured, up to a maximum amount of special interest for all registration defaults of 1.00% per annum of the principal amount of the transfer restricted securities outstanding.

All accrued special interest will be paid by us on the next scheduled interest payment date to DTC or its nominee by wire transfer of immediately available funds or by federal funds check and to holders of certificated notes by wire transfer to the accounts specified by them or by mailing checks to their registered addresses if no such accounts have been specified.

Following the cure of all registration defaults, the accrual of special interest will cease.

Other Rights

While we have no present plan to acquire any Original Notes that are not tendered in the exchange offer, we reserve the right in our sole discretion to purchase or make offers for any Original Notes that remain outstanding after the Expiration Date. We also reserve the right to terminate the exchange offer, as described under "—Conditions to the Exchange Offer," and, to the extent permitted by applicable law, purchase Original Notes in the open market, in privately negotiated transactions or otherwise. The terms of any of those purchases or offers could differ from the terms of the exchange offer.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion summarizes the significant factors affecting the operating results, financial condition, liquidity and cash flows of our Company as of and for the periods presented below. The following discussion and analysis should be read in conjunction with "Selected Historical Financial and Operating Information" and the financial statements and the related notes thereto included elsewhere in this prospectus. The statements in this discussion regarding industry outlook, our expectations regarding our future performance, liquidity and capital resources and all other non-historical statements in this discussion are forward-looking statements and are based on the beliefs of our management, as well as assumptions made by, and information currently available to, our management. Actual results could differ materially from those discussed in or implied by forward-looking statements as a result of various factors, including those discussed below and elsewhere in this prospectus, particularly in the section entitled "Risk Factors."

Overview

We are a leading global materials company engaged in the manufacture and marketing of both standard and specialty and customized emulsion polymers and plastics. We believe that we have leading market positions in many of the markets in which we compete and that we have developed these strong market positions due to our technological differentiation, diverse global manufacturing base, long-standing customer relationships, and advantaged cost positions. We compete in growing global market segments driven in part by improving living standards in emerging markets, improving fuel efficiency, and the increasing demand for light-weight materials. In addition, we believe our increasing business presence in high growth regions such as China, Southeast Asia and Eastern Europe further enhances our prospects. We consider these business characteristics to be important contributors to our performance. For the six months ended June 30, 2013, we generated $2.8 billion in net sales and $37.7 million in net losses. For the year ended 2012, we generated approximately $5.5 billion in net sales and $30.3 million in net income.

Prior to our formation, our business was wholly owned by Dow. In June 2010, we were acquired by Bain Capital. In connection with the Acquisition, we entered into a number of agreements with Dow relating to the provision of certain products, site services and other operational arrangements. See Note Q in the notes to the 2012 consolidated financial statements and Note K in the notes to the June 30, 2013 condensed consolidated financial statements.

Industry Trends

We believe demand for our products is strongly correlated to growth in our customers' end markets, which are expected to grow along with anticipated rising gross domestic product and industrial production. We believe growth in our markets is supported by improving living standards in emerging markets, globalization of automotive car platforms, improving fuel efficiency and the increasing demand for light-weight materials and upgraded automotive interior materials as well as wide-spread growth in the need for high performance lightweight materials for the electronics industry. We believe we are well-positioned to take advantage of these trends. For example, improving living standards are driving demand for coated paper in emerging markets, particularly in China. We have a leading SB latex position in China. As another example, we are following our current automotive customers to emerging markets with plans to supply them locally as part of their strategy to globalize automotive car platforms. In addition, in synthetic rubber, increasing fuel efficiency regulation is driving demand for SSBR, a key material for high-performance tires. We have leading European market positions in advanced SSBR, and have completed our capacity expansion at our Schkopau, Germany facility.

We believe our business will continue to benefit from improving market dynamics in our industry. Over the past few years, companies have rationalized higher-cost capacity in many of our key product lines and there have

been a number of consolidating activities, both in emulsion polymers and in plastics. We believe that our markets will continue to experience a long-term trend towards consolidation which will create opportunities for our business given our scale and geographic reach. Developments in the market for certain of our raw materials have a substantial impact on our business.

Basis of Presentation

On March 2, 2010, Bain Capital and STY Acquisition Corp. ("STY Acquisition"), entered into a sale and purchase agreement setting forth the terms of the Acquisition (the "Purchase Agreement") with Dow, Styron LLC and Styron Holding B.V. (together with Styron LLC, the "Styron Holdcos") pursuant to which STY Acquisition agreed to acquire 100% of the outstanding equity interests of the Styron Holdcos. STY Acquisition subsequently (but prior to the completion of the Acquisition) assigned its rights and obligations under the Purchase Agreement to us. The consideration for the Styron Holdcos was approximately $1,509.4 million, including customary adjustments for working capital, employee liabilities and certain other amounts. These amounts included a $75.0 million Seller Term Loan which is discussed further in Note J in the notes to the 2012 consolidated financial statements. Subsequent to the closing of the Acquisition, we paid approximately $55.8 million in closing date working capital adjustments. As part of the Acquisition, we incurred $56.5 million in transaction costs, which have been recorded in the consolidated statement of operations as acquisition-related expense in the Successor period ended December 31, 2010.

The financial statements for the 2010 Predecessor period ended June 16, 2010 have been prepared on a stand-alone basis and are derived from the consolidated financial statements and accounting records of Dow and may not be comparable to the consolidated financial statements for the Successor periods ended December 31, 2012, 2011, and 2010.

For discussions on the results of operations, we have aggregated the Successor's results of operations for the period from June 17, 2010 through December 31, 2010 with the Predecessor's results of operations for the period from January 1, 2010 through June 16, 2010. We refer to the aggregated period as "2010" in this section. Although this presentation is not in accordance with U.S. GAAP, under which these two periods would not be aggregated, we believe the aggregation of the 2010 periods of Predecessor and Successor provides a more meaningful comparison to the 2012 and 2011 periods.

Acquisition Accounting

We allocated the purchase price paid to acquire the Styron business to the acquired assets and liabilities assumed based on their respective fair value as of the acquisition date. The application of acquisition accounting resulted in an increase in amortization and depreciation expense relating to our acquired intangible assets, property, plant and equipment and leasehold interests. In addition to the increase in the net carrying value of property, plant and equipment, we revised the remaining depreciable lives of property, plant and equipment to reflect the estimated remaining useful lives for purposes of calculating periodic depreciation expense. We adjusted the carrying values of the joint ventures to reflect their fair values at the date of purchase. We also adjusted the value of inventory to its fair value, increasing the costs recognized upon the sale of this acquired inventory. The excess of the purchase price over the fair value of assets and liabilities was assigned to goodwill, which is not amortized for accounting purposes but is subject to testing for impairment at least annually. See Note C of the 2012 consolidated financial statements, included elsewhere in this prospectus for further discussion on the Acquisition.

Factors Affecting Our Operating Results

The following discussion sets forth certain components of our statements of operations as well as factors that impact those items.

Net Sales

We generate revenue from the sale of our products across all major geographic areas. Our net sales include total sales less estimates for returns and price allowances. Price allowances include discounts for prompt payment as well as volume-based incentives.

Our overall net sales are generally impacted by the following factors:

- fluctuations in overall economic activity within the geographic markets in which we operate;
- fluctuations in raw material input costs and our ability to pass those on to customers, including the effects of a generally 30 to 60-day delay (or greater) in changes to our product prices in our Latex segment, Synthetic Rubber segment, and parts of our Plastics division following changes to the relevant raw material prices affect our sales margins;
- underlying growth in one or more of our core end markets, either worldwide or in particular geographies in which we operate;
- changes in the level of competition faced by our products, including the substitution by customers of alternative products to ours and the launch of new products by competitors;
- the type of products used within existing customer applications, or the development of new applications requiring products similar to ours;
- the “mix” of products sold, including the proportion of new or improved products and their pricing relative to existing products;
- changes in product sales prices (including volume discounts and cash discounts for prompt payment);
- our ability to successfully develop and launch new products and applications; and
- fluctuations in foreign exchange rates.

While the factors described above impact net sales in each of our operating segments, the impact of these factors on our operating segments can differ, as described below. For more information about risks relating to our business, see “Risk Factors—Risks Related to Our Business.”

Cost of Sales

Our cost of sales consists principally of the following:

- *Production Materials Costs* . The costs of the materials we use in production are the largest element of our overall cost of sales. We seek to use our substantial volumes and global geographic scope to obtain the most favorable terms we can, but our production material costs are affected by global and local market conditions.
- *Employee Costs* . These employee costs include the salary costs and benefit charges for employees involved in our manufacturing operations. These costs generally increase on an aggregate basis as production volumes increase, and may decline as a percent of net sales as a result of economies of scale associated with higher production volumes.
- *Sustaining Engineering Activity Costs* . These costs relate to modifications of existing products for use by new customers in familiar applications.
- *Depreciation and Amortization Expense* . Property, plant, equipment and intangible assets are stated at cost and depreciated on a straight-line basis over their estimated useful lives. Property, plant and equipment, including leasehold interests, and intangible assets acquired through the Acquisition were recorded at fair value on the acquisition date, resulting in a new cost basis for accounting purposes.

- *Other* . Our remaining cost of sales consists of:
  - customer-related development costs;
  - freight costs;
  - warehousing expenses;
  - purchasing costs;
  - costs associated with closing or idling of production facilities; and
  - other general manufacturing expenses, such as expenses for utilities and energy consumption.

The main factors that influence our cost of sales as a percent of net sales include:

- changes in the price of raw materials, and timing of corresponding price changes to our customers, which impact our sales margins;
- production volumes;
- the implementation of cost control measures aimed at improving productivity, reductions of fixed production costs, refinements in inventory management and purchasing cost of raw materials; and
- the impact of FIFO method inventory treatment.

Selling, General and Administrative Expenses

Our selling, general and administrative, or "SG&A," expense consists of all expenditures incurred in connection with the sale and marketing of our products, as well as administrative overhead costs, including:

- salary and benefit costs for sales personnel and administrative staff, including share-based compensation expense. Expenses relating to our sales personnel generally increase or decrease principally with changes in sales volume due to the need to increase or decrease sales personnel to meet changes in demand. Expenses relating to administrative personnel generally do not increase or decrease directly with changes in sales volume;
- other administrative expenses, including expenses related to logistics, information systems and legal and accounting services;
- general advertising expenses;
- research and development expenses; and
- other selling expenses, such as expenses incurred in connection with travel and communications.

Changes in SG&A expense as a percent of net sales have historically been impacted by a number of factors, including:

- changes in sales volume, as higher volumes enable us to spread the fixed portion of our administrative expense over higher sales;
- changes in the mix of products we sell, as some products may require more customer support and sales effort than others;
- changes in our customer base, as new customers may require different levels of sales and marketing attention;
- new product launches in existing and new markets, as these launches typically involve more intense sales activity before they are integrated into customer applications;
- customer credit issues requiring increases to the allowance for doubtful accounts; and
- the implementation of cost control measures aimed at improving productivity.

Interest Expense, Net

Interest expense, net consists primarily of interest expense on institutional borrowings and other financing obligations and changes in fair value of interest rate derivative instruments. Interest expense, net also includes the amortization of debt issuance costs and debt discount associated with our Senior Secured Credit Facility offset by interest income primarily associated with cash-on-hand. Factors affecting interest expense include fluctuations in the market interest rate, our borrowing activities and our outstanding debt balances.

Provision for Income Taxes

We and our subsidiaries are subject to income tax in the various jurisdictions in which we operate. While the extent of our future tax liability is uncertain, the impact of acquisition accounting for the Acquisition and for future acquisitions, changes to the debt and equity capitalization of our subsidiaries, and the realignment of the functions performed and risks assumed by the various subsidiaries are among the factors that will determine the future book and taxable income of the respective subsidiary and the Company as a whole.

For the Predecessor periods, the Styron business did not file separate tax returns in the majority of its jurisdictions as it was included in the tax returns of Dow entities within the respective tax jurisdictions. The income tax provision for the Predecessor periods was calculated using a separate return basis as if Styron was a separate taxpayer.

Six Months Ended June 30, 2013 Compared to the Six Months Ended June 30, 2012

Net Sales

Net sales for 2013 decreased by $51.6 million, or 1.8%, to $2,753.3 million from $2,804.9 million in 2012. Overall, the decrease was primarily due to lower selling prices, because of our contractual pass through of lower raw materials costs in the Latex and Synthetic Rubber segments, and a less favorable sales product mix. We had an overall increase in sales volume with higher volumes in the Synthetic Rubber and Styrenics segments, which were offset by lower sales volumes in our Latex and Engineered Polymers segments, primarily due to lower demand in the Europe paper and Asia electronics markets.

Cost of Sales

Cost of sales for 2013 decreased by $8.3 million, or 0.3%, to $2,607.0 million from $2,615.3 million in 2012. Of the 0.3% decrease in cost of sales, 0.7% was attributable to lower raw material costs, net of a 0.2% unfavorable currency impact as the U.S. dollar weakened compared to the euro. This decrease was partially offset by increases in sales volumes.

Gross Profit

Gross profit for 2013 decreased by $43.3 million, or 22.8%, to $146.3 million from $189.6 million in 2012. The decrease was primarily attributable to favorable raw material purchase timing in the first quarter of 2012. This was partially offset by higher sales volumes in 2013 with the SSBR capacity expansion completed in the fourth quarter of 2012 coupled with the lower sales in the second quarter of 2012 due to scheduled plant turnaround activities.

Selling, General and Administrative Expenses

SG&A expense for 2013 increased by $2.6 million, or 2.6%, to $101.2 million from $98.6 million in 2012. The increase was due to the restructuring expenses incurred during the second quarter of 2013 of approximately $6.5 million primarily relating to impairment of property, plant and equipment and termination benefits in connection with the planned closure of the Company’s latex manufacturing facility in Australia as discussed in Note O in the June 30, 2013 condensed consolidated financial statements. In addition, during the first quarter of 2012, we recorded an adjustment to reduce stock-based compensation expense by approximately $2.9 million relating to the correction of prior period grant date fair values of service-based and performance-based restricted

stock awards. These increases were offset by the special termination benefits incurred during the first quarter of 2012 of approximately $7.8 million as a result of the organizational restructuring program announced in February 2012.

Equity in Earnings of Unconsolidated Affiliates

Equity in earnings of unconsolidated affiliates for 2013 was $11.7 million compared to $12.7 million for 2012. AmSty equity earnings remained relatively unchanged at $12.4 million in both periods. Sumika Styron equity earnings decreased to a loss of $0.7 million in 2013 from earnings of $0.3 million in 2012.

Interest Expense, Net

Interest expense, net for 2013 was $66.1 million compared to $52.3 million in 2012. The increase of $13.8 million in interest expense was attributable to the higher outstanding principal debt and interest rate on the Original Notes which bears an interest of 8.75% compared to 6.0% on the Term Loans. The Term Loans were repaid in January 2013 with the issuance of the Original Notes. This increase was slightly offset by a decrease in interest expense from our Revolving Facility due to lower borrowings in 2013 compared to prior year.

Loss on Extinguishment of Long-Term Debt

Loss on extinguishment of debt was $20.7 million for the period ended June 30, 2013 related to the extinguishment of our $1,239.0 million Term Loans under our Senior Secured Credit Facility, which was comprised of the write-off of existing unamortized debt issuance costs and original issue discount attributable to the Term Loans totaling $14.4 million and $6.3 million, respectively. There was no loss on extinguishment of debt recognized during the period ended June 30, 2012.

Other Expense (Income)

Other expense for the period ended June 30, 2013 was $5.7 million, of which $3.3 million was due to an impairment loss in connection with the sale of our Styrenics EPS business as discussed in Note N in the June 30, 2013 condensed consolidated financial statements. The remaining $2.4 million relates to foreign exchange transaction losses and other expenses. This compares to other expense of $0.4 million for 2012, which primarily related to foreign exchange transaction losses offset by commission income earned in 2012. These foreign exchange transaction gains and losses are primarily driven by the remeasurement of our euro denominated payables to the U.S. dollar.

Provision for Income Taxes

Provision for income taxes for the six months ended June 30, 2013 was $2.0 million resulting in an effective tax rate of negative 5.7%. Provision for income taxes for the six months ended June 30, 2012 was $19.0 million resulting in an effective tax rate of 37.2%.

Our income tax provision decreased due to a decrease in income before taxes and as a result of a greater proportion of income before taxes attributable to non-U.S. jurisdictions where the statutory income tax rate is lower than the U.S. statutory rate. Although we had a loss before income taxes of $35.7 million for the period ended June 30, 2013, we generated losses of approximately $47.6 million, mostly related to our holding companies incorporated in Luxembourg, which did not provide a tax benefit as we do not believe we will utilize these losses in the foreseeable future. In 2012, we incurred non-deductible expenses related to interest of approximately $6.2 million, which unfavorably impacted the effective tax rate during the period ended June 30, 2012. These non-deductible expenses did not recur during the period ended June 30, 2013. In addition, during the period ended June 30, 2012, income tax provision included cumulative adjustments of $5.0 million primarily pertaining to 2010 and 2011 income tax return reconciliations completed in that period, which resulted in a reduction of income tax expense.

Results of Operations for the Year Ended December 31, 2012, Year Ended December 31, 2011 and the Aggregated Year Ended December 31, 2010

The tables below set forth our historical results of operations and as a percentage of net sales for the periods indicated. Due to the Acquisition, the financial data for the Successor periods are not comparable to that of the Predecessor period presented in the accompanying table. For the Predecessor period, the combined financial statements were prepared on a carve-out basis from Dow. The carve-out combined financial statements include allocations of certain Dow corporate costs. In the Successor periods we no longer incur these charges, but do incur certain expenses as a stand-alone company, including for certain support services provided by Dow under transition services agreements. See Note Q to the 2012 consolidated financial statements for additional information. The allocations in the Predecessor period were based upon various assumptions and estimates and actual results may differ from these allocations, assumptions and estimates. Accordingly, the Predecessor period combined financial statements are not necessarily representative of our financial position, results of operations or cash flows had we operated on a stand-alone basis (in millions):

Year Ended December 31, 2012 Compared to the Year Ended December 31, 2011

Net Sales

Net sales for 2012 decreased by $741.0 million, or 12.0%, to $5,451.9 million from $6,192.9 million in 2011. The decrease was primarily driven by decreasing sales volumes and lower selling prices due to the weakened economic environment, particularly in Europe, and increasing competition, which resulted in an unfavorable impact of 7.3% when compared to the same period in 2011. The decrease was also driven by a negative currency impact, which resulted in a decrease in net sales of approximately 4.7%, compared to the same period in 2011, due to the strengthening of the U.S. dollar as compared to the euro in 2012.

Cost of Sales

Cost of sales for 2012 decreased by $682.1 million, or 11.8%, to $5,115.2 million from $5,797.3 million in 2011. Of the 11.8% decrease in cost of sales, 6.3% was attributable to lower sales volume and approximately 4.1% was due to a net favorable currency impact driven by the strengthening of the U.S. dollar as compared to the euro in 2012. Remaining decreases were due to lower depreciation and other manufacturing cost reductions.

Gross Profit

Gross profit for 2012 decreased by $58.9 million, or 14.9%, to $336.7 million from $395.6 million in 2011. Of the 14.9% decrease, 19.6% was primarily attributable to an overall decrease in sales volume and prices driven by a weakened economic environment, particularly in Europe, and increasing competition, plus net unfavorable currency impact of approximately 13.4%. These decreases were offset by lower manufacturing cost and depreciation that contributed approximately 18.1% of increase in our gross profit.

Selling, General and Administrative Expenses

SG&A expense for 2012 decreased by $126.6 million, or 41.0%, to $182.0 million from $308.6 million in 2011. The decrease was primarily the result of higher consulting, accounting, and legal fees associated with our separation from Dow and transition of our initial financial close process as a stand-alone entity in 2011, which together contributed approximately $94.2 million of the decrease. We also incurred an additional $11.1 million related to special stock-based compensation expense in 2011 resulting from the stockholder distribution and share redemption in February 2011, which was further discussed in Note P of our 2012 consolidated financial statements. SG&A further decreased in 2012 due to reductions in employee-related expenses as a result of restructuring programs implemented in the third quarter of 2011 and first quarter of 2012, and a stock-based compensation adjustment that reduced the recorded expense in the first quarter of 2012 by approximately $2.5 million, related to the correction of prior period grant date fair values of service-based and performance-based restricted stock awards. The remaining difference was due to favorable currency impact driven by the strengthening of the U.S. dollar as compared to the euro in 2012 and other cost reduction efforts. The expenses recorded related to the restructuring programs for the year ended December 31, 2012 and 2011 were approximately $7.5 million and $9.2 million, respectively.

Equity in Earnings of Unconsolidated Affiliates

Equity in earnings of unconsolidated affiliates for 2012 was $27.1 million compared to equity in earnings of $23.9 million for 2011. Americas Styrenics LLC (“AmSty”) equity earnings increased to $27.0 million from $24.1 million in 2011. Sumika Styron Polycarbonate Limited (“Sumika Styron”) equity earnings increased to $0.1 million from a loss of $0.2 million in 2011.

Interest Expense, Net

Net interest expense for the year ended December 31, 2012 was $110.0 million compared to $111.4 million for the year ended December 31, 2011. The decrease in interest expense was the result of lower interest incurred

on our Revolving Facility and our accounts receivable securitization facility of approximately $3.3 million due to lower average borrowings in 2012 compared to 2011 and an increase in capitalized interest by $4.4 million due to an increase in capital projects. These decreases were offset by an increase of $8.6 million interest expense on our Senior Secured Credit Facility as a result of the amendment completed in August 2012, wherein our borrowing rate increased by 2.0%.

Loss on Extinguishment of Long-Term Debt

Loss on extinguishment of debt was $55.7 million for the year ended December 31, 2011 related to the February 2, 2011 amendment of our Senior Secured Credit Facility and the related extinguishment of $749.0 million of our then outstanding Term Loans. The loss on extinguishment of debt was comprised of $7.5 million in fees paid to the lenders, $0.2 million in third-party fees associated with modifying the Term Loans, and the remainder attributable to the write-off of existing unamortized debt issuance costs and original issue discount attributed to the $749.0 million of the then outstanding Term Loans extinguished, totaling $34.0 million and $14.0 million, respectively. There was no loss on extinguishment of debt recognized in the year ended December 31, 2012.

Other Expense (Income)

Other expense for the year ended December 31, 2012 was $24.0 million compared to other income of $20.1 million for the year ended December 31, 2011.

Other expense for the year ended December 31, 2012 includes foreign exchange transaction losses of $21.8 million, which were primarily driven by the remeasurement of our euro payables to the U.S. dollar as well as unrealized losses on our foreign exchange forward contracts of approximately $3.8 million. In addition, we incurred approximately $2.3 million of third-party fees associated with the 2012 Amendment of our Senior Secured Credit Agreement (see Note J to the 2012 consolidated financial statements for details of the 2012 Amendment).

Other income for the year ended December 31, 2011 was primarily related to foreign exchange transaction gains of $17.2 million and indemnification matters from Dow which were recorded as other income. The foreign exchange transaction gains in 2011 were primarily driven by the remeasurement of our euro payables to the U.S. dollar.

Provision for Income Taxes

Provision for income taxes for 2012 totaled $17.5 million resulting in an effective tax rate of 36.6%. Provision for income taxes for 2011 totaled $39.8 million resulting in a negative effective tax rate of 109.8%.

The 2012 effective tax rate was unfavorably impacted by non-deductible expenses resulting in a $8.9 million difference from the U.S. statutory rate, of which $5.2 million related to non-deductible interest expense and $2.5 million related to non-deductible stock-based compensation. In 2011, these non-deductible expenses were $9.0 million. Further, provision for income taxes included $7.1 million of tax expense related to withholding taxes as compared to $8.6 million in 2011.

Offsetting these negative impacts was approximately $3.6 million of favorable impact of jurisdictions where the statutory income tax rate is lower than the United States statutory rate compared to $1.2 million in 2011. Further, favorable impacts for 2012 are from tax credits of $2.9 million and a release of a valuation allowance in the fourth quarter of 2012 of $14.4 million, primarily as a result of improvements in actual business operations and projected future results of our subsidiaries in China and Hong Kong.

Although we had a net loss before income tax in jurisdictions outside the United States of $1.4 million, certain jurisdictions with statutory rates lower than the United States statutory rate generated income before taxes of $33.8 million and related income tax expense of approximately $5.8 million. These jurisdictions included the

Netherlands, Indonesia and China. The losses we generated from jurisdictions outside of the United States were approximately $35.2 million with a related income tax benefit of $3.0 million. Those jurisdictions primarily included Luxembourg which did not provide a tax benefit to us due to recurring losses.

Year Ended December 31, 2011 Compared to the Aggregated Year Ended December 31, 2010

Net Sales

Net sales for 2011 increased by $1,225.9 million, or 24.7%, to $6,192.9 million from $4,967.0 million in 2010. The increase in net sales for the year ended December 31, 2011 was primarily driven by increases in selling prices of 28.1% which included a currency impact of approximately 3.0% driven primarily by the weakening of the U.S. dollar as compared to the euro. This increase was a result of increasing key raw material input costs, which we recover either through negotiation with end customers or via contractual pass-through pricing mechanisms. Volume had an unfavorable impact of 3.4% due to the weak economic environment, specifically affecting the market in Europe during the second half of the year.

Cost of Sales

Cost of sales for 2011 increased by $1,239.7 million, or 27.2%, to $5,797.3 million from $4,557.6 million in 2010. Of the 27.2% increase in cost of sales, 30.6% was attributable to higher pricing associated with our raw material costs. The increase was partially offset by lower volume and the $38.0 million charge in 2010 related to inventory sold that was recorded at fair value as part of acquisition accounting, which did not recur in 2011.

Gross Profit

Gross profit for 2011 decreased by $13.8 million, or 3.4%, to $395.6 million from $409.4 million in 2010. The decrease was primarily attributable to a decrease in sales volumes of certain business units, coupled with raw material price increases that outpaced our price increases to customers.

Selling, General and Administrative Expenses

SG&A expense for 2011 increased by $119.4 million, or 63.1%, to $308.6 million from $189.2 million in 2010. The increase was a result of additional consulting, accounting, and legal fees associated with our separation from Dow and transition of our initial financial close process as a stand-alone entity. We also incurred an additional $11.1 million related to stock-based compensation expense in 2011 compared to 2010 resulting from the distribution that occurred during the first quarter of 2011 and the corresponding acceleration of expense. Also contributing to the increase was an additional $9.2 million in expense related to certain restructuring initiatives incurred in 2011 as compared to 2010.

Acquisition-Related Expenses

Acquisition-related expenses of $56.5 million for 2010 related to transaction costs incurred as a result of the Acquisition. The transaction costs consisted primarily of investment banking, buy-side due diligence and legal fees.

Equity in Earnings of Unconsolidated Affiliates

Equity in earnings of unconsolidated affiliates for 2011 was $23.9 million compared to equity in earnings of $17.1 million for 2010. AmSty equity earnings increased to $24.1 million compared to earnings of $14.7 million in 2010. Sumika Styron equity earnings decreased to a loss of $0.2 million compared to earnings of $2.4 million in 2010.

Interest Expense, Net

Net interest expense was $111.4 million for 2011 primarily reflecting a full year of interest incurred in connection with our Senior Secured Credit Facility of $97.8 million, including amortization of debt issuance

costs and debt discounts and $7.1 million relating to our accounts receivable securitization facility. Net interest expense for 2011 also reflects the effects of the increase in borrowings outstanding which occurred as a result of the amendment to our Senior Secured Credit Facility on February 2, 2011. Net interest expense was $47.9 million for 2010 primarily reflecting interest incurred during the Successor period from June 17, 2010 through December 31, 2010 in connection with our Senior Secured Credit Facility of $41.3 million, including amortization of debt issuance costs and debt discounts, approximately $3.8 million in interest relating to our $75.0 million seller note with Dow (the "Seller Note"), and $1.8 million relating to our accounts receivable securitization facility. Interest incurred on the Seller Note was approximately $0.7 million in 2011, which decreased from approximately $3.8 million in 2010, due to repayment of the Seller Note in February 2011. No interest was incurred in the Predecessor period from January 2010 through June 16, 2010.

Loss on Extinguishment of Long-Term Debt

Loss on extinguishment of debt was $55.7 million for the year ended December 31, 2011 related to the February 2, 2011 amendment of our Senior Secured Credit Facility and the related extinguishment of $749.0 million of our then outstanding Term Loans. The loss on extinguishment of debt was comprised of $7.5 million in fees paid to the lenders, $0.2 million in third-party fees associated with modifying the Term Loans, and the remainder attributable to the write-off of existing unamortized debt issuance costs and original issue discount attributed to the $749.0 million in the then outstanding Term Loans extinguished, totaling $34.0 million and $14.0 million, respectively. There was no loss on extinguishment of debt recognized in the year ended December 31, 2010.

Other Expense (Income)

Other income for the year ended December 31, 2011 was $20.1 million compared to other expense of $5.3 million for the year ended December 31, 2010. Other income for the year ended December 31, 2011 primarily related to foreign exchange transaction gains of $17.2 million and indemnification matters from Dow which were recorded as other income. Other expense for the year ended December 31, 2010 primarily related to foreign exchange gains of $1.2 million and other expense of approximately $6.5 million.

Provision for Income Taxes

Provision for income taxes for 2011 totaled $39.8 million resulting in a negative effective tax rate of 109.8%. Provision for income taxes for aggregated 2010 totaled $70.9 million resulting in an effective tax rate of 55.5%.

The 2011 effective tax rate was unfavorably impacted by non-deductible expenses resulting in a $9.0 million difference from the U.S. statutory rate, of which $3.3 million related to non-deductible interest expense and $7.1 million related to non-deductible stock-based compensation. In 2010, these non-deductible expenses were $20.2 million. Increases in unrecognized tax benefits also unfavorably impacted the 2011 effective tax rate by approximately $14.5 million. In 2010, unrecognized tax benefits were $4.0 million. Further, provision for income taxes included $8.6 million of tax expense related to withholding taxes as compared to $2.5 million in 2010, which was primarily related to the Successor period.

Offsetting these unfavorable impacts was approximately $1.2 million of favorable impact of jurisdictions where the statutory income tax rate is lower than the United States statutory rate compared to $25.2 million in 2010.

Although we had a net loss before income tax in jurisdictions outside the United States of $23.7 million, certain jurisdictions with statutory rates lower than the United States statutory rate generated income before taxes of $84.1 million and related income tax expense of approximately $19.0 million. These jurisdictions included Germany, Switzerland, Indonesia, and France. The losses we generated from jurisdictions outside of the

United States were approximately $107.8 million with a related tax expense of $21.4 million. Those jurisdictions included Luxembourg, Hong Kong, China, Japan and Brazil, which did not provide tax benefit to us due to recurring losses.

(3) We refer to EBITDA in making operating decisions because we believe it provides meaningful supplemental information regarding the Company's operational performance. We present EBITDA because we believe that it is useful for investors to analyze disclosures of our operating results on the same basis as that used by our management. We believe the use of EBITDA as a metric assists our board of directors, management and investors in comparing our operating performance on a consistent basis because it removes the impact of our capital structure (such as interest expense), asset base (such as depreciation and amortization) and tax structure. See reconciliation of EBITDA to net income (loss) below (in millions):

There are limitations to using financial measures such as EBITDA. Other companies in our industry may define EBITDA differently than we do. As a result, it may be difficult to use EBITDA, or similarly-named financial measures that other companies may use, to compare the performance of those companies to our performance. The Company compensates for these limitations by providing reconciliations of our EBITDA results to our net income (loss), which is determined in accordance with U.S. GAAP.

Latex Segment

We are a global leader in SB latex, holding a strong market position across the geographies and applications in which we participate, including leading market positions in North America and Europe. We produce SB latex primarily for coated paper and packaging board, carpet and artificial turf backings as well as a number of performance latex applications. We believe our competitive differentiation is driven by our unique formulations and innovative technology. We have pilot coating facilities in the U.S. and Europe that are used to develop new products in close collaboration with our customers. We believe our formulation expertise, pilot coating facilities and long track record of serving the largest paper mills contributes to our high win rates with new mills. Our growth prospects in our Latex segment are enhanced by our strong position in China.

Six Months Ended June 30, 2013 Compared to the Six Months Ended June 30, 2012

Net sales for 2013 decreased by $117.9 million, or 14.4%, to $701.7 million from $819.6 million for 2012. The 14.4% decrease in net sales was due to lower selling prices, 9.4% of the total impact, and the remaining 5.0% unfavorable impact was driven by lower sales volumes. These decreases were primarily due to lower demand and the continued increasing competition in the European and Asian paper markets.

EBITDA for 2013 decreased by $17.2 million, or 26.1%, to $48.8 million from $66.0 million in 2012. This decrease was primarily driven by lower sales due to lower demand and continued increase in competition in the European and Asian paper markets coupled with the restructuring charges of $6.5 million recorded during the second quarter of 2013 in connection with the shutdown of our latex plant in Australia.

Year Ended December 31, 2012 Compared to the Year Ended December 31, 2011

Net sales for 2012 decreased by $298.4 million, or 16.2%, to $1,545.1 million from $1,843.5 million for 2011. Of the 16.2% decrease in net sales, 9.9% was driven by a decline in sales volume primarily due to lower demand in European and North American paper markets and 6.3% was due to lower selling prices, including 3.7% of unfavorable currency impact due to the strengthening of the U.S. dollar as compared to the euro.

EBITDA for 2012 increased by $4.0 million, or 3.3%, to $125.5 million from $121.5 million in 2011. This increase was primarily driven by our fixed cost improvements from prior year due to the cost reduction efforts implemented during 2011 and 2012, partially offset by a decline in volumes and net unfavorable currency impact due to the strengthening of the U.S. dollar as compared to the euro.

Year Ended December 31, 2011 Compared to the Aggregated Year Ended December 31, 2010

Net sales for 2011 increased by $344.9 million, or 23.0%, to $1,843.5 million from $1,498.6 million for 2010. Of the 23.0% increase in net sales, selling price increases, which included a currency impact of 2.0%, had an overall favorable impact on net sales of 33.0% for the year ended December 31, 2011. This increase was primarily related to the contractual pass-through of higher raw material input costs and the weakening of the U.S. dollar as compared to the euro. Volume had an unfavorable impact of 10.0% in 2011 due to customers substituting other products in the place of SB latex as a result of higher butadiene costs, as well as competitive pressures and slowing of customer end demand.

EBITDA for 2011 decreased by $30.1 million, or 19.9%, to $121.5 million from $151.6 million in 2010. This decline was driven mainly by substitution of other materials for SB latex, primarily in carpet backing applications, due to high butadiene prices. This had a negative impact on both volume and price with our customers. Margins were also negatively impacted by a geographical shift of sales from North America to our lower margin businesses in Asia.

Synthetic Rubber Segment

We are a significant producer of styrene-butadiene and polybutadiene-based rubber products and we have a leading European market position in SSBR. We have a very broad synthetic rubber technology and products portfolio in the industry, focusing on specialty products, such as SSBR and Li-PBR, while also producing core products, such as ESBR and Ni-PBR. Our synthetic rubber products are extensively used in tires, with additional applications in polymer modification and technical rubber goods. We believe our growth prospects in our Synthetic Rubber segment are enhanced by increasing demand for high-performance tires, resulting from European regulatory reforms that are aimed at improving fuel efficiency. Our expectation is that increasing fuel efficiency standards globally will drive significant demand growth for our SSBR technology. The 50 kMT capacity expansion at our Schkopau, Germany facility, which we announced in December 2010, began production in October 2012.

Six Months Ended June 30, 2013 Compared to the Six Months Ended June 30, 2012

Net sales for 2013 decreased by $35.3 million, or 9.6%, to $332.6 million from $367.9 million in 2012. Of the 9.6% decrease in net sales, 20.0%, net of an approximately 0.2% favorable currency impact as the U.S. dollar weakened compared to the euro, was due to lower selling prices mostly from lower raw materials costs passed through to customers and some reduction in selling prices due to weakened economic conditions in the tire market. The decrease was partially offset by an increase in sales volume of approximately 10.4% due to the SSBR capacity expansion completed in the fourth quarter of 2012 and the lower sales in second quarter of 2012 due to the scheduled plant turnaround.

EBITDA for 2013 decreased by $9.8 million, or 14.3%, to $58.6 million from $68.4 million for 2012. This decrease was primarily driven by lower margins due to less favorable timing of contractual pass through of raw material prices as well as lower selling prices on non-contractual sales that impacted our margin due to weaker market dynamics. These impacts were partially offset by higher sales volumes in 2013.

Year Ended December 31, 2012 Compared to the Year Ended December 31, 2011

Net sales for 2012 decreased by $147.6 million, or 17.4%, to $701.9 million from $849.5 million in 2011. Of the 17.4% decrease in net sales, 7.1% was driven by lower sales volume mainly due to lost production from a six-week long major maintenance turnaround during the second quarter. The decrease was also due to lower selling prices from lower raw materials cost pass-throughs to customers which resulted in an unfavorable impact on net sales of 10.3%, which includes unfavorable currency impact of approximately 5.8% due primarily to the strengthening of the U.S. dollar as compared to the euro.

EBITDA for 2012 decreased by $63.5 million, or 36.4%, to $111.1 million from $174.6 million for 2011. This decrease was primarily driven by lower margins, as we had higher margin on non-contractual sales in the prior year due to raw material market dynamics and lower sales volume mainly due to lost production from a major maintenance turnaround during the second quarter. These decreases were coupled with lower market demand and net unfavorable currency impact due to the strengthening of the U.S. dollar as compared to the euro. We estimate that the impact of this turnaround was the loss of approximately $10.0 million in EBITDA from lost volumes and production, as well as costs associated with the turnaround process.

Year Ended December 31, 2011 Compared to the Aggregated Year Ended December 31, 2010

Net sales for 2011 increased by $329.8 million, or 63.5%, to $849.5 million from $519.7 million in 2010. Of the 63.5% increase in net sales, selling price increases, which included a currency impact of approximately 4.0%, had an overall favorable impact on net sales of 46.1% for the year ended December 31, 2011. This increase was due to raw material price increases passed through to customers, a shift in our sales mix to higher priced grades of SSBR, and the weakening of the U.S. dollar as compared to the euro. Volume also had a favorable impact of 17.4%, due to the high cost of natural rubber and butadiene in Asia.

EBITDA for 2011 increased by $92.3 million, or 112.1%, to $174.6 million from $82.3 million for 2010. This increase was driven by higher volumes, a shift in our mix to higher margin SSBR products, and our ability to sell in the spot market at higher prices, specifically in Asia.

Styrenics Segment

Our Styrenics segment includes polystyrene, ABS and SAN products, as well as our internal production and sourcing of styrene monomer, a raw material common in SB latex, synthetic rubber and styrenics products. We are a leading producer of polystyrene and mass ABS (“mABS”). We focus our marketing efforts on applications such as appliances and consumer electronics where our products offer superior properties, such as rigidity, insulation and colorability, and, in some cases, an improved environmental footprint versus general purpose polystyrene or emulsion ABS. The Styrenics segment also serves the packaging and construction end-use markets.

We believe our growth prospects in our Styrenics segment are enhanced by recent trends of industry capacity reduction and consolidation. We believe our growth prospects are further enhanced by our established manufacturing footprint in the high economic growth region of Asia and our focus on attractive end markets where improving living standards drive demand for appliances and consumer electronics.

Six Months Ended June 30, 2013 Compared to the Six Months Ended June 30, 2012

Net sales for 2013 increased by $133.7 million, or 12.5%, to $1,199.3 million from $1,065.6 million in 2012. Of the 12.5% increase in net sales, 12.4%, including a favorable currency impact of 0.2% due to the weakening of the U.S. dollar compared to the euro, was driven by increases in selling prices due to the higher cost of raw materials, particularly styrene, as well as actions to increase selling prices above raw material cost increases.

EBITDA for 2013 increased by $2.8 million, or 7.0%, to $43.0 million from $40.2 million in 2012. This increase was attributable primarily to selling price increases outpacing raw material cost increases. This was offset by $3.3 million of an impairment loss in connection with the sale of our EPS business during the second quarter of 2013

Year Ended December 31, 2012 Compared to the Year Ended December 31, 2011

Net sales for 2012 decreased by $157.8 million, or 6.8%, to $2,149.2 million from $2,307.0 million in 2011. Of the 6.8% decrease in net sales, 4.1% was driven by a decline in sales volume due to a weaker market and 5.3% was driven by the negative currency impact of the strengthening of the U.S. dollar as compared to the euro. These decreases were offset by increases in selling prices during the year primarily due to higher costs of raw materials that were able to be passed onto customers.

EBITDA for 2012 increased by $10.7 million, or 14.8%, to $82.9 million from $72.2 million in 2011. This increase was attributable primarily to our fixed cost improvements from prior year due to the cost reduction efforts implemented during 2011 and 2012 and an increase in selling prices, partially offset by higher raw material costs as product price increases lagged raw materials cost increases.

Year Ended December 31, 2011 Compared to the Aggregated Year Ended December 31, 2010

Net sales for 2011 increased by $400.5 million, or 21.0%, to $2,307.0 million from $1,906.5 million in 2010. Of the 21.0% increase in net sales, selling price increases, which included a currency impact of 4.0%, had an overall favorable impact on net sales of 24.8% for the year ended December 31, 2011. This increase was due primarily to higher raw material input costs that were passed on to customers and the weakening of the U.S. dollar as compared to the euro. Volume had an unfavorable impact of 3.8% driven by a weaker market.

EBITDA for 2011 decreased by $7.4 million, or 9.3%, to $72.2 million from $79.6 million in 2010. This decrease was attributable to lower volume.

Six Months Ended June 30, 2013 Compared to the Six Months Ended June 30, 2012

Net sales for 2013 decreased by $32.1 million, or 5.8%, to $519.7 million from $551.8 million in 2012. This decrease was primarily driven by lower sales volume of approximately 5.2% due to weaker Asia electronics and Europe automotive markets. Selling prices decreased 0.6%, net of a 0.1% favorable currency impact due to the weakening of the U.S. dollar compared to the euro.

EBITDA decreased by $22.2 million to negative $3.7 million in 2013 from positive $18.5 million in 2012. This decrease was primarily due to lower sales volume, particularly in the Asia electronics and Europe automotive markets, and lower selling prices that impacted our margin due to continuing competitive pressure in our polycarbonate business.

Year Ended December 31, 2012 Compared to the Year Ended December 31, 2011

Net sales for 2012 decreased by $137.2 million, or 11.5%, to $1,055.7 million from $1,192.9 million in 2011. Of the 11.5% decrease in net sales, approximately 3.8% was driven by lower sales volume due to strong competitive pressures specifically within the polycarbonate markets and 7.7% was due to lower selling prices, which includes unfavorable currency impacts of approximately 4.2% due to the strengthening of the U.S. dollar as compared to the euro.

EBITDA for 2012 increased by $5.2 million, or 19.8%, to $31.5 million from $26.3 million in 2011. This increase was due to the cost reduction efforts implemented during 2011 and 2012 and higher margins on our automotive products, which were offset by lower prices on our polycarbonate products, driven mostly by competitive pressures, particularly in Europe.

Year Ended December 31, 2011 Compared to the Aggregated Year Ended December 31, 2010

Net sales for 2011 increased by $151.1 million, or 14.5%, to $1,192.9 million from $1,041.8 million in 2010. Of the 14.5% increase in net sales, selling price increases, which included a currency impact of approximately 3.0%, had an overall favorable impact on net sales of 18.4% for the year ended December 31, 2011. This increase was primarily driven by higher raw material input costs, primarily Bisphenol-A (“BPA”), and favorable currency impact driven by the weakening of the U.S. dollar as compared to the euro. Volume had an unfavorable impact of 3.9% due to strong competitive pressures and lower global demand.

EBITDA for 2011 decreased by $89.9 million, or 77.4%, to $26.3 million from $116.2 million in 2010. This decline was primarily driven by raw material input cost increases that outpaced our ability to recover those increases through pricing actions with our customers.

Operating Activities

Net cash used in operating activities during the six months ended June 30, 2013 totaled $6.5 million, with net cash used in operating assets and liabilities totaling $40.0 million. The most significant components of the

changes in operating assets and liabilities for the six months ended June 30, 2013 of $40.0 million were increases in accounts receivable of $109.9 million and accounts payable and other current liabilities of $21.3 million, offset by decrease in inventory of $53.8 million. The increase in accounts receivable reflects an increase in sales during the period ended June 30, 2013, when compared to the second half of 2012, driven by higher sales volume. Inventory decreased due to higher inventory at the end of 2012 as a result of our rubber capacity expansion project placed in operation in the fourth quarter of 2012 and higher volume sold during the first half of 2013. Our accounts payable and other current liabilities increased mainly due to timing of payments.

Net cash provided by operating activities during the six months ended June 30, 2012 totaled $97.2 million, with net cash provided by operating assets and liabilities totaling $14.1 million. The most significant components of the change for the six months ended June 30, 2012 of $14.1 million were increases in inventory of $12.0 million and accounts receivable of $53.7 million, offset by increases of $98.2 million in accounts payable and other current liabilities. Increases in inventory and accounts payable and other current liabilities are a result of the Company's lower production volume during the fourth quarter of 2011. The increase in accounts receivable reflects an increase in sales driven by price increases during the last two months of the second quarter of 2012 when compared to the last two months in the fourth quarter of 2011.

Investing Activities

Net cash used in investing activities for the six months ended June 30, 2013 totaled $16.3 million consisting primarily of capital expenditures of $22.5 million during the period, net of proceeds from a government subsidy of $6.6 million related to our capital expansion project at our rubber facility in Schkopau, Germany. These investing activities were offset by cash proceeds from our accounts receivable securitization facility released from restrictions.

Net cash used in investing activities for the six months ended June 30, 2012 totaled $62.6 million consisting primarily of net capital expenditures of $58.7 million of which $38.2 million, net of proceeds from a government subsidy of $6.1 million, was related to our capital expansion project at our rubber facility in Schkopau, Germany.

Operating Activities

Net cash provided by operating activities during the year ended December 31, 2012 totaled $186.1 million, with net cash provided by operating assets and liabilities totaling $55.3 million. The most significant components of the changes in operating assets and liabilities for the year ended December 31, 2012 of $55.3 million were decreases in accounts receivable and income taxes payable of $84.7 million and $5.1 million, respectively, and increases in inventory and accounts payable and other current liabilities of $87.2 million and $67.9 million, respectively. Increases in inventory and accounts payable and other current liabilities are primarily due to increases in inventory during the fourth quarter of 2012 for our new rubber capacity expansion project placed in operation in October 2012. The decrease in accounts receivable reflects both a decrease in sales during the fourth quarter of 2012 driven by the decrease in sales volume as well as continued improvements in receivable collection efforts. In addition, despite the decreases in sales, we conserved the use of cash in our operations due to various cost savings initiatives implemented during the year. Net cash paid for income taxes during the year was approximately $20.4 million.

Net cash provided by operating activities during the year ended December 31, 2011 totaled $151.1 million, with net cash provided by operating assets and liabilities totaling $54.4 million. The most significant components of the change for the year ended December 31, 2011 of $54.4 million were a decrease in inventory of $53.9 million, a decrease in accounts receivable of $67.0 million, a decrease of $37.7 million in accounts payable and other current liabilities, a $27.6 million decrease in income taxes payable and a prepayment penalty of $7.7 million related to our extinguishment of long-term debt. Decreases in inventory and accounts payable and other current liabilities reflect our effort to reduce working capital and lower production volume during the fourth quarter of 2011. The decrease in accounts receivable reflects both a decrease in sales driven by volume declines during the fourth quarter of 2011 as well as improvements in receivable collection efforts. Additionally, we received $10.0 million from our unconsolidated affiliate, AmSty, as a return on our investment.

Net cash provided by operating activities during the Successor period of 2010 totaled $2.6 million, with net cash used in operating assets and liabilities totaling $59.2 million. The most significant components of the change for the Successor period of 2010 of $59.2 million were an increase in inventory of $77.6 million and an increase in accounts receivable of $99.7 million offset by an increase of $97.1 million in accounts payable and other current liabilities and a $23.4 million increase in income taxes payable. These changes were primarily a result of an increase in sales in the second half of 2010 driven by increases in raw material prices and correlating increases in pricing to our customers. Additionally, $56.5 million was used to fund acquisition-related expenses.

Net cash used in operating activities during the Predecessor period of 2010 totaled $352.6 million, with net cash used in operating assets and liabilities totaling $453.6 million. The most significant components of the change for the Predecessor period of 2010 of $453.6 million were an increase in inventory of $84.7 million and an increase in accounts receivable of $275.9 million primarily as a result of an increase in sales driven by increases in raw material prices and a decrease in accounts payable and other current liabilities of $67.0 million due to a planned pay-down of accounts payable in contemplation of the Acquisition.

Investing Activities

Net cash used in investing activities for the year ended December 31, 2012 totaled $117.3 million, consisting primarily of capital expenditures of $112.4 million and net of proceeds from a government subsidy of $6.1 million; $69.2 million of capital expenditures, net of subsidy, was related to our capital expansion project at our rubber facility in Schkopau, Germany.

Net cash used in investing activities for the year ended December 31, 2011 totaled $99.1 million consisting primarily of capital expenditures of $99.8 million of which $54.8 million was related to our capital project implemented at our rubber facility in Schkopau, Germany. Investing activities also included payment of $6.3 million to our Brazilian partner representing its 50% share of the proceeds from the sale of our assets in Styrenics Brazilian operations, partially offset by distributions from our unconsolidated affiliate, Sumika Styron, of $7.2 million representing a return of our investment.

Net cash used in investing activities for the Successor period of 2010 totaled $1,423.9 million consisting primarily of the cash payment for the Acquisition of $1,380.0 million, which is net of the $54.5 million of cash acquired, in addition to a $47.8 million payment related to the investment in the Sumika Styron joint venture and capital expenditures of $7.8 million. The Predecessor period of 2010 consisted of $1.4 million relating to capital expenditures.

In 2013, we anticipate capital expenditures in the amount of approximately $70.0 million, which we expect will be funded with cash flow from operations.

Financing Activities

Net cash used in financing activities during the year ended December 31, 2012 totaled $77.2 million. We had borrowings from our Revolving Facility and our accounts receivable securitization facility throughout the year to fund our working capital requirements, and repaid those borrowings from funds generated from operating activities. During the year ended December 31, 2012, our borrowings and repayments to our Revolving Facility were $1,105.0 million and $1,135.0 million, respectively, and our net repayments to our accounts receivable securitization facility were $16.4 million. Also, during the year ended December 31, 2012, we paid $147.0 million of the then outstanding Term Loans, of which $140.0 million was the required payment for the effectiveness of the fourth amendment to the Senior Secured Credit Facility. Further, in May 2012, we received an approximate $22.2 million equity contribution from our Parent in order to cure an event of default that occurred for the period ended March 31, 2012. In August 2012, we received a $140.0 million cash contribution from our Parent and used the proceeds to repay a portion of our then outstanding Term Loans (as mentioned above).

Net cash provided by financing activities during the year ended December 31, 2011 totaled $44.9 million. In February 2011, we received $1,379.4 million of additional proceeds from the Term Loans under our Senior Secured Credit Facility, net of deferred financing fees of $20.3 million. Such proceeds from the Term Loans borrowed in 2011 were used to repay $75.0 million of our Seller Note with Dow and the related interest and $780.0 million that was previously outstanding under the Term Loans and related interest. Additionally, we made a $521.5 million distribution to our shareholder. We also had borrowings from our Revolving Facility and our accounts receivable securitization facility throughout the year to fund our working capital requirements, and repaid those borrowings from funds generated from operating activities. Our net borrowings from these facilities in 2011 were $20.0 million and $35.2 million, respectively.

Net cash provided by financing activities during the Successor period of 2010 totaled $1,567.4 million, consisting primarily of borrowings of $784.0 million under the Term Loans in 2010, which was net of an original issue discount of $16.0 million and $130.0 million, net on the Revolving Facility. In addition, we received capital contributions of $650.0 million from our Parent and net proceeds resulting from the establishment and our subsequent draw down on the accounts receivable securitization facility of $83.4 million. These items were partially offset by principal payments on the outstanding Term Loans of $20.0 million and payments related to debt issuance costs of approximately $60.0 million. The proceeds from the borrowings and contributions were used to finance the Acquisition, transaction fees and acquisition related expenses, and our operations.

Net cash provided by financing activities consisted of cash transfers from Dow of $417.5 million during the Predecessor period of 2010.

Indebtedness and Liquidity

The following table outlines our outstanding indebtedness as of June 30, 2013 and December 31, 2012 and the associated interest expense, including amortization of debt issuance costs and debt discounts, and interest rate for such borrowings at June 30, 2013 and December 31, 2012.

Senior Secured Credit Facility

In January 2013, we amended our Senior Secured Credit Facility (the “2013 Amendment”). As part of the 2013 Amendment, we increased our Revolving Facility capacity from $240.0 million to $300.0 million, decreased the borrowing rate of the Revolving Facility through a decrease in the applicable margin rate from 4.75% to 3.00% as applied to base rate loans (which shall bear interest at a rate per annum equal to the Base Rate plus the Applicable Margin (as defined therein)), or 5.75% to 4.00% as applied to LIBO rate loans (which shall bear interest at a rate per annum equal to the LIBO rate plus the Applicable Margin plus the Mandatory Cost (as defined therein), if applicable), extended the maturity date to January 2018 and concurrently repaid our then outstanding Term Loans of $1,239.0 million using the proceeds from our sale of $1,325 million aggregate principal amount of the Original Notes issued in January 2013. The 2013 Amendment replaced our total leverage ratio requirement with a springing first lien net leverage ratio (as defined under the 2013 Amendment) and removed the interest coverage ratio requirement. If the outstanding balance under the Revolving Facility exceeds 25% of the $300.0 million borrowing capacity (excluding undrawn letters of credit up to $10.0 million) at a quarter end, then our first lien net leverage ratio may not exceed 5.25 to 1.00 for the quarter ending March 31, 2013, 5.00 to 1.00 for the subsequent quarters through December 31, 2013, 4.5 to 1.00 for each of the quarters ending in 2014 and 4.25 to 1.00 for each of the quarters ending in 2015 and thereafter.

As a result of the 2013 Amendment and repayment of the then outstanding amount under the Term Loans in January 2013, we recognized $20.7 million of a loss on extinguishment of debt during the first half of 2013, which consisted of the write-off of existing unamortized debt issuance cost and debt discount attributable to the Term Loans. Fees and expenses incurred in connection with the 2013 Amendment were $5.6 million, which were capitalized within “Deferred charges and other assets” in the condensed consolidated balance sheet and amortized into interest expense over the remaining term of the Revolving Facility using the straight-line method.

As of June 30, 2013, we did not have any outstanding borrowings under the Revolving Facility.

Accounts Receivable Securitization Facility

In August 2010, a variable interest entity in which we are the primary beneficiary, Styron Receivable Funding Ltd. ("SRF"), executed an agreement with a bank for an accounts receivable securitization facility. The facility permits borrowings of Styron Europe GmbH ("SE") up to a total of $160.0 million. Under the receivables facility, SE will sell its accounts receivable from time to time to SRF. In turn, SRF may sell undivided ownership interests in such receivables to commercial paper conduits in exchange for cash. We have agreed to continue servicing the receivables for SRF. Upon the sale of the interests in the accounts receivable by SRF, the conduits have a first priority perfected security interest in such receivables and, as a result, the receivables will not be available to our creditors or those of our subsidiaries. The accounts receivable securitization facility matures in August 2015. In May 2011, the accounts receivable securitization facility was amended to allow for the expansion of the pool of eligible accounts receivable to include a previously excluded German subsidiary.

In May 2013, we amended our accounts receivable securitization facility which increased our borrowing capacity from $160.0 million to $200.0 million, extended the maturity date to May 2016, lowered our borrowing cost, and allows for the expansion of the pool of eligible accounts receivable to include previously excluded U.S. and Netherlands subsidiaries. As a result of the amendment, we incurred $0.7 million in fees, which were capitalized within "Deferred charges and other assets" in the condensed consolidated balance sheet and amortized into interest expense using the straight-line method over the remaining term.

The accounts receivable securitization facility is subject to interest charges against both the amount of outstanding borrowings as well as the amount of available, but undrawn borrowings. As a result of the amendment to our accounts receivable securitization facility in May 2013 noted above, we lowered our borrowing costs. In regards to the outstanding borrowings, fixed interest charges were decreased from 3.25% plus variable commercial paper rates to 2.6% plus variable commercial paper rates. In regards to available, but undrawn borrowings, fixed interest charges were decreased from 1.50% to 1.40%.

As of June 30, 2013, there was approximately $177.4 million of accounts receivable available to support this facility, based on our pool of eligible accounts receivable. There were approximately $148.9 million of outstanding borrowings at June 30, 2013 included in short-term borrowings of the consolidated balance sheet. We have $28.5 million of availability under the accounts receivable securitization facility as of June 30, 2013.

Other Revolving Facilities

As of June 30, 2013, we had $3.4 million of outstanding borrowings under our short-term revolving facility through our subsidiary in China that provides for up to $15.0 million of uncommitted funds available for borrowings, subject to the availability of collateral. The facility is subject to annual renewal.

Our Senior Secured Credit facility limits our foreign working capital facilities to an aggregate principal amount of $75.0 million and further limits our foreign working capital facilities in certain jurisdictions in Asia, including China, to an aggregate principal amount of $25.0 million, except as otherwise permitted by the Senior Secured Credit Facility.

8.750% Senior Secured Notes Due 2019

In January 2013, we issued $1,325.0 million aggregate principal of our 8.750% Senior Secured Notes due 2019 and related guarantees. Interest on the notes is payable semi-annually on February 1st and August 1st of each year, commencing on August 1, 2013. The notes will mature on February 1, 2019. The proceeds from the issuance of the Original Notes were used to repay all of our then outstanding Term Loans under the Senior Secured Credit Facility and related refinancing fees and expenses.

We may redeem all or part of the notes at any time prior to August 1, 2015 by paying a make-whole premium, plus accrued and unpaid interest to the redemption date. We may redeem all or part of the notes at any time after August 1, 2015 at the redemption prices specified in "Description of the Exchange Notes—Optional Redemption." In addition, at any time prior to August 1, 2015, we may redeem up to 35% of the aggregate principal amount of the notes at a redemption price equal to 108.750% of the face amount thereof plus accrued and unpaid interest, if any, to the redemption date, with the net cash proceeds that we raise in certain equity offerings. We may also redeem, during any 12-month period commencing from the issue date until August 1, 2015, up to 10% of the original principal amount of the notes at a redemption price equal to 103% of the principal amount thereof, plus accrued and unpaid interest, if any, to, but not including, the date of redemption.

In connection with the issuance of the Original Notes, we also entered into the Registration Rights Agreement. Under the Registration Rights Agreement, we are required to prepare and file with the SEC a registration statement covering an offer to the holders of the Original Notes to exchange all of their notes for Exchange Notes. Additionally, we are required to use our reasonable best efforts to (1) cause that registration statement to be declared effective by the SEC and to remain effective for at least 180 days thereafter (or such earlier time when a broker dealer is no longer required to deliver a prospectus in connection with market-making or other trading activities); (2) complete the exchange offer within 60 days of such registration statement becoming effective; and (3) complete the exchange offer no later than January 29, 2014. If (i) any registration statement required by the Registration Rights Agreement (including a registration statement related to the exchange offer or a shelf registration statement related to the resale of the notes) is not declared effective on or prior to the Effectiveness Target Date (as defined in the Registration Rights Agreement); (ii) the exchange offer has not been consummated within thirty (30) business days after the Effectiveness Target Date, or (iii) any registered statement required by the Registration Rights Agreement is filed and declared effective but thereafter ceases to be effective or fails to be usable for its intended purpose under the Registration Rights Agreement, subject to certain exceptions, holders of the Original Notes will be entitled to the payment of additional interest, at a rate of 0.25% per annum of the principal amount of the Original Notes (which rate will be increased by an additional 0.25% per annum for each subsequent 90-day period that such additional interest continues to accrue, provided that the rate at which such additional interest accrues may in no event exceed 1.00% per annum) until the exchange offer is completed, at which point such additional interest will cease. See "Description of the Exchange Offer—Additional Registration Rights."

The notes are unconditionally guaranteed on a senior secured basis by us and each of our existing and future wholly-owned subsidiaries that guarantee our Senior Secured Credit Facility, other than our subsidiaries, Styron France S.A.S. and Styron Spain S.L. The notes and guarantees rank equally in right of payment with all of our existing and future senior secured debt and pari passu with our, the Issuers' and the Guarantors' indebtedness that is secured by first-priority liens, including the Senior Secured Credit Facility, to the extent of the value of the collateral securing such indebtedness and ranking senior in right of payment to all of our existing and future subordinated debt. However, claims under the notes will effectively rank behind the claims of holders of debt, including interest, under our Senior Secured Credit Facility in respect of proceeds from any enforcement action with respect to the collateral or in any bankruptcy, insolvency or liquidation proceeding. The guarantees will be structurally subordinated to all of the liabilities of each of our subsidiaries that do not guarantee the notes.

The Indenture contains covenants that, among other things, limit our ability and the ability of our restricted subsidiaries to incur additional indebtedness, pay dividends or make other distributions, subject to certain exceptions. If the notes are assigned an investment grade by the rating agencies and no default has occurred or is continuing, certain covenants will be suspended. If the ratings on the notes decline to below investment grade, the suspended covenants will be reinstated.

Fees and expenses incurred in connection with the issuance of the Original Notes were approximately $41.1 million, which were capitalized within "Deferred charges and other assets" in the condensed consolidated balance sheets and amortized into interest expense over the term of the Original Notes using the effective interest rate method.

Derivative Instruments

Foreign Exchange Forward Contracts

We manage our exposures to changes in foreign currency exchange rates where possible by paying expenses in the same currency in which we generate sales in a particular country as well as using derivative contracts which are not designated for hedge accounting treatment. During 2012, we entered into foreign exchange forward contracts that are not designated as hedging instruments to manage volatility in foreign currency exposures.

At December 31, 2012, we had open foreign exchange forward contracts with various expiration dates to buy and sell euro currency with a net notional U.S. dollar equivalent of $82.0 million. The fair value of the foreign exchange forward contracts amounted to $3.8 million as of December 31, 2012 and is recorded in “Accounts payable” in the condensed consolidated balance sheet. As these foreign exchange forward contracts are not designated for hedge accounting treatment, changes in the fair value of underlying instruments are recognized in “Other (income) expense” in the condensed consolidated statement of operations.

The contracts were settled in February and May 2013 and no contracts remained outstanding as of June 30, 2013. The Company recognized a loss of $0.6 million for the six months ended June 30, 2013.

Capital Resources and Liquidity

Our sources of liquidity include cash on hand, cash flow from operations and amounts available under the Senior Secured Credit Facility and the accounts receivable securitization facility. We believe, based on our current level of operations, that these sources of liquidity will be sufficient to fund our operations, capital expenditures and debt service for at least the next twelve months.

Our liquidity requirements are significant due to our highly leveraged nature, as well as our working capital requirements. As of June 30, 2013, we had $1,480.0 million in outstanding indebtedness and $712.6 million in working capital. As of December 31, 2012, we had $1,453.6 million in outstanding indebtedness and $778.1 million in working capital.

As discussed above, in January 2013, we repaid our outstanding Term Loans of $1,239.0 million through issuance of $1,325.0 million in Original Notes. Concurrently, with this repayment, we amended our Senior Secured Credit Facility to increase our Revolving Facility borrowing capacity from $240.0 million to $300.0 million. Also, in May 2013, we amended our accounts receivable securitization facility to increase our borrowing capacity from $160.0 million to $200.0 million, extended the maturity date to May 2016 and expanded the pool of eligible accounts receivable to include previously excluded U.S. and Netherlands subsidiaries. These amendments to our facilities provide for additional liquidity resources for us.

Our ability to raise additional financing and our borrowing costs may be impacted by short and long-term debt ratings assigned by independent rating agencies, which are based, in significant part, on our performance as measured by certain credit metrics such as interest coverage and leverage ratios.

We cannot make assurances that our business will generate sufficient cash flow from operations or that future borrowings will be available to us under the Senior Secured Credit Facility in an amount sufficient to enable us to pay our indebtedness, or to fund our other liquidity needs. Further, our highly leveraged nature may limit our ability to procure additional financing in the future. As of June 30, 2013 and December 31, 2012, we were in compliance with all the covenants and default provisions under our credit arrangements.

Contractual Obligations and Commercial Commitments

The following table reflects our contractual obligations as of December 31, 2012. Amounts we pay in future periods may vary from those reflected in the table (in millions):

	Payments due by year

(1) We have certain raw material purchase contracts where we are required to purchase certain minimum volumes at the then prevailing market prices. These commitments range from 1 to 8 years. In certain raw material purchase contracts, we have the right to purchase less than required minimums and pay a liquidated damages fee, or, in case of a permanent plant shutdown, to terminate the contracts. In such cases these obligations would be less than the obligations shown in the table above.

(2) Includes amounts due under the Senior Secured Credit Facility, including outstanding Term Loans and Revolving Facility amounts but excludes amounts outstanding on the accounts receivable securitization facility of $93.5 million as of December 31, 2012. The indebtedness amounts included on the table were based on the maturity dates existing as of December 31, 2012. In January 2013, the outstanding Term Loans were repaid in full using the proceeds from Original Notes. The Original Notes have aggregate principal amount of $1,325.0 million due on February 1, 2019.

(3) Includes estimated interest payments, based on interest rates in effect at December 31, 2012, due under the Term Loans. Estimated interest payments do not include the Revolving Facility or accounts receivable securitization facility as amounts outstanding under these facilities vary due to periodic borrowings and repayments. The estimated interest payments on the Original Notes issued in January 2013 is approximately $115.9 million annually.

(4) Includes minimum contributions required to be made to the funded pension plans and expected benefit payments to the employees for unfunded pension plans.

(5) Excludes certain estimated future commitments under agreements with Dow, including a Master Outsourcing Services Agreement ("MOSA") under which Dow provides administrative and operational services for the Company and 25-year site services, utilities and facilities agreements with Dow pursuant to which Dow provides utilities and site services to certain of our facilities co-located with Dow. As of December 31, 2012, we estimate the minimum contractual obligations under the MOSA to be $50.6 million through June 30, 2013 and $0 thereafter. As of December 31, 2012, our estimated minimum contractual obligations for the site service agreements with Dow are $11.5 million annually for 2013 through 2017. Should we continue this agreement, we estimate our cumulative obligation would be approximately $4.8 billion through June 16, 2035. Refer to Note Q to the 2012 consolidated financial statements for further details.

Effective as of June 1, 2013, we entered into a Second Amended and Restated Master Outsourcing Services Agreement ("SAR MOSA"). The SAR MOSA replaces, modifies and extends the earlier MOSA and extended the MOSA term until December 31, 2020. As of June 30, 2013, we estimate our minimum obligation under the SAR MOSA, excluding any adjustment for inflation, to be approximately $50.0 million

through December 31, 2013 and $0 thereafter. However, should we continue with this agreement, we estimate our minimum cumulative obligation would be approximately $330.0 million through December 31, 2020.

(6) Includes estimated future commitments under the advisory agreement with Bain Capital (the "Advisory Agreement") under which the Bain Capital provide us with management and consulting services and financial and other advisory services. The Advisory Agreement has an initial 10-year initial term and thereafter is subject to automatic one-year extensions unless the Bain Capital provides written notice of termination. In addition, the Advisory Agreement will terminate automatically upon an initial public offering or a change of control. Refer to Note Q to the 2012 consolidated financial statements for further details.

(7) Due to uncertainties in the timing of the effective settlement of tax positions with the respective taxing authorities, the Company is unable to determine the timing of payments related to its uncertain tax positions, including interest and penalties. Amounts are therefore reflected in "Thereafter".

We also have minimum funding requirements with respect to our pension obligations. Based on these minimum funding requirements, our required contributions for the remainder of 2013 is approximately $10.0 million. We may elect to make contributions in excess of the minimum funding requirements in response to investment performance or changes in interest rates or when we believe that it is financially advantageous to do so and based on our other cash requirements. Our minimum funding requirements after 2012 will depend on several factors, including investment performance and interest rates. Our minimum funding requirements may also be affected by changes in applicable legal requirements. We also have payments due with respect to our postretirement benefit obligation. We do not fund our postretirement benefit obligation. Rather, payments are made as costs are incurred by covered retirees. We expect benefit payments related to our postretirement benefit obligation to be $1.9 million through 2022.

Critical Accounting Policies and Estimates

Our discussion and analysis of results of operations and financial condition are based upon our financial statements. These financial statements have been prepared in accordance with U.S. GAAP. The preparation of these financial statements requires us to make estimates and judgments that affect the amounts reported in the financial statements. We base our estimates and judgments on historical experiences and assumptions believed to be reasonable under the circumstances and re-evaluate them on an ongoing basis. Actual results could differ from our estimates under different assumptions or conditions. Our significant accounting policies, which may be affected by our estimates and assumptions, are more fully described in Note B to our 2012 consolidated financial statements in this prospectus. An accounting policy is deemed to be critical if it requires an accounting estimate to be made based on assumptions about matters that are highly uncertain at the time the estimate is made, and if different estimates that reasonably could have been used, or changes in the accounting estimates that are reasonably likely to occur periodically, could materially impact the financial statements. Management believes the following critical accounting policies reflect its most significant estimates and assumptions used in the preparation of the financial statements.

Acquisitions

We account for our business acquisitions under the acquisition method of accounting. The total cost of acquisitions is allocated to the underlying identifiable assets and liabilities based on their respective estimated fair values. The excess of the purchase price over the estimated fair values of the net assets acquired is recorded as goodwill. Determining the fair value of assets acquired and liabilities assumed requires management's judgment and often involves the use of significant estimates and assumptions, including assumptions with respect to future cash inflows and outflows, discount rates, asset lives and market multiples, among other items.

The fair values of intangible assets are estimated using an income approach. Under this method, an intangible asset's fair value is equal to the present value of the incremental after-tax cash flows (excess earnings)

attributable solely to the intangible asset over its remaining useful life. These intangible assets enable us to develop new products to meet the evolving business needs as well as competitively produce our existing products. Based upon our expected product lives and related cash flows, we estimated the useful life of this "Developed Technology" to be 15 years. Our Developed Technology includes our technical knowledge and manufacturing capabilities/processes that we believe would be difficult to replicate. We and our Predecessor have a proven history and reputation of successfully converting technology into manufactured products. The useful life of the Developed Technology was determined by management's estimate of how long the current technology and know-how will be in place before being subject to a transition into new and advanced know-how. Because these intangible assets are subject to continuous improvement, revision, or replacement, we considered the risk of technological obsolescence when estimating the useful life of these assets. Based on our analysis, we believe the 15 year useful life of our acquired Developed Technology is appropriate. Additionally, we are not aware of any legal, regulatory or contractual provisions or other factors that would change our estimate of the useful life of the Developed Technology. The fair value of real properties acquired was based on the consideration of their highest and best use in the market. The fair values of property, plant, and equipment, other than real properties that include leasehold improvements acquired, were based on the consideration that unless otherwise identified, they will continue to be used "as is" and as part of the ongoing business. In contemplation of the in-use premise and the nature of the assets, the fair value was developed primarily using a cost approach. Additionally, based on our valuation we determined that approximately 6.5% of the acquired fixed assets' values had approximately one year of a remaining useful life and, therefore, we incurred higher depreciation during our first twelve months following the acquisition date of June 17, 2010.

As of June 30, 2011, the one-year measurement period surrounding the Acquisition ended. During 2012, certain adjustments were identified related to accounting for the Acquisition. As such, we recorded $8.7 million to goodwill to correct our final purchase price allocation with the offsets recorded primarily to Deferred Income Taxes and Pension Liabilities. We do not believe this is material to the prior year financial statements or the current year financial statements. Accordingly, the purchase price allocation for the Acquisition is complete. As part of the Acquisition, we have been indemnified for various tax matters, including income tax and value added taxes ("VAT"), as well as legal liabilities which were incurred prior to the Acquisition. Conversely, certain tax matters from which we have benefitted would be subject to reimbursement by us to Dow. These amounts have been estimated and provisional amounts have been recorded based on the information known during the measurement period; however, these amounts remain subject to change based on the completion of our annual statutory filings, tax authority review as well as negotiation with Dow. Management believes our estimates and assumptions are reasonable under the circumstances, however, settlement negotiations or changes in estimates around pre-Acquisition indemnifications could result in a material impact on our financial statements.

Allowance for Doubtful Accounts

We maintain an allowance for doubtful accounts that reduces receivables to amounts that are expected to be collected. In estimating the allowance, management considers factors such as current overall geographic and industry-specific economic conditions, statutory requirements, accounts receivable turnover, historical and anticipated customer performance, historical experience with write-offs as a stand-alone Company and the level of past-due amounts. Changes in these conditions may result in changes in our allowance. After all attempts to collect a receivable have failed and local legal requirements are met, the receivable is written off against the allowance. Our trade accounts receivable balance decreased from December 31, 2011 to December 31, 2012 primarily a result of an improved trade receivable portfolio as well as improvements in our collections.

Pension Plans and Postretirement Benefits

We have various company-sponsored retirement plans covering substantially all employees. We also provide certain health care and life insurance benefits mainly to certain retirees in the United States. The plans provide health care benefits, including hospital, physicians' services, drug and major medical expense coverage, and life insurance benefits. We recognize the underfunded or overfunded status of a defined benefit pension or

postretirement plan as an asset or liability in our balance sheet and recognize changes in the funded status in the year in which the changes occur through accumulated other comprehensive income, which is a component of shareholder's equity.

Pension benefits associated with these plans are generally based on each participant's years of service, compensation, and age at retirement or termination. The discount rate is an important element of expense and liability measurement. See Note O to our 2012 consolidated financial statements for additional discussion of actuarial assumptions used in determining pension and postretirement health care liabilities and expenses. We evaluate our assumptions at least once each year, or as facts and circumstances dictate, and make changes as conditions warrant.

We determine the discount rate used to measure plan liabilities as of the December 31 measurement date for the pension and postretirement benefit plans. The discount rate reflects the current rate at which the associated liabilities could be effectively settled at the end of the year. We set our rate to reflect the yield of a portfolio of high quality, fixed-income debt instruments that would produce cash flows sufficient in timing and amount to settle projected future benefits. Using this methodology, we determined a discount rate of 3.05% for pension and 3.93% for postretirement benefits to be appropriate as of December 31, 2012.

We determine the expected long-term rate of return on assets by performing a detailed analysis of historical and expected returns based on the underlying assets, which generally are insurance contracts. We also consider our historical experience with the pension fund asset performance. The expected return of each asset class is derived from a forecasted future return confirmed by current and historical experience. The weighted-average long-term rate of return assumption used for determining net periodic pension expense for 2012 was 4.09%, while the weighted-average long-term rate of return assumption used for determining net periodic pension expense for 2013 was 2.44%. The decrease was primarily due to certain assets moving to financial instruments with guaranteed returns. Future actual pension expense will depend on the performance of the underlying assets and changes in future discount rates, among other factors.

Holding all other factors constant, a 0.25 percentage point increase (decrease) in the discount rate used to determine net periodic cost would decrease (increase) 2013 pension expense by approximately $1.7 million and $(1.8) million, respectively. Holding all other factors constant, a 0.25 percentage point increase (decrease) in the long-term rate of return on assets used to determine net periodic cost would decrease (increase) 2013 pension expense by approximately $0.2 million and $(0.2) million, respectively.

Stock-Based Compensation

Our Parent granted various service-based and performance-based restricted stock awards ("incentive shares") to certain officers and key members of management since June 17, 2010. Compensation expense related to service-based restricted stock awards is equivalent to the grant-date fair value of our Parent's common stock adjusted for the return of co-investment share and other equity investment amounts, as discussed below, and is being recognized as compensation expense over the service period utilizing graded vesting. At the grant date, we estimated a forfeiture rate of zero based on historical experience and the limited number of officers and management receiving grants. During the years ended December 31, 2012 and 2011, respectively, 6,778 and 24,206 shares of service-based restricted stock awards were forfeited due to termination of certain employees. As a result, we recorded $1.0 million and $1.2 million of adjustments to our compensation expense for the years ended December 31, 2012 and 2011, respectively. At this time, we do not expect any significant forfeitures in the foreseeable future or the remaining service period of the related grants.

The fair values of performance-based restricted stock awards were determined using a combination of a call option and digital option model that incorporated the fair value of our Parent's common stock, the return on investment targets that must be met, and assumptions about volatility, time until a performance condition will be met, risk-free interest rates and dividend yield. At this time, we do not consider the likelihood of meeting the

performance obligations probable and have, therefore, recorded no compensation cost related to these awards. During the years ended December 31, 2012 and 2011, respectively, 10,651 and 24,206 shares of performance-based restricted stock awards were forfeited due to termination of certain employees.

Our co-investment shares were issued for a subscription price of $397.2 and $166.7 per share during the years ended December 31, 2011 and December 31, 2010, respectively. There were no co-investment shares issued during the year ended December 31, 2012. Our incentive shares were issued for a subscription price of $0.01 per share.

In 2011, we recorded stock-based compensation expense of $11.1 million reflecting the settlement of previously unvested service-based and performance-based restricted stock awards redeemed. The redemption is a result of the February 2011 refinancing of the then outstanding Term Loans in which we used a portion of the proceeds to pay a distribution to the stockholders of the Parent, including Bain Capital, Dow and certain executives, through redemption of certain classes of our Parent's shares. During 2012, we recorded adjustments to stock-based compensation expense resulting in a cumulative reduction of expense of approximately $2.5 million. The adjustments relate to the correction of prior period grant date fair values of service-based and performance-based restricted stock awards and the correction of certain prior period grant service-based stock award vesting periods.

In 2012, our Parent also agreed to retention awards with certain executive officers. These awards vest over one to four years, and are payable upon vesting subject to the participant's continued employment with the company on the vesting date. Compensation expense related to these retention awards is equivalent to the value of the award, and is recognized as compensation expense ratably over the applicable service period. There were no retention awards granted by our Parent in 2011.

Our Parent is a private company with no active public market for its common stock. For grants made on June 17, 2010 and through the third quarter of 2010, the awards were valued using a share price derived from the purchase price of the acquired assets and liabilities on that date. For grants awarded in the fourth quarter of 2010 and through 2012, our Parent determined the estimated per share fair value of its common stock using a contemporaneous valuation consistent with the American Institute of Certified Public Accountants Practice Aid, "Valuation of Privately-Held Company Equity Securities Issued as Compensation" (the "Practice Aid"). In conducting this valuation, our Parent considered all objective and subjective factors that it believed to be relevant, including its best estimate of its business condition, prospects, and operating performance. Within this contemporaneous valuation, a range of factors, assumptions, and methodologies were used. The significant factors included:

- the fact that we and our parent were private companies with illiquid securities;
- our historical operating results;
- our discounted future cash flows, based on our projected operating results;
- valuations of comparable public companies; and
- the risk involved in the investment, as related to earnings stability, capital structure, competition and market potential.

For the contemporaneous valuation of our Parent's common stock, management estimated, as of the grant date, our enterprise value on a continuing operations basis, using the income and market approaches, as described in the Practice Aid. The income approach utilized the discounted cash flow ("DCF") methodology based on our financial forecasts and projections, as detailed below. The market approach utilized the Guideline Public Company and Guideline Transactions methods, as detailed below.

For the DCF methodology, we prepared annual projections of future cash flows through 2015. Beyond 2015, projected cash flows through the terminal year were projected at long-term sustainable growth rates consistent

with long-term inflationary and industry expectations. Our projections of future cash flows were based on our estimated net debt-free cash flows and were discounted to the valuation date using a weighted-average cost of capital estimated using market participant assumptions.

For the Guideline Public Company and Guideline Transactions methods, we identified a group of comparable public companies and recent transactions within the chemicals industry. For the comparable companies, we estimated market multiples based on trading prices and trailing 12 months EBITDA and projected future EBITDA. These multiples were then applied to our trailing 12 months and projected EBITDA. When selecting comparable companies, consideration was given to industry similarity, their specific products offered, financial data availability and capital structure.

For the comparable transactions, we estimated market multiples based on prices paid for the related transactions and trailing 12 months EBITDA. These multiples were then applied to our trailing 12 months EBITDA. The results of the market approaches corroborated the fair value determined using the income approach.

Asset Impairments

As of December 31, 2012, net property, plant and equipment totaled $636.8 million, net identifiable finite-lived intangible assets totaled $176.2 million and goodwill totaled $36.1 million. As of December 31, 2011, net property, plant and equipment totaled $592.4 million, net identifiable finite-lived intangible assets totaled $184.2 million and goodwill totaled $26.3 million. Management makes estimates and assumptions in preparing the financial statements for which actual results will emerge over long periods of time. This includes the recoverability of long-lived assets employed in the business, including assets of acquired businesses. These estimates and assumptions are closely monitored by management and periodically adjusted as circumstances warrant. For instance, expected asset lives may be shortened or impairment recorded based on a change in the expected use of the asset or performance of the related asset group.

We evaluate long-lived asset and finite-lived identifiable intangible assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset or asset groupings may not be recoverable. When undiscounted future cash flows are not expected to be sufficient to recover an asset’s carrying amount, the asset is written down to its fair value based on a discounted cash flow analysis utilizing market participant assumptions. We have continued to assess the recoverability of certain of our assets, and concluded there are no events or circumstances identified by management that would indicate our assets are not recoverable. However, the current environment is subject to changing market conditions and requires significant management judgment to identify the potential impact to our assessment. If we are not able to achieve certain actions or our future operating results do not meet our expectations, it is possible that impairment charges may need to be recorded on one or more of our operating facilities.

Long-lived assets to be disposed of by sale are classified as held for sale and are reported at the lower of carrying amount or fair value less cost to sell, and depreciation is ceased. Long-lived assets to be disposed of other than by sale are classified as held and used until they are disposed of.

Our goodwill impairment testing is performed annually as of October 1st. We will perform more frequent impairment tests should events or changes in circumstances indicate that the fair value of a reporting unit has more likely than not declined below its carrying value. Impairment testing for goodwill is done at a reporting unit level.

We determined that as of our annual assessment date of October 1 , 2012, each of our reporting units had fair values that substantially exceeded the carrying values indicating that none of our goodwill is impaired.

An impairment loss generally would be recognized when the carrying amount of the reporting unit’s net assets exceeds the estimated fair value of the reporting unit. The estimated fair value of a reporting unit is

determined using a discounted cash flow analysis. At December 31, 2012, our $36.1 million in total goodwill is allocated as follows to our reportable segments: $14.3 million to Latex, $9.8 million to Synthetic Rubber, $8.7 million to Styrenics and $3.3 million to Engineered Polymers.

Factors which could result in future impairment charges, among others, include changes in worldwide economic conditions, changes in technology, changes in competitive conditions and customer preferences, and fluctuations in foreign currency exchange rates. These risk factors are discussed in “Quantitative and Qualitative Disclosures about Market Risk,” and “Risk Factors” included in this prospectus.

Income Taxes

During the Predecessor period, the Styron business was primarily included in the tax returns of Dow entities within the respective tax jurisdictions. The income tax provision and related balance sheet amounts included in the Predecessor period combined financial statements were calculated using a separate return basis, as if the Styron business was a separate taxpayer.

We account for income taxes using the asset and liability method. Under this method, deferred tax assets and liabilities are recognized for the future tax consequences of temporary differences between the carrying amounts and tax bases of assets and liabilities using enacted rates. The effect of a change in tax rates on deferred taxes is recognized in income in the period that includes the enactment date. Deferred taxes are provided on the outside basis differences and unremitted earnings of subsidiaries outside of Luxembourg. All undistributed earnings of foreign subsidiaries and affiliates are expected to be repatriated at December 31, 2012. Based on the evaluation of available evidence, both positive and negative, we recognize future tax benefits, such as net operating loss carryforwards and tax credit carryforwards, to the extent that realizing these benefits is considered to be more likely than not.

At December 31, 2012, we had a net deferred tax asset balance of $89.5 million, after valuation allowances of $41.3 million. In evaluating the ability to realize the deferred tax assets, we rely on, in order of increasing subjectivity, taxable income in prior carryback years, the future reversals of existing taxable temporary differences, tax planning strategies and forecasted taxable income using historical and projected future operating results. At December 31, 2012, we had deferred tax assets for tax loss carryforward of approximately $47.2 million, $3.6 million of which is subject to expiration in the years between 2013 and 2017. We continue to evaluate our historical and projected operating results for several legal entities for which we maintain valuation allowances on net deferred tax assets.

We are subject to income taxes in Luxembourg, the United States and numerous foreign jurisdictions, and are subject to audit within these jurisdictions. Therefore, in the ordinary course of business there is inherent uncertainty in quantifying our income tax positions. The tax provision includes amounts considered sufficient to pay assessments that may result from examinations of prior year tax returns; however, the amount ultimately paid upon resolution of issues raised may differ from the amounts accrued. Since significant judgment is required to assess the future tax consequences of events that have been recognized in our financial statements or tax returns, the ultimate resolution of these events could result in adjustments to our financial statements and such adjustments could be material. Therefore, we consider such estimates to be critical in preparation of our financial statements.

The financial statement effect of an uncertain income tax position is recognized when it is more likely than not, based on the technical merits, that the position will be sustained upon examination. Accruals are recorded for other tax contingencies when it is probable that a liability to a taxing authority has been incurred and the amount of the contingency can be reasonably estimated. Uncertain income tax positions have been recorded in “Other noncurrent obligations” in the consolidated balance sheets for the periods presented.

Management judgment is required in determining our provision for income taxes, our deferred tax assets and liabilities, and any valuation allowance recorded against our deferred tax assets. The valuation allowance is

based on our estimates of future taxable income and the period over which we expect the deferred tax assets to be recovered. Our assessment of future taxable income is based on historical experience and current and anticipated market and economic conditions and trends. In the event that actual results differ from these estimates or we adjust our estimates in the future, we may need to adjust our valuation allowance, which could materially impact our financial position and results of operations.

Quantitative and Qualitative Disclosures About Market Risk

We are exposed to changes in interest rates and foreign currency exchange rates because we finance certain operations through fixed and variable rate debt instruments and denominate our transactions in a variety of foreign currencies. We are also exposed to changes in the prices of certain commodities that we use in production. Changes in these rates and commodity prices may have an impact on future cash flow and earnings. We manage these risks through normal operating and financing activities and, when deemed appropriate, through the use of derivative financial instruments. We do not enter into financial instruments for trading or speculative purposes.

By using derivative instruments, we are subject to credit and market risk. The fair market value of the derivative instruments is determined by using valuation models whose inputs are derived using market observable inputs, including interest rate yield curves, as well as foreign exchange and commodity spot and forward rates, and reflects the asset or liability position as of the end of each reporting period. When the fair value of a derivative contract is positive, the counterparty owes us, thus creating a receivable risk for us. We are exposed to counterparty credit risk in the event of non-performance by counterparties to our derivative agreements. We minimize counterparty credit (or repayment) risk by entering into transactions with major financial institutions of investment grade credit rating.

Our exposure to market risk is not hedged in a manner that completely eliminates the effects of changing market conditions on earnings or cash flow.

Interest Rate Risk

Given the leveraged nature of our Company, we have exposure to changes in interest rates. From time to time, we may execute a variety of interest rate derivative instruments to manage interest rate risk.

We use interest rate cap agreements to protect cash flows from fluctuations caused by volatility in interest rates. At December 31, 2012, we had three outstanding interest rate caps with an aggregate notional amount of $490.0 million, representing 39.5% of the $1,239.0 million of the then outstanding Term Loan under the Senior Secured Credit Facility. These agreements all were settled in January 2013, and no interest rate caps were outstanding as of June 30, 2013.

Our interest rate risk management strategy is to use derivative instruments to minimize significant unanticipated earnings fluctuations that may arise from volatility in interest rates of our borrowings and to manage the interest rate sensitivity of our debt. At December 31, 2012, the non-current asset associated with interest rate agreements was recorded on the balance sheet in deferred charges and other assets at fair value. We do not account for the interest rate cap agreements as hedges. As such, changes in the fair value of derivative instruments are recognized in interest expense, net.

At December 31, 2012, the interest rate caps had a fair value of approximately less than $0.1 million.

Our long-term debt as of December 31, 2012 consisted of $1,239.0 million outstanding under our Senior Secured Credit Facility, which carried a weighted average variable interest rate of 6.8%. An increase of 100 basis points in the LIBOR would result in no additional interest expense due to LIBOR being below the LIBOR floor of 1.5% as specified in our Senior Secured Credit Facility, however, if LIBOR were at or above the LIBOR floor,

an increase of 100 basis point in LIBOR would result in additional annual interest expense of $12.4 million. As previously discussed, in January 2013, we repaid our outstanding Term Loans of $1,239.0 million through the issuance of the Original Notes, which carried a fixed interest rate of 8.75%.

As of June 30, 2013, we had no variable rate debt issued under our Senior Secured Credit Facility.

As of June 30, 2013, there was approximately $148.9 million in outstanding borrowings and $28.5 million of availability under the accounts receivable securitization facility. The accounts receivable securitization facility is subject to interest charges against both the amount of outstanding borrowings as well as the amount of available, but undrawn, borrowings under the accounts receivable securitization facility. In regards to outstanding borrowings on the accounts receivable securitization facility, fixed interest charges are 2.6% plus variable commercial paper rates which vary by month and by currency as outstanding account receivable securitization facility balances can be denominated in euro and U.S. dollar. In regards to available, but undrawn, borrowings under the accounts receivable securitization facility, fixed interest charges are 1.4%. As of June 30, 2013, an increase of 100 basis points in variable commercial paper rates would result in approximately $1.2 million of additional interest expense for the period.

Foreign Currency Risks

We are also exposed to market risk from changes in foreign currency exchange rates which could affect operating results as well as our financial position and cash flows. We manage our transaction risk where possible by paying expenses in the same currency in which we generate sales in a particular country. We may employ derivative contracts in the future which are not designated for hedge accounting treatment which may result in volatility to earnings depending upon fluctuations in the underlying markets. As of June 30, 2013, we had no open foreign exchange forward contracts. As of December 31, 2012, we had three open foreign exchange forward contracts with expiration dates in February and May 2013 to buy and sell euro currency with an aggregate net notional U.S. dollar equivalent of $82.0 million.

Our foreign currency exposures include the euro, British pound, Chinese renminbi, Indian rupee, Korean won, Japanese yen, Brazilian real and Swedish krona. The primary foreign currency exposure relates to the U.S. dollar to euro exchange rate.

We have legal entities consolidated in our financial statements that have functional currencies other than U.S. dollar, our reporting currency. As a result of currencies fluctuating against the U.S. dollar, currency translation gains and losses are recorded in other comprehensive income primarily as a result of the remeasurement of our euro functional legal entities as of June 30, 2013 and December 31, 2012.

Commodity Price Risk

We purchase certain raw materials such as benzene, ethylene, butadiene, BPA and styrene under short- and long-term supply contracts. The purchase prices are generally determined based on prevailing market conditions. Changing raw material and energy prices have had material impacts on our earnings and cash flows in the past and will likely continue to have significant impacts on our earnings and cash flows in future periods.

We do not currently enter into derivative financial instruments for trading or speculative purposes to manage our commodity price risk relating to our raw material contracts. In the future, it is possible we will enter into derivative financial instruments to manage our commodity risk relating to our raw material contracts.

Off-balance Sheet Arrangements

We do not have any off-balance sheet arrangements.

Recent Accounting Pronouncements

We describe the impact of recent accounting pronouncements in Note B of our 2012 consolidated financial statements and our June 30, 2013 condensed consolidated financial statements included elsewhere in this prospectus.

We believe that we have leading market positions in many of the markets in which we compete and that we have developed these strong market positions due to our technological differentiation, diverse global manufacturing base, long-standing customer relationships, commitment to sustainable solutions and advantaged cost positions. We compete in growing global market segments driven in part by improving living standards in emerging markets and increasing environmental awareness leading to increased demand for higher fuel efficiency and lighter-weight materials. We develop new and improved products and processes that enhance our customers' sustainability. In addition, we believe our increasing business presence in developing regions such as China, Southeast Asia and Eastern Europe further enhances our prospects.

We develop customized products for global, diversified end markets including coated paper and packaging board, carpet and artificial turf backing, automotive applications including tires, food service packaging, appliances, medical, consumer electronics and construction applications, among others. We have long-standing relationships with a diverse base of global customers, many of whom are leaders in their markets and rely on us for formulation, customization, and compounding expertise. Certain of our customized products typically represent a low portion of finished product production costs, but impart critical functionality contributing to substantial customer loyalty. We partner with our customers to find sustainable solutions for our products. We operate under four segments: Latex, Synthetic Rubber, Styrenics and Engineered Polymers. Our major products include SB latex, SA latex, SSBR, Li-PBR, ESBR, Ni-PBR, polystyrene, ABS, SAN, ignition resistant polystyrene, PC, compounds and blends, and polypropylene compounds.

We are a global business with a diverse revenue mix by geography and significant operations around the world. Our operations in Europe and the Middle East, Asia Pacific (which includes Asia as well as Australia and New Zealand), Latin America (including Mexico) and others, and the United States, generated approximately 61.0%, 26.5% and 12.5%, respectively, of our net sales for the year ended December 31, 2012 and 60.7%, 26.6% and 12.7%, respectively, of our net sales for the six month period ended June 30, 2013. Our production facilities include 36 manufacturing plants (which include a total of 84 production units) at 28 sites in 15 countries, inclusive of joint ventures and contract manufacturers, allowing us to serve our customers on a global basis. Our manufacturing locations include sites in high-growth emerging markets such as China, Indonesia and Brazil. Additionally, we operate a number of R&D facilities globally, including mini plants, development centers and pilot coaters, and we believe these to be critical to our global presence and innovation capabilities.

The table below illustrates each geographical region's net sales to external customers for the six months ended June 30, 2013 and the years ended December 31, 2012, 2011 and 2010, respectively (in millions).

	United States	Europe/ Middle East	Asia Pacific/ Latin America/ Others
6-months ended June 30, 2013 net sales	$349.1	$ 1,672.6	$ 731.6
2012 net sales	$683.6	$ 3,324.1	$ 1,444.2
2011 net sales	$812.3	$ 3,898.8	$ 1,481.8
2010 net sales [1]	$734.3	$ 2,785.6	$ 1,447.1

(1) Full year 2010 net sales is shown on an aggregated basis.

Prior to our formation, our business was wholly owned by Dow. On June 17, 2010, we were acquired by investment funds advised or managed by Bain Capital, with Dow investing $48.8 million for an approximately 7.5% interest in our Parent. As of June 30, 2013, Dow held an approximately 6.8% interest in our Parent. We are a holding company controlled by Bain Capital and have a relatively short operating history as a stand-alone company. We and our joint ventures maintain a strategic relationship with Dow through shared infrastructure and

integration on shared manufacturing sites, which contributes to our production scale and allows for more efficient use of our assets.

Our Competitive Strengths

We believe we have a number of competitive strengths that differentiate us from our competitors, including:

Leading Market Positions in Attractive Segments and End Markets

We believe that we have leading positions in several of the markets in which we compete, including SB latex, synthetic rubber, mABS products, polystyrene and our engineered polymers products. We attribute our strong market positions to our technological differentiation, diverse global manufacturing base, long-standing customer relationships, superior products and advantaged cost positions. Our strategy is to focus on what we believe are the most attractive segments of the market, where demand is underpinned by global trends driving long-term volume growth. Amongst others, we are focused on the following global trends: improving living standards in emerging markets, fuel efficiency, and the increasing use of light-weight materials. We believe that our focus on segments of the market levered to these trends provides us with significant long-term growth opportunities.

Our products serve applications that are affected by improving living standards and increased environmental awareness. For example, our latex products impart high gloss properties to coated paper that is increasingly used in advertising and magazines in emerging markets; our synthetic rubber products help to improve fuel efficiency; our styrenics and engineered polymer products help reduce the weight of vehicles by substituting lighter plastic materials for heavier ones, resulting in improved fuel efficiency.

Technological Advantage and Product Innovation

Most of our materials are critical inputs that significantly impact the functionality, cost to produce and quality of our customers' products. Many of our products are differentiated by their performance, reliability, customization and value, which are critical factors in our customers' selection and retention of materials suppliers. For example, our latex products are critically important to coated paper applications in paper mills that typically have high fixed costs. We believe our technology offers customers a reduced risk of expensive shut-downs, as well as the potential to reduce ongoing total materials costs when SB latex replaces higher cost paper pulp. In addition, we are innovating and developing new and improved products and processes that enhance our customers' sustainability. Our advanced SSBR technology reduces rolling resistance, resulting in better mileage and fuel efficiency and lower CO_2 emissions while at the same time improving the tire's wet-grip, a measure of braking effectiveness and traction. We believe these are key performance attributes sought by the final customer and also important in meeting European CO_2 emissions legislation, which we expect to become a global standard. The plastic parts developed by the Company reduce potential weight per car. Energy usage is substantially reduced by using our plastic in lighting applications. We have a strong track record of continued product innovation, consistently launching improved grades and new products as well as customizing materials for many of our customers.

Diverse Global Reach with Extensive Presence in Emerging Markets

Our production facilities currently include 36 manufacturing plants (which include a total of 84 production units) at 28 sites in 15 countries, inclusive of joint ventures and contract manufacturers. We believe our diverse locations provide us with a competitive advantage in meeting and anticipating the needs of our global and local customers in both well-established and growing markets. We have a strong presence in Asia, where we supply custom formulated latex products for existing and new paper mills, as well as differentiate engineered polymers, synthetic rubber, and other products.

Long-Standing, Collaborative Customer Relationships

We have long-standing relationships with a diverse base of customers, many of which are well known industry leaders in their respective markets. We have had relationships with many of our customers for 20 years or more, helping them to develop and commercialize multiple generations of their products. No single customer accounted for more than 6.0% of our net sales in 2012 and through the first six months of 2013. We believe we have developed strong relationships through our highly collaborative process, whereby we work with our customers to develop products that meet our customers' critical needs. As part of this process, we test our products at customer sites and work with customers to optimize and customize our product offerings. As a result of our close collaboration, we have historically achieved a high success rate of retaining customers.

Competitive Cost Positions and Flexible Feedstock Sourcing

We believe that our global scale, highly efficient operations and site integration with Dow have provided us with a competitive cost position for our products. We believe our plants compare favorably across key operational benchmarks, including quality tracking, maintenance costs, and employee productivity. We source our raw materials through a mix of long-term raw material contracts with strategic suppliers and on the open market through short-term contracts or spot transactions.

Experienced Management Team

Our executive leadership team has significant industry experience, including leadership positions within our business units, and significant public chemical company leadership experience.

Our Growth Strategy

We intend to enhance our position as a leading global materials company engaged in the manufacture and marketing of both standard and specialty and customized emulsion polymers and plastics. The key elements of our growth strategy include:

Continue Product Innovation and Technological Differentiation

We intend to continue to address our customers' critical materials needs by utilizing our technological expertise and leading development capabilities, to create specialty grades, new and sustainable products and customized formulations. We believe our technological differentiation positions us to participate in the most attractive, highest growth areas of the markets in which we compete, such as advanced SSBR within Synthetic Rubber, a segment of the market that we believe will grow substantially faster than global GDP through 2014. Our global scale in SB latex allows us to cost-effectively support two pilot coaters where we collaborate with our customers in the development of next generation formulations and leverage regional innovations across our global product platform. We also expect to continue to shift our product mix towards more differentiated products, which offer higher-margin potential, improving the profitability of our business across our portfolio.

Strategic Investments in the Most Attractive Segments of the Market

We plan to make strategic capital investments in what we believe are the most attractive market segments to extend our leadership in these segments, and to meet growing demand. Our new SSBR production line in Schkopau, Germany began production on October 1, 2012, which now expands our capabilities at that facility.

Expand and Deepen Our Presence in Emerging Markets

We believe emerging markets such as China, Southeast Asia, Eastern Europe and the Middle East represent significant, rapidly growing opportunities. Improving living standards, globalization of automotive car platforms

and growth in gross domestic product in general in these emerging markets are creating strong demand for our end products. We expect to capitalize on growing demand for our products in emerging markets, and expand our share of local demand by deepening our customer base and local capabilities in these geographies.

Continue to Implement Cost Saving Measures and Focus on Cash Flow Generation

We have launched several corporate-wide initiatives intended to further reduce our costs and increase our competitiveness. These initiatives have identified various opportunities that we believe will enhance cost-saving and productivity. We realized savings of approximately $60.0 million in fiscal year 2012. We intend to continue actively pursuing additional cost savings initiatives and have an agreement in place for a business process service contracts which will result in incremental cost savings for 2013.

In addition, we continue to focus on cash flow generation through working capital and capital expenditure management. Following the completion of the SSBR expansion in 2012, management expects capital expenditures will be reduced from approximately $120.0 million in 2012 to approximately $70.0 million in 2013. Our expected annualized cost savings are forward-looking statements based on preliminary estimates and reflect the best judgment of our management but involve a number of risks and uncertainties which could cause actual results to differ materially from those set forth in our estimates and from past results, performance or achievements.

Latex Segment

Overview

We are a global leader in SB latex, holding a strong market position across the geographies and applications in which we participate, including leading market positions in North America and Europe. We produce SB latex primarily for coated paper used in advertising and magazines, packaging board coatings, carpet and artificial turf backings, as well as a number of performance latex applications.

We believe we are the recognized technology leader in SB latex. Our leading scale in this segment is a competitive advantage that allows for investment in formulation capabilities and polymer science. We have typically launched one to two new technologies in this segment each year. We have two pilot coating facilities in the United States and Europe that are used to develop new products and customer branding. Our differentiated grades of latex command a price premium to conventional latex and strengthen our customer relationships and our market position.

We believe our development and formulation capabilities contribute to our strong position. Further, we believe our growth prospects in latex are enhanced by our leading position in China, which we believe will contribute a substantial portion of global growth in the paper and board market segment over the next decade. We believe our growth prospects are also supported by an attractive industry landscape characterized by the recent trends of industry capacity reduction and consolidation, such as the exit of The Lubrizol Corporation from the SB latex market and the business combinations of BASF Group and Ciba, Omnova Solutions and Eliokem, and Yule Catto & Co plc and PolymerLatex GmbH. While the price of one of our principal raw materials, styrene, is still on the rise, the price for butadiene has gone down significantly. In addition to the advantage gained by the falling butadiene price, we believe that latex manufacturers who, like us, are offering products made with different chemistries using less expensive raw materials altogether, including VAM-based latex and natural binders, may be able to improve their position. The long-term impact of the competition from these products, in particular relative to natural binders, is unclear at this point. Pursuant to the JV Latex Option Agreement we may form a joint venture with Dow, pursuant to which we and Dow would be equal owners of our emerging markets latex business. See “—Our Relationship with Dow—Joint Venture Option Agreement.”

Products and End Uses

We are the global leader in the production and marketing of synthetic latex for coated paper with a leading market position in North America and Europe, and a leading supplier to new mills in China. For coated paper, we

primarily manufacture SB latex, a high-volume product that is widely used as a binder for mineral pigments as it allows high coating speeds, improved smoothness, higher gloss level, opacity and water resistance. Typically, latex formulations are engineered in close collaboration with customers, and are tailored specifically to optimize finished product properties and production efficiency, and to minimize mill down time. Since SB latex accounts for, on average, approximately 8% of the total production cost for coated paper but is a critical link in the manufacturing process and provides performance characteristics key to the product's end-use, we believe customers view it as a crucial component of their manufacturing process and typically seek high-quality, reliable producers.

We are also a leading supplier of latex polymers to the carpet and artificial turf industries and offer a diverse range of products for use in residential and commercial broadloom, needlefelt, and woven carpet backings. We produce high solids SB latex, SA latex, vinylidene chloride, and butadiene-methacrylate latex products for the commercial and niche carpet markets. We incorporate vinyl acrylic latex in our formulations for its ignition resistant properties, with the sourcing of vinyl acrylic latex readily available from a number of industry suppliers. SB latex is also used in flooring as an adhesive for carpet and artificial turf fibers.

We also offer a broad range of performance latex products, including SA latex, vinyl acrylic latex and all-acrylic latex primarily for the adhesive and architectural surface coatings market.

Customers

We believe our Latex segment is able to differentiate itself by offering customers value-added formulation and product development expertise. Our R&D/TS&D team commits more than two-thirds of its efforts in the Latex segment to developing differentiated products. This team is complemented by two pilot coating facilities in Switzerland and the United States, four paper fabrication and testing labs in Brazil, China, Switzerland and the United States, three carpet technology centers located near carpet producers in China, the United States and Switzerland, and two product development and process research centers, one each in Germany and the United States. Additionally, our global manufacturing capabilities are key in serving customers cost-effectively, as latex is costly to ship over long distances due to its high water content. We believe that our global network of service and manufacturing facilities is highly valued by our customers.

Our relationships with our top latex customers generally exceed 20 years in length. Many of our major customers rely on our dedicated R&D and TS&D teams to complement their limited in-house resources for formulation and reformulation tests and trials. We seek to capture the value of these services through our pricing strategy. In addition, as paper mills become larger and increasingly sophisticated with higher fixed costs, we believe there is greater demand for high-quality, custom-formulated latexes. Historically, we have focused on capturing a majority share of new SB latex formulations for startups and major overhauls of existing paper coaters. In carpet applications, our product development expertise also allows us to provide differentiated products to our customers.

Competition

Our principal competitors in the Latex segment include BASF, Omnova Solutions Inc. and Yule Catto & Co. plc.

Industry Outlook

Certain changes in industry structure have had a beneficial effect for latex producers, driven by industry capacity reduction and consolidation. Key industry events include BASF's acquisition of Ciba and subsequent shut down of 340 kMT of capacity, a capacity rationalization by Dow / Dow Reichhold, Omnova's rationalization at its Mogadore facility, the exit of The Lubrizol Corporation from the latex business entirely, Omnova's acquisition of Eliokem, and Yule Catto's acquisition of PolymerLatex. While the improving living

standards drive demand in emerging markets such as China, the Middle East and India, we believe that a significant portion of expected coated paper growth will come from these regions over the next decade, even if the US and Europe stay flat or slightly decline. Some recent developments appeared to have an unfavorable impact at first, including the emergence of substitutes for SB latex in carpet backing applications in North America, however, the impact appears to have diminished due to superior SB latex performance, increased butadiene availability and decreased butadiene cost. A long-term development, which we have begun to implement, is the increasing use of starch and associated new chemistries in paper coatings and carpet backing globally. These changes are partially driven by raw material pricing dynamics. Nonetheless, we believe that the recent changes in industry structure and increasing demand in emerging markets will lead to a favorable production environment in coming years characterized by an improved profitability outlook.

Synthetic Rubber Segment

Overview

We are a significant producer of styrene-butadiene and polybutadiene-based rubber products and we have a leading European merchant market position in SSBR. We have very broad synthetic rubber technology and product portfolios in the industry, focusing on specialty products, such as SSBR and Li-PBR, while also producing core products, such as ESBR and Ni-PBR. Our synthetic rubber products are extensively used in tires, with additional applications including polymer modification and technical rubber goods. We have strong relationships with most of the top global tire manufacturers and believe we have remained a supplier of choice as a result of our broad rubber portfolio and product customization capabilities.

Our most advanced rubber technology, SSBR, is a critical material for tires with low rolling resistance, which leads to increased fuel efficiency and improved wet-grip, which leads to better traction and safety characteristics. We believe our growth prospects are enhanced by increasing demand for high performance tires, resulting from European Union regulatory reforms that are aimed at improving fuel efficiency and reducing CO_2 emissions. Our management estimates that through 2014, demand for SSBR will grow substantially faster than global GDP. We believe global increases in fuel efficiency standards will drive additional demand growth for our SSBR technology. Our newly constructed 50 metric kilotons (“kMT”) capacity expansion at our Schkopau, Germany facility started production on October 1, 2012. Based on management’s assumptions, including projected utilization levels, we currently believe the Schkopau capacity expansion could contribute approximately an additional $30 million of EBITDA to our business in 2013. The projected impact of our Schkopau addition constitutes forward-looking statements that reflect the best judgment of our management but involve a number of risks and uncertainties which could cause actual results to differ materially from those set forth in our estimates and from past results, performance or achievements.

Products and End Uses

Our Synthetic Rubber segment produces synthetic rubber products used in high-performance tires with increased fuel efficiency and traction, impact modifiers and technical rubber products, such as conveyor belts, hoses, seals and gaskets. We participate mainly in the European synthetic rubber industry, where tire producers focus on high-performance and ultra high-performance tires and rely strongly on merchant rubber suppliers.

SSBR . We sell SSBR products for high-performance and ultra high-performance tire applications. We produce both clear and oil extended SSBR through batch polymerization in our two new SSBR production lines. We believe these processes provide leading and customized solutions to tire manufacturers.

We believe we are well-positioned to capture market share in high-growth high-performance tire applications and have expanded capacity to meet demand. We partnered with JSR Corp., a Japanese company which produces a broad range of chemical products including synthetic rubber, latex and plastics, to add a new

SSBR production line in March 2009, adding 60 kMT of capacity. We own and operate that production line, and JSR has the rights to 50% of the line's productive time over approximately the next 15 years.

Our synthetic rubber portfolio is anchored by our SSBR technology and further strengthened by our new functionalized SSBR (SSBR engineered to perform specific functions) product offering. Our new product platform is used in the manufacture of high-performance and ultra high-performance tires. We expect demand growth for European performance tires, which increase passenger safety, tire longevity and vehicle fuel efficiency, to accelerate due to recent European legislation, which became effective on November 1, 2012.

During the last five years, we have been working closely with major tire producers around the world to develop multiple new SSBR grades, addressing key marketplace needs for improved tire fuel economy, grip, and abrasion characteristics, which we believe will lead to significant demand growth for our rubber products in Europe and around the world. Management expects to shift its synthetic rubber product mix to new SSBR grades (from a relatively small portion of total SSBR volume in 2010 to up to more than one-third in 2015).

ESBR . Our ESBR products are used in standard tires, technical goods, and footwear. Our ESBR product portfolio offers tire producers a comprehensive suite of synthetic rubber capabilities. For example, ESBR provides enhanced wet grip to tire treads and strength to the inner liner of tires, imparting excellent processability to the respective compounds.

Li-PBR . Our Li-PBR is used primarily for our own internal polymer modification applications. Polymer modification is the use of synthetic rubber to improve the impact resistance quality of plastic products. Approximately 80% is consumed within our Plastics business unit for HIPS and ABS production. We make two grades of Li-PBR exclusively for our polymer modification uses. In addition to impact resistance, Li-PBR provides visual surface gloss.

Ni-PBR . We are currently the only European producer of Ni-PBR, with 30 kMT of capacity. We sell Ni-PBR products for use in standard tires, performance tires, technical goods and footwear. We believe Ni-PBR is valued by the tire industry for its high degree of processability, its ability to add wear resistance to the wet grip capabilities of SSBR and ESBR and its flexibility in tire sidewalls.

Customers

We maintain deep and long-standing relationships with a large number of multinational customers, including the top global tire manufacturers, as well as fast growing Asian tire manufacturers. Our relationships with our top 10 customers exceed 10 years on average.

Tire producers are the primary customers for our Synthetic Rubber segment. We believe we have remained a supplier of choice given our broad rubber portfolio, including technologically differentiated grades, and our product customization capabilities. The majority of our Synthetic Rubber segment net sales are based on contracts that generally include terms for at least three different rubber grades in addition to raw material pass-through clauses. We collaborate with customers throughout the product development cycle which can last up to four years. Our R&D/TS&D team has a strong focus on developing differentiated specialty products, and commits more than two-thirds of its time in this segment to those efforts. Once implemented with a customer, these newly-developed specialty products cannot be easily replaced by a competitor. As a result, we believe customers are likely to buy from us throughout the life cycle of specific tire models to avoid high switching costs and prevent repetition of the expensive development process. See "—Environmental and Other Regulation—Sustainability and Climate Change."

Competition

Principal competitors in our Synthetic Rubber segment include Asahi, JSR, Lanxess, Nippon Zeon, Polimeri and Synthos.

Industry Outlook

We participate mainly in the European synthetic rubber industry, where tire producers rely on merchant rubber suppliers, in contrast to North America where tire manufacturers captively produce most of their required rubber. Merchant producers typically produce more than one grade of rubber as customers typically require different grades of rubber from a single supplier. Performance tires represent an especially attractive market to rubber producers, because they provide substantial value to end customers. Tire manufacturers are expected to continually seek improvements in advanced rubber, which optimizes the combination of fuel economy and wet grip in order to meet EU regulations which set minimum requirements and are being phased in through 2020. Other jurisdictions are considering similar legislation. We believe our leadership in the fast growing SSBR segment will position us to perform well relative to the broader industry and anticipate future strong demand due to the new EU legislation driving the consumption of higher-performance tires.

Styrenics Segment

Overview

Our Styrenics segment includes polystyrene, ABS and SAN products, as well as our internal production and sourcing of styrene monomer, a raw material common in SB latex, synthetic rubber and styrenics products. We are a leading producer of polystyrene and mABS. We focus our marketing efforts on applications such as appliances and consumer electronics. Within these applications, we have worked collaboratively with customers to develop more advanced grades of plastics such as our HIPS and mABS products. These products offer superior properties, such as rigidity, insulation and colorability, and, in some cases, an improved environmental footprint versus general purpose polystyrene or emulsion ABS. The Styrenics segment also serves the packaging and construction end-use markets, where we have launched a new GPPS product for improved performance in foam insulation applications.

We believe our growth prospects in Styrenics are enhanced by periodic trends of industry capacity reduction and consolidation in Europe and North America, such as the completed formation of the Styrolution joint venture combining certain INEOS and BASF assets and the prior acquisition of INEOS Nova by INEOS, as well as INEOS' most recent asset rationalizations in styrene monomer and polystyrene. We expect further consolidation in certain regions of Asia having numerous producers and low asset utilization, which will create opportunities for us, given our scale and geographic reach. We believe our growth prospects are further enhanced by our established manufacturing footprint in the high economic growth regions of Asia and our focus on attractive end markets where improving living standards drive demand for growing appliances and consumer electronics markets.

Products and End Uses

Polystyrene . We are a leading producer of polystyrene and focus on sales to injection molding and thermoforming customers. Our product offerings include a variety of GPPS and HIPS, which is polystyrene that has been modified with polybutadiene rubber to increase its impact resistant properties. These products provide customers with performance and aesthetics at a low cost across applications, including appliances, packaging, including food packaging and food service disposables, consumer electronics and building and construction materials.

We believe our STYRON™ brand is one of the longest established brands in the industry and is widely recognized in the global marketplace. We believe our R&D efforts have resulted in valuable, differentiated solutions for our customers. For instance, during the early 2000s, we developed an innovative STYRON A-TECH™ family of resins that is an advanced polystyrene product allowing customers to balance key properties such as toughness, gloss, stiffness, flow and cost, and provide combinations of properties that were previously not available with standard HIPS. Over the next several years, this product family became the industry standard for this application.

Styrene Technology Licensing . We have developed a leading proprietary energy efficient styrene production technology. Historically, this technology has not been offered broadly, but has been licensed to two Dow joint ventures, Siam Styrene Monomer Company and The Kuwait Styrene Company. Offers to license beyond these two entities are under consideration. We also maintain proprietary catalyst technology developed jointly with suppliers in this area, and we granted a license to Süd Chemie to promote and sell our proprietary catalyst formulation to third parties.

Acrylonitrite-Butadiene-Styrene . We believe we are a leading producer of mABS, marketed under the MAGNUM™ brand. mABS is a variation of ABS that has lower conversion and capital costs compared to the more common emulsion ABS ("eABS") process. mABS has similar properties to eABS but has greater colorability, thermal stability and lower gloss. mABS products can be manufactured to stricter specifications because it is produced in a continuous process as opposed to the batch process used in eABS. In addition, mABS has environmental benefits such as waste reduction and higher yields. We believe that we are a global leader in mABS based on our own capacity, as well as licensees using our proprietary technology.

Primary end uses for our ABS products include automotive, sheet and appliances. We maintain a significant share of ABS sales into these markets, which we believe is driven by the differentiating attributes of our mABS products, our reputation as a knowledgeable supplier, our broad product mix and our customer collaboration and design capabilities.

Automotive manufacturers have developed innovative solutions in order to meet increasing fuel standards, such as the light-weighting of vehicles. Consequentially, manufacturers have been replacing heavier materials with durable yet lighter materials, such as mABS and polypropylene compounds. We expect this trend to continue and believe that our technological capabilities in Styrenics together with our compounding and blending expertise of these products will help drive future growth.

mABS Technology Licensing . In 2004, we licensed our mABS technology to Sinopec's Shanghai Gaoquiao Petrochemical Corporation, which built a 200 kMT plant based on our technology. We followed this license with a second license in late 2007 to Huajin Chemical. Huajin Chemical's plant capacity is 140 kMT.

Styrene-Acrylonitrile . SAN is composed of styrene and acrylonitrile, which together provide clarity, stiffness, processability, mechanical strength, barrier properties, chemical resistance and heat resistance. Additionally, SAN is typically lower in cost when compared to some other clear polymers.

SAN is used mainly in appliances, consumer goods and sheets, due to its low-cost, clarity and chemical resistance properties. Within our Styrenics business segment, we manufacture SAN under the TYRIL™ brand name for use in housewares, appliances, automotive, sheet, battery cases and lighting applications. In addition, TYRIL™ is suitable for self-coloring which adds value in many of these uses.

Customers

Our customer centric model focuses on understanding customers' needs and developing tailored solutions that create value for both parties. For durable applications, we focus our TS&D, R&D and marketing teams on product design engineering initiatives for developing and specifying plastics in the next generation of construction applications, appliances, automotives, and consumer electronics. In non-durable applications, we focus on innovative products that provide clear cost advantages to our customers, serving customers with our cost-advantaged technology and operating excellence. Overall, our R&D/TS&D team devotes approximately two-thirds of its time in Styrenics to creating differentiated products for our customers. We have leveraged industry-leading product development and technology capabilities to develop long-standing customer relationships with the majority of our customers, including a number who have purchased from us for more than 20 years. We believe that our global presence is an advantage, allowing us to provide customers with consistent product grades and positioning us to strategically serve growth economies.

Competition

The principal competitors for our Styrenics customers are Styrolution (a recently formed joint venture between BASF and INEOS), Versalis (formerly Polimeri Europa) and Total.

Industry Outlook

From 2006 to 2011, the polystyrene industry witnessed substantial capacity rationalizations by major producers, such as BASF, INEOS Nova, Lanxess, SABIC, Mitsubishi, and others. We believe that over 1 million tons of annual U.S. polystyrene capacity, and over 800 thousand tons of European polystyrene capacity were eliminated during this time period. This accounts for approximately 32% and 30% of the 2006 total capacity by region, respectively. Consistent with the broader industry, we participated in these rationalizations by electing to shut down some of our less cost effective European assets and concentrating production at our most competitive facilities.

In addition to improving profitability through cost rationalizations, the polystyrene industry has also benefited from a number of consolidating activities. A number of larger players have enhanced their platforms via acquisitions and joint ventures, such as the completed formation of the Styrolution joint venture combining certain INEOS and BASF assets and the prior acquisition of INEOS Nova by INEOS.

The ABS and styrenics markets also witnessed a number of capacity rationalizations since 2006. The foregoing activities, combined with improved end market demand, have resulted in a substantial improvement in operating rates since the economic downturn. Additionally, Asian markets present a unique growth opportunity for ABS producers and our license technology as we expect the growth in these markets to outpace the broader industry.

Engineered Polymers Segment

Overview

We are a leading producer of engineered polymers. Our products are predominantly used in the automotive, consumer electronics, construction, and medical markets. We are focused on differentiated products which we produce in our polymer and compounds and blends manufacturing facilities located across Europe, Asia, North America and Latin America. We believe that the strategic locations of these facilities combined with close customer collaboration offers us a strategic advantage in serving our customers. We believe many of our PC products and more than half of our compounds and blends products are differentiated, based on their physical properties, performance, aesthetic advantages and value chain management that helps us achieve premium pricing. Our history of innovation has contributed to long-standing relationships with customers who are recognized leaders in their respective end markets. We have established a strong market presence in the global automotive and electronics sector, targeting both component suppliers and final product manufacturers. Our Engineered Polymers segment also compounds and blends our PC and mABS plastics into differentiated products within these sectors, as well as compounds of polypropylene. We have also developed compounds containing post-consumer recycle polymers to answer what we believe is a growing need for some leading customers to include recycled content in their products. We are currently focused on reducing costs in order to improve competitiveness in polycarbonate. However, the market for polycarbonate market remains very challenging.

We believe growth in this segment is driven by a number of factors, including consumer preference for lighter weight and impact-resistant products and the development of new consumer electronics, increases in LED lighting applications and continuing growth in medical applications. Additionally, we believe growth is bolstered by sustainability trends, such as the substitution of lighter-weight plastics for metal in automobiles, as well as more energy efficient, glazing solutions.

Products and End Uses

Our Engineered Polymers segment consists of PC, compounds and blends and some specialized ABS grades. PC has high levels of clarity, impact resistance and temperature resistance. PC can be used in its neat form (prior to any compounding or blending) for markets such as construction sheet, optical media and LED lighting. Additionally, PC can be compounded or blended with other polymers, such as ABS, which imparts specific performance attributes tailored to the product's end-use. While most PC resin is consumed in neat form, the rest is generally blended with several other polymers, including ABS and other styrene-based resins. Our compounds and blends business has a significant position in the PC/ABS blends, which combine the heat resistance and impact strength of PC with the processability and resilience of ABS. In addition, we produce ignition resistant polystyrene for consumer electronics applications such as flat screen televisions. Our primary success driver is our ability to customize products to meet customer needs, and with our history as a leading innovator in PC and compounds and blends, we have established ourselves as a leading supplier of PC-based products to industry leaders.

Our products for glazing and sheet are marketed under the CALIBRE™ brand name and offer customers a combination of clarity, heat resistance and impact performance. Glazing and sheet represents our largest PC application, and is a key growth focus for us. Key end markets include the construction industry, with additional opportunities for growth with compounded products in the medical space, consumer electronics and other applications such as smart meter casings that require plastics with enhanced weatherability, ignition resistance and impact performance.

For the automotive industry, we manufacture PC blends under the PULSE™ brand, and we innovate collaboratively with our customers to develop performance solutions to meet the industry's needs, such as removing weight from their vehicles. As a result, we are a key supplier of these products to leading automotive companies in the Americas and Europe. We are also accelerating our development of similar capabilities in rapidly-growing areas such as China.

For the consumer electronics, electrical and lighting and medical industry, we manufacture our products under the EMERGE™ brand, and management believes that we have substantial growth opportunities in tablets, notebooks, smart phones and other handheld devices, as well as flat screen television sets, and electrical and lighting and medical device components. In serving these markets, we leverage our polymer and compound technologies to meet increasingly stringent performance requirements along with the aesthetic and color-matching requirements which are crucial characteristics for the products involved. The result is that we are a leading and long-standing supplier to many well-known brands.

Customers

We have a history of innovation in our Engineered Polymers segment, and are focused on differentiated products, which we believe enhances our growth prospects in this segment. We have a history as a leading innovator in PC and compounds and blends. Our R&D/TS&D team currently devotes approximately two-thirds of its efforts in this segment to developing differentiated products. In many of our segments, we develop tailored polymer, compound and process solutions. For end-use markets such as consumer electronics, agile and focused product solution development is a key offering. Our innovation has contributed to long-standing relationships with customers who are recognized leaders in their respective end-use markets. We also believe our global facilities are an advantage and allow us to provide customers with consistent grades and position us to strategically serve growth economies.

Competition

The principal competitors for our Engineered Polymers customers are Bayer, LG Chemical, Mitsubishi, SABIC, Teijin, Borealis, Ticona and Basell.

Industry Outlook

We believe we are a leading global producer of PC and PC blends. Other players tend to be smaller and only active on a regional basis. We have developed a global, multi-tiered marketing approach targeting the tiered suppliers, as well as final product producers, which we believe most effectively addresses our customers' needs.

We believe that automotive manufacturers will continue the practice of light weighting vehicles in order to meet increasing fuel efficiency standards. We anticipate the replacement of traditional heavier materials with light-weight glazing in transportation applications will become prevalent.

Our focus on developing our differentiated compounds and blends in the consumer electronics and other markets helps to improve our competitive position in these markets.

Our Relationship with Dow

We continue to leverage Dow's scale and operational excellence by procuring certain raw materials, utilities, site services, and back-office business services from Dow. See "Risk Factors—Risks Related to Our Business—Dow provides significant operating and other services, and certain raw materials used in the production of our products, under agreements that are important to our business. The failure of Dow to perform their obligations, or the termination of these agreements, could adversely affect our operations."

Joint Venture Option Agreement

In connection with the Acquisition in 2010, the Styron Holdcos entered into the Latex JV Option Agreement with Dow, pursuant to which the Styron Holdcos granted Dow an irrevocable option to purchase 50% of the issued and outstanding interests in a joint venture to be formed by Dow and the Styron Holdcos with respect to the SB Latex business in Asia, Latin America, the Middle East, Africa, Eastern Europe, Russian and India (the "Emerging Markets SB Latex Business") at a purchase price equal to the fair value attributable to the Emerging Markets SB Latex Business as defined in the Latex JV Option Agreement. The option is exercisable by Dow at any time after the first anniversary of the Latex JV Option Agreement and prior to the earlier to occur of (i) the fifth anniversary of the Latex JV Option Agreement and (ii) the date of the closing of an underwritten initial public offering of our equity interests; provided, that Dow will not have the right to exercise the option after the 45th day following the date on which the Styron Holdcos provide written notice to Dow that it has filed a registration statement with the SEC relating to this underwritten initial public offering, subject to the completion of the underwritten initial public offering within 180 days of the delivery of this written notice. If Dow exercises its option, Dow and the Styron Holdcos must (i) form the joint venture, (ii) enter into a joint venture formation agreement pursuant to which all of the assets of the Emerging Markets SB Latex Business shall be contributed to the joint venture, (iii) enter into a shareholders agreement with respect to the governance of the joint venture and (iv) enter into customary ancillary agreement with respect to the joint venture and the transfer of the interests in the joint venture to Dow.

On July 8, 2011, Dow exercised its option pursuant to the Latex JV Option Agreement, triggering a requirement for Dow and ourselves to, among other things, form the joint venture. On August 9, 2011 we entered into an agreement with Dow with regards to the Latex JV Option Agreement whereby Dow and we agreed to suspend the requirements to take certain actions required in light of Dow's exercise of its option until 2015 or prior to our completion of an initial public offering.

Our Joint Ventures

To supplement our business segments, we have entered into two strategic joint ventures in order to gain access to local markets, minimize costs and accelerate growth in areas we believe have significant business potential.

Americas Styrenics

Launched in 2008, Americas Styrenics is a 50% / 50% joint venture between us and Chevron Phillips Chemical Company. Americas Styrenics competes in polystyrene in North and South America, and produces a range of HIPS and GPPS products. We believe the venture has capitalized on the strong relationships and technology leadership of its parent companies to maintain a strong industry presence and pursue developing opportunities.

Sumika Styron Polycarbonate Limited

Sumika Styron is a 50% / 50% joint venture with Sumitomo Chemical of Japan. The joint venture manufactures a range of PC products and enables us to gain access to the Japanese PC market. Sumika Styron's facility is located in a highly integrated and efficient manufacturing site, and utilizes industry-leading Dow technology and production processes.

Sources and Availability of Raw Materials

Our raw materials and procurement group is responsible for the ongoing production, sourcing and procurement of raw materials for each of our business segments. The professionals leading this group have

extensive experience in the petrochemical industry buying, selling, and swapping commodity raw materials. Our raw materials group seeks to implement the most efficient and reliable raw material strategy for our business segments, including maintaining a balance between contracted and spot purchases as well as internal production of styrene monomer. While Dow provides some raw materials via contract to us, including ethylene, benzene, butadiene and BPA, we develop and implement our Company's strategy for obtaining additional sources of supply.

Our agreements with Dow range from 1- to 10-year terms with, in some cases, an automatic 2-year renewal. Minimum and maximum monthly contract quantities were established based on historical consumption rates, and our pricing terms are based on commodity indices in the relevant geography. We obtain approximately 45% to 50% of our raw materials from Dow.

From time to time, the prices of key raw materials that we purchase, including benzene, ethylene, styrene, butadiene and BPA, may be volatile. The predominant underlying drivers of volatility for these raw materials are the prices of crude oil, natural gas and supply dynamics. We have contractual provisions in place to keep us aligned with the market and to help protect us from deviations outside industry volatility in our key raw materials. However, significant increases in the cost of BPA and butadiene, key raw materials to our Engineered Polymers, Latex and Synthetic Rubber segments, respectively, have negatively impacted our results of operations.

Styrene

In addition to purchasing styrene through long-term strategic contracts and opportunistic short-term purchases, we produce styrene internally from ethylene and benzene at our own manufacturing sites. With this mix of purchased and produced styrene, we are able to optimize our overall costs of securing styrene through efficient logistics, manufacturing economics and market dynamics.

We believe our current styrene production processes operate at the industry's lowest steam-to-oil ratios ("S/O") resulting in high energy efficiency. This technology also uses proprietary catalyst technology that supports operation in low S/O conditions and enables long runs between turnarounds. In addition, the styrene production process leverages in-house computational fluid dynamic and reaction models to predict catalyst activity over time, at varying operating conditions, to optimize run rates.

We believe that energy efficiency for our latest styrene technology is approximately 30% better than other EBSM producers average and our raw material efficiency is more than 2% better than industry average. In 2008, we developed a new catalyst formulation that has further improved raw material efficiency.

Benzene and Ethylene

Benzene and ethylene are two commodity petrochemicals that make up the majority of the raw materials associated with styrene production. Today, Dow supplies us with 80% of our benzene and 100% of our ethylene through 10-year contracts that commenced in 2010, with automatic 2-year renewals. We have alternative sources for benzene. Our operations that use benzene and ethylene are connected to Dow's cracker operations where these raw materials are produced. We closely monitor these materials and how changes in their costs impact the styrene chain and its downstream derivatives. Our price formulas are based on well-known indices for the region with appropriate large buyer discounts.

Butadiene

Butadiene is an important raw material for the Synthetic Rubber and Latex segments. Dow is our largest supplier for this material in Europe where we purchase directly from Dow's existing butadiene extraction facilities over the term of a 10-year contract that commenced in 2010 with an automatic 2-year renewal. Other supply sources in Europe include major producers with a mix of one- to five-year contracts at competitive market

prices. Supply to North America and Asia are exclusively from other major third party producers via supply contracts. As a large purchaser of butadiene, we believe we can continue to secure the raw material reliably at competitive prices.

Bisphenol A

BPA is the major raw material associated with PC production. This raw material is produced by Dow in Stade, Germany and is supplied via pipeline to us through a supply contract in Europe that has an initial term of five years. We source BPA for our North American operations and Asian joint ventures from other market players.

Manufacturing

Our Latex segment has 13 production sites that are strategically located throughout the world. Management believes these facilities have industry leading quality tracking.

We manufacture all synthetic rubber products at one integrated site at Schkopau, Germany. Management believes that our synthetic rubber plant compares favorably to average benchmarks across key cost metrics, and it is recognized as one of the most cost-efficient synthetic rubber production sites in Europe.

We operate our Styrenics segment on a global basis, including plants in China and our integrated Schkopau, Germany site in close proximity to faster growing regions. Management believes that our polystyrene plants compare favorably to benchmarks across key cost metrics. Additionally, we believe our joint venture with Chevron Phillips Chemical Company LP, Americas Styrenics, is well-positioned to cover North America and emerging opportunities in South America. We manufacture SAN for Dow under an agreement in our Midland, Michigan facility.

Our Engineered Polymers segment operates on a global basis with manufacturing plants in Stade, Germany and compounding operations in Stade, Germany; Terneuzen, The Netherlands; Hsinchu, Taiwan; and Limao, Brazil. Dow also manufactures for us in Freeport, Texas, using Dow facilities, under an agreement with us. We also have strategic compounding agreements in Asia, North America and Europe and a strategic joint venture with Sumitomo Chemical Co. in Japan. We believe this joint venture partner enables us to gain access to an expanded range of geographies and customers.

Technology

Our R&D activities across our segments are driven by identified needs in end-use markets. As part of our customer-centric model, the R&D organization interfaces with our sales and marketing teams and directly with customers to determine their product requirements in light of trends in their industries and market segments. This information is used to drive R&D projects that are value-enhancing for both the customer and the Company. We continually seek to address these changing market needs by deploying our R&D capabilities, including:

- Formulation knowledge, which enables accelerated new product development;
- Internal capabilities, such as latex pilot coaters and plastics mini plants;
- Functionalization technology, which is a key capability in our synthetic rubber products that enables us to stay one step ahead in developing new grades for tire products;
- Compounding expertise, which comprises knowledge of the compounding process coupled with formulation knowledge. This expertise facilitates our ability to develop new compounds and blends to meet evolving needs in various businesses; and
- Broad product portfolio providing innovative solutions to customer needs.

Our R&D facilities support our technological capabilities. In addition to our two SB latex pilot coaters and our product development centers, the Plastics and Emulsion Polymers business units operate “mini plants” in Stade and Schkopau, Germany. These mini plants are used to make samples of experimental products for testing, which we believe is a critical step in our new product development process.

R&D costs are included in expenses as incurred. Our R&D costs for the six months ended June 30, 2013 and 2012, years ended December 31, 2012 and 2011 and for the aggregated year of 2010 were $24.0 million, $25.1 million, $48.3 million, $58.1 million and $50.2 million, respectively.

Sales and Marketing

We have a customer-centric business model that has helped us to develop strong relationships with many customers, with average length of key customer relationships exceeding 20 years. The application development, R&D, TS&D, marketing and sales functions work together to define the customers’ needs and develop customized solutions that create value for both the customer and us and result in greater customer intimacy. This can be seen most clearly in competitive applications such as coated paper and packaging board, automotive, consumer electronics, and glazing and sheet.

Our sales and marketing teams play a key role in realizing this strategy around customized solutions. Our sales and marketing initiatives include:

- Developing a solution-centric approach to sales versus a product-centric approach. Our sales and marketing teams understand the trends in the industries and applications served by us, and this is critical to identifying changing customer requirements and providing differentiated value-added products.
- Coordinating account teams effectively to develop and implement customer solutions. We often include sales-people and TS&D engineers in customer activities. Where appropriate, we layer on the skills of our engineers to develop new applications and respond to fast moving market trends.
- Understanding the value chain and effectively deploying our resources across this chain. In some of our end markets, our immediate customers may be distributors or manufacturers, rather than the original equipment manufacturers. In these instances, our sales and marketing teams may employ a multi-channel marketing approach, developing relationships with the key decision makers across the value chain to ensure we develop differentiated, value-added products. For example, our automotive business markets its products: (1) through distributors, (2) directly to a broad range of small, medium and large parts suppliers, and (3) directly to the auto manufacturers themselves.

Our sales and marketing professionals are primarily located at our facilities or at virtual offices within their respective geographies. We have approximately 200 professionals working in sales and marketing around the world, along with approximately 80 customer service professionals and sell to customers in over 80 countries. We primarily market our products through our direct sales force. All of our direct sales are made by our employees in the regions closest to the given customer. Historically, we have focused the majority of our direct sales efforts on large customers and relied on large distributors for sales to smaller accounts. In addition to the key initiatives outlined above, we intend to increase the amount of customers we serve directly.

Information Systems

We utilize Dow’s Enterprise Resource Planning (“ERP”) software systems to support each of our operations worldwide. We have the right to use Dow’s ERP software applications and infrastructure under the terms of the SAR MOSA and its related functional statements of work. The SAR MOSA, beginning in June 2013, is for a

term ending on December 31, 2020. Under the terms of the SAR MOSA, Dow extends its work processes and the supporting applications and infrastructure for us to use. Under the SAR MOSA, Dow's work process expertise centers provide the knowledge-base and documentation required for our personnel to follow work process steps and procedures. Many of the work process applications are classified as highly integrated with related ERP components in order to highlight the complex nature of Dow's ERP software systems.

We leverage Dow's global data / voice network and server infrastructure for desktop computing, email, file sharing, intranet and internet website access, mainframe and midrange computer access and voice communications. Approximately 390 Microsoft Windows based applications are included in the work processes supported under the SAR MOSA. These applications complement a number of other global ERP applications that make up the equivalent of a modern ERP landscape. We use the various ERP applications to manage our day-to-day business processes and relationships with customers and suppliers.

Our manufacturing plants utilize Dow-developed proprietary process control/process automation technology under the MOD5 Agreement. We are licensed to use this technology and receive support and spare parts through December 31, 2020. We are not permitted to build or substantially expand plants with this automation technology.

Intellectual Property

We evaluate how best to utilize patents, trademarks, copyrights, trade secrets and other intellectual property in order to protect our critical investments in research and development, manufacturing and marketing. We focus on securing and maintaining patents for certain inventions, while maintaining other inventions as trade secrets, derived from our customer-centric business model, so as to maximize the value of our product portfolio and manufacturing capability. Our policy is to seek appropriate protection for significant product and process developments in our major markets. Patents may cover products, processes, intermediate products and product uses. Patents extend for varying periods in accordance with the date of patent application filing and the legal life of patents in the various countries. The protection afforded, which may also vary from country to country, depends upon the type of patent and its scope of coverage.

Our "Developed Technology" represents our internal functional technology that enables us to develop new products to meet the evolving business needs and competitively produce our existing products. We estimated the useful life of Developed Technology based upon our predecessor company's history of using its similar technology and the projected cash flows related to this technology for approximately 15 years.

In most industrial countries, patent protection may be available for new substances and formulations, as well as for unique applications and production processes. However, given the geographical scope of our business and our continued growth strategy, there are regions of the world in which we do business or may do business in the future where intellectual property protection may be limited and difficult to enforce. We maintain strict information security policies and procedures wherever we do business. Such information security policies and procedures include data encryption, controls over the disclosure and safekeeping of confidential information, as well as employee awareness training. Moreover, we monitor our competitors' products and, when we deem appropriate, we vigorously challenge the actions of others that conflict with our patents, trademarks and other intellectual property rights.

As patents expire, or are allowed to lapse, the products and processes described and claimed in those patents become generally available for use by the public. We believe no single patent expiring in the next 3 years would materially adversely affect our business or financial results.

We use trademarks as a means of differentiating our products. We protect our trademarks against infringement where we deem appropriate.

Dow has either transferred to us or granted perpetual, royalty-free licenses to us of the intellectual property of Dow that was used to operate the Styron business segments prior to the Acquisition, which we believe will enable us to operate such business segments in substantially the same way as they were operated by Dow prior to the Acquisition. Such intellectual property includes certain processes, compositions and apparatus used in the manufacture of our products. In addition to our license to use the intellectual property retained by Dow in the Styron business segments, we are licensed to use the intellectual property that has been retained by Dow to the extent necessary to perform our obligations under the contracts transferred to us in the Acquisition and to use such intellectual property (other than patents) for products outside the Styron business segments, subject to certain limitations. Although these defined areas are sufficient to allow us to operate our current businesses, new growth opportunities with new products may fall outside these defined areas. Therefore, our ability to develop new products outside of these defined areas may be impacted by intellectual property that has been retained by Dow. We have the right, with Dow's cooperation, to directly enforce the patents that are exclusively licensed to us by Dow, but nothing obligates Dow to enforce against third parties the intellectual property rights of Dow that are licensed to us on a non-exclusive basis.

We own over 250 patents and over 200 pending patent applications, on a world-wide basis, relating to various aspects of our businesses, such as: material formulations, material process technology and various end-use industrial applications for our materials.

Environmental and Other Regulation

Obtaining, producing and distributing many of our products involve the use, storage, transportation and disposal of toxic and hazardous materials. We are subject to extensive, evolving and increasingly stringent national and local environmental laws and regulations, which address, among other things, the following:

- emissions to the air;
- discharges to soils and surface and subsurface waters;
- other releases into the environment;
- generation, handling, storage, transportation, treatment and disposal of waste materials;
- maintenance of safe conditions in the workplace;
- registration and evaluation of chemicals;
- production, handling, labeling or use of chemicals used or produced by us; and
- stewardship of products after manufacture.

Some of our products are also subject to food contact regulations.

We maintain policies and procedures to monitor and control environmental, health and safety risks, and to monitor compliance with applicable state, national, and international environmental, health and safety requirements. We have a strong environmental, health and safety organization. Our environmental, health and safety compliance and management programs make use of Dow's mature programs. We are also committed to the American Chemistry Council Responsible Care ® Guiding Principles for our global facilities and received third party certification of our Responsible Care ® Management System in 2013. We have a staff of professionals who are responsible for environmental health, safety and product regulatory compliance. Additionally, we have services agreements with Dow to provide environmental, health and safety services for certain of our facilities. Styron has implemented a corporate audit program for all of our facilities. Nonetheless, we cannot provide assurance that we will at all times be in full compliance with such requirements. It is anticipated that stringent environmental regulations will continue to be imposed on us and our industry in general.

Regarding the NTP's 2011 classification of styrene as "reasonably anticipated to be a human carcinogen" discussed earlier, we have not seen customers moving away from styrenics products due to this recent NTP classification, nor do we expect to see that action from them as the benefits of our products are valued by our customers. It is our view that there are no simple substitutes for our products that can deliver the same performance, quality, safety and cost effectiveness as the current set of products our customers buy from us. Based on current EU classifications and the current draft risk assessment report, styrene monomer is considered to have low toxicity and is not classified as a carcinogen or mutagen.

We have actively responded through direct communication to our customers and employees to address perceptions and concerns. Our trade associations—the SIRC and the American Chemistry Council—are engaged with this issue on behalf of our company, through political advocacy, media relations, legal action, and scientific and regulatory activities. Many of our customers are actively engaging in this advocacy also, because they share our view that classification of Styrene as "reasonably anticipated to be a human carcinogen" by NTP is unfounded and are committed to protecting their business and downstream markets.

Similarly, we remain active in our trade associations, which are actively engaged to respond to potential health concerns regarding BPA, Styrene and other chemicals.

Sustainability and Climate Change

We track our greenhouse gas emissions and recently have completed a project that improved the quality and uniformity of the data we collect so that meaningful emission reduction goals and objectives can be developed and implemented by us. Our July 2012 Sustainability and Corporate Social Responsibility Report (our "Sustainability Report") provides our most recent sustainability highlights, which include reductions in emissions of volatile organic chemicals, greenhouse gases, electricity use and waste. For example, our latex plant in Dalton, Georgia, runs almost entirely on methane gas, an alternative energy that significantly reduces CO_2 and greenhouse gas emissions, by using LOMAX™ Technology. Named for its focus on delivering materials with lower environmental impact with maximum performance, LOMAX™ latex is manufactured with LOMAX™ Technology using methane gas collected from a nearby landfill as the primary energy source to manufacture our latex for carpet backing and reduces the product's carbon footprint by harnessing the energy instead of releasing it into the atmosphere.

Chemical Registration

The goal of the U.S. Toxic Substances Control Act ("TSCA") is to prevent unreasonable risks of injury to health or the environment associated with the manufacture, processing, distribution in commerce, use, or disposal of chemical substances. Under TSCA, the EPA has established reporting, record-keeping, testing and control-related requirements for new and existing chemicals. During the past several years, efforts have been underway to reform TSCA and various legislative initiatives have been introduced most recently the Safe Chemicals Act of 2013 and the Chemical Safety Improvement Act. We are monitoring the progress of these and other legislative developments.

Registration, Evaluation, and Authorization of Chemicals ("REACH") is the regulatory system for chemicals management in the EU. It requires EU manufacturers and importers to disclose information on the properties of their substances that meet certain volume or toxicological criteria and register the information in a central database to be maintained by the European Chemicals Agency. We have completed the REACH requirements for registration of high-volume and high- hazard substances it manufactures in or imports into Europe and will complete the remaining implementation requirements due in 2018. Other jurisdictions have enacted legislation similar to REACH. Management does not expect that the costs to comply with REACH and similar requirements will be material to the Company's operations and consolidated financial position. We currently do not expect to need to register additional chemicals under REACH until 2018, at which time we will register our low volume chemicals.

Environmental Proceedings

Prior to our separation from Dow, EPA conducted a multimedia investigation at Dow's Midland, Michigan sites, including the ABS site which we now operate. The investigation uncovered a number of alleged violations, including of the Clean Air Act's leak detection and repair program ("LDAR"). LDAR requires chemical and petroleum companies to control fugitive emissions of hazardous air pollutants that occur from valves, pumps, flanges, connectors and other piping components. We, Dow and the United States executed a consent decree, which was approved by the District Court in Michigan in 2011. The decree provides that Dow will implement an enhanced LDAR program at our ABS facility over a five year period, which is intended to further reduce fugitive emissions at the ABS facility. We are not a defendant in the action, but under the decree, we or any future owner of the affected equipment will be responsible for performing an enhanced LDAR program at the ABS facility should Dow fail to perform, though we believe this is unlikely. Dow's failure to perform would subject it to significant stipulated penalties. An implementation agreement has been negotiated between us and Dow, which provides that Dow will bear the costs of the enhanced LDAR program.

Environmental Remediation

Environmental laws and regulations require mitigation or remediation of the effects of the disposal or release of chemical substances. Under some of these regulations, as the current owner or operator of a property, we could be held liable for the costs of removal or remediation of hazardous substances on or under the property, without regard to whether we knew of or caused the contamination, and regardless of whether the practices that resulted in the contamination were permitted at the time they occurred. Many of our production sites have an extended history of industrial use, and it is impossible to predict precisely what effect these laws and regulations will have on us in the future. Soil and groundwater contamination has occurred at some of the sites, and might occur or be discovered at other sites. Subject to limitations, Dow is obligated to indemnify and hold us harmless with respect to releases of hazardous material that existed at our sites prior to our separation from Dow in June 2010. However, we cannot be certain that Dow will fully honor the indemnity or the indemnity will be sufficient to satisfy all claims that we may incur. In addition, we face the risk that future claims might fall outside of the scope of the indemnity, particularly if we experience a release of hazardous materials that occurs in the future or at any time after our separation from Dow. We do not currently have any obligations for environmental remediation on our properties or Superfund sites.

Environmental Programs

We have comprehensive environmental, health and safety compliance, auditing and management programs in place to help assure compliance with applicable regulatory requirements and with internal policies and procedures, as appropriate. We use Dow's mature environmental health and safety programs, including a management system as a cornerstone of our programs and have contracts in place with Dow for environmental, health and safety expertise. Each facility has developed and implemented specific critical occupational health, safety, environmental, security and loss control programs. We participate in the chemical industry's Responsible Care ® initiative and have implemented a number of environmental and quality management systems at our facilities. In addition to Responsible Care ® Management System certification, we have received ISO 14001 environmental management system certification at 58 % of our facilities, and ISO 5001 energy management system certification at 27% of our facilities.

We also have implemented a strong environmental, health and safety ("EH&S") organizational structure. Our EH&S Council, made up of company leaders, is responsible for defining our EH&S strategic direction, expectations and priorities. Our EH&S Leadership team converts EH&S Council strategy, expectations and priorities into effective programs and processes. The Responsible Care Leader ("RCL") Network consists of the Responsible Care leader ("EH&S leader") at each of our manufacturing site. We have corporate, regional and facility EH&S leaders, who are organized by function, subject matter and regional alignment, as well as a Product Stewardship organization which manages day-to-day EH&S issues related to our products and

customers. Our Process Safety Organization is dedicated to reducing and eliminating process safety incidents. Additional information pertaining to our environmental health and safety programs and performance may be found in our Sustainability Report.

Facility Security

We recognize the importance of security and safety to our employees and the community. Physical security measures have been combined with process safety measures (including the use of inherently safer technology), and emergency response preparedness into an integrated security plan. We have conducted vulnerability assessments at our operating facilities in the U.S. and high priority sites worldwide and identified and implemented appropriate measures to protect these facilities from physical and cyber-attacks.

In June 2008, the U.S. Department of Homeland Security ("DHS") notified those facilities that were preliminarily determined to be covered by the rule's risk-based performance standards for the security of U.S. chemical facilities. Our facilities that were preliminarily determined to be covered conducted and submitted security vulnerability assessments to DHS or have otherwise complied with DHS requirements. Effort and resources in assessing security vulnerabilities and taking steps to reinforce security at its chemical manufacturing facilities will continue to be required to comply with DHS requirements but are not anticipated to be material.

Description of Property

We own and operate 66 production units at 20 sites around the world. In addition, we source products from another 16 production units at 8 joint venture sites and two production units at a Dow site. We also own or lease other properties, including office buildings, warehouses, research and development facilities, testing facilities and sales offices.

Our production facilities, including our joint ventures and sites retained by Dow on which we are co-located, have the capacity to produce an aggregate capacity of 5,465 kMT of our entire product portfolio. We have the capacity to produce 1,150 kMT of latex and synthetic rubber products in our Emulsion Polymers segment. We also have the capacity to produce 2,565 kMT of styrenics and engineered polymers products in our Plastics segment, of which 1,733 kMT represents polystyrene production. Three of our production facilities produce styrene intermediate products with a total capacity of 1,750 kMT, of which 950 kMT is produced from a U.S. production site operated under our Americas Styrenics joint venture. We are currently considering the rationalization of our production facilities, and may determine that one or more should be closed in whole or in part, or that certain production lines should be discontinued.

The following table sets forth a list of our production sites as of June 30, 2013:

** On July 11, 2013, we announced plans to close our latex manufacturing facility at Altona, Australia. Production is intended to cease in the third quarter of 2013, followed by decommissioning in the fourth quarter and demolition in early 2014. Our Altona manufacturing facility currently employs 14 individuals, whose roles will be eliminated. The customers supplied by our Altona manufacturing facility will now be supplied by our facility in Merak, Indonesia.

We believe that our properties and equipment are generally in good operating condition and are adequate for our present needs. Production capacity at our sites can vary depending upon product mix and operating conditions.

Our global production facilities are certified to ISO 9001 standards. Our manufacturing facilities have established reliability and maintenance programs and leverage production between sites to maximize efficiency.

All plants have similar layouts, technology and manufacturing processes, based on the product being manufactured. We believe this global uniformity creates a key competitive advantage for us, and helps lower overall operating costs.

For more information on environmental issues associated with our properties, see "—Environmental and Other Regulation." Additional information with respect to our property, plant and equipment and leases is contained in Note G to our audited financial statements for 2012 and our unaudited financial statements for the six-month period ended June 30, 2013.

Employees

As of June 30, 2013, we had approximately 2,100 full-time employees worldwide. Nearly 88% of our personnel are located at the various manufacturing sites, research and development, pilot coating, paper fabrication and testing and technology centers. The remainder are located at operating centers, virtual locations

or geographically dispersed marketing and sales locations. Our Midland, Michigan site is the only U.S. facility with union representation for its approximately 60 hourly operations personnel. Other locations with union or work council representation include Altona, Australia; Limao, Brazil; Hamina, Finland; Norrkoping, Sweden; Livorno, Italy; and Schkopau, Boehlen, and Stade, Germany for a total of approximately 702 union represented personnel as of June 30, 2013. Locations in the Pacific and Europe are represented by work councils or other labor organizations. We consider relations with our personnel and the various labor organizations to be good. There have been no labor strikes or work stoppages in these locations in recent history.

The following table provides a breakdown of the approximate number of our employees by job function and geographic area as of June 30, 2013.

Legal Proceedings

From time to time we may be subject to various legal claims and proceedings incidental to the normal conduct of our business, relating to such matters as product liability, antitrust/competition, past waste disposal practices and release of chemicals into the environment. While it is impossible at this time to determine with certainty the ultimate outcome of these routine claims, we do not believe that the ultimate resolution of these claims will have a material adverse effect on our results of operations, financial condition or cash flow.

Code of Business Conduct

We have adopted a Code of Business Conduct applicable to all of our directors, officers and employees, and a Code of Financial Ethics applicable to our principal executive, financial and accounting officers, and all persons performing similar functions. A copy of each of those Codes is now and will continue to be available on our corporate website at www.trinseo.com. We expect that any amendments to these Codes, or any waivers of their requirements, will be disclosed on our website. Our Code of Business of Conduct is supported by a number of subsidiary policies which are specifically referenced on the Code, and several of which are also available on our corporate website. Our website and the information contained on that site, or accessible through that site, are not incorporated into and are not a part of this prospectus.

COMPENSATION DISCUSSION AND ANALYSIS

Compensation Discussion and Analysis

This compensation discussion and analysis section is intended to provide information about our 2012 compensation objectives and programs for our named executive officers. For purposes of this compensation section, “Named Executive Officer” (“NEO”) of the Company means Christopher D. Pappas, President and Chief Executive Officer; John A. Feenan, Executive Vice President and Chief Financial Officer; Curtis S. Shaw, Executive Vice President, General Counsel and Corporate Secretary; Marco Levi, Senior Vice President and Business President of Emulsion Polymers; and Paul F. Moyer, Vice President and General Manager, Plastics.

Compensation Philosophy and Implementation

Our executive compensation policies and programs are designed to attract, retain and motivate key executives through competitive and cost effective approaches that reinforce executive accountability and reward the achievement of business results. Executive compensation consists of four main elements: (a) base salary, (b) annual performance awards, (c) long-term incentive compensation, and (d) retirement savings and benefit programs. The relative weighting of each element is aligned with the Company’s philosophy of linking pay to performance. A substantial percentage of executives’ compensation is provided in the form of performance-based variable compensation with a greater emphasis on variable components for the Company’s senior executives. Actual incentive compensation awards are directly linked to corporate and business unit results, and the performance measures are aligned with shareholder and other key stakeholders interests, including financial and non-financial goals. Executive retirement and benefits programs are generally consistent with broader employee programs in the same country. We provide limited perquisites to our executives and senior management, and such perquisites are only provided to the extent that they reflect competitive practice and particular business needs and objectives.

Our Compensation Committee was formed in October 2010. Prior to October 2010, compensation determinations were made primarily by our Chief Executive Officer and/or our Board. Many of the compensation policies and programs for our NEOs that are described below were the product of negotiations between the NEOs and our Chief Executive Officer and/or our Board. The Compensation Committee is responsible for, among other

matters: (1) reviewing key executive compensation goals, policies, plans and programs; (2) reviewing and approving the compensation of our executive officers; (3) reviewing and approving employment agreements and other similar arrangements between the Company and our executive officers; and (4) administration of equity based plans and other incentive compensation plans.

Our Chief Executive Officer reviews annually with the Compensation Committee each NEO's performance (other than his own) and recommends appropriate base salary, cash performance awards and long-term equity incentive awards for these NEOs. Based upon the recommendations of our Chief Executive Officer and in consideration of certain objectives and philosophies described above, the Compensation Committee makes the final recommendation to the Board for annual compensation packages of our executive officers other than our Chief Executive Officer. The Compensation Committee and/or the Board analyzes annually our Chief Executive Officer's performance and recommends to the Board his base salary, cash performance awards and grants of long-term equity incentive awards based on its assessment of his performance.

The Compensation Committee has the authority to retain outside independent executive compensation consultants to assist in the evaluation of executive officer compensation and in order to ensure the objectivity and appropriateness of the actions of the Compensation Committee. The Compensation Committee also has the sole authority to retain, at the Company's expense, and terminate any such consultant, including the sole authority to approve such consultant's fees and other retention terms. However, all decisions regarding compensation of executive officers are made by the Board, upon the recommendation of the Compensation Committee. At this time, no compensation consultant has been retained by the Compensation Committee.

Our Board has adopted a written charter for the Compensation Committee, which is available on our corporate website at www.trinseo.com. Our website and the information contained on that site, or accessible through that site, are not incorporated into and are not a part of this prospectus.

Management Transition

In January 2012, John A. Feenan was named Executive Vice President and Chief Financial Officer of the Company. In this role, he is responsible for corporate financial reporting, audit, treasury, tax and internal controls. Prior to joining the Company, Mr. Feenan was the Senior Vice President and CFO of JMC Steel Group, the largest independent steel tubular manufacturer in North America. Additionally, he served as a member of the disclosure, compliance, pension and ethics committees and as an active participant in the Board and Audit Committees.

Components of Compensation

The principal components of our NEO and other executive compensation include both short-term and long-term compensation. Short-term compensation consists of an executive's annual base salary and annual cash performance award. Long-term compensation may include grants of share-based incentives as well as cash retention awards, as determined by the Board and the Compensation Committee. Certain elements of compensation of our NEOs were determined through direct negotiation with the executives at the time of their hiring.

In making decisions with respect to any element of a NEO's compensation, the Compensation Committee considered the total compensation that may be awarded to the officer, including salary, annual bonus and long-term incentive compensation. In addition, in reviewing and approving employment agreements for our NEOs, the Compensation Committee considered the other benefits to which the officer is entitled by the agreement, including compensation payable upon termination of the agreement under a variety of circumstances. Our goal is to award compensation that is competitive to attract and retain highly qualified leaders and motivate high business performance. We believe that our compensation programs align executive and shareholder interests as well as vary compensation based on each executive's performance and the Company's performance.

Base Salary

Setting appropriate levels of base pay ensures that we can attract and retain an executive leadership team that will continue to meet our commitments to customers and sustain profitable growth for our shareholders. The base salaries for our NEOs were determined based on the scope of their responsibilities, taking into consideration our Compensation Committee members' collective knowledge of competitive compensation. Base salaries are reviewed annually by the Compensation Committee and adjusted from time to time to reflect individual responsibilities, performance and experience, as well as market compensation levels. In 2012, given the difficult economic environment, Mr. Pappas and the other NEO's did not receive an annual base salary adjustment. Mr. Feenan was hired in 2012, and his base salary was set by the Compensation Committee at a level determined to be appropriate given his experience and the base salaries of the other members of our executive team at his level.

Annual Performance-Based Cash Incentive Plan

We have an annual performance-based cash incentive plan that is designed to serve as an incentive to drive annual financial and non-financial performance. Cash awards are based on a combination of the achievement of Company performance goals as well as individual performance. The performance goals and metrics are recommended by the Compensation Committee to the Board at the beginning of the year. At the end of the year, the amount paid to each NEO is based on the achievement of the Company performance goals and an assessment of the executive's overall performance.

In 2012, the annual performance award plan included three (3) performance categories: Responsible Care ® (environmental, health and safety) goals; financial performance goals and an individual performance multiplier. At target performance the Responsible Care ® goals were weighted 15% and financial performance goals were weighted 85%. The individual performance multiplier provides an opportunity to adjust the award down to 75% or up to 125% of the funded pool depending on the assessment of overall individual performance. In addition, a fixed cost hurdle must have been achieved before the financial component of the 2012 performance award could be paid out for each of the NEO's. The table below describes the performance metrics used for the 2012 plan year.

		Metrics		
	Weight	Not Met	Target	Exceeds
Performance Goal				
1. Responsible Care ®				
Recordable Injuries	5%			
Loss of Primary Containment	5%			
Process Safety Incidents	5%			
Sub-total	15%	0.0x	1.0x	n/a
2. Financial Performance				
2012 EBITDA Target* (Per 2012 Business Plan)	85%	0.0x	1.0x	2.0x
Total Opportunity at Target	100%			
3. Individual Performance Multiplier		75%	100%	125%

* Adjusted EBITDA excluding dividends received during 2012 of $21.0 million from joint venture companies and favorable inventory and contractual price lag impact of approximately $54.6 million.

The company performance metrics were based on Adjusted EBITDA (excluding dividends from joint venture companies and inventory and contractual price lag impact), Responsible Care ® (environmental, health and safety metrics), and controlled overhead/fixed costs. As a company with a substantial amount of indebtedness and volatile raw materials prices, we believe that Adjusted EBITDA is an important measure of our financial performance and ability to service our indebtedness and we use it as the target metric for our annual cash incentive plan, but further adjusted to exclude dividends from joint venture companies (a non-core earnings)

and inventory and contractual price lag impact due to volatility in raw materials prices. Adjusted EBITDA is a non-GAAP measure used internally and is measured by taking net income (loss) and adding back interest charges, income taxes, depreciation and amortization and other adjustments which eliminate the impact of certain items that we do not consider indicative of our ongoing operating performance. For a discussion of our use of Adjusted EBITDA and reconciliation to net income, please refer to "Summary Historical Financial and Operating Information." In addition to Adjusted EBITDA, we also believe best-in-class environmental, health and safety metrics and controllable overhead/fixed costs, as well as individual performance, are important measures for establishing performance objectives and measuring the performance of our NEOs.

Styron is a Responsible Care ® company and our EH&S policy states that protecting people and the environment is part of everything we do and every decision we make. Each employee has a responsibility to ensure that our products and operations meet applicable government or company standards. The 2012 performance award bonus plan includes three (3) key metrics that we track for our company – Recordable Injuries as defined by OSHA, Process Safety Incidents as defined by the American Chemistry Council and Loss of Primary Containment defined as any physical device used to contain a chemical or plastic resin as part of our manufacturing processes.

The individual performance assessments for our NEOs are based on the Compensation Committee's assessment, in its discretion, of the individual performance of each NEO. In 2012, there were no pre-established individual performance goals for our NEOs. When making its assessment of individual performance, the Compensation Committee takes into account the primary areas of responsibility of each NEO as well as common areas of emphasis, which include customer growth and strategy, financial goals including revenue generation, cost control, margin improvement and cash management, and non-financial goals including people leadership, performance management and compliance. Based on this assessment, the Compensation Committee can adjust the award earned by each NEO down to 75% of the amount determined under the Responsible Care and financial performance goals, or up to 125% of such amount.

Executive Subscription and Securityholder's Agreements

In connection with the Acquisition and the subsequent recruitment of our executive team, the Company and Bain Capital entered into certain Executive Subscription and Securityholder's Agreements (as amended and restated, the "Executive Subscription Agreements") with certain members of our management team, including our NEOs. Mr. Feenan, who was hired in 2012, entered into a separate Executive Subscription Agreement in accordance with the terms of his employment agreement. The Executive Subscription Agreements provide for sales of Classes A through F of the ordinary shares of our Parent (the "Co-Invest Shares") and Classes G through L of ordinary shares of our Parent (the "Incentive Shares"), subject to certain conditions. Our NEOs (other than Mr. Feenan) invested a total of $1,775,010 for the Co-Invest Shares issued under the Executive Subscription Agreements.

Under the Executive Subscription Agreements, in the case of our NEOs other than Mr. Pappas, 50% of Incentive Shares issued are subject to time vesting over five years with 40% of these vesting on June 17, 2012 (July 1, 2012 for Mr. Shaw) and the remaining portion vesting ratably on an annual basis over the subsequent three years (in the case of Mr. Feenan, 20% vesting on January 1, 2013, and the remaining portion vesting ratably on an annual basis over the following four years). For Mr. Pappas, 75% of Incentive Shares issued are subject to time vesting with 25% vesting on the first anniversary of the Acquisition and the balance vesting ratably on a quarterly basis over the following three years. The remaining 50% (25% for Mr. Pappas) are subject to both time vesting, in the same manner as previously described, as well as performance vesting subject to achieving certain targets based on various returns realized by our shareholders upon a change in control or our initial public offering.

100% of the Incentive Shares are subject to the applicable executive's remaining employed by us between the date of the applicable Executive Subscription Agreement and the applicable vesting date; provided that, if

any of our NEOs (other than Mr. Pappas) dies, is terminated without cause or due to his disability, or resigns for good reason after June 17, 2012 (or, for Mr. Feenan, January 1, 2014), the portion of the Incentive Shares that are subject to time vesting that would have vested on the next regular vesting date will accelerate and vest on a pro rata basis based on the number of full months between the last regular vesting date and the termination date. If Mr. Pappas dies, is terminated without cause or due to his disability, or resigns for good reason, the portion of the Incentive Shares that are subject to time vesting that would have vested during the 12 months following the termination date will accelerate and vest.

With respect to the securities received by each of the executives, the Executive Subscription Agreements also provide for tag-along rights, drag-along rights and registration rights and require the executive to agree to vote for an initial public offering of Trinseo S.A. and any reorganization of our Parent to effectuate such initial public offering. If our Parent makes distributions with respect to any Co-Invest Shares or Incentive Shares prior to an executive's securities becoming time vested or performance vested, our Parent will pay the executive a catch-up amount equal to an amount that the executive would have been entitled to receive in respect of any distribution by our Parent in connection with his or her Incentive Shares which are not vested had such Incentive Shares been vested on the date of such distribution, plus interest. For additional description of the Executive Subscription Agreements, see "Certain Relationships and Related Party Transactions."

We use both time-based awards and performance-based awards to provide what we believe are appropriate incentives. Time-based awards help to retain executives, who must be employed by the Company at the time the award vests. Performance-based awards provide additional rewards for positive company performance.

In February 2011, in connection with the refinancing of our previous $800 million term loan under the Senior Secured Credit Facility, the Board declared a one-time cash distribution. The distribution was made by way of redemption and cancellation of the class A and class G shares. The NEOs, to the extent they held Co-Invest Shares and Incentive Shares, received an equivalent payment in 2011. For those hired after June 17, 2010, a portion of the distribution attributable to unvested Incentive Shares was withheld and put in escrow, to be paid out in connection with their date of hire, subject to the NEO's continued employment with the Company. For those hired after June 17, 2010 but during 2010, 50% of the distribution was paid in February 2011 and 50% was paid on their next anniversary date in 2012. For executives hired in 2011, 100% of the distribution was payable on their second anniversary date. Distributions during 2012 are reflected in the "All Other Compensation" column of the Summary Compensation Table below. Our Board and Compensation Committee believe that this treatment of holders of Co-Invest and Incentive Shares is fair and consistent with their status as equity participants in our Parent. We recorded a charge equal to such amount in our consolidated financial statements for the year ended December 31, 2012.

Retirement Benefits

Our Qualified U.S. Savings Plan (401k plan) provides for (1) annual discretionary contributions (defined contributions) and (2) employer matching contributions to be credited to participants' accounts. The U.S. based NEOs participate in the benefit plans on the same basis as our other employees. We also maintain a non-qualified savings and deferral plan in which each of our NEOs (other than Mr. Levi) participates. This plan allows participants to defer a portion of their compensation on a pre-tax basis, with matching contributions from the Company and additional discretionary Company contributions in connection with earnings that are in excess of limitations set forth in the Qualified U.S. Savings Plan.

Our NEOs do not participate in or have account balances in qualified or nonqualified defined benefit pension plans sponsored by the Company with the exception of Mr. Levi. Mr. Levi participated in the Dow Operated Pension Plan, which continued to be maintained by Dow until the end of 2012.

Pursuant to the terms of Mr. Pappas's employment agreement, he is entitled to a retirement benefit payable in the form of a cash lump sum upon retirement/termination of employment in an amount determined in accordance with a formula contained in his employment agreement.

Severance Benefits

Our NEOs are eligible for severance benefits under their employment contracts upon certain terminations of employment. The agreements provide the NEOs, except Mr. Pappas and Mr. Levi, with severance benefits in an amount equal to one and one-half times (1.5x) the sum of the executive's annual base salary and target bonus. In the case of Mr. Pappas, he is eligible for severance benefits in an amount equal to three times (3.0x) the sum of his annual base salary and target bonus if termination (other than for cause) occurs prior to June 17, 2013, and two times (2.0x) the sum of his annual base salary and target bonus if termination occurs after June 17, 2013. In the case of Mr. Levi, he is eligible for severance benefits in an amount equal to one times (1.0x) the sum of his annual base salary and target bonus. Each of our NEOs must sign a general release in order to receive these severance benefits.

Change-in-Control Severance Benefits

We provide change-in-control severance benefits to certain executives, including Messers Pappas, Feenan and Shaw. These change-in-control severance benefits are intended to minimize the distraction and uncertainty that could affect key management in the event we become involved in a transaction that could result in a change in control of Trinseo and to enable the executives to impartially evaluate such a transaction. Under the terms of these agreements, each NEO is entitled to a lump sum payment equal to the severance benefits set forth above (rather than payment of severance benefits in installments) and a payment in lieu of the continuation of welfare benefits if the NEO experiences a termination of employment other than for cause or in the event the NEO resigns for good reason, as defined in the agreements, within two years following a change-in-control of the Company.

Other Compensation

Each NEO is eligible to participate in our benefit plans, such as savings, medical, dental, group life, disability and accidental death and dismemberment insurance, in accordance with country practices.

In connection with his hiring, Mr. Feenan was granted a cash retention award of $5 million, to be paid in four annual installments, with $1 million payable on each of the first and second anniversaries of the commencement of his employment and $1.5 million payable on each of the third and fourth anniversaries of the commencement of his employment, subject to his continued employment on such date. If Mr. Feenan is terminated without Cause or resigns for Good Reason (as defined in his employment agreement), the next scheduled installment of the retention award will be paid to him. If there is a Change in Control (as defined in his employment agreement) or he dies, all of the remaining installments will be paid to him.

Certain employees, including NEOs, received relocation packages in connection with their employment. In 2012, Mr. Feenan received $818,132 of relocation benefits in connection with his employment in 2012.

All employees, including the NEOs, are reimbursed for the cost of business-related travel.

Compensation Risk Management

While our Compensation Committee is in the process of reviewing the risks that arise from our compensation policies and practices, we do not believe that our compensation policies and practices create risks that are reasonably likely to have a material adverse effect on our business and operations.

Tax Treatment

Because our common stock is not currently publicly traded, executive compensation has not been subject to the provisions of Section 162 (m) of the Internal Revenue Code of 1986, as amended (the "Code"), which limit the deductibility of compensation paid to certain individuals to $1.0 million, excluding qualifying performance-based compensation and certain other compensation.

(1) The amount in the “Bonus” column for each individual includes the portion of the annual incentive payment awarded by the Compensation Committee in its discretion that is in excess of the amount payable pursuant to the actual performance results under the annual performance-based cash incentive plan. For more information, refer to the section titled “Annual Performance-Based Cash Incentive Plan” below.

(2) John A. Feenan was entitled to a $5.0 million retention award as part of his employment agreement dated December 22, 2011. These amounts will vest and be paid over a 4 year period. As of December 31, 2012, Mr. Feenan received $1.0 million which is included in the “Bonus” column.

(3) The amount in this column reflects the fair value of restricted stock awards granted in 2012, calculated in accordance with ASC 718, excluding the effects of estimated forfeitures. This includes both service-based and performance-based awards. The amount attributable to the performance-based portion of the awards assumes that all performance-based vesting criteria are satisfied in full.

(4) This represents the 10% earned cash incentive payout as discussed below in the section titled “Annual Performance-Based Cash Incentive Plan.”

(5) Changes in Pension and Other Postretirement Benefits for Mr. Pappas, Mr. Levi and Mr. Moyer for the year ended December 31, 2012 amounted to $703,852, $841,000 and $68,573, respectively. Messrs. Feenan and Shaw do not participate in pension and other postretirement benefit arrangements.

(6) No amount is reported with respect to earnings on non-qualified deferred compensation plans because above market rates are not provided under such plans. Refer to the “U.S. Non-Qualified Deferred Compensation Table” below for the NEOs deferred compensation.

(7) Included in Mr. Shaw’s “All Other Compensation” was $759,030 of distributions attributable to unvested Incentive Shares withheld and put in escrow in February 2011. The underlying Incentive Shares vested and the amount was therefore distributed to Mr. Shaw in 2012. The remaining NEOs have no distributions relating to unvested Incentive Shares held in escrow. Included in Mr. Moyer’s “All Other Compensation” was $704,475 of severance payment and $20,394 payment of unused vacation in connection with the termination of his employment agreement effective on December 31, 2012. Also included in “All Other Compensation” were: (i) Company contributions to the non-qualified

deferred compensation plans (such amounts set forth in the "U.S. Non-Qualified Deferred Compensation Table" below) for all NEOs except Mr. Levi; (ii) Company matching contributions to the U.S. 401(k) plan for all NEOs except Mr. Levi; (iii) $818,132 of relocation benefits received by Mr. Feenan during 2012 in connection with his employment; and (iv) other taxable value of group term life insurance, cash in lieu of employee stock purchase plan and gifts received during 2012. Mr. Levi is based in Switzerland and not a member of the non-qualified deferred compensation and U.S. 401(k) plans.

(8) Mr. Levi's compensation is paid or payable in Swiss Franc. The amount of compensation earned or received during 2012 were converted using foreign exchange rate of US$1.07 to CHF1.00.

Grant of Equity Plan and Non-Equity Plan Based Awards Table

During fiscal year 2012, we granted stock-based compensation awards to certain of our NEOs pursuant to the Executive Subscription and Security Holder's Agreements and employment agreements. Information with respect to each of these awards on a grant by grant basis is set forth in the table below. During fiscal year 2012, we did not grant awards to the NEOs under a non-equity incentive plan, with the exception of our annual performance-based cash incentive plan.

	Non-Equity Incentive Plan Awards(1)			Restricted Stock Awards		
Current NEOs	Target %	Target ($)	Maximum ($)	Grant Date	Number of Shares of Stock (#)(2)	Grant Date Fair Value of Stock Awards ($) (3)
Christopher D. Pappas	100%	$800,000	$1,600,000	N/A	—	$ —
John A. Feenan(4)	75%	$413,750	$ 827,500	January 16, 2012	34,857	$8,767,429
Curtis S. Shaw	75%	$382,500	$ 765,000	N/A	—	$ —
Marco Levi	55%	$282,506	$ 565,012	N/A	—	$ —
Paul F. Moyer	55%	$166,650	$ 333,300	N/A	—	$ —

(1) Represents awards granted under our Annual Performance-based Cash Incentive Plan discussed above. Maximum amount represents two times (2.0x) the target amount.

(2) Represents stock-based compensation awards to the NEOs pursuant to the Executive Subscription and Security Holder's Agreements and employment agreement. The stock awards granted during fiscal year 2012 include both service-based and performance-based restricted stock awards.

(3) Represents the grant-date fair value calculated in accordance with ASC 718.

(4) Mr. Feenan became the Executive Vice President and Chief Financial Officer beginning in January 16, 2012. In connection with his employment, he was granted stock awards during 2012.

Annual Performance-Based Cash Incentive Plan

During 2012, the target annual performance bonus for each NEO was based on a percentage of base salary ranging from 100%, in the case of Mr. Pappas, to 75%, in the case of Mr. Feenan and Mr. Shaw, to 55%, in the case of Mr. Levi and Mr. Moyer. For the 2012 performance period, 30% of the target annual bonus was awarded to each NEO. The table below shows the 2012 target annual bonus for each NEO and the actual bonus paid.

Name	Target Percentage	Target Amount	Actual Amount
Christopher D. Pappas	100%	$ 800,000	$ 240,000
John A. Feenan	75%	$ 420,720	$ 126,216
Curtis S. Shaw	75%	$ 382,500	$ 114,750
Marco Levi	55%	$ 282,506	$ 84,752
Paul Moyer	55%	$ 166,650	$ 49,995

In 2012, our achievement rating for Responsible Care ® performance qualified each NEO for a 10% cash incentive payout. Our financial performance threshold (i.e., Adjusted EBITDA) was "not met", as such there was no payout against the Financial Performance metric. Therefore, the total 2012 performance-based cash incentive payout amount would have been 10% of the NEO's individual bonus target. However, while our overall Company

performance results were below target, the Compensation Committee recognized that, despite very challenging business and economic conditions, our employees contributed to solid results in other areas of importance in 2012.

To recognize these achievements and to acknowledge the tremendous organizational effort these achievements required, the Compensation Committee decided to add a 20% discretionary award to the 10% earned cash incentive payout discussed above. Thus, the total 2012 performance-based cash incentive payout amount was 30% of individual bonus target. In addition, the Compensation Committee concluded that the individual performance multiplier would not be applied in recognition of the joint effort from all employees. All eligible employees received 30% of their 2012 performance-based cash incentive payout target.

Outstanding Equity Awards at Fiscal Year-End Table

The table below sets forth certain information regarding outstanding and unvested restricted stock awards held by the NEOs as of December 31, 2012:

	Stock Awards	
Name	Number of Shares of Stock That Have Not Vested (#)(1)	Market Value of Shares of Stock That have Not Vested ($)(2)
Christopher D. Pappas	51,432	$ 4,942,965
John A. Feenan	34,857	$ 3,329,551
Curtis S. Shaw	23,238	$ 2,142,234
Marco Levi	11,620	$ 1,071,170
Paul F. Moyer	—	$ —

(1) Represents restricted stock awards to the NEOs pursuant to the Executive Subscription and Security Holder's Agreements and employment agreement. Restricted stock awards include both service-based and performance based restricted stock awards. Service-based restricted stock awards generally vest over four to five years with a portion (25% or 40%) cliff vesting after one or two years (except for service-based awards held by Mr. Feenan, which vest 20% per year over 5 years, ratably monthly from 2/1/2013). The remaining portion of the awards vest ratably over the subsequent time period, subject to the participant's continued employment with the Company, and vest automatically upon a change of control of the Company excluding a change in control related to an initial public offering ("IPO"). Should a participant's termination occur within defined time frames due to death or permanent disability, a termination of the participant by the Company or one of its subsidiaries without cause, or the participant's voluntary resignation for good reason, a portion of the unvested restricted stock awards will either vest on the termination date or be repurchased. The outstanding service-based restricted stock will vest as set forth below:

	Number of Shares	Vesting Date
Pappas	4,540	3/17/13
	4,540	6/17/13
	4,540	9/17/13
	4,540	12/17/13
	4,540	3/17/14
	4,525	6/17/14
Feenan	3,486	1/1/13
	3,486	1/1/14
	3,486	1/1/15
	3,486	1/1/16
	3,485	1/1/17
Shaw	1,549	7/1/13
	3,098	7/1/14
	3,099	7/1/15
Levi	775	6/17/13
	1,549	6/17/14
	1,550	6/17/15

The performance-based restricted stock awards contain a service-based component, and vest in the same manner as all other service-based awards, but only if certain targets are achieved based on various returns realized by our stockholders on a change in control or an IPO. Generally, performance-based restricted stock will not vest until a change in control or an IPO. Holders of vested performance-based stock are entitled to distributions from the Parent only after investors in the Parent have received distributions equal to their original investment. As of December 31, 2012, Mr. Pappas held 24,207 shares of performance-based restricted stock, Mr. Feenan held 17,428 shares, Mr. Shaw held 15,492 shares, and Mr. Levi held 7,746 shares.

(2) Represents the current estimated market value per share, based on the fair value per share as of December 31, 2012 as calculated in accordance with ASC 718 and applying to all outstanding and unvested restricted stock awards.

Stock Vested Table

The following table shows the number of ordinary shares acquired by the NEOs upon the vesting of restricted stock during fiscal year 2012:

	Stock Awards	
Name	Number of Shares Acquired on Vesting (#)(1)	Value Realized on Vesting ($)(2)
Christopher D. Pappas	18,160	$ 1,916,243
John A. Feenan(3)	—	$ —
Curtis S. Shaw	7,746	$ 817,358
Marco Levi	3,873	$ 408,626
Paul F. Moyer	3,873	$ 408,626

(1) Represents restricted stock awards to the NEOs pursuant to the Executive Subscription and Security Holder's Agreements. Restricted stock awards include both service-based and performance-based restricted stock awards. All shares acquired on vesting during fiscal year 2012 were service-based restricted stock awards.

(2) The value realized on vesting is based on the fair value per share on the date of vesting.

(3) Mr. Feenan became the Executive Vice President and Chief Financial Officer beginning on January 16, 2012 and was granted 34,857 shares pursuant to Executive Subscription Agreement in accordance with his employment agreement. None of these shares were vested as of December 31, 2012.

U.S. Non-Qualified Deferred Compensation Table

The following table summarizes the activity during 2012 and account balances in our non-qualified savings and deferral plan for our NEOs. The plan allows eligible employees, including the NEOs, to defer a portion their compensation on a pre-tax basis with a matching contribution from the Company, payable at a future date based on specific plan parameters. Additionally, the plan provides for discretionary company contributions in connection with earnings in excess of the qualified Savings Plan limits. While the plan is unfunded, amounts

deferred under the plan are credited with earnings based on the performance of selected investment vehicles. The plan is available to all employees who satisfy certain eligibility requirements, including the NEOs.

Name	Executive Contributions in 2012 ($)(1)	Company Contributions in 2012 ($)(2)	Aggregate Earnings in 2012 ($)(3)	Aggregate Withdrawals/ Distributions in 2012 ($)	Aggregate Balance as of December 31, 2012 ($)(4)

Marco Levi(5)	$ —	$ —	$ —	$ —	$ —
Paul F. Moyer	$ —	$ 29,645	$ 1,011	$ —	$ 73,270

(1) Represents amounts contributed by the NEOs under the non-qualified savings and deferred compensation plans. These amounts are included in the Summary Compensation Table as part of “Salary”.
(2) Includes amounts that were contributed by the Company under the non-qualified savings and deferred compensation plans. These amounts are also included in the Summary Compensation Table in the “All Other Compensation” column.
(3) Represents earnings on the Company’s Deferred Compensation Plans. Amounts are not reported as compensation in the Summary Compensation Table.
(4) Includes amounts that were reported as compensation in the Summary Compensation Table in 2012 and prior years to the extent such amounts were contributed by the executive and the Company, but not to the extent that such amounts represent earnings.
(5) Mr. Levi is based in Switzerland and not a member of this plan.

Pension and Other Postretirement Benefits

Dow Sponsored Defined Benefit Plan

In connection with the Acquisition, the Company and Dow entered into affiliation agreements in Switzerland (the “Affiliation Agreements”) allowing employees who transferred from Dow as of June 17, 2010 to remain in the Dow Operated Pension Plan (“Dow Plan”) until Trinseo established its own pension plan. The Affiliation Agreements between the Company and Dow ended on December 31, 2012. Mr. Levi is based in Switzerland and a participant of this plan. No other NEO is a participant in this plan.

The Dow Plan provides a benefit equal to 1.67% of the employee’s highest three years’ pensionable earnings multiplied by the number of years of credited pension service. The amount of pensionable earnings is calculated using base pay only, reduced by a Social Security coordination factor, and is subject to a statutory maximum. Employees must contribute 6% of their pensionable earnings. Benefits are paid as a monthly annuity with actuarial reductions taken if the employee retires after age 58 or before age 60 and does not have at least 85 age and service points.

Postretirement Health Care Benefits

The Company provides certain health care and life insurance benefits to retired employees. The Company’s plans outside of the United States are not significant; therefore, this discussion relates to the U.S. plan only. The plan provides for health care benefits, including hospital, physicians’ services, drug and major medical expense coverage. In general, for employees hired by Dow before January 1, 2008 and transferred to the Company in connection with the Acquisition, the plan provides benefits supplemental to Medicare when retirees are eligible for these benefits. The Company has the ability to change these benefits at any time.

Supplemental Employee Retirement Benefit

In 2010, the Company entered into an employment contract with Mr. Pappas which included a provision for non-qualified supplemental employee retirement benefits. Mr. Pappas would have forfeited all benefits if he had left the Company prior to June 17, 2013. The accrued benefits will be paid to Mr. Pappas in a lump sum upon his termination of employment. The amount payable to Mr. Pappas with respect to his supplemental employee retirement benefits is determined based on his years of Service Credit and his average base salary and target bonus for the three full calendar years prior to his termination.

The accrued benefits are equal to the Basic Percentage times the average of his base salary plus target bonus for the three full calendar years prior to his termination (the "Final Average Pay") plus the Supplemental Percentage times the Final Average Pay reduced by the 36-month rolling average Social Security Taxable Wage Base as of the date of termination. The Basic Percentage and Supplemental Percentage are determined based on Mr. Pappas' years of Service Credit, as set forth below.

Aggregate Years of Service Credit	Basic Percentage	Supplemental Percentage
6	138%	24%
12	276%	48%
18	414%	72%
24	425%	96%
30	425%	120%

For purposes of determining Mr. Pappas' retirement benefit, he was granted six (6) years of Service Credit with the Company at the start of his employment and on each anniversary date Mr. Pappas will be granted an additional six (6) years of Service Credit, up to a maximum of 30 years of Service Credit. As of December 31, 2012, Mr. Pappas had eighteen (18) years of Service Credit with the Company, and as of June 17, 2013 he will have twenty four (24) years of Service Credit with the Company.

The following table shows the actuarial present value of accumulated pension and other post-retirement benefits as of December 31, 2012:

Name	Plan Name	Number of Years Credited Service (#) (1)	Present Value of Accumulated Benefit ($)	Payments During 2012 ($)
Christopher D. Pappas	Supplemental Employee Retirement Plan	18.0	$5,774,447	$ —
John A. Feenan	N/A	—	$ —	$ —
Curtis S. Shaw	N/A	—	$ —	$ —
Marco Levi	Dow Operated Defined Benefit Plan in Switzerland	28.4	$3,790,543	$ —
Paul Moyer	U.S. Postretirement Health Care Benefits	34.0	$ 158,518	$ —

(1) The years of credited service for Mr. Pappas are determined pursuant to his employment agreement, as described above. Mr. Levi's years of credited service includes years he was employed by a prior company, as required by law. The years of credited service for Mr. Moyer include years that he was employed by Dow (former employer) as an intern.

Potential Payments upon Termination or Change in Control

The following tables show the potential payments upon termination or upon a termination following a change in control to the NEOs, as if such event(s) took place on December 31, 2012. The amounts reflected in this table were determined in accordance with each NEO's then existing employment agreements. For a discussion of the employment contracts, see "Employment Agreements".

Employment Agreements

Executive Employment Agreements with Messrs. Pappas, Feenan and Shaw

We have entered into executive employment agreements with each of Messrs. Pappas, Feenan and Shaw, with employment dates commencing on June 17, 2010, January 16, 2012 and July 1, 2010, respectively. The agreements provide for an initial term of three years and are subject to automatic one-year extensions beginning on the expiration of the initial term. The automatic extension of the agreements may be terminated with at least 90 days' prior written notice from the executive or the Company stating the intent not to extend the employment term. Under the agreements, Messrs. Pappas, Feenan and Shaw are entitled to receive annual base salaries of $800,000, $585,000 and $510,000, respectively, subject to annual review and increase by the Company's Compensation Committee and/or Board in its sole discretion, and have the opportunity to earn annual target performance awards equal to 100%, 75% and 75%, respectively, of their base salaries. In addition, Messrs. Pappas, Feenan and Shaw have been granted Incentive Shares generally representing the right to participate in 2.0%, 0.9% and 0.8%, respectively, of our equity capital appreciation (as described above in "Executive Subscription and Securityholder's Agreements"). Each executive is entitled to participate in our employee and fringe benefit plans as may be in effect from time to time on the same general basis as our other employees .

In addition to the foregoing, Mr. Pappas is entitled to a retirement benefit payable in the form of a cash lump sum upon termination of employment in an amount determined in accordance with a formula contained in his employment agreement (as described in more detail in the "Pension Benefits" table above).

Under the agreements, in the event of the executive's termination of employment for any reason, the executive generally will be entitled to receive any unpaid base salary through the date of termination and all accrued and vested benefits under our vacation and other benefit plans and, except in the case of a termination by us for "cause" or by the executive without "good reason" (each, as defined in the agreements), (i) any annual bonus earned but unpaid with respect to the calendar year ending on or preceding the date of termination and (ii) a pro rata target bonus for the calendar year of termination. In the case of Mr. Pappas, in addition to the foregoing, he will be entitled to his retirement benefit as described above.

In addition to the severance benefits described above, upon termination of the executive by us without "cause" or by the executive for "good reason," the executive generally will be entitled to receive the following severance benefits, subject to the executive's timely execution of a general release of claims:

In the case of Mr. Pappas, he generally will be entitled to receive (i) an amount equal to three times (3.0x) the sum of his annual base salary and target bonus if termination (other than for cause) occurs prior to June 17, 2013, and two times (2.0x) the sum of his annual base salary and target bonus if termination occurs after June 17, 2013, payable in equal monthly installments over the 24 month period following such termination, and (ii) continued health benefits for a period of 36 months (or 24 months if such termination occurs after June 17, 2013) following such termination.

In the case of Messrs. Feenan and Shaw, they generally will be entitled to receive (i) an amount equal to one and one-half times the sum of his base salary plus his target bonus, payable in equal monthly installments over the eighteen month period following such termination, and (ii) continued health benefits until age 65 for each of Mr. Shaw and his spouse, and 18 months continuation for Mr. Feenan.

To the extent that any executive experiences a termination of employment by us without "cause" or by the executive for "good reason" within two years following a "change in control" (as defined in the agreements), the cash severance benefits described above will be paid to such executive in a cash lump sum as opposed to in installments. In addition, in the case of Mr. Pappas, to the extent that the severance payments and benefits payable under his agreement would cause him to be liable for excise taxes by reason of the application of Sections 280G and 4999 of the Internal Revenue Code, Mr. Pappas will be entitled to an additional "gross up" payment to indemnify him for the effect of the excise taxes.

For Messrs. Feenan and Shaw, to the extent that any payments that are considered to be contingent on a change in control would be subject to Sections 280G and 4999 of the Code, such payments will be limited to the threshold amount under Section 280G of the Code unless such payments are approved by at least 75% of our shareholders (other than Messrs. Feenan and Shaw). In the event that our stock becomes tradeable on an established securities market, a shareholder vote will not be held and, instead, such payments will be limited if the net benefit to Messrs. Feenan and Shaw would be greater than receiving the full value of all payments and paying the excise tax.

The agreements contain a non-competition covenant that prohibits the executive from competing against us for a period of one year (or two years, in the case of Mr. Pappas) following termination of employment. The agreements also contain non-solicitation provisions that prohibit the executive from actively soliciting our employees, customers or suppliers during the period of employment and for a period of one year (or two years, in the case of Mr. Pappas) following termination of employment. The executives are also subject to perpetual confidentiality restrictions that protect our proprietary information, developments and other intellectual property.

Offer Letter Agreement with Mr. Levi

We entered into an offer letter agreement with Mr. Levi on September 22, 2010. The letter agreement provides for at-will employment with no fixed term of employment. Under the letter agreement, Mr. Levi is entitled to receive an annual base salary of 480,000 CHF (Swiss francs), subject to annual review and increase by the Company's Compensation Committee and/or Board in its sole discretion, and has the opportunity to earn annual target performance award equal to 55% of his base salary. In addition, Mr. Levi has been granted Incentive Shares generally representing the right to participate in 0.40% of capital appreciation. Mr. Levi is entitled to participate in our employee and fringe benefit plans as may be in effect from time to time on the same general basis as our other employees.

Under the letter agreement, in the event of Mr. Levi's termination of employment for any reason, he generally will be entitled to receive any unpaid base salary through the date of termination and all accrued and vested benefits under our vacation and other benefit plans and, except in the case of a termination by us for "cause" (as defined in the letter agreement), any annual bonus earned but unpaid with respect to the calendar year ending on or preceding the date of termination. In addition, in the event of a termination of employment by reason of death or disability, Mr. Levi will be entitled to receive a pro rata annual bonus based on actual results for the year of termination.

In addition to the severance benefits described above, upon Mr. Levi's termination by us without "cause" or his resignation for "good reason" (each, as defined in the letter agreement), subject to his timely execution of a general release of claims, Mr. Levi generally will be entitled to receive severance benefits in accordance with our general severance practices, but in no event will such severance benefits be less than the sum of (i) an amount equal to one times his base salary plus his target bonus at the time of termination and (ii) a pro rata annual bonus based on actual results for the year of termination.

The letter agreement contains a non-competition covenant that prohibits Mr. Levi from competing against us for a period of one year following termination of employment. The letter agreement also contains non-solicitation provisions that prohibit him from actively soliciting our employees, customers or suppliers during the period of employment and for a period of one year following termination of employment. Mr. Levi is also subject to perpetual confidentiality restrictions that protect our proprietary information, developments and other intellectual property.

Mr. Moyer is entitled to participate in our employee and fringe benefit plans as may be in effect from time to time on the same basis as other of our employees generally.

Under the letter agreement, in the event of Mr. Moyer's termination of employment for any reason, he generally will be entitled to receive any unpaid base salary through the date of termination and all accrued and vested benefits under our vacation and other benefit plans and, except in the case of a termination by us for "cause" (as defined in the letter agreement), any annual bonus earned but unpaid with respect to the calendar year ending on or preceding the date of termination. In addition, in the event of a termination of employment by reason of death or disability, Mr. Moyer will be entitled to receive a pro rata annual bonus based on actual results for the year of termination.

In addition to the severance benefits described above, upon Mr. Moyer's termination by us without "cause" or his resignation for "good reason" (each, as defined in the letter agreement), subject to his timely execution of a general release of claims, Mr. Moyer generally will be entitled to receive severance benefits in accordance with our general severance practices, but in no event will such severance benefits be less than the sum of (i) an amount equal to one times his base salary plus his target bonus at the time of termination and (ii) a pro rata annual bonus based on actual results for the year of termination.

The letter agreement contains a non-competition covenant that prohibits Mr. Moyer from competing against us for a period of one year following termination of employment. The letter agreement also contains non-solicitation provisions that prohibit him from actively soliciting our employees, customers or suppliers during the period of employment and for a period of one year following termination of employment. Mr. Moyer is also subject to perpetual confidentiality restrictions that protect our proprietary information, developments and other intellectual property.

Director Compensation

Annual Compensation

To date, we have not provided cash compensation to directors for their services as directors or members of committees of our Board. We have reimbursed and will continue to reimburse our non-employee directors for their reasonable expenses incurred in attending meetings of our Board and committees of the Board.

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

Set forth below are certain transactions and relationships between us and our directors, executive officers and equityholders that have occurred during the last three years.

Bain Capital Advisory Agreement and Transaction Services Agreement

In connection with the Acquisition, two of our indirect subsidiaries entered into the Advisory Agreement with the Advisors, pursuant to which the Advisors provide us with management and consulting services and financial and other advisory services. Pursuant to the Advisory Agreement, we pay the Advisors an advisory fee of $1.0 million per fiscal quarter plus reimbursement for reasonable out-of-pocket fees.

In connection with the Acquisition, one of our indirect subsidiaries entered into a transaction services agreement (the "Transaction Services Agreement") with Bain Capital pursuant to which Bain Capital provides us with certain advice and services related to transaction-specific functions. Pursuant to the Transaction Services Agreement, we will pay Bain Capital a fee equal to 1% of the transaction value of each financing, acquisition, disposition or change of control or similar transaction by or involving us, plus reimbursement for reasonable out-of-pocket fees. Bain Capital also received a fee of approximately $15.0 million in consideration for financial advisory services related to the Acquisition. In consideration for providing financial advisory services subsequent to the Acquisition, Bain Capital received fees of approximately $1.6 million related to an accounts receivable securitization facility consummated on or about August 18, 2010 and approximately $6.2 million related to other refinancing transactions.

The Advisory Agreement and Transaction Services Agreement each have a 10-year initial term and thereafter are subject to automatic one-year extensions unless a party thereto provides written notice of termination. In addition, during the initial term, Bain Capital and, with respect to the Advisory Agreement, Portfolio Company Advisors Limited, may terminate the Advisory Agreement or Transaction Services Agreement upon written notice to the Company and each agreement will automatically terminate upon an initial public offering or a change of control. If the Advisory Agreement is terminated early, then the Advisors will be entitled to receive all unpaid fees and unreimbursed out-of-pocket fees and expenses to the date of termination, as well as, in certain circumstances, the present value of the advisory fee that would otherwise have been payable through the end of the term. The Advisory Agreement and Transaction Services Agreement include customary exculpation indemnities in favor of Bain Capital and, if applicable, Portfolio Company Advisors Limited which survive termination of the agreements.

Executive Subscription and Securityholder's Agreements

In connection with the Acquisition and the subsequent recruitment of our management team, we entered into the Executive Subscription Agreements with certain members of our management team (the "Executives"). The Executive Subscription Agreements provide, among other things, for sales of the Co-Invest Shares and the Incentive Shares to the Executives, subject to vesting over periods of up to five years and subject to performance vesting. We and Bain have a call option to purchase any ordinary shares received by the Executive in the event the Executive ceases to be employed by us as follows: (i) subject to (iii) below relating to restrictive covenant breaches, all of the Co-Invest Shares, at Fair Market Value within the six-month period following the Executive's termination; (ii) if the Executive is terminated (A) without Cause (as defined in applicable the Executive Subscription Agreement), (B) by reason of death or Disability (as defined in applicable the Executive Subscription Agreement), (C) for Good Reason (as defined in the applicable Executive Subscription Agreement) or (D) without Good Reason after the third anniversary of the commencement of the Executive's employment term, all of the Incentive Shares which vested, at Fair Market Value, and the portion of the Incentive Shares which are unvested securities, at the lower of their Fair Market Value and the original subscription price; and (iii) (A) if the Executive is terminated for Cause or without Good Reason on or prior to the third anniversary of the commencement of the Executive's employment term or (B) the Executive materially breaching any restrictive covenant set forth in the applicable Executive Subscription Agreement without timely curing such breach or the Executive willfully breaches such restrictive covenants, all of the Incentive Shares, whether vested or unvested, at the lower of Fair Market Value and the original subscription price. In addition, under the Executive Subscription Agreements, the Executives must make customary representations and warranties to us and Bain Capital. Subject to certain exceptions and limitations, each Executive under his or her respective Executive Subscription Agreement is also subject to customary restrictive covenants including, among others, (i) non-disclosure of confidential information, (ii) a non-compete for a period ending one year after his or her termination date and (iii) non-solicitation of customers and employees for a period ending one year after his or her termination date.

The Executives received a portion of the cash proceeds of our February 2011 refinancing transactions through redemption of classes A and G of our ordinary shares. As of June 30, 2013, 3,613 shares of each of our

classes B, C, D, E and F of our ordinary shares, 70,577 shares of each of our classes H, K, L of our ordinary shares, 70,576 shares class I of our ordinary shares and 70,578 of class J of our ordinary shares are held by the Executives pursuant to Executive Subscription Agreements.

Shareholder Agreement

In connection with the Acquisition, we entered into the Shareholder Agreement with Dow Europe and funds associated with Bain Capital. The Shareholder Agreement provides, among other things, for the subscription of the Co-Invest Shares and the Incentive Shares by funds affiliated with Bain Capital and Dow Europe and for the composition of our board of directors, including the appointment of up to three directors by Bain Capital. Under the Shareholder Agreement, if the funds associated with Bain Capital sell more than 50% of their ordinary shares or effect a Sale of the Company (as defined in the Shareholder Agreement) (a "Required Sale"), any holders of ordinary shares other than funds associated with Bain Capital, including the Executives, must transfer their ordinary shares in the Required Sale, and shall receive in exchange for their ordinary shares, the same price per share that the funds associated with Bain Capital received in the Required Sale. If Dow Europe or the Executives transfer their ordinary shares except as permitted under the Shareholder Agreement, we have the right of first offer of such ordinary shares. The funds associated with Bain Capital also have a right of first offer in the event that Dow Europe or the Executives wish to sell their ordinary shares. The Shareholder Agreement also grants pre-emptive rights to the funds associated with Bain Capital, Dow Europe and the Executives, subject to certain exceptions. The Shareholder Agreement also provides certain restrictions on the sale of Co-Invest and Investor Shares without the prior written consent of the Company, subject to certain exceptions, including but not limited to transfers to permitted transferees and transfers pursuant to rights under the Registration Rights Agreement, tag along rights, a Required Sale rights of first offer and a Public Sale (as defined in the Shareholder Agreement) of our ordinary shares. These restrictions are in effect with respect to each ordinary share covered by the Shareholder Agreement until such ordinary shares have been transferred in a Public Sale or Sale of the Company, including in connection with the completion of an initial public offering.

Registration Rights Agreement

In connection with the Acquisition, we entered into a Registration Rights Agreement (the "Dow Registration Rights Agreement") with Dow Europe, Mr. Pappas and Bain Capital. Pursuant to the Dow Registration Rights Agreement, funds associated with Bain Capital can cause us to register shares of our ordinary shares under the Securities Act and, if requested, to maintain a shelf registration statement effective with respect to such shares, and the funds associated with Bain Capital, Dow Europe and, subject to certain limitations, Mr. Pappas, are entitled to participate on a pro rata basis in such registration. The funds associated with Bain Capital, Dow Europe and Mr. Pappas are also entitled to participate on a pro rata basis in any registration of our ordinary shares under the Securities Act that we may undertake, whether or not caused by the funds associated with Bain Capital, subject to certain limitations and exceptions. The parties to the Dow Registration Rights Agreement are also prohibited from transferring their shares under certain conditions, including but not limited to during the period beginning on the date we deliver notice that we are undertaking an offering and through the date that is 180 days after the effective date of an initial public offering, except as part of such initial public offering. Pursuant to the Dow Registration Rights Agreement, we have agreed to indemnify parties thereto from certain liabilities incurred in connection with material misstatements or omissions included in any registration statements filed in accordance with the Dow Registration Rights Agreement. We are responsible for paying expenses of such holders of our ordinary shares in connection with any such registration.

Such transactions, if and when they are proposed or have occurred, are reviewed by one or more of the Board, the Audit Committee or the Compensation Committee (other than the directors or committee members involved, if any) on a case-by-case basis, depending on whether the nature of the transaction would otherwise be under the purview of the Audit Committee, Compensation Committee or the Board.

Shares subject to options that are currently exercisable or exercisable within 60 days of September 30, 2013 are deemed to be outstanding and beneficially owned by the person holding the options. These shares, however, are not deemed outstanding for the purposes of computing the percentage ownership of any other person.

DESCRIPTION OF OTHER INDEBTEDNESS

The following is a summary of certain of our indebtedness that is currently outstanding. The following descriptions do not purport to be complete and are qualified in their entirety by reference to the agreements and related documents referred to herein, copies of which have been filed as exhibits to the registration statement of which this prospectus forms a part, and may be obtained as described under "Where You Can Find More Information" in this prospectus.

Senior Secured Credit Facility

On June 17, 2010, we entered into the Senior Secured Credit Facility, which included term loans and a revolving credit facility (as amended from time to time, the "Revolving Facility"). On February 2, 2011, we amended our Senior Secured Credit Facility to provide for a $240.0 million Revolving Facility and $1.4 billion term loans (the "Term Loans"), the proceeds of which were used to: (i) repay our previously existing term loan under the Senior Secured Credit Facility (including accrued interest); (ii) repay the Seller Note (including accrued interest); (iii) pay debt issuance costs, (iv) make a distribution to the direct or indirect shareholders of Parent; and (v) provide the Company with general corporate funds. The Senior Secured Credit Facility was subsequently amended several times, including, on February 13, 2012, to remove a technical requirement to

provide each lender thereunder with separate financial statements for the fourth quarter of a given fiscal year, and on August 9, 2012 to revise certain financial and other covenants. In January 2013, we again amended the Senior Secured Credit Facility to: (i) increase the borrowing capacity under the Revolving Facility from $240.0 million to $300.0 million; (ii) to extend the maturity date to January 2018; and (iii) to reflect repayment of the amounts outstanding under the Term Loans of $1,239.0 million using the proceeds from the sale of the Original Notes.

In connection with the issuance and sale of the Original Notes, we used a portion of the net proceeds therefrom to repay all of the then outstanding indebtedness under the Term Loans. None of these repaid amounts under the Term Loans may be re-borrowed. As of June 30, 2013, we had no amounts outstanding under the Revolving Facility. Amounts under the Revolving Facility may be borrowed, repaid and re-borrowed to fund our working capital needs, capital expenditures, general corporate purposes and, to the extent otherwise permitted, acquisitions and investments. As of June 30, 2013, we were in compliance with all covenants contained in the Senior Secured Credit Facility.

Revolving Facility

Interest Rate

Loans under the Revolving Facility, at our option, may be maintained from time to time as (a) LIBO rate loans, which bear interest at a rate per annum equal to the LIBO rate plus the Applicable Margin plus the Mandatory Cost (as defined therein), if applicable, each as defined below, or (b) base rate loans which shall bear interest at a rate per annum equal to the Base Rate plus the Applicable Margin. “LIBO rate” is defined in the Senior Secured Credit Facility as (x) the offered rate per annum for deposits that appears on the appropriate page of the applicable Reuters screen or (y) if no such rate exists, the interest rate per annum, as determined by the administrative agent, at which deposits in immediately available funds are offered in the London interbank eurodollar market; provided, that such LIBO rate may not be less than 1.75% per annum for loans outstanding prior to January 29, 2013. “Base Rate” is defined as the higher of (x) the federal funds rate plus 1/2 of 1%, (y) the rate in effect as publically announced by Deutsche Bank AG New York Branch, as its “prime rate” and (z) the LIBO rate plus 1%, provided that the Base Rate shall in no event be less than 2.50% with respect to the Term Loans and 2.75% with respect to amounts outstanding under the Revolving Facility prior to January 29, 2013. “Applicable Margin” is defined to mean, as applicable to (x) Term Loans maintained as LIBO rate loans, 6.50% or as base rate loans, 5.50% and (y) loans under the Revolving Facility, prior to January 29, 2013, as applied to LIBO rate loans, 5.75% or as base rate loans, 4.75%, after January 29, 2013, 4.00% and 3.00%, respectively.

Guarantees

The Revolving Facility is collateralized by a security interest in substantially all of the assets of Trinseo Materials Operating S.C.A. and the guarantors thereunder. All obligations under the Revolving Facility are guaranteed by Trinseo S.A., Trinseo Ireland, Styron Luxco S.á r.I., Styron Holding S.á r.I., Trinseo Materials S.á r.I., our U.S. subsidiaries and certain foreign subsidiaries including those located in Switzerland, Sweden, Belgium, Germany, England, Italy, France, Spain, Hong Kong, Singapore, Luxembourg, the Netherlands, Australia, Canada and Ireland.

Maturity and Amortization

The Revolving Facility matures on January 29, 2018. Loans made pursuant to the Revolving Facility must be repaid in full on or prior to such date.

Covenants

The Revolving Facility requires Trinseo Materials S.á r.I. and Trinseo Materials Operating S.C.A. to comply with customary affirmative, negative and financial covenants. Set forth below is a brief description of each.

Affirmative Covenants . The affirmative covenants require: (i) payment of taxes and other material obligations, (ii) preservation of legal existence, rights, privileges, permits, licenses and franchises, (iii) maintenance of properties, (iv) maintenance of customary insurance, (v) visitation and inspection rights, (vi) designation of restricted and unrestricted subsidiaries, (vii) compliance with laws (including, without limitation, ERISA and environmental laws), (viii) further assurances as to the security interest in additional collateral, (ix) interest rate protection, (x) maintenance of rating, and (xi) customary financial and other reporting requirements (including, without limitation, annual audited financial statements and quarterly unaudited financial statements, in each case on a consolidated basis, notices of defaults, compliance certificates, reports to shareholders and other business and financial information as the administrative agent shall reasonably request).

Negative Covenants . The negative covenants include restrictions with respect to (i) liens, (ii) debt (including guarantees or other contingent obligations, (iii) mergers, consolidations, liquidations and dissolutions, (iv) sales, transfers or other disposition of assets, (v) dividends and other distributions to shareholders, (vi) loans, acquisitions and other investments, (vii) changing the principal nature of our business, and (viii) transactions with affiliates.

Financial Covenants . In addition, the Revolving Facility contains a financial covenant that requires us to comply with a springing first lien net leverage ratio test. If the outstanding balance under the Revolving Facility exceeds 25% of the $300.0 million borrowing capacity (excluding undrawn letters of credit up to $10.0 million) at a quarter end, then our first lien net leverage ratio (as defined in the Senior Secured Credit Facility) may not exceed 5.25-to-1.00 for the quarter ending March 31, 2013, 5.00-to-1.00 for the subsequent quarters through December 31, 2013, 4.50-to-1.00 for each of the quarters ending in 2014 and 4.25-to-1.00 for each of the quarters ending in 2015 and thereafter. If we fail to comply with this covenant and such noncompliance is not waived by the required lenders under the Senior Secured Credit Facility, an event of default would occur.

Events of Default

The Senior Secured Credit Facility provides for customary events of default, including (i) nonpayment of any principal, interest or fees, subject to applicable grace periods, (ii) failure to perform or observe any covenants, (iii) material inaccuracy of representations or warranties, (iv) cross-default to indebtedness over $20 million, (v) certain bankruptcy events, (vi) judgments with respect to which $20 million or more is not covered by insurance or indemnity if not satisfied within sixty days, (vii) invalidity of any security or guaranty document, (viii) change of control, (ix) ERISA liabilities which result in a material adverse effect to the Company, and (x) failure to maintain seniority of security interest.

Upon an event of default and absent a waiver or an amendment from the lenders, the administrative agent may terminate commitments and accelerate payment of all outstanding borrowings under the Amended Revolving Facility, subject to any applicable cure period.

Accounts Receivable Securitization Facility

In August 2010, Styron Receivable Funding Ltd. (“Styron Funding”), a variable interest entity in which we are the primary beneficiary, entered into an accounts receivable securitization facility with HSBC Bank Plc. The facility permits borrowings by our Swiss subsidiary guarantor, Styron Europe GmbH (“Styron Europe”), of up to a total of $160.0 million. Under the facility, Styron Europe will sell its accounts receivable from time to time to Styron Funding. In turn, Styron Funding may sell undivided ownership interests in such receivables to

commercial paper conduits in exchange for cash. We have agreed to continue servicing the receivables for Styron Funding. Upon the sale of the interests in the accounts receivable by Styron Funding, the conduits have a first priority perfected security interest in such receivables and, as a result, the receivables will not be available to our creditors of those of our subsidiaries.

Pursuant to the terms of the Senior Secured Credit Facility, as amended in August 2012, the accounts receivable securitization facility was amended to allow for the expansion of the pool of eligible accounts receivable to include a previously excluded German subsidiary. Furthermore, the Senior Secured Credit Facility allowed us to increase the size of the permitted securitization to an amount up to $260.0 million.

In May 2013, the Company further amended its accounts receivable securitization facility which increased our borrowing capacity from $160.0 million to $200.0 million, extended the maturity date to May 2016, lowered our borrowing cost, and allows for the expansion of the pool of eligible accounts receivable to include our previously not included U.S. and Netherlands subsidiaries. As a result of the amendment, the Company incurred $0.7 million in fees, which were capitalized within “Deferred charges and other assets” in the condensed consolidated balance sheet and amortized into interest expense using the straight-line method over the remaining term.

The accounts receivable securitization facility is subject to interest charges against both the amount of outstanding borrowings as well as the amount of available, but undrawn borrowings. As a result of the amendment to our accounts receivable securitization facility in May 2013 noted above, we lowered our borrowing costs. In regards to the outstanding borrowings, fixed interest charges were decreased from 3.25% plus variable commercial paper rates to 2.6% plus variable commercial paper rates. In regards to available, but undrawn borrowings, fixed interest charges were decreased from 1.50% to 1.40%.

At June 30, 2013, there was $177.4 million of accounts receivable eligible to support this facility and there were $148.9 million in outstanding borrowing, which are included in short-term borrowings in the condensed consolidated balance sheet as June 30, 2013.

China Revolving Credit Facilities

In 2011, we entered into short-term revolving facilities with each of HSBC Bank (China) Company Limited, Suzhou Branch (“HSBC China”) and Bank of China, through our subsidiary, Styron S/B Latex (Zhangjiagang) Company Limited (“Styron China”) that provide for approximately $28.5 million of combined uncommitted funds available for borrowing, subject to annual renewal. Effective interest on these facilities range between 1.7% to 7.5%.

These facilities are either guaranteed by Trinseo Material Operating S.C.A. or secured by pledges of certain of our assets in China, and rank pari-passu with all present and future borrowings of Styron China. Under the terms of the HSBC China facility, Styron China may not pledge any of its present or future assets without the prior consent of HSBC China, with the exception of bank acceptance drafts in favor of the Bank of China (a separate facility) for up to $15 million. In addition, we are required to furnish HSBC China with certain financial statements and operational information. These facilities are governed under the laws of the People’s Republic of China.

As of June 30, 2013, we did not renew the HSBC China Facility and, as a result, there were no outstanding borrowings under such facility. As of June 30, 2013, there was $3.4 million outstanding under the Bank of China facility.

DESCRIPTION OF THE EXCHANGE NOTES

On January 29, 2013, we sold, in a private transaction that was not subject to the registration requirements of the Securities Act, $1,325,000,000 aggregate principal amount of 8.750% Senior Secured Notes due 2019 (the " *Original Notes* "). The Original Notes were issued by Trinseo Materials Operating S.C.A. (for purposes of this section, the " *Company* ," " *we* ," " *us* " and " *our* ") and Trinseo Materials Finance, Inc. (" *Trinseo Finance* ") pursuant to an Indenture, dated as of January 29, 2013 (the " *Base Indenture* "), by and among the Company, Trinseo Finance, the Guarantors named therein and Wilmington Trust, National Association, as trustee and collateral agent (the " *Trustee* "), as supplemented by the First Supplemental Indenture, dated as of March 12, 2013 (the " *First Supplemental Indenture* "), the Second Supplemental Indenture, dated as of May 10, 2013 and the Third Supplemental Indenture, dated September 16, 2013 (collectively with the Base Indenture, the First Supplemental Indenture and the Second Supplemental Indenture, the " *Indenture* "), and as may be further supplemented from time to time.

In connection with the exchange offer, the Issuers will issue up to $1,325,000,000 aggregate principal amount of the Exchange Notes in fully registered form in denominations of $2,000 and integral multiples of $1,000 in excess of $2,000. The Trustee will initially act as the paying agent (the " *Paying Agent* ") and the registrar (the " *Registrar* "), for the notes. The Company may change any Paying Agent and Registrar without notice to holders of the notes. The Company will pay principal (and premium, if any) on the Exchange Notes at the Trustee's corporate trust office. At the Company's option, interest may be paid at the Trustee's corporate trust office or by check mailed to the registered address of the Holders.

The Company will issue the Exchange Notes under the Indenture in exchange for a like principal amount of Original Notes. The Indenture contains provisions that define your rights under the Exchange Notes. In addition, the Indenture governs our obligations, and those of each Guarantor under the Exchange Notes. The Exchange Notes represent the same indebtedness as the Original Notes and the terms of the Exchange Notes include those stated in the Indenture and those made part of the Indenture by reference to the Trust Indenture Act of 1939, as amended (the " *Trust Indenture Act* ").

The following is a summary of the material terms and provisions of the notes, the Indenture, the Security Documents, the Collateral Trust Agreement and the Intercreditor Agreement. The following summary does not purport to be a complete description of the notes or such agreements and is subject to the detailed provisions of, and qualified in its entirety by reference to the Indenture, the Security Documents, the Collateral Trust Agreement and the Intercreditor Agreement. You can find definitions of certain terms used in this description under the heading "Certain Definitions". Copies of the Indenture and agreements described in this section have been filed as exhibits to the registration statement of which this prospectus forms a part.

In this Description of the Exchange Notes, the term " *Company* " refers only to Trinseo Materials Operating S.C.A. and any successor obligor to Trinseo Materials Operating S.C.A. on the notes, and not to any of its Subsidiaries; and the term " *Issuers* " refers to the Company and Trinseo Finance (each of such Issuers, an " *Issuer* ") as co-issuers of the notes, and not to any of their Subsidiaries. The term " *Guarantors* " refers to, collectively, Trinseo, Styron Luxco S.à r.l., Styron Holding S.à r.l., Trinseo Materials S.à r.l. and each of the Company's existing and future wholly-owned subsidiaries that guarantee the Senior Secured Credit Facility, other than the Company's subsidiaries, Styron France S.A.S. and Styron Spain S.L. The term " *notes* " refers to the Original Notes and any Exchange Notes issued in exchange thereof. All such notes will be treated as a single class for all purposes under the Indenture. The term " *Issue Date* " as used herein refers to January 29, 2013, the date of the original issuance of the Original Notes under the Indenture.

Brief Description of the Exchange Notes and the Guarantees

The Exchange Notes are:

- general senior obligations of the Issuers, secured by a first priority lien in the Collateral (as defined below) of each of the Issuers and each of the Guarantors, subject to Permitted Liens under the Indenture;
- *pari passu* in right of payment with any existing and future Senior Indebtedness of the Issuers, including all obligations under the Credit Agreement;
- effectively senior to any existing or future unsecured Indebtedness of the Issuers or Indebtedness of the Issuers that is secured by Liens on the Collateral ranking junior to the Liens on the Collateral securing the notes, in each case to the extent of the value of the Collateral (after giving effect to the payment in full of the Payment Priority Obligations, including all obligations under the Credit Agreement, and any other Indebtedness permitted by the Indenture to be paid prior to the notes, in each case with the proceeds of Collateral in the event of a foreclosure or in any bankruptcy, insolvency or similar event);
- senior in right of payment to any existing or future Subordinated Indebtedness of the Company;
- unconditionally guaranteed on a senior basis by each Guarantor;
- effectively subordinated to any existing or future Payment Priority Obligations, including all obligations under the Credit Agreement; and
- structurally subordinated to any existing and future Indebtedness and other liabilities, including preferred stock, of Non-Guarantors.

The notes and the Issuers' obligations under the Indenture are, jointly and severally, unconditionally guaranteed on a senior basis by all of the Guarantors. See the section entitled "—Guarantees."

Each Guarantee (as defined below) is:

- a general senior obligation of the Guarantor, secured by a first priority lien in the Collateral, subject to Permitted Liens under the Indenture;
- *pari passu* in right of payment with any existing and future Senior Indebtedness of the Guarantor, including all obligations under the Credit Agreement;
- effectively senior to any existing or future Indebtedness of such Guarantor or Indebtedness of such Guarantor that is secured by Liens on the Collateral ranking junior to the Liens on the Collateral securing such Guarantee, in each case to the extent of the value of the Collateral owned by such Guarantor (after giving effect to the payment in full of the Payment Priority Obligations, including all obligations under the Credit Agreement, and any other Indebtedness permitted by the Indenture to be paid prior to the notes, in each case with the proceeds of Collateral in the event of a foreclosure or in any bankruptcy, insolvency or similar event);
- effectively subordinated to any existing or future Payment Priority Obligations, including all obligations under the Credit Agreement; and
- senior in right of payment to any future Subordinated Indebtedness of the Guarantor.

Not all of our Subsidiaries guarantee the notes. As of the date of this prospectus, the Guarantors consist of Trinseo and each of its existing and future wholly-owned subsidiaries that guarantee the Senior Secured Credit Facility, other than Trinseo's subsidiaries, Styron France S.A.S. and Styron Spain S.L.

Principal, Maturity and Interest

The Exchange Notes will be issued in minimum denominations of $2,000 and in integral multiples of $1,000 in excess thereof. The rights of Holders of beneficial interests in the Exchange Notes to receive the payments on such notes are subject to applicable procedures of DTC. If the due date for any payment in respect of any Exchange Notes is not a Business Day at the place at which such payment is due to be paid, the Holder thereof will not be entitled to payment of the amount due until the next succeeding Business Day at such place, and will not be entitled to any further interest or other payment as a result of any such delay.

The Exchange Notes are being offered up to the aggregate principal amount of $1,325.0 million. The notes will mature on February 1, 2019.

Interest on the notes will accrue at the rate per annum of 8.750% and will be payable, in cash, semi-annually in arrears on February 1 and August 1 of each year, commencing on August 1, 2013, to Holders of record on the immediately preceding January 15 and July 15, respectively. Interest on the notes will accrue from the most recent date to which interest has been paid or, if no interest has been paid, from August 9, 2012, the original date of issuance of the Original Notes. Interest will be computed on the basis of a 360-day year comprised of twelve 30-day months. Each interest period will end on (but not include) the relevant interest payment date.

Additional Notes

The Indenture provides for the issuance of additional notes having identical terms and conditions to the notes offered hereby, subject to compliance with the covenants contained in the Indenture (the " *Additional Notes* "). Additional Notes will be part of the same issue as the notes offered hereby under the Indenture for all purposes, including, without limitation, waivers, amendments, redemptions and offers to purchase.

Payments

Principal of, premium, if any, and interest, on the notes will be payable at the office or agency of the Issuers maintained for such purpose or, at the option of the paying agent, payment of interest and Additional Interest, if any, may be made by check mailed to the Holders of the notes at their respective addresses set forth in the register of Holders provided that all payments of principal, premium, and interest with respect to notes represented by one or more global notes registered in the name of or held by DTC or its nominee will be made by wire transfer of immediately available funds to the accounts specified by the Holder or Holders thereof. Until otherwise designated by the Issuers, the Issuers' office or agency will be the office of the Trustee maintained for such purpose.

Guarantees

The obligations of the Issuers under the notes and the Indenture are, jointly and severally, unconditionally guaranteed on a senior secured basis (the " *Guarantees* ") by the Guarantors (subject to the release of any Guarantee by a Guarantor that is an Immaterial Subsidiary pursuant to the terms of the covenant described under "—Certain Covenants—Limitation on Guarantees").

The Guarantors accounted on an aggregate basis for approximately:

- 78.1% of our consolidated net sales before eliminations for fiscal year ended December 31, 2012 and 79.2% of our consolidated net sales before eliminations for the six-month period ended June 30, 2013;

- 76.4% of our consolidated total assets as of December 31, 2012 and 71.3% of our consolidated total assets as of June 30, 2013; and
- 92.4% of our consolidated total liabilities as of December 31, 2012 and 90.1% of our consolidated total liabilities as of June 30, 2013, in each case, including trade payables but excluding intercompany liabilities.

In addition, if the Company or any of its Restricted Subsidiaries acquire or create a Wholly Owned Subsidiary (other than an Immaterial Subsidiary) after the date hereof, which Subsidiary guarantees the Credit Agreement, the Company will cause such new Subsidiary to provide a Guarantee, unless prohibited by law.

Each Guarantee is limited to the maximum amount that would not render the Guarantor's obligations subject to avoidance under applicable fraudulent conveyance provisions of the United States Bankruptcy Code or any comparable provision of foreign or state law to comply with corporate benefit, financial assistance and other laws. Each Guarantee is limited further by the laws of the country in which the Guarantor is organized, which laws include, but are not limited to, the regulation of distributions of assets and the maximum amount that may be payable by a Guarantor. Furthermore, each Guarantee does not apply to the extent that it would result in such Guarantee's constituting unlawful financial assistance or misuse of corporate assets under the applicable laws of the country in which the Guarantor is organized. By virtue of these limitation and restrictions, a Guarantor's obligation under its Guarantee could be significantly less than amounts payable with respect to the notes, or a Guarantor may have effectively no obligation under its Guarantee. See "Risk Factors—Risks Related to the Notes and Our Indebtedness—Federal, state and foreign fraudulent transfer laws may permit a court to void the notes and/or the guarantees, and if that occurs, you may not receive any payments on the notes."

The Guarantee of a Guarantor (other than the Parent Guarantor) will terminate upon:

(1) a sale or other disposition (including by way of consolidation or merger) of the Capital Stock of such Guarantor or the sale or disposition of all or substantially all the assets of the Guarantor (other than to the Company or a Restricted Subsidiary) otherwise permitted by the Indenture;

(2) the designation in accordance with the Indenture of the Guarantor as an Unrestricted Subsidiary or the occurrence of any event after which the Guarantor is no longer a Restricted Subsidiary;

(3) defeasance or discharge of the notes, as provided in "—Defeasance" and "—Satisfaction and Discharge;"

(4) to the extent that such Guarantor is not an Immaterial Subsidiary solely due to the operation of clause (i) of the definition of "*Immaterial Subsidiary* ," upon the release of the guarantee referred to in such clause;

(5) to the extent such Guarantor is also a guarantor or borrower under the Credit Agreement as in effect on the Issue Date and, at the time of release of its Guarantee, (x) has been released from its guarantee of, and all pledges and security, if any, granted in connection with the Credit Agreement (except a release by or as a result of a payment thereon), (y) is not an obligor under any Indebtedness (other than Indebtedness permitted to be incurred pursuant to clause (3) of the second paragraph of the covenant described under "—Certain Covenants—Limitation on Indebtedness") and (z) does not guarantee any Indebtedness of the Company or any of the other Guarantors; or

(6) upon the achievement of Investment Grade Status by the notes; *provided* that such Guarantee shall be reinstated upon the Reversion Date.

As of the date of this prospectus, each of Trinseo, Styron Luxco S.à r.l., Styron Holding S.à r.l., Trinseo Materials S.à r.l. and the Company's Restricted Subsidiaries are Guarantors, other than the Company's Subsidiaries located in the following countries: Argentina, Chile, Columbia, France, Greece, India, Indonesia, Japan, South Korea, Mexico, Spain, Taiwan and Turkey. Claims of creditors of non-guarantor Subsidiaries,

including trade creditors, secured creditors and creditors holding debt and guarantees issued by those Subsidiaries, and claims of preferred and minority stockholders (if any) of those Subsidiaries and claims against joint ventures generally will have priority with respect to the assets and earnings of those Subsidiaries and joint ventures over the claims of creditors of the Issuers, including Holders of the notes. The notes and each Guarantee therefore will be effectively subordinated to creditors (including trade creditors) and preferred and minority stockholders (if any) of Subsidiaries of the Issuers (other than the Guarantors) and joint ventures. Although the Indenture limits the incurrence of Indebtedness, Disqualified Stock and Preferred Stock of Restricted Subsidiaries, the limitation is subject to a number of significant exceptions. Moreover, the Indenture does not impose any limitation on the incurrence by Restricted Subsidiaries of liabilities that are not considered Indebtedness, Disqualified Stock or Preferred Stock under the Indenture. See "—Certain Covenants—Limitation on Indebtedness."

Collateral and Security Documents

General

Subject to the limitations described under "—Intercreditor Agreement" below, under the Security Documents, to secure the payment when due of the Issuers' and each of the Guarantor's payment obligations, and the performance of all other obligations of the Issuers and the Guarantors, under the notes, the Guarantees and the Indenture, which obligations will be secured equally and ratably with the obligations of any Issuer or Guarantor under any Payment Priority Obligations and Pari Passu Secured Obligations, the Issuers and each Guarantor have granted a first-priority security interest in all of such Issuer's or such Guarantor's right, title and interest in the following wherever located and whether now owned or hereafter acquired, other than the Excluded Assets (as defined below) and subject to Permitted Liens (collectively, the "*Collateral*"):

- all accounts;
- all chattel paper;
- all documents;
- all equipment;
- all general intangibles;
- all goods;
- all instruments;
- all inventory;
- all investment property;
- all books and records pertaining to the Collateral;
- all fixtures;
- all letters of credit and letter-of-credit rights;
- all intellectual property;
- certain commercial tort claims;
- Material Real Property; and
- to the extent not otherwise included, all proceeds and products of any and all of the foregoing and all supporting obligations, collateral security and guarantees given by any Person with respect to any of the foregoing.

The security interest of the Collateral Agent in certain of the Collateral (including Mortgages on the Mortgaged Real Property) was not in place on the Issue Date. The Indenture contains a covenant which required the Issuers and the Guarantors to use reasonable efforts in order to grant a security interest to the Collateral Agent for its benefit and the benefit of the Trustee and the holders of the notes in such Collateral within 90 days following the Issue Date (subject to extensions thereof permitted by the Indenture and the Security Documents) and to take certain actions in order to perfect such security interest. As of September 9, 2013, the Issuers and the Guarantors were in compliance with such covenant, and the security interest of the Collateral Agent in all of the Collateral was in place.

The Collateral excludes certain property (" *Excluded Assets* "), including: (i) any real property other than Material Real Properties, (ii) motor vehicles and other assets subject to certificates of title and commercial tort claims where the amount of damages claimed by the applicable Issuer or Guarantor is less than $5,000,000, (iii) any particular asset, if the pledge thereof or the security interest therein is prohibited by law other than to the extent such prohibition is expressly deemed ineffective under the Uniform Commercial Code or other applicable law notwithstanding such prohibition, (iv) any agreement or other property or rights of an Issuer or Guarantor arising under or evidenced by any contract, lease, instrument, license or document to the extent the pledges thereof and security interests therein (A) are prohibited by such agreement contract, lease, instrument, license or document (including any permitted lien, lease and license), (B) would give any other party to such agreement, contract, lease, instrument, license or document the right to terminate its obligations thereunder or (C) is permitted only with the consent of another party (including, without limitation, consent of any Governmental Authority), if such consent has not been obtained, other than, in each case, proceeds and receivables thereof, except, in each case, to the extent the pledge of such agreements or other property or rights is expressly deemed effective, or such prohibition is unenforceable against third parties, under the Uniform Commercial Code or other applicable law or principle of equity notwithstanding such prohibition, (v) Capital Stock in, or assets of, Unrestricted Subsidiaries, (vi) Capital Stock in any joint venture if the pledge of such Capital Stock would cause a breach or default or require a consent that has not been obtained, in each case under the terms of any agreement related to such joint venture, (vii) any particular assets if, in the reasonable judgment of the agent under the Credit Agreement evidenced in writing, determined in consultation with the Issuers, the burden, cost or consequences of creating or perfecting such pledges or security interests in such assets is excessive in relation to the benefits to be obtained therefrom by the Holders, (viii) any particular assets if it would result in a significant risk to the officers of the relevant grantor of Collateral of contravention with their fiduciary duties and/or of civil or criminal liability, (ix) any Capital Stock of any Subsidiary of the Company (other than the Domestic Subsidiaries of the Company) the pledge of which is prohibited by applicable law or the pledge of which would require governmental consent, approval, license or authorization, after the use of commercially reasonable efforts to obtain such consent, approval, license or authorization, (x) the Securitization Assets, any bank account of an Issuer or any Restricted Subsidiary into which only Securitization Assets are collected or any bank account of a Securitization Entity, in each case over which a Lien may be granted in connection with a Qualified Securitization Financing and for only so long as such bank accounts do not receive or hold funds of an Issuer or any Restricted Subsidiary and (xi) any Capital Stock and other securities of a Subsidiary to the extent that the pledge of such Capital Stock and other securities results in the Issuer being required to file separate financial statements of such Subsidiary with the SEC, but only to the extent necessary not to be subject to such requirement, as described below. For the avoidance of doubt, " *Excluded Assets* " shall not include any proceeds, products, substitutions or replacements of Excluded Assets (unless such proceeds, products, substitutions or replacements would otherwise constitute Excluded Assets).

In addition, in the event that Rule 3-16 of Regulation S-X under the Securities Act (as amended or modified from time to time) is interpreted by the SEC to require (or is replaced with another rule or regulation, or any other law, rule or regulation is adopted, which would require) the filing with the SEC (or any other governmental agency) of separate financial statements of any Subsidiary of the Issuers due to the fact that such Subsidiary's Capital Stock secures the notes, then the Capital Stock of such Subsidiary shall automatically be deemed not to be part of the Collateral but only to the extent necessary to not be subject to such requirement (the " *Rule 3-16 Excluded Capital Stock* "). In such event, the Security Documents may be amended or modified, without the

consent of any Holder, to the extent necessary to release the security interests in favor of the Collateral Agent on the shares of Capital Stock that are so deemed to no longer constitute part of the Collateral. In the event that Rule 3-16 of Regulation S-X under the Securities Act (as amended or modified from time to time) is interpreted by the SEC to permit (or are replaced with another rule or regulation, or any other law, rule or regulation is adopted, which would permit) such Subsidiary's Capital Stock to secure the notes in excess of the amount then pledged without the filing with the SEC (or any other governmental agency) of separate financial statements of such Subsidiary, then the Capital Stock of such Subsidiary shall automatically be deemed to be a part of the Collateral but only to the extent necessary to not be subject to any such financial statement requirement.

The Indenture and the Security Documents generally do not require the Issuers or the Guarantors to take certain actions to perfect the Liens of the Collateral Agent in the Collateral. The Issuers and the Guarantors generally are not required to take any actions to perfect under the laws of the Unites States the security interest of the Collateral Agent in the Collateral of the Guarantors organized under the laws of the United States beyond the filing of UCC financing statements, mortgages on Material Real Properties, delivery of certificates and instruments evidencing pledges of Capital Stock and Indebtedness and filings with respect to U.S. registered intellectual property. As a result, the Liens on the Collateral securing the obligations of the Issuers and the Guarantors under the notes and the notes Guarantees may not attach or be perfected in certain of the Collateral. To the extent the Collateral Agent does not have a perfected security interest in any Collateral, the Collateral Agent's security interest will not be enforceable against third parties, which could adversely affect the rights of the holders with respect to such Collateral. Additionally, to the extent that Liens, rights or easements granted to third parties encumber any real property that constitutes Collateral, such third parties may exercise rights and remedies with respect to the property subject to such Liens that could adversely affect the value of the Collateral and the ability of the Collateral Agent to realize or foreclose on the Collateral. See "Risk Factors— Risks Related to the Notes and Our Indebtedness."

Security Documents

The Collateral has been pledged pursuant to Security Documents substantially identical to the security documents that currently secure the Payment Priority Obligations, with such conforming changes necessary to reflect that the obligations secured by the Security Documents are in respect of the obligations of the Issuers and the Guarantors under the notes, the Guarantees and the Indenture and under any additional Pari Passu Secured Obligations that may be secured thereby in the future and other changes, if any, requested by the Collateral Agent or the Trustee. The Security Documents were entered into among the relevant Issuer, the relevant Guarantor and the Collateral Agent. The Collateral Agent acts in its own name, but for the benefit of itself, the Trustee, the Holders from time to time and the holders from time to time of any Pari Passu Secured Obligations that may be secured by the Security Documents. The Security Documents provide that upon the occurrence and during the continuance of an Event of Default, the Collateral Agent is permitted, subject to applicable law and the terms of the Intercreditor Agreement, to exercise remedies and sell the Collateral under the Security Documents only at the direction of the holders of a majority in the aggregate outstanding principal amount of the notes and any other Pari Passu Secured Obligations that may be secured thereby voting as a single class upon receipt of indemnity satisfactory to it. The Indenture and the Security Documents provide that the Holders may not, individually or collectively, take any direct action to enforce any rights in their favor under the Security Documents. The Holders may only act through the Collateral Agent.

By accepting a note, each Holder is deemed to have appointed the Collateral Agent to act as its agent under the Intercreditor Agreement, any Future Intercreditor Agreement and the Security Documents. By accepting an Exchange Note, each Holder will be deemed to have authorized the Collateral Agent, without the need for further consent, to (i) perform the duties and exercise the rights, powers and discretions that are specifically given to it under the Intercreditor Agreement, any Future Intercreditor Agreement and the Security Documents, together with any other incidental rights, power and discretions; and (ii) execute each Security Document, waiver, modification, amendment, renewal or replacement expressed to be executed by the Collateral Agent on its behalf.

The Indenture provides that, subject to the terms thereof and of the Security Documents and the Intercreditor Agreement and any Future Intercreditor Agreement, the notes, the Guarantees, the Indenture, and any Pari Passu Secured Obligations secured thereby, as applicable, will be secured by the Security Interest in the Collateral until all obligations under the notes, the Guarantees, the Indenture and any Pari Passu Obligations secured thereby have been paid in full in cash. However, please see the section entitled "Risk Factors—Risks Related to the Notes and Our Indebtedness". The validity and enforceability of the Guarantees and the Security Interests and the liability of each Guarantor will be subject to the limitations including those described in "Risk Factors—Risks Related to the Notes and Our Indebtedness—Federal, state and foreign fraudulent transfer laws may permit a court to void the notes and/or the guarantees, and if that occurs, you may not receive any payments on the notes" and "Enforcement of Civil Liabilities."

Certain Bankruptcy Limitations

In the event that the Issuers or any of their respective Subsidiaries enter into insolvency, bankruptcy or similar proceedings, the Security Interest created under the Security Documents or the rights and obligations enumerated in the Intercreditor Agreement could be subject to potential challenges. If any challenge to the validity of the Security Interest or the terms of the Intercreditor Agreement or any Future Intercreditor Agreement was successful, the Holders may not be able to recover any amounts under the Security Documents. Please see "Risk Factors—Risks Related to the notes and Our Indebtedness." The right of the Collateral Agent to repossess and dispose of the Collateral upon the occurrence of an Event of Default would be significantly impaired by applicable bankruptcy or other insolvency laws in the event that a bankruptcy case were to be commenced by or against the Issuers or any Guarantor prior to the Collateral Agent having repossessed and disposed of the Collateral. See "Risk Factors—Risks Related to the Notes and Our Indebtedness—Bankruptcy laws may limit your ability to realize value from the collateral."

Furthermore, in the event a U.S. bankruptcy court determines the value of the Collateral (after giving effect to any prior Liens) is not sufficient to repay all amounts due on the Payment Priority Obligations, the notes and any Pari Passu Secured Obligations, the Payment Priority Obligations would be repaid in full prior to any payments being made on the notes and any Pari Passu Secured Obligations and then the holders of the notes and any Pari Passu Secured Obligations would hold secured claims to the extent of the remaining value of the Collateral, and would hold unsecured claims with respect to any shortfall. Applicable U.S. bankruptcy laws permit the payment and/or accrual of post-petition interest, costs and attorneys' fees during a debtor's bankruptcy case only to the extent the claims are oversecured or the debtor is solvent at the time of reorganization. In addition, if any Issuer or any Guarantor were to become the subject of a bankruptcy case, the bankruptcy court, among other things, may avoid certain pre-petition transfers made by the entity that is the subject of the bankruptcy filing, including, without limitation, transfers held to be preferences or fraudulent conveyances.

In addition, Trinseo Materials Operating S.C.A. is organized and incorporated in Luxembourg and certain of the Guarantors are organized outside of the United States and insolvency proceedings with respect to these entities may proceed under, and be governed by, foreign laws, which may not be as favorable to Holders of the notes as insolvency laws of the United States or other jurisdictions with which investors may be familiar. For a description of these and certain other limitations on the validity and enforceability of Guarantees and Security Interests, see "Risk Factors—Risks Related to the Notes and Our Indebtedness—Federal, state and foreign fraudulent transfer laws may permit a court to void the notes and/or the guarantees, and if that occurs, you may not receive any payments on the notes" and "Enforcement of Civil Liabilities."

Use and Release of Collateral

The Liens on the Collateral will automatically and without the need for any further action by any Person be released under any one or more of the following circumstances:

1. in part, in connection with any sale or other disposition of Collateral to a Person that is not a Restricted Subsidiary, an Issuer or a Guarantor (but excluding any transaction subject to "Certain Covenants—

Merger and Consolidation"), if such sale or other disposition does not violate the covenant described under "Certain Covenants—Limitation on Sales of Assets and Subsidiary Stock" or is otherwise permitted in accordance with the Indenture;

2. in part, in the case of a Guarantor that is released from its Guarantee pursuant to the terms of the Indenture, the release of the Capital Stock, of such Guarantor;
3. in part, as described under "—Amendments and Waivers";
4. in whole, upon payment in full of principal, interest and all other obligations on the notes or defeasance or discharge of the notes, as provided in "—Defeasance" and "—Satisfaction and Discharge";
5. in part, if the Company designates any Restricted Subsidiary to be an Unrestricted Subsidiary in accordance with the applicable provisions of the Indenture, the release of the Capital Stock of such Unrestricted Subsidiary;
6. in part, as to any property constituting Collateral (A) that constitutes an " *Excluded Asset* " pursuant to a transaction permitted by the Indenture; or (B) in accordance with, and as expressly provided for under, the Indenture, the Security Documents, the Intercreditor Agreement or any Future Intercreditor Agreement; and
7. as otherwise permitted in accordance with the Indenture.

A release of any portion of the Collateral pursuant to the provisions of the Indenture, the Security Documents, the Intercreditor Agreement or any Future Intercreditor Agreement shall not be deemed to impair the security interest on the remaining Collateral under the Indenture or the Security Documents.

To the extent required by the Indenture, the Issuers or the Guarantors, as the case may be, will furnish to the Trustee (or its agent) and the Collateral Agent, prior to each proposed release of such Collateral pursuant to the Security Documents, the Intercreditor Agreement, any Future Intercreditor Agreement and/or the Indenture an Officers' Certificate as required by the Security Documents, the Intercreditor Agreement, any Future Intercreditor Agreement and/or the Indenture; provided, however, in no event shall the Indenture or any Security Document require an Officers' Certificate for the release of a Lien on Collateral that is sold or pledged in the ordinary course of business to the extent such sale or pledge is permitted by the Indenture (which Collateral shall be deemed automatically released upon any such sale).

To the extent applicable, the Issuers will cause Trust Indenture Act § 313(b), relating to reports, and Trust Indenture Act § 314(d), relating to the release of property or securities or relating to the substitution therefor of any property or securities to be subjected to the Lien of the Security Documents, to be complied with. Any certificate or opinion required by Trust Indenture Act § 314(d) may be made by an officer of the Issuers except in cases where Trust Indenture Act § 314(d) requires that such certificate or opinion be made by an independent Person, which Person will be an independent engineer, appraiser or other expert selected or reasonably satisfactory to the Trustee. Notwithstanding anything to the contrary in the preceding paragraph, the Issuers will not be required to comply with all or any portion of Trust Indenture Act § 314(d) if they determine, in good faith based on advice of counsel, that under the terms of Trust Indenture Act § 314(d) and/or any interpretation or guidance as to the meaning thereof of the SEC and its staff, including "no action" letters or exemptive orders, and deliver an officer's certificate and Opinion of Counsel to the Trustee stating that all or any portion of Trust Indenture Act § 314(d) is inapplicable to one or a series of released Collateral.

Upon compliance by the Issuers or the Guarantors, as the case may be, with the conditions precedent set forth above, the Collateral Agent and the Trustee will, at the Issuers' expense and without any recourse to or representation by the Collateral Agent or the Trustee, take all necessary action requested by the Issuers or the Guarantors to effectuate any release of Collateral securing the notes and the Guarantees, in accordance with the provisions of the Indenture, the Intercreditor Agreement and any Future Intercreditor Agreement and the relevant Security Document. Each of the releases set forth above shall be effected by the Collateral Agent without the consent of the Holders or any action on the part of the Trustee.

Certain Limitations on the Collateral

Each Security Interest is and will be limited (including, as required by applicable law, by reference to a specific amount or by reference to general principles or provisions regarding the enforceability of such Security Interest under applicable law) to the maximum amount that would not render the Security Interest subject to avoidance under applicable fraudulent conveyance provisions of the Code or any comparable provision of foreign or state law to comply with corporate benefit, financial assistance and other similar laws. By virtue of this limitation, the amounts actually secured by a Security Interest could be significantly less than amounts payable with respect to the notes or the Guarantees, and a Security Interest may effectively secure no Obligations under the notes or the Guarantees.

See also "Risk Factors—Risks Related to the Notes and Our Indebtedness."

Sufficiency of Collateral

No appraisal of the value of the Collateral has been made in connection the notes and the value of the Collateral in the event of liquidation may be materially different from book value. The fair market value of the Collateral is subject to fluctuations based on factors that include, among others, the condition of our industry, the ability to sell the Collateral in an orderly sale, general economic conditions, the availability of buyers and other factors. The amount to be received upon a sale of the Collateral would also be dependent on numerous factors, including, but not limited, to the actual fair market value of the Collateral at such time and the timing and the manner of the sale. By its nature, portions of the Collateral may be illiquid and may have no readily ascertainable market value. Accordingly, there can be no assurance that the Collateral can be sold in a short period of time or in an orderly manner. In addition, the fact that the lenders under the Payment Priority Obligations will receive proceeds from enforcement of the Collateral before holders of the notes and that other Persons may have first-priority Liens in respect of Collateral pursuant to Permitted Liens could have a material adverse effect on the amount that holders of the notes would receive upon a sale or other disposition of the Collateral. If the proceeds from a sale or other disposition of the Collateral were not sufficient to repay all amounts due on the notes, the holders of the notes (to the extent not repaid from the proceeds of the sale of the Collateral) would have only an unsecured claim against the remaining assets of the Issuer and the Guarantors. See "Risk Factors—Risk Related to the notes and Our Indebtedness—It may be difficult to realize the value of the collateral securing the notes." In addition, in the event of a bankruptcy, the ability of the Holders to realize upon any of the Collateral may be subject to certain bankruptcy law limitations as described above.

Intercreditor Agreement

The Company, the Collateral Agent and the collateral agent under the Credit Agreement have entered into an intercreditor and collateral agency agreement, dated as of January 29, 2013 (the " *Intercreditor Agreement* "), which agreement was acknowledged by Trinseo Finance and the Guarantors, to establish the relative rights of the holders of the Obligations under the notes and the holders of the Obligations under the Credit Agreement with respect to their respective Liens on the Collateral. Following the Issue Date, additional collateral agents for the holders of Pari Passu Secured Obligations, Payment Priority Obligations and Junior Secured Obligations may become party to the Intercreditor Agreement subject to compliance with certain procedural requirements in the Intercreditor Agreement. Pursuant to the covenant set forth under "Certain Covenants—Future Intercreditor Agreements," the Issuers and the Guarantors may in the future enter into additional intercreditor agreements with substantially the same terms (or terms not materially less favorable to the Holders) as the Intercreditor Agreement to define the relative rights of the holders of the Obligations under the notes, any holders of any future Payment Priority Obligations (other than in respect of the Credit Agreement), any future Pari Passu Secured Obligations and any future Junior Secured Obligations that may be incurred by the Issuers and the Guarantors pursuant to the terms of the Indenture with respect to their respective Liens on the Collateral (any such agreement, a " *Future Intercreditor Agreement* ").

The notes and other obligations secured by the Liens in favor of the Collateral Agent, the Payment Priority Obligations secured by Liens in favor of the collateral agent under the Credit Agreement, any Pari Passu Secured Obligations secured by Liens in favor of the Collateral Agent or any other collateral agent that becomes party to the Intercreditor Agreement are each referred to as a " *class* " of First Lien Obligations or Junior Secured Obligations in this section, as applicable.

Unless expressly stated otherwise in the Intercreditor Agreement, in the event of a conflict between the terms of the Indenture and the Intercreditor Agreement, the provisions of the Intercreditor Agreement will prevail.

By accepting a note, such holder of the notes shall be deemed to have agreed to, and accepted the terms and conditions of, the Intercreditor Agreement and any Future Intercreditor Agreement.

The following description is a summary of certain provisions, among others, contained in the Intercreditor Agreement. It does not restate the Intercreditor Agreement in its entirety, and we urge you to read that document because it, and not the description that follows, defines your rights as Holders of the notes.

Ranking and Priority

The Intercreditor Agreement provides that, notwithstanding the date, time, method, manner or order of grant, attachment or perfection of any liens on any Collateral in which the Collateral Agent and one or more collateral agents for any class of Payment Priority Obligations, Pari Passu Secured Obligations or Junior Secured Obligations have perfected security interests (any such Collateral as to which the Collateral Agent and any other collateral agent have such a perfected security interest being referred to as " *Shared Collateral* "), the Collateral Agent and each other collateral agent with respect to such Shared Collateral will have equal rights to enforce the respective security interests in the Shared Collateral subject to certain other provisions of the Intercreditor Agreement; *provided* that (i) the Payment Priority Obligations will have priority in right of payment upon a foreclosure, enforcement or exercise of remedies with respect to the Shared Collateral or a bankruptcy, insolvency or similar event or if the Collateral Agent or any other collateral agent for any class of Pari Passu Secured Obligations or Junior Secured Obligations receives any payment with respect to any Shared Collateral pursuant to any intercreditor agreement (other than the Intercreditor Agreement) and will be repaid prior to the payment of the Obligations under the notes, the Pari Passu Secured Obligations and the Junior Secured Obligations and (ii) the security interests in such Shared Collateral for any Junior Secured Obligations will rank junior to any security interest in such Shared Collateral for any First Lien Obligations, and, as a result, each collateral agent with respect to any Junior Secured Obligations will not be permitted to enforce its respective security interests in the Shared Collateral, subject to certain exceptions, and upon a foreclosure, enforcement or exercise of remedies with respect to the Shared Collateral or a bankruptcy, insolvency or similar event, will be repaid after the repayment in full of any First Lien Obligations. With respect to each class of Pari Passu Secured Obligations and Junior Secured Obligations, the secured parties for each such class (and not the secured parties with respect to any other class of Pari Passu Secured Obligations or Junior Secured Obligations) shall bear the risk of any determination by a court of competent jurisdiction that (i) any Pari Passu Secured Obligations or Junior Secured Obligations, as applicable, of such class are unenforceable under applicable law or are subordinated to any other obligations (other than Payment Priority Obligations), (ii) the secured parties for such class of Pari Passu Obligations or Junior Secured Obligations do not have a valid and perfected lien on any of the Collateral securing any of the Pari Passu Secured Obligations or Junior Secured Obligations, as applicable, of any other class and/or (iii) any third party (other than the Collateral Agent or any other collateral agent for any class of Pari Passu Secured Obligations or Junior Secured Obligations, as applicable), (such third party is referred to herein, with respect to any Intervening Lien (as defined below) for the benefit of such third party, as an " *Intervening Creditor* ") has a lien on any Shared Collateral that is senior in priority to the lien on such Shared Collateral securing Pari Passu Secured Obligations or Junior Secured Obligations, as applicable, of such class on such Shared Collateral, but junior to the lien on such Shared Collateral securing any other class of Pari Passu Secured Obligations or Junior Secured Obligations, as applicable (any such lien being referred to as an

" *Intervening Lien* ") (any condition with respect to Pari Passu Secured Obligations or Junior Secured Obligations of any class being referred to as an " *Impairment* " with respect to such class). In the event an Impairment exists with respect to any class of Pari Passu Secured Obligations or Junior Secured Obligations, the results of such Impairment shall be borne solely by the secured parties of such class of Pari Passu Secured Obligations or Junior Secured Obligations, as applicable, and the rights of the secured parties of such class of Pari Passu Secured Obligations or Junior Secured Obligations, as applicable, set forth in the Intercreditor Agreement shall be modified to the extent necessary so that the results of such Impairment are borne solely by the secured parties of such class. In furtherance of the foregoing, in the event Pari Passu Secured Obligations or Junior Secured Obligations of any class shall be subject to an Impairment in the form of an Intervening Lien, the value of any Shared Collateral or proceeds that are allocated to such Intervening Creditor shall be deducted solely from the Shared Collateral or proceeds to be distributed in respect of Pari Passu Secured Obligations of such class.

The Intercreditor Agreement provides that none of the Collateral Agent, the collateral agent under the Credit Agreement or any additional collateral agent for the holders of any class of First Lien Obligations or Junior Secured Obligations shall contest or support any person in contesting in any proceeding (including a bankruptcy proceeding) the perfection, priority, validity, attachment or enforceability of a lien held by or on behalf of any other collateral agent or any holders of First Lien Obligations or Junior Secured Obligations in the Shared Collateral; *provided* that the foregoing shall not impair the right of any collateral agent or holder of First Lien Obligations or Junior Secured Obligations to enforce the Intercreditor Agreement. In addition, the Intercreditor Agreement provides that the Issuer and the Guarantors shall not, and shall not permit any Subsidiary to, grant or permit or suffer to exist any additional Liens on any asset or property to secure any class of First Lien Obligations unless it has granted a Lien on such asset or property to secure each other class of First Lien Obligations, as the case may be; *provided* that the foregoing shall not prohibit the Payment Priority Obligations from being secured by any Rule 3-16 Excluded Capital Stock that does not secure the Obligations under the notes or any Pari Passu Secured Obligations or Junior Secured Obligations.

Under the Intercreditor Agreement, if (i) any of the Collateral Agent or the collateral agent or any secured party in respect of any other class of First Lien Obligations or Junior Secured Obligations is taking action to enforce rights or exercise remedies in respect of any Shared Collateral, (ii) any distribution is made in respect of any Shared Collateral in any insolvency or liquidation proceeding of any Issuer or any Guarantor or (iii) the Collateral Agent, any such other collateral agent or any such secured party receives any payment with respect to any Shared Collateral pursuant to any intercreditor agreement (other than the Intercreditor Agreement), then the proceeds of any sale, collection or other liquidation of any Shared Collateral obtained by such Collateral Agent, any such other collateral agent or any such secured party in respect of any First Lien Obligations or Junior Secured Obligations on account of such enforcement of rights or exercise of remedies, and any such distributions or payments received by such Collateral Agent, any such other collateral agent or any such secured party in respect of any First Lien Obligations or Junior Secured Obligations, shall be applied as follows:

(i) first , to (a) the payment of all amounts owing to such collateral agent (in its capacity as such) pursuant to the terms of any document related to the First Lien Obligations, (b) in the case of any such enforcement of rights or exercise of remedies, to the payment of all costs and expenses incurred by such collateral agent or any secured parties in the same class as such collateral agent in respect of First Lien Obligations in connection therewith and (c) in the case of any such payment pursuant to any such intercreditor agreement, to the payment of all costs and expenses incurred by such collateral agent or any of its related secured parties in enforcing its rights thereunder to obtain such payment;

(ii) second , to the payment in full of any Payment Priority Obligations at the time due and payable (including any post-petition interest with respect thereto, regardless of whether or not allowed or allowable in any insolvency or liquidation Proceeding) and the termination of any commitments thereunder, on a pro rata basis;

(iii) third , to the payment in full of all other First Lien Obligations of each class (including under the Indenture, the notes, the Guarantees, the Security Documents and the Pari Passu Secured Obligations) secured by a Lien on the Shared Collateral at the time due and payable, on a pro rata basis;

(iv) fourth , after the payment in full of all the First Lien Obligations secured by such Shared Collateral, to the payment in full all Junior Secured Obligations (to the extent the holders of such junior liens, or a representative thereof, are party to the Intercreditor Agreement), on a pro rata basis; and

(v) *fifth* , thereafter, to the Issuers and the Guarantors or their successors or assigns or as a court of competent jurisdiction may direct.

Enforcement of Collateral

Under the Intercreditor Agreement, (i) so long as any Payment Priority Obligations are outstanding, the Collateral Agent on behalf of the Holders of the notes and any collateral agent on behalf of any holders of Pari Passu Secured Obligations would agree to, for a period of 180 days following any event of default, and (ii) any collateral agent on behalf of any holders of Junior Secured Obligations would agree to, at all times, in each case subject to certain exceptions, (a) refrain from taking or filing any action, judicial or otherwise, to enforce any rights or pursue any remedy under the security documents, except for delivering notices under the Intercreditor Agreement and (b) refrain from exercising any rights or remedies under the Security Documents which have or may have arisen or which may arise as a result of a default.

Nothing in the Intercreditor Agreement (except as provided in the previous paragraph) shall affect the ability of any of the Collateral Agent or any other collateral agent in respect of any other class of Payment Priority Obligations, Pari Passu Secured Obligations or Junior Secured Obligations or any of the secured parties in respect of any Payment Priority Obligations, Pari Passu Secured Obligations or Junior Secured Obligations (i) to enforce any rights and exercise any remedies with respect to any Shared Collateral available under the documents related to such Payment Priority Obligations, Pari Passu Secured Obligations, Junior Secured Obligations or applicable law or (ii) to commence any action or proceeding with respect to such rights or remedies; *provided* that, notwithstanding the foregoing, (a) each collateral agent and its related secured parties shall remain subject to, and bound by, all covenants or agreements made in the relevant Intercreditor Agreement, (b) each collateral agent has agreed, on behalf of itself and its related secured parties, that, prior to the commencement of any enforcement of rights or any exercise of remedies with respect to any Shared Collateral by such collateral agent or any of its related secured parties, in each case in accordance with the immediately preceding paragraph, such collateral agent or its related secured party, as the case may be, shall provide written notice thereof to each other collateral agent as far in advance of such commencement as reasonably practicable, and shall regularly inform each collateral agent of developments in connection with such enforcement or exercise (except that the collateral agent under the Credit Agreement will only be required to deliver written notice of any such enforcement or exercise promptly upon commencement thereof), and (c) each collateral agent (other than the collateral agent under the Credit Agreement) agrees, on behalf of itself and its related secured parties, that such collateral agent and its related secured parties shall cooperate in a commercially reasonable manner with each other collateral agent and its related secured parties in any enforcement of rights or any exercise of remedies with respect to any Shared Collateral.

The applicable collateral agent in respect of Payment Priority Obligations or Pari Passu Secured Obligations that holds or controls such Shared Collateral that can be perfected by the possession or control of such Shared Collateral will also hold such Shared Collateral, subject to the terms of the Intercreditor Agreement, as gratuitous bailee and sub-agent for each other collateral agent in respect of all Payment Priority Obligations, Pari Passu Secured Obligations or Junior Secured Obligations. Any such collateral agent that holds Shared Collateral as gratuitous bailee and sub-agent will be entitled to deal with the applicable pledged Shared Collateral pursuant to the terms of its related secured credit documents as if the liens thereon of the collateral agents or secured parties of any other class of Payment Priority Obligations, Pari Passu Secured Obligations or Junior Secured Obligations

did not exist; *provided* that any proceeds arising from such Shared Collateral under the control of such collateral agent shall be subject to the waterfall provisions set forth under "Ranking and Priority" above.

The Intercreditor Agreement does not limit the Issuers' ability to amend the notes, any Payment Priority Obligations, any Pari Passu Secured Obligations or any Junior Secured Obligations (although the Company will remain subject to the restrictions contained in the Indenture and the documents governing any Payment Priority Obligations, Pari Passu Secured Obligations or Junior Secured Obligations, as applicable, which will be unaffected by the Intercreditor Agreement).

Refinancings of First Lien Obligations

The Obligations under Credit Agreement, the Obligations under the Indenture, the notes and the Guarantees and any other First Lien Obligations or Junior Secured Obligations may be refinanced or replaced, in whole or in part, in each case, without notice to, or the consent (except to the extent a consent is otherwise required to permit the refinancing transaction under the Credit Agreement or any security document related thereto, the Indenture or the Security Documents) of the Collateral Agent, Trustee, the collateral agent under the Credit Agreement or any other secured party in respect of any other First Lien Obligations or Junior Secured Obligations, all without affecting the Lien priorities provided for in the Intercreditor Agreement; *provided*, *however* , that the holders of any such refinancing or replacement indebtedness (or an authorized agent or trustee on their behalf) bind themselves in writing to the terms of the Intercreditor Agreement pursuant to such documents or agreements (including amendments or supplements to the Intercreditor Agreement) as the Collateral Agent or the collateral agent under the credit agreement, as the case may be, shall reasonably request and in form and substance reasonably acceptable to the Collateral Agent or the collateral agent under the Credit Agreement, as the case may be. In connection with any refinancing or replacement contemplated by the foregoing, the Intercreditor Agreement may be amended at the request and sole expense of the Issuers, and without the consent of either the Collateral Agent or the collateral agent under the Credit Agreement or any other collateral agent with respect to any First Lien Obligations or Junior Secured Obligations, (a) to add parties (or any authorized agent or trustee therefor) providing any such refinancing or replacement indebtedness and (b) to establish that Liens on any Collateral securing such refinancing or replacement Indebtedness shall have the same priority as the Liens on any Collateral securing the Indebtedness being refinanced or replaced; *provided* that the Issuers deliver to each collateral agent an Officer's Certificate certifying that such refinancing or replacement is permitted by the Indenture, the Credit Agreement and the documents governing the Pari Passu Secured Obligations and Junior Secured Obligations.

Additional Secured Obligation Arrangements

Under the terms of the Intercreditor Agreement, the Holders of the notes are represented by the Collateral Agent and the holders of the Pari Passu Secured Obligations are represented by their designated agent (each, an " *Authorized Representative* ").

Subject to the discussion set forth in the section "—Enforcement of Collateral" above, the Intercreditor Agreement, as between the Holders of the notes and the other holders of Pari Passu Secured Obligations, provides that only the " *Applicable Authorized Representative* " has the right to direct foreclosures and take other actions with respect to the Shared Collateral and the Security Documents (to the extent relating to the Shared Collateral), and the Authorized Representatives of other Pari Passu Secured Obligations have no right to take any actions with respect to the Shared Collateral. The Collateral Agent will be the Applicable Authorized Representative unless the notes do not represent the largest principal amount outstanding of any then outstanding Pari Passu Secured Obligations secured by the Shared Collateral, at which point the Authorized Representative for the Pari Passu Secured Obligations representing the largest principal amount outstanding of any then outstanding Pari Passu Secured Obligations secured by the Shared Collateral shall become the Applicable Authorized Representative (a " *Larger Holder Event* "). Following a Larger Holder Event, the Authorized Representative for the Indebtedness that constitutes the largest principal amount of any then outstanding Pari

Passu Secured Obligations will become the Applicable Authorized Representative. The Applicable Authorized Representative will remain as such until the earlier of (1) the occurrence of a subsequent Larger Holder Event, and (2) the Non-Controlling Authorized Representative Enforcement Date (as defined below) (such earlier date, the " *Applicable Authorized Agent Date* "). After the Applicable Authorized Agent Date, the Applicable Authorized Representative will be (1) if such Applicable Authorization Date occurred because of a Larger Holder Event, as determined above, and (2) if such Applicable Authorization Date occurred because of the Non-Controlling Authorized Representative Enforcement Date, the Authorized Representative of the Indebtedness that constitutes the second largest outstanding principal amount of any then outstanding Pari Passu Secured Obligations (the " *Major Non-Controlling Authorized Representative* ").

The " *Non-Controlling Authorized Representative Enforcement Date* " is, following the earlier to occur of the payment in full of all Payment Priority Obligations and the termination of the 180 day period discussed in "—Enforcement of Collateral" above, the date that is 90 days (throughout which 90-day period the Applicable Authorized Representative was the Major Non- Controlling Authorized Representative) after the occurrence of both (a) an event of default under the terms of the relevant Pari Passu Secured Obligations, and (b) each collateral agent's and each other Authorized Representative's receipt of written notice from that Major Non-Controlling Authorized Representative certifying that (i) such Authorized Representative is the Major Non-Controlling Authorized Representative and that an event of default, with respect to such Pari Passu Secured Obligations, has occurred and is continuing and (ii) that such event of default has occurred and is continuing and that such Pari Passu Secured Obligations are currently due and payable in full (whether as a result of acceleration thereof or otherwise) in accordance with the terms of the applicable instrument governing such Pari Passu Secured Obligations; *provided* that the Non-Controlling Authorized Representative Enforcement Date shall be stayed and shall not occur and shall be deemed not to have occurred with respect to any Shared Collateral (1) at any time the Applicable Authorized Representative has commenced and is pursuing any enforcement action with respect to such Shared Collateral with reasonable diligence in light of the then existing circumstances or (2) at any time the Company or the Guarantor that has granted a security interest in such Shared Collateral is then a debtor under or with respect to (or otherwise subject to) any insolvency or liquidation proceeding.

Subject to the discussion set forth in the section "—Enforcement of Collateral" above, the Applicable Authorized Representative has the sole right to act or refrain from acting with respect to the Shared Collateral, and no other Authorized Representative of any Pari Passu Secured Obligations (other than the Applicable Authorized Representative) will commence any judicial or non-judicial foreclosure proceedings with respect to, seek to have a trustee, receiver, liquidator or similar official appointed for or over, attempt any action to take possession of, exercise any right, remedy or power with respect to, or otherwise take any action to enforce its interests in or realize upon, or take any other action available to it in respect of, the Shared Collateral.

Nothing contained herein will in any way affect the rights of the holders of Payment Priority Obligations and their agents with respect to their right to take actions with respect to the Collateral, as set forth in the section "—Enforcement of Collateral" above.

Agreements With Respect to Bankruptcy or Insolvency Proceedings

If the Issuers or any of its Subsidiaries becomes subject to a case under Title 11 of the United States Code, as amended (the " *Bankruptcy Code* ") and, as debtor(s)-in-possession, moves for approval of financing (" *DIP Financing* ") to be provided by one or more lenders, which may include lenders under the Credit Agreement (the " *DIP Lenders* ") under Section 364 of the Bankruptcy Code or the use of cash collateral under Section 363 of the Bankruptcy Code, the Collateral Agent has agreed in the Intercreditor Agreement, each Holder of the notes has agreed by its acceptance of the notes and each holder of any Pari Passu Secured Obligation or Junior Secured Obligation has agreed by its acceptance of such Pari Passu Secured Obligation or Junior Secured Obligation, as applicable, that it will raise no objection to any such financing or to the Liens on the Shared Collateral securing the same (" *DIP Financing Liens* ") or to any use of cash collateral that constitutes Shared Collateral, unless the collateral agent under the Credit Agreement or the holders of any Payment Priority Obligations secured by such

Shared Collateral oppose or object to such DIP Financing or such DIP Financing Liens or use of such cash collateral (and, to the extent that such DIP Financing Liens are senior to, or rank *pari passu* with, the Liens of such Payment Priority Obligations in such Shared Collateral, the Collateral Agent will, for itself and on behalf of the Holders of the notes and the holders of Pari Passu Secured Obligation, and any other collateral agent for any holders of Pari Passu Secured Obligations or Junior Secured Obligations will, for itself and on behalf of its holders, subordinate the liens of the holders of Pari Passu Secured Obligations and Junior Secured Obligations in such Shared Collateral to the DIP Financing Liens, all adequate protection liens granted to the holders of the Payment Priority Obligations on the Shared Collateral, and to any "carve-out" for professional and United States Trustee fees agreed to by the collateral agent under the Credit Agreement).

The Collateral Agent has agreed in the Intercreditor Agreement, each Holder of the notes has agreed by its acceptance of the notes and each holder of Pari Passu Secured Obligation and Junior Secured Obligations has agreed by its acceptance of such Pari Passu Secured Obligations or Junior Secured Obligations, as applicable, that it will not object to or oppose any release of their Liens in connection with any sale or other disposition of any Shared Collateral (or any portion thereof) under Section 363 of the Bankruptcy Code or any other provision of the Bankruptcy Code if the collateral agent under the Credit Agreement and the holders of Payment Priority Obligations shall have consented to such sale or disposition of such Shared Collateral, provided that the holders of the notes and the Pari Passu Secured Obligation and Junior Secured Obligations will be entitled to assert any objection to such sale or disposition that may be asserted by any unsecured creditor of the Issuer or any of its Subsidiaries in such bankruptcy.

In addition, the Intercreditor Agreement limits and restricts the holders of the notes and the Collateral Agent from taking certain other actions in any bankruptcy or insolvency case of the Issuers or its Subsidiaries, or from opposing certain actions taken by the collateral agent under the Credit Agreement or the holders of the Payment Priority Obligations, including with respect to, among other things, seeking relief from the automatic stay, exercising certain rights or asserting certain claims under the Bankruptcy Code, or the voting of claims in contravention of the terms of the Intercreditor Agreement.

Neither the Collateral Agent nor the Holders of the notes shall oppose (or support the opposition of any other Person) in any insolvency or liquidation proceeding (i) any motion or other request by the collateral agent under the Credit Agreement or the holders of Payment Priority Obligations for adequate protection of the collateral agent under its Liens upon the Shared Collateral in any form, including any claim of the collateral agent under the Credit Agreement or the holders of Payment Priority Obligations to post-petition interest, fees, or expenses as a result of their Lien on the Shared Collateral, and request for additional or replacement Liens on post-petition assets of the same type as the Shared Collateral and/or for a super-priority administrative claim, or (ii) any objection by the collateral agent under the Credit Agreement or the holders of Payment Priority Obligations to any motion, relief, action or proceeding based on the collateral agent under the Credit Agreement or the holders of Payment Priority Obligations claiming a lack of adequate protection with respect to their Liens in the Shared Collateral. The Collateral Agent, for itself and on behalf of holders of notes, may seek adequate protection of its junior interest in the Shared Collateral, subject to the provisions of the Intercreditor Agreement, as follows: if the collateral agent under the Credit Agreement is granted adequate protection in the form of an additional or replacement Lien on the Shared Collateral and/or a superpriority administrative claim, the Collateral Agent may receive as adequate protection an additional or replacement Lien and/or a superpriority administrative claim (as applicable) that is junior and subordinate to such lien and/or claim granted to the collateral agent under the Credit Agreement on behalf of the holders of Payment Priority Obligations as adequate protection. If the Collateral Agent, for itself and on behalf of the holders of the notes, seeks or requires (or is otherwise granted) adequate protection of its junior interest in the Shared Collateral in the form of an additional or replacement Lien and/or a superpriority administrative claim, then the Collateral Agent, for itself and the holders of the notes, agrees that the collateral agent under the Credit Agreement shall also be granted an additional or replacement Lien and/or a superpriority administrative claim (as applicable) as adequate protection of its senior interest in the Shared Collateral, and that the Collateral Agent's additional or replacement Lien and/or superpriority claim (as applicable) shall be subordinated to the additional or replacement Lien and/or

superpriority claim of the collateral agent under the Credit Agreement on the same basis as the Liens and claims of the Collateral Agent on the Shared Collateral are subordinated to the Liens of, and claims with respect to, the collateral agent under the Credit Agreement on the Shared Collateral under the Intercreditor Agreement. The Collateral Agent, for itself and on behalf of the holders of the notes, has agreed that any superpriority administrative claim it may receive pursuant to the provisions of this paragraph may be paid under any plan of reorganization in any combination of cash, debt, equity or other property having a value on the effective date of such plan equal to the allowed amount of such superpriority claims.

The Collateral Agent and the collateral agent under the Credit Agreement have agreed in the Intercreditor Agreement that they are separate classes in any bankruptcy or insolvency case of the Issuers or its Subsidiaries.

The Collateral Agent and the collateral agent under the Credit Agreement and the collateral agents for any Pari Passu Secured Obligation or Junior Secured Obligations, in each case in such capacity, shall be entitled to vote to accept or reject any plan of reorganization in connection with any insolvency or liquidation proceeding so long as such plan of reorganization is a conforming plan of reorganization and shall be entitled to vote to reject any such plan of reorganization that is a non-conforming plan of reorganization; provided that each of the Collateral Agent and the collateral agents under any Pari Passu Secured Obligations or Junior Secured Obligations has agreed that it shall not be entitled to take any action or vote in any way that supports any non-conforming plan of reorganization.

A “ *conforming plan of reorganization* ” means any plan of reorganization whose provisions are consistent with the provisions of the Intercreditor Agreement.

A “ *non-conforming plan of reorganization* ” means any plan of reorganization whose provisions are inconsistent with or in contravention of the provisions of the Intercreditor Agreement, including any plan of reorganization that purports to re-order (whether by subordination, invalidation, or otherwise) or otherwise disregard, in whole or part, the provisions set forth above (including, among other things, the payment priorities).

The Intercreditor Agreement provides that the foregoing provisions are intended to benefit the holders of Payment Priority Obligations under the laws of any jurisdiction outside the United States in which an insolvency proceeding may occur to the same extent as if such insolvency proceeding was governed by the laws of the United States.

Foreclosure

Upon the acceleration of the notes, the Security Documents provide for (among other available remedies) the foreclosure upon and sale of the applicable Collateral by the Collateral Agent and the distribution of the net proceeds of any such sale to the Holders of notes, together with the holders of any Pari Passu Secured Obligations on a pro rata basis, subject to the prior payment of any Payment Priority Obligations and before any payment is made in respect of any Junior Secured Obligations, in each case pursuant to the terms and provisions of the Security Documents and any Intercreditor Agreement. In the event of foreclosure on the Collateral, the proceeds from the sale of the Collateral may not be sufficient to satisfy in full the Company’s obligations under the notes.

Optional Redemption

Except as set forth in the next five paragraphs, the notes are not redeemable at the option of the Issuers.

At any time prior to August 1, 2015, the Issuers may redeem the notes in whole or in part, at their option, upon not less than 30 nor more than 60 days’ prior notice at a redemption price equal to 100% of the principal amount of such notes plus the relevant Applicable Premium as of, and accrued and unpaid interest to the redemption date.

At any time and from time to time on or after August 1, 2015, the Issuers may redeem the notes, in whole or in part, upon not less than 30 nor more than 60 days' notice at a redemption price equal to the percentage of principal amount set forth below plus accrued and unpaid interest, if any, on the notes redeemed, to the applicable date of redemption, if redeemed during the twelve-month period beginning on of the year indicated below:

12-month period commencing August 1 in Year	Percentage
2015	104.375%
2016	102.188%
2017 and thereafter	100.000%

At any time and from time to time prior to August 1, 2015, the Issuers may redeem notes with the net cash proceeds received by the Issuers from any Qualified Equity Offering at a redemption price equal to 108.750% plus accrued and unpaid interest to the redemption date, in an aggregate principal amount for all such redemptions not to exceed 35% of the original aggregate principal amount of the notes (including Additional Notes), *provided* that

(1) in each case the redemption takes place not later than 180 days after the closing of the related Qualified Equity Offering, and

(2) not less than 50% of the original aggregate principal amount of the notes issued under the Indenture (including any Additional Notes) remains outstanding immediately thereafter (excluding notes held by the Company or any of its Restricted Subsidiaries).

In addition, at any time and from time to time prior to August 1, 2015, the Issuer may redeem up to 10% of the original principal amount of the notes issued under the Indenture (including any Additional Notes issued under the Indenture after the Issue Date) during each twelve-month period commencing with the Issue Date at a redemption price of 103% of the aggregate principal amount thereof plus accrued and unpaid interest to the redemption date.

The Issuers may, at their option, redeem the notes, in whole but not in part, at any time upon not less than 15 days' nor more than 30 days' notice to the holders (which notice shall be given in accordance with the procedures described in "—Notices"), at a redemption price equal to 100% of the principal amount thereof, plus accrued and unpaid interest thereon to the redemption date, premium, if any, and all Additional Amounts (as defined below under "—Additional Amounts"), if any, then due and which will become due on the date of redemption as a result of the redemption or otherwise, if the Issuers determine in good faith that the Issuers or any Guarantor is, or on the next date on which any amount would be payable in respect of the notes, would be obligated to pay Additional Amounts in respect of the notes pursuant to the terms and conditions thereof, which the Issuers or such Guarantor, as the case may be, cannot avoid by the use of reasonable measures available to it (including, without limitation, making payment through a paying agent located in another jurisdiction), as a result of:

(a) any change in, or amendment to, the laws (or any regulations or rulings promulgated thereunder) of any Relevant Taxing Jurisdiction (as defined under "—Additional Amounts") affecting taxation which becomes effective on or after the Issue Date or, in the case of a Relevant Taxing Jurisdiction that arises after the Issue Date, the date on which such Relevant Taxing Jurisdiction became a Relevant Taxing Jurisdiction under the Indenture (or, in the case of a successor Person, after the date of assumption by the successor person of the obligations thereunder); or

(b) any change in the official application, administration, or interpretation of the laws, regulations or rulings of any Relevant Taxing Jurisdiction (including a holding, judgment, or order by a court of competent jurisdiction), on or after the Issue Date or, in the case of a Relevant Taxing Jurisdiction has changed since the Issue Date, the date on which such Relevant Taxing Jurisdiction became a Relevant Taxing Jurisdiction under the Indenture (or, in the case of a successor Person, after the date of assumption by the successor person of the obligations thereunder) (each of the foregoing clauses (a) and (b), a " *Change in Tax Law* ").

Notwithstanding the foregoing, the Issuers may not redeem the notes under this provision if a Relevant Taxing Jurisdiction changes under the Indenture and the Issuers are obligated to pay Additional Amounts as a result of a Change in Tax Law of such Relevant Taxing Jurisdiction which was officially announced at the time the latter became a Relevant Taxing Jurisdiction.

In the case of a Guarantor that became or becomes a party to the Indenture after the Issue Date or a successor person (including a surviving entity), the Change in Tax Law must become effective after the date that such entity (or another person organized or resident in the same jurisdiction) became or becomes a party to the Indenture. In the case of Additional Amounts required to be paid as a result of the Issuers conducting business in an Additional Taxing Jurisdiction (as defined below under "—Additional Amounts"), the Change in Tax Law must become effective after the date the Issuers begin to conduct the business giving rise to the relevant withholding or deduction.

Notwithstanding the foregoing, no such notice of redemption will be given (a) earlier than 90 days prior to the earliest date on which the Issuers or any Guarantor would be obliged to make such payment of Additional Amounts or withholding if a payment in respect of the notes or the relevant Guarantee, as the case may be, were then due and (b) unless at the time such notice is given, the obligation to pay Additional Amounts remains in effect.

Notice of redemption will be provided as set forth under "—Selection and Notice" below.

Any redemption and notice of redemption may, at the Issuers' discretion, be subject to the satisfaction of one or more conditions precedent (including, in the case of a redemption related to a Qualified Equity Offering, the consummation of such Qualified Equity Offering).

If the optional redemption date is on or after an interest record date and on or before the related interest payment date, the accrued and unpaid interest will be paid to the Person in whose name the note is registered at the close of business on such record date, and no additional interest will be payable to Holders whose notes will be subject to redemption by the Issuers.

Unless the Issuers default in the payment of the redemption price, interest will cease to accrue on the notes or portions thereof called for redemption on the applicable redemption date.

Prior to the mailing of any notice of redemption pursuant to the foregoing, the Issuers will deliver to the Trustee:

(a) an Officer's Certificate stating that the Issuers are entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to the right of the Issuers so to redeem have occurred (including that such obligation to pay such Additional Amounts cannot be avoided by the Issuers or any Guarantor or surviving entity taking reasonable measures available to it); and

(b) a written opinion of independent legal counsel of recognized standing qualified under the laws of the Relevant Taxing Jurisdiction and reasonably satisfactory to the Trustee to the effect that the Issuers or a Guarantor or surviving entity, as the case may be, is or would be obligated to pay such Additional Amounts as a result of a Change in Tax Law.

The Trustee will accept, and shall be entitled to rely on, such Officer's Certificate and opinion as sufficient evidence of the satisfaction of the conditions precedent described above, without further inquiry.

The foregoing provisions shall apply mutatis mutandis to any successor Person, after such successor Person becomes a party to the Indenture, with respect to a Change in Tax Law occurring after the time such successor person becomes a party to the Indenture.

Additional Amounts

All payments that the Issuers make under or with respect to the notes and that any Guarantor makes under or with respect to any Guarantee will be made free and clear of and without withholding or deduction for or on account of any present or future tax, duty, levy, impost, assessment or other governmental charges (including, without limitation, penalties, interest and other similar liabilities related thereto) of whatever nature (collectively, " *Taxes* ") imposed or levied by or on behalf of the United States, any jurisdiction in which either Issuer or any Guarantor is incorporated, organized or otherwise resident for tax purposes or from or through which any of the foregoing makes any payment on the notes or by or within any department or political subdivision or governmental authority or in any of the foregoing having the power to tax (each, a " *Relevant Taxing Jurisdiction* "), unless withholding or deduction is then required by law or by the official interpretation or administration of law. If either Issuer or any Guarantor is required to withhold or deduct any amount for or on account of Taxes of a Relevant Taxing Jurisdiction from any payment made under or with respect to the notes, such Issuer or such Guarantor, as the case may be, will pay additional amounts (" *Additional Amounts* ") as may be necessary to ensure that the net amount received by each holder or beneficial owner of the notes (including Additional Amounts) after such withholding or deduction will be not less than the amount the holder or beneficial owner would have received if such Taxes had not been required to be withheld or deducted.

Neither the Issuers nor any Guarantor will, however, pay Additional Amounts to a holder or beneficial owner of notes in respect or on account of:

- any Taxes that would not have been imposed or levied by a Relevant Taxing Jurisdiction but for the holder's or beneficial owner's present or former connection with such Relevant Taxing Jurisdiction (other than the mere receipt or holding of notes or by reason of the receipt of payments thereunder or the exercise or enforcement of rights under the notes, the Indenture or any Guarantee);
- any Taxes that are imposed or withheld by reason of the failure of the holder or beneficial owner of notes, following the Issuers' written request addressed to the holder (and made at a time that would enable the holder or beneficial owner acting reasonably to comply with that request, and in all events at least 30 calendar days before the relevant date on which payment under or with respect to the notes or any Guarantee is due and payable) to comply with any certification or identification requirements, whether required or imposed by statute, regulation or administrative practice of a Relevant Taxing Jurisdiction, as a precondition to exemption from, or reduction in the rate of deduction or withholding of, Taxes imposed by the Relevant Taxing Jurisdiction (including, without limitation, a certification that the holder or beneficial owner is not resident in the Relevant Taxing Jurisdiction), but in each case only to the extent that the holder or beneficial owner, as the case may be, is legally entitled to provide such certification;
- any estate, inheritance, gift, sales, transfer, personal property or similar Taxes;
- any Tax which is payable otherwise than by deduction or withholding from payments made under or with respect to the notes;
- any Tax imposed on or with respect to any payment by the Issuers or a Guarantor to the holder if such holder is a fiduciary or partnership or person other than the sole beneficial owner of such payment to the extent that Taxes would not have been imposed on such payment had the beneficiary, partner or other beneficial owner directly held the note;
- any Tax that is imposed or levied by reason of the presentation (where presentation is required in order to receive payment) of the notes for payment on a date more than 30 days after the date on which such payment became due and payable or the date on which payment thereof is duly provided for, whichever is later, except to the extent that the beneficial owner or holder thereof would have been entitled to Additional Amounts had the notes been presented for payment on any date during such 30 day period;

- any withholding or deduction in respect of any Taxes where such withholding or deduction is imposed or levied on a payment to an individual and is required to be made pursuant to European Council Directive 2003/48/EC or any other Directive implementing the conclusions of the ECOFIN Council meeting of 26-27 November 2000 on the taxation of savings income or any law implementing or complying with, or introduced in order to conform to, such Directive;
- any Tax that is imposed or levied on or with respect to a note presented for payment on behalf of a holder or beneficial owner who would have been able to avoid such withholding or deduction by presenting the relevant note to another paying agent in a member state of the European Union.; or
- any withholding tax required by the Switzerland Federal Act on Anticipatory Tax of 13 October 1965 that is deducted and paid to the Swiss Federal Tax Administration (" *Swiss Withholding Tax* "), unless payment of such Additional Amounts is permitted under the laws of Switzerland then in force.

The Issuers and each Guarantor will (i) make such withholding or deduction required by applicable law and (ii) remit the full amount deducted or withheld to the relevant taxing authority in accordance with applicable law. In addition, any Guarantor organized under the laws of Switzerland will use its commercially reasonable efforts to obtain, and to pay to the Trustee, any refunds to which it may be entitled as a result of a deduction for Swiss Withholding Tax.

At least 30 calendar days prior to each date on which any payment under or with respect to the notes is due and payable, if the Issuers and any Guarantor will be obligated to pay Additional Amounts with respect to such payment (unless such obligation to pay Additional Amounts arises after the 30th day prior to the date on which payment under or with respect to the notes is due and payable, in which case it will be promptly thereafter), the Issuers will deliver to the Trustee an Officers' Certificate stating that such Additional Amounts will be payable and the amounts so payable and will set forth such other information (other than the identities of holders and beneficial owners) necessary to enable the Trustee or Paying Agent, as the case may be, to pay such Additional Amounts to holders and beneficial owners on the relevant payment date. The Issuers will provide the Trustee with documentation reasonably satisfactory to the Trustee evidencing payment of such Additional Amounts.

Upon request, the Issuers or the relevant Guarantor will take reasonable efforts to furnish to the Trustee or a holder within a reasonable time certified copies of tax receipts evidencing the payment by the Issuers or such Guarantor, as the case may be, of any Taxes imposed or levied by a Relevant Taxing Jurisdiction.

If, notwithstanding the reasonable efforts of the Issuers or such Guarantor to obtain such receipts, the same are not obtainable, then the Issuers or such Guarantor will provide such holder with other evidence reasonably satisfactory to the holder of such payment by the Issuers or such Guarantor.

The Indenture will further provide that, if the Issuers or any Guarantor conducts business in any jurisdiction (an " *Additional Taxing Jurisdiction* ") other than a Relevant Taxing Jurisdiction and, as a result, is required by the law of such Additional Taxing Jurisdiction to withhold or deduct any amount on account of the Taxes imposed by such Additional Taxing Jurisdiction from payment under the notes or the related Guarantee, as the case may be, which would not have been required to be so withheld or deducted but for such conduct of business in such Additional Taxing Jurisdiction, the Additional Amounts provision described above shall be considered to apply as if the Additional Taxing Jurisdiction (or any political subdivision thereof or therein) were a Relevant Taxing Jurisdiction.

In addition, the Issuers and each Guarantor will pay (i) any present or future stamp, issue, registration, court documentation, excise or property taxes or other similar taxes, charges and duties, including interest and penalties with respect thereto, imposed by any Relevant Taxing Jurisdiction in respect of the execution, issue, delivery or registration of the notes, any Guarantee or the Indenture or any other document or instrument referred to thereunder and any such taxes, charges, duties or similar levies imposed by any jurisdiction as a result of, or in connection with, the enforcement of the notes, such Guarantee or the Indenture or any such other document or

instrument following the occurrence of any Event of Default with respect to the notes, and (ii) any stamp, court, or documentary taxes (or similar charges or levies) imposed by any Relevant Taxing Jurisdiction with respect to the receipt of any payments with respect to the notes or such Guarantee. Neither the Issuers nor any Guarantor will, however, pay such amounts that are imposed on or result from a sale or other transfer or disposition by a holder or beneficial owner of a note.

The preceding provisions will survive any termination, defeasance or discharge of the Indenture and shall apply mutatis mutandis to any jurisdiction in which any successor person to the Issuers or any Guarantor is organized, incorporated or otherwise resident for tax purposes and any political subdivision or taxing authority or agency thereof or therein.

Whenever the Indenture or this "Description of the Exchange Notes" refers to, in any context, the payment of principal, premium, if any, interest or any other amount payable under or with respect to the notes (including payments thereof made pursuant to any Guarantee), such reference includes the payment of Additional Amounts, if applicable.

Sinking Fund

The Issuers are not required to make mandatory redemption payments or sinking fund payments with respect to the notes. However, under certain circumstances, the Issuers may be required to offer to purchase notes as described under the captions "Change of Control," "Certain Covenants—Limitations on Sales of Assets and Subsidiary Stock." The Issuers may at any time and from time to time purchase notes in the open market or otherwise.

Selection and Notice

If less than all of the notes are to be redeemed at any time, the Trustee will select the notes for redemption in compliance with the requirements of the principal securities exchange, if any, on which the notes are listed, as certified to the Trustee by the Issuers, and in compliance with the requirements of DTC, or if the notes are not so listed or such exchange prescribes no method of selection and the notes are not held through DTC or DTC prescribes no method of selection, on a pro rata basis; *provided , however* , that no note of $2,000 in aggregate principal amount or less shall be redeemed in part.

Except in the case of redemptions due to changes in tax law (for which the time frame will be as set forth therein), the notices of redemption will be delivered electronically or mailed by first class mail at least 30 but not more than 60 days before the redemption date to each Holder to be redeemed at its registered address or otherwise in accordance with the procedures of DTC, except that redemption notices may be delivered electronically or mailed more than 60 days prior to a redemption date if the notice is issued in connection with a defeasance of the notes or a satisfaction and discharge of the Indenture.

If any note is to be redeemed in part only, the notice of redemption that relates to that note shall state the portion of the principal amount thereof to be redeemed, in which case a portion of the original note will be issued in the name of the Holder thereof upon cancellation of the original note. In the case of a Global Note, an appropriate notation will be made on such note to decrease the principal amount thereof to an amount equal to the unredeemed portion thereof. Subject to the terms of the applicable redemption notice (including any conditions contained therein), notes called for redemption become due on the date fixed for redemption. On and after the redemption date, interest ceases to accrue on notes or portions of them called for redemption.

Change of Control

The Indenture provides that if a Change of Control occurs, unless the Issuers have previously or concurrently mailed a redemption notice with respect to all the outstanding notes as described under "—Optional Redemption," the Issuers will make an offer to purchase all of the notes (the " *Change of Control Offer* ") at a price in cash (the " *Change of Control Payment* ") equal to 101% of the aggregate principal amount thereof plus accrued and unpaid interest, if any, to but excluding the date of repurchase, subject to the right of Holders of the notes of record on the relevant record date to receive interest due on the relevant interest payment date. Within 30 days following any Change of Control, the Company will send notice of such Change of Control Offer electronically or by first-class mail, with a copy to the Trustee, to each Holder of notes at the address of such Holder appearing in the security register or otherwise in accordance with the procedures of DTC, describing the transaction or transactions that constitute the Change of Control and offering to repurchase the notes for the specified purchase price on the date specified in the notice, which date will be no earlier than 30 days and no later than 60 days from the date such notice is delivered, pursuant to the procedures required by the Indenture and described in such notice.

The Issuers will comply with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to the extent such laws or regulations are applicable in connection with the repurchase of notes pursuant to a Change of Control Offer. To the extent that the provisions of any securities laws or regulations conflict with the provisions of the Indenture, the Issuers will comply with the applicable securities laws and regulations and shall not be deemed to have breached its obligations described in the Indenture by virtue thereof.

The provisions described above that require the Issuers to make a Change of Control Offer following a Change of Control will be applicable whether or not any provisions of the Indenture are applicable. Except as described above with respect to a Change of Control, the Indenture does not contain provisions that permit the Holders of the notes to require that the Issuers repurchase or redeem the notes in the event of a takeover, recapitalization or similar transaction.

The Credit Agreement does, and future credit agreements or other agreements to which the Company becomes a party may, provide that certain change of control events with respect to the Company would constitute a default thereunder (including a Change of Control under the Indenture) and prohibit or limit the Issuers from purchasing any notes pursuant to this covenant. In the event the Issuers are prohibited from purchasing the notes, the Company could seek the consent of its lenders to the purchase of the notes or could attempt to refinance the borrowings that contain such prohibition. If the Company does not obtain such consent or repay such borrowings, they will remain prohibited from purchasing the notes. In such case, the Issuers' failure to purchase tendered notes would constitute an Event of Default under the Indenture.

Our ability to pay cash to the Holders of notes following the occurrence of a Change of Control may be limited by our then-existing financial resources. Therefore, sufficient funds may not be available when necessary to make any required repurchases. The Change of Control purchase feature of the notes may in certain circumstances make more difficult or discourage a sale or takeover of us and, thus, the removal of incumbent management. The Change of Control purchase feature is a result of negotiations between the Initial Purchasers and us. As of the date of this prospectus, we have no present intention to engage in a transaction involving a Change of Control, although it is possible that we could decide to do so in the future.

Subject to the limitations discussed below, we could, in the future, enter into certain transactions, including acquisitions, refinancings or other recapitalizations, that would not constitute a Change of Control under the Indenture, but that could increase the amount of Indebtedness outstanding at such time or otherwise affect our capital structure or credit ratings. Restrictions on our ability to incur additional Indebtedness are contained in the covenants described under "Certain Covenants—Limitation on Indebtedness" and "Certain Covenants—Limitation on Liens." Such restrictions in the Indenture can be waived only with the consent of the Holders of a

majority in principal amount of the notes then outstanding. Except for the limitations contained in such covenants, however, the Indenture will not contain any covenants or provisions that may afford Holders of the notes protection in the event of a highly leveraged transaction.

The Issuers will not be required to make a Change of Control Offer following a Change of Control if (1) a third party makes the Change of Control Offer in the manner, at the times and otherwise in compliance with the requirements set forth in the Indenture applicable to a Change of Control Offer made by the Issuers and purchases all notes validly tendered and not withdrawn under such Change of Control Offer, or (2) notice of redemption of all outstanding notes has been given pursuant to the Indenture as described above under the caption "—Optional Redemption," unless and until there is a default in the payment of the redemption price on the applicable Redemption Date or the redemption is not consummated due to the failure of a condition precedent contained in the applicable redemption notice to be satisfied. Notwithstanding anything to the contrary herein, a Change of Control Offer may be made in advance of a Change of Control, conditional upon such Change of Control, if a definitive agreement is in place for the Change of Control at the time of making of the Change of Control Offer.

If holders of not less than 90% in aggregate principal amount of the outstanding notes validly tender and do not withdraw such notes in a Change of Control Offer and the Issuers, or any third party making a Change of Control Offer in lieu of the Issuers as described above, purchases all of the notes validly tendered and not withdrawn by such holders, the Issuers or such third party will have the right, upon not less than 30 nor more than 60 days' prior notice, given not more than 30 days following such purchase pursuant to the Change of Control Offer described above, to redeem all notes that remain outstanding following such purchase at a price in cash equal to 101% of the principal amount thereof plus accrued and unpaid interest to but excluding the date of redemption.

The definition of "Change of Control" includes a disposition of all or substantially all of the assets of the Issuers and their Subsidiaries, taken as a whole, to any Person. Although there is a limited body of case law interpreting the phrase "substantially all," there is no precise established definition of the phrase under applicable law. Accordingly, in certain circumstances there may be a degree of uncertainty as to whether a particular transaction would involve a disposition of "all or substantially all" of the assets of the Issuers and their Subsidiaries, taken as a whole. As a result, it may be unclear as to whether a Change of Control has occurred and whether a Holder of notes may require the Issuers to make an offer to repurchase the notes as described above.

The provisions under the Indenture relative to the Issuers' obligation to make an offer to repurchase the notes as a result of a Change of Control may be waived or modified with the written consent of the Holders of a majority in principal amount of the notes then outstanding.

Certain Covenants

Set forth below are summaries of certain covenants that are contained in the Indenture.

Suspension of Covenants on Achievement of Investment Grade Status

Following the first day:

(a) the notes have achieved Investment Grade Status; and

(b) no Default or Event of Default has occurred and is continuing under the Indenture,

then, beginning on that day and continuing until the Reversion Date (as defined below), the Company and its Restricted Subsidiaries will not be subject to the provisions of the Indenture summarized under the following headings (collectively, the " *Suspended Covenants* "):

- "—Limitation on Restricted Payments,"
- "—Limitation on Indebtedness,"
- "—Limitation on Restrictions on Distributions from Restricted Subsidiaries,"
- "—Limitation on Affiliate Transactions,"
- "—Limitation on Sales of Assets and Subsidiary Stock,"
- "—Limitation on Guarantees," and
- The provisions of clause (3) of the first paragraph of "—Merger and Consolidation."

If at any time the notes cease to have such Investment Grade Status or if a Default or Event of Default occurs and is continuing, then the Suspended Covenants will thereafter be reinstated as if such covenants had never been suspended (the " *Reversion Date* ") and be applicable pursuant to the terms of the Indenture (including in connection with performing any calculation or assessment to determine compliance with the terms of the Indenture), unless and until the notes subsequently attain Investment Grade Status and no Default or Event of Default is in existence (in which event the Suspended Covenants shall no longer be in effect for such time that the notes maintain an Investment Grade Status and no Default or Event of Default is in existence); *provided, however* , that no Default, Event of Default or breach of any kind shall be deemed to exist under the Indenture, the Registration Rights Agreement, the notes or the Guarantees with respect to the Suspended Covenants based on, and none of the Company, the Issuers or any of their Subsidiaries shall bear any liability for, any actions taken or events occurring during the Suspension Period (as defined below), or any actions taken at any time pursuant to any contractual obligation arising prior to the Reversion Date, regardless of whether such actions or events would have been permitted if the applicable Suspended Covenants remained in effect during such period. The period of time between the date of suspension of the covenants and the Reversion Date is referred to as the " *Suspension Period* ."

On the Reversion Date, all Indebtedness Incurred during the Suspension Period will be classified to have been Incurred pursuant to the first paragraph of "—Limitation on Indebtedness" or one of the clauses set forth in the second paragraph of "—Limitation on Indebtedness" (to the extent such Indebtedness would be permitted to be Incurred thereunder as of the Reversion Date and after giving effect to the Indebtedness Incurred prior to the Suspension Period and outstanding on the Reinstatement Date). To the extent such Indebtedness would not be so permitted to be Incurred pursuant to the first and second paragraphs of "—Limitation on Indebtedness," such Indebtedness will be deemed to have been outstanding on the Issue Date, so that it is classified as permitted under clause (5)(c) of the second paragraph of "—Limitation on Indebtedness." On and after the Reversion Date, all Liens created during the Suspension Period will be considered Permitted Liens. Calculations made after the Reversion Date of the amount available to be made as Restricted Payments under "—Limitation on Restricted Payments" will be made as though the covenants described under "—Limitation on Restricted Payments" had been in effect since the Issue Date and throughout the Suspension Period. Accordingly, Restricted Payments made during the Suspension Period will reduce the amount available to be made as Restricted Payments under the first paragraph of "—Limitation on Restricted Payments." In addition, any future obligation to grant further Guarantees shall be released. All such further obligation to grant Guarantees shall be reinstated upon the Reversion Date.

The notes are not currently Investment Grade Status, and there can be no assurance that the notes will ever achieve or maintain Investment Grade Status.

Limitation on Indebtedness

The Company will not, and will not permit any of its Restricted Subsidiaries to, Incur any Indebtedness (including Acquired Indebtedness); *provided, however* , the Company and any of the Restricted Subsidiaries may Incur Indebtedness if on the date of such Incurrence and after giving pro forma effect thereto (including pro forma application of the proceeds thereof), the Fixed Charge Coverage Ratio for the Company and its Restricted Subsidiaries is greater than 2.00 to 1.00; *provided* , *further* , that Non-Guarantors may not Incur Indebtedness under this paragraph if, after giving pro forma effect thereto (including pro forma application of the proceeds thereof), more than an aggregate of $100 million of Indebtedness of Non-Guarantors would be outstanding pursuant to this paragraph at such time.

The first paragraph of this covenant will not prohibit the Incurrence of the following Indebtedness (collectively, " *Permitted Debt* "):

(1) Indebtedness Incurred pursuant to any Credit Facility (including letters of credit or bankers' acceptances issued or created under any Credit Facility), and any Refinancing Indebtedness in respect thereof and Guarantees in respect of such Indebtedness in a maximum aggregate principal amount at any time outstanding not exceeding the sum of (i) the sum of (a) $325.0 million, plus (b) up to an additional $75 million; *provided* that at the time of any Incurrence made pursuant to this clause (i)(b), the Consolidated Secured Leverage Ratio (for such purpose, (x) assuming that all such Indebtedness constitutes Secured Indebtedness and (y) treating any proposed revolving facility as fully-drawn) would be no greater than 3.75 to 1.00, plus (ii) in the case of any refinancing of any Indebtedness permitted under this clause or any portion thereof, the aggregate amount of fees, underwriting discounts, premiums and other costs and expenses Incurred in connection with such refinancing;

(2) Indebtedness Incurred pursuant to any Qualified Securitization Financing in respect thereof and Guarantees in respect of such Indebtedness in a maximum aggregate principal amount at any time outstanding not exceeding (i) $260.0 million plus (ii) in the case of any refinancing of any Indebtedness permitted under this clause or any portion thereof, the aggregate amount of fees, underwriting discounts, premiums and other costs and expenses Incurred in connection with such refinancing;

(11) Indebtedness in an aggregate outstanding principal amount which, when taken together with any Refinancing Indebtedness in respect thereof and the principal amount of all other Indebtedness Incurred pursuant to this clause and then outstanding, will not exceed 100% of the Net Cash Proceeds received by the Company from the issuance or sale (other than to a Restricted Subsidiary) of their Capital Stock (other than Disqualified Stock, Designated Preferred Stock or an Excluded Contribution) or otherwise contributed to the equity of the Company (other than through the issuance of Disqualified Stock, Designated Preferred Stock or an Excluded Contribution) in each case, subsequent to the Issue Date; *provided* , *however* , that (i) any such Net Cash Proceeds that are so received or contributed shall not increase the amount available for making Restricted Payments to the extent the Company and its Restricted Subsidiaries Incur Indebtedness in reliance thereon and (ii) any Net Cash Proceeds that are so received or contributed shall be excluded for purposes of Incurring Indebtedness pursuant to this clause to the extent the Company, or any of its Restricted Subsidiaries make a Restricted Payment;

(12) Indebtedness of Non-Guarantors in an aggregate amount not to exceed (x) the greater of (a) $75.0 million and (b) 2.5% of Total Assets of Non-Guarantors at any time outstanding and any Refinancing Indebtedness in respect thereof and (y) Indebtedness of Non-Guarantors organized in China, Indonesia, Korea and/or Taiwan constituting working capital facilities in an aggregate principal amount, for all such Non-Guarantors pursuant to this clause (y) collectively, not to exceed $25,000,000 at any time outstanding;

For purposes of determining compliance with, and the outstanding principal amount of any particular Indebtedness Incurred pursuant to and in compliance with, this covenant:

(1) in the event that Indebtedness meets the criteria of more than one of the types of Indebtedness described in the first and second paragraphs of this covenant, the Company, in its sole discretion, will classify, and may from time to time reclassify, such item of Indebtedness and only be required to include the amount and type of such Indebtedness in one of the clauses of the second paragraph or the first paragraph of this covenant;

(2) additionally, all or any portion of any item of Indebtedness may later be classified as having been Incurred pursuant to any type of Indebtedness described in the first and second paragraphs of this covenant so long as such Indebtedness is permitted to be Incurred pursuant to such provision at the time of reclassification;

(3) all Indebtedness outstanding on the Issue Date under the Credit Agreement shall be deemed initially Incurred on the Issue Date under clause (1) of the second paragraph of the description of this covenant;

(4) Guarantees of, or obligations in respect of letters of credit, bankers' acceptances or other similar instruments relating to, or Liens securing, Indebtedness that is otherwise included in the determination of a particular amount of Indebtedness shall not be included;

(5) if obligations in respect of letters of credit, bankers' acceptances or other similar instruments are Incurred pursuant to any Credit Facility and are being treated as Incurred pursuant to clause (1), (2), (8), (11), (12) or (15) of the second paragraph above or the first paragraph above and the letters of credit, bankers' acceptances or other similar instruments relate to other Indebtedness, then such other Indebtedness shall not be included;

(6) the principal amount of any Disqualified Stock of the Company or a Restricted Subsidiary, or Preferred Stock of a Restricted Subsidiary, will be equal to the greater of the maximum mandatory redemption or repurchase price (not including, in either case, any redemption or repurchase premium) or the liquidation preference thereof;

(7) Indebtedness permitted by this covenant need not be permitted solely by reference to one provision permitting such Indebtedness but may be permitted in part by one such provision and in part by one or more other provisions of this covenant permitting such Indebtedness; and

(8) the amount of Indebtedness issued at a price that is less than the principal amount thereof will be equal to the amount of the liability in respect thereof determined on the basis of GAAP.

Accrual of interest, accrual of dividends, the accretion of accreted value, the accretion or amortization of original issue discount, the payment of interest in the form of additional Indebtedness, the payment of dividends in the form of additional shares of Preferred Stock or Disqualified Stock or the reclassification of commitments or obligations not treated as Indebtedness due to a change in GAAP, will not be deemed to be an Incurrence of Indebtedness for purposes of the covenant described under this "—Limitation on Indebtedness." The amount of any Indebtedness outstanding as of any date shall be (a) the accreted value thereof in the case of any Indebtedness issued with original issue discount and (b) the principal amount of the Indebtedness, or liquidation preference thereof, in the case of any other Indebtedness.

If at any time an Unrestricted Subsidiary becomes a Restricted Subsidiary, any Indebtedness of such Subsidiary shall be deemed to be Incurred by a Restricted Subsidiary of the Company as of such date (and, if such Indebtedness is not permitted to be Incurred as of such date under the covenant described under this "—Limitation on Indebtedness," the Company shall be in default of this covenant).

Notwithstanding any other provision of this covenant, the maximum amount of Indebtedness that the Company or a Restricted Subsidiary may Incur pursuant to this covenant shall not be deemed to be exceeded solely as a result of fluctuations in the exchange rate of currencies. The principal amount of any Indebtedness Incurred to refinance other Indebtedness, if Incurred in a different currency from the Indebtedness being refinanced, shall be calculated based on the currency exchange rate applicable to the currencies in which such Refinancing Indebtedness is denominated that is in effect on the date of such refinancing.

The Indenture provides that the Company and the Issuers will not, and will not permit any Guarantor to, directly or indirectly, Incur any Indebtedness (including Acquired Indebtedness and Permitted Debt) that is subordinated or junior in right of payment to any Indebtedness of the Company, the Issuers or such Guarantor, as the case may be, unless such Indebtedness is expressly subordinated in right of payment to the notes or such Guarantor's Guarantee to the extent and in the same manner as such Indebtedness is subordinated to other Indebtedness of the Company, the Issuers or such Guarantor, as the case may be.

The Indenture does not treat (1) unsecured Indebtedness as subordinated or junior to Secured Indebtedness merely because it is unsecured or (2) Senior Indebtedness as subordinated or junior to any other Senior Indebtedness merely because it has a junior priority with respect to the same collateral or is secured by different collateral.

Limitation on Restricted Payments

The Company will not, and will not permit any of its Restricted Subsidiaries, directly or indirectly, to:

(1) declare or pay any dividend or make any distribution on or in respect of the Company's or any Restricted Subsidiary's Capital Stock (including, without limitation, any payment in connection with any merger or consolidation involving the Company or any of its Restricted Subsidiaries) except:

(4) make any Restricted Investment;

(i) 50% of Consolidated Net Income for the period (treated as one accounting period) from January 1, 2013 to the end of the most recent fiscal quarter ending prior to the date of such Restricted Payment for which internal consolidated financial statements of the Company are available (or, in the case such Consolidated Net Income is a deficit, minus 100% of such deficit);

(iii) 100% of the aggregate Net Cash Proceeds, and the fair market value of property or assets or marketable securities, received by the Company or any Restricted Subsidiary from the issuance or sale (other than to the Company or a Restricted Subsidiary of the Company or an employee stock ownership plan or trust established by the Company or any Subsidiary of the Company for the benefit of their employees to the extent funded by the Company or any Restricted Subsidiary) by the Company or any Restricted Subsidiary subsequent to the Issue Date of any Indebtedness, Disqualified Stock or Designated Preferred Stock that has been converted into or exchanged for Capital Stock of the Company (other than Disqualified Stock or Designated Preferred Stock) plus, without duplication, the amount of any cash, and the fair market value of property or assets or marketable securities, received by the Company or any Restricted Subsidiary upon such conversion or exchange;

(iv) 100% of the aggregate amount received in cash and the fair market value, as determined in good faith by the Company, of marketable securities or other property received by means of: (i) the sale or other disposition (other than to the Company or a Restricted Subsidiary) of Restricted Investments made by the Company or its Restricted Subsidiaries and repurchases and redemptions of such Restricted Investments from the Company or its Restricted Subsidiaries and repayments of loans or advances, and releases of guarantees, which constitute Restricted Investments by the Company or its Restricted Subsidiaries, in each case after the Issue Date; or (ii) the sale (other than to the Company or a Restricted Subsidiary) of the stock of an Unrestricted Subsidiary or a distribution from an Unrestricted Subsidiary (other than in each case to the extent of the amount of the Investment in such Unrestricted Subsidiary made by the Company or a Restricted Subsidiary pursuant to clause (10) or (14) of the next succeeding paragraph or to the extent of the amount of the Investment that constituted a Permitted Investment) or a dividend from an Unrestricted Subsidiary after the Issue Date; and

(v) in the case of the redesignation of an Unrestricted Subsidiary as a Restricted Subsidiary or the merger or consolidation of an Unrestricted Subsidiary into the Company or a Restricted Subsidiary or the transfer of all or substantially all of the assets of an Unrestricted Subsidiary to the Company or a Restricted Subsidiary after the Issue Date, the fair market value of the Investment in such Unrestricted Subsidiary (or the assets transferred), as determined in good faith of the Company at the time of the redesignation of such Unrestricted Subsidiary as a Restricted Subsidiary or at the time of such merger or consolidation or transfer of assets (after taking into consideration any Indebtedness associated with the Unrestricted Subsidiary so designated or merged or consolidated or Indebtedness associated with the assets so transferred), other than to the extent of the amount of the Investment in such Unrestricted Subsidiary made by the Company or a Restricted Subsidiary pursuant to clause (10) or (14) of the next succeeding paragraph or to the extent of the amount of the Investment that constituted a Permitted Investment.

The foregoing provisions will not prohibit any of the following (collectively, " *Permitted Payments* "):

(1) the payment of any dividend or distribution within 60 days after the date of declaration thereof, if at the date of declaration such payment would have complied with the provisions of the Indenture or the redemption, repurchase or retirement of Indebtedness if, at the date of any irrevocable redemption notice, such payment would have complied with the provisions of the Indenture;

(2) any purchase, repurchase, redemption, defeasance or other acquisition or retirement of Capital Stock or Subordinated Indebtedness made by exchange (including any such exchange pursuant to the exercise of a conversion right or privilege in connection with which cash is paid in lieu of the issuance of fractional shares) for, or out of the proceeds of the substantially concurrent sale of, Capital Stock of the Company (other than Disqualified Stock or Designated Preferred Stock) (" *Refunding Capital Stock* ") or a substantially concurrent contribution to the equity (other than through the issuance of Disqualified Stock or Designated Preferred Stock or through an Excluded Contribution) of the Company; *provided*, *however* , that to the extent so applied, the Net Cash Proceeds, or fair market value of property or assets or of marketable securities, from such sale of Capital Stock or such contribution will be excluded from clause (c) of the preceding paragraph;

For purposes of determining compliance with this " *Restricted Payments* " covenant, in the event that a Restricted Payment meets the criteria of more than one of the categories of Permitted Payments described in clauses (1) through (18) above, or is permitted pursuant to the first paragraph of this covenant, the Company will be entitled to classify such Restricted Payment (or portion thereof) on the date of its payment or later reclassify such Restricted Payment (or portion thereof) in any manner that complies with this covenant.

The amount of all Restricted Payments (other than cash) shall be the fair market value on the date of such Restricted Payment of the asset (s) or securities proposed to be paid, transferred or issued by the Company or such Restricted Subsidiary, as the case may be, pursuant to such Restricted Payment. Notwithstanding the foregoing provisions of this covenant, the Company will not, and will not permit any of its Restricted Subsidiaries to, declare or pay any cash dividend or make any cash distribution on or in respect of the Company's Capital Stock or purchase for cash or otherwise acquire for cash any Capital Stock of the Company or any other direct or indirect parent of the Company, for the purpose of paying any cash dividend or making any cash distribution to, or acquiring Capital Stock of any direct or indirect parent of the Company for cash from, the Permitted Holders, in each case by means of utilization of the cumulative Restricted Payment credit provided by the first paragraph of this covenant, unless at the time and after giving effect to such payment, the Consolidated Secured Leverage Ratio of the Company and its Restricted Subsidiaries would be less than 3.50 to 1.00.

Limitation on Liens

The Company will not, and will not permit any Restricted Subsidiary to, directly or indirectly, create, Incur or permit to exist any Lien (other than Permitted Liens) upon any of their property or assets (including Capital Stock of a Restricted Subsidiary of the Company), whether owned on the Issue Date or acquired after that date, which Lien secures any Indebtedness.

Any Lien securing Indebtedness that was permitted to secure such Indebtedness at the time of the Incurrence of such Indebtedness shall also be permitted to secure any Increased Amount with respect to such Indebtedness. The " *Increased Amount* " of any Indebtedness shall mean any increase in the amount of such Indebtedness as a result of any accrual of interest, any accretion of accreted value or liquidation preference, any amortization of original issue discount, any fluctuations in the exchange rate of currencies, the payment of interest in the form of additional Indebtedness with the same terms or the payment of dividends on Preferred Stock in the form of additional shares of Preferred Stock of the same class.

The provisions of the preceding paragraph will not prohibit:

(1) any encumbrance or restriction pursuant to (a) any Credit Facility or (b) any other agreement or instrument, in each case, in effect at or entered into on the Issue Date;

(5) any encumbrance or restriction:

(a) that restricts in a customary manner the subletting, assignment or transfer of any property or asset that is subject to a lease, license or similar contract or agreement, or the assignment or transfer of any lease, license or other contract or agreement;

(b) contained in mortgages, pledges, charges or other security agreements permitted under the Indenture or securing Indebtedness of the Company or a Restricted Subsidiary permitted under the Indenture to the extent such encumbrances or restrictions restrict the transfer or encumbrance of the property or assets subject to such mortgages, pledges, charges or other security agreements; or

(c) pursuant to customary provisions restricting dispositions of real property interests set forth in any reciprocal easement agreements of the Company or any Restricted Subsidiary;

(6) any encumbrance or restriction pursuant to Purchase Money Obligations and Capitalized Lease Obligations permitted under the Indenture, in each case, that impose encumbrances or restrictions on the property so acquired;

(11) any encumbrance or restriction pursuant to Hedging Obligations;

(12) other Indebtedness, Disqualified Stock or Preferred Stock of Foreign Subsidiaries permitted to be Incurred or issued subsequent to the Issue Date pursuant to the provisions of the covenant described under "—Limitation on Indebtedness" that impose restrictions solely on the Foreign Subsidiaries party thereto or their Subsidiaries;

(13) restrictions created in connection with any Qualified Securitization Financing that, in the good faith determination of the Company are necessary or advisable to effect such Securitization Facility;

(14) any encumbrance or restriction arising pursuant to an agreement or instrument relating to any Indebtedness permitted to be Incurred subsequent to the Issue Date pursuant to the provisions of the covenant described under "—Limitation on Indebtedness" if the (a) Company determines at the time of issuance of such Indebtedness that such encumbrances or restrictions will not adversely affect, in any material respect, the Issuers' ability to make principal or interest payments on the notes or (b) such encumbrance or restriction applies only during the continuance of a default relating to such Indebtedness;

(15) any encumbrance or restriction existing by reason of any Lien permitted under "—Limitation on Liens;" or

Limitation on Sales of Assets and Subsidiary Stock

The Company will not, and will not permit any of its Restricted Subsidiaries to, make any Asset Disposition unless:

(1) the Company or such Restricted Subsidiary, as the case may be, receives consideration (including by way of relief from, or by any other Person assuming responsibility for, any liabilities, contingent or otherwise) at least equal to the fair market value (such fair market value to be determined on the date of

contractually agreeing to such Asset Disposition), as determined in good faith by the Board of Directors of the Company, of the shares and assets subject to such Asset Disposition (including, for the avoidance of doubt, if such Asset Disposition is a Permitted Asset Swap);

(2) in any such Asset Disposition, or series of related Asset Dispositions (except to the extent the Asset Disposition is a Permitted Asset Swap), at least 75% of the consideration from such Asset Disposition (including by way of relief from, or by any other Person assuming responsibility for, any liabilities, contingent or otherwise) received by the Company or such Restricted Subsidiary, as the case may be, is in the form of cash or Cash Equivalents; and

(3) an amount equal to 100% of the Net Available Cash from such Asset Disposition is applied by the Company or any Restricted Subsidiary, as the case may be:

(a) to the extent such Net Available Cash constitutes proceeds from Collateral, (i) to prepay, repay or purchase any Payment Priority Obligation (in each case, other than Indebtedness owed to the Company or any Restricted Subsidiary); *provided* , *however* , that, in connection with any prepayment, repayment or purchase of Indebtedness pursuant to this clause (a), the Company or such Restricted Subsidiary will retire such Indebtedness and will cause the related commitment (if any) to be reduced in an amount equal to the principal amount so prepaid, repaid or purchased; or (ii) to prepay, repay or purchase Pari Passu Secured Obligations at a price of no more than 100% of the principal amount of such Pari Passu Secured Obligations plus accrued and unpaid interest to the date of such prepayment, repayment or purchase; *provided* that, to the extent the Company redeems, repays or repurchases Pari Passu Secured Obligations pursuant to this clause (ii), the Issuers shall equally and ratably reduce Obligations under the notes as provided under “Optional Redemption,” through open-market purchases (to the extent such purchases are at or above 100% of the principal amount thereof) or by making an offer (in accordance with the procedures set forth below for an Asset Disposition Offer) to all Holders to purchase their notes at 100% of the principal amount thereof, plus the amount of accrued but unpaid interest, if any, on the amount of notes that would otherwise be prepaid; or

(b) if the assets subject to such Asset Disposition are the property or assets of a Restricted Subsidiary that is not a Guarantor, to permanently reduce Indebtedness of (i) a Restricted Subsidiary that is not a Guarantor, other than Indebtedness owed to an Issuer or any Restricted Subsidiary, or (ii) an Issuer or a Guarantor;

(c) to the extent the Company or such Restricted Subsidiary elects to invest in or commit to invest in Additional Assets (including by means of an investment in Additional Assets by a Restricted Subsidiary with Net Available Cash received by the Company or another Restricted Subsidiary) within 365 days from the later of (i) the date of such Asset Disposition and (ii) the receipt of such Net Available Cash; provided that a binding commitment to make an investment of Additional Assets shall be treated as a permitted application of the Net Available Cash from the date of such commitment; provided further that (x) in the event such binding commitment is later canceled or terminated for any reason before such Net Available Cash is so applied, the Company or such Restricted Subsidiary may satisfy its obligation as to any Net Available Cash by entering into another binding commitment within 180 days of such cancellation or termination of the prior binding commitment and (y) if such investment is not consummated within the period set forth in clause (x) or such binding commitment is terminated, the Net Available Cash not so applied will be deemed to be Excess Proceeds (as defined below); provided, further, that (i) the Company or such Restricted Subsidiary may only enter into such a commitment under clause (x) one time with respect to each Asset Disposition and (ii) the assets (including Capital Stock) acquired with the Net Available Cash of an Asset Disposition of Collateral are pledged as Collateral; or

(d) to the extent such Net Available Cash from such Asset Disposition does not constitute proceeds from Collateral, any of clauses (a), (b) and (c) above;

provided that, pending the final application of any such Net Available Cash in accordance with clause (a) or clause (b) above, the Company and its Restricted Subsidiaries may temporarily reduce Indebtedness or otherwise use such Net Available Cash in any manner not prohibited by the Indenture.

Any Net Available Cash from Asset Dispositions that is not applied or invested or committed to be applied or invested as provided in the preceding paragraph will be deemed to constitute " *Excess Proceeds* " under the Indenture. On the 366th day after an Asset Disposition, if the aggregate amount of Excess Proceeds under the Indenture exceeds $50.0 million, the Company will within 10 Business Days be required to make an offer (" *Asset Disposition Offer* ") to all Holders of notes issued under such Indenture and, to the extent the Company elects, to all holders of other outstanding Pari Passu Secured Obligations , to purchase the maximum principal amount of notes and any such Pari Passu Secured Obligations to which the Asset Disposition Offer applies that may be purchased out of the Excess Proceeds, at an offer price in respect of the notes in an amount equal to 100% of the principal amount of the notes and Pari Passu Secured Obligations, in each case, plus accrued and unpaid interest, if any, to, but not including, the date of purchase, in accordance with the procedures set forth in the Indenture or the agreements governing the Pari Passu Indebtedness, as applicable, and, with respect to the notes, in minimum denominations of $2,000 and in integral multiples of $1,000 in excess thereof. The Issuers will deliver notice of such Asset Disposition Offer electronically or by first-class mail, with a copy to the Trustee, to each Holder of notes at the address of such Holder appearing in the security register or otherwise in accordance with the procedures of DTC, describing the transaction or transactions that constitute the Asset Disposition and offering to repurchase the notes for the specified purchase price on the date specified in the notice, which date will be no earlier than 30 days and no later than 60 days from the date such notice is delivered, pursuant to the procedures required by the Indenture and described in such notice.

To the extent that the aggregate amount of notes and Pari Passu Secured Obligations so validly tendered and not properly withdrawn pursuant to an Asset Disposition Offer is less than the Excess Proceeds, the Company may use any remaining Excess Proceeds for any purpose not prohibited by the Indenture. If the aggregate principal amount of the notes surrendered in any Asset Disposition Offer by Holders and other Pari Passu Secured Obligations surrendered by holders or lenders, collectively, exceeds the amount of Excess Proceeds, the Excess Proceeds shall be allocated by the Company among the notes and Pari Passu Secured Obligations to be purchased on a pro rata basis on the basis of the aggregate principal amount of tendered notes and Pari Passu Secured Obligations, subject to adjustments so that no note in an unauthorized amount remains outstanding. Upon completion of any Asset Disposition Offer, the amount of Excess Proceeds shall be reset at zero.

To the extent that any portion of Net Available Cash payable in respect of the notes is denominated in a currency other than U.S. dollars, the amount thereof payable in respect of the notes shall not exceed the net amount of funds in U.S. dollars that is actually received by the Company upon converting such portion into U.S. dollars.

For the purposes of clause (2) of the first paragraph of this covenant, the following will be deemed to be cash:

(1) the assumption by the transferee of Indebtedness or other liabilities contingent or otherwise of the Company or a Restricted Subsidiary (other than Subordinated Indebtedness, Disqualified Stock of the Company or a Guarantor or Preferred Stock of a Guarantor) and the release of the Company or such Restricted Subsidiary from all liability on such Indebtedness or other liability in connection with such Asset Disposition;

(2) securities, notes or other obligations received by the Company or any Restricted Subsidiary of the Company from the transferee that are converted by the Company or such Restricted Subsidiary into cash or Cash Equivalents within 180 days following the closing of such Asset Disposition;

(3) Indebtedness of any Restricted Subsidiary that is no longer a Restricted Subsidiary as a result of such Asset Disposition, to the extent that the Company and each other Restricted Subsidiary are released from any Guarantee of payment of such Indebtedness in connection with such Asset Disposition;

(4) consideration consisting of Indebtedness of the Company (other than Subordinated Indebtedness or Disqualified Stock) received after the Issue Date from Persons who are not the Company or any Restricted Subsidiary; and

(5) any Designated Non-Cash Consideration received by Holdings, the Company or any Restricted Subsidiary in such Asset Dispositions having an aggregate fair market value, taken together with all other Designated Non-Cash Consideration received pursuant to this covenant that is at that time outstanding, not to exceed the greater of $100.0 million and 3.5% of Total Assets (with the fair market value of each item of Designated Non-Cash Consideration being measured at the time received and without giving effect to subsequent changes in value).

The Issuers will comply, to the extent applicable, with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to the extent such laws or regulations are applicable in connection with the repurchase of notes pursuant to this covenant. To the extent that the provisions of any securities laws or regulations conflict with the provisions of the Indenture, the Issuers will comply with the applicable securities laws and regulations and shall not be deemed to have breached its obligations described in the Indenture by virtue thereof.

The Amended Credit Agreement prohibits and limits, and future credit agreements or other agreements to which the Company becomes a party may prohibit or limit, the Company from purchasing any notes pursuant to this covenant. In the event the Company is prohibited from purchasing the notes, the Company could seek the consent of its lenders to the purchase of the notes or could attempt to refinance the borrowings that contain such prohibition. If the Company does not obtain such consent or repay such borrowings, it will remain prohibited from purchasing the notes. In such case, the Company's failure to purchase tendered notes would constitute an Event of Default under the Indenture.

Limitation on Affiliate Transactions

The Company will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, enter into or conduct any transaction (including the purchase, sale, lease or exchange of any property or the rendering of any service) with any Affiliate of the Company (an " *Affiliate Transaction* ") involving aggregate value in excess of $5.0 million unless:

(1) the terms of such Affiliate Transaction taken as a whole are not materially less favorable to the Company or such Restricted Subsidiary, as the case may be, than those that could be obtained in a comparable transaction at the time of such transaction or the execution of the agreement providing for such transaction in arm's length dealings with a Person who is not such an Affiliate; and

(2) in the event such Affiliate Transaction involves an aggregate value in excess of $10.0 million, the terms of such transaction have been approved by a majority of the members of the Board of Directors.

Any Affiliate Transaction shall be deemed to have satisfied the requirements set forth in clause (2) of this paragraph if such Affiliate Transaction is approved by a majority of the Disinterested Directors, if any.

The provisions of the preceding paragraph will not apply to:

(1) any Restricted Payment permitted to be made pursuant to the covenant described under "—Limitation on Restricted Payments," or any Permitted Investment;

(2) any issuance or sale of Capital Stock, options, other equity-related interests or other securities, or other payments, awards or grants in cash, securities or otherwise pursuant to, or the funding of, or entering into, or maintenance of, any employment, consulting, collective bargaining or benefit plan, program, agreement or arrangement, related trust or other similar agreement and other compensation

arrangements, options, warrants or other rights to purchase Capital Stock of the Company, any Restricted Subsidiary or any Parent, restricted stock plans, long-term incentive plans, stock appreciation rights plans, participation plans or similar employee benefits or consultants' plans (including valuation, health, insurance, deferred compensation, severance, retirement, savings or similar plans, programs or arrangements) or indemnities provided on behalf of officers, employees, directors or consultants approved by the Board of Directors of the Company, in each case in the ordinary course of business;

(3) any Management Advances and any waiver or transaction with respect thereto;

(4) any transaction between or among the Company and any Restricted Subsidiary (or entity that becomes a Restricted Subsidiary as a result of such transaction), or between or among Restricted Subsidiaries;

(5) the payment of compensation, reasonable fees and reimbursement of expenses to, and customary indemnities (including under customary insurance policies) and employee benefit and pension expenses provided on behalf of, directors, officers, consultants or employees of the Company or any Restricted Subsidiary of the Company (whether directly or indirectly and including through any Person owned or controlled by any of such directors, officers or employees);

(6) the entry into and performance of obligations of the Company or any of its Restricted Subsidiaries under the terms of any transaction arising out of, and any payments pursuant to or for purposes of funding, any agreement or instrument in effect as of or on the Issue Date, as these agreements and instruments may be amended, modified, supplemented, extended, renewed or refinanced from time to time in accordance with the other terms of this covenant or to the extent not more disadvantageous to the Holders in any material respect;

(7) any customary transaction with a Securitization Entity effected as part of a Qualified Securitization Financing;

(8) transactions with customers, clients, suppliers or purchasers or sellers of goods or services, in each case in the ordinary course of business, which are fair to the Company or the relevant Restricted Subsidiary in the reasonable determination of the Board of Directors or the senior management of the Company or the relevant Restricted Subsidiary, or are on terms no less favorable than those that could reasonably have been obtained at such time from an unaffiliated party;

(9) any transaction between or among the Company or any Restricted Subsidiary and any Affiliate of the Company or an Associate or similar entity that would constitute an Affiliate Transaction solely because the Company or a Restricted Subsidiary or any Affiliate of the Company or a Restricted Subsidiary or any Affiliate of any Permitted Holder owns an equity interest in or otherwise controls such Affiliate, Associate or similar entity;

(10) issuances or sales of Capital Stock (other than Disqualified Stock or Designated Preferred Stock) of the Company or options, warrants or other rights to acquire such Capital Stock and the granting of registration and other customary rights in connection therewith or any contribution to capital of the Company or any Restricted Subsidiary;

(11) without duplication in respect of payments made pursuant to clause (12) hereof, (a) payments by the Company or any Restricted Subsidiary to any Permitted Holder (whether directly or indirectly) of annual management, consulting, monitoring or advisory fees and related expenses and (b) payments by the Company or any Restricted Subsidiary to any Permitted Holder (whether directly or indirectly, including through any Parent) for financial advisory, financing, underwriting or placement services or in respect of other investment banking activities, including in connection with acquisitions or divestitures, in each case pursuant to the Advisory Agreements as in effect on the Issue Date (or any amendment thereto (so long as any such amendment is not disadvantageous, in the good faith judgment of the Board of Directors to the Holders when taken as a whole as compared to the Advisory Agreements in effect on the Issue Date));

(12) payment to any Permitted Holder of all reasonable out of pocket expenses Incurred by such Permitted Holder in connection with its direct or indirect investment in the Company and its Subsidiaries;

(13) the offering of the notes and the payment of all fees and expenses related to any such offering;

(14) transactions in which the Company or any Restricted Subsidiary, as the case may be, delivers to the Trustee a letter from an Independent Financial Advisor stating that such transaction is fair to the Company or such Restricted Subsidiary from a financial point of view or meets the requirements of clause (1) of the preceding paragraph;

(15) the existence of, or the performance by the Company or any Restricted Subsidiary of its obligations under the terms of, any equityholders agreement (including any registration rights agreement or purchase agreements related thereto) to which it is party as of the Issue Date and any similar agreement that it may enter into thereafter; *provided* , *however* , that the existence of, or the performance by the Company or any Restricted Subsidiary of its obligations under any future amendment to the equityholders' agreement or under any similar agreement entered into after the Issue Date will only be permitted under this clause to the extent that the terms of any such amendment or new agreement are not otherwise disadvantageous to the Holders in any material respects; and

(16) any purchases by the Company's Affiliates of Indebtedness or Disqualified Stock of the Company or any of its Restricted Subsidiaries the majority of which Indebtedness or Disqualified Stock is purchased by Persons who are not the Company's Affiliates; *provided* that such purchases by the Company's Affiliates are on the same terms as such purchases by such Persons who are not the Company's Affiliates.

Designation of Restricted and Unrestricted Subsidiaries

The Board of Directors of the Company may designate any Restricted Subsidiary to be an Unrestricted Subsidiary if that designation would not cause a Default. If a Restricted Subsidiary is designated as an Unrestricted Subsidiary, the aggregate Fair Market Value of all outstanding Investments owned by the Company and its Restricted Subsidiaries in the Subsidiary designated as an Unrestricted Subsidiary will be deemed to be an Investment made as of the time of the designation and will reduce the amount available for Restricted Payments under the covenant described above under the caption "—Certain Covenants—Limitation on Restricted Payments" or under one or more clauses of the definition of Permitted Investments, as determined by the Company. That designation will only be permitted if the Investment would be permitted at that time and if the Restricted Subsidiary otherwise meets the definition of an Unrestricted Subsidiary. The Board of Directors of the Company may redesignate any Unrestricted Subsidiary to be a Restricted Subsidiary if that redesignation would not cause a Default.

Any designation of a Subsidiary of the Company as an Unrestricted Subsidiary will be evidenced to the Trustee by filing with the Trustee a resolution of the Board of Directors of the Company giving effect to such designation and an Officer's Certificate of the Company certifying that such designation complies with the preceding conditions and was permitted by the covenant described above under the caption "—Certain Covenants—Limitation on Restricted Payments." If, at any time, any Unrestricted Subsidiary would fail to meet the preceding requirements as an Unrestricted Subsidiary, it will thereafter cease to be an Unrestricted Subsidiary for purposes of the Indenture and any Indebtedness of such Subsidiary will be deemed to be incurred by a Restricted Subsidiary of the Company as of such date and, if such Indebtedness is not permitted to be incurred as of such date under the covenant described under the caption "—Certain Covenants—Limitation on Indebtedness," the Company will be in default of such covenant.

The Board of Directors of the Company may at any time designate any Unrestricted Subsidiary to be a Restricted Subsidiary of the Company; *provided* that such designation will be deemed to be an incurrence of Indebtedness by a Restricted Subsidiary of the Company of any outstanding Indebtedness of such Unrestricted Subsidiary, and such designation will only be permitted if (1) such Indebtedness is permitted under the covenant

described under the caption "—Certain Covenants—Limitation on Indebtedness," calculated on a pro forma basis as if such designation had occurred at the beginning of the applicable reference period; and (2) no Default or Event of Default would be in existence following such designation. Any such designation by the Board of Directors of the Company shall be evidenced to the Trustee by filing with the Trustee a certified copy of a resolution of the Board of Directors of the Company giving effect to such designation and an Officer's Certificate of the Company certifying that such designation complies with the preceding conditions.

Reports

Whether or not required by the SEC, so long as any notes are outstanding, if not filed electronically with the SEC through the SEC's Electronic Data Gathering, Analysis, and Retrieval System (or any successor system), the Company will furnish to the trustee, within 15 days after the time periods specified below:

(1) all financial information that would be required to be contained in a filing with the SEC on Forms 10-Q and 10-K (or Form 6-K and Form 20-F if the Company is a "foreign private issuer" as such term is defined under the rules and regulations of the SEC), if the Company were required to file such Forms, including a "Management's Discussion and Analysis of Financial Condition and Results of Operations" and, with respect to the annual information only, a report on the annual financial statements by the Company's certified independent accountants but within 120 days after the end of each fiscal year and within 60 days after the end of each fiscal quarter; and

(2) as promptly as provided in the SEC's rules and regulations, all current reports that would be required to be filed with the SEC on Form 8-K (or Form 6-K if the Company is a "foreign private issuer" as such term is defined under the rules and regulations of the SEC) if the Company were required to file such reports;

in each case, in a manner that complies in all material respects with the requirements specified in such form. Notwithstanding the foregoing, the Company shall not be so obligated to file such reports with the SEC (i) if the SEC does not permit such filing or (ii) prior to the consummation of an exchange offer or the effectiveness of a shelf registration statement as required by the Registration Rights Agreement, so long, as if clause (i) or (ii) is applicable, the Company makes available such information to prospective purchasers of notes, in addition to providing such information to the Trustee and the Holders of the notes, in each case, at the Company's expense and by the applicable date the Company would be required to file such information pursuant to the immediately preceding sentence. To the extent any such information is not so filed or furnished, as applicable, within the time periods specified above and such information is subsequently filed or furnished, as applicable, the Company will be deemed to have satisfied its obligations with respect thereto at such time and any Default with respect thereto shall be deemed to have been cured; *provided* that such cure shall not otherwise affect the rights of the Holders under "—Events of Default" if Holders of at least 30% in principal amount of the then total outstanding notes have declared the principal, premium, if any, interest and any other monetary obligations on all the then outstanding notes to be due and payable immediately and such declaration shall not have been rescinded or cancelled prior to such cure. In addition, to the extent not satisfied by the foregoing, the Company will agree that, for so long as any notes are outstanding, it will furnish to Holders and to securities analysts and prospective investors, upon their request, the information required to be delivered pursuant to Rule 144A(d)(4) under the Securities Act.

Substantially concurrently with the furnishing or making such information available to the Trustee pursuant to the immediately preceding paragraph, the Company shall also post copies of such information required by the immediately preceding paragraph on a website (which may be nonpublic and may be maintained by the Company or a third party) to which access will be given to Holders, prospective investors in the notes (which prospective investors shall be limited to "qualified institutional buyers" within the meaning of Rule 144A of the Securities Act or non-U.S. persons (as defined in Regulation S under the Securities Act) that certify their status as such to the reasonable satisfaction of the Company), and securities analysts and market making financial institutions that are reasonably satisfactory to the Company.

The Company will also hold quarterly conference calls for the Holders of the notes to discuss financial information for the previous quarter (it being understood that such quarterly conference call may be the same conference call as with the Company's equity investors and analysts). The conference call will be following the last day of each fiscal quarter of the Company and not later than 10 Business Days from the time that the Company distributes the financial information as set forth in the second-preceding paragraph. No fewer than two days prior to the conference call, the Company will issue a press release announcing the time and date of such conference call and providing instructions for Holders, securities analysts and prospective investors to obtain access to such call.

In addition, for so long as any direct or indirect parent company of the Company is a guarantor of the notes, the Indenture permits the Company to satisfy its obligations in this covenant with respect to financial information relating to the Company by furnishing financial information relating to such parent; *provided* that the same is accompanied by consolidating information that explains in reasonable detail the differences between the information relating to such parent, on the one hand, and the information relating to the Company and its Restricted Subsidiaries on a standalone basis, on the other hand.

Limitation on Guarantees

The Company will not permit any of its Wholly-Owned Subsidiaries that are Restricted Subsidiaries (and non-Wholly-Owned Subsidiaries if such non-Wholly Owned Subsidiaries guarantee other capital markets debt securities of the Company or any Restricted Subsidiary or guarantee all or a portion of the Credit Agreement), other than a Guarantor, to Guarantee the payment of any Indebtedness of the Company or any other Guarantor unless:

(1) such Restricted Subsidiary within 30 days executes and delivers a supplemental indenture to the Indenture and joinder or supplement to the Registration Rights Agreement providing for a senior Guarantee by such Restricted Subsidiary, and (i) executes and delivers a supplement or joinder to the Security Documents, or executes and delivers new Security Documents, and any Intercreditor Agreement and takes all actions required thereunder to perfect the Liens created thereunder; *provided* that

   (a) if such Indebtedness is by its express terms subordinated in right of payment to the notes or such Guarantor's Guarantee, any such Guarantee by such Restricted Subsidiary with respect to such Indebtedness shall be subordinated in right of payment to such Guarantee with respect to the notes substantially to the same extent as such Indebtedness is subordinated to the notes or such Guarantor's Guarantee of the notes; and

   (b) if the notes or such Guarantor's Guarantee are subordinated in right of payment to such Indebtedness, the Guarantee under the supplemental indenture shall be subordinated to such Restricted Subsidiary's guarantee with respect to such Indebtedness substantially to the same extent as the notes or the Guarantor's Guarantee are subordinated to such Indebtedness; and

(2) such Restricted Subsidiary providing a Guarantee in accordance with this covenant will (i) waive and will not in any manner whatsoever claim or take the benefit or advantage of, any rights of reimbursement, indemnity or subrogation or any other rights against the Company or any other Restricted Subsidiary as a result of any payment by such Restricted Subsidiary under its Guarantee until payment in full of Obligations under the Indenture; and (ii) deliver to the Trustee an Opinion of Counsel to the effect that:

   (a) such Guarantee has been duly executed and authorized; and

   (b) such Guarantee constitutes a valid, binding and enforceable obligation of such Restricted Subsidiary, except insofar as enforcement thereof may be limited by bankruptcy, insolvency or similar laws (including, without limitation, all laws relating to fraudulent transfers) and except insofar as enforcement thereof is subject to general principals of equity;

provided that this covenant shall not be applicable (i) to any guarantee of any Restricted Subsidiary that existed at the time such Person became a Restricted Subsidiary and was not incurred in connection with, or in contemplation of, such Person becoming a Restricted Subsidiary, or (ii) in the event that the Guarantee of the Company's obligations under the notes or the Indenture by such Subsidiary would not be permitted by applicable law, rule or regulation.

In addition, upon the Guarantee by any Guarantor that was previously prohibited under applicable law, rule or regulation from Guaranteeing the Company's obligations under the notes and the Indenture becoming permissible under all such laws, rules and regulations, such Guarantor will promptly execute and deliver a supplemental indenture to the Indenture and joinder or supplement to the Registration Rights Agreement providing for a senior Guarantee by such Guarantor.

The Company may elect, in its sole discretion, to cause any Subsidiary that is not otherwise required to be a Guarantor to become a Guarantor, in which case, such Subsidiary shall only be required to comply with the 30-day period described above.

If any Guarantor becomes an Immaterial Subsidiary, the Company shall have the right, by execution and delivery of a supplemental indenture to the Trustee, to cause such Immaterial Subsidiary to cease to be a Guarantor, subject to the requirement described in the first paragraph above that such Subsidiary shall be required to become a Guarantor if it ceases to be an Immaterial Subsidiary (except that if such Subsidiary has been properly designated as an Unrestricted Subsidiary it shall not be so required to become a Guarantor or execute a supplemental indenture).

Future Intercreditor Agreements

The Indenture provides that, at the request and direction of the Company, in connection with the Incurrence by the Company or any Guarantor of any Permitted Liens pursuant to clauses (6), (18), (19), (27) or (28) of such the definition of Permitted Liens with respect to the Collateral, the Company, the relevant Guarantor, the Trustee, the Collateral Agent shall enter into with the holders of the Indebtedness relating to such Permitted Liens (or their duly authorized Representatives), and any other collateral agent thereunder, a Future Intercreditor Agreement or a restatement, amendment or other modification of the Intercreditor Agreement or any existing Future Intercreditor Agreement on substantially the same terms as (or terms not materially less favorable to the Holders under) the Intercreditor Agreement, including containing substantially the same terms with respect to release of Guarantees and priority and release of the Security Interest under the Security Documents in the Collateral; provided that such Future Intercreditor Agreement will not impose any personal obligations on the Trustee or Collateral Agent or, in the opinion of the Trustee or Collateral Agent, as applicable, adversely affect the rights, duties, liabilities or immunities of the Trustee or Collateral Agent under the Indenture. In connection with any such Future Intercreditor Agreement or amendment or other modification to the Intercreditor Agreement, the Trustee and the Collateral Agent shall be entitled to receive an Officer's Certificate and Opinion of Counsel each stating that such Future Intercreditor Agreement and/or amendment or other modification to the Intercreditor Agreement is authorized or permitted by the terms of the Indenture and/or the Intercreditor Agreement, as the case may be, and that all conditions precedent to such Future Intercreditor Agreement and/or amendment or other modification to the Intercreditor Agreement required by the Indenture and/or the Intercreditor Agreement have been complied with.

The Indenture also provides that, at the request and direction of the Company and without the consent of Holders, the Trustee and the Collateral Agent shall from time to time enter into one or more amendments to the Intercreditor Agreement or any Future Intercreditor Agreement to: (1) cure any ambiguity, omission, defect or inconsistency of any such agreement, (2) increase the amount or types of Indebtedness covered by any such agreement that may be Incurred by the Issuers or a Guarantor that is subject to any such agreement to the extent not otherwise prohibited by the terms of the Indenture (including the addition of provisions relating to new Junior Secured Obligations), (3) add Restricted Subsidiaries to such agreement, (4) further secure the notes (including

Additional Notes), (5) make provision for equal and ratable pledges of the Collateral to secure Additional Notes, (6) implement any Permitted Liens, or (7) amend such agreement in accordance with the terms thereof or (8) make any other change to any such agreement that does not adversely affect the rights of the Holders in any material respect. The Company shall not otherwise direct the Trustee or the Collateral Agent to enter into any amendment to the Intercreditor Agreement or any Future Intercreditor Agreement without the consent of the Holders of the majority in aggregate principal amount of the notes then outstanding, except as otherwise permitted below under "Amendments and Waivers", and the Company may only direct the Trustee and the Collateral Agent to enter into any amendment to the extent such amendment does not impose any personal obligations on the Trustee or Collateral Agent or, in the opinion of the Trustee or Collateral Agent, adversely affect their respective rights, duties, liabilities or immunities under the Indenture or the Intercreditor Agreement. In connection with any such amendment or other modification to the Intercreditor Agreement or any Future Intercreditor Agreement, the Trustee and the Collateral Agent shall be entitled to receive an Officer's Certificate and Opinion of Counsel stating that such amendment or other modification to the Intercreditor Agreement or any Future Intercreditor Agreement is authorized or permitted by the terms of the Indenture and that all conditions precedent to such amendment or other modification required by the Indenture have been complied with. The Indenture also provides that each Holder, by accepting a note, shall be deemed to have agreed to and accepted the terms and conditions of the Intercreditor Agreement and any Future Intercreditor Agreement (whether then entered into or entered into in the future pursuant to the provisions described herein) and to have directed the Trustee and the Collateral Agent to enter into the Intercreditor Agreement and any Future Intercreditor Agreement.

Further Assurances and After-Acquired Collateral

Subject to the applicable limitations set forth in the Security Documents and the Indenture (including with respect to Excluded Assets), the Issuers and the Guarantors shall execute any and all further documents, financing statements, applications for registration, agreements and instruments, and take all further action that may be required under applicable law, or that the Collateral Agent may reasonably request, in order to grant, preserve, protect and perfect the validity and priority of the security interest created or intended to be created by the Security Documents in the Collateral.

The Indenture provides that, from and after the Issue Date, upon the acquisition by an Issuer or any Guarantor of property which constitutes Collateral (" *After-Acquired Collateral* "), such Issuer or such Guarantor shall, within 90 days with respect to any Material Real Property, and to the extent required by the Indenture and/or the Security Documents with respect to all other After-Acquired Collateral execute and deliver such security instruments, financing statements, certificates and opinions of counsel as shall be necessary to vest in the Trustee a perfected security interest, subject only to Permitted Liens, in such After-Acquired Collateral and to have such After-Acquired Collateral added to the Collateral, and thereupon all provisions of the Indenture relating to the Collateral shall be deemed to relate to such After-Acquired Collateral Property to the same extent and with the same force and effect. The Issuers and the Guarantors may, in their reasonable discretion and in consultation with the Trustee and the Collateral Agent, extend such 90 day time period with respect to any such document to such longer time period as the such Issuers or such Guarantors reasonably believe in good faith is necessary to deliver such documents; provided that such Issuers and such Guarantors shall provide written notice of any such extension to the Trustee for the benefit of the holders of the notes, which notice shall describe in reasonable detail the Collateral to which the applicable documents apply and the length of such extension.

Impairment of Security Interest

The Issuers shall not, and shall not permit any Restricted Subsidiary to (x) take or knowingly or negligently omit to take any action that would have the result of materially impairing the security interest with respect to the Collateral (it being understood, subject to the proviso below, that the Incurrence of Permitted Liens shall under no circumstances be deemed to materially impair the security interest with respect to the Collateral) for the benefit of the Trustee and the Holders, or (y) grant to any Person other than the Collateral Agent or, if different,

the collateral agent under any Payment Priority Obligations, Pari Passu Secured Obligations or Junior Secured Obligations that are subject to an Intercreditor Agreement, for the benefit of the Trustee and the Holders and the other beneficiaries described in the Security Documents and any Intercreditor Agreement, and other than with respect to any Permitted Lien, any interest whatsoever in any of the Collateral, except that (i) the Issuers and the Restricted Subsidiaries may Incur Permitted Liens and the Collateral may be discharged and released in accordance with the Indenture, the applicable Security Documents or any Intercreditor Agreement and (ii) the applicable Security Documents may be amended from time to time to cure any ambiguity, mistake, omission, defect or inconsistency therein. Each of the Issuers and each Guarantor will, at its sole cost and expense, execute and deliver all such agreements and instruments as necessary, or as the Trustee or Collateral Agent reasonably requests, to more fully or accurately describe the assets and property intended to be Collateral or the obligations intended to be secured by the Security Documents.

Merger and Consolidation

The Issuers

Neither Issuer will consolidate with or merge with or into, or convey, transfer or lease all or substantially all its assets to, any Person, unless:

(1) the resulting, surviving or transferee Person (the " *Successor Company* ") will be a Person organized and existing under the laws of any member state of the European Union, the United States of America, any State of the United States or the District of Columbia and the Successor Company (if not either of the Issuers) will expressly assume, by supplemental indenture, amendment or other instrument executed and delivered to the Trustee, in form reasonably satisfactory to the Trustee, all the obligations of the Company under the notes and the Indenture, the Security Documents and any Intercreditor Agreement, and the Successor Company shall cause such amendments, supplements or other instruments to be executed, filed and recorded in such jurisdictions as may be required by applicable law to preserve and protect the Lien on the Collateral owned by or transferred and if such Successor Company is not a corporation, a co-obligor of the notes is a corporation organized or existing under such laws;

(2) immediately after giving effect to such transaction (and treating any Indebtedness that becomes an obligation of the Successor Company or any Subsidiary of the Successor Company as a result of such transaction as having been Incurred by the Successor Company or such Subsidiary at the time of such transaction), no Default or Event of Default shall have occurred and be continuing;

(3) immediately after giving effect to such transaction, either (a) the Successor Company with respect to such Issuer would be able to Incur at least an additional $1.00 of Indebtedness pursuant to the first paragraph of the covenant described under "—Limitation on Indebtedness" or (b) the Fixed Charge Coverage Ratio would not be lower than it was immediately prior to giving effect to such transaction; and

(4) the Company shall have delivered to the Trustee an Officer's Certificate and an Opinion of Counsel, each to the effect that such consolidation, merger or transfer and such supplemental indenture, amendment or other instrument (if any) comply with the Indenture and an Opinion of Counsel to the effect that such supplemental indenture, amendment or other instrument (if any) has been duly authorized, executed and delivered and is a legal, valid and binding agreement enforceable against the Successor Company (in each case, in form reasonably satisfactory to the Trustee), *provided* that in giving an Opinion of Counsel, counsel may rely on an Officer's Certificate as to any matters of fact, including as to satisfaction of clauses (2) and (3) above.

For purposes of this covenant, the sale, lease, conveyance, assignment, transfer, or other disposition of all or substantially all of the properties and assets of one or more Subsidiaries of the Company, which properties and assets, if held by the Company instead of such Subsidiaries, would constitute all or substantially all of the properties and assets of the Company on a consolidated basis, shall be deemed to be the transfer of all or substantially all of the properties and assets of the Company.

The Successor Company will succeed to, and be substituted for, and may exercise every right and power of, either Issuer under the Indenture, the notes, the Security Documents and any Intercreditor Agreement, but in the case of a lease of all or substantially all its assets, the predecessor company will not be released from its obligations under such Indenture or the notes, the Security Documents or any Intercreditor Agreement.

Notwithstanding the preceding clauses (2), (3) and (4) (which do not apply to transactions referred to in this sentence), (a) any Restricted Subsidiary of the Company may consolidate or otherwise combine with, merge into or transfer all or part of its properties and assets to the Company and (b) any Restricted Subsidiary may consolidate or otherwise combine with, merge into or transfer all or part of its properties and assets to any other Restricted Subsidiary. Notwithstanding the preceding clauses (2) and (3) (which do not apply to the transactions referred to in this sentence), the Company may consolidate or otherwise combine with or merge into an Affiliate incorporated or organized for the purpose of changing the legal domicile of the Company, reincorporating the Company in another jurisdiction, or changing the legal form of the Company.

There is no precise established definition of the phrase "substantially all" under applicable law. Accordingly, in certain circumstances there may be a degree of uncertainty as to whether a particular transaction would involve "all or substantially all" of the property or assets of a Person.

The foregoing provisions (other than the requirements of clause (2) of the first paragraph of this covenant) shall not apply to the creation of a new Subsidiary as a Restricted Subsidiary of the Company.

Guarantors

No Guarantor may:

(1) consolidate with or merge with or into any Person; or

(2) sell, convey, transfer or dispose of, all or substantially all its assets, in one transaction or a series of related transactions, to any Person; or

(3) permit any Person to merge with or into the Guarantor; *unless*

(A) the other Person is a Company or any Restricted Subsidiary that is Guarantor or becomes a Guarantor concurrently with the transaction; or

(B) (1) either (x) a Guarantor is the continuing Person or (y) the resulting, surviving or transferee Person expressly assumes all of the obligations of the Guarantor under its Guarantee of the notes and the Security Documents and any Intercreditor Agreement and the Successor Guarantor shall cause such amendments, supplements or other instruments to be executed, filed and recorded in such jurisdiction as may be required by applicable law to preserve and protect the Lien in the Collateral owned by or transferred to such Successor Guarantor; and

(2) immediately after giving effect to the transaction, no Default has occurred and is continuing; or

(C) the transaction constitutes a sale or other disposition (including by way of consolidation or merger) of the Guarantor or the sale or disposition of all or substantially all the assets of the Guarantor (in each case other than to the Company or a Restricted Subsidiary) otherwise permitted by the Indenture.

There is no precise established definition of the phrase "substantially all" under applicable law. Accordingly, in certain circumstances there may be a degree of uncertainty as to whether a particular transaction would involve "all or substantially all" of the property or assets of a Person.

Events of Default

Each of the following is an Event of Default under the Indenture:

(1) default in any payment of interest, if any, on any note when due and payable, continued for 30 days;

(2) default in the payment of the principal amount of or premium, if any, on any note issued under the Indenture when due at its Stated Maturity, upon optional redemption, upon required repurchase, upon declaration or otherwise;

(3) failure to comply for 60 days after written notice by the Trustee on behalf of the Holders or by the Holders of 30% in principal amount of the outstanding notes of the Issuers agreements or obligations contained in the Indenture;

(4) default under any mortgage, Indenture or instrument under which there may be issued or by which there may be secured or evidenced any Indebtedness for money borrowed by the Company or any of its Restricted Subsidiaries (or the payment of which is Guaranteed by the Company or any of its Restricted Subsidiaries) other than Indebtedness owed to the Company or any of its Restricted Subsidiaries whether such Indebtedness or Guarantee now exists, or is created after the date hereof, which default:

(a) is caused by a failure to pay principal of such Indebtedness, at its stated final maturity (after giving effect to any applicable grace periods) provided in such Indebtedness (" *payment default* "); or

(b) results in the acceleration of such Indebtedness prior to its stated final maturity (the " *cross acceleration provision* ");

and, in each case, the principal amount of any such Indebtedness, together with the principal amount of any other such Indebtedness under which there has been a payment default or the maturity of which has been so accelerated, aggregates $75.0 million or more;

(5) certain events of bankruptcy, insolvency or court protection of the Company, the Issuers or a Significant Subsidiary or group of Restricted Subsidiaries that, taken together (as of the latest audited consolidated financial statements for the Company and its Restricted Subsidiaries), would constitute a Significant Subsidiary (the " *bankruptcy provisions* ");

(6) failure by the Company or any Significant Subsidiary (or group of Restricted Subsidiaries that together (determined as of the most recent consolidated financial statements of the Company for a fiscal period end provided as required under "—Certain Covenants—Reports") would constitute a Significant Subsidiary), to pay final judgments aggregating in excess of $75.0 million other than any judgments covered by indemnities provided by, or insurance policies issued by, reputable and creditworthy companies, which final judgments remain unpaid, undischarged and unstayed for a period of more than 60 days after such judgment becomes final, and in the event such judgment is covered by insurance, an enforcement proceeding has been commenced by any creditor upon such judgment or decree which is not promptly stayed (the " *judgment default provision* ");

(7) any Guarantee ceases to be in full force and effect, other than in accordance with the terms of the Indenture or a Guarantor denies or disaffirms its obligations under its Guarantee of the notes, other than in accordance with the terms thereof or upon release of such Guarantee in accordance with the Indenture;

(8) any Security Document shall for any reason (other than pursuant to the terms thereof including as a result of a transaction not prohibited by the Indenture) cease to create a valid and perfected lien, with the priority required by the Security Documents or any security interest in any material portion of the Collateral purported to be covered thereby, subject to Permitted Liens, (i) except to the extent that any such perfection or priority is not required pursuant to the Indenture or Security Documents or results

from the failure of the Collateral Agent to maintain possession of certificates actually delivered to it representing securities pledged under the Security Documents and (ii) except as to Collateral consisting of Real Property to the extent that such losses are covered by a lender's title insurance policy and such insurer has not denied coverage;

(9) the failure by the Issuers or any Guarantor to comply for 60 days after notice with its other agreements contained in the Security Documents, except for a failure that would not be material to the Holders of the notes and would not materially affect the value of the Collateral taken as a whole (together with the defaults described in clauses (8) and (9) the " *security default provisions* ").

However, a default under clauses (3), (4), (6) or (9) of this paragraph will not constitute an Event of Default until the Trustee or the Holders of 30% in principal amount of the outstanding notes notify the Company of the default and, with respect to clauses (3), (6) and (9) the Issuers do not cure such default within the time specified in clauses (3), (6) or (9), as applicable, of this paragraph after receipt of such notice.

If an Event of Default (other than an Event of Default described in clause (5) above with respect to the Issuers) occurs and is continuing, the Trustee by notice to the Issuers or the Holders of at least 30% in principal amount of the outstanding notes by written notice to the Issuers and the Trustee, may declare the principal of, premium, if any, and accrued and unpaid interest on all the notes to be due and payable. Upon such a declaration, such principal, premium and accrued and unpaid interest will be due and payable immediately. In the event of a declaration of acceleration of the notes because an Event of Default described in clause (4) under "Events of Default" has occurred and is continuing, the declaration of acceleration of the notes shall be automatically annulled if the event of default or payment default triggering such Event of Default pursuant to clause (4) shall be remedied or cured, or waived by the holders of the Indebtedness, or the Indebtedness that gave rise to such Event of Default shall have been discharged in full, in each case, within 30 days after the declaration of acceleration with respect thereto and if (1) the annulment of the acceleration of the notes would not conflict with any judgment or decree of a court of competent jurisdiction and (2) all existing Events of Default, except nonpayment of principal, premium or interest, including Additional Interest, if any, on the notes that became due solely because of the acceleration of the notes, have been cured or waived.

If an Event of Default described in clause (5) above with respect to the Issuers occurs and is continuing, the principal of, premium, if any, and accrued and unpaid interest, on all the notes will become and be immediately due and payable without any declaration or other act on the part of the Trustee or any Holders.

The Holders of a majority in principal amount of the outstanding notes under the Indenture may waive all past or existing Defaults or Events of Default (except with respect to nonpayment of principal, premium or interest) and rescind any such acceleration with respect to such notes and its consequences if rescission would not conflict with any judgment or decree of a court of competent jurisdiction.

The Trustee will be under no obligation to exercise any of the rights or powers under the Indenture at the request or direction of any of the Holders unless such Holders have offered to the Trustee indemnity or security satisfactory to the Trustee against any loss, liability or expense that may be incurred. Except to enforce the right to receive payment of principal or interest when due, no Holder may pursue any remedy with respect to the Indenture or the notes unless:

(1) such Holder has previously given the Trustee written notice that an Event of Default is continuing;

(2) Holders of at least 30% in principal amount of the outstanding notes have requested in writing the Trustee to pursue the remedy;

(3) such Holders have offered in writing the Trustee security or indemnity satisfactory to the Trustee against any loss, liability or expense;

(4) the Trustee has not complied with such request within 60 days after the receipt of the written request and the offer of security or indemnity; and

(5) the Holders of a majority in principal amount of the outstanding notes have not given the Trustee a written direction that, in the opinion of the Trustee, is inconsistent with such request within such 60-day period.

Subject to certain restrictions, the Holders of a majority in principal amount of the outstanding notes are given the right to direct the time, method and place of conducting any proceeding for any remedy available to the Trustee or the Collateral Agent or of exercising any trust or power conferred on the Trustee or the Collateral Agent. The Indenture provides that, in the event an Event of Default has occurred and is continuing, the Trustee will be required in the exercise of its powers to use the degree of care that a prudent person would use in the conduct of its own affairs. The Trustee and the Collateral Agent, however, may refuse to follow any direction that conflicts with law or the Indenture or that the Trustee or the Collateral Agent determines is unduly prejudicial to the rights of any other Holder or that would involve the Trustee or the Collateral Agent in personal liability. Prior to taking any action under the Indenture, the Trustee will be entitled to indemnification satisfactory to it against all fees, losses, liabilities and expenses that may be caused by taking or not taking such action.

The Indenture provides that if a Default occurs and is continuing and the Trustee is informed of such occurrence by the Issuers, the Trustee must give notice of the Default to the Holders within 60 days after being notified by the Issuers. Except in the case of a Default in the payment of principal of, or premium, if any, or interest on any note, the Trustee may withhold notice if and so long as a committee of trust officers of the Trustee in good faith determines that withholding notice is in the interests of the Holders. The Issuers are required to deliver to the Trustee, within 120 days after the end of each fiscal year, an Officer's Certificate indicating whether the signers thereof know of any Default that occurred during the previous year. The Issuers are required to deliver to the Trustee, within 30 days after the occurrence thereof, written notice of any events of which it is aware which would constitute certain Defaults, their status and what action the Issuers are taking or propose to take in respect thereof.

The notes provide for the Trustee to take action on behalf of the Holders in certain circumstances, but only if the Trustee is indemnified to its satisfaction. It may not be possible for the Trustee to take certain actions in relation to the notes and, accordingly, in such circumstances the Trustee will be unable to take action, notwithstanding the provision of an indemnity to it, and it will be for Holders to take action directly.

Amendments and Waivers

Subject to certain exceptions, the notes, the Note Documents, the Guarantees, the Security Documents, the Intercreditor Agreement and any Future Intercreditor Agreement may be amended, supplemented or otherwise modified with the consent of the Holders of a majority in principal amount of the notes then outstanding (including consents obtained in connection with a purchase of, or tender offer or exchange offer for, such notes) and, subject to certain exceptions, any default or compliance with any provisions thereof may be waived with the consent of the Holders of a majority in principal amount of the notes then outstanding (including consents obtained in connection with a purchase of, or tender offer or exchange offer for, such notes).

However an amendment or waiver may not, with respect to any such notes held by a non-consenting Holder:

(1) reduce the principal amount of such notes whose Holders must consent to an amendment;

(2) reduce the stated rate of or extend the stated time for payment of interest on any such note (other than provisions relating to Change of Control and Asset Dispositions);

(3) reduce the principal of or extend the Stated Maturity of any such note;

(4) reduce the premium payable upon the redemption of any such note or change the time at which any such note may be redeemed, in each case as described above under "—Optional Redemption;"

(5) make any such note payable in money other than that stated in such note;

(6) impair the right of any Holder to receive payment of principal of and interest on such Holder's notes on or after the due dates therefor or to institute suit for the enforcement of any such payment on or with respect to such Holder's notes;

(7) waive a Default or Event of Default with respect to the nonpayment of principal, premium or interest (except pursuant to a rescission of acceleration of the notes by the Holders of at least a majority in aggregate principal amount of such notes and a waiver of the payment default that resulted from such acceleration); or

(8) make any change in the amendment or waiver provisions which require the Holders' consent described in this sentence.

In addition, without the consent of the Holders of at least 66 $^{2}/_{3}$% in principal amount of notes then outstanding, no amendment, supplement or waiver may (i) release all or substantially all of the Collateral from the Liens of the Security Documents (except as permitted by the terms of the Indenture and the Security Documents) or (ii) make any change in the Indenture, any Security Document, the Intercreditor Agreement or any Future Intercreditor Agreement that has the effect of altering the priority of the liens or the application of proceeds of the Collateral in a manner that would adversely affect the Holders in any material respect.

Notwithstanding the foregoing, without the consent of any Holder, the Issuers, the Trustee, the Collateral Agent and the other parties thereto, as applicable, may amend or supplement any note Documents or Security Documents and the Issuers may direct the Trustee and Collateral Agent, and the Trustee and Collateral Agent shall, enter into an amendment to the Intercreditor Agreement or any Future Intercreditor Agreement, to:

(1) cure any ambiguity, omission, mistake, defect, error or inconsistency, conform any provision to this "Description of the Exchange Notes," or reduce the minimum denomination of the notes;

(2) provide for the assumption by a successor Person of the obligations of the Issuers under any Note Document;

(3) provide for uncertificated notes in addition to or in place of certificated notes;

(4) add to the covenants or provide for a Guarantee for the benefit of the Holders or surrender any right or power conferred upon the Company or any Restricted Subsidiary;

(5) make any change that does not adversely affect the rights of any Holder in any material respect;

(6) make such provisions as necessary (as determined in good faith by the Company) for the issuance of Additional Notes in accordance with the terms of the Indenture;

(7) provide for any Restricted Subsidiary to provide a Guarantee in accordance with the Covenant described under "—Certain Covenants—Limitation on Indebtedness," to add Guarantees with respect to the notes, to add security to or for the benefit of the notes, or to confirm and evidence the release, termination, discharge or retaking of any Guarantee or Lien with respect to or securing the notes when such release, termination, discharge or retaking is provided for under the Indenture;

(8) evidence and provide for the acceptance and appointment under the Indenture of a successor Trustee pursuant to the requirements thereof or to provide for the accession by the Trustee to any Note Document;

(9) make any amendment to the provisions of the Indenture relating to the transfer and legending of notes as permitted by the Indenture, including, without limitation, to facilitate the issuance and administration of notes; *provided* , *however* , that (i) compliance with the Indenture as so amended

would not result in notes being transferred in violation of the Securities Act or any applicable securities law and (ii) such amendment does not materially and adversely affect the rights of Holders to transfer notes;

(10) mortgage, pledge, hypothecate or grant any other Lien in favor of the Collateral Agent for its benefit and the benefit of the Trustee, the Holders of the notes and any holders of Pari Passu Secured Obligations, as additional security for the payment and performance of all or any portion of the obligations under the notes, the Guarantors and the Indenture or any Pari Passu Secured Obligations subject to the Security Documents, in any property or assets, including any which are required to be mortgaged, pledged or hypothecated, or in which a Lien is required to be granted to or for the benefit of the Trustee or the Collateral Agent pursuant to the Indenture, any of the Security Documents or otherwise, in each case as certified in an Officers' Certificate;

(11) provide for the release of Collateral from the Lien pursuant to the Indenture, the Security Documents, the Intercreditor Agreement and any Future Intercreditor Agreement when permitted or required by the Security Documents, the Indenture, the Intercreditor Agreement or any Future Intercreditor Agreement, in each case as certified in an Officers' Certificate; or

(12) provide for the succession of parties (other than the Issuers and the Guarantors) to the Security Documents, and other changes that are ministerial and administrative in nature, in connection with any refinancing, amendment, renewal, extension, substitution, restructuring, replacement, supplement or other modification of any agreement governing Pari Passu Secured Obligations and to which such parties are bound, in each case solely to the extent not prohibited by the Indenture; or

(13) conform the text of the Indenture, the notes, the Guarantees, the Security Documents or the Intercreditor Agreement to any provision of this "Description of the Exchange Notes" to the extent that such provision in this "Description of the Exchange Notes" is intended to be a verbatim recitation or a summary of a provision of the Indenture, the notes, the Guarantees, the Security Documents or the Intercreditor Agreement as certified in an Officers' Certificate.

In connection with any amendment, the Trustee shall be entitled to receive an Officer's Certificate and Opinion of Counsel each stating that such amendment is authorized or permitted by the terms of the Indenture, the Credit Agreement and each agreement governing any Pari Passu Secured Obligations, as applicable, and that all conditions precedent to such amendment required by the Indenture, the Credit Agreement and each agreement governing any Pari Passu Secured Obligations, as applicable, have been complied with. The consent of the Holders is not necessary under the Indenture to approve the particular form of any proposed amendment of any Note Document. It is sufficient if such consent approves the substance of the proposed amendment. A consent to any amendment or waiver under the Indenture by any Holder of notes given in connection with a tender of such Holder's notes will not be rendered invalid by such tender.

Defeasance

The Issuers at any time may terminate all obligations of the Issuers under the notes and the Indenture and have each Guarantor's obligations discharged with respect to its Guarantee (" *legal defeasance* ") and cure all then existing Defaults and Events of Default, except for certain obligations, including those respecting the defeasance trust, the rights, powers, trusts, duties, immunities and indemnities of the Trustee and the obligations of the Issuers in connection therewith and obligations concerning issuing temporary notes, registrations of notes, mutilated, destroyed, lost or stolen notes and the maintenance of an office or agency for payment and money for security payments held in trust.

The Issuers at any time may terminate its obligations and those of each Guarantor under the covenants described under "—Certain Covenants" (other than clauses (1) and (2) of the first paragraph of "—Merger and Consolidation— The Issuers" and clause 3(b) of the first paragraph of "—Merger and Consolidation—

Guarantors") and "—Change of Control" and the default provisions relating to such covenants described under "—Events of Default" above, the operation of the cross-default upon a payment default, the cross acceleration provisions, the bankruptcy provisions with respect to the Issuers and Significant Subsidiaries, the judgment default provision and the guarantee provision described under "—Events of Default" above (" *covenant defeasance* ").

The Issuers at their option at any time may exercise their legal defeasance option notwithstanding their prior exercise of their covenant defeasance option. If the Issuers exercise their legal defeasance option, payment of the notes may not be accelerated because of an Event of Default with respect to the notes. If the Issuers exercise their covenant defeasance option with respect to the notes, payment of the notes may not be accelerated because of an Event of Default specified in clause (3), (4), (5) (with respect only to the Issuers and Significant Subsidiaries), (6) or (7) under "—Events of Default" above.

In order to exercise either defeasance option, the Issuers must irrevocably deposit in trust (the " *defeasance trust* ") with the Trustee cash in U.S. dollars or U.S. Government Obligations or a combination thereof for the payment of principal, premium, if any, and interest on the notes to redemption or maturity, as the case may be, and must comply with certain other conditions, including delivery to the Trustee of:

(1) an Opinion of Counsel in the United States to the effect that Holders of the notes will not recognize income, gain or loss for U.S. federal income tax purposes as a result of such deposit and defeasance and will be subject to U.S. federal income tax on the same amounts and in the same manner and at the same times as would have been the case if such deposit and defeasance had not occurred (and in the case of legal defeasance only, such Opinion of Counsel in the United States must be based on a ruling of the U.S. Internal Revenue Service or change in applicable U.S. federal income tax law since the issuance of the notes);

(2) an Opinion of Counsel to the effect that, as of the date of such opinion and subject to customary assumptions and exclusions, following the deposit, the trust funds will not be subject to the effect of Section 547 of Title 11 of the United States Code, as amended;

(3) an Officer's Certificate stating that the deposit was not made by the Issuers with the intent of defeating, hindering, delaying, defrauding or preferring any creditors of the Issuers; and

(4) an Officer's Certificate and an Opinion of Counsel (which opinion of counsel may be subject to customary assumptions and exclusions), each stating that all conditions precedent provided for or relating to legal defeasance or covenant defeasance, as the case may be, have been complied with.

Satisfaction and Discharge

Concerning the Trustee and Certain Agents

Wilmington Trust, National Association is the Trustee under the Indenture. The permissive rights of the Trustee to take or refrain from taking any action enumerated in the Indenture will not be construed as an obligation or duty.

The Indenture imposes certain limitations on the rights of the Trustee, should it become a creditor of the Issuers, to obtain payment of claims in certain cases, or to realize on certain property received in respect of any such claim as security or otherwise. The Trustee is permitted to engage in other transactions with the Issuers and their Affiliates and Subsidiaries.

The Indenture sets out the terms under which the Trustee may retire or be removed, and replaced. Such terms include, among others, (1) that the Trustee may be removed at any time by the Holders of a majority in principal amount of the then outstanding notes, or may resign at any time by giving written notice to the Issuers and (2) that if the Trustee at any time (a) has or acquires a conflict of interest that is not eliminated, (b) fails to meet certain minimum limits regarding the aggregate of its capital and surplus or (c) becomes incapable of acting as Trustee or becomes insolvent or bankrupt, then the Issuers may remove the Trustee, or any Holder who has been a bona fide Holder for not less than 6 months may petition any court for removal of the Trustee and appointment of a successor Trustee.

FORM, BOOK-ENTRY PROCEDURES AND TRANSFER

General

The Exchange Notes will be issued in fully registered global form. The Exchange Notes initially will be represented by one or more global certificates without interest coupons (the "global notes"). The global notes will be deposited upon issuance with the trustee as custodian for DTC and registered in the name of DTC or its nominee for credit to the accounts of direct or indirect participants in DTC, as described below under "—Depositary Procedures."

The global notes will be deposited on behalf of the acquirers of the Exchange Notes for credit to the respective accounts of the acquirers or to such other accounts as they may direct. Except as described below, the global notes may be transferred, in whole and not in part, only to another nominee of DTC or to a successor of DTC or its nominee. Beneficial interests in the global notes may not be exchanged for Exchange Notes in certificated form except in the limited circumstances described below under "—Exchange of Book-Entry Notes for Certificated Notes."

Transfers of beneficial interests in the global notes will be subject to the applicable rules and procedures of DTC and its direct or indirect participants, which may change from time to time.

Depositary Procedures

The following description of the operations and procedures of DTC is provided solely as a matter of convenience. These operations and procedures are solely within the control of DTC and are subject to changes by DTC. We take no responsibility for these operations and procedures and urge investors to contact the systems or their participants directly to discuss these matters.

DTC has advised us that it is:

- a limited purpose trust company organized under the New York State Banking Law;
- a "banking organization" within the meaning of the New York State Banking Law;

- a member of the U.S. Federal Reserve System;
- a "clearing corporation" within the meaning of the New York Uniform Commercial Code; and
- a "clearing agency" registered under Section 17A of the Exchange Act.

DTC was created to hold securities for its participating organizations (collectively, the "participants") and facilitate the clearance and settlement of transactions in those securities between participants through electronic book-entry changes in accounts of its participants. The participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. Access to DTC's system is also available to other entities such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a participant, either directly or indirectly (collectively, the "indirect participants"). Persons who are not participants may beneficially own securities held by or on behalf of DTC only through participants or indirect participants. DTC has no knowledge of the identity of beneficial owners of securities held by or on behalf of DTC. DTC's records reflect only the identity of participants to whose accounts securities are credited. The ownership interests and transfer of ownership interests of each beneficial owner of each security held by or on behalf of DTC are recorded on the records of the participants and indirect participants.

DTC has also advised us that, pursuant to procedures established by DTC, ownership of interests in the global notes will be shown on, and the transfer of ownership of such interest will be effected only through, records maintained by DTC (with respect to the participants) or by the participants and the indirect participants (with respect to other owners of beneficial interests in the global notes).

Investors in the global notes may hold their interests therein directly through DTC if they are participants in such system or indirectly through organizations that are participants or indirect participants in such system. All interests in the global notes will be subject to the procedures and requirements of DTC. The laws of some states require that certain persons take physical delivery of certificates evidencing securities they own. Consequently, the ability to transfer beneficial interests in the global notes to such persons will be limited to that extent. Because DTC can act only on behalf of participants, which in turn act on behalf of indirect participants, the ability of beneficial owners of interests in the global notes to pledge such interests to persons or entities that do not participate in the DTC system, or otherwise take actions in respect of such interests, may be affected by the lack of a physical certificate evidencing such interests.

Except as described below, owners of interests in the global notes will not have Exchange Notes registered in their names, will not receive physical delivery of Exchange Notes in certificated form and will not be considered the registered owners or holders thereof under the Indenture for any purpose.

Payments in respect of the principal of and premium, if any, and interest on the global notes registered in the name of DTC or its nominee will be payable by the trustee (or the paying agent if other than the trustee) to DTC in its capacity as the registered holder under the Indenture. We and the trustee will treat the persons in whose names the Exchange Notes, including the global notes, are registered as the owners thereof for the purpose of receiving such payments and for any and all other purposes whatsoever. Consequently, none of us, the trustee or any agent of ours or the trustee has or will have any responsibility or liability for:

- any aspect of DTC's records or any participant's or indirect participant's records relating to or payments made on account of beneficial ownership interests in the global notes, or for maintaining, supervising or reviewing any of DTC's records or any participant's or indirect participant's records relating to the beneficial ownership interests in the global notes; or
- any other matter relating to the actions and practices of DTC or any of its participants or indirect participants.

DTC has advised us that its current practice, upon receipt of any payment in respect of securities such as the Exchange Notes (including principal and interest), is to credit the accounts of the relevant participants with the

payment on the payment date in amounts proportionate to their respective holdings in the principal amount of the relevant security as shown on the records of DTC, unless DTC has reason to believe it will not receive payment on such payment date. Payments by the participants and the indirect participants to the beneficial owners of Exchange Notes will be governed by standing instructions and customary practices and will be the responsibility of the participants or the indirect participants and will not be the responsibility of DTC, the trustee or us. Neither we nor the trustee will be liable for any delay by DTC or any of its participants in identifying the beneficial owners of the Exchange Notes, and we and the trustee may conclusively rely on and will be protected in relying on instructions from DTC or its nominee for all purposes.

Interests in the global notes are expected to be eligible to trade in DTC's Same-Day Funds Settlement System and secondary market trading activity in such interests will therefore settle in immediately available funds, subject in all cases to the rules and procedures of DTC and its participants.

DTC has advised us that it will take any action permitted to be taken by a holder of Exchange Notes only at the direction of one or more participants to whose account with DTC interests in the global notes are credited and only in respect of such portion of the aggregate principal amount of the Exchange Notes as to which such participant or participants has or have given such direction.

Although DTC has agreed to the foregoing procedures to facilitate transfers of interests in the global notes among participants in DTC, it is under no obligation to perform or to continue to perform such procedures, and the procedures may be discontinued at any time. Neither we nor the trustee will have any responsibility for the performance by DTC or its participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

The information in this section concerning DTC and its book-entry system has been obtained from sources that we believe to be reliable, but we take no responsibility for the accuracy thereof.

Exchange of Book-Entry Notes for Certificated Notes

If (i) DTC is at any time unwilling or unable to continue as depositary and a successor depositary is not appointed by us within 90 days, (ii) DTC has ceased to be a clearing agency registered under the Exchange Act, (iii) we, at our option, notify the trustee in writing that we elect to cause the issuance of the Notes in the form of certificated notes, or (iv) an event of default under the Indenture has occurred and is continuing, upon request by the holders of the Notes, we will issue Notes in certificated form in exchange for global securities. The Indenture permits us to determine at any time and in our sole discretion that Notes shall no longer be represented by global securities. DTC has advised us that, under its current practices, it would notify its participants of our request, but will only withdraw beneficial interests from the global security at the request of each DTC participant. We would issue definitive certificates in exchange for any beneficial interests withdrawn.

CERTAIN U.S. FEDERAL INCOME TAX CONSIDERATIONS

The following is a summary of material United States federal income tax considerations relating to the exchange of Original Notes for Exchange Notes in the exchange offer. It does not contain a complete analysis of all the potential tax considerations relating to the exchange. This summary is limited to holders of Original Notes that hold the Original Notes as "capital assets" (in general, assets held for investment). Special situations, such as the following, are not addressed:

- tax consequences to holders that may be subject to special tax treatment, such as tax-exempt entities, dealers in securities or foreign currencies, brokers, certain financial institutions or "financial services entities," insurance companies, regulated investment companies, traders in securities that elect to use a mark-to-market method of accounting for their securities holdings, retirement plans, real estate

investment trusts, controlled foreign corporations and shareholders of such corporations, passive foreign investment companies and shareholders of such companies, former citizens or long-term residents of the United States, certain U.S. expatriates or corporations that accumulate earnings to avoid U.S. federal income tax;

- tax consequences to persons holding notes as part of a hedging, integrated, constructive sale or conversion transaction or a straddle or other risk reduction transaction;
- tax consequences to holders whose "functional currency" is not the U.S. dollar;
- tax consequences to persons who hold notes through a partnership or similar pass-through entity;
- alternative minimum tax, gift tax or estate tax consequences, if any; or
- any state, local or foreign tax consequences.

The discussion below is based upon the provisions of the Internal Revenue Code of 1986, as amended, existing and proposed Treasury regulations promulgated thereunder, and rulings, judicial decisions and administrative interpretations thereunder, as of the date hereof. Those authorities may be changed, perhaps retroactively, so as to result in U.S. federal income tax consequences different from those discussed below.

Consequences of Tendering Notes

The exchange of an Original Note for an Exchange Note pursuant to the exchange offer will not constitute a "significant modification" of the Original Note for United States federal income tax purposes and, accordingly, the Exchange Note received will be treated as a continuation of the Original Note in the hands of such holder. As a result, there will be no United States federal income tax consequences to a holder who exchanges an Original Note for an Exchange Note pursuant to the exchange offer and any such holder will have the same adjusted tax basis and holding period in the Exchange Note as it had in the Original Note immediately before the exchange. A holder who does not exchange its Original Notes for Exchange Notes pursuant to the exchange offer will not recognize any gain or loss, for U.S. federal income tax purposes, upon consummation of the exchange offer.

The preceding discussion is for general information only and is not tax advice. Accordingly, each investor is urged to consult its own tax advisor as to the particular tax consequences to it of exchanging Original Notes for Exchange Notes, including the applicability and effect of any U.S. federal, state, local or foreign tax laws, and of any proposed changes in applicable laws.

PLAN OF DISTRIBUTION

Each broker-dealer that receives Exchange Notes for its own account pursuant to the exchange offer must acknowledge that it will deliver a prospectus in connection with any resale of such Exchange Notes. This prospectus, as it may be amended or supplemented from time to time, may be used by a broker-dealer in connection with resales of Exchange Notes received in exchange for Original Notes where such Original Notes were acquired as a result of market-making activities or other trading activities. We have agreed that, for a period of 180 days after the effective date of the registration statement of which this prospectus forms a part, we will make this prospectus, as amended or supplemented, available to any broker-dealer for use in connection with any such resale. In addition, until , all dealers effecting transactions in the Exchange Notes may be required to deliver a prospectus.

We will not receive any proceeds from any sale of Exchange Notes by broker-dealers. Exchange Notes received by broker-dealers for their own account pursuant to the exchange offer may be sold from time to time in one or more transactions in the over-the-counter market, in negotiated transactions, through the writing of options on the Exchange Notes or a combination of such methods of resale, at market prices prevailing at the

time of resale, at prices related to such prevailing market prices or at negotiated prices. Any such resale may be made directly to purchasers or to or through brokers or dealers who may receive compensation in the form of commissions or concessions from any such broker-dealer or the purchasers of any such Exchange Notes. Any broker-dealer that resells Exchange Notes that were received by it for its own account pursuant to the exchange offer and any broker or dealer that participates in a distribution of such Exchange Notes may be deemed to be an "underwriter" within the meaning of the Securities Act and any profit on any such resale of Exchange Notes and any commission or concessions received by any such persons may be deemed to be underwriting compensation under the Securities Act. The letter of transmittal states that, by acknowledging that it will deliver and by delivering a prospectus, a broker-dealer will not be deemed to admit that it is an "underwriter" within the meaning of the Securities Act.

Furthermore, any broker-dealer that acquired any of the Original Notes directly from us:

- may not rely on the applicable interpretation of the staff of the SEC's position contained in Exxon Capital Holdings Corp., SEC no-action letter (April 13, 1988), Morgan, Stanley & Co. Inc., SEC no-action letter (June 5, 1991) and Shearman & Sterling, SEC no-action letter (July 2, 1983); and
- must also be named as a selling noteholder in connection with the registration and prospectus delivery requirements of the Securities Act relating to any resale transaction.

For a period of 180 days after the 180 days after the effective date of the registration statement of which this prospectus forms a part (or such earlier time when a broker-dealer is no longer required to deliver a prospectus in connection with market-making or other trading activities), we will promptly send additional copies of this prospectus and any amendment or supplement to this prospectus to any broker-dealer that requests such documents in the letter of transmittal. We have agreed to pay all expenses incident to the exchange offer other than commissions or concessions of any broker-dealers and will indemnify the holders of the Original Notes (including any broker-dealers) against certain liabilities, including liabilities under the Securities Act.

ENFORCEMENT OF CIVIL LIABILITIES

Luxembourg

We are a company organized under the laws of the Grand Duchy of Luxembourg. Most of our assets are located outside the United States. Furthermore, some of our directors and officers named in this prospectus reside outside the United States and most of their assets are located outside the United States. As a result, investors may find it difficult to effect service of process within the United States upon us or these persons or to enforce outside the United States judgments obtained against us or these persons in U.S. courts, including judgments in actions predicated upon the civil liability provisions of the U.S. federal securities laws. Likewise, it may also be difficult for an investor to enforce in the U.S. courts judgments obtained against us or these persons in courts located in jurisdictions outside the United States, including actions predicated upon the civil liability provisions of the U.S. federal securities law. It may also be difficult for an investor to bring an original action in a Luxembourg or other foreign court predicated upon the civil liability provisions of the U.S. federal securities laws against us or these persons. Luxembourg law, furthermore, does not recognize a shareholder's right to bring a derivative action on behalf of the Company.

In particular, there is doubt as to the enforceability of original actions in Luxembourg courts of civil liabilities predicated solely upon U.S. federal securities laws, and the enforceability in Luxembourg courts of judgments entered by U.S. courts predicated upon the civil liability provisions of U.S. federal securities laws will be subject to compliance with procedural and other requirements under Luxembourg law, including the condition that the judgment does not violate Luxembourg public policy. See the section entitled "Risk Factors—Risks Related to Investment in a Luxembourg Company—Trinseo is a *société anonyme* (public limited liability company) organized under the laws of Luxembourg and Trinseo Materials Operating S.C.A. is a *société en commandite par actions* (partnership by limited shares) organized under the laws of Luxembourg and it may be difficult for you to obtain or enforce judgments against us or our executive officers and directors in the United States." for further discussion of enforcement of civil liabilities under Luxembourg law.

In addition, under Luxembourg law, directors do not, in normal circumstances, assume any personal obligations for the company's commitments. Directors are liable to the Company for the performance of their duties as directors and for any misconduct in the management of the Company's affairs. Directors are further jointly and severally liable both to the Company and, under specific circumstances, to any third parties for damages resulting from violations of the law or our articles of association. Directors will only be discharged from such liability for violations to which they were not a party, provided no misconduct is attributable to them and they have reported such violations at the first general meeting after they had knowledge thereof. In addition, directors may under specific circumstances also be subject to criminal liability, such as in the case of an abuse of assets. In the event of bankruptcy directors may be subject to specific criminal and civil liabilities, including the extension of the bankruptcy to the directors.

Germany

Two of the Guarantors, Styron Deutschland GmbH and Styron Deutschland Anlagengesellschaft mbH, are organized under the laws of Germany. The directors and officers of such German Guarantors are and may be non-residents of the United States. Although each German Guarantor has submitted to the jurisdiction of certain New York courts in connection with the offering, investors may find it difficult (or may be unable) to effect service of process within the United States on such German Guarantor or the directors and officers of the German Guarantors. In addition, as many of the German Guarantors' assets and the assets of their directors and officers may be located outside of the United States, you may be unable to enforce against them judgments obtained in the United States courts predicated on civil liability provisions of the federal securities law of the United States. If a judgment is obtained in a U.S. court against a German Guarantor, the person who has obtained such judgment will need to enforce such judgment where the relevant company has assets. Even though the enforceability of U.S. court judgments in Germany is described below, you should consult with your own advisors in Germany as needed to enforce a judgment in Germany.

Notwithstanding the foregoing, the recognition of a final and conclusive judgment for payment rendered by any federal or state court in the United States based on civil liability, whether or not predicated solely upon U.S. federal securities laws, can be obtained from a German court on the basis of Sections 722, 328 of the German Code of Civil Procedure. Such a judgment would generally be recognized in an action before a German court assuming all of the following:

- the U.S. court having had jurisdiction of the case in accordance with German statutory rules on jurisdictional competence;
- the document introducing the proceedings was duly served and made known to the defendant in a timely manner that allowed for adequate defense;
- the judgment is not irreconcilable with any prior judgment which became res judicata rendered by a German court or (ii) any prior judgment which became res judicata rendered by a foreign court which is to be recognized in Germany and (iii) the procedure leading to the respective judgment under (i) or (ii) is not in contradiction to any such prior judgment or a proceeding previously commenced in Germany;
- the effects of its recognition will not be in conflict with public policy in Germany (*ordre public*), including, without limitation, fundamental rights under the constitution of Germany (Grundrechte). In this context, it should be noted that any component of a U.S. federal or state court civil judgment awarding punitive damages or any other damages which do not serve a compensatory purpose, such as treble damages, will not be enforced in Germany. They are regarded to be in conflict with public policy in Germany; and
- the reciprocity of enforcement of judgments is guaranteed.

Enforcement and foreclosure based on U.S. judgments may be sought against defendants located in Germany after having received an exequatur decision from a competent German court in accordance with the above principles. Subject to the foregoing, a person who has obtained a judgment from U.S. federal or state courts may be able to enforce judgments in Germany in civil and commercial matters. However, we cannot assure you that those judgments will be enforceable. Even if a U.S. judgment is recognized in Germany, it does not necessarily mean that it will be enforced in all circumstances. In particular, the obligations need to be of a specific kind and type (such as payment obligations) for which an enforcement procedure exists under German law. Also, if circumstances have arisen after the date on which such foreign judgment became res judicata, a defense against execution may arise.

The success of enforcement is also affected by possible bankruptcy, insolvency, reorganization, liquidation or a moratorium as well as other similar legal circumstances affecting creditor's rights generally. In addition, it is

doubtful whether a German court would accept jurisdiction and impose civil liability in an original action predicated solely upon U.S. federal securities laws.

If the party in whose favor such final judgment is rendered brings a new lawsuit in a competent court in Germany, such party may submit to the German court the final judgment rendered in the United States. Under such circumstances, a judgment by a federal or state court of the United States against the Company or such persons will be regarded by a German court only as evidence of the outcome of the dispute to which such judgment relates. A German court may choose to re-hear the dispute and may render a judgment not in line with the judgment rendered by a federal or state court of the United States.

Furthermore, German civil procedure differs substantially from U.S. civil procedure in a number of respects. With respect to the production of evidence, for example, U.S. federal and state law and the laws of several other jurisdictions based on common law provide for pre-trial discovery, a process by which parties to the proceedings may, prior to trial, compel the production of documents by adverse or third parties and the deposition of witnesses. Evidence obtained in this manner may be decisive in the outcome of any proceeding. No such pre-trial discovery process exists under German law.

Netherlands

Two of the Guarantors, Styron Netherlands B.V. and Styron Holding B.V. (the “Netherlands Subsidiaries”), are organized under the laws of The Netherlands. A substantial majority of the assets of the Netherlands Subsidiaries are located outside the United States. Furthermore, all the directors and officers of the Netherlands Subsidiaries reside outside the United States and all or most of the assets of those officers and directors may be located outside the United States. As a result, investors may find it difficult to effect service of process within the United States upon the Netherlands Subsidiaries or these persons or to enforce outside the United States judgments obtained against the Netherlands Subsidiaries or these persons in U.S. courts, including judgments in actions predicated upon the civil liability provisions of the U.S. federal securities laws. Likewise, it may also be difficult for an investor to enforce in U.S. courts judgments obtained against these subsidiaries or persons in courts located in jurisdictions outside the United States. In addition, it may be difficult for investors to enforce, in original actions brought in courts in jurisdictions outside the United States, liabilities predicated upon U.S. federal securities laws, as the case may be.

The Netherlands and the United States currently do not have a treaty providing for the reciprocal recognition and enforcement of judgments, other than arbitration awards, in civil and commercial matters. Consequently, a final judgment given by any court in the United States, whether or not predicated solely upon U.S. securities laws, would not be enforceable in the Netherlands. In order to obtain a judgment which is enforceable in the Netherlands, the claim must be re-litigated before a competent Dutch court. A final judgment by a U.S. court, however, may under current practice be given binding effect, if and to the extent that the Dutch court finds that the jurisdiction of the U.S. court has been based on grounds which are internationally acceptable and that proper legal procedures have been observed, unless such judgment contravenes principles of Dutch public policy.

Dutch courts usually deny the recognition and enforcement of punitive damages. Moreover, a Dutch court may reduce the amount of damages granted by a U.S. court and recognize damages only to the extent that they are necessary to compensate actual losses or damages.

Dutch civil procedure differs substantially from U.S. civil procedure in a number of respects. Insofar as the production of evidence is concerned, U.S. law and the laws of several other jurisdictions based on common law provide for pre-trial discovery, a process by which parties to the proceedings may prior to trial compel the production of documents by adverse or third parties and the deposition of witnesses. Evidence obtained in this manner may be decisive in the outcome of any proceeding. No such pre-trial discovery process exists under Dutch law.

Notes to Condensed Consolidated Financial Statements
(Dollars in thousands, unless otherwise stated)
(Unaudited)

NOTE A—BASIS OF PRESENTATION

The unaudited interim condensed consolidated financial statements of Trinseo S.A. and its subsidiaries ("Trinseo" or the "Company") as of and for the periods ended June 30, 2013 and 2012 were prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") and reflect all adjustments, consisting only of normal recurring accruals, which, in the opinion of management, are considered necessary for the fair statement of the results for the periods presented. Because they cover interim periods, the statements and related notes to the financial statements do not include all disclosures normally provided in annual financial statements and, therefore, these statements should be read in conjunction with the audited consolidated financial statements included in the Company's Annual Report as of and for the year ended December 31, 2012.

The December 31, 2012 consolidated balance sheet data presented herein was derived from the Company's December 31, 2012 audited consolidated financial statements, but does not include all disclosures required by GAAP.

Income Tax Expense

Income tax expense recognized for the six month period ended June 30, 2012 includes cumulative adjustments of $2.5 million and $2.5 million from 2010 and 2011, respectively, which resulted in a reduction of income tax expense of approximately $5.0 million. These adjustments were related to the correction of prior period errors which resulted from the Company's reconciliation of its income tax provision to the tax return positions, which were done in 2012. The impact of these adjustments was not material.

NOTE B—RECENT ACCOUNTING GUIDANCE

In June 2011, the FASB issued amendments to the presentation of comprehensive income which became effective for the annual period ending after December 15, 2012, and interim and annual periods thereafter. The amendments eliminate the current reporting option of displaying components of other comprehensive income within the statement of changes in stockholders' equity. Under the new authoritative guidance, the company is required to present either a single continuous statement of comprehensive income or an income statement immediately followed by a statement of comprehensive income. In December 2011, the FASB issued a deferral of the effective date for amendments to the presentation of reclassifications of items out of accumulated other comprehensive income, which defers certain aspects related to the presentation of reclassification adjustments. The implementation of the amended accounting guidance has not had a material impact on the Company's consolidated financial position or results of operations. In February 2013, the FASB issued amendments to disclosure requirements for presentation of comprehensive income, which requires presentation (either in a single note or parenthetically on the face of the financial statements) of the effect of significant amounts reclassified from each component of accumulated other comprehensive income based on its source and the income statement line items affected by the reclassification. If a component is not required to be reclassified to net income in its entirety, a cross reference to the related footnote for additional information will be required. The amendments are effective prospectively for reporting periods beginning after December 15, 2012 (early adoption is permitted). The implementation of the amended accounting guidance did not have a material impact on the Company's consolidated financial position or results of operations.

In December 2011, the FASB issued guidance for Balance Sheet: Disclosures about Offsetting Assets and Liabilities, which requires entities to disclose both gross and net information about both instruments and

transactions eligible for offset in the statement of financial position and instruments and transactions subject to an agreement similar to a master netting agreement to facilitate users of the financial statements understand the effect of those arrangements on the Company's financial position. In January 2013, the FASB issued further guidance that clarifies the scope of the offsetting disclosures. The guidance is effective for fiscal years, and interim periods within those years, beginning on or after January 1, 2013. Retrospective presentation for all comparative periods presented is required. The Company adopted the guidance effective as of January 1, 2013 and the adoption did not have a material impact on the Company's financial position and results of operations.

In February 2013, the FASB issued amendments for the recognition, measurement, and disclosure of obligations resulting from joint and several liability arrangements for which the total amount of the obligation is fixed at the reporting date, except for obligations addressed within existing guidance. This guidance requires an entity to measure those obligations as the sum of the amount the reporting entity agreed to pay on the basis of its arrangement among its co-obligors and any additional amount the reporting entity expects to pay on behalf of its co-obligors. This guidance also requires an entity to disclose the nature and amount of the obligation as well as other information about those obligations. This amendment is effective on a retrospective basis for fiscal years and interim periods within those fiscal years beginning after December 15, 2013 and early adoption is permitted. The Company is currently evaluating this amendment but the Company does not expect the impact of adoption to be material.

In March 2013, the FASB issued amendments to address the accounting for the cumulative translation adjustment when a parent either sells a part or all of its investment in a foreign entity or no longer holds a controlling financial interest in a subsidiary or group of assets that is a nonprofit activity or a business within a foreign entity. The amendments are effective prospectively for fiscal years (and interim reporting periods within those years) beginning after December 15, 2013 (early adoption is permitted). The initial adoption has no impact on the Company's financial position and results of operations.

NOTE C—INVESTMENTS IN UNCONSOLIDATED AFFILIATES

Trinseo is supplemented by two strategic joint ventures, Sumika Styron Polycarbonate Limited ("Sumika Styron" a polycarbonate joint venture with Sumitomo Chemical Company, Limited) and Americas Styrenics LLC ("AmSty" a polystyrene joint venture with Chevron Phillips Chemical Company LP).

Both of the unconsolidated affiliates are privately held companies, therefore, quoted market prices for their stock are not available. Investments held in the unconsolidated affiliates are accounted for by the equity method.

At June 30, 2013 and December 31, 2012, respectively, Trinseo's investment in AmSty was $113.7 million and $101.3 million. At June 30, 2013 and December 31, 2012, respectively, Trinseo's investment in AmSty was $132.8 million and $150.7 million less than Trinseo's 50% share of AmSty's underlying net assets. This amount represents the difference between the book value of assets contributed to the joint venture at the time of formation (May 1, 2008) and Trinseo's 50% share of the total recorded value of the joint venture's assets and certain adjustments to conform to the Company's accounting policies. As of June 30, 2013, the remaining weighted average amortization period for the basis differences was 7.8 years. There were no dividends received during the six months ended June 30, 2013. The Company received a dividend of $10.0 million from AmSty for the six months ended June 30, 2012.

At June 30, 2013 and December 31, 2012, respectively, Trinseo's investment in Sumika Styron was $37.3 million and $39.0 million. At June 30, 2013 and December 31, 2012, respectively, Trinseo's investment in Sumika Styron was $20.4 million and $18.6 million greater than Trinseo's 50% share of Sumika Styron's underlying net assets. This amount represents the fair value of certain identifiable assets which have not been recorded on the historical financials of Sumika Styron. As of June 30, 2013, the remaining amortization period for the basis difference was 12.3 years. The Company received a dividend of $1.1 million and $1.0 million from Sumika Styron for the six months ended June 30, 2013 and 2012, respectively.

Senior Secured Credit Facility

In January 2013, the Company amended its senior secured credit facility (the "2013 Amendment"). As part of the 2013 Amendment, the Company increased its revolving credit facility capacity from $240.0 million to $300.0 million, decreased the borrowing rate of the revolving credit facility through a decrease in the applicable margin rate from 4.75% to 3.00% as applied to base rate loans (which shall bear interest at a rate per annum equal to the Base Rate plus the Applicable Margin (as defined therein)), or 5.75% to 4.00% as applied to LIBO rate loans (which shall bear interest at a rate per annum equal to the LIBO rate plus the Applicable Margin plus the Mandatory Cost (as defined therein), if applicable), extended the maturity date to January 2018 and concurrently repaid its then outstanding term loans of $1,239.0 million using the proceeds from its sale of $1,325.0 million aggregate principal amount of the 8.750% Senior Secured Notes issued in January 2013. The 2013 Amendment replaced the Company's total leverage ratio requirement with a first lien net leverage ratio (as defined under the 2013 Amendment) and removed the interest coverage ratio requirement. If the outstanding balance under the revolving credit facility exceeds 25% of the $300.0 million borrowing capacity (excluding undrawn letters of credit up to $10.0 million) at a quarter end, then the Company's first lien net leverage ratio may not exceed 5.25 to 1.00 for the quarter ending March 31, 2013, 5.00 to 1.00 for the subsequent quarters through December 31, 2013, 4.50 to 1.00 for each of the quarters ending in 2014 and 4.25 to 1.00 for each of the quarters ending in 2015 and thereafter.

As a result of the 2013 Amendment and repayment of the term loans in January 2013, the Company recognized $20.7 million of a loss on extinguishment of debt during the first half of 2013, which consisted of the write-off of existing unamortized debt issuance cost and debt discount attributable to the term loans. Fees and expenses incurred in connection with the 2013 Amendment were $5.6 million, which were capitalized within "Deferred charges and other assets" in the condensed consolidated balance sheet and will be amortized into interest expense over the remaining term of the revolving facility using the straight-line method.

As of June 30, 2013, the Company does not have outstanding borrowings under the revolving credit facility.

8.750% Senior Secured Notes

In January 2013, the Company issued $1,325.0 million 8.750% Senior Secured Notes (the "Senior Notes"). The Senior Notes interest is payable semi-annually on February 1 st and August 1 st of each year, commencing on August 1, 2013. The notes will mature on February 1, 2019. The proceeds from the issuance of the Senior Notes were used to repay all of the Company's outstanding term loans under the senior secured credit facility and related refinancing fees and expenses. The Company may redeem the notes at any time on or prior to August 1, 2015 in whole or in part, at redemption price equal to 100% of the principal amount thereof plus accrued and unpaid interest, if any, to the redemption date plus a make-whole premium, as defined in the indenture. The Company may also redeem, during any 12-month period commencing with the issue date of the Senior Notes until August 1, 2015, up to 10% of the original principal amount of the notes at a redemption price equal to 103% of the principal amount thereof, plus accrued and unpaid interest or, at any time prior to August 1, 2015, redeem up to 35% of the aggregate principal amount of the notes with the net cash proceeds from certain equity offerings.

In connection with the issuance of the Senior Notes, the Company also entered into a registration rights agreement to file a registration statement (the "Registration") with the Securities and Exchange Commission of the United States to exchange the Senior Notes for registered notes (the "Exchange Notes") having terms substantially identical in all material respect to the Senior Notes, within 365 days after the issuance of the Senior Notes. If the Registration, among other conditions, does not become effective or exchange offer is not completed within 365 days after the issuance of the Senior Notes, holders of the Senior Notes will be entitled to the payment of additional interest, at a rate of 0.25% per annum (which the rate will be increased by an additional 0.25% per annum for each subsequent 90-day period that such additional interest continues to accrue, provided that the rate at which such additional interest accrues may in no event exceed 1.00% per annum) until the Registration becomes effective or exchange offer is completed.

The Senior Notes rank equally in right of payment with all of the Company's existing and future senior secured debt and pari passu with the Company and the Guarantors' (as defined below) indebtedness that is secured by first-priority liens, including the Company's senior secured credit facility, to the extent of the value of the collateral securing such indebtedness and ranking senior in right of payment to all of the Company's existing and future subordinated debt. However, claims under the Senior Notes will effectively rank behind the claims of holders of debt, including interest, under the Company's senior secured credit facility with respect to proceeds from any enforcement action with respect to the collateral or in any bankruptcy, insolvency or liquidation proceeding. The Senior Notes will be unconditionally guaranteed on a senior secured basis by each of the existing and future wholly-owned subsidiaries of the Company that guarantee the senior secured credit facility (other than our subsidiaries in France and Spain) (the "Guarantors"). The note guarantees will rank equally in right of payment with all of the Guarantors' existing and future senior secured debt and senior in right of payment to all of the Guarantors' existing and future subordinated debt. The notes will be structurally subordinated to all of the liabilities of each of our subsidiaries that do not guarantee the notes.

The Indenture contains covenants that, among other things, limit the Company's ability and the ability of the Company's restricted subsidiaries to incur additional indebtedness, pay dividends or make other distributions, subject to certain exceptions. If the Senior Notes are assigned an investment grade by the rating agencies and no default has occurred or is continuing, certain covenants will be suspended. If the ratings on the Senior Notes decline to below investment grade, the suspended covenants will be reinstated.

Fees and expenses incurred in connection with the issuance of Senior Notes were approximately $41.1 million, which were capitalized within "Deferred charges and other assets" in the condensed consolidated balance sheet and will be amortized into interest expense over the term of the Senior Notes using the effective interest rate method.

Accounts Receivable Securitization Facility

In May 2013, the Company amended its accounts receivable securitization facility which increased its borrowing capacity from $160.0 million to $200.0 million, extended the maturity date to May 2016 and allows

for the expansion of the pool of eligible accounts receivable to include previously excluded U.S. and Netherlands subsidiaries. As a result of the amendment, the Company incurred $0.7 million in fees, which were capitalized within "Deferred charges and other assets" in the condensed consolidated balance sheet and will be amortized into interest expense using the straight-line method over the remaining term. At June 30, 2013 and December 31, 2012, there were approximately $177.4 million and $85.7 million, respectively, of accounts receivable available to support this facility, based on the pool of eligible accounts receivable.

The accounts receivable securitization facility is subject to interest charges against both the amount of outstanding borrowings as well as the amount of available but undrawn borrowings under the accounts receivable securitization. In regards to outstanding borrowings on the accounts receivable securitization facility, interest charges are 2.6% plus variable commercial paper rates. In regards to available but undrawn borrowings under the accounts receivable securitization facility, fixed interest charges are 1.4%.

Fair Value Measurement

The following tables summarize the estimated fair value of the Company's outstanding debt not carried at fair value:

	Quoted Prices in Active Markets for Identical Items (Level 1)	Significant Other Observable Inputs (Level 2)	Total
June 30, 2013			
Senior Notes	$ —	$ 1,279,460	$1,279,460
Accounts receivable securitization facility	—	148,946	148,946
Total fair value	$ —	$ 1,428,406	$1,428,406

	Quoted Prices in Active Markets for Identical Items (Level 1)	Significant Other Observable Inputs (Level 2)	Total
December 31, 2012			
Term loans	$ 1,239,000	$ —	$1,239,000
Revolving credit facility	—	120,000	120,000
Accounts receivable securitization facility	—	93,492	93,492
Total fair value	$ 1,239,000	$ 213,492	$1,452,492

As of December 31, 2012, the term loans' carrying amount of $1,239.0 million approximates fair value as the term loans were redeemed at par in January 2013. The carrying amount of borrowings under the revolving credit facility and accounts receivable securitization facility approximates fair value as these borrowings bear interest based on prevailing variable market rates.

NOTE G—FINANCIAL INSTRUMENTS

Foreign Exchange Forward Contracts

The Company manages its exposures to changes in foreign currency exchange rates where possible by paying expenses in the same currency in which the Company generates sales in a particular country as well as using derivative contracts which are not designated for hedge accounting treatment. During 2012, the Company entered into foreign exchange forward contracts that were not designated as hedging instruments to manage volatility in foreign currency exposures.

At December 31, 2012, the Company had open foreign exchange forward contracts with various expiration dates to buy and sell euro currency with a net notional U.S. dollar equivalent of $82.0 million. The fair value of the foreign exchange forward contracts amounted to $3.8 million as of December 31, 2012 and is recorded in "Accounts payable" in the condensed consolidated balance sheet. As these foreign exchange forward contracts are not designated for hedge accounting treatment, changes in the fair value of underlying instruments are recognized in "Other (expense) income, net" in the condensed consolidated statement of operations.

These contracts were settled in February and May 2013 and no contracts remained outstanding as of June 30, 2013. The Company recognized losses of $0.6 million for the six months ended June 30, 2013.

The following tables summarize the offsetting financial asset and liabilities included in the condensed consolidated balance sheets as of December 31, 2012:

	December 31, 2012		
Description	Gross Amounts of Recognized Assets	Gross Amounts of Offset in the Statement of Financial Position	Net Amounts of Assets Presented in the Statement of Financial Position
Foreign exchange forward contracts	$ 2,040	$ (2,040)	$ —

	December 31, 2012		
Description	Gross Amounts of Recognized Liabilities	Gross Amounts of Offset in the Statement of Financial Position	Net Amounts of Liabilities Presented in the Statement of Financial Position
Foreign exchange forward contracts	$ 5,842	$ (2,040)	$ 3,802

These forward contacts were entered into with single counterparty, which allowed for net settlement of all contracts through single payment in a single currency in the event of default on or termination of any one contact.

Fair Value Measurements

Fair value of the foreign exchange forward contracts is based on the closing price at the end of the period, adjusted for any terms specific to that liability, or by using observable market data points of similar assets and liabilities. Market inputs are obtained from broker quotations or from listed or over-the-counter market data.

There were no outstanding foreign exchange forward contracts and interest rate cap agreements as of June 30, 2013.

The following tables summarize the bases used to measure financial assets and liabilities recorded at fair value on a recurring basis as of December 31, 2012:

	December 31, 2012			
Assets (Liabilities) at Fair Value	Quoted Prices in Active Markets for Identical Items (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Interest rate cap agreements(1)	$ —	$ —	$ —	$ —
Foreign exchange forward contracts	—	(3,802)	—	(3,802)
Total fair value	$ —	$ (3,802)	$ —	$(3,802)

(1) As of December 31, 2012, the fair value of interest rate cap agreements was less than $1 thousand and were settled on January 29, 2013.

NOTE H—COMMITMENTS AND CONTINGENCIES

Environmental Matters

Accruals for environmental matters are recorded when it is probable that a liability has been incurred and the amount of the liability can be reasonably estimated, based on current law, existing technologies and other information. At June 30, 2013 and December 31, 2012, the Company had no accrued obligations for environmental remediation and restoration costs. Pursuant to the terms of the Styron sales and purchase agreement, the pre-closing environmental conditions were retained by Dow and the Company has been indemnified by Dow from and against all environmental liabilities incurred or relating to the predecessor periods. There are several properties which the Company now owns on which Dow has been conducting remediation to address historical contamination. Those properties include Allyn's Point, Connecticut, Dalton, Georgia, Livorno, Italy and Guaruja, Brazil. There are other properties with historical contamination that are owned by Dow that the Company leases for its operations, including its facility in Midland, Michigan. No environmental claims have been asserted or threatened against the Company, and the Company is not a potentially responsible party at any Superfund Sites.

Inherent uncertainties exist in Trinseo's potential environmental liabilities primarily due to unknown conditions whether future claims may fall outside the scope of the indemnity, changing governmental regulations and legal standards regarding liability, and evolving technologies for handling site remediation and restoration. It is the opinion of the Company in connection with its existing indemnification that the possibility is remote that environmental remediation costs will have a material adverse impact on the consolidated financial statements.

Purchase Commitments

In the normal course of business, the Company has certain raw material purchase contracts where it is required to purchase certain minimum volumes at current market prices. These commitments range from one to eight years. In certain raw material purchase contracts, the Company has the right to purchase less than the required minimums and pay a liquidated damages fee, or, in case of a permanent plant shutdown, to terminate the contracts. In such cases, these obligations would be less than the obligations shown in the annual report.

Litigation Matters

From time to time, the Company may be subject to various legal claims and proceedings incidental to the normal conduct of business, relating to such matters as product liability, antitrust/competition, past waste disposal practices and release of chemicals into the environment. While it is impossible at this time to determine with certainty the ultimate outcome of these claims, the Company does not believe that the ultimate resolution of these claims will have a material adverse impact on the Company's results of operations, financial condition or cash flow.

Legal costs, including those legal costs expected to be incurred in connection with a loss contingency, are expensed as incurred.

NOTE I—PENSION PLANS AND OTHER POSTRETIREMENT BENEFITS

Interest cost	131	138
Amortization of net gain	—	(5)
Net periodic benefit cost	$ 272	$ 259

As of June 30, 2013 and December 31, 2012, the Company's benefit obligations included in "Other noncurrent obligations" in the condensed consolidated balance sheets were $144.9 million and $165.8 million, respectively. The net periodic benefit costs are recognized in the condensed consolidated statement of operations as "Cost of sales" and "Selling, general and administrative expenses."

The Company made cash contributions of approximately $5.6 million during the six months ended June 30, 2013. The Company expects to make additional cash contributions; including benefit payments to unfunded plans of approximately $10.0 million to its defined benefit plans for the remainder of 2013.

Affiliation Agreements and Successor Plans

The Company and Dow entered into affiliation agreements in certain jurisdictions (the "Affiliation Agreements") allowing employees who transferred from Dow as of June 17, 2010 to remain in the Dow operated pension plans ("Dow Plans") until the Company established its own pension plans. The Company has made the required employer contribution amounts to the Dow Plans for the Company's employees and the related pension benefit obligations for the Company's employees have been accumulating in the Dow Plans since the acquisition date of June 17, 2010. These Affiliation Agreements ended on December 31, 2012. Effective January 1, 2013, all remaining employees of the Company who were previously participating in the Dow Plans in Switzerland and Netherlands transferred to a separately administered and sponsored pension plan of the Company each in Switzerland and Netherlands (the "Successor Plans"). The benefit obligation and related plan assets in the Dow Plans belonging to the Company's employees were transferred to the Successor Plans. As a result of the transfer, the Company recognized prior service credits and net loss of approximately $26.8 million and $1.4 million, respectively, in other comprehensive income during the six months ended June 30, 2013.

NOTE J—STOCK-BASED COMPENSATION

On June 17, 2010, the parent authorized the issuance of up to 750,000 shares in service-based and performance-based restricted stock to certain key members of management. Any related compensation associated with these awards is allocated to the Company from the parent.

For the period ended June 30, 2013, the Company granted 83,267 shares and 10,649 shares of service-based and performance-based restricted stock awards, respectively at a per share fair value at the date of grant of $155.40 and $114.50 for the service-based and performance-based restricted stock awards, respectively. The fair values of the service-based and performance-based restricted stock award grants were estimated on the date of grant using valuation methods consistent with all previously granted service-based and performance-based restricted stock awards, updated for any changes in the assumptions used in the valuation. The following are the weighted average assumptions used for grants for the period ended June 30, 2013:

Dividend yield	0.00%
Expected volatility	73.25%
Risk-free interest rate	0.52%
Expected term (in years) for performance-based shares	3.85
Expected term (in years) for service-based shares	9.21

Total compensation expense for service-based restricted stock awards was $3.9 million and $1.2 million for the six months ended June 30, 2013 and 2012, respectively. Compensation expense recognized for the six months ended June 30, 2012 includes a cumulative favorable adjustment of approximately $2.9 million, which relates to the correction of prior period grant date fair values of service-based and performance-based restricted stock awards.

Also, during the period ended June 30, 2013, 9,366 shares of performance-based and 6,009 shares of service-based restricted stock awards were forfeited due to certain employees leaving the Company. As a result of these forfeitures, the Company recorded approximately $0.8 million of a favorable adjustment to compensation expense.

As of June 30, 2013, there was $16.9 million of total unrecognized compensation cost related to service-based restricted stock awards. This cost is expected to be recognized over a weighted-average period of 4.2 years.

The Company has not recorded compensation expense related to performance-based restricted stock awards as the likelihood of achieving the performance condition was not deemed to be probable as of June 30, 2013. Should this determination change in the future, compensation expense will be recognized over any remaining service period at that time. As of June 30, 2013, there was $14.9 million of total unrecognized compensation cost related to performance-based restricted stock awards.

Management Retention Awards

During 2012, the parent agreed to retention awards with certain officers. These awards generally vest over one to four years, and are payable upon vesting subject to the participant’s continued employment with the Company on the vesting date. Compensation expense related to these retention awards is equivalent to the value of the award, and is being recognized ratably over the applicable service period. Total compensation expense for these retention awards were $0.7 million and $1.1 million for the six months ended June 30, 2013 and 2012, respectively. As of June 30, 2013, there was $2.0 million in unrecognized compensation cost related to these retention awards. This cost is expected to be recognized over a period of 2.6 years.

NOTE K—RELATED PARTY TRANSACTIONS

Bain Capital Partners, LLC (“Bain Capital”)

In connection with the issuance of Senior Notes and the amendment to the Company’s senior secured credit facility, the Company incurred approximately $13.9 million of fees paid to Bain Capital pursuant to a transaction services agreement. The amount of fees payable is calculated as a percentage of the transaction value of each financing transaction. The fees incurred were included in the refinancing fees capitalized as deferred charges

(See Note F for further discussion). In addition, the Company incurred $2.4 million of fees related to management services pursuant to an advisory agreement for the six months ended June 30, 2013 and 2012, respectively.

NOTE L—SEGMENTS

The Company operates four segments under two principal business units. The Emulsion Polymers business unit includes the Latex segment and the Synthetic Rubber segment. The Plastics business unit includes the Styrenics segment and the Engineered Polymers segment.

The Latex segment produces styrene-butadiene latex ("SB latex") primarily for coated paper and packaging board, carpet and artificial turf backings, as well as a number of performance latex applications. The Synthetic Rubber segment produces synthetic rubber products used predominantly in tires, with additional applications in polymer modification and technical rubber goods, including conveyer and fan belts, hoses, seals and gaskets. The Styrenics and Engineered Polymers segments offer complementary plastics products with formulations developed for durable applications, such as consumer electronics, automotive and construction. Through these two segments, the Company provides a broad set of plastics product solutions to its customers.

(1) Reconciliation of EBITDA to net (loss) income is as follows:

	Six Months Ended June 30,	
	2013	2012
Total segment EBITDA	$146,624	$193,166
Corporate unallocated	(68,470)	(46,982)

Less: Depreciation and amortization	47,800	42,915
Net (loss) income	$ (37,742)	$ 31,995

Corporate unallocated includes certain corporate overhead costs, acquisition-related expense, loss on extinguishment of long term debt, and certain other income and expenses.

The primary measure of segment operating performance is EBITDA, which is defined as net income (loss) before interest, taxes, depreciation and amortization. EBITDA is a key metric that is used by management to

evaluate business performance in comparison to budgets, forecasts, and prior year financial results, providing a measure that management believes reflects the Company's core operating performance. EBITDA is useful for analysis purposes; however, it should not be considered an alternative to the Company's reported GAAP results, as there are limitations in using such financial measures. Other companies in the industry may define EBITDA differently than the Company, and as a result, it may be difficult to use EBITDA, or similarly-named financial measures that other companies may use to compare the performance of those companies to the Company's performance.

Asset information is not accounted for at the segment level and consequently is not reviewed or included with the Company's internal management reporting. Therefore, the Company has not disclosed asset information for each reportable segment.

NOTE M—COMPREHENSIVE INCOME (LOSS)

The components of accumulated other comprehensive income (loss), net of income taxes, consisted of:

June 30, 2012	$ 5,023	$ 14,579	$ 19,602

NOTE N—DIVESTURE

In June 2013, the Company's board of directors approved the sale of an expandable polystyrene ("EPS") business, a business under the company's Styrenics segment, for a purchase price of approximately $15.7 million, subject to working capital adjustments, under a sale and purchase agreement which was signed in July 2013. In connection with the sale, the Company recorded an impairment for the estimated amount of loss on sale of approximately $3.3 million recorded in "Other (expense) income, net" in the condensed consolidated statement of operations, primarily relating to unrecoverable property, plant and equipment net book value. Further, the Company recorded all assets and liabilities associated with the EPS business as held for sale as of June 30, 2013 within "Other current assets" and "Accrued expenses and other current liabilities," respectively, in the condensed consolidated balance sheet. The key components of the assets adjusted for the above impairment and liabilities classified as held for sale at June 30, 2013 related to the EPS business consisted of the following:

	June 30, 2013
Assets	
Inventories	$ 8,505
Property, plant and equipment, net	5,965
Other intangibles assets, net	1,649
Goodwill	377
Total assets held for sale	$ 16,496
Liabilities	
Pension and other postretirement benefits	$ 812
Total liabilities held for sale	$ 812

EPS business results of operations were not classified as discontinued operations as the Company will have continuing cash flows as a result of a supply agreement entered into contemporaneously with the sale and purchase agreement.

NOTE O—RESTRUCTURING

In July 2013, the Company's board of directors approved the plan to close the Company's latex manufacturing facility in Australia. This restructuring plan was a strategic business decision to improve the results of overall Latex segment. The facility manufactures SB latex used in the carpet and paper markets and production is expected to cease in the third quarter of 2013, which will be followed by decommissioning and demolition in early 2014. As a result, for the six months ended June 30, 2013, the Company recorded approximately $6.5 million of restructuring charges, which consist of property, plant and equipment and other asset impairment charges of approximately $3.9 million and employee termination benefit charges of approximately $2.6 million, which is expected to be paid out over the next twelve months. These charges were included in "Selling, general and administrative expenses" in the condensed consolidated statements of operations.

In addition, the Company expects to incur contract termination costs as well as decommissioning and demolition costs. However, these costs cannot be reasonably estimated at this time. The Company does not expect to incur additional employee termination benefits.

NOTE P—SUBSEQUENT EVENTS

The Company evaluated subsequent events after the balance sheet date of June 30, 2013 through to the time the condensed consolidated financial statements were available for issuance on August 7, 2013.

NOTE Q—SUPPLEMENTAL GUARANTOR CONDENSED CONSOLIDATING FINANCIAL STATEMENTS

In connection with the issuance of the Senior Notes by Trinseo Materials Operating S.C.A. and Trinseo Materials Finance, Inc. (the "Issuers"), this supplemental guarantor financial statement disclosure is included in accordance with Rule 3-10 of Regulation S-X. The Senior Notes are fully and unconditionally guaranteed, jointly and severally, on a senior unsecured basis, in each case, subject to certain exceptions, by Trinseo S.A. (the "Parent Guarantor") and by certain subsidiaries (together, the "Guarantor Subsidiaries").

Each of the Guarantor Subsidiaries is 100 percent owned by the Company. None of the other subsidiaries of the Company, either direct or indirect, guarantee the Senior Notes (together, the "Non-Guarantor Subsidiaries"). The Guarantor Subsidiaries of the Senior Notes, excluding the Parent Guarantor, will be automatically released from those guarantees upon the occurrence of certain customary release provisions.

The following supplemental condensed consolidating financial information is presented to comply with the Company's requirements under Rule 3-10 of Regulation S-X:

- the Consolidating Balance Sheets as of June 30, 2013 and December 31, 2012;
- the Consolidating Statements of Comprehensive Income (Loss) for the six months ended June 30, 2013 and 2012; and
- the Consolidating Statements of Cash Flows for the six months ended June 30, 2013 and 2012.

The Condensed Consolidating Financial Statements are presented using the equity method of accounting for its investments in 100 percent owned subsidiaries. Under the equity method, the investments in subsidiaries are recorded at cost and adjusted for our share of the subsidiaries cumulative results of operations, capital contributions, distributions and other equity changes. The elimination entries principally eliminate investments in subsidiaries and intercompany balances and transactions. The financial information in this footnote should be read in conjunction with the Consolidated Financial Statements presented and other notes related thereto contained in this Registration Statement on Form S-4.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholder of
Trinseo S.A.
Berwyn, Pennsylvania

We have audited the accompanying combined statements of operations, comprehensive income, shareholder's equity and net parent investment, and cash flows of The Styron Business (the "Company" or "Styron") for the period beginning January 1, 2010 and ended June 16, 2010. These financial statements are the responsibility of Trinseo S.A.'s management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, such combined financial statements present fairly, in all material respects, the results of Styron's operations and its cash flows for the period beginning January 1, 2010 and ended June 16, 2010, in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note R to the combined financial statements, the disclosures in the accompanying January 1, 2010 through June 16, 2010 combined financial statements have been retrospectively adjusted for a change in the composition of reportable segments.

NOTE A—ORGANIZATION AND BUSINESS ACTIVITIES

On June 3, 2010, Bain Capital Everest Manager Holding SCA (the "Parent"), an affiliate of Bain Capital Partners, LLC ("Bain Capital"), was formed through investment funds of Bain Capital with The Dow Chemical Company ("Dow") investing $48.8 million for a 7.5% interest in the Parent. Trinseo S.A. ("Trinseo" or the "Company") was formed on June 3, 2010 and is incorporated under the existing laws of the Grand Duchy of Luxembourg. All common shares of Trinseo are owned by the Parent.

On June 17, 2010 (the "Acquisition Date"), Trinseo acquired 100% of the former Styron business from Dow through Styron S.à r.l., a wholly owned subsidiary of Trinseo. Prior to June 17, 2010, Styron business was a wholly owned business of Dow. See Note C for additional description of the Styron business acquisition. The Company commenced operations immediately upon the acquisition of the former Styron business from Dow.

Trinseo is a leading global materials company dedicated to the innovation and delivery of specialty and customized emulsion polymers and plastics. Trinseo's unique product portfolio brings together plastics, rubber and latex businesses that share feedstocks, operations, customers and end users.

Trinseo's operations are located in North America, Latin America (including Mexico), Europe and the Middle East and Asia Pacific (including Asia, Australia and New Zealand), supplemented by two strategic joint ventures, Sumika Styron Polycarbonate Limited ("Sumika Styron") and Americas Styrenics LLC ("AmSty" a polystyrene joint venture with Chevron Phillips Chemical Company LP). The Company's large and diverse global customer base consists principally of major industrial companies. Trinseo focuses on developing tailored product solutions for its customers, who it serves locally, with 36 manufacturing plants at 28 sites (which include a total of 84 production units) in 15 countries, including joint ventures and contract manufacturers.

NOTE B—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

On June 17, 2010, the Company acquired 100% of the interests in the Styron business from Dow. As a result of the acquisition (the "Acquisition"), the Company applied purchase accounting and began a new basis of accounting. See Note C for further discussion. The financial reporting periods presented are as follows:

- The years ended December 31, 2012 and 2011 and period from June 17, 2010 through December 31, 2010 ("Successor" periods) reflects the consolidated results of operations of Trinseo, which includes the effects of acquisition accounting as well as acquisition-related costs incurred by the Company prior to the Acquisition Date.
- The period from January 1, 2010 through June 16, 2010 ("Predecessor" period) reflect the combined results of operations of the Styron business.

The combined financial statements for the Predecessor period ended June 16, 2010 have been prepared on a stand-alone basis and are derived from the consolidated financial statements and accounting records of Dow. All significant transactions between Dow and the Predecessor have been included in the combined financial statements and were settled for cash. The total net effect of the settlement of these related party transactions is reflected in the statements of cash flows as a financing activity. The Predecessor's combined financial statements include costs historically allocated to the Company by Dow as well as income taxes as if the Company had been a stand-alone entity. Allocations include certain expenses for services, including, but not limited to, general corporate expenses related to

finance, legal, information technology, human resources, ethics and compliance, shared services, employee benefits and incentives, insurance, and stock-based compensation. These expenses have been allocated on the basis of direct usage when identifiable, with the remainder allocated on the basis of headcount or other measures. Management believes the assumptions underlying the combined statement of operations, statement of shareholder's equity and net parent investment, and cash flows for the period ended June 16, 2010 (collectively, the "Predecessor financial statements") are reasonable. However, the financial statements for the respective Predecessor period may not be indicative of the Company's results of operations and cash flows on a stand-alone basis, and future results may differ materially. In the Successor periods, the Company no longer incurs these allocated costs, but does incur certain expenses as a stand-alone company for similar functions, including certain ongoing support services provided by Dow under the Dow Transition Services Agreement (the "TSA") and the Master Outsourcing Service Agreement (the "MOSA"). See Note Q for further discussion.

There are two fundamental cost allocation methodologies used in the Predecessor period that affected the valuation of inventory, cost of sales, research and development expenses, and selling, general and administrative expenses applied by Dow to the Styron business during the Predecessor period. All of the allocations and estimates in the combined financial statements during the Predecessor period are based on reasonable assumptions and methodologies. These allocation methodologies are further outlined below:

Activity Based Costing ("ABC")

ABC is a system of costing products or services that focuses on the activities performed to produce the products or services. Costs are assigned to activities and then to products, based on the consumption of each product or service. Each activity is measured and costed per a base unit, such as hours or quantity. A "cost driver" is the measurable item which is the link between the producer and consumer of an activity. To determine the cost of an activity, all of the resources that are used to produce the activity are determined. Any cost that may be charged to a cost center is included in the calculation of the cost of the activity. After confirming the expected demand for the product or service, the cost per unit of activity is determined by dividing the total cost by the expected demand for the cost driver.

The producer of the activity charges the consumers of that activity based on the consumer's usage. This is accomplished on a routine basis and results in expenses, commonly referred to as "recharges," being reflected in the consumer's cost center with a cost recovery on the producer's cost center.

Activity Based Management Charges ("ABMC")

ABMC is a method of directly charging costs to businesses and geographies within the ABC framework. The assignment of expenses is based on the ABMC rules established for each function and business. Journal entries are posted in the ABMC system rather than in the general ledger. The impact of ABMC entries is included in the combined statements of income for the Predecessor period.

Principles of Consolidation

The consolidated financial statements of the Company contain the accounts of all entities that are controlled and variable interest entities ("VIEs") for which the Company is the primary beneficiary. All intercompany balances and transactions have been eliminated. Corporate joint ventures over which the Company has the ability to exercise significant influence that are not consolidated are accounted for by the equity method.

A VIE is defined as a legal entity that has equity investors that do not have sufficient equity at risk for the entity to support its activities without additional subordinated financial support or, as a group, the holders of the equity at risk lack (i) the power to direct the entity's activities or (ii) the obligation to absorb the expected losses or the right to receive the expected residual returns of the entity. A VIE is required to be consolidated by a company if that company is the primary beneficiary. See Note J for further discussion of the Company's accounts receivable securitization facility.

On the Acquisition Date, we established a set of accounting policies which, unless otherwise indicated, are consistent with the accounting policies of the Predecessor business.

Certain prior year amounts have been reclassified to conform to the current year presentation. The reclassification did not have a material impact on the Company's financial position.

Use of Estimates in Financial Statement Preparation

The preparation of financial statements in conformity with accounting principles generally accepted in the United States ("GAAP") requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes during the Successor periods and the combined financial statements and accompanying notes during the Predecessor period. Actual amounts could differ from these estimates.

Concentration of Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist principally of cash equivalents and accounts receivables. The Company uses major financial institutions with high credit ratings to engage in transactions involving cash equivalents. The Company minimizes credit risk in its receivables from customers through its sale of products to a wide variety of customers and markets in locations throughout the world.

The Company performs ongoing credit evaluations of its customers and generally does not require collateral. The Company maintains an allowance for doubtful accounts for losses resulting from the inability of specific customers to meet their financial obligations to the Company. A specific reserve for doubtful receivables is recorded against the amount due from these customers. For all other customers, the Company recognizes reserves for doubtful receivables based on past experience. The allowance for doubtful accounts is the Company's best estimate of probable credit losses in existing trade accounts receivable.

Financial Instruments

The carrying amounts of the Company's financial instruments, including cash and cash equivalents, accounts receivable, accounts payable and accrued and other current liabilities, approximate fair value because of their generally short maturities.

The estimated fair value of the 2011 Term Loans was determined using level 1 inputs within the fair value hierarchy. As of December 31, 2012, the 2011 Term Loans' carrying amount of $1,239.0 million approximates fair value as the 2011 Term Loans were redeemed at par in January 2013 (see Note J for additional information). As of December 31, 2011, the 2011 Term Loans had a fair value of approximately $1,213.6 million.

The estimated fair values of the borrowings under the Revolver and accounts receivable securitization facility were determined using level 2 inputs within the fair value hierarchy. The carrying amount of borrowings under the Revolver and accounts receivable securitization facility approximates fair value as these borrowings bear interest based on prevailing variable market rates.

All derivatives, whether designated in hedging relationships or not, are required to be recorded on the balance sheet at fair value. The fair value of the derivatives is determined from sources independent of the Company, including the financial institutions which are party to the derivative instruments. The fair value of derivatives also considers the credit default risk of the paying party. If the derivative is designated as a fair value hedge, the changes in the fair value of the derivative and the hedged item will be recognized in earnings. If the derivative is designated as a cash flow hedge, the effective portion of the change in the fair value of the derivative will be recorded in other comprehensive income and will be recognized in the consolidated statements

of operations when the hedged item affects earnings. The Company has interest rate cap agreements and foreign exchange forward contracts, which are not accounted or designated for hedge accounting treatment. As such, changes in the fair value of these agreements are recognized in the consolidated statements of operations. The loss on fair value of these agreements was recorded in interest expense while the gain or loss on fair value of our foreign exchange forward contracts was recorded in other expense (income) on the consolidated statements of operations. Cash flows from derivatives not designated for hedge accounting treatment are classified in the operating activities of the statements of cash flows.

For the Predecessor period, derivative financial instruments were indirectly used through the participation in Dow's centralized risk management process. There were no derivative financial instruments included in the Predecessor balance sheet as none were entered into specifically for the Styron business during the Predecessor period.

Foreign Currency Translation

For the majority of the operations, the local currency has been determined to be the functional currency. In the remainder of territories, the U.S. dollar has been determined to be the functional currency due to the significant influence of the U.S. dollar on operations. Gains and losses resulting from the translation of the functional currency into U.S. dollars for financial statement presentation are not included in determining net income (loss), but are accumulated in the cumulative translation adjustment account as a separate component of shareholder's equity (accumulated other comprehensive income). The Company translates asset and liability balances at exchange rates in effect at the end of the period and income and expense transactions at the average exchange rates in effect during the period. Gains and losses resulting from foreign currency transactions are included in the determination of net income (loss).

For the years ended December 31, 2012 and 2011 and Successor period ended December 31, 2010, net foreign exchange transaction gains (losses) of $(21.8) million, $17.2 million and $8.0 million, respectively, were recognized.

Environmental Matters

Accruals for environmental matters are recorded when it is probable that a liability has been incurred and the amount of the liability can be reasonably estimated based on current law and existing technologies. These accruals are adjusted periodically as assessment and remediation efforts progress, or as additional technical or legal information become available. Accruals for environmental liabilities are included in "Other noncurrent obligations" in the consolidated balance sheets at undiscounted amounts. As of December 31, 2012 and 2011, no accruals for environmental liabilities were recorded.

Environmental costs are capitalized if the costs extend the life of the property, increase its capacity, or mitigate or prevent contamination from future operations. Environmental costs are also capitalized in recognition of legal asset retirement obligations resulting from the acquisition, construction or normal operation of a long-lived asset. Any costs related to environmental contamination treatment and cleanups are charged to expense. Estimated future incremental operations, maintenance and management costs directly related to remediation are accrued when such costs are probable and reasonably estimable.

Cash and Cash Equivalents

Cash and cash equivalents generally include time deposits or highly liquid investments with original maturities of three months or less.

Inventories

Inventories in the Successor periods are stated at the lower of cost or market, with cost being determined on the first-in, first-out ("FIFO") method. In the Predecessor period, the method for determining cost varies among

last-in, first-out ("LIFO"), FIFO, and average cost, and was used consistently in the Predecessor period. The Company periodically reviews its inventory for excess or obsolete inventory, and will write-down the excess or obsolete inventory value to its net realizable value, if applicable.

Property, Plant and Equipment

Property, plant and equipment are carried at cost less any impairment and are depreciated over estimated useful lives using the straight-line method. Capitalized costs associated with computer software for internal use are amortized on a straight-line basis over 5 years. In the Predecessor period, assets capitalized before 1997 utilized the declining balance method.

Expenditures for maintenance and repairs are charged against income as incurred. Expenditures that significantly increase asset value, extend useful asset lives or adapt property to a new or different use are capitalized. For the Successor periods, these expenditures include planned major maintenance activity or turnaround activities which increase our manufacturing plants' output and improve production efficiency as compared to pre-turnaround operations. As of December 31, 2012 and 2011, $13.8 million and $14.1 million, respectively, of the Company's net costs related to turnaround activities have been capitalized to deferred charges within "Deferred charges and other assets" on the consolidated balance sheet, and are amortized over a period until the next scheduled turnaround.

The Company periodically monitors actual experience to determine whether events and circumstances have occurred that may warrant revision of the estimated useful lives of property, plant and equipment. Engineering and other costs directly related to the construction of property, plant and equipment are capitalized as construction in progress until construction is complete and such property, plant and equipment is ready and available to perform its specifically assigned function. Upon retirement or other disposal, the asset cost and related accumulated depreciation are removed from the accounts and the net amount, less any proceeds, is charged or credited to income.

The Company also capitalizes interest as a component of the cost of capital assets constructed for its own use. See Note G for additional information.

Impairment and Disposal of Long-Lived Assets

The Company evaluates long-lived assets and certain identifiable intangible assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset or asset grouping may not be recoverable. When undiscounted future cash flows are not expected to be sufficient to recover an asset's carrying amount, the asset is written down to its fair value based on a discounted cash flow analysis utilizing market participant assumptions.

Long-lived assets to be disposed of by sale are classified as held for sale and are reported at the lower of carrying amount or fair value less cost to sell, and depreciation is ceased. Long-lived assets to be disposed of other than by sale are classified as held and used until they are disposed of.

Goodwill and Other Intangible Assets

The Company records goodwill when the purchase price of a business acquisition exceeds the estimated fair value of net identified tangible and intangible assets acquired. Goodwill is tested for impairment at the reporting unit level annually, or more frequently when events or changes in circumstances indicate that the fair value of a reporting unit has more likely than not declined below its carrying value. The Company utilizes a market approach and/or a discounted cash flow methodology to calculate the fair value of its reporting units. The annual impairment assessment is completed using a measurement date of October 1 st . No impairment loss was required in 2012, 2011 and 2010.

Finite-lived intangible assets, such as our intellectual property, are amortized on a straight-line basis. Finite-lived intangible assets are reviewed for impairment or obsolescence if events or changes in circumstances indicate that the carrying amount of an intangible asset may not be recoverable. If impaired, intangible assets are written down to fair value based on discounted cash flows.

Investments in Unconsolidated Affiliates

Investments in unconsolidated affiliates where the Company has the ability to exercise significant influence (generally, 20% to 50% owned companies) are accounted for using the equity method. Investments are evaluated for impairment whenever events or changes in circumstances indicate that the carrying amount of the investment may not be recoverable. An impairment loss is recorded whenever a decline in fair value of an investment in an unconsolidated affiliate below its carrying amount is determined to be other than temporary.

Sales

Sales are recognized when the revenue is realized or realizable, and the earnings process is complete which occurs when risk and title to the product transfers to the customer, which usually occurs at the time shipment is made. As such, title to the product usually passes when the product is delivered to the freight carrier. Standard terms of delivery are included in contracts of sale, order confirmation documents and invoices. Freight costs and any directly related costs of transporting finished product to customers are recorded as “Cost of sales” in the consolidated statements of operations. Taxes on sales are excluded from net sales.

Sales are recorded net of estimates for returns and price allowances, including discounts for prompt payment and volume-based incentives.

Cost of Sales

The Company classifies the costs of manufacturing and distributing its products as cost of sales. Manufacturing costs include raw materials, utilities, packaging and fixed manufacturing costs associated with production. Fixed manufacturing costs include such items as plant site operating costs and overhead, production planning, depreciation and amortization, repairs and maintenance, environmental, and engineering costs. Distribution costs include shipping and handling costs.

Selling, General and Administrative Expenses

Selling, general and administrative (“SG&A”) expenses are charged to expense as incurred. SG&A expenses are the cost of services performed by the marketing and sales functions (including sales managers, field sellers, marketing research, marketing communications and promotion and advertising materials) and by administrative functions (including product management, research and development (“R&D”) business management, customer invoicing, and human resources). R&D expenses include the cost of services performed by the R&D function, including technical service and development, process research including pilot plant operations, and product development. In the Predecessor period, the expenses include costs recorded on business direct cost centers and allocations to the business using ABMC methodology. The direct costs include the expenses of the marketing and sales individuals assigned to the business, including salaries, fringe benefits, travel, materials and supplies, information, technology, and office expenses.

Total R&D costs included in SG&A expenses were approximately $48.3 million, $58.1 million and $27.2 million for the years ended December 31, 2012 and 2011 and Successor period ended December 31, 2010, respectively, and $23.0 million for the Predecessor period ended June 16, 2010.

The Company expenses promotional and advertising costs as incurred to SG&A expenses. Total promotional and advertising expense was approximately $3.2 million, $6.6 million and $3.3 million for the years ended December 31, 2012 and 2011 and Successor period ended December 31, 2010, respectively.

Pension and Postretirement Benefits Plans

The Company has several defined benefit plans, under which participants earn a retirement benefit based upon a formula set forth in the plan. Accounting for defined benefit pension plans, and any curtailments thereof, requires various assumptions, including, but not limited to, discount rates, expected rates of return on plan assets and future compensation growth rates. The Company evaluates these assumptions at least once each year, or as facts and circumstances dictate, and makes changes as conditions warrant. The Company also provides certain health care and life insurance benefits to retired employees mainly to certain retirees in the United States. The plans provide health care benefits, including hospital, physicians' services, drug and major medical expense coverage, and life insurance benefits.

Income Taxes

The provision for income taxes is determined using the asset and liability approach of accounting for income taxes. Under this approach, deferred taxes represent the future tax consequences expected to occur when the reported amounts of assets and liabilities are recovered or paid. The provision for income taxes represents income taxes paid or payable for the current year plus the change in deferred taxes during the year. Deferred taxes result from differences between the financial and tax basis of the Company's assets and liabilities and are adjusted for changes in tax rates and tax laws when changes are enacted. Valuation allowances are recorded to reduce deferred tax assets when it is more likely than not that a tax benefit will not be realized. Provision has been made for income taxes on unremitted earnings of subsidiaries and affiliates, except for subsidiaries in which earnings are deemed to be indefinitely invested.

The Company recognizes the financial statement effects of uncertain income tax positions when it is more likely than not, based on the technical merits, that the position will be sustained upon examination. The Company accrues for other tax contingencies when it is probable that a liability to a taxing authority has been incurred and the amount of the contingency can be reasonably estimated. Interest accrued related to unrecognized tax and income tax related penalties are included in the provision for income taxes. The current portion of uncertain income taxes positions is included in "Income taxes payable" and the long-term portion is included in "Other noncurrent obligations" in the balance sheets.

Income tax expense recognized for the year ended December 31, 2012 includes cumulative adjustments of $4.1 million and $2.0 million from 2010 and 2011, respectively, which resulted in a reduction of income tax expense, net, of approximately $6.1 million. These adjustments relate to the correction of prior period errors, which resulted from the reconciliation of income tax provision to tax return positions completed during 2012. The Company believes this is not material to the Company's results of operations as of and the years ended December 31, 2012 and 2011, and Successor Period ended December 31, 2010 .

During the Predecessor period, the Styron business of Dow did not file separate tax returns in the majority of the territories as it was included in the federal, state and foreign tax returns of the applicable Dow entities within the respective tax jurisdictions. The income tax provisions for the Predecessor period were calculated using a separate return basis, as if the Styron business was a separate taxpayer.

Stock-based Compensation

During the Predecessor period, stock-based compensation was incurred under Dow's stock-based compensation plans in the form of the Employees' Stock Purchase Plan and stock option plans, which include deferred and restricted stock. As of the Acquisition Date, the Company implemented new and separate stock-based compensation plans which include service-based and performance-based incentive restricted stock awards of the Parent's stock.

Stock-based compensation expense is measured at the grant date, based on the fair value of the award. Service-based restricted stock awards are generally recognized as expense on a graded vesting basis over the

service period. For performance-based restricted stock awards, the Company recognizes compensation cost if and when it concludes that it is probable that the performance condition will be achieved. The Company calculates the fair value of its performance-based restricted stock awards using a combination of a call option and digital option model.

Periodically, the Parent may sell non-transferable restricted stock to certain officers and key members of management of the Company. Stock-based compensation expense on this non-transferable restricted stock is recognized if the non-transferable restricted stock is purchased at a price which is less than the fair value of the Parent's common stock.

Recent Accounting Guidance

In May 2011, the FASB issued authoritative guidance for Fair Value Measurement: Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards ("IFRS"), which provides common requirements for measuring fair value and disclosing information about fair value measurements in accordance with U.S. GAAP and IFRS. This guidance is effective for fiscal years beginning on or after December 15, 2011. The Company adopted the guidance effective as of January 1, 2012 and the adoption did not have a material impact on our financial position and results of operations.

In June 2011, the FASB issued amendments to the presentation of comprehensive income which becomes effective for the annual period ending after December 15, 2012, and interim and annual periods thereafter. The amendments eliminate the current reporting option of displaying components of other comprehensive income within the statement of changes in stockholders' equity. Under the new authoritative guidance, the company is required to present either a single continuous statement of comprehensive income or an income statement immediately followed by a statement of comprehensive income. In December 2011, the FASB issued a deferral of the effective date for amendments to the presentation of reclassifications of items out of accumulated other comprehensive income, which defers certain aspects related to the presentation of reclassification adjustments. The Company adopted the guidance and presented two separate but consecutive statements of operations and statements of comprehensive income for the years ended December 31, 2012 and 2011, Successor period ended December 31, 2010 and the Predecessor period ended June 16, 2010. In February 2013, the FASB issued amendments to disclosure requirements for presentation of comprehensive income, which requires presentation (either in a single note or parenthetically on the face of the financial statements) of the effect of significant amounts reclassified from each component of accumulated other comprehensive income based on its source and the income statement line items affected by the reclassification. If a component is not required to be reclassified to net income in its entirety, a cross reference to the related footnote for additional information will be required. The amendments are effective prospectively for reporting periods beginning after December 15, 2012 (early adoption is permitted). The Company is currently evaluating the impact of adopting this guidance.

In August 2011, FASB issued authoritative guidance in order to simplify how companies test goodwill for impairment. The amendment will become effective for annual and interim goodwill impairment tests performed for the fiscal year beginning on or after December 15, 2011 with early adoption permitted including for annual and interim goodwill impairment tests that are performed as of a date before September 15, 2011. The amendments permit an entity to first assess qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount as a basis for determining whether it is necessary to perform the two-step goodwill impairment test. This guidance replaces previous guidance which required an entity to test goodwill impairment, on at least an annual basis, by comparing the fair value of a reporting unit with its carrying amount, including goodwill, and then assessing whether or not the fair value of a reporting unit is less than its carrying amount. An entity is no longer required to calculate the fair value of a reporting unit unless the entity determines that it is more likely than not that its fair value is less than its carrying amount. The adoption of this guidance did not have a material impact on the Company's financial position, results of operations, or cash flows.

In September 2011, FASB issued an update that requires employers that participate in multiemployer pension plans to provide additional quantitative and qualitative disclosures. The amended disclosures provide users with more detailed information about an employer's involvement in multiemployer pension plans and are effective for annual periods ending on or after December 15, 2012. The adoption of this guidance did not have a material impact on the Company's financial position and results of operations.

In December 2011, the FASB issued guidance for Balance Sheet: Disclosures about Offsetting Assets and Liabilities, which requires entities to disclose both gross and net information about both instruments and transactions eligible for offset in the statement of financial position and instruments and transactions subject to an agreement similar to a master netting agreement to facilitate users of the financial statements understand the effect of those arrangements on the Company's financial position. In January 2013, the FASB issued further guidance that clarifies the scope of the offsetting disclosures. The guidance is effective for fiscal years, and interim periods within those years, beginning on or after January 1, 2013. Retrospective presentation for all comparative periods presented is required. The Company is currently evaluating the impact of adopting this guidance.

NOTE C—ACQUISITIONS AND DIVESTITURES

Styron Acquisition

On March 2, 2010, STY Acquisition Corp. ("STY Acquisition"), an affiliate of Bain Capital, entered into a sale and purchase agreement (the "Purchase Agreement") with Dow, Styron LLC and Styron Holding B.V. (together with Styron LLC, the "Styron Holdcos") pursuant to which STY Acquisition agreed to acquire 100% of the outstanding equity interests of the Styron Holdcos. STY Acquisition, subsequently (but prior to the close of the transaction) assigned its rights and obligations under the Purchase Agreement to Styron S.à r.l., the Company's indirect wholly owned subsidiary. The consideration for the purchase of Styron Holdcos was approximately $1,509.4 million, subject to customary adjustments for working capital, employee liabilities and certain other amounts. These amounts included a $75.0 million of notes payable to Dow (the "Seller Note") which is discussed further in Note J. Subsequent to the closing of the Acquisition, the Company paid $55.8 million in closing date working capital adjustments. As part of the Acquisition, Trinseo incurred $56.5 million in transaction costs in connection with the Purchase Agreement, which have been recorded in the consolidated statement of operations as acquisition-related expense in the Successor period ended December 31, 2010.

Trinseo accounted for the Acquisition under the purchase method of accounting in accordance with the applicable authoritative guidance for Business Combinations, whereby the purchase price paid was allocated to the acquired assets and liabilities at fair value.

The allocation of the purchase price is as follows:

	June 17, 2010 (As initially reported)	Adjustments	June 17, 2010 (As adjusted)
Cash	$ 54,468	$ —	$ 54,468
Accounts receivable	724,559	2,359	726,918
Inventory	489,725	(325)	489,400
Property, plant and equipment	594,600	(2,605)	591,995
Intangible assets	190,000	—	190,000
Equity investments	67,000	—	67,000
Deferred income taxes	3,601	3,297	6,898
Other assets	14,214	—	14,214
Total identifiable assets	2,138,167	2,726	2,140,893
Accounts payable	524,901	—	524,901
Accrued liabilities	21,328	(6,880)	14,448
Income tax payable	8,535	6,033	14,568
Other long-term liabilities	1,638	(1,091)	547
Pension and other postretirement benefits	109,508	1,136	110,644
Total identifiable liabilities	665,910	(802)	665,108
Net identifiable assets acquired	1,472,257	3,528	1,475,785
Goodwill	37,184	(3,528)	33,656
Net assets acquired	$ 1,509,441	$ —	$1,509,441

As of June 17, 2011, the one-year measurement period surrounding the Acquisition ended. During 2012, certain adjustments were identified related to the Acquisition accounting. As such, the Company recorded $8.7 million to goodwill to correct our final purchase price allocation with the offsets recorded primarily to deferred income taxes and pension liabilities. The Company does not believe this is material to the prior year consolidated financial statement or the current year consolidated financial statements. Accordingly, the purchase price allocation for the acquisition is now complete. As part of the Acquisition, the Company has been indemnified for various tax matters, including income tax and value add taxes, as well as legal liabilities which have been incurred prior to the Acquisition Date. Conversely, certain tax matters which the Company has benefitted from are subject to reimbursement by Trinseo to Dow. These amounts have been estimated and provisional amounts have been recorded based on the information known during the measurement period; however, these amounts remain subject to change based on the completion of our annual statutory filings, tax authority review as well as a final resolution with Dow on amounts due to and due from the Company. Management believes the Company's estimates and assumptions are reasonable under the circumstances, however, settlement negotiations or changes in estimates around pre-acquisition indemnifications could result in a material impact on the consolidated financial statements.

The fair values of the intangible assets were estimated using an income approach. Under this method, an intangible asset's fair value is equal to the present value of the incremental after-tax cash flows (excess earnings) attributable solely to the intangible asset over its remaining useful life. The fair value of real properties acquired was based on the consideration of their highest and best use in the market. The fair values of property, plant, and equipment, other than real properties that include leasehold improvements acquired, were based on the assumption that unless otherwise identified, will continue to be used "as is" and as part of the ongoing business.

The $33.7 million of goodwill recognized is attributable primarily to the Company's assembled workforce. For tax purposes, at Acquisition Date, there was approximately $129.3 million of deductible goodwill.

The Company recognized $56.5 million of acquisition-related costs that were expensed in the Successor period ended December 31, 2010. These costs are included in "Acquisition-related expenses" in the consolidated statement of operations and are comprised primarily of the following:

Investment banking fees	$34,225
Legal and due diligence fees	15,893
Other	6,430
Total	$56,548

The following unaudited supplemental pro forma information presents the financial results as if the Acquisition had occurred on January 1, 2009. This supplemental pro forma information has been prepared for comparative purposes and does not purport to be indicative of what would have occurred had the Acquisition been made on January 1, 2009, nor is it indicative of any future results.

	Year Ended December 31, 2010
Revenue	$5,096,418
Net income	$ 107,317

Divestiture

In December of 2010, the Company sold certain assets relating to its Styrenics Brazilian operations for approximately $12.5 million in total proceeds. Due to the pre-existing economic sharing arrangements with the Company's Brazilian partner for these operations, the Company is liable to pay 50% of any proceeds to its partner and, accordingly, has established an offsetting $6.3 million liability. These amounts were paid in January of 2011. There was no significant gain or loss on the sale.

NOTE D—INVESTMENTS IN UNCONSOLIDATED AFFILIATES

Trinseo's investments in unconsolidated affiliates accounted for by the equity method were $140.3 million and $134.1 million at December 31, 2012 and 2011, respectively.

At December 31, 2012 and 2011, respectively, Trinseo's investment in Sumika Styron was $18.6 million and $17.1 million greater than Trinseo's 50% share of Sumika Styron's underlying net assets. This amount represents the fair value of certain identifiable assets which have not been recorded on the historical financials of Sumika Styron. This difference is being amortized over the estimated remaining useful lives of the assets to which it is attributed.

At December 31, 2012 and 2011, respectively, Trinseo's investment in AmSty was $150.7 million and $168.8 million less than Trinseo's 50% share of AmSty's underlying net assets. This amount represents the difference between the book value of assets contributed to the joint venture at the time of formation (May 1, 2008) and Trinseo's 50% share of the total recorded value of the joint venture's assets. This difference is being amortized over the remaining useful lives of the contributed assets.

Senior Secured Credit Facility

In June 2010, the Company entered into a credit agreement (the "Senior Secured Credit Facility") with lenders for (i) an $800.0 million senior secured term loans (the "2010 Term Loans") and a (ii) $240.0 million revolving facility (the "Revolver"). The proceeds of these borrowings were used to finance, in part, the Acquisition and pay transaction fees and expenses related to the Acquisition. The borrowing rate is equal to LIBOR (subject to floors of 1.75% for the Revolver and 1.5% for the 2010 Term Loans) or the U.S. prime lending rate (subject to a floor of 2.75% for the Revolver and 2.5% for the 2010 Term Loans), plus respective

applicable margin rates. As part of the terms of the Revolver, the Company has access to a swing line loan, not to exceed the lesser of $10.0 million or the aggregate amount of the Revolver credit commitment, as well as letters of credit not to exceed the lesser of $125.0 million or the aggregate amount of the Revolver credit commitment.

On February 2, 2011, the Senior Secured Credit Facility was amended (the "2011 Amendment") to increase the available borrowings under the senior secured term loans from $780.0 million to $1.6 billion. Pursuant to the amendment, the Company borrowed an aggregate principal amount of $1.4 billion (the "2011 Term Loans"), the proceeds of which were used to repay the 2010 Term Loans and related accrued interest, repay the Seller Note issued by Dow at the time of the Acquisition and related accrued interest, make a distribution to the stockholders of the Parent, and provide general corporate funds. Principal payments for the 2011 Term Loans were due in equal quarterly installments of 0.25% of the $1.4 billion aggregate principal amount and the remaining principal payments are due on maturity date in August 2017. The principal payments under the Revolver were due in aggregate on the outstanding balance on the Revolver maturity date in June 2015.

In connection with the 2011 Amendment, the Company incurred a total of $26.7 million in debt issuance costs, of which $18.9 million is associated with the 2011 Term Loans and $7.8 million representing fees paid to lenders to repay the 2010 Term Loans prior to maturity. As a result of repaying the 2010 Term Loans, $749.0 million of the 2010 Term Loans were determined to be extinguished and $31.0 million was determined to be modified (the "modified 2010 Term Loans") in accordance with generally accepted accounting principles. The Company capitalized $18.7 million of the debt issuance costs associated with the 2011 Term Loans and will amortize into interest expense using the effective interest rate method, with the remaining $0.2 million of third-party fees associated with the modified 2010 Term Loans being expensed as incurred. Of the $7.8 million in fees paid to lenders associated with the 2010 Term Loans, $7.5 million was expensed as incurred, with the remaining $0.3 million associated with the modified 2010 Term Loans and, along with the existing unamortized discount attributed to the modified 2010 Term Loans, amortized into interest expense over the remaining term of the modified 2010 Term Loans using the effective interest method. As a result of the extinguishment of $749.0 million of the 2010 Term Loans, the Company recorded a loss on extinguishment of $55.7 million during the first quarter of 2011, which is comprised of $7.5 million in fees paid to the lenders, $0.2 million in third-party fees associated with the modified 2010 Term Loans, and the remainder attributable to the write-off of existing unamortized debt issuance costs and original issue discount attributed to the $749.0 million in 2010 Term Loans extinguished, totaling $34.0 million and $14.0 million, respectively.

In July 2012, the Company further amended the Senior Secured Credit Facility (the "2012 Amendment") that provided for an increase in the Company's total leverage ratio and decrease the interest coverage ratio. It also provided for an increase in the permitted accounts receivable securitization facility from $160.0 million to $260.0 million and increase in the borrowing rate of the senior secured term loans through increase in the applicable margin rate from 4.5% to 6.5% for LIBOR borrowings or 3.5% to 5.5% for U.S. prime lending rate borrowings. Under certain circumstances, the applicable margin rate may decrease by 1.5% if the total leverage ratio is less than 3.25 to 1.00 or may increase by 1.0% during periods when the Company utilizes an event of default cure. The 2012 Amendment became effective with the repayment of $140.0 million of 2011 Term Loans on August 9, 2012 using the proceeds from equity contribution from the Parent. Subsequently, the quarterly installments of 0.25% of the $1.4 billion aggregate principal amount were no longer required.

In connection with the 2012 Amendment, the Company incurred a total of $9.7 million in debt issuance costs, of which $8.5 million is associated with the 2011 Term Loan and $1.2 million is associated with the Revolver. As a result of the 2012 Amendment, the 2011 Term Loans were determined to be modified in accordance with generally accepted accounting principles. The Company capitalized $6.2 million of the issuance costs paid to the creditors of the 2011 Term Loans and, together with the unamortized debt discount, will be amortized into interest expense using the effective interest rate method, with the remaining $2.3 million of third-party fees associated with the 2011 Term Loans expensed as incurred within "Other expense (income), net" on the consolidated statement of operations for the year ended December 31, 2012. Cost of $1.2 million paid to the creditors of the Revolver was also capitalized and will be amortized over the remaining term of the Revolver.

Capitalized fees and costs incurred in connection with the Company's borrowings are included in "Deferred charges and other assets" in the consolidated balance sheets. Debt issuance costs and debt discounts are amortized to interest expense over the term of the respective loan agreements using the effective interest method. The Revolver debt issuance costs are being amortized using a straight-line method. As of December 31, 2012 and 2011, unamortized debt issuance costs totaled $23.7 million and $29.0 million, respectively. Debt discount was $6.4 million and $0.8 million as of December 31, 2012 and 2011, respectively, and is netted against "Long-term debt" in the consolidated balance sheets. Both the amortization of debt issuance costs and debt discounts are included in "Interest expense, net" in the consolidated statements of operations. The Company recorded amortization expense relating to debt issuance costs and debt discounts, respectively, of $6.5 million and $0.5 million for the year ended December 31, 2012; $6.3 million and $0.3 million for the year ended December 31, 2011; and $4.6 million and $1.2 million for the Successor period ended December 31, 2010.

Interest incurred on the 2011 Term Loans and the Revolver for the year ended December 31, 2012 were $91.0 million and $6.0 million, respectively. Interest incurred on the 2010 and 2011 Term Loans, collectively, and the Revolver for the year ended December 31, 2011 were $82.6 million and $8.6 million, respectively. Interest incurred on the 2010 Term Loans and the Revolver during the Successor period from June 17, 2010 through December 31, 2010 was $32.7 million and $2.8 million, respectively. There was no interest incurred during the Predecessor period from January 1, 2010 through June 16, 2010.

Cash paid relating to interest on the 2011 Term Loans and Revolver for the year ended December 31, 2012 were $87.6 million and $6.1 million, respectively. Cash paid relating to interest on the 2010 and 2011 Term Loans, collectively, and the Revolver for the year ended December 31, 2011 were $82.4 million and $8.6 million, respectively. Cash paid relating to interest on the 2010 Term Loans and Revolver during the Successor period from June 17, 2010 through December 31, 2010 was $27.7 million and $1.4 million, respectively.

At December 31, 2012, there were $1,239.0 million and $120.0 million in outstanding borrowings under the 2011 Term Loans and Revolver, respectively, plus $6.8 million in outstanding letters of credit. All obligations under the 2011 Term Loans and the Revolver are guaranteed and collateralized by substantially all of the tangible and intangible assets of the Company's subsidiaries.

Annual maturities of long-term debt are as follows over the next five years and thereafter:

Year	Annual Maturity
2013	$ —
2014	—
2015	120,000
2016	—
2017	1,239,000
Thereafter	—
Total	$1,359,000

In January 2013, the Company amended the Senior Secured Credit Facility (the "2013 Amendment"). As part of the 2013 Amendment, the Company increased the Revolver borrowing capacity from $240.0 million to $300.0 million, extended the maturity date to January 2018 and concurrently repaid the outstanding 2011 Term Loans of $1,239.0 million using the proceeds from the $1,325.0 million 8.750% Senior Secured Notes issued in January 2013 (discussed below). The 2013 Amendment replaced the Company's total leverage ratio and removed the interest coverage ratio requirements. If the Revolver exceeds 25% of the $300.0 million borrowing capacity (excluding undrawn letters of credit up to $10.0 million) at a quarter end, the Company's first lien net leverage ratio (as defined under the 2013 Amendment) should not exceed 5.25 to 1.00 for the quarter ending March 31, 2013, 5.00 to 1.00 for the quarters ending June 30, September 30, and December 31, 2013, 4.50 to 1.00 for each of the quarters ending in 2014 and 4.25 to 1.00 for each of the quarters ending in 2015 and thereafter.

Prior to the 2013 Amendment, the Senior Secured Credit Facility required that the Company comply with certain affirmative and negative covenants, including restrictions with respect to payment of dividends and other distributions to stockholders, and financial covenants that include the maintenance of certain financial ratios. These ratios include both a maximum leverage ratio no greater than 5.25 to 1.00 and an interest coverage ratio no less than 2.00 to 1.00 for the most recent twelve-month period. Under the terms of the Senior Secured Credit Facility, an event of default can be cured by a Specified Equity Contribution, as defined under the Senior Secured Credit Facility. On May 8, 2012, the Company received a $22.2 million as equity contribution from the Parent in order to cure its covenant default and to meet its required leverage ratio for the period ended March 31, 2012. The Company remained in compliance with all debt covenants in the remainder of 2012. With the effectiveness of the 2013 Amendment prior to annual covenant compliance reporting, the Company's prior leverage ratio and interest coverage ratio covenants were replaced by the first lien net leverage ratio covenant under the 2013 Amendment.

As a result of the 2013 Amendment and repayment of the 2011 Term Loans in January 2013, the Company will recognize approximately $20.7 million of loss on extinguishment of debt in the first quarter of 2013, which consist primarily of the write-off of existing unamortized debt issuance cost and debt discount attributable to the 2011 Term Loans. Fees and expenses incurred in connection with the 2013 Amendment were approximately $5.0 million, which will be capitalized as deferred charges and amortize using a straight-line method over the remaining term of the revolving facility.

8.750% Senior Secured Notes

In January 2013, the Company issued $1,325.0 million aggregate principal amount of 8.750% Senior Secured Notes (the "Senior Notes"). The Senior Notes interest is payable semi-annually on February 1 and August 1 of each year, commencing on August 1, 2013. The notes will mature on February 1, 2019. The proceeds of the issuance of the Senior Notes was used to repay all of the Company's outstanding 2011 Term Loans and related refinancing fees and expenses. The Company may redeem the notes at any time on or prior to August 1, 2015 in whole or in part, at redemption price equal to 100% of the principal amount thereof plus accrued and unpaid interest, if any, to the redemption date plus a make-whole premium. The Company may also redeem, during any 12-month period commencing with the issue date of the Senior Notes until August 1, 2015, up to 10% of the original principal amount of the notes at a redemption price equal to 103% of the principal amount thereof, plus accrued and unpaid interest or at any time prior to August 1, 2015, redeem up to 35% of the aggregate principal amount of the notes with the net cash proceeds from certain equity offerings.

The Senior Notes rank equally in right of payment with all of the Company's existing and future senior secured debt and pari passu with the Company and the Guarantors' (as defined below) indebtedness that is secured by first-priority liens, including the Company's Senior Secured Credit Facility (as defined above), to the extent of the value of the collateral securing such indebtedness and ranking senior in right of payment to all of the Company's existing and future subordinated debt. However, claims under the Senior Notes will effectively rank behind the claims of holders of debt, including interest, under our Senior Secured Credit Facility in respect of proceeds from any enforcement action with respect to the collateral or in any bankruptcy, insolvency or liquidation proceeding. The Senior Notes will be unconditionally guaranteed on a senior secured basis by each of our existing and future wholly-owned subsidiaries that guarantee our Senior Secured Credit Facility (other than our subsidiaries in France and Spain) (the "Guarantors"). The note guarantees will rank equally in right of payment with all of the Guarantors' existing and future senior secured debt and senior in right of payment to all of the Guarantors' existing and future subordinated debt. The notes will be structurally subordinated to all of the liabilities of each of our subsidiaries that do not guarantee the notes.

The Indenture contains covenants that, among other things, limit the Company's ability and the ability of the Company's restricted subsidiaries to incur additional indebtedness, pay dividends or make other distributions, subject to certain exceptions. If the Senior Notes are assigned an investment grade by the rating agencies and no default has occurred or is continuing, certain covenants will be suspended. If the ratings on the Senior Notes decline to below investment grade, the suspended covenants will be reinstated.

Fees and expenses incurred in connection with the issuance of Senior Notes were approximately $41.0 million, which will be capitalized as deferred charges and amortize into interest expense over the term of the Senior Notes using the effective interest rate method.

Interest Rate Cap Agreements

The 2011 Amendment requires that the Company maintain interest rate cap agreements having a term of at least three years for an aggregate notional principal amount equal to at least 35% of the aggregate principal amount of all term loans then outstanding.

The Company uses interest rate cap agreements to protect cash flows from fluctuations caused by volatility in interest rates. At December 31, 2012 and 2011, the Company had three outstanding interest rate caps with an aggregate notional amount of $490.0 million, representing 35% of the $1.4 billion in term loan borrowings under the 2011 Amendment.

The Company's interest rate risk management strategy is to use derivative instruments to minimize significant unanticipated earnings fluctuations that may arise from volatility in interest rates of the Company's borrowings and to manage the interest rate sensitivity of its debt. At December 31, 2012 and 2011, the non-current asset associated with interest rate cap agreements was recorded at fair value in "Deferred charges and other assets" in the consolidated balance sheets. The Company does not account for the interest rate cap agreements as hedges. As such, changes in the fair value of underlying derivative instruments are recognized in "Interest expense, net" in the consolidated statement of operations.

At December 31, 2012 and 2011, the interest rate caps had a fair value of approximately less than $0.1 million and $0.1 million, respectively. For the years ended December 31, 2012 and 2011, the Company recognized a loss of approximately less than $0.1 million and $1.0 million, respectively, and for the Successor period ended December 31, 2010, a gain of approximately $0.1 million, which were reflected in "Interest expense, net" in the consolidated statements of operations. These hedges were settled on January 29, 2013.

Accounts Receivable Securitization

In August 2010, a VIE in which the Company is the primary beneficiary, Styron Receivable Funding Ltd. ("SRF"), executed an agreement with a bank for an accounts receivable securitization facility. The facility permits borrowings by one of the Company's subsidiaries, Styron Europe GmbH ("SE"), up to a total of $160.0 million. Under the receivables facility, SE will sell their accounts receivable from time to time to SRF. In turn, SRF may sell undivided ownership interests in such receivables to commercial paper conduits in exchange for cash. The Company has agreed to continue servicing the receivables for SRF. Upon the sale of the interests in the accounts receivable by SRF, the conduits have a first priority perfected security interest in such receivables and, as a result, the receivables will not be available to the creditors of the Company or its other subsidiaries. The accounts receivable securitization is subject to interest charges against both the amount of outstanding borrowings as well as the amount of available, but undrawn, borrowings under the accounts receivable securitization. In regards to outstanding borrowings on the accounts receivable securitization, fixed interest charges are 3.25% plus variable commercial paper rates. In regards to available, but undrawn, borrowings under the accounts receivable securitization, fixed interest charges are 1.50%.

In May 2011, the accounts receivable securitization facility was amended to allow for the expansion of the pool of eligible accounts receivable to include a previously excluded German subsidiary.

At December 31, 2012 and 2011, there was approximately $85.7 million and $117.7 million, respectively, of accounts receivable available to support this facility, based on our pool of eligible accounts receivable. There were approximately $93.5 million, which includes $7.8 million of cash restricted from use, and $110.5 million in

outstanding borrowings, included in short-term borrowings in the consolidated balance sheet at December 31, 2012 and 2011, respectively. Interest incurred on the accounts receivable securitization facility for the years ended December 31, 2012 and 2011 and Successor period ended December 31, 2010 were $4.7 million, $5.7 million and $1.4 million, respectively, reflected in “Interest expense, net” in the consolidated statements of operations. As of December 31, 2012 and 2011, debt issuance costs related to the accounts receivable securitization facility totaled $4.3 million and $4.9 million, respectively, and were included in “Deferred charges and other assets” on the consolidated balance sheet, which are being amortized using a straight-line method, reflected in “Interest expense, net” on the consolidated statement of operations. The Company recorded $1.5 million, $1.4 million and $0.4 million in amortization of debt issuance costs related to the accounts receivable securitization facility for the years ended December 31, 2012 and 2011 and Successor period ended December 31, 2010.

Seller Note

On June 17, 2010, the Company entered into a $75.0 million term loan with Dow (the “Seller Note”) which was effectively used to finance the Styron Acquisition. On February 3, 2011, the Company repaid the Seller Note in full and the related accrued interest of approximately $4.5 million.

Other Revolving Facilities

During 2011, the Company entered into two short-term revolving facilities through our subsidiary in China that provide for approximately $28.5 million of uncommitted funds available for borrowings, subject to annual renewal.

Outstanding borrowings under these revolving facilities were $1.1 million and $2.4 million at December 31, 2012 and 2011, respectively. The revolving facilities are either guaranteed by our Holding Company, Trinseo Materials Operating S.C.A. or secured by pledge of certain of our assets in China. At December 31, 2012 and 2011, the weighted average interest rate of these facilities was approximately 0.5% and 5.8%, respectively. The Company did not renew one of the short-term revolving facilities, with uncommitted funds of $13.5 million, and there were no outstanding borrowings for that facility as of December 31, 2012. The remaining facility is subject to annual renewal.

The Senior Secured Credit Facility limits our foreign working capital facilities to an aggregated principal amount of $75.0 million. Subsequently, in January 2013, the 2013 Amendment further limits our foreign working capital facilities in certain jurisdiction in Asia including China to an aggregate principal amount of $25.0 million, except as otherwise permitted under the Senior Secured Credit Facility.

NOTE K—SHAREHOLDER’S EQUITY

Common Stock

On February 3, 2011, $471.4 million of the net cash proceeds from the 2011 Term Loans under the amended Senior Secured Credit Facility were used to pay a distribution to the Parent. The distribution coincided with the redemption and subsequent cancellation of 11.9 billion shares of our common stock. Further, in December 2011, we made additional cash distributions to our shareholder of $50.0 million. The amended Senior Secured Credit Facility places certain restrictions on the payment of future dividends and other distributions to stockholders.

On May 8, 2012, the Company issued 2.2 billion shares of common stock to the Parent with $0.01 nominal value for $22.2 million of proceeds. The proceeds from the issuance were used as equity contribution required under the terms of the Senior Secured Credit Facility in order to cure the covenant default for the period ended March 31, 2012. Also, on August 8, 2012, the Parent received an additional $140.0 million from shareholders and contributed the same amount to the Company through the issuance of 14.0 billion shares of common stock with a nominal value of $0.01. The proceeds from the issuance of the common stock were used to repay a portion of the 2011 Term Loans in connection with the 2012 Amendment. See Note J for further discussion.

NOTE L—FAIR VALUE MEASUREMENTS

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Assets and liabilities measured at fair value are classified using the following hierarchy, which is based upon the transparency of inputs to the valuation as of the measurement date.

Level 1—Valuation is based upon quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2—Valuation is based upon quoted prices for similar assets and liabilities in active markets, or other inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3—Valuation is based upon other unobservable inputs that are significant to the fair value measurement.

The following tables summarize the bases used to measure certain assets and liabilities at fair value on a recurring basis in the balance sheet at December 31, 2012 and December 31, 2011, respectively:

	December 31, 2012			
Assets (Liabilities) at Fair Value	Quoted Prices in Active Markets for Identical Items (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Interest rate cap agreements(1)	$ —	$ —	$ —	$ —
Foreign exchange forward contracts	—	(3,802)	—	(3,802)
Total fair value	$ —	$ (3,802)	$ —	$(3,802)

(1) As of December 31, 2012, the fair value of interest rate cap agreements was less than $1 thousand.

	December 31, 2011			
Assets (Liabilities) at Fair Value	Quoted Prices in Active Markets for Identical Items (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Interest rate cap agreements	$ —	$ 64	$ —	$ 64
Foreign exchange forward contracts	—	—	—	—
Total fair value	$ —	$ 64	$ —	$ 64

For assets and liabilities classified as Level 2 measurements, fair value is based on the closing price at the end of the period, adjusted for any terms specific to that asset or liability, or by using observable market data points of similar assets and liabilities. Market inputs are obtained from broker quotations or from listed or over-the-counter market data.

Operating loss carryforwards amounted to $231.9 million in 2012 and $147.2 million in 2011. At December 31, 2012, $14.8 million of the operating loss carryforwards were subject to expiration in 2013 through 2017, and $217.1 million of the operating loss carryforwards expire in years beyond 2017 or have an indefinite carryforward period.

The Company had valuation allowances which were related to the realization of recorded tax benefits on tax loss carryforwards, as well as other net deferred tax assets, primarily from subsidiaries in Luxembourg, China, Japan, Brazil and the U.S. of $41.3 million at December 31, 2012 and $47.4 million at December 31, 2011. Valuation allowances decreased by $6.1 million in 2012.

During the Predecessor periods, the Styron business did not file separate tax returns in the majority of the territories as it was included in the tax returns of Dow entities within the respective tax jurisdictions. The income tax provision included in these financial statements was calculated using a separate return basis, as if the Styron business was a separate taxpayer. Accordingly, the Styron business's tax results as presented are not necessarily indicative of results that the Styron business would have generated as a stand-alone company for the Predecessor periods presented. The amount paid for taxes approximates the current provision.

For the Successor periods, a reconciliation of the beginning and ending amount of the unrecognized tax benefits is as follows:

Balance as of June 17, 2010	$ 1,300
Increases related to current year tax positions	6,390
Balance as of December 31, 2010	7,690
Increases related to current year tax positions	15,583
Increases related to prior year tax positions	2,158
Balance as of December 31, 2011	25,431
Increases related to current year tax positions	6,757
Decreases related to prior year tax positions	(2,109)
Balance as of December 31, 2012	$30,079

The Company recognized interest and penalties of $0.8 million and $0.5 million for the years ended December 31, 2012 and 2011, which was included as a component of income tax expense in the consolidated statements of operations. No interest and penalties were recognized for the Successor period ended December 31, 2010 and the Predecessor period ended June 16, 2010. As of December 31, 2012 and 2011, the Company has $1.3 million and $0.5 million, respectively, accrued for interest and penalties. The Company does not anticipate that the liability for uncertain tax positions will materially change within the next twelve months. To the extent that the gross unrecognized tax benefits are recognized in the future, $17.8 million will impact the Company's effective tax rate.

As a majority of the Trinseo legal entities had no significant activity or were formed in 2010, only the 2010 tax year and forward is subject to examination in the majority of jurisdictions except for China, Hong Kong, and Indonesia where certain tax years between 2005 and 2009 remain subject to examination.

Pursuant to the terms of the Purchase Agreement, the Company has been indemnified from and against any taxes for or with respect to any Predecessor period.

NOTE N—COMMITMENTS AND CONTINGENCIES

Leased Property

The Company routinely leases premises for use as sales and administrative offices, warehouses and tanks for product storage, motor vehicles, railcars, computers, office machines, and equipment under operating leases. Rental expense was $17.7 million, $15.1 million and $6.2 million during the Successor periods ended December 31, 2012, 2011 and 2010, respectively. Rental expense under operating leases charged to the Styron business during the Predecessor period were $3.0 million for the period ended June 16, 2010.

Future minimum rental payments under operating leases with remaining non-cancelable terms in excess of one year are as follows:

Year	Annual Commitment
2013	$ 9,049
2014	6,407
2015	5,219
2016	4,600
2017	4,211
2018 and beyond	17,173
Total	$ 46,659

Environmental Matters

Accruals for environmental matters are recorded when it is probable that a liability has been incurred and the amount of the liability can be reasonably estimated, based on current law, existing technologies and other information. At December 31, 2012 and December 31, 2011, the Company had no accrued obligations for environmental remediation and restoration costs. Pursuant to the terms of the Styron sales and purchase agreement, the pre-closing environmental conditions were retained by Dow and the Company has been indemnified by Dow from and against all environmental liabilities incurred or relating to the Predecessor periods. There are several properties which the Company now owns on which Dow has been conducting remediation to address historical contamination. Those properties include Allyn's Point, Connecticut, Dalton, Georgia, Livorno, Italy and Guarauja, Brazil. There are other properties with historical contamination that are owned by Dow that the Company leases for its operations, including its facility in Midland, Michigan. No environmental claims have been asserted or threatened against the Company, and the Company is not a potentially responsible party at any

Superfund Sites. Further, amounts which were included in Predecessor periods relate to liabilities where Dow or Dow's affiliates have been named in an order or agreement or are liable for certain remediation liabilities. As Trinseo has not been named as a liable or potentially liable party at any environmental remediation site or Superfund site, nor has any legal liability been incurred, no amounts were included as part of the opening balance sheet of the Company.

Inherent uncertainties exist in Trinseo's potential environmental liabilities primarily due to unknown conditions whether future claims may fall outside the scope of the indemnity, changing governmental regulations and legal standards regarding liability, and evolving technologies for handling site remediation and restoration. It is the opinion of management in connection with our existing indemnification that the possibility is remote that environmental remediation costs will have a material adverse impact on the consolidated financial statements.

There were no amounts on the consolidated statement of operations relating to environmental remediation for the year ended December 31, 2012 or for the year ended December 31, 2011. The amount charged to income on a pretax basis related to environmental remediation totaled $3.0 million for the Predecessor period ended June 16, 2010. Capital expenditures for environmental protection were $5.4 million and less than $1.0 million for the years ended December 31, 2012 and 2011, respectively, and less than $0.1 million for the Successor period ended December 31, 2010. Capital expenditures for environmental protection were $2.4 million for the Predecessor period ended June 16, 2010.

Purchase Commitments

Trinseo has certain raw material purchase contracts where it is required to purchase certain minimum volumes at current market prices. These commitments range from 1 to 8 years. The following table presents the fixed and determinable portion of the obligation under Trinseo's purchase commitments at December 31, 2012 (in millions):

Year	Annual Commitment
2013	$ 2,667.5
2014	2,149.7
2015	1,803.2
2016	1,794.0
2017	1,771.1
Thereafter	3,851.5
Total	$ 14,037.0

In certain raw material purchase contracts, the Company has the right to purchase less than the required minimums and pay a liquidated damages fee, or, in case of a permanent plant shutdown, to terminate the contracts. In such cases, these obligations would be less than the obligations shown in the table above.

The Company has service agreements with Dow and Bain Capital, some of which contain fixed annual fees. See Note Q for further discussion.

Litigation Matters

From time to time, the Company may be subject to various legal claims and proceedings incidental to the normal conduct of business, relating to such matters as product liability, antitrust/competition, past waste disposal practices and release of chemicals into the environment. While it is impossible at this time to determine with certainty the ultimate outcome of these routine claims, management does not believe that the ultimate resolution of these claims will have a material adverse effect on the Company's results of operations, financial condition or cash flow.

Legal costs, including those legal costs expected to be incurred in connection with a loss contingency, are expensed as incurred.

In 2003, the U.S., Canadian and European competition authorities initiated separate investigations into alleged anticompetitive behavior by certain participants in the synthetic rubber industry, which the Business operates in. Dow has responded to requests for documents and is otherwise cooperating in the investigations. On June 10, 2005, Dow received a Statement of Objections from the European Commission (the "EC") stating that it believed that Dow, together with other participants in the synthetic rubber industry, engaged in conduct in violation of European competition laws with respect to the butadiene rubber and emulsion styrene butadiene rubber businesses. In connection therewith, on November 29, 2006, the EC issued its decision alleging infringement of Article 81 of the Treaty of Rome and imposed a fine of € 64.6 million on Dow; several other companies were also named and fined. Dow has appealed the EC's decision. On October 13, 2009, the Court of First Instance held a hearing on the appeal of all parties. The liability from this action was allocated, for accounting purposes, to the Styron business by Dow in the preparation of our Predecessor period financial statements. Any potential liability related to this action is retained by Dow and is only presented in the Predecessor financial statements. There were no amounts accrued for this liability as of December 31, 2012 or December 31, 2011.

NOTE O—PENSION PLANS AND OTHER POSTRETIREMENT BENEFITS

Defined Benefit Pension Plans

A majority of Trinseo employees, who were previously employees of Dow, are participants in various defined benefit pension and other postretirement plans which are administered and sponsored by either Dow or Trinseo.

In connection with the Acquisition, the Company and Dow entered into affiliation agreements in certain jurisdictions (the "Affiliation Agreements") allowing employees who transferred from Dow as of June 17, 2010 to remain in the Dow operated pension plans ("Dow Plans") until Trinseo established its own pension plan. Trinseo has made the required employer contribution amounts to the Dow Plans for the Company's employees and the related pension benefit obligations for the Company's employees have been accumulating in the Dow Plans since the Acquisition Date. In 2011, Dow Plans originally established in Germany and Japan, were legally separated into Trinseo's own administered and sponsored plans. The Affiliation Agreements between the Company and Dow ended on December 31, 2012. Effective January 1, 2013, all employees who were previously participants of the Dow Plans under the Affiliation Agreements in Switzerland and the Netherlands, transferred to a separately administered and sponsored pension plan of Trinseo.

Trinseo employees, who were not previously associated with the acquired pension and postretirement plans, are generally not eligible for enrollment in these plans. Pension benefits are typically based on length of service and the employee's final average compensation.

Other Postretirement Benefits

The Company provides certain health care and life insurance benefits to retired employees. The Company's plans outside of the United States are not significant; therefore, this discussion relates to the U.S. plans only. The plans provide health care benefits, including hospital, physicians' services, drug and major medical expense coverage, and life insurance benefits. In general, for employees hired by Dow before January 1, 1993, the plans provide benefits supplemental to Medicare when retirees are eligible for these benefits. The Company and the retiree share the cost of these benefits, with the Company portion increasing as the retiree has increased years of credited service, although there is a cap on the Company portion. The Company has the ability to change these benefits at any time. Employees hired after January 1, 2008 are not covered under the plans.

Assumptions

The weighted-average assumptions used to determine pension plan obligations and net periodic benefit costs are provided below:

	Pension Plan Obligations December 31,			Net Periodic Benefit Costs December 31,		
	2012	2011	2010	2012	2011	2010
Discount rate	3.05%	4.49%	4.46%	4.49%	4.46%	4.33%
Rate of increase in future compensation levels	2.69%	2.64%	2.94%	2.64%	2.94%	2.96%
Expected long-term rate of return on plan assets	N/A	N/A	N/A	4.09%	4.69%	4.00%

The weighted-average assumptions used to determine other postretirement benefit ("OPEB") obligations and net periodic benefit costs are provided below:

	OPEB Obligations December 31,			Net Periodic Benefit Costs December 31,		
	2012	2011	2010	2012	2011	2010
Discount rate	3.93%	5.08%	5.70%	5.08%	5.70%	5.60%
Initial health care cost trend rate	7.00%	7.33%	7.67%	7.33%	7.67%	8.00%
Ultimate health care cost trend rate	5.00%	5.00%	5.00%	5.00%	5.00%	5.00%
Year ultimate trend rate to be reached	2019	2019	2019	2019	2019	2019

The discount rate utilized to measure the pension and other postretirement benefit plans is based on the yield of high-quality fixed income debt instruments at the measurement date. Future expected actuarially determined cash flows of the plans are matched against a yield curve to arrive at a single discount rate for each plan.

The expected long-term rate of return on plan assets is determined by performing a detailed analysis of key economic and market factors driving historical returns for each asset class and formulating a projected return based on factors in the current environment. Factors considered include, but are not limited to, inflation, real economic growth, interest rate yield, interest rate spreads, and other valuation measures and market metrics. The expected long-term rate of return for each asset class is then weighted based on the strategic asset allocation approved by the governing body for each plan. The historical experience with the pension fund asset performance is also considered.

A one-percentage point change in the assumed health care cost trend rate would have had a nominal effect on both service and interest costs as well as the projected benefit obligations.

The net periodic benefit costs for the pension and other postretirement benefit plans for the year ended December 31, 2012 and 2011 and the period June 17, 2010 through December 31, 2010 were as follows:

Plan Assets

For plans that have not yet been separately established from Dow, plan assets consist primarily of receivables from Dow, which are based on a contractually determined proportion of Dow’s plan assets. Dow’s underlying plan assets consist of equity and fixed income securities of U.S. and foreign issuers and insurance

contracts, and may include alternative investments such as real estate and private equity. At December 31, 2012 and December 31, 2011, plan assets totaled $72.3 million and $50.2 million, respectively. Of these amounts, $58.2 million and $42.3 million, respectively, represent receivables from Dow, which are based on Trinseo's proportionate share in Dow plan assets, for the years ended December 31, 2012 and 2011. These assets are expected to be received from Dow in the first quarter of 2013 which will be transferred into the Company's new plans effective as of January 1, 2013 and invested into insurance contracts that provide for guaranteed returns.

For plans that have been separately established, plan assets consist of insurance contracts that provides for guaranteed returns. Investments in the foreign pension plan insurance contracts of approximately $14.2 million were valued utilizing unobservable inputs, which are contractually determined, regarding returns, fees, and the present value of the future cash flows of the contract. The contracts are classified as Level 3 investments.

Concentration of Risk

The Company and Dow mitigate the credit risk of investments by establishing guidelines with investment managers that limit investment in any single issue or issuer to an amount that is not material to the portfolio being managed. These guidelines are monitored for compliance both by the Company and Dow and external managers. Credit risk related to derivative activity is mitigated by utilizing multiple counterparties and through collateral support agreements.

Successor Pension Plans

Effective January 1, 2013, all employees who were previously participants of the Dow Plans under the Affiliation Agreements in Switzerland and Netherlands, transferred to a separately administered and sponsored pension plan of Trinseo each in Switzerland and Netherlands (the "Successor Plans"). The plan assets in the Dow Plans belonging to the Company's employees will also be transferred to the Successor Plans. The company is currently evaluating the impact of these transfers to its 2013 results of operations and financial position.

Supplemental Employee Retirement Plan

In the Successor Period in 2010, the Company established a non-qualified Supplemental Employee Retirement Plan. The net benefit costs recognized for the years ended December 31, 2012, 2011 and 2010 were $2.6 million, $2.8 million and $2.2, respectively. As of December 31, 2012, the Company had a change in the plan assumptions, which resulted in an actuarial loss of approximately $2.2 million, net of tax of $1.4 million. The amount was recognized in the other comprehensive income. Benefit obligations under this plan were $11.2 million and $5.0 million as of December 31, 2012 and 2011, respectively.

Defined Benefit Pension and Other Postretirement Plans-Predecessor Periods

A majority of the Styron business's employees were participants in various defined benefit pension and other postretirement plans administered and sponsored by Dow. Pension benefits are based on length of service and the employee's final average compensation. The other postretirement plans provide certain health care and life insurance benefits to retired employees.

The Predecessor financial statements reflect the plans on a multi-employer basis in accordance with the authoritative guidance on accounting for multi-employer plans. The pension and other postretirement benefit obligations and service costs of Dow's plans were determined based on actuarial valuations of individual participant data. Other costs were allocated based on the employee's proportionate share of the pension obligations for the respective Dow plans they participated in. The pension and other postretirement plan expense for the participating Trinseo employees was $6.3 million for the period ended June 16, 2010.

Defined Contribution Plans

Successor Period

The Company also offers defined contribution plans to eligible employees in the U.S. and in other countries, including Australia, China, Brazil, Hong Kong, Switzerland, Taiwan and the United Kingdom. The defined contribution plans are comprised of a non-discretionary elective matching contribution component as well as a discretionary non-elective contribution component. Employees participate in the non-discretionary component by contributing a portion of their eligible compensation to the plan, which is partially matched by the Company. Non-elective contributions are made at the discretion of the Company and are based on a combination of eligible employee compensation and performance award targets. For the years ended December 31, 2012 and 2011, respectively, the Company contributed $7.0 million and $7.7 million to the defined contribution plans. For the period from June 17, 2010 through December 31, 2010, the Company contributed $3.0 million to the defined contribution plans.

Predecessor Period

Dow offered defined contribution plans (i.e. employee savings plans) to eligible employees in the U.S. whereby employees participate by contributing a portion of their compensation, which is partially matched by the Company. Defined contribution plans also cover certain employees in other countries, including Australia, Brazil, Hong Kong, Switzerland, Taiwan and the United Kingdom. Contributions were allocated to the Styron business based on headcount for all defined contribution plans in which Styron employees participated in. Allocated contributions totaled $1.9 million for the period from January 1, 2010 through June 16, 2010.

NOTE P—STOCK-BASED COMPENSATION

Successor Period

Service-Based and Performance-Based Restricted Stock

On June 17, 2010, the Parent authorized the issuance of up to 750,000 shares in service-based and performance-based restricted stock to certain key members of management. Any related compensation associated with these awards is allocated to the Company from the Parent.

Service-based restricted stock awards vest over four to five years with a portion (25% or 40%) cliff vesting after one or two years. The remaining portion of the awards vest ratably over the subsequent three years, subject to the participant’s continued employment with the Company, and vest automatically upon a change of control of the Company excluding a change in control related to an initial public offering (“IPO”). Should a participant’s termination occur within defined time frames due to death or permanent disability, a termination of the participant by the Company or one of its subsidiaries without cause, or the participant’s voluntary resignation for good reason, a portion of the unvested restricted stock awards will either vest on the termination date or up to twelve months thereafter.

The performance-based restricted stock awards contain a service-based component, and vest in the same manner as all other service-based awards, but only if certain targets are achieved based on various returns realized by our stockholders on a change in control or an IPO. Generally, performance-based restricted stock will not vest until a change in control or an IPO. Holders of vested performance-based stock are entitled to distributions from the Parent only after investors in the Parent have received distributions equal to their original investment.

The Parent has a call right that gives it the option, but not the obligation, to repurchase vested stock at the then current fair value upon an employee’s termination, or at cost in certain circumstances.

A summary of our service-based restricted stock awards activity during the 2012 are as follows:

Service-based restricted stock	Shares	Weighted-Average Grant Date Fair Value(1)
Unvested, December 31, 2011	111,900	$ 177.48
Granted	31,247	204.32
Vested	(44,538)	152.29
Forfeited	(6,778)	241.05
Redeemed	—	—
Unvested, December 31, 2012	91,831	$ 194.13

(1) Weigted-average per share

Total compensation expense for service-based restricted stock awards was $4.2 million, $10.2 million and $5.5 million, for the years ended December 31, 2012 and 2011, and the Successor period ended December 31, 2010, respectively. Compensation expense recognized for the year ended December 31, 2012 includes an adjustment, which resulted in a reduction of expense of approximately $2.5 million. The adjustments relate to the correction of prior period grant date fair values of service-based and performance-based restricted stock awards and the correction of prior period grant service based stock award vesting periods. The Company does not believe this is material to the current or prior period financial statements.

Based on the nature of the employee groups who received awards and the limited number of employees who received grants during the year ended December 31, 2012, 2011 and the Successor period ended December 31, 2010, Trinseo is currently anticipating there will be no forfeitures. To the extent actual forfeitures occur, they will be recorded as an adjustment to compensation expense in the periods in which they occur, and estimates may be revised as necessary. As of December 31, 2012 there was $9.5 million of total unrecognized compensation cost related to service-based restricted stock awards. That cost is expected to be recognized over a weighted-average period of 3.4 years.

The fair values of performance-based restricted stock awards were estimated on the date of grant using a combination of a call option and digital option model that uses assumptions about expected volatility, risk-free interest rates, the expected time until a performance condition will be met, and dividend yield. The expected volatilities are based on a combination of implied and historical volatilities of a peer group of companies, as the Company is a non-publicly traded company. The risk-free rate is based on the U.S. Treasury yield curve in effect at the time of grant for periods corresponding with the expected life of the awards. The expected term represents management's probability-weighted estimate of the expected time until a change in control or IPO occurs. The expected dividend yield is based on an assumption that no dividends are expected to be approved in the near future.

The following are the weighted average assumptions used for grants during the years ended December 31, 2012 and December 31, 2011, and the Successor period ended December 31, 2010, respectively:

	Year Ended December 31,		June 17 through December 31,

Expected term (in years) for performance-based shares	3.85	2.54	4.33

(1) Weighted-average per share

With the exception of compensation expense recorded in 2011 on the redemption of performance-based restricted stock awards as a part of the shareholder distribution and share redemption during the first quarter of 2011, the Company has not recorded compensation expense related to performance-based restricted stock awards as the likelihood of achieving the performance condition was not deemed to be probable as of December 31, 2012. Should this determination change in the future, compensation expense will be recognized over any remaining service period at that time. As of December 31, 2012, there was $15.9 million of total unrecognized compensation cost related to performance-based restricted stock awards.

Additional information for our service-based and performance-based restricted stock awards for the years ended December 31, 2012 and 2011 and the Successor period ended December 31, 2010, respectively, were as follows:

Stockholder distribution and share redemption

On February 3, 2011, the Company used a portion of the proceeds from the 2011 Term Loans to pay a distribution to the stockholders of the Parent, including Bain Capital, Dow and certain executives, through a redemption of certain classes of the Parent's shares. The shares redeemed included a portion of the outstanding un-vested service-based and performance-based restricted stock awards as well as a portion of the issued and outstanding restricted stock. As a result of the share redemption, the Company recorded a one-time stock-based compensation charge of $11.1 million in the first quarter of 2011 reflecting the settlement of previously unvested service-based and performance-based restricted stock awards redeemed.

For certain employees, a portion or all of this distribution attributable to unvested serviced-based and performance-based restricted awards was withheld and put in escrow, to be paid out two years from the employees' date of hire, subject to the participant's continued employment with the Company. The amounts held in escrow vest ratably over the two year period of time after the employee's hire date. At the date of the redemption, the Parent recorded a liability to reflect the amount held in escrow each employee had already vested in as of the date of the redemption. Compensation expense on the unvested amount of the distribution withheld in escrow will be recognized ratably over the remaining service period from the time of the redemption. Total

compensation expense for these liability awards was $0.9 million and $0.8 million for the years ended December 31, 2012 and December 31, 2011, respectively. There was no compensation expense for these liability awards during the Successor period ended December 31, 2010. As of December 31, 2012, there was less than $0.1 million of total unrecognized compensation cost related to these liability awards. That cost is expected to be recognized over a weighted-average period of less than 0.1 years.

Management Retention Awards

During the year ended December 31, 2012, the Parent agreed to retention awards with certain officers. These awards generally vest over one to four years, and are payable upon vesting subject to the participant's continued employment with the Company on the vesting date. Compensation expense related to these retention awards is equivalent to the value of the award, and is being recognized as compensation expense ratably over the applicable service period. There were no retention awards granted by the Parent and no compensation expense recorded during the year ended December 31, 2011 or the Successor period ended December 31, 2010. Total compensation expense for these retention awards was $2.3 million for the year ended December 31, 2012. As of December 31, 2012, there was $2.7 million in unrecognized compensation cost related to these retention awards. That cost is expected to be recognized over a period of 3.0 years.

Restricted Stock

During the year ended December 31, 2011, the Parent sold 1,561 shares of non-transferable restricted stock to certain employees, all of which were sold at a purchase price less than the fair value of the Parent's common stock. As a result, during the year ended December 31, 2011, the Company recorded compensation expense of $0.2 million related to these restricted stock sales. During the Successor period ended December 31, 2010, the Parent sold 18,870 shares of non-transferable restricted stock to certain employees, of which 12,870 were sold at a purchase price less than the fair value of the Parent's common stock. As a result, during the Successor period ended December 31, 2010, the Company recorded compensation expense of $3.7 million related to these restricted stock sales. The restricted stock may not be transferred without the Parent's consent except for a sale to the Parent or its investors in connection with a termination or on an IPO or other liquidation event.

The amount of stock-based compensation expense recognized in SG&A in the years ended December 31, 2012 and December 31, 2011, and the Successor period ended December 31, 2010, respectively, was as follows:

	Year Ended December 31,		June 17 through December 31,

Predecessor Periods

Styron business employees participated in Dow's stock-based compensation plan to employees in the form of the Employees' Stock Purchase Plan and stock option plans, which include deferred and restricted stock. Information regarding these plans is provided below.

Accounting for Stock-Based Compensation

Dow grants stock-based compensation awards that vest over a specified period or upon employees meeting certain performance and retirement eligibility criteria. The fair value of equity instruments issued to employees is measured on the grant date and is recognized over the vesting period or from the grant date to the date on which retirement eligibility provisions have been met and additional service is no longer required.

A lattice-based option valuation model is used to estimate the fair value of stock options and a Black-Scholes option valuation model is used for subscriptions to purchase shares under the Employees' Stock Purchase Plan ("ESPP").

The weighted-average assumptions used to calculate total stock-based compensation are included in the following table:

	January 1 through June 16, 2010
Dividend yield	2.52%
Expected volatility	47.43%
Risk-free interest rate	1.28%
Expected life of stock options granted during the period	6.50 years
Life of employees' stock purchase plan	5.15 months

The dividend yield assumption for 2010 was based on a 30/70 blend of Dow's then current declared dividend as a percentage of the stock price on the grant date and a 10-year dividend yield average. The expected volatility assumption for 2010 was based on an equal weighting of the historical daily volatility and then current implied volatility from exchange-traded options for the contractual term of the options. The risk-free interest rate was based on the weighted-average of U.S. Treasury strip rates over the contractual term of the options. Based on an analysis of historical exercise patterns, exercise rates were developed that resulted in an average life of 6.5 for 2010.

All compensation costs related to Styron business employees were recognized as of June 16, 2010. As these employees no longer have a service requirement to Dow, all expenses related to these employees have been recognized. The awards outstanding will vest according to the original terms even though the service period has been satisfied.

Employees' Stock Purchase Plans

On February 13, 2003, the Dow Board of Directors authorized a 10-year ESPP, which was approved by stockholders at Dow's annual meeting on May 8, 2003. Under the 2010 annual offering, most employees were eligible to purchase shares of common stock of Dow valued at up to 10% of their annual base earnings. The value is determined using the plan price multiplied by the number of shares subscribed to by the employee. The plan price of the stock is set each year at no less than 85% of market price. Approximately 52% of the eligible Trinseo employees enrolled in the annual plan for 2010.

Trinseo employees enrolled in the 2010 plan had 30 days from June 16, 2010, or if retirement eligible, until November 12, 2010 to exercise their shares, after which time the shares were forfeited.

Stock Option Plans

Under the 1988 Award and Option Plan (the "1988 Plan"), a plan approved by stockholders, Dow may grant options or shares of common stock to its employees subject to certain annual and individual limits. The terms of the grants are fixed at the grant date. At December 31, 2009, there were 19,782,822 shares available for grant under this plan.

The exercise price of each stock option equals the market price of Dow's stock on the date of grant. Options vest from one to three years, and have a maximum term of 10 years. Options granted to Styron business employees vest according to the original vesting schedule. Vested options can be exercised through the earlier of the original expiration date or 5 years following separation.

The following table provides stock option activity for Styron business employees:

Restricted Stock Awards

Under the 1988 Plan, Dow grants deferred stock to certain employees. The grants vest after a designated period of time, generally two to five years. Deferred and restricted stock granted to Styron business employees will be delivered according to the original grant terms and conditions. Deferred and restricted stock granted in 2010 were prorated based on the number of months worked for Dow during the calendar year.

Also under the 1988 Plan, Dow has granted performance deferred stock awards that vest when Dow attains specified performance targets over a predetermined period, generally one to three years. Compensation expense related to performance deferred stock awards is recognized over the lesser of the service or performance period. Performance deferred stock granted to Styron business employees will be delivered according to the original grant terms and conditions. Performance deferred stock granted in 2010 were prorated based on the number of months worked for Dow during the calendar year.

All compensation costs related to Styron business employees were recognized as of June 16, 2010. As these employees no longer have a service requirement to Dow, all expenses related to these employees have been recognized. The awards outstanding will vest according to the original terms even though the service period has been satisfied.

NOTE Q—RELATED PARTY AND DOW TRANSACTIONS

The financial statements include significant transactions with Dow involving services (such as cash management, other financial services, purchasing, legal and information technology) that were provided to the Company by centralized Dow operations. For periods prior to the Acquisition, the costs of services have been directly charged or allocated to the Company by Dow using methods management believes are reasonable. These methods include negotiated usage rates, dedicated asset assignment and proportionate corporate formulas involving assets, revenues and employees. Such charges and allocations are not necessarily indicative of what would have been incurred if the Company had been a separate entity.

Subsequent to the Acquisition, these arrangements between the Company and Dow are being provided under service agreements or other long-term agreements.

In conjunction with the Acquisition, the Company entered into certain agreements with Dow, including the one-year TSA and the five-year MOSA. These agreements provide for ongoing services from Dow in areas such as information technology, human resources, finance, environmental health and safety, training, supply chain and purchasing. The agreements expire at various times ranging from six months to five years subsequent to the Acquisition Date. Although the term of the MOSA is five years, the Company has the option to terminate substantially all of the services provided under this arrangement and the Company’s contractual commitments for these services will terminate upon 180 days after the appropriate notice. The estimated minimum contractual

obligations under the MOSA are $50.6 million and $54.4 million as of December 31, 2012 and December 31, 2011, respectively. In addition, the Company entered into certain Site and Operating Service Agreements. Under the Site Services Agreement ("SSA"), Dow provides the Company utilities and other site services for Company-owned plants. Under the Operating Services agreements the Company provides services to Dow and receives payments for the operation of a Dow-owned plant. These agreements generally have 25-year terms, with automatic renewals for five-year terms unless one party gives notice at least 18 months prior to the end of the period. The Company has the option to terminate these agreements subject to certain ongoing capital costs for each site agreement. The Company's contractual commitments for these site services would generally be for a period of 45 to 60 months upon appropriate notice of termination of each site service agreement. For the years ended December 31, 2012 and 2011, the Company incurred a total of $317.6 million and $354.6 million in expenses under these agreements, respectively, including $214.5 million and $232.9 million for both the variable and fixed cost components of the Site Service Agreements and $103.1 million and $121.7 million covering all other agreements, respectively. For the Successor period ended December 31, 2010, the Company incurred a total of $171.5 million in expenses under these agreements, including $101.9 million for both the variable and fixed cost components of the Site Service Agreements and $69.6 million covering all other agreements.

In connection with the Acquisition and the execution of the Purchase Agreement, on June 17, 2010, the Styron Holdcos entered into a latex joint venture option agreement (the "Latex JV Option Agreement") with Dow, pursuant to which Trinseo granted Dow an irrevocable option to purchase 50% of the issued and outstanding interests in a joint venture to be formed by Dow and the Styron Holdcos with respect to the SB Latex business in Asia, Latin America, the Middle East, Africa, Eastern Europe, Russian and India (the "Emerging Markets SB Latex Business"), at a purchase price equal to the fair value attributable to the Emerging Markets SB Latex Business as defined in the Latex JV Option Agreement. On July 8, 2011, Dow exercised its option pursuant to the Latex JV Option Agreement and, under the terms thereof, Dow and the Styron Holdcos must (i) form the joint venture, (ii) enter into a joint venture formation agreement pursuant to which all of the assets of the Emerging Markets SB Latex Business shall be contributed to the joint venture, (iii) enter into a shareholders' agreement with respect to the governance of the joint venture and (iv) enter into customary ancillary agreement with respect to the joint venture and the transfer of the interests in the joint venture to Dow. Trinseo entered into an amendment, effective as of August 9, 2011, to the Latex JV Option Agreement to suspend the timing of the JV Latex Option to allow for additional business discussions. Dow and Trinseo agreed to suspend the requirements to take certain actions required in light of Dow's exercise of its option through the earlier of June 17, 2015 or the completion of the Company's initial public offering. In addition, if we do not come to an agreement with Dow, the amendment allows Dow to either reinstate the exercise under the terms of the original agreement or terminate the Latex JV Option Agreement in its entirety.

In addition, the Company has transactions in the normal course of business with Dow and its affiliates. For the years ended December 31, 2012 and 2011, sales to Dow and its affiliated companies were approximately $311.4 million and $331.1 million, respectively. For the years ended December 31, 2012 and 2011, purchases (including MOSA and SSA services) from Dow and its affiliated companies were approximately $2,654.7 million and $2,538.7 million, respectively. For the Successor period ended December 31, 2010, sales to and purchases from Dow and its affiliated companies were approximately $224.9 million and $1,406.9 million, respectively.

As of December 31, 2012 and 2011, receivables from Dow and its affiliated companies were approximately $22.1 million and $36.9 million, respectively, and are included in "Accounts receivable" on the consolidated balance sheet. As of December 31, 2012 and 2011, payables to Dow and its affiliated companies were approximately $244.6 million and $70.2 million, respectively, and are included in "Accounts payable" on the consolidated balance sheet.

Bain Capital provides management services to the Company pursuant to an advisory agreement with a fee of $1.0 million payable per quarter. Bain Capital also provides advice pursuant to a transaction services agreement, with fees payable as a percentage of the transaction value of each financing, acquisition, or similar transaction. Both agreements have a 10-year initial term. Total fees incurred from Bain Capital for these management and

transaction advisory services, including fees related to the Acquisition and the Company's financing arrangements, were $4.6 million, $11.4 million and $20.2 million, respectively, for the years ended December 31, 2012, 2011 and the Successor period ended December 31, 2010.

NOTE R—SEGMENTS

The Company operates four segments under two principal business units. The Emulsion Polymers business unit includes a Latex segment and a Synthetic Rubber segment. The Plastics business unit includes a Styrenics segment and an Engineered Polymers segment.

The Latex segment produces SB latex primarily for coated paper and packaging board, carpet and artificial turf backings, as well as a number of performance latex applications. The Synthetic Rubber segment produces synthetic rubber products used predominantly in tires, with additional applications in polymer modification and technical rubber goods, including conveyer and fan belts, hoses, seals and gaskets. The Styrenics and Engineered Polymers segments offer complementary plastics products with formulations developed for durable applications, such as consumer electronics, automotive and construction. Through these two segments, the Company provides a broad set of plastics product solutions to its customers.

The primary measure of segment operating performance is EBITDA, which is defined as net income (loss) before interest, taxes, depreciation and amortization. EBITDA is a key metric that is used by management to evaluate business performance in comparison to budgets, forecasts, and prior year financial results, providing a measure that management believes reflects the Company's core operating performance.

Segment information for the Predecessor period has been recast to conform to the Successor segment presentation. In the Predecessor period, sales between segments reflect pricing at Dow's cost to manufacture. In the Successor periods, sales between segments reflect market pricing. As a result of this change, EBITDA for the Latex and Engineered Polymers segments has been unfavorably impacted by $2.0 million and $13.0 million, respectively, in the 2010 Successor period, and EBITDA for the Synthetic Rubber and Styrenics segments has been favorably impacted by $1.0 million and $15.0 million, respectively, in the 2010 Successor period.

Asset information is not accounted for at the segment level and consequently is not reviewed or included with our internal management reporting. Therefore, the Company has not disclosed asset information for each reportable segment.

Styron operates 36 manufacturing plants (which include a total of 84 production units) at 28 sites in 15 countries, inclusive of joint ventures and contract manufacturers. NOTE S—RESTRUCTURING

In February 2012, the Company announced an organizational restructuring program that includes changes to many employees' roles and elimination of approximately 90 roles globally. This restructuring is driven by the business reorganization, as well as the need to further reduce costs due to challenging economic outlook for 2012. As a result of this initiative, as well as other employee separations during 2012, the Company recorded special termination benefit charges of approximately $7.5 million for the year ended December 31, 2012. For the year ended December 31, 2011, the Company recorded special termination benefit charges of approximately $9.2 million

The restructuring charges were included in "Selling, general and administrative expenses" in the consolidated statement of operations and the related liability is included in "Accrued expenses and other current liabilities" on the consolidated balance sheet. As of December 31, 2012, approximately $6.7 million of the special termination benefits expensed during the year ended December 31, 2012 have been paid out to terminated employees, with the remaining amount expected to be paid within the next 12 months.

NOTE T—FOREIGN EXCHANGE FORWARD CONTRACTS

The Company manages its exposures to changes in foreign currency exchange rates where possible by paying expenses in the same currency in which we generate sales in a particular country as well as using derivative contracts which are not designated for hedge accounting treatment. During 2012, the Company entered into foreign exchange forward contracts that are not designated as hedging instruments to manage volatility in foreign currency exposures. As of December 31, 2012, the Company had open foreign exchange forward contracts with various expiration dates to buy euro currency with a notional U.S. dollar equivalent of $82.0 million. The fair value of the foreign exchange forward contracts amounted to $3.8 million as of December 31, 2012 recorded in "Accounts payable" on the consolidated balance sheet. As these foreign exchange forward contracts are not designated for hedge accounting treatment, changes in the fair value of underlying instruments are recognized in "Other expense (income)" in the consolidated statement of operations.

NOTE V—SUBSEQUENT EVENTS

In January 2013, the Company entered into an amendment to increase the Company's Revolver borrowing capacity and concurrently repay the Company's outstanding 2011 Term Loans using the proceeds from Senior Notes issued on January 29, 2013. These transactions are discussed in detail in Note J.

Effective January 1, 2013, employees, who were previously participants in the Dow Plans under an Affiliation Agreements in Switzerland and Netherlands, transferred to a separately administered and sponsored pension plan of Trinseo. This transaction is discussed in detail in Note O.

The Company evaluated subsequent events after the balance sheet date of December 31, 2012 through to the time the consolidated financial statements were available for issuance on March 13, 2013.

NOTE W—SUPPLEMENTAL GUARANTOR CONDENSED CONSOLIDATING FINANCIAL STATEMENTS

In connection with the issuance of the Senior Notes by Trinseo Materials Operating S.C.A. and Trinseo Materials Finance, Inc. (the "Issuers"), this supplemental guarantor financial statement disclosure is included in accordance with Rule 3-10 of Regulation S-X. The Senior Notes are fully and unconditionally guaranteed, jointly and severally, on a senior unsecured basis, in each case, subject to certain exceptions, by Trinseo S.A. (the "Parent Guarantor") and by certain subsidiaries (together, the "Guarantor Subsidiaries").

Each of the Guarantor Subsidiaries is 100 percent owned by the Company. None of the other subsidiaries of the Company, either direct or indirect, guarantee the Senior Notes (together, the "Non-Guarantor Subsidiaries"). The Guarantor Subsidiaries of the Senior Notes, excluding the Parent Guarantor, will be automatically released from those guarantees upon the occurrence of certain customary release provisions.

The following supplemental condensed consolidating financial information is presented to comply with the Company's requirements under Rule 3-10 of Regulation S-X:

- the Consolidating Balance Sheets as of December 31, 2012 and December 31, 2011;

- the Consolidating Statements of Comprehensive Income (Loss) for the years ended December 31, 2012 and 2011 and for the period from June 17, 2010 through December 31, 2010; and
- the Consolidating Statements of Cash Flows for the years ended December 31, 2012 and 2011 and for the period from June 17, 2010 through December 31, 2010.

The Company has not included condensed consolidating information on an issuer, subsidiary guarantor and non-guarantor basis under Rule 3-10 of Regulation S-X for the period from January 1, 2010 through June 16, 2010 (the "Predecessor Period"), as such discrete financial information either does not exist, or would be extremely difficult, if even possible, to produce. Prior to, and during the Predecessor Period, the Company's business had not been operated as a stand-alone business, or as a distinguishable business unit. Accordingly, we believe that the inclusion of such information for the Predecessor Period is not necessary to understand the business, assets, operations, and cash flows of those entities providing the above-described guarantee.

The Condensed Consolidating Financial Statements are presented using the equity method of accounting for its investments in 100 percent owned subsidiaries. Under the equity method, the investments in subsidiaries are recorded at cost and adjusted for our share of the subsidiaries cumulative results of operations, capital contributions, distributions and other equity changes. The elimination entries principally eliminate investments in subsidiaries and intercompany balances and transactions. The financial information in this footnote should be read in conjunction with the Consolidated Financial Statements presented and other notes related thereto contained in this Registration Statement on Form S-4.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
AS OF DECEMBER 31, 2012 AND 2011 AND FOR THE YEARS ENDED DECEMBER 31, 2012, 2011 AND 2010
(Amounts in millions of dollars)

1. FORMATION OF VENTURE

Effective May 1, 2008, Chevron Phillips Chemical ("CPChem") and The Dow Chemical Company ("Dow") joined forces in styrenics by creating Americas Styrenics LLC (the "Company"). Effective July 1, 2009, Dow formed a separate plastics division, Styron Corp., which held its investment in the Company. Effective June 17, 2010, Dow divested its ownership in Styron Corp., making it an independent company, Styron LLC. CPChem, Dow (through June 17, 2010) and Styron LLC (subsequent to June 17, 2010) are referred to herein as the "Members." The Members share equally in the profits and losses of the Company.

2. NATURE OF OPERATIONS AND SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation —The consolidated financial statements include the accounts of the Company and its subsidiaries. All intercompany accounts and transactions have been eliminated in consolidation. The Company's subsidiaries and partnership interests are as follows: Americas Styrenics Colombia Ltda, Americas Styrenics Argentina S.R.L., Americas Styrenics Chile Commercial Ltda, Americas Styrenics de Mexico, de R.L. de C.V., Americas Styrenics Canada Inc., and Americas Styrenics Industria e Comercico de Poliestireno Ltda (Brazil).

Nature of Operations —The Company was formed as a joint venture and focuses on styrenics (styrene and polystyrene) production, sales and distribution in North and South America.

Cash and Cash Equivalents —Included in cash and cash equivalents, from time to time, are short-term interest-bearing investments on deposit with financial institutions. There were approximately $55.0 and $50.9 of interest-bearing overnight investments at December 31, 2012 and 2011, respectively.

Trade Receivables —The Company's United States customers are primarily in the packaging industry, but also consist of other chemical and plastics manufacturers. The Company's foreign customers reside primarily in Argentina, Chile, Colombia, Mexico and Brazil. The Company's credit policy does not require collateral on product sales. The Company maintains an allowance for doubtful accounts based on anticipated collection of its accounts receivable.

Inventories —A breakdown of inventories at December 31, 2012 and 2011, is as follows:

	2012	2011
Finished goods	$ 53.5	$ 33.6
Work in process	76.2	74.8
Raw materials	2.0	7.3
Supplies	5.7	9.1
Total inventories	$137.4	$124.8

Inventories are stated at the lower of cost or market. Finished products and work-in-process inventories include material, labor, and manufacturing overhead costs. The reserves reducing inventories from a first-in, first-out (FIFO) basis to a last-in, first-out (LIFO) basis amounted to $122.9 at December 31, 2012, and $78.8 at December 31, 2011. In 2012, a reduction of certain inventories resulted in the liquidation of some of the Company's LIFO inventory layer increasing its operating income by $5.8. Foreign inventories are accounted for on a FIFO basis.

Property, Plant, and Equipment —Upon formation, property, plant, and equipment were recorded at the Members' net book value. Current additions of property, plant, and equipment are recorded at cost. The Company provides for depreciation using the straight-line method at rates based on the estimated service lives of the various classes of assets (3–45 years). Expenditures for repairs and maintenance, including major maintenance commonly known as turnarounds, are expensed as incurred. Components of property, plant, and equipment at December 31, 2012 and 2011, are as follows:

	2012	2011
Land and waterway improvements	$ 8.5	$ 6.8
Buildings	24.4	24.1
Transportation and construction equipment	47.9	47.9
Machinery and other equipment	829.3	825.0
Utilities and supply lines/other property	6.4	6.5
Construction in progress	14.7	3.6
Total property, plant, and equipment	931.2	913.9
Less accumulated depreciation	(631.2)	(592.7)
Net property, plant, and equipment	$ 300.0	$ 321.2

Income Taxes —The Company is treated as a flow-through partnership for U.S. federal income tax purposes and for most state income tax purposes. As such, the Company itself is not liable for U.S. federal income taxes. The Company files a U.S. partnership return which reflects each member's share of income or loss. The members are responsible for reporting and paying any tax on their respective income tax returns. The Company is directly liable for certain state income and franchise taxes, foreign withholding, and foreign direct or indirect taxes.

The Company has foreign subsidiaries in Mexico, Chile, Colombia, Argentina, and Canada. All foreign entities except the Canadian subsidiary have elected to be treated as disregarded foreign branches of the Company for U.S. purposes. As such, the income or loss of the respective disregarded entities will be included in the U.S. federal partnership return. The foreign subsidiaries are responsible for all applicable taxes on foreign operations, and these taxes have been provided for in the consolidated financial statements.

The Company has not recorded any liabilities for uncertain tax positions required under Financial Accounting Standards Board Accounting Standards Codification Topic 740, *Income Taxes* , which prescribes the accounting for uncertainty in income taxes recognized in an enterprise's financial statements.

Impairment of Long-Lived Assets —The Company evaluates the carrying value of long-lived assets to be held and used, including intangible assets, when events or circumstances warrant such a review. The carrying value of a long-lived asset to be held and used is considered impaired when the anticipated, separately identifiable undiscounted cash flows from such an asset are less than the carrying value of the asset. In that event, a loss is recognized based on the amount by which the carrying value exceeds the fair value of the long-lived asset. Fair value is determined primarily using the anticipated cash flows discounted at a rate commensurate with the risk involved. The Company's management concluded no impairment should be recorded in 2012, 2011 or 2010.

Asset Retirement Obligation —The Company assesses whether it has legal obligations associated with the retirement of tangible long-lived assets that result from the acquisition, construction, or development and (or) the normal operation of a long-lived asset, including any legal obligations that require disposal of a replaced part that is a component of a tangible long-lived asset. At December 31, 2012 and 2011, the Company had no significant asset retirement obligations.

Insurance —The Company maintains insurance for automobile risks, general liability including products, director and officers, workers compensation and property. This insurance is placed with highly rated insurance carriers. The limits and deductibles are consistent for a company of this size and structure.

Foreign Currency —The functional currency for the Company's foreign operations is the U.S. dollar, resulting in no currency translation adjustments. Foreign currency gains and losses are reflected in operations.

Use of Estimates —The preparation of the consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Revenue Recognition —The Company recognizes revenue when there is evidence of a sales agreement, the delivery of goods has occurred, the sales price is fixed or determinable, and the collectability of revenue is reasonably assured. Revenue includes the selling price of the product and all related delivery charges paid by the customer. Freight costs and any directly related associated costs of transporting finished product to customers are recorded as "cost of sales." Revenue is reduced at the time of sale for estimated customer-related incentives (mostly volume-related incentives).

Recent Accounting Pronouncements —On January 1, 2012, the Company adopted ASU 2011-05, "Comprehensive Income (Topic 220): Presentation of Comprehensive Income". The adoption of this guidance did not have a material impact of the Company's consolidated financial statements other than presentation on the consolidated statement of operations.

Subsequent Events —The Company has evaluated subsequent events through the date the financial statements were available to be issued of February 28, 2013.

3. INTEREST IN SILENT PARTNERSHIP

Upon initial formation of the Company, a Complementary Special Partnership Agreement (the "Silent Partnership") was signed between a subsidiary of Dow and Americas Styrenics Industria E Comercio de Polistireno for the purpose of producing, marketing, and selling polystyrene from a polystyrene facility in Brazil. Under the arrangement, the Company had no legal ownership of the facility but held a 50% economic interest in the operations of the facility. The Company accounted for the Silent Partnership as a collaborative arrangement. As the Company was not the principal in any of the operating activity of the facility, the Company only recorded its share of the net profit or loss from the operations of the facility in other expense. The Company recorded a loss of $7.1 in 2010, which was allocated entirely to CPChem.

On December 28, 2010, the Company, Styron LLC, and CPChem entered into a series of agreements, which resulted in the sale of the facility to an unrelated third party and an agreement to liquidate the Silent Partnership. Upon the execution of this agreement, the Company reversed the related-party payable that it had accrued for its share of the cumulative losses from the Silent Partnership. The reversal of this related-party payable was recorded directly in equity as a capital contribution.

At December 31, 2010, the Company had recorded a related company receivable of $6.3 for its share of the liquidation proceeds. The Company collected and then distributed $6.5, including accrued interest, to CPChem in the second quarter of 2011. During 2011, the Silent Partnership progressed toward liquidation and the Company recognized a gain of $0.2 on settlement of certain liabilities. Other than the liquidation proceeds, the Company made no cash payments and received no cash distributions as a result of its interest in the Silent Partnership.

4. REVOLVING CREDIT FACILITY

In August 2011, the Company entered into a $50.0 revolving credit facility with Comerica Bank that terminates in August 2015. At the Company's option, the interest rate under this facility equals either the prime or the London InterBank Offered Rate-based rate as defined in the credit agreement. The Company's accounts receivable have been pledged as collateral for the credit facility.

In 2009, the Company entered into a $40.0 revolving loan facility with Dow, which Dow assigned to Styron LLC in June 2010. The facility terminated in August 2011.

There were no outstanding borrowings at December 31, 2012, 2011 or 2010.

5. INCOME TAXES

The components of the income (loss) before taxes for the years ended December 31, 2012, 2011 and 2010, are as follows:

	2012	2011	2010
Domestic	$ 2.9	$(13.7)	$(12.1)
Foreign	23.5	10.1	8.6
Total income (loss) before taxes	$26.4	$ (3.6)	$ (3.5)

The components of income tax expense for the years ended December 31, 2012, 2011 and 2010, are as follows:

	2012	2011	2010
State—current	$—	$ 1.0	$ 0.1
Foreign—current	5.2	3.4	1.7
Foreign—deferred	2.2	(0.5)	3.3
Foreign—withholding	0.5	—	—
Total income tax expense	$ 7.9	$ 3.9	$ 5.1

The components of deferred income tax assets and liabilities at December 31, 2012 and 2011, are as follows:

	2012	2011
Tax loss carryforwards	$—	$ 0.4
Fixed assets	4.3	4.7
Other temporary differences	0.1	0.6
Gross deferred tax assets	4.4	5.7
Valuation allowance	—	(0.4)
Net deferred tax assets	$ 4.4	$ 5.3

In 2010, the Company corrected a misstatement by recording a deferred tax asset for Colombian fixed assets. Upon formation of the Company in 2008, Colombian fixed assets were recorded at carryover book value for U.S. GAAP reporting purposes, and at fair market value for local tax reporting purposes. Because the deferred tax asset was associated with the initial formation of the Company, the offset was recorded as an additional contribution from Members.

Undistributed earnings of foreign subsidiaries are not deemed to be permanently reinvested. Currently, undistributed earnings exist in the Canadian, Mexican, and Colombian subsidiaries. In 2012, the Company repatriated $6.5 in cash from its foreign subsidiaries. Future repatriation of earnings will not be subject to tax by the Company (but rather its Members); however, foreign withholding taxes may apply.

6. EMPLOYEE BENEFIT PLANS

The Company provides reimbursement of medical and dental costs to retired employees. The Company’s plan, the Retiree Reimbursement Account (RRA), was implemented on January 1, 2009, and is funded at the time of the employees’ retirement based on years of credited service which includes service rendered as

employees of Dow or CPChem. Thereafter, the Company is not obligated to make additional contributions. The Company has the ability to change the benefits at any time. All employees are eligible, except for former Dow employees that choose to participate in The Dow Chemical Company Retiree Medical Care Program upon retirement. The Company uses a December 31 measurement date for the RRA.

At December 31, 2012 and 2011, the RRA had a benefit obligation in the amount of $15.2 and $12.8, respectively. The Company contributed and paid benefits in the amount of $0.2 in each of the years 2012 and 2011 and $0.1 in 2010.

At December 31, 2012 and 2011, amounts recognized in the consolidated balance sheets consist of:

	2012	2011
Current liabilities	$ (0.4)	$ (0.3)
Noncurrent liabilities	(14.8)	(12.5)
Total	$(15.2)	$(12.8)

At December 31, 2012 and 2011, amounts recognized in accumulated other comprehensive loss were as follows:

	2012	2011
Net actuarial loss	$2.2	$0.6
Prior service cost	5.4	6.1
Total	$7.6	$6.7

In 2013, $0.8 of estimated prior service cost will be amortized from accumulated other comprehensive loss into net periodic benefit cost.

Net periodic benefit cost and components of other amounts recognized in other comprehensive loss were as follows:

	2012	2011	2010
Net periodic postretirement benefit cost	$ 1.7	$ 1.7	$ 1.7
Other changes in benefit obligations recognized in other comprehensive loss:			
Net actuarial loss	1.6	1.6	0.4
Recognized actuarial loss	—	—	0.1
Recognized prior service cost	(0.7)	(0.6)	(1.0)
Total recognized in other comprehensive loss	0.9	1.0	(0.5)
Total recognized in net periodic benefit cost and other comprehensive loss	$ 2.6	$ 2.7	$ 1.2

Due to the restructuring, as discussed in Note 9, a curtailment loss of $0.2 was recorded in net periodic benefit cost during 2010. No curtailment loss was recorded in during 2011 or 2012.

Actuarial assumptions used to determine benefit obligations and net periodic benefit cost were as follows:

	2012	2011	2010
Discount rate used to determine net periodic benefit cost	4.86%	5.25%	5.50%
Discount rate used to determine benefit obligation at December 31	3.44%	4.86%	N/A

	2012	2011	2010
Health Care Cost Assumptions			
Initial health care cost trend rate	9.50%	9.50%	10.00%
Ultimate health care cost trend rate	4.50%	4.50%	5.50%
Year ultimate reached	2022	2022	2020

Estimated health care cost trend rates can have a significant effect on the amounts reported for the RRA.

The Company expects to contribute approximately $0.3 to its RRA plan in 2013.

At December 31, 2012, the estimated future benefit payments, reflecting expected future service, as appropriate, are expected to be paid as follows:

2013	$ 0.3
2014	0.5
2015	0.6
2016	0.8
2017	1.0
2018 through 2022	7.4
Total	$10.6

The Company also has a defined contribution employee savings plan and made discretionary contributions of $3.0, $2.9 and $4.0 in 2012, 2011 and 2010, respectively.

7. COMMITMENTS AND CONTINGENCIES

The Company and its subsidiaries maintain outside service agreements and lease buildings, ground and easements, rail cars, and other vehicles under noncancelable operating leases, which expire on varying dates between 2013 and 2018.

Total future minimum annual rentals in effect at December 31, 2012, for noncancelable operating leases are as follows:

Years Ending December 31	
2013	$23.7
2014	11.2
2015	4.6
2016	3.4
2017	1.7
2018 through 2022	1.0
Total	$45.6

Expense for total rental and long-term commitments was $22.1, $21.3 and $25.4 for the years ended December 31, 2012, 2011 and 2010, respectively.

The Company has entered into long-term sales commitments and purchase agreements with several of its key suppliers, including its Members (Note 8, related-party transactions). The commitment contracts are for one- to three-year periods with some cost efficiency incentives. Because the pricing and supply fluctuates with the commodity market, a definitive dollar value cannot be determined.

In addition, the Company has purchase commitments of $24.4 mainly related to certain feedstock, utility and capital projects costs. The Company does not consider purchase orders to be firm commitments. If the Company chooses to cancel a purchase order, it may be obligated to reimburse the vendor for unrecoverable outlays incurred prior to cancellation under certain circumstances.

The Company is a party to various legal proceedings and claims incidental to the normal conduct of its business. Management believes that the ultimate disposition of these matters will not have a material adverse effect on the Company’s consolidated financial position or results of operations.

Pursuant to the contribution agreement, all preexisting environmental matters have been outlined for each site and any contingencies are the responsibility of Dow, per Section 4.10, and CPChem, per Section 5.10. All subsequent obligations will be the liability of the Company. No environmental reserve was recorded as of December 31, 2012, 2011 or 2010.

8. RELATED-PARTY TRANSACTIONS

The Company entered into various supply and purchase agreements with the Members and their affiliated companies. These agreements include sales and purchases of energy, raw materials and services. A summary of transactions for the years ended December 31, 2012, 2011 and 2010, is as follows:

	2012	2011	2010
Sales	$251.8	$255.8	$206.1
Purchases	948.8	859.0	777.0

The amounts included in the December 31, 2012 and 2011, consolidated balance sheets are included in the related company receivables and payables.

As discussed in Note 1, Dow is no longer a related party. However, Dow continues to provide certain services to the Company. Costs related to these services of $10.0 were recorded in other expense for the period from January 1, 2010 to June 17, 2010.

9. RESTRUCTURING

The Company implemented a restructuring of its Marietta, Ohio facilities to reduce polystyrene production capacity which occurred in two phases. Phase II was effective in 2010 and the Company recorded $1.1 in employee-related severance costs. The Company also implemented a redesign of its work processes at the St. James facilities. As a result, the Company recorded $0.7 of employee-related severance costs in 2010.

PART II

INFORMATION NOT REQUIRED IN PROSPECTUS

Indemnification of Directors and Officers

Pursuant to Luxembourg law on agency, agents are entitled to be reimbursed any advances or expenses made or incurred in the course of their duties, except in cases of fault or negligence on their part. Luxembourg law on agency is applicable to the mandate of directors and agents of the Trinseo S.A., a public limited liability company (société anonyme) existing under the laws of Luxembourg ("Trinseo").

Pursuant to Luxembourg law, a company is generally liable for any violations committed by employees in the performance of their functions except where such violations are not in any way linked to the duties of the employee.

Trinseo's articles of association provide that directors and officers, past and present, are entitled to indemnification from Trinseo to the fullest extent permitted by Luxembourg law against liability and all expenses reasonably incurred or paid by him in connection with any claim, action, suit or proceeding in which he is involved by virtue of his being or having been a director or officer and against amounts paid or incurred by him in the settlement thereof.

No indemnification will be provided against any liability to Trinseo or its shareholders (i) by reason of willful misfeasance, bad faith, gross negligence or reckless disregard of the duties of a director or officer; (ii) with respect to any matter as to which any director or officer shall have been finally adjudicated to have acted in bad faith and not in the interest of Trinseo; or (iii) in the event of a settlement, unless approved by a court or the board of directors of Trinseo.

Trinseo also has agreed to indemnify certain of its officers for adverse tax consequences they may suffer pursuant to their employment agreements.

Trinseo has also agreed to indemnify Bain Capital and its affiliated funds with under certain agreements Trinseo has entered into with them in connection with the Acquisition. See "Certain Relationships and Related Party Transactions."

The indemnification rights set forth above shall not be exclusive of any other right which an indemnified person may have or hereafter acquire under any statute, provision of Trinseo's articles of association, agreement, vote of shareholders or disinterested directors or otherwise.

Trinseo expects to maintain standard policies of insurance that provide coverage (1) to Trinseo's directors and officers against loss rising from claims made by reason of breach of duty or other wrongful act and (2) to Trinseo with respect to indemnification payments that it may make to such directors and officers.

To the extent allowed by applicable law, the rights and obligations among the Issuers and the Guarantors and any of their current or former directors and officers will, in principle, be governed by the laws of Luxembourg and subject to the jurisdiction of the Luxembourg courts, unless such rights or obligations do not relate to or arise out of their capacities as directors or officers. Although there is doubt as to whether U.S. courts would enforce such a provision in an action brought in the United States under U.S. securities laws, such provision could make enforcing judgments obtained outside Luxembourg more difficult to enforce against our assets in Luxembourg or in jurisdictions that would apply Luxembourg law.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to the Registrants directors, officers or controlling persons pursuant to the provisions described above, or otherwise, the Registrants have been advised that, in the opinion of the SEC, such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable.

Undertakings.

(c) The undersigned registrants hereby undertake:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;

(ii) To reflect in the prospectus any facts or events arising after the effective date of this registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in this registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20% change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement; and

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(4) That, for purposes of determining any liability under the Securities Act to any purchaser, each prospectus filed pursuant to Rule 424 (b) as part of a registration statement relating to an offering other than registration statements relying on Rule 430B or other than prospectuses filed in reliance on Rule 430A, shall be deemed to be part of and included in the registration statement as of the date it is first used after effectiveness. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use.

(5) That, for the purpose of determining liability of the registrant under the Securities Act of 1933 to any purchaser in the initial distribution of the securities, in a primary offering of securities of the registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following

communications, the undersigned registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:

(i) any preliminary prospectus or prospectus of the undersigned registrants relating to the offering required to be filed pursuant to Rule 424;

(ii) any free writing prospectus relating to the offering prepared by or on behalf of such registrant or used or referred to by the undersigned registrants;

(iii) the portion of any other free writing prospectus relating to the offering containing material information about the undersigned registrants or their securities provided by or on behalf of such registrant; and

(iv) any other communication that is an offer in the offering made by such registrant to the purchaser.

(d) The undersigned registrants hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(e) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of each registrant pursuant to the foregoing provisions, or otherwise, each registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by each registrant of expenses incurred or paid by a director, officer or controlling person of each registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, each registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

(f) The undersigned registrant hereby undertakes to respond to requests for information that is incorporated by reference into the prospectus pursuant to Items 4, 10(b), 11, or 13 of Form S-4, within one business day of receipt of such request, and to send the incorporated documents by first class mail or other equally prompt means. This includes information contained in documents filed subsequent to the effective date of the registration statement through the date of responding to the request.

(g) The undersigned registrant hereby undertakes to supply by means of a post-effective amendment all information concerning a transaction, and the company being acquired involved therein, that was not the subject of and included in the registration statement when it became effective.

Art. 1. Name . The name of the company is "Trinseo S.A." (the Company). The Company is a public company limited by shares (société anonyme) governed by the laws of the Grand Duchy of Luxembourg, in particular the law of August 10, 1915, on commercial companies, as amended (the Law), and these articles of incorporation (the Articles).

Art. 2. Registered office.

2.1. The Company's registered office is established in municipality of Niederanven, Grand Duchy of Luxembourg. It may be transferred within that municipality by a resolution of the board of directors (the Board). It may be transferred to any other location in the Grand Duchy of Luxembourg by a resolution of the general meeting of shareholders (the General Meeting), acting in accordance with the conditions prescribed for the amendment of the Articles.

2.2. Branches, subsidiaries or other offices may be established in the Grand Duchy of Luxembourg or abroad by a resolution of the Board. If the Board determines that extraordinary political or military developments or events have occurred or are imminent, and that those developments or events may interfere with the normal activities of the Company at its registered office, or with ease of communication between that office and persons abroad, the registered office may be temporarily transferred abroad until the developments or events in question have completely ceased. Any such temporary measures do not affect the nationality of the Company, which, notwithstanding the temporary transfer of its registered office, will remain a Luxembourg incorporated company.

Art. 3. Corporate object.

3.1. The Company's object is the acquisition of participations, in Luxembourg or abroad, in any company or enterprise in any form whatsoever, and the management of those participations. The Company may in particular acquire, by subscription, purchase and exchange or in any other manner, any stock, shares and other participation securities, bonds, debentures, certificates of deposit and other debt instruments and, more generally, any securities and financial instruments issued by any public or private entity. Further, it may invest in the acquisition and management of a portfolio of patents or other intellectual property rights of any nature or origin.

3.2. The Company may borrow in any form. It may issue notes, bonds and any kind of debt and equity securities. It may lend funds, including, without limitation, the proceeds of any borrowings, to its subsidiaries, affiliated companies and any other companies. It may also give guarantees and pledge, transfer, encumber or otherwise create and grant security over some or all of its assets to guarantee its own obligations and those of any other company, and, generally, for its own benefit and that of any other company or person. For the avoidance of doubt, the Company may not carry out any regulated financial sector activities without having obtained the requisite authorization.

3.3. The Company may use any techniques, legal means and instruments to manage its investments efficiently and protect itself against credit risks, currency exchange exposure, interest rate risks and other risks.

3.4. The Company may carry out any commercial, financial or industrial operation and any transaction with respect to real estate or movable property, which directly or indirectly, favors or relates to its corporate object.

Art. 4. Duration.

4.1. The Company is formed for an unlimited period of time.

4.2. The Company is not to be dissolved by reason of the death, suspension of civil rights, incapacity, insolvency, bankruptcy or any similar event affecting one or more shareholders.

5.2. The share capital may be increased or reduced once or more by a resolution of the General Meeting acting in accordance with the conditions prescribed for the amendment of the Articles.

Art. 6. Shares.

6.1. The shares are and will remain in registered form (actions nominatives).

6.2. A register of shares is kept at the registered office and may be examined by any shareholder on request.

6.3. A share transfer is carried out by the entry in the register of shares of a declaration of transfer, duly signed and dated by both the transferor and the transferee or their authorized representatives, following a notification to or acceptance by the Company, in accordance with Article 1690 of the Civil Code. The Company may also accept other documents recording the agreement between the transferor and the transferee as evidence of a share transfer.

6.4. The shares are indivisible and the Company recognizes only one (1) owner per share.

6.5. The Company may redeem its own shares within the limits set forth by the Law.

ARTICLE NINE

Section 1. Nature of Indemnity . Each person who was or is made a party or is threatened to be made a party to or is involved in any action, suit or proceeding, whether civil, criminal, administrative or investigative (hereinafter a "proceeding"), by reason of the fact that he (or a person of whom he is the legal representative), is or was a director or officer of the Corporation or is or was serving at the request of the Corporation as a director, officer, employee, fiduciary, or agent of another corporation or of a partnership, joint venture, trust or other enterprise, including service with respect to employee benefit plans, whether the basis of such proceeding is alleged action in an official capacity as a director, officer, employee, fiduciary or agent or in any other capacity while serving as a director, officer, employee, fiduciary or agent, shall be indemnified and held harmless by the Corporation to the fullest extent which it is empowered to do so by the DGCL, as the same exists or may hereafter be amended (but, in the case of any such amendment, only to the extent that such amendment permits the Corporation to provide broader indemnification rights than said law permitted the Corporation to provide prior to such amendment) against all expense, liability and loss (including attorneys' fees actually and reasonably incurred by such person in connection with such proceeding and such indemnification shall inure to the benefit of his or her heirs, executors and administrators; provided, however, that, except as provided in Section 2 of this Article Nine, the Corporation shall indemnify any such person seeking indemnification in connection with a proceeding initiated by such person only if such proceeding was authorized by the Board of Directors of the Corporation. The right to indemnification conferred in this Article Nine shall be a contract right

and, subject to Sections 2 and 5 of this Article Nine, shall include the right to payment by the Corporation of the expenses incurred in defending any such proceeding in advance of its final disposition. The Corporation may, by action of the Board of Directors, provide indemnification to employees and agents of the Corporation with the same scope and effect as the foregoing indemnification of directors and officers.

Section 2. Procedure for Indemnification of Directors and Officers . Any indemnification of a director or officer of the Corporation under Section 1 of this Article Nine or advance of expenses under Section 5 of this Article Nine shall be made promptly, and in any event within 30 days, upon the written request of the director or officer. If a determination by the Corporation that the director or officer is entitled to indemnification pursuant to this Article Nine is required, and the Corporation fails to respond within sixty days to a written request for indemnity, the Corporation shall be deemed to have approved the request. If the Corporation denies a written request for indemnification or advancing of expenses, in whole or in part, or if payment in full pursuant to such request is not made within 30 days, the right to indemnification or advances as granted by this Article Nine shall be enforceable by the director or officer in any court of competent jurisdiction. Such person's costs and expenses incurred in connection with successfully establishing his right to indemnification, in whole or in part, in any such action shall also be indemnified by the Corporation. It shall be a defense to any such action (other than an action brought to enforce a claim for expenses incurred in defending any proceeding in advance of its final disposition where the required undertaking, if any, has been tendered to the Corporation) that the claimant has not met the standards of conduct which make it permissible under the DGCL for the Corporation to indemnify the claimant for the amount claimed, but the burden of such defense shall be on the Corporation. Neither the failure of the Corporation (including the Board of Directors, independent legal counsel, or its stockholders) to have made a determination prior to the commencement of such action that indemnification of the claimant is proper in the circumstances because he or she has met the applicable standard of conduct set forth in the DGCL, nor an actual determination by the Corporation (including its Board of Directors, independent legal counsel, or its stockholders) that the claimant has not met such applicable standard of conduct, shall be a defense to the action or create a presumption that the claimant has not met the applicable standard of conduct.

Section 3. Nonexclusivity of Article Nine . The rights to indemnification and the payment of expenses incurred in defending a proceeding in advance of its final disposition conferred in this Article Nine shall not be exclusive of any other right which any person may have or hereafter acquire under any statute, provision of the certificate of incorporation, by-law, agreement, vote of stockholders or disinterested directors or otherwise.

Expenses incurred by any person described in Section 1 of this Article Nine in defending a proceeding shall be paid by the Corporation in advance of such proceeding's final disposition unless otherwise determined by the Board of Directors in the specific case upon receipt of an undertaking by or on behalf of the director or officer to repay such amount if it shall ultimately be determined that he is not entitled to be indemnified by the Corporation. Such expenses incurred by other employees and agents may be so paid upon such terms and conditions, if any, as the Board of Directors deems appropriate.

Section 6. Employees and Agents . Persons who are not covered by the foregoing provisions of this Article Nine and who are or were employees or agents of the Corporation, or who are or were serving at the request of the Corporation as employees or agents of another corporation, partnership, joint venture, trust or other enterprise, may be indemnified to the extent authorized at any time or from time to time by the Board of Directors.

Section 7. Contract Rights . The provisions of this Article Nine shall be deemed to be a contract right between the Corporation and each director or officer who serves in any such capacity at any time while this Article Nine and the relevant provisions of the DGCL or other applicable law are in effect, and any repeal or modification of this Article Nine or any such law shall not affect any rights or obligations then existing with respect to any state of facts or proceeding then existing.

Section 8. Merger or Consolidation . For purposes of this Article Nine, references to "the Corporation" shall include, in addition to the resulting corporation, any constituent corporation (including any constituent of a constituent) absorbed in a consolidation or merger which, if its separate existence had continued, would have had power and authority to indemnify its directors, officers, and employees or agents, so that any person who is or was a director, officer, employee or agent of such constituent corporation, or is or was serving at the request of such constituent corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, shall stand in the same position under this Article Nine with respect to the resulting or surviving corporation as he or she would have with respect to such constituent corporation if its separate existence had continued.

ARTICLE TEN

The Corporation hereby eliminates, to the fullest extent permitted by law (as contemplated by Section 102(b)(7) of the DGCL) the personal liability of any person who serves as a director of the Corporation to the Corporation and/or its stockholders for monetary damages for breach of fiduciary duty as a director, provided that this Article Ten shall not eliminate or limit the liability of a director: (i) for any breach of the director's duty of loyalty to the Corporation or its stockholders; (ii) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law; (iii) under Section 174 of the DGCL; or (iv) for any transaction from which the director derived an improper personal benefit; provided further, however, that if in the future the DGCL is amended or modified (including, but not limited to, Section 102(a)(7)) to permit the elimination of the personal liability of a director of the Corporation to a greater extent than contemplated above, then the provisions of this Article Ten shall be deemed to be automatically amended to provide for the elimination of the personal liability of the directors of the Corporation to such greater extent. This Article Ten shall not eliminate or limit the liability of a director for any act or omission occurring prior to the date when this Article Ten becomes effective.

ARTICLE ELEVEN

The Corporation reserves the right to amend or repeal any provisions contained in this Certificate of Incorporation from time to time and at any time in the manner now or hereafter prescribed by the laws of the State of Delaware, and all rights conferred upon stockholders and directors are granted subject to such reservation.

The name of the corporation's registered agent at such address shall be Corporation Service Company. The registered office and/or registered agent of the corporation may be changed from time to time by action of the board of directors.

Section 2. Other Offices. The corporation may also have offices at such other places, both within and without the State of Delaware, as the board of directors may from time to time determine or the business of the corporation may require.

ARTICLE II

MEETINGS OF STOCKHOLDERS

Section 1. Place and Time of Meetings. An annual meeting of the stockholders shall be held each year for the purpose of electing directors and conducting such other proper business as may come before the meeting. The date, time and place of the annual meeting may be determined by resolution of the board of directors or as set by the president of the corporation.

Section 2. Special Meetings. Special meetings of stockholders may be called for any purpose (including, without limitation, the filling of board vacancies and newly created directorships), and may be held at such time and place, within or without the State of Delaware, as shall be stated in a notice of meeting or in a duly executed waiver of notice thereof. Such meetings may be called at any time by two or more members of the board of directors, the president or the holders of shares entitled to cast not less than a majority of the votes at the meeting or the holders of fifty percent (50%) of the outstanding shares of any series or class of the corporation's capital stock.

Section 3. Place of Meetings. The board of directors may designate any place, either within or without the State of Delaware, as the place of meeting for any annual meeting or for any special meeting called by the board of directors. If no designation is made, or if a special meeting is otherwise called, the place of meeting shall be the principal executive office of the corporation.

Section 4. Notice. Whenever stockholders are required or permitted to take action at a meeting, written or printed notice stating the place, date, time, and, in the case of special meetings, the purpose(s), of such meeting, shall be given to each stockholder entitled to vote at such meeting not less than 10 nor more than 60 days before the date of the meeting. All such notices shall be delivered, either personally or by mail, by or at the direction of the board of directors, the president or the secretary, and if mailed, such notice shall be deemed to be delivered when deposited in the United States mail, postage prepaid, addressed to the stockholder at his, her or its address as the same appears on the records of the corporation. Attendance of a person at a meeting shall constitute a waiver of notice of such meeting, except when the person attends for the express purpose of objecting at the beginning of the meeting to the transaction of any business because the meeting is not lawfully called or convened.

Section 5. Stockholders List. The officer having charge of the stock ledger of the corporation shall make, at least 10 days before every meeting of the stockholders, a complete list of the stockholders entitled to vote at such meeting arranged in alphabetical order, showing the address of each stockholder and the number of shares registered in the name of each stockholder. Such list shall be open to the examination of any stockholder, for any purpose germane to the meeting, during ordinary business hours, for a period of at least 10 days prior to the meeting, either at a place within the city where the meeting is to be held, which place shall be specified in the notice of the meeting or, if not so specified, at the place where the meeting is to be held. The list shall also be produced and kept at the time and place of the meeting during the whole time thereof, and may be inspected by any stockholder who is present.

Section 6. Quorum. Except as otherwise provided by applicable law or by the corporation's certificate of incorporation, a majority of the outstanding shares of the corporation entitled to vote, represented in person or by proxy, shall constitute a quorum at a meeting of stockholders. If less than a majority of the outstanding shares are represented at a meeting, a majority of the shares so represented may adjourn the meeting from time to time in accordance with Section 7 of this Article II, until a quorum shall be present or represented.

Section 7. Adjourned Meetings. When a meeting is adjourned to another time and place, notice need not be given of the adjourned meeting if the time and place thereof are announced at the meeting, at which the adjournment is taken. At the adjourned meeting the corporation may transact any business which might have been transacted at the original meeting. If the adjournment is for more than thirty days, or if after the adjournment a new record date is fixed for the adjourned meeting, a notice of the adjourned meeting shall be given to each stockholder of record entitled to vote at the meeting.

Section 8. Vote Required. When a quorum is present, the affirmative vote of the majority of shares present in person or represented by proxy at the meeting and entitled to vote on the subject matter shall be the act of the stockholders, unless the question is one upon which by express provisions of an applicable law or of the corporation's certificate of incorporation a different vote is required, in which case such express provision shall govern and control the decision of such question. Where a separate vote by class is required, the affirmative vote of the majority of shares of such class present in person or represented by proxy at the meeting shall be the act of such class, unless the question is one upon which by express provisions of an applicable law or of the corporation's certificate of incorporation a different vote is required, in which case such express provision shall govern and control the decision of such question.

Section 9. Voting Rights. Except as otherwise provided by the General Corporation Law of the State of Delaware or by the certificate of incorporation of the corporation or any amendments thereto, every stockholder shall at every meeting of the stockholders be entitled to one vote in person or by proxy for each share of common stock held by such stockholder.

Section 10. Proxies. Each stockholder entitled to vote at a meeting of stockholders or to express consent or dissent to corporate action in writing without a meeting may authorize another person(s) to act for him, her or it by proxy. Every proxy must be signed by the stockholder granting the proxy or by his, her or its attorney-in-fact. No proxy shall be voted or acted upon after three years from its date, unless the proxy provides for a longer period. A duly executed proxy shall be irrevocable if it states that it is irrevocable and if, and only as long as, it is coupled with an interest sufficient in law to support an irrevocable power. A proxy may be made irrevocable regardless of whether the interest with which it is coupled is an interest in the stock itself or an interest in the corporation generally.

Section 11. Action by Written Consent. Unless otherwise provided in the corporation's certificate of incorporation, any action required to be taken at any annual or special meeting of stockholders of the corporation, or any action which may be taken at any annual or special meeting of such stockholders, may be taken without a meeting, without prior notice and without a vote, if a consent(s) in writing, setting forth the action so taken and bearing the dates of signature of the stockholders who signed the consent(s), shall be signed by the holders of outstanding shares of stock having not less than a majority of the shares entitled to vote, or, if greater, not less than the minimum number of votes that would be necessary to authorize or take such action at a meeting at which all shares entitled to vote thereon were present and voted and shall be delivered to the corporation by delivery to its registered office in the state of Delaware, or the corporation's principal place of business, or an officer or agent of the corporation having custody of the book(s) in which proceedings of meetings of the stockholders are recorded. Delivery made to the corporation's registered office shall be by hand or by certified or registered mail, return receipt requested, provided, however, that no consent(s) delivered by certified or registered mail shall be deemed delivered until such consent(s) are actually received at the registered office. All consents properly delivered in accordance with this section shall be deemed to be recorded when so delivered. No written consent shall be effective to take the corporate action referred to therein unless, within sixty days of the earliest dated consent delivered to the corporation as required by this section, written consents signed by the holders of a sufficient number of shares to take such corporate action are so recorded. Prompt notice of the taking of the corporate action without a meeting by less than unanimous written consent shall be given to those stockholders who have not consented in writing. Any action taken pursuant to such written consent(s) of the stockholders shall have the same force and effect as if taken by the stockholders at a meeting thereof.

ARTICLE III

DIRECTORS

Section 1. General Powers. The business and affairs of the corporation shall be managed by or under the direction of the board of directors.

Section 2. Number, Election and Term of Office. The number of directors which shall constitute the first board shall be one or more, which number may be increased or decreased from time to time by resolution of the board. The directors shall be elected by a plurality of the votes of the shares present in person or represented by proxy at the meeting and entitled to vote in the election of directors. The directors shall be elected in this manner at the annual meeting of the stockholders, except as provided in Section 4 of this Article III. Each director elected shall hold office until a successor is duly elected and qualified or until his or her earlier death, resignation or removal as hereinafter provided.

Section 3. Removal and Resignation. Any director or the entire board of directors may be removed at any time, with or without cause, by the holders of a majority of the shares then entitled to vote at an election of directors. Whenever the holders of any class or series are entitled to elect one or more directors by the provisions of the corporation's certificate of incorporation, the provisions of this section shall apply, in respect to the removal without cause or a director or directors so elected, to the vote of the holders of the outstanding shares of that class or series and not to the vote of the outstanding shares as a whole. Any director may resign at any time upon written notice to the corporation.

Section 4. Vacancies. Vacancies and newly created directorships resulting from any increase in the authorized number of directors may be filled by a majority of the directors then in office, though less than a quorum, or by a sole remaining director. Each director so chosen shall hold office until a successor is duly elected and qualified or until his or her earlier death, resignation or removal as herein provided.

Section 5. Annual Meetings. The annual meeting of each newly elected board of directors shall be held without other notice than this bylaw immediately after, and at the same place as, the annual meeting of stockholders.

Section 6. Other Meetings and Notice. Regular meetings, other than the annual meeting, of the board of directors may be held without notice at such time and at such place as shall from time to time be determined by resolution of the board. Special meetings of the board of directors may be called by or at the request of the president or vice president on at least 24 hours notice to each director, either personally, by telephone, by mail, or by telegraph; in like manner and on like notice the president must call a special meeting on the written request of at least a majority of the directors.

Section 7. Quorum, Required Vote and Adjournment. A majority of the total number of directors shall constitute a quorum for the transaction of business. The vote of a majority of directors present at a meeting at which a quorum is present shall be the act of the board of directors. If a quorum shall not be present at any meeting of the board of directors, the directors present thereat may adjourn the meeting from time to time, without notice other than announcement at the meeting, until a quorum shall be present.

Section 8. Committees . The board of directors may, by resolution passed by a majority of the whole board, designate one or more committees, each committee to consist of one or more of the directors of the corporation, which to the extent provided in such resolution or these bylaws shall have and may exercise the powers of the board of directors in the management and affairs of the corporation except as otherwise limited by law. The board of directors may designate one or more directors as alternate members of any committee, who may replace any absent or disqualified member at any meeting of the committee. Such committee(s) shall have such name(s) as may be determined from time to time by resolution adopted by the board of directors. Each committee shall keep regular minutes of its meetings and report the same to the board of directors when required.

Section 9. Committee Rules . Each committee of the board of directors may fix its own rules of procedure and shall hold its meetings as provided by such rules, except as may otherwise be provided by a resolution of the board of directors designating such committee. Unless otherwise provided in such a resolution, the presence of at least a majority of the members of the committee shall be necessary to constitute a quorum. In the event that a member and that member's alternate, if alternates are designated by the board of directors as provided in Section 8 of this Article III, of such committee is or are absent or disqualified, the member(s) thereof present at any meeting and not disqualified from voting, whether or not such member(s) constitute a quorum, may unanimously appoint another member of the board of directors to act at the meeting in place of any such absent or disqualified member.

Section 10. Communications Equipment . Members of the board of directors or any committee thereof may participate in and act at any meeting of such board or committee through the use of a conference telephone or other communications equipment by means of which all persons participating in the meeting can hear each other, and participation in the meeting pursuant to this section shall constitute presence in person at the meeting.

Section 11. Waiver of Notice and Presumption of Assent . Any member of the board of directors or any committee thereof who is present at a meeting shall be conclusively presumed to have waived notice of such meeting except when such member attends for the express purpose of objecting at the beginning of the meeting to the transaction of any business because the meeting is not lawfully called or convened. Such member shall be conclusively presumed to have assented to any action taken unless his or her dissent shall be entered in the minutes of the meeting or unless his or her written dissent to such action shall be filed with the person acting as the secretary of the meeting before the adjournment thereof or shall be forwarded by registered mail to the secretary of the corporation immediately after the adjournment of the meeting. Such right to dissent shall not apply to any member who voted in favor of such action.

Section 12. Action by Written Consent. Unless otherwise restricted by the corporation's certificate of incorporation, any action required or permitted to be taken at any meeting of the board of directors, or of any committee thereof, may be taken without a meeting if all members of the board or committee, as the case may be, consent thereto in writing, and the writing(s) are filed with the minutes of proceedings of the board or committee.

ARTICLE IV

OFFICERS

Section 1. Number. The officers of the corporation shall be elected by the board of directors and shall consist of a chairman, if any is elected, a president, one or more vice presidents, a secretary, a treasurer, and such other officers and assistant officers as may be deemed necessary or desirable by the board of directors. Any number of offices may be held by the same person, except that no person may simultaneously hold the office of president and secretary. In its discretion, the board of directors may choose not to fill any office for any period as it may deem advisable.

Section 2. Election and Term of Office. The officers of the corporation shall be elected annually by the board of directors at its first meeting held after each annual meeting of stockholders or as soon thereafter as conveniently may be. The president shall appoint other officers to serve for such terms as he or she deems desirable. Vacancies may be filled or new offices created and filled at any meeting of the board of directors. ARTICLE V

CERTIFICATES OF STOCK

Section 1. Form. Every holder of stock in the corporation shall be entitled to have a certificate, signed by, or in the name of the corporation by (i) the chairman of the board, the president or a vice-president and (ii) the secretary or an assistant secretary of the corporation, certifying the number of shares owned by such holder in the corporation. If such a certificate is countersigned (1) by a transfer agent or an assistant transfer agent other than the corporation or its employee or (2) by a registrar, other than the corporation or its employee, the signature of any such chairman of the board, president, vice-president, secretary, or assistant secretary may be facsimiles. In case any officer(s) who have signed, or whose facsimile signature(s) have been used on, any such certificate(s) shall cease to be such officer(s) of the corporation whether because of death, resignation or otherwise before such certificate(s) have been delivered by the corporation, such certificate(s) may nevertheless be issued and delivered as though the person or persons who signed such certificate(s) or whose facsimile signature(s) have been used thereon had not ceased to be such officer(s) of the corporation. All certificates for shares shall be consecutively numbered or otherwise identified. The name of the person to whom the shares represented thereby are issued, with the number of shares and date of issue, shall be entered on the books of the corporation. Shares of stock of the corporation shall only be transferred on the books of the corporation by the holder of record thereof or by such holder's attorney duly authorized in writing, upon surrender to the corporation of the certificate(s) for such shares endorsed by the appropriate person(s), with such evidence of the authenticity of such endorsement, transfer, authorization, and other matters as the corporation may reasonably require, and accompanied by all necessary stock transfer stamps. In that event, it shall be the duty of the corporation to issue a new certificate to the person entitled thereto, cancel the old certificate(s), and record the transaction on its books. The board of directors may appoint a bank or trust company organized under the laws of the United States or any state thereof to act as its transfer agent or registrar, or both in connection with the transfer of any class or series of securities of the corporation.

Section 2. Lost Certificates. The board of directors may direct a new certificate(s) to be issued in place of any certificate(s) previously issued by the corporation alleged to have been lost, stolen, or destroyed, upon the making of an affidavit of that fact by the person claiming the certificate of stock to be lost, stolen, or destroyed. When authorizing such issue of a new certificate(s), the board of directors may, in its discretion and as a condition

precedent to the issuance thereof, require the owner of such lost, stolen, or destroyed certificate(s), or his or her legal representative, to give the corporation a bond sufficient to indemnify the corporation against any claim that may be made against the corporation on account of the loss, theft or destruction of any such certificate or the issuance of such new certificate.

Section 3. Fixing a Record Date for Stockholder Meetings. In order that the corporation may determine the stockholders entitled to notice of or to vote at any meeting of stockholders or any adjournment thereof, the board of directors may fix a record date, which record date shall not precede the date upon which the resolution fixing the record date is adopted by the board of directors, and which record date shall not be more than sixty nor less than ten days before the date of such meeting. If no record date is fixed by the board of directors, the record date for determining stockholders entitled to notice of or to vote at a meeting of stockholders shall be the close of business on the day immediately preceding the day on which notice is given, or if notice is waived, at the close of business on the day immediately preceding the day on which the meeting is held. A determination of stockholders of record entitled to notice of or to vote at a meeting of stockholders shall apply to any adjournment of the meeting; provided, however, that the board of directors may fix a new record date for the adjourned meeting.

Section 4. Fixing a Record Date for Action by Written Consent. In order that the corporation may determine the stockholders entitled to consent to corporate action in writing without a meeting, the board of directors may fix a record date, which record date shall not precede the date upon which the resolution fixing the record date is adopted by the board of directors, and which date shall not be more than ten days after the date upon which the resolution fixing the record date is adopted by the board of directors. If no record date has been fixed by the board of directors, the record date for determining stockholders entitled to consent to corporate action in writing without a meeting, when no prior action by the board of directors is required by statute, shall be the first date on which a signed written consent setting forth the action taken or proposed to be taken is delivered to the corporation by delivery to its registered office in the State of Delaware, its principal place of business, or an officer or agent of the corporation having custody of the book in which proceedings of meetings of stockholders are recorded. Delivery made to the corporation's registered office shall be by hand or by certified or registered mail, return receipt requested. If no record date has been fixed by the board of directors and prior action by the board of directors is required by statute, the record date for determining stockholders entitled to consent to corporate action in writing without a meeting shall be at the close of business on the day on which the board of directors adopts the resolution taking such prior action.

Section 5. Fixing a Record Date for Other Purposes. In order that the corporation may determine the stockholders entitled to receive payment of any dividend or other distribution or allotment or any rights of the stockholders entitled to exercise any rights in respect of any change, conversion or exchange of stock, or for the purposes of any other lawful action, the board of directors may fix a record date, which record date shall not precede the date upon which the resolution fixing the record date is adopted, and which record date shall be not more than sixty days prior to such action. If no record date is fixed, the record date for determining stockholders for any such purpose shall be at the close of business on the day on which the board of directors adopts the resolution relating thereto.

Section 6. Registered Stockholders . Prior to the surrender to the corporation of the certificate(s) for a share(s) of stock with a request to record the transfer of such share(s), the corporation may treat the registered owner as the person entitled to receive dividends, to vote, to receive notifications, and otherwise to exercise all the rights and powers of an owner. The corporation shall not be bound to recognize any equitable or other claim to or interest in such share(s) on the part of any other person, whether or not it shall have express or other notice thereof.

Section 7. Subscriptions for Stock . Unless otherwise provided for in the subscription agreement, subscriptions for shares shall be paid in full at such time, or in such installments and at such times, as shall be determined by the board of directors. Any call made by the board of directors for payment on subscriptions shall be uniform as to all shares of the same class or as to all shares of the same series. In case of default in the payment of any installment or call when such payment is due, the corporation may proceed to collect the amount due in the same manner as any debt due the corporation.

ARTICLE VI

GENERAL PROVISIONS

Section 1. Dividends . Dividends upon the capital stock of the corporation, subject to the provisions of the certificate of incorporation, if any, may be declared by the board of directors at any regular or special meeting, pursuant to law. Dividends may be paid in cash, in property, or in shares of the capital stock, subject to the provisions of the certificate of incorporation. Before payment of any dividend, there may be set aside out of any funds of the corporation available for dividends such sum(s) as the directors from time to time, in their absolute discretion, think proper as a reserve(s) to meet contingencies, or for equalizing dividends, or for repairing or maintaining any property of the corporation, or any other purpose and the directors may modify or abolish any such reserve in the manner in which it was created.

Section 2. Checks, Drafts or Orders . All checks, drafts, or other orders for the payment of money by or to the corporation and all notes and other evidences of indebtedness issued in the name of the corporation shall be signed by such officer(s), agent(s) of the corporation, and in such manner, as shall be determined by resolution of the board of directors or a duly authorized committee thereof.

Section 3. Contracts . The board of directors may authorize any officer(s), or any agent(s), of the corporation to enter into any contract or to execute and deliver any instrument in the name of and on behalf of the corporation, and such authority may be general or confined to specific instances.

Section 4. Loans . The corporation may lend money to, or guarantee any obligation of, or otherwise assist any officer or other employee of the corporation or of its subsidiary, including any officer or employee who is a director of the corporation or its subsidiary, whenever, in the judgment of the directors, such loan, guaranty or assistance may

reasonably be expected to benefit the corporation. The loan, guaranty or other assistance may be with or without interest, and may be unsecured, or secured in such manner as the board of directors shall approve, including, without limitation, a pledge of shares of stock of the corporation. Nothing in this section contained shall be deemed to deny, limit or restrict the powers of guaranty or warranty of the corporation at common law or under any statute.

Section 5. Fiscal Year. The fiscal year of the corporation shall be fixed by resolution of the board of directors.

Section 6. Voting Securities Owned By Corporation. Voting securities in any other corporation held by the corporation shall be voted by the president, unless the board of directors specifically confers authority to vote with respect thereto, which authority may be general or confined to specific instances, upon some other person or officer. Any person authorized to vote securities shall have the power to appoint proxies, with general power of substitution.

Section 7. Inspection of Books and Records. Any stockholder of record, in person or by attorney or other agent, shall, upon written demand under oath stating the purpose thereof, have the right during the usual hours for business to inspect for any proper purpose the corporation's stock ledger, a list of its stockholders, and its other books and records, and to make copies or extracts therefrom. A proper purpose shall mean any purpose reasonably related to such person's interest as a stockholder. In every instance where an attorney or other agent shall be the person who seeks the right to inspection, the demand under oath shall be accompanied by a power of attorney or such other writing which authorizes the attorney or other agent to so act on behalf of the stockholder. The demand under oath shall be directed to the corporation at its registered office in the State of Delaware or at its principal place of business.

Section 8. Section Headings. Section headings in these bylaws are for convenience of reference only and shall not be given any substantive effect in limiting or otherwise construing any provision herein.

Section 9. Inconsistent Provisions. In the event that any provision of these bylaws is or becomes inconsistent with any provision of the corporation's certificate of incorporation, the General Corporation Law of the State of Delaware or any other applicable law, such provision of these bylaws shall not be given any effect to the extent of such inconsistency but shall otherwise be given full force and effect.

ARTICLE VII

AMENDMENTS

These bylaws may be amended, altered, or repealed and new bylaws adopted at any meeting of the board of directors by a majority vote. The fact that the power to adopt, amend, alter, or repeal the bylaws has been conferred upon the board of directors shall not divest the stockholders of the same powers.

STATUTS COORDONNES

Chapter I. - Form, Name, Registered office, Object, Duration

Art. 1. Form, Name. There is hereby established a société à responsabilité limiteé (the "Company") governed by the laws of the Grand Duchy of Luxembourg (the "Laws") and by the present articles of incorporation (the "Articles of Incorporation").

The Company may be composed of one single shareholder, owner of all the shares, or several shareholders, but not exceeding forty (40) shareholders.

The Company will exist under the name of "Styron Finance Luxembourg S. a r.l."

Art. 2. Registered office. *The Company's registered office is established in municipality of Niederanven, Grand Duchy of Luxembourg.*

The registered office may be transferred to any other place within the municipality of the registered office by a resolution of the Manager(s).

Branches or other offices may be established either in the Grand Duchy of Luxembourg or abroad by resolution of the Manager(s).

In the event that, in the view of the Manager(s), extraordinary political, economic or social developments occur or are imminent that would interfere with the normal activities of the Company at its registered office or with the ease of communications with such office or between such office and persons abroad, the Company may temporarily transfer the registered office abroad, until the complete cessation of these abnormal circumstances. Such temporary measures will have no effect on the nationality of the Company, which,

notwithstanding the temporary transfer of the registered office, will remain a company governed by the Laws. Such temporary measures will be taken and notified to any interested parties by the Manager(s).

Art. 3. Object. The object of the Company is the acquisition, holding and disposal of interests in Luxembourg and/or in foreign companies and undertakings, as well as the administration, development and management of such interests.

The Company may provide loans and financing in any other kind or form or grant guarantees or security in any other kind or form, in favour of the companies and undertakings forming part of the group of which the Company is a member.

The Company may borrow in any kind or form and privately issue bonds, notes or any other debt instruments as well as warrants or other share subscription rights.

The Company may use any techniques and instruments to efficiently manage its investments and to protect itself against credit risks, currency exchange exposure, interest rate risks and other risks.

In a general fashion, the Company may carry out any commercial, industrial or financial operation, which it may deem useful in the accomplishment and development of its purposes.

Art. 4. Duration. The Company is formed for an unlimited duration.

The Company is not dissolved by reason of the death, suspension of civil rights, incapacity, insolvency, bankruptcy or any similar event affecting one or several shareholders.

It may be dissolved at any time by a resolution of the shareholder(s), voting with the quorum and majority rules set by the Laws or by the Articles of Incorporation, as the case may be pursuant to article 28 of the Articles of Incorporation.

Chapter II. Capital, Shares

Art. 5. Issued capital. The issued capital of the Company is set at twenty-five thousand and one US Dollars (US$ 25,001.-) divided into twenty-five and one (25,001) shares with a nominal value of one US Dollar (US$ 1.-) each, all of which are fully paid up.

The rights and obligations attached to the shares shall be identical except to the extent otherwise provided by the Articles of Incorporation or by the Laws.

In addition to the issued capital, there may be set up a premium account to which any premium paid on any share in addition to its nominal value is transferred. The amount of the premium account may be used to provide for the payment of any shares which the Company may repurchase from its shareholder(s), to offset any net realised losses, to make distributions to the shareholder(s) in the form of a dividend or to allocate funds to the legal reserve.

Art. 6. Shares. Each share entitles to one vote.

Each share is indivisible as far as the Company is concerned.

Co-owners of shares must be represented towards the Company by a common representative, whether appointed amongst them or not.

When the Company is composed of a single shareholder, the single shareholder may freely transfer its shares.

When the Company is composed of several shareholders, the shares may be transferred freely amongst shareholders but the shares may be transferred to non-shareholders only with the authorisation of shareholders representing at least three quarters (3/4) of the capital.

The transfer of shares must be evidenced by a notarial deed or by a private contract. Any such transfer is not binding upon the Company or upon third parties unless duly notified to the Company or accepted by the Company, pursuant to article 1690 of the Luxembourg Civil Code.

A register of shareholders is kept at the registered office of the Company which may be examined by each shareholder upon request.

The Company may acquire its own shares with a view to their immediate cancellation.

Ownership of a share carries implicit acceptance of the Articles of Incorporation and of the resolutions validly adopted by the shareholder(s).

Art. 7. Increase and Reduction of capital. The issued capital of the Company may be increased or reduced one or several times by a resolution of the shareholder(s) adopted in compliance with the quorum and majority rules set by the Articles of Incorporation or, as the case may be, by the Laws for any amendment of the Articles of Incorporation.

Art. 8. Incapacity, Bankruptcy or Insolvency of a shareholder. The incapacity, bankruptcy, insolvency or any other similar event affecting the shareholder(s) does not put the Company into liquidation.

Chapter III. Managers, Auditors

Art. 9. Managers. The Company shall be managed by one or several managers who need not be shareholders themselves (the "Manager(s)").

If two (2) Managers are appointed, they shall jointly manage the Company.

If more than two (2) Managers are appointed, they shall form a board of managers (the "Board of Managers").

The Managers will be appointed by the shareholder(s), who will determine their number and the duration of their mandate. The Managers are eligible for re-appointment and may be removed at any time, with or without cause, by a resolution of the shareholder(s).

The shareholder(s) may decide to qualify the appointed Managers as class A Managers (the "Class A Managers") or class B Managers (the "Class B Managers").

The shareholder(s) shall neither participate in nor interfere with the management of the Company.

Art. 10. Powers of the managers. The Managers are vested with the broadest powers to perform all acts necessary or useful for accomplishing the Company's object.

All powers not expressly reserved by the Articles of Incorporation or by the Laws to the general meeting of shareholder(s) or to the auditor(s) shall be within the competence of the Managers.

Art. 11. Delegation of powers - Representation of the company. The Manager(s) may delegate special powers or proxies, or entrust determined permanent or temporary functions to persons or committees chosen by them.

The Company will be bound towards third parties by the individual signature of the sole Manager or by the joint signatures of any two Manager (s) if more than one Manager has been appointed.

However, if the shareholder(s) have qualified the Managers as Class A Managers or Class B Managers, the Company will only be bound towards third parties by the joint signatures of one Class A Manager and one Class B Manager.

The Company will further be bound towards third parties by the joint signatures or sole signature of any person to whom special power has been delegated by the Manager(s), but only within the limits of such special power.

Art. 12. Meetings of the board of managers. In case a Board of Managers is formed, the following rules shall apply.

The Board of Managers may appoint from among its members a chairman (the "Chairman"). It may also appoint a secretary, who need not be a Manager himself and who will be responsible for keeping the minutes of the meetings of the Board of Managers (the "Secretary").

The Board of Managers will meet upon call by the Chairman. A meeting of the Board of Managers must be convened if any two (2) of its members so require.

The Chairman will preside over all meetings of the Board of Managers, except that in his absence the Board of Managers may appoint another member of the Board of Managers as chairman pro tempore by majority vote of the Managers present or represented at such meeting.

Except in cases of urgency or with the prior consent of all those entitled to attend, at least three (3) calendar days' written notice of meetings of the Board of Managers shall be given in writing and transmitted by any means of communication allowing for the transmission of a written text. Any such notice shall specify the time and the place of the meeting as well as the agenda and the nature of the business to be transacted. The notice may be waived by properly documented consent of each member of the Board of Managers. No separate notice is required for meetings held at times and places specified in a time schedule previously adopted by resolution of the Board of Managers.

The meetings of the Board of Managers shall be held in Luxembourg-City or at such other place in the Grand Duchy of Luxembourg as the Board of Managers may from time to time determine.

Any Manager may act at any meeting of the Board of Managers by appointing in writing, transmitted by any means of communication allowing for the transmission of a written text, another Manager as his proxy. Any Manager may represent one or several members of the Board of Managers.

A quorum of the Board of Managers shall be the presence or representation of at least half (1/2) of the Managers holding office, provided that in the event that the Managers have been qualified as Class A Managers or Class B Managers, such quorum shall only be met if at least one (1) Class A Manager and one (1) Class B Manager are present.

Decisions will be taken by absolute majority of the votes within each class of the Managers present or represented at such meeting.

One or more Managers may participate in a meeting by conference call, videoconference or any other similar means of communication enabling thus several persons participating therein to simultaneously communicate with each other. Such participation shall be deemed equivalent to a physical presence at the meeting.

A written decision, signed by all the Managers, is proper and valid as though it had been adopted at a meeting of the Board of Managers which was duly convened and held. Such a decision may be documented in a single document or in several separate documents having the same content and each of them signed by one or several Managers.

Art. 13. Resolutions of the managers. The resolutions of the Manager(s) shall be recorded in writing.

The minutes of any meeting of the Board of Managers will be signed by the Chairman of the meeting and by the secretary (if any). Any proxies will remain attached thereto.

Copies or extracts of written resolutions or minutes, to be produced in judicial proceedings or otherwise, may be signed by the sole Manager or by any two (2) Managers acting jointly if more than one Manager has been appointed.

Art. 14. Conflicts of interest. If any of the Managers of the Company has or may have any personal interest in any transaction of the Company, such Manager shall disclose such personal interest to the other Manager(s) and shall not consider or vote on any such transaction.

In case of a sole Manager it suffices that the transactions between the Company and its Manager, who has such an opposing interest, be recorded in writing.

The foregoing paragraphs of this Article do not apply if (i) the relevant transaction is entered into under fair market conditions and (ii) falls within the ordinary course of business of the Company.

No contract or other transaction between the Company and any other company or firm shall be affected or invalidated by the mere fact that any one or more of the Managers or any officer of the Company has a personal interest in, or is a manager, associate, member, shareholder, officer or employee of such other company or firm. Any person related as described above to any company or firm with which the Company shall contract or otherwise engage in business shall not, by reason of such affiliation with such other company or firm, be automatically prevented from considering, voting or acting upon any matters with respect to such contract or other business.

Art. 15. Managers' liability - Indemnification. No Manager commits himself, by reason of his functions, to any personal obligation in relation to the commitments taken on behalf of the Company.

Manager(s) are only liable for the performance of their duties.

The Company shall indemnify any member of the Board of Managers, officer or employee of the Company and, if applicable, their successors, heirs, executors and administrators, against damages and expenses reasonably incurred by him in connection with any action, suit or proceeding to which he may be made a party by reason of his being or having been Manager(s), officer or employee of the Company, or, at the request of the Company, any other company of which the Company is a shareholder or creditor and by which he is not entitled to be indemnified, except in relation to matters as to which he shall be finally adjudged in such action, suit or proceeding to be liable for gross negligence or misconduct. In the event of a settlement, indemnification shall be provided only in connection with such matters covered by the settlement as to which the Company is advised by its legal counsel that the person to be indemnified is not guilty of gross negligence or misconduct. The foregoing right of indemnification shall not exclude other rights to which the persons to be indemnified pursuant to the Articles of Incorporation may be entitled.

Art. 16. Auditors. Except where according to the Laws, the Company's annual statutory and/or consolidated accounts must be audited by an independent auditor, the business of the Company and its financial situation, including in particular its books and accounts, may, and shall in the cases provided by law, be reviewed by one or more statutory auditors who need not be shareholders themselves.

The statutory or independent auditors, if any, will be appointed by the shareholder(s), which will determine the number of such auditors and the duration of their mandate. They are eligible for re-appointment. They may be removed at any time, with or without cause, by a resolution of the shareholder(s), save in such cases where the independent auditor may, as a matter of the Laws, only be removed for serious cause.

Chapter IV. - Shareholders

Art. 17. Powers of the shareholders. The shareholder(s) shall have such powers as are vested in them pursuant to the Articles of Incorporation and the Laws. The single shareholder carries out the powers bestowed on the general meeting of shareholders.

Any properly constituted general meeting of shareholders of the Company represents the entire body of shareholders.

Art. 18. Annual general meeting. The annual general meeting of shareholders, of which one must be held where the company has more than twenty-five (25) shareholders, will be held on the last business day of April each year at the Company's registered office.

If such day is a day on which banks are not generally open for business in Luxembourg, the meeting will be held on the next following business day.

Art. 19. Other general meetings. If the Company is composed of several shareholders, but no more than twenty-five (25) shareholders, resolutions of the shareholders may be passed in writing. Written resolutions may be documented in a single document or in several separate documents having the same content and each of them signed by one or several shareholders. Should such written resolutions be sent by the Manager(s) to the shareholders for adoption, the shareholders are under the obligation to, within a time period of fifteen (15) calendar days from the dispatch of the text of the proposed resolutions, cast their written vote by returning it to the Company through any means of communication allowing for the transmission of a written text. The quorum and majority requirements applicable to the adoption of resolutions by the general meeting of shareholders shall mutatis mutandis apply to the adoption of written resolutions.

General meetings of shareholders, including the annual general meeting of shareholders will be held at the registered office of the Company or at such other place in the Grand Duchy of Luxembourg, and may be held abroad if, in the judgement of the Manager(s), which is final, circumstances of force majeure so require.

Art. 20. Notice of general meetings. Unless there is only one single shareholder, the shareholders may also meet in a general meeting of shareholders upon issuance of a convening notice in compliance with the Articles of Incorporation or the Laws, by the Manager(s), subsidiarily, by the statutory auditor(s) (if any) or, more subsidiarily, by shareholders representing more than half (1/2) of the capital.

The convening notice sent to the shareholders will specify the time and the place of the meeting as well as the agenda and the nature of the business to be transacted at the relevant general meeting of shareholders. The agenda for a general meeting of shareholders shall also, where appropriate, describe any proposed changes to the Articles of Incorporation and, if applicable, set out the text of those changes affecting the object or form of the Company.

If all the shareholders are present or represented at a general meeting of shareholders and if they state that they have been duly informed of the agenda of the meeting, the meeting may be held without prior notice.

Art. 21. Attendance - Representation. All shareholders are entitled to attend and speak at any general meeting of shareholders.

A shareholder may act at any general meeting of shareholders by appointing in writing, transmitted by any means of communication allowing for the transmission of a written text, another person who need not be a shareholder himself, as a proxy holder.

Art. 22. Proceedings. Any general meeting of shareholders shall be presided over by the Chairman or by a person designated by the Manager(s) or, in the absence of such designation, by the general meeting of shareholders.

The Chairman of the general meeting of shareholders shall appoint a secretary.

The general meeting of shareholders shall elect one (1) scrutineer to be chosen from the persons attending the general meeting of shareholders.

The Chairman, the secretary and the scrutineer so appointed together form the board of the general meeting.

Art. 23. Vote. At any general meeting of shareholders other' than a general meeting convened for the purpose of amending the Articles of Incorporation of the Company or voting on resolutions whose adoption is subject to the quorum and majority requirements of an amendment to the Articles of Incorporation, as the case may be, to the quorum and majority rules set for the amendment of the Articles of Incorporation, resolutions shall be adopted by shareholders representing more than half (1/2) of the capital. If such majority is not reached at the first meeting (or consultation in writing), the shareholders shall be convened (or consulted) a second time and resolutions shall be adopted, irrespective of the number of shares represented, by a simple majority of votes cast.

At any general meeting of shareholders, convened in accordance with the Articles of Incorporation or the Laws, for the purpose of amending the Articles of Incorporation of the Company or voting on resolutions whose adoption is subject to the quorum and majority requirements of an amendment to the Articles of Incorporation, the majority requirements shall be a majority of shareholders in number representing at least three quarters (3/4) of the capital.

Art. 24. Minutes. The minutes of the general meeting of shareholders shall be signed by the shareholders present and may be signed by any shareholders or proxies of shareholders, who so request.

The resolutions adopted by the single shareholder shall be documented in writing and signed by the single shareholder.

Copies or extracts of the written resolutions adopted by the shareholder(s) as well as of the minutes of the general meeting of shareholders to be produced in judicial proceedings or otherwise may be signed by the sole Manager or by any two (2) Managers acting jointly if more than one Manager has been appointed.

Art. 25. Financial year. The Company's financial year begins on the first day of January and ends on the last day of December of each year.

Art. 26. Adoption of financial statements. At the end of each financial year, the accounts are closed and the Manager(s) draw up an inventory of assets and liabilities, the balance sheet and the profit and loss account, in accordance with the Laws.

The annual statutory and/or consolidated accounts are submitted to the shareholder(s) for approval.

Each shareholder or its representative may peruse these financial documents at the registered office of the Company. If the Company is composed of more than twenty-five (25) shareholders, such right may only be exercised within a time period of fifteen (15) calendar days preceding the date set for the annual general meeting of shareholders.

Art. 27. Distribution of profits. From the annual net profits of the Company, at least five per cent (5%) shall each year be allocated to the reserve required by law (the "Legal Reserve"). That allocation to the Legal Reserve will cease to be required as soon and as long as the Legal Reserve amounts to ten per cent (10%) of the issued capital of the Company.

After allocation to the Legal Reserve, the shareholder(s) shall determine how the remainder of the annual net profits will be disposed of by allocating the whole or part of the remainder to a reserve or to a provision, by carrying it forward to the next following financial year or by distributing it, together with carried forward profits, distributable reserves or share premium to the shareholder(s), each share entitling to the same proportion in such distributions.

Subject to the conditions (if any) fixed by the Laws and in compliance with the foregoing provisions, the Manager(s) may pay out an advance payment on dividends to the shareholders. The Manager(s) fix the amount and the date of payment of any such advance payment.

Chapter VI. Dissolution, Liquidation

Art. 28. Dissolution, Liquidation. The Company may be dissolved by a resolution of the shareholder(s) adopted by half of the shareholders holding three quarters (3/4) of the capital.

After payment of all the debts of and charges against the Company, including the expenses of liquidation, the net liquidation proceeds shall be distributed to the shareholder(s) so as to achieve on an aggregate basis the same economic result as the distribution rules set out for dividend distributions.

Chapter VII. Applicable law

Art. 29. Applicable law. All matters not governed by the Articles of Incorporation shall be determined in accordance with the Laws, in particular the law of 10 August 1915 on commercial companies, as amended.

La convocation indiquera la date, l'heure et le lieu de la réunion ainsi que l'ordre du jour et la nature des affaires à traiter. Il pourra être renoncé à cette convocation par un accord correctement consigné de chaque membre du Conseil de Gérance. Aucune convocation spéciale ne sera requise pour les réunions se tenant à des dates et des lieux déterminés préalablement par une résolution adoptée par le Conseil de Gérance.

Les réunions du Conseil de Gérance se tiendront dans la ville de Luxembourg ou à tout autre endroit au Grand-Duché du Luxembourg que le Conseil de Gérance pourra déterminer de temps à autre.

Tout Gérant peut se faire représenter aux réunions du Conseil de Gérance en désignant par un écrit, transmis par tout moyen de communication permettant la transmission d'un texte écrit, un autre Gérant comme son mandataire. Tout Gérant peut représenter un ou plusieurs membres du Conseil de Gérance.

Le Conseil de Gérance ne pourra valablement délibérer que si au moins la moitié (1/2) des Gérants en fonction est présente ou représentée, sous réserve que dans l'hypothèse où des Gérants de Catégorie A ou des Gérants de Catégorie B ont été désignés, ce quorum ne sera atteint que si au moins un (1) Gérant de Catégorie A et un (1) Gérant de Catégorie B sont présents.

Les décisions seront prises à la majorité des voix de chaque catégorie de Gérants présents ou représentés à cette réunion.

Un ou plusieurs Gérants peuvent prendre part à une réunion par conférence téléphonique, visioconférence ou tout autre moyen de communication similaire permettant ainsi à plusieurs personnes y participant de communiquer simultanément les unes avec les autres. Une telle participation sera considérée équivalente à une présence physique à la réunion.

Une décision écrite, signée par tous les Gérants, est régulière et valable de la même manière que si elle avait été adoptée à une réunion du Conseil de Gérance dûment convoquée et tenue. Une telle décision pourra être consignée dans un seul ou plusieurs écrits séparés ayant le même contenu et signé par un ou plusieurs Gérants.

Art. 13. Résolutions des gérants. Les résolutions des Gérants doivent être consignées par écrit.

Les procès-verbaux des réunions du Conseil de Gérance seront signés par le Président de la réunion et par le Secrétaire (s'il y en a). Les procurations y resteront annexées.

Les copies ou les extraits des résolutions écrites ou les procès-verbaux, destinés à être produits en justice ou ailleurs, pourront être signés par le Gérant unique ou par deux Gérants agissant conjointement si plus d'un Gérant a été nommé.

Art. 14. Conflits d'intérêt. Si un ou plusieurs Gérants a ou pourrait avoir un intérêt personnel dans une transaction de la Société, ce Gérant devra en aviser les autres Gérants et il ne pourra ni prendre part aux délibérations ni émittre un vote sur une telle transaction.

Dans l'hypothèse d'un Gérant unique, ii est seulement fait mention dans un procès-verbal des opérations intervenues entre la Société et son Gérant ayant un intérêt opposé à celui de la Société.

Les dispositions des alinéas qui précèdent ne sont pas applicables lorsque (i) l'opération en question est conclue à des conditions normales et (ii) si elle tombe dans le cadre des opérations courantes de la Société.

Aucun contrat ni autre transaction entre la Société et d'autres sociétés ou entreprises ne sera affecté ou invalidé par le simple fait qu'un ou plusieurs Gérants ou tout fondé de pouvoir de la Société y a un intérêt personnel, ou est gérant, collaborateur, membre, associé, fondé de pouvoir ou employé d'une telle société ou entreprise. Toute personne liée de la manière décrite ci-dessus, à une société ou entreprise, avec laquelle la Société contractera ou entrera

autrement en relations d'affaires, ne devra pas en raison de cette affiliation à cette société ou entreprise, être automatiquement empêchée de délibérer, de voter ou d'agir autrement sur une opération relative à de tels contrats ou transactions.

Art. 15. Responsabilité des gérants - Indemnisation. Les Gérants n'engagent pas leur responsabilité personnelle lorsque, dans l'exercice de leurs fonctions, ils prennent des engagements pour le compte de la Société.

Les Gérants sont uniquement responsables de l'accomplissement de leurs devoirs.

La Société indemnisera tout membre du Conseil de Gérance, fondé de pouvoir ou employé de la Société et, le cas échéant, leurs successeurs, leurs héritiers, exécuteurs testamentaires et administrateurs de biens pour tous dommages qu'ils ont à payer et tous frais raisonnables qu'ils auront encourus par suite de leur comparution en tant que défendeurs dans des actions en justice, des procès ou des poursuites judiciaires qui leur auront été intentés de par leurs fonctions actuelles ou anciennes de Gérant(s), de fondé de pouvoir ou d'employé de la Société, ou à la demande de la Société, de toute autre société dans laquelle la Société est actionnaire ou créancier et dans laquelle ils n'ont pas droit à indemnisation, exception faite des cas où leur responsabilité est engagée pour négligence grave ou mauvaise gestion. En cas d'arrangement transactionnel, l'indemnisation ne portera que sur les questions couvertes par l'arrangement transactionnel et dans ce cas seulement si la Société reçoit confirmation par son conseiller juridique que la personne à indemniser n'est pas coupable de négligence grave ou mauvaise gestion. Ce droit à indemnisation n'est pas exclusif d'autres droits auxquels les personnes susnommées pourraient prétendre en vertu des Statuts.

Art. 16. Commissaires aux comptes. Sauf lorsque, conformément aux Lois, les comptes annuels et/ou les comptes consolidés de la Société doivent être vérifiés par un réviseur d'entreprises indépendant, les affaires de la Société et sa situation financière, en particular ses documents comptables, peuvent et devront, dans les cas prévus par la loi, être contrôlés par un ou plusieurs commissaries aux comptes qui n'ont pas besoin d'être eux-mêmes associés.

Le(s) commissaire(s) aux compte(s) ou réviseur(s) d'entreprises indépendant(s) seront, le cas échéant, nommés par les Associés qui détermineront leur nombre et la durée de leur mandat. Leur mandat peut être renouvelé. Ils peuvent être révoqués à tout moment, avec ou sans motif, par une résolution des associés sauf dans les cas où le réviseur d'entreprises indépendant peut seulement, par dispositions des Lois, être révoqué pour motifs graves.

Chapitre IV. Des associés

Art. 17. Pouvoirs des associés. Les associés exercent les pouvoirs qui leur sont dévolus par les Statuts et les Lois. Si la Société ne compte qu'un seul associé, celui-ci exerce les pouvoirs conférés par les Lois à l'assemblée générale des associés.

Toute assemblée générale des associés régulièrement constituée représente l'ensemble des associés.

Art. 18. Assemblée générale annuelle des associés. L'assemblée générale annuelle des associés, qui doit se tenir au cas où la Société a plus de vingt-cinq (25) associés, aura lieu le dernier jour ouvrable du mois d'avril de chaque annee au siège social de la Société.

Si ce jour n'est pas généralement un jour bancaire ouvrable à Luxembourg, l'assemblée se tiendra le premier jour ouvrable suivant.

Art. 19. Autres assemblées générales. Si la Société compte plusieurs associés, dans la limite de vingt-cinq (25) associés, les résolutions des associés peuvent être prises par écrit. Les résolutions écrites peuvent être constatées dans un seul ou plusieurs documents ayant le même contenu, signés par un ou plusieurs associés. Dès lors que les résolutions à adopter ont été envoyées par les Gérants aux associés pour approbation, les associés sont tenus, dans un dans un délai de quinze (15) jours calendaires suivant la réception du texte de la résolution proposée, d'exprimer leur vote par écrit en le retournant à la Société par tout moyen de communication permettant la transmission d'un texte écrit. Les exigences de quorum et de majorité imposées pour l'adoption de résolutions par l'assemblée générale s'applique mutatis mutandis à l'adoption de résolution écrites.

Les assemblées générales des associés, y compris l'assemblée générale annuelle des associés, se tiendra au siège social de la Société ou à tout autre endroit au Grand-Duché du Luxembourg, et pourra se tenir à l'étranger, chaque fois que des circonstances de force majeure, appréciées souverainement par les Gérants, le requièrent.

Art. 20. Convocation des assemblées générales. A moins qu'il n'y ait qu'un associé unique, les associés peuvent aussi se réunir en assemblées générales, conformément aux conditions fixées par les Statuts ou les Lois, sur convocation des Gérants, subsidiairement, du commissaire aux comptes (s'il y en existe), ou plus subsidiairement, des associés représentant plus de la moitié (1/2) du capital social émis.

La convocation envoyée aux associés indiquera la date, l'heure et le lieu de l'assemblée générale ainsi que l'ordre du jour et la nature des affaires à traiter lors de l'assemblée générale des associés. L'ordre du jour d'une assemblée générale d'associés doit également, si nécessaire, indiquer toutes les modifications proposées des Statuts et, le cas échéant, le texte des modifications relatives à l'objet social ou à la forme de la Société.

Si tous les associés sont présents ou représentés à une assemblée générale des associés et s'ils déclarent avoir été dûment informés de l'ordre du jour de l'assemblée, celle-ci peut se tenir sans convocation préalable.

Art. 21. Presence - Représentation. Tous les associés sont en droit de participer et de prendre la parole a toute assemblée générale des associés.

Un associé peut désigner par écrit, transmis par tout moyen de communication permettant la transmission d'un texte écrit, un mandataire qui n'a pas besoin d'être lui-même associé, afin de le représenter à une assemblée générale des associés.

Art. 22. Procédure. Toute assemblée générale des associés est présidée par le Président ou par une personne désignée par les Gérants, ou, faute d'une telle désignation, par une personne designée par l'assemblée générale des associés.

Le Président de l'assemblée générale des associés désigne un secrétaire.

L'assemblée générale des associés élit un (1) scrutateur parmi les personnes participant à l'assemblée générale des associés.

Le Président, le secrétaire et le scrutateur ainsi désignés forment ensemble le bureau de l'assemblée générale.

Art. 23. Vote. Lors de toute assemblée générale des associés autre qu'une assemblée générale convoquée en vue de la modification des Statuts de la Société ou du vote de résolutions dont l'adoption est soumise aux conditions de quorum et de majorité exigées pour toute modification des Statuts, les résolutions seront adoptées par les associés représentant plus de la moitié (1/2) du capital social. Si cette majorité n'est pas atteinte sur première convocation (ou consultation par écrit), les associés seront de nouveau convoqués (ou consultés) et les résolutions seront adoptées à la majorité simple, indépendamment du nombre de parts sociales représentées.

Lors de toute assemblée générale des associés, convoquée conformément aux Statuts ou aux Lois, en vue de la modification des Statuts de la Société ou du vote de résolutions dont l'adoption est soumise aux conditions de quorum et de majorité exigées pour toute modification des Statuts, la majorité exigée sera d'au moins la majorité en nombre des associés représentant au moins les trois quarts (3/4) du capital.

Art. 24. Procès-verbaux. Les procès-verbaux des assemblées générales doivent être signés par les associés présents et peuvent être signés par tous les associés ou mandataires d'associés qui en font la demande.

Les résolutions adoptées par l'associé unique seront établies par écrit et signées par l'associé unique.

Les copies ou extraits des résolutions écrites adoptées par les associés, ainsi que les procès-verbaux des assemblées générales à produire en justice ou ailleurs sont signés par le Gérant unique ou par deux Gérants au moins agissant conjointement dès lors que plus d'un Gérant aura été nommé.

Chapitre V. Exercice social, Comptes annuels, Distribution des bénéfices

Art. 25. Exercice social. L'exercice social de la Société commence le premier jour de janvier et s'achève le dernier jour de décembre de chaque année.

Art. 26. Approbation des comptes annuels. A la clôture de chaque exercice social, les comptes sont arrêtés et les Gérants dressent l'inventaire des divers éléments de l'actif et du passif ainsi que le compte de résultat conformément aux Lois.

Les comptes annuels et/ou les comptes consolidés sont soumis aux associés pour approbation.

Tout associé ou son mandataire peut prendre connaissance des documents comptables au siège social de la Société. Si la Société compte plus de vingt-cinq (25) associés, ce droit ne pourra être exercé que dans les quinze (15) jours calendaires qui précèdent l'assemblée générale annuelle des associés.

Art. 27. Distribution des bénéfices. Sur les bénéfices nets de la Société, il sera prélevé au moins cinq pour cent (5 %) qui seront affectés, chaque année, à la réserve légale (la "Réserve Légale"), conformément à la loi. Cette affectation à la Réserve Légale cessera d'être obligatoire lorsque et aussi longtemps que la Réserve Légale atteindra dix pour cent (10%) du capital émis de la Société.

Après affectation à la Réserve Légale, les associés décident de l'affectation du solde des bénéfices annuels nets. Ils peuvent décider de verser la totalité ou une partie du solde à un compte de réserve ou de provision, en le reportant à nouveau ou en le distribuant avec les bénéfices reportés, les réserves distribuables ou les primes d'émission, aux associés, chaque part sociale donnant droit à une même proportion dans ces distributions.

Sous réserve des conditions (s'il y en a) fixées par les Lois et conformément aux dispositions qui précèdent, les Gérants peuvent procéder au versement d'un acompte sur dividendes aux associés. Les Gérants détermineront le montant ainsi que la date de paiement de tels acomptes.

Chapitre VI. Dissolution, Liquidation

Art. 28. Dissolution, Liquidation. La Société peut être dissoute par une décision prise par la moitié des associés possédant les trois quarts (3/4) du capital social.

En cas de dissolution de la Société, la liquidation sera réalisée par les Gérants ou toute autre personne (qui peut être une personne physique ou une personne morale) nommée par les associés qui détermineront leurs pouvoirs et leurs émoluments.

Après paiement de toutes les dettes et charges de la Société, et de tous les frais de liquidation, le boni net de liquidation sera réparti équitablement entre le(s) associé(s) de manière à atteindre le même résultat économique que celui fixé par les règles relatives à la distribution de dividendes.

Chapitre VII. Loi applicable

Art. 29. Loi applicable. Toutes les matières qui ne sont pas régies par les Statuts seront réglées conformément aux Lois, en particulier à la loi du 10 août 1915 concernant les sociétés commerciales, telle que modifiée.

De directie is verplicht om ter behandeling van het verzoek tot goedkeuring een algemene vergadering van aandeelhouders bijeen te roepen en te doen houden binnen zes weken na ontvangst van het verzoek. wordt de gevraagde goedkeuring geacht te zijn verleend en wel, in het onder a bedoelde geval, op de laatste dag van de daarin genoemde termijn van zes weken. De vennootschap kan alleen met instemming van de Verzoeker als Gegadigde optreden.

13.5 De aandelen waarop het verzoek tot goedkeuring betrekking heeft, kunnen door de Gegadigden worden gekocht tegen een prijs, die wordt vastgesteld door de Verzoeker en de Gegadigden in onderling overleg of door één of meer door hen aan te wijzen deskundigen. Indien zij over de prijs of de deskundige(n) geen overeenstemming bereiken, wordt de prijs vastgesteld door één of meer onafhankelijke deskundigen, op verzoek van één of meer van de betrokken partijen te benoemen door de voorzitter van de Kamer van Koophandel

13.6 Binnen één maand na vaststelling van de prijs dienen de Gegadigden aan de directie op te geven hoeveel van de aandelen waarop het verzoek betrekking heeft zij wensen te kopen; een Gegadigde van wie deze opgave niet binnen genoemde termijn is ontvangen, wordt niet langer als Gegadigde aangemerkt. Na de opgave als bedoeld in de vorige volzin kan een Gegadigde zich slechts terugtrekken met goedkeuring van de andere Gegadigden.

13.7 De Verzoeker is bevoegd zich terug te trekken tot een maand na de dag waarop hem bekend wordt aan welke Gegadigde of Gegadigden hij al de aandelen waarop het verzoek tot goedkeuring betrekking had, kan verkopen en tegen welke prijs.

13.8 Alle kennisgevingen en opgaven als bedoeld in dit artikel 13 dienen te worden gedaan bij aangetekende brief of tegen ontvangstbewijs. De oproeping tot de algemene vergadering van aandeelhouders geschiedt overeenkomstig hetgeen ter zake in deze statuten is bepaald.

13.9 Alle kosten die zijn verbonden aan de benoeming van deskundigen en hun prijsvaststelling komen ten laste van:

a. de Verzoeker, indien deze zich terugtrekt;

Deze functionarissen worden ingeschreven in het Handelsregister, met vermelding van de omvang van hun vertegenwoordigingsbevoegdheid.

18.4 In alle gevallen waarin de vennootschap een tegenstrijdig belang heeft met één of meer directeuren, blijft het bepaalde in artikel 18.1 hiervoor onverkort van kracht tenzij de algemene vergadering één of meer andere personen heeft aangewezen om de vennootschap in het desbetreffende geval of in dergelijke gevallen te vertegenwoordigen. Een besluit van de directie tot het verrichten van een rechtshandeling die een tegenstrijdig belang met één of meer directeuren in privé betreft, is onderworpen aan de goedkeuring van de algemene vergadering, maar het ontbreken van zodanige goedkeuring tast de vertegenwoordigingsbevoegdheid van de directie of directeuren niet aan.

18.5 Ongeacht of er sprake is van een tegenstrijdig belang worden rechtshandelingen van de vennootschap jegens de houder van alle aandelen of jegens een deelgenoot in een huwelijksgemeenschap of in een gemeenschap van een geregistreerd partnerschap waartoe alle

aandelen behoren, waarbij de vennootschap wordt vertegenwoordigd door deze aandeelhouder of door een van de deelgenoten, schriftelijk vastgelegd. Voor de toepassing van de vorige volzin worden aandelen gehouden door de vennootschap of haar dochtermaatschappijen niet meegeteld.

18.6 Het bepaalde in artikel 18.5 hiervoor is niet van toepassing op rechtshandelingen die onder de bedongen voorwaarden tot de gewone bedrijfsuitoefening van de vennootschap behoren.

Artikel 19. Goedkeuring van directiebesluiten.

19.1 De algemene vergadering is bevoegd besluiten van de directie aan haar goedkeuring te onderwerpen. Deze besluiten dienen duidelijk te worden omschreven en schriftelijk aan de directie te worden meegedeeld.

19.2 Het ontbreken van goedkeuring van de algemene vergadering op een besluit als bedoeld in dit artikel 19 tast de vertegenwoordigingsbevoegdheid van de directie of directeuren niet aan.

Artikel 20. Ontstentenis of belet.

In geval van ontstentenis of belet van een directeur zijn de overblijvende directeuren tijdelijk met het bestuur van de vennootschap belast, mits ten aanzien van ten minste twee directeuren geen ontstentenis of belet bestaat. In geval van ontstentenis of belet van alle directeuren, alle directeuren behoudens één, of de enige directeur, is de persoon die daartoe door de algemene vergadering wordt benoemd, tijdelijk met het besturen van de vennootschap belast.

Artikel 21. Vrijwaring.

21.1 Overeenkomstig de bepalingen van dit artikel 21 en afhankelijk van de beperkingen van de Nederlandse wet, zal de vennootschap een ieder die gedaagde is of was of dreigt te worden van enige op handen zijnde, aanhangige, of afgeronde rechtszaak of procedure, ongeacht of deze van civielrechtelijke -, strafrechtelijke -, administratieve -, of onderzoeksaard is, vanwege het feit dat een zodanig persoon:

(a) directeur, functionaris, of werknemer van de vennootschap is of is geweest; of

(b) directeur, functionaris, of werknemer van de vennootschap is of is geweest en op verzoek van de vennootschap actief is of is geweest als directeur, trustee, lid, functionaris, werknemer, of vertegenwoordiger van een andere vennootschap, maatschap, naamloze vennootschap of besloten vennootschap met beperkte aansprakelijkheid, joint venture, trust, of enig andere onderneming;

vrijwaren tegen kosten (waaronder kosten voor juridische bijstand), uitspraken, boetes en schikkingen welke feitelijk en in redelijkheid door een zodanig persoon zijn gemaakt in verband met genoemde rechtszaak of procedure;

deze vrijwaring wordt verleend in de mate en reikwijdte als bepaald door de directie met goedkeuring van de algemene vergadering. De directie dient ervoor te zorgen dat elke rechtstreeks belanghebbende de inhoud van de vrijwaring vrijelijk kan inzien. De directie maakt aantekening van het goedkeuringsbesluit van de algemene vergadering en voegt deze bij de aantekeningen als genoemd in artikel 30.3 van deze statuten.

Ingeval enige bepaling van de door de directie opgestelde vrijwaring volgens de Nederlands wet nietig is, zal deze bepaling komen te vervallen in zoverre die ongeldig is, zonder dat dit de overige bepalingen van de vrijwaring op enigerlei wijze aantast of ongeldig maakt.

Een vervallenverklaring, wijziging of aanpassing van dit artikel 21 of van de door de directie opgestelde vrijwaring laat onverlet alle rechten of verplichtingen welke op dat moment van kracht zijn tussen de vennootschap en een in functie zijnde of voormalig directeur, functionaris of werknemer met betrekking tot een dan of daarvoor bestaande situatie, of met betrekking tot een dan of daarvoor aangespannen rechtszaak of procedure welke geheel of gedeeltelijk gebaseerd is op een dergelijke situatie.

21.2 De vennootschap kan een persoon die partij is of is geweest of dreigt partij te worden in een op handen zijnde, aanhangige of afgeronde rechtszaak of procedure, ongeacht of deze van civielrechtelijke -, strafrechterlijke -, administratieve, of onderzoeksaard is, vanwege het feit dat een dergelijke persoon:

(a) directeur, functionaris, werknemer, of vertegenwoordiger van de vennootschap is of is geweest; of

(b) directeur, functionaris, werknemer of vertegenwoordiger van de vennootschap is of is geweest en op verzoek van de vennootschap handelt of heeft gehandeld als directeur, trustee, lid, functionaris, werknemer of vertegenwoordiger van een andere vennootschap, maatschap, naamloze vennootschap of besloten vennootschap met beperkte aansprakelijkheid, joint venture, trust of andere onderneming;

vrijwaren tegen kosten (waaronder kosten voor juridische bijstand), uitspraken, boetes en schikkingen welke feitelijk en in redelijkheid door een zodanig persoon zijn gemaakt in verband met genoemde rechtszaak of procedure;

deze vrijwaring wordt verleend in de mate en reikwijdte als bepaald door de directie met goedkeuring van de algemene vergadering. De directie dient ervoor te zorgen dat elke rechtstreeks belanghebbende de inhoud van de vrijwaring vrijelijk kan inzien. De directie maakt aantekening van het goedkeuringsbesluit van de algemene vergadering en voegt deze bij de aantekeningen als genoemd in artikel 30.3 van deze statuten.

Ingeval enige bepaling van de door de directie opgestelde vrijwaring volgens de Nederlands wet nietig is, zal deze bepaling komen te vervallen in zoverre die ongeldig is, zonder dat dit de overige bepalingen in de vrijwaring op enigerlei wijze aantast of ongeldig maakt. Een vervallenverklaring, wijziging of aanpassing van dit artikel 21 of van de door de directie opgestelde vrijwaring laat onverlet alle rechten of verplichtingen welke op dat moment van kracht zijn tussen de vennootschap en een in functie zijnde of voormalig directeur, functionaris of werknemer met betrekking tot een dan of daarvoor bestaande situatie, of met betrekking tot een dan of daarvoor aangespannen rechtszaak of procedure welke geheel of gedeeltelijk gebaseerd is op een dergelijke situatie.

21.3 leder in functie zijnde of voormalig directeur, functionaris of werknemer kan zich tot elke bevoegde rechtbank wenden in het rechtsgebied waar de vennootschap opgericht werd, met het verzoek vrijwaring te gebieden voor zover mogelijk onder bovenstaand artikel 21.1 en 21.2. De rechtbank dient een dergelijke bevel tot vrijwaring te baseren op het feit dat zij vrijwaring van de in functie zijnde of voormalige directeur, functionaris, of medewerker juist acht onder de omstandigheden. Elk verzoek om vrijwaring ingevolge dit artikel 21 dient onmiddellijk na het indienen ervan aan de vennootschap gemeld te worden.

21.4 Niettegenstaande artikel 21.1 en 21.2 van deze statuten, wordt er geen vrijwaring verleend met betrekking tot enige rechtszaak of procedure als hiervoor genoemd waarin de uitspraak luidt dat de persoon in kwestie aansprakelijk wordt gesteld wegens grove nalatigheid of opzettelijk wangedrag tijdens de uitvoering van zijn/haar werk voor de vennootschap.

21.5 Afhankelijk van de beperkingen van de Nederlands wet, zal de vennootschap de kosten gemaakt door een directeur of functionaris bij de verdediging van of het onderzoek in een op handen zijnde of aanhangige rechtszaak of procedure voorafgaande aan de definitieve beslissing in een dergelijke rechtszaak of procedure vergoeden, na ontvangst van een verklaring van of namens de directeur of functionaris dat hij/zij dit bedrag terug zal betalen als uiteindelijk bepaald wordt dat de directeur of de functionaris geen recht op vrijwaring door de vennootschap heeft als goedgekeurd in dit artikel 21.

Soortgelijke kosten gemaakt door andere werknemers en vertegenwoordigers worden vergoed volgens de door de directie passend geachte voorwaarden.

21.6 De vrijwaring en vooruitbetaling van kosten als vereist door, toegelaten onder of toegekend ingevolge dit artikel 21, dienen niet ter uitsluiting van enige ander rechten waarop de verzoekers voor vrijwaring of vooruitbetaling van kosten aanspraak kunnen maken ingevolge een verordening, overeenkomst, contract, stemming van aandeelhouders of nietbelanghebbende bestuursleden, of ingevolge de opdracht (in welke vorm ook) van een bevoegde rechtbank, of anderszins, zowel in geval van een rechtszaak gevoerd door een persoon in zijn officiele hoedanigheid als een rechtszaak gevoerd door een in functie zijnde persoon in een andere hoedanigheid. Het is het beleid van de vennootschap de vrijwaring van de personen genoemd in artikel 21.1 of 21.2 hierboven als gedaagden zo breed mogelijk te interpreteren.

De bepalingen in dit artikel 21.6 dienen niet ter uitsluiting van vrijwaring van een persoon welke niet in artikel 21.1 of 21.2 hierboven genoemd wordt, maar die de vennootschap kan of moet vrijwaren krachtens de wetten in het rechtsgebied van de oprichting van de vennootschap of anderszins.

21.7 De vennootschap kan een verzekering afsluiten en handhaven voor elke persoon die directeur, functionaris, werknemer, of vertegenwoordiger van de vennootschap is of is geweest, of op verzoek van de vennootschap handelt of heeft gehandeld als directeur, functionaris, trustee, lid, werknemer of vertegenwoordiger van een andere vennootschap, maatschap, naamloze vennootschap of besloten vennootschap met beperkte aansprakelijkheid, joint venture, trust of andere onderneming, tegen enige vorm van aansprakelijkheid aangevoerd tegen en begaan door een dergelijke persoon in een dergelijke hoedanigheid, of voortkomend uit de status van een dergelijke persoon, ongeacht of de vennootschap de bevoegdheid of verplichting zou hebben om de directeur, functionaris, werknemer of vertegenwoordiger van de vennootschap te vrijwaren tegen dergelijke aansprakelijkheid krachtens de bepalingen in dit artikel 21.

21.8 Voor dit artikel 21 zullen verwijzingen naar ‘de vennootschap’ tevens inhouden, naast de overblijvende vennootschap, enige bedrijfsonderdeel (waaronder enig deel van een bedrijfsonderdeel) die is opgegaan in een consolidatie of fusie, en die indien het nog een zelfstandig bestaan zou leiden, bevoegd en gemachtigd zou zijn om haar directeuren, functionarissen, trustees, leden, werknemers en/of vertegenwoordigers te vrijwaren, zodanig dat een persoon die directeur, functionaris, trustee, lid, werknemer of vertegenwoordiger is of is geweest van een zodanig bedrijfsonderdeel, of die op verzoek van een zodanig bedrijfsonderdeel handelt of heeft gehandeld als directeur, functionaris, trustee, lid, werknemer of vertegenwoordiger van een andere vennootschap, maatschap, naamloze vennootschap of besloten vennootschap met beperkte aansprakelijkheid, joint venture, trust of andere onderneming, ingevolge de bepalingen in dit artikel 21 in dezelfde situatie zal staan ten opzichte van de overblijvende vennootschap als hij/zij ten opzichte van een dergelijk bedrijfsonderdeel zou staan indien het zelfstandig bestaan daarvan zou hebben voortgeduurd. Het begrip ‘andere onderneming’ als gebruikt in dit artikel 21 omvat tevens werknemersvoorzieningen. Verwijzingen naar ‘boetes’ in dit artikel 21 omvatten accijnzen opgelegd aan een persoon in verband met werknemersvoorzieningen. De zin ‘handelend op verzoek van de vennootschap’ omvat elk optreden als directeur, functionaris, werknemer of vertegenwoordiger van de vennootschap waardoor heffingen worden opgelegd aan, of die te maken hebben met het optreden van, een dergelijk directeur, functionaris, werknemer of vertegenwoordiger met betrekking tot werknemersvoorzieningen, de deelnemers of ontvangers daarvan.

21.9 Vrijwaring en vooruitbetaling van kosten verstrekt door, of verleend ingevolge dit artikel 21 blijven tevens van kracht voor een persoon die niet langer directeur, functionaris, werknemer of vertegenwoordiger van de vennootschap is en komen ten goede aan de erfgenamen en executeurs-testamentair van een dergelijke persoon.

HOOFDSTUK IX. BOEKJAAR EN JAARREKENING; WINST EN UITKERINGEN.

Artikel 22. Boekjaar en jaarrekening.

22.1 Het boekjaar van de vennootschap valt samen met het kalenderjaar.

22.2 Jaarlijks binnen vijf maanden na afloop van het boekjaar, behoudens verlenging van deze termijn met ten hoogste zes maanden door de algemene vergadering op grond van bijzondere omstandigheden, maakt de directie een jaarrekening op en legt deze voor de aandeelhouders ter inzage ten kantore van de vennootschap.

22.3 Binnen deze termijn legt de directie ook het jaarverslag ter inzage voor de aandeelhouders, tenzij artikel 2:396 lid 6, eerste volzin, of artikel 2:403 van het Burgerlijk Wetboek voor de vennootschap geldt.

22.4 De jaarrekening bestaat uit een balans, een winst en verliesrekening en een toelichting.

22.5 De jaarrekening wordt ondertekend door de directeuren. Ontbreekt de ondertekening van één of meer van hen, dan wordt daarvan onder opgave van reden melding gemaakt.

22.6 De vennootschap kan, en indien daartoe wettelijk verplicht, zal, aan een accountant opdracht verlenen tot onderzoek van de jaarrekening. Tot het verlenen van de opdracht is de algemene vergadering bevoegd.

22.7 De vennootschap zorgt dat de opgemaakte jaarrekening en, voor zover vereist, het jaarverslag en de krachtens de wet toe te voegen gegevens vanaf de oproeping voor de jaarlijkse algemene vergadering van aandeelhouders te haren kantore aanwezig zijn. Aandeelhouders kunnen de stukken aldaar inzien en er kosteloos een afschrift van verkrijgen.

22.8 Op de jaarrekening, het jaarverslag, de krachtens de wet toe te voegen gegevens en de accountantscontrole, alsmede op nederlegging van stukken bij het Handelsregister, zijn voorts van toepassing de bepalingen van Boek 2, Titel 9, van het Burgerlijk Wetboek.

Artikel 23. Vaststelling van de jaarrekening en decharge.

23.1 De algemene vergadering stelt de jaarrekening vast.

23.2 De algemene vergadering kan volledige of beperkte decharge verlenen aan de directeuren voor het gevoerde bestuur.

Artikel 24. Winst en uitkeringen.

24.1 De winst die in een boekjaar is behaald, staat ter beschikking van de algemene vergadering.

24.2 Uitkering van winst geschiedt na de vaststelling van de jaarrekening waaruit blijkt dat zij geoorloofd is.

24.3 De algemene vergadering kan besluiten tot tussentijdse uitkeringen en/of tot uitkeringen ten laste van een reserve van de vennootschap. Ook de directie kan besluiten tot uitkering van interim-dividend.

24.4 Uitkeringen op aandelen kunnen slechts plaats hebben tot ten hoogste het bedrag van het uitkeerbare eigen vermogen.

24.5 Tenzij de algemene vergadering een ander tijdstip vaststelt, zijn uitkeringen op aandelen onmiddellijk na vaststelling betaalbaar.

24.6 De vordering van een aandeelhouder tot een uitkering op aandelen verjaart door een tijdsverloop van vijf jaren.

24.7 Bij de berekening van het bedrag van enige uitkering op de aandelen tellen de aandelen in haar kapitaal die de vennootschap houdt, niet mee.

HOOFDSTUK X. DE ALGEMENE VERGADERING.

Artikel 25. Jaarvergadering.

25.1 De jaarlijkse algemene vergadering van aandeelhouders wordt gehouden binnen zes maanden na de afloop van het boekjaar.

25.2 De agenda van deze jaarvergadering vermeldt onder meer de volgende onderwerpen:

a. bespreking van het jaarverslag (tenzij artikel 2:396 lid 6, eerste volzin, of artikel 2:403 van het Burgerlijk Wetboek voor de vennootschap geldt);

b. bespreking en vaststelling van de jaarrekening;

c. het verlenen van decharge aan directeuren;

d. vaststelling van de winstbestemming;

e. andere onderwerpen door de directie, dan wel aandeelhouders en/of personen met certificaathoudersrechten, tezamen vertegenwoordigende ten minste een honderdste gedeelte van het geplaatste kapitaal van de vennootschap aan de orde gesteld en aangekondigd met inachtneming van het bepaalde in artikel 27 van deze statuten.

Artikel 26. Andere algemene vergaderingen van aandeelhouders.

26.1 Andere algemene vergaderingen van aandeelhouders worden gehouden zo dikwijls de directie dat nodig acht.

26.2 Aandeelhouders en/of personen met certificaathoudersrechten, tezamen vertegenwoordigende ten minste een tiende gedeelte van het geplaatste kapitaal van de vennootschap hebben het recht aan de directie te verzoeken een algemene vergadering van aandeelhouders bijeen te roepen, onder nauwkeurige opgave van de te behandelen onderwerpen. Indien de directie niet binnen vier weken tot oproeping is overgegaan, zodanig dat de vergadering binnen zes weken na ontvangst van het verzoek kan worden gehouden, zijn de verzoekers zelf tot bijeenroeping bevoegd.

Artikel 27. Oproeping, agenda en plaats van vergaderingen.

27.1 Algemene vergaderingen van aandeelhouders worden bijeengeroepen door de directie. Voorts kunnen algemene vergaderingen van aandeelhouders bijeengeroepen worden door personen met stemrechten op aandelen, tezamen vertegenwoordigende ten minste de helft van het geplaatste kapitaal van de vennootschap, onverminderd het bepaalde in artikel 26.2.

27.2 De oproeping geschiedt niet later dan op de vijftiende dag voor die van de vergadering.

27.3 Bij de oproeping worden de te behandelen onderwerpen vermeld. Onderwerpen die niet bij de oproeping zijn vermeld, kunnen nader worden aangekondigd met inachtneming van de in artikel 27.2 hiervoor bedoelde termijn.

27.4 De oproeping geschiedt door middel van oproepingsbrieven gericht aan de adressen van de aandeelhouders en de personen met certificaathoudersrechten, zoals deze zijn vermeld in het register van aandeelhouders. De aandeelhouder en de persoon met certificaathoudersrechten die daarmee instemt, kan in plaats van door een oproepingsbrief, worden opgeroepen tot de vergadering door een langs elektronische weg toegezonden leesbaar en reproduceerbaar bericht aan het adres dat door hem voor dit doel aan de vennootschap bekend is gemaakt.

27.5 Algemene vergaderingen van aandeelhouders worden gehouden in de gemeente waar de vennootschap volgens deze statuten gevestigd is. Algemene vergaderingen van aandeelhouders kunnen ook elders worden gehouden, maar dan kunnen geldige besluiten van de algemene vergadering alleen worden genomen, indien het gehele geplaatste kapitaal van de vennootschap vertegenwoordigd is en iedere persoon met certificaathoudersrechten geldig is opgeroepen.

Artikel 28. Toegang en vergaderrechten.

28.1 Iedere aandeelhouder en iedere persoon met certificaathoudersrechten is bevoegd de algemene vergaderingen van aandeelhouders bij te wonen, daarin het woord te voeren en, voor zover hem het stemrecht toekomt, het stemrecht uit te oefenen. Aandeelhouders en personen met certificaathoudersrechten kunnen zich ter vergadering doen vertegenwoordigen door een schriftelijk gevolmachtigde.

28.2 Iedere stemgerechtigde die ter vergadering aanwezig is, moet de presentielijst tekenen. De voorzitter van de vergadering kan bepalen dat de presentielijst ook moet worden getekend door andere personen die ter vergadering aanwezig zijn.

28.3 De directeuren hebben als zodanig in de algemene vergaderingen van aandeelhouders een raadgevende stem.

28.4 Omtrent toelating van andere personen tot de vergadering beslist de voorzitter van de vergadering.

Artikel 29. Voorzitter en notulist van de vergadering.

29.1 De voorzitter van een algemene vergadering van aandeelhouders wordt aangewezen door de ter vergadering aanwezige stemgerechtigden, bij meerderheid van de uitgebrachte stemmen. Tot het moment waarop dat is gebeurd, treedt een directeur als voorzitter op, dan wel, indien geen directeur ter vergadering aanwezig is, de in leeftijd oudste ter vergadering aanwezige persoon.

29.2 De voorzitter van de vergadering wijst voor de vergadering een notulist aan.

Artikel 30. Notulen; aantekening van aandeelhoudersbesluiten.

30.1 Van het verhandelde in een algemene vergadering van aandeelhouders worden notulen gehouden door de notulist van de vergadering. De notulen worden vastgesteld door de voorzitter en de notulist van de vergadering en ten blijke daarvan door hen ondertekend.

30.2 De voorzitter van de vergadering of degene die de vergadering heeft bijeengeroepen, kan bepalen dat van het verhandelde een notarieel proces-verbaal wordt opgemaakt. Het notarieel proces-verbaal wordt mede ondertekend door de voorzitter van de vergadering.

30.3 De directie maakt aantekening van alle door de algemene vergadering genomen besluiten. Indien de directie niet ter vergadering is vertegenwoordigd, wordt door of namens de voorzitter van de vergadering een afschrift van de genomen besluiten zo spoedig mogelijk na de vergadering aan de directie verstrekt. De aantekeningen liggen ten kantore van de vennootschap ter inzage van de aandeelhouders en de personen met certificaathoudersrechten. Aan ieder van hen wordt desgevraagd een afschrift van of uittreksel uit de aantekeningen verstrekt.

Artikel 31. Besluitvorming in vergadering.

31.1 Elk aandeel geeft recht op één stem.

31.2 Voor zover de wet of deze statuten geen andere meerderheid voorschrijven, worden alle besluiten van de algemene vergadering genomen met meer dan de helft van de uitgebrachte stemmen.

31.3 Staken de stemmen, dan is het voorstel verworpen, onverminderd het bepaalde in artikel 32.3 van deze statuten.

31.4 Indien de door de wet of deze statuten gegeven voorschriften voor het oproepen en houden van algemene vergaderingen van aandeelhouders niet in acht zijn genomen, kunnen ter vergadering alleen geldige besluiten van de algemene vergadering worden genomen, indien het gehele geplaatste kapitaal van de vennootschap is vertegenwoordigd en met algemene stemmen.

31.5 Voor aandelen die toebehoren aan de vennootschap of een dochtermaatschappij en voor aandelen waarvan de vennootschap of een dochtermaatschappij de certificaten houdt, kan in de algemene vergadering geen stem worden uitgebracht. Pandhouders en vruchtgebruikers van aandelen die aan de vennootschap of een dochtermaatschappij toebehoren, zijn evenwel niet van het stemrecht uitgesloten, indien het pandrecht of vruchtgebruik

was gevestigd voordat het aandeel aan de vennootschap of die dochtermaatschappij toebehoorde. De vennootschap of een dochtermaatschappij kan geen stem uitbrengen voor een aandeel waarop zij een pandrecht of een recht van vruchtgebruik heeft.

31.6 Bij de vaststelling in hoeverre aandeelhouders stemmen, aanwezig of vertegenwoordigd zijn, of in hoeverre het geplaatste kapitaal van de vennootschap vertegenwoordigd is, wordt geen rekening gehouden met aandelen waarvan de wet of deze statuten bepalen dat daarvoor geen stem kan worden uitgebracht.

Artikel 32. Stemmingen.

32.1 Besluiten van de algemene vergadering kunnen in plaats van in een algemene vergadering van aandeelhouders ook schriftelijk worden genomen, mits met algemene stemmen van alle stemgerechtigde aandeelhouders. Het bepaalde in artikel 28.3 is van overeenkomstige toepassing. Besluitvorming buiten vergadering is evenwel niet mogelijk indien er personen met certificaathoudersrechten zijn.

32.2 Blanco stemmen en ongeldige stemmen gelden als niet-uitgebracht.

32.3 Indien bij een verkiezing van personen niemand de meerderheid van de uitgebrachte stemmen heeft verkregen, heeft een tweede vrije stemming plaats. Heeft alsdan weer niemand de meerderheid verkregen, dan vinden herstemmingen plaats, totdat hetzij één persoon de meerderheid van de uitgebrachte stemmen heeft verkregen, hetzij tussen twee personen is gestemd en de stemmen staken. Bij gemelde herstemmingen (waaronder niet begrepen de tweede vrije stemming) wordt telkens gestemd tussen de personen op wie bij de voorafgaande stemming is gestemd, uitgezonderd de persoon op wie bij de voorafgaande stemming het geringste aantal stemmen is uitgebracht. Is bij de voorafgaande stemming het geringste aantal stemmen op meer dan één persoon uitgebracht, dan wordt door loting uitgemaakt op wie van die personen bij de nieuwe stemming geen stemmen meer kunnen worden uitgebracht. Ingeval bij een stemming tussen twee personen de stemmen staken, beslist het lot wie van beiden is gekozen.

32.4 Besluiten kunnen bij acclamatie worden genomen, indien geen van de ter vergadering aanwezige stemgerechtigden zich daartegen verzet.

32.5 Het ter vergadering uitgesproken oordeel van de voorzitter van de vergadering omtrent de uitslag van een stemming is beslissend. Hetzelfde geldt voor de inhoud van een genomen besluit voor zover gestemd werd over een niet schriftelijk vastgelegd voorstel. Wordt echter onmiddellijk na het uitspreken van dat oordeel de juistheid daarvan betwist, dan vindt een nieuwe stemming plaats wanneer de meerderheid van de ter vergadering aanwezige stemgerechtigden, of indien de oorspronkelijke stemming niet hoofdelijk of schriftelijk geschiedde, een ter vergadering aanwezige stemgerechtigde dit verlangt. Door deze nieuwe stemming vervallen de rechtsgevolgen van de oorspronkelijke stemming.

Artikel 33. Besluitvorming buiten vergadering.

33.1 Besluiten van de algemene vergadering kunnen in plaats van in een algemene vergadering van aandeelhouders ook schriftelijk worden genomen, mits met algemene stemmen van alle stemgerechtigde aandeelhouders. Het bepaalde in artikel 28.3 is van overeenkomstige toepassing. Besluitvorming buiten vergadering is evenwel niet mogelijk indien er personen met certificaathoudersrechten zijn.

33.2 Iedere aandeelhouder is verplicht er voor zorg te dragen dat de aldus genomen besluiten zo spoedig mogelijk schriftelijk ter kennis van de directie worden gebracht. De directie maakt van de genomen besluiten aantekening en voegt deze aantekeningen bij de aantekeningen bedoeld in artikel 30.3 van deze statuten.

HOOFDSTUK XI. STATUTENWIJZIGING; OMZETTING; JURIDISCHE FUSIE EN JURIDISCHE SPLITSING; ONTBINDING EN VEREFFENING.

Artikel 34. Statutenwijziging; omzetting.

34.1 De algemene vergadering is bevoegd deze statuten te wijzigen. Wanneer in een algemene vergadering van aandeelhouders een voorstel tot statutenwijzi-ging wordt gedaan, moet zulks steeds bij de oproeping tot de vergadering wor-den vermeld. Tegelijkertijd moet een afschrift van het voorstel, waarin de voor-gedragen wijziging woordelijk is opgenomen, ten kantore van de vennootschap ter inzage worden gelegd voor de aandeelhouders en de personen met certifi-caathoudersrechten tot de afloop van de vergadering. Vanaf de dag van neder-legging tot de dag van de vergadering wordt aan een aandeelhouder en/of een persoon met certificaathoudersrechten, op diens verzoek, kosteloos een af-schrift van het voorstel verstrekt. Van een wijziging van deze statuten wordt een notariele akte opgemaakt.

34.2 De vennootschap kan zich omzetten in een andere rechtsvorm. Voor omzetting is vereist een besluit tot omzetting, genomen door de algemene vergadering, alsmede een besluit tot statutenwijziging. Op een omzetting zijn voorts van toepassing de desbetreffende bepalingen van Boek 2 van het Burgerlijk Wetboek. Omzetting beëindigt het bestaan van de rechtspersoon niet.

Artikel 35. Juridische fusie en juridische splitsing.

35.1 De vennootschap kan een juridische fusie aangaan met één of meer andere rechtspersonen. Een besluit tot fusie kan slechts worden genomen in overeenstemming met een voorstel tot fusie, opgesteld door de besturen van de fuserende rechtspersonen. In de vennootschap wordt het besluit tot fusie genomen door de algemene vergadering. Echter, in de gevallen bedoeld in artikel 2:331 van het Burgerlijk Wetboek, kan het besluit tot fusie worden genomen door de directie.

35.2 De vennootschap kan partij zijn bij een juridische splitsing. Onder juridische splitsing wordt zowel verstaan zuivere splitsing als afsplitsing. Een besluit tot splitsing kan slechts worden genomen op basis van een voorstel tot splitsing, opgesteld door de besturen van de partijen bij de splitsing. In de vennootschap wordt het besluit tot splitsing genomen door de algemene vergadering. Echter, in de gevallen bedoeld in artikel 2:334ff van het Burgerlijk Wetboek kan het besluit tot splitsing worden genomen door de directie.

35.3 Op juridische fusies en juridische splitsingen zijn voorts van toepassing de desbetreffende bepalingen van Boek 2, Titel 7, van het Burgerlijk Wetboek.

Artikel 36. Ontbinding en vereffening.

36.1 De vennootschap kan worden ontbonden door een daartoe strekkend besluit van de algemene vergadering. Wanneer in een algemene vergadering van aandeelhouders een voorstel tot ontbinding van de vennootschap wordt gedaan, moet dat bij de oproeping tot de vergadering worden vermeld.

36.2 In geval van ontbinding van de vennootschap krachtens besluit van de algemene vergadering worden de directeuren vereffenaars van het vermogen van de ontbonden vennootschap. De algemene vergadering kan besluiten andere personen tot vereffenaar te benoemen.

36.3 Gedurende de vereffening blijven de bepalingen van deze statuten zo veel mogelijk van kracht.

36.4 Hetgeen na voldoening van de schulden van de ontbonden vennootschap is overgebleven, wordt overgedragen aan de aandeelhouders, naar evenredigheid van het gezamenlijke nominale bedrag van ieders aandelen.

36.5 Op de vereffening zijn voorts van toepassing de desbetreffende bepalingen van Boek 2, Titel 1, van het Burgerlijk Wetboek.

Article 12. Transfer of Shares; Notarial Deed.

12.1 The transfer of a Share shall require a notarial deed, to be executed for that purpose before a civil law notary registered in the Netherlands, to which deed those involved in the transfer shall be parties.

12.2 Unless the Company itself is party to the legal act, the rights attributable to the Share can only be exercised after the Company has acknowledged said transfer or said deed has been served upon it in accordance with the relevant provisions of the law.

Article 13. Blocking Clause (approval Shareholders' Body).

13.1 A transfer of one or more Shares can only be effected with due observance of the provisions set out in this Article 13, unless (i) all co-Shareholders have approved the intended transfer in writing, which approval shall then be valid for a period of three months, or (ii) the Shareholder concerned is obliged by law to transfer his Shares to a former Shareholder.

13.2 A Shareholder wishing to transfer one or more of his Shares (hereinafter: the " **Applicant** ") shall require the approval of the Shareholders' Body for such transfer. The request for approval shall be made by the Applicant by means of a written notification to the Management Board, stating the number of Shares he wishes to transfer and the person or persons to whom the Applicant wishes to transfer such Shares. The Management Board shall be obliged to convene and to hold a General Meeting of Shareholders to discuss the request for approval within six weeks from the date of receipt of the request. The contents of such request shall be stated in the convocation.

13.3. Within a period of three months of the Shareholders' Body granting the approval requested, the Applicant may transfer the total number of the Shares to which the request relates, and not part thereof, to the person or persons named in the request.

13.4. If:

a. the Shareholders' Body does not adopt a resolution regarding the request for approval within six weeks after the request has been received by the Management Board; or

b. the approval has been refused without the Shareholders' Body having informed the Applicant, at the same time as the refusal, of one or more interested parties who are prepared to purchase all the Shares to which the request for approval relates for payment in cash (hereinafter: " **Interested Parties** "),

the approval requested shall be considered to have been granted, in the event mentioned under a on the final day of the six week period mentioned under a. The Company shall only be entitled to act as an Interested Party with the consent of the Applicant.

13.5 The Shares to which the request for approval relates can be purchased by the Interested Parties at a price to be mutually agreed between the Applicant and the Interested Parties or by one or more experts appointed by them. If they do not reach agreement on the price or the expert or experts, as the case may be, the price shall be set by one or more independent experts to be appointed on the request of one or more of the parties concerned by the chairman of the Chamber of Commerce and Factories at which the Company is registered in the Commercial Register. If an expert is appointed, he shall be authorised to inspect all books and records of the Company and to obtain all such information as will be useful to him in setting the price.

13.6 Within one month of the price being set, the Interested Parties must give notice to the Management Board of the number of the Shares to which the request for approval relates they wish to purchase. An Interested Party who fails to submit notice within said term shall no longer be counted as an Interested Party. Once the notice mentioned in the preceding sentence has been given, an Interested Party can only withdraw with the consent of the other Interested Parties.

13.7 The Applicant may withdraw up to one month after the day on which he is informed to which Interested Party or Parties he can sell all the Shares to which the request for approval relates and at what price.

13.8 All notifications and notices referred to in this Article 13 shall be made by certified mail or against acknowledgement of receipt. The convocation of the General Meeting of Shareholders shall be made in accordance with the relevant provisions of these Articles of Association.

13.9 All costs of the appointment of the expert or experts, as the case may be, and their determination of the price, shall be borne by:

a. the Applicant if he withdraws;

b. the Applicant and the buyers for equal parts if the Shares have been purchased by one or more Interested Parties, provided that these costs shall be borne by the buyers in proportion to the number of Shares purchased;

c. the Company, in cases not provided for under a or b.

Article 14. Pledging of Shares and Usufruct in Shares.

14.1 The provisions of Article 12 shall apply by analogy to the pledging of Shares and to the creation or transfer of a usufruct in Shares.

14.2 On the creation of a right of pledge in a Share and on the creation or transfer of a usufruct in a Share, the voting rights attributable to such Share may be assigned to the pledgee or the usufructuary, with due observance of the relevant provisions of the law.

14.3 Both the Shareholder without voting rights and the pledgee or usufructuary with voting rights shall have the DRH-rights. The DRH-rights may also be granted to the pledgee or usufructuary without voting rights, but only if the Shareholders' Body has approved the same and with due observance of the relevant provisions of the law.

Article 15. Depository Receipts for Shares.

The Company shall not co-operate in the issuance of depository receipts for Shares.

CHAPTER VIII. THE MANAGEMENT BOARD.

Article 16. Management Board Members.

16.1 The Management Board shall consist of one or more members. Both individuals and legal entities can be Management Board members.

16.2 Management Board members are appointed by the Shareholders' Body.

16.3 A Management Board member may be suspended or dismissed by the Shareholders' Body at any time.

16.4 Any suspension may be extended one or more times, but may not last longer than three months in the aggregate. If, at the end of that period, no decision has been taken on termination of the suspension or on dismissal, the suspension shall end.

16.5 The authority to establish remuneration and other conditions of employment for Management Board members is vested in the Shareholders' Body.

Article 17. Duties, Decision-making Process and Allocation of Duties.

17.1 The Management Board shall be entrusted with the management of the Company.

17.2 Meetings of the Management Board may be held by means of an assembly of its members in person at a formal meeting or by conference calls, video conferences or by any other means of communication, provided that all members of the Management Board participating in such meeting are able to communicate with each other simultaneously. Participation in a meeting held in any of the above ways shall constitute presence at such meeting.

17.3 Meetings shall be held whenever a Management Board member deems the holding thereof desirable.

17.4 Minutes of the business transacted at the meetings shall be taken by one of the Management Board members.

The minutes shall be signed by the Management Board member who prepared them and shall, at the next meeting, be presented to the Management Board for its information.

17.5 The Management Board may pass valid resolutions at the meeting only if the majority of its members from time is present or represented at the meeting.

A Management Board member may cause himself to be represented at the meeting by a fellow Management Board member upon production of a written power of attorney.

17.6 Management Board resolutions may also be adopted outside a formal meeting, in writing or otherwise, provided that the proposal concerned is submitted to all Management Board members then in office and none of them objects to the proposed manner of adopting resolutions. A report with respect to a resolution adopted other than in writing shall be prepared by a member of the Management Board. The report shall be signed by such member of the Management Board and presented to the Management Board for its information in the next meeting of the Management Board. Adoption of resolutions in writing shall be effected by written statements from all Management Board members then in office.

17.7 Each Management Board member shall be entitled to cast one vote. All resolutions of the Management Board shall be passed by absolute majority of the valid votes cast. If the votes are tied, no decision shall be concluded.

17.8 The Management Board may, apart from the above regulations but not in deviations with the above regulations, established rules regarding its decision-making process and working methods. In this context, the Management Board may also determine the duties for which each Management Board member in particular shall be responsible. The Shareholders' Body may resolve that such rules and allocation of duties must be put in writing and that such rules and allocation of duties shall be subject to its approval.

Article 18. Representation; Conflicts of Interest.

18.1 The Company shall be represented by the Management Board. If the Management Board consists of two or more members, any two members of the Management Board acting jointly shall also be authorized to represent the Company.

18.2 The Company shall have a holder of a power of procuration with the title "Corporate Secretary", whose duties and powers are:

- to keep the minutes of and to arrange the calling up for meetings of shareholders, Management Board and other committees which have been installed by the Management Board;
- to keep up to date and to keep in custody registers and other documents, related to the Company, at the request of the Management Board;
- to issue on behalf of the Company official photocopies and true copies of (extracts of) minutes of the above meetings and documents which are in the custody of the Corporate Secretary, as described above, as well as to issue statements related to the Company.

The Corporate Secretary may, apart from undersigning, furnish the above documents and other statements on behalf of the Company, with the 'Corporate Seal' of the Company, as adopted by the Management Board, in further proof of authenticity. The Management Board is authorised, only with the prior approval of the Shareholders' Body, to extend or limit the powers of the Corporate Secretary.

The appointment of a Corporate Secretary, as well as a possible extension or limitation of the powers of the Corporate Secretary, must appear from the trade register; the Management Board is obligated to arrange for the registration.

18.3 The Management Board may, apart from the Corporate Secretary, appoint officers with general or limited power to represent the Company. Each officer shall be competent to represent the Company, subject to the restrictions imposed on him. The Management Board shall determine each officer's title. Such officers shall be registered at the Commercial Register, indicating the scope of their power to represent the Company.

18.4 In the event of a conflict of interest between the Company and a Management Board member, the provisions of Article 18.1 hereof shall continue to apply unimpaired unless the Shareholders' Body has appointed one or more other persons to represent the Company in the case at hand or in general in the event of such a conflict. A resolution of the Management Board with respect to a matter involving a conflict of interest with a Management Board member in a private capacity shall be subject to the approval of the Shareholders' Body, but the absence of such approval shall not affect the authority of the Management Board or its members to represent the Company.

18.5 Without regard to whether a conflict of interest exists or not, all legal acts of the Company vis-à-vis a holder of all of the Shares, or vis-à-vis a participant in a community property, of married or registered non-married partners, of which all of the Shares form a part, whereby the Company is represented by such Shareholder or one of the participants, shall be put in writing. For the application of the foregoing sentence, Shares held by the Company or its Subsidiaries shall not be taken into account.

18.6 The provisions of Article 18.5 hereof do not apply to legal acts which, under their agreed terms, form part of the normal course of business of the Company.

Article 19. Approval of Management Board Resolutions.

19.1 The Shareholders' Body may require Management Board resolutions to be subject to its approval. The Management Board shall be notified in writing of such resolutions, which shall be clearly specified.

19.2 The absence of approval by the Shareholders' Body of a resolution as referred to in this Article 19 shall not affect the authority of the Management Board or its members to represent the Company.

Article 20. Vacancy or Inability to Act.

If a seat is vacant on the Management Board ('ontstentenis') or a Management Board member is unable to perform his duties ('belet'), the remaining Management Board members shall be temporarily entrusted with the management of the Company, provided that at least two members of the Management Board are in office and able to perform their duties. If all seats are vacant on the Management Board or all members of the Management Board members are unable to perform their duties, or if less than two members of the Management Board are in office and able to perform their duties, or if the sole member of the Management Board is unable to perform his duties, the management of the Company shall be temporarily entrusted to the person designated for that purpose by the Shareholders' Body.

Article 21. Indemnification.

21.1 The Company shall, in accordance with the provisions of this Article 21 and subject to the restrictions of Netherlands law, indemnify any person who was or is a defendant or is threatened to be made a defendant to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative, by reason of the fact that such person:

(a) Is or was a Management Board member, officer or employee of the Company; or

(b) Is or was a Management Board member, officer or employee of the Company and is or was serving at the request of the Company as a director, trustee, member, officer, employee or agent of another corporation, partnership, limited liability company, joint venture, trust or other enterprise;

against expenses (including attorneys' fees), judgements, fines and amounts paid in settlement actually and reasonably incurred by such person in connection with such action, suit or proceeding;

such indemnification to be provided to the full extent and scope as determined by the Management Board, with approval of the Shareholders' Body. The Management Board must ensure that the contents of the indemnification can be consulted freely by a directly interested person. The Management Board shall keep record of the resolution containing the approval of the Shareholders' Body and it shall add such records to those referred to in Article 30.3 of these Articles of Association.

If any provision(s) of the indemnification as determined by the Management Board shall be invalid under Netherlands law, such provision(s) shall be ineffective to the extent of such invalidity, without invalidating or affecting in any manner whatsoever the remaining provisions of such indemnification. Any repeal, amendment or modification of this Article 21 or the indemnification as determined by the Management Board, shall not affect any rights or obligations then existing between the Company and any then incumbent or former Management Board member, officer or employee with respect to any state of facts then or theretofore existing or any action, suit or proceeding theretofore or thereafter brought based in whole or in part upon such state of facts.

21.2 The Company may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative, by reason of the fact that such person:

(a) Is or was a Management Board member, officer, employee or agent of the Company; or

(b) Is or was a Management Board member, officer, employee or agent of the Company and is or was serving at the request of the Company as a director, trustee, member, officer, employee or agent of another corporation, partnership, limited liability company, joint venture, trust or other enterprise;

against expenses (including attorneys' fees), judgements, fines and amounts paid in settlement actually and reasonably incurred by such person in connection with such action, suit or proceeding;

such indemnification to be provided to the full extent and scope as determined by the Management Board, with approval of the Shareholders' Body. The Management Board must ensure that the contents of the indemnification can be consulted freely by a directly interested person. The Management Board shall keep record of the resolution containing the approval of the Shareholders' Body and it shall add such records to those referred to in Article 30.3 of these Articles of Association.

If any provision(s) of the indemnification as determined by the Management Board shall be invalid under Netherlands law, such provision(s) shall be ineffective to the extent of such invalidity, without invalidating or affecting in any manner whatsoever the remaining provisions of such indemnification. Any repeal, amendment or modification of this Article 21 or the indemnification as determined by the Management Board, shall not affect any rights or obligations then existing between the Company and any then incumbent or former Management Board member, officer or employee with respect to any state of facts then or theretofore existing or any action, suit or proceeding theretofore or thereafter brought based in whole or in part upon such state of facts.

21.3 Any incumbent or former Management Board member, officer or employee may apply to any court of competent jurisdiction in the Company's jurisdiction of formation to order indemnification to the extent mandated under Article 21.1 and 21.2 above. The basis of such order of indemnification by a court shall be a determination by such court that indemnification of the incumbent or former Management Board member, officer or employee is proper in the circumstances. Notice of any application for indemnification pursuant to this Article 21 shall be given to the Company promptly upon the filing of such application.

21.4 Notwithstanding Article 21.1 and 21.2 hereof, no indemnification shall be made in respect of any such action, suit or proceeding as mentioned above as to which such person shall have been adjudged to be liable for gross negligence or wilful misconduct in the performance of his duty to the Company.

21.5 Subject to the restrictions of Netherlands law, expenses incurred by any Management Board member or officer in defending or investigating a threatened or pending action, suit or proceeding shall be paid by the Company in advance of the final disposition of such action, suit or proceeding, upon receipt of an undertaking by or on behalf of the Management Board member or officer to repay such amount if it ultimately shall be determined that the Management Board member or officer is not entitled to be indemnified by the Company as authorised in this Article 21. Such expenses incurred by other employees and agents may be so paid upon such terms and conditions, if any, as the Management Board deems appropriate.

21.6 The indemnification and advancement of expenses mandated or permitted by, or granted pursuant to, this Article 21 shall not be deemed exclusive of any other rights to which those seeking indemnification or advancement of expenses may be entitled under any bylaw, agreement, contract, vote of stockholders or disinterested Management Board members, or pursuant to the direction (howsoever embodied) of any court of competent jurisdiction or otherwise both as to action by the person in an official capacity and as to action in another capacity while holding such office, it being the policy of the Company that indemnification of the persons specified in Article 21.1 or 21.2 above as defendants shall be made to the fullest extent provided hereunder. The provisions of this Article 21.6 shall not be deemed to preclude the indemnification of any person who is not specified in Article 21.1 or 21.2 above, but whom the Company has the power or obligation to indemnify under the laws of the Company's jurisdiction of formation or otherwise.

21.7 The Company may purchase and maintain insurance on behalf of any person who is or was a Management Board member, officer, employee or agent of the Company, or is or was serving at the request of the Company as a director, officer, trustee, member, employee or agent of another corporation, partnership, limited liability company, joint venture, trust or other enterprise, against any liability asserted against and incurred by such person in any such capacity, or arising out of the person's status as such, whether or not the Company would have the power or the obligation to indemnify the Management Board member, officer, employee or agent of the Company against such liability under the provisions of this Article 21.

21.8 For the purposes of this Article 21 references to "the Company" shall include, in addition to the resulting company, any constituent company (including any constituent of a constituent) absorbed in a consolidation or merger which, if its separate existence had continued, would have had power and authority to indemnify its Management Board members, officers, trustees, members, employees and/or agents, so that any person who is or was a Management Board member, officer, trustee, member, employee or agent of

such constituent company, or is or was serving at the request of such constituent company as a Management Board member, officer, trustee, member, employee or agent of another corporation, partnership, limited liability company, joint venture, trust or other enterprise, shall stand in the same position under the provisions of this Article 21 with respect to the resulting or surviving company as such person would have with respect to such constituent company if its separate existence had continued. The term "other enterprise" as used in this Article 21 shall include employee benefit plans. References to "fines" in this Article 21 shall include excise taxes assessed on a person with respect to an employee benefit plan. The phrase "serving at the request of the Company" shall include any service as a Management Board member, officer, employee or agent of the Company that imposes duties on, or involves services by, such Management Board member, officer, employee or agent with respect to any employee benefit plan, its participants or beneficiaries.
